Independent and Progressive

Baldwin Directory Company, Inc., publishers of this city directory and the world's largest independent publishers of city directories, is in no way connected with any national association or directory "trust". Its policies are laid down with a view to serving the individual directory subscriber and the general public. It is a progressive company, constantly on the alert to improve its service.

The ABCD type of city directory was originated by the Baldwin Directory Company, Inc. While many publishers have been content to rest on their laurels, issuing the same type of directory used 30 years ago, the Baldwin organization has led the way to the production of a modern city directory to meet modern selling and credit conditions.

Newspapers, chambers of commerce, merchants' associations and individual business concerns are invited to write for particulars concerning this type of directory service. In the future, as in the past, Baldwin directories will stand for the highest ideals in public service.

INTRODUCTION

Baldwin Directory Company, Inc., publishers of your city directory, takes pleasure in presenting the 1938 edition to the general public. A large force of trained enumerators and solicitors worked diligently in the preparation of this volume and we are confident that the result is an authentic and useful city directory.

We have faith in the continued growth of your city and we believe that our directory will take its place as one of the vital instruments for the advancement of your community. Subsequent editions will be issued promptly and regularly.

This volume is an example of the ABCD type of city directory as originated and developed by the Baldwin Directory Company, Inc. In the modern business world with its greatly changed sales and credit systems, the old type of directory has become completely obsolete. In adapting the directory to modern conditions the Baldwin organization is the pioneer. The excellent city directory which your city now has is the result of the progressive spirit of this company and its accurate interpretation of modern business requirements.

SEVEN DIVISIONS OF THE BOOK

The principal parts of the Baldwin Directory are as follows:

1. *The Miscellaneous Directory* contains a great deal of useful information concerning the national, state and local governments. In it are listed the names of members of congress and the state legislature, city and county officials.

2. *The Buyer's Guide and Civic Section* is made up of the advertisements of the leading business firms of the city, announcements of churches, clubs, lodges, associations and schools, and professional cards of public-spirited lawyers, physicians and dentists. The display spaces have been carefully grouped and indexed under headings which are descriptive of the business engaged in by each firm. The Buyers' Guide, when properly arranged and distributed, is of tremendous value in the building of business in the community.

INTRODUCTION

3. *The Resident Directory* contains most of the data concerning the individual. The wife's name is given in parenthesis, and the number of dependents under 16 is shown as well as the ownership of homes. This is followed by position, place of employment and home address.

4. *The Householders' Directory* contains a complete directory of streets and avenues, properly located, gives the names of all householders arranged as they come upon the streets and avenues, indicates ownership of property.

5. *The Business Directory and List of Nationally Advertised Brands* contains the names of all business firms, professional people and non-profit organizations, properly classified. In this division are also listed the names of nationally advertised brands of merchandise, with the name of the local agents and distributors.

6. *The Numerical Telephone Directory* contains telephone numbers arranged in numerical sequence.

7. *The Rural Routes Directory*, which follows the Numerical Telephone Directory, is used constantly in reaching rural residents with advertising matter and other mail.

SPECIAL ABCD FEATURES

The following valuable information which appears in the ABCD type of directory is not to be found in the old-style city directory:

Number of dependents under sixteen;
Designation of home ownership;
Telephone Numbers on Street Guide;
Numerical Telephone Directory;
Nationally Advertised Brands.

In addition to these valuable features, the ABCD type of directory is more conservatively styled, printed on better paper and more beautifully bound, arranged for more convenient use and contains a much more complete civic section. Directory stands are maintained in the business district for the use of the general public.

THE HOUSEHOLDERS' SUPPLEMENT

After including every conceivable feature which would tend to make the directory as useful and attractive as possible, the originators of the ABCD type of directory made one more bold stroke—they established a guaranteed *home* circulation for advertising matter by issuing the Householders' Supplement and delivering it to the homes of the community. Every advertisement which appears in a Baldwin directory also appears in the Householders' Supplement, making the Baldwin Directory "America's greatest dollar-for-dollar advertising medium" today.

TOTAL	19,147

EXPLANATION

All people sixteen years or over are listed.

Wives are listed with husbands, the wife being shown in parenthesis as follows: Smith Robt R (Mary L.)

The number of children under sixteen years is shown after the wife's name as follows: Smith Robt R (Mary L) 3.

The (H), both in the resident directory and the householders' directory designates ownership of the home.

In case of a natural widow this fact is shown with the name of the deceased husband in parenthesis, whenever possible, as follows: Smith Mary L (wid Robt R).

The occupation and place of employment are shown as follows: Smith Robert R (Mary L) clk Hub Clothing Co.

The residence of each person is shown, "h" denoting a householder or head of the family, "r" denoting people in the home. Only one person at each home should be shown with the "h." Thus, a circular mailed to each householder will reach every home in the city.

Married women, engaged in some other occupation than housekeeping, are listed individually in addition to their regular listing with their husbands, as follows: Smith Mary L (Mrs Robt R) bkpr Henry Jones & Co r 210 Main.

Names in heavy type denote patrons of the directory and are usually the leading firms in each line of business.

Persons living outside the city limits and receiving mail in the country are marked RD.

The letters BD shown on some entries indicate Buyers Directory.

Colored is shown by a ©. The publishers are very careful in using this, but do not assume any responsibility in case of error.

This directory contains all the regular departments of the modern city directory and many features used by no other publisher in the United States.

A numerical telephone directory will be found in the back of the directory listing each telephone according to number.

A Rural Route Directory will be found in back of this volume.

The classified business directory lists each firm according to line of business.

The numerical street directory lists each street alphabetically and each house according to number, with the street intersections as they appear. After each householder's name will be found his telephone number. In case he has no telephone the nearest telephone may be found. The (H) denotes householders who own the house in which they live.

The buyers' guide carries the printed messages of the city's leading business and professional firms arranged alphabetically according to classifications.

This directory shows the exact population of the city and environs at the present time.

STATISTICAL REVIEW

Form of Government — City
Manager.

Population—1930 U. S. Census—
14,985; population July 1st, 1938—
19,147; American born—99%.

Area—5 sq. miles.

Altitude—104 feet.

Climate—Mean annual tempera-
ture—60 degrees F.

Parks—2, with total of 75 acres,
valued at \$500,000.

Assessed Valuation — \$12,000,-
000. This valuation is based on
66 2/3% of actual value which is
\$18,000,000, with \$1.25 per \$100
tax rate.

Financial Facts—3 banks and 2
trust companies, with total depos-
its of \$5,000,000.

Postal Receipts—Approximately
\$60,000 annually.

Telephones in Service—1,950

Churches—43, representing 13
denominations.

Industry—Chief industries of
city and surrounding territory:
Manufacturing and agriculture.
Thirty manufacturing establish-
ments, employing 3,500 men and
1,500 women and paying wages of
\$1,250,000. Principal manufac-
tured products: Lumber and lum-
ber products, brick, agricultural
implements, cotton yarn, veneer,
furniture, tobacco redrying, meal,
grits, stock feed, fertilizer, cotton
seed oil products, locomotives, steel
bridges and other foundry equip-
ment, and canning and preserving
fruits and vegetables.

Trade Area—Retail area has ra-
dius of 25 miles and population of
200,000. This trading area is from
15 minutes to 1 hour's drive into
Goldsboro over a network of hard-
surfaced highways.

Newspapers — 1 daily and 3
weeklies.

Hotels—3, with total of 250
rooms.

Railroads—namely, the Atlantic Coast Line, north and south; Southern, to the middle and extreme west; Atlantic and North Carolina operating east from Goldsboro to the port terminals at Morehead City. These terminals are used for both coastwise and transatlantic transportation.

Highways — Goldsboro is the "hub" of a network of hard-surfaced highways being the junction of national highway No. 70 from the Atlantic Coast on the east to the Pacific Coast on the west, No. 117 reaching from Maine to Florida and a number of other state and national highways.

Airports—Goldsboro has a municipal airport which is in direct route for north and south air transportation.

Amusements and Recreation—Goldsboro has two moving picture theatres, a high school auditorium, a municipal auditorium in the City Hall, parks, playgrounds, public and private swimming pools, golf courses, and indoor gymnasiums. Playgrounds are maintained under professional supervision in every section of the city.

Community Building—At the close of the World War, the citizens of Goldsboro and Wayne County, of which Goldsboro is the County Seat, desired to pay tribute and to memorialize the young men of our city and county who served in the war; immediately following the signing of the Armistice, Goldsboro business interests

launched a campaign to provide a memorial building. This building was erected at a cost of \$100,000, was financed entirely through public subscriptions by patriotic citizens of Goldsboro and Wayne County, and was the first memorial erected in the United States, following the close of the war, dedicated to World War heroes. This building, today, has provided recreational and educational facilities to the entire citizenship of Wayne County. It has a spacious auditorium and gymnasium where school athletics and dramatics from every section of the state are staged. It also contains a spacious heated swimming pool with a special director in charge. Our Associated Charities, Boy and Girl Scouts, American Legion, American Red Cross, Dramatic Clubs, and other civic and social activities have headquarters in this building. The entire building is under the supervision of a trained staff of directors in athletics, dramatics, etc.

Hospitals—Goldsboro has two public hospitals, one of which is financed and operated by the City of Goldsboro and the County of Wayne, and the second being a branch of the State Orthopaedic Hospital. Goldsboro is the home of North Carolina's Odd Fellow's Orphanage, which provides for scores of motherless and fatherless boys and girls. The State Hospital for the Colored Insane, which is the largest in the world, is also located in Goldsboro.

Education—Goldsboro maintains, through its tax system, 11 public graded schools valued at \$2,000,000. These schools provide, annually, educational facilities for 5,021 children. 123 school teachers were employed for the year 1938. Our High School is one of the most modern and well equipped buildings of learning in North Carolina. It is beautiful in architecture and equipped with the most complete libraries, science, manual training and domestic science laboratories, such as one would expect to see in a much larger city. It boasts of spacious class rooms and an auditorium with a seating capacity of 1,500. It has a modern stage, with adequate stage scenery, dressing rooms, and every equipment needed to stage dramatic and educational programs. Our school system includes in its activities, athletics of every nature, including basket-ball, foot-ball and base-ball.

Our primary and grammar schools are located in various sections of the city, where they are most convenient to the students attending them.

While the State of North Carolina provides an 8 month school term, our city has just held an election for a special school supplement which will provide the children of Goldsboro with a 9 months school term. Graduates from the Goldsboro High School are equipped to enter any of our state colleges or universities.

City Statistics—Miles of paved streets, and sidewalks—30. Miles

of gas mains—20. Sewers—35. Number of water meters—3,000 (in many cases several families are using the same meter); light meters—4,034; gas meters—1,200. Capacity of water works (municipal) 2,500,000 gallons; daily average pump—900,000 gallons; miles of mains—35. Value of plant—\$1,500,000. Fire department has 18 men with 2 stations and 10 pieces of motor equipment and is approved and recognized by the National Fire Insurance Underwriters. Police department has 20 men with one station and is equipped throughout with motor vehicles.

GENERAL REVIEW

Goldsboro is the county seat of Wayne County, one of the leading manufacturing and agricultural counties of North Carolina. It is the home of thirty well-established manufacturing plants. The agricultural resources are practically unlimited, and Wayne County produces, annually, an average of thirty thousand bales of cotton, fifteen million pounds of tobacco, and tons of grain, hay and other food crops to say nothing of live stock and poultry. Goldsboro is the marketing center for these commodities, which makes it a prosperous city and a desirable one in which to locate.

The population of Goldsboro in 1910 was 6,107; in 1920—11,296; in 1930—14,985, and today Goldsboro has 19,147 residents. The city is the shopping center of nearly 200,000 people residing within a radius of 25 miles.

Goldsboro, due to the nature of its surrounding territory, its geographical location and its unsurpassed facilities, is rapidly developing into a commercial center. Recently several large manufacturing plants have located distributing branches here. Twenty-six passenger trains run to and from the city daily, which naturally is advantageous to the commercial traveler doing business in eastern North Carolina.

Goldsboro was incorporated in 1847 with a population of 100 people. In the years that have elapsed since then, Goldsboro has pursued the even tenor of its way, and its citizens have been content to enjoy being the dividing line between the and prosper under its advantages until it has secured a foundation on which to create a citizenship that can withstand the storm of panics, short crops and the greed of politicians. In the building of this city to date, ideal citizenship has been kept constantly in mind, and with the greater duration there comes the charm of contact with a hospitable, democratic class of citizens whose ideals are based on character rather than bank account. Our city has given to our state and nation many prominent men. Goldsboro has supplied two governors of North Carolina, the first being Willis Grogden, and the second being Charles B. Aycock. Governor Aycock during his administration launched the great educational movement in North Carolina, which was responsible for the fact

that, today, our state is one of the foremost educational states in the union. It is the home of many colleges and universities that are attended, annually, not only by students from every section of this state and nation, but by students from many foreign countries. Goldsboro has supplied the state of North Carolina with supreme court judges, superior court judges, some of the state's greatest educators, and several national cabinet members.

Goldsboro has an ideal climate, being the dividing line between the frigid climate of the North and the enervating climate of the tropics. Here are found nine months of summer, with only three of autumn or winter temperature, none unpleasant.

Here one is within a daylight journey of New York, Philadelphia, Baltimore, Washington, Savannah, Atlanta and Jacksonville.

Here one is within a thirty-hour ride of Boston, Quebec, Montreal, Toronto, Buffalo, Cleveland, Cincinnati, Detroit, Chicago, St. Louis, Louisville, Memphis, New Orleans, Mobile and Palm Beach, embracing an area containing a population of over seventy million.

Here one is within a few hour's ride of the finest surf bathing on the Atlantic Coast on the beaches or Wrightsville, Morehead City and Beaufort; and here one can live in the warmth of a genial sun and yet be in touch with the life of the nation.

Health conditions are ideal, the death rate averaging less than nine to a thousand. The city owns its splendid water system, furnishing at a minimum cost the purest of soft drinking water. Goldsboro has seven social and civic organizations working in harmony and for one special purpose, which is to build a city which meets the requirements of every class of people. Living conditions, from a health stand-point are beyond criticism and living conditions from a financial stand-point are within the means of all. Electric power, gas, telephone and water rates are equal to those of the average city. Being located in an agricultural district, country produce is plentiful and reasonable in price. All roads leading into Goldsboro are hard-surfaced. Hotel facilities are ample. Board and room in private homes is available and modern apartment houses have been provided.

Wayne county ranks high in agriculture. Here are grown hay, alfalfa, field peas, cabbage, beets, beans, English peas, truck garden products, strawberries, dewberries, huckleberries, melons, peaches, plums, cherries, apples, pecans and numerous products of the soil. This is the land where three crops can be grown on the same soil during the year, and a land which, by reason of its freedom from rocks, is easily and economically tilled. Here can be produced from one acre of land, 1,500 pounds of tobacco, or 1,500 pounds of cotton.

Thirty years ago Goldsboro was a village of very few inhabitants. The soil, always unusually fertile, had scarcely begun to yield the wealth that is now pouring out in such abundance. The production of tobacco, now a great industry, was then only being introduced in this section. The contrast between the Goldsboro of that day and 1938 is amazing. Population has greatly increased. Manufacturing industries employing hundreds of workers at a good scale of wages now occupy acres that were then open fields.

Today Goldsboro is an ideal location for factories. The diversified industries now here are in a flourishing condition, developing to a marked degree each year, and the combination of climate, location, transportation, health, hospitality and other favorable conditions will produce a substantial and steady growth in population and wealth, justifying the judgment of investors and homeseekers who locate here.

Wayne County has good roads of great importance to the farmer and the motorist, and adding to the pleasure and convenience of all who reside in this section.

It is recognized today that the great South, with its amazing number of undeveloped resources and possibilities of development, its superior conditions for agricultural production, and its healthful and charming climate, affords the best field of opportunity. The only

debatable question is: Which Southern state and what location in that state offers the best combination of the particular conditions one desires.

Wonderful is the South, and great beyond our dreams will be its future, but in all these Southern states there will be none to compare in the rapidity of its growth with the pre-eminently well-favored state of North Carolina.

Write or wire our organization for detailed information about Goldsboro.

WAYNE COUNTY

A section that offers attractive possibilities and opportunities to home-seekers, regardless of their trade or profession, Wayne County is located in the great agricultural section of North Carolina. While its major industry is agriculture, Goldsboro is the county seat and is the center of a great manufacturing section. Goldsboro, due to its transportation facilities, hydro-

electric power, all-American white and colored, male and female labor and its access to numerous raw materials including lumber, clay, cotton and numerous farm commodities, ships its manufactured products consisting of lumber, furniture, agricultural implements, stock seed, cotton seed oil products, grits, meal and numerous other commodities to every state in the nation. The preface in the front of this book gives more detailed information regarding Goldsboro and Wayne County and we invite your attention to this preface. It will give us a great deal of pleasure to furnish detailed information to anyone interested in locating in our section, where our summers are pleasant, our winters are mild and our hospitality makes everyone who locates with us feel at home.

Resident Directory

1938

Containing the full name, husband or wife's name, number of children under 16, designation of home ownership, position and employer and home address of all persons over 16 years of age, residing in this city and environs.

The publishers wish to express their appreciation to the business and professional establishments for the splendid co-operation and valuable assistance given them in the preparation of this volume.

A list of abbreviations in this directory will be found on the following page and a general index on page 3. The information herein contained was taken by trained enumerators in a house-to-house canvass of the city and adjacent territory, and checked with data supplied by employers. The publishers offer it as the most reliable information available but do not assume any responsibility for errors.

(FOR POPULATION OF GREATER GOLDSBORO SEE PAGE 2)

Number of dependents under 16 is indicated after name.

NUMERICAL TELEPHONE DIRECTORY

1938

Containing a list of telephone subscribers arranged in numerical sequence. The information listed was obtained by a house-to-house canvass and is offered for the convenience of subscribers to the City Directory. Since telephone numbers change rapidly, it is suggested that persons using this list refer to the latest edition of the regular telephone directory issued by the local telephone company in order to verify the information contained herein
