PACIFIC SCIENTIFIC INFORMATION CENTER

P.O.Box 6037,

BERNICE P. BISHOP MUSEUM

Honolulu, Hawaii 96818 Telephone 855-951

June 3, 1969

Dr. Dean Amadon,
Department of Birds,
American Museum of Natural History,
New York, N.Y. 10024,

Dear Dean:

Upon my return to Bishop Museum, I found my desk buried beneath a pile of mail 16 inches high. After excavating down through it and attending to the most urgent matters, I set about two matters (1) to make a photocopy of the typed copy of my field notes when a member of the Whitney Expedition on the France, including prints of some of the photographs I took, which I thought might be of most interest to you; and (2) preparing a chronological itinerary of the France and the years before and after, documented to the 25 manuscript volumes which you made it possible for me to read, to which I am adding my own (as "Z").

The first of these two projects has now been completed, and I am sending you 69 photographs and some 400 pages of typed text, which I believe should be a useful addition to the records of the Whitney Expedition. I made a beginning on project 2 last Sunday, and should shortly have another bit of manuscript, in the form of an index guide to the other 26 volumes for your files.

Later, I will send you some suggestions as to the manner in which a summary of the Whitney Expedition and its findings might be compiled. There is a lot of valuable scientific information in that shelf full of material. What appealed most to me was the numerous lists of vernacular names of birds. If my check list of Pacific birds is ever ready to publish, I would like very much to include mention of the various native names of species from different island groups, as recorded by the various hard-working field collectors. That might also be the place to mention field observations on different species.

Thanking you and your associates for making my visit so pleasant and profitable, I am

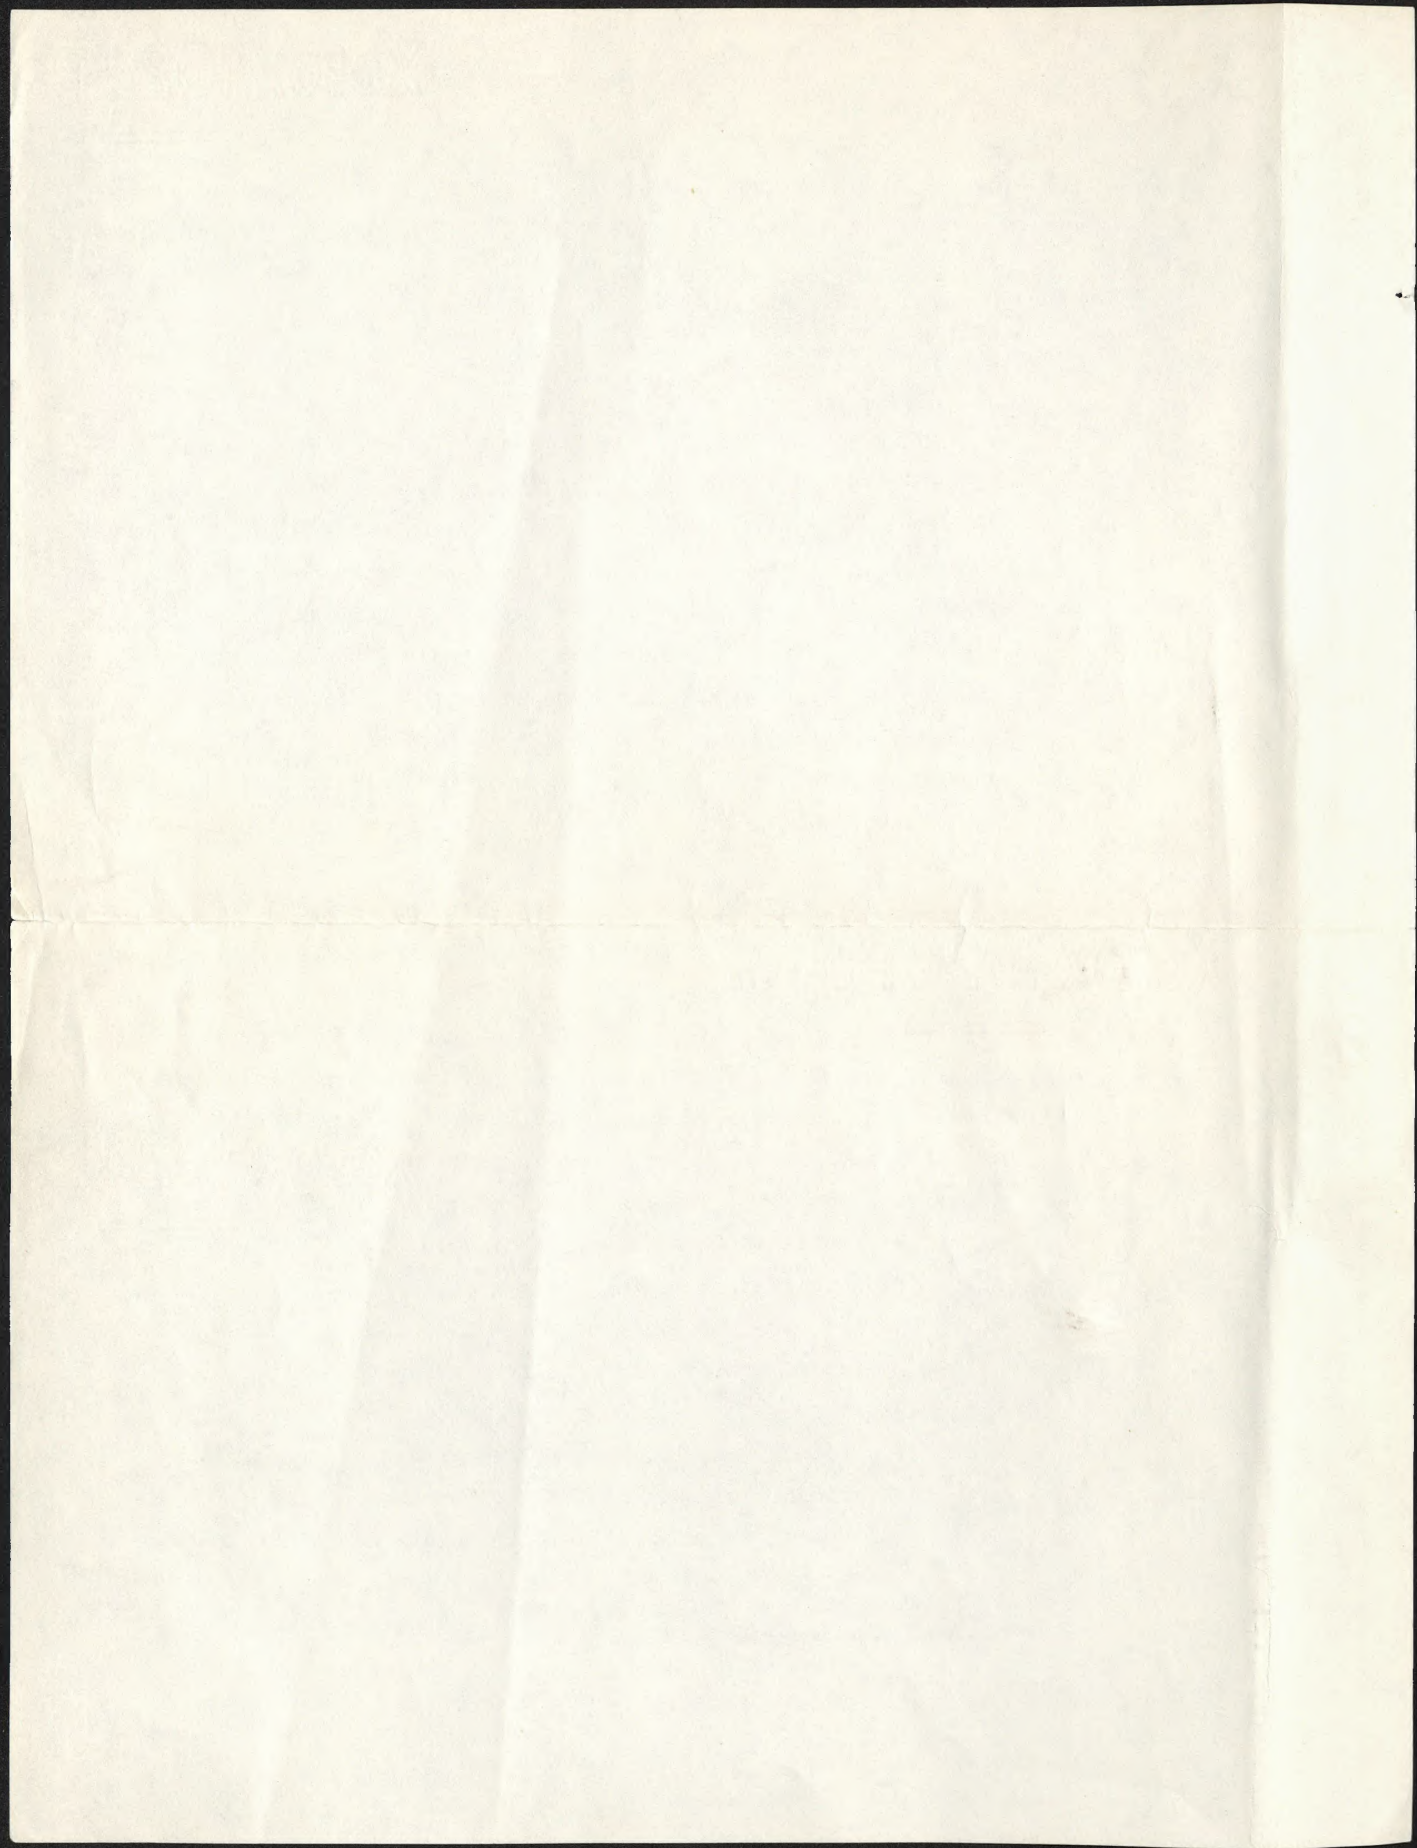

Yours very sincerely,

Ed

Edwin H. Bryan, Jr., Manager

December 8, 1969

Dr. Dean Amadon,
Curator of Birds,
American Museum of Natural History,
Central Park West at 79th St.,
New York, N.Y. 10024

Dear Dr. Amadon:

At long last I have found time to type out a final copy of my notes concerning the Whitney Expedition and its manuscript records, and am sending you a copy herewith.

Going over this material has been very interesting and has shown me what a wealth of information concerning South Pacific Islands is contained in these 25 volumes. I hope that my 28 pages of notes may help serve as an index and key to this material and to the itinerary of the expedition.

Of special interest to me is the wealth of information concerning the vernacular names of birds, especially as listed by Mr. Coultas in volume Y. As I believe I told you, I have a manuscript check list of the species of birds recorded from Pacific islands. If I am able, I would like some day to take another look at certain of the volumes and incorporate these native names into the check list.

Thanking you for letting me examine these volumes, and wishing you and your associate a Very Merry Christmas and a Happy and Prosperous forthcoming New Year, I am

Yours very sincerely,

E. H. Bryan, Jr.

Edwin H. Bryan, Jr., Manager

Anniversary of Achievement

Dear Sir,

London, England,

January 19, 1944

Dear Sir,

I have your letter of the 14th inst.

and am glad to hear

from you.

I have just I have found time to do a final copy of my notes concerning the subject which I will be sending to you by the next post, and am sure you will find them of interest.

As far as your letter is concerned, I have been very interested in the fact that you have a number of information concerning the subject. I have the material contained in those 25 volumes. I have also the material which you have kept as an index copy of this material and the history of the operation.

It is of interest to me in the light of information which you have given me in your letter, as well as the fact that you have a number of copies of the material which I have a copy of. I believe I told you I have a copy of a list of the names of the persons who were in the office. It is possible, I think, that you may be able to find out the names of the persons who were in the office and put them into the index.

I am sure you will find the material of interest and I am sure you will find it of interest.

Yours very sincerely,

W. L. ...

W. L. ...

American Museum of Natural History
WHITNEY EXPEDITION JOURNALS AND RECORDS, 1920 to 1935

The following is a chronological summary of and guide to the manuscript journals and records of a series of field studies made across the South Pacific ocean from French Polynesia to New Guinea, 1920 to 1935, sponsored by the American Museum of Natural History, New York City, and known as the Whitney Expedition.

These records are contained in 25 uniformly bound volumes in the Library of the Department of Birds, American Museum of Natural History, each identified by a letter of the alphabet, as follows:-

A. Charles W. Richmond, General notes on South Pacific island groups, Volume 1. This manuscript was prepared for the guidance of expedition personnel, and a bound copy of it and "B" accompanied the expedition. It contains notes on previous expeditions and collectors who had visited these islands; an alphabetical list of place names; and notes concerning the species of birds reported from each group, and their type localities. The first volume (A) covers the following groups: Society (A 1-33), Tuamotu (A 34-72), Marquesas (A 73-86), Line (A 87-99), Caroline atoll, etc. (A 100-113), Cook group (A 114-124), Rapa Island and vicinity (A 125-141), Samoa (A 142-168), and islands north of Samoa (A 169-171).

B. Volume 2 of the same, covers: Fiji (B 1-100), Rotuma (101-105), Horne Islands (106-108), New Caledonia (109-135), New Hebrides (136-175), Banks Islands (176-189), Santa Cruz Islands (192-199), chief collectors in the last three groups (190-192), Tokelau Islands (193-196), Uvea (Wallis Island) (197-199), general index to volumes 1 and 2 (A and B) (201-282).

(Note: These two volumes (A and B) have value to anyone interested in the geography and natural history, particularly the species of birds, of the groups covered.)

C. Letters from Rollo H. Beck, Field representative of the American Museum from May 12, 1920 to July 4, 1923, together with copies of letters to Mr. Beck from Dr. Chapman. (This volume contains chiefly administrative data, including letters from and concerning Ernest H. Quayle; there are no chronological journal records.)

D. Letters and journals of Rollo H. Beck, 1923 to 1928. (The first portion consists chiefly of letters and records of an administrative nature, interspersed with information regarding places visited, chiefly in American and Western Samoa, and a trip made by Mr. Beck to New Zealand. A letter written in Suva, October 1, 1925 (D 61 and following), summarizes relations with Mr. and Mrs. José Correia, who finally left the expedition November 30, 1926. Pages D 308 ff. describe relationships on the France leading up to Beck's resignation.

E. Extracts from the Journal of Rollo H. Beck, Volume 1, September 1920 to June 1923. (He left San Francisco for Papeete, Tahiti, with Mrs. Beck and E. H.

The following is a summary of the results of the present study. The purpose of this study was to determine the effect of the concentration of the reactants on the rate of the reaction. The reaction studied was the reaction between hydrogen peroxide and potassium iodide in the presence of ceric sulfate as a catalyst. The reaction is first order with respect to hydrogen peroxide and first order with respect to ceric sulfate. The rate of the reaction increases with increasing concentration of hydrogen peroxide and with increasing concentration of ceric sulfate. The activation energy of the reaction was determined to be 15.5 kcal/mole. The reaction is believed to proceed via a free radical mechanism. The following reaction scheme is proposed for the reaction:

$$\text{H}_2\text{O}_2 \xrightarrow{\text{Ce}^{4+}} \text{HO}_2 \cdot + \text{H}^+$$
$$\text{HO}_2 \cdot + \text{I}^- \rightarrow \text{HO}_2^- + \text{I} \cdot$$
$$\text{I} \cdot + \text{H}_2\text{O}_2 \rightarrow \text{I}^- + \text{HO}_2 \cdot + \text{H}_2\text{O}$$
$$\text{HO}_2 \cdot + \text{H}_2\text{O}_2 \rightarrow \text{HO}_2^- + \text{H}_2\text{O} + \text{O}_2$$

The rate-determining step is believed to be the reaction between hydrogen peroxide and ceric sulfate. The following rate law is proposed for the reaction:

$$r = k[\text{H}_2\text{O}_2][\text{Ce}^{4+}]$$

The rate constant, k , was determined to be $1.5 \times 10^4 \text{ l/mole}^2 \text{ sec}$ at 25°C. The activation energy of the reaction was determined to be 15.5 kcal/mole. The reaction is believed to proceed via a free radical mechanism. The following reaction scheme is proposed for the reaction:

$$\text{H}_2\text{O}_2 \xrightarrow{\text{Ce}^{4+}} \text{HO}_2 \cdot + \text{H}^+$$
$$\text{HO}_2 \cdot + \text{I}^- \rightarrow \text{HO}_2^- + \text{I} \cdot$$
$$\text{I} \cdot + \text{H}_2\text{O}_2 \rightarrow \text{I}^- + \text{HO}_2 \cdot + \text{H}_2\text{O}$$
$$\text{HO}_2 \cdot + \text{H}_2\text{O}_2 \rightarrow \text{HO}_2^- + \text{H}_2\text{O} + \text{O}_2$$

Quayle, September 14, 1920, arriving in Papeete September 25. Makes observations on birds in Tahiti and gives notes on Quayle's field trips. Both Beck and Quayle met with minor accidents. Describes a trip, December 1920 and January 1921, on the Moana to Christmas Island, via the Marquesas, including notes on birds at sea. Also a trip from Papeete to the Austral Islands and Rapa, March 18 to May 8, 1921. Describes Beck's collecting on Tahiti; Quayle's trip to Taravao, Tahiti, and to Moorea I., June 11 to August 10. Mr. and Mrs. Beck went to the Marquesas and Tuamotus, September 9 to October 22. Quayle was again on Moorea, October 26 to November 14, and went to Mopelia and Scilly Islands, December 6, 1921, for a month, while Beck sought a suitable ship. The schooner France was acquired, and left Papeete for Rapa, February 1, 1922, with Quayle and C.C.Curtis; the cruise continued as far east as Pitcairn, Henderson, Oeno and Ducie Islands. It apparently returned to Tahiti in July (no date given). A second cruise was made to the Marquesas, via the Tuamotus, in August, returning to Papeete, December 16, 1922. They collected on Tahiti for 40 days, and left for the Tuamotus, January 27, 1923, returning to Papeete at the end of March. Again left Papeete for the Tuamotus April 11, returning to Papeete June 28, 1923.)

F. Beck's Journal, volume 2, December 1923 to August 1925.

(In addition to giving accounts of places visited (see itinerary) there are the following general notes: F 171-186, Notes regarding birds, by Mr. G.T.Barker, Suva, June 5, 1925. F 188-200, Bird notes from Tonga. F 201-202, Fiji Tourist Gazette and clippings. F 203-207, Notes concerning the interior of Viti Levu, Fiji, April to June 1925. F-207, New Zealand: Hen and Chickens, January 14, 1926. F 208-209, Vila, New Hebrides, June 12, 1926; Pauama I., Aug.12,1926; Efate, June 23, 1926. Trip from Rabaul to Samari, February 7 to 27, 1926.

G. Extracts from the Journal of Ernest H. Quayle, Assistant Field Naturalist, from Books I to XII, September 14, 1920 to March 7, 1921. (These notes were taken from Quayle's original notebooks, as follows:

Book I, September 19 to 26, 1920, Voyage to Tahiti and in Tahiti.	G 1-17
" II, September 26 to October 11, on Tahiti Island, G 18-44, supplement G 82-90.	G 18-44, supplement G 82-90.
" III, October 11 - 22, 1920. Interior of Tahiti, via Punaruu.	G 45-81.
" IV, October 26 to November 4, 1920. Tahiti.	G 91-114.
" V, November 5 - 14, 1920. Tahiti.	G 115-131.
" VI, November 15 to December 5, 1920, Papenoo, Tahiti	G 132-149.
" VII, December 5 to 19, 1920, Papenoo, Tahiti.	G 150-180.

" X, January 19 to February 10, 1921. Hivaoa, Marquesas and trip to Christmas Island,	G 237-328.
Summary of collections (during this period)	G 329-332.

H. Extracts from the Journal of Ernest H. Quayle, Books XIII through XVIII, March 28 to September 23, 1921. (377 pp.)

- Book XIII, Society Islands, Papehue, Hopa, Faaragi and Vihiria. H 70-141
- " XIV,
- " XV, May 26 to June 22, 1921. Vaihiria, Papenoo, Tahiti
and Moorea Island H 141-202
- " XVI June 23 to July 23, 1921. Moorea Island. H 203-268
- " XVII July 24 to Aug. 11, 1921, Moorea Island. H 269-303
- " XVIII August 12 to September 23, 1921, Papeari, Taravau and
"Uluagai" (perhaps Utuufai), Tahiti H 304-377

I. Extracts from the Journal of Ernest H. Quayle, Books XIX through XXIV, September 24, 1921 to March 31, 1922. (402 pp.)

(This period spent in Tahiti and other Society Islands, see "Itinerary.")

Quayle notes that the Captain of the France was Martin Neagle.

(There is no Book "J")

K. Extracts from the Journal of Ernest H. Quayle, Books XXV through XXVIII, April 1 to June 24, 1922.

- Book XXV. April 1 to 24, 1922. Ducie to Henderson, Oeno and Timoe Is. K 1-76
- " XXVI. April 25 to May 14, 1922. Timoe to Mangareva. K 77-141
- " XXVII. May 15 to June 3, 1922. Marutea to Maria, Tuamotus, K 142-207
- " XXVIII. June 4 to 24, 1922. Maria to Vanavana, Tuamotus, K 280-.

L. Extracts from the Journal of Ernest H. Quayle, Books XXIX through XXXIII, June 25 to November 30, 1922, after which Quayle left the expedition.

- Book XXIX. Ahunui to Papeete, June 25 to August 2, 1922. L 1-54
- " XXX. August 2 to Sept. 12, 1922, second cruise to Tuamotus. L 55-113
- " XXXI. Sept. 12 to Oct. 2, 1922, To Huapu, Nukuhiva, Marquesas. L 114-179
- " XXXII, October 3 to November 7, 1922. Nukuhiva, Marquesas. L 180-250
- " XXXIII, November 8 to 30, 1922. Fatuhina and Hivaoa, Marquesas. L 251-283.

M. Journal based upon letters of Charles Cutler Curtis, January 10 to July 4, 1922. (Prior to this, Curtis has been working as an overseer on a coconut plantation on Tahiti. This is not a chronological journal, but is based upon letters which Curtis wrote. He refers to E.H. Quayle as "W".)

N. Letters and journal of José G. Correia, volume 1, January 31, 1923 to December 1, 1925. (This journal was written in Portuguese and translated at the American Museum. In addition to giving a general narrative of activities, it contains observations on the birds observed and of their general environment. It gives an account of the people of Tahiti, the 14th of July celebration there. Notes on the people of Rarotonga. Collecting on Suvarrow I. (Suvarov), August 1923.

It gives a uniformly good account of the cruise from Pago Pago through Nassau, Puka Puka, the Phoenix and Tokelau Islands; on shearwaters and rabbits on Phoenix Island, February to April 1924. Notes on Suva, Fiji, June 1924 (N 141-), and the cruise to Matuku, Moala and Totoya, and after a return to Suva; through the Lau group, about a page to each island, with special emphasis on the birds. Notes are also given to the Yasava Islands of Fiji, the trip to Wallis and Futuna, Rotuma, back to Suva, and to Auckland, N.Z., November to December 1925. The volume ends with several paintings of birds.)

O. Letters and journals of José G. Correia, volume II, June 4, 1925 to October 18, 1926. (Includes his trip to Tonga, June 1925, via Kandavu and Vatoa, Fiji; second trip to Auckland, N.Z., February 1926; and to the Great Barrier Reef and Norfolk Island, May 1926. To the New Hebrides, June and July 1926, and Santa Cruz Islands, October 1926. There is a list of birds seen in the New Hebrides, by islands (O 82-), and paintings of birds (O 88-117). Throughout the entire period, 1923 to 1926, he was accompanied by Mrs. Correia, who was a very poor sailor.)

P. Letters and journal of Frederick P. Drowne, M.D., October 22, 1926 to November 4, 1927. (He joined the France at Second Channel, New Hebrides, January 13, 1927. He notes that Correia had already left, and that Hicks was the Polynesian engineer of the France. His diary records his observations across the Pacific and on the France, through the Santa Cruz Islands as far as Tulagá, May 14, 1927.)

Q. Letters and journal of Frederick P. Drowne, M.D., November 4, 1927 to March 30, 1928. (In addition to his observations on places visited (see chronology), he gives paintings of birds (Q 170-221), newspaper clippings (Q 222-226), a picture of Dr. Drowne, and a sketch map of Rabaul.)

R. Journal and notes of Guy Richards, 1927 to 1928. (An interesting account of his trip from New York (July 20, 1927), across Canada to Vancouver, south to Seattle, where he joined Hamlin; back to Vancouver, sailing via Victoria to Honolulu (August 2-3), Suva (Aug. 11), Auckland (Aug. 14), to Sydney (August 19 to 31, 1927.) Took S.S. Mataram to Brisbane (Sept. 2), Tulagi (Sept. 8) giving an account of that city (R 53). Across to Guadalcanal (Sept. 16, R-60), visits to Tulagi and nearby islands until Oct. 5; New Georgia (October 6 - 9), Naru-Gizo (Oct. 10), Kolombangara (Oct. 11) where he joined the France. He "found Beck a sick man. (R 96). He gets the birds, but Dr. Drowne brings in the snails, insects, snakes, 'possums, and rarities." Notes that "the physical conditions on the France are not good. Capt. Lang is capable; crew not viscious or bellicose. Hicks, the engineer, skins birds as well as Beck. Mrs. Beck is a beautiful character." (R 98). Richards journal is full of information about Choiseul, Shortland, and Bougainville Islands, intersperced with copies of candid and enlightening letters (R 158-165). He gives an extensive account of the expedition on Bougainville, Dec. 29, 1927 to Mar. 1, 1928

(R 166-). He notes that Dr. Drowne was ill with gastric malaria. He presents a valuable story, well told.)

S. Journal and notes of Hannibal Hamlin, July 20, 1927 to November 7, 1928. (He took leave of Drs. Chapman and Murphy July 20, 1927, crossed Canada to Vancouver, and joined Richards July 26 (see R). He describes in detail their visit to Honolulu (Aug. 3), sighting "Mary" (Canton) Island (Aug. 7), visit to Suva (Aug. 11), Auckland (Aug. 14-15), Sydney (Aug. 19). Thence via S.S. Mataram (Aug. 31), arriving Tulagi (Sept. 6). He gives an amusing account of "tracking down" the France, which they finally reached on October 11, 1927 (S 41-). Gives list of native names of birds (S 54-); a detailed account of Bougainville Island (S 131-), and what was collected at different altitudes from shore to 5,500 feet (S 136-). Hamlin, assisted by Hicks and David, collected on Buka and Bougainville Islands.)

T. Journal and notes of Hannibal Hamlin, November 8, 1928 to August 8, 1930. (In addition to chronological notes, he tells of difficulties seeking permission at Samarai to collect protected birds, there being a rumor that the expedition was "finished." He went to Port Moresby, December 5 to 9, 1928, to visit the Government Secretary's office for a hunting permit, and to get shoes. The S.S. Morinda was wrecked, but the permit was received in mail off the wrecked ship. He returned to Samarai, December 16, on the Veimamri, the France to follow. Visited Sawa Bay, Normanby I., Salamo, Ferguson I.; the France to pick him up at Baniara about January 28, 1929. The American Museum was informed that Hamlin wanted to be relieved for the "summer", as he was hampered by government restrictions and the condition of the France's engines. He hoped conditions would be better after May (T 41). He gives notes on expenses, sickness - Teora in hospital with two bad legs. The France sailed for the Louisiade archipelago February 11 (T 43); through the Conflict group (Feb. 12); he describes the "rugged islets" off Comorant Entrance. Anchored in the lee of Abagagaheia I. (Luisade); they landed Feb. 14. Repairs were made to the France at Samarai, March 11 (T 57-). The party worked into the interior toward Diabu (T. 58-), Milne Bay area, April 7 until the France was back in the water. Departed April 26 on trip to Luisades, returning to Port Moresby June 27, 1929. Returned to Samarai July 3, where they were joined by Dr. Ernst Mayr, of the Berlin Museum. At Faisi, July 14, they found an infantile paralysis epidemic in the group and the area under quarantine. To Kiet^a harbor for oil, and collected in the Buin area (south end of Bougainville I.) July 20. Hamlin and Mayr bicycled to Father Poncelet's (8 miles). More engine trouble. Coultas and Eyerdam arrived on S.S. Marsina and disembarked at Kieta, August 29, 1929 (T 89). Gives notes on Phalangiers. Says: "Seven collectors working on Choiseul Island (Mayr, Coultas, Eyerdam, David, Charlie, Teora, and Hamlin.)" (T. 100-) Hamlin traveled down coast with a Chinaman, Oct. 3 (T. 108). France under command of Captain Cruickshank (T. 116). Three men (Mayr, Coultas, Eyerdam) sent to San Cristoval, Nov. 21?, on government

12-11-1918. The above-mentioned...

steamer (T 124). Cruickshank replaced by W.H.Burrell as captain, Nov. 21. France beached to fix propeller, repair work Nov.22 to Dec.14, 1929 (T 125). Chinaman hired as cook, Dec.1. David returned from Gizo, where he had searched for Microgoura without success. Money trouble (T 132). Dr. Mayr left the France, February 1930. The four native hunters left the party Jan. 15, 1930 (T 138). To Tulagi, Feb.18-25, with Mayr. Discussion of changing from France to Royal Endeavor (T 157). Coultas and Eyerdam camped inland, March 3 (T 168). March 4, Hamlin up Kwairiekiwa river (T.168). At "Aroroa" (Araroso?) May 10 (T 165). Coultas returned to Su'u (T 167). Hamlin back to France, March 18, found captain sick (T 173). Ship moved to Ulawa Is. (T 173-), on to Ulimburi to pick up campers, Mar. 28-29, stuck on a reef (T 178). Coultas not finished collecting, April 1, so Hamlin went to Gower I. Eyerdam back to Aroroa, April 9 (T 185). Down between Florida and Buena Vista Is.; anchored at Olevuga I., April 19 (T 185). Back to Tulagi, April 20 (T 191). Eyerdam collecting shells. Dr. Lambert was going to Rennell; France offered to take him there (T 196); accepted. Trip into interior and to Bellona described. (T 204). July 17, Capt. Burrell dismissed and sent to Sydney. Copper sheathing of France removed, July 5-13 (T 207). Left Samarai July 17 (T 209). Panasesa I, July 18; Misima, July 19 (T 210), with Riddall and Charlie. Burrell replaced by T.E.Lang (former captain) (T 219). Eyerdam left on S.S.Elveric in August 1930. Hamlin left on S.S.Morinda, August 8, leaving Riddall to operate the France (T 118).

T 220-223, Notes on the Buin district, Bougainville, July 20-27, 1929 (list of birds).

T 224, Bougainville north coast, Aug.19-20, 1929.

T 225-235, Faisi - Shortland area, Sept.11-13, 1929.

Choiseul Islands, Sept. 16 to Nov.2, 1929, list of birds.

T 236-8, Nissan I., August 5-10, 1929, list of specimens.

T 239-255 Paintings of bird's feet and bills.

T. 256-9 Clippings.

T 260-4 Antipodes Islands clippings.

(There is a separate volume of "Journal and notes of H. Hamlin, 1927-28," which contains photographs and journal records, July 25 to Nov. 1, 1928.

U. Journal of Walter J. Eyerdam, August 17, 1929 to July 10, 1930.

(Summary: August 17 to Sept. 3, 1929, vicinity of Kieta, chiefly collecting shells.

Note on trip of Henry Kuper to Vanikoro I. (U 18-) and his establishment on Santa Anna - Owa Raha. "Hamlin officially turned over the leadership to Bill Coultas, January 16, 1930." Note regarding "killers of Malaita" (U 44-). France arrived at Auki, Malaita, Jan.26, 1930; to Su'u, Jan. 31. Gives a good account of four weeks (March to April, 1930) spent in the mountains of Malakita, with notes on the people. Interesting notes regarding visit to Rennell I. (U 119-), including a trip to Kassawaka with Dr. Lambert. Also a short trip to Bellona I., May 29 (U 144).

Eyerdam offers his opinions regarding a "sick and useless skipper," (U 151).

The diary continues to July 10, 1930 (U 163), to which are appended:-

U 164-. An account of the birds of Malaita, with a list of species.

U 176-. An account of Santa Anna Island, Jan. 1, 1930.

U 177-. An account of Faisi, Shortland Islands, Sept. 6 to 14.

U 181-196. Remarks on Beche-de-Mer English as spoken in the Solomon Islands.

V. Journal and letters of William F. Coultas, Vol. 1, May 1929 to November 1930. (He received his appointment May 31, 1929, left Seattle, June 26; in Sydney, July 20-27; to Kieta, July 28 to August 17. He reached the France August 29. From V 225-269 he gives collecting data concerning: Bougainville Straits and Faisi (V 225-); Choiseul, with map (V 226-233), and a list of specimens; San Cristoval, map and native names of specimens (V 233-236); Santa Anna I., list of specimens (V 237-8); Buena Vista, a bried note by Hamlin (V 238-9); Malaita, map, list of specimens and their Ari-ari names (V 239-250); Tulagi, brief note (V 251); Rennell and Bellona (list of birds, V 253-7); Masima I., note (V 258); Gower I., collection list with native names (V 258-261); Roncador Reef, note (V 261-2); Ontong Java, notes and list of birds (V 262-7); specimens collected en route to the Caroline Islands (V 267-8); Solomon Islands, stores list and prices (V 268-9).

W. Journal and letters of William F. Coultas, vol. 2, Nov. 1930 to February 1932. Caroline Islands: See chronological itinerary. These are followed by summaries:-
W 198-234, Ponape collections; W 235-247, Kusaie collections;
W 248-255, Guam collections; W 256-261, Tinian collections;
W 262-290, Palau collections; W 291-292, Caroline islands collections.
There is also another copy, covering: Kusaie (Feb.-June 1931), Ponape (Npv.-Dec. 1930), Palau (Oct.-Dec. 1931), Guam (August, 1931); and the summaries, as listed above.

X. Journal and letters of William F. Coultas, vol. III, New Britain, Feb. 1932 to October 1933. (There is also a second copy of this volume.) See itinerary. Also:- Lists of the birds collected and maps of the areas: Rabaul area, Baining Valley, Nakanai mountains, Wide Bay, Usiwit River, Talele Islands. List of birds of New Britain, by areas (X 378-384). Notes: the France "badly rotted" at Rabaul, June 19, 1933 (X 313). The vessel was sold to W.R. Carpenter and payment of £ 1450 received July 13, 1932. Travel thereafter was by any available vessel.)

Y. Journal and letters of William F. Coultas, vol. IV, Oct. 1933 to March 1935. Admiralty and other islands north of New Guinea; accompanied by Mrs. Coultas. All surplus equipment was sold to Captain Koch, of the Manam for £ 10. Coultas left Rabaül, New Britain, Feb. 25, 1935, traveling to Manila, P.I. on the S.S. Nankin, and reaching New York, April 20, 1935.

Resumes, maps, and lists of birds, including their vernacular names appended as follows:

- Y 245-254, Lolobau I. and area of Volcano Father.
- Y 255-261, Rooke Islands, Sempier.
- Y 262-290, Long Island, N.E.coast of New Guinea.
- Y 291-313, Manus Island, Admiralty Islands.
- Y 314-337, Rambutyo Island, Admiralty Islands.
- Y 338-355, Anchorite and Hermit groups, Bismarck archipelago
- Y 356-266, Ninigo or Exchange Islands.
- Y 367-451, Lihir group.
- Y 452-462, Tabar group.
- Y 463-469, Tanga group.
- Y 470-472, List of birds eggs collected on the Whitney expedition.
- Y 473-475, list of mammals collected on the Whitney Expedition.

(The sketch maps are good and show localities. The lists of birds give many scientific names, at least to genus, and many vernacular names, especially for: Manus (Y 298-), Anchorite Is. (Y 339-), Lihir (Y 384-), Tabat Is.(Y 454-), and Tanga I. (Y 465-).

Z. Field notes of E. H. Bryan, Jr. while a member of the scientific party on the schooner France, February to October 1924. The original field notebooks and maps are preserved in the Manuscript Room of Bernice P. Bishop Museum, where Mr. Bryan was Entomologist and Curator of Collections from 1919 to 1968, and is now Manager of the Pacific Scientific Information Center. He joined the Whitney Expedition, as a guest scientist from Bernice P. Bishop Museum, at Pago Pago, on February 18, 1924, and accompanied the France to Nassau I., Puka Puka atoll, the Phoenix and Tokelau Islands, the main islands of Samoa, and the Lau Islands of Fiji, leaving the France on October 18, 1924, at Wakaya I., Fiji. His 400 pages of typed field notes contain material on the geography and natural history of the more than 80 islands visited, together with a sketch map of each, ^{and} prints of 69 photographs. As with the other volumes of this series, reference is made in the chronological itinerary which follows by means of the letter "Z" followed by the manuscript page.

WHITNEY EXPEDITION - CHRONOLOGICAL ITINERARY, 1920-1935

Mr. and Mrs. Rollo H. Beck and Ernest H. Quayle arrived in Papeete, Tahiti, September 25, 1920.

<u>GROUP</u>	<u>Island</u>	<u>Dates</u>	<u>Personnel and their journal page references</u>

	Hamlin (S), Drowne (Q), and Richards (Q) collected on Bougainville Island, December 26 to February 26, 1928. Beck alone, on the <u>France</u> , went to:-			
BISMARCK,	New Ireland	Jan. 11-13, 1928	Beck (D 300)	
"	New Britain, Rabaul	" 14 - Feb. 7,	" (D 304)	
NEW GUINEA,	Samarai,	Feb. 14, 1928.	"	

Beck left the expedition in February, taking the log of the France with him. The ship picked up Drowne, Hamlin and Richards at Kieta, Bougainville Island, on March 12, taking them to Rabaul, which they reached March 20, 1928. No appreciable collecting was done during this period. Dr. Drowne and Guy Richards left the expedition at Rabaul, ^{on} ^{22,} about March 30, 1928. Mr. and Mrs. Beck later went to Sydney, Australia, and later did some collecting in New Guinea. Hannibal Hamlin took command of the Expedition and continued on the France through the Solomon Islands, Louisiade Archipelago, Trobriand and d'Entrecasteaux groups (see page 22.)

Faint, illegible text, possibly bleed-through from the reverse side of the page. The text is arranged in several paragraphs and appears to be a formal document or report.

"	Port Moresby	Dec. 9-10, "	" (T 16+)
"	Samarai	Dec. 11, "	" (T 16+)

Hamlin and native collector, David, left France and went north to the region around Buna, N.G., where they collected (T 16-34).

They rejoined the schooner at Baniara, N.G. on Jan. 25, 1929. Meanwhile:-

D'ENTRECASTEAUX,	Normanby I.	Dec. 18-28, 1928,	Teora & Charlie (native collectors)
"	Fergusson I.	" 29-Jan. 18, 1929	" " " "

[Note: The native collectors reversed all sex symbols on labels; these Hamlin changed back; also some doubt about iris colors. (T 36-37)]

(See p. 24)

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In the second section, the author details the various methods used to collect and analyze the data. This includes both manual and automated processes. The manual process involves reviewing each entry individually, while the automated process uses software to identify patterns and anomalies.

The third part of the document focuses on the results of the analysis. It shows that there are several areas where the data deviates from the expected norms. These deviations are likely due to human error or system malfunctions. The author provides a detailed breakdown of these errors and suggests ways to prevent them in the future.

Finally, the document concludes with a summary of the findings and a list of recommendations. The recommendations include implementing stricter controls over data entry, improving the accuracy of the automated systems, and providing additional training for the staff.

BISMARCK, Lihir group	Oct.19-29, 1934	Mahur I. Mrs.Coultas noted ((Y 195+) as collecting land snails.
" " "	" 30-Nov.12 "	"Landolowit I" [also spelled (Y 201) in other places "Lanolowit"]
" " "	Nov.12-19 "	Samo (village) (Y 207+)
" " "	" 19-23, "	"Rabees" (in interior) (Y 211+)
" " "	" 23-28, "	"Lanolowit" (Y 213+)
" " "	" 28-Dec.4, "	en route to Rabaul (Y 215+)
" New Britain I.	Dec.4-31, "	Rabaul and vicinity (Y 217+)
" " "	Jan.1-8, 1935	" " " (Y 226+)
" Tabar Islands	" 8-12, "	en route to Tabar I. (Y 228+)
" " "	" 12-31, "	"Lumburu" " (Y 230+)
" Tanga Islands	Feb.1-3, "	en route to Tanga Islands (Y 241+)
" " "	" 3-9, "	Boang I. "Anfahr" (Y 242+)
" " "	" 9-12 "	en route to Rabaul (Y 246)
" New Britain	" 12-25, "	Rabaul, winding up the expedition and shipping collections (Y 247+)
	Feb. 25 to Apr.19,1935	en route to U.S.:
		S.S. <u>Nankin</u> to Manila;
	April 20, 1935	reached American Museum, New York.

The surplus equipment was sold to Capt. Koch of the Manam for £ 10.

1. Resume, map and record of birds of Lolobau I and Volcano Father (Y 249-254)
2. " " " " Rooke I., Dampier Strait (Y 255-261)
3. " " " " Long Island, N.E.coast New Guinea (Y 262-290)
4. " " " " Manua, Admiralty Is. (Y 291-313)
5. " " " " Rambutyo & San Miguel Islands (Y 314-337)
6. " " " " Anchorite and Hermit groups (Y 338-355)
7. " " " " Ninigo or Exchequer group (Y 356-366)
8. " " " " Lihir group [NE of New Ireland] (Y 367-451)
9. " " " " Tabar " " " " (Y 452-462)
10. " " " " Tanga " " " " (Y 463-469)
11. List of birds eggs collected on Whitney Expedition. (Y 470-472)
12. " " mammals " " " " (Y 473-475)

[The sketch maps are excellent and collecting localities are shown; the lists of birds give scientific names usually to genus and also many vernacular names. There is a long list of vernacular names for each of the following: Manus (Y 298+), Anchorite Is. (Y 339+), Lihir group (Y 384+), Tabar I. (Y 454+), and Tanga I. (Y 465+).]

Compilation and notations by E. H. Bryan, Jr., May to November, 1969.

13; 17; 16, [7]; 12; [2], 28 pp.
