

Our visit to Harriet Martineau was very pleasant & inter-
esting. Our subjects various. She enquired after thee & many others
of her American friends - shewed or read us a letter from E. L. Follen
felt much for the loss of B^r Follen - as well as the more recent one of her
friend Lord Durham. W^m L. G. has doubtless told you of her situa-
tion - she is very cheerful & appears resigned to her fate whatever
that may be - an operation may effect a cure & may take her life -
she anticipates the latter as a philosopher & as a Christian.

So you are going to have another Convention - I shall feel an
interest in your proceedings & hope much good will result
from your labors against Clerical assumptions & Priestly pow-
er.

I must close with love to your household
Most sincerely thine
Lucretia Mott.

Maria W. C.
