

For 24 hours ending 5 p.m. Tuesday: Victoria and vicinity—Northerly winds, generally fair and cold for several days.

Royal—Les Miserables. Pantages—Vaudeville. Dominion—The Smith Left Home. Variety—The Life Line. Columbia—The Courageous Coward. Romano—A Gentleman of Quality.

WRECK ON C. P. R. TAKES EIGHT LIVES

Outlines Important Building Plans For Company in Victoria

President E. W. Beatty Says Canadian Pacific Railway Will Construct New Depot—Investigates Terminal Facilities Here

E. W. Beatty, K. C., President of the Canadian Pacific Railway, reached Victoria to-day and announced these Victoria developments as part of the \$3,000,000 to be spent this year in expansions of the company's facilities in British Columbia:

1. An immediate start on a modern depot at the Belleville Street docks to replace the present office building and waiting rooms. Plans are now completed and the work will start at once. The new structure will cost \$150,000. Its style will be in harmony with the Causeway surroundings.

2. The likely early construction of new passenger terminals for the Island railway line now that Victoria has passed the Johnson Street Bridge by-law.

Mr. Beatty said he expected the city would lose no time in getting the Johnson Street bridge under way and completed, as it was the understanding of the C. P. R. when it made its subscription to the bridge that the structure would be pushed through, as time is as important to the company as to the city.

Inspects Terminal Site H. E. Beasley, general superintendent of the Island lines, met Mr. Beatty early and took him down to the Store Street terminals, where he showed him the whole bridge scheme. They discussed possible sites for the new Island passenger terminals. As soon as the bridge is under way it is likely that the company will announce its appropriation for the start of construction there.

Mr. Beatty was interested in learning details of the tremendous majority by which the people of Victoria endorsed the Johnson Street Bridge by-law.

Anxious for New Ships The C.P.R. is making every effort to replace its coastal service steamers lost during the war, particularly the fast Princess Margaret, which has been taken over by the British Admiralty, and the Princess Irene, destroyed in 1915 in the Thames Estuary by an internal explosion shortly after she was completed.

Captain Troup, manager of the coast steamship service, has been in England negotiating for the construction of new steamers, said Mr. Beatty. "Because of the congested condition of the shipbuilding yards in the Old Country there is some uncertainty as to just when we will be able to get these vessels. We are making every effort to get them as soon as possible. We shall know exactly what the situation is when Captain Troup returns, which will be very shortly."

DIAMOND RUSH IN SOUTH AFRICA

Amazing Stories Afloat Concerning Richness of Field in Bechuanaland

Johannesburg, South Africa, Jan. 25.—"Flaming, waterless, treeless and virtually gameless desert near Taung, in Bechuanaland, promises to be the scene of the biggest diamond staking in South African history. It is understood that staking will be proclaimed open for diamond digging about March 20. Amazing stories are afloat concerning the wonderful richness of the district and prospective diggers from the Cape to the Zambesi and Mozambique, and even the Congo, are preparing to try their luck in the new field.

Despite warnings of possible failure, men are abandoning good jobs in various parts of the country in order to be free to stake out claims when the proclamation is issued. Hundreds of women also are arranging to go to the new diggings. The Government is preparing to cope with the anticipated rush to Taung and a township to receive the new community is being laid out. Taung is situated about forty miles south of Vryburg and about 100 miles north of Kimberley, the last named place being famous for its great diamond mines.

POWHATAN REPORT DECLARED UNTRUE

Halifax, Jan. 26.—The Halifax Herald this morning featured the announcement that the United States Shipping Board had offered a reward of \$150,000 to the ship that would bring the disabled American transport Powhatan safely to port. Later Colonel W. G. Griswold, representing the American army transport service and the United States Shipping Board authorities, characterized the announcement as absolutely without foundation.

Here to Examine Into C.P.R. Improvements: President E. W. Beatty, K. C.

Compensation Association Wants New Commission

On behalf of the Compensation Association of British Columbia H. R. Bray, barrister and solicitor, of Vancouver, has asked the Hon. J. W. de B. Farris, Attorney-General and Minister of Labor, to issue a new commission, leaving no doubt as to the power of the Commissioner, for the purpose of determining if there are any classes of persons or firms, and so forth, entitled "in reason and fairness" to be compensated by reason of losses sustained on account of the operation of the British Columbia Prohibition Act.

FRENCH FRANCS AT A NEW LOW LEVEL

Italian and German Money Unprecedentedly Low at New York

New York, Jan. 26.—Rates on French, Italian and German exchange dropped to new low levels in the local market today.

Demand bills on the pound sterling were quoted at \$3.60, off 2 1/2 cents from Saturday's close and 1/4 cent above the record low.

Franc cheques were quoted at the rate of 12.27 for the dollar and lire cheques at the rate of 14.42. The German mark, worth between 23 and 24 cents before the war, was quoted at 1.09 cents.

The discount on Canadian money in the New York market registered a sharp advance of 10 1/16 per cent.

UNDESIRABLES ARE TO BE KEPT OUT OF EGYPT AND SUDAN

Cairo, Jan. 26.—Field Marshal Viscount Allenby, British High Commissioner in Egypt and the Sudan has announced by proclamation that new passport regulations designed to bar out undesirables will go into effect on February 1.

New British Shell Goes Through Thickest Steel

London, Jan. 26.—The British navy may soon be given a new and "unsurpassed" weapon in a large calibre shell which will pierce the heaviest armor plate without shattering, according to Sir Robert Hadfield, chairman and managing director of Hadfield's, Limited, steel manufacturers. He indicated that possession of such a shell during the great war would have been of inestimable value to the British fleet.

"The feat has been accomplished," he said, "within the last few days, of getting the largest calibre of armor-piercing shell unbroken through the thickest of modern hard-faced armor plate. This result will render the British gun unsurpassed, incomparable and the master in any naval engagements in the future."

Labor Party Will Oppose the Latest Scheme for Ireland

London, Jan. 26.—One positive result of the English Parliamentary Laborite delegation's visit to Ireland will be decided opposition by the English Labor Party to the Government's present plan for some form of Irish self-government, according to a correspondent of The Daily Mail, who is accompanying the delegation.

More Attacks on Police by Outlaws in Ireland

London, Jan. 26.—Armed men wearing masks attacked the police barracks at Balinglass, County of Wicklow, last evening, and shot and wounded one constable severely and another slightly. The miscreants escaped, according to dispatches received here.

Other dispatches state that the police barracks at Murroe, occupied by eight constables; was attacked between midnight and 1 a. m. Sunday by about forty armed men. The two parties exchanged shots for a couple of hours. The raiders vainly tried to bomb the building but finally decamped on the approach of the military. So far as is known nobody was injured.

ST. JOHNS ELECTED PREMIER SQUIRES

Newfoundland Premier and Finance Minister Were Given Majorities

St. John's, Nfld., Jan. 26.—(Canadian Press).—The poll in the by-election in the district of St. John's West was decided Saturday and showed Premier Squires re-elected, and Minister of Finance Brownrigg re-elected, with largely increased majorities. The caucus counts showed the two Government leaders running almost neck and neck with their opponents until the dozen bulletins had been issued, when the Premier and his colleague drew ahead and finished in the lead, the one with a majority of 348 votes and the other with a majority of 322.

The campaign was one of the most strenuous in the history of politics in this country. The other half dozen by-elections were suffered to pass uncontested by the Opposition, which consolidated its men and voted efforts in the district which elected Premier Squires last November. Sectarianism voted a prominent part in the contest.

The votes polled by the various candidates in the by-election were: S. Squires, 2,619; Brownrigg, 2,594; Martin, 2,265; Linliger, 2,225.

Foch, Joffre, Petain and Buat Are New French War Council

Paris, Jan. 26.—Marshals Foch, Joffre and Petain and Major-General Buat, Chief of Staff, make up the new French Supreme War Council, according to an announcement today. Nine generals will be chosen later to act on the Council, which will be under the presidency of the Minister of War, Marshal Petain who will be Vice-President and Commander of the French armies in time of war.

GREAT BRITAIN AND ARGENTINE TRADE

Buenos Ayres, Jan. 25.—Statements by Lord Ashfield, president of the British Board of Trade, that the British would supply the United States in the market she won in South America during the war, have aroused considerable feeling among Americans here. They were given wide publicity here by a British advertising agency.

Speaking last night at the first annual banquet of the United States Chamber of Commerce in Argentina, William H. Robertson, American Consul-General here, took exception to them as being "hostile propaganda."

FRENCH "BLUEBEARD'S" VILLA SOLD TO PARIS MAN FOR BIG PRICE

Paris, Jan. 26.—A villa at Gambais belonging to Henri Landru, the alleged "Bluebeard," who is accused of slaying a number of women and destroying their bodies, has been sold to a Paris business man for 50,000 francs. Its pre-war value was 10,000 francs. It is said by the police that Landru entertained twelve successive "flanches" at this villa and that they were never seen or heard from afterwards.

CONDEMN BOLSHEVISM

Paris, Jan. 26 (Havas).—The Scandinavian Labor Congress has adopted a resolution condemning Bolshevism, which was introduced by Hjalmar Branting, the Socialist leader, according to a Copenhagen dispatch to The Echo de Paris.

One-Day Strike at All French Ports Called by Union

Paris, Jan. 26.—The council of the Federation of Port and Dock Workers, which met in Paris yesterday, decided to call a twenty-four-hour strike at all Atlantic ports of France on Tuesday with a view to supporting strikers at the port of L'Orient, Brittany.

ASSAILANT WOUNDS MATHIAS ERZBERGER

Attempt on Life of German Finance Minister Fails

North Bay, Ont., Jan. 26.—(Canadian Press).—Eight persons, including a mother and two children going to Vancouver and one employee of the Canadian Pacific Railway, were killed when the second section of the C. P. R. transcontinental passenger train ran into the stalled first section near Corbeil, ten miles east of North Bay, Sunday morning. The severely injured, all of whom were bound for western points, number thirteen.

A Canadian Pacific Railway statement on the accident issued here at noon to-day says: "The second section of train No. 1 struck the rear of the first section of train No. 1 one mile and a half east of Corbeil at 11.15 a. m., January 25. The first train had stopped on account of engine trouble and a flagman had been sent out to protect the rear, but it has not yet been established whether this was performed according to rules. A relief train with doctors and nurses was at once dispatched and everything possible done to relieve the injured, who were promptly moved to North Bay, the six cases proceeding to the hospital there."

North Bay, Ont., Jan. 26.—There is an element of doubt existing as to whether a flagman sent back to flag the second section of Canadian Pacific Railway train No. 1 a mile and a half east of Corbeil on Sunday morning, carried out those duties properly. A flagman was sent back from the stalled first section of the train but the official Canadian Pacific Railway statement issued at noon to-day says it is not established that the train was properly flagged according to procedure.

Stalled. The engine crew of the first section had fought a losing battle against a fifteen degree below zero temperature for hours and on reaching that point on the line, found the weather too bitter for them to keep up a sufficient head of steam and their engine stalled after rounding a curve. A few minutes later the second section, running to make up lost time, crashed into the rear observation coach of the stalled train and eight persons were killed. Thirteen passengers on two standard sleepers on the second section, who were severely injured, were brought to the hospital here, where many others sustained minor cuts and bruises.

The accident occurred at 11.15 yesterday morning and at that time the mercury was about fifteen below zero. A relief train was sent out from here with doctors and nurses aboard and the injured were brought here for further treatment after being given first aid.

The coroner, Dr. J. A. Campbell, will open a preliminary inquest at 2 o'clock this afternoon, when members of the train crew will be among the witnesses in the attempt to establish responsibility for the smash.

The track was cleared within a short time of the accident, although two coaches still lie on their sides in the ditch. The Winnipeg train which was smashed, was delayed here for about two hours, after which it was able to proceed.

J. T. HILLIS, OF VANCOUVER, MINING MAN, SUICIDES

Vancouver, Jan. 26.—One of British Columbia's prominent mining men passed away last night in the person of J. T. Hillis. Mr. Hillis, who was fifty-one years old, came to British Columbia in 1900, and with the late Howard Walters was the original holder of the Howe Sound properties now being worked by the Britannia Mining & Smelting Company. In 1905 he purchased the Hidden Creek claims, which are now owned and operated by the Granby Company at Anyox.

BISMARCK'S MEMOIRS. Stuttgart, Jan. 26.—The injunction granted in the lower court restraining the publication of the third volume of von Bismarck's memoirs has been sustained. The case will be taken to the superior court.

SEATTLE ROBBERS ESCAPE WITH \$1,500; HOLD UP A CAFE

Seattle, Jan. 26.—Two robbers entered a First Avenue Cafe here early today, held up six men and took approximately \$1,500 in cash and \$1,500 in cheques from the manager. The robbers later dropped the cheques while hurrying away. Two patrolmen were within a block of the cafe during the hold-up.

PLAGUE DRIVES LENINITES FROM MOSCOW TO TVOR

Stockholm, Jan. 26.—Members of the Soviet Government have left Moscow following a renewed outbreak of the plague, and have gone to the city of Tvor, on the upper Volga according to advices received here.

GOVERNMENT OF POLAND NOW IS MOBILIZING MEN

Copenhagen, Jan. 26.—Via London, Jan. 26.—The Polish Cabinet has signed a mobilization order, says a Warsaw report published by The Politiken to-day. The measure was taken, according to the advices, because of the advance of the Bolsheviki.

NOT WITHDRAWING MEN FROM SIBERIA

In Japanese Diet Ministers Outline Situation in Far East

Tokio, Jan. 25.—The dispatch of Japanese reinforcements to Siberia was unconditionally necessary to assist the Czechs and guard the executive railways, Premier Hara declared in replying to interpellations in the lower House of the Diet yesterday. It was also necessary as a means of securing the safety of the Japanese garrison, he said.

There was no reason to withdraw Japanese troops, added the Premier, simply because the terms were being withdrawn, the position of Japan and China in the Far East being far different from that of the United States or Great Britain. Also he pointed out that future moves of the Bolsheviki in Siberia could not be forecast.

Impossible. Foreign Minister Uchida also said that immediate withdrawal was impossible, because some of the Vladivostok Koreans were supporting the Korean independence movement, while others were sympathetic with the Bolsheviki against Japanese interests.

War Minister Tanaka told the House that 1,000 Japanese lives had been sacrificed in maintaining order in Siberia.

Cold Stalled Train and Train Traveling Behind Did Not Stop

Eight Persons Lost Lives in Smash on C.P.R. Yesterday Morning at Corbeil, Near North Bay, Ontario—Thirteen Severely Injured

North Bay, Ont., Jan. 26.—(Canadian Press).—Eight persons, including a mother and two children going to Vancouver and one employee of the Canadian Pacific Railway, were killed when the second section of the C. P. R. transcontinental passenger train ran into the stalled first section near Corbeil, ten miles east of North Bay, Sunday morning. The severely injured, all of whom were bound for western points, number thirteen.

A Canadian Pacific Railway statement on the accident issued here at noon to-day says: "The second section of train No. 1 struck the rear of the first section of train No. 1 one mile and a half east of Corbeil at 11.15 a. m., January 25. Council of Ambassadors is at Work Now in Paris

Paris, Jan. 26.—The reply to the refusal of the Dutch Government to comply with the demand of the Allies for the surrender of Wilhelm Hohenzollern, former Kaiser of Germany, was the first subject taken up at the meeting this morning of the Council of Ambassadors, created to carry on the unfinished work of the Supreme Council of the Peace Conference, which disbanded last week.

It was decided that French legal experts should go into all the aspects of the case and prepare the reply, which probably will be submitted for approval of the Council at the beginning of next week.

The discussion in the Council did not disclose the trend of opinion among the members further than that it appeared to be the view that the legal phase of the question had become the chief one.

## HOT WATER BOTTLES

Nothing is of more service at this time of the year than a good hot water bottle. Don't buy a cheap bottle, as it is apt to give you trouble when you need it most. We carry a large and varied stock of good bottles.

## ESTIMATES WORLD'S DIAMOND SUPPLY

10 1/2 Tons of Polished Gems in Existence, Says Chicago Expert

Chicago, Jan. 26.—If all the diamonds mined in history and existing to-day as cut and polished gems were gathered from the ends of the earth, they would form a pile about as large as a wagon load of coal dumped on the sidewalk, says a Chicago statistical expert. The pile would contain 46,355,474 carats and the gems would weigh 10 1/2 tons. If the pile were in the form of a cone, it would have a base diameter of eight feet and a height of five feet. Reckoning the diamonds at \$300 a carat, it would have a value of \$13,906,642,200. It would contain 710-1-3 gallons, worth \$5,539,923 a gallon; or 266.3 bushels valued at \$1,876,299 a bushel. All the world's diamonds could be packed in an ordinary clothes closet or a kitchen pantry.

This estimate is based on an approximation of the total output of rough diamonds in the world's entire history. India, it is estimated, has produced all told, 50,000,000 carats; Brazil, 15,000,000; South Africa, 170,574,000; Borneo, 1,000,000; British Guiana, 50,000; Australia, 150,000; China, 2,000; Siberia, 500; United States, 500. This is a total rough output of 236,777,274 carats or 55 3/5 tons avoirdupois.

Indestructible. Only about 50 per cent. of rough diamonds are cut into gems and lose about 50 per cent. of their weight in being cut and polished. Diamonds are practically indestructible and the first diamond ever mined may possibly still be in existence. But the estimate allows for the loss of at least 1,000,000 carats by flood, fire, shipwreck and other disasters. These reductions and losses leave a total of cut and polished diamonds at 46,355,474 carats.

The estimate of \$300 a carat is the minimum price at which diamonds can be bought to-day. The popular demand for diamonds was never so great and they have become the gem of working people as well as the wealthy classes. They are worth three times as much now as before the war and sell at from \$300 to \$1,000 a carat.

## MR. ASQUITH OPENS ELECTION CAMPAIGN

Asking Electors of Paisley to Return Him to the Commons

London, Jan. 26.—(Canadian Press)—Former Premier Asquith went to Paisley to-day to open a political campaign. The contest will last three weeks.

While opinion is clearly divided over a Unionist against him, there are indications of a split among the democratic sections. J. M. Biggar, the Labor candidate, apparently does not hold strong enough views to suit the extreme Paisley Socialists, who threaten to bring out another man, J. A. Mackean, the Unionist candidate, who unsuccessfully contested the constituency in 1906, is well known locally, being a member of the town Council.

The Daily Telegraph, which has consistently supported the Coalition Government and generally in pre-war days advocated Unionist principles, frankly expresses regret that local Unionists should oppose Mr. Asquith, declaring that all men of any judgment recognize him as a Parliamentarian of the first rank and the leader of a considerable party with definite and distinct opinions on most questions.

"We hold, therefore," continues the Telegraph, "that his return to the House of Commons is in the national interest and is to be desired and should be welcomed even by those who generally have been and are likely to remain his opponents." The Telegraph's advertisement columns curiously enough contain an advertisement declaring that the lawyer-politician is the enemy of to-day, and appealing for funds to fight "Mr. Wait and Mr. Asquith."

## Faint and Dizzy Spells, Weakness and Shortness of Breath

You can generally tell when the heart is affected by the faint and dizzy spells, the shortness of breath, palpitation, throbbing, irregular beating, smothering sensation, weakness, sinking, all-gone feeling, choking sensation, etc.

Many men and women become rundown and worn out when otherwise they could be strong and healthy if they would only pay some attention to the first sign of heart weakness.

No remedy will do so much make the heart regain strength and vigor, regulate its beat and restore it to a healthy and normal condition as Milburn's Heart and Nerve Pills. Mrs. C. A. S. Drake, Paris, Ont., writes:—"I have used on towards the second box of Milburn's Heart and Nerve Pills and find they have done me good. I had those fainting, dizzy spells, once in a while, and also weakness and shortness of breath, and would become so choked up at times I could hardly sleep without sitting up in bed. When walking too fast I would have to stop and try to catch my breath. I feel a lot better since I have used your pills and know that they have helped me wonderfully as I have improved very much."

Price 50c. a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## TELKWA LAD BADLY HURT IN SEATTLE

Seattle, Jan. 26.—Run down by an automobile at Sixth Avenue and Jackson Street at 5:40 Sunday evening, Lemuel Short, four years old, son of Mr. and Mrs. I. G. Short, of Telkwa, B. C., was taken to a hospital with a fractured leg and internal injuries that may result fatally. The automobile was driven by F. A. Sheldon, a shipyard worker. He was arrested, but released on his own recognizance.

Mr. and Mrs. Short, with their three small children, had just landed from a Canadian boat, and were in search of hotel accommodations.

## PILES

Do not suffer another day with itching, bleeding or protruding piles. Surgical operation required. Dr. Chas. H. Oltmann will relieve you at once and as certainly as you see a box of Oltmann's Pile Cure. Sample box free if you mention this paper and enclose 5c stamp to pay postage.

## TARIFF HIGHER THAN NECESSARY

Manufacturers Have More Protection Than Needed, Says Hon. G. P. Graham

Montreal, Jan. 26.—(Canadian Press)—Hon. George P. Graham, former Minister of Railways in the Laurier Cabinet, speaking at a luncheon on Saturday given in his honor at the Reform Club here, said that the great question facing the country is the necessity of conciliation between the industrial East and the agricultural West. He thought that high tariffs were not nearly so necessary as the manufacturers as they alleged, since that with freer communication during the war, they had more than held their own. It was idle to talk of the abolition of the tariff but he thought a Tariff Commission would be useless, because in the final analysis the Government must be responsible for a tariff.

As to Imperial relations, Mr. Graham said there was a school of politicians working for centralization of affairs at Downing Street. "We can not allow that for a moment and we must not hesitate in saying so," he declared.

## Nasty Throat Droppings Catarrhal Discharges Quickly Cured

Doctors recommend Catarrhoxone, it is nature's own cure. It drives out the germs, heals sore spots, cleans away every vestige of Catarrhal taint.

You send the soothing vapors of the pine woods, the richest balsams and healing essences, right to the cause of your cold by inhaling Catarrhoxone. Little drops of wonderful curative power are distributed through the whole breathing apparatus by the air you breathe. Like a miracle, that's how Catarrhoxone cures bronchitis, catarrh, colds, and irritable throat. You simply breathe its healing fumes, and every trace of disease flees as before fire.

So safe in use, it is so sure to relieve, doctors prescribe it, so beneficial in preventing winter ills that no person can afford to do without Catarrhoxone. Used in thousands of cases without failure. Complete outfit \$1.00, lasts three months, and is guaranteed to cure; smaller size 50c, all dealers or the Catarrhoxone Co., Kingston, Ont.

## 5121 SUICIDES IN STATES IN 1919

2,985 Men Did Away With Themselves During Year; 1,657 Women

New York, Jan. 26.—American newspaper editors appeared immune from suicide in 1919, according to a tabulation reported in the United States issued to-day by the Save-a-Life League. Of the professions, lawyers led the list with forty-three, of whom twenty were judges. Thirty-six victims were doctors; twenty-eight were teachers, and eleven were clergymen. The list includes twenty presidents of large business concerns and more than fifty prominent clubmen, millionaires and wealthy society women. Unhappy marital relations were responsible for about 350 tragedies, including persons killed by the self-murderer.

Men outnumbered women 2,985 to 1,657, but of the child suicides 327 were girls and 225 were boys.

"Since the signing of the armistice there has been a constantly increasing number of suicides everywhere," the report says. "From foreign countries reports show a serious condition. In Germany, Russia, Syria and other countries where the number has been very large, the cause is attributed to despair because of miserable living conditions brought about by the war."

## FOUR MEN HURT IN A SMASH ON C.P.R. IN ALBERTA

Calgary, Jan. 26.—Four men were injured when Canadian Pacific train No. 2 and 3 collided at Brooks, near here, Sunday, just as No. 3 was taking a switch to allow the other to pass. The injured are: J. Long, Medicine Hat; J. Gillespie, severe internal injuries; Montreal; D. Donest, leg fractured, and W. L. Fraser, engineer of No. 3, slightly injured. They were taken to Medicine Hat.

## I.W.W.'S TRIED IN MONTESANO, WASH.

Montesano, Wash., Jan. 26.—Eleven alleged Industrial Workers of the World went on trial at 10 a. m. here to-day for the murder of Lieut. Warren O. Grimm, one of four former American soldiers shot and killed in Centrella, Wash., November 11, 1919, while marching in an Armistice day parade.

The trial, which is being held before Judge John M. Wilson, Olympia, Wash., was transferred here from Lewis County, where Centrella is located, because of alleged bias on the part of the people of that county. Scores of witnesses, attorneys, talesters, newspapermen and others are attending the trial. American Legion men in their khaki uniforms are here from all parts of the Pacific Northwest, as Lieut. Grimm was commander of the Centrella Legion Post and the parade was being held under the Legion's auspices.

## GERMAN RAILWAY SHOPS ARE CLOSED

Output Decreases as Result of Communist Agitation; Government Acts

Berlin, Jan. 26.—The Government's decision to close the railway repair shops at Berlin, Breslau, Hanover, Frankfurt, Darmstadt, Gotha and other points is due to the steadily receding volume of output from them due to "passive resistance" by the workers under the influence of Communist agitators. The closing of the shops will mark the most drastic action yet undertaken by the Cabinet and the Prussian Ministry.

## FRUIT JOBBERS MEET IN TERMINAL CITY

Vancouver, Jan. 26.—Members of the Western Canada Fruit Jobbers' Association from the three prairie provinces are holding their first annual convention here to-day, to-morrow and Wednesday.

## BUILDING LOCKOUT IN MADRID ENDS

Madrid, Jan. 25.—Via London, Jan. 26.—The building lockout in Madrid is expected to end to-morrow, but as at Barcelona, the men will not return to their jobs. The Government announces that work will be resumed on all public buildings.

## Clean-Up Prices on Women's Wear

As our Winter Clearance progresses there is a lessening in the assortments available to those who have not yet taken advantage of this great money-saving opportunity. In each section of the store, however, there are still a few bargains to be secured by those who know the value of high-grade apparel which is at once seasonable and fashionable.

Each garment is of the very best of its kind, but on account of a more restricted selection, we have decided to make still further price reductions. This, we know, will guarantee an early and complete clearance.

## WANTS CURRIE TO BE UNIONIST CHIEF

Brig.-Gen. Odlum, in Toronto, Says He Should Succeed Borden

Toronto, Jan. 26.—Brig.-Gen. Victor Odlum, C.B., D.S.O., C.M.C., of Vancouver, who was in this city for the week-end, was quoted in an interview here as saying that it was obvious to the Unionist Party was rapidly disintegrating, largely owing to lack of leadership, and there was no member of the Union Government acceptable to all the elements therein as leader.

"Gen. Currie," said Gen. Odlum, according to the interviewer, "in my opinion, is the most able and commanding presence in Canada to-day and I believe that he would prove acceptable to men of moderate ideas. He has never taken an active part in politics, although I believe he was a moderate Liberal before the war, but has been above politics for some time now and should make a strong appeal to men of all parties."

Gen. Odlum said that while Sir Arthur Currie considered the reorganization of the militia to be his first and most pressing duty, he might be persuaded to change his sphere of interest, but considerable pressure would be necessary to effect this.

As to his own future, Gen. Odlum admitted that his friends had urged

## MORE MEN AT WORK IN THIS PROVINCE

More Unemployment in Ontario, Quebec and Maritime Provinces

Ottawa, Jan. 26.—(Canadian Press)—The week ending January 3 showed a further decline in the volume of employment, according to figures supplied by the Employment Service of Canada, Department of Labor. The maritime provinces and British Columbia registered nominal increases, but Quebec, Ontario and the prairie provinces had substantial declines. Ontario had the most noteworthy decline. All the provinces, except the prairie provinces, expected additions for the week of January 10.

All groups, with the exception of lumbering, shipping and longshoremen, reported decreases in staffs, the decline still being largely caused by curtailment of activity during the usual stocktaking and inventory period.

Firms to the number of 4,672 reported 645,943 person on their payrolls as compared with 658,626 for the week ended December 27, a decrease of 12,683 persons, or one and nine-tenths per cent. Those same firms anticipated increasing their staffs by 3,588.

## SAYS BOARD HAS CO-OPERATED FULLY IN LAND SETTLEMENT

Following Maber Visit, Soldier Settlement Board Will Do More in This Province

Ottawa, Jan. 25.—Mr. W. J. Black, Chairman, Soldier Settlement Board, was shown the report of a G. W. V. A. meeting at Vancouver, January 8, in which criticism of the amount of assistance given by the Federal Land Settlement Board was expressed. He said:

"In order that the public may not be misled as to the facts, it is necessary to point out that with two exceptions British Columbia stands highest among the provinces in the aggregate of loans granted to soldier settlers. This has been done notwithstanding conditions are more varied and the difficulties to be encountered in organizing successful settlement greater than in any other province."

"Since February last advances amounting to over nine million dollars have been made on behalf of British Columbia veterans."

"The Board has shown at all times the utmost readiness to co-operate with the provincial government in land settlement, and gave written assurance in February last that where suitable land was prepared by it for soldier settlement by means of clearing or otherwise the Board would take over that land as applied for by soldiers at its appraised value for agricultural purposes."

"In view of the large number of applications for settlement next year which are now in sight the Board has been giving special consideration to British Columbia problems. Commissioner Maber recently returned from an investigation of conditions at Vancouver and Victoria, and a considerable extension of the Board's organization and programme to meet the requirements of the situation is now under way."

## IMMIGRANTS NEED SAILING PERMITS

Officials of the Department of Immigration stated that this order was one confirming a policy already in effect, and was not meant in any way to embarrass intending female immigrants, but rather for their protection.

## MRS. ASQUITH'S WRITING A BOOK

Wife of Former British Prime Minister Penning Auto-biography

Montreal, Jan. 26.—A Special dispatch to the Montreal Gazette from London says:

Mr. and Mrs. Asquith are just now providing what are described as the political and personal sensations of the hour.

The former is making a new move in the political arena, which his enthusiastic admirers predict will bring about considerable changes, and the latter is writing a book which preliminary notices indicate will cause no end of flutter.

Autobiography.

In the London Times appeared a letter saying that a certain firm would publish a book "which is causing a certain sensation."

"As so many silly and spiteful things have been said about it," the letter continued, "I hope you will find space to say that Mrs. Asquith is writing her autobiography. She is not writing her reminiscences at the same time. Old as she is, she would hardly have enough material to use for two lives of herself."

The letter continues: "Of the confidential letters which The Glasgow Herald informs us were found by a politician of his staying in his bedroom in Cavendish Square, Mrs. Asquith knows nothing. They can not therefore form any part of her autobiography."

This letter is signed with the initial D, and its authorship is the subject of speculation, most of which centres around the personality of a young woman friend of Mrs. Asquith, the daughter of a Duke who played a somewhat conspicuous part in London society and who herself has been talked about as preparing her recollections for the press in order to augment an income which for a person of her rank is said to be exiguous.

## GERMANS EVACUATE PLEBISCITE AREAS

Troops Withdraw From Upper Silesia and Schleswig as Agreed

Berlin, Jan. 25.—Via London, Jan. 26.—German troops have begun evacuation of Upper Silesia, the terms of the peace treaty requiring that the movement begin within fifteen days after its ratification.

The first Allied troops are expected to reach Oppeln January 30.

Evacuation will be accomplished by some each of which will remain under a provisional military administration under the inter-Allied Commission. The treaty provides for the occupation of Upper Silesia by a total of 18,000 Allied troops. British, French and Italian troops will be used.

## COULD NOT WORK

Mrs. May Lydia E. Pinkham's Vegetable Compound

Columbia, Pa.—"I was very weak and run down and had dragging-down pains and pains in my back. I could not get around to do my work and had to sit down and rest often during the day. I saw Lydia E. Pinkham's Vegetable Compound advertised in the paper and read the testimonials, so I thought I would try it. Now I am healthier than ever was in my life, and can recommend it to any woman who suffers as I did."

—MRS. ELIZABETH MAT, R.F.D. No. 1, Columbia, Pa.

The reason Lydia E. Pinkham's Vegetable Compound is so successful in overcoming woman's ills is because it contains the long, strengthening properties of good old-fashioned roots and herbs which act on the female organism. Women from all parts of the country are continually testifying to its strengthening, curative influence, and the letter which we are constantly publishing from women in every section of this country prove beyond question the merit of this famous root and herb medicine.

## President of United Veterans' League Is Out for Gratuity

Hamilton, Ont., Jan. 26.—If the Federal Government does not grant the \$2,000 gratuity demanded by the United Veterans' League, J. Harry Flynn, president of the League, told a gathering of returned men here Sunday afternoon that he would organize 50,000 soldiers to march on Ottawa and make a demand for the gratuity. He said it would not be a disorderly mob, but a solid body of men who would present their demand with quiet determination.

President Flynn referred to the Government at Ottawa as "a rotten bunch of profiteering crooks in a den of thieves."

## POINCARÉ TO AID RECONSTRUCTION; NO OFFICIAL POST

Paris, Jan. 26.—Raymond Poincaré, who will retire as President of the French Republic on February 17, desires to devote himself entirely to the reconstruction of the Department of the Meuse, which was a part of the battle zone, and for this reason will not accept a position in the Government for a period of three years, according to The Eclair.

## FEELS IT A DUTY TO RELATE FACTS

Was All Run Down After Influenza; Gains Ten Pounds by Tanlac

"Before I began taking Tanlac I had little or no hopes of ever being rid of my troubles, but to-day I am happy to say I am in perfect health," said Miss Mary Boyd, living at East Delta, B.C., but whose postoffice address is R.F.D. No. 1, Westminster, B.C.

"I have been in bad health for the past two years," Miss Boyd continued, "and then last winter I had a severe case of influenza. When I got up I was worse than ever as I had been left in a weakened, rundown condition. I had little or no appetite and nothing tasted good to me, in fact, even the smell of food sometimes nauseated me. After a meal or rather a few bites gas would begin to form and it pressed up into my chest and caused a choking feeling in my throat. My heart would palpitate so bad I could hardly get my breath. I was so nervous that the rustle of a newspaper would unnerve me and if a door closed to very hard I would jump like a shot had been fired. I had pains in my back so bad that it was misery for me to try to stoop over. I got very little sleep for I was rolling and tossing nearly all night long. My head felt stiff most of the time and I was tired out from morning till night."

"So many people right here in Vancouver were taking Tanlac and praising it so highly that I decided to try it myself. And it is just simply wonderful how it has helped me, why, all my troubles are over and I am feeling as fine as I ever did in my life. I have a splendid appetite and everything I eat agrees with me perfectly. I never have a touch of indigestion and my heart action and breathing are regular and normal. My head feels clear all the time and the pains in my back have all disappeared. I am not at all nervous and am sleeping fine every night. I have gained ten pounds in weight and I feel so much stronger that my housework does not tire me the least bit. I feel it my duty to tell everybody that it was Tanlac that gave me such fine health."

Tanlac is sold in Victoria by D. E. Campbell, corner Fort and Douglas.—Advt.

## ALL COAL MINERS GIVEN INCREASE

United Mine Workers' Check-off Plan Not Carried Out

Calgary, Jan. 26.—Coal operators convening here over the week-end could come to no decision as to a way out of the very embarrassing position they have been placed in by the recent order of the Fuel Commissioner, Mr. Armstrong, that the fourteen per cent increase would be granted only to miners signing the United Mine Workers' check-off. Many of the operators have ignored this order, being compelled to rather than lock out their men in mid-winter and shut down the mines. There are more than 5,000 miners in Alberta who refused to sign the U.M.W. check-off and these men have practically all been given the increase without being asked to sign the check-off. The operators do not care to assume the responsibility of enforcing the order.

## LAND TAXES IN EGYPT INCREASE

Cairo, Jan. 26.—Land taxes in some districts of Egypt have been increased from two to ten per cent, according to an announcement made today.

## DUAL INCOME TAXATION.

Dual income taxation is more than a nuisance to its victims, who, in fact, are disposed to regard it as a species of persecution. But just how British Columbia is to get away from it is a very perplexing question, to say the least. The Dominion Government or the Provincial Government would have to abandon its levy and there are no prospects that this will be done in either case.

The Provincial Minister of Finance thinks Ottawa should call its income tax collectors home from British Columbia, but, obviously, if they were called home from this Province they would have to be recalled from all the Provinces, since the Dominion income tax, like the income tax in the United States or in the United Kingdom, must have a national application or no application at all. If Ottawa abolished its income tax it would have to increase the customs tariff, for income taxation is one of the main alternatives to customs taxation as a source of revenue; but in the face of the growing demand for tariff reduction such an increase would be impossible.

Income taxation is now a plank of every Dominion political party platform. It is conspicuous in the policy adopted by the Liberals at their last convention, as it necessarily has to be in view of the radical reduction of customs taxation that policy calls for, and it is very much in evidence in the platform of the United Farmers, also as a substitute for customs tariff reduction. Indeed, should either the Liberals or the Farmers obtain office in the next election, income taxation will be imposed upon the country much more extensively than at present, although a more scientific and equitable application of it may ease the load.

It is not probable, moreover, that the Business Profits Tax, the statutory period for the imposition of which has come to an end, will be renewed for more than a very short time, if at all, and here again there will be a hiatus in the Federal revenue to be filled. We fear British Columbia's Finance Minister will have a difficult task on his hands in inducing the Dominion Government, whatever may be its political stripe, to abandon what inevitably must become one of the Dominion's chief sources of revenue.

## C. P. R. PLANS.

The announcement of President Beatty to a Times representative to-day, that the Canadian Pacific Railway Company contemplated the erection of new terminals here will occasion much satisfaction in Victoria. He pointed out, however, that the early construction of the joint bridge across the Harbor was a necessary preliminary to those improvements, thereby furnishing our civic authorities with a fresh incentive for prompt action.

What the nature of the new terminals the company proposes to establish will be was not disclosed, but it may be taken for granted that they will be worthy of the big concern with which they will be connected, and will involve a fairly heavy expenditure. This, in conjunction with the new steamship terminal, to be erected by the company at a cost of \$150,000, will comprise an unusually extensive programme of improvements the C. P. R. will have in hand for Victoria, as part of a system which is constantly growing in this part of the world.

## ALL SERENE AGAIN.

The trouble between the Government and the Fort Francis Paper Company has been settled and the newspapers of the Prairie Provinces are assured of sufficient paper for their requirements from this establishment. The settlement was effected after a conference between R. W. Breadner, Paper Controller, and other Dominion officials, and the management of the mill, which is owned in International Falls, Minnesota, an officer of the Royal Northwest Mounted Police being on hand to seize the property on behalf of the Dominion if the conference failed.

The adjustment of the difficulty, by which the Manitoba and Saskatchewan press will be supplied with newsprint, will occasion much satisfaction in the Prairie Provinces, but the incident must emphasize the necessity of an understanding that such a contingency shall not occur again.

If there is to be any curtailment of the use of paper surely it should be by the big dailies in the United States, which have been publishing enormous editions, some of them comprising nearly 200 pages and weighing between two and three pounds for a single copy.

## MORE FOOD DESTROYED.

There is a dispatch from Winnipeg which announces the fact that between six and seven tons of food have been destroyed in the Winnipeg incinerator since January 7 and that the larger portion of the condemned eatables consisted of eggs and apples. It is worth noting, therefore, that while eggs were retailing fairly generally round the dollar per dozen mark, Winnipeg could afford to allow several tons of the fowl yard product to become unfit for human consumption. It will be understood, of course, that produce held under what may appear to be fool-proof conditions will go bad. But reports of wholesale destruction in city incinerators reach the press

of the country with almost monotonous frequency. Is there no system of cold storage inspection? And if produce must be held for trading on profitable margins the poor and needy of the country should be spared the information that the food which would mean so much to them has had to be destroyed wholesale. It is strange that the Winnipeg eggs were scrapped just when the price began to drop.

## THE INDUSTRIAL HOME.

Whatever may have been the conditions at the Boys' Industrial Home when the Grand Jury paid its visit in November last, the judgment of the Attorney-General after his inspection of the institution of Friday cannot be doubted.

We note that Mr. Farris refers in resentful terms to the observation made by the Supreme Court Judge to whom the Grand Jury addressed its presentment, and regards it as unfortunate that so caustic a criticism should have been indulged in without the weight of intimate personal knowledge behind it. This is very natural. But the text of the report upon which Mr. Justice Gregory relied for his conclusions—and upon which he should have been able to rely without the least shadow of a doubt—was couched in terms that would have moved a heart of stone. The Attorney-General, however, has made a more recent visit and he is satisfied with conditions as he found them. That is to say, we presume, that he sees no need for hysteria during the interim that must elapse before the new buildings are ready at Essondale.

Apparently, either the Grand Jury allowed its paternal instincts to be moved too hastily, or the new returned soldier superintendent, who recently took charge of the institution, has been able to show that even with the present accommodation there is no excuse for a condition of affairs such as was charged in the Jury's presentment.

## SIX MONTHS MORE?

Mr. Lloyd George is reported to have told a member of the French Chamber of Deputies that in six months' time it will be his turn to transfer the reins of Government to a successor. The British Prime Minister, however, did not lift the veil far enough. He has left the country wondering exactly what he means by his prediction. Is it to be supposed, for instance, that he will appeal to the electorate in six months' time to test the fate of the present coalition system? Or does he realize that Labor has practically finished its apprenticeship and is now ready for the journeyman's job?

Whatever may be in store for Mr. Lloyd George history will allocate a brilliant chapter to his remarkable career. It will show that the nature of the task he undertook for the sake of his country took him out of parties, away from his early predilections, and fashioned him into a sort of political specialist. None knows better than he that the day of the specialist in British politics is fleeting, and he must regard a return to the party system, in some form, as the inevitable sequel to the conditions which have prevailed during the last four years. But in that renaissance where will his place be?

How do you like this weather, President Beatty? And it's just like this all winter, isn't it, folks? Now then, all together, "yes!"

The British Government is determined to find the culprits responsible for the murder of police officers. Ten thousand pounds reward should test even Irish "republican" loyalty pretty severely.

Pointing out that it is the national interest that ex-Premier Asquith should be elected to the vacant Paisley seat, The London Daily Telegraph is "stepping out" a little. Does this influential Fleet Street daily fear more from Labor than it does from a remodelled Coalition?

When the members of the British Columbia Legislature have digested the Speech from the Throne after its formal delivery by the Lieutenant-Governor on Thursday, it is to be hoped that the speeches in reply will be brief and to the point.

President Ebert and Gustave Noske, Minister of Defence, have lost their suit against the editor of Satyr, a humorous weekly, which had cartooned the members of the cabinet in the shape of different animals, labelling them, "Our Menagerie." At least there is some humor in Germany, if not in the Cabinet.

Hon. Hugh Guthrie, who has been sworn in as Minister of Militia and Defence, was one of the Liberals who abandoned Sir Wilfrid Laurier on the conscription issue and joined the Union Government. He is an able Parliamentarian, has an impressive personality and was regarded at one time as one of the coming men of the Liberal Party.

According to a press dispatch from New York Sophie Hodosky, a waitress, who testified that she received a salary of \$12 a week, was fined \$2 after she had pleaded guilty to violation of the traffic rules while driving her \$4,500 automobile. She told the court she averaged \$80 a week in tips.

## MINISTERIAL SALARIES.

Premier Drury has announced that he has reduced his own salary from the \$12,000 received by Sir William Hearst to \$9,000, an action that will naturally be taken as an assurance of his determination to pursue a policy of economy. The salary of each of the other Provincial Ministers is \$6,000; that of the Premier has for several years been \$12,000. In both cases there is, besides the sessional indemnity of \$1,400. There are reasons why the Premier of a Government should have a somewhat larger salary than his colleagues, but we doubt if good reasons can be given for such a large discrimination as has been marked in Ontario. To give the Premier double the salary of the other Ministers suggests too large a distinction between the duties and responsibilities of the chief and those of his colleagues. The Premier of a Government is first among equals. The large distinction made in the salaries in Ontario assumed a degree of superiority in the premiership that is not in accord with the best constitutional principles.

## HAVE STARTED TO SURVEY FOR BRIDGE ON INDIAN RESERVE

Work Preliminary to Grading of Road Has Now Commenced

Surveying on the Old Indian Reserve in connection with the establishment of a new Johnson Street Bridge has commenced. The purpose of the work at present proceeding under the direction of City Engineer F. M. Preston is to secure information which will be forwarded almost immediately to Premier Oliver, Minister of Railways. The Premier has stated that the work of grading the road across the Reserve, for which the Province is prepared to spend \$50,000, will be started as soon as he is in possession of the figures necessary.

It will be some time before the city will be able to call for tenders for the installation of the bridge, as a good deal of preliminary work must be done. At present Mr. Preston and draughtsmen are attending to various matters of detail in connection with the bridge plans, and it is expected that the City Council will instruct him this week to proceed immediately with the task of drawing up the final design. Meanwhile the Board of Railway Commissioners and Federal Government departments interested in the matter will be asked to approve of the bridge plans.

All parties to the bridge agreement are anxious that the project should be pressed as rapidly as possible. The city and the Provincial Government are co-operating in their efforts, while the C. P. R. has informed the Mayor of its willingness that its engineering department machinery should be used in assisting any way. Judging by the opinions expressed about the City Hall to-day, the civic authorities do not take kindly to the proposal that a consulting engineer should be imported to oversee the installation of the bridge. It is pointed out that plan as embodied in the bridge agreement has been approved by A. F. Proctor, chief engineer of the Provincial Department of Railways by Mr. Motley, the C. P. R. bridge engineer, who is considered one of the best authorities on the subject of bridges in Canada. Moreover, these gentlemen, it is stated, have expressed perfect willingness that Mr. Preston, in whom they and the civic authorities have the greatest confidence, shall draw up the design of the bridge. As a matter of fact, the parties to the agreement control only the fixed spans of the

bridge as the bascule itself is designed by the patentees.

So far the Mayor has not received any reply from the Federal Government to the city's request that part of the \$40,000,000 "dole" be spent to assist in the work of getting out rock needed in the establishment of the viaduct. His Worship is not very hopeful that the Government will agree to this plan, as he was informed during his recent trip to Ottawa that all arrangements had been made for the distribution of the dole and the money could not be diverted to other purposes. "This is a most regrettable thing," the Mayor declared to-day in discussing the matter. "It is a most extraordinary thing, indeed, that the Government should decide to

Government Street—Opposite Post Office

spend the money in this way instead of affording real, useful and productive work which would be not only a direct benefit to the returned men, but would be of use to the country at large. I cannot understand the Government's action at all." The City Council will give the whole bridge question careful consideration at a special meeting on Wednesday evening, when a report framed by Mr. Preston, and published in these columns last week, will be discussed.

## COLD WAVE SWEEPS ACROSS PRAIRIES

Winnipeg, Jan. 26.—With a north wind at fifteen miles an hour and a heavy snowstorm, street car traffic is badly hampered here to-day. Many persons living in the suburbs were forced to walk to work. The temperature was not low, however, only four below zero being registered, the highest in the three prairie provinces.

Cold weather was reported from many points throughout the prairies, with temperatures considerably lower. Edmonton reported thirty below zero, Calgary twenty-six, Lethbridge twenty-five, Saskatoon twenty-four,

two inches of snowfall this Winter. Though the deep snow makes traveling very heavy, the farmers keep smiling. They predict a splendid crop next Summer.

**COMPENSATION COST  
AS LOWEST HERE**

Parker Williams Tells of Administration of Workmen's Act

The cost of paying out each \$100 of compensation to workmen in British Columbia under the B. C. Compensation Board is \$4.39, the lowest of any compensation system in operation anywhere, Parker Williams, one of the members of the Board, told the Federal Labor Party meeting in the Crystal Theatre Saturday night.

Last year \$760,000 was paid out in compensation and \$34,000 was set aside as reserve. More than \$6,000,000 of this reserve fund invested in Provincial Government bonds which yield the highest interest return of securities in that class.

Medical service cost last year was \$289,000. The one cent a day contributed by workmen for medical aid amounted to \$211,000. The difference was made up from the compensation levy.

Explaining the set aside "surplus" which has been vigorously criticized as being unnecessary and necessitating the present high assessments, Mr. Williams said that the Board makes each year's levy upon employers carry all the liabilities of that year. Where pensions are being paid to widows or dependents over a number of years, enough is set aside each year to meet all subsequent demands which originate during that year. If this practice were not adopted, assessments in later years would have to be increased enormously as the pension charge piled up.

Mr. Williams emphasized the advantages workmen and their dependents have in having the Board guard their interests. Common law action against a wealthy employer needs lots of money. Under the Act the lawyers are eliminated, settlements are prompt and compensation paid is much greater than ever before.

**INTIMATE SKETCH  
OF CLEMENCEAU**

Given by Capt. Paul Bion to l'Alliance Francaise on Saturday

An intimate portrait sketch of Clemenceau, "The Father of Victory," was given for the benefit of members of l'Alliance Francaise in the Provincial Library, Parliament Buildings on Saturday evening by Capt. Paul Bion. Capt. Bion served in France as chief of the Intelligence Section of the First French Army Corps and in recognition of his services wears the Legion of Honor, the Croix de Guerre, with palms and stars, and the English Military Cross. His military position brought him into close touch with Clemenceau and gave him many opportunities of studying the great soldier and statesman.

His personal acquaintance with Clemenceau, Capt. Bion explained, dated from 1918, before Clemenceau had become the idol of the Army and of all France.

To make comprehensible the character of the man who did so much to save France in the time of tribulation the speaker went back into Clemenceau's early history. He studied medicine, and from this, perhaps, arose his genius for close observation, his horror of hollow phrases and falseness, his keen analytic abilities, his understanding of humanity and his knowledge of social injustices to the alleviation of which he devoted his life. He was a keen lover of nature. He held that action was the principle and aim of life—constant action—disinterested action, where every man was working in the interests of all. Action is the evolution, the expression of an ideal, he had maintained. "One should love in order to understand; when one hates one is ignorant of all."

Later he entered journalism, owning "Le Libre." His entry into the world of politics was made when he became mayor of one of the districts of Paris, later being elected to the Senate. Here he found opportunity to wage his great campaign against the insidious German propaganda, which was working its way into the Army and creating uncertainty and doubt, and his success in defeating the efforts of the German agents, made him the man of the hour. Reference was made by the lecturer to Clemenceau's work throughout the war and his indomitable spirit which won for him the epithet "The Father of Victory."

At the close Madame Sanderson-Mongin thanked the lecturer on behalf of the audience for the enjoyable and instructive address.

**Presentation \$26.00**  
Tea Sets, from \$26.00

Miss Dorothy Lake, daughter of Sir R. S. Lake, the Lieutenant-Governor of Saskatchewan, who has been the guest of her aunt, Mrs. W. H. Nelson, for some time, left on Thursday for her home in Regina, called by the sudden illness of her father.

Announcement is made in London of the marriage on January 24 of the Duchess of Westminster and Capt. James Fitzpatrick Lewis. Capt. Lewis, who served in the Royal Air Force, is about thirty years of age. He met the Duchess at her hospital in France.

Miss Ethel Boulton, formerly District Matron for M. D. No. 11, left Vancouver on Saturday night for New York, where she will take a special nursing course. Prior to her departure she was extensively entertained at functions given in her honor by Vancouver hostesses.

Mrs. A. H. Wallbridge, Burnaby Street, Vancouver, entertained at three tables of bridge on Friday afternoon in honor of Miss Dawson, of Victoria. The guests were Mrs. and Miss Kelso, Mrs. Charles Meek, Mrs. E. A. James, Mrs. Stephen Wallbridge, Mrs. Edgar Lee, Mrs. George Harrison, Mrs. Walters, Mrs. George V. Fraser, Mrs. Jack Roof, Mrs. F. J. Proctor and Mrs. Mason Rooke.

Despite the inclement weather a large number of members and friends of the Ladies' Musical Club gathered at the home of Mrs. Stuart-Robertson, Belmont Avenue, on Saturday afternoon for the monthly musical tea held under the Club's auspices, and enjoyed the very delightful programme arranged by Mrs. Gideon Hicks. Vocal solos were contributed by Mrs. L. W. Richards, Mrs. Gell and Mrs. F. Waddington; pianoforte numbers by Miss Laddie Watkins and Miss Muriel Grant, and violin selections by Miss Nora Atkinson. At the close of the programme a delicious tea was served, the hosts being assisted in serving by members of the executive.

On Saturday evening at "Breadalbane," the residence of the officiating minister, Capt. the Rev. Dr. Campbell in the presence of a large gathering of friends united in marriage William Arthur Booth of this city and Miss Mabel Estler, daughter of Mr. and Mrs. Harry Estler, of Victoria. The bride, who was given in marriage by her brother, Harry Estler, Jr., wore her travelling suit of navy blue gabardine with becoming hat. She was attended by Miss N. Dutton, as bridesmaid. The bridegroom was supported by H. C. Forrest. Immediately after the conclusion of the ceremony, a pipe of the band of the 67th Battalion, Western Scots, played the Highland Wedding March, and several Scottish airs, concluding with the "Reel of Tulloch Gorm." After a honeymoon spent in Seattle Mr. and Mrs. Booth will make their home in Victoria, where they have a large circle of friends.

A pretty wedding took place at the home of the bridegroom's uncle and aunt, Mr. and Mrs. McIntosh, 309 Henry Street, on Saturday evening at 5 o'clock when the Rev. J. Gibson Inkster solemnized the marriage of John McIntosh Webster, of this city, son of Mr. and Mrs. David Webster, of Fortar, Scotland, and Miss Helen Rowland Jamieson, daughter of Mr. and Mrs. Wm. Jamieson, of Fortar. The bride wore a pretty frock of white silk crepe, trimmed with silk tassels and lace. She was attended by one bridesmaid, Miss Marion McIntosh, who was attired in a becoming frock of pongee silk.

Jubilee Hospital Auxiliary. — The Women's Auxiliary to the Provincial Royal Jubilee Hospital will meet at the Nurses' Home to-morrow afternoon at 2.30 when important business will be discussed.

G. W. V. A. Auxiliary Reports. — The Women's Auxiliary to the Great War Veterans held its regular meeting in the Arion Club room on Friday evening last, Mrs. Ball, the president in the chair. Mrs. Hatcher, convener of the sick committee, gave her report, and Mrs. Ball reported on the social held for the benefit of the sports club. Three new members were admitted to the auxiliary. The monthly social for the members of the Auxiliary and the Great War Veterans will be held on Thursday, January 29.

**COLWOOD INSTITUTE HAS NEW PRESIDENT**  
Mrs. Bickford Retires After Nine Years; Miss Morris New President

After occupying the presidential chair since the inauguration of the institute nine years ago, Mrs. Bickford, president of the Colwood Women's Institute, resigned that office on account of ill-health at the annual meeting held on Tuesday last. The members, to show their appreciation of her long and faithful services, presented her with a short address, congratulating her on the work achieved by the Institute under her direction, and expressing their regret at her resignation. The vice-president then, on behalf of the members, presented her with a pyrex casserole dish with silver stand and cover. Mrs. Bickford in reply expressed her surprise and thanks.

The president in her report spoke of the work they had accomplished in establishing a district nurse, in raising funds to help the hall committee finish the lining of Colwood Hall, and in creating a greater interest in their work among the newcomers in the district.

The report of the secretary-treasurer proved very satisfactory. It speaks well for the energy and perseverance of the members when it is stated that over \$500 was raised during the past year.

**Officers Elected.**  
The election of officers resulted as follows: President, Miss Morris; vice-president, Mrs. E. Peatt; secretary-treasurer, Mrs. W. J. Neal; executive, Mesdames Parker, Hearterbell, J. H. Goodall and Dronsfield.

—use warm water and Baby's Own Soap.

Wash in warm water with Baby's Own Soap—rinse well and dry perfectly—and your skin will be soft and never chaps.

**HORLICK'S**  
Malted Milk for Invalids  
A nourishing and digestible diet. Contains rich milk and malted grain extract. A powder soluble in water.

## SAYS RURAL NURSE- ATTENDANTS NEEDED

Graduate Nurses Are Re-buked by Mrs. J. C. Hanington

Vancouver, Jan. 26.—"As I look out over this vast country and see the loneliness of the women in rural districts I wonder who is wanted most—the graduate nurse or the nurse attendant who will help with family duties—and it seems as if it is the latter."

In these words Mrs. Hanington, superintendent of the Victorian Order of Nurses in Canada, at a meeting of the Vancouver branch in the Board of Trade room Friday afternoon, expressed the sympathy of her audience in the objects of the order. Mrs. Hanington reminded her hearers that being a graduate nurse herself she was free to speak on the subject.

**Graduate Nurses' Object.**  
Granted that the nurse attendant, that is the woman with some nursing knowledge who will also relieve the sick mother of her heavy household duties, is a necessity in rural Canada, "can we get women to train for this work?" asked Mrs. Hanington.

The answer she had received throughout Canada was "No." The graduate nurses had said that they would not countenance the bringing of the English cottage nurse to Canada, but would train their own women.

"If this class of women can not be found must our women go without because the graduate nurses so decide?"

In this way Mrs. Hanington pleaded the cause of the pioneer woman in isolated districts where graduate nurses could not be obtained.

**Red Cross to Help.**  
Mrs. Hanington announced that the Red Cross of British Columbia had made a definite offer to pay for the training of ten nurses in the Victorian Order training school and has further offered to pay for the maintenance of the nurses at the four rural centres in this Province which the order has already established.

The Red Cross some time ago decided to include rural nursing in its peace programme, and after some investigation found that this purpose could be carried out in the most efficient manner by co-operation with the Victorian Order, which has been established here for twenty-five years and further that nurses trained in the V. O. N. centres were best fitted for this work.

Mrs. Hanington in her address spoke of the great call for more public health work throughout Canada, particularly in the rural districts. She spoke of the coming to Canada of the hundreds of young English wives and families of Canadian soldiers, and declared that she had been informed by Dr. Paget of the immigration service that these women and children out of the best class, the very class Canada had been needing and she thought that very care must be taken to see that they did not suffer after they had gone to their homes in rural districts, many of them practically into the wilderness.

All records were broken when 400,000 visitors entered the Western national parks by motor during the past year.

The select committee of the City Council in connection with amendments to the Municipal Act, will very likely recommend that the Council apply to the Provincial Legislature for the necessary authority to remodel the wards of the city. The proposal as it will reach the Council will be for a division of wards according to voters. As it now stands they are divided on a valuation of property.

The Times acknowledges a letter from City Clerk W. J. Dowler expressing the City Council's appreciation and thanks for the "full, fair and uniformly accurate reports of the proceedings of meeting of the Council that have appeared from time to time in The Times during 1894."

Dr. Coward, the trainer and conductor of the famous Sheffield Choir, in his "Reminiscences," says that though Hans Richter was undoubtedly a great orchestral conductor, as a choral conductor he was quite ordinary.

The character of "Mr. Bob," Katherine's girl chum, was assigned to Miss Dora Pease, and though part of somewhat difficult interpretation, it was fascinatingly rendered. Capt. Barrington Foote, as Mr. Brown, and many other aliases, scored a signal success with a path-provoking interpretation of his humorous part. The acting as a whole left nothing to be desired. The characters were all well chosen, and for an amateur company were remarkably well sustained.

At the conclusion of the play, dancing was indulged in until the early hours of the morning to the strains of Mr. Gerald Schofield's Orchestra, and thus was brought to an end one of the most delightful entertainments given in this district.

The gross proceeds amounted to some \$90, and after deducting expenses, the balance will be handed over to the general funds of St. Mary's Parish Church.

Gonzales Chapter, I. O. O. E.—The Gonzales Chapter, I. O. O. E. will hold a sewing party at the Nurses' Home, Jubilee Hospital on Wednesday afternoon at 2 o'clock, when the members will sew for the hospital.

## ATTENDANTS NEEDED

Graduate Nurses Are Re-buked by Mrs. J. C. Hanington

Vancouver, Jan. 26.—"As I look out over this vast country and see the loneliness of the women in rural districts I wonder who is wanted most—the graduate nurse or the nurse attendant who will help with family duties—and it seems as if it is the latter."

In these words Mrs. Hanington, superintendent of the Victorian Order of Nurses in Canada, at a meeting of the Vancouver branch in the Board of Trade room Friday afternoon, expressed the sympathy of her audience in the objects of the order. Mrs. Hanington reminded her hearers that being a graduate nurse herself she was free to speak on the subject.

**Graduate Nurses' Object.**  
Granted that the nurse attendant, that is the woman with some nursing knowledge who will also relieve the sick mother of her heavy household duties, is a necessity in rural Canada, "can we get women to train for this work?" asked Mrs. Hanington.

The answer she had received throughout Canada was "No." The graduate nurses had said that they would not countenance the bringing of the English cottage nurse to Canada, but would train their own women.

"If this class of women can not be found must our women go without because the graduate nurses so decide?"

In this way Mrs. Hanington pleaded the cause of the pioneer woman in isolated districts where graduate nurses could not be obtained.

**Red Cross to Help.**  
Mrs. Hanington announced that the Red Cross of British Columbia had made a definite offer to pay for the training of ten nurses in the Victorian Order training school and has further offered to pay for the maintenance of the nurses at the four rural centres in this Province which the order has already established.

## A BEDTIME STORY

UNCLE WIGGLY AND SAMMIE'S SLIDE.

Copyright, 1919, by McClure Newspaper Syndicate. (By Howard R. Garis.)

There had been a little fall of snow in Woodland, near the Orange Ice Mountains, where Sammie Littletail, the rabbit boy, lived in a burrow, or underground house. The snowflakes covered a smooth, icy patch on the sidewalk in front of the burrow, and Sammie, coming out for school one morning, stepped on the slippery place.

cried Sammie, hurrying to help the old rabbit gentleman get up. "So am I," said Susie. "That's all right," said the bunny rabbit, reaching for his tall, silk hat, that had rolled off in his fall. "That's all right," he said, "I'm not hurt a bit, only shaken up. But if I were you, Sammie, I'd sprinkle ashes or sawdust or something on that slippery place. Some one else might fall, Sammie. "Yes, sir, Uncle Wiggly, I'll remember," said the bunny rabbit. "But just then the school bell rang and Sammie and Susie had to hurry to their lessons without having time to roughen up the slippery slide. "Ho, hum!" said Uncle Wiggly to himself, as he went in the Littletail burrow with the peppermint candy for Nurse Jane. "Time was when I wouldn't dream of having a slippery slide covered with ashes, but I'm getting old!"

Sammie's slippery slide, and when his feet struck the icy place one paw went one way and the other went the other way, and the knee stumbled and tripped and slid and skidded and turned a somersault and a pepper-sault, and he was so kerstroated that he didn't know what to do. And, of course, he didn't get Uncle Wiggly's house, nor Grandpa Goosey's, either. "I guess it's a good thing Sammie didn't unslip his slippery slide," said the rabbit gentleman with a laugh. And Grandpa Goosey said the same thing. So if the rubber boot doesn't get full of water when it goes swimming in the bath tub with the cake of soap, I'll tell you next about Uncle Wiggly and Susie's rag doll.

## DAD! YOUR HAIR IS FALLING FAST

"Danderine" will check that ugly dandruff and stop hair coming out.

To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of "Danderine" at any drug store or toilet counter for a few cents, pour a little in your hand and rub it into the scalp. After several applications the hair usually stops coming out and you can't find any dandruff. Soon every hair on your scalp shows new life, vigor, brightness, thickness and more color.

## NEW OFFICIAL NOW SELECTED FOR FREE TEXT BOOK BRANCH

David Wilson Retired and Superannuated After 32 Years' Service

Two Orders-in-Council passed by the Oliver Cabinet this morning retire and superannuate David Wilson as officer in charge of the Text Book Department and appoint J. L. Watson, a returned soldier, in his stead.

The new official is a native of Bruce County, Ont., with twelve years of teaching experience to his credit in British Columbia. Mr. Watson is a graduate of Toronto University and during his residence in this province he has filled positions in the schools of Nelson, Greenwood, Lynn Valley and as vice principal of the Kitlanho school at the time of his enlistment in the Canadian Forestry Corps in 1916. During his three years' service overseas Mr. Watson rose to the rank of sergeant and has the proud distinction of having been mentioned in dispatches.

Minister's Warm Praise In making the foregoing announcement this morning, the Hon. J. D. MacLenn, Minister of Education and Provincial Secretary, Toronto, in warm terms to the excellent service rendered by Mr. Wilson. He has given the best of his life to the public service of this province, and when he leaves the Parliament Buildings at the end of the present week he will carry with him the good wishes of all who know him.

A Brilliant Record Although Mr. Wilson is five years short of the allotted span, he retains all his vigor and enthusiasm, while in his well-earned retirement he will possess the satisfaction of having taken his share in assisting the educational development of the Province through a long period of years. It is sixty-five years ago since he first saw the light of day in New Brunswick and thirty-five years since he came to British Columbia. His first post with the Department was that of the principal of the boys' school at New Westminster. On completing three years in this position he was elevated to a school inspectorship and for twenty-one years he presided over the inspectorial staff. Eleven and a half years ago Mr. Wilson organized the Free Text Book branch of the Department and from then until the present time he has presided over its activities and developed it to what it is to-day.

The retiring official is a Past Grand Master of British Columbia as his official duties have permitted he is a disciple of Isaac Walton. His retiring allowance from the province is fixed by Order-in-Council at \$1,668.72 per annum.

## CITY NEEDS CIVIC LINKS, BEATTY SAYS

Believes More Courses Would Be Asset to Empress Hotel

E. W. Beatty, K.C., President of the Canadian Pacific Railway believes that a municipal golf links and a great facility which Victoria needs at the present time.

He told this to J. F. Scott, president of the Rotary Club, and W. S. Terry, president of the Empress Hotel on the golf course situation in Victoria.

The president said that the Empress Hotel would be induced to stay longer and to be more anxious to return if the golf facilities here were increased. "Victoria has the climate, but the city does not make the most of it by failing to provide adequate golf accommodations."

## SERGEANT-AT-ARMS NAMED FOR SESSION

Appointments were made by the Oliver Cabinet this morning for the position of Sergeant-at-Arms, Deputy Sergeant-at-Arms, and first assistant.

T. K. Barbour, who filled the post of deputy last year, is advanced to the premier position. M. G. McLeod, last year appointed to the deputyship and Henry Hearn retains the post he has held on two previous occasions, namely, that of first assistant.

Mr. Barbour has an excellent military record. He enlisted in the 88th battalion in September, 1914, and last year is appointed to the post of the following year. He reached France in the early part of 1916 and took part in the engagements at Ypres, Vimy Ridge and at the Somme. It was while serving with the 7th battalion that he was wounded at Hill 70. Following his hospital treatment he returned to France and again got knocked out at Passchendaele. He went back to the front a third time and finally became an invalid case in August, 1918.

Nothing hastens recovery like Anol

The Well-Known Cod Liver and Iron Tonic - Without Oil

It quickly restores appetite and refreshing sleep, then your strength comes back. Your money back if it fails. Get it at leading drug stores.

CHESTER KENT & CO., WINDSOR, ONT. THE ARTHUR SALES CO., TORONTO.

## WHITE MEN CAUGHT IN GAMING HOUSE FORFEIT LARGE SUM

Magistrate Jay Orders Bail Totalling \$1,750 Estimated; Says Men Misinformed

Bail to the extent of \$1,750, furnished by the men caught in the raid on the Cosmopolitan Club on Saturday night, was ordered by Magistrate Jay in the police court this morning when the accused failed to appear to answer the charges. Out of the eighteen men arrested E. Alexander was the only one who appeared in court. He pleaded "not guilty to the charge, and was remanded until Friday morning.

Indictable Offence. The magistrate pointed out, however, that the men were charged with an indictable offence and must appear personally in court. He had no other recourse than to order the bail estimated. The magistrate also ordered warrants issued for the arrest of the men.

As a result of the Court order, Michael Roche and Michael Smith, both of whom were charged with keeping a gaming house, forfeited \$500 each and the fifteen men, Ole Sanburg, Harry Hewitt, John Johnson, Albert Allison, E. Clark, George Fowler, Louis Hansen, Chas. Booth, D. Wilkinson, W. McNeil, E. Freeman, A. Fairclough, E. Lambert, V. McGowan and Hiram Jephson, charged with being inmates lost \$50 each. The bail represented a large number of Victory bonds.

On Saturday night, Police Sergeant Fry with Constables Harper, Forster, Florence, Palmer, Jones, Bishop, Burnett and Forgan gained admission to the Cosmopolitan Club, situated on the second floor over 54 Johnson Street. The police had little difficulty in entering the premises. They found the men sitting around the tables that they were under arrest. A quantity of poker chips, cards and other paraphernalia were taken possession of by the police.

## SAYS ACID STOMACH CAUSES INDIGESTION

Excess of hydrochloric acid sours the food and forms gases.

Undigested food delayed in the stomach decays, or rather, ferments the same as food left in the open air, says a noted authority. He also tells us that indigestion is caused by Hyperacidity, meaning there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation. The stomach much like garbage sours in a can, forming acid fluids and gases which inflame the stomach like a toy balloon. Then we feel a heavy, lumpy misery in the chest, we belch up gas, we eructate sour food or have heart-burn, flatulence, water-brash or nausea.

He tells us to buy aside all digestive aids and instead get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and drink while it is effervescing and, further, to continue this for one week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mucus, start the liver, stimulate the kidneys, and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salt is used by thousands of people for stomach trouble with excellent results.

## STIFF INCREASE DUE TO ORANGES

Lemons Also to Go Up; Cold Weather Makes Eggs Scarce

Wholesale row began to prepare to-day for an advance in oranges and lemons following the sudden rise of \$2 a crate in California. The reason given for the rise in California is the short crop, and the tremendous demand. The increased price has not reached Victoria yet, but will come into effect as soon as the present wholesale supplies are exhausted. It will mean Victoria will have to pay \$2 more a crate.

Grapefruit is the only member of the citrus family not threatening an advance. This is possibly because of the lessened demand over the shortage. Wholesalers in the East, who apparently have been caught with large stocks of grapefruit on their hands, have been advertising the fact that sugar is not necessary to the enjoyment of grapefruit, as salt renders the fruit almost as delicious.

Since the sugar famine began to abate in Victoria during the last few days, local wholesalers have found grapefruit moving more freely. Cold Sends Eggs Up. The little cold spell of the last few days sent hens off on a schedule of restricted laying, with a result that this week opens with eggs scarce and the price up to sixty-eight cents a dozen wholesale. If warm weather returns, the hens will likely immediately become more prolific and price will drop again.

Potatoes are about the same as they were last week, with no offerings from the outside.

## OBITUARY RECORDS

The death occurred yesterday at his home, 972 Walker Street, of Robert Gibson, aged 85 years. He was born in Cumberland, Scotland. He had resided in this city for the past ten years and is survived by his widow, four sons and four daughters, all residing in this city. The funeral will take place on Tuesday at 2 o'clock from the above residence. Rev. J. G. Inksler will officiate. Interment will be made at Ross Bay Cemetery. The following in requested that no flowers be sent.

The death occurred this morning at his home, 730 Courtney Street, of William John Duff, aged 64 years. Born in Ireland, he had been a resident of this city for the past seven years. He is survived by his widow, of this city, three daughters, Mrs. L. O. Bean, Mrs. L. A. Whitley and Mrs. E. A. Jolly, and three sons, A. N. Duff, W. N. Duff and Harry O. Duff, also nine grandchildren all residing in Regina. He was a member of Columbia Chapter Royal Arch Masons.

PERHAPS. A grocery company advertises to "A gentleman, retired, to run grocery store out of city." Rather a rude task to put on a retired gentleman, isn't it? Or, perhaps the competitor who is to be run out is also a retired gentleman.

CASTORIA For Infants and Children. Bears the Signature of J. C. Watson. In Use For Over 30 Years.

## BATON PRESENTED TO POPULAR CONDUCTOR

Bandmaster Miller Honored at G.W.V.A. Concert Last Night at Pantages

As a token of appreciation of his public services to the community in promoting and fostering an interest in good music, Bandmaster J. M. Miller of the G.W.V.A. band was last night presented with a handsome ebony and silver baton from a number of his admirers. The presentation was made by Brig-Gen. Ross, G.O.C., M.D. No. 11, at the Sunday concert last night at Pantages Theatre, a huge audience witnessing the little ceremony and signifying their approval of the testimony to the popular bandmaster by hearty and prolonged applause. The baton bore the inscription "Presented to J. M. Miller, Bandmaster, G.W.V.A. Band, by popular subscription, January 25, 1920," and was accompanied

by an address thanking him for his public-spirited efforts in the interests of the community. Mrs. Miller was also presented with a beautiful basket of flowers by Miss Maude Webb, as a small token of appreciation of her husband's services.

Yesterday being the anniversary of the birthday of Robert Burns, the programme last night was distinctly Scottish in flavor and the audience showed its approval by frequent and hearty applause. Miss Nora Atkinson contributed several violin numbers with much grace and charm. Miss Finlayson, in Highland costume, sang several popular ballads, and Mr. Bert Waude's group of songs was warmly received.

As in previous weeks large numbers failed to obtain admission owing to lack of accommodation, and as on previous occasions the collection was most disappointing to the men who are trying to give Victorians the best in music, a high-class programme is being prepared for next week, the kindly assistance of several well-known artists having been enlisted for the occasion. Would-be patrons desirous of securing reservations for next Sunday are advised to make application early, as all tickets for last night's concert had been disposed of by Tuesday.

## Grove's O-Pen-Trate Salve Opens the Pores and Penetrates

A Remedy for Chest Colds, Head Colds, Sore Throat, Stiff Neck, Earache, Spasmodic Croup and kindred ailments. Apply freely to the skin just over the affected parts and rub it in.

## GROVE'S O-PEN-TRATE SALVE

is also an Excellent Germicide for the Nose and Throat.

It should be applied to the nostrils so that you will be continually inhaling the vapors while in the presence of patients who are sick with contagious diseases, or when you are entering crowded cars or other public places during an epidemic of Grip or Influenza. Any Grip or Influenza germs breathed through the nose are destroyed by this germicide salve before the germs can reach the throat.

## FOR THE SICK

Place One Level Teaspoonful of GROVE'S O-PEN-TRATE SALVE in a hot saucer in the sick room. The Antiseptic Vapor rising from the heated salve makes breathing easy for the patient. It induces sleep and is a great comfort to anyone suffering with Spasmodic Croup, Asthma, Bronchitis, Sore Throat, Coughs, Colds, Whooping Cough, Diphtheria or Pneumonia. The Healing Effect of the Vapor relieves the patient and is very comforting. Price, 35c per box. If your Druggist hasn't any, send 35c in postage stamps to Paris Medicine Company, 193 Spadina Avenue, Toronto, and a full-size box will be mailed to you promptly.

## Survey of Settlement For Returned Soldiers In British Columbia

Statement Is Issued by Federal Board Showing Special Problems of the Province

Ottawa, Jan. 17.—The Federal Soldier Settlement Board has made a survey of settlement conditions in British Columbia and has issued the following statement:

British Columbia is third among the provinces in loans approved for soldier land settlement. To the end of the year 2,299 loans were approved aggregating \$9,391,234. For the whole of Canada the aggregate loans approved was \$55,020,920.

The land problem in British Columbia is acute. Cleared lands are well settled and there are no large stretches of open land making possible immediate returns by new settlers. Vast areas of forest or bush and un reclaimed lands stand formidably between the pioneer settlers and increased agricultural development.

Available Lands. Difficulties were experienced last year in finding soldier settlers suitable locations because of the comparative scarcity of such holdings and their high cost. There are limitations in any national settlement policy to the purchase of highly improved farms, and it is not the policy of the Soldier Settlement Board to extend its machinery for finding and purchase of farms already fully developed, though there are exceptions where farms for the soldiers may be purchased from old settlers who are retiring.

There is a very considerable demand by new arrivals in the province with capital for the purchase of improved farms and this demand places many properties out of the reach of intending settlers who possess only a small amount of cash and buy on a loan basis. To obtain such properties at a wholesale way at prices that will insure the success of soldier settlers becomes increasingly difficult.

Opportunities, however, offer for the purchase of farms suitable for soldier settlers, partly cleared or improved, where the settlers can make a start and continue development operations with the aid of land clearing loans, now to be authorized.

Development Policies. Further progress along broad lines must follow a policy of clearing, reclamation and development such as that inaugurated by the British Columbia Government. The Soldier Settlement Board has laid it down as a basic principle of the Act that its policy is to settle soldiers on lands suitable and ready for agricultural or other productive use, or on lands not suitable without reclamation or development. General or civilian settlement policies might properly take into account the development of such land, and as they are developed, they might be brought within the scope of the Soldier Settlement Act. In view, however, of the necessity for fully developing the unproductive lands in settled districts in Canada and settling soldiers near organized communities and markets and at the same time furnishing sound security for the government's large investment and the settler's success, the policy adopted by the Board is the only justifiable one. The loans advanced by the Board have been on lands in well settled districts presenting all the possibilities of success. The main federal responsibility is the settlement of soldiers. The responsibility for bringing land within the scope of settlement rests with the province and not with the federal body. Development, clearing and reclamation undertakings are within the sphere of the province and require local knowledge and special treatment. The British Columbia Government has inaugurated such a policy and on the success of that policy depends the future development of Federal Land Settlement activities.

The Board has indicated its readiness to co-operate with the Provincial Government in such suitable lands are prepared by it for soldier settlement by means of clearing or otherwise gave assurance that the Board would appraise and take over such land as applied for by qualified soldiers at its appraised value for agricultural purposes.

Provincial Crown Lands. Arrangements have been made between the Province and the Board whereby Crown Lands taken up by soldier settlers may become security for loans by the Federal Board. The same conditions and restrictions will apply to loans on such lands as apply in the case of Dominion lands. Lands totally wild and un cleared and those in remote or isolated localities are not subject to loan privileges. Lands upon which loans are made must be in suitable agricultural districts adjacent to transportation facilities and where there is assured settlement sufficient to make progress possible.

Clearing Land by Settlers. Provision has been made whereby in approved cases the Board may enter into an agreement with settlers for the clearing of land after settlement, who have located upon land partly cleared, sufficient to enable them to make a start in settlement. The agreement will be for clearing on an acreage basis and for a specified period in each case. The amount to be expended will be based upon the increased value of the land by reason of such clearings. Progress payments will be made on inspectors' reports.

Expenditures will be added to the value of the land and may become part of the land purchase loan within legal limits. The Board may make advances from the equipment loan for powder, hand stump pullers or other small clearing equipment necessary.

Purchase of Orchard Lands. The purchase of approved orchard lands, where experienced orchardists are encouraged. The purchase of highly improved orchards of mature trees is discouraged, except by orchardists of Grades "A" and "B" farming experience who have capital investment of their own to cover at least two-thirds the value of the trees. The high price of these orchards places this class of purchase outside the scope of the Settlement Board's regulations. Placing orchards of this character in care of men of limited experience and limited personal investment renders, according to the best advice obtainable, both the success of the settlers and the security precarious. Such settlement should be encouraged only upon holdings of not less than fifteen to twenty acres of good orchard land under irrigation. The Board considers that the future of the settler is much safer in following the policy of small holdings, orchard and choosing the best standard varieties of apples. In buying twenty acres of land and reserving five or ten acres for field crops or mixed farming the settler will incur much lighter liability, enlarge his sphere of operations and insure and improve his chances of ultimate success. Limited holdings of five or ten acres are encouraged. While an orchard is coming into bearing many types of crops such as small fruits, melons, tomatoes, etc., to bridge the period between commencement and full production.

Qualification and Security. Some applications have been made for the purchase of small holdings having on them expensive buildings and which are in the nature of suburban homes, and do not indicate intention of settling mainly a productive occupation. In such cases the possibility of making a livelihood and repaying the loan is entirely problematical, and the Board rules that this class of application is not in accord with the spirit and intention of the act.

The success of every settler depends on his own initiative, confidence and resourcefulness. If he has not these qualities his success of settlement will insure his success. There is greater necessity in British Columbia than elsewhere that the settler must be men possessing the qualities mentioned. The soldier settlement plan is a business proposition which aims to settle men physically and temperamentally able adequately, and the land must be better die after six months than be out to home. I did not have the operation, but returned home. No one was there to meet me at the station, because they did not know I was coming. I felt so bad I couldn't walk farther than 10 yards without resting. It took me 6 hours to walk 2 miles; the distance from the station to my home.

## ECONOMIC FUTURE OF DUTCH INDIES

Dr. Malvor Here Homeward Bound; Distribution of Native Population

The people of the American continent are not aware of the developments which have taken place in the Dutch East Indies during the last few years, and made them a fertile area for a population of nearly 40,000,000 to Dr. A. Malvor, of Batavia, who left Friday on the Empress of Russia for home.

Before leaving Dr. Malvor had a talk with a Dutch representative on the question of commercial development of the islands. He is a government physician, and has resided there for eight years. Dated by birth he states that the Dutch have not hesitated to secure the best administrative officials, and as a consequence the island of Java is one of the best—if not the best-administered country under a European power where there is a large non-European native population.

"It is the very problem of population," he says, "which affords one of the largest obstacles to the development of the Netherlands Indies. The other islands under Dutch control in the East Indian Archipelago, Java, a comparatively small island, has a population of nearly 40,000,000 natives, while the islands of Sumatra and Borneo, which are particularly adapted to the growth of rubber and tobacco, are very inadequately populated. Unfortunately the Javanese are great home lovers, and will not stir from the localities where they were raised, in consequence of which it has been difficult to secure sufficient labor for the plantations in the adjacent islands, while many parts of Java are overpopulated. 'Fertility of soil,' he states, 'has had a drawback in producing violence in the older settled parts, and this creates a serious problem. The Dutch administration has recognized that the Javanese is very conservative, and the progress made while slow, has been effected, because full recognition has been given to the habits of the natives.' Dr. Malvor, who is returning from a visit to Europe, says he is glad enough to be going away from the stricken continent. While most of his time was spent in Scandinavia and the Netherlands, which were the combatants in the war still the countries suffered so materially in their economic development that the condition of hostilities that it will be a long time, in his opinion, before they will resume their normal prosperity.

He states that improved steamship connections between the Dutch Indies and this continent would stimulate the development of trade very effectively.

## VANCOUVER ISLAND NEWS

Wants New School. A. Hope Herd, Secretary of the Courtenay Board of Trade, addressed the Courtenay Council at its meeting on the question of the proposed delegation to Victoria in connection with the new school to the effect that it has been suggested that the proper time for this delegation to go to Victoria was shortly after the opening of the house. It was decided to leave the matter of fixing the date with the Board of Trade and in the meantime the trustees are to submit a report stating how much they consider the district can raise towards the school.

Receives Medal. Henry Brown, son of Mr. and Mrs. J. M. Brown, Hecate Street, Nanaimo, is in receipt from headquarters of Military District No. 11 of a Merit Medal and Star for service at the front in 1914-1915. In forwarding the decoration to Mr. Brown, the Honorable the Minister of Militia expressed his appreciation of the recipient's gallant conduct to which the General Officer Commanding M.D. No. 11 added his own congratulations.

Lumbering Near Courtenay. There is a great boom in the logging business both this side of Union Bay and south, says The Comox Argus.

In addition to the Blondel, Welsh and Stewart Company who have commenced extensive logging operations on a big timber limit just this side of Union Bay the Burrard Inlet Sawmill Company have bought up a large tract of timber at Deep Bay, and have already erected camps and commenced operations to bring logs out to tide water. They are chiefly engaged now in building six or seven miles of logging railway and erecting camps. They have a very fine stand of timber here including some yellow cedar.

The Robert Dollar Company have also a big camp south of Union Bay. The soldiers' settlement contemplated at Panny Bay appears to have fallen through. It is understood that the provincial government officials did not approve favorably of the enterprise.

Other industrial development in connection with Denman Island is also talked of, but nothing has been definitely decided upon as yet.

Presentation. Principal Manser and Mrs. Manzer were presented Friday afternoon with a cut glass compot by the Nanaimo High School pupils on the occasion of one of the Friday afternoon meetings of the Debating Society. The girls won the honors for talking

in a debate on the teaching of music in the schools, the speakers, who belonged to Division 4, being Misses James and Burgess and Emerson Hardford and George Betram. Mr. G. H. Beattie was the judge.

Ladysmith Eagles. The regular meeting of the Fraternal Order of Eagles was held at Ladysmith Thursday evening, with the worthy president, Bro. F. Wright, in the chair. One of the chief points of interest was the reading of the names of eleven applicants for membership in the order.

During an "at home" presentation was made to Brother Matthew Nimmo of a finely engraved gold locket and an illuminated address.

To Open With Lecture. Through the courtesy of the Bastion Chapter, I.O.O.F., the Nanaimo Public Library will be opened with the first of a series of six lectures which the chapter has arranged in connection with the extension course of B. C. University. The lecture will be given by the librarian of the University on the value of a library to the community, and is being arranged for the first week in February.

Strength Will Return To Weak People Using This Treatment

Your are discouraged. You feel old and worn. You are sick, but not aware of the fact. You can drag yourself around—but work is impossible. With your stomach crying out for assistance and the nerves all on edge why not try Ferrozone?—it will surely do you good.

Ferrozone is a wonderful combination of vegetable extracts, fortified by excellent tonics for the nerves and stomach. When you feel despondent, Ferrozone cheers you up. When languor and oppression weigh you down, Ferrozone braces you up.

When sleep is impossible Ferrozone calms the nerves and gives you rest. For bounding health, good looks, good spirits, nothing equals Ferrozone; makes the weak strong and the sick well. Good for men, women and children; try Ferrozone, it can work wonders, as it did for Mrs. Mary Meisong of Harbor Bouché, N.S., who writes:

"Ferrozone built me up. Before using it I scarcely knew what good health meant. I was just as miserable and weak as any woman could be. Tired from morning to night, bothered by trifles, unceasingly nervous. The first box of Ferrozone improved my blood, gave me appetite. In a short time I was like a new person. Now I rejoice in abundant good health."

Try Ferrozone. It will make an unexpected improvement in your looks, your feeling, your health. Whether anemic, nervous or suffering from secret disorders—if you want cure, use Ferrozone. Price 50c per box, or six boxes for \$2.50, at all dealers or direct from The Cattarose Co., Kingston, Ont.

IN HEALTHY CONDITION Greater Victoria Building Society Held Annual Meeting—W. Marchant, President.

William Marchant will act for a second term as president of the Greater Victoria Building Society. He was re-elected at a meeting of the directors which followed the annual meeting of the society held on Saturday evening in the Winch Building. A. E. Mallett was elected vice-president, and T. J. Goodlake, secretary-treasurer. Tait & Marchant will continue to act as solicitors, and E. Fairley is to be the valuator. William Scowcroft and C. Dodd were appointed auditors.

The board of directors for the ensuing year will consist of the following: W. Marchant, A. E. Mallett, W. J. Barker, A. E. Brindley and L. E. Gower.

The reports of the directors, secretary and auditors for the past year, which were adopted, showed the affairs of the society to be in a very healthy condition. Ruther Wilson won the fifth drawing for the right to a loan of \$2,000.

THE SLIDE TROMBONE. The Slide Trombone is, without doubt, the oldest instrument still existing in its primitive form. All others have undergone remarkable changes, some of them even in recent years. The violin has been developed from the viol; the flute has been given keys and blown at the side instead of at the end; the trumpet and French Horn have been supplied with valves; the piano has been developed from the Dulcimer (borrowing) the keyboard of the Harpsichord and the

## There Is a Vast Difference in Human Teeth

It is the duty of the skilled dental practitioner to see that, in replacing defective teeth, they match the originals so that the appearance and the utility of the mouth will not be affected.

Our "Natural" teeth, whether used in bridge work or partial plates to replace a few defective teeth, or in a complete plate, are skillfully selected in color, size and shape to match the originals that nature gave you.

"Natural" teeth have no peers. They are made for use, you can bite, masticate, use them just as you did the nature-grown teeth.

Every Bridge, Plate or Partial Plate Is Guaranteed for Ten Years

Too, all of our work is absolutely painless; there is no discomfort, no nerve strain, no shock, or bad after effects.

All Extracting for Artificial Teeth Is Done Without Charge

We will be very glad to have you call for a free consultation and examination.

### BRIEF LOCALS

**Musical Success.**—The following pupils of Miss E. Rowe, A.V.C.M., passed in the honors section in the art of pianoforte playing at the fall examination held last year; the results having just come in: Preparatory grade, Jean Brogan, 95 points; primary grade, Gladys M. Hutchison, 98 points; Kathleen Mary Collins, junior grade, 87 points; Sarah Thompson, junior grade, 88 points. The Local Secretary, A. Longfield, F.V.C.M., conducted the examination.

**Public School Magazine.**—Announcement is made in the January issue of the Public School Magazine, which is now on the news stands; that A. A. Campbell, principal of South Park School, has been appointed to succeed Harry Charlesworth as business manager of the paper. Mr. Charlesworth recently resigned to become organizing secretary of the British Columbia Teachers' Federation. The magazine expresses the keenest regret at his departure. The January number is a very interesting one in many respects, and contains figures showing the standing of various athletic teams in the competitions under way.

**Lecture on Comets.**—At a public lecture under the auspices of the Royal Astronomical Society, Mr. W. E. Harper, F.R.A.S.C., will speak on "Vagabonds of the Heavens" in the Girls' Central School, Fort Street, on Tuesday, at 8 p.m. Comets have always had an interest for the ordinary person inasmuch as they can be studied with the unaided eye. The belief that they presage wars and pestilences has almost died out, yet some still regard them with apprehension. The speaker will give in simple language the chief facts known about the vagabond visitors, illustrating his remarks with photographs of some of the most remarkable ones. The public is cordially invited.

### Frontiersmen's Gathering.

On Saturday evening the members of the Victoria Squadron of the Legion of Frontiersmen held a very enjoyable gathering in the Arion Club. Major Longstaff, who has been appointed as organizer and administrative staff officer of the Legion for British Columbia, gave a very interesting address in which he outlined the aims of the legion and indicated plans made for its re-establishment. A splendid musical programme was given.

## POLICE SMASHED IN WALL OF OPIUM DEN

### Unable to Enter by Doors; Six Chinamen Arrested; Fined \$15 Each

Unable to break open the strong doors of a suite of rooms on the second storey of a building situated at 1617 Store Street, Police Sergeant Fry drove a twelve-pound hammer through the wall, using the aperture as a peep-hole the officer watched a number of excited Orientals rush about the rooms, open a window and commence to throw opium-smoking paraphernalia into a back yard. Sgt. Fry then instructed his squad to tear a hole in the wall sufficient to make an entrance. Six Chinese were caught by the police and booked on charges of being inmates of an opium joint.

The men were arraigned in the police court this morning and all pleaded guilty. Sgt. Fry told the circumstances connected with the case, and Magistrate Jay fined each of the men \$15 and costs.

Sgt. Fry took with him Constables Burnett, Pook and Raines. The barred doors to the den were tried. They were found to be too strong to be crushed beneath the blows of a sledge-hammer so the police devised a new means of forcing an entrance. The hammer was sent crashing through the wall. As soon as the Chinese heard the hammering they leaped from their bunks and attempted to clear the den of all smoking paraphernalia.

## LETTERS

Letters addressed to the Editor and intended for publication must be short and legibly written. The Editor will accept the chance of insertion. All communications must bear the name and address of the writer, but not for publication unless the owner wishes. The publication or rejection of articles is at the entire discretion of the Editor. No responsibility is assumed by the paper for MSS. submitted to the Editor.

**CENSORSHIP AT THE PUBLIC LIBRARY.**

To the Editor:—Mr. J. A. Shanks, in announcing his candidature for a place on the Board of Library Commissioners, complains that the censorship of books admitted to the library "has been altogether too tight," that "these people" (presumably the commissioners) have tried to dictate what the people should read, and that the Board have even refused to pass such a well-known work as Hall Caine's, "The Woman Thou Gavest Me."

In the division of labor adopted by the Board there has fallen to me the responsibility for the purchase of books, magazines, etc. That responsibility has been rendered much lighter by the ready assistance of our able and discriminating Librarian, Miss Helen G. Stewart. Throughout the seven years that I have served in that capacity perhaps half a dozen complaints have been received against the leniency of my censorship. In most instances a closer investigation showed these complaints to have been well-founded. The offending books were accordingly removed from the public shelves, and the complainants thanked for their assistance in maintaining a worthy service.

Sometimes I have been unable to sympathize with the judgment of my critics. In one instance, at least, I fear that I have forfeited for all time the good opinion of a respected citizen through my utter obtuseness to the immorality of the books of our well-beloved Robert Louis Stevenson, and my consequent refusal to order them removed from the shelves.

This is the first time I have heard complaints against the rigidity of our censorship. Criticism is valuable in proportion to the degree of knowledge behind it. The value of the present complaint may be measured by the fact that before "The Woman Thou Gavest Me" was published, five copies were ordered, and on their arrival were placed on our shelves for circulation.

## PIONEER ENGINEER WILL RETIRE SOON

H. J. Cambie's Withdrawal Will Sever Link With Early Construction Days

Members of his own profession, and a very wide circle of friends in British Columbia will learn with regret that the pioneer engineer of this province, Henry J. Cambie, will shortly retire from active service of the Canadian Pacific Railway.

Of late years Mr. Cambie has been a frequent visitor on the Island with Mr. Marpole, on inspection tours of the Esquimalt and Nanaimo Railway. He is as well known on Vancouver Island as throughout the Mainland.

One of the last men in harness of the gallant pioneer band of surveyors, geologists, and engineers who helped to locate the route of the Pacific railway through British Columbia, his association with British Columbia goes back to 1874, when he came from the Intercolonial railway, Lake Sir Sandford Fleming, and Sir Collingwood Schreiber, Mr. Cambie received his education in the Old Country, and came to the Dominion at an early age. He was first engaged with the Grand Trunk Railway from 1854 to 1861, and then for three years acted as a surveyor in Ontario. Returning to railway work in 1864 he was associated with the Intercolonial and other Maritime province railways until he came west in 1874.

He was active for several years in the surveys for the Pacific Railway, and in 1880, when the new company was formed, out of which grew the present organization, he was placed in charge of construction. On the completion of the C.P.R. he became divisional engineer, remaining in that position until 1902. Since 1902 he has been consulting engineer, and in spite of advancing years, Mr. Cambie has always taken an active interest in railway matters today.

## SAMUEL M. ROBINS DIES IN ENGLAND

For Many Years Manager of Vancouver Coal Company - Mines at Nanaimo

Cambie, consulting engineer, two of the oldest officials of the company, were anxious to retire from active service.

"Mr. Marpole is at present in California because of his health," said Mr. Beatty. "I expect, however, that he will resume his duties when he returns from the South. He wants to retire, however, and to move to Victoria to live."

"Mr. Cambie has for some time been anxious to be relieved of his duties. This has been granted him, but we are to still have his services in a consulting and advisory capacity. No one appreciates more than I do the exceptional work done for the company by these two men during the long period they have been associated with Canadian Pacific activities in British Columbia."

## BITRO-PHOSPHATE IS GOOD FOR THIN NERVOUS PEOPLE

A PHYSICIAN'S ADVICE.

Frederick S. Kelle, M. D., Editor of New York Physician, writes: "What I say is that weak, nervous people who want increased weight, strength and nerve-force, should take a 5-grain tablet of Bitro-Phosphate just before or during each meal."

This particular phosphate is the discovery of a famous French scientist, and reports of remarkable results from its use have recently appeared in many medical journals.

If you do not feel well; if you tire easily; do not sleep well; or are too thin; go to any good drugist and get enough Bitro-Phosphate for a two weeks' supply at only fifty cents a week.

Eat less; chew your food thoroughly; and at the end of a few weeks you do not feel stronger and better than you have for months; if your nerves are not better; if you do not sleep better and have more vim, endurance and vitality, your money will cost you nothing. Bitro-Phosphate will cost you nothing.

## OUTLINES IMPORTANT BUILDING PLANS FOR COMPANY IN VICTORIA

(Continued from page 1)

**Up-Island Extensions.**

Mr. Beatty said that the C.P.R. is to push on the extension of the line and line from near Alberni to Great Central Lake. Right-of-way work is now going on there. The extension from Courtenay to Campbell River will not be undertaken this year, however. Surveys are now being made and plans completed covering this year, and when they are completed a decision will be announced as to actual construction.

This is the second trip Mr. Beatty has made over the Western part of Canada to fight the appeal of the presidency. He will return to Vancouver by the midnight boat to-night. Accompanying him are D. C. Coleman, of Winnipeg, vice-president, and J. E. McMullin, of Vancouver, solicitor for the company.

**Pioneer Officials Retiring.**

The President said that Richard Marpole, executive agent, and H. J.

## We Have Sold For 25 Years

# The GERHARD HEINTZMAN

(Canada's Greatest Piano).

In that time we have introduced hundreds of them into the homes of Vancouver Island. In the conservatories of music, the leading hotels and theatres in Victoria or elsewhere in the Dominion, the Gerhard Heintzman Piano is invariably the piano you will find. Indeed, it would be safe to say that in many sections you will find more Gerhard Heintzman Pianos than all other makes combined.

This tremendous popularity of the Gerhard Heintzman is a tribute to its greatness—a significant fact that should prompt you to consider this instrument if you are about to invest in a piano.

## Fifty-Five Thousand Watch Aston Villa and Woolwich Arsenal Play

Twenty-Seven Thousand People at Huddersfield See Home Team Draw With Spurs

London, Jan. 26 (Canadian Press)—There was an attendance of 55,000 at the Arsenal-Aston Villa match at Highbury on Saturday. Stephenson scored for Aston within the first twenty minutes, the team showing better class throughout. Arsenal played without Rutherford and Buckley Lewis retired injured. West Bromwich, whose defeat in the cup in the first round caused something of a sensation, had little to spare against Manchester United. West Bromwich pressed hard from the start, Bowser and Morris scoring before half time. The United, with the wind in their favor, played capitally later, but Woodcock scored just before the close. Sheffield spectators were roused to enthusiasm by Wednesday's performance against Burnley. Wednesday's victory was one of Saturday's surprises. Gill scoring in the first half and Welsh getting two after half time. Notts County suffered their first defeat at home this season when meeting Preston. The attendance numbered 15,000. The visitors displayed sound combination. Roberts scoring within twenty minutes and McLeod equalizing before the interval. Richards, Notts' left wing, sustained a broken ankle and Miller, of Preston, was also carried off the field but resumed later. Roberts kicked the deciding goal in his absence. Liverpool gained an easy victory over Bolton on Saturday's grounds before 20,000 spectators. Bolton was outplayed throughout. Lacey scoring for Liverpool within five minutes and Fuller and Brownlow registering goals later. Among the scheduled fixtures, Tottenham's visit to Huddersfield enticed an attendance of 27,000. Huddersfield are generally considered to be Tottenham's toughest rivals. There was nothing to choose between them yesterday until the last quarter, when Huddersfield took the lead within fifteen minutes of the close of the game. Westham, securing two points at Bury's expense, certainly deserved their narrow margin victory, the game being additionally interesting seeing that these teams meet again in the cup contest next Saturday. Kay scored ten minutes before the change over. Blackpool at home secured all three goals against Clapton in the final five minutes. Fulham shaped poorly against Wolverhampton in the first half, but walked over them later, only a couple of brilliant saves by Peers preventing them from snatching the victory.

London, Jan. 26.—Old Country football results Saturday were as follows: First Division.

- Woolwich Arsenal, 0; Aston Villa, 1.
- Blackburn Rovers, 3; Bradford, 3.
- Bolton Wanderers, 0; Liverpool, 3.
- Bradford City, 2; Chelsea, 1.
- Derby County, 2; Sheffield United, 1.
- Everton, 0; Newcastle United, 0.

## DANCE WITH LORRAINE

Classes 2-5 p. m., Evening, 7-9. Phone 975. Nicest Ballroom in the City. Lorraine Dancing Academy. Pandora & Blanshard.

HAS LEFT VICTORIA

DAI THOMAS

former Welsh international rugby player with a great rugby record and also many track honors won in the sprints, has taken up his residence in Vancouver, according to The Vancouver Sun. At the beginning of the season Dai sought his amateur card with the intention of playing with the Foundation team, but the shipbuilders failed this year to make a start in the competition. The Knights of Columbus team in Vancouver were also in search of his services as coach for the team in the Vancouver league. Dai tells a Vancouver scribe "Combination and clean passing are the main factors in playing the game successfully, and I would like nothing better than to turn out with the Vancouver boys and give them the benefit of anything I have learned while playing in the international." Those who remember Thomas as he appeared on the old Welsh team which carried everything before them in Victoria, bowling over a whole line by himself and taking the length of the field at a pace that no one could keep up with, will regret the departure of the veteran of the game.

## PLAYED GOLF THROUGH STREETS OF LONDON

London, Jan. 25.—Driving a golf ball through the streets of London is a remarkable feat which was recently accomplished. The player drove off on a particularly damp and dreary morning at Piccadilly Circus, went via Lower Regent Street, Pall Mall, the lower side of Trafalgar Square, the Strand, Fleet Street, Ludgate Hill, round to Queen Victoria Street, "holding out" at The Lamp at the Royal Exchange. No damage was done, the few policemen about smiled good-humoredly, and the golfer won his wager.

## PATRICK PREFERS MANAGERIAL ROLE

Will Not Don the Blades Again in Coast Tilt Unless Crisis Occurs

Manager Lester Patrick will not jump into the fray at Vancouver tonight unless some unforeseen circumstances make it necessary. With the large number of Victoria fans who called for his re-appearance delighted with the showing he made last Friday, and ready to give the manager the lion's share of the credit for the victory there will be some disappointment that the team's pilot will not get back into a uniform regularly.

Still Right There. He showed that he can use a stick and take a pace as ever he did, and his checking and brilliant rushes were one of the many bright features of Friday's great game. Lester, however, has not kept in training as must a regular player, and prefers to let the fate of the capital city team rest in the hands of the nine players he has signed up to do nothing else but play hockey.

Lots to Do. The burden resting upon the team pilot is no light one, and Lester feels with that end of the responsibility to carry, he is due for a rest from the playing end. Although the manager declares he is out of the game as far as playing it is concerned, the old lust for battle is liable to get him again should the team strike it unlucky. What a difference in the team work and defence strength of the aggregation is forthcoming with the presence of the brainy manager on the ice was demonstrated in the last tilt. But said Lester decidedly after his re-appearance, "I have nine young players who look good enough to run through, and I don't want to get into the game at all."

Hockey is Popular. Hockey is making great strides in popularity this year both in Canada and the United States. University students of the U. S. A. are taking to hockey in the winter as they take to the gridiron game in its season and the game looks like becoming as popular across the border line as it is in its home country. Nearer home the Metropolitan and the Vancouver teams are drawing a greater number of spectators than in any previous year. The Seattle rink is usually sold out of tickets ahead of the day of the game although the fans following the fortunes of the United States team have to pay more for their pleasure. The fans in the Sound city are reported to be the most enthusiastic on the loop, but they certainly have to show a lot of enthusiasm to beat the Vancouver supporters.

Is Worth Goals. As soon as the whistle blows for the commencement of the fray in Vancouver the fans rise on their toes and the excitement begins. They are no impartial crowd and the home players get encouragement equal almost to a couple of goals in hand in its effect on the purchasers wearing the Vancouver colors. Seattle supporters also do their best to win the game from the bleachers.

Like Prohibition. Among the Seattle thousands that line the rails are many who become hockey fans in the East, where the natural ice available together with the fascination of the fastest game played has made hockey the premier sport. Victoria did not have the largest crowd Friday night, but the fans were all there with the enthusiasm. It was one long string of encouragement that came from the rails to the home players, all of which is an incentive for the team to put every-thing players have into the game.

## CROWD ENTHUSIASTIC AT BASKETBALL TILT

Saturday's Games in Sunday School League Games at Y. M. C. A.

Saturday's results in the Sunday School Basketball League were as follows: Intermediate—St. Andrew's, 24; First Presbyterian Midgets, 22.

Teams. St. Andrews—D. Smith, H. McLean, E. Squire, A. McIntyre, A. Main. Midgets—J. Gosse, A. Bird, B. Nachtrieb, E. Brackenridge, F. McGregor. Intermediate. Christ Church, 31—J. A. Christie, J. Bothwell, H. Symons, A. Fox, G. Anthony. St. Mary's, 18—K. Price, G. Brandon, R. Richards, L. Lorenz, C. Allan, W. Davenport. Senior.

In the Senior League Belmonts continued their winning streak by trouncing the St. Mary's team 38 to 20. St. Mary's made a bold attempt to tie the score on several occasions, but were weak in shooting ability. "Tiny" Marshall and Bidlake scored some fine baskets for St. Mary's, while Parfitt and Wilkinson were Belmont's leading scorers. Belmont took about one of the fastest teams in the league, and some good games are expected when they meet the Mets, Crusaders and First Presbyterians. Belmonts—Wilkinson, Brindley, Parfitt, Batrick, Jones. St. Mary's—Cunningham, L. Fatt, Tiny Marshall, G. Bidlake, Brynjolfson.

The final game was between Congo-Centennial and First Presbyterian Veterans, the Congo-Centennial winning by 52-13 after a hard game. Veterans—Shedden, Kenning, Carteret, Harrison, Butler. Congo-Centennial—S. Matthews, J. McEwan, B. Leigh, J. Ferris, Bob Smith. A large and enthusiastic crowd of "rooters" were present Saturday evening, the Belmont-St. Mary game providing the most exciting game of the evening. Art Hole, Bert Wilkerson and Earl Dickson acted as referees.

## BRUNS WILL LIVE ON OTHER SIDE OF POND

Vancouver, Jan. 26.—Tommy Burns, ex-heavyweight champion pugilist, is going to invade the Old Country, and will probably take up his permanent residence abroad. Burns, who since his discharge from the Canadian forces, has been making his residence in Vancouver, stated today that he had booked passage on the steamship Adriatic, sailing from New York on February 14, for Liverpool. The former champion expects to locate in London or in one of the leading Irish cities.

## WISE BEAT CROSS.

Montreal, Jan. 25.—Straight left, jab to the face and a smashing right uppercut to the jaw gave Al Wise, of New York, the edge over Young Leach Cross, also of New York, in their ten-round bout here on Saturday night. Both finished strong.

ADVERTISE IN THE TIMES

### BASKETBALLERS HAD GREAT TIME AT SOOKE

Beat the Home Team Saturday and Enjoyed Duck Hunting Sunday

Victoria All-Star basketball team defeated Sooke on Saturday after a fiercely contested but clean game. In the first half Victoria just held their own, the small hall bothering them considerably. On resuming play Victoria brought all their skill into play to keep the lead, Sooke fought to the last ditch causing lots of excitement for the fans. The Sooke supporters could be heard for miles every time Sooke netted a basket, but Victoria managed to win by a small margin. The front of the Hall was black with motors, about eight cars arriving from Jordan River loaded with fans.

After the game a dance was held at the Sooke Harbor Hotel, about sixty couples staying for the dance which was voted the best yet. The Newitt Jazz Orchestra from Victoria supplied the music. After the dance everybody sat down to supper. The boys are loud in their praise of the fine treatment accorded them and are looking forward to another trip in the near future.

Considering the weather the roads are in very good condition, the trip being made in one and a half hours. The Victoria party stayed over Sunday and had a days shooting, returning with a good bag of ducks.

The teams were as follows: Sooke—Caines and Wilson, forwards; Wright, centre; Lennon and Acreman, guards. Victoria—Brown and J. Peden, guards; T. Nute, centre; White and T. Peden, forwards.

### FIGHTER SHOT IN CRITICAL CONDITION

New York, Jan. 26.—Willie Lewis, former middleweight pugilist, accredited with having brought Georges Carpentier, the French champion, to the fore, was shot three times by an unknown man in a cabaret here tonight. He was taken to a hospital, where he is in a critical condition.

### WOUNDS PUT WILLIAMS OUT OF PADDED CIRCLE

Toronto, Jan. 26.—Fred Williams of Brampton, Ont., former amateur boxing champion of Canada in his class, will not be able to box again. Following wounds received in the great war while serving with the 33rd Canadian Battery, he has had one of his feet amputated at the Western Hospital here.

**The MIRACLE MAN IS COMING.**

### COMING BACK TO RING

SCOTTY MCKAY

who before the war was one of the smartest 135-lb. performers seen in Victoria rings, having received his amateur card which was taken away for a time through a breach of the amateur rules, will probably be seen in action at the next bouts held in Victoria. The fight fans will give a great welcome to a former favorite when Scotty dons the spangles again. He is a clean fighter and a speedy worker with a lot of ring science, and always got a good reception. McKay will fight at 135 lbs., and intends to get into training so as to be prepared to make his appearance on the next card drawn up.

### RUGBY MEN SUPPLIED ONLY GAME SATURDAY

After sending on a dog to drive the seagulls from the quagmire the Wanderers and the V.I.A.A. braved the snow, the mud and the cold, and staged the scheduled rugby fixture at Oak Bay Saturday. The V.I.A.A. and the James Bay men looked things over and lost their lust for battle. Less than fifty spectators were on hand to see the thirty enthusiasts who provided the excitement. The state of the ground was against the best class of rugby, but the Wanderers with the strongest team they have yet fielded, accomplished the expected when they bagged the points. They scored eleven tries and whitewashed the Island Club.

### SNIPERS BEAT THISTLES

In the Junior Hockey League game at the Arena Saturday afternoon the Snipers beat the Thistles by a score of six to nil. Moody, 2; Goodacre, 1, and Wright, 3, were the scorers. The teams were:

Snipers	Position	Thistles
C. Geiger	goal	H. Champion
D. Carney	defence	C. Allan
H. Goodacre	defence	E. Dyoon
J. Wright	rover	C. James
J. Adams	centre	J. Christie
F. Sutton	forwards	J. Renfrew
F. Moody	wing	R. Ditchburn
E. McNaughton	utility	H. Burnett
Timekeeper, K. F. Geiger; referee, Russell Oatman.		

### ELKS MUST WIN TO-NIGHT OR LOSE LEAGUE LEADERSHIP

Keen on Beating Only Team Whose Colors They Have Not Lowered

The Elks, league leaders in the amateur hockey series, will be out with a greater ambition to-night to win than they have had in any other fixture. When they face the Senators they face the only team whose colors they have not been able to lower, although the Elks are on top and the Senators in the cellar. The septette Buck Irwin leads must also win the game to retain the league leadership, as a loss will mean that either the Two Jacks or the G.W.V.A. at member level for second position, will tie with the antiered septette for the top place.

The G.W.V.A. and the Two Jacks, who provide the second argument of the night, are evenly matched. They have met twice before each team winning once.

### DIBBLE MAY TURN PRO

Toronto, Jan. 26.—Lieut. "Bob" Dibble, amateur rowing champion, may turn professional this coming season, and if he does, he has been promised a match with Eddie Durnan, professional titleholder. Dibble who is a veteran of the great war, has held the amateur championship for six years, having defeated Everett Butler of Toronto, for the title at the Canadian Henley. He once aspired to be the winner of the Diamond Sculls, but was defeated in the semi-final heat by Singlicia, the Italian winner of the trophy. Durnan is a nephew of the late Edward Hanlon, the most noted oarsman of his day and former world's champion.

### LOCAL SCHOOL GETS SHOOTING TROPHY

Boys' Central Cadet Corps Receives Cup for Dominion Championship

Word has been received by Major W. J. Wilby, M.C., with bar, instructor of the Boys' Central School Cadet Corps, that a rifle team of that unit won the public school championship of Canada in a shooting competition shortly before the outbreak of war. Owing to a clerical error the rifle team was not notified of success immediately after the competition, and when hostilities commenced the matter apparently was forgotten. Major Wilby on his return from overseas got in touch with the Militia Department at Ottawa and, as a result, was notified that the Central School had captured the first prize. Last week the trophy—a handsome silver cup—was received in the city.

### SPORT BRIEFS

Toronto, Jan. 25.—President McCaffery, of the Toronto baseball club, announced to-day that Third Baseman "Billy" Purcell, who has been a member of the Toronto International league for three years, has been sold to the Oakland club, of the Pacific Coast league.

New York, Jan. 25.—Pal Moore, of Memphis, Tenn., bantamweight pugilist, who defeated Crique, of France, in London, on Boxing Day, arrived here yesterday on board the Cunard liner Royal George from Southampton.

Toronto, Jan. 26.—Hockey history repeated itself here Saturday night when the Ottawa Northern Hockey League team lost to St. Patricks, the score being 5 to 2. The Senators are out wined with the Canadiens for first place and the schedule favors them to win the first half.

Lake Placid, N. Y., Jan. 25.—Injuries which Charles Jewtraw, eastern amateur skating champion, sustained in a race here a week ago, will prevent him from participating in the national amateur championship at Sarnac Lake, next Tuesday, Wednesday and Thursday.

Toronto, Jan. 25.—"Bobby" Ebor, of Hamilton, Canadian bantamweight champion, has signed articles to box Teddy Joyce, of Toronto, ten rounds at 118 pounds, at a boxing tournament to be held here next Friday night under the auspices of the Army and Navy Veterans. Both boxers are mere youths, each being under 19 years, and are the youngest boxers to contest for a title in Canada.

Quebec, Jan. 25.—Playing brilliant hockey from start to finish Saturday night, George Kennedy's Canadiens defeated the Quebec Athletics, 8 to 4, and thereby tied with the Ottawa Senators for the leadership of the National Hockey League.

Calgary, Alta., Jan. 26.—Mrs. Lund, of Red Deer, won the Noble trophy, and Mrs. Williams, of Calgary, won the ladies' consolation. It is expected that the remaining ten events of the provincial bospital will be completed by Wednesday or Thursday.

### NELSON BONSPPEL

Nelson, B.C., Jan. 26.—While none of the events in the bospital of the British Columbia Curling Association has yet been completed, two have gone to the semi-finals, the Grand Challenge and the Boundary Trophy. The former is already assured to Nelson and the six remaining rinks in the running are all local. Play is proceeding in the Nelson,

### NEWS AND NOTES OF THE MINES

**Amethyst Group.**  
Word has been brought down that additional stripping on the Amethyst group, Phillips Arm, has disclosed what may prove to be a new quartz vein running nearly parallel and within a few feet of the other ore deposit. This work shows this quartz to be eight feet wide and no footwall has been encountered. Float quartz found near here in 1909 assayed 430 in gold. In 1901 gold returns were obtained from ore in place on the beach giving \$20 gold. Most of the work has been done on the south vein, from which some 100 tons of ore is now in the bunker on the beach ready to ship. This ore will be sent to the Lady-smith smelter as soon as it starts again. The ore runs five per cent copper, \$3 gold and three ounces silver.

The property is bonded by a Victoria syndicate consisting of Messrs. Hincks, Golby and others. The work done is only 380 feet above sea level and about 1,100 feet from the bunker on the beach. The ore was skidded down, a ton being easily handled by one horse. Further work will possibly disclose the mineralized zone to be of great width. The group consists of three claims running from the beach to about 2,000 feet elevation.

A new townsite at Alice Arm is being planned, which, it is proposed, will replace that now in use, the objection to which is that it is located on a mud flat. The survey of the new site is now under way. It is situated on the sidehill northwest of the present townsite, and belongs to a company known as the Alice Arm Development Company. Sufficient water is said to be convenient, and the installation of other public utilities will not be difficult. In view of the mining development now in progress and the accession to the population expected this year with the commencement of new work on many of the properties tributary to the town of Alice Arm it is thought that the new enterprise not only is warranted but is a necessity.

**Silver Lead Shot.**  
While tunnelling in a gold-bearing quartz ledge on his group claim on Perry Creek, in the East Kootenay, Robert B. Durrant has encountered a shoot of silver-lead ore, assays running \$191 to \$193 for the total metal contents.

This galena ore body, in a quartz ledge, is now the principal feature of the property, and as soon as snow goes off in the spring, Mr. Durrant will run a tunnel under his find, at 100 to 125 feet depth, to gain stopping ground and ascertain whether the ore body persists. This group is about

eight miles south of the Sullivan and North Star mines, at Kimberley.

**Rich Copper Body.**  
News of an important copper mining discovery in the East Kootenay district was brought to the city by Mr. Malcolm E. Davis, of Calgary, head of the Achilles Mines Company, which has recently acquired the property. The claims which are situated at Marysville, twenty miles from Cranbrook, assay at an average of \$122 a ton, while the silver ore which is found with the chalcopryite assays at \$25 a ton.

The claims, which were first located ten years ago by Evans brothers, well-known East Kootenay mining men, have been developed to the extent of \$50,000, and by next fall the company expects to be shipping a carload of concentrates a day to the Trail smelter, which is only 200 miles away. A number of veins have been opened up, already exposing over two million tons of ore, and valued at \$24,000,000. This represents but a fraction of the ore deposits, as the supply of high-grade copper ore is very large, while through the workings of nature thousands of tons of the ore have been crushed from the side of the mountain and lay ready to be shipped to the concentrator. The main sill where the ore is found in large quantities is 1,000 feet thick, while there are five veins averaging from eight to thirteen feet wide running through the whole property.

**NOT DELIBERATE.**

## WILLIAM FARNUM IN HUGO'S STORY

"Les Miserables" Will Be Presented at Royal; Splendid Screen Work

William Farnum, the great American actor, will be seen at the Royal Victoria Theatre, for the first time to-night in a stupendous screen production of Victor Hugo's immortal story, "Les Miserables," made for William Fox under the direction of Frank Lloyd, who directed the making of "A Tale of Two Cities," and other big William Fox photoplays. This picture is well termed "stupendous." It is the only real screening of the remarkable story of the conflict of man with humanity and humanity's half barbarous laws. In the character of Jean Valjean, Mr. Farnum gives a portrayal that leaves one believing that he walked out of the book. The hard side of the man is shown in all his revengeful feeling against the world that caused him to serve nineteen years at hard labor for stealing a loaf of bread for his starving relatives. And the softer side, when he, having changed his name and become wealthy, is lending a helping hand to every one around him. Then, too, the wonderful spirit that makes him renounce the few joys he has had in life is shown in remarkable bits of acting by this master artist, William Farnum. For this production William Fox had built in Fort Lee, N. J., a cross-section of streets in Paris. Nothing has been omitted to make the entire production realistic and true to Victor Hugo's conception. Those who have read the book, or who know anything of Jean Valjean, are in for a rare treat.

### AMUSEMENTS TO-DAY

Parriages—Vaudeville.  
Dominion—Bryant Washburn in "Why Smith Left Home."  
Variety—Maurice Tournour in "The Life Line."  
Columbia—Sessue Hayakawa in "The Courageous Coward."  
Romano—Earle Williams in "A Gentleman of Quality."  
Royal Victoria—"Les Miserables."

### LOSS OF IDENTITY FEATURED IN FILM

Romano Presents "A Gentleman of Quality" Starring Earle Williams

What would you do if you were deeply in love with a woman who insisted you were her missing husband and all of whose kin insisted you were her husband and you were convinced you were not, although you did not know who you were? This amazing situation, depicting a titanic struggle between love and honor, screened with gripping realism in "A Gentleman of Quality," the Vitagraph picture starring Earle Williams, and which will be seen in the Romano Theatre to-day. Mr. Williams has the role of the young American who has lost all idea of his identity through an accident, and is claimed by a titled English woman whose husband mysteriously vanished on their wedding night. It is a most remarkable case of dual identity, adapted from the popular novel of the same name by Frederick Van Rensselaer Day, and gives Mr. Williams one of the most compelling roles in his screen career. The picture was screened at Vitagraph's Hollywood studio under direction of James Young, and in the supporting cast are Katherine Adams, Joyce Moore, James Carpenter, Robert Bolder, George Pierce and Ronald Byram.

### PRINCESS PLAYERS IN AMUSING FARCE

"The Strange Adventures of Miss Brown" Will Be Presented Saturday

"The Strange Adventures of Miss Brown"—a title known wherever English is spoken and recognized as a certain "draw" wherever played, will be presented by the Princess Players. It is a screaming farce abounding with situations that keep an audience on tip-toes of excitement and in paroxysms of laughter. The farce was written by Robert Buchanan and Charles Marlowe. The play will be produced on Saturday, January 31, commencing with a matinee at 2.30 p. m., with the usual reduced prices for children. There will be an evening performance on the same date at 8.30 o'clock, followed by evening performances every day of the following week, except Monday, February 2. The booking office will open on Wednesday. The cast is as follows:  
Miss Romney, of Cicero House Academy.....Mrs. F. C. Beilby  
Angela Brightwell, boarder at Cicero House.....Miss Hickman  
Euphemia Schwartz, boarder at Cicero House.....Miss Taylor  
Matilda Jones, boarder at Cicero House.....Miss Gertrude Hickman  
Mrs. O'Gallagher.....Mrs. Taylor  
Emma.....Mrs. Taylor  
Major O'Gallagher, of the 41st Lancers.....W. Taylor  
Private Docherty, of the 41st Lancers.....R. T. Ward  
Monsieur Stitchinofski, music master.....R. N. Hincks  
Sergeant Tanner, of Scotland Yard.....S. G. Clark  
Mr. Hibbertson, a solicitor.....S. T. Hankey  
Captain Courtenay, of the 41st Lancers.....H. J. Davis

FOREBODINGS.  
"He talks beautifully."  
"Huh?"  
"Says that after marriage I shall be a ministering angel to him."  
"Tigh. That sounds as if you'll have to carry in his breakfast."  
BEATING THEM TO IT.  
"Why don't you marry me?"  
"Because I don't love you."  
"Why need that matter? We'd simply have a five-year start on half the people in our set."—Blighy, London.

**DOMINION WILL HAVE "THE MIRACLE MAN"**  
A superb dramatic Paramount Art-craft feature, "The Miracle Man," which will be on view at the Dominion Theatre next Monday, is declared to be one of the really great screen dramas of recent years. It was written by Frank L. Packard and produced as a stage play by George M. Cohan and packed the Broadway Theatre in the season of 1916-17, where it played for many months. The screen version is said to be even more absorbing and thrilling in its development of the striking story, which shows the marvellous transformation under the beneficent influences of an ennobling environment of four of the most notorious crooks of New York's underworld. Hearing of the healing powers of this old man of the hills, Tom Burke and his band determine to capitalize them to enrich themselves. Little did they reckon that in their new field of operations they were destined to undergo a magical transformation, and this forms the basis of one of the most thrilling stories ever screened.

A cast of unusual strength portrays the exacting roles in the picture. Tom Meighan, well known as one of the foremost leading men on the screen, has the chief part. Others are Elinor Fair, Betty Compson, Lon Chaney, J. M. Dumont, W. Lewson and F. A. Turner, Lucille Hutton and Joseph J. Dowling. The "Miracle Man" has played to capacity houses wherever shown, in many cases hundreds being unable to obtain admission. It will be presented at the Dominion here commencing next Monday for the entire week. There are times when it is better to be "never" than late. **UTILIZE TIMES WANT ADS.**

**BRYANT WASHBURN**  
IN FAVORITE ROLE

"Why Smith Left Home" Will Be Dominion Feature This Week

All laughs and sunshine are promised in "Why Smith Left Home," Bryant Washburn's new Paramount-Artcraft picture which is coming this week to the Dominion Theatre. The story was adapted from George Broadhurst's stage success of the same name and concerns the escapades of Smith and his pretty bride on their tempestuous honeymoon. They are married "on the double" and against Marian's Aunt Mary wishes. Hard luck stalks them from the start, and in such rapid-fire order do the adventures come that Smith hasn't even time to imprint that first nuptial kiss.

Train wrecks, fires, and a raging storm are among their misfortunes, and matters reach a climax when Smith is discovered in what looks like a compromising position with the good looking serving maid in their honeymoon bungalow. Marian starts home to Auntie, but an earthquake helps Smith pull some cave-man stuff, and all ends happily. Lois Wilson, leading lady of "Love Insurance," is again Mr. Washburn's chief support. Others in the cast are

**Of Utmost Importance**

**SCOTT'S EMULSION**  
is a form of growth-nourishment that is of utmost importance to many children. That most children *relish and thrive* on Scott's is a "trium" accepted the world over. Give Scott's to the children and watch them grow strong!

Scott & Bowne, Toronto, Ont.

**LIVING PICTURES**  
**PANTAGES FEATURE**

De Serris Models, From Paris Academy Reproduce Famous Art Groups

Living models, fifteen of them, depict famous works of art as the headline feature of the bill of vaudeville at the Pantages Theatre this week. This act at the top of an excellent programme of variety numbers is of high artistic standard and is one of the most brilliant posing spectacles on the stage.

Madame De Serris and her fifteen models, from the Academy of Sculpture in Paris, will give reproductions of noted paintings, sculpture and monuments. Originally these models were engaged in life classes in the noted French institute. Such noted works of art as the "Angelus," "At the Winning Post" and "Priam at the Feet of Achilles" will be reproduced.

Bert Stoddard is an old-time fiddler and tells his experiences in furnishing music for the different events that he plays for in his community. He plays the violin, cello and mandolin.

Eldridge, Barlow and Eldridge will present a rural sketch. It deals with the rural grocery storekeeper, who is also town constable, fire marshal and postmaster, who has a caller in the person of a young city girl. The other character is that of the country school teacher. There is comedy, talking, some singing and some old-fashioned dancing and violin playing.

Three Mori Brothers are three Japanese who will present juggling and contortion work.

Ward and King are two young men, one portraying the character of an Englishman. There is much talk, with the comedy coming from the fact that the Englishman is very slow to understand what the other is talking about.

Austin Goetz and Fae Duffy are manufacturers of melody and mirth and title their presentation "A Variety of Oddities." They will offer a talking, singing, dancing and whistling act. Bud Snyder and the Joe Melino Company have a sensational act which is introduced through the medium of cycles. The most startling stunt is a plunge from a platform while mounted on a cycle. Two men also appear in grotesque comedy make-up and do amusing pantomime while the stunting is going on. The act is popular.

**"THE LIFE LINE" HAS**  
**NOTABLE SCENERY**

Exact Reproductions of Notable Events Are Shown in Variety Offering

Although "The Life Line," Maurice Tourneur's big picture melodrama, which is coming to the Variety Theatre this week, was made as are most of the Paramount-Artcraft pictures, in California, the famous producer is said to have caught the British atmosphere of the romantic story perfectly. In the beautiful country surrounding his studio, Mr. Tourneur was able to reproduce exactly the old time English hunt in the county of Hampshire. Along the waterfront of a large California city he discovered the duplicate of the London docks, honeycombed with hovels of the poor and criminals. The rocky California coast served admirably for the thrilling rescue scene, where Jack Hearne, the handsome Romany Rye, carries Ruth from the wrecked ship by means of the breeches buoy. Indeed, on the very spot where this scene was "shot," scores of vessels have gone aground and been beaten to pieces by the waves.

"The Life Line" is said to provide gripping entertainment and to be interpreted by a fine cast, including Seena Owen, Jack Holt, Pauline Stark, Tully Marshall, Lewis Cody and Wallace Berry.

**ORIENTAL LIFE**  
**PORTRAYED IN FILM**

Hayakawa Has Illustrated Salient Characteristics of Native Land

The feeling of conviction with which the public views the Japanese-American productions of the Haworth Company which are appearing on the programme of the Exhibitors Mutual, adds considerable pleasure to the entertainment provided by them.

The latest addition to the series is "The Courageous Coward," which appears at the Columbia to-day. In this film an attractive drama again illustrates the various phases of Japanese character and the quaint coyness of the native maidens.

The plot of "The Courageous Coward" can be told in a few words. It covers the love story of an American-born Japanese and a Japanese girl who comes to America to visit her uncle and to cultivate her voice. Shortly after the arrival of Rei, the young law student Suki goes away to college. News comes to Rei of his success with American sports and of his mingling with American society. With the natural desire of youth to look pleasing in the eyes of the loved one, she immediately sets about to convert herself into an up-to-date American girl. On Suki's return he is disappointed to find the change in Rei and also to discover that she is being escorted about by Tom Kirby, the son of a rich politician, who has also caused her to listen to his tale of infatuation.

On the eve of an elopment the young man kills one of his father's gambling house servants, and Suki now district attorney, suddenly finds himself confronted with the confession of Rei's lover, while he is prosecuting the wrong man. In keeping the young man's secret he allows himself to be displaced as district attorney and branded as a coward. Finally Tom, in a heroic mood, rescues her from the public, and Suki is rewarded by being employed for the defendant. He also wins the love of Rei.

### FINE PROGRAMME FOR BURNS CONCERT

Well-known Entertainers to Assist at First Church To-morrow

Just a line or twa tae tell ye o' the ongoins that's tae tak' place at the First Presbyterian Kirk on Tuesday night at 8 o'clock. We hiv' aye had a guid time round about Robbie's birthday, but this is gaun tae be better than ever an' here's wha's gaun tae tak' part:

Brig-Gen. Ross will be the chief in the chair an' keep order. He is no exactly a Scot, but comes frae Edinburgh whaur there's a lot o' them. He is the heed yin o' the sodgers nummer eleven district, sae if ye're no' quite look oot. Maister Inkster, the minister, ye a' ken him as bein' a guid haun at lecturin' about Robbie an' he is bein' helpit w' pictures that Mr. Huxtable taen frae the best Scottish penters. "We ha'e tales tae tell," is the subject o' his discourse. Mrs. Morrison wha' sings in oor choir, is gaen tae sing an' a' budy says she is

about the best roon hereabouts. Miss Deltor wha' no lang since cam' tae Victoria tae bide, his a gran' alto voice an' this is her first go at this concert, bit we're gie an' shure you'll get a big tract. Lt.-Col. Jim Sclater, wha' comes a' the wey frae the Orkneys, is a hraw guid singer. Fancy him an' an' unco guid singer. Fancy him gettin' decorations frae Britain, France, Belgium an' Italy, sae of course the "Battle o' Stirling," the sang he's sing is jist the kin o' think he's been used till this while back. Then of course ye a' ken Bob Morrison, wha' sings "Afton Water" that an' makes ye hamesek. Nae wunner his lass cam' oot w' him she should be gie an' proud of Bob risin' tae be a full captain.

A dooble quartette that's eight folk fowd haster, an' fower laddies will fairly mak' ye jump when they stert "O a' the Airts." Mrs. Morrison, Misses Christie, Deltor an' Hamilton, Messrs. Saunders, Petrie, Thomas an' Simmers are the names o' the eight o' them.

Noo Maister Hanby is a callan that kens hoo tae mak' oor choir gie o' its best an' he his them trained jist tae perfection in a couple o' guid guid Scotch lilt. Mr. Gurney wha' plays the kist o' whistles in oor kirk on Sawbath, is the laddie that gaun tae play tae a' the lads an' lassies an' keep them frae gaun off the tune. Jamie Walker, wha' is gie an' guid at Scotch recitations is tae be there tae w' a story about a stair-head row an' if ye're no' Scotch it's a pety o' ye (main weys than aye), because ye'll no' ken whit he says. Ye'll a' get a chance tae sing yerseels an' a' sae an' be certain tae learn some o' Robbie's sangs afore ye come.

Noo we'll tell ye this, there's gaun tae be a big crood, sae don't be late or ye'll no' get a seat.

### ST. JAMES CHURCH TROOP BOY SCOUTS GRAND CONCERT

At  
ST. JOHN'S HALL  
Long Programme by Scouts and Local Talent.

MONDAY, 26th  
Doors Open 7.30. Curtain, 8 p.m.  
Price, 50c and 75c.

#### HEALED BY MUSIC.

"I went with the entertainers to the insane ward. One patient was counting over his fingers in an intensive sort of way, talking incoherently, and all the while neither the doctor in charge nor I could influence him to stop while the reader was telling stories. I suggested that

the vocalist be called upon. She responded with a sweet, melodious song. The babbling stopped almost instantly; first only silence, then I seemed to see an interest creep into his being. A healing influence had reached him by virtue of music. "Such invisible wounds are sometimes harder to heal than the shattered limb. They have to be reached by subtle means, than which nothing is more potent than music."

# Pilotage Dispute Amicably Settled

### Basis of Settlement Reached After Prolonged Negotiations—Pilots Guaranteed Fixed Salary—Government Takes Equipment

After several weeks of negotiation the grievances of the British Columbia coast pilots have been adjusted and the basis of a permanent settlement reached. Captain George E. L. Robertson, superintendent general of pilotage for Canada, who reached the city yesterday from Prince Rupert, after conferring with Captain B. L. Johnson, British Columbia superintendent of pilotage, announced that the basis of a settlement had been reached, which, given due trial, he believed would work out to the advantage of all concerned.

The proposals have been accepted by the pilots on the understanding that any disputed points that may crop up will be promptly adjusted. In other words the pilots have been guaranteed a fixed minimum salary and a square deal.

Working Under By-Laws. The pilots are now working under the by-laws as provided by the new pilotage regulations which became effective at the beginning of the year.

The proposal evolved from the negotiations conducted in the past was that pilots work on a fixed salary of \$225 a month for a sixty-day period, at the expiration of which the situation would be reviewed and if found to be satisfactory would be continued. This proposal was submitted to Ottawa and acted upon. One of the outstanding questions at issue was the disposition of the equipment owned by the pilots. The Government has agreed to take over three launches and other gear which probably be taken over at a valuation.

Being Licensed. The pilots are being licensed as they come in from sea, all being required to pass the eye-sight test. The first local pilot to operate under the pilotage by-laws was Captain Percy Shadforth, who yesterday took the tanker Cordelia up the Gulf to Vancouver. Under the old order of things a Vancouver pilot would have been detailed for this service. The headquarters of the unlicensed pilotage will be at Victoria, with Captain B. L. Johnson in charge. It will not be necessary, however, for all pilots to make their headquarters at this port. Captain G. E. L. Robertson, accompanied by Alexander Boyle, chief accountant for the Marine Department, will leave to-night for Ottawa.

## C.P.R. PASSENGER DEPARTMENT HAS TERRITORY EXTENDED

Announcement is made by the C. P. R. passenger department that the territory under the jurisdiction of the C. P. R. general passenger agency has been extended to include the entire State of California. Formerly the California offices were under Winnipeg administration.

H. W. Brodie, general passenger agent at Vancouver, is now in charge of all traffic offices from Los Angeles to Alaska, as well as being chief traffic representative in British Columbia and Northwest U. S. territory. The extension becomes effective on February 1.

### KATORI COMING ON.

## "SYRUP OF FIGS" CHILD'S LAXATIVE

Look at tongue! Remove poisons from stomach, liver and bowels.

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmful laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear. Mother! You must say "California."

## BLIZZARD CARRIED STEAMER OFF COURSE

### Puna Forced to Head for the Azores; Crew Had Trying Experience

New York, Jan. 26.—Driven 1,500 miles off her course by a blizzard which raged for four days while on a trip from New York to St. Johns, Nfld., the Norwegian steamer Puna arrived here yesterday on her return trip minus one member of the crew who was washed overboard, and lacking lifeboats, doors and fittings, which were either torn away by the storm or burned for fuel.

The steamer left here December 7 for St. Johns and four days later encountered a terrific blizzard. The small craft, caught in the centre of the storm, was blown into the mid-Atlantic and forced to head for the Azores because of lack of fuel. The coal became exhausted before land was reached and all available woodwork was burned.

## MEXICO MARU MAY ARRIVE THURSDAY

### Japanese Liner Has Over 600 Tons of Oriental Cargo For B. C. Ports

Agents of the Osaka Shosen Kaisha look for the arrival of the Japanese liner Mexico Maru from the Orient on Thursday night.

The Mexico Maru sailed from Yokohama January 14 with passengers and cargo for British Columbia and Puget Sound ports. According to advices received this morning from Yokohama the inbound liner has 300 tons of freight for Victoria and 350 tons for Vancouver. Her passengers number seven in the saloon and forty-two steerage for Seattle, and fifteen steerage for Victoria.

The Mexico Maru is being closely followed by two other ships of the Osaka Shosen Kaisha fleet. The liner Araba Maru is scheduled to make this port about February 3 and she in turn is being followed by the Chitago Maru, which is expected about February 6.

No definite information, however, has been received by the local agents regarding the movements of these vessels.

## LOOKS FOR GREAT TOURIST MOVEMENT DURING SUMMER

### H. W. Brodie, General Passenger Agent of the Canadian Railway, who was in the city Friday, looks for a large passenger travel in 1920.

"Indications are that there will be a very large volume of travel during this year," he said.

"The prospects are that last year's high record will be exceeded. Besides numerous large tourist parties there will be two big Conventions—the Shriners at Portland in June and the Democrats at San Francisco, the same month.

Several thousand delegates and their friends will visit this city either on their way to the conventions or en route home."

Mr. Brodie went on to say that all available hotel accommodations has been reserved in Portland by the Shriners and arrangements are being made to put up visitors in private homes. In order to still further supplement the accommodation for a large number of delegates and their friends, the special trains in which many of the contingents will make their journey will be sidetracked for use by tourists while in that city.

The Democratic convention will draw delegates from all over the United States, Mr. Brodie remarked. Arrangements are being made to de-tour a large percentage of the travellers by the northern route either on their way to the Pacific Coast, or on the return journey.

Water poured into the crew's quarters and they were forced to seek refuge in the saloon and to huddle around the funnel in order to keep warm. It was impossible to cook food, and for three or four days the crew lived on dry bread and water. Waves swept over the decks tearing away lifeboats, smashing doors and flooding the staterooms.

Ludwig Larsen, a coalpasser, was washed overboard in the storm. The battered craft finally made the island of Fayal in the Azores and there obtained enough coal to carry her back to Newfoundland.

Ludwig Larsen, a coalpasser, was washed overboard in the storm. The battered craft finally made the island of Fayal in the Azores and there obtained enough coal to carry her back to Newfoundland.

TERRA NOVA.

## CHARTERS OFFER FOR NEW SHIPS

### Demand for Vessels, the Keels of Which Have Yet to Be Laid

Demonstrating the urgent need of wooden ships tentative charter offers have been made for vessels which have yet to be constructed at Victoria's shipyard.

Prospective charterers have already been in touch with the Victoria Shipowners, Ltd., which organization was but recently incorporated to build and operate four wooden barquentines. Once construction operations are inaugurated it is estimated that the first ship could be put into commission in approximately six months.

The co-partnership plan of construction and operation by this organization is assuming definite shape and preparations are being made for the laying of keels at the Cholberg shipyard.

Remunerative charters have been secured by vessels which last year were turned out at the Cholberg plant here.

The Norwegian schooner Gunn, which completed her maiden voyage to Greenock some months ago, has been chartered to carry lumber from Pensacola or Ship Island, Florida, to Buenos Ayres, Argentina.

The schooner Vancouver, another Cholberg product, which recently left Everett for Buenos Ayres with a cargo of piling, has been fixed at \$200,000 for a charter to carry a cargo of wheat from the Argentine to Copenhagen.

Washington, Jan. 26.—Influenza is now prevalent generally throughout twenty states, the Public Health Service announced to-day, and has made its appearance in a number of others. Two thousand new cases in Michigan were reported to-day, while Kansas City reported thirty-six deaths directly attributed to the disease.

A resolution carrying an appropriation of \$500,000 to be used by the Public Health Service in combating influenza was adopted to-day by the Senate.

## ASIA RETURNING.

The C.P.O.S. liner Empress of Asia reached Hongkong January 19. She is now on her return voyage and is due to make this port February 9.

## FAMOUS WORDS OF FAMOUS WOMEN.

THE FINAL TEST. "I thought you said this bathing suit was in fast colors," said Binks, indignantly, to the hosier of whom he had bought his suit that morning.

"Yes, sir, that's what I said," returned the hosier.

"Well, every wretched stripe on the thing has come off on my back," retorted Binks.

"Ah, but wait until you try to get 'em off your back," smiled the hosier, suavely. "Then you'll see."—London Tit-Bits.

TWO CAN'T PLAY. Mr. Ace—How is it that I never see you at any of the pinocle parties any more? Swear off?

Mr. Jack—No, since my wife took to playing bridge whist one of us had to quit.

P. R. Agent.

## BE SUSPICIOUS OF TENDER GUMS

Be suspicious of any tenderness or bleeding of the gums. This is usually the first stage of Pyorrhoea—an insidious disease of the gums that destroys the teeth and undermines bodily health.

Gradually the gums become spongy. They inflame, then shrink, thus exposing the unenameled tooth-base to the ravages of decay. Tiny openings in the gums form gateways for disease germs to enter the system. Medical science has traced many ills to these infecting germs in the gums weakened by Pyorrhoea.

They are now known to be a frequent cause of indigestion, anaemia, rheumatism and other serious conditions.

So watch carefully for that first tenderness or bleeding of the gums. Try Forhan's immediately. It positively prevents Pyorrhoea (Riggs' Disease) if used in time and used consistently.

And in preventing Pyorrhoea—it guards against other ills. Forhan's (For the Gums) cleans teeth scientifically as well. Brush your teeth with it. It keeps the teeth white and clean.

If gum-shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment.

35c and 60c tubes in Canada and U. S. If your dentist cannot supply you, send to us direct and we will mail tube postpaid.

## FORHAN'S FOR THE GUMS

FRIENDS ARE SOMETIMES CANDID. "My poem is returned with the editor's regrets. I wonder if he is quite candid with me?"

"I fear not. I don't see why he should have any regrets at sending back this stuff."—Louisville Courier-Journal.

Corporation of the City of Victoria

Sealed tenders will be received by the undersigned up to 4 p. m. on Monday, February 2, 1920, for the following supplies for the current year:
Bread
Cocoa
Vegetables
Portland Cement
Sand and Gravel
Fuel and Road Oil
Asphaltic Cement
Stationery
Blue Prints
Milk
Specifications and particulars may be obtained at the office of the City Purchasing Agent, to whom all tenders must be addressed and marked on the outside of the envelope "Tenders for Supplies." The lowest or any other tender not necessarily accepted.

COLD STALLED TRAIN AND TRAIN TRAVELING BEHIND DID NOT STOP

Most of the uninjured passengers got away on that train, but some were kept here by the Canadian Pacific Railway until this morning and then sent on to their destinations. All except a few relatives of those persons killed or injured have now left here to continue their journeys.
Immigrants.
There were many immigrants on the first section of the train, nearly all of them Scotch, and many from Western points, but they escaped chiefly by minor bruises.
A particularly pathetic feature of the fatalities was the killing of Mrs. Peden and her two children, who were bound for Vancouver.
George Rasmussen and his wife, who were on their wedding trip from Denmark to Seattle, were both injured.

EXCHANGE STILL UP; STERLING AT NEW LOW

Canadian funds to-day remained at a discount of 10 1/2 per cent in New York. This is the high for the year. This is the same as Saturday's rate.
Sterling in New York broke to a new record low of \$3.59 to-day. The previous low last week was \$3.58 1/2. On Saturday sterling rallied over \$3.60 to \$3.61.
With the weakness in sterling, C. P. R. again turned heavy and sagged from 12 1/2% on Saturday to 12 1/4% to-day, closing weak at 12 1/4%.

COOLIE SAYS HE WAS ASSISTED IN ENTERING CANADA

Chang Pai Ho Tells How He Slipped Out of Coolie Camp in Motor Car

When Fred Baker appeared in the Provincial police court this morning to answer a charge of aiding and abetting a Chinaman to enter Canada...

R. H. Pooley, M. P., counsel for the accused, asked that the first charge be dismissed, and that the second one be proceeded with...

Wanted to Stay Here. Chang Pai Ho, a member of the Chinese Labor Corps, was the first witness called...

The witness stated that he came to Victoria with accused and went to a hotel. Baker provided him with picnic clothes and a pair of boots.

A French Conversation. An effort was made to have the witness give the conversation which passed between the accused and the witness...

Finally Mr. Higgins solved the mystery. He advanced to the witness and questioned him in familiar French...

In cross-examining the witness Mr. Pooley attempted to learn what information was contained on a piece of paper which had been handed to Chang at William Head...

The case is proceeding this afternoon.

CARING FOR INJURED

All persons injured in the C.P.R. train wreck near North Bay yesterday are being cared for at everything is being done for their comfort, and all hospital accommodation provided by the company...

INDIAN KILLED BY TROOPS IN BOMBAY REGION; DISORDER

Bombay, India, Jan. 25.—Disquieting news from the High School in the Bombay Presidency, where 200,000 cotton workers went on strike early this month, reports firing by troops on a crowd of strikers, causing a number of casualties, including one killed.

During the morning the advice was given to the strikers to return to work.

At Afternoon Tea. DON'T those spectacles of Mrs. Hybrow Jones look out of place at a tea?

"Gold-rimmed spectacles surely are comfortable, but not so early so smart for society stunts as eyeglasses," continued Miss Canoko.

Births, Marriages, Deaths

MARRIED. CALLOW-WELLS.—On Jan. 17, at Knox Church, Calgary, Alberta, by the Rev. Macartney Wilson, Emily Maria Callow, fourth child of J. C. Callow, of Victoria, B. C., to Robert Wells, of Newcastle, New Brunswick.

DIED. DUFF.—On the 25th inst., at his home, 750 Courtney Street, William John Duff, aged 54, a resident of this city for the past seven years. He leaves to mourn his loss, besides his widow, of this city, three daughters, Mrs. L. O. Dean, Mrs. L. E. Wilson, and Mrs. A. J. Jolly, and three sons, Mr. A. N. Duff, W. N. Duff and Harry O. Duff, also nine grandchildren, all residing in Regina, Sask. Deceased was a member of Columbia Chapter, Royal Arch Masons, No. 129, G. R. S., also a member of L. O. B., Regina.

The funeral will take place on Wednesday, the 27th inst., at 3 o'clock, from the Sands Funeral Chapel, and 2.15 p. m. the remains will be forwarded to Regina for interment.

GIBSON.—On January 25, at his home, 972 Walker Street, Robert Gibson, aged 57 years, and born in Cumberland, a resident of this city for the past 10 years, and is survived by, besides his widow, four sons and four daughters, all residing in this city.

The funeral will take place to-morrow afternoon, the 27th inst., at 3 o'clock, from the above residence. Rev. J. G. Inkster will officiate and interment will be made in Ross Bay Cemetery. No flowers, made in Ross Bay Cemetery. No flowers, by request.

DOANE.—On January 25, 1920, at St. Joseph's Hospital, William Atwood Doane, aged 80 years.

The remains are resting in the B. C. Funeral Chapel, 724 Broughton Street, and will be forwarded for cremation, the ashes later being sent to Cypress Lawn Cemetery, near San Francisco, for interment.

GURD.—At the residence of her son-in-law, George Gurd, 73 Leppin Street, Eleanor Margaret, sister of George Gurd, aged 73 years; died at Clonac, Ireland. She is survived by two daughters, Mrs. Geo. S. McTavish, and Miss Evelyn Gurd, and a son, W. F. Gurd, barrister, of Vancouver, B. C.

The remains are resting in the B. C. Funeral Chapel, 724 Broughton Street, and will be forwarded Monday night to Vancouver, B. C., for interment.

HOPE ROAD WILL BE PAVED IN 1920

City Trusts Government Will Help to Improve Esquimalt Road

The civic authorities are hopeful that Esquimalt Road will be paved this year.

Alderman Todd will move at to-night's meeting of the City Council, that action be taken on the matter, but already Mayor Porter and Alderman George Sangster, chairman of the Streets Committee, have given the subject attention.

"Last year the Provincial Government refused to help us pave the road," the Mayor observed when discussing the question of raising money for the road through provincial lands. The Federal Government likewise refused to help us, though it uses the road as a great deal in connection with the Esquimalt Naval Station. It's a certainty we cannot undertake the project alone. Since then, however, we have seen the Provincial Government authorities again and we are very hopeful that the Legislature will embody in its 1920 estimates money to be spent for this purpose."

VICTORIA WEST AGAIN SUFFERS FROM DROUGHT

Residents of sections of Victoria West were put to a great deal of inconvenience yesterday and to-day by the curtailment of their water supply. These conditions have arisen many times in the last year and have caused not a little dissatisfaction. Indeed, the civic authorities are planning at present to install a pipe line which would serve the district from Spoke Lake whenever the Esquimalt system failed to function properly.

SLOGAN MEMBER TO MOVE THE ADDRESS

Dr. W. H. Sutherland, Member For Revelstoke, Will Second It

Premier Oliver announced this morning that Charles F. Nelson, member for Slocan, will move the address in reply to the Speech from the Throne and that Dr. W. H. Sutherland, member for Revelstoke, will second it.

After taking a complete rest over the week-end Mr. Oliver was back at his desk this morning feeling as fit as the proverbial fiddle.

Hon. John Keen, Speaker of the Legislature, is expected to reach the city on this afternoon's boat after a delay of several days on account of snowslides. The latest report reaching the Premier indicates that the veteran Speaker has made an excellent recovery from his long illness and serious operations. It is expected that the Hon. John will be able to perform his customary functions in the House with a little assistance from his deputy on such occasions as he feels the strain a little too much.

Kenneth F. Duncan, member for Cowichan, headed a deputation from that city to the Hon. John, Minister of Finance, this morning, with the plea that Duncan be provided with new Government buildings. It was pointed out that the present premises are located in an undesirable section of the town and constitute a poor advertisement for a progressive Government.

INFUX STARTS BOOM IN DUNCAN

Houses in City and Small Farms in Cowichan Valley at Premium

Housing accommodation at Duncan and throughout Cowichan is at a premium and real estate is more active than it has been since the pre-war boom, according to Mayor Pitt, of Duncan, and Alderman Smith, who are in Victoria to-day interviewing Premier Oliver.

"There is an active movement in small farms throughout the Valley and in household property in the city," said Mayor Pitt this afternoon. "Every acre and house in the city is occupied."

This intensifying of activity is due partly to soldiers returning to the district and other who are pointing in to settle. Indications are that another big influx of people from the Old Country is under way. The social life for which the district was famous has just begun to revive. The motor car and repair business especially is booming.

L. W. Huntington, a wealthy retired merchant, has just bought a \$30,000 property at Cowichan Bay, and is building a luxurious country home there. On Saturday W. A. McAdam, publicity commissioner of the Victoria and Island Development Association, who was formerly a resident of Duncan, sold his home there.

How Fat Actress Was Made Slim

Many stage people now depend entirely upon Marmola Prescription Tablets for reducing and controlling fat. One clever actress tells that she reduced two to four pounds a week by using the tablets and now, by taking Marmola Tablets several times a day, keeps her weight just right. All druggists sell Marmola Prescription Tablets at \$1 for a large case. Or you can get a special deal in buying a \$30.00 case direct to the Marmola Co., 864 Woodward Ave., Detroit, Mich. If you have not tried them do so. They are harmless and effective.

WOULD SHOW ISLAND MANGANESE ORES TO NEW YORKERS

C. H. Dickie, of Duncan, who is one of the owners of the great body of manganese ore which is being opened up on the Cowichan Lake road near the lake, offered to-day to co-operate with the Government in placing an exhibit from his property in the "See America Now" show in the Grand Central Palace, New York City. This show is being staged by the Pacific Northwest Tourist Association to attract interest in British Columbia and Victoria exhibits are being made by Commissioner McAdam, of the Victoria and Island Development Association.

Herbert Cuthbert, secretary of the Pacific Northwest Tourist Association, was in Victoria at the week-end and took up further matters in connection with the exhibition. He left for Portland yesterday to complete the Oregon arrangements.

Endorse and Thank V.I.D.A.—Resolutions endorsing the Victoria and Island Development Association and thanking the organization for what it has done during the last year for making Duncan and the surrounding district known to the world have been passed by the Duncan City Council and North Cowichan Municipal Council.

WEL-KNOWN MINING MAN DIES AT BUTTE

Late D'Arcy C. Bard Was Member of Union Club, Victoria

Darcy C. Bard, a prominent economist, geologist and mining engineer known throughout the Northwest, died on Friday last at Butte, Montana.

The late Mr. Bard graduated from Harvard University in 1903. He had a distinguished career in the geological and mining branches of the university, studying under such prominent men as Dr. Nathaniel Shaler and Professor Henry Lloyds Knight. To gain practical experience after leaving the university, he worked as a miner at the Anaconda mines and was later taken on to the engineering staff of that company. So marked was his ability that he was deputed to the important work of making glass models of the mines, and his models figured largely in the famous Helme-Anaconda lawsuit.

He later severed his connection with the company and traveled extensively in Victoria and the world. He then became senior partner of the engineering firm of Bard Johnson at Seattle and for five years was consulting engineer to the St. Paul & Milwaukee Railway, and for the past two years has been consulting engineer to the Ladysmith Smelting Corporation, which owns the smelter at Ladysmith. He leaves a widow and four children and his mother to mourn his loss.

The late Mr. Bard was a frequent visitor to this city, where he had many friends. He was most optimistic over the future of Vancouver Island, foreseeing great developments in mining and the related industries here.

For Skins Affected By Winds and Weather

This is the season when she who would have a spotted, fly-white, satiny complexion interpreted for him. It did not state whether or not he could enter Canada, witness said.

The case is proceeding this afternoon.

MR. MACLEAN MAY ACCEPT PORTFOLIO

Member of Borden Cabinet May Become Public Works Minister

Ottawa, Jan. 26. — It is said that with the return to Ottawa of Hon. A. K. Maclean, who is out of the city, he is likely to accept the portfolio of Public Works. Hon. N. W. Rowell is at present Acting Minister of that Department, which, except for the brief tenure of office of Hon. A. L. Sifton, has been without a Minister since the resignation of Hon. F. B. Carvell. That some action may be taken shortly to appoint a Minister would seem to be indicated by the fact that one or two contracts which have been hanging fire for some time are likely to be awarded, it is now stated, until a permanent Minister is appointed.

In the meantime, Mr. Carvell, when asked to-day if there was to be a permanent appointment to this portfolio.

"Mr. Rowell is at present Acting Minister of Public Works," was his reply to the question.

Mention of Mr. Maclean brought the reply from Sir George that Mr. Maclean was at present out of the capital.

The filling of the Militia and Public Works Portfolios, it is expected, will about complete the Cabinet shuffles until the return of Sir Robert Borden to the capital.

Will Speak To-night.—Rev. F. Olson, who will sail from Victoria to China on Tuesday, will speak at the Christian Endeavor meeting in St. Paul's Presbyterian Church at eight o'clock to-night.

### COUNCIL MUST DECIDE POLICY TOWARD "TAGS"

The City Council is faced with the necessity of making a decision on the question of tag days at its meeting to-night. Already a batch of applications for permission to hold "tags" has been received, and no answer has been given the applicants. Some of the aldermen are in favor of granting the applicants, but one of the most influential members of the Council is determined to end the practice for good. He has lost his chief supporter on the matter, in the

person of ex-Alderman Watson Clark, however, and it is predicted at the City Hall that the applications will be granted as usual.

Has Been Appointed Secretary.—A. M. Jones, a well-known resident of the city, has been appointed secretary to the Civic Housing Committee and has assumed his duties.

To Present Prince's Portrait.—The Agnes Deans Cameron Chapter, E. O. D. E., will present a framed portrait of the Prince of Wales to the South Park School on Thursday afternoon next at 2.30. The regent hopes that as many members as possible will attend the ceremony.

### SEVEN CHURCHES TYPE OF AFTER AGES

Rev. J. G. Inkster Examines Patmos Vision as Illustrative of the Church

"The vision which John the Divine saw on the island of Patmos was the Person and the Glory of the coming Christ, and the Book of Revelations is an inspired record of that marvelous vision. He who does not get a glimpse of this vision has missed the message of the book."

Christ's Humility. With this clear, concise statement Rev. J. G. Inkster began his second lecture on Revelations in First Presbyterian Church last night before an audience even larger and more intensely interested than on all previous Sundays. Continuing, the lecturer said: "Jesus Christ humbled Himself when He took on the form of sinful flesh and dwelt on this earth. He humbled Himself still further when He allowed Himself to be arrested, tried and crucified. And he plumbed the depths of humiliation when 'He descended into Hell.' But He conquered, rose and ascended; and now He is seated in Glory in Heaven. The day is coming when He shall appear in Glory—not in humiliation—on this earth. The book of Revelation tells us about the Person and the Glory of the Lord Jesus when He shall again come to this earth."

The Seven Churches. "In the meantime, i.e. between the first and second advent, the Church—the Bride of Christ—is here on this earth. Chapters two and three—the letters to the seven churches—tell us what John saw concerning the Church of God on this earth during this age in which we now live. "These letters were sent to these seven churches in Asia Minor; not because they were the only churches or even the most important churches there; but because they were representative of the eras and the experience through which the Christian Church would pass. Of course there is a message for each Church and there is a message for all Christians; but the chief purpose of these letters is prophetic. They give us the shortest, most complete and comprehensive history of the Church ever written."

Ephesus. "The Church at Ephesus represents the Apostolic Church of the first century. She is praised for her works and because she tested false teachings and called them liars. But in spite of her love and her righteous indignation she fell through leaving her first love. When the Apostolic Church left Christ she sowed the seed of all apostasy."

Persecuted Smyrna. "The Church at Smyrna represents the persecutions of the second and third century at the hands of the Roman Emperors. A deliberate attempt was made to exterminate the Church—but 'the blood of the martyr has always been the seed of the Church.' And to-day Rome has perished, but the Church remains."

Pergamos a Type. "The Church at Pergamos represents the further apostasy of the fourth and sixth centuries when the Church ceased to be a pilgrim church subsided to the influence of Constantine, formed the unholy alliance of Church and State and dwell where Satan's seat is, i.e. on this earth—not in Hell."

Thyatira and Sardis. "The Church at Thyatira represents the Church of the Middle Ages when Papacy took its rise. "The Church at Sardis represents the time of the Reformation. It was the mightiest revival which the Church had seen up to that time. The man who led it were mighty saints of God. But the Protestant Church which grew out of the Reformation suffered herself to be smothered by man-made organizations and the verdict passed upon her is 'She has a name to live, but is dead.'"

The Missionary Spirit. "The Church at Philadelphia and the Church at Laodicea represent the two great streams which flowed out of the Reformation. Philadelphia represent the great missionary movements which began in the 18th century, was carried on by the Moravians and Methodists of the 18th and 19th centuries, and by the missionary movements which began in the 18th century. Laodicea represents the lukewarmness which the poison of false teaching has injected into the veins of those who neither love His Word or His name."

Following is the programme of the "Burns Concert" to be given at the Knox Presbyterian Church to-morrow evening, Tuesday, at 8.15 o'clock: Bagpipes Selection—Inverness Gathering. Piper Willie McGregor Solo—Scots Wha Ha's. Thos. Dunn Recitation—The Question of the Organ. James Walker Solo—Be Kind and true Auld Grammie. Mrs. Joseph Crawford Quartette—A Man's a Man for a' That. James Taylor Bagpipes—The Day We Crossed the Ferry. Pipe-Major Cameron Solo—Roderick Vic Alpine. Messames Jameson and Donald, Messrs. Partington and Dunn. Auld Lang Syne.

### SCOTTISH CONCERT AT KNOX CHURCH

"I believe that from the very beginning, at four and a half or five or six years, a child should be permitted to express his own ideas in music, not only to read as he progresses, the literature of Gurilt, of Mozart, of Beethoven, and reproduce with the teacher's interpretation, but by consciously developing the power of thinking for himself, to make, say, a song about a bird." This is the statement of a teacher who has had unusual success with children.

Free Cutting  
All materials bought during Home Sewing Week, cut to your patterns if desired, by an experienced dressmaker without charge.

## Gordons Limited
