## WIKI LOVES MONUMENTS EXHIBITION

### Exhibition

[Wiki Loves Monuments South Africa](#) is the South African component of the largest photographic competition in the world. This is an [international competition](#) that invites members of the public to take photographs of monuments, and to donate them to the creative commons, whereby they may be used freely (on websites such as Wikipedia). We will be exhibiting the winning entrants from the 2013 competition - a selection of the best photographs submitted from South Africa, and globally.

Prints of these photographs will be sold to raise funds for [Wikimedia South Africa](#): a volunteer-driven, non-profit organisation that represents Wikipedia contributors in South Africa.

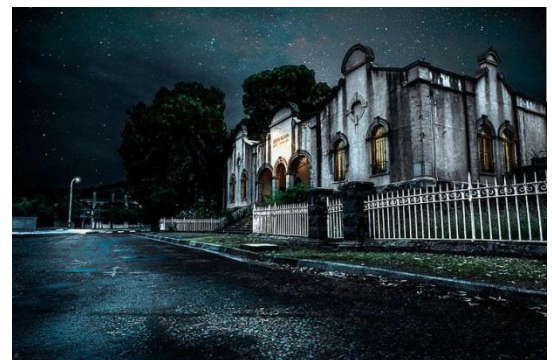

[Part of First Thursdays.](#)
