W/ managed care need authorization - the pre time would increase to 35 min.	The panel decided not to factor managed care situations into the analysis due to the variation of penetration rates.
C 5	99203	M2	Post	"42 min post is w/o managed care. With managed care the post time would be 52 minutes."	The panel decided not to factor managed care situations into the analysis due to the variation of penetration rates.
C 5	99213	M2	Pre	"Panel said the 23 min pre is w/o managed care. It would be 34 min w/ managed care but they didn't factor managed care into the analysis due to the variation in penetration rates across the country."
