WE DELIVER FREE

To any post office in the United States all Flower and Vegetable Seeds in packets, ounces, quarter pounds, and pounds at catalogue prices.

When Peas, Beans, and Corn by the quart and upwards are ordered to be sent by mail, postage must be added at parcel-post zone rates. A quart of Peas, Beans, or Corn weighs two pounds. Canadian shipments require 12c. per pound for postage.

When sent by freight or express, purchaser pays transit charges on all Seeds in bulk, Fertilizers, Insecticides, and Greenhouse and Garden Supplies, except where otherwise noted.

We make no charge for boxes, packing, or cartage, except where Peas, Beans, and Corn, and Grass Seed are ordered in large quantities, when 25c. extra must be added for every two bushels to cover cost of bags.

New customers, unknown to us, who desire to open accounts, must give satisfactory references as to their responsibility.

Orders from unknown purchasers, unaccompanied by remittance or satisfactory references, will be shipped by express C. O. D.

Customers who remit cash with order may deduct five per cent. for cash.

Remittance can be made with perfect safety by check, post office or express money order, or cash can be sent in registered letter; fractional parts of a dollar in postage stamps.

Cash should never be sent in unregistered letters. Under no circumstances will we assume any responsibility for the safe carriage of money sent in unregistered letters.

Our seeds are tested seeds of the very best quality obtainable, and our prices are fixed at the very lowest rates consistent with high quality. While we exercise the greatest care to have all our seeds pure and reliable, we give no warranty expressed or implied, and will in no way be responsible for the crop. If purchaser does not accept our goods on these conditions, goods must be returned at once.

F L O W E R S E E D S

A large percentage of our flower seeds is grown in Europe, and, owing to existing conditions, it may be impossible to obtain certain varieties. When ordering, please state whether we may substitute other equally good varieties in place of those that we may be out of. Without any definite instructions, we will use our judgment in making the best possible substitutions.

VEGETABLE SEEDS

Owing to the unfavorable conditions, a great many varieties of vegetable seeds were almost a total failure. Therefore, in some instances it will be impossible to supply certain well-known varieties, and others only in limited quantities. When ordering, please state whether we may substitute other equally good varieties in place of any that we may be out of. Without any definite instructions, we will use our judgment in making the best possible substitutions.

GRASS SEED

PIERSON'S PERFECTION LAWN GRASS SEED

The best mixture made for lawns, grass plots, etc. Nothing adds so much to the beauty of a country place as a well-kept, velvety lawn. In order to secure this, it is necessary that the proper grasses should be sown. More disappointment results from sowing inferior seed than from any other cause. Our Perfection mixture is composed of the finest American grasses in proper proportions of such kinds as are best adapted for our hot, dry summers, and will form a close, velvety lawn very quickly after being sown. Oats should never be sown with our mixture, as our seed comes up quickly and strong, and is better without them. For new lawns, use four bushels per acre. One quart will sow 300 square feet. $\frac{1}{2}$ lb., 20c.; lb., 35c.; 5 lb., \$1.65; 21 lbs., \$6.50; 100 lbs., \$30.00.

OUR SPECIAL MIXTURE FOR GOLF LINKS OR "PUTTING GREENS"

This mixture will be found to be unexcelled. It contains the finest grasses, which make a close, firm, green, and lasting turf. $\frac{1}{2}$ lb., 20c.; lb., 35c.; 5 lbs., \$1.65; 21 lbs., \$6.50; 100 lbs., \$30.00.

OUR SPECIAL MIXTURE FOR SHADY LAWNS

A mixture of fine grasses that are best adapted and most suitable for growing in shady places, under trees or close to walls where there is little sun. $\frac{1}{2}$ lb., 25c.; lb., 40c.; 5 lbs., \$1.90; 21 lbs., \$7.25; 100 lbs., \$33.00.

OUR SPECIAL MIXTURE FOR HAY AND PERMANENT PASTURE

Much heavier hay crops can be produced and much better pasturage obtained where a mixture of the best grasses for these different purposes is used than when only one or two sorts are sown, as is very often done. We believe that the mixture offered by us will give particularly heavy crops of hay, and, after that, will afford most excellent and luxuriant pasturage, and will remain in good condition for a great length of time without the necessity of re-seeding. Our mixture will be found unexcelled for this purpose, and we can recommend it with the greatest confidence. It should be sown at the rate of three bushels per acre, or, if quick results are wanted, a larger quantity can be sown. The thicker the seed is sown, the sooner a fine, close turf will be obtained. 21 lbs., \$4.50; 100 lbs., \$20.00.

42 lbs. in a bag. Bags, 25c. extra. If sent by mail postage must be added at parcel post zone rates.

FERTILIZERS

PURE BONE MEAL

Quick acting and immediately available, for which reason it is largely used for mixing in potting soil and for top dressing roses, carnations, and other plants grown under glass. It is also splendid for garden use. It is made from hard, dry bone; is perfectly pure and entirely free from acid, and can be used with perfect safety in any quantity. We use it largely in our rose soil, and have found it the very best grade of bone for the purpose.

10 lbs., 80c.; 25 lbs., \$1.50; bag (167 lbs.), \$7.00; ton, \$60.00.

LAWN DRESSING

For enriching lawns and grass plots. Highly concentrated; clean and cheap. Use at the rate of half a ton per acre.

10 lbs., 80c.; 25 lbs., \$1.50; bag (167 lbs.), \$7.00; ton, \$65.00.

PULVERIZED SHEEP MANURE

An excellent natural manure. Very desirable for top dressing or for mixing with the soil for greenhouse or garden use; also for top dressing lawns, grass plots, etc., and for making liquid manure.

10 lbs., 80c.; 25 lbs., \$1.50; bag (100 lbs.), \$4.00; ton, \$60.00.

CLAY'S FERTILIZER

A celebrated English fertilizer for garden and greenhouse use. Highly concentrated.

Lb., 25c.; 25 lbs., \$5.00; 112 lbs., \$15.00.

BLOOD AND BONE

A high-grade fertilizer of superior quality. Very desirable for quick or lasting results. Particularly valuable for all garden and farm crops, small fruits, fruit trees, and grass plots.

Price on application.

HUMUS

A natural plant food and soil enricher. Rich in organic matter. Excellent for top dressing lawns and grass plots or for mixing with soil in making new lawns, and, as it is odorless, it is also an ideal mixture for greenhouse use. It is also used extensively in the flower and vegetable garden. While humus is an excellent fertilizer, it will not produce the same results as our Bone Meal or other fertilizers which have more enriching qualities, and which, therefore, are necessarily higher priced.

Bag (50 lbs.), \$1.50; bag (100 lbs.), \$2.00; ton, \$25.00. Prices on application for quantity, direct from shipping point.
