Ltr, Hq Eighth Army, AF 091 (JAGAN)(MG-_n), subj: "Land Reform Program", dtd 14 Jan 48, cont'd.

5. The criteria for the completion of the purchase phase of the Land Reform Program are to insure that investigations have been made that will cover every possibility of hidden and unreported cultivated lands, and that all tillable acreage eligible for transfer under the Land Reform Program has actually been effected by the Land Reform Program. This should be the goal rather than any estimated figures.

SUBJECT: Eligibility of Prefectural Agricultural Associations to Wholesale Rush Products

TO : Commanding General
I Corps
APO 301

1. The question has arisen in the field as to whether or not a legally dissolved agricultural association (Nogyokai) in the process of liquidation should be licensed to wholesale manufactured rush products. (Products manufactured from reeds or straw).

2. Agricultural cooperative legislation enacted by the Diet on 7 November 1947 became effective on 15 December 1947 and requires that agricultural associations be dissolved by 15 August 1948. Any association may be dissolved voluntarily or by government order prior to that date. General business activities of an association may be continued until it is dissolved.

3. Regulations do not prohibit licensing prefectural agricultural associations as wholesalers of rush products. However, any licensing of prefectural agricultural associations as wholesalers whould be limited to instances in which (1) the association is continuing a function performed prior to enactment of the agricultural cooperative legislation referred to in paragraph 2 above, and (2) the association applying for a wholesaler's license meets all standard requirements enumerated in the Industrial Agricultural Products Rationing Regulation issued by the Japanese Minister Agriculture and Forestry in 1947.
