APO 1105
8 February 1951

TO: Governor Katsuji Sugimoto
Members of Fukuoka Ken NHI Organization Joint Association

I am very sorry I can not see you at this occasion, because I am on a field trip.

In a large measure, it can be said that all the social insurances in this country are operated by the Central Government with the exception of NHI program which is administered by a municipality, association or non-profit juridical person. This arrangement does not mean that the Central Government pays little attention to the program, but signifies that this kind of program can not succeed without cooperation by the residents concerned.

In actuality, the majority of NHI carriers in the country are greatly distressed with financial difficulty. However, we do not believe that the program has run counter to deep seated notions, especially those founded in tradition in this country. The history of NHI in the past 13 years verifies that the program is the only economical provision against sickness, as for the agricultural persons and the self-employed.

You have received commendation because you have devoted yourself for the development for a long time. I would like to offer my congratulations to you from the bottom of my heart. I believe your excellent achievement will encourage the other persons concerned in doing their best toward the goal of satisfactory operation.

The Central Government is now contemplating some financial measures to improve NHI operation. If the project is approved by the Diet, it will help the program to some extent. The future of NHI program is not dark. I hope all the persons concerned will do their utmost in improving the program.

JACOB GERRILD
Chief, Public Welfare Section

福岡県知事杉本勝次殿　一九五一年二月八日

福岡県口民健康保険団体連合会理事長宇田道隆殿

生憎出張のために此の機会を逸することを残念に思います。

我口のあらゆる私会保険は概ね中央政府によって運営されて居りますが、その例外として口民健康保険は市及び協会又は非営利私団法人によって経営されております。

この運営方式は中央政府がその計画に無関心たると云うよりも、この種の計画は関係住民の協力をもっては、成就しないからであります。事実、大半の地方健康保険者は少なからぬ財政難に直面しているのであります。此の計画が深く根ざした考え、特に我口の伝統に基く観念に悖るものとなりません。過去十三年間の口民健康保険の歴史は、この計画が農民及自営者の病気に対する唯一の経済的備えであることを立証しております。

諸氏は長期間保険事業発展のために盡瘁せられ、ここに表彰を受けられたことと思います。私は衷心より祝辞を申述べると共に、諸氏の華々しい功績が関係者一同を駆って、満足ある運営の到達に邁進する縁となることを信じます。

中央政府は目下口民健康保険運営を改革するために何等かの経済的方策を考慮中であります。その計画が議会を通過するや、或程度の援助が期待されるでしょう。口民健康保険の将来は暗いものではありません。私は関係者一同がこの計画の改善に全力を盡されんことを希望します。

九州地方民事部長兼課長

Honorable Sojiro Sugiyama
Governor of Nagasaki Prefecture
Nagasaki City

My Dear Governor Sugiyama:

Upon reading the notes on the conference held on 17 September 1950, between you, your staff, and Major Cockrell of this headquarters, I learned that you did not receive our letter, dated 1 September 1950, relative to the child welfare program and establishment of welfare secretaries.

I am forwarding herewith a copy of that letter for your information and whatever action you deem necessary.

Yours truly,

JACOB GERRILD
Chief, Public Welfare Section

1 Incl:
Copy of letter

FILE COPY

1 September 1950

TO: All Governors

At a recent meeting of the governors, I called to your attention the concern of the Child Welfare Chiefs regarding the financing of the Child Welfare services under the Equalisation Fund system. As the authority for allocation of money for these services will, under the new system, rest with the governors, I urged that you do not overlook the importance of the Child Welfare program.

Since the above-mentioned conference, I have learned that there is a similar concern on the part of the prefectural welfare officials charged with the responsibility of implementing the Law for Establishment of the Social Welfare Secretaries.

According to Shs Otsu Hatsu 118 and 119, expenditures for the Welfare Secretaries are included in the Equalisation Fund, however, many of the welfare officials have indicated that the governors and Ken assemblies are not providing adequately for this purpose.

The importance of maintaining an adequate welfare program in these critical times cannot be over emphasized and I urgently suggest that necessary funds be provided for adequate implementation of the new law relative to the Welfare Secretaries as well as for the Child Welfare program.

Your comments and advice of action taken would be appreciated.

Sincerely yours,

J. H. BURGHEIM
Colonel GSC
Chief

Mr. Tadao Annaka
Governor of Miyazaki
Miyazaki Prefectural Office
Miyazaki City, Miyazaki

Dear Governor Annaka:

My purpose in writing to you at this time is to call your attention to the need for the appointment of at least one person to have charge of the welfare personnel in-service training program.

The laws pertaining to public welfare have during the recent years undergone several revisions and the country now has the fundamentals of what is considered good modern up-to-date welfare legislation. We have during recent months made extensive surveys of the welfare program in all prefectures in Kyushu, and are convinced that the present Daily Life Security Law is not being uniformly applied. In nearly all instances where the public assistance law is incorrectly applied the monetary allowances issued to the needy is below what is by law set as a minimum standard. Since the primary purpose of the welfare program is to prevent disease and unrest caused by need, it follows that the matter of adhering to the law correctly in this respect of public assistance is of primary importance.

While the public assistance program constitutes the major part of the welfare program there are, as you know, many other elements of the program which are of vital importance in this effort to prevent disease and unrest caused by need. In many of these phases of the welfare program the requirements of the laws are not being adequately administered.

It is our feeling that the above mentioned situation would be greatly improved if each prefecture made arrangements to have at least one person appointed and specifically designated to the position as in-service training director.

As you know the central government has for some time been encouraging the in-service training program throughout Japan and many prefectures have already established a separate in-service training section. Such a training director, if well qualified would be of considerable assistance in the training of the officials who have direct charge of the application of the welfare laws. It is believed that such a well qualified person can be secured, and ought to be appointed without delay. The supervision and guidance thus provided will effect economies that will more than justify the appointment.

We will be glad to know your reactions to this suggestion.
