Personal Mention

Mr. and Mrs. C. D. Webb have recently moved from 1236 North Central avenue to 1019 East Raleigh street.

Roswell Bassell is recovering from an attack of measles. He is the son of Mr. and Mrs. C. R. Bassell of 333 Burchett street.

Mrs. John E. Cogan of 4340 North Perilla avenue, left the first of the week for Riverside, where she will visit for several days with her daughter and family.

Miss Eulah Dohme, a popular pupil of the Glendale Avenue Intermediate school, left today en route to Watsonville, Cal., where she will make her future home.

Mrs. M. E. Fritz of 301 North Kenwood street left recently for Roswell, New Mexico, for an indefinite stay on business and pleasure combined. She was accompanied by her little granddaughter, Caroline Vorwerk.

Mr. and Mrs. J. G. Monahan of 408 1/2 North Jackson street left Monday morning via automobile for San Diego and Coronado, where Mrs. Monahan will remain for a few weeks at the Hotel Del Coronado for a complete rest.

Mr. and Mrs. Robert E. Carter of 732 South Verdugo road had the pleasure of entertaining as their guests recently Mrs. Carter's sister, Mrs. K. R. Pickler, and son, James, of Long Beach, and Mr. and Mrs. C. J. Butterfield, of Los Angeles.

Frances Wyman returned to Stanford University last Sunday after spending a week with her parents, Mr. and Mrs. E. B. Wyman, of 1326 North Maryland avenue. During her week's vacation here she was the guest of honor at a theatre party given in Los Angeles.

Dr. and Mrs. Warren Z. Newton of 106 East Lomita avenue have been entertaining as their guests Dr. Newton's mother, Mrs. Cora Newton, of Kent, Ohio. Mrs. Newton left yesterday morning for Carmel-by-the-Sea, where she will spend a month with her daughter, Mrs. David Nixon.

Mr. and Mrs. W. C. Casselman of 1416 Stanley avenue have just received word of the sudden death of Mrs. Casselman's cousin, Alexander Patterson, of Redding, Cal. Mr. Patterson was on his way home after attending the funeral of a friend and was almost instantly killed when he fell from a high precipice.

Mr. and Mrs. George Taylor have moved from 360 West Myrtle street to 218-A North Louise street.

Mrs. Harry R. Schenck and daughter June of Hollywood were callers Wednesday at the home of Mrs. J. W. Sharpe, 109 West Lomita avenue.

Mrs. Roy H. King of Hollywood and Mrs. G. O. Piercy were entertained at luncheon Wednesday by Mrs. M. J. Piercy of 612 West Lexington drive.

Mr. and Mrs. Houston and daughters Allen and Louise, have taken possession of the former Bardsley home, 344 Burchett street, which they have leased for the year.

Mr. and Mrs. Charles D. Shattuck of 320 Myrtle street, had the pleasure of entertaining as their guests on Sunday, Mr. and Mrs. Hugh Clawson and son Vern of Culver City.

Mrs. Pearl G. Curran of 214 East Chestnut street entertained Mrs. Piquette of Los Angeles as her guest at the meeting on Tuesday of the Tuesday Afternoon club and as her dinner guest Tuesday night.

Mr. and Mrs. A. P. Collman, who have been visiting for the past week with Mr. and Mrs. W. F. Carroll of 635 North Isabel street, have returned to their home in Hollywood. Mr. and Mrs. Collman are former residents of Nebraska.

Mr. and Mrs. E. W. Cunningham of 1333 North Louise street, and Mr. and Mrs. E. F. Cook and daughter, Miss Harriet Cook, of 639 North Orange street, entertained as their guests Saturday night at the Oakmont Country club, Stanley Tolley and Hal Weeks of Los Angeles.

Mr. and Mrs. Horace Mussetter, parents of Mrs. Margaret Strubling, who have been spending the winter at the Belvedere apartments, are leaving today for their home in Victor, Ia. Mr. Mussetter, who is a successful Iowa banker, has been spending his winters in Glendale for the past five years.

Miss Genevieve Mulligan, daughter of Mr. and Mrs. William A. Mulligan of 321 East Chestnut street, will appear on the program from the Examiner Radio Studio tonight from 9 to 10 o'clock when the University of Southern California School of Speech, under the direction of Miss T. M. Hanna, will present several one-act plays. The one in which Miss Mulligan will take part is "He Said and She Said," written by Alice Gersteinberg.

SOCIAL EVENTS

Farewell Honor
Mrs. Gordon L. Smith entertained a number of relatives informally at her home, 205 West Chestnut street, Tuesday night, as a farewell compliment to her niece, Miss Mildred Cool of Johnston, N. Y.

The room of the Smith home were decorated with spring flowers, with yellow and white, suggestive of Easter, the dominant colors.

The evening was spent with games. In a competitive game, first prize was won by Mrs. Margaret Church and consolation by Miss Cool.

Those present were Mr. and Mrs. Thomas Bloomingdale of Claremont; Mr. and Mrs. William Raymond, Mrs. Marian Stanton, Hazel and Mildred Stanton of Los Angeles; Mrs. Margaret Church of Santa Ana; Mr. and Mrs. Doris Smith, Mr. and Mrs. David Hansen, Miss Florence Stanton, James Smith, Mr. and Mrs. Gordon L. Smith.

Miss Cool expects to leave the first part of the coming week for her home in Johnston, N. Y., taking the trip by railway to New Orleans, and the remainder of the journey by water.

Gives Luncheon
Mrs. Edward T. Abbott was hostess Tuesday at a luncheon at her home, 1212 Viola avenue, complimenting her sister-in-law, Mrs. George C. Wells, of Los Angeles.

California poppies, artistically arranged, were employed in decorating the luncheon table. Place cards, favors and other table appointments were carried out in a yellow and white color scheme.

A delicious three-course luncheon was served, after which the afternoon was devoted to sewing and an informal social time.

The guests included the guest of honor, Mrs. George C. Wells, her mother and grandmother, Mrs. Lester Bacon and Mrs. Carolyn Hill of Los Angeles; Mrs. Paul Etzold of Huntington Park, and Mesdames G. W. Wells, Florence McChae, B. Chestnut, Ness, D. Dean, Glen Wells, Gallagher, Mora Conner, Roland Sterns, Calvin Lambert, Ray Lambert, Nat. W. Wallace Bennett and Barry McChae, all of Santa Ana, and the hostess, Mrs. Edward T. Abbott.

Remember Birthday
The recently organized P. E. O. chapter, D.J. were entertained Wednesday by Mrs. Emile G. Leyher at her home, 139 South Adams street. The luncheon, served at 12:30, was a covered dish affair, each member providing a surprise dish.

The birthday anniversary of Mrs. Howard Lennox, vice-president of the chapter, was remembered with a beautiful birthday cake prepared by Mrs. Daniels, the president of the chapter.

Mrs. Daniels presided over the business session, and Mrs. G. O. Nickolaus gave the "History of P. E. O." as the program of the afternoon.

The next meeting of the chapter will be held the third Wednesday of April at the home of Mrs. Howard Lennox, 1229 North Pacific.

Mrs. Cole Leads
The members of the Missionary society of the Central Christian church held an enthusiastic and interesting meeting in the church parlors yesterday afternoon, with fifty-two women in attendance.

The devotional services were led by Mrs. C. A. Cole, who chose as her subject, "Putting the Kingdom First."

The afternoon program included a study of "China and Tibet for Christ," with Mrs. Adamson in charge. An interesting talk was given by Mrs. Minnie Walker relative to the missionary work in China. Other numbers on the program included a talk by Mrs. Jeter on "Tibet" and a vocal selection by Mrs. Floyd Mercer.

Meets Saturday
The Glendale Chapter of Eastern Star, U. D., will meet Saturday night, April 5, in the Masonic temple, with the worthy matron, Mrs. Hermine S. Hudson, in charge.

At this time the officers will confer the degree on a class of eight. Other important business will be transacted, including the voting on amendments.

All members are urged to be in attendance.

Visits Father
Mrs. A. E. Rust of Cairo, Ill., recently arrived here for a month's visit with her father and sister, Mr. M. Morgan and Dr. Margaret Morgan, of 500 Myrtle street.

Mr. Morgan and daughter, Dr. Morgan, came to Glendale only a few months ago and were so delighted with "the fastest growing city in America" that they decided to make their permanent home here and recently purchased the residence at 500 Myrtle street.

Dr. Morgan, who is a graduate of the Palmer Chiropractic school, has opened an office in her home.

Mrs. Rust and Dr. Morgan have arranged an affair for the celebration of their father's 74th birthday anniversary, which will be held at the Morgan home on Wednesday, April 16.

Chicken Dinner
The members of the Young Mothers' class of the Glendale Presbyterian church, and their friends are looking forward with pleasure to the chicken dinner which will be served in the church Friday night, April 4.

The proceeds of this affair are to be applied toward the furnishing fund of the class. The members during the past few months have been busily planning benefit affairs in order to swell this fund so their new classroom may be comfortably furnished.

Tickets may be purchased from any member of the class or secured from A. L. Laird at 130 South Brand boulevard.

Hold Guest Day
Their annual "guest day" will be observed Friday, April 4, by Chapter B.A. P. E. O., at the home of Mrs. Douglas Chase, 400 Riverside. Friends and guests will assemble at 10:30 a. m. Luncheon and a musical program will follow the business session, which will be directed by Mrs. Josephine Brant, president of the chapter.

Hear Teachers
The regular meeting of the Glendale Avenue Parent-Teacher association was held yesterday afternoon, an entertaining program of music presented by the A-7-1 class and instructive talks by heads of various departments of the school, completing an afternoon of unusual interest.

Selections, "South Sea Islands," "Fisherman's Prayer" and "The Woodpecker" were sung in chorus by the entire class; duet, "Dragon Files," was sung by Charles Hirt and Jean Hall.

Two short plays, "Welcome to the P. T. A." and "Getting Ahead of the Girls," were presented by a number of the members of the class, directed by Miss Ruth Williams, class teacher. The music was directed by Miss Mildred Hughes.

J. E. McMaster spoke on occupational training; Miss Mary Woodridge on home economics; H. E. Bremer, physical training; and James G. Bailie, manual training.

Mr. White Speaks
At the meeting of the Mutual Benefit Reading Circle, held yesterday Superintendent R. D. White gave an interesting resume of the Chicago convention of the department of superintendents of the National Educational Association.

Mr. White, in discussing the "Recent Achievements and Next Forward Steps," said the main theme was divided into four groups, and under each group lectures on increased cost of education brought out three causes, as follows: First, shrinking of the value of the dollar; second, increased attendance, which is much greater in proportion to the population; third, new courses, which have been made necessary by the demands of the homes.

It was agreed by the majority of the educators attending the convention that the present system of education was in the experimental stage and would have to be revised to meet the need of the modern life and that the many so-called fads in the schools, such as music, art, domestic art, etc., are really fundamentals.

During the lunch hour a plant sale was conducted, from which a goodly sum was realized.

After lunch, Mrs. H. Y. Henry read a very interesting chapter on the work of the schools, of Gary, Ind.

Second Birthday
The home of Mr. and Mrs. T. J. Wagner, 601 North Isabel street, was the scene Wednesday of a charmingly appointed afternoon party for their little daughter, Betty Mae, who was celebrating her second birthday anniversary.

The day favored a lawn party where the tiny tots played directed games. Later the little guests were lured into the house for a few moments and returned to find a wonderful table, produced as if by magic, gay with pink and white flowers and centered with a mammoth pink rose from which rose two large pink candles. Big balloons floated over birthday heads, while they served birthday cake and ice cream.

The guests were Jane Piercy, Barbara Jean Koons, Bobby and Betty Bauers, Doris May Suter, Jimmy Smith, Jean and Buddy Kellogg, and the little guest of honor, Betty Mae Wagner. To be sure, guests a delicious afternoon tea was served.

Those present were Betty Mae's grand-parents, Dr. and Mrs. J. W. Eby, and Mr. and Mrs. Don Koons and Mrs. Koons, Sr., Mrs. Webb, Miss Mildred Eby, Karl Ahrens, all of Los Angeles; Mrs. S. Kellogg, Mrs. C. Smith, Mrs. G. Piercey, Mrs. C. Suter, Mrs. W. Bauer, Mrs. C. Crawford, and the host and hostess.

Bridge Luncheon
Mrs. H. E. McCartney presided over a delightful spring bridge luncheon on Thursday at her home, 316 Fairview avenue, when she entertained the members of the Wednesday Bridge club.

The rooms of the McCartney home were beautifully decorated in an orange and orchid color scheme with marigolds and flags artistically employed in the decorations. The luncheon table centerpiece consisted of an orchid basket filled with a beautiful arrangement of marigolds and flags. Bon bon baskets of orchid and orange crepe paper, and dainty favors and place cards in the same tints were used.

Luncheon was served at 1 o'clock after which the afternoon was devoted to playing Bridge. Prizes were awarded as follows: Miss Eve Brehme, first prize; Mrs. G. Wendt, second prize, and Mrs. J. A. Endicott, consolation.

Those present included Mesdames G. Wendt, George Kimball, C. A. Young, Frank Marshall, J. D. Rathbun, L. C. Wolfe, J. T. Clark, J. A. Endicott, J. A. Banham, J. Brock, and Miss Eve Brehme and the hostess, Mrs. H. E. McCartney.

Law Club Meets
The Parliamentary Law Study club will meet tomorrow, Friday, April 4, at 12:30 o'clock, in the Public Library, it is announced. During the session, a well-informed parliamentarian will be present to answer questions.

Mrs. Harry Greenwalt, president, extends a cordial invitation to all interested Glendalians to attend, and urges all members to make a special effort to be present.

P-T. A. Speaker
An interesting meeting was held yesterday by the members of the Grand View Reading Circle, when Mrs. G. W. Finney, president of the Grand View Parent-Teacher Association, gave a splendid talk on the "Pre-School Age."

Other interesting features of the program included a review of the lecture received by given under the auspices of the Federation of Parent-Teacher Associations, emphasizing the value of each child and the importance of early training.

During the noon hour a plant sale was conducted and a goodly amount added to the treasury.

Mrs. Wheldon read three chapters from "Child Training," by Angelo Patri, which were very instructive.

The rest of the afternoon was devoted to the finishing of the costumes for the Ma' Day fete.

W. C. T. U. Meeting
The first meeting of the Glendale W. C. T. U. under the presidency of Mrs. G. W. Bacon will take place tomorrow afternoon at the home of Mrs. Ernest Grigg at 319 West Wilson avenue.

The meeting will begin at 2 o'clock and as the constitution is to be revised all members are asked to bring the February copy of the "White Ribbon."

Knitters Are Needed For Red Cross Work
Returning to the popular wartime pastime, the Glendale Red Cross is enlisting the aid of volunteer knitters. Any Glendale women who would like to assist in the knitting work are asked to apply to Mrs. Daniel McLean of 317 Fischer street, chairman of knitting.

Better Silk Hosiery
IN

Gordon HOSIERY

That is our conclusion, after long and careful investigation of the merits of various standard lines. We have spared no effort in our endeavors to procure for our patrons what we truly believe to be, and unhesitatingly recommend as the "Best Values Obtainable" in Silk Hosiery, and with the above result. For years we, like many others, were satisfied at being able to sell just good hosiery at a fair price, a policy with merit enough in a way, but one which we felt could be greatly improved upon.

Gordon's Silk Hosiery solved this problem to our entire satisfaction—and while costing us more than the average makes retailing at the same prices, we prefer them as a means of giving to our patrons the "best" hosiery values within our power to offer.

We mention the following numbers as excellent values:

GORDON 290 Medium weight, thread silk with lisle top, reinforced toe, heel and sole (full fashioned hose) in Airedale, Champagne, Mandala, Beige, Sand, Silver, Raquet and Black, at \$1.95	GORDON H-300 Heavy thread silk with lisle top, reinforced toe, heel and sole (full fashioned) in Airedale, Beige, Champagne, Nude, Silver, Raquet, Steel and Black, at \$2.50

Lauderdale's IRISH LINEN STORE
117 NORTH BRAND BLVD.

Plan For Play
The drama department of the Tuesday Afternoon club, of which Mrs. Max L. Green is curator, will meet tomorrow, Friday, April 4, at 2 o'clock, in the Palm court of the clubhouse.

All members are urged to be present and to bring with them their donation of candy, so that it may be placed in stock for the evening performance of "You Never Can Tell."

During the afternoon several reviews of late New York plays will be given.

Hostesses for the afternoon will be Mrs. Dwight Stephenson and Mrs. Albert Pearce.

Pythian Sisters
The Pythian Sisters will hold their regular meeting and initiation Friday evening, April 4 at the K. P. hall, Brand boulevard and Park avenue.

A "pot luck" birthday dinner will be served at 6:30 o'clock. Visitors are welcome, and all local members are urged to attend.

UNDERGO OPERATIONS
Major operations were performed this morning at the Glendale Sanitarium and Hospital of Mrs. Katherine Varrum, of 32 San Jose street, Burbank, by Mrs. Louise Ellen Chudley, of 50 Altura avenue, Montrose.

MAJOR OPERATION
Charles E. Bigole of 417 North Kenwood street underwent a major surgical operation this afternoon at the Glendale Research hospital.

HOUSE BUILDING RIGHT NOW SETS RECORD, IS CLAIM

City Superintendent Shows Many Small Permits Aid Glendale's Growth

"I am certain that there has never been a time in the history of Glendale when there were as many houses under construction as there are now," said H. C. Vandewater, municipal building superintendent, yesterday. "Many folks shake their heads when the total for the month is announced and it is found to be slightly below that of 1923 for the corresponding period.

"March was a wonderful month. True, we fell a few thousand dollars short of our million-dollar goal. Probably if we had wanted to do so badly enough, we could have issued a permit that would have brought the total up to the required mark, but we don't do business that way in Glendale. Every dollar represents an actual investment of one hundred cents.

Good, Healthy Growth

"It so happened that in 1923 we started off with three million-dollar months. In 1924 we have had but one such. It also happened that in 1923 we had several large permits which boosted the monthly totals to the high total. It so happened that in 1924 we did not have these permits.

"As far as the normal, healthy growth of the city is concerned, that nine hundred odd thousand dollars' worth of permits in small amounts is of as much value to the city as a million dollars' worth that includes one permit for \$400,000.

Record Prosperity Here

"Of course, the large permits are desirable. The commercial life of the city must grow with the residential life. But while figures don't lie, they sometimes are misleading, and I believe they are in this case.

"Contractors are busy and my office is enjoying a nice business daily, without any excessively large permits. I believe that Glendale is prospering as never before in the building line."

Graham Crackers

By F. A. GRAHAM

"Daugherty, Deposed, Leaves Capital." Boner number two. It's alright to get deposed, but never, never leave any capital behind.

A columnist says that President Coolidge is a poor man, risen in the ranks through luck. The spelling is faulty. Should be p-u-u-c-k.

"Good Hope" is another goat that capers for the money. There are two varieties of this kind of hope, the most prevalent being good-for-nothing.

Representative Olcott of New York told the senate investigating committee that two years ago Wayne Wilson had offered to secure his appointment as federal judge for \$35,000, but he spurned the offer and said to forget it. Spurning and forgetting are two different things. He still remembers and probably feels slightly that the amount was not the regulation \$50,000. "So he kept the \$5,000 marbles and knuckled down to business." (Parody on this one, Wm. De Beck.)

Republican Representative John W. Langley of Kentucky was indicted for complicity in a liquor plot. Being from where he is from, what is wrong with the gentleman's conduct in that?

"Coolidge Men" Ask Recount as Johnson Wins. They couldn't believe it.

The "driest in fifty" has now become the "heaviest and most beneficial." Some say the Hatfields did it.

"Test Shows System Will Break Monte Carlo's Bank If Croupiers Will Permit." Thus the headline. Tests show that you can get people on the telephone, too, if central will permit. Any form of gambling is very risky, so they say.

A news item says that broken hearts are being repaired by Dr. Eiselberg of Vienna, in a tone that implies great wonder. 'S-nothing, judges in this country have been mending broken feminine hearts for many years.

President Alvaro Obregon almost quelled the rebellion in Mexico single-handed. He arrested the rebel army when it passed him on the street and failed to tip its helmet at him.

Paper made for the Bank of England notes, the secret of which has been kept for 200 years, is so strong that a folded piece can sustain a weight of 50 pounds.

SHRINE CLUB TO ENTERTAIN WITH PARTY, APRIL 10

Hectic Time Is Promised In Invitations Sent Out By P. J. Hayselden

"You ain't seen nuthin' yet." That's the subtle hint that has been stirring the imaginations of all Glendale Shrine club members ever since they read the tempting invitations all about the big affair to take place Thursday night, April 10, at the Oakmont Country club.

Hints are all that are offered on the invitations but judging from these good broad hints a wonderful time is in store for the Shriners and their ladies.

Some Attractions

Announcements that are luring the club to be present with guests 100 per cent are:

"A wonderful jazz orchestra will furnish irresistible and bewitching music for the splendid occasion.

"Nobles, do not stay away because you do not dance, that's not the idea at all; we will keep you busy having a good time.

"Listen to the pianist as he sits down to a fine dinner and at such time there will be no dancing and you and your ladies will be able to enjoy it.

Program Starts

"At 8 o'clock, bang goes the music and the fun starts. Dancing, high class entertainment, stunts, favors and everything.

"At 11:30, enter the Great Tutanzakul and his mighty Divan. Oh! what a howl, you will say it will be good in every way."

"So the final word from Percy J. Hayselden, club president, is "Remember, no come, no fun, no chow, no nuthin'. Stop crowding, Nobles, there's plenty of tickets for you all. Who's first and who's next?"

BERLIN, April 1.—"Dear Willie: Come back at once. All is forgiven. Your loving Kaiser, Bill."

EDITORIAL: Something is the matter with the hair-cuts of our generation and the barbers should be deported. Oh, temperance! Oh, morals! Congressmen, it is up to you. The trouble is, Lincoln was a greater man than Washington and so the Monroe doctrine has become likewise and the League of Nations would have been much the same way. The trouble is, we can't get enough cement for building operations, let alone concrete for hard-headed business men.

Harvey Predicts One Ballot at Conclave

NEW YORK, April 3.—Colonel George Harvey, former ambassador to Great Britain, arrived in New York late yesterday with a prediction that President Coolidge will be re-nominated on the first ballot at the Cleveland convention and elected to the presidency next fall.

With him on a Savannah line steamer was his family and William B. Leeds and his wife, the former Princess Xenia of Greece. They had been vacationing at Jekyll island country club, near Savannah.

Army Balloon Pilot Is Studying Storms

BELLEVILLE, Ill., April 3.—No word has been received here from Dr. C. Leroy Meisinger of the United States weather bureau and Lieutenant J. H. Foster, army balloon pilot, who cast off here late Tuesday in the first balloon flight to study upper air currents. Flying at a height of 10,000 feet, the balloon was last seen headed east by southeast from here. The men had food for three days and carried a radio receiving set and carrier pigeons.

Expect Income Taxes Will Set New Record

WASHINGTON, April 3.—Federal income taxes for 1924 are expected to reach \$1,855,000,000, estimated by treasury experts, it became known when the first accurate returns for the March payment period became available. The March payments totaled \$480,000,000 or \$17,000,000 more than March 1923, and in addition \$20,000,000 in back taxes were collected. The public debt has been decreased by \$158,000,000 in March.

Mooney's Wife Seeks Evidence in Portland

PORTLAND, Ore., April 3.—Mrs. Rena Mooney is in Portland to begin a search for evidence which she hopes will aid in securing a pardon for her husband, Thomas Mooney, now serving a life term at San Quentin prison for his part in the San Francisco preparedness day bombings of 1917. She recently toured Eastern Oregon and Washington on her mission.

Testifies Gulf Oil Company Was Favored

WASHINGTON, April 3.—The Gulf Oil corporation, one of the so-called " Mellon companies," was given a decision on depletion allowances for computing taxes while another oil company with the same problem had to wait 18 months, Nelson Hartson, internal revenue bureau solicitor, yesterday testified before the Couzens committee.

Sphenel Kolumu

VERTEBRAL KOMMENT By Prof. Xavius Zantippe

Having tied up with The Glendale Evening News on a thirty-year contract, the first thirty-nine of which are the hardest, we now throw ourselves at the mercy of our constituency, and hereby offer a prize of \$5 for all acceptable contributions that fail to reach me.

We will also pay 1 cent each for clever sayings by children. The following is a sample of the material desired: The cat was playing with a ball of yarn underneath the dining room table. "Glubub, wookie, gookus," said little Donald, aged three weeks and five minutes. The bishop left rather hurriedly.—Mrs. P. J. Swat, 127 High way.

Anyone who will apply a hot iron to this spot until it is charred, then wash the same in a saturated solution of grain alcohol and run it through the wringer, will be disappointed not to find a picture graphically illustrating the widget industry, as compared with the widget industry, showing how when the whole thing is put side by side it becomes clearer than ever. From this picture the reader can understand what it would look like on a rainy day.

BERLIN, April 1.—"Dear Willie: Come back at once. All is forgiven. Your loving Kaiser, Bill."

EDITORIAL: Something is the matter with the hair-cuts of our generation and the barbers should be deported. Oh, temperance! Oh, morals! Congressmen, it is up to you. The trouble is, Lincoln was a greater man than Washington and so the Monroe doctrine has become likewise and the League of Nations would have been much the same way. The trouble is, we can't get enough cement for building operations, let alone concrete for hard-headed business men.

Talk about permanent waves, the crime wave seems here to stay too!

In answer to our "Embarrassing Moments" contest, which will be announced next week, the following is the star contribution to date:

"Me and my friend, my 'boy' friend, if you know what I mean, were having a 'lark' down at Venice the other night and I guess I had drunk a lot of root beer and was laughing a good deal, when my 'boy' friend suddenly said: 'Well, you're certainly showing your appreciation.' I was never so embarrassed in my life. —Dolly Dimple. (address on request).

NEWS ITEM: Percy Spoofer, high school warrior, has been chosen to represent them in whatever it is he will represent them in.

The pen that rocks the cradle may rule the kitchen but it will never be president.

Will some bright reader answer this: When did last Sunday fall on a Thursday?

Charge Alcohol Sold By Druggist Poison

TOLEDO, April 3.—Charges of manslaughter were placed yesterday afternoon against Meyer Selzman, druggist, and two clerks, alleged to have sold denatured alcohol, unlabeled, which is said to have caused the death of fifteen persons here since Sunday.

Phillip Miller, Toledo, died at a hospital here at noon yesterday and two others are near death there.

Personal Fortunes No Public Menace, Claim

WASHINGTON, April 3.—Secretary of the Treasury Mellon told the Senate finance committee late yesterday that there is "no menace" to public welfare in the piling up of huge personal fortunes. The treasury hearer made this statement in connection with his argument before the committee against the provision of the pending tax bill which increases from 25 to 40 per cent the state tax.

STAGE VETERANS WILL APPEAR IN PLAY TOMORROW

Louis Sargent and Harold Brewster in 'You Never Can Tell' Comedy

An attractive feature of the presentation Friday and Saturday nights of "You Never Can Tell" at the Tuesday Afternoon clubhouse under the auspices of the Drama department of the club, is that Louis Sargent, for eleven years a successful motion picture actor, and Harold L. Brewster, impersonator, character actor and dramatic instructor at the Glendale Union High school, are members of the cast.

Those who are anticipating seeing the production of Bernard Shaw's comedy drama will be interested to know some of Mr. Sargent's successes. He played the part of Huckleberry Finn in "Huckleberry Finn;" starred in "Just Around the Corner," "Soul of Youth," fifteen Louis Sargent comedies for Universal, in "Oliver Twist," and played the part of Noah Claypoole Hale in "Dorothy Vernon of Haddon Hall."

Taught In Long Beach

Mr. Brewster's talent is known throughout the southland. Before coming to Glendale to take up the duties of public speaking instructor and dramatic director at the high school, he taught for several years in Long Beach, and was instrumental in organizing and directing the Community Players of the beach city.

Previous to that time and while completing his academic work at the University of Southern California he played a season with the Pasadena Community Players and with them he first appeared

Tell World About Glendale!

The opening of the new Southern Pacific depot marks the beginning of a great era of development for Glendale if the citizens of this community will awaken to the tremendous advantages to be gained by immediately broadcasting the wonderful story of this MAIN LINE CITY to the nation, through the medium of organized, scientifically-handled paid publicity. Glendale has now arrived at a critical period in its development. Real estate values have increased amazingly during the past three years. STABILIZATION OF VALUES and absolute assurance of a continuation of our growth are now dependent upon the immediate action of the citizens of the community.

If we spend only \$7000 a year in advertising ourselves to the world, while the smaller neighboring cities are spending ten to twelve times that amount, we can't expect to hold our own against them. This is an era of national community advertising, and progressive California cities are keenly COMPETING with each other for the hundreds of thousands of NEW CITIZENS who are pouring into the state every year.

Glendale has MORE to advertise than any other city of equal size in California. The citizens of San Francisco are advertising Northern California in national publications to the extent of nearly one-half million dollars a year. The All-Year Club of Southern California is spending a large amount in similar manner to attract people to this section. Pomona, Alhambra, Santa Monica, Santa Barbara and many other small cities are "cashing-in" on this nation-wide publicity, by expending \$50,000 to \$75,000 a year in specifically advertising their own wares.

Glendale MUST meet the advertising competition of its neighbors. Let's tell the world about Glendale through the great national magazines and newspapers—and LET'S DO IT QUICK!

OVAL HANDKERCHIEFS

History could explain why handkerchiefs, as long as the memory of modern man runneth, have been square, in that it was decreed by the ill-fated Louis XVI on a whim of Marie Antoinette, the queen, but nevertheless handkerchiefs oval in shape are making their appearance in Europe and may survive. They are found to lend themselves to pocket arrangement much better than the old square type.

SPARROW IN ALASKA

Brought to the eastern part of the United States in 1850, the English sparrow has worked its way west until last year it appeared in Alaska for the first time.

TO PREVENT LOSS

A patent covers a hand bag for women to be locked to a wrist of an owner by an ornamental handcuff to prevent loss or theft.

USE JUDGMENT IN AUTO CASES, PLEA OF WRITER

Glendale Man Gives His Views in Answer to Police Judge Lowe

William J. Schaeffe, resident of Glendale and editor of the American Globe, read recently in The Glendale Evening News an interview with F. H. Lowe, local police judge, in which the judge gave his views on traffic violations and the transportation situation in general. The interview has brought forth the following from Mr. Schaeffe:

By WILLIAM J. SCHAEFFE, Editor of The American Globe. F. H. Lowe, police judge of Glendale for a number of years, who has lived in Glendale when it was a very small town, according to an interview with him in the Glendale Evening News of March 29, which issue was extensively read, declared "under present conditions" he does not know the solution to the traffic law violation problem.

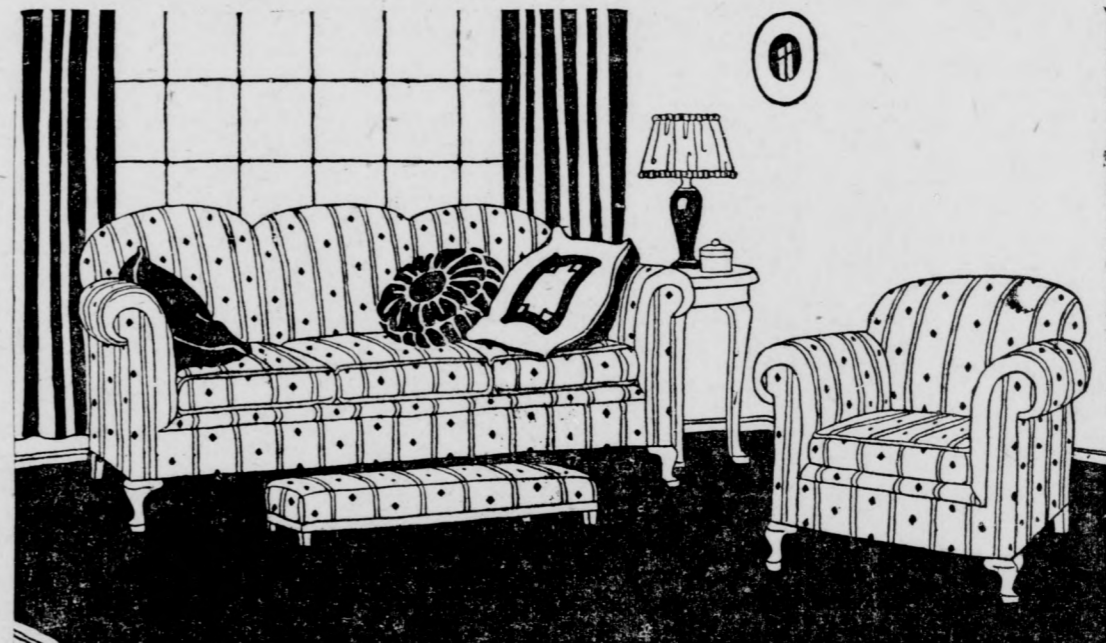

Jail sentences for the ordinary violator he believes to be unjust while the present county jail quarters exist, but he expects to send violators to jail just as soon as the new county jail is completed. He says fines are "repulsive" to him, because it takes money that should be given to wives and children, but that he will not literally follow the system of Los Angeles Police Judge Hugh J. Crawford of imposing a fine of \$1 for each mile in excess of the speed limit. That plan he believes will result in fines of \$10 or less in most cases and solutions to the problem are getting more serious every week. Six hundred traffic violation

EMERGENCY CITY HOSPITAL URGED BY DR. HARROWER

Care of Indigent Sick Puts Burden on People Who Stand Expenses

Dr. Henry R. Harrower, head of the laboratories that bear his name, in the following letter to the Glendale City Council, urges the establishment of a city hospital equipped to care for the indigent sick who are in need of medical treatment, but whose financial circumstances are such as to prevent their obtaining the care their cases demand.

April 2, 1924.
To the Mayor and City Council, Glendale, Calif.:

Dear Friends: There is a matter of civic interest to which I wish to direct your attention despite the fact that doubtless this must have come up for consideration before and probably has occupied your consideration more than once previous to this. Since I was made assistant to Santa Claus at Christmas time in the interests of the Exchange club of Glendale, I have had a number of experiences which indicate to me that Glendale is not keeping up to the mark which is set for every well-managed and progressive city.

Would Aid Indigent
I am referring particularly to the matter of hospitals and charities, and would like to suggest for early consideration by your august body the proposition of establishing facilities in Glendale where the indigent sick may be cared for. Some experiences which the Glendale welfare council is going through at present and some matters which have come to the attention of the Exchange club indicate that there is not at present any workable arrangement whereby those who cannot afford to pay for hospital service and whose condition demands it can be taken care of by the citizens. As it stands now, one of the hospitals has to be responsible for these people and I imagine that in many instances they get little or no return for their service. It seems hardly fair that these institutions should be forced because of circumstances to render this service, and if it is not possible to build and equip an emergency hospital and run it by the city, then some workable arrangement should be made whereby the cost of this particular civic burden should be borne by the citizens and not by a few generous and well-meaning persons.

I realize, of course, that we have a county hospital, but it is situated remote from Glendale and despite the fact that it is well run and a first-class institution, there are a great many people who have acquired an antipathy to going to the county hospital or having their relatives sent there. Perhaps it is because of this that the name of this institution recently changed to the "Los Angeles General Hospital." At all events, as a physician I happen to know that this is true.

Here on "Shoeing"
Glendale has grown too fast. Its beauties and glories have been broadcasted throughout the country and a very large number of individuals have come to the city "on a shoeing." It is quite common for such individuals to find themselves absolutely without funds and in need of medical assistance, and it seems hardly fair that the medical profession, already well known for its generosity to indigent patients, should have to carry these burdens without appreciation from the people as a whole whose burdens they are really carrying and with little thanks from those who get the service.

I suggest that the City Council of Glendale give very careful consideration to the entire reorganization of the health situation in town, that they set aside sufficient funds to maintain a health department commensurate with the size and character of the city which would include at least one full-time health officer and two assistants, several part-time assistants and facilities in which to carry out this work.

Pending the building or acquiring of a suitable "city hospital" an arrangement should be made whereby those who are absolutely out of funds and in need of this kind of help should get this help from the city and not from individual organizations in the city, thus spreading the burden on all the shoulders that should carry it. I do not doubt that this matter has had consideration before, but the fact that nothing has been done of note, or that if anything has been done, the plans are not at present working judging from experiences which I have just gone through, and makes me believe that it is high time for us to expect of you as directors of the city affairs to do something suitable under the circumstances.

With every good wish, I remain
Yours very truly,
HENRY R. HARROWER.

Woman Is Injured as Cars Crash at Corner

An unidentified woman driving a car in which three other women were riding was slightly injured yesterday morning when the machine collided with another driven by Otis A. Payne, 5114 Tunjuna avenue, Lankershim, at the corner of California street and Columbus avenue.

Payne, according to the report made to the police, was going west on California and the woman north on Columbus. In an effort to avoid the accident he states she locked the wheels of the car with a sharp turn, and after grazing Payne's car, the machine overturned. The woman driving was the only one injured, according to his report.

BURBANK ROAD ASKS FIFTY YEAR FRANCHISE

Pacific Electric Requests Permission to Operate Line to Eton

The Pacific Electric Railroad company, in a recent request, signed by D. W. Pontius, vice-president, has asked the city trustees for a fifty-year franchise to operate and maintain a line as far west as Eton drive. The trustees, acting under advice that such immediate action might be taken, passed an ordinance to first reading, granting the franchise. If it should develop that the formal process is required, of publishing a declaration of intention and calling for bidders for the franchise, the matter will still go through, it is fully expected, although a delay of something like sixty days would be involved.

The present P. E. western terminus is Cypress avenue. Eton drive is in Benmar Hills, one of the new sections of the city.

Boy Scout Panel
The Burbank Boy Scouts have been painted by J. A. Coultrupp of Long Beach, in a ten-foot panel. It is the plan of E. H. Wilson to have the painting framed. This panel which has been made for the boys, represents a road stretched along the foreground of mountains, with trees and fields lying between, and the object of it is to mark the progress of the scout troops in a contest which they are going to enter soon. The road is supposed to be three hundred miles in length, and each mile will represent a point in the contest.

A local chapter of the Loyal Order of Moose has been formed in Burbank and will act as the headquarters for all San Fernando valley members of the lodge. John A. Reis, who has been a Moose since 1905, is the organizer.

"Dads" Have Inning
The Fathers of the John Muir school recently put on a splendid program at the schoolhouse. The affair took place in the evening and was well attended. Following is the program:

Community singing—Led by Miss Freyburger, Miss Broughton at the piano.
Reading—Nathan's Flat, John Parker.
Piano Solo—Tom Pendell.
Boys' chorus—7B boys under direction of Miss Freyburger.
Reading—Myself, Ernest Hatch.
Trio—Violin, Carrol Clair; alto, Charles Pershing; piano, Sanford Van Leuven.
Reading—Dad's Name, Donald Offill.
Talk—Experiences in Juvenile Court, Walter C. Fisher.
Trombone solo—Richard Crawford.
Talk—Mayor Crawford.
Question box led by Superintendent Collins.

MONTROSE MANY ENTERTAIN AT COUNTRY CLUB

Oakmont Is Social Center For Brilliant Affairs of Valley People

The beautiful Oakmont Country club is becoming more and more the center of social activities for Glendale and La Crescenta valley people, and the club members are realizing more each day just what a club home means to them in the matter of entertaining formally and informally.

Those who entertained at Oakmont during the past week were, at the Saturday night dinner dance, Mr. Cook with eight guests; Earl Daniels, six guests; Mr. and Mrs. Hall, Mr. and Mrs. Max Green, Mr. and Mrs. Dan Green, Dr. and Mrs. Young, Mr. and Mrs. Hatz, Mr. and Mrs. Baird, Mr. and Mrs. Baird, Mr. and Mrs. Nelson, Mr. and Mrs. Worley.

Mrs. Pulhian was present with nine guests; A. M. Bearson with two guests; H. E. Nabbe, Jr., four guests; Mr. and Mrs. Hatch, eight; Mr. and Mrs. T. D. Peltis and Mr. and Mrs. W. C. Kaune, two; Mr. and Mrs. Farmer, ten; H. C. Stinfield, two.

At noon on Saturday Miss Katherine Guthrie entertained with a bridge luncheon for twenty-four guests.

Sunday evening at dinner were seen the following members with guests: Mr. and Mrs. S. M. Woods, eight; C. C. Cooper, six; Owen C. Emery, four; Mr. and Mrs. J. M. Thorpe, three; Mr. and Mrs. H. C. Christians, nine; Mr. and Mrs. Harry Hague and Mr. and Mrs. Tom Cooney, four; Mr. Wernette and Mr. E. B. Wyman, four; Mr. F. Ayars, six; George Mitchell, two.

Dinner Guests
Monday evening there were fewer diners, but all enjoyed themselves. Those having dinner guests were Mr. McNittie, four; Mr. Gilhuly, two; Mr. and Mrs. H. S. Webb, nine; Raymond Johnson, two; Mr. and Mrs. Hearty, four; Mr. Farmer, four; Tuesday, Mr. Guthrie had twenty guests. Wednesday, C. L. Smith had a luncheon party of twenty covers. Mrs. Thomas Watson engaged the private dining room for the pleasure of fifty dinner guests, while E. B. L. Reese had a bridge dinner for twelve guests.

CLUB TO OFFER SACRED CONCERT ON FRIDAY NIGHT

Musical Event Will Be at Congregational Church; Unusual Numbers

Glendallians are to have the opportunity of witnessing a wonderful presentation of sacred music next Friday night, according to reports received from Mrs. Paul A. Hoffman, president of the Madrigal club, relative to the production of the sacred concert by the members of the club under the direction of Mrs. Charles A. Parker.

The concert will be presented at the First Congregational church on North Central and West Lexington drive Friday night April 4, at 8 o'clock. The presentation of this concert is an added treat, inasmuch as this is to be given in addition to their two annual programs this year.

Program For Night
The program to be presented is as follows:
Pipe organ, (a) "Fantasia," (Gourz); (b) "Spring Song," (Mendelssohn); (c) "Pomposo" (Roger); Miss Lilla E. Litch.
Solo, "Judge Me, O God," (Dudley Buck), Louis K. Markey.
Quartet, "The Prayer Perfect" (Stenson), Mrs. E. B. Moore, Mrs. R. N. Slater, Mrs. H. F. Bullinger, Mrs. Hartley Shaw.
Violin, (a) "Humoreske" (Frank Patterson); (b) "From The Cane Brake" (Samuel Gardner); Miss Frances Payne.
"Gallia," (a model for women's voices) (Charles Gounod); Madrigal Club. Solo part, Mrs. L. K. Markey.

Solo, "Fear Not Ye, O Israel" (Dudley Buck); Louis K. Markey.
Duet, Piano and pipe organ, "Claire De Lune," (L. A. Mothe); Mrs. Gertrude Champlain Erb piano; Miss Lilla E. Litch, organ.
Solo, "Eye Hath Not Seen" (Gaul); Mrs. Albert Draper.
"The Lost Chord," (Sullivan); Miss Flora Phyllis Kilpatrick, soloist, Madrigal Club.

EAGLE ROCK CHURCH WORKERS ATTEND MEETING

Gather at Home of Member Who Sails for Orient Next Month

The "Christian Workers" of the Church of Christ met at 3 o'clock this afternoon at the home of Miss Margaret Frazee, 414 Toland way. Mrs. Charles Ewers of Glendale conducted the program. As Miss Frazee leaves in May for a trip to the Orient, this was as much a farewell party as a business session for the Workers.

The pupils of the Garvanza grammar school will present tomorrow and Saturday nights, at the schoolhouse, a play written by Mrs. Anne Harrison and with costumes designed by Mrs. C. D. Wentworth, both prominent local club women. The play was presented last week at the Hermosa Beach grammar school.

The following members of the Thursday Morning Music club attended the Cadman benefit concert at the Philharmonic auditorium:

Mrs. Constance Braasch, Miss Ethel Congdon, Mrs. A. R. Lavelle, Mrs. W. J. Carry, Mrs. Mills, Miss Johnstone, Miss Ruth Thompson and Mrs. Hillier.

Removals
Mrs. R. T. Sharp has moved from 5071 Hermosa avenue to 5083 Hermosa avenue.
M. Thorne, formerly of 491 La Roca avenue is now living at 2342 Loy Lane.
Mrs. John Boch has moved from 2109 Addison Way to Yucalpa, California.
F. Giles, formerly of 2229 Laverna, is now residing at 5152 El Rio avenue.
J. G. Delozier formerly of 2902 Colorado, is now residing in West Los Angeles.
K. W. Hunt, formerly of 5212 Maywood avenue, is now residing at 1819 Yosemite Drive.

Thomas Graves, formerly of 5070 Satsuma avenue, is now residing at 5930 Laverna avenue.
Mrs. E. C. Richardson, formerly of 5146 La Roca avenue, is now residing at 4948 Lockhaven avenue.
Louis Sommer, formerly of 5130 Shearin avenue, is now residing at 5319 Delaware avenue.
H. J. Wickman, formerly of bridge avenue, is now residing at 5139 Townsend avenue.

Mrs. Elizabeth Fackler and daughter, Miss Grace Fackler, have moved into their new stucco residence on Vincent avenue. Miss Grace Fackler holds a position with the Security Trust & Savings Bank at 5th and Broadway.

Mrs. J. M. Denison, who is making her home in Eagle Rock with her son and daughter-in-law, Mr. and Mrs. H. E. Denison, of 5229 Alverne avenue, is among the loyal boosters for Eagle Rock. Mrs. Denison is highly pleased with this locality, and comes here from Huntington Park. She has affiliated with the Episcopal church.

One is charmed by the homelike atmosphere of the club and by the competent service rendered by a competent corps of servants; also by the hospitable welcome always extended to one's self and guests by the house manager and hostess, Mr. and Mrs. J. ELLISON.

Club Delegates Are Awaiting Convention

"It was all Glendale," is the report brought back by Miss Eva Daniels, publicity chairman of the Tuesday Afternoon club, from the conference of press chairmen of the Los Angeles district, California Federation of Women's clubs, in Los Angeles.

Glendale was featured because the club presidents and press chairmen are all anticipating the press luncheon, Wednesday, April 9, during the convention in Glendale.

Mrs. Leland A. Irish, chairman of press for the district, and Mrs. E. M. Timerhoff, state and district chairman of circulation, are coming to Glendale tomorrow to meet with Miss Daniels to complete plans for the press luncheon.

School Board Merger Will Be Discussed

The question of the consolidation of the High School Board of Trustees and the City Board of Education will be threshed out tonight at a joint meeting of all boards in the district, to meet at the call of the educational committee of the Glendale Chamber of Commerce, of which Cameron D. Thom is chairman.

The meeting will be held at the Harvard street high school. Representatives from the outlying districts have been asked to be present and it is probable that the matter of the formation of a junior high school district will also be discussed. The meeting is called for 7:30 o'clock.

High School Pupils Give Piano Recitals

The first of two quarterly piano recitals by the pupils of Miss Zula Zeigler of the Broadway High school was held at 10:15 o'clock this morning in room 138. The second recital will be held at the same hour tomorrow morning in the same room.

Following is the program rendered this morning:
"Chaconne" (Roubier), Lincoln Bailey; "Hovering Butterflies" (Gairnor), Marian La Roque; "In Hanging Gardens" (Davies), Mahala Wickert; "Hungarian Dance" (Gurlitt), Wilfred Tibert; "Twilight Meditation" (Denée), Winifred Pessenden; "Melodie" (Massenet), Fern Bosworth; "Dance Caprice" (Grieg), Mabel Todd; "Venetian Boat Song" (Mendelssohn), Graham Young; "Betty's Music Box" (Bond), Ruth Morcus; "Twilight" (Friml), Julia Goetz; "La Cinquantaine" (Gabriel Marie), Bertha Johnston; "Venetian Barcarole" (Nevin), Olive Gulick; "Melody in F" (Rubinstein), Clytelle Hewitt; "Nocturne" (Grieg), Emilie Collins; "To Spring" (Grieg), Laura Moyses.

USES SUN'S RAYS

Apparatus has been built by a California scientist with which the sun's rays falling on twenty-four square feet of mirrors are concentrated on thirty-six inches, developing heat enough to melt ore.

DENY DANGER OF INFECTION FROM MILK OR BUTTER

Dairies and Creameries Are Free of All Trace of Cattle Plague

Rumors current in Southern California of disease through infected butter and milk coming from cattle afflicted with hoof and mouth disease were emphatically contradicted by the state and city board of health today.

"There is absolutely no possibility of infection through butter or milk distributed by any dairy or creamery in the city," said Dr. J. R. Dunshee, head of the child welfare bureau of the Los Angeles health department.

Milk Pasteurized
"Every gallon of milk and every pound of butter sold in the city has been pasteurized at a temperature of 120 degrees."

"Yesterday a test was made of every dairy and creamery in the city. In only one creamery was there found any trace of infected cattle have been found. The health department is keeping an absolute check on all supplies and there is not the slightest need for worry."

No Trace of Disease
"Virtually all of the butter and milk sold in the city comes from areas where no traces of infected cattle have been found. The health department is keeping an absolute check on all supplies and there is not the slightest need for worry."

Dr. Dunshee's statement was confirmed by J. J. Frey, head of the department of the state of California, and by the Board of Health of the city of Los Angeles.

Until the outbreak of foot and mouth disease is eradicated all persons desiring to move feed or hay to ranches or dairies must apply in person to the State Department of Agriculture, 1028 Pacific Finance building, Sixth and Olive streets, or by applying to the local horticultural inspectors who are deputized to issue or revoke permits. All deliveries must be made at roadside as trucks are forbidden to enter the premises.

Urges Precaution In Use of Meat, Milk

By G. H. HECKE
Director of State Department of Agriculture

SACRAMENTO, April 3.—Housewives and purchasers of meat in general need feel no apprehension regarding the much-talked-of menace to human beings in the spread of the foot-and-mouth epidemic among cattle, hogs and poultry in California.

It is advisable, however, at this time to use only pasteurized or boiled milk and to purchase no meat that does not bear the seal of a government inspector.

All meats should be well cooked and use of uncooked hamburger or other forms of raw meats should be absolutely discontinued at present.

With these precautions no reason can be advanced for any decline in the consumption of meat.

The present outbreak will not very seriously affect the source of California's meat supply. This state for many years has been a heavy importer of beef, pork and mutton. Since all these supplies from other states are inspected by government experts, little or no danger exists from this source.

Hoof and mouth disease is primarily and principally a disease of cattle; secondarily and casually, a disease of man. It is transmissible through the consumption of raw milk, butter, cheese and other milk products from infected animals.

Children may become infected through drinking unboiled milk from diseased cows, and persons in charge of these animals may be inoculated with the disease through contact with affected parts in caring for these animals.

Very few outbreaks of the disease have occurred in the United States. A few cases were reported in New England in 1902 and similar reports of the disease among children during the 1903 and 1914 outbreaks are on record. The history of these cases incriminates the milk supply. Pasteurization or boiling, I repeat, destroys the

Dairy Goods, Meat Sold Public Given Strict Inspection

That Southern California residents need not fear danger from the dreaded hoof and mouth disease, is the message of R. Roberts, manager of the Glendale Market of 632 East Broadway, who attended a meeting last night at the Los Angeles Chamber of Commerce, to consider the control of this malady.

Mr. Roberts reports that the quarantine measures are being rigidly enforced and that all dairy products and meat being sold to the public is being thoroughly inspected by federal, state and local officers.

EASTER LIST OF BOOKS PREPARED

Public Library Holds Many Volumes Suitable for Lenten Reading

In anticipation of Easter, Mrs. Anna J. Dunford, librarian, and her staff at the Public Library have arranged a timely collection of Easter books that will prove of interest during the Lenten days.

These books, now on display at the library at South Kenwood and East Harvard streets, are:

"Triumph of the Man Who Acts" (Purinton), "Your Hidden Powers" (Jordan), "Investment of Intuition" (Hillis), "In Tune With the Infinite" (Trine), "Pathway of Roses" (Larson), "Man's Value to Society" (Hillis), "Syrin Christ" (Rihbany), "Great Men as Prophets of a New Era" (Hillis), "The Way of All Flesh" (Butler), "Study of the Miracles" (Habershon).

Religious Works

"Historical Geography of the Holy Land" (MacPhail), "Modern Readers' Bible" (Moulton), "Development of Theology" (Pfleiderer), "Historical Prophecy and the Monuments" (McCurdy), "Catholic Encyclopedia" "Prophecy of Israel" (Bettenweiser), "Bible Commentary" (Dumelow), "Papius's Life of Christ" (Papius), "Abraham's Bosom" (King), "The Book of God" (King), "Humanizing of Knowledge" (Robinson), "Origin and Evolution of Religion" (Hopkins), "Jesus, the Christ, in the Light of Psychology" (Hall), "Can I Be a Christian?" (Birmingham).

Lecture Tomorrow

Adolescent Period

Dr. Charles W. Waddell, director of the training school at the University of California, Southern Branch, is to speak tomorrow morning at 10 o'clock in the hall at 323 North Brand boulevard, on "The Adolescent Period."

This will be the fifth lecture in the series from the extension department of the Southern Branch. They are being given in Glendale under the auspices of the Glendale Federation, Parent-Teacher associations.

Improvement Club to Hear Reports Tonight

Members of the Fourth Street Improvement association will hold a business session tonight in the Grand View school at 8 o'clock.

At this time the right of way committee will give a report and other important business will be transacted. A large attendance is anticipated.

RETIREES FROM RACE

ROME, April 3.—Ex-President Denicola of the Chamber of Deputies announced today he would retire from office in the forthcoming general election.

germ of any possible infection in milk.

Tells Symptoms
The symptoms in man resemble those in animals. High fever, sometimes vomiting and dryness of the mouth, followed by an eruption of the mucous membrane of the mouth, are identifying characteristics of the infection. A skin eruption may appear on the body, mostly on the hands. The disease in man is usually very mild and recovery is rapid. I have no knowledge of any fatality from this disease in human beings.

Hoof and mouth disease at present is epidemic in San Francisco, Los Angeles and several San Joaquin valley counties. A rigid quarantine is in effect and everything possible is being done to stamp it out.

There is no reason for hysteria and no menace to humanity if the above-mentioned common sense precautions are taken. State officials are exercising the utmost vigilance and already livestock approximating \$700,000 in value has been slaughtered to prevent its further spread. The federal and state governments will assume equal responsibility in reimbursing the owners of this stock.

Bible Classes Start Tomorrow at Church

Glendale church women and all other women interested in the study of the Bible are invited to attend the Friday morning Bible class, to begin tomorrow morning at 10 o'clock at the Glendale Presbyterian church, Mrs. A. L. Dennis is to be teacher and the class is to be un-denominational and interdenominational.

COMMENT That's All

The Southland's Harbor Glendale's Accommodations Advertise This City Work Needed to Advance

By Gil A. Cowan

There is nothing quite so inspiring to a Southern California booster as Los Angeles harbor. Of course, it is like no other great port of the world and those who are accustomed to great bodies of water being used as harbors are inclined to make sarcastic remarks about the San Pedro-Wilmington district.

But Los Angeles harbor is one of the most practical, one of the most convenient to transportation and one of the most expansive developments that one might desire. True, it is located some distance from the metropolitan area, but it gives room for industrial growth such as no other city may boast in the wide world.

It was the writer's pleasure to make a tour of the harbor district yesterday. We only wish that each and every one of you were along on the trip. It is useless to try to paint a word picture of a thriving foreign trade, or record-breaking coastal commerce of five cities by the sea such as Long Beach, San Pedro and Wilmington.

What we want you to do is to see it for yourself. And remember that which benefits the harbor also benefits Glendale.

Glendale is to be host to club-women from all over Southern California next week, as well as many distinguished visitors. Too late now to build a hotel, but housing accommodations are being made in the city.

We need not one big hotel, but two or three. Also, we need more homes at moderate rentals. There is a big demand now for houses not too high. The public is more thrifty than it was. Builders should be aware of this fact.

Also, other buildings are required. That does not mean more expensive, but the day of tacky building in Glendale is past. We are building for permanency. Three and four-story business blocks should be the rule henceforth.

Glendale can well afford to advertise its record as "the fastest growing city in America." Every property owner benefits from such a campaign as was carried out by the Chamber of Commerce last year.

We cannot afford to "hide our light under a bushel." We must proceed to progress and that takes co-operative effort, for Glendale is too large a proposition for any one person or firm or institution to advertise.

Wonder if you ever thought how much benefit is derived from the publication of The Glendale Evening News here—a great big modern newspaper which is as good as any in cities of this size?

Or did you ever consider for one minute how much advertising the Glendale Sanitarium and Hospital does for this community? It brings hundreds, yes thousands of people here each year.

And did you ever think what compelling attention the subdividers have focused toward Glendale in the last few years? We could mention a score or more of real philanthropists who have helped you in helping themselves.

Now then, the question is: How much is this money-making publicity worth to you? Figure it up at 2 per cent on the real estate profits you have made in the last year, folks, not to mention other gains, and you will find that the sum total would be close to \$100,000, we believe.

Glendale ought to spend that sum in advertising the coming year. If it spends half of that amount continued perpetually will be increased markedly. Never do we want to drop the ball in "boosting."

Just a thought from the Hollywood Citizen which is worth reading:

"The scientific progress that has been made during the last hundred years, or for that matter during any hundred years of civilization, amazes us.

"The moral and mental progress which we have made as a people during the last hundred years is not very noticeable.

"Some there are who think that this indicates something wrong with our civilization.

"But let us not overlook the fact that our scientific progress comes solely from the labor of a comparatively few men.

"We do not depend upon the masses for scientific growth.

"The few give us our scientific developments and the many accept them as a matter of course.

"Moral development is, on the other hand, a matter in which every individual must take a hand.

"Some individuals have developed their own characters just as much as some students have developed scientific theories.

"The rest may have found development of character a little too arduous.

"We can sit back and enjoy what the scientists offer us.

"But when we advance morally we advance only when we ourselves work."

East Lomita Blaze Does Slight Damage

A small blaze resulting in nominal damage, called the fire department to 108 East Lomita avenue this morning at 8:35 o'clock, where a one-story house occupied by Ira Gould had caught fire from some unknown cause.

The roof was slightly damaged and the contents suffered from water. Several closely adjoining garages and courts were saved from damage by the prompt action of the department.

Spanish Cavalier, Jolly Troubadours Pay Visit to City

The throats of people on Glendale streets today were joined by a real Spanish cavalier, who journeyed down from Hemet with his troubadours to announce the Ramona Pageant to be given shortly in Hemet under the direction of Garnet Holme.

This gaily costumed senior was Burdette Raynor, secretary of the San Jacinto Chamber of Commerce and he is confident that Glendale will be particularly interested in the pageant because Mrs. Mildred Brewster, wife of Harold Brewster, dramatic instructor at the Glendale Union High school, will take the leading part, that of Ramona.

BOOST LICENSES OF ELECTRICIANS

Council Passes Ordinance Over Bitter Protests Of Sam Davis

(Continued from page 1)

will show that you raised the license fee imposed on plumbers from \$50 to \$75."

"Yes, I know I did. I was against the thing, but when I saw that I was out in the cold, I thought I'd stick them good."

An echo of the argument was heard at the finish of the Council session, when Councilman Davis proposed a motion that all ordinances should originate with the council, and be drawn by their direction by Ray L. Morrow, city attorney.

"Do you mean to say," asked Councilman Hall, "that our ordinances are not written by the city attorney?"

"Sure they are. This electrical business was submitted to him, and he slashed it to pieces. I know. Why didn't they come in to the Council with their troubles? They were afraid to, that's why."

During the general discussion on the motion Councilman Kimlin moved that the Council adjourn, which was carried before any action was taken.

Councilman Gilhuly drew a laugh from the spectators when, in reply to Councilman Davis' remark that the proposed ordinance "was the most reprehensible thing ever offered to the City Council of Glendale," he replied: "Well, it must be pretty bad, then."

Permits for the year are steadily approaching the three million dollar mark, with every indication that this total will be reached before April is well under way.

The total at noon today, according to H. C. Venderwater, municipal building superintendent, was \$2,858,279, of which \$55,000 is credited to April.

The following permits have been issued recently:

E. E. Dall, 7 rooms and garage, 732 Colorado, \$ 6,000
Louis Gratos, 5 rooms and garage, 1014 Tyler, 4,000
M. K. Kettis, 4 rooms and garage, 418 West Acacia, 4,000
William Helpeke, 5 rooms and garage, 535 West Fairmont, 4,000
G. C. J. engineering company, ventilation system, 123 North Brand, 2,000
W. B. McEwen, 4 rooms and garage, 1017 Western, 2,000
W. P. Wilson, garage, 434 Piedmont Park, 400

FINAL RITES FOR B. D. ERVIN HELD

Floral Pieces Include Cross With Klan's Emblem In Carnations

B. D. Ervin of 633 North Kenwood street, who died Monday, March 31, 1924, at the age of 54 years, was laid to rest yesterday afternoon, April 2, in the Forest Lawn cemetery, following beautiful services at the Little Church of the Flowers, Rev. L. J. Millikan of the Broadway Methodist church officiating. A large cross of white carnations, with a "K" of red carnations at each of three corners, proclaimed the tribute of the Klansmen.

Mrs. Lucy Ervin, widow of the deceased, was present, with T. O. Anderson of San Diego, an uncle. The following officials of the Federal Commercial & Savings bank, of which B. D. Ervin was a director, were present: C. C. Cooper, president; Jesse V. Rea, vice-president, and V. M. Hollister, Paul Sulliman, A. J. Shepard, Fred Smith, W. A. McCormack, W. P. Llewellyn, William McKillan and W. G. Lauderdale. There were present also numerous friends of the family, both from Los Angeles and Glendale.

B. D. Ervin was born in Columbus, Miss., November 6, 1870. Previous to his residence in Glendale, he had been engaged in business in Los Angeles, coming from El Centro, where for five years he was successfully engaged in the mercantile line.

Funeral arrangements were in charge of W. A. Brown of Los Angeles.

Veterans Entitled to Five State Delegates

Glendale Spanish War Veterans and the Women's Auxiliary, meeting last night in the K. P. hall on South Brand boulevard, heard with interest the announcement that they will be entitled to five delegates to the state convention in May in Chico. A large delegation will probably go from Glendale.

At the campmeeting last night reports showed that the blue team led by L. D. Pike and C. M. Young are ahead in the membership contest. Four new members were initiated during the meeting. At the same hour the Auxiliary met and received two new members.

Later the camp and Auxiliary met for a social hour with Messames Jack Satow and Martha Warren as hostesses.

Open Bids for Sewer On Canada Boulevard

Bids for the construction of the sewer on Canada boulevard were opened this morning by the City Council, and after being read by A. J. Van Wile, city clerk, were referred to the city engineer for checking and report.

The property on Verdugo road between Wilson and Stanley avenues was set aside as a commercial district, on the recommendation of the City Planning Commission.

Many improvements were ordered in, there being no protestants to any of the projects under way.

ASBESTOS PLANT BURNS

LOS ANGELES, April 3.—Fire of undetermined origin completely destroyed an asbestos factory in Santa Fe avenue early today and did damage estimated at \$10,000. The factory, the property of T. H. Lair, was a combined manufacturing shed and office.

Wash Dresses In Linen and "Gaze Marvel" at \$5.95 \$9.95

For Friday and Saturday

Now the eyes turn to wash dresses. They are very important this bright, sunny, California weather, when avenues are sweet with spring and one needs no wrap but a scarf. You will be economizing to make your selections at these special prices, for everyone knows that values and the latest vogues go together here.

All Linen Dresses \$9.95

We have styles for misses and matrons. All colors. Some embroidered by hand, all over embroidery, trimmed with buttons and fancy braid.

All Linen and Gaze Marvel Dresses at \$5.95

A large selection of styles, in all linen and genuine Gaze Marvel, trimmed with val lace, velvet ribbon and embroidery.

"Charlotte Haibe" Hats at \$12.00

Fashioned for beauty, and they are as exclusive in vogue as in value. Really, we have selected from our stock smart hats and you'll wonder when you see them how it is possible for millinery with such distinction and individual styles to be sold at this attractive price. Visit and try several on. You will soon find one delightfully becoming. Afternoon, dinner and semi-sport models.

Matron Modes

A number of hats have been set aside for the matron with lovely silvery hair. These shapes are unusual and very flattering. The trimmings give grace and dignity.

Priced \$8.00 and up

Uncle Wiggily Bedtime Stories

By HOWARD R. GARIS

UNCLE WIGGILY AND TIPPY SNOWTAIL

Once upon a time there was a little donkey boy named Tippy Snowtail. No, no, I didn't say monkey boy—I said donkey—you know what a donkey is—like a little pony, only with big ears.

Well, Tippy Snowtail was a little donkey boy, and the reason he was named Tippy was because he was always tipping things over. If his mother sent him to the store for a pound of eggs, he was almost sure to tip the bag over before he reached home.

And if she sent him for a pound of sugar, or something like that, he would do the same thing with it—tip it over. Of course, he didn't mean to do this, but it happened all the same.

Tippy's last name was Snowtail because he had a tall white hair on the end of it, looking as if it had been dipped in snow.

Uncle Wiggily lived not far from Tippy Snowtail's hollow stump bungalow, and the little donkey boy and the rabbit gentleman were very good friends.

One day Tippy ran out of the barn house where he lived, his feet going clatter, clatter, clatter, on the floor, and his mother called to him:

"Oh, Tippy, I wish you'd bring me a bottle of vinegar from the store!"

"All right, mother, I will," brayed Tippy.

"And don't tip it over!" begged Mrs. Snowtail.

"No, m, I won't," promised Tippy.

Then he hurried out, for he saw Uncle Wiggily hopping down the street, and the donkey wanted to walk along with the rabbit gentleman.

"Perhaps I may have an adventure with him," thought Tippy.

Uncle Wiggily was hopping along, twinkling his pink nose and thinking of what Nurse Jane Fuzzy Wuzzy had said to him only a little while before.

"You had better be careful," the muskrat lady housekeeper had said. "I heard, over the radio last night that the Bob Cat is prowling about in the woods. The Police Dog was broadcasting, and he warned about the Bob Cat being loose."

"I'll watch out for the Bob Cat," said Uncle Wiggily.

So this is what the rabbit gentleman was thinking about as he hopped along, twinkling his pink nose. And then Tippy came running along behind the bunny

Niagara Calls Again

Bobby Leach, who went over Niagara Falls in a steel barrel in 1911, will try another descent in a huge rubber ball that is now being built to his specifications and that will contain a hammock.

BUFFALO, N. Y., April 3.—Bobby Leach is going to try a new stunt at Niagara Falls.

The daredevil who has gone over the Falls in a barrel, made a parachute leap from the upper bridge, and went through the lower rapids and whirlpool in a barrel, is going to brave the raging torrents again.

He is negotiating with a rubber company for the manufacturer of a huge rubber ball in which he plans to go over the falls early in June.

The ball will be of the thickness of an automobile tire and will have a hammock inside on which he will recline.

Daily News Letter

General News and Gossip from Staff Writers at Home and Abroad

By JOHN F. STONE, For International News Service.

HONOLULU, April 3.—Here's a tip from Hawaii to the girl back home who yearns to tap a typewriter by the beach at Waikiki.

Don't come, unless you have absolute assurance of employment, or money enough to get back to mother.

Stranded girls—girls from the mainland who have felt the urge of South Sea romance, who have longed to see a tropic moon shine through the palm fronds, who have come to Hawaii certain that they will find employment after a day or so—are proving a very serious problem for the welfare organization of Honolulu.

Last year the employment bureau of the Honolulu Young Women's Christian Association registered 1,793 young women for positions. Out of that number 650 were placed. Some of the remaining 843 had enough money to return home; some were able to secure financial aid from friends or relatives on the mainland, and some had to be given assistance by local charitable organizations.

It is not the frivolous type of girls who are flooding the employment bureaus in search of work. These girls are, for the most part, sensible persons, tired of their home life, who, as a last chance, seek adventure in the Paradise of the Pacific. The majority are stenographers.

About thirty stenographers register each month for positions; from four to six find employment. Often these lucky ones, writing home of the beauty and romance of Hawaii, lure others to try their fortunes here.

It is often said on the mainland that there are fifteen men to every woman in Honolulu, a city of 100,000 people. To the plain, unattractive girl who has never tasted popularity at home, Hawaii calls as a paradise for the unmarried. She decides to sail for Hawaii, work for a little while and marry a sugar planter. But there are few jobs awaiting the romantic in Honolulu, and most of the sugar planters are old, bald-headed, married men.

Plans are under consideration by the Territorial Administration for the development of the annual territorial fair in an exposition which will be participated in by all of the countries bordering on the Pacific and the leading cities of the Pacific Coast.

It is planned that the fair shall take the place of the annual Mid-Winter Carnival, for which the islands were once so well known to tourists, and that the celebration will rival the big carnivals of Manila, New Orleans and other cities which hold distinctive gatherings of this sort.

Steps have been taken to interest the cities of Los Angeles, San Francisco, Portland and Seattle in the possibilities offered by sending exhibits to this exposition at the "Crossroads of the Pacific." The Fair Commission is already turning the big grounds, which are situated on the new Waikiki Canal, into a huge botanical garden, in which are to be planted every species of tree and shrub known to Hawaii.

One of the interesting sights of Honolulu is the big fleet of Japanese fishing boats, known as sampans, which lie huddled at the foot of Nuuanu Street, in a little pocket of Honolulu Harbor just off from the busy section of the waterfront.

These are the boats which supply the markets of the city with deep-sea fish, and the crews who man them are a sturdy lot, inured to hardships of wind and wave. It is all a matter of business with them, this combing of the sea for fish, offering little of the fine thrill your sporting angler knows who trolls from an easy-chair at the stern of a speedy gasoline launch equipped with all the comforts of home.

Yet one must admire them no less as they slip out of the harbor without ostentation on the business of braving death hundreds of miles at sea. Two or three fishermen travel on each sampan, and their method of handling the maze of lines and nets is an art in itself. Some of the lines are from 1,500 to 2,000 feet in length and are rigged with from fifteen to twenty hooks. These are used mainly in capturing swordfish.

Figures at the Custom House in Honolulu show that Honolulu alone has approximately 450 sampans, while an additional 200 are scattered about through the other islands. The number of sampans has been steadily increasing for many years.

Poems That Live

THE PASSING OF THE OLD LEADER

(From Tennyson's "Ode on the Death of the Duke of Wellington.")

Lo! the leader in these glorious wars
Now to glorious burial slowly borne,
Followed by the brave of other lands,
He, on whom from both her open
Laws Honor showered all her stars,
And affluent Fortune emptied all her horn.

Yea, let all good things await
Him who cares not to be great,
But as he saves or serves the state,
Not once or twice in our rough
Life's story, but the path of duty was the way to glory.

He that walks it, only thirsting
For the right, and learns to deaden
Love of self, before his journey closes,
He shall find the stubborn thistle
bursting
Into glossy purples, which out-tend
All voluptuous garden roses.

Not once or twice in our fair
island-story
The path of duty was the way to glory.

He, that ever following her
On with toil of heart and knees
and hands,
Through the long gorge to the
far light has won
His path upward and prevailed,
Shall find the toppling crags of
Duty sealed
Are close upon the shining table-lands

To which our God himself is
moon and sun.
Such was he; his work is done.
But while the races of mankind
endure,
Let his great example stand
Colossal, seen of every land,
And keep the soldier firm, the
statesman pure;

Till in all lands and through all
human story
The path of duty be the way to
glory.

And let the land whose hearths
he saved from shame
For many and many an age
proclaim
At civic revel and pomp and
game,
And when the long-illuminated
cities flame,
Their ever-loyal iron leader's
fame,
With honor, honor, honor, honor,
to him,
Eternal honor to his name.

At Local Theatres

THE GLENDALE
Miss Viola Yorba of Glendale makes her screen debut in "Yankee Speed," a Sunset production, showing at the Glendale theater, today only, for its world premiere.

The picture is directed by Robert North Braddury, also of Glendale, from whose story "Mystery Castle" it is adapted.

Miss Yorba will appear in person at all performances and will present a program of appropriate vocal selections, accompanied by Paul Carson at "Southland's Greatest Organ."

In the cast of "Yankee Speed," co-starring with Miss Yorba, is Kenneth MacDonald. These two principal players are supported by Virginia Ainsworth, Richard Lewis, Milton Farney, John Henry and Jay Hunt. Viola Yorba is a direct descendant of one of the old Spanish families who had much to do with the early history of California. While this picture marks her screen debut, she has had a brilliant stage and concert platform experience.

REAL STUBBORN
Down in the Carolina mountains a northern traveler came across a mountaineer who was having more than the usual difficulties in persuading his mule to proceed. Arguments, cursing and beating were of the customary no avail.

"Stubborn?" inquired the man from the north.

The muleteer wiped his forehead. "Stubborn?" he ejaculated. "Say, mister, that cuss is so mean that when his hind legs are pushing his front ones are walking backwards."

How Many Pounds Would You Like to Lose in a Week?

Simple Home Treatment for Sore Throat

Raw, Sore, Inflamed Throats Can Be Greatly Relieved by Use of this Vaporizing Salve.

Here is a simple yet effective method to treat a sore throat. Gargle with warm salt water three times daily. Also swallow slowly every few hours a teaspoonful of Vicks.

At night apply Vicks over the throat and upper chest, rubbing well in. Then spread on thickly and cover with a warm flannel cloth.

The body heat releases the ingredients—Menthol, Camphor, Eucalyptus, Juniper Tar, etc.—in the form of vapors and these vapors, inhaled all night long, go directly to the affected parts.

At the same time Vicks is absorbed thru and stimulates the skin like a liniment or plaster, drawing out the soreness and pain.

Vicks is equally good for hoarseness, tonsillitis, head and chest colds, and for the croupy colds of children.

AUTOMOBILE SECTION

GLENDALE, LOS ANGELES COUNTY, CALIFORNIA, THURSDAY, APRIL 3, 1924

Makes 1,180-Mile Trip In Franklin Sedan

OPEN JOINT AUTO SHOW TUESDAY

Glendale and Eagle Rock Dealers Will Exhibit 1924 Models

The first joint automobile show to be staged in Eagle Rock, with dealers of Eagle Rock and Glendale as the exhibitors, will be staged April 9, 10, 11 and 12. The show will be held in the new Chevrolet building of the R. A. McLean Motor Sales company, at Colorado boulevard and Maywood avenue.

Twenty-two kinds of cars have been booked for the auto show, the models to include everything in motordom from the Ford to the latest creation—the Chrysler. Only the 1924 models will be shown, in roadster, coupe, touring, sedan, coach and other types of bodies.

In New Building
The home of the auto show is one of the newest buildings in Eagle Rock. It is 65 by 125 feet in size, and was built for the McLean company, and following the show, it will be used as a sales and service headquarters for Chevrolet cars.

Color Scheme Beautiful
Mr. Patton's fame as a decorator is far reaching. He had charge of the decorations at the Anaheim Orange show, at the Los Angeles auto show, and at numerous auto shows and exhibits in Southern California. He promises a color scheme which will harmonize with the furnishings of the building.

Each night's entertainment will be something different. Mr. Beck promises. There will be plenty of music, and stunts to please everybody. Admission to the show will be free, and every person passing through the big doors will receive a ticket, good for some of the numerous prizes which will be offered nightly.

Only four of the dealers exhibiting cars will be from Eagle Rock. The other dealers are located in Glendale. Final plans for the show were worked out at

Figures Increase In Number of Cars In State Certain

There will be 32.5 per cent more automobiles and trucks registered in California at the end of this year than were registered in 1923, Will H. Marsh, chief of the division of motor vehicles, declared. His estimate is based on a comparison of the first two months of registrations during this year as compared to the same period of 1923 and show that 932,548 automobiles and trucks were registered in January and February of 1924 against 629,142 during the same period of 1923.

AUTO PRICE FLURRY IS NEAR END

Manufacturers of Opinion Only Few Revisions Will Be Made

DETROIT, March 27.—The flurry in retail automobile prices seems to be over. Opinion in manufacturing circles has it that not more than two or three more revisions will be made before mid-summer.

This should interest the 3,000,000 Americans who are expected to buy cars between now and the first of the year. Due to the unsteadiness of prices in the last few weeks, many who contemplated buying this month have delayed purchasing.

Nevertheless sales records for March will probably outstrip the corresponding month of 1923 and certainly will exceed the record January and February of this year. Although production is running high, it does not measure up to the schedules framed a month ago. This is due in part to the extended efforts made by factories up to this time in supplying the dealers for cars for spring delivery. Manufacturers are exercising care to avoid producing a greater number of automobiles than can be readily absorbed in the immediate future.

This is being done with an eye to preserving the soundness that has characterized the industry and its operations in the last two years. Production is paralleling dealer needs. Caution is being employed not to overload the market.

Turn to page 8, column 7

OWNERS GIVE INCORRECT ADDRESS

65,000 Motorists Fail to Get Certificates as Result of Carelessness

Sixty-five thousand California motorists gave incorrect addresses when making application for 1924 automobile license plates, Will H. Marsh, Chief of the Division of Motor Vehicles has announced.

Marsh stated this number of registration certificates had been returned to the offices of the division by the postal authorities, to date, as unclaimed.

Mail Is Returned
The motor vehicle chief declared this responsible for failure of a large number of persons to receive their new plates and certificates. Some departments of the division are being "swamped" by this flood of returned mail, he added.

Motorists who have not yet received their plates or certificate, and who have moved since making application, or have reason to believe the wrong address was given, were advised to write to the division giving the correct address.

"A requirement for re-registration was that the correct address should be noted on the old registration certificate when it was forwarded to this office," said Marsh. "No doubt many motorists sent these certificates without writing in changes of address. The result has been delay and confusion as well as embarrassment to the motorist as our officers are now checking up on persons driving with old plates."

\$5000 From Fund
Efforts of the Division of Motor Vehicles to secure compensation for Mrs. Betty Pickett, widow of Clarence E. Pickett, late state traffic officer of Madera County, day with information from the California Compensation Insurance Fund that a policy of \$5,000 would be paid to Mrs. Pickett in monthly installments.

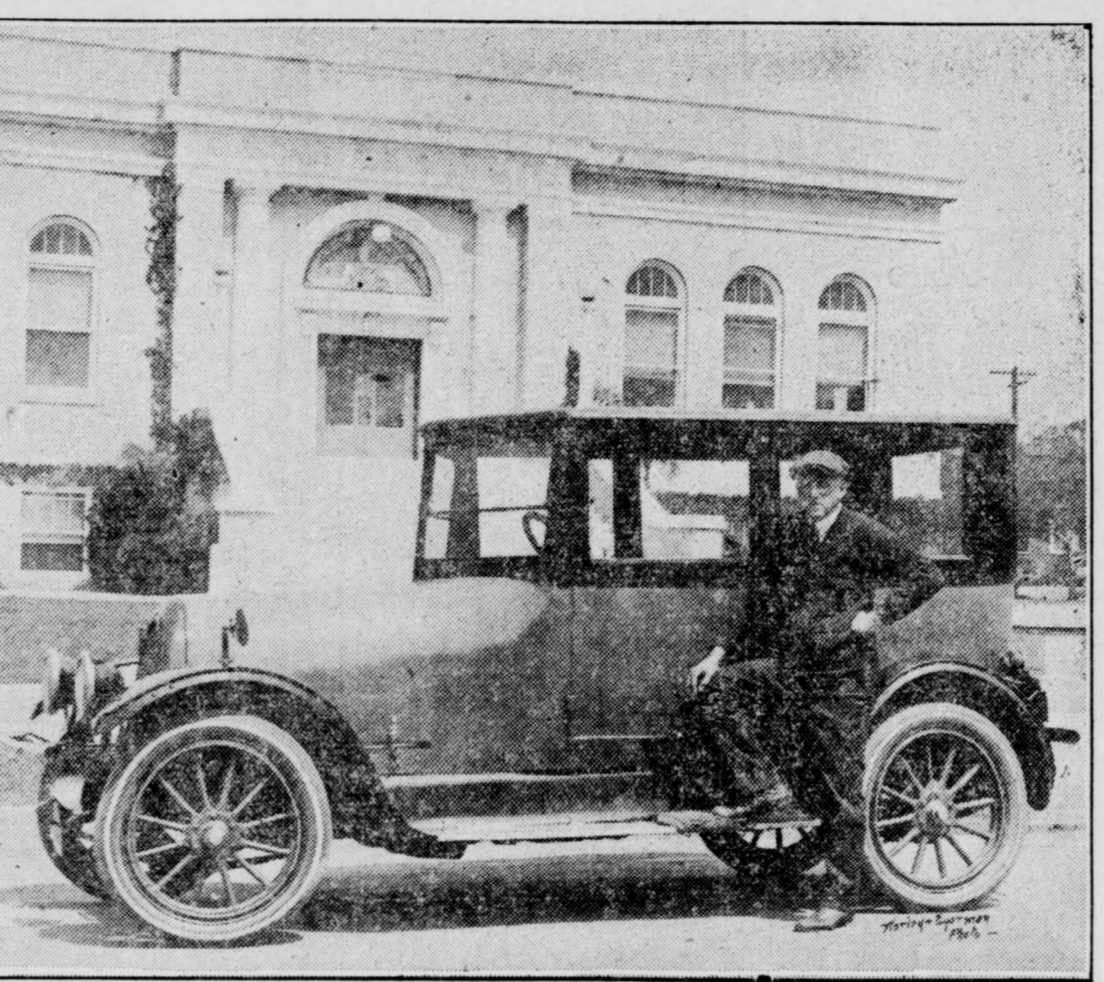

Pickett was shot and killed November 10, last, while attempting the arrest of Walter V. Yeager and Harry Terry, seven miles north of the city of Madera.

Log Of Trip To Oroville And Return In Franklin

10:00 A. M., Monday, left Glendale.
1:00 P. M., Monday, dinner at National Forest Inn.
6:20 P. M., Monday, arrived at Delano, after spending several hours looking over oil fields near Bakersfield.
7:30 A. M., Tuesday, left Delano, in the rain.
6:10 P. M., Tuesday, reached Sacramento, still raining.
7:00 A. M., Wednesday, left Sacramento.
10:00 A. M., Wednesday, arrived in Oroville.
11:00 A. M., Wednesday, left Oroville, via coast route.
5:30 P. M., Wednesday, arrived in Stockton.
7:10 A. M., Thursday, left Stockton.
5:30 P. M., Thursday, arrived in Atascadero.
6:30 A. M., Friday, left Atascadero.
Breakfast stop at San Luis Obispo.
5:00 P. M., Friday, home once more.
Total mileage—1180 miles.

EASE AND COMFORT OF CLOSED CAR SHOWN IN JOURNEY TO NORTHLAND

L. G. Marsh Finds Balloon Tires Big Help In Eliminating Weariness On Lengthy Business Jaunt to Oroville

By L. G. MARSH
Written for The Evening News.

Many motorists who are planning a long tour, or a trip that will cover two or three days, begin to wonder if there is any truth in the often-heard statement that long trips mean weary bones and tired muscles.

I wonder about these things when planning a trip that would take between four and five days and run close to 1200 miles. The route lay over mountains, through desert land, and along the coast. I talked to several who had made long trips, and learned from them that a car which could be handled the easiest would eliminate the bugbear of motoring—weariness from driving.

Buys Closed Car
With this idea foremost in mind, I purchased the Franklin sedan just a few days before starting on the trip, from E. S. Beggs, manager of the Motor Sales company, 406 East Colorado boulevard.

The trip was not a trip for pleasure in any sense of the word. I had some business to attend to in Oroville, and my plans here were arranged in such a manner that the trip would have to be made in as short a time as possible.

We left Glendale on Monday morning about 10 o'clock. Besides myself, there were Mrs. Marsh and Dr. A. B. Conaway, of Pasadena. We stopped at the National Forest Inn for dinner, and left there at 1 o'clock, going over the pass toward Bakersfield.

Visit Oil Fields
We did not stop at Bakersfield, but did spend a couple of hours looking over the oil fields near there, driving the car in and out among the big derricks, and generally inspecting the biggest industry of that section of the state.

Delano was the next stop. We reached there at 6:20 p. m., and decided to spend the night there and get an early start for Sacramento the next morning.

It was 7:30 o'clock Tuesday morning when we left Delano, and we pulled into Sacramento at 6:10 o'clock that afternoon. Sacramento was another overnight stop, and we left there at 7 o'clock the next morning, reaching Oroville three hours later.

Start Return Trip
My business in Oroville kept us there only an hour, so we were headed back toward Glendale by 11 o'clock. This was Wednesday morning. Instead of retracing our route, we decided to follow the coast route to Los Angeles and over to Glendale.

A change in scenery was afforded, but why I chose the coast route was to give me an opportunity to try the new Franklin on some of the hills along that road. We found the hills all right, but with the pulling power of the Franklin, they were hardly noticeable.

Stockton was the first overnight stop coming back. We reached there at 5:30 o'clock Wednesday afternoon, and left at 7:10 the next morning. We made Atascadero by 5:30 that afternoon, and put up for the night, leaving there at 6:30 the next morning.

Back Home Again
Breakfast we took at San Luis Obispo, and then the homeward journey was continued, the sedan coming to a rest in front of our home at 5 o'clock Friday afternoon.

The speedometer showed 1,180 miles covered on the trip. Inasmuch as the car was new, there was no excessively high speed made on the trip, the average being around twenty-five miles an hour. I doubt if it was touched thirty-five miles an hour during the journey.

The gas consumption averaged twenty-one and a half miles to the gallon. I used five quarts of oil, for I drained the crank case at the end of the first 500 miles and had it filled up again.

Stuck to Road
The run from Delano to Sacramento was made in the rain. The roads were terribly crooked, and we passed three cars that were bottom side up. Other cars on the road skidded and slipped all over, but I had no trouble keeping the Franklin in the road. We had no engine or tire trouble on the trip, not even a puncture.

The roads, with slight exceptions, were in wonderful shape. Three miles beyond Universal City we hit a stretch of road where some repairing is being done. The rest of the way was all paved.

Rain No Bother
We experienced no discomfort on account of the rain we traveled through, for the closed car was just like a Pullman coach. When we came back on the coast route, it was a matter of only a few seconds to adjust the windows, and a cool breeze from the ocean filled the car.

When I climbed out of the sedan in front of the house, I did not have that tired, weary feeling that many motorists complain about, for the balloon tires on the sedan made riding easier, and the large steering wheel and ready response of the front wheels gave no chance for tired arms.

CRANKCASE CARE
During the winter months the crankcase should be drained more frequently than in summer. This is essential, because it removes the water which forms an emulsion with the oil and destroys the latter's lubricating value.

Visitors in Cars to Pay Big Sums in Tax

It is forecasted that the owners of the 70,000 motor cars, which are likely to visit California this year, will pay the state at least \$200,000 in gasoline taxes. This estimate of the number of prospective visiting automobiles is based on the number of permits issued to visitors last year and the anticipated increase this year.

It is estimated that the average tourist who comes to California from another state will motor 2000 miles on California highways. This 2000 miles of motoring will consume an average of 140 gallons of gasoline. This amounts to the individual visitor paying only about \$2.80 in gasoline tax, but when 70,000 add visiting motor cars use the highways the sum of \$200,000 is obtained.

Indirectly these same tourists contribute a great deal more to the state. The average party on the road spends not less than \$5 a day for gasoline, food, lodg-

License Fees of One Company Big Amount

The Standard Oil company of California was the largest single contributor in the state to motor vehicle license funds during the 1924 license renewal period, which ended recently, according to a check of the records made today by officials of the division of motor vehicles.

The oil company paid a total of \$28,211.25 in registration and weight fees, the records show, and renewed licenses for 1611 automobiles, trucks and trailers. The bulk of this money came from weight fees collected on trucks operated throughout the state, according to Will H. Marsh, chief of the division. Several other oil companies, doing business in the state, paid heavy fees, according to the records.

ings, repairs, etc. With 70,000 such parties on the road this amounts to \$350,000 daily. If tourists remain an average of thirty days, the total for the year would exceed \$10,000,000.

HUDSON

It Has the New Super-Six Chassis

Motor Starts Instantly in Any Weather—More Economy in Fuel and Oil—Easier Riding and of course, Old Time Super-Six Power and Performance

In every way this is a better Hudson. The new chassis refinements give it advantages known to few motorists. No car is smoother in action. And motor-dom concedes no car, at any price, excels it in performance.

The new advancements insure prompt starting in any weather. Gasoline mileage is greatly increased. Even those who keep no accurate check of fuel mileage must mark its economy.

With a body of surpassing workmanship, and a price lower than a closed car of no mechanical distinction, the Hudson 5-passenger Sedan is outstandingly the greatest value in its field.

USES CADILLACS ON STAGE ROUTE

New Mex. Mountain Roads Test Cars' Merits Over Switchback Trails

Automobiles have played an important part in the opening up of the so-called "back country" in this and other states and are credited by transportation men with being an important factor in the development of these sections of rough mountain and barren desert country that lie beyond the reach of the railroad lines.

An interesting case in point is the use of automobile stages over the High Sierras and into the mountain regions of the state, beautiful sections of country that are opened to the vacationist by the use of the gasoline driven vehicle, says W. H. Court of the Court Motor Co., 235 South Brand boulevard, Cadillac dealers.

In all parts of the west the automobile as a commercial vehicle is playing an important part. In New Mexico, for instance, one of the executives of the Don Lee organization reports that Cadillac cars converted into stages are proving their worth in the service of Carl McNally, who operates a stage line which connects the Southern Pacific station of Roswell with the town of Alamogordo.

The tourists who invade this section of the southwest for their vacation trip in the summer or fall of every year cover a distance of approximately 125 miles by stage from Roswell starting at an elevation of about 4000 feet, going over grades that reach an elevation of 8000 feet and coming down again to 3500 feet.

Two of the Cadillacs in this strenuous service have run upwards of 200,000 miles and two others that were added to the service last year have already better than 10,000 miles each to their credit.

SHOW FULL LINE OF STUDEBAKERS

Packer Auto Co. Receives Big Deliveries of Latest Models of Cars

Following the delivery of several large shipments of Studebakers within the past few days, the Packer Auto company, local dealers, 245 South Brand boulevard, has now a complete line of all models, although it is predicted by Robert L. Conover, sales manager, that they will not last long, as the demand for these various models, as spring approaches and as the summer touring season looms in the immediate foreground, is taxing the ability of the firm to the limit.

Chief among the models that are attracting attention at this time is the Big Six speedster, a fully equipped model in every particular, including two extra tires. The business man's Light Six sedan, a new model finished in leather upholstery, is another car that is making a strong appeal, while the Light Six and the Special Six sport models also are going rapidly.

In the automobile show that is to be held shortly in the new Chevrolet building in Eagle Rock, the Packer Auto company will display a full line of the Studebaker models and an important volume of business is anticipated as a direct result of the showing that is to be made. Business at this time, Mr. Conover declares, is excellent, and the prospects for the spring season are brighter than they have ever been.

FIND CARBURETOR IMPORTANT ITEM

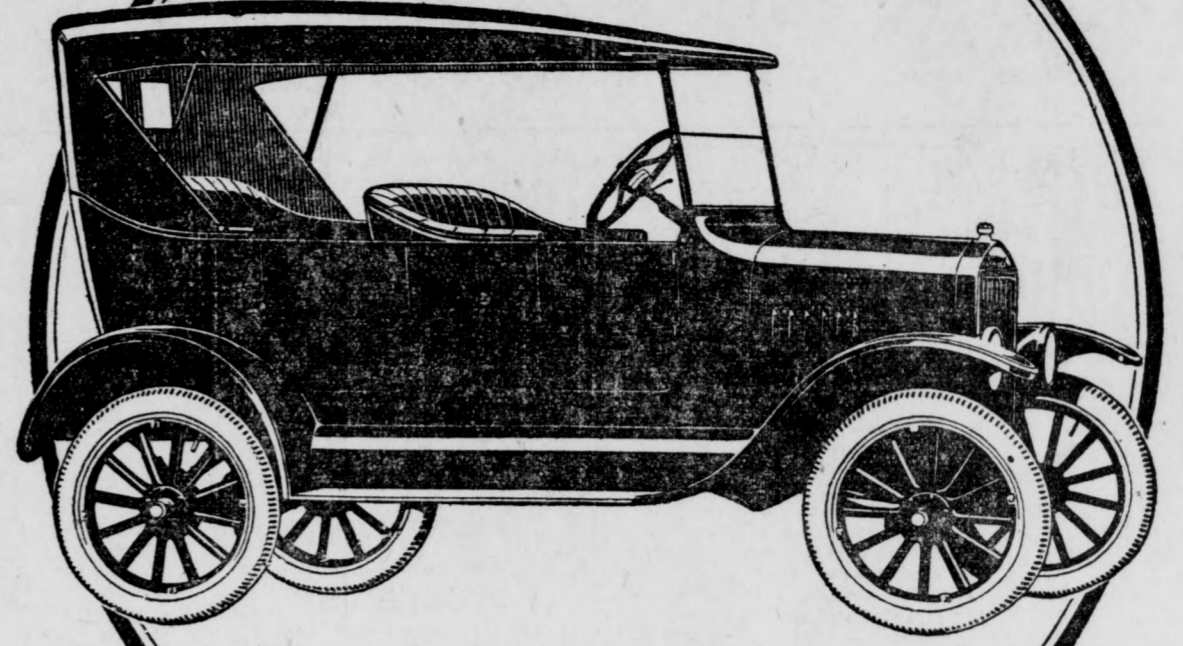

Increased Mileage Possible With Proper Mixture, Expert Declares

"Although the price of gasoline has dropped, every motorist is just as anxious as ever to secure the utmost mileage from every gallon of gasoline," says Herman Psenner, of Psenner Bros., 601 South Brand boulevard. "Inefficient carburetor is directly responsible for the failure of hundreds of motorists to receive the full amount of mileage from each gallon of gasoline consumed.

"In all my experience," continues Mr. Psenner, "I have never found a carburetor which could compare with the Stromberg carburetor. Not only does the Stromberg actually increase gasoline mileage, but it enables the motorist to start quickly. This saves time and annoyance at each starting of the car and also saves money in battery current consumption.

"The Stromberg furnishes rapid acceleration, which is a most desirable feature in any carburetor as it enables the motorist to move quickly in traffic and generally handle his car in a more satisfactory manner under all conditions. Furthermore, the Stromberg carburetor permits driving with a minimum amount of gear shifting and furnishes that extra energy needed to successfully surmount steep grades. And all this with smooth, even operation at all motor speeds."

Bolivia offers an active volcano for sale or rent, it is reported, and which it is claimed will furnish sufficient steam to develop a great amount of electricity.

Open Joint Auto Show on Tuesday

(Continued from page 7)
a meeting of automobile dealers held yesterday in Glendale.

There will be no booths with separate color schemes and decorations, it has been decided. Plates will be laid out on the floor for each exhibitor, and the cars will be placed in such a manner that the visitors can inspect them with the greatest ease.

Flowers will be used in adding beauty to the show. Factory men will be on hand to explain the added advantages on 1924 models, while members of the firms represented will be present to answer questions and extend courtesies.

Many Motorists Send Incorrect Addresses

(Continued from page 7)
Madera. Threats of lynching, later, made their removal to the Stockton jail necessary. Both were subsequently convicted and Yeager is now awaiting execution of a sentence of death in San Quentin. Terry was sentenced to life imprisonment. Officers testified at the trial that a complete burglary kit was found in the car.

It was also announced that compensation had been secured for John Brooks of Humboldt County, Frank Silva of Solano County, John H. Quinlan of San Mateo County and L. W. Hogan of Tulare County, all of whom

Records Show Number of Dealers in State

Records of the division of motor vehicles indicate that there are 2865 automobile dealers doing business in the state of California at this time, Will H. Marsh, chief of the state division, announced today. This is based on the number of dealers who registered or renewed licenses in 1923. A total of 10,916 pairs of plates were issued to these dealers. The records also show a total of 117 motorcycle dealers in the state.

to whom 233 sets of plates were issued in 1923. The number of plates issued to dealers does not indicate the number of cars owned by them, it was explained, as a dealer may change his plates at will, from one car to another.

SLOW VALVE LEAK

A slow leak in the tire valve plunger can sometimes be checked by applying a drop of oil in the valve stem. The oil dissolves the rubber and causes it to anneal to an airtight joint.

AMERICA'S CAR BILL

With an average valuation of car at \$700, it is estimated that the American people will spend \$2,800,000,000 on new cars this year.

EXPLAINS SLASH IN OLDS PRICES

C. H. Hunter Reveals Buying Power of Firm Behind Car He Sells

C. H. Hunter, Oldsmobile dealer, 208 West Broadway, commenting on the trend of advancing prices, calls attention to the fact that last year at this time, the Oldsmobile factory was selling their car, a four cylinder machine, for \$1165, delivered in Glendale, and this year the company is selling a six cylinder car for only \$965, or \$200 less.

Many people are asking how it can be done, Mr. Hunter declares, and he explains the reason by saying that the Oldsmobile belongs to the General Motors group, and that it is generally known that the General Motors' buying power is one of the greatest in the world.

"Another factor," says Mr. Hunter, "is that the Oldsmobile factory spent several millions in re-arranging their factory to bring it up to the highest degree of efficiency."

For the first time in many months Mr. Hunter has a full line of cars on display, but he pre-

Charge Conspiracy In Wholesale Groceries

LOS ANGELES, April 3.—Declaring a conspiracy has existed for at least three years among the grocers of California and the United States to fix prices and restrain trade in violation of the Sherman anti-trust law, bills in equity were filed here with the federal district court asking for the dissolution of the California Wholesale Grocers association, the National Wholesale Grocers association, the Southern Wholesale Grocers association and the Southern California Association of Manufacturers representatives.

The number of defendants named in the papers asking for the dissolution of the various associations is about 25 in one bill and approximately 30 in another. It was charged in the complaints that many of the organizations fixed, established and maintained prices to be charged for groceries and other commodities and combined to drive out competitors and chain store systems.

Most insects have compound eyes and see the various objects in mosaic patterns.

dicts that there will be a marked shortage in the next sixty days. Mr. Hunter, who is president of the Glendale Automobile Dealers' Association, has the territory embraced in Glendale, Burbank, Tujunga, Montrose and Eagle Rock.

DISTRIBUTE BOOK FOR RADIO FANS

E. W. Cizek Co. Show How To Eliminate Noises From Instruments

Radio fans will be able to learn many valuable pointers regarding the proper handling of their installations from a little book that is being distributed by the E. W. Cizek Auto Electric Co., 300 South Brand boulevard, which points the way to quick relief from many of the faults that are found in radio sets.

Two types of batteries are used in radio that is equipped with one or more tubes, an "A" battery to supply the current which heats the filament of the tube, and a "B" battery to supply current for the plate circuit of the tube, which reproduces the incoming signals and causes the vibrations in the diaphragm of the phones that make the signals audible.

The Willard Radio Storage batteries, which, it is asserted, are the most efficient for use with radio, are described at length in the book, and their value in permitting a perfect rendering of the selections is shown in a way that will appeal to the rapidly growing army of fans who tune in every day to hear the programs that are broadcast from the stations throughout the country.

These books are distributed free by the E. W. Cizek Company, and already the demand for them, according to Henry Kuhn, the manager, has reached proportions that will call for the printing of another and enlarged edition.

OAKLAND'S SALES SHOW POPULARITY

Total Figures for February Reveal Progress Made By Late Models

The popularity of the Oakland in Southern California is maintaining its position among the leaders in the volume of sales of motor cars. According to the state registration figures the Oakland 6-54 registered 107 cars in the city of Los Angeles in the month of February, earning for itself the distinction of eighth place among all cars and third among the six-cylinder cars.

"Oakland's phenomenal climb into the realm of popularity has caused nationwide comment," says Thomas E. Ricketts, Glendale Oakland dealer, 420 East Colorado street. "George Hanum, president of the Oakland Motor Car company of Pontiac, during his recent visit here, told me that the new Oakland 6-54 had taken the east by storm and that the popularity of this car out here on the coast is no greater than that evidenced by the public elsewhere in the country."

"It is gratifying to see this result of an honest effort to build the light six-cylinder car for the money. When I say light six, I mean the popular size of six-cylinder car and not an undersized, under-powered contraption. The Oakland is heavily and sturdily built but it has been designed to save weight and hence assist in the reduction of wear on tires and consumption of gasoline and oil."

"The General Motors company, of which the Oakland Motor Car company forms a very important unit, is leaving no stone unturned to make and sell better cars for the money than the public was ever able to buy before."

SIZE OF VELLIE'S PLANT ENLARGED

Two Modern Factories Give Over 1,000,000 Feet of Working Space

Two factories with more than a million square feet of floor space are now in operation making automobiles, according to an announcement today by the Vellie Motors Corporation, Moline, Ill. The statement of this company now shows that the corporation is building the major portion of its product and is well on the way toward becoming one of the few factories which build their own car parts, says the local dealer, H. N. Burton, 306 East Colorado street.

The factory executives assert that an entire modern factory, of cement and glass construction, has been put in operation at Marlon, Ind., making complete all engines for Vellie cars. This factory has a floor space of more than 250,000 square feet. It is one of the most up-to-date and modern of automobile plants, being of the so called "clear vision" so that material may be routed for progressive production and not trucked from one floor to another.

All the assembly work on the engines is done at the Marlon, Ind., plant and the engines are then shipped complete to the factories at Moline. In this city five large buildings, ranging from three to six stories in height, are devoted to the manufacture and assembling of the Vellie cars. These buildings have a floor space of 750,000 square feet and are so arranged that expansion for the future is taken care of.

MORE CARS THAN PHONES IN U. S.

Auto Registration Leading By Nearly 250,000, Is Official Figure

The automobile has finally outdistanced the telephone as a utility and convenience, according to tabulations just announced by the Automobile Club of Southern California. The total number of telephones in use in the United States at the beginning of 1924 is given as 15,000,101, while the total registration of automobiles in all states is 15,221,183, placing motor vehicles in the lead by nearly a quarter of a million.

This situation developed during the past year, when the increase in the number of autos registered was over 23 per cent. While the telephone has not lost any of its popularity, it has not increased in the ratio of the automobile.

However, most of the expansion in telephone service has been since 1900, when there were but 676,733 telephones in use. In 1920 there were approximately 2,000,000 more telephones in the United States than automobiles, so that this lead has been overcome in three years until today the motor vehicle must be accorded first place.

In Southern California, where the automobile population is the densest in the United States, motor vehicles show a decided numerical lead over the telephone. Here there are in use 380,004 phones, while the motor vehicles in this section approximate 600,000.

PACKARD AGENCY IN NEW QUARTERS

W. H. Daniel Moves Business To Boulevard Location; Plan for Opening

Moving into the new quarters at 1129-1131 South Brand boulevard this week, the Dixie Packard company is working strenuously preparing to get the place into shape for the formal opening that is to be held on April 17, when the home of the Packard and the Gray cars will be thrown open to the public with appropriate ceremonies.

For the present, while the show-rooms and the offices are being given the final touches needed, W. H. Daniel and his staff are working in the rear part of the building, but every day sees the confusion growing steadily less and the establishment growing closer to the ideal set by Mr. Daniel, to have one of the finest automobile establishments in the Southland.

Telephone connections have been established in the new home of Packard, the old number that was in use at the old stand at 510 East Broadway still being that of the firm, and as rapidly as possible the Packard standard of sales and service will be in full operation in the South Brand boulevard location.

SERVICE NEEDED IN SELLING CAR

Responsibility of Dealers Continues After Sale Made, Says Clark

The responsibility of the automobile dealer does not end with the delivery of a car to his customer, maintains Lyman P. Clark, of the Glendale Motor Car Co., 124 West Colorado street, Maxwell, Chalmers and Chrysler dealers.

"On the contrary, his principal duty, in the present state of the automobile industry, consists in furnishing a service that will keep the car he sells in perfect running order and in insuring satisfaction to his clients," he said. "This can only be done through the maintenance of a perfectly equipped service department, by keeping on hand a complete stock of parts for the cars he sells, so that the owner may secure any needed repairs without having to send to the factory for them or being forced to buck the traffic into Los Angeles, for instance, to have his car fixed."

This applies especially to Glendale, where many cars, good cars, too, are sold every year through agencies that are not represented here, and the result is that the purchasers of those cars are at a decided disadvantage as contrasted with the owners of cars that are bought through local firms.

"It is the part of wisdom for the purchaser of an automobile, no matter what make he buys, to select a car that is marketed through an organization that is equipped to render nationwide service, that can deliver with the car those elements of safety and responsibility that should characterize an investment of this kind, and that can meet the month-to-month needs of the car."

Illinois Schools May Use Orange for Lunch

SACRAMENTO, April 3.—According to information received by the state board of health, the orange bids fair to displace the bottle of milk for mid-morning lunches of school children in Illinois.

The Illinois department of public health reports that experiments show a greater gain of weight among children when a medium sized orange and two graham crackers were given than when half a pint of milk was substituted for the orange.

Taken to Prison, But He's Not Right Silva

LOS ANGELES, April 3.—Until today Comillo Silva never realized the potential danger lurking in a similarity of names—not until he found himself starting serving the sentence of another man in San Quentin.

Deputy Sheriff Denison thought he had placed Bernardo Silva in prison. San Quentin officials discovered the mistake, and now the deputy is en route to this city to secure the right man.

Pears were brought from the Far East by the Romans.

California Rice Sold Extensively In Japan

SACRAMENTO, April 3.—Low production cost owing to the extensive use of machinery in the rice fields last year enabled California to sell rice to the value of \$3,566,111 in Japan, despite competition from cheap-labor countries located closer to that empire, it is stated in a bulletin issued by the California Development Association. For the three-year period just ended, California rice valued at nearly \$10,000,000 has been shipped to Nippon.

There were 106,000 acres in California under rice cultivation in 1923, which produced 5,470,000 bushels valued at \$6,126,000 considerably more than half of which was sold in the Orient.

CITY PRINTING

PUBLIC NOTICE

NOTICE OF THE FILING OF THE ASSUMPT FOR THE WIDENING AND LAYING OUT OF MARIPOSA STREET IN THE CITY OF GLENDALE, TOGETHER WITH THE DIAGRAM OF THE DISTRICT TO BE ASSESSED FOR SAID IMPROVEMENT.

PUBLIC NOTICE IS HEREBY GIVEN that the Street Superintendent of the City of Glendale has filed with the Clerk of the Council of the City of Glendale the assessment for the widening and laying out of Mariposa Street from a line approximately two hundred and thirty-two and twenty-nine hundredths (232.29) feet northerly from the northerly line of Cypress Street to the southerly prolongation of the easterly line of that portion of Mariposa Street lying north of the northerly line of Tract No. 282, as per map recorded in Book 14, pages 118 and 119, of Maps, Records of Los Angeles County, California, in the manner contemplated by Ordinance No. 894, together with the diagram of the district to be assessed therefor.

The date of the first publication of this notice is the 26th day of March, 1924. All persons interested are hereby required to file, in writing, their objections, if any they have, to the confirmation of said assessment by the Council of the City of Glendale, with the said Clerk of the Council, within thirty (30) days after the said date of the first publication of this notice.

A. J. VAN WISE, City Clerk of the City of Glendale, Mar. 26-27-28-29-31, Apr. 1-2-3-4-5, 1924.

Replacement of Oil Is Important Matter

Because oil tends to deteriorate very rapidly in a new engine, the replacement of oil at proper intervals will insure continued smoothness of operation and prevent undue wear to bearings. Sediment in a new engine is the greatest prevalent cause of oil deterioration. This sediment is produced by the engine "wearing itself in." A new motor is built and assembled so that it is fairly tight or stiff. This causes each

California Auto Fee Receipts Help Roads

The California division of motor vehicles collected a total of \$3,756,759.44 during 1923 in motor vehicle fees, to be apportioned to the State Highway Commission and highway departments of the various counties for the repair and maintenance of roads. Moving part to adjust itself to each other part. In doing this, the various pieces rub against each other.

Light Spring Clips Prevent Axle Breaks

Take precaution to keep the spring clips tight. Axles break in the center almost invariably because of the loose spring clips. Looseness of the clips also makes the springs more likely to squeak. Keeping the springs lubricated not only prevents squeaking, but makes the car ride easier, and avoids breakage. Oil engines are taking the place of windmills in Holland.

RUNS AUTO OVER SHOWMAN'S BODY

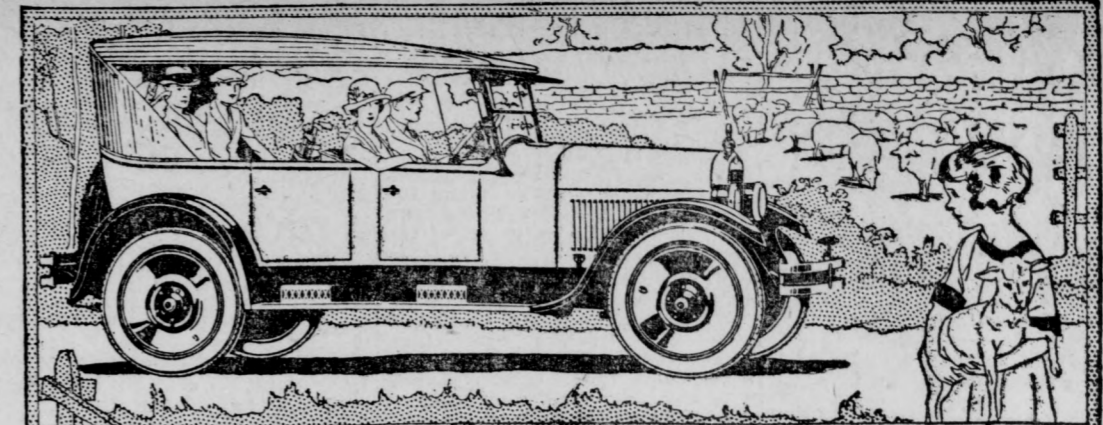

Harry W. Smith Escapes All Legal Action After Daring Stunt

As a general thing, any motorist who runs over a man has to stop and explain the matter to a justice of the peace and a flock of policemen, and he is lucky if he doesn't end up with a charge of manslaughter against him. But Harry W. Smith, manager of the C. L. Smith Chevrolet agency at Orange and Colorado streets, ran over a circus performer twice last Saturday and got away with it. Harry had led the circus parade through the city in a brand new Chevrolet sport roadster, and when he got back to the big tent he paraded around the tankark a few times to show off the new model to the assembled thousands, and then he parked it right where they couldn't help looking at it every time their eyes strayed from the other Al G. Barnes attractions. During the performance Ed Reese, who weighs only 138 pounds and is rated the strongest man of his weight in the world, lay down and permitted Harry to run the Chevrolet across his body, repeating the stunt at the night show. The car was run over his body on two pieces of board, but aside from these there were no other aids to soften the pressure of the car, which, with Harry Smith aboard, weighed over a ton. The little roadster made the biggest kind of a hit with the circus performers, who thronged around it and admired its good points, several of them tentatively dating Harry up for new Chevrolets as soon as the circus season ends.

SALES OF DODGE CARS INCREASING

R.E. Corrigan's March Total Almost Double That of Same Month, 1923

Hard times in the automobile business are totally absent around the Dodge Brothers agency at 116-120 West Colorado street, according to R. E. Corrigan, who has just finished a check-up of his March sales and finds that they came within a very little of being twice the amount of the sales in March of last year. Increased deliveries that have been received during the past few weeks have enabled the firm to display every model in the Dodge line, and the amount of attention that the line has been attracting augurs well for an active time during this month, Mr. Corrigan states. "The most pronounced trend at present," he declares, "is toward the closed car, and our March sales in closed models were three times the number of the open cars sold. One of the styles that is proving a big seller is the four passenger de luxe Sedan, which carries the standard equipment and that is admirably adapted to the use of the family as well as of the individual." Mr. Corrigan has drawn Booth No. 10 at the auto show that is to be held in Eagle Rock from April 8 to 12 and will show the entire line of Dodge cars.

A Sport Car—a Six—\$1095

Until you see it, you cannot adequately picture the distinctive beauty nor fully appreciate the mechanical goodness of this five-passenger Sport Touring. And the gratifying fact is that both its appearance and performance—endure!

Its finish—a striking Oakland Blue—cannot fade nor check because it is an entirely new substance—Duco.

The Oakland engine and chassis, because of their correct design and advanced construction, are ideal for a real sport car because they assure

snappy getaway, as well as sustained high speeds.

And how necessary and desirable, in a fast Sport Car such as this, are Oakland's safe and practical four-wheel brakes—and its large steering wheel on which are mounted the driving controls.

Then, too, its equipment includes everything that insures completeness and full value.

There is genuine satisfaction in owning a car as distinctive and able as this. Be sure to drive it before you buy any car this spring.

Another Lie Nailed!

BUICK MOTOR COMPANY
DIVISION OF GENERAL MOTORS CORPORATION
FLINT, MICHIGAN

OFFICE OF GENERAL MANAGERS

To Dealers and Customers:—

While we all realize that unfair methods employed by any company or individual will act as a boomerang and eventually retard prosperity of the originator, we feel called upon at this time to state that reports being circulated to the effect that the Buick Company has been sued by one of its competitors for patent infringement is absolutely untrue and without foundation in any way shape or manner.

As long as the buying public continues to appreciate our present design, as it certainly seems to, there is no intention on the part of this company to make any radical changes.

We feel that you are entitled to the above information as a contradiction to propaganda being circulated by competitors who desire to retard our sales. You can emphatically state that such reports are absolutely without any foundation whatsoever.

Very truly yours,
H. H. Tanner
President & General Manager.

BUICK LAW SUIT STORY IS DENIED

Report of Litigation Over Patent Infringement Called Unfounded

In spite of the fact that a categorical denial has been entered by the Buick Motor Company of the report that the concern has been sued by one of its competitors for infringement of patent rights, the story still persists in certain quarters, according to Ray L. Galvin, sales manager for Tanner & Hall, Buick distributors at South Brand boulevard and Maple avenue. "This report has been branded as unfounded," says Mr. Galvin, "but some people, for reasons that I cannot understand, persist in accepting it at its face value and in giving it credence. It is difficult to believe that any person who keeps in touch with conditions in the automotive industry could continue to accept this propaganda, that is evidently being put forth to injure our sales, but the persistence with which it continues to circulate forces us again to deny point blank that it contains an atom of truth. "The fact of the matter is, and this is the experience of other agencies as well as that of Tanner & Hall, that the sales of Buick cars keep on advancing right along, and I firmly believe that the reports that have been intended to discredit the Buick have had the directly opposite effect and have placed the Buick even more firmly in the favor of fair minded motorists who know that Buick is above any such unethical actions as have been imputed to the firm in this report.

FORD HITS HIGH OUTPUT FIGURES

Assembly Plants Turn Out 7456 Cars and Trucks In Single Day

Swinging into its big spring production program, the Ford Motor company on Wednesday, March 12, reached the highest mark in its history when its domestic assembly plants produced a total of 7,456 cars and trucks. This record-breaking figure does not include the daily output of 500 cars and trucks for export, nor the production of the Manchester, England, and Ford of Canada plants, which manufacture most of their own products. The new production record is of especial significance as it indicates the enormous demand being made throughout the country for Ford cars and trucks and the company's endeavor to bring its output up to the point where it will attempt to fill all requirements as to avoid repetition of the shortage which existed last spring, when thousands of persons were disappointed in not being able to secure delivery of cars.

Here Is Mixture for Cleaning Upholstery

Water, to which a little ammonia is added, is best for cleaning leather upholstery. A mixture of turpentine and linseed oil is used as an additional treatment. Mix these in the proportions of two parts of the linseed oil to one of turpentine.

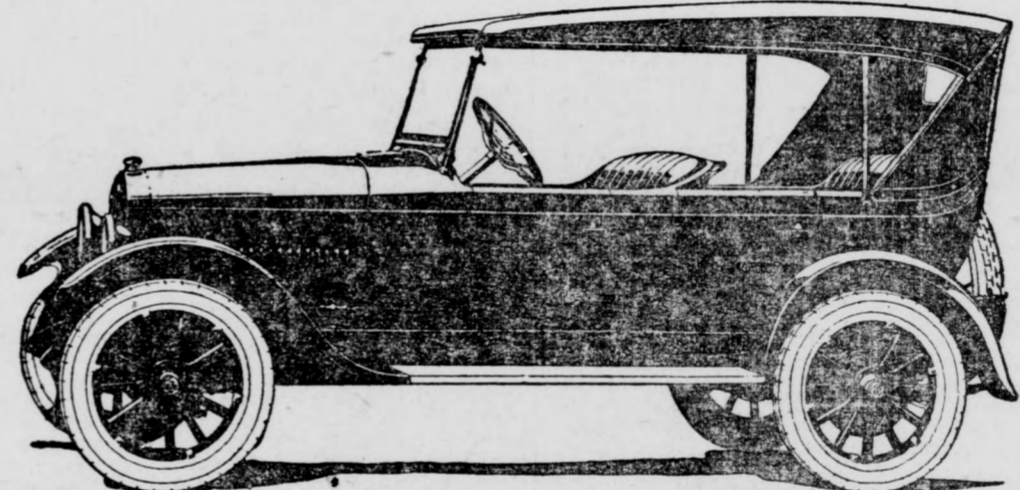

Mountains under the ocean in volcanic eruption have sometimes caused violent tremors to pass through ships traveling nearby.

Kerosene In Waste Helps Remove Rust

One of the best ways to free shackles and spring bolts that have become sufficiently rusted to prevent lubrication entering under high pressure is to soak some waste in kerosene and bind this around the parts affected. Be sure that the oil-soaked waste is nowhere near an exhaust pipe or electrical connection that might start a fire.

Cost of maintenance of all the automobiles in this country is estimated to be about \$5,590,000,000 a year.

STUDEBAKER LIGHT-SIX TOURING CAR

Mark This Example of what Studebaker alone can do

STUDEBAKER is the world's largest maker of quality cars. Our assets are \$90,000,000. We have \$50,000,000 in model plants. Our sales have almost trebled in three years, because of our matchless values. Last year, 145,167 people paid \$201,000,000 for Studebaker cars.

Come and learn why

Come and see, before you buy a car, the reasons for this success. See this Light-Six Touring Car, for instance.

Built of the finest steels. Of the very same steels we use in the costliest of our cars. On some we pay makers 15% premium to get just the quality specified.

Built under an engineering department which costs us \$500,000 yearly.

Each car subjected in the building to 32,000 separate inspections.

Same steels, same workmanship as in the costliest Studebaker models.

Two great features

There are many features in this Light-Six found in no rival car. But we want to mention two in particular.

The motor is perfectly balanced. That means long life and freedom from vibration.

The reason is this: We machine all surfaces of our crankshafts and connecting rods by 61 operations. Just as was done in Liberty Airplane

Motors. This is done in no other car at our prices. Then we use more Timken bearings in this car than are used in any competitive car within \$1,500 of our price. And Timken bearings take up wear as no other bearings do.

Why this price?

This Light-Six Touring Car is priced very low. Built under ordinary conditions such a car would cost you from \$290 to \$400 more.

But we build 150,000 cars per year. We make our own parts. We build our own bodies in \$10,000,000 body plants. We have 12,500 up-to-date machines. Our major costs are divided by enormous output.

The result is a value no other maker even tries to match in a fine car of this size. Come see what it means to you.

Send for the Book

Mail us the coupon below. We will send you free our new book that will inform you on five simple things which reveal the value of a car. For instance—

It will enable you to look at any car and tell whether it's been cheapened to meet a price or offers true quality.

It will tell you why some cars rattle at 20,000 miles and others don't. It shows one single point in a closed car which measures whether you're getting top or medium quality. The book is free. Clip the coupon now.

How It Excels

Steels are identical with the steels in the costliest car we make. More Timken bearings than in any competitive car within \$1,500 of its price.

Genuine leather cushions, 10 inches deep. Curled hair filling. All-steel body.

One-piece windshield—rainproof. Attractive cowl lights.

Quick-action cowl ventilator. Non-skid cord tires.

Transmission and ignition locks. Perfect motor balance.

The supreme car of its class.

Send coupon for book about it.

GIVES VIEWS ON TRAFFIC ARRESTS

Writer Makes Answer to Recent Interview by Judge F. H. Lowe

(Continued from page 3)

cases are in his court every month, which at \$25 per violation, would mean \$15,000 per month, although no doubt some of the fines are lower and others greater.

ave Own Ideas The mentioned following solutions, but stated that California was not ready for them yet.

There are any number of business and professional men in Glendale who have ideas of their own pertaining to the speed problem, and they are law-abiding citizens, who earnestly desire the law and order maintained.

They are just as deeply concerned about preventing accidents as any one else and a number believe that the speed violations and accidents can be reduced to a minimum with the proper co-operation of the police department with the law-abiding citizens of Glendale.

It is reported that some Glendale traffic officers receive \$140 per month. This amount is exceedingly small and for the class of traffic officers that a city of the growing class such as Glendale requires, the salary should be large enough to make the traffic officer capable of giving 100 per cent prevention service to the city.

Both High and Low People in every walk of life from former secretary of the treasury, to judge of superior court, business and professional men, have received violation tickets, by traffic officers for breaking the speed law.

Their time being too valuable, the officer having every advantage in evidence, regardless of the violation, and also having no desire to be publicly humiliated in court, these men without calling for a jury trial, put up bail money and do not appear in court.

The fact that law-abiding citizens in influential positions, who recognize that there is always a higher power, or court, have erred in breaking the law, does not necessarily set a precedent that all traffic officers are infallible in their judgment and acts.

Because a good citizen appears before any judge as a traffic violator for the second, third or

fourth time at intervals, does not indicate that he is a criminal, unless the character of his traffic violation is of such a nature as to determine that status.

A man drives a car in a fifteen mile zone, he naturally expects to see such sign conspicuously posted according to state law. When he drives in a twenty mile zone, he also expects to see the signs. It has been suggested that the city of Glendale have these speed limit signs posted throughout the city, especially on the most traveled streets.

Instead of having the traffic officers travel in pairs, spread their influence for safety by separating them, stationing them in different districts. Each man is responsible for what happens in his district, and the one who has the best record should be rewarded accordingly.

How it works. A law-abiding motorist drives along the boulevard, does not know in which speed limit zone he is, sees no conspicuous sign, is thinking about his business, slows down at intersections, or for traffic, comes along a clear space, unconsciously steps a little more on it, and before arriving at the next intersection, may for a hundred or more feet have gone around thirty miles an hour, and being careful in his driving and ever alert for pedestrians, while slowed down, finds a traffic officer at his side, a ticket, \$25 bail or appear in court.

It is reported that one man was arrested in Glendale for impeding traffic while going fifteen miles an hour.

People visiting Glendale, and the law-abiding citizens of Glendale may become so nervous over the problem, under the present system, as to affect business, and stay in the open, and always on the job and we will have less loss of life and accidents which do not happen where officers are none are in sight.

This method, however, would cause a great decrease in the

loser as far as that transaction is concerned, and the rest of the man's journey would be affected by the same environments.

According to the "Ambush law" which can be construed too technically as a trap or stop watch proceeding, when a motorist obeys the law in using his horn not as a signal for speeding, but to get some poor-sighted or slower motorist out of the "road hog atmosphere," so there will be no wrecks, when passing him at fifteen miles or a little over per hour, it could be construed by officers on an obscure side street as a speeder's signal.

Motorists fear to use their horns, abjectly fearing to attract the motorcycle officers who might misunderstand the reason for such warnings.

Can Quickly Tell Any sane motorcycle officer can tell in a minute whether an automobile driver is showing an intent to speed, or just undergoing a brief spurt of speed.

Any sane motorcycle officer can tell in a minute whether an automobile driver is showing an intent to speed, or just undergoing a brief spurt of speed. One can get these matters down "so technical" as to forget that people who drive automobiles, are also human beings, and are sometimes for safety sake, inclined to look out for pedestrians instead of keeping the eye glued on the speedometer, and when one does not see the speedometer, the driver cannot always tell just how fast he went from one intersection to another, regardless of how carefully he drove.

Automobile accidents also occur when machines are going ten miles an hour and less. It all depends upon how careful the driver is and when law-abiding citizens feel that they have to watch the speedometer every minute and most of the time do not know in what speed limit zone they are, it may be safe to say that there is not a perfect driver in Glendale from the speed limit standpoint.

It is reported that one man was arrested in Glendale for impeding traffic while going fifteen miles an hour. People visiting Glendale, and the law-abiding citizens of Glendale may become so nervous over the problem, under the present system, as to affect business, and stay in the open, and always on the job and we will have less loss of life and accidents which do not happen where officers are none are in sight.

Alphabetical Index of Auto Dealers Represented in Today's Auto Section

Table with columns: Car, Dealer, Address, Page No. Includes BUICK, CHRYSLER, CHEVROLET, CADILLAC, DODGE, ESSEX, FORD and LINCOLN, GRAY, HUDSON, MAXWELL, OLDSMOBILE, OAKLAND, PACKARD, STUDEBAKER, VELIE, etc.

number of arrests, and fines, but would increase safety, appreciation of the law-abiding citizens, and cause Glendale to grow faster than ever, as Glendale is no longer a small town. The intent to speed and criminal carelessness are the factors that deserve the discriminating attention of the motorcycle officers who obey the instructions of the executives and are not to be censured.

Another case. A business man in Glendale, when out for the first time in his new car, killed the engine and a Glendale motor officer wound it up for him. Months later the same officer arrested him for speeding, and the violator, while not intending to, was hurrying to get his boy to school. Even though in his hurry to reach the offender to give him a ticket, the officer nearly ran over the son.

JAP ROAD RULES AMUSE AUTOISTS

'Tootle Horn Trumpet, Warn Foot Passenger' Says Tourist Warning

While the traffic cop in Southern California may believe he has all the woe in the world for his portion, a translation of the Japanese traffic regulations, just received by the Automobile Club of Southern California, gives the American traffic cop a chance to cheer up a bit and perhaps to smile.

Under the caption, "Rules of the Road in Japan," is given the following translation for the guidance of American motorists:

"At the rise of the hand of a policeman stop rapidly. Do not pass him by or otherwise disrespect him.

"Give big space to the festive dog that make sport in the roadway. Avoid entanglement of dog with your wheelspokes.

Stage Veterans to Appear in Comedy (Continued from page 3)

Final Rehearsal Held Final rehearsals are being held under the direction of Granville Sturges, coach, and all will be in readiness for the initial performance tomorrow night.

More could be said in assisting to solve the traffic problem in Glendale, but if carried in effect, might greatly reduce the revenue for the city, while causing accidents to grow larger, reduce accidents and increase prosperity for the best business interests.

Watch Fresno Ranch For Plague Outbreak

FRESNO, April 3.—The effect of the inoculation of a calf on Frank Whitton ranch, seventeen miles northeast of Fresno, was being watched closely today to determine whether or not Fresno county will go under rigid quarantine for the hoof and mouth disease. Cattle on the ranch were reported ill today and immediately experiments were begun on the calf.

Long-Missing Will of 'Jim' Butler Is Found

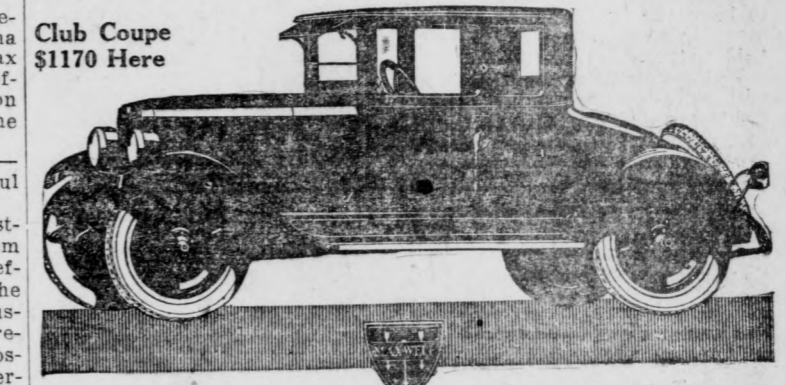

SACRAMENTO, April 3.—It is reported from Big Pine, Inyo county, that the long-missing will of "Jim" Butler whose discovery of gold created the mining camps of Tonopah and Goldfield, has been found.

Diet and Health

By LULU HUNT PETERS, M.D.
Author of Diet and Health, with Key to the Calories

ANSWERS TO CORRESPONDENTS

Mrs. C.—Swollen and painful joints may be due to several things. Among them local injuries; inflammations caused by the germs of acute rheumatism (usually gaining access through the tonsils in a severe case of tonsillitis); or germs of gonorrhoea, or poisons absorbed from pus around the teeth and other localities.

If not due to infections, swollen and painful joints are most often due to some profound disturbance of the metabolism. By metabolism is meant all of those changes in the body by which food is built up into tissue and gives off heat energy. This disturbance in the metabolism can be brought about by many factors, chief among them being an incorrect diet—one that is not balanced and is not giving the system the elements it needs.

I suspect your mother is suffering from acidosis or auto-intoxication of some sort. You ask if it can be caused by sugar, so probably she has been getting too much sugar, and she has probably been having more of the acid-forming foods than she needs.

You say that her decayed teeth have been taken out, so that eliminates the poisons which might come from them. It might be wise for her to go on an exclusive raw vegetable or fruit diet for three days or a little longer, or an exclusive milk or buttermilk diet. Then gradually extend her diet. Include milk, cottage cheese, whole grain cereals, vegetables and fruits (with the exception of prunes and cranberries). These are the alkali-forming foods.

Meat, eggs, cereals (especially the cereals devoid of the bran and germ) sugar and fats are the acid-forming foods. We must have some acid-forming foods, but we should have more alkali-forming foods than acid-forming, in order to keep the tissue fluids and the blood in their normal slightly alkaline state.

Hot applications on the joints will relieve the pain; electric light rays and exposure to the direct rays of the sun, beginning a few minutes a day and increasing

What Caused Family Row?

Hearing of assault case stirs renewed interest in the affairs of Anita Stewart, above, and of Ralph Ince, left; Lucile Lee Stewart Ince, center, and George Stewart, right. The last named is asking \$50,000 damages from Ince.

NEW YORK, April 3.—What caused the fight between Ralph Ince, motion picture director, and his brother-in-law, George Stewart, in which George's skull was fractured? That is what the motion picture world is wondering as George, youthful brother of Anita Stewart, film star, is pressing a \$50,000 suit for damages against Ince, who is the husband of his sister, Lucile Lee Stewart.

Beauty Chats

By EDNA KENT FORBES

EXERCISE FOR THE COMPLEXION

It may sound odd to suggest exercises rather than cold cream to improve the complexion, until you remember that exercise means good health and good health a clear skin. Torpid liver, constipation and such troubles mean endless complexion worries.

Now the very best exercise that I know to stir up the sluggish system is the following. Morning and night, before you are dressed, stand with the feet slightly apart, raise the hands over the head, lean forward and touch the floor, straighten up, lean forward again and touch the floor as before.

There are two household duties which are splendid for a torpid liver and all the other conditions that make the complexion sallow. One is sweeping and the other is scrubbing. But the sweeping should be done with a broom, the handle of which is long enough so you do not contract your chest and hunch up your shoulders as you sweep.

Miss M. G. F.: If you shave the hair on your arms it will grow coarser and look worse than it does now. A simple solution for this difficulty is to bleach the hair with peroxide.

Heart and Home

By MRS. ELIZABETH THOMPSON

A DILEMMA

Dear Mrs. Thompson: Two years ago the man I was engaged to marry died only two weeks before the date set for our marriage. He was an only son and it was during his illness that I met his parents and only sister.

Before I met the son he had been as good as she should have been, and when he awoke to the fact he left her, left the town, and some months later I met him. He made a big mistake, as many people do, and when he was man enough to confess his mistake and his effort to atone for it, I forgave him.

Only recently this affair has reached his parents and not knowing the truth, they believe me to be the woman whom the son supported. The letter I received from the mother is heart breaking—not a word of censure for the son, but the bitterest of reproaches for me.

Shall I even try to vindicate myself, as I most surely can, or just forget it, forgive them and bear the burden? Or should I fight for my honor? It is a question of nothing less than honor with me, for I am not the guilty woman. I feel that since his parents already know of the affair it will not hurt them to know the truth nearly so much as it will hurt me to lose their love and respect for it.

I am twenty-seven years old, but willing to accept advice.

There is only one thing for you to do and that is to re-establish your honor. Write a letter to the mother, stating as simply and kindly as you can the facts that will vindicate you. Do not try to tell her the unfortunate story, because she already knows enough. Doubtless she will be very thankful to find that the girl who has been almost a daughter is not guilty. Say that you are thankful you can put her right in this matter because she has meant much to you in the lonely period since the death of her son.

FORBIDDEN
Dear Mrs. Thompson: I have a certain girl friend whom my

parents have forbidden me to go with. When I ask them why, they say she is all right only that I could find more refined girls to go with. I love this girl dearly and it almost breaks my heart to give her up. I hate to disobey my parents and I hate to give up this girl.

MAMMA'S ONLY GIRL.
Since you must refuse to comply with the request of your parents if you continue your friendship with the girl, I would advise you to give her up. Your parents see her in a different light than you do, of course, but with their mature judgment they recognize a side to the girl which you fail to see. Continue to love the girl for the lovable side you see in her character, but do not see so much of her. Naturally your parents prefer to have you show a taste for refinement when you choose your friends.

ARMS AND THE WOMAN
Dear Mrs. Thompson: We are two girls 16 years old and we go with two fellows who are brothers, 17 and 18 years old. They often take us to the movies and want to put their arms around us. We have seen many others doing this, and they do not seem to like it when we refuse. We are afraid if we do not let them they will not go with us any more. We love them dearly. Please advise us.

BROWN EYES.
Don't you think it looks cheap to see a man's arm around a girl in the movie? I shouldn't think you would consider entering that class of movie fans. If the boys stop going with you because you have too much self-respect to permit such a thing, you are not losing anything. Wait until some other young men come along more worthy of your love.

DEAR MRS. THOMPSON: I am a young man of 18. I have never gone with a girl. My boy friends who are younger and older than I go with girls and they laugh at me for not going with them. I tell them there is plenty of time, I think. I have a large number of boy and girl friends. Do you think I ought to go with girls?
JUST A COUNTRY BOY.
I think you are old enough to start going with girls. It is a part of youth and unless you go with them you are missing a lot of fun.

Efficient Housekeeping

By LAURA A. KIRKMAN

A KNITTED SLEEVELESS SPORTS SWEATER

Tomorrow's Menu
Breakfast
Stewed Dried Apricots
Cereal
Codfish Cakes
Luncheon
Baked Macaroni and Cheese
Wholewheat Bread
Tea
Lettuce Jam
Dinner
Tomato Soup
Fried Pan Fish
Potatoes Spinach
Spiced Beet Salad
Coffee Orange Gelatine

There is no more serviceable garment for spring and summer wear than a knitted sleeveless sweater—whether one wears it in the garden or for "puttering" in the garden on a windy day. Materials for the following one are nine balls of luster floss (any desired color) one pair of number five bone or celluloid knitting needles and four double-point bone or celluloid needles number three and one-half.

Lady's Sleeveless Sweater, Size 36 to 38: Back: With the number five needles cast on 90 stitches. K 1 row, P 1 row, for ten rows, then K two rows plain, turn hem up on this rib, now K 1 row, P 1 row for three inches more. Then decrease one stitch at each end every tenth row, until 78 stitches remain. When work measures 20 inches from starting place, bind off three stitches at each end for armhole, then decrease one stitch at each end every other row till 66 stitches remain, continue till work measures 30 inches from start; on next row work first 23 stitches off onto a stitch-holder (or a large safety pin will do as well) bind off next 20 stitches for neck, and on remaining 23 start the front, as follows:

Front: Increase one stitch toward the front every other row five times, then one stitch every fourth row 11 times; when armhole measures eight inches from shoulder, increase one stitch toward armhole every other row three times, then cast on three stitches for underarm. Continue

on 45 stitches till work measures eight inches on underarm seam, then increase one stitch at underarm, every tenth row, six times. Finish front to correspond with back. Work second front same as first; sew up underarm seams, turn hem up on wrong side, hem neatly in place.

Collar: With the number three and one-half needles, cast on 25 stitches. K plain, till long enough to extend down both fronts and around the neck, being careful so collar is long enough not to draw up the front edges of sweater. With three double-point number three and one-half needles, pick up the stitches around armhole. K three rows on all stitches, bind off loosely, turn on wrong side and sew in place. Make a twisted cord for around waist.

Tomorrow—Contributed Recipes
All inquiries addressed to Miss Kirkman in care of the "Efficient Housekeeping" department will be answered in these columns in their turn, however, owing to the great number received. So, if a personal or quicker reply is desired, a stamped and self-addressed envelope must be enclosed with the question. Be sure to use your full name, street number, and the name of your city and state.—The Editor

Save it with Kyanize

YOU CAN DO IT YOURSELF - EASILY

Take an old chair or table that has become shabby or worn—plunge a good clean brush into a can of KYANIZE Floor Finish—in any of the eight shades or "clear"—and go over the surface with a few easy brush strokes. One coat—that's all as a rule—unless the surface is particularly far gone or brand new wood—then two coats. Dries with the most beautiful and brilliant finish you ever saw. Tough, too, cannot scratch white—and waterproof, absolutely. Transparent and brilliant. Especially made to endure the hardest kind of wear on a floor, it is for that very reason the most satisfactory finish you can get for tables, chairs, dressers, desks and all kinds of furniture. Results are guaranteed to be satisfactory or "money back for the empty can." Try refinishing with KYANIZE today.
