AND VINES.

## PINEHURST NURSERIES,

OTTO KATZENSTEIN,  
MANAGER,

PINEHURST, MOORE CO., N. C.

Our stock has been regularly examined by our State Entomologist, who has certified that it gave no indication of any species of insects designated as dangerous pests by the North Carolina Commission for Controlling Crop Pests, and that it was healthy in every respect. A copy of the official certificate will go with every shipment.

## PLEASE NOTE:

---

Our **FREIGHT OFFICE** is Pinehurst, N. C., on the A. & A. Railroad, which connects with both the Southern Railway and the Seaboard Air Line Railroad.

Our **EXPRESS OFFICE** is Southern Pines, N. C., from which point an electric road runs to Pinehurst.

**TERMS:** Cash or satisfactory reference from unknown correspondents. We allow a *discount* of 5 per cent. for cash with orders or for remittances within 15 days from date of invoice. All accounts will be due (and subject to draft) sixty days from date of invoice, where no special arrangements have been made. Remit by express or postoffice money order, registered letter, bank-draft or check.

**REDUCTIONS:** 5 plants at 10-rates; 50 plants at 100-rates; 500 at 1,000-rates; 5,000 at 10,000-rates. Packing and boxing charged at actual cost.

**SHIPPING DIRECTIONS:** Precise directions as to kind of conveyance (mail, express, freight) and route are desired, or we shall ship at our own discretion. All goods travel at risk of consignee.

**SHIPPING SEASON:** We ship shrubbery from October 1st to May without hardly any interruption. We have built a storage cellar lately, and hope to be able now to take care of late orders as well. We advise, however, to *send all orders as early as convenient*, and we shall hold them as long as ever practicable if desired by consignee.

**COLLECTED SHRUBBERY:** We ship very large quantities of collected shrubbery annually in solid carloads to many of the largest parks and have a well-trained force who handle the plants with every care. We ship well-developed plants, with good roots, that have not been exposed to the weather, and pack in damp moss. If not specially instructed, we prune the tops of most shrubs to save freight.

**HERBACEOUS PLANTS:** Quite a number of perennials we have now in nursery rows, while others will have to be collected on order. Some kinds can be identified only when in bloom. Orders on such will be filled in due season. We can collect very large quantities of most of our native perennials at very special prices and solicit correspondence from all interested.

An *exchange* of catalogs, seed-lists, botanical lists, etc., is desired.

**THIS LIST CANCELS ALL PREVIOUS QUOTATIONS.**

---

Our trade-list of Seeds of American Woody and Herbaceous Plants, etc., for 1899 will be sent to any address upon application.

JAMES W. TUFTS,  
BOSTON, MASS.

OTTO KATZENSTEIN,  
MANAGER.

OFFICE OF

## Pinehurst Nurseries,

PINEHURST, N. C., Sept. 1, 1899.

*Dear Sir:*

Again we have the pleasure to present our nursery list, with the request to give it your best attention. Our plants had to undergo a very severe test as to their hardiness last winter, as the mercury came here quite abnormally low in February. We are glad to be able to say that most of our plants passed through the ordeal without any worse damage than to be benefited by a more or less severe pruning. All kinds, which succumbed to the cold in any way, we have eliminated from our collections.

We beg to call once more your attention to the fact that spring sets in here very early, as a rule, and with such a force that the leaves of all the early shrubs—such as *Pyrus*, *arbutifolia*, etc.,—will be forced out very rapidly, which prevents, of course, all further digging. As, unhappily, the beginning of our spring is coincident with the height of the planting season further North, we have in the past been forced to disappoint our friends quite often, as we had to refuse most late orders on that score. We have built recently a commodious storage cellar, which will enable us to keep our plants dormant for a much longer period, and we hope to find ourselves in a position now to fill all orders, irrespective of the advanced season.

We should be pleased, however, to be favored with your commands as early as ever convenient to you, even if you wish to have the stock delivered at a later date. Fall orders are the most desirable ones.

We thank you for the confidence shown in us during the past, and we respectfully request a continuation of your patronage. All others, who have not dealt with us yet, we desire to favor us with trial orders, which shall always have our best and most careful attention.

Yours very truly,

OTTO KATZENSTEIN,

*Manager.*

## WOODY PLANTS.

Col., collected plants. S., seedlings. C., cuttings. All others are heavy nursery grown and transplanted.

## GRAPE VINES.

We have a few thousand very nice plants of Delaware, Moore's Early and Niagara, left over yet, which we offer, to clear them out, at 10c each, 25c for 10, \$2.00 for 100, \$14.00 for 1000.

## CORDONS.

	EACH.	10	100
Cordons—Single and double arm	3-5 ft.	2.50	22.20 200.00

**Apples:**—(on Paradise) Alexander, Baldwin, Chenango, Early Harvest, Gravenstein, Jonathan, Northern Spy, Primate, Sweet Bough, Tompkins King, Wagner, Wealthy.

**Pears:**—(on Quince) Angouleme, Anjou, Bartlett, Clapp's Favorite, Easter Beurre, Hardy

Giffard, Howell, Josephine of Malines, Lawrence, Louise Bonne of Jersey, Superfin.

These peculiarly trained dwarf fruit trees, of which we have to offer about eighty, are especially adapted to private places where they surely will be a permanent source of interest, pleasure and profit. Year in year out they will repay diligent care by sure crops of fruits of extra large size and of a very superior quality. The main trunk of our about three-year-old plants is bent 18 inches above ground in "T" shape or with a few with one arm. Our trees are covered with fruit branchlets and are ready to bear next year. We are ready to give any desired cultural directions.

## HOT-BED SASH.

Prices for lumber of all kinds are going up rapidly, but we are still able to furnish at the old price the hot-bed sashes, which have found such a quick appreciation everywhere. We offer therefor:

HOT-BED SASH, CLEAR CYPRESS, 3 x 6 ft. x  $1\frac{3}{8}$  in. for 10-in. glass, unglazed, at 80c apiece in quantities of less than 50, and at 75c if over 50 are ordered, f. o. b. factory. Prices for large quantities or for other sizes, other information as to freight, etc., will be furnished on application.

## HOW TO PLAN THE HOME GROUNDS.

BY S. PARSONS, JR.,

Ex-Superintendent of Parks, New York City.

This is a book which is of highest value to everyone connected professionally with landscape work and to all house owners, who wish to beautify their homes, be they large or small. We shall be pleased to forward the book, 249 pages, 56 diagrams, plans, etc., bound in ribbed cloth, postpaid upon receipt of \$1.00.
