Allocations under subdivisions a and b must be apportioned by the state treasurer as follows:
 - a. If the tipple of the currently active coal mining operation in a county is not within fifteen miles [24.14 kilometers] of another county in which no coal is mined, the revenue apportioned according to this subdivision must be allocated as follows:

- (2) Forty percent must be divided by the state treasurer between the general fund of the coal-producing county and the general fund of any non-coal-producing county when any portion of the latter county lies within fifteen miles [24.14 kilometers] of the tippie of the currently active coal mining operation in the coal-producing county. The county director of tax equalization of the coal-producing county shall certify to the state treasurer the number of quarter sections of land in the non-coal-producing counties which lie at least in part within fifteen miles [24.14 kilometers] of the tippie of the currently active coal mining operation and their assessed valuations.

The county superintendent of the non-coal-producing counties shall certify to the state treasurer the number of students actually residing on these quarter sections lying outside the coal-producing county and each school district in non-coal-producing counties shall receive a portion of the money under this paragraph based upon the ratio of the number of children residing on quarter sections of that school district within the fifteen-mile [24.14-kilometer] radius of the tippie of a currently active coal mining operation to the total number of schoolchildren from the coal-producing county combined with all the schoolchildren certified to be living on quarter sections within fifteen miles [24.14 kilometers] of the tippie of the currently active coal mining operation in the coal-producing county.
- (4) For the purposes of this subdivision:

- (d) The terms "non-coal-producing county" and "non-coal-producing counties" mean any county in which not more than seventy-five thousand tons [68038.86 metric tons] of coal were mined in the prior quarterly period.
- (e) In computing each amount to be paid as provided in paragraph 1, 2, or 3 for coal severance tax revenue from coal mined during a monthly period, the state treasurer shall deduct from the allocation the amount of coal severance tax revenue, if any, that the governmental body in the non-coal-producing county received from the coal mined in the non-coal-producing county during the same monthly period.
- (5) The state treasurer shall allocate funds provided by legislative appropriation to cities, the county general fund, and school districts within a coal-producing county according to the allocation method provided in subdivision a in an amount to offset fifty percent of the loss of that county's share of coal severance tax revenue allocated to a non-coal-producing county under this subdivision in the previous calendar year. The state treasurer shall make the allocation and distribute the funds, within the limits of legislative appropriations, under this paragraph during the first month of each calendar year. If the committee determines, upon the facts presented at the hearing and upon other available relevant facts and information, there is need, in the public interest, for a soil conservation district to function in the area considered at the hearing, the committee shall record that determination and define the district boundaries by metes and bounds or legal subdivisions. In making the determination and defining the boundaries, the committee shall give due weight and consideration to:
 - a. The topography of the area considered and of the state;
 - b. The composition of soils, distribution of erosion, prevailing land use practices, and desirability and necessity of including within the boundaries the area under consideration;
 - c. The benefits the area may receive from being included within such boundaries;
 - d. The relation of the proposed area to existing watersheds and agricultural regions, and to other soil conservation districts already organized or proposed for organization under this chapter; and
 - e. Any other relevant physical, geographic, and economic factors, having due regard to the legislative policy set forth in section 4.1-20-01.
3. If the committee determines, after the hearing and due consideration of the relevant facts, there is no need for a soil conservation district to function in the

area considered at the hearing, the committee shall record that determination and deny the petition. After six months has expired from the date of the denial of that petition, a subsequent petition covering the same or substantially the same area may be filed and a new hearing held and new determinations made.

4.1-20-09. Election - When held - Contents of ballot - Who may vote.

After the committee has determined the necessity for the organization of a district and has defined the boundaries of the proposed district, the committee shall hold an election within the proposed district upon the creation of the proposed district and shall cause due notice of the election to be given. The question must be submitted by ballot in substantially the following form:

Shall a soil conservation district be created embracing lands situated in the counties of _____ and _____ and described as follows: (Here inserting description).

Yes

No

All qualified electors residing within the boundaries of the proposed district are entitled to vote in the election.

4.1-20-10. Publication of election results - Determination of feasibility of operation of district.

The committee shall publish the results of any election. If a majority of the votes cast are in favor of the creation of a district, the committee shall determine whether the operation of a district within the boundaries specified on the election is administratively feasible. In making that determination, the committee shall consider such factors, objects, and other determinations as to accomplish the policy and scope of this chapter as set forth in section 4.1-20-01.

4.1-20-11. District determined feasible - Statement filed with secretary of state.

If the committee determines the operation of a proposed district is administratively feasible, the committee shall file with the secretary of state a certified statement identifying the boundaries and name of that district. The statement must include the reasons for the formation of the district and the result of the election.

4.1-20-12. District to be a political subdivision - Boundaries of district.

Upon the certification by the committee to the secretary of state under section 4.1-20-11, the district becomes a political subdivision of the state and a body corporate and politic. The secretary of state shall issue to the committee a certificate of the due organization of the district under the seal of the state and record the certificate with the application and statement. The boundaries of the district include the area as determined by the committee, but may not include any area included within the boundaries of another soil conservation district.

4.1-20-13. Petition to include additional area within existing district.

Petitions to include additional area within an existing district may be filed with the committee at any time, and the proceedings provided in connection with a petition to organize a district must be observed in the case of a petition for such inclusion. A

portion of a district may upon petition of a majority of the qualified electors in that portion, and without an election, be annexed to an adjoining district, and become a part of that adjoining district upon filing the petition with the state soil conservation committee.

4.1-20-14. Districts presumed to be organized legally - Copy of certificates as evidence.

In any suit, action, or proceeding involving or relating to the validity or enforcement of any contract, proceeding, or action of a district, the district is deemed to have been established in accordance with the provisions of this chapter, upon proof of the issuance of the certificate of organization by the secretary of state. A copy of the certificate, when duly certified by the secretary of state, is admissible in evidence in any suit, action, or proceeding and is proof of the filing and its contents.

4.1-20-15. Notice to file nominating petitions and of election of district supervisors.

As soon as practicable after the issuance by the secretary of state of the certificate of organization of a soil conservation district, and before the next general election, the committee shall give notice that nominating petitions may be filed with the county auditor, and that at the next general election held in the district three supervisors must be elected, who must be land occupiers of the district and who constitute the governing body of the district.

4.1-20-16. Nominating petitions - Petitions required - Final filing date.

Any individual running for the office of supervisor shall present to the county auditor of the county in which the district lies a petition giving that individual's name and mailing address and the title and term of the office, and containing the signatures of not less than twenty-five nor more than three hundred qualified electors of the district. When a district lies in more than one county, the petition must be filed with the county auditor of the county where the candidate resides, and that county auditor shall certify to the county auditors of the other counties in which the district lies the name and mailing address of the candidate filing such petition. At the same time, the county auditor, or auditors in the case of multicounty districts, also shall certify to the secretary of state the name and mailing address of each individual filing a nominating petition according to this section. An individual may not participate directly or indirectly in the nomination for more than one individual for each office to be filled. The final filing date for nominating petitions is no later than four p.m. sixty-four days before the day of the election.

Upon receipt of the petition or the certification as provided in this section, the county auditor shall place, without fee, the name of the candidate so nominated on the no-party ballot at the ensuing general election.

4-1-20-17. Regular election of district - When held - Regulations governing.

The regular election of soil conservation districts must be held at the same time, and at the same place, as the general election is held. All qualified electors in the district may vote in any regular election of the district. Any land occupier living in the district desiring to be a candidate for the office of supervisor at a district election and who has failed to file a nominating petition may campaign and be elected as a write-in candidate for the office.

4.1-20-18. Supervisors - Terms of office - Vacancies - Removal - Compensation - Expenses.

1. At each general election, one district supervisor must be elected for a term of six years, or until the successor is duly elected and qualified, to each expiring or vacant term. The county auditor of the county or counties in which the district lies shall return to the secretary of state before four p.m. on the tenth day following any general election a certified abstract of the votes cast in the county at the election for each candidate for district supervisor. The secretary of state shall canvass the returns and issue certificates of election under chapter 16.1-15.
2. To be eligible for election to the office of district supervisor, candidates must be land occupiers and physically living in the district. Candidates must be elected on a nonpartisan ballot. If the office of any supervisor becomes vacant, the remaining members of the board of supervisors, with the advice and consent of the committee, shall fill the vacancy by appointment. If vacancies occur in the office of two supervisors, the remaining supervisor and the committee shall fill the vacancy. If the offices of all supervisors of a district become vacant, the committee shall fill the vacancies by appointment. A supervisor appointed to fill a vacancy holds office until the next general election. A supervisor elected to fill a vacancy serves the balance of the unexpired term in which the vacancy occurred.
3. Upon resolution of the three elected supervisors, a soil conservation district, may appoint two additional supervisors who shall serve for a term of one year from the date of appointment. Those supervisors must be appointed by a majority of the three elected supervisors and have all the powers, voting privileges, duties, and responsibilities of elected supervisors, except that the expense allowances of the appointed supervisors must be paid by the local soil conservation district concerned. As far as possible, the appointed supervisors shall represent interests within the district which are not represented by the elected supervisors.
4. After notice given and hearing held in accordance with chapter 28-32, a supervisor of a soil conservation district may be removed from office by the committee.
5. Upon a majority vote of the supervisors, the supervisors of a soil conservation district are entitled to receive compensation of up to sixty-two dollars and fifty cents for attending each regular or special meeting or for attending other meetings or events in the performance of their official duties. Supervisors of soil conservation districts are entitled to receive travel and subsistence expenses necessarily incurred in attending district, state, or other meetings. The compensation and all other expenses including travel incurred by district supervisors while transacting district business must be paid from district funds.

4.1-20-19. Soil conservation district supervisors - Training.

As soon as practicable after an individual is elected or appointed to the position of a soil conservation district supervisor, the individual shall attend a training session delivered by the state soil conservation committee. An individual who has attended a training session as an elected or as an appointed soil conservation district supervisor may not be required to attend any additional or subsequent session.

4.1-20-20. Supervisors may employ assistants - Attorney general and state's attorneys to advise - Reports to committee.

The supervisors may employ necessary permanent and temporary officers, agents, or employees, and shall determine their qualifications, duties, and compensation. The supervisors may call upon the attorney general or the state's attorney of any county in which the district is situated for those legal services as the supervisors may require. The supervisors may delegate to their chairman or to any of their number such duties as they may deem proper and shall furnish to the committee, upon request, copies of any ordinances, rules, regulations, orders, contracts, or other documents the supervisors adopt or employ, and any other information concerning their activities as the committee may require.

4.1-20-21. Assistance for district supervisors.

Upon request of the supervisors of a soil conservation district, a board of county commissioners may assign an employee or employees of the county to assist the supervisors in the performance of the supervisors' duties authorized by this chapter. The board of county commissioners of each county within a soil conservation district may provide assistance for the supervisors. The duties of the employee or employees are under the direct supervision of the supervisors of the soil conservation district.

4.1-20-22. Supervisors to provide for surety bonds, keeping records, and annual audit.

The supervisors shall provide for the execution of surety bonds for all employees and officers who are entrusted with funds or property of the district, for the keeping of a full and accurate record of all the supervisors' proceedings and of all resolutions, regulations, and orders issued or adopted by the supervisors, and for an annual audit of the accounts of receipts and disbursements of the district. The surety bonds provided for in this section may be issued by the state bonding fund.

4.1-20-23. Supervisors may consult city or county representatives.

The supervisors may invite the governing body of any city or county located within or near the district to designate a representative to advise and consult with the supervisors on issues that may affect the property, water supply, or other interests of the city or county.

4.1-20-24. Powers and duties of districts and supervisors.

1. A soil conservation district may exercise the public powers ordinarily exercised by a political subdivision of the state, and the district and the supervisors of the district have the following powers in addition to those granted in other sections of this chapter:
 - a. To conduct surveys, investigations, and research relating to the character of soil erosion and the preventive and control measures needed; to publish the results of those surveys, investigations, or research; and to disseminate information concerning the preventive and control measures. To avoid duplication of research activities, a district may not initiate any research program except in cooperation with the government of this state or any of its agencies, or with the United States or any of its agencies.
 - b. To conduct demonstrational projects within the district on lands owned or controlled by this state or any of its agencies, with the cooperation of the agency administering and having jurisdiction of the land, and on any other

- c. To carry out preventive and control measures within the district, including engineering operations, methods of cultivation, the growing of vegetation, and changes in use of land, on lands owned or controlled by this state or any of its agencies, with the cooperation of the agency administering and having jurisdiction of the land, and on any other lands within the district upon obtaining the consent of the occupier of those lands or the necessary rights or interest in those lands.
 - d. To cooperate or enter agreements with, and, within the limits of appropriations duly made available to it by law, to furnish financial or other aid to any agency, governmental or otherwise, or any occupier of lands within the district in the carrying on of erosion control and prevention operations within the district, subject to the conditions as the supervisors may deem necessary to advance the purposes of this chapter.
 - e. To obtain options upon and to acquire by purchase, exchange, lease, gift, grant, bequest, devise, or otherwise any property, real or personal, or any property rights or interest; to maintain, administer, and improve any properties acquired; to receive income from those properties and to expend that income in carrying out the purposes and provisions of this chapter; and to sell, lease, or dispose of otherwise any of its property or interest therein in furtherance of the purposes and the provisions of this chapter.
 - f. To make available, on terms the soil conservation district prescribes, to land occupiers, government units or qualified electors within the district, agricultural and engineering machinery and equipment, fertilizer, seeds and seedlings, and any other material or equipment as will assist those land occupiers, government units or qualified electors to carry on operations upon their lands for the conservation of soil and water resources and for the prevention and control of soil erosion.
 - g. To construct, improve, and maintain structures as may be necessary or convenient for the performance of any of the operations authorized in this chapter.
 - h. To develop comprehensive plans for the conservation of soil resources and for the control and prevention of soil erosion within the district, which plans must specify in such detail as may be possible the acts, procedures, performances, and avoidances that are necessary or desirable for the effectuation of those plans, including the specification of engineering operations, methods of cultivation, the growing of vegetation, cropping programs, tillage practices, and changes in use of land, and to publish such plans and information and bring them to the attention of occupiers of lands within the district.
 - i. To take over, by purchase, lease, or otherwise, and to administer any soil conservation, erosion control, or erosion prevention project located within its boundaries undertaken by the United States or any of its agencies, or

- k. To have a seal, which seal must be noticed judicially.
- l. To have perpetual succession unless terminated as provided in this chapter.
- m. To make and execute contracts and other instruments necessary or convenient to the exercise of its powers, and to borrow funds and pledge all or any part of any income from the district's facilities, equipment, and operations for repayment.
- n. To make, amend, or repeal regulations consistent with this chapter.
- o. To require contributions in money, services, materials, or otherwise to any operations conferring benefits under this chapter and to require land occupiers to enter and perform agreements or covenants to use the lands in a manner that will prevent or control erosion.
- p. To expend moneys for education, promotion, and recognition activities consistent with the purposes of this chapter.
- q. To levy taxes as follows:
 - (1) The supervisors may make a general fund tax levy, not exceeding two and one-half mills, for the payment of the expenses of the district, including mileage and other expenses of the supervisors, and technical, administrative, clerical, and other operating expenses.
 - (2) Immediately after the completion of the district budget and the adoption of the annual tax levy by the district supervisors, but not later than July first, the supervisors shall send one certified copy of the levy as adopted to the county auditor of each county in the district.
 - (3) The county auditor of each county in the district shall extend the levy upon the tax list of the county for the current year against each description of real property lying both within the county and the district in the same manner and with the same effect as other taxes are extended.
 - (4) The treasurer of each county in the district shall collect all district taxes together with interest and penalty thereon in the same manner as the general taxes are collected, and shall pay over to the soil conservation

district by the tenth working day of each month, all taxes so collected during the preceding month, with interest and penalties collected thereon and shall immediately send notification of such payment to the treasurer of the soil conservation district.

(5) Voter-approved levy authority authorized by electors of a district under the provisions of this section before January 1, 2015, remains in effect through taxable year 2024 or for the time period authorized by the electors, whichever expires first.

2. Any provisions with respect to the acquisition, operation, or disposition of property by other public bodies are not applicable to a district unless the same specifically are made applicable by law.

4.1-20-25. Supervisors may formulate land use regulations for submission to qualified electors.

The supervisors of any district may formulate regulations governing the use of lands within the district in the interest of conserving soil and soil resources and preventing and controlling soil erosion, and may conduct public meetings and hearings upon tentative regulations as may be necessary to assist the supervisors in this work. The proposed regulations must be embodied in a proposed ordinance for submission to the qualified electors in the district, and copies of the proposed ordinance must be available for inspection by the qualified electors in the district during the period of time between the publication of the notice of election upon the ordinance and the date of the election.

4.1-20-26. Notice of election - Form of ballot - Conduct of election - Who may vote.

The notice of election on a proposed ordinance submitted to the qualified electors in the district under section 4.1-20-24 must be provided in the manner required by section 4.1-20-14 relating to notice of election of supervisors, and must recite the contents of the proposed ordinance or must state where copies of the proposed ordinance may be examined. The question of adoption or rejection of the proposed ordinance must be submitted by ballot at an election to be held in the district. The ballot must be in substantially the following form:

Shall proposed ordinance number _____, prescribing land use regulations for conservation of soil and prevention of erosion be adopted?

Yes _____

No _____

The supervisors shall supervise the election, prepare appropriate regulations governing the conduct of the election, and publish the result of the election. The right to vote in the election is limited to qualified electors residing within the district. No informalities in the conduct of the election or in any matters relating to the election may invalidate the election or its result if the notice of election has been given substantially as required by this section and the election has been fairly conducted.

4.1-20-27. Two-thirds voter approval required to adopt ordinance - Effect of ordinance after adoption.

An ordinance under this chapter does not become effective unless it is approved by at least two-thirds of the qualified electors voting on the question. If a proposed

ordinance is approved, the supervisors shall enact it into law. Land use regulations prescribed in any ordinance adopted by the supervisors pursuant to this section have the force and effect of law in the district and are binding and obligatory upon all qualified electors living within the district.

4.1-20-28. What may be contained in land use regulations.

The land use regulations that may be adopted by the supervisors under this chapter may include:

1. Provisions requiring the carrying out of necessary engineering operations, including the construction of terraces, terrace outlets, check dams, dikes, ponds, ditches, and other necessary structures.
2. Provisions requiring observance of particular methods of cultivation, including contour cultivating, contour furrowing, lister furrowing, sowing, planting, stripcropping, and seeding and planting of lands to water conserving and erosion-preventing plants, trees, and grasses, forestation, and reforestation.
3. Specifications of cropping programs and tillage practices to be observed.
4. Provisions requiring the retirement from cultivation of highly erosive areas or of areas on which erosion may not be controlled adequately if cultivation is carried on.
5. Provisions for any other means, measures, operations, and programs as may assist conservation of soil and water resources and prevent or control soil erosion in the district, having due regard to the declaration of policy set forth in this chapter.

4.1-20-29. Regulations to be uniform - Copies furnished in district.

Land use regulations must be uniform throughout the district except that the supervisors may classify the lands within the district with reference to such factors as soil type, degree of slope, degree of erosion threatened or existing, cropping and tillage practices in use, and other relevant factors, and may provide regulations varying with the type or class of land affected but uniform as to all lands within each class or type. Copies of land use regulations adopted under this chapter must be printed and made available to all qualified electors living within the district.

4.1-20-30. Amending, supplementing, or repealing land use regulations.

Any qualified elector living within a district at any time may file a petition with the supervisors asking that any or all of the land use regulations in any ordinance adopted by the supervisors under this chapter be amended, supplemented, or repealed. Land use regulations in that ordinance may not be amended, supplemented, or repealed except in accordance with the procedure prescribed in this chapter for the adoption of land use regulations. Elections on adoption, amendment, supplementation, or repeal of land use regulations may not be held more than once in any six-month period.

4.1-20-31. Supervisors to enforce land use regulations.

The supervisors may enter upon any land within the district to determine whether land use regulations adopted under this chapter are being observed.

4.1-20-32. Failure to perform land use regulations - Hearing on - Supervisors to perform - Costs and expenses.

1. If the supervisors of any district find any land use regulations prescribed in any ordinance are not being observed on particular lands, tending to increase erosion on those lands and interfering with the prevention or control of erosion on other lands within the district, the supervisors may present to the district court a duly verified petition setting forth:
 - a. The adoption of the ordinance prescribing land use regulations;
 - b. The alleged failure of the defendant land occupier to observe the regulations and perform particular work, operations, or avoidances required by the regulations and that the failure tends to increase erosion on those lands and interfere with the prevention or control of erosion on other lands within the district; and
 - c. Requesting that the court order the defendant to perform the work, operations, or avoidances within a reasonable time and that if the defendant fails to do so, the supervisors may:
 - (1) Enter upon the land;
 - (2) Perform the necessary work to bring the condition of the land into conformity with the regulations; and
 - (3) Assess the costs and expenses of the work, with interest, to the defendant.
2. Upon presentation of a petition under subsection 1, the court shall cause process to be issued against the defendant, and shall hear the case.
 - a. If it appears to the court testimony is necessary for the proper disposition of the matter, the court may take evidence or appoint a referee to take evidence as it may direct and report the evidence to the court with the referee's findings of fact and conclusions of law.
 - b. If a referee is appointed, the report of the referee constitutes a part of the proceedings upon which the determination of the court must be made.
 - c. The court may dismiss the petition or it may order the defendant to perform the work, operations, or avoidances. The court may provide upon the failure of the defendant to initiate performance as ordered by the court within the time specified in the order of the court and to prosecute the same to completion with reasonable diligence, the supervisors may enter upon the lands involved and perform the necessary work to bring the condition of the land into conformity with the regulations and assess the costs and expenses of the work, with interest at the rate of five percent per annum, to the defendant.
 - d. If the person in possession of lands subject to a petition under subsection 1 is other than the owner, the owner of those lands must be joined as a party defendant. In all cases, notice must be given to all other interested parties in person, or by publication in the manner provided in this chapter for publication of due notice.

- e. In any case under this section, the court shall retain jurisdiction until any work ordered by the court has been completed.
3. Upon completion of any work ordered by the court under subsection 2, the supervisors may file a petition with the court and serve a copy upon the defendants, stating the costs and expenses sustained by the supervisors in the performance of the work and asking for judgment in that amount, with interest. The court may enter judgment for the amount of costs and expenses approved by the court plus interest at the rate of five percent per annum until paid. The supervisors may certify to the county auditor of the county in which the district is located the amount of the judgment, which is a lien upon the lands and must be collected as taxes or assessments are collected. As the judgment is paid or collected, the proceeds must be paid over to the district that certified the judgment to the auditor.

4.1-20-33. Board of adjustment - Members - Appointment - Vacancies - Compensation.

When the supervisors of any district adopt an ordinance prescribing land use regulations, the supervisors shall provide by ordinance for the establishment of a board of adjustment to consist of three members, each to be appointed for a term of three years, except the members first appointed who are appointed for terms of one, two, and three years respectively. The members of each board of adjustment must be appointed by the committee with the advice and approval of the supervisors of the district for which the board has been established, and are removable, upon notice and hearing, for neglect of duty or malfeasance in office, but for no other reason. A hearing on the removal of a member of a board of adjustment must be conducted jointly by the committee and the supervisors. A vacancy on a board of adjustment must be filled in the same manner as the original appointment except the appointment is for the unexpired vacant term. Members of the committee and the supervisors of the district may not serve as members of the board of adjustment. The members of the board shall receive five dollars a day for the time spent on the work of the board in addition to their expenses, including traveling expenses necessarily incurred in the discharge of their duties. The supervisors shall pay the necessary administrative and other expenses of operation incurred by the board upon the certificate of the chairman of the board.

4.1-20-34. Board of adjustment - Rules - Chairman - Meetings - Quorum - Records.

The board of adjustment shall adopt rules to govern its procedure, in accordance with this chapter and any ordinance adopted under this chapter. The board shall designate, and may replace at any time, a chairman from among its members. Meetings of the board must be held at the call of the chairman and at any other time as the board may determine. Any two members of the board constitute a quorum. The chairman, or another member of the board designated by the chairman to serve as acting chairman, may administer oaths and compel the attendance of witnesses. All meetings of the board are open to the public. The board shall keep a full and accurate record of its proceedings, all documents filed with it, and all orders entered by the board. The record must be filed in the office of the board and is a public record.

4.1-20-35. Petition to board of adjustment to vary land use regulations - Service - Hearing - Board's powers.

Any qualified elector residing in the district may file a petition with the board of adjustment seeking a variance from strictly complying with the land use regulations.

Copies of a petition must be served upon the chairman of the supervisors of the district where the lands are located and upon the chairman of the committee. The board shall fix a time for the hearing of the petition and cause due notice of the hearing to be given. The petitioner may appear in person, by agent, or by attorney at the hearing and the supervisors and the committee may appear and be heard. If the board determines on the facts presented at the hearing that there are great practical difficulties or unnecessary hardships in the way of applying the strict letter of any of the land use regulations upon the lands of the petitioner, the board shall make and record the determination and findings of fact as to the specific conditions that establish the great practical difficulties or unnecessary hardships. Upon the findings and determination, the board may enter an order authorizing a variance from the terms of the land use regulations in its application to the lands of the petitioner consistent with the spirit of the land use regulations, and with substantial justice and the public health, safety, and welfare.

4.1-20-36. Taking of testimony at hearing.

At the request of the board of supervisors, the testimony at a hearing conducted under section 4.1-20-35 must be taken by a court reporter, by a stenographer, or by use of an electronic recording device. The board of supervisors is responsible for the cost of taking testimony.

4.1-20-37. Aggrieved petitioner and supervisors may appeal to district court from order of board - Procedure.

Any petitioner or the supervisors of any district may appeal an order of a board of adjustment to the district court as provided in section 28-34-01.

4.1-20-38. Cooperation among district supervisors.

The supervisors of any two or more districts organized under this chapter may cooperate with one another in the exercise of any or all powers conferred in this chapter.

4.1-20-39. State agencies to cooperate with district supervisors.

Agencies of this state having jurisdiction over any state-owned lands, and agencies of any county or other political subdivision of this state having jurisdiction over any county-owned or other publicly owned lands lying within the boundaries of any district shall cooperate to the fullest extent with the supervisors of the district in the effectuation of programs and operations undertaken by the supervisors under this chapter. The supervisors have free access to enter and perform work upon such publicly owned lands. The provisions of land use regulations adopted under this chapter have the force and effect of law over all such publicly owned lands and must be in all respects observed by the agencies administering such lands.

4.1-20-40. Discontinuance of districts - Petition - Referendum - Eligible qualified electors.

Five years after the date a district was organized, twenty-five percent of the qualified electors living within the boundaries of the district may file a petition with the state soil conservation committee to terminate the operations of the district. The committee then shall conduct public hearings upon the petition to determine whether there is sufficient basis for an election to be held. If the committee determines there is sufficient basis for an election, the committee shall give due notice of the holding of an election and shall issue appropriate regulations governing the conduct of the election within sixty days after the committee has made its determination. The

question to be voted on at the election must be submitted by ballot in substantially the following form:

Should the (insert name of district) be terminated? Yes _____

No _____

All qualified electors residing within the boundaries of the district are eligible to vote in the election. The committee shall supervise the election. Informalities in the conduct of the election or in any matters relating to the election do not invalidate the election or its result if notice of the election has been given substantially as required by this chapter and the election has been fairly conducted.

4.1-20-41. Duties of committee after election on discontinuance of the district has been held.

The committee shall publish the result of any election on the question of discontinuance of a district immediately after the vote has been had. If a majority of the votes cast in the election favored the discontinuance of the district, the committee shall make its certificate that it has determined that the continued operation of the district is not administratively feasible. If a majority of the votes cast in the referendum favored the continuance of the district, the committee shall consider and determine whether the continued operation of the district within the defined boundaries is administratively feasible. If the committee determines the continued operation of the district is administratively feasible, the committee shall record that determination and deny the petition for discontinuance, and if the committee determines the continued operation thereof is not administratively feasible, the committee shall record the determination and certify its determination to the supervisors of the district. In making its determination, the committee shall give due weight and regard to the number and attitudes of the qualified electors residing within the district, the number voting in the referendum, the proportion that the votes cast in favor of the discontinuance of the district are of the total number of votes cast, the probable expense of carrying on erosion control operations within the district, and any other economic and social factors as may be relevant to the determination having regard to the legislative policy as set forth in this chapter.

4.1-20-42. Termination of affairs of district - Disposal of property - Certificate of dissolution.

Upon receipt from the committee of its certification that the committee has determined the continued operation of the district is not administratively feasible, the supervisors shall proceed to terminate the affairs of the district. The supervisors of the district may dispose of all or part of any property belonging to the district at public auction and shall use the proceeds of the sale to pay any liabilities. The balance of any funds and undisposed property becomes the property of the county or counties the district is a part of as directed by the supervisors. The supervisors thereupon shall file an application, duly verified, with the secretary of state for the discontinuance of the district, and shall transmit with such application the certificate of the committee setting forth its determination that the continued operation of the district is not administratively feasible. The application must recite what property, if any, of the district has been disposed of, the liabilities paid, and the property or proceeds paid over as provided herein and must set forth a full accounting of such properties and their sale proceeds. The secretary of state shall issue to the supervisors a certificate of dissolution and record the certificate in an appropriate record in the secretary of state's office.

4.1-20-43. Ordinances, regulations, and contracts of districts after dissolution.

The commissioner, either independently or in cooperation with political subdivisions, farmers' associations or similar organizations, individuals, federal agencies, or agencies of other states, is authorized to carry out operations or measures to locate, suppress, control, eradicate, prevent, or retard the spread of pests with the consent of the owners of the property involved.

4.1-23-04. Authority for plant quarantine.

1. The commissioner is authorized to quarantine this state or any portion of the state if the commissioner determines that quarantine is necessary to prevent or retard the spread of a pest within or from this state, and to quarantine any other state or portion of another state if the commissioner determines a pest exists in another state and a quarantine is necessary to prevent or retard the spread of the pest into this state. Before determining that a quarantine is necessary, the commissioner, after due notice to interested parties, shall hold a public hearing under rules adopted by the commissioner.
2. Any interested party may appear and be heard either in person or by attorney at the public hearing, provided, the commissioner may impose a temporary quarantine for a period not to exceed ninety days during which time a public hearing, as provided for in this section, must be held if it appears the quarantine may require more than the ninety-day period to prevent or retard the spread of the pest. The commissioner shall give notice of the quarantine in those newspapers in the quarantined area selected by the commissioner. The commissioner may limit the application of the quarantine to the infested portion of the quarantined area and appropriate environs, to be known as the regulated area, and, without further hearing, may extend the regulated area to include additional portions of the quarantined area:

- a. Upon publication of a notice in newspapers in the quarantined area selected by the commissioner; or
 - b. By direct written notice to those concerned.
3. Following establishment of the quarantine, a person may not move any regulated article described in the quarantine or move the pest against which the quarantine is established, within, from, into, or through this state contrary to rules adopted by the commissioner. Notice of the rules must be published in newspapers in the quarantined area selected by the commissioner.
 4. The rules may restrict the movement of the pest and any regulated articles from the quarantined or regulated area in this state into or through other parts of this state or other states and from the quarantined or regulated area in other states into or through this state. The rules may impose inspections, disinfections, certifications, permits, and other requirements as the commissioner deems necessary to effectuate the purposes of this chapter.

4.1-23-05. Authority for abatement and emergency measures.

If the commissioner finds any article that is infested or reasonably believed to be infested or a host or pest exists on any premise or is in transit in this state, the commissioner, upon giving notice to the owner or the owner's agent in possession of the host or pest, may seize, quarantine, treat, or otherwise dispose of such pest, host, or article in the manner as the commissioner deems necessary to suppress, control, eradicate, or to prevent or retard the spread of the pest. The commissioner may order the owner or agent to treat or dispose of the pest, host, or article. If large areas or metropolitan areas, involving many people, are to be treated, notice may be given through newspaper, radio, or other news media. A notice must prominently appear, at least ten days prior to treatment, in at least three issues of a daily paper having local coverage.

The commissioner may make any other reasonable inspection of any premises or means of transportation for which no warrant is required under the Constitution of the United States and the Constitution of North Dakota.
2. District courts in this state may issue warrants for inspections of property or transportation upon a showing by the commissioner of probable cause to believe there exists in or on the property or transportation to be inspected a pest, host, or other article subject to this chapter.

2. The commissioner is authorized to cooperate with agencies of adjacent states in such operations and measures the commissioner deems necessary to locate; to suppress, control, eradicate, prevent, or retard the spread of any pest, provided, that the use of funds appropriated to carry out this chapter, for operations in adjacent states, must be approved in advance by the governor or the governor's designee.

4.1-23-08. Penalties.

1. It is a class A misdemeanor for:
 - a. Any person to violate any provision of this chapter or use without authority any certificate or permit or other document provided for in this chapter or in the rules of the commissioner provided for in this chapter; or
 - b. Any person to knowingly move any regulated article into this state from any quarantined area of any other state, when the article has not been treated or handled under provisions of the quarantine and rules at the point of origin.
2. In addition to criminal sanctions, a person found guilty of violating this chapter or rules is subject to a civil penalty not to exceed five thousand dollars for each violation. The civil penalty may be adjudicated by the courts or by the commissioner through an administrative hearing pursuant to chapter 28-32. The commissioner may maintain an appropriate civil action in the name of the state against any person violating this chapter.

4.1-23-09. Authority for compensation.

The commissioner may authorize the payment of reasonable compensation to growers in infested areas for not planting host crops pursuant to instructions issued by the commissioner prior to the planting season, for losses resulting from the destruction of any regulated articles. A payment may not be authorized for the destruction of regulated articles moved in violation of any rule or any host planted contrary to instructions issued by the commissioner. Any compensation payment program authorized by the commissioner must be approved by the legislative assembly.

4.1-23-10. Authority for local pest control and regulations.

The governing body of any political subdivision, by ordinance or resolution, may adopt and enforce regulations to control and prevent the spread of pests. If state rules are in effect, any similar local regulations must be approved by the commissioner. State rules must be in effect if the commissioner finds that adequate measures are not being taken by the political subdivision. 1. The board of county commissioners may appropriate money for the control of pests under this chapter. If state funds are involved, the money must be expended according to control plans approved by the commissioner. The board of county commissioners shall determine the portion, if any, of control

program costs to be paid by the county. Costs of the control program may be paid from revenues derived from general fund levy authority of the county or from the county noxious weed control levy authority under section 4.1-47-14.

2. The board of county commissioners for any county shall designate an individual to serve as county pest coordinator. The county pest coordinator shall administer local and private funds in cooperation with state and federal pest control programs. When state funds are involved, the county pest coordinator shall submit county and township control plans to the agriculture commissioner for approval.

4.1-23-12. Authority for domestic and export certification.

The commissioner may inspect and certify any plant and plant product, when offered for export or shipment from within the state and to certify, to shippers and interested parties as to the freedom of the products from injurious pests according to the phytosanitary requirements of other states and foreign countries. Authority for inspection and certification under this section is not limited to plants defined in section 4.1-23-01. The commissioner may make reasonable charges and use any means necessary to accomplish this objective. A portion of the fees collected may be deposited in the commissioner's operating fund equivalent to the amount that the United States department of agriculture assesses the department for federal plant export certificates issued by the commissioner. A certificate may be withheld or not issued if the product does not meet phytosanitary or import requirements and if all state licensing and bonding requirements have not been met. Consignee names and addresses on phytosanitary certificates are confidential.

1. a. The pesticide control board shall administer this chapter and may adopt rules under chapter 28-32 to implement this chapter. The rules may prescribe methods to be used in the application of pesticides. The rules may relate to the time, place, manner, methods, materials, and amounts and concentrations, in connection with the application of the pesticide, and may restrict or prohibit use of pesticides in designated areas during specified periods of time and shall encompass all reasonable factors which the board deems necessary to prevent damage or injury by drift or misapplication to:

A political subdivision, including a home rule city or county, may not adopt or continue in effect any ordinance, resolution, or home rule charter provision regarding the registration, labeling, distribution, sale, handling, use, application, transportation, or disposal of pesticides. This section does not apply to city zoning ordinances.

4.1-33-05. Application to governmental entities and public utilities.

All governmental agencies and public utilities are subject to this chapter and rules adopted under this chapter.

4.1-33-06. Classification of commercial certificates.

The board may classify commercial certificates to be issued under this chapter. The classifications may include pest control operators, wood treaters, ornamental or agricultural pesticide applicators, or right-of-way pesticide applicators. Separate classifications may be specified as to ground, aerial, or manual methods used by any applicator to apply pesticides or to the use of pesticides to control insects and plant diseases, rodents, or weeds. Each classification of certification may be subject to separate testing procedures and training requirements. A person may be required to pay an additional fee if the person desires to be certified in one or more of the classifications provided for by the board under this section.

4.1-33-07. Commercial and public applicator's certification.

1. A commercial or public applicator may not purchase, use, or supervise the use of a pesticide without first complying with the certification standards and

requirements of this chapter, or other restrictions as may be determined by the board.

2. An individual may be certified as a commercial or public applicator within a classification if the individual successfully completes an examination for the classification as prescribed by the board and administered by the North Dakota state university extension service or the service's designee. An application for certification must be on a form prescribed by the board and accompanied by a reasonable examination fee set by the board.
3. If the North Dakota state university extension service, or its designee, finds, after examination as the board requires, the applicant qualified to apply pesticides in the classifications for which the applicant has applied and the applicant meets all other requirements of this chapter, the North Dakota state university extension service shall issue a commercial or a public applicator's certificate limited to the classifications in which the applicant is qualified.

A certificate may be renewed upon completion of a seminar approved by the board or upon successfully completing an examination required by the board, or both, if required by the board. The board shall require a person holding a current valid certificate to take an examination within the three-year period if the board determines additional knowledge related to classifications for which the applicant has applied makes a new examination necessary or that a new evaluation is necessary to assure a continuing level of competence and ability to safely and properly use pesticides.

4.1-33-09. Nonresident application - Designation of agent for service of process.

1. A nonresident applying for certification as an applicator or dealer under this chapter shall file a written power of attorney in a form as to render effective the jurisdiction of the courts of this state over the nonresident applicant designating either:

1. A commercial applicator certificate may not be issued unless the applicant furnishes proof of financial responsibility. Financial responsibility must be maintained in the amount of one hundred thousand dollars. Financial responsibility may be demonstrated by a notarized letter from an officer of a financial institution or from a certified public accountant attesting to the existence of net assets equal to at least one hundred thousand dollars, a performance bond, or a general liability insurance policy. The performance bond or insurance policy must contain a provision requiring the issuing company to notify the agriculture commissioner at least ten days before the effective date of cancellation, termination, or other modification of the bond or insurance policy. When requested by the agriculture commissioner, a commercial applicator immediately shall furnish proof of compliance with this section. If the applicator is unable to furnish the required proof, the commissioner may stop a pesticide application and not allow resumption until the applicator furnishes proof of compliance. The agriculture commissioner shall immediately suspend the certification of a commercial applicator who fails to maintain the financial responsibility standards of this section. If there is any recovery against the commercial applicator, the applicator shall demonstrate continued compliance with the requirements of this section. An application for reinstatement of a certificate suspended under this section must be accompanied by proof that any judgment previously rendered against the applicant has been satisfied.
2. This section does not apply to:
 - a. A rancher who must obtain a commercial applicator certificate for controlling noxious weeds on the leased federal acreage as a condition of a federal grasslands lease.
 - b. A grazing association and its members if either the association or any member must obtain a commercial applicator certificate for controlling noxious weeds on the leased federal acreage as a condition of a federal grasslands lease.
 - c. A person who must be certified in the right-of-way category.

During hours the business is open, a certified person must be at any location or outlet from which restricted use pesticides are distributed. Any manufacturer or distributor that has no pesticide dealer outlet within this state and which distributes such pesticides directly into this state shall obtain a pesticide dealer certificate for its principal out-of-state location or outlet.

2. Application for a certificate must be on a form prescribed by the board accompanied by an examination fee set by the board. The application must include the address of each outlet, the principal business address of the applicant, the name of a person domiciled in this state authorized to receive and accept service of summons of legal notices of all kinds for the applicant, and any other necessary information prescribed by the board.
3. The board shall require each pesticide dealer to demonstrate to the North Dakota state university extension service or the service's designee knowledge of pesticide laws and regulations; pesticide hazards to humans, animals, and the environment; and the safe distribution, disposal, and use and application of pesticides by satisfactorily passing an examination or meeting other requirements as prescribed by the board within each classification for which certification is sought.
4. Each pesticide dealer is responsible for the acts of each individual employed by the dealer in the solicitation and sale of restricted use pesticides and all claims and recommendations for use of such pesticides. The dealer's certification is subject to suspension or revocation, after a hearing, for any violation of this chapter committed by the dealer or by the dealer's officer, agent, or employee.

6. Restricted use pesticides may be sold only to:
 - a. Persons certified as applicators by this state; and
 - b. Persons certified to use restricted use pesticides by another state, provided the pesticide control board determines the certifying state's requirements are substantially similar to those of this state and that the person does not use the restricted use pesticide in this state.

4.1-33-12. Private applicators - Certification.

1. a. An individual who would be a private applicator, if certified, may not buy any restricted use pesticide unless the individual first complies with the certification requirements established by the board.
- b. An individual who would be a private applicator, if certified, may not use any restricted use pesticide unless the individual:
 - (1) Complies with the certification requirements established by the board;
or
 - (2) Is under the direct supervision of a certified applicator.

2. Certification standards to determine the individual's competency with respect to the use and handling of the pesticide or class of pesticides the private applicator is to be certified to use must be determined by the board. In determining these standards, the board shall consider similar standards of the United States environmental protection agency. The North Dakota state university extension service, or its designee, shall issue a certificate to any private applicator who has qualified as prescribed by the board. The North Dakota state university extension service, or its designee, may require any applicant required to be certified under this section to pay a reasonable fee, not greater than the cost to the North Dakota state university extension service, for materials provided to the applicant for training and education.

4.1-33-13. Unlawful acts - Grounds for denial, suspension, or revocation of a certification.

It is a violation of this chapter for any person to:

3. Apply materials known by that person to be ineffective or improper.

4.1-33-16. Certification exemptions.

1. The certification requirements of this chapter do not apply to an individual applying nonrestricted use pesticides under the direct supervision of a commercial applicator, unless the pesticide label requires that a certified applicator personally apply the pesticide. A pesticide is applied under the direct supervision of a commercial applicator if the pesticide is applied by an individual acting under the instruction and control of a certified applicator who is physically available if needed. The certified applicator need not be present when the pesticide is applied. Direct supervision with respect to applications using aircraft requires that the pilot of the aircraft be appropriately certified. The certification requirements of this chapter do not apply to a competent person applying restricted use pesticides under the direct supervision of a private applicator, unless the pesticide label requires that a certified applicator personally apply the particular pesticide. A pesticide is deemed to be applied under the direct supervision of a private applicator if it is applied by a competent person acting under the instruction and control of a private applicator who is available if and when needed, even though the private applicator is not physically present at the time and place that the pesticide is applied.
2. The certification requirements of this chapter do not apply to any person conducting laboratory-type research using restricted use pesticides or to a doctor of medicine or a doctor of veterinary medicine applying a pesticide as a drug or as medication during the course of normal practice.

4.1-33-17. Discarding and storing of pesticides, pesticide containers, and rinsate.

A person may not discard, store, display, or permit the disposal of surplus pesticides, empty pesticide containers and devices, or rinsate in such a manner as to endanger the environment or to endanger food, feed, or any other products that may be stored, displayed, or distributed with such pesticides. The board shall adopt rules governing the discarding, storage, display, or disposal of any pesticide, rinsate, pesticide containers, or devices.

4.1-33-18. Pesticide application - Alleged property damage - Notification of applicator.

1. a. Before a person may file a civil action seeking reimbursement for property damage allegedly stemming from the application of a pesticide, the person shall notify by certified mail the pesticide applicator of the alleged damage within the earlier of:
 - (1) Twenty-eight days from the date the person first knew or should have known of the alleged damage; or
 - (2) Before twenty percent of the crop or field allegedly damaged is harvested or destroyed.
- b. Subdivision a does not apply if the person seeking reimbursement for property damage was the applicator of the pesticide.
2. Upon notifying the applicator as required under subsection 1, the person seeking reimbursement for the alleged property damage shall permit the applicator and up to four representatives of the applicator to enter the person's property for the purpose of observing and examining the alleged damage. If the person fails to allow entry, the person is barred from asserting a claim against the applicator.

4.1-33-19. Subpoenas.

In any hearing to enforce this chapter, the commissioner may issue subpoenas to compel the attendance of witnesses or production of books, documents, and records pertaining to pesticide applications, sales, and purchases in the state.

4.1-33-20. Penalties.

1. Any person other than a private applicator who knowingly violates this chapter is guilty of a class A misdemeanor.
2. Any private applicator who knowingly violates this chapter is guilty of a class B misdemeanor.
3. When construing and enforcing the provisions of this chapter, the act, omission, or failure of any officer, agent, or other person acting for or employed by any person must in every case be also deemed to be the act, omission, or failure of such person as well as that of the person employed.
4. A person who violates this chapter or the rules adopted under this chapter is subject to a civil penalty not to exceed five thousand dollars for each violation. The civil penalty may be imposed by a court in a civil proceeding or by the

agriculture commissioner through an adjudicative proceeding pursuant to chapter 28-32. The assessment of a civil penalty does not preclude the imposition of other sanctions authorized by law, this chapter, or rules adopted under this chapter.

5. After providing an opportunity for a hearing, the commissioner may deny, suspend, revoke, or modify the provision of any certification issued under this chapter, if the commissioner determines that the applicant for certification or the holder of a certificate has violated this chapter or any rules adopted under this chapter.

4. The commissioner may enter upon any public or private premises at reasonable times, to:
 - a. Inspect any equipment subject to this chapter and the premises on which the equipment is stored or used.
 - b. Inspect or sample lands actually or reported to be exposed to pesticides.
 - c. Inspect storage or disposal areas.
 - d. Inspect or investigate complaints of injury to humans or land.
 - e. Draw samples of a reasonable amount of tank mix pesticides and tank mixes without compensation to the owner for values less than three dollars.
 - f. Observe the use and application of a pesticide.
 - g. Inspect any place where pesticides or devices are stored or held for distribution, sale, or use, and obtain samples of any pesticides packaged, labeled, and released for shipment and samples of any containers or labeling for the pesticides.
5. a. At any reasonable time, the commissioner may access records pertaining to the pesticide application, sales, purchases, and repackaging by any person. The commissioner may copy or make copies of the records for the purpose of this chapter. These records are confidential. However, the commissioner may use these records in any way to enforce this chapter. Any record the commissioner uses as an exhibit in an enforcement action is no longer a confidential record.

- b. If an individual alleges exposure to pesticides and if the individual's medical provider requests that the commissioner reveal the name of the pesticide, the commissioner may reveal the name of the pesticide to the individual making the request, together with the registration number assigned by the United States environmental protection agency. The commissioner may require a request under this section be made in writing.
6. If access is refused or if the commissioner determines critical enforcement documentation may be lost, the commissioner may apply to any court for a search warrant authorizing access to land or records. Upon compliance with chapter 29-29.1, the court may issue the search warrant for the purposes requested.
7. The commissioner may suspend or revoke a certification issued under this chapter for failure to pay a civil penalty within thirty days after a final determination is made that the civil penalty is owed.

4.1-33-22. Stop-sale orders.

If the commissioner has reason to believe on the basis of inspection or tests that any pesticide or device is in violation of any provision of this chapter, or if the registration of the pesticide has been canceled or suspended by the state or United States environmental protection agency, the commissioner may issue a written or printed "stop-sale, use, or removal" order to any person who owns, controls, or has custody of the pesticide or device. After receipt of the order, a person may not sell, use, or remove the pesticide or device described in the order except in accordance with the provisions of the order.

4.1-33-23. Information and instruction.

In cooperation with private, local, state, or federal agencies, the board may publish information and conduct short courses of instruction in the areas of knowledge required by this chapter.

4.1-33-24. Cooperation by the board with other entities.

The board may cooperate, receive grants-in-aid, and enter cooperative agreements with any agency of the federal government, of this state or its subdivisions, or with any agency of another state, to:

1. Secure uniformity of regulations.

The term "plant regulator" does not include any of such of those nutrient mixtures or soil amendments as are commonly known as vitamin-hormone horticultural products, intended for improvement, maintenance, survival, health, and propagation of plants, and as are not for pest destruction and are nontoxic and nonpoisonous in the undiluted packaged concentration.

1. A person may not distribute, sell, or offer for sale within this state or deliver for transportation or transport in intrastate commerce or between points within this state through any point outside this state any of the following:
 - a. Any pesticide that has not been registered under section 4.1-34-03, or any pesticide if any of the claims made for it or any of the directions for its use differ in substance from the representations made in connection with its registration, or if the composition of a pesticide differs from its composition as represented in connection with its registration. The commissioner may allow a change in the labeling or formula of a pesticide to be made within a registration period without requiring reregistration of the product.
 - b. Any pesticide unless the pesticide is in:

- (1) The registrant's or the manufacturer's unbroken immediate container; or
 - (2) A container repackaged by a facility or person with a United States environmental protection agency issued establishment number, and there is affixed to such container, and to any outside container or wrapper of the retail package, a correct copy of the required labeling information from the immediate container or there is in the outside container or wrapper an opening through which the required labeling information on the immediate container can be clearly read.
- c. The pesticide commonly known as standard lead arsenate, basic lead arsenate, calcium arsenate, magnesium arsenate, zinc arsenate, zinc arsenite, sodium fluoride, sodium fluosilicate, and barium fluosilicate unless the pesticide has been distinctly colored or discolored as provided by rules issued in accordance with this chapter, or any other white powder pesticide that the commissioner, after investigation of and after public hearing on the necessity for the action for the protection of the public health and the feasibility of the coloration or discoloration, by rule, requires to be distinctly colored or discolored; unless it has been so colored or discolored. The commissioner may exempt any pesticide to the extent it is intended for a particular use or uses from the coloring or discoloring required or authorized by this section if the commissioner determines the coloring or discoloring for the use is not necessary for the protection of the public health.
 - d. Any pesticide that is adulterated or misbranded, or any device that is misbranded.
2. A person may not detach, alter, deface, or destroy, in whole or in part, any label or labeling provided for in this chapter or rules adopted under this chapter, or to add any substance to, or take any substance from, a pesticide in a manner that may defeat the purpose of this chapter.
 3. A person may not use for the person's own advantage or reveal other than in response to a proper subpoena, except to a physician or other qualified person for use in the preparation of an antidote, any information relative to the formula of any product acquired by authority of this chapter.

4.1-34-03. Registration - Fees - Deposit of collections.

1. Before selling or offering for sale any pesticide for use within this state, a person shall file biennially with the commissioner an application for registration of the pesticide. The application must:
 - a. Give the name and address of each manufacturer or distributor.
 - b. Give the name and brand of each product to be registered.
 - c. Be accompanied by a current label of each product to be registered.
 - d. Be accompanied by a registration fee of three hundred fifty dollars for each product to be registered.
 - e. Be accompanied by a material safety data sheet for each product to be registered.

2. The commissioner may require an applicant or registrant to provide efficacy, toxicity, residue, and any other data necessary to determine if the pesticide will perform its intended function without unreasonable adverse effects on the environment. If the commissioner finds the application conforms to law, the commissioner shall issue to the applicant a certificate of registration of the product.
3. Each registration covers a designated two-year period beginning January first of each even-numbered year and expiring December thirty-first of the following year. A certificate of registration may not be issued for a term longer than two years, and is not transferable from one person to another, or from the ownership to which it is issued to another ownership. A penalty of fifty percent of the license or registration fee must be imposed if the license or certificate of registration is not applied for on or before January thirty-first following the expiration date. Each product must go through a two-year discontinuance period in order to clear all outstanding products in the channel of trade.
4. This section does not apply to a pesticide sold by a retail dealer if the registration fee has been paid by the manufacturer, jobber, or any other person, as required by this section.
5. At the close of each calendar month, the commissioner shall transmit to the state treasurer all moneys received for the registrations under this section. The state treasurer shall credit the registration fees to the environment and rangeland protection fund.

4.1-34-04. Reporting requirements.

Within thirty days after request by the commissioner, a registrant shall report the amount and type of each registered pesticide sold, offered for sale, or otherwise distributed in the state. The information required must include the brand name, amount, and formulation of each pesticide sold, offered for sale, or otherwise distributed in the state. However, specific brand names may not be identified in any report or otherwise made public.

4.1-34-05. Protection of trade secrets.

1. In submitting data required by this chapter, the applicant may:
 - a. Clearly mark any portions that the applicant requests the commissioner to determine to be trade secrets or commercial or financial information; and
 - b. Submit the marked material separately from other material.
2. After consideration of the applicant's request submitted under subsection 1, the commissioner may not make any information public which in the commissioner's judgment contains or relates to trade secrets or to commercial or financial information obtained from an applicant. When necessary, information relating to formulas of products may be revealed to any state or federal agency consulted with similar protection of trade secret authority and may be revealed at a public hearing or in findings of facts issued by the commissioner.
3. If the commissioner proposes to release information that the applicant or registrant believes to be protected from disclosure under this section, the commissioner shall notify the applicant or registrant by certified mail. The

commissioner may not make the information available for inspection until thirty days after receipt of the notice by the applicant or registrant. During this period, the applicant or registrant may institute an action in an appropriate court for a declaratory judgment as to whether the information is subject to protection under this section.

4.1-34-06. Determinations - Rules - Uniformity.

1. After providing an opportunity for a hearing, the commissioner may:
 - a. Declare as a pest any form of plant or animal life or virus which is injurious to plants, humans, domestic animals, articles, or substances.

 - c. Determine standards of coloring or discoloring for pesticides and to subject pesticides to the requirements of subdivision c of subsection 1 of section 4.1-34-02.
2. The commissioner may adopt appropriate rules for carrying out this chapter, including rules providing for the collection and examination of samples of pesticides or devices. The commissioner also may adopt rules, applicable to and in conformity with the primary standards established by this chapter, prescribed by the United States environmental protection agency with respect to pesticides to provide uniformity among the requirements of the several states and the federal government.

4.1-34-07. Enforcement.

The commissioner shall examine pesticides or devices for compliance with this chapter. If after examination the commissioner intends to initiate criminal proceedings against any person, the commissioner shall cause appropriate notice to be given to the person. Any person notified must be given an opportunity to present the person's views, either orally or in writing, with regard to the contemplated proceedings and if thereafter in the opinion of the commissioner it appears the chapter has been violated by the person, the commissioner shall refer the facts to the state's attorney for the county in which the violation has occurred with a copy of the results of the analysis or the examination of the article. The commissioner is not required to report for prosecution or for the institution of libel proceedings minor violations of this chapter if the commissioner believes the public interests will be best served by a suitable written notice of warning. A state's attorney to whom any violation is reported under this section, without delay, shall cause appropriate proceedings to be instituted and prosecuted in the proper court of jurisdiction. The commissioner, by publication in the manner the commissioner prescribes, shall give notice of all judgments entered in actions instituted under the authority of this chapter.

4.1-34-08. Stop-sale orders.

The commissioner may issue and enforce a stop-sale order to the owner or custodian of any pesticide when the commissioner finds that the product is being offered for sale in violation of this chapter. The order must direct the product be held at a designated place until released in writing by the commissioner. The owner or custodian of the product has the right to petition a court of competent jurisdiction in the county where the product is found for an order releasing the product for sale in accordance with the findings of the court.

4.1-34-09. Exemptions.

1. The penalties provided for violations of section 4.1-34-02 do not apply to:
 - a. A carrier while lawfully engaged in transporting a pesticide within this state, if the carrier, upon request, permits the commissioner to copy all records showing the transactions in and movement of the articles.
 - b. A public official of this state or the federal government engaged in the performance of official duties.
 - c. The manufacturer or shipper of a pesticide for experimental use only:
 - (1) By or under the supervision of an agency of this state or of the federal government authorized by law to conduct research in the field of pesticides; or
 - (2) By others if the pesticide is not sold and if the pesticide container is plainly and conspicuously marked "For experimental use only - Not to be sold", together with the manufacturer's name and address.
 - c. A person using, distributing, selling, or offering for sale an unregistered pesticide for which the United States environmental protection agency has granted an emergency exemption for at least one use in North Dakota under section 18 of the federal Act.
2. An article may not be deemed in violation of this chapter when intended solely for export to a foreign country and when prepared or packed according to the specifications or directions of the purchaser. If not so exported, all the provisions of this chapter apply.

4.1-34-10. Minimum-risk pesticide exemption.

1. Section 4.1-34-02 does not apply to any person who distributes, sells, or offers for sale within this state or delivers for transportation or transports in intrastate commerce or between points within this state through any point outside this state a minimum-risk pesticide exempt from registration under the federal Act, provided the person has obtained a certificate of exemption from the commissioner.
2. To obtain a certificate of exemption for a minimum-risk pesticide, a person shall file an application with the commissioner. The application must include:
 - a. The name and address of the product's manufacturer or distributor;
 - b. The name and brand name of the product;
 - c. A current label for the product; and
 - d. A fee equal in amount to the fee set under section 4.1-34-03 for the registration of a pesticide.
3. The commissioner shall remit any fees collected under this section to the state treasurer for deposit in the environment and rangeland protection fund.

4. Each exemption from registration covers a designated two-year period beginning January first of each even-numbered year and expiring December thirty-first of the following year.

4.1-34-11. Penalties.

Any person violating this chapter is guilty of an infraction. If a registrant was issued a warning by the commissioner under this chapter, upon violating this chapter, other than subdivision a of subsection 1 of section 4.1-34-02, that registrant is guilty of a class A misdemeanor and the registration of the article with which the violation occurred automatically terminates. A pesticide for which the registration has been terminated may not again be registered unless the pesticide, its labeling, and other material required to be submitted appear to the commissioner to comply with the requirements of this chapter. In addition to any criminal penalty, a person found guilty of violating this chapter or the rules adopted under this chapter is subject to a civil penalty not to exceed one thousand dollars for each violation. The civil penalty may be imposed by a court in a civil proceeding or by the commissioner through an administrative hearing under chapter 28-32.

4.1-34-12. Seizures.

1. Any pesticide or device that is distributed, sold, or offered for sale within this state or delivered for transportation or transported in intrastate commerce or between points within this state through any point outside this state is liable to be proceeded against in any proper court of jurisdiction in any county of the state where it may be found and seized for confiscation by process of libel for condemnation:
 - a. In the case of a pesticide:
 - (1) If it is adulterated or misbranded;
 - (2) If it has not been registered under section 4.1-34-03;
 - (3) If it fails to bear on its label the information required by this chapter; or
 - (4) If it is a white powder pesticide and is not colored as required under this chapter.
 - b. In the case of a device, if it is misbranded.
2. If the pesticide is condemned, after entry of decree, the pesticide must be disposed of by destruction or sale as the court may direct and any proceeds, less legal costs, must be paid to the state treasurer. The pesticide may not be sold contrary to the provisions of this chapter. Upon payment of cost and execution and delivery of a good and sufficient bond conditioned that the pesticide may not be disposed of unlawfully, the court may direct the pesticide be delivered to its owner for relabeling or reprocessing. When a decree of condemnation is entered against the pesticide, court costs and fees and storage and other proper expenses must be awarded against any person intervening as claimant of the pesticide.

4.1-34-13. Cooperation.

The commissioner may cooperate and enter agreements with any other agency of this state or of the federal government or any other state or agency thereof for the purpose of carrying out this chapter and securing uniformity of regulations.

4.1-34-14. Experimental use permits.

If the state is authorized by the administrator of the United States environmental protection agency to issue experimental use permits, the commissioner may:

1. Issue an experimental use permit to an applicant if the commissioner determines that the applicant requires the permit to accumulate information necessary to register a pesticide use. An application for an experimental use permit may be filed when an application for registration is filed or before or after filing the application.
2. Prescribe terms, conditions, and the period of time for use under the experimental use permit.
3. Revoke an experimental use permit if the commissioner finds the permit's terms or conditions are being violated or that the permit's terms and conditions are inadequate to avoid unreasonable adverse effects to human health or the environment.

4.1-34-15. Minimum-risk pesticide - Certificate of exemption.

1. Section 4.1-34-02 does not apply to any person who distributes, sells, or offers for sale within this state or delivers for transportation or transports in intrastate commerce or between points within this state through any point outside this state a minimum-risk pesticide exempt from registration under the federal Act, provided the person has obtained a certificate of exemption from the commissioner.
2. To obtain a certificate of exemption for a minimum-risk pesticide, a person shall file an application with the commissioner. The application must include:
 - a. The name and address of the product's manufacturer or distributor;
 - b. The name and brand name of the product;
 - c. A current label for the product; and
 - d. A fee equal in amount to the fee set under section 4.1-34-03 for the registration of a pesticide.
3. The commissioner shall remit any fees collected under this section to the state treasurer for deposit in the environment and rangeland protection fund.
4. Each exemption from registration covers a designated two-year period beginning January first of each even-numbered year and expiring December thirty-first of the following year.

The agriculture commissioner shall submit a biennial report to a joint meeting of the house of representatives and senate agriculture committees on the status of the pesticide container disposal program.

SECTION 6. Chapter 4.1-37 of the North Dakota Century Code is created and enacted as follows:

4.1-37-01. Anhydrous ammonia safety rules.

The agriculture commissioner shall adopt rules necessary to implement this chapter and adopt the 2014 American national standard safety requirements for the storage and handling of anhydrous ammonia. The commissioner may adopt rules that deviate from the 2014 American national standard safety requirements if certain provisions of the standard impose undue hardship or if literal adherence to the provisions fails to provide adequate safety.

4.1-37-02. Definition.

As used in this chapter, "anhydrous ammonia storage facility" means a bulk anhydrous ammonia storage facility with a capacity exceeding six thousand gallons [22712.47 liters] which is owned or operated by a user or vendor of anhydrous ammonia.

4.1-37-03. License required - Anhydrous ammonia facilities constructed after June 30, 1985.

The owner or operator of an anhydrous ammonia storage facility shall apply to the agriculture commissioner and to the board of county commissioners for a license to site and operate the facility. An anhydrous ammonia storage facility may not be operated without a license issued by the agriculture commissioner and the board of county commissioners of the county in which the facility is located. Any permanent anhydrous ammonia storage facility constructed before July 1, 1985, is exempt from the siting requirements of this chapter and may receive a license under this chapter regardless of noncompliance with the siting requirements. The commissioner or the board may deny a license for failure to remit the proper fee for failure to comply with the siting requirements of this chapter and rules adopted under this chapter if constructed after June 30, 1985, or for failure to comply with local siting requirements. The agriculture commissioner also may deny a license if the facility does not meet the initial inspection standards required by this chapter and by any rules adopted under this chapter. To obtain a license, an applicant shall submit with the application two sets of drawings or photographs showing, and two signed affidavits stating, the facility has been measured and meets the siting requirements. The drawings or photographs must show the proposed location of the tank and the surroundings in all directions. A set of drawings or photographs must be provided to the agriculture commissioner and a set must be provided to the board of county commissioners.

4.1-37-04. State license fee.

The agriculture commissioner shall charge a one-time twenty-five dollar fee for a license for each anhydrous ammonia storage facility and an additional one hundred dollars for each retail and storage site. Expansion of an existing anhydrous ammonia storage facility does not require reapplication for licensing, but all siting requirements must be met. The license is valid indefinitely but may not be transferred. A new license is required when an anhydrous ammonia storage facility changes ownership.

4.1-37-05. State siting requirements - Anhydrous ammonia storage facilities constructed after June 30, 1985.

For facilities constructed after June 30, 1985:

1. Any anhydrous ammonia storage facility with a container nominal capacity of less than one hundred thousand gallons [378541.2 liters] must be located at least:

 - b. Must have a hydrostatic relief valve or equivalent must be installed in each section of hose or pipe in which liquid ammonia can be isolated between shutoff valves to relieve the pressure that could develop from the trapped liquid. If an equivalent pressure relief device is used, the maximum accumulated pressure possible within the system may not exceed the limits of the system. A hydrostatic relief valve must be installed between each pair of valves in which liquid is trapped. The start-to-discharge pressure setting of the relief valve must not be less than three hundred fifty pounds per square inch [2413.18 kilopascals] gauge nor more than four hundred pounds per square inch [2757.92 kilopascals] gauge.

- (1) Rayon hoses must be replaced within two years of the date of manufacture.
 - (2) Nylon hoses must be replaced within four years of the date of manufacture.
 - (3) Steel-reinforced hoses must be replaced within six years of the date of manufacture.

A pressure relief valve using nonmetallic seats must be replaced every five years with a new valve meeting the standards specified in this section. A pressure relief valve using metallic seats must be tested, and repaired if deemed necessary, every five years in lieu of replacement. Repairs deemed necessary must be made by the valve manufacturer or by a safety valve repair organization having a valid "VR" certificate of authorization for the repairs from the national board of boiler and pressure vessel inspectors.

The department may require additional statements to be audited by a certified public accountant or a licensed public accountant.

4.1-25-06. Surety bond, trustee agreement, or other security or assurances.

If it appears the financial condition of any applicant or licensee who purchases milk from a dairy producer is not adequate to reasonably assure payment to dairy producers when due for the milk to be purchased, or in lieu of annually filing with the department an audited financial statement as required in section 4.1-25-05, the department shall require from an applicant or licensee security or other assurances in one of the following forms:

If payment for milk purchased from dairy producers is made on a semimonthly basis, the amount of the surety bond must be at least in an amount equal to the average semimonthly purchases of milk. If the period of payment for milk purchased from dairy producers is made on a basis involving periods of time greater than semimonthly, the amount of the surety bond must be at least in an amount equal to the average purchases of milk for that greater period of time. The amount of the bond for each period of payment must also include an amount equal to at least the average purchases for three days following the close of the period of payment. The amount of the surety bond of any licensee who pays assignments to creditors of a producer of milk at a lesser frequency than the licensee pays the producer must also include an amount equal to the value of assignments from the prior payment period. The commissioner must be named as obligee, but the bond or draft must be held for the purpose of protecting, and for the benefit of, any dairy producer, and the full and complete payment to that dairy producer for all milk purchased by the licensee. The aggregate liability of the bonding company or the department to all dairy producers may not exceed the amount of the bond.

A person may not receive milk that will increase the amount due and accrued beyond the amount represented as a basis for the issuance of a license without first notifying the department.

4.1-25-08. Additional security.

When the department determines the value of milk purchased or received from producers has increased or an increase reasonably may be anticipated, so the total amount of security does not comply with the amount required by subsection 1 or 2 of section 4.1-25-06, the department shall require additional security to afford producers the protection intended by section 4.1-25-06. The department may suspend or revoke any license if the licensee fails to provide the additional security required by the department under this section.

An applicant or licensee shall file bonds or other security for the license year with the department by the first day of June immediately preceding the beginning of each license year. If an applicant or licensee fails to file a surety bond or other security by July first of the license year and has not been relieved from filing a surety bond or other security, the department shall notify producers that the applicant or licensee has not filed any security or made other provisions for assuring payments for milk purchases for the license year.

4.1-25-10. Failure to file security - Notice to producers.

1. If an applicant or licensee fails to file a surety bond or other security within the time fixed by section 4.1-25-09 or fails to comply with a demand for additional security, the department shall publish in newspapers having circulation in the areas where the producers whose milk is sold or delivered to the applicant or licensee reside, a notice stating:

- a. The department made a demand for additional security from the applicant or licensee;
 - b. The applicant or licensee has failed to comply;
 - c. The department does not have on file a surety bond or other security as demanded; and
 - d. Adequate security to protect producers may not be available to them.
2. In addition to a published notice to producers, the department shall send, by registered mail, a copy of the notice to each producer delivering milk to the applicant or licensee as determined from available records. The notice must be addressed to the producer's last-known address.

4.1-25-11. Out-of-state dealers, processors, or producers not exempt.

Sections 4.1-25-04 through 4.1-25-13 apply to all milk purchasers licensed under section 4.1-25-02 doing business in this state. The protection to producers afforded by sections 4.1-25-04 through 4.1-25-13 is available to the producers of any state selling milk to any licensee licensed under section 4.1-25-02, but the surety bond or other security required by sections 4.1-25-06 and 4.1-25-08 is payable only for the benefit of producers who are located within this state.

4.1-25-12. Entry, inspection, and investigation.

Authorized representatives of the department may enter, at reasonable hours, places of business where a licensee or license applicant maintains books, papers, accounts, records, or other documents related to the production, storage, processing, manufacturing, or sale of dairy products. The commissioner may subpoena, and the commissioner's authorized representative may inspect, audit, and make copies of relevant books, papers, records, accounts, or other documents of persons doing business with licensees. Any information gained by the department or by the commissioner under this section is confidential and may be used only for the administration of this chapter. The department or the commissioner may divulge the information when testifying in any departmental administrative hearing, in a duly noticed proceeding before the milk marketing board, or in any court proceeding in which the department or the commissioner is a party. This chapter does not prevent the department or the commissioner from using the information to compile or disseminate general statistical data so long as the data does not reveal individual information for any licensee or license applicant.

The commissioner may subpoena and take the testimony under oath of persons believed by the commissioner to have information needed in administering and enforcing this chapter.

4.1-25-13. Records and reports.

Licensees shall maintain the records the commissioner deems necessary to assure the financial condition of the licensee is adequate to assure prompt payment to producers.

4.1-25-14. Department to become trustee upon default in required security.

If a licensee defaults on any of the required security provisions, the licensee is deemed to be insolvent for purposes of this chapter. The claim for relief for damages and the amount recovered in any action for the conversion of milk or milk products,

purchased by the licensee while the license is in effect, and the assets of the licensee not subjected to any claim in federal bankruptcy court by a secured or general creditor within four months of the appointment of the department as trustee under this chapter, constitute a trust fund in the hands of the department for all persons having a claim for relief against the licensee on the required security.

4.1-25-15. Application by department for appointment of trustee - Hearing - Appointment.

Upon the insolvency of a licensee as defined in section 4.1-25-14, the department shall apply to the district court of the county in which the licensee maintains its principal place of business for the appointment of the department as trustee. Upon notice to the licensee as the court prescribes, but not exceeding ten days, or upon waiver of such notice in writing by the licensee, the court shall proceed to hear and determine the application. If it appears to the court the licensee is insolvent within the meaning of this chapter and it is in the best interest of persons holding claims against the licensee that the department execute the trust, the court shall issue an order appointing the department as a trustee, without bond, and the department shall proceed in the manner set out in this chapter without further direction from the court.

4.1-25-16. Notice to file claims - When claims barred.

The department, as trustee, shall notify all persons having claims against the licensee personally by certified mail to file the claims with the department. Any person who fails to file a claim with the department and to surrender any receipts obtained from the licensee within thirty days after receiving notice is barred from pursuing the claim in any fund marshalled by the department as prescribed in this chapter. The department may proceed as prescribed by law when all producers have responded to the notification.

4.1-25-17. Remedy of claimants - Separate action by claimant permissible.

A claimant has no separate claim for relief against the required security of a licensee unless the department fails or refuses to apply for appointment as trustee under this chapter. Any claimant, either independently or in conjunction with other claimants, may pursue concurrently with the department any other remedy the claimant or claimants may have against the licensee, or against the property of the licensee, for the whole of their claim or claims or for any deficiency that occurs after payments have been made from the trust fund.

4.1-25-18. Appeal or compromising of action by department.

The department may prosecute an action for any claims arising under this chapter in any court, may appeal from any adverse judgment to the courts of last resort, and may settle and compromise the action whenever it is in the best interests of the claimants. Upon payment to the department of the amount of any compromise, or of the full amount of any required security, the department may exonerate the person compromising or paying from further liability growing out of the action.

4.1-25-19. Claims collections to be deposited in Bank of North Dakota.

All money collected and received by the department as trustee must be deposited in the Bank of North Dakota.

Upon recovery of the trust fund, or so much as is possible to recover, or as is necessary to pay all outstanding claims, the department shall file a report in court showing the amount payable upon each claim, after recognizing any proper liens, pledges, assignments, or deductions with legal interest. If the fund proves insufficient to redeem all claims in full, the fund must be prorated among the claimants in a manner the department deems fair and equitable. Once the report is received from the department, the court shall notify all claimants by mail to appear on a day fixed in the notice and show cause why the report should not be approved and the funds distributed as outlined in the report. Upon such hearing the court shall approve or modify the report as justice may require and shall issue an order directing the distribution of the fund and discharging the department as trustee.

4.1-25-21. Attorney general to represent department and may employ assistants - Department need not pay court costs.

The attorney general shall represent the department in any action or proceeding brought under section 4.1-25-14, and may employ outside legal assistance when necessary. The attorney general may deduct the expense of retaining outside legal assistance from the trust fund. The department is not required to pay any filing fee or other court cost or disbursement in connection with an application for appointment as trustee or with any action brought under section 4.1-25-14 when the fee, cost, or disbursement accrues to the state or to a county of the state.

4.1-25-22. License needed to sample, haul, or test - Training - Examination - Term - Fee.

A person may not sample, haul, or test milk or milk products for the purpose of determining the value or grade without obtaining a license from the department. In case of illness or necessary absence, a licensee may appoint a substitute for a period not to exceed six days in one calendar year, unless specific approval for a longer period is obtained from the commissioner. The licensee is responsible for the acts of the substitute. An applicant shall file an application with the department stating the type of sampling, hauling, or testing for which the applicant wishes to be licensed. Before a license is issued, the applicant shall receive training in the sampling of milk or milk products as may be required by the department, and shall pass a written examination prepared and administered by the department. The applicant must show knowledge of the requirements of this chapter and must prove by actual demonstration that the applicant is competent and qualified to perform each type of sampling and testing listed on the application. The commissioner shall issue a license which states the types of sampling, hauling, or testing for which the applicant is qualified. Additions may be added to the application form and license, without charge, after the license has been issued, upon the request of the licensee, after receiving additional training and passing the required examinations. Examinations must be given by the department at times and places as the department shall determine. A licensee is not required to take additional examinations when renewing a license unless required by the commissioner. All testers and samplers shall attend a training session sponsored by the department every two years. Retraining or retesting or both may be required when the commissioner reasonably determines it to be necessary. Licenses issued under this section expire on December thirtieth of each year. Testers' licenses must be posted conspicuously in the licensee's place of operation, and are not transferable. Samplers' licenses must be carried by the sampler at all times during sampling activities and are not transferable. The annual license fee is ten dollars. Any proceedings under this chapter for the suspension or revocation of a license, or to determine compliance with this chapter or the rules and orders of the commissioner, must be conducted in accordance with the provisions of chapter 28-32 and appeals may be made as provided. When an emergency exists requiring immediate action to protect the public health and safety, without notice or hearing, the commissioner may issue an order reciting the existence of the emergency and requiring action be taken to protect the public health and safety. Notwithstanding any provision of this chapter, the order is effective immediately, but on application to the department an interested person must be afforded a hearing before the department within ten days. On the basis of the hearing, the emergency order must be continued, modified, or revoked within thirty days after the hearing.

4.1-25-26. Sampling and testing procedures - Equipment - Supplies.

The laboratory procedures, equipment, chemicals, and other apparatus or substances used in the sampling, hauling, or testing of milk or milk products must conform to those described in the Standard Methods, a copy of which must be kept on file in the department. Any equipment, chemicals, or other apparatus or substance used in the sampling, hauling, or testing of milk or milk products not conforming to the requirements of this chapter may not be sold or offered for sale. 2. The premises of any butcher, packer, or processor who receives animals exclusively for immediate slaughter.
3. Any place where any individual or duly constituted association of breeders of livestock of any class assembles and offers for sale and sells under the individual's or association's management registered livestock or breeding sires owned by the individual or members of the association if the individual or association:
 - a. Assumes all responsibility of the sale;

4. File with the commissioner a schedule of fees and commissions that will be charged to owners, sellers, or their agents. The schedule must be posted conspicuously at the auction market. - b. The faithful performance by the licensee of the duties of a livestock auction market operator; and

If the commissioner does not issue a requested original license or renewal license, the fee paid must be refunded to the applicant.

4.1-27-07. Investigation of auction market - Hearing to determine whether license should be issued or revoked.

1. The commissioner, upon the commissioner's own motion or upon a complaint by any person, may enter an investigation of the sales and transactions of any livestock auction market and of the conditions under which the business of the livestock auction market is conducted. The commissioner may conduct a hearing to determine whether the license of any auction market should be revoked or whether the application of the owner or operator of a livestock auction market for an original or renewal license should be denied.

4.1-27-08. Cease and desist authority.

The commissioner may issue an order to cease and desist when, in the opinion of the commissioner, any auction market within the state is taking or planning any action which is or may be in violation of this chapter. If an order is granted, the commissioner shall conduct a hearing within thirty days of the issuance of the order to determine whether the actions of the person named in the order violated or would have violated this chapter. After the hearing, but not later than forty-five days after the issuance of the order, the commissioner shall revoke the order or make it permanent, as determined by the evidence.

4.1-27-09. Injunctive authority.

The commissioner may seek an order from the district court of Burleigh County to enjoin a prohibited act when the commissioner believes any auction market or person is violating this chapter or is pursuing a course of action which may lead to a violation of this chapter.

Cattle also must be inspected for brands by a trained brand inspector, acting under rules adopted by the North Dakota stockmen's association and the state board of animal health. Veterinary inspection must include all livestock, whether it is to be moved interstate or intrastate. The veterinary inspector must be recommended by the livestock auction market and approved by the state board of animal health. The veterinarian must be a local veterinarian or a veterinarian of the vicinity, unless there is no such veterinarian available. The services and duties of the veterinary inspector are under the supervision of the state board of animal health and the inspector must be relieved of office when the inspector fails to perform the required services and duties. If the operator of an auction market is notified by an authorized brand inspector that there is a question as to

whether any designated livestock sold through the auction market is lawfully owned by the consignor of the livestock, the operator shall hold the proceeds received from the sale of the livestock for a reasonable time, not to exceed sixty days, to permit the consignor to establish ownership. At the expiration of the allotted time, if the consignor fails to establish lawful ownership of the livestock to the satisfaction of the brand inspector, the proceeds must be remitted to the state treasurer for deposit in the North Dakota stockmen's association fund.

Nothing in this section changes the authority for condemnation or seizure otherwise conferred by law.

4.1-31-24. Powers of commissioner.

The public finance authority or the paying agent shall apply the funds to payments that the school district is required to make to the public finance authority or the paying agent.
- ~~3-4.~~ If funds are withheld from a school district and made available to the public finance authority or a paying agent under this section and if tax revenues are received by the school district during the fiscal year in which the funds are withheld and are deposited in the district's sinking fund established in accordance with section 21-03-42, the district, with the consent of the public finance authority or the paying agent, may withdraw from its sinking fund an amount equal to that withheld by the superintendent of public instruction and made available to the public finance authority or a paying agent under this section.

If the district court finds a defendant has failed to undergo an evaluation or complete treatment or has violated any condition of probation, the district court shall revoke the defendant's probation and shall sentence the defendant in accordance with chapter 12.1-32.

⁴⁵ **SECTION 5. AMENDMENT.** Section 14-07.1-02 of the North Dakota Century Code is amended and reenacted as follows:

14-07.1-02. Domestic violence protection order.

1. An action for a protection order commenced by a verified application alleging the existence of domestic violence may be brought in district court by any family or household member or by any other person if the court determines that the relationship between that person and the alleged abusing person is sufficient to warrant the issuance of a domestic violence protection order. An action may be brought under this section, regardless of whether a petition for legal separation, annulment, or divorce has been filed.
2. Upon receipt of the application, the court shall order a hearing to be held not later than fourteen days from the date of the hearing order, or at a later date if good cause is shown.
3. Service must be made upon the respondent at least five days prior to the hearing. If service cannot be made, the court may set a new date.
4. Upon a showing of actual or imminent domestic violence, the court may enter a protection order after due notice and full hearing. The relief provided by the court may include any or all of the following:

 - b. Excluding either the respondent or any person with whom the respondent lives from the dwelling they share, from the residence of another person against whom the domestic violence is occurring, or from a domestic violence care facility, if this exclusion is necessary to the physical or mental well-being of the applicant or others.
 - c. Awarding temporary custody or establishing temporary visitation rights with regard to minor children.

⁴⁵ Section 14-07.1-02 was also amended by section 1 of House Bill No. 1402, chapter 116.

The costs of the court-ordered initial counseling assessment and subsequent reports must be borne by the parties or, if indigent, by the respondent's county of residence.
 - e. Requiring a party to pay such support as may be necessary for the support of a party and any minor children of the parties and reasonable attorney's fees and costs.
 - f. Awarding temporary use of personal property, including motor vehicles, to either party.
 - g. Requiring the respondent to surrender for safekeeping any firearm or other specified dangerous weapon, as defined in section 12.1-01-04, in the respondent's immediate possession or control or subject to the respondent's immediate control, if the court has probable cause to believe that the respondent is likely to use, display, or threaten to use the firearm or other dangerous weapon in any further acts of violence. If so ordered, the respondent shall surrender the firearm or other dangerous weapon to the sheriff, or the sheriff's designee, of the county in which the respondent resides or to the chief of police, or the chief's designee, of the city in which the respondent resides.
5. A court of competent jurisdiction may issue a dual protection order restricting both parties involved in a domestic violence dispute if each party has commenced an action pursuant to subsection 1 and the court, after a hearing, has made specific written findings of fact that both parties committed acts of domestic violence and that neither party acted in self-defense. The order must clearly define the responsibilities and restrictions placed upon each party so that a law enforcement officer may readily determine which party has violated the order if a violation is alleged to have occurred.
 6. The court may amend its order or agreement at any time upon subsequent petition filed by either party.
 7. No order or agreement under this section affects title to any real property in any matter.
 8. The petition for an order for protection must contain a statement listing each civil or criminal action involving both parties.
 9. Upon the application of an individual residing within the state, a court may issue a domestic violence protection order or an ex parte temporary protection order under this chapter even though the actions constituting domestic violence occurred exclusively outside the state. In these cases, a respondent is subject to the personal jurisdiction of this state upon entry into this state. If the domestic violence justifying the issuance of a protection order under this chapter occurred exclusively outside the state, the relief that may be granted is limited to an order restraining the party from having contact with or committing acts of domestic violence on another person in this state.

10. Whenever a protection order is issued, extended, modified, or terminated under this section, the court shall transmit the order electronically to the bureau. The bureau shall enter the order electronically in the national crime information center database provided by the federal bureau of investigation, or its successor agency. The sheriff of the county in which the order was issued shall maintain and respond to inquiries regarding the record in the national crime information center database provided by the federal bureau of investigation, or its successor agency, pursuant to bureau and federal requirements. Whenever a protection order is issued, the clerk of court shall forward a copy of the order to the local law enforcement agency with jurisdiction over the residence of the protected party by the close of business on the day the protection order is issued. Once the bureau, after consultation with the state court administrator, determines and implements an electronic method to notify the sheriff of the county that issued the order, the clerk of court's requirement to forward the order to a law enforcement agency will be satisfied.

SECTION 6. AMENDMENT. Subsections 4 and 5 of section 14-07.1-03 of the North Dakota Century Code are amended and reenacted as follows:

4. A full hearing as provided by section 14-07.1-02 must be set for not later than fourteen days from the issuance of the temporary order, or at a later date if good cause is shown. The respondent must be served forthwith with a copy of the ex parte order along with a copy of the application and notice of the date set for the hearing.
5. ~~The clerk of court shall transmit a copy of each temporary protection order, or extension, modification, or termination thereof, by the close of the business day on which the order was granted to the local law enforcement agency with jurisdiction over the residence of the applicant or over the residence at which the actual domestic violence that is the subject of the temporary protection order has occurred, or is likely to occur, if requested by the applicant and approved by the court. Each appropriate law enforcement agency may make available information as to the existence and current status of any temporary protection order issued pursuant to this section, through an existing verification system, to any law enforcement officer responding to the scene of reported domestic violence.~~ Whenever a temporary protection order is issued, extended, modified, or terminated under this section, the court shall transmit the order electronically to the bureau. Whenever a temporary protection order is issued, the clerk of court shall forward a copy of the order to the local law enforcement agency with jurisdiction over the residence of the protected party by the close of business on the day the order is issued. Once the bureau, after consultation with the state court administrator, determines and implements an electronic method to notify the sheriff of the county that issued the order, the clerk of court's requirement to forward the order will be satisfied.

- g-h. "Sexually dangerous individual" means an individual who meets the definition specified in section 25-03.3-01.
- h-i. "Temporarily domiciled" means staying or being physically present in this state for more than thirty days in a calendar year or at a location for longer than ten consecutive days, attending school for longer than ten days, or maintaining employment in the jurisdiction for longer than ten days, regardless of the state of the residence.
2. The court shall impose, in addition to any penalty provided by law, a requirement that the individual register, within three days of coming into a county in which the individual resides, is homeless, or within the period identified in this section that the individual becomes temporarily domiciled. The individual must register with the chief of police of the city or the sheriff of the county if the individual resides, attends school, or is employed in an area other than a city. A homeless individual shall register every three days with the sheriff or chief of police of the jurisdiction in which the individual is physically present. The court shall require an individual to register by stating this requirement on the court records, if that individual:
- a. Has pled guilty or nolo contendere to, or been found guilty as a felonious sexual offender or an attempted felonious sexual offender, including juvenile delinquent adjudications of equivalent offenses unless the offense is listed in subdivision c.
- b. Has pled guilty or nolo contendere to, or been found guilty as a sexual offender for, a misdemeanor or attempted misdemeanor. The court may deviate from requiring an individual to register if the court first finds the individual is no more than three years older than the victim if the victim is a minor, the individual has not previously been convicted as a sexual offender or of a crime against a child, and the individual did not exhibit mental abnormality or predatory conduct in the commission of the offense.
- c. Is a juvenile found delinquent under subdivision d of subsection 1 of section 12.1-20-03, subdivision a of subsection 2 of section 12.1-20-03, or as a sexual offender for a misdemeanor. The court may deviate from requiring the juvenile to register if the court first finds the juvenile has not previously been convicted as a sexual offender or for a crime against a child, and the juvenile did not exhibit mental abnormality or predatory conduct in the commission of the offense.

- d. Has pled guilty or nolo contendere to, or been found guilty of, a crime against a child or an attempted crime against a child, including juvenile delinquent adjudications of equivalent offenses. Except if the offense is described in section 12.1-29-02, or section 12.1-18-01 or 12.1-18-02 and the person is not the parent of the victim, the court may deviate from requiring an individual to register if the court first finds the individual has not previously been convicted as a sexual offender or for a crime against a child, and the individual did not exhibit mental abnormality or predatory conduct in the commission of the offense.
 - e. Has pled guilty or nolo contendere, been found guilty, or been adjudicated delinquent of any crime against another individual which is not otherwise specified in this section if the court determines that registration is warranted by the nature of the crime and therefore orders registration for the individual. If the court orders an individual to register as an offender under this section, the individual shall comply with all of the registration requirements in this chapter.
3. If a court has not ordered an individual to register in this state, an individual who resides, is homeless, or is temporarily domiciled in this state shall register if the individual:
 - a. Is incarcerated or is on probation or parole after July 31, 1995, for a crime against a child described in section 12.1-29-02, or section 12.1-18-01 or 12.1-18-02 if the individual was not the parent of the victim, or as a sexual offender;
 - b. Has pled guilty or nolo contendere to, or been adjudicated for or found guilty of, an offense in a court of this state for which registration is mandatory under this section or an offense from another court in the United States, a tribal court, or court of another country equivalent to those offenses set forth in this section; or
 - c. Has pled guilty or nolo contendere to, or has been found guilty of, a crime against a child or as a sexual offender for which registration is mandatory under this section if the conviction occurred after July 31, 1985.
 4. In its consideration of mental abnormality or predatory conduct, the court shall consider the age of the offender, the age of the victim, the difference in ages of the victim and offender, the circumstances and motive of the crime, the relationship of the victim and offender, and the mental state of the offender. The court may order an offender to be evaluated by a qualified counselor, psychologist, or physician before sentencing. Except as provided under subdivision e of subsection 2, the court shall state on the record in open court its affirmative finding for not requiring an offender to register.
 5. When an individual is required to register under this section, the official in charge of a facility or institution where the individual required to register is confined, or the department, shall, before the discharge, parole, or release of that individual, inform the individual of the duty to register pursuant to this section. The official or the department shall require the individual to read and sign a form as required by the attorney general, stating that the duty of the individual to register has been explained to that individual. The official in charge of the place of confinement, or the department, shall obtain the address where the individual expects to reside, attend school, or work upon

discharge, parole, or release and shall report the address to the attorney general. The official in charge of the place of confinement, or the department, shall give three copies of the form to the individual and shall send three copies to the attorney general no later than forty-five days before the scheduled release of that individual. The attorney general shall forward one copy to the law enforcement agency having jurisdiction where the individual expects to reside, attend school, or work upon discharge, parole, or release, one copy to the prosecutor who prosecuted the individual, and one copy to the court in which the individual was prosecuted. All forms must be transmitted and received by the law enforcement agency, prosecutor, and court thirty days before the discharge, parole, or release of the individual.

6. An individual who is required to register pursuant to this section who is released on probation or discharged upon payment of a fine must, before the release or discharge, be informed of the duty to register under this section by the court in which that individual is convicted. The court shall require the individual to read and sign a form as required by the attorney general, stating that the duty of the individual to register under this section has been explained to that individual. The court shall obtain the address where the individual expects to reside, attend school, or work upon release or discharge and shall report the address to the attorney general within three days. The court shall give one copy of the form to the individual and shall send two copies to the attorney general. The attorney general shall forward one copy to the appropriate law enforcement agency having jurisdiction where the individual expects to reside, attend school, or work upon discharge, parole, or release.
7. Registration consists of a written statement signed by the individual, giving the information required by the attorney general, and the biometric data and photograph of the individual. An individual who is not required to provide a sample of blood and other body fluids under section 31-13-03 or by the individual's state or court of conviction or adjudication shall submit a sample of blood and other body fluids for inclusion in a centralized database of DNA identification records under section 31-13-05. The collection, submission, testing and analysis of, and records produced from, samples of blood and other body fluids, are subject to chapter 31-13. Evidence of the DNA profile comparison is admissible in accordance with section 31-13-02. A report of the DNA analysis certified by the state crime laboratory is admissible in accordance with section 31-13-05. A district court shall order an individual who refuses to submit a sample of blood or other body fluids for registration purposes to show cause at a specified time and place why the individual should not be required to submit the sample required under this subsection. Within three days after registration, the registering law enforcement agency shall forward the statement, biometric data, and photograph to the attorney general and shall submit the sample of the individual's blood and body fluids to the state crime laboratory. If an individual required to register under this section has a change in vehicle or computer online identity, the individual shall inform in writing, within three days after the change, the law enforcement agency with which that individual last registered of the individual's new vehicle or computer online identity. If an individual required to register pursuant to this section has a change in name, school, or residence or employment address, that individual shall inform in writing, at least ten days before the change, the law enforcement agency with which that individual last registered of the individual's new name, school, residence address, or employment address. A change in school or employment address includes the termination of school or employment for which an individual required to register under this section shall

inform in writing within five days of the termination the law enforcement agency with which the individual last registered. The law enforcement agency, within three days after receipt of the information, shall forward it to the attorney general. The attorney general shall forward the appropriate registration data to the law enforcement agency having local jurisdiction of the new place of residence, school, or employment. Upon a change of address, the individual required to register shall also register within three days at the law enforcement agency having local jurisdiction of the new place of residence, school, or employment. The individual registering under this section shall periodically confirm the information required under this subsection in a manner and at an interval determined by the attorney general. A law enforcement agency that has previously registered an offender may omit the biometric data portion of the registration if that agency has a set of biometric data on file for that individual and is personally familiar with and can visually identify the offender. These provisions also apply in any other state that requires registration.

8. An individual required to register under this section shall comply with the registration requirement for the longer of the following periods:
 - a. A period of fifteen years after the date of sentence or order deferring or suspending sentence upon a plea or finding of guilt or after release from incarceration, whichever is later;
 - b. A period of twenty-five years after the date of sentence or order deferring or suspending sentence upon a plea or finding of guilt or after release from incarceration, whichever is later, if the offender is assigned a moderate risk by the attorney general as provided in subsection 12; or
 - c. For the life of the individual, if that individual:
 - (1) On two or more occasions has pled guilty or nolo contendere to, or been found guilty of a crime against a child or as a sexual offender. If all qualifying offenses are misdemeanors, this lifetime provision does not apply unless a qualifying offense was committed after August 1, 1999;
 - (2) Pleads guilty or nolo contendere to, or is found guilty of, an offense committed after August 1, 1999, which is described in subdivision a of subsection 1 of section 12.1-20-03, section 12.1-20-03.1, or subdivision d of subsection 1 of section 12.1-20-03 if the person is an adult and the victim is under age twelve, or section 12.1-18-01 if that individual is an adult other than a parent of the victim, or an equivalent offense from another court in the United States, a tribal court, or court of another country; or
 - (3) Is assigned a high risk by the attorney general as provided in subsection 12.
9. An individual required to register under this section who violates this section is guilty of a class C felony. The failure of a homeless individual to register as required in subsections 2 and 3 is prima facie evidence of a violation of this section. The clerk of court shall forward all warrants issued for a violation of this section to the county sheriff, who shall enter all such warrants into the national crime information center wanted person file. A court may not relieve

an individual, other than a juvenile, who violates this section from serving a term of at least ninety days in jail and completing probation of one year.

10. When an individual is released on parole or probation and is required to register pursuant to this section, but fails to do so within the time prescribed, the court shall order the probation, or the parole board shall order the parole, of the individual revoked.
11. If an individual required to register pursuant to this section is temporarily sent outside the facility or institution where that individual is confined under conviction or sentence, the local law enforcement agency having jurisdiction over the place where that individual is being sent must be notified within a reasonable time period before that individual is released from the facility or institution. This subsection does not apply to any individual temporarily released under guard from the facility or institution in which that individual is confined.
12. The attorney general, with the assistance of the department and the juvenile courts, shall develop guidelines for the risk assessment of sexual offenders who are required to register, with a low-risk, moderate-risk, or high-risk level being assigned to each offender as follows:
 - a. The department shall conduct a risk assessment of sexual offenders who are incarcerated in institutions under the control of the department and sexual offenders who are on supervised probation. The department, in a timely manner, shall provide the attorney general any information, including the offender's level of risk and supporting documentation, concerning individuals required to be registered under this section who are about to be released or placed into the community.
 - b. The attorney general shall conduct a risk assessment of sexual offenders who are not under the custody or supervision of the department. The attorney general may adopt a law enforcement agency's previous assignment of risk level for an individual if the assessment was conducted in a manner substantially similar to the guidelines developed under this subsection.
 - c. The juvenile courts or the agency having legal custody of a juvenile shall conduct a risk assessment of juvenile sexual offenders who are required to register under this section. The juvenile courts or the agency having legal custody of a juvenile shall provide the attorney general any information, including the offender's level of risk and supporting documentation, concerning juveniles required to register and who are about to be released or placed into the community.
 - d. The attorney general shall notify the offender of the risk level assigned to that offender. An offender may request a review of that determination with the attorney general's sexual offender risk assessment committee and may present any information that the offender believes may lower the assigned risk level.
13. An individual assessed as a high-risk sexual offender in accordance with subsection 12, may not reside within five hundred feet [152.4 meters] of a public or nonpublic preschool or elementary, middle, or high school.

14. Relevant and necessary conviction and registration information must be disclosed to the public by a law enforcement agency if the individual is a moderate or high risk and the agency determines that disclosure of the conviction and registration information is necessary for public protection. The attorney general shall develop guidelines for public disclosure of offender registration information. Public disclosure may include internet access if the offender:

- a. Is required to register for a lifetime under subsection 8;
- b. Has been determined to be a high risk to the public by the department, the attorney general, or the courts, according to guidelines developed by those agencies; or
- c. Has been determined to be a high risk to the public by an agency of another state or the federal government.

If the offender has been determined to be a moderate risk, public disclosure must include, at a minimum, notification of the offense to the victim registered under chapter 12.1-34 and to any agency, civic organization, or group of persons who have characteristics similar to those of a victim of the offender. Upon request, law enforcement agencies may release conviction and registration information regarding low-risk, moderate-risk, or high-risk offenders.

44-15. A state officer, law enforcement agency, or public school district or governing body of a nonpublic school or any appointee, officer, or employee of those entities is not subject to civil or criminal liability for making risk determinations, allowing a sexual offender to attend a school function under section 12.1-20-25, or for disclosing or for failing to disclose information as permitted by this section.

45-16. If a juvenile is adjudicated delinquent and required or ordered to register as a sexual offender or as an offender against a child under this section, the juvenile shall comply with the registration requirements in this section. Notwithstanding any other provision of law, a law enforcement agency shall register a juvenile offender in the same manner as adult offenders and may release any relevant and necessary information on file to other law enforcement agencies, the department of human services, or the public if disclosure is necessary to protect public health or safety. The law enforcement agency shall release any relevant and necessary information on file to the superintendent or principal of the school the juvenile attends. The school administration shall notify others in similar positions if the juvenile transfers to another learning institution in or outside the state.

46-17. If an individual has been required to register as a sexual offender or an offender against a child under section 12.1-32-15 or 27-20-52.1 before August 1, 1999, the individual may petition the court to be removed from the offender list if registration is no longer mandatory for that individual. In considering the petition, the court shall comply with the requirements of this section.

47-18. A sexual offender who is currently assigned a moderate or high-risk level by the attorney general may not use a state park of this state as a residence or residential address to comply with the registration requirements of this section.

Before arriving at a state park for overnight lodging or camping, a sexual offender who is assigned a moderate or high-risk level by the attorney general shall notify a parks and recreation department law enforcement officer at the state park where the sexual offender will be staying.

1. When a divorce is granted, the court shall make an equitable distribution of the property and debts of the parties. SENATE BILL NO. 2170

(Senators Hogue, D. Larson)
(Representatives Brabandt, Klemin)
(At the request of the Commission on Uniform State Laws)

AN ACT to create and enact a new chapter to title 14 of the North Dakota Century Code, relating to the Uniform Recognition and Enforcement of Canadian Protection Orders Act; to provide a penalty; and to provide for application.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new chapter to title 14 of the North Dakota Century Code is created and enacted as follows:

Definitions.

1. "Canadian domestic violence protection order" means a judgment or part of a judgment or order issued in a civil proceeding by a court of Canada under the law of the issuing jurisdiction which relates to domestic violence and prohibits a respondent from:
 - a. Being in physical proximity to a protected individual or following a protected individual;
 - b. Directly or indirectly contacting or communicating with a protected individual or other individual described in the order;
 - c. Being within a certain distance of a specified place or location associated with a protected individual; or
 - d. Molesting, annoying, harassing, or engaging in threatening conduct directed at a protected individual.
2. "Domestic protection order" means an injunction or other order, issued by a tribunal under the domestic or family violence laws of the issuing court, to prevent an individual from engaging in violent or threatening acts against, harassment of, direct or indirect contact or communication with, or being in physical proximity to another individual.
3. "Issuing court" means the court that issues a Canadian domestic violence protection order.
4. "Protected individual" means an individual protected by a Canadian domestic violence protection order.
5. "Respondent" means the individual against whom a Canadian domestic violence protection order is issued.
6. "State" means a state of the United States, the District of Columbia, Puerto Rico, the United States Virgin Islands, or any territory or insular possession

subject to the jurisdiction of the United States. The term includes an Indian tribe or band that has jurisdiction to issue domestic violence protection orders.

7. "Tribunal" means a court, agency, or other entity authorized by law to issue or modify a domestic violence protection order.

Nonjudicial enforcement of order.

1. A law enforcement officer of this state, upon determining there is probable cause to believe a valid Canadian domestic violence protection order exists and that the order has been violated, shall enforce the Canadian domestic violence protection order as if it were the order of a tribunal of this state. Presentation of a record of a Canadian domestic violence protection order that identifies both a protected individual and a respondent and, on its face, is currently in effect, constitutes probable cause to believe that a valid order exists. For the purposes of this section, the protection order may be inscribed on a tangible medium or may have been stored in an electronic or other medium if it is retrievable in perceivable form. Presentation of a certified copy of a protection order is not required for enforcement.
2. If a record of a Canadian domestic violence protection order is not presented, the officer may consider other information in determining whether there is probable cause to believe a valid Canadian domestic violence protection order exists.
3. If a law enforcement officer of this state determines an otherwise valid Canadian domestic violence protection order cannot be enforced because the respondent has not been notified or served with the order, the officer shall inform the protected individual that the officer will make reasonable efforts to contact the respondent. After informing the respondent and serving the order, the officer shall allow the respondent a reasonable opportunity to comply with the order before enforcing the order.
4. If a law enforcement officer determines an individual is a protected individual, the officer shall inform the individual of available local victim services.
5. Registration or filing of an order in this state is not required for the enforcement of a valid foreign protection order under this chapter.

Judicial enforcement of order.

1. A tribunal may issue an order enforcing or refusing to enforce a Canadian domestic violence protection order on application of:
 - a. A person authorized by the law of this state other than this chapter to seek enforcement of a domestic protection order; or
 - b. A respondent.
2. A tribunal shall follow the procedures of this state for enforcement of a domestic protection order. An order entered under this section is limited to the enforcement of the terms of the Canadian domestic violence protection order as provided in this chapter.
3. A Canadian domestic violence protection order is valid if it:

- a. Identifies a protected individual and a respondent;
 - b. Is currently in effect;
 - c. Was issued by a tribunal that had jurisdiction over the parties and matter under the law of the issuing court; and
 - d. Was issued after the respondent was provided with reasonable notice and had an opportunity to be heard before the tribunal issued the order or, in the case of an order ex parte, the respondent was given notice and has had or will have an opportunity to be heard within a reasonable time after the issuing of the order, in a manner consistent with the rights of the respondent to due process.
4. An individual authorized under the law of this state to seek enforcement of a Canadian domestic violence protection order establishes a prima facie case for its validity by presenting an order valid on its face.
 5. Absence of any of the criteria for validity of a Canadian domestic violence protection order is an affirmative defense in an action seeking enforcement of the order.
 6. A tribunal of this state may enforce the provisions of a Canadian domestic violence protection order against a party to the order in which each party is a protected individual and respondent if:
 - a. The party seeking enforcement of the order filed a pleading requesting the order from the issuing court; and
 - b. The tribunal made specific findings that entitled the party to the enforcement sought.

Registration of order.

1. Any individual may register a Canadian domestic violence protection order in this state. To register the order, an individual shall present a certified copy of the order to any clerk of district court in this state.
2. Upon receipt of a Canadian domestic violence protection order, the clerk of the district court shall register the order in accordance with this section. After the order is registered, the clerk of district court shall furnish to the individual registering the order a certified copy of the registered order and transmit a copy of the order to the appropriate law enforcement agency.
3. A registered Canadian domestic violence protection order that is inaccurate or is not currently in effect must be corrected or removed from the registry in accordance with the law of this state.
4. An individual registering a Canadian domestic violence protection order shall file an affidavit by the protected individual that, to the best of the individual's knowledge, the order is currently in effect.
5. A registered Canadian domestic violence protection order may be entered in any existing state or federal registries of protection orders, in accordance with state or federal law.

6. A fee may not be charged for the registration of a Canadian domestic violence protection order or the correction or removal of a protection order.

Immunity.

This state or a local governmental agency, or a law enforcement officer, prosecuting attorney, clerk of district court, or any state or local governmental official acting in an official capacity, is immune from civil and criminal liability for an act or omission arising out of the registration or enforcement of a Canadian domestic violence protection order or the detention or arrest of an alleged violator of a Canadian domestic violence protection order if the act or omission is done in good faith in an effort to comply with this chapter.

Other remedies.

Pursuing remedies under this chapter does not preclude a protected individual from pursuing other legal or equitable remedies against the respondent.

Penalty.

Violation of a Canadian domestic violence protection order under this chapter is a class A misdemeanor. A second or subsequent violation of a Canadian domestic violence protection order is a class C felony.

SECTION 2. APPLICATION. Section 1 of this Act applies to any Canadian domestic violence protection order issued before, on, or after August 1, 2017, including any continuing action for enforcement of a Canadian domestic violence protection order commenced before August 1, 2017. A request for enforcement of a Canadian domestic violence protection order brought after July 31, 2017, for violations of a Canadian domestic violence protection order occurring before August 1, 2017, is governed by the provisions of section 1 of this Act.
