SENATE BILL NO. 2151

(Senators Holmberg, Armstrong, Myrdal)
(Representatives K. Koppelman, Vetter)

AN ACT to amend and reenact section 23-06.5-17 of the North Dakota Century Code, relating to health care directives.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 23-06.5-17 of the North Dakota Century Code is amended and reenacted as follows:

23-06.5-17. Optional health care directive form.

The following is an optional form of a health care directive and is not a required form:

HEALTH CARE DIRECTIVE

I _____, understand this document allows me to do ONE OR ALL of the following:

PART I: Name another person (called the health care agent) to make health care decisions for me if I am unable to make and communicate health care decisions for myself. My health care agent must make health care decisions for me based on the instructions I provide in this document (Part II), if any, the wishes I have made known to him or her, or my agent must act in my best interest if I have not made my health care wishes known.

AND/OR

PART II: Give health care instructions to guide others making health care decisions for me. If I have named a health care agent, these instructions are to be used by the agent. These instructions may also be used by my health care providers, others assisting with my health care and my family, in the event I cannot make and communicate decisions for myself.

AND/OR

PART III: Allows me to make an organ and tissue donation upon my death by signing a document of anatomical gift.

PART I: APPOINTMENT OF HEALTH CARE AGENT

THIS IS WHO I WANT TO MAKE HEALTH CARE DECISIONS

FOR ME IF I AM UNABLE TO MAKE AND COMMUNICATE

HEALTH CARE DECISIONS FOR MYSELF

(I know I can change my agent or alternate agent at any time

and I know I do not have to appoint an agent or an alternate agent)

NOTE: If you appoint an agent, you should discuss this health care directive with your agent and give your agent a copy. If you do not wish to appoint an agent, you may leave Part I blank and go to Part II and/or Part III. None of the following may be designated as your agent: your treating health care provider, a nonrelative employee of your treating health care provider, an operator of a long-term care facility, or a nonrelative employee of a long-term care facility.

When I am unable to make and communicate health care decisions for myself, I trust and appoint _____ to make health care decisions for me. This person is called my health care agent.

Relationship of my health care agent to me: _____

Telephone number of my health care agent: _____

Address of my health care agent: _____

(OPTIONAL) APPOINTMENT OF ALTERNATE HEALTH CARE AGENT: If my health care agent is not reasonably available, I trust and appoint _____ to be my health care agent instead.

Relationship of my alternate health care agent to me: _____

Telephone number of my alternate health care agent: _____

Address of my alternate health care agent: _____

THIS IS WHAT I WANT MY HEALTH CARE AGENT TO BE ABLE TO DO
IF I AM UNABLE TO MAKE AND COMMUNICATE HEALTH CARE DECISIONS
FOR MYSELF

(I know I can change these choices)

My health care agent is automatically given the powers listed below in (A) through (D). My health care agent must follow my health care instructions in this document or any other instructions I have given to my agent. If I have not given health care instructions, then my agent must act in my best interest.

Whenever I am unable to make and communicate health care decisions for myself, my health care agent has the power to:

(A) Make any health care decision for me. This includes the power to give, refuse, or withdraw consent to any care, treatment, service, or procedures. This includes deciding whether to stop or not start health care that is keeping me or might keep me alive and deciding about mental health treatment.

(B) Choose my health care providers.

(C) Choose where I live and receive care and support when those choices relate to my health care needs.

(D) Review my medical records and have the same rights that I would have to give my medical records to other people.

If I DO NOT want my health care agent to have a power listed above in (A) through (D) OR if I want to LIMIT any power in (A) through (D), I MUST say that here:

My health care agent is NOT automatically given the powers listed below in (1) and (2). If I WANT my agent to have any of the powers in (1) and (2), I must INITIAL the line in front of the power; then my agent WILL HAVE that power.

____(1) To decide whether to donate any parts of my body, including organs, tissues, and eyes, when I die.

____(2) To decide what will happen with my body when I die (burial, cremation).

If I want to say anything more about my health care agent's powers or limits on the powers, I can say it here:

PART II: HEALTH CARE INSTRUCTIONS

NOTE: Complete this Part II if you wish to give health care instructions. If you appointed an agent in Part I, completing this Part II is optional but would be very helpful to your agent. However, if you chose not to appoint an agent in Part I, you MUST complete, at a minimum, Part II (B) if you wish to make a valid health care directive.

These are instructions for my health care when I am unable to make and communicate health care decisions for myself. These instructions must be followed (so long as they address my needs).

(A) THESE ARE MY BELIEFS AND VALUES ABOUT MY HEALTH CARE

(I know I can change these choices or leave any of them blank)

I want you to know these things about me to help you make decisions about my health care:

My goals for my health care:

My fears about my health care:

My spiritual or religious beliefs and traditions:

My beliefs about when life would be no longer worth living:

My thoughts about how my medical condition might affect my family:

(B) THIS IS WHAT I WANT AND DO NOT WANT FOR MY HEALTH CARE

(I know I can change these choices or leave any of them blank)

Many medical treatments may be used to try to improve my medical condition or to prolong my life. Examples include artificial breathing by a machine connected to a tube in the lungs, artificial feeding or fluids through tubes, attempts to start a stopped heart, surgeries, dialysis, antibiotics, and blood transfusions. Most medical treatments can be tried for a while and then stopped if they do not help.

I have these views about my health care in these situations:

(Note: You can discuss general feelings, specific treatments, or leave any of them blank).

If I had a reasonable chance of recovery and were temporarily unable to make and communicate health care decisions for myself, I would want:

If I were dying and unable to make and communicate health care decisions for myself, I would want:

If I were permanently unconscious and unable to make and communicate health care decisions for myself, I would want:

If I were completely dependent on others for my care and unable to make and communicate health care decisions for myself, I would want:

In all circumstances, my ~~doctors~~health care providers will try to keep me comfortable and reduce my pain. This is how I feel about pain relief if it would affect my alertness or if it could shorten my life:

There are other things that I want or do not want for my health care, if possible:

Who I would like to be my ~~doctor~~health care provider:

Where I would like to live to receive health care:

Where I would like to die and other wishes I have about dying:

My wishes about what happens to my body when I die (cremation, burial, whole body donation):

Any other things:

PART III: MAKING AN ANATOMICAL GIFT

(A) I WANT TO BE AN ORGAN DONOR

I would like to be an organ donor at the time of my death. I have told my family my decision and ask my family to honor my wishes. I wish to donate the following (initial one statement):

Any needed organs and tissue.

Only the following organs and tissue: _____

(B) I DO NOT WANT TO BE AN ORGAN DONOR

I do not want to be an organ donor at the time of my death. I have told my family my decision and ask my family to honor my wishes.

PART IV: MAKING THE DOCUMENT LEGAL

Except for a violation of chapter 23.1-03, 23.1-04, 23.1-06, 23.1-08, or 61-28 which occurs after the permit is issued, or any permit condition, rule, order, limitation, or other applicable requirement implementing those chapters which occurs after the permit is issued, any challenge to the department's issuance, modification, or revocation of the permit or permit conditions must be made in the permit hearing process and may not be raised on any collateral or subsequent legal proceeding, and the applicant and any aggrieved person may raise on appeal only issues that were raised to the department in the permit hearing process.

23.1-01-12. Rules.

The department may adopt rules consistent with national or regional standards which relate to the promotion of plastic bottle recycling and the maintenance of safe plastic bottle recycling practices in the state.

23.1-01-13. Contracts for inspections.

The department may contract with public health units and other appropriate entities to conduct inspections on behalf of the department or provide other services.

23.1-03-02. State radiation control agency.

The department of environmental quality shall administer the statewide licensing and regulatory radiation program under this chapter.

23.1-03-03. Powers and duties of the department.

For the protection of the public health and safety, the department shall:

1. Evaluate hazards associated with the use of sources of ionizing radiation by inspection and other means.
2. Conduct programs compatible with federal programs for the licensing and regulation of byproduct, source, special nuclear materials, and other radioactive materials.
3. Advise, consult, and cooperate with other public agencies and with affected groups and industries.
4. Administer the statewide licensing and regulatory radiation program.

23.1-03-04. Licensing and registration of sources of ionizing radiation.

1. The department shall adopt rules for the department to provide general or specific licensing of persons to process, generate, dispose, use, manufacture, produce, acquire, own, receive, possess, or transfer byproduct, source,

special nuclear material, and other radioactive materials occurring naturally or produced artificially, or devices or equipment utilizing such materials. The rules must allow the department to amend, suspend, and revoke licenses.

2. The department may exempt certain sources of ionizing radiation or kinds of uses or users from the licensing or registration requirements under this section and in chapter 23.1-02 when the department makes a finding that the exemption of such sources of ionizing radiation or kinds of uses or users will not constitute a significant risk to the health and safety of the public.

23.1-03-05. Custody of disposal sites.

1. Any radioactive materials license issued or renewed for any activity that results in processing, generating, or disposing of source material, byproduct material, or other radioactive material occurring naturally or produced artificially must contain any terms and conditions the department finds necessary to assure that, prior to termination of the license:
 - a. The licensee will comply with any decontamination, decommissioning, and stabilization standards prescribed by the department, which must be equivalent to or more stringent than those of the commission for sites, structures, and equipment used in conjunction with the processing, generation, or disposal of source material, byproduct material, or other radioactive material occurring naturally or produced artificially; and
 - b. Ownership of any disposal site and source material, byproduct material, or other radioactive material occurring naturally or produced artificially which resulted from the licensed activity must, subject to subsection 2, be transferred to the United States if provided by federal law, or this state if the state exercises the option to acquire land used for the disposal of the source material, byproduct material, or other radioactive material occurring naturally or produced artificially.
2. a. The department shall require by rule or order that before the termination of any license, title to the land and any interests in the land, other than land held in trust by the United States for any Indian tribe or owned by an Indian tribe subject to a restriction against alienation imposed by the United States or land already owned by the United States or by the state, used for the disposal of source material, byproduct material, or other radioactive material occurring naturally or produced artificially pursuant to a license, must be transferred to the United States if provided by federal law, or this state, unless the commission and the department determine before the termination that transfer of title is not necessary to protect the public health, safety, or welfare, or to minimize danger to life or property.
 - b. If transfer to the state of title to the land, source material, byproduct material, or other radioactive material occurring naturally or produced artificially is required, the department shall maintain the material and land in a manner that will protect the public health, safety, and the environment.
 - c. The department may undertake any monitoring, maintenance, and emergency measures necessary to protect the public health and safety for materials and property for which it has assumed custody under this chapter.

- d. The transfer of title to land or source material, byproduct material, or other radioactive material occurring naturally or produced artificially, to the state does not relieve any licensee of liability for any fraudulent or negligent acts done prior to the transfer.
 - e. Material and land transferred to either the United States or the state under this section must be transferred without cost to the United States or the state other than administrative and legal costs incurred by the United States or the state in carrying out the transfer.
3. Land used for the disposal of technologically enhanced naturally occurring radioactive material is not subject to subsection 2.

23.1-03-06. Surety requirements.

1. The department shall establish by rule standards and instructions it deems necessary or appropriate to ensure:
 - a. The licensee will provide adequate surety for the completion of all requirements established by the department for the decontamination, decommissioning, and stabilization of sites, structures, and equipment used in conjunction with the processing, generation, or disposal of source material, byproduct material, or other radioactive material occurring naturally or produced artificially; and
 - b. If the department determines any long-term maintenance and monitoring is necessary, the licensee will make available the funds required for the necessary maintenance and monitoring, before termination of any license for source material, byproduct material, or other radioactive material occurring naturally or produced artificially.
2. Any funds for long-term site surveillance and control must be available to the state if title and custody of source material, byproduct material, or other radioactive material occurring naturally or produced artificially and its disposal site is transferred to the state under subsection 1 of section 23.1-03-05. The funds must be transferred to the United States if title and custody of the source material, byproduct material, or other radioactive material occurring naturally or produced artificially and its disposal site is transferred to the United States upon termination of any license for source material, byproduct material, or other radioactive material occurring naturally or produced artificially. These funds include sums collected for long-term surveillance and if necessary, maintenance. The funds do not include moneys held as surety where no default had occurred and the reclamation or other bonded activity has been performed.
3. If the department requires a surety for stabilization or funds for long-term surveillance or maintenance, the amounts must be sufficient to ensure compliance with the standards established by the commission and the department pertaining to financial arrangements to ensure adequate stabilization and long-term management of source material, byproduct material, or other radioactive material occurring naturally or produced artificially and its disposal site.

23.1-03-07. Procedural requirements.

In licensing and regulating the processing, generation, or disposal of source material, byproduct material, or other radioactive material occurring naturally or produced artificially, the department shall provide:

1. In the cases of licenses:

23.1-03-09. Fees deposited in operating fund.

The department, by rule, may prescribe and provide for the payment and collection of reasonable fees to issue licenses and registration certificates. The fees

must be based on the anticipated cost of filing and processing the application, of taking action on the requested license or registration certificate, and of conducting an inspection program to determine compliance or noncompliance with the license or registration certificate.

Any moneys collected for permit or registration fees must be deposited in the department's operating fund in the state treasury and must be spent subject to appropriation by the legislative assembly.

23.1-03-10. Federal-state agreements.

2. Any person who, on the effective date of an agreement under subsection 1, possesses a license issued by the federal government must be deemed to possess the same license issued under this chapter, and the license must expire either ninety days after receipt from the department of a notice of expiration of such license or on the date of expiration specified in the federal license, whichever is earlier.

23.1-03-11. Administrative procedures and judicial review.

Any proceeding under this chapter to issue or modify rules, including emergency orders relating to control of sources of ionizing radiation; grant, suspend, revoke, or amend any license; or determine compliance with rules of the department must be conducted in accordance with chapter 28-32. If an emergency exists requiring immediate action to protect the public health and safety, the department may, without notice or hearing, issue an order reciting the existence of such emergency and requiring action necessary to meet the emergency be taken. Notwithstanding any provision of this chapter, the order must be effective immediately. A person to which the order is directed shall comply with the order immediately, but may apply to the department for a hearing. The department shall provide the hearing within ten days of the application. On the basis of such hearing, the emergency order must be continued, modified, or revoked within thirty days after such hearing.

23.1-03-12. Injunction proceedings.

Whenever, in the judgment of the department, any person has engaged in or is about to engage in any acts or practices that constitute or will constitute a violation of this chapter, or any rule or order issued under this chapter, the department may initiate an action in the name of the state enjoining the acts or practices, or requesting an order directing compliance. Upon a showing by the department that the person has engaged or is about to engage in the acts or practices, a permanent or temporary injunction, restraining order, or other order may be granted.

23.1-03-13. Prohibited uses.

It is unlawful for any person to use, manufacture, produce, transport, transfer, receive, acquire, own, or possess any source of ionizing radiation unless registered with or licensed by the department under this chapter.

23.1-03-14. Impounding of materials.

In the event of an emergency, the department may impound or order the impounding of sources of ionizing radiation in the possession of any person not equipped to observe or which fails to observe the provisions of this chapter or any rules issued under this chapter.

23.1-03-15. Penalties.

1. Any person violating this chapter or any permit condition, rule, order, limitation, or other applicable requirement implementing this chapter is subject to a civil penalty not to exceed twelve thousand five hundred dollars per day per violation, unless the penalty for the violation is otherwise specifically provided for and made exclusive in this chapter.
2. Any person willfully violating any provision of this chapter or any permit condition, rule, order, limitation, or other applicable requirement implementing this chapter is guilty of a class C felony, unless the penalty for the violation is otherwise specifically provided for and made exclusive in this chapter.
3. Any person willfully making any false statement, representation, or certification in any application, record, report, plan, or other document filed or required to be maintained under this chapter or any permit condition, rule, order, limitation, or other applicable requirement implementing this chapter or falsifying, tampering with, or willfully rendering inaccurate any monitoring device or method required to be maintained under this chapter or any permit condition, rule, order, limitation, or other applicable requirement implementing this chapter is guilty of a class C felony, unless the penalty for the violation is otherwise specifically provided for and made exclusive in this chapter.

L. 95-87; 30 U.S.C. 1201 et seq.].

23.1-04-03. Powers and duties of the department.

The department shall administer and enforce this chapter. The department shall:

- 1. Administer the state hazardous waste management and underground storage tank programs under this chapter.
- 2. Survey hazardous waste generation and management practices in the state.
- 3. Adopt, modify, repeal, and enforce rules governing the management of hazardous waste and underground storage tanks.
- 4. Enter agreements with other local, state, or federal agencies regarding responsibilities for regulating hazardous wastes and underground storage tanks to promote consistency in enforcement and avoid duplication in regulation.

23.1-04-04. Institutional controls, responsibility exemptions, and regulatory assurances for contaminated properties - Continuing appropriation.

1. The department may establish institutional controls or give site-specific responsibility exemptions or regulatory assurances to owners, operators, or lenders, under this section for real property contaminated by regulated substances, other pollution, or contamination regulated by the department under this chapter or chapter 61-28. To qualify for a site-specific responsibility exemption, the owner of the property, or the political subdivision establishing institutional controls under this section through its zoning authority, shall:
 - a. Delineate the vertical and horizontal extent and concentration of the pollution or contamination in soil and ground water;
 - b. Identify potential persons or receptors that may be impacted by the pollution or contamination, evaluate the potential for movement or migration of the pollution or contamination and potential pathways of exposure, and identify potential health or environmental impacts to persons or receptors based on the proposed property use;
 - c. Identify the past and current uses of the property, the current uses of contiguous properties, and zoning restrictions or regulations that apply to the property and contiguous properties;
 - d. Identify any surface water or ground water uses, or ground water wells, that may be impacted by the pollution or contamination;
 - e. Agree to comply with and complete any remediation or monitoring plan agreed to or ordered by the department as a condition of receiving a site-specific responsibility exemption, including monitoring of natural attenuation of pollution or contamination;
 - f. If remediation or monitoring of pollution or contamination is being conducted by a responsible party or governmental body other than the landowner or operator, agree to allow access for all monitoring or remedial activities reasonably related to the identified pollution or contamination;
 - g. Agree to any other reasonable institutional controls necessary to protect public health and welfare from pollution or contamination on the property or to satisfy environmental standards enforced by the department; and
 - h. Agree to comply with all institutional controls, letters of no further remediation, letters of no further action, or letters of regulatory assurance established or instituted under this section as a condition of receiving a property-specific or site-specific responsibility exemption or regulatory assurance.
2. "Institutional controls" are restrictions on the use and management of real property, including buildings or fixtures, which contain or prevent migration of regulated substances or other pollution or contamination, or protect receptors from exposure or the threat of exposure to regulated substances or other pollution or contamination. Institutional controls may apply during environmental remediation activities, or to residual regulated substances, pollutants, or other pollution or contamination or their byproducts that may remain on property after active environmental remediation activities are

concluded or while natural attenuation of regulated substances or other pollution or contamination is occurring.

3. Institutional controls may be established by the department as follows:
 - a. When an area made subject to institutional controls involves two or more property owners and an area larger than either one city block or ten acres [4.05 hectares], the department and the political subdivision having zoning authority over the property may agree to institutional controls relating to the identified area impacted by the pollution or the contamination. Before the institutional controls become effective, the controls must be the subject of a public hearing and be established in the same manner as zoning regulations are established by that political subdivision. The political subdivision is responsible for providing all notices under this subdivision, but any public hearing must be held jointly by the political subdivision and the department.
 - b. The department also may establish institutional controls by agreement to an environmental covenant with the owner of the real property. Before agreeing to any environmental covenants under this subdivision, all contiguous landowners to the property to which the covenants will attach must be notified by certified mail or by service by publication as provided in the North Dakota Rules of Civil Procedure. An environmental covenant must state that it is an environmental covenant that runs with the land, have a legally sufficient description of the real property subject to the covenant, describe activity or use limitations and terms of access for any monitoring or remediation, identify every holder who is a grantee of the covenant, be signed by every holder and the owner of the property before a notary public, and describe the name and location of any administrative record for the environmental response or remediation identified for the property under subsection 1. All environmental covenants must be filed with the county recorder of the county in which the property is located.
4. After completion of the assessments and requirements of subsection 1, the department may issue a letter of no further remediation or a letter of no further action to a property owner when an environmental remediation is completed on the site or property, or when no institutional controls are necessary to protect public health or welfare or to come into compliance with an environmental standard that has been violated and later corrected on the site or property.
5. Notwithstanding any institutional controls established for any real property, the department has access for inspection and enforcement for environmental violations as provided by law.
6. If there is any additional discharge or release of a regulated substance, pollutant, or contaminant on the property subject to institutional controls or regulatory exemptions that intermingles with the delineated pollution or contamination identified under subsection 1, or if the owner or operator of the property manages the property in a manner that causes the contamination to migrate to a neighboring contiguous property or results in the exposure of contaminants to receptors on the property, then institutional controls or regulatory exemptions established under this section are voidable by the department after a public investigatory hearing by giving written notice to the political subdivision and the current owner of the property subject to the

- institutional controls, as well as any lender holding a lien on the property identified under subsections 8 and 9. Culpability of the owner or operator of the property for any new or additional discharge, release, or movement of pollution or contamination, as well as responsibility for any offsite discharge or release or culpability for exposure of onsite or offsite receptors to pollution or contamination, must be considered by the department in determining whether to void any institutional controls, and any final determination by the department to void an institutional control is subject to review under chapter 28-32. If the institutional control is an environmental covenant established under subdivision b of subsection 3, the written notice voiding the environmental covenant as well as a copy of the covenant being voided by the department must be filed with the county recorder of the appropriate county.
7. Institutional controls may also be terminated or amended at any time by written agreement between the department, the relevant political subdivision, the owner of the property, or other body or person subject to the institutional controls, as well as any identified lender, after giving notice as described in subsection 3. Letters of no further remediation, of no further action, or regulatory assurance may be amended by written agreement of the participating parties.
 8. Before agreeing to any institutional controls or responsibility exemptions, the department may require insurance coverage or other financial assurance for any additional environmental monitoring or remediation that may become necessary on the property after the site-specific responsibility exemptions and institutional controls are established, and must require such insurance coverage or other financial assurance when the projected cost of an active monitoring or remediation program exceeds five hundred thousand dollars. The department may terminate the requirement for financial assurance if the person required to have financial assurance demonstrates to the department that the property no longer presents a significant threat to public health or the environment. The department may enter a joint agreement with affected political subdivisions, state or federal agencies, property owners, lenders, the administrator of the petroleum tank release compensation fund, or any responsible or potentially responsible party concerning payment for or funding of any insurance coverage or other financial assurance for any additional environmental monitoring or remediation that may become necessary on contaminated or affected properties. The agreements do not waive the liability limitations that apply by law to the state, to state agencies, or to political subdivisions, except up to the amounts, and subject to the terms, conditions, and limitations of any insurance policy or any financial assurance fund created by the joint agreement of the parties under this subsection. Any financial assurance fund must comply with chapters 59-09, 59-10, 59-11, 59-12, 59-13, 59-14, 59-15, 59-16, 59-17, 59-18, and 59-19 and be managed for the benefit of the affected persons or community, but liability of the fund may not exceed the amount deposited with the fund.
 9. Participation by a lender in an agreement under this section may not be construed as management of the property under chapter 32-40.1. Lenders that participate in an agreement under this section may not be held responsible for any environmental remediation on the site or property except as provided in subsection 3 of section 32-40.1-02. As part of an agreement under subsection 8, the department may issue a letter of regulatory assurance to a lender which states that the lender is not responsible for environmental remediation on the property or site, and which addresses other issues relating

to responsibility, notice, violation of agreement under subsection 8 by the owner or operator, default, or other matters affecting potential environmental liability, investment, or redevelopment. A responsibility exemption of regulatory assurance given or granted to a lender under this section also applies to a lender's transferees or assigns, if the party has had no prior involvement with or responsibility for the site of the environmental release, and uses and manages the property after the transfer or assignment in compliance with institutional controls or other conditions established under this section and the requirements of this chapter and chapter 61-28.

10. The department may adopt rules to implement this section. The department may assess administrative fees in an amount and manner established by rule against responsible parties. In addition, by agreement of the participants, under subsection 8 the department may collect an administrative fee for a specific site or project to address the department's costs and expenses at that site or project, in an amount agreed to under subsection 8, or may collect an administrative fee in an amount set by rule from a person making a request for a responsibility exemption or regulatory assurance under this section. Any administrative fees collected under this section must be deposited by the department in a separate account in the department's operating fund and used only for administration of remediation activities under this chapter or chapter 61-28 and moneys deposited in this account are appropriated to the department on a continuing basis. Administrative fees may not be collected out of federal moneys or against the petroleum tank release compensation fund.
11. The administrator of the petroleum tank release compensation fund under chapter 23.1-12 may request recovery of expenditures the administrator has made at a remediation site from the separate account in the department's operating fund from fees collected under this section if recovery may not be made from a responsible party or as provided in chapter 23.1-12. If the department determines sufficient funds are available without compromising the remediation project at the site, moneys in the separate account may be used to reimburse the petroleum tank release compensation fund for expenditures the administrator has made at the remediation site.
12. All letters of partial or complete exemption from responsibility for remediation or further action issued by the department under this section may be revoked by the department if any condition of the letters is violated; if institutional controls on the property are not complied with; or if the person, governmental body, or entity violates any provision of this chapter or chapter 61-28.
13. "Environmental covenant" means a covenant running with the land as established under this section.
14. "Natural attenuation" means the reduction in the mass or concentration in soils or ground water of a regulated substance, pollutant, contaminant, and the products into which a substance breaks down, due to naturally occurring physical, chemical, and biological processes, without human intervention. "Enhanced natural attenuation" means the enhancement of natural attenuation at a site by the addition of chemicals, biota, or other substances or processes. "Monitored natural attenuation" means the monitoring of natural attenuation as it occurs. The department may consider natural attenuation or enhanced or monitored natural attenuation as remediation alternatives for a site when pollution or contamination on a site or property does not pose a

threat to human health or the environment, and reasonable safeguards are established under this section or other provisions of state or federal law.

15. "Regulatory assurance" means an assurance issued by the department concerning enforcement relating to existing contamination or pollution on a property or site based on compliance with conditions stated in a letter of regulatory assurance. A regulatory assurance is not voidable under subsection 6.
16. "Responsibility exemption" means a partial or complete exemption from responsibility for remediation or further action on a contaminated property or at a contaminated site based on compliance with the conditions identified in a letter of no further remediation or a letter of no further action. A responsibility exemption is voidable only against a person that violates an institutional control or a condition of a letter of no further action or no further remediation, or that is responsible for a new or additional release or migration of a regulated substance or pollutant on the property or site, or whose actions or negligence cause the violation, release, or migration.
17. "Responsible party" means a person that causes or contributes to an onsite or offsite release or discharge, or which is responsible for an illegal or unpermitted storage, of a pollutant or regulated substance in violation of this chapter or chapter 61-28, that results in the contamination or pollution of a property or site. "Potentially responsible party" means a person identified as a possible cause of, or contributor to, contamination or pollution on a site or property.
18. This section does not affect the authority of the department, the state, or its political subdivisions to exercise any powers or duties under state law with respect to any new or additional discharge or release or threatened discharge or release of a pollutant or regulated substance on a property or site regulated under this section, or the right of the department or any other person to seek legal or equitable relief against a person not subject to a liability protection provided under this section.

23.1-04-05. Hazardous waste regulations.

Under chapter 28-32, the department shall adopt rules:

1. For determining whether any waste is hazardous.
2. Prescribing procedures for generators of hazardous waste.
3. For the issuance of permits for the storage, treatment, and disposal of hazardous waste in an environmentally sound manner, utilizing best scientific and engineering judgment.
4. Prescribing procedures under which the department shall issue, renew, modify, suspend, revoke, or deny permits required by this chapter. The rules must provide that no permit may be revoked until the department has provided the affected party with written notice of the intent of the department to revoke the permit, the reasons for the revocation, and an opportunity for a hearing.
5. For the location, design, construction, operation, and maintenance of treatment, storage, and disposal facilities.

6. For the transportation, containerization, and labeling of hazardous wastes which must be consistent with those issued by the United States department of transportation and the public service commission and department of transportation.
7. Prescribing procedures and requirements for a manifest system.
8. Prescribing procedures and requirements for the following:
 - a. Recordkeeping.
 - b. Reporting.
 - c. Sampling.
 - d. Performing analysis.
 - e. Monitoring.
9. Requiring the owner or operator of any hazardous waste treatment, storage, or disposal facility to demonstrate evidence of financial responsibility in the form and amount determined by the department to be necessary to ensure that, upon abandonment, cessation, or interruption of the operation of the facility, all appropriate measures are taken to prevent damage to human health and the environment.
10. Any other rules necessary to carry out the purposes of this chapter.

23.1-04-06. Underground storage tank regulations.

Under chapter 28-32, the department shall adopt rules:

1. For maintaining a leak detection system, an inventory control system together with tank testing, or a comparable system or method designed to identify releases in a manner consistent with the protection of human health and the environment.
2. For maintaining records of any monitoring of a leak detection system, inventory control system, or tank testing system.
3. For reporting of any releases and corrective action taken in response to a release from an underground tank.
4. For taking corrective action in response to a release from an underground storage tank.
5. For the closure of tanks to prevent releases of regulated substances into the environment.
6. For maintaining evidence of financial responsibility for taking corrective action and compensating third parties for bodily injury and property damage caused by sudden and nonsudden accidental releases arising from operating an underground storage tank.
7. Establishing standards for installation of underground storage tanks.

8. Establishing standards for construction and performance of new underground storage tanks.
9. For notifying the department or designated local agency of the existence of any operational or nonoperational underground storage tank.
10. For a permit fee system to own, install, or operate an underground storage tank.

However, regulations adopted by the department may not be more stringent than applicable requirements of the federal Resource Conservation and Recovery Act [42 U.S.C. 6901 et seq.] and the federal Energy Policy Act of 2005 [Pub. L. 109-58; 42 U.S.C. 15801 et seq.] in effect on August 1, 2007.

23.1-04-07. Municipal underground storage tank ordinances.

A county, city, or township may not enact and enforce an underground storage tank ordinance if the ordinance is more stringent than this chapter and the rules authorized to be adopted under this chapter.

23.1-04-08. Permits.

1. A person may not construct, substantially alter, or operate any hazardous waste treatment, storage, or disposal facility, nor may any person treat, store, or dispose of any hazardous waste without obtaining a permit from the department for the facility or activity. A hazardous waste treatment, storage, or disposal facility may not be issued a permit unless the applicant demonstrates to the satisfaction of the department that a need for the facility exists and the facility can comply with all applicable requirements under this chapter.
2. Permits must contain the terms and conditions the department deems necessary.
3. Permits must be issued for a period of five years.
4. Any permit issued under this section may be revoked by the department according to the rules adopted under subsection 3 of section 23.1-04-05 at any time if the permittee fails to comply with the terms and conditions of the permit, or with applicable requirements under this chapter.
5. If a permit applicant proposes modifications of an existing facility or the department determines modifications are necessary to conform to the requirements established under this chapter, the permit must specify the time allowed to complete the modifications.
6. a. Before the issuing of a permit the department shall:
 - (1) Publish in the official county newspaper of the county in which the proposed facility will be located and in major local newspapers of general circulation and broadcast over local radio stations notice of the department's intention to issue the permit; and
 - (2) Transmit in writing notice of the department's intention to issue the permit to each unit of local government having jurisdiction over the area in which the facility is proposed to be located and to each state

agency having any authority under state law regarding the construction or operation of the facility.

b. If within forty-five days the department receives written notice of opposition to the department's intention to issue a permit and a request for a hearing, or if the department determines on its own initiative, the department shall hold an informal public hearing, including an opportunity for presentation of written and oral views, on whether the department should issue a permit for the proposed facility. Whenever possible the department shall schedule the hearing at a location convenient to the nearest population center to the proposed facility. Notice of the hearing must be published in the manner provided in subdivision a. The notice must contain the date, time, place, and subject matter of the hearing.

7. Any facility required to have a permit under this chapter is exempt from the permit requirements of chapter 23.1-08.

23.1-04-09. Fees - Deposit in operating fund.

The department by rule may provide for the payment and collection of reasonable fees for the issuance of permits or registration certificates for registering, licensing, or permitting hazardous waste generators, transporters, and treatment, storage, recycling, or disposal facilities. The permit or registration certificate fees must be based on the anticipated cost of filing and processing the application, taking action on the requested permit or registration certificate, and conducting a monitoring and inspection program to determine compliance or noncompliance with the permit or registration certificate. Any moneys collected for permit licensing or registration fees must be deposited in the department operating fund in the state treasury and any expenditure from the fund is subject to appropriation by the legislative assembly.

23.1-04-10. Commercial facility permits and ordinances.

1. Counties and cities may issue permits for commercial facilities pursuant to section 23.1-04-08 and may enact and enforce commercial facility ordinances if the ordinances are equal to or more stringent than this chapter and the rules adopted under this chapter.

2. In addition to the requirements for obtaining a permit under this chapter, a person may not construct, substantially alter, or operate any commercial facility nor may any person dispose of any hazardous waste without first obtaining a permit from the department and from the county, or a city if the commercial facility is located or proposed to be located within the territorial zoning authority of the city. The department, in conjunction with the governing body of the county or city in which the commercial facility is located or proposed to be located, shall hold a public hearing in the manner provided in section 23.1-04-08.

23.1-04-11. Disclosure of information before issuance, renewal, transfer, or major modification of permit.

Before an application for the issuance, renewal, transfer, or major modification of a permit under this chapter may be granted, the applicant shall submit to the department a disclosure statement executed under oath or affirmation. The department shall verify and may investigate the information in the statement and shall deny an application for the issuance, renewal, transfer, or major modification of a permit if the applicant has intentionally misrepresented or concealed any material fact

in a statement required under this section, a judgment of criminal conviction for violation of any federal or state environmental laws has been entered against the applicant within five years before the date of submission of the application, or the applicant has knowingly and repeatedly violated any state or federal environmental protection laws. The disclosure statement must include:

1. The name and business address of the applicant.
2. A description of the applicant's experience in managing the type of waste that will be managed under the permit.
3. A description of every civil and administrative complaint against the applicant for the violation of any state or federal environmental protection law which has resulted in a fine or penalty of more than ten thousand dollars within five years before the date of the submission of the application.
4. A description of every pending criminal complaint alleging the violation of any state or federal environmental protection law.
5. A description of every judgment of criminal conviction entered against the applicant within five years before the date of submission of the application for the violation of any state or federal environmental protection law.
6. A description of every judgment of criminal conviction of a felony constituting a crime involving fraud or misrepresentation under the laws of any state or of the United States which has been entered against the applicant within five years before the date of submission of the application.

23.1-04-12. Inspections - Right of entry.

To develop or enforce any rule authorized by this chapter or enforce a requirement of this chapter, any duly authorized representative or employee of the department may, upon presentation of appropriate credentials, at any reasonable time:

1. Enter any place, facility, or site at which wastes or substances that the department has reason to believe may be hazardous or regulated are, may be, or may have been generated, stored, transported, treated, disposed of, or otherwise handled.
2. Inspect and obtain samples of any waste or substance that the department has reason to believe may be hazardous or regulated, including samples from any vehicles in which wastes are being transported as well as samples of any containers or labels.
3. Inspect and copy any records, reports, information, or test results relating to the purposes of this chapter.

23.1-04-13. Monitoring, analysis, and testing - Civil penalty.

1. If the department determines, upon receipt of any information, that:
 - a. The presence of any hazardous waste, hazardous constituent, or regulated substance at a facility or site at which hazardous waste or regulated substance is, or has been, stored, treated, or disposed of; or

- b. The release of any such waste or regulated substance from a facility or site may present a substantial hazard to human health or the environment, the department may issue an order requiring the owner or operator of the facility or site to conduct any monitoring, testing, analysis, and reporting with respect to the facility or site which the department deems reasonable to ascertain the nature and extent of the hazard.
2. In the case of any facility or site not in operation at the time a determination is made under subsection 1 with respect to the facility or site, if the department finds the owner or operator of the facility or site could not reasonably be expected to have actual knowledge of the presence of hazardous waste or regulated substance at the facility or site and of its potential for release, the department may issue an order requiring the most recent previous owner or operator of the facility or site which could reasonably be expected to have such actual knowledge to carry out the actions referred to in subsection 1.
3. A person that violates this section is subject to a civil penalty of five thousand dollars per day of violation.

23.1-04-14. Imminent hazard.

Upon receipt of information that the past or present handling, storage, transportation, treatment, or disposal of any waste or regulated substance may present an imminent and substantial endangerment to health or the environment, the department may take emergency action necessary to protect health or the environment.

23.1-04-15. Enforcement penalties and citizen participation.

1. If the department finds a person is in violation of a permit, rule, standard, or requirement of this chapter, the department may issue an order requiring the person to comply with the permit, rule, standard, or requirement, and the department may bring an action for a civil or criminal penalty, including an action for injunctive relief. An action under this chapter must be brought in the district court for the county in which the violation occurred or in which the party in violation has the party's residence or principal office in the state.
2. A person that violates a provision of this chapter or any rule, standard, or permit condition adopted under this chapter is subject to a civil penalty not to exceed twenty-five thousand dollars per day of violation. Each day of noncompliance constitutes a separate violation for purposes of penalty assessments.
3. A person that knowingly violates a provision of this chapter or a rule, standard, or permit condition adopted under this chapter, or that knowingly makes a false statement or representation in documentation required by this chapter, is subject to a fine not to exceed twenty-five thousand dollars per day of violation, to imprisonment for a period not to exceed one year, or both.
4. A person that knowingly violates a provision of this chapter in a manner that manifests extreme indifference to human life and places an individual in imminent danger of death or serious bodily injury, is subject to a fine not to exceed fifty thousand dollars per day of violation, to imprisonment for a period not to exceed two years, or both.

5.
 - a. A person having an interest that may be adversely affected by a violation of this chapter may commence a civil action to compel compliance with this chapter, or a rule, order, or permit issued under this chapter.
 - b. Notice of the violation must be given to the department and to an alleged violator sixty days before commencement of a citizen suit brought under this subsection.
 - c. A person with an interest that may be adversely affected by a violation of this chapter may intervene as a matter of right in a civil action brought by the department to require compliance with this chapter.
6. An administrative action brought under this chapter must be conducted in accordance with North Dakota Administrative Code article 33-22.

23.1-04-16. Applicability.

1. The hazardous waste provisions of this chapter do not apply to the following wastes to the degree to which they are exempted from regulation by sections 3001(b)(2) and 3001(b)(3)(A) of the Resource Conservation and Recovery Act, as amended by the Solid Waste Disposal Act Amendments of 1980 [Pub. L. 96-482; 42 U.S.C. 6901 et seq.]:
 - a. Drilling fluids, produced water, and other wastes associated with the exploration, development, or production of crude oil or natural gas or geothermal energy.
 - b. Fly ash waste, bottom ash waste, slag waste, and flue gas emission control waste generated primarily from the combustion or gasification of coal or other fossil fuels.
 - c. Solid waste from the extraction, beneficiation, and processing of ores and minerals, including phosphate rock and overburden from the mining of uranium ore.
 - d. Cement kiln dust waste.
2. If a waste disposal site for any of the wastes specified in subsection 1 is to be closed, the owner or operator shall file a plat of the disposal site with the recorder of each county in which the facility is located, together with a description of the wastes placed in the site.

23.1-04-17. Limited liability for subsequent owners of property.

1. Notwithstanding any other provision of law and except as expressly provided by federal law, a person that acquires property is not liable for any existing hazardous waste or substance on the property if:
 - a. The person acquired the property after the disposal or placement of the hazardous waste or substance on, in, or at the property, and at the time the person acquired the property that person did not know and had no reason to know any hazardous waste or substance was disposed of on, in, or at the property;
 - b. The person is a governmental entity that acquired the property by escheat, by tax sale, foreclosure, or through any other involuntary transfer or

- acquisition, or through the exercise of eminent domain authority by purchase or condemnation; or
- c. The person acquired the property by inheritance or bequest and that person did not know and had no reason to know that any hazardous waste or substance was disposed of on, in, or at the property.
 2. To establish the person had no reason to know, the person must have undertaken, at the time of acquisition, all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice in an effort to minimize liability. For purposes of this requirement, a court shall take into account any specialized knowledge or experience on the part of the person, the relationship of the purchase price to the value of the property as uncontaminated, commonly known or reasonably ascertainable information about the property, the obviousness of the presence or likely presence of contamination at the property, and the ability to detect the contamination by appropriate inspection.
 3. A person that has acquired real property may establish a rebuttable presumption that the person has made all appropriate inquiry if the person establishes that, immediately before or at the time of acquisition, the person performed an investigation of the property, conducted by an environmental professional, to determine or discover the obviousness of the presence or likely presence of a release or threatened release of hazardous waste or substances on the property.
 4. The presumption does not arise unless the person has maintained a compilation of the information reviewed in the course of the investigation.
 5. This section does not diminish the liability of any previous owner or operator of the property which would otherwise be liable under this chapter, and nothing in this section affects the liability under this chapter of a person that, by any act or omission, caused or contributed to the release or threatened release of a hazardous waste or substance the subject of the action relating to the property.
 6. As used in this section, environmental professional means an individual, or entity managed or controlled by an individual, who, through academic training, occupational experience, and reputation, such as engineers, environmental consultants, and attorneys, can objectively conduct one or more aspects of an environmental investigation.

SECTION 20. Chapter 23.1-05 of the North Dakota Century Code is created and enacted as follows:

23.1-05-01. Southwestern low-level radioactive waste disposal compact.

The southwestern low-level radioactive waste disposal compact is entered with all jurisdictions legally joining the compact, in the form substantially as follows:

ARTICLE I - COMPACT POLICY AND FORMATION

The party states hereby find and declare all of the following:

1. The United States Congress, by enacting the Low-Level Radioactive Waste Policy Act, Public Law 96-573, as amended by the Low-Level Radioactive

Waste Policy Amendments Act of 1985 [42 U.S.C. 2021b - 2021j], has encouraged the use of interstate compacts to provide for the establishment and operation of facilities for regional management of low-level radioactive waste.

2. It is the purpose of this compact to provide the means for such a cooperative effort between or among party states to protect the citizens of the states and the states' environments.
3. It is the policy of party states to this compact to encourage the reduction of the volume of low-level radioactive waste requiring disposal within the compact region.
4. It is the policy of the party states that the protection of the health and safety of their citizens and the most ecological and economical management of low-level radioactive wastes can be accomplished through cooperation of the states by minimizing the amount of handling and transportation required to dispose of these wastes and by providing facilities that serve the compact region.
5. Each party state, if an agreement state pursuant to section 2021 of title 42 of the United States Code, or the nuclear regulatory commission if not an agreement state, is responsible for the primary regulation of radioactive materials within its jurisdiction.

ARTICLE II - DEFINITIONS

As used in this compact, unless the context clearly indicates otherwise, the following definitions apply:

1. "Commission" means the southwestern low-level radioactive waste commission established in Article III of this compact.
2. "Compact region" or "region" means the combined geographical area within the boundaries of the party states.
3. "Disposal" means the permanent isolation of low-level radioactive waste pursuant to requirements established by the nuclear regulatory commission and the environmental protection agency under applicable laws, or by a party state if the state hosts a disposal facility.
4. "Generate", when used in relation to low-level radioactive waste, means to produce low-level radioactive waste.
5. "Generator" means a person whose activity, excluding the management of low-level radioactive waste, results in the production of low-level radioactive waste.
6. "Host county" means a county, or other similar political subdivision of a party state, in which a regional disposal facility is located or being developed.
7. "Host state" means a party state in which a regional disposal facility is located or being developed. California is the host state under this compact for the first thirty years from the date the California regional disposal facility commences operations.

8. "Institutional control period" means that period of time in which the facility license is transferred to the disposal site owner in compliance with the appropriate regulations for long-term observation and maintenance following the postclosure period.
9. "Low-level radioactive waste" means regulated radioactive material that meets all of the following requirements:
 - a. The waste is not high-level radioactive waste, spent nuclear fuel, or byproduct material as defined in section 11e(2) of the Atomic Energy Act of 1954 [42 U.S.C. 2014(e)(2)].
 - b. The waste is not uranium mining or mill tailings.
 - c. The waste is not any waste for which the federal government is responsible pursuant to subdivision (b) of section 3 of the Low-Level Radioactive Waste Policy Amendments Act of 1985 [42 U.S.C. 2021c(b)].
 - d. The waste is not an alpha-emitting transuranic nuclide with a half-life greater than five years and with a concentration greater than one hundred nanocuries per gram, or plutonium-241 with a concentration greater than three thousand five hundred nanocuries per gram, or curium-242 with a concentration greater than twenty thousand nanocuries per gram.
10. "Major generator state" means a party state that generates ten percent of the total amount of low-level radioactive waste produced within the compact region and disposed of at the regional disposal facility. If no party state other than California generates at least ten percent of the total amount, "major generator state" means the party state that is second to California in the amount of waste produced within the compact region and disposed of at the regional disposal facility.
11. "Management" means collection, consolidation, storage, packaging, or treatment.
12. "Operator" means a person who operates a regional disposal facility.

15. "Postclosure period" means that period of time after completion of closure of a disposal facility during which the licensee observes, monitors, and carries out necessary maintenance and repairs at the disposal facility to assure that the disposal facility will remain stable and will not need ongoing active maintenance. This period ends with the beginning of the institutional control period.
16. "Regional disposal facility" means a nonfederal low-level radioactive waste disposal facility established and operated under this compact.
17. "Site closure and stabilization" means the activities of the disposal facility operator taken at the end of the disposal facility's operating life to assure the

continued protection of the public from any residual radioactive or other potential hazards present at the disposal facility.

18. "Transporter" means a person who transports low-level radioactive waste.
19. "Uranium mine and mill tailings" means waste resulting from mining and processing of ores containing uranium.

ARTICLE III - THE COMMISSION

1. There is hereby established the southwestern low-level radioactive waste commission.
 - a. The commission consists of one voting member from each party state to be appointed by the governor, confirmed by the senate of that party state, and to serve at the pleasure of the governor of each party state, and one voting member from the host county. The appointing authority of each party state shall notify the commission in writing of the identity of the member and of any alternates. An alternate may act in the member's absence.
 - b. The host state shall also appoint that number of additional voting members of the commission which is necessary for the host state's members to compose at least fifty-one percent of the membership on the commission. The host state's additional members must be appointed by the host state governor and confirmed by the host state senate.

If there is more than one host state, only the state in which is located the regional disposal facility actively accepting low-level radioactive waste pursuant to this compact may appoint these additional members.
 - c. If the host county has not been selected at the time the commission is appointed, the governor of the host state shall appoint an interim local government member, who must be an elected representative of a local government. After a host county is selected, the interim local government member shall resign and the governor shall appoint the host county member pursuant to subdivision d.
 - d. The governor shall appoint the host county member from a list of at least seven candidates compiled by the board of county commissioners of the host county.
 - e. In recommending and appointing the host county member pursuant to subdivision d, the board of county commissioners and the governor shall give first consideration to recommending and appointing the members of the board of county commissioners in whose district the regional disposal facility is located or being developed. If the board of county commissioners of the host county does not provide a list to the governor of at least seven candidates from which to choose, the governor shall appoint a resident of the host county as the host county member.
 - f. The host county member is subject to confirmation by the senate of the host state and serves at the pleasure of the governor of the host state.

2. The commission is a legal entity separate and distinct from the party states and is liable for its actions. Members of the commission are not personally liable for actions taken in their official capacity. The liabilities of the commission are not to be deemed liabilities of the party states.
3. The commission shall conduct its business affairs pursuant to the laws of the host state and disputes arising out of commission action must be governed by the laws of the host state. The commission must be located in the capital city of the host state in which the regional disposal facility is located.
4. The commission's records are subject to the host state's public records law, and the meetings of the commission must be open and public in accordance with the host state's open meeting law.
5. The commission members are public officials of the appointing state and are subject to the conflict of interest laws, as well as any other law, of the appointing state. The commission members must be compensated according to the appointing state's law.
6. Each commission member is entitled to one vote. A majority of the commission constitutes a quorum. Unless otherwise provided in this capacity, a majority of the total number of votes on the commission is necessary for the commission to take any action.
7. The commission has all of the following duties and authority:
 - a. The commission shall do, pursuant to the authority granted by this compact, whatever is reasonably necessary to ensure that low-level radioactive wastes are safely disposed of and managed within the region.
 - b. The commission shall meet at least once a year and otherwise as business requires.
 - c. The commission shall establish a compact surcharge to be imposed upon party state generators. The surcharge must be based upon the cubic feet of low-level radioactive waste and the radioactivity of the low-level radioactive waste and must be collected by the operator of the disposal facility.

The host state shall set, and the commission shall impose, the surcharge after congressional approval of the compact. The amount of the surcharge must be sufficient to establish and maintain a reasonable level of funds for all of the following purposes:

- (1) The activities of the commission and commission staff.
- (2) At the discretion of the host state, a third-party liability fund to provide compensation for injury to persons or property during the operational, closure, stabilization, and postclosure and institutional control periods of the regional disposal facility. This paragraph does not limit the responsibility or liability of the operator, who shall comply with any federal or host state statutes or regulations regarding third-party liability claims.

- (3) A local government reimbursement fund, for the purpose of reimbursing the local governmental entity or entities hosting the regional disposal facility for any costs or increased burdens on the local governmental entity for services, including, general fund expenses, the improvement and maintenance of roads and bridges, fire protection, law enforcement, monitoring by local health officials, and emergency preparation and response related to the hosting of the regional disposal facility.
- d. The surcharges imposed by the commission for purposes of paragraphs 2 and 3 of subdivision c and surcharges pursuant to subdivision c of subsection 5 of Article IV must be transmitted on a monthly basis to the host state for distribution to the proper accounts.
- e. The commission shall establish a fiscal year that conforms to the fiscal years of the party states to the extent possible.
- f. The commission shall keep an accurate account of all receipts and disbursements. An annual audit of the books of the commission must be conducted by an independent certified public accountant, and the audit report must be made a part of the annual report of the commission.
- g. The commission shall prepare and include in the annual report a budget showing anticipated receipts and disbursements for the subsequent fiscal year.
- h. The commission may accept any grants, equipment, supplies, materials, or services, conditional or otherwise, from the federal government or a state government. The nature, amount and condition, if any, of any donation, grant, or other resources accepted pursuant to this subdivision and the identity of the donor or grantor must be detailed in the annual report of the commission.

However, the host state is entitled to receive, for the uses specified in subparagraph E of paragraph 2 of subsection d of section 2021e of title 42 of the United States Code, any payments paid from the special escrow account for which the secretary of energy is trustee pursuant to subparagraph A of paragraph 2 of subsection d of section 2021e of title 42 of the United States Code.

- i. The commission shall submit communications to the governors and to the presiding officers of the legislative assemblies of the party states regarding the activities of the commission, including an annual report to be submitted on or before January fifteenth of each year. The commission shall include in the annual report a review of, and recommendations for, low-level radioactive waste disposal methods that are alternative technologies to the shallow land burial of low-level radioactive waste.
- j. The commission shall assemble and make available to the party states, and to the public, information concerning low-level radioactive waste management needs, technologies, and problems.
- k. The commission shall keep a current inventory of all generators within the region, based upon information provided by the party states.

- l. The commission shall keep a current inventory of all regional disposal facilities, including information on the size, capacity, location, specific low-level radioactive wastes capable of being managed, and the projected useful life of each regional disposal facility.
- m. The commission may establish advisory committees for the purpose of advising the commission on the disposal and management of low-level radioactive waste.
- n. The commission may enter into contracts to carry out its duties and authority, subject to projected resources. No contract made by the commission may bind a party state.
- o. The commission shall prepare contingency plans, with the cooperation and approval of the host state, for the disposal and management of low-level radioactive waste in the event that any regional disposal facility should be closed.
- p. The commission may sue and be sued and, when authorized by a majority vote of the members, may seek to intervene in an administrative or judicial proceeding related to this compact.
- q. The commission must be managed by an appropriate staff, including an executive director. Notwithstanding any other provision of law, the commission may hire or retain, or both, legal counsel.
- r. The commission may, subject to applicable federal and state laws, recommend to the appropriate host state authority suitable land and rail transportation routes for low-level radioactive waste carriers.
- s. The commission may enter into an agreement to import low-level radioactive waste into the region only if both of the following requirements are met:
 - (1) The commission approves the importation agreement by a two-thirds vote of the commission.
 - (2) The commission and the host state assess the affected regional disposal facilities' capability to handle imported low-level radioactive wastes and any relevant environmental or economic factors, as defined by the host state's appropriate regulatory authorities.
- t. The commission may, upon petition, allow an individual generator, a group of generators, or the host state of the compact, to export low-level radioactive wastes to a low-level radioactive waste disposal facility located outside the region. The commission may approve the petition only by a two-thirds vote of the commission. The permission to export low-level radioactive wastes is effective for that period of time and for the amount of low-level radioactive waste, and subject to any other term or condition, which may be determined by the commission.
- u. The commission may approve, only by a two-thirds vote of the commission, the exportation outside the region of material, which otherwise meets the criteria of low-level radioactive waste, if the sole purpose of the exportation is to process the material for recycling.

- v. The commission shall, not later than ten years before the closure of the initial or subsequent regional disposal facility, prepare a plan for the establishment of the next regional disposal facility.

ARTICLE IV - RIGHTS, RESPONSIBILITIES, AND OBLIGATIONS OF PARTY STATES

1. There must be regional disposal facilities sufficient to dispose of the low-level radioactive waste generated within the region.
2. Low-level radioactive waste generated within the region must be disposed of at regional disposal facilities and each party state must have access to any regional disposal facility without discrimination.
3. a. Upon the effective date of this compact, California must serve as the host state and must comply with the requirements of subsection 5 for at least thirty years from the date the regional disposal facility begins to accept low-level radioactive waste for disposal. The extension of the obligation and duration is at the option of California.

If California does not extend this obligation, the party state, other than California, which is the largest major generator state, must then serve as the host state for the second regional disposal facility.

The obligation of a host state which hosts the second regional disposal facility must also run for thirty years from the date the second regional disposal facility begins operations.

- b. The host state may close its regional disposal facility when necessary for public health or safety.
4. The party states of this compact cannot be members of another regional low-level radioactive waste compact entered into pursuant to the Low-Level Radioactive Waste Policy Act, as amended by the Low-Level Radioactive Waste Policy Amendments Act of 1985 [42 U.S.C. 2021b - 2021j].
5. A host state shall do all of the following:
 - a. Cause a regional disposal facility to be developed on a timely basis.
 - b. Ensure by law, consistent with any applicable federal laws, the protection and preservation of public health and safety in the siting, design, development, licensing, regulation, operation, closure, decommissioning, and long-term care of the regional disposal facilities within the state.
 - c. Ensure that charges for disposal of low-level radioactive waste at the regional disposal facility are reasonably sufficient to do all of the following:
 - (1) Ensure the safe disposal of low-level radioactive waste and long-term care of the regional disposal facility.
 - (2) Pay for the cost of inspection, enforcement, and surveillance activities at the regional disposal facility.

- (3) Assure that charges are assessed without discrimination as to the party state of origin.
 - d. Submit an annual report to the commission on the status of the regional disposal facility including projections of the facility's anticipated future capacity.
 - e. The host state and the operator shall notify the commission immediately upon the occurrence of any event which could cause a possible temporary or permanent closure of a regional disposal facility.
- 6. Each party state is subject to the following duties and authority:
 - a. To the extent authorized by federal law, each party state shall develop and enforce procedures requiring low-level radioactive waste shipments originating within its borders and destined for a regional disposal facility to conform to packaging and transportation requirements and regulations. These procedures must include all of the following requirements:
 - (1) Periodic inspections of packaging and shipping practices.
 - (2) Periodic inspections of low-level radioactive waste containers while in the custody of transporters.
 - (3) Appropriate enforcement actions with respect to violations.
 - b. A party state may impose a surcharge on the low-level radioactive waste generators within the state to pay for activities required by subdivision a.
 - c. To the extent authorized by federal law, each party state shall, after receiving notification from a host state that a person in a party state has violated packaging, shipping, or transportation requirements or regulations, take appropriate actions to ensure that these violations do not continue. Appropriate actions include requiring that a bond be posted by the violator to pay the cost of repackaging at the regional disposal facility and prohibiting future shipments to the regional disposal facility.
 - d. Each party state shall maintain a registry of all generators within the state that may have low-level radioactive waste to be disposed of at a regional disposal facility, including the amount of low-level radioactive waste and the class of low-level radioactive waste generated by each generator.
 - e. Each party state shall encourage generators within its borders to minimize the volume of low-level radioactive waste requiring disposal.
 - f. Each party state may rely on the good-faith performance of the other party states to perform those acts that are required by this compact to provide regional disposal facilities, including the use of the regional disposal facilities in a manner consistent with this compact.
 - g. Each party state shall provide the commission with any data and information necessary for the implementation of the commission's responsibilities, including taking those actions necessary to obtain this data or information.

- h. Each party state shall agree that only low-level radioactive waste generated within the jurisdiction of the party states may be disposed of in the regional disposal facility, except as provided in subdivision s of subsection 7 of Article III.
- i. Each party state shall agree that if there is any injury to persons or property resulting from the operation of a regional disposal facility, the damages resulting from the injury may be paid from the third-party liability fund pursuant to paragraph 2 of subdivision c of subsection 7 of Article III, only to the extent that the damages exceed the limits of liability insurance carried by the operator. No party state, by joining this compact, assumes any liability resulting from the siting, operation, maintenance, long-term care, or other activity relating to a regional facility, and no party state is liable for any harm or damage resulting from a regional facility not located within the state.

ARTICLE V - APPROVAL OF REGIONAL FACILITIES

A regional disposal facility must be approved by the host state in accordance with its laws. This compact does not confer any authority on the commission regarding the siting, design, development, licensing, or other regulation, or the operation, closure, decommissioning, or long-term care of, any regional disposal facility within a party state.

ARTICLE VI - PROHIBITED ACTS AND PENALTIES

1. No person may dispose of low-level radioactive waste within the region unless the disposal is at a regional disposal facility, except as otherwise provided in subdivisions t and u of subsection 7 of Article III.
2. No person may dispose of or manage any low-level radioactive waste within the region unless the low-level radioactive waste was generated within the region, except as provided in subdivisions s, t, and u of subsection 7 of Article III.
3. Violations of this section must be reported to the appropriate law enforcement agency within the party state's jurisdiction.
4. Violations of this section may result in prohibiting the violator from disposing of low-level radioactive waste in the regional disposal facility, as determined by the commission or the host state.

ARTICLE VII - ELIGIBILITY, ENTRY INTO EFFECT, CONGRESSIONAL CONSENT, WITHDRAWAL, EXCLUSION

1. Arizona, North Dakota, South Dakota, and California are eligible to become parties to this compact. Any other state may be made eligible by a majority vote of the commission and ratification by the legislative assemblies of all of the party states by statute, and upon compliance with those terms and conditions for eligibility which the host state may establish. The host state may establish all terms and conditions for the entry of any state, other than the states named in this subsection, as a member of this compact.
2. Upon compliance with the other provisions of this compact, an eligible state may become a party state by legislative enactment of this compact or by executive order of the governor of the state adopting this compact. A state

becoming a party state by executive order ceases to be a party state upon adjournment of the first general session of its legislative assembly convened after the executive order is issued, unless before the adjournment the legislative assembly enacts this compact.

3. A party state, other than the host state, may withdraw from the compact by repealing the enactment of this compact, but this withdrawal does not become effective until two years after the effective date of the repealing legislation. If a party state which is a major generator of low-level radioactive waste voluntarily withdraws from the compact pursuant to this subsection, that state shall make arrangements for the disposal of the other party states' low-level radioactive waste for a time period equal the period of time it was a member of this compact.

If the host state withdraws from the compact, the withdrawal does not become effective until five years after the effective date of the repealing legislation.

4. A party state may be excluded from this compact by a two-thirds vote of the commission members, acting in a meeting, if the state to be excluded has failed to carry out any obligations required by this compact.
5. This compact takes effect upon the enactment by statute by the legislatures of California and at least one other eligible state and upon the consent of Congress and remains in effect until otherwise provided by federal law. This compact is subject to review by Congress and the withdrawal of the consent of Congress every five years after its effective date, pursuant to federal law.

ARTICLE VIII - CONSTRUCTION AND SEVERABILITY

1. This compact must be broadly construed to carry out the purposes of the compact, but the sovereign powers of a party state may not be infringed unnecessarily.
2. This compact does not affect any judicial proceeding pending on the effective date of this compact.
3. If any provision of this compact or the application thereof to any person or circumstances is held invalid, that invalidity does not affect other provisions or applications of the compact which can be given effect without the invalid provision or application, and to this end the provisions of this compact are severable.
4. Nothing in this compact diminishes or otherwise impairs the jurisdiction, authority, or discretion of either of the following:
 - a. The nuclear regulatory commission pursuant to the Atomic Energy Act of 1954, as amended [42 U.S.C. 2011 et seq.].
 - b. An agreement state under section 274 of the Atomic Energy Act of 1954, as amended [42 U.S.C. 2021].
5. Nothing in this compact confers any new authority on the states or commission to do any of the following:

- a. Regulate the packaging or transportation of low-level radioactive waste in a manner inconsistent with the regulations of the nuclear regulatory commission or the United States department of transportation.
- b. Regulate health, safety, or environmental hazards from source, byproduct, or special nuclear material.
- c. Inspect the activities of licensees of the agreement states or of the nuclear regulatory commission.

23.1-06-03. Environmental review advisory council - Public hearing and rule recommendations.

The environmental review advisory council shall hold a public hearing to consider and recommend the adoption, amendment, or repeal of rules and standards under this chapter. Notice of the public hearing must be given by publication in each of the official county newspapers within the state on at least two occasions, one week apart, the last publication being at least thirty days before the first hearing. The hearing must be held in the state capitol, and interested parties may present witnesses and other evidence relevant to proposed rules and standards under this chapter. The council shall consider any other matters related to this chapter and may make recommendations to the department concerning the administration of this chapter.

23.1-06-04. Power and duties of the department.

1. The department shall develop and coordinate a statewide program of air pollution control. To accomplish this, the department shall:
 - a. Encourage the voluntary cooperation of persons to achieve the purposes of this chapter.
 - b. Determine by scientifically oriented field studies and sampling the degree of air pollution in the state and the several parts thereof.
 - c. Encourage and conduct studies, investigations, and research relating to air pollution and its causes, effects, prevention, abatement, and control.
 - d. Advise, consult, and cooperate with other public agencies and with affected groups and industries.
 - e. Issue orders necessary to effectuate the purposes of this chapter and enforce the orders by all appropriate administrative and judicial procedures.

- f. Provide rules relating to the construction of any new direct or indirect air contaminant source or modification of any existing direct or indirect air contaminant source which the department determines will prevent the attainment or maintenance of any ambient air quality standard, and require that before commencing construction or modification of any such source, the owner or operator shall submit the information necessary to permit the department to make this determination.
 - g. Establish ambient air quality standards for the state which may vary according to appropriate areas.
 - h. Formulate and adopt emission control requirements for the prevention, abatement, and control of air pollution in this state including achievement of ambient air quality standards.
 - i. Hold hearings relating to the administration of this chapter, and compel the attendance of witnesses and the production of evidence.
 - j. Require the owner or operator of a regulated air contaminant source to establish and maintain records; make reports; install, use, and maintain monitoring equipment or methods; sample emissions in accordance with those methods at designated locations and intervals, and using designated procedures; and provide other information as may be required.
 - k. Provide by rules a procedure for handling applications for a variance for any person that owns or is in control of any plant, establishment, process, or equipment. The granting of a variance is not a right of the applicant but must be in the discretion of the department.
 - l. Provide by rules any procedures necessary and appropriate to develop, implement, and enforce any air pollution prevention and control program established by the federal Clean Air Act [42 U.S.C. 7401 et seq.], as amended, the authorities and responsibilities of which are delegatable to the state by the United States environmental protection agency. The rules may include enforceable ambient standards, emission limitations, and other control measures, means, techniques, or economic incentives, including fees, marketable permits, and auctions of emissions rights, as provided by the Act. The department shall develop and implement the federal programs if the department determines that doing so benefits the state.
 - m. Provide by rules a program for implementing lead-based paint remediation training, certification, and performance requirements in accordance with title 40, Code of Federal Regulations, part 745, sections 220, 223, 225, 226, 227, and 233.
2. After consultation with the advisory council, the department may adopt, amend, and repeal rules under this chapter.

23.1-06-05. Licensing of asbestos and lead-based paint contractors and certification of asbestos and lead-based paint workers.

1. The department shall administer and enforce a licensing program for asbestos contractors and lead-based paint contractors and a certification program for asbestos workers and lead-based paint workers. To do so, the department shall:

- a. Require training of, and to examine, asbestos workers and lead-based paint workers.
 - b. Establish standards and procedures for the licensing of contractors, and the certification of asbestos workers engaging in the abatement of friable asbestos materials or nonfriable asbestos materials that become friable during abatement, and establish performance standards for asbestos abatement. The performance standards will be as stringent as those standards adopted by the United States environmental protection agency pursuant to section 112 of the federal Clean Air Act [42 U.S.C. 7401 et seq.], as amended.
 - c. Establish standards and procedures for licensing contractors and certifying lead-based paint workers engaging in the abatement of lead-based paint, and establish performance standards for lead-based paint abatement in accordance with title 40, Code of Federal Regulations, part 745, sections 220, 223, 225, 226, 227, and 233.

 - e. Establish an annual fee and renewal fees for licensing asbestos contractors and lead-based paint contractors and certifying asbestos and lead-based paint workers, and establish examination fees for asbestos and lead-based paint workers under section 23.1-06-10. The annual, renewal, and examination fees for lead-based contractors and workers may not exceed those charged to asbestos contractors and workers.
 - f. Establish indoor environmental nonoccupational air quality standards for asbestos.
 - g. Adopt and enforce rules as necessary for the implementation of this section.
2. For nonpublic employees performing asbestos abatement in facilities or on facility components owned or leased by their employer, only the provisions of rules adopted in accordance with the federal Asbestos Hazard Emergency Response Act of 1986 [Pub. L. 99-519; 100 Stat. 2970; 15 U.S.C. 2641 et seq.], as amended, or the federal Clean Air Act [Pub. L. 95-95; 91 Stat. 685; 42 U.S.C. 7401 et seq.], as amended, apply to this section. This does not include ownership that was acquired solely to effect a demolition or renovation.

23.1-06-06. Sulfur dioxide ambient air quality standards more strict than federal standards prohibited.

The department may not adopt ambient air quality rules or standards for sulfur dioxide that affect coal conversion facilities or petroleum refineries that are more strict than federal rules or standards under the federal Clean Air Act [42 U.S.C. 7401 et seq.], nor may the department adopt ambient air quality rules or standards for sulfur dioxide that affect these facilities and refineries when there are no corresponding federal rules or standards. Any ambient air quality standards that have been adopted by the department for sulfur dioxide that are more strict than federal rules or standards under the federal Clean Air Act, or for which there are no

corresponding federal rules or standards, are void as to coal conversion facilities and petroleum refineries. However, the department may adopt rules for dealing with exposures of less than one hour to sulfur dioxide emissions on a source-by-source basis pursuant to any regulatory program for dealing with short-term exposures to sulfur dioxide that may be established under the federal Clean Air Act. Any intervention levels or standards set forth in the rules may not be more strict than federal levels or standards recommended or adopted under the federal program. In adopting the rules, the department shall follow all other provisions of state law governing the department's adoption of ambient air quality rules when there are no mandatory corresponding federal rules or standards.

23.1-06-07. Requirements for adoption of air quality rules more strict than federal standards.

1. Notwithstanding any other provisions of this title, the department may not adopt air quality rules or standards affecting coal conversion and associated facilities, petroleum refineries, or oil and gas production and processing facilities which are more strict than federal rules or standards under the federal Clean Air Act [42 U.S.C. 7401 et seq.], nor may the department adopt air quality rules or standards affecting such facilities when there are no corresponding federal rules or standards, unless the more strict or additional rules or standards are based on a risk assessment that demonstrates a substantial probability of significant impacts to public health or property, a cost-benefit analysis that affirmatively demonstrates that the benefits of the more stringent or additional state rules and standards will exceed the anticipated costs, and the independent peer reviews required by this section.
2. The department shall hold a hearing on any rules or standards proposed for adoption under this section on not less than ninety days' notice. The notice of hearing must specify all studies, opinions, and data that have been relied upon by the department and must state that the studies, risk assessment, and cost-benefit analysis that support the proposed rules or standards are available at the department for inspection and copying. If the department intends to rely upon any studies, opinions, risk assessments, cost-benefit analyses, or other information not available from the department when it gave its notice of hearing, the department shall give a new notice of hearing not less than ninety days before the hearing which clearly identifies the additional or amended studies, analyses, opinions, data, or information upon which the department intends to rely and conduct an additional hearing if the first hearing has already been held.
3. In this section:
 - a. "Cost-benefit analysis" means both the analysis and the written document that contains:
 - (1) A description and comparison of the benefits and costs of the rule and of the reasonable alternatives to the rule. The analysis must include a quantification or numerical estimate of the quantifiable benefits and costs. The quantification or numerical estimate must use comparable assumptions, including time periods, specify the ranges of predictions, and explain the margins of error involved in the quantification methods and estimates being used. The costs that must be considered include the social, environmental, and economic costs that are expected to result directly or indirectly from implementation or compliance with the proposed rule.

(2) A reasonable determination whether as a whole the benefits of the rule justify the costs of the rule and that the rule will achieve the rulemaking objectives in a more cost-effective manner than other reasonable alternatives, including the alternative of no government action. In evaluating and comparing the costs and benefits, the department may not rely on cost, benefit, or risk assessment information that is not accompanied by data, analysis, or supporting materials that would enable the department and other persons interested in the rulemaking to assess the accuracy, reliability, and uncertainty factors applicable to the information.

b. "Risk assessment" means both the process used by the department to identify and quantify the degree of toxicity, exposure, or other risk posed for the exposed individuals, populations, or resources, and the written document containing an explanation of how the assessment process has been applied to an individual substance, activity, or condition. The risk assessment must include a discussion that characterizes the risks being assessed. The risk characterization must include the following elements:

(1) A description of the exposure scenarios used, the natural resources or subpopulations being exposed, and the likelihood of these exposure scenarios expressed in terms of probability.

(2) A hazard identification that demonstrates whether exposure to the substance, activity, or condition identified is causally linked to an adverse effect.

(3) The major sources of uncertainties in the hazard identification, dose-response, and exposure assessment portions of the risk assessment.

(4) When a risk assessment involves a choice of any significant assumption, inference, or model, the department, in preparing the risk assessment, shall:

(a) Rely only upon environmental protection agency-approved air dispersion models.

(b) Identify the assumptions, inferences, and models that materially affect the outcome.

(c) Explain the basis for any choices.

(d) Identify any policy decisions or assumptions.

(e) Indicate the extent to which any model has been validated by, or conflicts with, empirical data.

(f) Describe the impact of alternative choices of assumptions, inferences, or mathematical models.

(5) The range and distribution of exposures and risks derived from the risk assessment.

- c. The risk assessment and cost-benefit analysis performed by the department must be independently peer reviewed by qualified experts selected by the environmental review advisory council.
4. This section applies to any petition submitted to the department under section 23.1-01-04 which identifies air quality rules or standards affecting coal conversion facilities or petroleum refineries that are more strict than federal rules or standards under the federal Clean Air Act [42 U.S.C. 7401 et seq.] or for which there are no corresponding federal rules or standards, regardless of whether the department has previously adopted the more strict or additional rules or standards pursuant to section 23.1-01-04. This section also applies to any petitions filed under section 23.1-01-04 affecting coal conversion facilities or petroleum refineries that are pending on the effective date of this section for which new rules or standards have not been adopted, and the department shall have a reasonable amount of additional time to comply with the more stringent requirements of this section. To the extent section 23.1-01-04.1 conflicts with this section, the provisions of this section govern. This section does not apply to existing rules that set air quality standards for odor, hydrogen sulfide, visible and fugitive emissions, or emission standards for particulate matter and sulfur dioxide, but does apply to new rules governing those standards.

23.1-06-08. Classification and reporting of air pollution sources.

1. After consultation with the environmental review advisory council the department, by rule, may classify air contaminant sources according to levels and types of emissions and other criteria that relate to air pollution, and may require reporting for any class. Classifications made under this subsection may apply to the state as a whole or to any designated area of the state, and must be made with special reference to effects on health, economic, and social factors and physical effects on property.
2. A person operating or responsible for the operation of air contaminant sources of any class for which reporting is required shall make reports containing information the department deems relevant to air pollution.

23.1-06-09. Permits or registration.

1. A person may not construct, install, modify, use, or operate an air contaminant source designated by regulation, capable of causing or contributing to air pollution, either directly or indirectly, without a permit from the department or in violation of any conditions imposed by the permit.
2. The department shall provide for the issuance, suspension, revocation, and renewal of permits that it requires under this section.
3. The department may require applications for permits to be accompanied by plans, specifications, and other information it deems necessary.
4. Possession of an approved permit or registration certificate does not relieve any person of the responsibility to comply with applicable emission limitations or with any other law or rule, and does not relieve any person from the requirement to possess a valid contractor's license issued under chapter 43-07.

5. The department by rule may provide for registration and registration renewal of certain air contaminant sources in lieu of a permit.
6. The department may exempt by rule certain air contaminant sources from the permit or registration requirements in this section when the department makes a finding the exemption will not be contrary to section 23.1-06-02.

23.1-06-10. Fees - Deposit in operating fund.

The department by rule may prescribe and provide for the payment and collection of reasonable fees for permits and registration certificates. The fees must be based on the anticipated cost of filing and processing the application, taking action on the requested permit or registration certificate, and conducting an inspection program to determine compliance or noncompliance with the permit or registration certificate. Any moneys collected for permit or registration fees must be deposited in the department operating fund in the state treasury and must be spent subject to appropriation by the legislative assembly.

23.1-06-11. Right of onsite inspection.

1. Any duly authorized officer, employee, or agent of the department may enter and inspect any property, premise, or place on or at which an air contaminant source is located or is being constructed, installed, or established at any reasonable time for the purpose of ascertaining the state of compliance with this chapter and related rules. If requested, the owner or operator of the premises must receive a report setting forth all facts found which relate to compliance status.
2. The department may conduct tests and take samples of air contaminants, fuel, process material, and other materials that may affect emission of air contaminants from any source, and may have access to and copy any records required by department rules to be maintained, and may inspect monitoring equipment located on the premises. Upon request of the department, the person responsible for the source to be tested shall provide necessary holes in stacks or ducts and other safe and proper sampling, and testing facilities exclusive of instruments and sensing devices necessary for proper determination of the emission of air contaminants. If an authorized representative of the department, during the course of an inspection, obtains a sample of air contaminant, fuel, process material, or other material, the representative shall issue a receipt for the sample obtained to the owner or operator of, or person responsible for, the source tested.
3. To ascertain the state of compliance with this chapter and any applicable rules, a duly authorized officer, employee, or agent of the department may enter and inspect, at any reasonable time, any property, premises, or place on or at which a lead-based paint remediation activity is ongoing. If requested, the department shall provide to the owner or operator of the premises a report that sets forth all facts found which relate to compliance status.

23.1-06-12. Confidentiality of records.

1. Any record, report, or information obtained under this chapter must be available to the public. However, upon a showing satisfactory to the department that disclosure to the public of a part of the record, report, or information, other than emission data, to which the department has access

under this chapter, would divulge trade secrets, the department shall consider that part of the record, report, or information confidential.

2. This section may not prevent disclosure of any report, or record of information to federal, state, or local agencies when necessary for purposes of administration of any federal, state, or local air pollution control laws, or when relevant in any proceeding under this chapter.

23.1-06-13. Administrative procedure and judicial review.

Any proceeding under this chapter for the issuance or modification of rules and regulations, including emergency orders relating to control of air pollution, or determining compliance with rules and regulations of the department, must be conducted in accordance with chapter 28-32. Appeals from the proceeding may be taken under chapter 28-32. When an emergency exists requiring immediate action to protect the public health and safety, the department may, without notice or hearing, issue an order reciting the existence of the emergency and requiring action be taken as necessary to meet the emergency. Notwithstanding any provision of this chapter, the order must be effective immediately, but on application to the department an interested person must be afforded a hearing before the environmental review advisory council within ten days. On the basis of the hearing, the emergency order must be continued, modified, or revoked within thirty days after the hearing. Except as provided for in this section, notice of any hearing held under this chapter must be issued at least thirty days before the date specified for the hearing.

23.1-06-14. Enforcement - Penalties - Injunctions.

1. A person that willfully violates this chapter, or any permit condition, rule, order, limitation, or other applicable requirement implementing this chapter, is subject to a fine of not more than ten thousand dollars per day per violation, or by imprisonment for not more than one year, or both. If the conviction is for a violation committed after a first conviction of the person under this subsection, punishment must be a fine of not more than twenty thousand dollars per day per violation, or by imprisonment for not more than two years, or both.
2. A person that violates this chapter, or any permit condition, rule, order, limitation, or other applicable requirement implementing this chapter, with criminal negligence, is subject to a fine of not more than ten thousand dollars per day per violation, or by imprisonment for not more than six months, or both.
3. A person that knowingly makes any false statement, representation, or certification in any application, record, report, plan, or other document filed or required to be maintained under this chapter or any permit condition, rule, order, limitation, or other applicable requirement implementing this chapter, or that falsifies, tampers with, or knowingly renders inaccurate any monitoring device or method required to be maintained under this chapter or any permit condition, rule, order, limitation, or other applicable requirement implementing this chapter, upon conviction, is subject to a fine of not more than ten thousand dollars per day per violation, or by imprisonment for not more than six months, or both.
4. A person that violates this chapter, or any permit condition, rule, order, limitation, or other applicable requirement implementing this chapter, is subject to a civil penalty not to exceed ten thousand dollars per day per violation.

5. Without prior revocation of any pertinent permits, the department, in accordance with the laws of this state governing injunction or other process, may maintain an action in the name of the state against any person to enjoin a threatened or continuing violation of any provision of this chapter or any permit condition, rule, order, limitation, or other applicable requirement implementing this chapter.

23.1-06-15. Regulation of odors - Rules.

1. In areas located within a city or the area over which a city has exercised extraterritorial zoning as defined in section 40-47-01.1, a person may not discharge into the ambient air any objectionable odorous air contaminant that measures seven odor concentration units or higher outside the property boundary where the discharge is occurring. If an agricultural operation as defined by section 42-04-01 has been in operation for more than one year, as provided by section 42-04-02, and the person making the odor complaint was built or established after the agricultural operation was established, the measurement for compliance with the seven odor concentration units standard must be taken within one hundred feet [30.48 meters] of the subsequently established residence, church, school, business, or public building making the complaint rather than at the property boundary of the agricultural operation. The measurement may not be taken within five hundred feet [.15 kilometer] of the property boundary of the agricultural operation.
2. In areas located outside a city or outside the area over which a city has exercised extraterritorial zoning as defined in section 40-47-01.1, a person may not discharge into the ambient air any objectionable odorous air contaminant that causes odors that measure seven odor concentration units or higher as measured at any of the following locations:
 - a. Within one hundred feet [30.48 meters] of any residence, church, school, business, or public building, or within a campground or public park. An odor measurement may not be taken at the residence of the owner or operator of the source of the odor, or at any residence, church, school, business, or public building, or within a campground or public park, that is built or established within one-half mile [.80 kilometer] of the source of the odor after the source of the odor has been built or established;
 - b. At any point located beyond one-half mile [.80 kilometer] from the source of the odor, except for property owned by the owner or operator of the source of the odor, or over which the owner or operator of the source of the odor has purchased an odor easement; or
 - c. If a county or township has zoned or established a setback distance for an animal feeding operation which is greater than one-half mile [.80 kilometer] under either section 11-33-02.1 or 58-03-11.1, or if the setback distance under subsection 7 is greater than one-half mile [.80 kilometer], measurements for compliance with the seven odor concentration units standard must be taken at the setback distance rather than one-half mile [.80 kilometer] from the facility under subdivision b, except for any residence, church, school, business, public building, park, or campground within the setback distance which was built or established before the animal feeding operation was established, unless the animal feeding operation has obtained an odor easement from the pre-existing facility.

3. An odor measurement may be taken only with a properly maintained scentometer, by an odor panel, or by another instrument or method approved by the department of environmental quality, and only by inspectors certified by the department who have successfully completed a department-sponsored odor certification course and demonstrated the ability to distinguish various odor samples and concentrations. If a certified inspector measures a violation of this section, the department may send a certified letter of apparent noncompliance to the person causing the apparent violation and may negotiate with the owner or operator for the establishment of an odor management plan and best management practices to address the apparent violation. The department shall give the owner or operator at least fifteen days to implement the odor management plan. If the odor problem persists, the department may proceed with an enforcement action provided at least two certified inspectors at the same time each measure a violation and then confirm the violation by a second odor measurement taken by each certified inspector, at least fifteen minutes, but no more than two hours, after the first measurement.
4. A person is exempt from this section while spreading or applying animal manure or other recycled agricultural material to land in accordance with a nutrient management plan approved by the department of environmental quality. A person is exempt from this section while spreading or applying animal manure or other recycled agricultural material to land owned or leased by that person in accordance with rules adopted by the department. An owner or operator of a lagoon or waste storage pond permitted by the department is exempt from this section in the spring from the time when the cover of the permitted lagoon or pond begins to melt until fourteen days after all the ice cover on the lagoon or pond has completely melted. Notwithstanding these exemptions, all persons shall manage their property and systems to minimize the impact of odors on their neighbors.
5. This section does not apply to chemical compounds that can be individually measured by instruments, other than a scentometer, that have been designed and proven to measure the individual chemical or chemical compound, such as hydrogen sulfide, to a reasonable degree of scientific certainty, and for which the department of environmental quality has established a specific limitation by rule.
6. For purposes of this section, a public park is a park established by the federal government, the state, or a political subdivision of the state in the manner prescribed by law. For purposes of this section, a campground is a public or private area of land used exclusively for camping and open to the public for a fee on a regular or seasonal basis.
7.
 - a. In a county that does not regulate the nature, scope, and location of an animal feeding operation under section 11-33-02, the department shall require that any new animal feeding operation permitted under chapter 61-28 be set back from any existing residence, church, school, business, public building, park, or campground.
 - (1) If there are fewer than three hundred animal units, there is no minimum setback requirement.

- (2) If there are at least three hundred animal units but no more than one thousand animal units, the setback for any animal operation is one-half mile [.80 kilometer].
 - (3) If there are at least one thousand one animal units but no more than two thousand animal units, the setback for a hog operation is three-fourths mile [1.20 kilometers], and the setback for any other animal operation is one-half mile [.80 kilometer].
 - (4) If there are at least two thousand one animal units but no more than five thousand animal units, the setback for a hog operation is one mile [1.60 kilometers], and the setback for any other animal operation is three-fourths mile [1.20 kilometers].
 - (5) If there are five thousand one or more animal units, the setback for a hog operation is one and one-half miles [2.40 kilometers], and the setback for any other animal operation is one mile [1.60 kilometers].
- b. The setbacks set forth in subdivision a do not apply if the owner or operator applying for the permit obtains an odor easement from the pre-existing use that is closer.
- c. For purposes of this section:
- (1) One mature dairy cow, whether milking or dry, equals 1.33 animal units;
 - (2) One dairy cow, heifer or bull, other than an animal described in paragraph 1 equals 1.0 animal unit;
 - (3) One weaned beef animal, whether a calf, heifer, steer, or bull, equals 0.75 animal unit;
 - (4) One cow-calf pair equals 1.0 animal unit;
 - (5) One swine weighing fifty-five pounds [24.948 kilograms] or more equals 0.4 animal unit;
 - (6) One swine weighing less than fifty-five pounds [24.948 kilograms] equals 0.1 animal unit;
 - (7) One horse equals 2.0 animal units;
 - (8) One sheep or lamb equals 0.1 animal unit;
 - (9) One turkey equals 0.0182 animal unit;
 - (10) One chicken, other than a laying hen, equals 0.008 animal unit;
 - (11) One laying hen equals 0.012 animal unit;
 - (12) One duck equals 0.033 animal unit; and
 - (13) Any livestock not listed in paragraphs 1 through 12 equals 1.0 animal unit per each one thousand pounds [453.59 kilograms], whether single or combined animal weight.

8. A permitted animal feeding operation may expand its permitted capacity by twenty-five percent on one occasion without triggering a higher setback distance.
9. A county or township may not regulate or impose restrictions or requirements on animal feeding operations or other agricultural operations except as permitted under sections 11-33-02 and 58-03-11.

SECTION 22. Chapter 23.1-07 of the North Dakota Century Code is created and enacted as follows:

23.1-07-01. Statement of policy.

It is the policy of the state of North Dakota to protect the public health and welfare of the people of the state and the state's water resources by classifying all public water supply and wastewater disposal systems in the state and by requiring the examination of operators and the certification of their competency to supervise the operations of such facilities.

23.1-07-02. Definitions.

For the purpose of this chapter, unless the context otherwise requires:

1. "Certificate" means a certificate of competency issued by the department stating that the operator holding the certificate meets the requirements for the specified operator grade in the certification program.
2. "Department" means the department of environmental quality.
3. "Ground water under the direct influence of surface water" means water beneath the surface of the ground with significant occurrence of insects or other macro-organisms, algae, or large-diameter pathogens such as Giardia lamblia, or significant and relatively rapid shifts in water characteristics such as turbidity, temperature, conductivity, or pH which closely correlate to climatological or surface water conditions.
4. "Operator" means the person in direct responsible charge of the operation of a water treatment plant, a water distribution system, a wastewater treatment plant, or a wastewater collection system.
5. "Population equivalent" for a wastewater collection system or treatment plant means the calculated population that would normally contribute the same amount of biochemical oxygen demand per day computed on the basis of seventeen hundredths of one pound [77.11 grams] of five-day, sixty-eight-degree Fahrenheit [20-degree Celsius] biochemical oxygen demand per capita per day.
6. "Wastewater collection system" means that portion of the wastewater disposal system in which wastewater is conveyed to a wastewater treatment plant from the premises of a contributor.
7. "Wastewater disposal system" means the system of pipes, structures, and facilities through which wastewater from a public sewer system or industry is collected and treated for final disposal. The system must serve a population equivalent of twenty-five or more persons.

8. "Wastewater treatment plant" means that portion of the wastewater disposal system used for the treatment and disposal of wastewater and the solids removed from wastewater.
9. "Water distribution system" means that portion of the water supply system in which water is conveyed from the water treatment plant or other supply point to the premises of the consumer.
10. "Water supply system" means the system of pipes, structures, and facilities through which a public water supply is obtained, treated, and sold or distributed for human consumption or household use. The system must have at least fifteen service connections or regularly serve an average of twenty-five or more persons for at least sixty days a year.
11. "Water treatment plant" means that portion of the water supply system that in some way alters the physical, chemical, or bacteriological quality of the water.

23.1-07-03. Classification of plants and systems.

The department shall classify all water treatment plants, water distribution systems, wastewater treatment plants, and wastewater collection systems with due regard to the size, type, character of water and wastewater to be treated, and other physical conditions affecting such facilities, and according to the skill, knowledge, and experience that an operator in responsible charge must have to successfully supervise the operation of such facilities, so as to protect the public health and prevent pollution of the waters of the state.

23.1-07-04. Certification.

When the department is satisfied an applicant is qualified by examination or otherwise to supervise the operation of treatment plants and systems, the department shall issue a certificate attesting to the competency of the applicant as an operator. The certificate must indicate the classification of treatment plant or system the operator is qualified to supervise.

1. A certificate issued under this chapter is valid for only one year and expires on the first day of July of the year after which it was issued.
2. The department may revoke or suspend the certificate of an operator issued under this chapter if the operator has practiced fraud or deception in obtaining the certificate or in the performance of the operator's duty as an operator; if reasonable care, judgment, or the application of the operator's knowledge or ability was not used in the performance of the operator's duties; or if the operator is incompetent and unable to perform properly the operator's duties as an operator. A certificate may not be revoked or suspended except after a hearing before the director of the department, or the director's designated representative. If a certificate is suspended or revoked, a new application for certification may be considered by the department only after the conditions causing the suspension or revocation have been corrected, and evidence of this fact has been satisfactorily submitted to the department. A new certificate may then be granted by the department.
3. Certificates in appropriate classification issued to operators before the effective date of this chapter continue in effect.

23.1-07-05. Fees.

The department may charge a fee for certificates issued under this chapter, but the fees may not exceed fifty dollars for the initial certificate, or twenty-five dollars for the annual renewal certificate. All receipts from the fees must be deposited in the state treasury to be credited to a special fund to be known as the "operators' certification fund" to be used by the department to administer and enforce this chapter and financially assist the department in conducting operator training programs. Any surplus at the end of the fiscal year must be retained by the department for future expenditures.

23.1-07-06. Duties of the department.

The department shall:

1. Hold at least one examination each year at a designated time and place for the purpose of examining candidates for certification.
2. Promote the program of certification of water supply and wastewater disposal system operators.
3. Distribute notices and applications and to receive and evaluate applications.
4. Collect fees for initial certification and annual renewal.
5. Prepare, conduct, and grade examinations.
6. Maintain records of operator qualifications, certification examination results, and a register of certified operators.
7. Promote and schedule regular training schools and programs.
8. Adopt rules necessary to carry out this chapter.

23.1-07-07. Unlawful operation.

Except as provided in this section, it is unlawful for any person to operate a water treatment plant or water distribution system serving twenty-five or more individuals or a wastewater treatment plant or wastewater collection system serving a population equivalent of twenty-five or more individuals unless the competency of the operator to operate such a plant or system is certified by the department in a grade corresponding to the classification of that portion of the system to be supervised. Operators of wastewater collection systems and wastewater stabilization ponds or other nonmechanical wastewater treatment plants that serve a population equivalent of less than five hundred individuals are excluded from this chapter. Operators of water supply systems that serve other than year-round residents are excluded from this chapter if all of the following conditions are met:

1. The water supply is obtained solely from ground water sources not under the direct influence of surface water.
2. Treatment, if provided, consists strictly of disinfection, fluoridation, sequestration, corrosion control, or other processes that involve simple chemical addition and minor operational control.

3. The water supply system is not required by the federal Safe Drinking Water Act or its implementing regulations to be operated by qualified personnel.

23.1-07-08. Violations - Penalty.

Any person violating this chapter or the rules adopted under this chapter, after written notice of the violation by the department, is guilty of a class A misdemeanor.

SECTION 23. Chapter 23.1-08 of the North Dakota Century Code is created and enacted as follows:

23.1-08-01. Finding of necessity.

The legislative assembly finds that:

1. The people of North Dakota have a right to a clean environment, and the costs of maintaining a clean environment through the efficient environmentally acceptable management of solid wastes should be borne by those who use such services.
2. Serious economic, management, and technical problems exist in the management of solid wastes resulting from residential, commercial, industrial, agricultural, and other activities carried on in said jurisdictions.
3. Inefficient and improper methods of managing solid wastes create serious hazards to the public health, result in scenic blights, cause pollution of air and water resources, cause accident hazards, increase rodent and insect disease vectors, have an adverse effect on land values, create public nuisances, and otherwise interfere with community life and development.
4. While the management of solid wastes is the responsibility of each person, problems of solid waste management have become a matter statewide in scope and concern, and necessitate state action through technical assistance and leadership in the application of new improved methods and processes to reduce the amount of solid wastes and unsalvageable materials and to promote environmentally acceptable and economical solid waste management.

23.1-08-02. Definitions.

1. "Collection" means the aggregation of solid waste from the places at which the waste was generated.
2. "Department" means the department of environmental quality.
3. "Disposal" means the discharge, deposit, injection, dumping, spilling, leaking, or placing of any solid waste into or on any land or water including ground water.

5. "Infectious waste" means solid waste that may contain pathogens with sufficient virulence and in sufficient quantity that exposure of a susceptible

- human or animal to the solid waste could cause the human or animal to contract an infectious disease.
6. "Landfill" means a publicly or privately owned area of land where solid wastes are permanently disposed.
 7. "Litter" means discarded and abandoned solid waste materials that are not special waste or industrial waste.
 8. "Major appliance" means an air conditioner, clothes dryer, clothes washer, dishwasher, freezer, microwave oven, oven, refrigerator, stove, furnace, water heater, humidifier, dehumidifier, garbage disposal, trash compactor, or similar appliance.

 10. "Open burning" means the combustion of solid waste without control of combustion air to maintain adequate temperature for efficient combustion, containment of the combustion reaction in an enclosed device to provide sufficient residence time and mixing for complete combustion, and control of the emission of the combustion products.
 11. "Political subdivision" means a city, county, township, or solid waste management authority.
 12. "Resource recovery" means the use, reuse, or recycling of materials, substances, energy, or products contained within or derived from solid waste.
 13. "Solid waste" means any garbage; refuse; sludge from a waste treatment plant, water supply treatment plant, or air pollution control facility; and other discarded material, including solid, liquid, semisolid, or contained gaseous material resulting from industrial, commercial, mining, and agricultural operations, and from community activities. The term does not include:
 - a. Agricultural waste, including manures and crop residues, returned to the soil as fertilizer or soil conditioners; or
 - b. Solid or dissolved materials in domestic sewage, or solid or dissolved material in irrigation return flows or industrial discharges that are point sources subject to permits under section 402 of the Federal Water Pollution Control Act, as amended [Pub. L. 92-500; 86 Stat. 816; 33 U.S.C. 1251 et seq.], or source, special nuclear, or byproduct material as defined by the Atomic Energy Act of 1954, as amended [68 Stat. 919; 42 U.S.C. 2011 et seq.].
 14. "Solid waste management" means the purposeful systematic control of the storage, collection, transport, composting, resource recovery, land treatment, and disposal of solid waste.
 15. "Special waste" means solid waste that is not a hazardous waste regulated under chapter 23.1-04 and includes waste generated from energy conversion facilities; waste from crude oil and natural gas exploration and production;

waste from mineral and ore mining, beneficiation, and extraction; and waste generated by surface coal mining operations. The term does not include municipal waste or industrial waste.

16. "Storage" means the containment and holding of solid waste after generation for a temporary period, at the end of which the solid waste is processed for resource recovery, treated, disposed of, or stored elsewhere.

23.1-08-03. Powers and duties of the department.

The department shall:

1. Administer and enforce the state solid waste management program under this chapter.
2. Provide technical assistance on request to political subdivisions of the state and cooperate with appropriate federal agencies in carrying out the duties under this chapter. On request, the department may provide technical assistance to other persons.
3. Encourage and recommend procedures for using self-financing solid waste management systems and intermunicipal agencies.
4. Promote the planning and application of resource recovery facilities and systems that preserve and enhance the quality of air, water, and all resources.
5. Serve as the official state representative for all purposes of the Federal Solid Waste Disposal Act [Pub. L. 89-272; 79 Stat. 997; 42 U.S.C. 6901 et seq.], as amended, and for other state or federal legislation to assist in the management of solid wastes.
6. Survey the solid waste management needs within the state and maintain and upgrade the North Dakota solid waste management plan.
7. Require any person within the state to submit for review and approval a solid waste management plan to show that solid wastes will be disposed of in accordance with the provisions of this chapter.
8. Adopt and enforce rules governing solid waste management to conserve the air, water, and land resources of the state; protect the public health; prevent environmental pollution and public nuisances; and enable the department to administer this chapter, the adopted solid waste management plan, and delegated federal programs.
9. Establish procedures for permits governing the design, construction, operation, and closure of solid waste management facilities and systems.
10. Prepare, issue, modify, revoke, and enforce orders, after investigation, inspection, notice, and hearing, prohibiting violation of this chapter or of any rules issued under this chapter, and requiring remedial measures for solid waste management as may be necessary or appropriate under this chapter.
11. Adopt rules to establish categories and classifications of solid waste and solid waste management facilities based on waste type and quantity, facility

operation, or other facility characteristics and to limit, restrict, or prohibit the disposal of solid wastes based on environmental or public health rationale.

12. Adopt rules to establish standards and requirements for each category of solid waste management facility.
13. Adopt rules to establish financial assurance requirements to be met by any person proposing construction or operation of a solid waste management facility sufficient to provide for closure and postclosure activities. Financial assurance requirements may include: insurance, trust funds, surety bonds, letters of credit, personal bonds, certificates of deposit, and financial tests or corporate guarantees.
14. Conduct an environmental compliance background review of any applicant for any permit. In conducting the review, if the department finds an applicant for a permit has intentionally misrepresented or concealed any material fact from the department, or has obtained a permit by intentional misrepresentation or concealment of a material fact, has been convicted of a felony or pleaded guilty or nolo contendere to a felony within three years preceding the application for the permit, or has been adjudicated in contempt of an order of any court within three years preceding the application for the permit, the department may deny the application. The department shall consider the relevance of the offense to the business to which the permit is issued, the nature and seriousness of the offense, the circumstances under which the offense occurred, the date of the offense, and the ownership and management structure in place at the time of the offense.

23.1-08-04. Coal combustion residues - Present use and disposal deemed acceptable.

Notwithstanding any other provision of law, the legislative assembly deems the present use and disposal of coal combustion residues to be acceptable and that present regulation allows for the beneficial use of coal combustion residues in concrete, for other construction applications, and for other innovative uses and allows for safe disposal without coal combustion residues being regulated as a hazardous waste. If a federal law or regulation is adopted pertaining to the use and disposal of coal combustion residues, this section does not prohibit the state from seeking state primacy of the federal program.

23.1-08-05. Commercial oilfield special waste recycling facilities - Action against well operators restricted.

1. By June 1, 2015, the department shall select at least one commercial oilfield special waste recycling facility having a pending beneficial use application, for authorization of operation of the facility as a pilot project and to assist the department to develop standards for recycling of oilfield special waste. The pending beneficial use application of the pilot project facility must be supported by scientific findings from a third-party source focused on the anticipated environmental performance of the end products of the recycled oilfield special waste and the practical utility of those end products.
2. Any pilot project facility and any commercial oilfield special waste recycling facility permitted after June 30, 2017, shall obtain a solid waste permit from the department and a treating plant permit from the industrial commission for treatment of oilfield special waste.

3. Any selected pilot project facility may operate as an oilfield special waste recycling facility through June 30, 2017, and may implement beneficial use demonstration projects using processed materials under the guidance of the department. A selected pilot project facility operator shall cooperate with the department to monitor and analyze impacts to the environment.
4. By July 1, 2017, based upon the results of any pilot projects, the department shall make recommendations either to adopt rules under chapter 28-32 governing operations and permitting of commercial oilfield special waste recycling facilities, or to develop written guidelines on recycling and beneficial use of oilfield special waste under the department's beneficial use approval process. The rules or guidelines must assure compliance with federal and state laws and rules for protection of the state's water and air and public health in the handling and subsequent use of oilfield special waste.
5. Upon presentation of official credentials, an employee authorized by the department may:
 - a. Examine the premises and facilities and copy books, papers, records, memoranda, or data of a commercial oilfield special waste recycling facility.
 - b. Enter upon public or private property to take action authorized by this chapter and rules adopted under this chapter, including obtaining information from any person, conducting surveys and investigations, and taking corrective action.
6. The operator of the commercial oilfield special waste recycling facility is liable for the cost of any inspection and corrective action required by the department.
7. As a condition of permitting, the department may require the operator of a commercial oilfield special waste recycling facility to post a bond or other financial assurance payable to the state in a sufficient amount for remediation of any release or disposal of oilfield special waste in violation of the rules of the department, on the premises or property of the facility or at a place where treated or untreated materials from the facility are taken for use or disposal.
8. As used in this section:
 - a. "Commercial oilfield special waste recycling facility" means a commercial recycling facility permitted, or a commercial recycling facility pilot project authorized, under this section for extraction of reusable solids and fluids from any or all types of oilfield special waste.
 - b. "Drilling operation" means oil and gas drilling and production operations and any associated activities that generate oilfield special waste.
 - c. "Oilfield special waste" means special waste associated with oil and gas drilling operations, exploration, development, or production and specifically includes drill cuttings, saltwater, and other solids and fluids from drilling operations.
9. Upon delivery of oilfield special waste to a commercial oilfield special waste recycling facility that is permitted or authorized to conduct recycling operations

under this section and is not affiliated with the well operator, acceptance of the oilfield special waste by the recycling facility, and after the oilfield special waste has been treated and converted to a beneficial use as a usable product or legitimate substitute for a usable product, the well operator is not liable in any civil or criminal action for any subsequent claim or charge regarding the material converted to a beneficial use.

23.1-08-06. Local government ordinances.

Any political subdivision of the state may enact and enforce a solid waste management ordinance that is equal to or more stringent than this chapter and the rules adopted under this chapter.

23.1-08-07. Littering and open burning prohibited - Penalty.

1. A person may not discard and abandon litter, furniture, or major appliances upon public property or upon private property not owned by that person, unless the property is designated for the disposal of litter, furniture, or major appliances and that person is authorized to use the property for that purpose.
2. A person may not engage in the open burning of solid waste, unless the burning is conducted in accordance with rules adopted by the department.
3. A person violating this section is guilty of an infraction for which a minimum fine of two hundred dollars must be imposed, except if the litter discarded and abandoned amounted to more than one cubic foot [0.0283 cubic meter] in volume or if the litter consisted of furniture or a major appliance, the offense is a class B misdemeanor and the person is subject to the civil penalty provided in section 23.1-08-23.

23.1-08-08. Prohibition in landfill disposal - Lead-acid batteries accepted as trade-ins.

1. Infectious waste must be properly treated before disposal by methods approved by the department. A person may not knowingly deposit in a landfill untreated infectious waste.
2. Except as provided in subsection 3, a person may not place in municipal waste or discard or dispose of in a landfill lead-acid batteries, used motor oil, or major appliances.
3. If resource recovery markets are not available for the items listed in subsection 2, the items must be disposed of in a manner approved by the department.
4. Lead-acid batteries must be accepted as trade-ins for new lead-acid batteries by any person who sells lead-acid batteries at retail.

23.1-08-09. Permits.

1. The department may issue permits for solid waste management facilities and solid waste transporters. A person may not own, operate, or use a facility for solid waste disposal or transport solid wastes without a valid permit. Upon receipt of a permit application, the department shall give public notice, in the official newspaper of the county in which the facility is to be located, that the department is considering an application for a solid waste management

facility. The notice must state the name of the applicant, the location of the facility, and a description of the facility. The department shall require as a condition of a permit for a solid waste management facility, not owned or operated by the state or a political subdivision, that any entity that controls the permitholder agrees to accept responsibility for any remedial measures, closure and postclosure care, or penalties incurred by the permitholder. For purposes of this section, "control" means ownership or control, directly, indirectly, or through the actions of one or more persons of the power to vote twenty-five percent or more of any class of voting shares of a permitholder, or the direct or indirect power to control in any manner the election of a majority of the directors of a permitholder, or to direct the management or policies of a permitholder, whether by individuals, corporations, partnerships, trusts, or other entities or organizations of any type. All permits are nontransferable, are for a term of not more than ten years from the date of issuance, and are conditioned upon the observance of the laws of the state and the rules adopted under this chapter.

2. For each permit application, the department shall notify the board of county commissioners of a county in which a new solid waste management facility will be located of the department's intention to issue a permit for the facility. The board of county commissioners may call a special election to be held within sixty days after receiving notice from the department to allow the qualified electors of the county to vote to approve or disapprove of the facility based on public interest and impact on the environment. If a majority of the qualified electors voting on the question in the election vote to disapprove of the facility, the department may not issue the permit and the facility may not be located in that county.
3. Notwithstanding subsection 2, if the new solid waste management facility will be owned or operated by a solid waste management authority, a special election to approve or disapprove of a facility may be called only if the boards of county commissioners from a majority of the counties in the solid waste management district call for a special election. However, a special election must be conducted in each county within the authority. If a majority of the qualified electors voting on the question in the election vote to disapprove of the facility, the department may not issue the permit.
4. Subsections 2 and 3 do not apply to a solid waste management facility operated as part of an energy conversion facility or part of a surface coal mining and reclamation operation, if the solid waste management facility disposes of only waste generated by the energy conversion facility or surface coal mining and reclamation operation.

23.1-08-10. Fees - Deposit in operating fund.

The department by rule may prescribe the payment and collection of reasonable fees to issue permits or registration certificates for registering, licensing, or permitting solid waste generators, transporters, and treatment, storage, recycling, or disposal facilities. The fees must be based on the anticipated cost of filing and processing the application, taking action on the requested permit or registration certificate, and conducting a monitoring and inspection program to determine compliance or noncompliance with the permit or registration certificate. Any moneys collected for permit licensing or registration fees must be deposited in the department operating fund in the state treasury, and any expenditures from the fund are subject to

appropriation by the legislative assembly. Applicants for special use solid waste management facilities shall submit a minimum fee as follows:

1. Twenty thousand dollars for any facility that receives on average one hundred tons [90718 kilograms] or more per day.
2. Ten thousand dollars for any facility which receives on average more than ten tons [9071.80 kilograms] but less than one hundred tons [90718 kilograms] per day.

23.1-08-11. Solid waste management fund - Administration.

The solid waste management fund is a special fund in the state treasury. The Bank of North Dakota shall administer the fund. The fund is a revolving fund, subject to appropriation by the legislative assembly. The Bank may annually deduct up to one-half of one percent of the fund balance including the principal balance of the outstanding loans as a service fee for administering the fund. The Bank shall contract with a certified public accounting firm to audit the fund once every two years. The cost of the audit and any other actual costs incurred by the Bank on behalf of the fund must be paid from the fund. Section 54-44.1-11 does not apply to the fund.

23.1-08-12. Applications for grants or loans - Loan terms.

Moneys in the solid waste management fund may be used to make grants or low-interest loans to political subdivisions for waste reduction, planning, resource recovery, and recycling projects with an emphasis on marketing. An application for a grant or loan out of moneys in the solid waste management fund must be made to the department. The department shall review an application to determine if the purpose of the grant or loan is consistent with the purposes of the fund and the district solid waste management plan. The department shall adopt rules to implement this section. If the department approves an application, the department shall forward the application and the results of the department's review of the application to the Bank of North Dakota. The Bank, in consultation with the department, shall determine the financial criteria that must be met for an application to be approved. A loan must be repaid within a period not exceeding twenty years at an interest rate of four percent.

23.1-08-13. Preconstruction site review.

The department, in cooperation with the state engineer and the state geologist, shall develop criteria for siting a solid waste disposal facility based upon potential impact on environmental resources. Any application for a landfill permit received after the department develops siting criteria as required by this section must be reviewed for site suitability by the department after consultation with the state engineer and state geologist before any site development. Site development does not include the assessment or monitoring associated with the review as required by the department in consultation with the state engineer and state geologist.

23.1-08-14. Waste characterization.

The department may not allow the storage or disposal of solid waste from outside this state, unless it is demonstrated that the governing authority or the generator of the solid waste from outside this state has an effective program for waste quality control and for waste characterization.

23.1-08-15. Municipal waste landfills and incinerators - Certification.

A municipal waste landfill and a municipal waste incinerator must have at least one individual certified by the department onsite at all times during the operation of the landfill or incinerator. The department shall adopt training standards and certification requirements.

23.1-08-16. Public educational materials - Municipal waste reduction and recycling.

The department, after consulting with the superintendent of public instruction, shall develop and disseminate educational materials to encourage voluntary municipal waste reduction, source separation, reuse of materials, recycling efforts, and appropriate management of municipal waste.

23.1-08-17. Disclosure of information before issuance, renewal, transfer, or major modification of permit.

Before an application for the issuance, renewal, transfer, or major modification of a permit under this chapter may be granted, the applicant shall submit to the department a disclosure statement executed under oath or affirmation. The department shall verify and may investigate the information in the statement and shall deny an application for the issuance, renewal, transfer, or major modification of a permit if the applicant has intentionally misrepresented or concealed any material fact in a statement required under this section, a judgment of criminal conviction for violation of any federal or state environmental laws has been entered against the applicant within five years before the date of submission of the application, or the applicant has knowingly and repeatedly violated any state or federal environmental protection laws. The disclosure statement must include:

1. The name and business address of the applicant.
2. A description of the applicant's experience in managing the type of solid waste that will be managed under the permit.
3. A description of every civil and administrative complaint against the applicant for the violation of any state or federal environmental protection law which has resulted in a fine or penalty of more than ten thousand dollars within five years before the date of the submission of the application.
4. A description of every pending criminal complaint alleging the violation of any state or federal environmental protection law.
5. A description of every judgment of criminal conviction entered against the applicant within five years before the date of submission of the application for the violation of any state or federal environmental protection law.
6. A description of every judgment of criminal conviction of a felony constituting a crime involving fraud or misrepresentation which has been entered against the applicant within five years before the date of submission of the application.

23.1-08-18. Inspections.

The department may inspect all solid waste management activities and facilities, at all reasonable times, to ensure compliance with the laws of this state, the provisions of this chapter, and the rules authorized under this chapter.

23.1-08-19. Administrative procedure and judicial review.

A proceeding under this chapter to adopt or modify rules, including emergency orders relating to solid waste management and land protection, or determine compliance with rules of the department, must be conducted in accordance with the provisions of chapter 28-32, and appeals may be taken as provided under that chapter. When an emergency exists requiring immediate action to protect the public health and safety, the department may, without notice or hearing, issue an order reciting the existence of the emergency and requiring action be taken as necessary to meet the emergency. Notwithstanding any provision of this chapter, the order is effective immediately, but on application to the department must be afforded a hearing before the environmental review advisory council within ten days. On the basis of the hearing, the emergency order must be continued, modified, or revoked within thirty days after the hearing.

23.1-08-20. Injunction proceedings.

The violation of any provision of this chapter, or any rule or order issued under the chapter is declared a nuisance inimical to the public health, welfare, and safety. Whenever in the judgment of the department a person has engaged in or is about to engage in any acts that constitute or will constitute a violation of this chapter, or any rule or order issued under the chapter, the department, in accordance with the laws governing injunctions and other process, may maintain an action in the name of the state enjoining the action or for an order directing compliance, and upon a showing by the department that the person has engaged or is about to engage in the acts or practices, a permanent or temporary injunction, restraining order, or other order may be granted.

23.1-08-21. Plats.

A person operating a solid waste management facility for disposal under a permit issued under this chapter shall, upon completion of the operation at each site, file a plat of the area with the recorder of each county in which the facility is located, together with a description of the wastes placed therein.

23.1-08-22. Exemption.

The provisions of this chapter, and the rules or orders authorized under the chapter, do not prevent an individual who resides on unplatted land in unincorporated areas of this state from disposing of that individual's normal household wastes on that individual's property, so long as doing so does not create a health hazard or nuisance.

23.1-08-23. Penalties.

1. Any person that violates this chapter or any permit condition, rule, order, limitation, or other applicable requirement implementing this chapter is subject to a civil penalty not to exceed twelve thousand five hundred dollars per day per violation, unless the penalty for the violation is otherwise specifically provided for and made exclusive in this chapter.
2. Any person that willfully violates any provision of this chapter or any permit condition, rule, order, limitation, or other applicable requirement implementing this chapter is guilty of a class C felony, unless the penalty for the violation is otherwise specifically provided for and made exclusive in this chapter.
3. Any person that willfully makes any false statement, representation, or certification in any application, record, report, plan, or other document filed or

required to be maintained under this chapter or any permit condition, rule, order, limitation, or other applicable requirement implementing this chapter or that falsifies, tampers with, or willfully renders inaccurate any monitoring device or method required to be maintained under this chapter or any permit condition, rule, order, limitation, or other applicable requirement implementing this chapter is guilty of a class C felony, unless the penalty for the violation is otherwise specifically provided for and made exclusive in this chapter.

SECTION 24. Chapter 23.1-09 of the North Dakota Century Code is created and enacted as follows:

23.1-09-01. Definitions.

As used in this chapter, unless the context otherwise requires:

1. "Actually incurred" means in the case of corrective action expenditures, the owner, the operator, an insurer of the owner or operator, or a contractor hired by the owner, operator, or insurer has made a payment, or a contractor has expended time and materials.
2. "Corrective action" means an action taken to minimize, contain, eliminate, remediate, mitigate, or clean up a release, including any remedial emergency measures. The term includes the repair of the closure of a municipal waste landfill on which the action occurs.
3. "Department" means the department of environmental quality.
4. "Fund" means the municipal waste landfill release compensation fund.
5. "Operator" means any person in control of, or having responsibility for, the daily operation of a municipal waste landfill under this chapter.
6. "Owner" means any person who holds title to, controls, or possesses an interest in the municipal waste landfill before or after the discontinuation of its use.
7. "Release" means any unintentional leaking, emitting, discharging, or escaping of leachate from a municipal waste landfill into the environment occurring after July 1, 1993, but does not include discharges or designed venting allowed under federal or state law or under adopted rules.

23.1-09-02. Municipal waste landfill release fund created - Administration of fund.

A municipal waste landfill release compensation fund is created and the department shall administer the fund according to this chapter. The department may employ any assistance and staff to administer the fund within the limits of legislative appropriation.

23.1-09-03. Adoption of rules.

The department shall adopt rules regarding its practices and procedures, the form and procedure for applications for compensation from the fund, procedures for investigation of claims, procedures for determining the amount and type of costs eligible for reimbursement from the fund, and procedures for persons to perform services for the fund.

23.1-09-04. Release discovery.

An owner or operator shall notify the department if the owner or operator has reason to believe that a release has occurred. The department may require corrective action as provided by subsection 10 of section 23.1-08-03.

23.1-09-05. Owner or operator not identified.

The department may initiate legal action to compel performance of a corrective action if an identified owner or operator fails or refuses to comply with section 23.1-09-04, or the department may engage the services of qualified contractors for performance of a corrective action if an owner or operator cannot be identified.

23.1-09-06. Imminent hazard.

Upon receipt of information that a release has occurred which may present an imminent or substantial endangerment of public health or environmental resources, the department may take such emergency action as it determines necessary to protect the public health or the environmental resources.

23.1-09-07. Duty to take action.

Nothing in this chapter limits any person's duty to take action related to a release. However, payment for corrective actions required as a result of a release is governed by this chapter. Nothing in this chapter limits remediation activities taken or directed by any state or federal agency under other environmental statutes.

23.1-09-08. Providing of information.

A person that the department has reason to believe is an owner or operator, or the owner of real property where corrective action is ordered to be taken, or a person that may have information concerning wastes placed into a municipal waste landfill, or a person that may have information concerning a release, if requested by the department, must furnish to the department any information that person has or may reasonably obtain which is relevant to the release.

23.1-09-09. Examination of records.

An employee of the department may, upon presentation of official credentials:

1. Examine and copy books, papers, records, memoranda, or data that may be related to a release which belong to a person that has a duty to provide information to the department under section 23.1-09-08; and
2. Enter upon public or private property for the purpose of taking action authorized by this section, including obtaining information from any person that has a duty to provide the information under section 23.1-09-08, conducting surveys and investigations, and taking corrective action.

23.1-09-10. Responsibility for cost.

The owner or operator is liable for the cost of corrective action required by the department, including the cost of investigating the releases, and for legal actions of the department regarding the release. This chapter does not create any new cause of action for damages on behalf of third parties against the fund.

23.1-09-11. Liability avoided.

An owner or operator may not avoid liability under this chapter or other state environmental law by means of a conveyance of any right, title, or interest in real property or by an indemnification, hold harmless agreement, or similar agreement. However, the provisions of this chapter do not:

1. Prohibit a person that may be liable from entering an agreement by which the person is insured or is a member of a risk retention group, and is thereby indemnified for part or all of the liability;
2. Prohibit the enforcement of an insurance, hold harmless, or indemnification agreement; or
3. Bar a cause of action by a person that may be liable or by an insurer or guarantor, whether by right of subrogation or otherwise.

23.1-09-12. Other remedies.

Nothing in this chapter limits the powers of the department, or precludes the pursuit of any administrative, civil, injunctive, or criminal remedies by the department or any other person. Administrative remedies need not be exhausted to proceed under this chapter. The remedies provided by this chapter are in addition to those provided under existing statutory or common law.

23.1-09-13. Revenue to the fund.

Revenue from the following sources must be deposited in the state treasury and credited to the fund:

1. Any premium fee collected under section 23.1-09-15;
2. Any money recovered by the fund under section 23.1-09-20, and any money paid under an agreement, stipulation, or settlement;
3. Any interest attributable to investment of money in the fund; and
4. Any money received by the department in the form of gifts, grants, reimbursements, or appropriations from any source intended to be used for the purposes of the fund.

23.1-09-14. Eligibility.

1. An owner or operator of an active disposal unit at a municipal waste landfill site, or of a new disposal unit allowed by permit under chapter 23.1-08, shall participate in the fund for that unit provided:
 - a. The disposal unit is designed, constructed, operated, and closed to comply with federal and state statutes and adopted rules in effect as of October 9, 1993;
 - b. The owner or operator has notified the board of the local solid waste management district, and the board has acknowledged and approved the municipal waste landfill site to comply with chapter 23.1-08; and

- c. The owner or operator pays the annual premium fee under section 23.1-09-15 during the duration of operation of the landfill site, except as provided by section 23.1-09-22.
2. An owner or operator that does not comply with this section or with section 23.1-09-15 is ineligible for reimbursement of claims for corrective action.

23.1-09-15. Premium fee.

1. An owner or operator of a municipal waste landfill site that is eligible and participates in the fund shall:
 - a. Notify the department, on forms to be made available by the department, of its intent to participate in the fund at the time of application for permit under chapter 23.1-08 for new disposal units;
 - b. Demonstrate that the disposal unit and the landfill site comply with applicable laws and rules; and
 - c. Pay an annual premium fee of one dollar per ton [907.18 kilograms] or thirty-three cents per cubic yard [0.76 cubic meter] for all solid waste disposed at the landfill site during the premium fee period.
2. The premium fee is payable annually by January thirtieth for a premium fee period corresponding to the previous calendar year.
3. The premium fees collected under this section must be paid to the department for deposit in the state treasury for credit to the fund.

23.1-09-16. Reimbursement for corrective action.

The department shall reimburse an eligible owner or operator for the costs of corrective action, including the investigation, which are greater than one hundred thousand dollars. A reimbursement may not be made unless the department determines that:

1. At the time the release was discovered the owner or operator and the landfill site were in compliance with applicable federal and state statutes and adopted rules, including rules relating to financial responsibility;
2. The department was given notice of the release as required by this chapter and other applicable federal and state statutes;
3. The release occurred from the active disposal unit or a new disposal unit under section 23.1-09-14;
4. The owner or operator has paid the first one hundred thousand dollars of cost of corrective action; and
5. The owner or operator, to the extent possible, fully cooperated with the department in responding to the release.

23.1-09-17. Application for reimbursement.

An eligible owner or operator that has undertaken corrective action in response to a release, the time of release being unknown, may apply to the department for partial

or full reimbursement under section 23.1-09-16 and applicable rules. An owner or operator may be reimbursed only for releases discovered and reported after April 1, 1994.

23.1-09-18. Department to determine costs.

A reimbursement may not be made from the fund until the department has determined the costs for which reimbursement is requested were actually incurred and were reasonable. A reimbursement may be made to only one person for a release.

23.1-09-19. Liability of responsible person.

The right to apply for reimbursement and the receipt of reimbursement does not limit the liability of an owner or operator for damages or costs as a result of a release.

23.1-09-20. Recovery of expenses.

Any reasonable and necessary expenses incurred by the fund as provided by sections 23.1-09-05, 23.1-09-06, 23.1-09-09, and 23.1-09-10 in taking corrective action, including costs of investigating a release, and in taking legal actions may be recovered in a civil action in district court brought by the department against the owner or operator. The certification of expenses by an approved agent of the fund is prima facie evidence that the expenses are reasonable and necessary. Any expenses that are recovered under this section must be deposited in the fund.

23.1-09-21. Coordination of benefits.

If an eligible owner or operator has financial assurance that provides coverage for corrective action, the department shall pay the share of the covered loss or damage for which the fund is responsible. The share that must be paid from the fund is equal to the proportion that the applicable limit of coverage under the fund bears to the limits of all financial assurance on the same basis.

23.1-09-22. Fund ceiling.

When the fund balance exceeds fifteen million dollars, the department shall suspend collection of the premium fee. When the fund balance becomes less than five million dollars through appropriations authorized by this chapter, the department shall resume collection of the fee.

23.1-09-23. Fund appropriation.

Money in the fund is appropriated to the department as a standing and continuing appropriation for the purposes of this chapter.

SECTION 25. Chapter 23.1-10 of the North Dakota Century Code is created and enacted as follows:

23.1-10-01. Environmental emergency cost recovery.

Except as provided in section 23.1-04-17, the department of environmental quality may recover from the parties responsible for an environmental emergency the reasonable and necessary state costs incurred in assessment, removal, corrective action, or monitoring as a result of an environmental emergency in violation of chapter 23.1-03, 23.1-04, 23.1-06, 23.1-08, 61-28, or 61-28.1. As used in this chapter, "environmental emergency" means a release into the environment of a substance requiring an immediate response to protect public health or welfare or the

environment from an imminent and substantial endangerment and which is in violation of chapter 23.1-03, 23.1-04, 23.1-06, 23.1-08, 61-28, or 61-28.1, and "reasonable and necessary costs" means those costs incurred by the department as a result of the failure of the parties responsible for the environmental emergency to implement appropriate assessment and corrective action after receipt of written notice from the department. If assessment, removal, monitoring, or corrective action must be initiated before identification of the responsible parties, the department may assess those prior costs to the responsible parties at the time they are identified.

23.1-10-02. Environmental quality restoration fund.

There is established an environmental quality restoration fund into which the funds recovered in this chapter may be deposited. The fund is to be administered by the department of environmental quality and may be used by the department for costs of environmental assessment, removal, corrective action, or monitoring as determined on a case-by-case basis.

23.1-10-03. Rules adoption.

The department of environmental quality may adopt rules to implement this chapter.

SECTION 26. Chapter 23.1-11 of the North Dakota Century Code is created and enacted as follows:

23.1-11-01. Degradation prevention program - Maintenance of waters.

This chapter establishes a degradation prevention program to protect ground water resources, encourage the wise use of agricultural chemicals, provide for public education regarding preservation of ground water resources, and provide for safe disposal of wastes in a manner that will not endanger the state's ground water resource. Waters of the state must be maintained within standards established under this chapter unless it can be affirmatively demonstrated that a change in quality is justifiable to provide necessary economic or social development and will not adversely affect the beneficial uses of water.

23.1-11-02. Administration of chapter.

The department of environmental quality shall administer this chapter. For purposes of this chapter, "commissioner" means the agriculture commissioner and "department" means the department of environmental quality. Notwithstanding section 4.1-33-03, the agriculture commissioner shall administer chapter 4.1-33 as it relates to pesticide usage.

23.1-11-03. Education program.

The department, the commissioner, the North Dakota state university extension service, and the North Dakota agricultural experiment station shall cooperate with other state and federal agencies on the development of a ground water protection education program.

23.1-11-04. Chemical use data and confidentiality requirement.

The department may require chemical use data from product registrants on products that have been or may likely be found in ground water to conduct its ground water protection program. This information must include chemical registration data and sales information. The department shall keep this information confidential.

23.1-11-05. Ground water standards.

The department shall establish standards for compounds in ground water as set forth by other states and the United States environmental protection agency unless new scientifically confirmed data provides justification for changing these standards.

23.1-11-06. Ground water quality monitoring.

The department shall conduct ground water quality monitoring activities in cooperation with the state engineer and other state agencies. Based on monitoring results, the department shall implement or require appropriate mitigation activities or remedial action to prevent future contamination of ground water. The commissioner may implement or require appropriate mitigation activities pursuant to chapter 4.1-33 to prevent future contamination of ground water as it relates to the use of pesticides.

23.1-11-07. Notification requirement.

A person with verifiable information on the presence of contamination of ground water within the state shall notify the department regarding the contamination.

23.1-11-08. Access for ground water monitoring.

The department may request landowners or operators allow access for monitoring of ground water and of soils at a depth where pesticides may threaten ground water. If the department is denied access by the landowner or operator, the department may apply to any court of competent jurisdiction for authorization to obtain access. The court, upon the application and compliance with chapter 29-29.1, may issue the authorization for the purposes requested. After consultation with the landowner or operator, the department shall conduct the monitoring in a manner that causes the least possible economic impact or hindrance to the landowner's or operator's operations. The names and addresses of landowners and operators who participate in a ground water monitoring program may not be linked, in any public disclosure, to the findings of the program unless it is determined by rule that a compelling public interest justifies the disclosure. Without that determination, disclosure of the information is a violation of section 12.1-13-01.

23.1-11-09. Pollution prevention criteria.

The commissioner, in cooperation with the department, North Dakota state university extension service, and the North Dakota agricultural experiment station, may develop pollution prevention criteria for areas utilized for mixing and storing agricultural chemicals at the retail and end use levels.

23.1-11-10. Wellhead protection program.

The department, in cooperation with the state engineer and state geologist, shall assist in implementing a public water supply wellhead protection program for protection of ground water resources utilizing existing state and local statutory authority.

23.1-11-11. Rules.

The department, with the approval of the commissioner and the state engineer, shall adopt rules necessary for implementation of this chapter.

23.1-11-12. Producer liability.

Liability may not be imposed upon an agricultural producer for costs of active cleanup, or for any damage associated with or resulting from the detection in ground water, of a pesticide if the applicator has complied with label instructions and other precautions for application of the pesticide and the applicator has a valid appropriate applicator's certification. Compliance with these requirements may be raised as an affirmative defense by an agricultural producer.

- l. An aboveground tank used to feed diesel fuel generators. Upon application, the owner or operator of an aboveground tank used to feed diesel fuel generators may register the tank and is eligible for reimbursement under this chapter.
 - m. A portable tank.
 - n. A tank with a capacity under one thousand three hundred twenty gallons [4996.728 liters] used to store lubricating oil.
16. "Tank integrity test" means a test to determine that a tank is sound and not leaking. For an underground tank, the term means a certified third-party test that meets environmental protection agency leak detection requirements. For an aboveground tank, the term means a test conducted according to steel tank institute SP 001 or American petroleum institute 653.
17. "Third party" means a person who is damaged by the act of a registered owner, operator, or dealer requiring corrective action, or a person who suffers bodily injury or property damage caused by a petroleum release.

23.1-12-03. Petroleum release compensation board.

The petroleum release compensation advisory board shall review claims against the fund. The board consists of five members appointed by the governor, three of whom are active in petroleum marketing; one of whom is active in the petroleum, crude oil, or refining industry; and one of whom is active in the insurance industry. A member active in petroleum marketing must be appointed from a list of three recommended by the North Dakota retail petroleum marketers association. A member active in the petroleum, crude oil, or refining industry must be appointed from a list of three recommended by the North Dakota petroleum council. A member active in the insurance industry must be appointed from a list of three recommended by the North Dakota professional insurance agents association. Members must be appointed to terms of three years with the terms arranged so the term of at least one member, but no more than two members, expires June thirtieth of each year. A member shall hold office until a successor is duly appointed and qualified. Each member of the board is entitled to receive sixty-two dollars and fifty cents per diem for each day actually spent in the performance of official duties, plus mileage and expenses as allowed to other state officers.

23.1-12-04. Administration of fund - Staff.

The administrator shall administer the fund according to this chapter. The administrator shall convene the board as may be necessary to keep the board apprised of the fund's general operations. However, the board shall meet at least once each half of each calendar year to review and to advise the administrator regarding the administration of the fund, the fund's general operations, and to hear and decide denials of claims by the administrator which may be appealed to the board, and to discuss all claims against the fund. The administrator may employ any assistance and staff necessary to administer the fund within the limits of legislative appropriation. A claimant aggrieved by a decision of the administrator regarding a claim upon the fund may appeal the decision to the board. The board may sustain, modify, or reverse the decision of the administrator. The claimant or the administrator may appeal the board's decision to the commissioner. The decision of the commissioner may be appealed under chapter 28-32.

23.1-12-05. Adoption of rules.

The administrator shall adopt rules regarding the practices and procedures of the fund, the form and procedure for applications for compensation from the fund, procedures for investigation of claims, procedures for determining the amount and type of costs that are eligible for reimbursement from the fund, procedures for persons to perform services for the fund, procedures for appeals to the board by claimants aggrieved by an adverse decision of the administrator, and any other rules as may be appropriate to administer this chapter.

23.1-12-06. Release discovery.

If the department has reason to believe a release has occurred, it shall notify the administrator. The department shall direct the owner or operator to take reasonable and necessary corrective actions as provided under federal or state law or under adopted rules.

23.1-12-07. Owner or operator not identified.

The department may cause legal action to be brought to compel performance of a corrective action if an identified owner or operator fails or refuses to comply with an order of the department, or the department may engage the services of qualified contractors for performance of a corrective action if an owner or operator cannot be identified.

23.1-12-08. Imminent hazard.

Upon receipt of information that a petroleum release has occurred which may present an imminent or substantial endangerment of health or the environment, the department may take emergency action necessary to protect health or the environment.

23.1-12-09. Duty to notify.

This chapter does not limit a person's duty to notify the department and to take action related to a release. However, payment for corrective actions required as a result of a petroleum release is governed by this chapter.

23.1-12-10. Providing of information.

A person the administrator or the department has reason to believe is an owner or operator, the owner of real property where corrective action is ordered to be taken, or a person that may have information concerning a release shall, if requested by the administrator or the department, or any member, employee, or agent of the administrator or the department, furnish to the administrator or the department any information that person has or may reasonably obtain which is relevant to the release.

23.1-12-11. Examination of records.

Any employee of the administrator or the department may, upon presentation of official credentials:

1. Examine and copy books, papers, records, memoranda, or data of any person that has a duty to provide information to the administrator or the department under section 23.1-12-10; and
2. Enter upon public or private property to take action authorized by this section, including obtaining information from a person that has a duty to provide the

information under section 23.1-12-10, conducting surveys and investigations, and taking corrective action.

23.1-12-12. Responsibility for cost.

The owner or operator is liable for the cost of the corrective action required by the department, including the cost of investigating the releases. This chapter does not create any new cause of action for damages on behalf of third parties for release of petroleum products against the fund or licensed dealers.

23.1-12-13. Liability avoided.

An owner or operator may not avoid liability by means of a conveyance of any right, title, or interest in real property or by any indemnification, hold harmless agreement, or similar agreement. However, this chapter does not:

1. Prohibit a person that may be liable from entering an agreement by which the person is insured or is a member of a risk retention group, and is thereby indemnified for part or all of the liability;
2. Prohibit the enforcement of an insurance, hold harmless, or indemnification agreement; or
3. Bar a claim for relief brought by a person that may be liable or by an insurer or guarantor, whether by right of subrogation or otherwise.

23.1-12-14. Other remedies.

This chapter does not limit the powers of the administrator or department, or preclude the pursuit of any other administrative, civil, injunctive, or criminal remedies by the administrator or department or any other person. Administrative remedies need not be exhausted to proceed under this chapter. The remedies provided by this chapter are in addition to those provided under existing statutory or common law.

23.1-12-15. Revenue to the fund.

Revenue from the following sources must be deposited in the state treasury and credited to the fund:

1. Any registration fees collected under section 23.1-12-17;
2. Any money recovered by the fund under section 23.1-12-23, and any money paid under an agreement, stipulation, or settlement;
3. Any interest attributable to investment of money in the fund; and
4. Any money received by the administrator in the form of gifts, grants, reimbursements, or appropriations from any source intended to be used for the purposes of the fund.

23.1-12-16. Penalty.

A tank owner violating section 23.1-12-17 is guilty of a class B misdemeanor unless another penalty is specifically provided.

23.1-12-17. Registration fee.

1. An owner or operator of a tank shall pay an annual registration fee of fifty dollars for each aboveground or underground tank owned or operated by that person. If after the fiscal year has been closed and all expenses relating to the fiscal year have been accounted for, the fund balance is less than six million dollars, the annual registration fee of fifty dollars is increased to one hundred dollars. If after the fiscal year has been closed and all expenses relating to the fiscal year have been accounted for, the fund balance is five million five hundred thousand dollars or more and the annual registration fee has been increased to one hundred dollars, the fee must be reduced to fifty dollars. If after the fiscal year has been closed and all expenses relating to the fiscal year have been accounted for, the fund balance exceeds nine million dollars, the annual registration fee is reduced to five dollars. Annual registration fees must continue at five dollars until the fund balance does not exceed nine million dollars.
2. An owner or operator of an existing tank that is discovered at a location that currently and previously has had tanks registered with the fund shall pay an additional twenty-five dollar penalty fee in addition to the registration fee for each aboveground tank and each underground tank owned or operated by that person for each previous year that the tank was required to be registered for which a fee was not paid. The payment includes the fees and the penalty for the failure to register.
3. An owner or operator of an existing tank at a location that was not previously and continuously registered with the fund, whether the registration was required by law or not must provide the fund with a phase two environmental study conducted by a qualified firm according to American society for testing materials standards. A tank integrity test must also be performed. The environmental study and tank integrity test must be reviewed by the commissioner along with the application for registration with the fund. If the commissioner rejects the application, the applicant is denied eligibility to the fund. However, if the site is remediated and the leaking tank is replaced, the applicant may reapply for registration with the fund. A new installation that is using a used tank must provide tank integrity test results for the used tank. Use of a synthetic liner in an aboveground dike system negates the need for a tank integrity test. The owner or operator of a new tank at a new site or a new tank at an existing site that had a tank registered at the site previously need only pay the required fees for registration with the fund.
4. If accepted for registration with the fund, the owner or operator of the tank shall pay an additional twenty-five dollar penalty fee in addition to the registration fee for each aboveground tank and underground tank owned or operated by that person for each previous year that the tank was required to be registered for which a fee was not paid, regardless of ownership in each of those years. The payment includes the fees and the penalty for the failure to register.
5. The registration fees collected under this section must be paid to the fund administrator for deposit in the state treasury for the dedicated credit to the petroleum release compensation fund.
6. If a registration payment is not received within sixty days of July first by the commissioner, a late fee of twenty-five dollars per tank per month must be imposed on the tank owner or operator.

23.1-12-18. Reimbursement for corrective action.

1. The administrator shall reimburse an eligible owner or operator for ninety percent of the costs of corrective action, including the investigation, which are greater than five thousand dollars and less than one million dollars per occurrence and two million dollars in the aggregate. An eligible tank owner or operator may not be liable for more than twenty thousand dollars out-of-pocket expenses for any one release. A reimbursement may not be made unless the administrator determines that:
 - a. At the time the release was discovered the owner or operator and the tank were in compliance with state and federal rules and rules applicable to the tank, including rules relating to financial responsibility, rules relating to infrastructure compatibility, and all rules relating to health and safety which were in effect at the time of the release;
 - b. The department was given notice of the release as required by federal and state law;
 - c. The owner or operator has paid the first five thousand dollars of the cost of corrective action; and
 - d. The owner or operator, to the extent possible, fully cooperated with the department and the administrator in responding to the release.
2. The fund shall compensate third parties for corrective action taken for a petroleum release if the provisions of subdivisions a, b, c, and d of subsection 1 were met at the time the release was discovered. Compensation for third-party corrective action includes compensation for costs incurred in returning the real estate to that level deemed duly remediated by the department.
3. The fund shall reimburse the tank owner, operator, or dealer for bodily injuries to a third party caused by a petroleum release if the provisions of subdivisions a, b, c, and d of subsection 1 were met at the time the release was discovered in an amount determined by:
 - a. Findings reduced to judgment in federal or state district court or such other court having jurisdiction over the matter in a proceeding in which the fund has been made a party;
 - b. Findings by an arbitration panel agreed upon in writing by the parties in a proceeding in which the fund has been made a party; or
 - c. A written settlement entered into by the parties in which the commissioner or the commissioner's agent has participated. The settlement must be reviewed and approved by the commissioner.
4. In any civil action against the owner, operator, or dealer for damages resulting from a petroleum release, if the pre-leak condition of real estate is an issue, and if there is no reasonable means of determining the pre-leak condition of real estate, the condition is that which exists at the time the department determines the real estate has been duly remediated.

5. The fund may not compensate for attorney's fees of owners, operators, or dealers, nor may the fund compensate for exemplary damages, criminal fines, or administrative penalties.
6. A third party accepting monetary compensation directly from the fund for damages due to a release caused by a tank owner, operator, or dealer covered by the fund is deemed to have waived any cause of action against the fund or against the tank owner, operator, or dealer.
7. The fund shall reimburse the department for all costs, attorney's fees, and other legal expenses relating to administrative and adjudicative proceedings under this chapter and any subsequent legal proceeding. Any moneys reimbursed must be deposited in the department's operating fund in the state treasury and must be spent subject to appropriation by the legislative assembly.

23.1-12-19. Application for reimbursement.

An owner or operator that is a first-party claimant and that proposes to take corrective action or has undertaken corrective action in response to a release, the time of the release being unknown, may apply to the administrator for partial or full reimbursement under section 23.1-12-18. An owner or operator who is a first-party claimant may be reimbursed only for costs incurred after July 1, 1989, even if the releases were discovered before July 1, 1989, up to the maximum of twenty-five thousand dollars per location.

23.1-12-20. Administrator to determine costs.

A reimbursement for corrective actions taken by an owner, operator, or dealer may not be made from the fund until the administrator has determined that the costs for which reimbursement is requested were actually incurred and were reasonable. All necessary loss adjustment expenses must be included as a component of the loss and must be paid out of the fund.

23.1-12-21. Liability of responsible person.

The right to apply for reimbursement and the receipt of reimbursement does not limit the liability of an owner or operator for damages or costs incurred as the result of a release.

23.1-12-22. Reimbursement not subject to attachment.

The amount of reimbursement to be paid for corrective action that was done by a third party is not subject to legal process or attachment if actually paid to a third party that performed the corrective action.

23.1-12-23. Recovery of expenses.

Any reasonable and necessary expenses incurred by the fund, which exceed the coverage limits provided by section 23.1-12-18, in taking a corrective action, including costs of investigating a release, and in taking legal actions, may be recovered in a civil action in district court brought by the administrator against an owner or operator. The certification of expenses by an approved agent of the fund is prima facie evidence that the expenses are reasonable and necessary. Any expenses that are recovered under this section must be deposited in the fund.

23.1-12-24. Costs exceeding reimbursement.

If the cost of any extraordinary authorized action under this chapter exceeds amounts awarded to the administrator or the department from the federal government, the administrator may pay the department the cost of the corrective actions, including the cost of investigating a release, if the board finds that the cause was a petroleum substance, that an adequate amount exists in the fund to pay for the corrective action, that the occurrence was extraordinary in scope and size, and that a danger to the health and safety of citizens exists.

23.1-12-25. Coordination of benefits.

If an owner or operator has an insurance policy that provides the same coverage as the fund, the administrator of the fund shall pay the share of the covered loss or damage for which the fund is responsible. The share that must be paid from the fund is equal to the proportion that the applicable limit of coverage under the fund bears to the limits of insurance of all insurance coverage on the same basis.

23.1-12-26. Third-party damages - Participation in actions and review of settlements.

1. An owner or operator sued for damages resulting from a release shall notify the administrator within fourteen days of being served with a summons and complaint. The owner or operator also shall advise the administrator if any insurer is defending the owner or operator and provide to the administrator the name of that insurer.
2. An owner or operator that, before litigation, enters negotiations with a third party that claims to have been damaged by a release, or that receives a demand for payment of damages to a third party that claims to have been damaged by a release, shall notify the administrator within fourteen days of the demand or the negotiations.
3. The administrator and the board shall review the conduct of any litigation or negotiation. The administrator may not assume any legal costs incurred by the defendant or plaintiff, but may participate in discovery, trial proceedings, or settlement negotiations of either disputed liability or damages that bear on the determination of a plaintiff's damages.
4. The administrator and the board shall review any settlement negotiations to determine the dollar amount of bodily injury or property damage actually, necessarily, and reasonably incurred by third parties which, if paid by the defendant, would be considered eligible costs.

23.1-12-27. Third-party damages - Documentation.

1. An applicant's payments for third-party damages pursuant to a judgment entered in a court must include copies of the notice of entry of judgment and abstract of costs.
2. An applicant's payments for third-party damages made by agreement in settlement of litigation must include copies of the settlement agreement and supporting documents required by the administrator.

3. An applicant's payments for third-party damages made by agreement without reference to litigation must include copies of the settlement and supporting documents required by the administrator.
4. The administrator and the board may require a third party who claims bodily injury to be examined by a physician and require that the physician's report to be submitted to the administrator. The administrator may require a third party that claims property damage to permit a property appraiser or claims adjuster retained by the administrator to inspect the property and report to the administrator.
5. The fund shall pay a judgment against an owner, operator, or dealer awarded to a third party as a result of a third-party claim and property damage against an owner, operator, or dealer registered by the fund.
6. The fund shall pay for corrective action as awarded to a third party in any judgment against an owner, operator, or dealer.
7. Liability of the tank owner, operator, dealer, or fund to third parties for corrective action or personal injuries and property damage may not exceed, per person, one million dollars. Maximum liability of the fund, including all claims by third parties, may not exceed, for any release site, the maximum provided in section 23.1-12-18.
8. A third party may not bring an action against an owner, operator, or dealer more than three years after a corrective action plan has been approved by the department if the owner, operator, or dealer fully implements and complies with the corrective action plan.
9. In investigating a release site or reviewing the implementation of a corrective action plan approved by the department, the department shall determine whether the release threatens public health or the environment. The department shall require, based on science and technology appropriate for the site, any monitoring, remediation, or other appropriate corrective action that is reasonably necessary to protect public health or the environment. The department may require corrective action at a release site at any time after a release occurs.

23.1-12-28. Matching federal funds.

The administrator and the board may annually allow the department a ten percent matching grant for federal leaking underground storage tank funds to be paid out of the fund if the moneys are available and the administrator and the board determine the allowance appropriate.

23.1-12-29. Fund appropriations.

Money in the fund is continuously appropriated to the administrator for the purpose of making reimbursements under this chapter.

23.1-12-30. Investment of fund.

Investment of the fund is under the supervision of the state investment board in accordance with chapter 21-10. The commissioner may purchase a contract for reinsurance of any risk to be paid by the fund. The administrator may investigate the

purchase of insurance that reimburses an owner or operator for property damage claims by third parties other than claims for costs of corrective action.

SECTION 28. Chapter 23.1-13 of the North Dakota Century Code is created and enacted as follows:

6. "Heating oil" means any product intended for use or offered for sale as a furnace oil, range oil, or fuel oil for heating and cooking purposes to be used in burners other than wick burners regardless of whether the product is designated as furnace oil, range oil, fuel oil, gas oil, or is given any other name or designation.
7. "Kerosene" means a petroleum fraction which is free from water, additives, foreign or suspended matter, and is suitable for use as an illuminating oil.
8. "Lubricating oil" means any petroleum, or other product, used for the purpose of reducing friction, heat, or wear in automobiles, tractors, gasoline engines, diesel engines, and other machines.
9. "Misbranded", when used in connection with any petroleum or alternative fuel product, means a petroleum or alternative fuel product that is not labeled as required under the provisions of this chapter.

23.1-13-02. Department to enforce law - Regulation of petroleum products.

This chapter must be enforced by the department. The department may adopt rules under chapter 28-32 for the interpretation of this chapter.

23.1-13-03. Sale of adulterated and misbranded gasoline, kerosene, tractor fuel, heating oil, diesel fuel, or lubricating oil prohibited.

A person may not sell or offer or expose for sale any kerosene, gasoline, or other petroleum product intended to be used as kerosene, gasoline, any tractor fuel, heating oil, diesel fuel, or lubricating oil that is adulterated or misbranded.

23.1-13-04. Retail sale of alcohol-blended gasoline - Label requirements.

A dealer may not sell at retail alcohol-blended gasoline unless the dispensing unit and any price advertising bear the name of the alcohol blended with the gasoline if the alcohol-blended gasoline consists of one percent or more by volume of any alcohol. The disclosure must be in letters at least the same size as those used for the label of the basic grade of gasoline and must be next to the gasoline grade label. A producer of alcohol-blended gasoline may provide a retailer with a label promoting the benefits of alcohol-blended gasoline, if the label at least meets the requirements of this section.

23.1-13-05. Retail sale of gasoline containing methyl tertiary butyl ether - Restriction.

A person may not sell, offer for sale, supply, or offer for supply gasoline that contains methyl tertiary butyl ether in quantities greater than five-tenths of one percent by volume. However, a person may ship gasoline containing methyl tertiary butyl ether within the state for disposition outside the state, including storage coincident to shipment.

23.1-13-06. Retail sale of alternative fuels - Notice required.

A dealer may not sell at retail alternative fuel unless the dispensing unit and price advertising contains the name and main components of the alternative fuel or alternative fuel blend. The disclosure must follow the same labeling specifications that apply for petroleum-based fuels. The department shall adopt rules under chapter 28-32 for labeling of petroleum products and alternative fuels. A producer of alternative fuels or alternative fuel blends may provide a retailer with a label promoting the benefits of the alternative fuel if the label meets the requirements of this section.

23.1-13-07. Labeling gasoline containers - Gasoline pipeline.

Every package, barrel, filling station pump, and every tank wagon, truck, or car containing gasoline for sale or consignment or held with intent to sell or consign the same within this state or to transport it into this state must be clearly and distinctly stamped, labeled, or tagged with the word "gasoline". Every oil station pipeline for gasoline must be painted red. The fittings upon such lines; however, may be painted other colors to designate grades. Pipelines for gasoline must be entirely separate from lines for kerosene or for any other high flash product. Every can, bucket, barrel, or other container of less than sixty gallons [227.12 liters] capacity used for storage or delivery of gasoline, benzine, or benzine products, unless the same is made of glass, must be painted bright red, and such containers may not be used for the storage or delivery of kerosene. In the case of glass containers, the contents must be designated by a red label securely pasted on or attached to the containers bearing the name of the product.

23.1-13-08. Labeling kerosene - Containers - Pipeline.

Every package, barrel, filling station pump, and every tank wagon, truck, or car containing kerosene for sale or consignment when held within this state or transported into this state must be clearly and distinctly stamped, labeled, or tagged with the word "kerosene". Every oil station pipeline for kerosene must be painted aluminum and must be entirely separate from lines for gasoline or other low flash products.

23.1-13-09. Labeling tractor fuel.

Every package, barrel, pump, and every truck, tank wagon, or car containing tractor fuel oil, other than gasoline or kerosene, for sale or consignment, when held within this state or when being transported into this state must be clearly and distinctly tagged, marked, and labeled with the legend "Tractor fuel oil, not for illuminating purposes nor wick burners". Every oil station pipeline for tractor fuel must be painted yellow and must be entirely separate from lines for kerosene or other high flash product.

23.1-13-10. Labeling heating oil.

Every package, barrel, pump, and every tank wagon, truck, or car containing heating oil for sale or consignment, when held within this state or when being transported into this state, must be clearly and distinctly tagged, marked, or labeled with the designation of grade established by the department. Every oil station pipeline for heating oil must be painted green.

23.1-13-11. Labeling diesel fuel.

Every oil station pipeline for diesel fuel must be painted green.

23.1-13-12. Specifications for petroleum products - Tests used.

Specifications for gasoline, kerosene, tractor fuel, diesel oil, heating oil, lubricating oil, alternative fuels, and liquefied petroleum gases, including propane, propylene, normal butane or isobutane, and butylene, must be determined by the department and must be based upon nationally recognized standards. When so determined by the department and adopted and promulgated as regulations and orders of the department in accordance with chapter 28-32, such specifications must be the specifications for such petroleum products sold in this state and official tests of such petroleum products must be based upon test specifications so determined adopted and promulgated.

23.1-13-13. How volume of heating oil determined.

In case of a dispute, heating oil must be sold on the basis of the United States gallon containing two hundred thirty-one cubic inches [3785.41 milliliters] at sixty degrees Fahrenheit [15.56 degrees Celsius]. The volume of the delivered oil; however, may be calculated from its weight and gravity degrees API in accordance with the national standard petroleum oil tables prepared by the national bureau of standards.

23.1-13-14. Department may prohibit sale of certain gasolines or motor fuels.

The department may prohibit the sale of any "gasoline improver" or motor fuel dope, oil additive, and of any gasoline mixed or compounded with any other chemical, substance, or solution which may be detrimental to the public health, injurious to internal combustion engines, or concerning which unsubstantiated claims are made. However, it may not prohibit the sale of any material, substance, or solution that has been favorably reported on by the United States bureau of standards or by the surgeon general or bureau of public health of the United States.

23.1-13-15. Sale of prohibited gasolines - Penalty.

Any person violating any of the provisions of section 23.1-13-14 is guilty of a class B misdemeanor.

23.1-13-16. Inspection fees.

Every person licensed by the tax commissioner as a motor vehicle fuel or special fuels dealer shall pay to the tax commissioner an inspection fee of one-fortieth of one cent per gallon [3.79 liters] for every gallon [3.79 liters] of gasoline, kerosene, tractor fuel, heating oil, or diesel fuel sold or used during a calendar month except those gallons sold out of state or those gallons sold as original package sales as defined in chapters 57-43.1 and 57-43.2. The fee must accompany the monthly report required in the following section and is due no later than the twenty-fifth day of each calendar month for the preceding month. The tax commissioner shall forward all money collected under this section to the state treasurer monthly, and the state treasurer shall place the money in the general fund of the state. The tax commissioner shall make available annually a report by licensed dealer listing the number of gallons [liters] of motor vehicle fuel and special fuels upon which the inspection fee has been paid. The provisions of chapters 57-43.1 and 57-43.2 pertaining to the administration of motor vehicle fuel and special fuels taxes not in conflict with the provisions of this chapter govern the administration of the inspection fee levied by this chapter.

23.1-13-17. Report to tax commissioner of petroleum products - Contents.

No later than the twenty-fifth day of each calendar month, every person licensed by the tax commissioner as a motor vehicle fuel, special fuels, or liquefied petroleum wholesale dealer shall send to the tax commissioner a correct report of all purchases and sales of gasoline, kerosene, tractor fuel, heating oil, or diesel fuel during the preceding month. The report must include the same information as required in chapters 57-43.1 and 57-43.2 for motor vehicle fuel and special fuels tax collection purposes. Failure to send the report and inspection fee required by the preceding section to the tax commissioner constitutes a violation of the provisions of this chapter.

23.1-13-18. Bond may be required of dealer in petroleum products.

The tax commissioner may require any person licensed by the tax commissioner as a motor vehicle fuel, special fuels, or liquefied petroleum wholesale dealer to furnish a surety bond payable to the state in the sum of five hundred dollars, or twice the amount of inspection fees due for any calendar month, whichever amount is the greater, guaranteeing to the state true reports of purchases and sales of gasoline, kerosene, tractor fuel, heating oil, and diesel fuel and the payment of all inspection fees provided for in this chapter. The tax commissioner shall determine the sufficiency of the bond. A single bond may cover dealing in one or all of the petroleum products mentioned in this chapter. When any inspection fee is not paid within twenty days

after it has become delinquent, the person bonding the delinquent may be called upon to make good upon the bond for such delinquent fees.

23.1-13-19. Department may designate ports of entry and hold cars for inspection - Penalty.

The department may designate ports of entry of all transportation companies carrying petroleum products into this state for sale or consignment and may hold or delay any car or other vehicle of transportation entering this state carrying such products for sale or consignment until samples thereof have been obtained for inspection and analysis and until any other required information regarding the products contained in the shipment has been secured. The department may not hold or delay any shipment or consignment of petroleum products at the port of entry if the transportation company carrying such products will permit proper inspection and sampling of shipments or consignments at convenient designated points without the state, and will permit the inspection of transportation records and provide adequate information regarding the records of cars or other vehicles carrying such products at division points or at other places within or without the state where such cars or other vehicles, in normal practice, are stopped and held for switching and rearrangement or where ample opportunity is provided for proper inspection and sampling. The failure on the part of a transportation company or any of its officers or employees to hold any car or other vehicle of transportation for inspection is a class B misdemeanor.

23.1-13-20. Penalties.

A person violating or failing to comply with any of the provisions of this chapter, or with any rule issued under this chapter, is, unless another penalty is specifically provided, guilty of a class B misdemeanor.

SECTION 29. Chapter 23.1-14 of the North Dakota Century Code is created and enacted as follows:

23.1-14-01. Administration.

The department of environmental quality shall administer this chapter.

23.1-14-02. Definitions.

In this chapter, unless the context or subject matter otherwise requires:

1. "Antifreeze" means any substance or preparation sold, distributed, or intended for use as the cooling liquid, or to be added to the cooling liquid, in the cooling system of internal combustion engines to prevent freezing of the cooling liquid, to lower its freezing point, or to raise its boiling point.
2. "Department" means the department of environmental quality.
3. "Distribute" means to hold with intent to sell to the consumer, offer for sale, to sell, barter, or otherwise supply.
4. "Label" means any display of written, printed, or graphic matter on, or attached to, a package or the outside individual container or wrapper of the package.
5. "Package" means a sealed retail package, drum, or other container in which antifreeze is distributed to the consumer or a container holding no more than

fifty-five gallons [208.20 liters] from which the antifreeze is directly installed in the cooling system by seller or reseller.

23.1-14-03. Registration - Penalty.

Before antifreeze may be distributed in this state, the manufacturer or person whose name appears on the label shall apply to the department on forms provided by the department for registration for each antifreeze the manufacturer or person whose name appears on the label desires to distribute. All registrations expire on June thirtieth of each year. The application for registration must be accompanied by an inspection fee of forty dollars for each product, and by a label or other printed matter describing the product. Upon approval by the department, a copy of the registration must be furnished to the applicant. The department shall remit inspection fees received by the department to the state treasurer for deposit in the state general fund. A penalty of fifty percent of the registration fee must be imposed if the certificate of registration is not applied for on or before July first of each year or within the same month such antifreeze is first manufactured or sold within this state.

23.1-14-04. Adulteration.

Antifreeze is adulterated:

1. If, in the form in which it is sold and directed to be used, it would be injurious to the cooling system of an internal combustion engine, or if, when used in the cooling system of such an engine, it would make the operation of the engine dangerous to the user; or
2. If its strength, quality, or purity falls below the standard of strength, quality, or purity under which it is sold or offered for sale.

23.1-14-05. Misbranding.

Antifreeze is misbranded:

1. If it does not bear a label which specifically identifies the product, states the name and place of business of the registrant, states the net quantity of contents in terms of liquid measure separately and accurately in a uniform location under the principal display panel, and contains a statement warning of any hazard of substantial injury to human beings which may result from the intended use or reasonably foreseeable misuse of the antifreeze;
2. If the product is to be diluted with another substance for use and its labeling does not contain a statement or chart showing appropriate amounts of each substance to be used to provide protection from freezing at various degrees of temperature;
3. If the labeling contains a corrosion protection claim and does not include a statement of the amount to be used to provide such protection;
4. If its labeling contains any claim that it has been approved or recommended by the department; or
5. If its labeling is false, deceptive, misleading, or is illegal under any law.

23.1-14-06. Rules and regulations.

The department may adopt reasonable rules and standards under chapter 28-32 as necessary to administer this chapter.

23.1-14-07. Inspection, sampling, and analysis.

The department may, at reasonable hours, enter, inspect, and examine all places and property where antifreeze is stored or distributed for the purpose of taking reasonable samples of antifreeze for analysis together with specimens of labeling. The department shall examine promptly all samples received in connection with the administration and enforcement of this chapter and report the results to the owner and the registrant of the antifreeze.

23.1-14-08. Prohibited acts.

It is unlawful to:

1. Distribute any antifreeze that has not been registered under this chapter or for which the label is different from that accepted for registration.
2. Distribute any antifreeze that is adulterated or misbranded.
3. Refuse to permit entry or inspection or refuse to permit the acquisition of a sample of any antifreeze under this chapter.
4. Dispose of any antifreeze under "withdrawal from distribution" order under this chapter, except as provided in this chapter.
5. Distribute any antifreeze unless it is in the registrant's or manufacturer's package, except a distributor may obtain written authorization from the department annually to distribute antifreeze in bulk using a container supplied by the customer, provided the distributor attaches to the container a label bearing all of the information required by this chapter.
6. Use the term "ethylene glycol" on the label of a product which contains other glycols unless it is qualified by the word "base", "type", or wording of similar import and unless the product contains a minimum ethylene glycol content of seventy-five percent by regulation weight and a minimum total glycol content of ninety-three percent by weight. The product also must have a corrected specific gravity to give reliable freezing point readings on a commercial ethylene glycol type hydrometer and a freezing point, when mixed with an equal volume of water, of thirty-two degrees Fahrenheit [35.56 degrees Celsius] below zero or lower.

23.1-14-09. Enforcement.

When the department finds any antifreeze being distributed in violation of this chapter or any rules adopted under this chapter, it may issue and enforce a written or printed "withdrawal from distribution" order, warning the distributor not to dispose of any of the lot of antifreeze in any manner until written permission is given by the department or a court of competent jurisdiction. Copies of the order must also be sent by registered or certified mail to the registrant or to the person whose name and address appear on the label of the antifreeze. The department shall release for distribution the lot of antifreeze so withdrawn upon compliance with applicable rules, or for return to the registrant or the person whose name and address appears on the label for reprocessing or relabeling as may be required. If compliance is not obtained

within thirty days, the department may begin proceedings for condemnation. Any lot of antifreeze not in compliance with the law is subject to seizure upon complaint of the department in the district court of the county in which it is located or in the district court of Burleigh County.

23.1-14-10. Submission of formula.

The department may require an applicant for registration to furnish a statement of the formula of the applicant's antifreeze, unless the applicant can furnish other satisfactory evidence that the antifreeze is not adulterated or misbranded. The statement need not include inhibitor or other ingredients that total less than five percent by weight of the antifreeze. All statements of formula and other trade secrets furnished under this section are privileged and confidential and may not be made public or open to the inspection of any persons other than the department. No statement is subject to subpoena. Nor may a statement be exhibited or disclosed before any administrative or judicial tribunal by virtue of any order or subpoena of such tribunal without the consent of the applicant furnishing the statement to the department.

23.1-14-11. Penalty.

Any person that violates or fails to comply with this chapter, for which another penalty has not been specifically provided, is guilty of a class B misdemeanor.

23.1-14-12. Prosecutions - State's attorney.

Each state's attorney to whom the department reports any violation of this chapter shall institute appropriate proceedings in court without delay. However, nothing in this chapter may be construed as requiring the department to report minor violations for the institution of proceedings under this chapter whenever it believes the public interest will be served adequately by suitable written notice or warning.

23.1-14-13. Injunction proceedings.

In addition to other remedies, the department may apply to the district court of Burleigh County for a temporary or permanent injunction restraining any person from violating a provision of this chapter regardless of whether there exists an adequate remedy at law, and appropriate costs must be taxed by the court for all expenses to the department for the injunctive proceedings.

23.1-14-14. Reports by department.

Except as otherwise provided, the department may publish reports of any analyses, inspections, or research done under this chapter for the information of the public.

SECTION 30. Chapter 23.1-15 of the North Dakota Century Code is created and enacted as follows:

23.1-15-01. Definitions.

For purposes of this chapter, unless the context otherwise requires:

1. "Abandoned motor vehicle" means a motor vehicle, as defined in section 39-01-01, that has remained for a period of more than forty-eight hours on public property illegally or lacking vital component parts, or has remained for a period of more than forty-eight hours on private property without consent of the person in control of the property or in an inoperable condition such that it

has no substantial potential further use consistent with its usual functions, unless it is kept in an enclosed garage or storage building. It also means a motor vehicle voluntarily surrendered by its owner to a person duly licensed under section 23.1-15-09. An antique automobile, as defined in section 39-04-10.4, and other motor vehicles to include parts car and special interest vehicles, may not be considered an abandoned motor vehicle within the meaning of this chapter.

2. "Collector" means the owner of one or more special interest vehicles that collects, purchases, acquires, trades, or disposes of special interest vehicles or parts of special interest vehicles for the person's own use in order to restore, preserve, and maintain a special interest vehicle or antique vehicle.
3. "Department" means the department of environmental quality.
4. "Parts car" means a motor vehicle generally in nonoperable condition which is owned by the collector to furnish parts to restore, preserve, and maintain a special interest vehicle or antique vehicle.
5. "Special interest vehicle" means a motor vehicle that is at least twenty years old and has not been altered or modified from original manufacturer's specifications and, because of its historic interest, is being preserved by hobbyists.
6. "Unit of government" includes a state department or agency, a county, city, township, or other political subdivision.
7. "Vital component parts" means those parts of a motor vehicle that are essential to the mechanical functioning of the vehicle, including, but not limited to, the motor, drive train, and wheels.

23.1-15-02. Penalty for abandoning a motor vehicle.

Any person that abandons a motor vehicle on any public or private property, without the consent of the person in control of the property, is guilty of a class A misdemeanor.

23.1-15-03. Custody of abandoned vehicle.

Units of government may take into custody and impound an abandoned motor vehicle.

23.1-15-04. Conditions under which an abandoned vehicle may be sold immediately.

When an abandoned motor vehicle is more than seven model years of age, is lacking vital component parts, and does not display a license plate currently valid in North Dakota or any other state or foreign country, it is immediately eligible for disposition and must be disposed of to a scrap iron processor licensed under section 23.1-15-09, and is not subject to the notification, reclamation, or title provisions of this chapter. Any license plate displayed on an abandoned vehicle must be removed and destroyed prior to the purchaser taking possession of the vehicle.

23.1-15-05. Notice to owner of abandoned vehicle.

1. When an abandoned motor vehicle does not fall within the provisions of section 23.1-15-04, the unit of government taking it into custody shall give

notice of the taking within ten days. The notice must set forth the date and place of the taking, the year, make, model, and serial number of the abandoned motor vehicle, and the place where the vehicle is being held, must inform the owner and any lienholders or secured parties of their right to reclaim the vehicle under section 23.1-15-06, and must state that failure of the owner or lienholders or secured parties to exercise their right to reclaim the vehicle is deemed a waiver by them of all right, title, and interest in the vehicle and a consent to the sale of the vehicle at a public auction pursuant to section 23.1-15-07.

2. The notice must be sent by mail to the registered owner, if any, of the abandoned motor vehicle and to all readily identifiable lienholders or secured parties of record. If it is impossible to determine with reasonable certainty the identity and address of the registered owner and all lienholders, the notice must be published once in a newspaper of general circulation in the area where the motor vehicle was abandoned. Published notices may be grouped together for convenience and economy.

23.1-15-06. Right of owner to reclaim abandoned vehicle.

1. The owner, secured parties, or any lienholder of an abandoned motor vehicle has a right to reclaim such vehicle from the unit of government taking it into custody upon payment of all towing and storage charges resulting from taking the vehicle into custody within fifteen days after the date of the notice required by section 23.1-15-05.
2. Nothing in this chapter may be construed to impair any lien of a garagekeeper under the laws of this state or the right of a lienholder or secured parties to foreclose. For the purposes of this section, "garagekeeper" is an operator of a parking place or establishment, an operator of a motor vehicle storage facility, or an operator of an establishment for the servicing, repair, or maintenance of motor vehicles.

23.1-15-07. Public sale - Disposition of proceeds.

1. An abandoned motor vehicle not more than seven model years of age taken into custody and not reclaimed under section 23.1-15-06 must be sold to the highest bidder at public auction or sale, following reasonable published notice. The purchaser must be given a receipt in a form prescribed by the department which is sufficient title to dispose of the vehicle. The receipt also entitles the purchaser to register the vehicle and receive a certificate of title, free and clear of all liens and claims of ownership. The license plates displayed on an abandoned vehicle must be removed and destroyed prior to the purchaser taking possession of the vehicle.
2. From the proceeds of the sale of an abandoned motor vehicle, the unit of government shall reimburse itself for the cost of towing, preserving, and storing the vehicle, and all notice and publication costs incurred pursuant to this chapter. Any remainder from the proceeds of a sale must be held for the owner of the vehicle or entitled lienholder or secured parties for ninety days and then must be deposited in the state treasury as provided in section 1 of article IX of the Constitution of North Dakota and credited to the permanent school fund.

23.1-15-08. Disposal of vehicles not sold.

When no bid has been received for an abandoned motor vehicle, the unit of government may dispose of it pursuant to contract under section 23.1-15-09.

23.1-15-09. Contracts for disposal - Issuance of licenses by department of environmental quality - Reimbursement of units of government for costs.

1. A unit of government may contract with any qualified licensed scrap iron processor for collection, storage, incineration, volume reduction, transportation, or other services necessary to prepare abandoned motor vehicles and other scrap metal for recycling or other methods of disposal. The contract may authorize the contracting scrap iron processor to pay to the owner of any abandoned motor vehicle an incentive payment for vehicle if it is voluntarily surrendered and delivered to the scrap iron processor. For purposes of this section, an owner of an abandoned motor vehicle includes only a person that has owned and operated the vehicle for the person's personal or business use.
2. The department may issue a license to any qualified scrap iron processor desiring to participate in a contract under this section that meets the requirements for solid waste disposers established by the department.
3. When a unit of government enters a contract with a scrap iron processor duly licensed by the department, the department may review the contract to determine whether it conforms to the department's plan for solid waste disposal. A contract that does conform may be approved by the department. When a contract has been approved, the department may reimburse the unit of government for the costs incurred under the contract, including incentive payments authorized and made under the contract, subject to the limitations of legislative appropriations.
4. The department may demand that a unit of government contract for the disposal of abandoned motor vehicles and other scrap metal under the department's plan for solid waste disposal. When the unit of government fails to contract within one hundred eighty days of the demand, the department, on behalf of the unit of government, may contract with any scrap iron processor duly licensed by the department for such disposal.

23.1-15-10. Abandoned motor vehicle disposal fund.

The abandoned motor vehicle disposal fund is established in the state treasury. All moneys derived from the investment of the fund are to be credited to the fund.

23.1-15-11. Tax on initial motor vehicle certificates of title.

A tax of one dollar and fifty cents is imposed on each initial North Dakota certificate of title issued to a passenger motor vehicle or a truck motor vehicle. The proceeds of the tax must be paid into the abandoned motor vehicle disposal fund. No registration plates or title certificate may be issued unless the tax is paid. Expenses of the fund arising under this chapter must be paid from the fund within the limits of legislative appropriation. If, on the first day of July in any year, the amount of uncommitted money in the abandoned motor vehicle disposal fund is two hundred fifty thousand dollars or more, the amount in excess of two hundred fifty thousand dollars must be transferred to the highway fund.

23.1-15-12. Storage of vehicles by collector - Limitations.

A collector may store unlicensed, operable or inoperable, vehicles and parts cars on the collector's property provided the vehicles and parts cars and the outdoor storage area are maintained so they do not constitute a health hazard and are screened from ordinary public view by means of a fence, trees, shrubbery, or other appropriate means.

⁸⁸ **SECTION 31. AMENDMENT.** Section 24-03-23 of the North Dakota Century Code is amended and reenacted as follows:

24-03-23. Encroachments on state highways.

No part of the right of way for state highways may be encroached upon by erection thereon of any structure, or placing thereon any personal property, other than a temporary parking of a motor vehicle, without a written permit from the director. Any encroachment may be caused to be removed, obliterated, or corrected by order of the director and the total cost thereof must be paid by the person responsible for the encroachment. Property other than motor vehicles left upon highway right of way for a period exceeding seventy-two hours, the ownership of which cannot be determined after reasonable effort has been made to do so, must be deemed abandoned and may be removed from the right of way and stored at the nearest site available for thirty days and if it is not claimed by the owner during such period, and the cost of removal and storage paid, it may be disposed of in the manner prescribed by the director. Abandoned motor vehicles are subject to the provisions of ~~sections 39-26-04 through 39-26-11~~chapter 23.1-15. If such property is disposed of it must, except as otherwise provided by this section, be sold or disposed of in the manner provided in ~~sections 39-26-05 through 39-26-09~~chapter 23.1-15. The receipts therefrom must be deposited in the state treasury as provided in section 1 of article IX of the Constitution of North Dakota and credited to the permanent school fund.

SECTION 32. AMENDMENT. Subsection 5 of section 28-32-50 of the North Dakota Century Code is amended and reenacted as follows:

5. In any civil judicial proceeding involving adverse parties to an appeal or enforcement action involving an environmental permit issued under chapter ~~23-20-3, 23-25, 23-29~~23.1-04, 23.1-06, 23.1-08, or 61-28 in which two or more of the adverse parties are not an administrative agency or an agent of an administrative agency, the court may award the prevailing nonagency party reasonable attorney's fees and costs if the court finds in favor of that party and determines that the nonprevailing nonagency party acted without substantial justification, or on the basis of claims or allegations that are factually unsupported. The court shall award reasonable attorney's fees and costs if the court determines that the nonprevailing nonagency party's claims or allegations are frivolous as provided in section 28-26-01. If the appeal or civil judicial proceeding covered by this subsection involves multiple claims or allegations, the court may apportion attorney's fees and costs in proportion to the time reasonably spent by a prevailing party relating to claims pursued by the nonprevailing party that were frivolous, factually unsupported, or without substantial justification.

⁸⁹ **SECTION 33. AMENDMENT.** Section 38-08-04.5 of the North Dakota Century Code is amended and reenacted as follows:

HOUSE BILL NO. 1100

(Industry, Business and Labor Committee)
(At the request of the Insurance Commissioner)

AN ACT to amend and reenact section 26.1-03.2-08 of the North Dakota Century Code, relating to confidentiality for risk-based capital reports; and to declare an emergency.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 26.1-03.2-08 of the North Dakota Century Code is amended and reenacted as follows:

26.1-03.2-08. Confidentiality - Prohibition on announcements - Prohibition on use in ratemaking.

1. All risk-based capital reports, to the extent the information is not required to be set forth in a publicly available annual statement schedule, and risk-based capital plans, including the results or report of any examination or analysis of a health organization performed pursuant to this chapter, and any corrective order issued by the commissioner pursuant to examination or analysis, with respect to a domestic health organization or foreign health organization, which are filed with the commissioner constitute information that might be damaging to the health organization if made available to its competitors, and therefore shall be kept confidential by the commissioner. This information may not be made public or be subject to subpoena, other than by the commissioner and then only for the purpose of enforcement actions taken by the commissioner pursuant to this chapter or any other provision of the insurance laws of this state.
2. Neither the commissioner nor any person that received documents, materials, or other information while acting under the authority of the commissioner is permitted or required to testify in any private civil action concerning any confidential documents, materials, or information subject to subsection 1.
3. To assist in the performance of the commissioner's duties, the commissioner may:
 - a. Share documents, materials, or other information, including the confidential and privileged documents, materials, or information subject to subsection 1, with other state, federal, and international regulatory agencies; with the national association of insurance commissioners and its affiliates and subsidiaries; and with state, federal, and international law enforcement authorities, if the recipient agrees to maintain the confidentiality and privileged status of the document, material, or other information.
 - b. Receive documents, materials, or information, including otherwise confidential and privileged documents, materials, or information from the national association of insurance commissioners and its affiliates and

subsidiaries, and from regulatory and law enforcement officials of other foreign or domestic jurisdictions, and shall maintain as confidential or privileged any document, material, or information received with notice or the understanding documents, materials, or information is confidential or privileged under the laws of the jurisdiction that is the source of the document, material, or other information; and

- c. Enter agreements governing sharing and use of information consistent with this subsection.
4. A waiver of an applicable privilege or claim of confidentiality in the documents, materials, or information does not occur as a result of disclosure to the commissioner under this section or as a result of sharing as authorized in subdivision c of subsection 3.
5. It is the judgment of the legislature that the comparison of a health organization's total adjusted capital to any of its risk-based capital levels is a regulatory tool that may indicate the need for corrective action with respect to the health organization and is not intended as a means to rank health organizations generally. Therefore, except as otherwise required under the provisions of this chapter, the making, publishing, disseminating, circulating, or placing before the public, or causing, directly or indirectly to be made, published, disseminated, circulated, or placed before the public, in a newspaper, magazine, or other publication, or in the form of a notice, circular, pamphlet, letter, or poster, or over a radio or television station, or in any other way, an advertisement, announcement, or statement containing an assertion, representation, or statement with regard to the risk-based capital levels of any health organization, or of any component derived in the calculation, by any health organization, insurance producer, or other person engaged in any manner in the insurance business would be misleading and is therefore prohibited. However, if any materially false statement with respect to the comparison regarding a health organization's total adjusted capital to its risk-based capital levels, or any of them, or an inappropriate comparison of any other amount to the health organization's risk-based capital levels is published in any written publication and the health organization is able to demonstrate to the commissioner with substantial proof the falsity of the statement, or the inappropriateness, as the case may be, then the health organization may publish an announcement in a written publication if the sole purpose of the announcement is to rebut the materially false statement.
- 3-6. It is the further judgment of the legislature that the risk-based capital instructions, risk-based capital reports, adjusted risk-based capital reports, risk-based capital plans, and revised risk-based capital plans are intended solely for use by the commissioner in monitoring the solvency of health organizations and the need for possible corrective action with respect to health organizations and may not be used by the commissioner for ratemaking nor considered or introduced as evidence in any rate proceeding nor used by the commissioner to calculate or derive any elements of an appropriate premium level or rate of return for any line of insurance that a health organization or any affiliate is authorized to write.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 26.1-22-14 of the North Dakota Century Code is amended and reenacted as follows:

26.1-22-14. Assessments and reporting of premiums and losses.

If the reserve balance is less than twelve million dollars, the commissioner shall determine the amount of money necessary to bring the reserve balance up to twelve million dollars. The commissioner shall then levy an assessment against every policy in force with the fund. The assessment must be computed as follows:

The eighty percent or ninety percent coinsurance rate established by the insurance services office for each insured property for which that rate may be applicable, and the full rate established for policies providing coverage against indirect losses and for properties to which the eighty percent or ninety percent coinsurance rate is not applicable under the rules of the insurance services office, must be applied to the amount of insurance provided in each policy and the result of the application of the rate to the amount of insurance sets the tentative assessment to be made against the policy. The total of all tentative assessments must then be ascertained. The percentage of the assessment necessary to restore the reserve balance to the sum of twelve million dollars must then be computed and collected on each policy; provided, that until the reserve balance reaches twelve million dollars, the assessment must be in an amount determined by the commissioner but may not exceed sixty percent of the rates set by the insurance services office for insured property unless the reserve balance is depleted below three million dollars. In case of a fractional percentage the next higher whole percent must be used in such computation.

The commissioner shall submit, not later than December thirty-first of each ~~odd-numbered year~~ every five-year period, all data concerning premiums written and losses incurred during the previous ~~biennium~~ five-year period ending ~~July thirty-first~~ June thirtieth to the insurance services office so that the experience of the fund may be included in the computation of rates to apply to the classes of business written by the fund.

SENATE BILL NO. 2267

(Senator Casper)
(Representatives Lefor, Streyle)

AN ACT to amend and reenact section 26.1-36-41 of the North Dakota Century Code, relating to the authority of the insurance commissioner to investigate health insurers.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 26.1-36-41 of the North Dakota Century Code is amended and reenacted as follows:

26.1-36-41. Contract limitations.

1. An insurance company as defined by section 26.1-02-01 issuing a health and accident policy, a health maintenance organization, or any other entity providing a plan of health insurance subject to state insurance regulation may not terminate a practitioner's participating contract, designate a practitioner as nonpayable, or otherwise impose sanctions on any practitioner solely for an excessive or inappropriate practice pattern unless the requirements of this section are met. If a practitioner engages in an excessive or inappropriate practice pattern for the practitioner's specialty, the entity shall inform the practitioner, in writing, as to the manner in which the practitioner's practice is excessive or inappropriate. The entity shall consult with the practitioner and provide a reasonable time period of not less than six months within which to modify the practitioner's practice pattern. If the excessive or inappropriate practice pattern continues, the entity may impose reasonable sanctions on the practitioner, terminate the practitioner's participating contract, or designate the practitioner as nonpayable. If considered for sanction, termination, or nonpayable status, the affected practitioner must first be given the opportunity to be present and to be heard by a committee appointed by the entity which must include at least one representative of the practitioner's specialty. The entity may not impose sanctions on a practitioner, terminate a practitioner, or designate a practitioner as nonpayable in the absence of the committee's recommendation to do so. All reports, practice profiles, data, and proceedings of the entity relative to a practitioner who is sanctioned, terminated, or considered for designation as nonpayable are confidential and may not be disclosed or be subject to subpoena or other legal process. Nonpayable status under this section may not commence until after appropriate notification to the entity's subscribers and the affected practitioner. As used in this section, "practitioner" includes an optometrist, a physician, a chiropractor, or an advanced registered nurse practitioner duly licensed to practice in this state.
2. If the entity uses a practice profile as a factor to evaluate a practitioner's practice pattern, the entity shall provide upon request of the practitioner at any time a description of the criteria, data sources, and methodologies used to compile the practice profile concerning the practitioner and the manner in which the practice profile is used to evaluate the practitioner. An entity may not sanction a practitioner, terminate a practitioner's participating contract, or

designate a practitioner as nonpayable on the basis of a practice profile without informing the practitioner of the specific data underlying those findings. For purposes of this section, a "practice profile" means a profile, summary, economic analysis, or other analysis of data concerning the cost, quality, or quantity of services rendered by an individual practitioner, group of practitioners, or preferred provider. In addition, an entity in developing practice profiles or otherwise measuring practitioner performance shall:

- a. Make severity adjustments, including allowances for the severity of illness or condition of the patient mix and allowances for patients with multiple illnesses or conditions;
- b. Periodically evaluate, with input from specialty-specific practitioners as appropriate, the quality and accuracy of practice profiles, data sources, and methodologies;
- c. Develop and implement safeguards to protect against the unauthorized use or disclosure of practice profiles; and
- d. Provide the opportunity for any practitioner at any time to examine the accuracy, completeness, or validity of any practice profile concerning the practitioner and to prepare a written response to the profile. The entity shall negotiate in good faith with the practitioner to correct any inaccuracies or to make the profile complete. If the inaccuracies or deficiencies are not corrected to the satisfaction of the practitioner, the entity shall submit the written response prepared by the practitioner along with the profile at the time the profile is used pursuant to subsection 1 or provided to any third party consistent with section 26.1-36-12.4.

3. This section does not limit the authority of the commissioner to obtain from an insurer information relating to an investigation of suspected or actual fraudulent insurance acts.

CHAPTER 226

SENATE BILL NO. 2169

(Senators Hogue, D. Larson)
(Representatives Brabandt, Klemin)
(At the request of the Commission on Uniform State Laws)

AN ACT to create and enact chapter 28-20.3 of the North Dakota Century Code, relating to recognition of foreign-country money judgments; and to repeal chapter 28-20.2 of the North Dakota Century Code, relating to foreign money judgments.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Chapter 28-20.3 of the North Dakota Century Code is created and enacted as follows:

28-20.3-01. Definitions.

As used in this chapter:

1. "Foreign country" means a government other than:
 - a. The United States;
 - b. A state, district, commonwealth, territory, or insular possession of the United States; or
 - c. Any other government with regard to which the decision in this state as to whether to recognize a judgment of that government's courts is initially subject to determination under section 1 of article IV of the Constitution of the United States.
2. "Foreign-country judgment" means a judgment of a court of a foreign country.

28-20.3-02. Applicability.

1. Except as otherwise provided in subsection 2, this chapter applies to a foreign-country judgment to the extent the judgment:
 - a. Grants or denies recovery of a sum of money; and
 - b. Under the law of the foreign country where rendered, is final, conclusive and enforceable.
2. This chapter does not apply to a foreign-country judgment, even if the judgment grants or denies recovery of a sum of money, to the extent the judgment is:

- a. A judgment for taxes;
 - b. A fine or other penalty; or
 - c. A judgment for divorce, support, or maintenance, or other judgment rendered in connection with domestic relations.
3. A party seeking recognition of a foreign-country judgment has the burden of establishing that this chapter applies to the foreign-country judgment.

28-20.3-03. Standards for recognition of foreign-country judgment.

1. Except as otherwise provided in subsections 2 and 3, a court of this state shall recognize a foreign-country judgment to which this chapter applies.
2. A court of this state may not recognize a foreign-country judgment if:
 - a. The judgment was rendered under a judicial system that does not provide impartial tribunals or procedures compatible with the requirements of due process of law;
 - b. The foreign court did not have personal jurisdiction over the defendant; or
 - c. The foreign court did not have jurisdiction over the subject matter.
3. A court of this state need not recognize a foreign-country judgment if:
 - a. The defendant in the proceeding in the foreign court did not receive notice of the proceeding in sufficient time to enable the defendant to defend;
 - b. The judgment was obtained by fraud that deprived the losing party of an adequate opportunity to present its case;
 - c. The judgment or the cause of action on which the judgment is based is repugnant to the public policy of this state or of the United States;
 - d. The judgment conflicts with another final and conclusive judgment;
 - e. The proceeding in the foreign court was contrary to an agreement between the parties under which the dispute in question was to be determined otherwise than by proceedings in that foreign court;
 - f. In the case of jurisdiction based only on personal service, the foreign court was a seriously inconvenient forum for the trial of the action;
 - g. The judgment was rendered in circumstances that raise substantial doubt about the integrity of the rendering court with respect to the judgment; or
 - h. The specific proceeding in the foreign court leading to the judgment was not compatible with the requirements of due process of law.
4. A party resisting recognition of a foreign-country judgment has the burden of establishing that a ground for nonrecognition stated in subsection 2 or 3 exists.

28-20.3-04. Personal jurisdiction.

1. A foreign-country judgment may not be refused recognition for lack of personal jurisdiction if:
 - a. The defendant was served with process personally in the foreign country;
 - b. The defendant voluntarily appeared in the proceeding, other than for the purpose of protecting property seized or threatened with seizure in the proceeding or of contesting the jurisdiction of the court over the defendant;
 - c. The defendant, before the commencement of the proceeding, had agreed to submit to the jurisdiction of the foreign court with respect to the subject matter involved;
 - d. The defendant was domiciled in the foreign country when the proceeding was instituted or was a corporation or other form of business organization that had its principal place of business in, or was organized under the laws of, the foreign country;
 - e. The defendant had a business office in the foreign country and the proceeding in the foreign court involved a cause of action arising out of business done by the defendant through that office in the foreign country;
or
 - f. The defendant operated a motor vehicle or airplane in the foreign country and the proceeding involved a cause of action arising out of that operation.
2. The list of bases for personal jurisdiction in subsection 1 is not exclusive. The courts of this state may recognize bases of personal jurisdiction other than those listed in subsection 1 as sufficient to support a foreign-country judgment.

28-20.3-05. Procedure for recognition of foreign-country judgment.

1. If recognition of a foreign-country judgment is sought as an original matter, the issue of recognition must be raised by filing an action seeking recognition of the foreign-country judgment.
2. If recognition of a foreign-country judgment is sought in a pending action, the issue of recognition may be raised by counterclaim, cross-claim, or affirmative defense.

28-20.3-06. Effect of recognition of foreign-country judgment.

If the court in a proceeding under section 28-20.3-05 finds the foreign-country judgment is entitled to recognition under this chapter then, to the extent the foreign-country judgment grants or denies recovery of a sum of money, the foreign-country judgment is:

1. Conclusive between the parties to the same extent as the judgment of a sister state entitled to full faith and credit in this state would be conclusive; and
2. Enforceable in the same manner and to the same extent as a judgment rendered in this state.

28-20.3-07. Stay of proceedings pending appeal of foreign-country judgment.

If a party establishes that an appeal from a foreign-country judgment is pending or will be taken, the court may stay any proceedings with regard to the foreign-country judgment until the appeal is concluded, the time for appeal expires, or the appellant has had sufficient time to prosecute the appeal and has failed to do so.

28-20.3-08. Statute of limitations.

An action to recognize a foreign-country judgment must be commenced within the earlier of the time during which the foreign-country judgment is effective in the foreign country or fifteen years from the date the foreign-country judgment became effective in the foreign country.

28-20.3-09. Uniformity of interpretation.

In applying and construing this uniform chapter, consideration must be given to the need to promote uniformity of the law with respect to its subject matter among states that enact it.

SECTION 2. REPEAL. Chapter 28-20.2 of the North Dakota Century Code is repealed.

CHAPTER 235

HOUSE BILL NO. 1336

(Representatives Keiser, D. Anderson, Lefor)
(Senators Klein, Unruh)

AN ACT to provide for limitations of penalties for environmental audits.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1.

Environmental audits - Violations.

1. As used in this section:

- a. "Environmental audit" means a voluntary, internal, and comprehensive evaluation of a facility or activity which is intended to prevent noncompliance with environmental laws, rules, or permits enforced by a regulatory agency under chapter 23-25, 23-20.3, 23-29, 38-08, or 61-28. An environmental audit may be conducted by an owner, operator, or prospective owner or operator. An employee or independent contractor may conduct an environmental audit on behalf of the owner, operator, or prospective owner or operator.
 - b. "Environmental audit report" means a set of documents labeled "Environmental Audit Report: Privileged Document" prepared as a result of an environmental audit which must include a description of the scope of the audit; the information gained in the audit and findings, conclusions, and recommendations; and exhibits and appendices. The exhibits and appendices to the environmental audit report may include interviews with current or former employees, field notes and records of observations, findings, opinions, suggestions, conclusions, guidance, notes, drafts, memoranda, legal analyses, drawings, photographs, laboratory analyses and other analytical data, computer-generated or electronically recorded information, maps, charts, graphs, and surveys and other communications associated with an environmental audit.
 - c. "Regulatory agency" means the agency with regulatory authority over the facility or activity.
 - d. "Willfully" has the same meaning as provided under section 12.1-02-02.
2. A regulatory agency may not pursue civil penalties for a violation found during an environmental audit which the regulated entity discloses to the regulatory agency in writing within forty-five days after the violation is found, unless:
- a. The violation caused imminent or substantial harm to human health or the environment;
 - b. The violation is found by the regulatory agency before the regulated entity discloses the violation in writing to the regulatory agency;

- c. The regulated entity does not correct the violation within sixty days of discovery or, if correction within sixty days is not possible, within a reasonable period as agreed upon in writing by the regulatory agency, but not to exceed three hundred sixty-five days;
 - d. The regulated entity established a pattern of repeated violations of environmental law, rule, permit, or order by committing the same or similar violation that resulted in the imposition of a penalty by a regulatory agency more than once within two years before the date of the disclosure;
 - e. The regulated entity willfully violated a state or federal environmental law, rule, or permit;
 - f. The violation is a result of gross negligence, as defined under section 1-01-17; or
 - g. The regulatory agency assumed primacy over a federally delegated environmental program and a waiver of penalty authority for the violation would result in a state program less stringent than the federal program or the waiver would violate any federal rule required to maintain primacy. If a federally delegated program requires the imposition of a penalty for a violation, to the extent allowed under federal law or rule, the voluntary disclosure must be considered a mitigating factor in determining the penalty amount.
3. To qualify for a penalty exemption under subsection 2, the regulated entity shall notify the regulatory agency in writing before beginning the environmental audit. The notice must specify the facility or portion of the facility to be audited, the audit's anticipated start date, and the general scope of the audit. Unless the regulatory agency agrees in writing to an extension, the environmental audit must be completed within one hundred eighty days of the start date. This section may not be construed to authorize uninterrupted or continuous environmental audits.
 4. Reporting a violation is mandatory if the reporting is required under chapter 23-25, 23-20.3, 23-29, 38-08, or 61-28, any rule or permit implementing those chapters, any federal law or rule, or any administrative or court order.
 5. Notwithstanding subsection 2, the regulatory agency may pursue civil penalties against a regulated entity for a violation disclosed under this section if the regulatory agency finds the regulated entity:
 - a. Intentionally misrepresented material facts concerning the violation disclosed or the nature or extent of any damage to human health or the environment; or
 - b. Initiated a self-audit to avoid liability for a violation after the regulated entity's knowledge or imminent discovery.
 6. Unless the privilege is expressly waived by the regulated entity that prepared the report, an environmental audit report is privileged and not admissible evidence in a civil action or proceeding. The regulated entity asserting this privilege has the burden of proving the privilege. The privilege does not apply to:

-
- a. Information relating to the types of violations listed in subsection 2.
 - b. Information relating to a violation subject to a regulatory agency's finding under subsection 5.
 - c. Disclosures, notifications, and other information provided by the regulated entity to the regulatory agency under this section.
7. Failure to label a document in an exhibit or appendix to an environmental audit report does not constitute a waiver of the audit privilege under this section or create a presumption the privilege does not apply.

State agencies that receive direct reports of spills or discharges shall provide the report information to the division within a time that is consistent with potential level of response needed.

2. Establishment of funds.

- a. There is created in the state treasury a nonlapsing restricted account to be known as a state hazardous chemicals preparedness and response fund. HOUSE BILL NO. 1151

(Representatives Streytle, Dockter, Lefor)
(Senators O. Larsen, Schaible, Unruh)

AN ACT to amend and reenact section 38-08-04 of the North Dakota Century Code, relating to the reporting of well pad or oil and gas production facility fluid spills.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 38-08-04 of the North Dakota Century Code is amended and reenacted as follows:

38-08-04. Jurisdiction of commission.

1. The commission has continuing jurisdiction and authority over all persons and property, public and private, necessary to enforce effectively the provisions of this chapter. The commission has authority, and it is its duty, to make such investigations as it deems proper to determine whether waste exists or is imminent or whether other facts exist which justify action by the commission. The commission has the authority:
 4. a. To require:
 - a- (1) Identification of ownership of oil or gas wells, producing leases, tanks, plants, structures, and facilities for the transportation or refining of oil and gas.
 - b- (2) The making and filing with the industrial commission of all resistivity, radioactivity, and mechanical well logs and the filing of directional surveys, if taken, and the filing of reports on well location, drilling, and production.
 - e- (3) The drilling, casing, operation, and plugging of wells in such manner as to prevent the escape of oil or gas out of one stratum into another, the intrusion of water into oil or gas strata, the pollution of freshwater supplies by oil, gas, or saltwater, and to prevent blowouts, cavings, seepages, and fires.
 - d- (4) The furnishing of a reasonable bond with good and sufficient surety, conditioned upon the full compliance with this chapter, and the rules and orders of the industrial commission, including without limitation a bond covering the operation of any underground gathering pipeline transferring oil or produced water from a production facility for disposal, storage, or sale purposes, except that if the commission

requires a bond to be furnished, the person required to furnish the bond may elect to deposit under such terms and conditions as the industrial commission may prescribe a collateral bond, self-bond, cash, or any alternative form of security approved by the commission, or combination thereof, by which an operator assures faithful performance of all requirements of this chapter and the rules and orders of the industrial commission.

- e- (5) That the production from wells be separated into gaseous and liquid hydrocarbons, and that each be accurately measured by such means and upon such standards as may be prescribed by the commission.
- f. (6) The operation of wells with efficient gas-oil and water-oil ratios, and to fix these ratios.
- g- (7) Certificates of clearance in connection with the transportation or delivery of oil, gas, or any product.
- h- (8) Metering or other measuring of oil, gas, or product related to production in pipelines, gathering systems, storage tanks, barge terminals, loading racks, refineries, or other places, by meters or other measuring devices approved by the commission.
- i. (9) Every person who produces, sells, purchases, acquires, stores, transports, refines, disposes of, or processes oil, gas, saltwater, or other related oilfield fluids in this state to keep and maintain within this state complete and accurate records of the quantities thereof, which records must be available for examination by the commission or its agents at all reasonable times, and to file with the commission reports as the commission may prescribe with respect to oil or gas or the products thereof. An oil and gas production report need not be notarized but must be signed by the person submitting the report.
- j- (10) The payment of fees for services performed. The amount of the fee shall be set by the commission based on the anticipated actual cost of the service rendered. Unless otherwise provided by statute, all fees collected by the commission must be deposited in the general fund of this state, according to procedures established by the state treasurer.
- k- (11) The filing free of charge of samples and core chips and of complete cores when requested in the office of the state geologist within six months after the completion or abandonment of the well.
- l. (12) The placing of wells in abandoned-well status which have not produced oil or natural gas in paying quantities for one year. A well in abandoned-well status must be promptly returned to production in paying quantities, approved by the commission for temporarily abandoned status, or plugged and reclaimed within six months. If none of the three preceding conditions are met, the industrial commission may require the well to be placed immediately on a single-well bond in an amount equal to the cost of plugging the well and reclaiming the well site. In setting the bond amount, the commission shall use information from recent plugging and reclamation operations. After a well has been in abandoned-well status for one year, the well's equipment, all well-related equipment at the well site, and salable oil at

the well site are subject to forfeiture by the commission. If the commission exercises this authority, section 38-08-04.9 applies. After a well has been in abandoned-well status for one year, the single-well bond referred to above, or any other bond covering the well if the single-well bond has not been obtained, is subject to forfeiture by the commission. A surface owner may request a review of the temporarily abandoned status of a well that has been on temporarily abandoned status for at least seven years. The commission shall require notice and hearing to review the temporarily abandoned status. After notice and hearing, the surface owner may request a review of the temporarily abandoned status every two years.

2. b. To regulate:
 - a. (1) The drilling, producing, and plugging of wells, the restoration of drilling and production sites, and all other operations for the production of oil or gas.
 - b. (2) The shooting and chemical treatment of wells.
 - c. (3) The spacing of wells.
 - d. (4) Operations to increase ultimate recovery such as cycling of gas, the maintenance of pressure, and the introduction of gas, water, or other substances into producing formations.
 - e. (5) Disposal of saltwater and oilfield wastes.
 - (1) (a) The commission shall give all affected counties written notice of hearings in such matters at least fifteen days before the hearing.
 - (2) (b) The commission may consider, in addition to other authority granted under this section, safety of the location and road access to saltwater disposal wells, treating plants, and all associated facilities.
 - f. (6) The underground storage of oil or gas.
3. c. To limit and to allocate the production of oil and gas from any field, pool, or area and to establish and define as separate marketing districts those contiguous areas within the state which supply oil and gas to different markets, and to limit and allocate the production of oil and gas for each separate marketing district.
4. d. To classify wells as oil or gas wells for purposes material to the interpretation or enforcement of this chapter, to classify and determine the status and depth of wells that are stripper well property as defined in section 57-51.1-01, to certify to the tax commissioner which wells are stripper wells as defined in section 57-51.1-01 and the depth of those wells, and to certify to the tax commissioner which wells involve secondary or tertiary recovery operations as defined in section 57-51.1-01, and the date of qualification for the oil extraction tax exemption for secondary and tertiary recovery operations.

- 5- e. To adopt and to enforce rules and orders to effectuate the purposes and the intent of this chapter and the commission's responsibilities under chapter 57-51.1. When adopting a rule, issuing an order, or creating a policy, the commission shall give due consideration to the effect of including locations within this state which may also be under the jurisdiction of the federal government or a tribal government. When reporting information resulting from adopting a rule, issuing an order, or creating a policy that affects locations within this state which may also be under the jurisdiction of the federal government or a tribal government, the commission shall provide sufficient information to indicate the effect of including locations that may also be under the regulatory jurisdiction of the federal government or a tribal government.
- 6- f. To provide for the confidentiality of well data reported to the commission if requested in writing by those reporting the data for a period not to exceed six months. However, the commission may release:
 - a- (1) Volumes injected into a saltwater injection well.
 - b- (2) Information from the spill report on a well on a site at which more than ten barrels of fluid, not contained on the well site, was released for which an oilfield environmental incident report is required by law.
2. A person controlling or operating a well, pipeline, receiving tank, storage tank, treating plant, or other receptacle or production facility associated with oil and gas, or with water production, injection, processing, or well servicing, shall report to the commission any leak, spill, or release of fluid. A report to the commission is not required if the leak, spill, or release is crude oil, produced water, or natural gas liquids in a quantity of less than ten barrels cumulative over a fifteen-day time period, remains on the site or facility, and is on a well site where the well was spud after September 1, 2000, or on a facility, other than a well site, constructed after September 1, 2000.
3. Any written violation notice issued by the commission regarding the notification of a fire, leak, spill, blowout, or leak and spill cleanup must be placed in the well file or facility file and the files must be available for review by the surface owner.

7. The time when and conditions under which and the method by which the unit must or may be dissolved and its affairs wound up; however, the unit may be dissolved ten years after the unit agreement becomes effective upon a petition to the commission by the royalty owners who are credited with at least ~~eighty~~ percent of the production and proceeds thereof or for units established after August 1, 2001, upon a petition to the commission by the royalty owners who are credited with at least ~~sixty~~ percent of the production and proceeds thereof the percentage of interest of the royalty production and proceeds thereof required to ratify the unit agreement on the date the unit agreement was initially approved by the commission, and a subsequent hearing and order by the commission. The commission may not dissolve any unit if the dissolution would be likely to result in waste or the violation of the correlative rights of any owner. This provision does not limit or restrict any other authority which the commission has.

SECTION 2. AMENDMENT. Section 38-08-09.5 of the North Dakota Century Code is amended and reenacted as follows:

38-08-09.5. Ratification or approval of plan by lessees and owners.

At the time of filing of the petition for the approval of a unit agreement and the filing of the unit agreement, the commission shall schedule a hearing. At least forty-five days prior to the hearing, the applicant shall give notice of the hearing and shall mail, postage prepaid, a copy of the application and the proposed plan of unitization to each affected person owning an interest of record in the unit outline, at such person's last-known post-office address. In addition, the applicant shall file with the commission engineering, geological, and all other technical exhibits to be used at the hearing, and further, the notice must specify that such material is filed and is available for inspection. Service is complete in the mailing of the notice of hearing and unit agreement to each interest owner as described in this section and the filing of an affidavit of mailing with the commission. No order of the commission creating a unit and prescribing its plan of unitization becomes effective until the plan of unitization has been signed, or in writing ratified or approved by those persons who, under the commission's order, will be required to pay ~~at least sixty~~ more than fifty-five percent of the costs of the unit operation and by the owners of ~~at least sixty~~ more than fifty-five percent of the royalty interests, excluding overriding royalties, production payments, and other interests carved out of the working interest, and in addition it is required

that when there is more than one person who will be obligated to pay costs of the unit operation, at least two nonaffiliated such persons and at least two royalty interest owners, are required as voluntary parties, and the commission has made a finding either in the order creating the unit or in a supplemental order that the plan of unitization has been so signed, ratified, or approved by lessees and royalty owners owning the required percentage interest. If the plan of unitization has not been signed, ratified, or approved by lessees and royalty owners owning the required percentage interest at the time the order creating the unit is made, the commission shall, upon petition and notice, hold such additional hearings as may be requested or required to determine if and when the plan of unitization has been so signed, ratified, or approved by lessees and royalty owners owning the required percentage interest and shall, in respect to such hearings, enter a finding of its determination in such regard. In the event lessees and royalty owners, or either, owning the required percentage interest have not signed, ratified, or approved the plan of unitization within six months from the date on which the order creating the unit is made, the order ceases to be of further force and effect and shall be revoked by the commission.

SECTION 3. AMENDMENT. Section 38-08-09.9 of the North Dakota Century Code is amended and reenacted as follows:

HOUSE BILL NO. 1409

(Representative M. Nelson)

AN ACT to amend and reenact section 38-11.2-07 of the North Dakota Century Code, relating to well water testing preceding subsurface mineral production and liability for damages to water supplies.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 38-11.2-07 of the North Dakota Century Code is amended and reenacted as follows:

38-11.2-07. Protection of surface and ground water - Other responsibilities of mineral developer.

1. The mineral developer shall conduct or have conducted an inventory of water wells located within one-half mile [804.67 meters] of where subsurface mineral exploration activities are conducted, if such exploration activities appear reasonably likely to encounter ground water, or within one mile [1.61 kilometers] of a subsurface mineral production site.
2. The mineral developer shall conduct or have conducted a certified water quality and quantity test within one year preceding the commencement of subsurface mineral production operations on each water well or water supply located on the involved real property and as identified by the surface owner of that real property. Results of water quality tests conducted under this subsection must be reported in a prescribed format to the state department of health, which shall maintain a database of the results. The water quality test must be collected as prescribed by the department of health and analyzed by a state-certified laboratory.
3. If the domestic, livestock, or irrigation water supply of any person who owns an interest in real property within one-half mile [804.67 meters] of where subsurface mineral exploration activities are or have been conducted or within one mile [1.61 kilometers] of a subsurface mineral production site has been disrupted, or diminished in quality or quantity by the drilling operations, the person who owns an interest in real property is entitled to recover the cost of making such repairs, alterations, or construction that will ensure the delivery to the surface owner of that quality and quantity of water available to the surface owner prior to the commencement of drilling operations.
4. Any person who owns an interest in real property who obtains all or a part of that person's water supply for domestic, agricultural, industrial, or other beneficial use has a claim for relief against a mineral developer to recover damages for disruption or diminution in quality or quantity of that person's water supply proximately caused from drilling operations conducted by the mineral developer.
5. Prima facie evidence of injury under this section may be established by a showing that the mineral developer's drilling operations penetrated or

disrupted an aquifer in such a manner as to cause a diminution in water quality or quantity within the distance limits imposed by this section, or by showing the mineral developer did not conduct or have conducted the testing required under subsection 2.

6. If a person refuses to consent to the testing of a water well or water supply on land owned by the person, as required under subsection 2, the person forfeits any claim for relief under subsection 3 or 4.
7. An action brought under this section when not otherwise specifically provided by law must be brought within six years of the time the action has accrued. For purposes of this section, the claim for relief is deemed to have accrued at the time it is discovered or might have been discovered in the exercise of reasonable diligence.
- ~~7-8.~~ A tract of land is not bound to receive water contaminated by drilling operations on another tract of land and the owner of a tract has a claim for relief against a mineral developer to recover the damages proximately resulting from natural drainage of waters contaminated by drilling operations.
- ~~8-9.~~ The mineral developer is also responsible for all damages to person or property resulting from the lack of ordinary care by the mineral developer or resulting from a nuisance caused by drilling operations.
- ~~9-10.~~ This section does not create a cause of action if an appropriator of water can reasonably acquire the water under the changed conditions and if the changed conditions are a result of the legal appropriation of water by the mineral developer.

(Senators Campbell, Clemens, Laffen, Nelson)

AN ACT to amend and reenact section 39-01-15 and subsection 1 of section 39-06.1-06 of the North Dakota Century Code, relating to parking spaces for mobility-impaired individuals.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

¹¹⁷ **SECTION 1. AMENDMENT.** Section 39-01-15 of the North Dakota Century Code is amended and reenacted as follows:

39-01-15. Parking privileges for mobility impaired - Certificate - Revocation - Continuing appropriation - Penalty.

1. ~~Any~~^A mobility-impaired individual who displays prominently upon an ~~automobile~~^{a motor vehicle} parked by that individual or under that individual's direction and for that individual's use, the distinguishing certificate specified in subsection 4, license plates issued under section 39-04-10.2, or a disabled veteran plate issued under subdivision j of subsection 2 of section 39-04-18 is entitled to courtesy in the parking of the ~~automobile~~^{motor vehicle}. However, any municipality may prohibit, by ordinance, parking on any highway for the purpose of creating a fire lane or to provide for the accommodation of heavy traffic during morning and afternoon rush hours. The privileges extended to a mobility-impaired individual do not apply on a highway if parking is prohibited.
2. A mobility-impaired individual as used in this section includes an individual who uses portable oxygen; requires personal assistance or the use of crutches, a wheelchair, or a walker to walk two hundred feet [60.96 meters] without rest; is restricted by cardiac, pulmonary, or vascular disease from walking two hundred feet [60.96 meters] without rest; has a forced expiratory volume of less than one liter for one second or an arterial oxygen tension of less than sixty millimeters of mercury on room air while at rest and is classified III or IV by standards for cardiac disease set by the American heart association; has an orthopedic, neurologic, or other medical condition that makes it impossible for the person to walk two hundred feet [60.96 meters] without assistance or rest; or is a disabled veteran issued a plate under subdivision j of subsection 2 of section 39-04-18.
3. Repealed by S.L. 1989, ch. 319, § 6.
4. The director may issue, for a fee of three dollars per year or part of a year, a special identifying certificate to any mobility-impaired applicant upon submission by the applicant of a completed application and a written or electronic statement issued by a qualified physician, physician assistant,

¹¹⁷ Section 39-01-15 was also amended by section 1 of House Bill No. 1135, chapter 335.

chiropractor, or an advanced practice registered nurse to the director that the applicant is a mobility-impaired person within the criteria of subsection 2. The director shall waive the requirement for a written or electronic statement from a qualified physician, physician assistant, chiropractor, or an advanced practice registered nurse if the applicant has previously submitted an application containing a certification from a qualified physician, physician assistant, chiropractor, or an advanced practice registered nurse that the applicant's impairment is not reversible. The application must include the information required by the director. The physician's, physician assistant's, chiropractor's, or advanced practice registered nurse's statement must describe how the impairment limits the applicant's mobility and daily life functions of the applicant. The certificate is valid for a period, not to exceed three years, as determined by the director. A physician, physician assistant, chiropractor, or an advanced practice registered nurse who provides a false statement that an individual is mobility impaired for the purpose of that individual obtaining a certificate under this subsection is guilty of an infraction for which a minimum fine of one hundred dollars must be imposed. A certificate issued under this subsection must be nine and one-half inches [24.13 centimeters] in height and three inches [7.62 centimeters] in width and must bear, in white on blue, the internationally accepted symbol of access for the mobility impaired. The certificate must bear the expiration date and registration number assigned by the director. The director shall adopt rules governing the issuance of the certificate. A temporary certificate, valid for an initial period not to exceed three months, may be issued by the director for a fee of three dollars upon application supported by a physician's, physician assistant's, chiropractor's, or an advanced practice registered nurse's statement. The director may issue a maximum of one additional temporary certificate for a fee of three dollars. The temporary certificate may be extended an additional period, not to exceed three months, upon application supported by a physician's, physician assistant's, chiropractor's, or an advanced practice registered nurse's statement that the extension is warranted. Temporary certificates must be the same size as other certificates issued under this section and must be white on red. The director may issue a maximum of one additional certificate, if the applicant does not have number plates issued under section 39-04-10.2 or under subdivision j of subsection 2 of section 39-04-18, for a fee of six dollars per certificate, to a mobility-impaired individual to whom a certificate has been issued under this subsection. The additional certificates may only be used by or on behalf of the mobility-impaired individual.

5. Except as provided in this subsection, two dollars of each fee for issuance of a certificate and one dollar of each fee for issuance of an additional certificate under this section must be deposited in the state highway department fund for purposes of defraying the cost of issuing the certificate. The rest of the fee, and the five dollar fee received for the issuance of an additional certificate under subsection 4, must be deposited in the state treasury and credited to the employment of people with disabilities fund. The fees deposited in the fund are hereby appropriated on a continuing basis to the department of human services for use by the committee on employment of people with disabilities to accomplish the committee's statutory duties provided under section 50-06.1-16. If a certificate is lost, mutilated, or destroyed, the individual to whom the certificate was issued is entitled to a replacement. The individual shall furnish proof satisfactory to the director that the certificate has been lost, mutilated, or destroyed, and shall pay a replacement fee of three dollars.

6. A certificate issued under this section must be hung from the rearview mirror of the motor vehicle whenever the vehicle is occupying a space reserved for the mobility impaired and is being used by a mobility-impaired individual or another individual for the purposes of transporting the mobility-impaired individual. No part of the certificate may be obscured. A fee of five dollars may be imposed for a violation of this subsection.
7. An applicant may appeal a decision denying issuance of the certificate to the director. Written notice of the appeal must be received within ten business days following receipt by the applicant of notice of denial. The applicant has sixty days to provide additional supportive material to the director for purposes of deciding the appeal. The director shall affirm or reverse the decision to deny issuance of the certificate within thirty days after receipt of the supportive material. Written notice of the decision must be given to the applicant.
8. If a law enforcement officer finds that the certificate is being improperly used, the officer may report to the director any violation and the director may, in the director's discretion, remove the privilege. An individual who is not mobility impaired and who exercises the privileges granted a mobility-impaired individual under subsection 1 is guilty of an infraction for which a fine of one hundred dollars must be imposed.
9. If a public or private entity designates parking spaces for use by a motor vehicle operated by a mobility-impaired individual, those reserved spaces must comply with the requirements of the Americans with Disabilities Accessibility Guidelines for Buildings and Facilities as contained in the appendix to title 28, Code of Federal Regulations, part 36 [28 CFR 36] and must be indicated by blue paint on the curb or edge of the paved portion of the street or parking lot adjacent to the space. In addition to blue paint, each reserved space must be indicated by an official sign approved by the director bearing the internationally accepted symbol of access for the mobility impaired. The sign must indicate that unauthorized use of the space is a nonmoving violation for which a fee of one hundred dollars must be imposed. For particular events, a public or a private entity may reserve additional parking spaces for use by motor vehicles operated by a mobility-impaired individual. In that case, each temporarily reserved space must be indicated by a sign or other suitable means. A sign indicating that a space is reserved for the mobility impaired and blue paint on the curb or edge of the paved portion of the street or parking lot adjacent to the space, unless the space is a temporary mobility-impaired parking space, is sufficient basis for the enforcement of this section. A law enforcement officer shall enforce this section in any parking lot or parking facility, whether publicly or privately owned.
10. If the designated mobility-impaired parking spaces are occupied or unavailable, a motor vehicle displaying the distinguishing certificate specified in subsection 4, license plates issued under section 39-04-10.2, or a disabled veteran plate issued under subdivision j of subsection 2 of section 39-04-18 may park at an angle and occupy two standard parking spaces.
- ~~10-11.~~ 11. An individual may not stop, stand, or park any vehicle in any designated parking space that is reserved for the mobility impaired unless the vehicle displays a mobility-impaired identification certificate issued by the director to a mobility-impaired individual. A mobility-impaired individual may not permit the use of a certificate issued under this section by an individual who is not

mobility impaired when that use is not in connection with the transport of the mobility-impaired individual. The registered owner of a vehicle may not allow that vehicle to be used in a manner that violates this subsection. Proof of intent is not required to prove a registered owner's violation of this subsection. The registered owner, however, may be excused from a violation if the owner provides the citing authority with the name and address of the individual operating the vehicle at the time of the violation. A vehicle may temporarily use a space reserved for a mobility-impaired individual without a mobility-impaired certificate for the purpose of loading and unloading a mobility-impaired individual. A violation of this subsection is a nonmoving violation for which a fee of one hundred dollars must be imposed. Notwithstanding section 29-27-02.1, fifty percent of the fee imposed and collected under this subsection is appropriated on a continuing basis to the local committee on persons with disabilities, if one exists in the city in which the violation occurred, for the development of job opportunities for disabled individuals in the community.

~~41-12.~~ Any motor vehicle licensed in another state which displays a special authorized vehicle designation issued by the licensing authority of that state for vehicles used in the transportation of a mobility-impaired individual must be accorded the same privilege provided in this section for similar vehicles licensed in this state if the laws of the other state provide the same privileges to North Dakota motor vehicles displaying the special identifying certificate authorized in this section.

~~42-13.~~ An entity that violates the requirements of subsection 9 is guilty of an infraction if the entity does not comply with subsection 9 within sixty days after receiving official notification of the violation.

~~43-14.~~ The department shall issue a mobility-impaired parking permit for a vehicle owned and operated by care providers licensed by the state, veterans-related organizations, and other entities that regularly transport mobility-impaired individuals for use by those providers and entities to park in designated parking spaces while transporting mobility-impaired individuals.

¹¹⁸ **SECTION 2. AMENDMENT.** Subsection 1 of section 39-06.1-06 of the North Dakota Century Code is amended and reenacted as follows:

1. For a nonmoving violation as defined in section 39-06.1-08, a fee of twenty dollars except for a violation of any traffic parking regulation on any state charitable or penal institution property or on the state capitol grounds, a fee in the amount of five dollars, excluding a violation of subsection ~~40~~11 of section 39-01-15.

If a person licensed in another state refuses in this state to submit to a test provided under section 39-20-01 or 39-20-14, or who submits to a test under section 39-20-01, or 39-20-02, or ~~39-20-03~~ and the test results show the person to have an alcohol concentration of at least eight one-hundredths of one percent by weight or, with respect to a person under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight at the time of performance of a test within two hours after driving or being in physical control of a motor vehicle, the following procedures apply:

The temporary permit must be signed and dated by the officer and serves as the director's official notification to the person of the director's intent to revoke, suspend, or deny driving privileges in this state, and of the hearing procedures under this chapter.
2. If the test was administered by urine sample or by drawing blood, the law enforcement officer, on reviewing the alcohol concentration analysis showing the individual had an alcohol concentration of at least eight one-hundredths of one percent by weight or, with respect to an individual under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight, shall mail or issue to the individual a notification of the test results, a temporary operator's permit extending nonresident operating privileges in this state for twenty-five days from the date of mailing or issuance or until earlier terminated by the decision of a hearing officer under section 39-20-05, and notice of the intent to revoke, suspend, or deny driving privileges in this state, together with the notice provided under section 39-06.1-07 of the procedures available under this chapter. 3. The law enforcement officer, within five days of issuing the temporary operator's permit, shall forward to the director a certified written report in the

form required by the director and a certified copy of the operational checklist and test records of a breath test and a copy of the certified copy of the analytical report for a blood or urine test for all tests administered at the direction of the officer. If the individual was issued a temporary operator's permit because of the individual's refusal to submit to a test under sections 39-20-01 and 39-20-14, the report must include information as provided in section 39-20-04. If the individual was issued a temporary operator's permit because of the results of a test, the report must show that the officer had reasonable grounds to believe the individual had been driving or was in actual physical control of a motor vehicle while in violation of section 39-08-01, or equivalent ordinance, that the individual was lawfully arrested, that the individual was tested for alcohol concentration under this chapter, and that the results of the test show that the individual had an alcohol concentration of at least eight one-hundredths of one percent by weight or, with respect to an individual under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight.

SECTION 7. AMENDMENT. Subsection 2 of section 39-20-05 of the North Dakota Century Code is amended and reenacted as follows:

The hearing must be recorded and its scope may cover only the issues of whether the arresting officer had reasonable grounds to believe the individual had been driving or was in actual physical control of a vehicle in violation of section 39-08-01 or equivalent ordinance or, with respect to an individual under twenty-one years of age, the individual had been driving or was in actual physical control of a vehicle while having an alcohol concentration of at least two one-hundredths of one percent by weight; whether the individual was placed under arrest, unless the individual was under twenty-one years of age and the alcohol concentration was less than eight one-hundredths of one percent by weight, then arrest is not required and is not an issue under any provision of this chapter; whether the individual was tested in accordance with section 39-20-01 ~~or 39-20-03~~ and, if applicable, section 39-20-02; and whether the test results show the individual had an alcohol concentration of at least eight one-hundredths of one percent by weight or, with respect to an individual under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight. For purposes of this section, a copy of a certified copy of an analytical report of a blood or urine sample from the director of the state crime laboratory or the director's designee, or electronically posted by the director of the state crime laboratory or the director's designee on the crime laboratory information management system and certified by a law enforcement officer or individual who has authorized access to the crime laboratory management system through the criminal justice data information sharing system or a certified copy of the checklist and test records from a certified breath test operator, and a copy of a certified copy of a certificate of the director of the state crime laboratory designating the director's designees, establish prima facie the alcohol concentration or the presence of drugs, or a combination thereof, shown therein.

The results of such screening test must be used only for determining whether or not a further test shall be given under the provisions of section 39-20-01. The officer shall inform the individual that North Dakota law requires the individual to take the screening test to determine whether the individual is under the influence of alcohol, ~~that refusal to take the screening test is a crime~~, and that refusal of the individual to submit to a screening test may result in a revocation for at least one hundred eighty days and up to three years of that individual's driving privileges. If such individual refuses to submit to such screening test or tests, none may be given, but such refusal is admissible in a court proceeding if the individual was arrested in violation of 39-08-01 and did not take any additional chemical tests requested by the law enforcement officer. Such refusal is sufficient cause to revoke such individual's license or permit to drive in the same manner as provided in section 39-20-04, and a hearing as provided in section 39-20-05 and a judicial review as provided in section 39-20-06 must be available.

CHAPTER 287

HOUSE BILL NO. 1097

(Human Services Committee)
(At the request of the State Board of Nursing)

AN ACT to create and enact a new chapter to title 43 of the North Dakota Century Code, relating to the nurse licensure compact; and to amend and reenact section 43-12.1-09.1 of the North Dakota Century Code, relating to criminal history record checks.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

¹³⁵ **SECTION 1. AMENDMENT.** Section 43-12.1-09.1 of the North Dakota Century Code is amended and reenacted as follows:

43-12.1-09.1. Nursing licensure or registration - Criminal history record checks.

The board shall require each applicant for initial licensure and registration, including applicants for a multistate license under section 2 of this Act, to submit to a statewide and nationwide criminal history record check. The board may require any licensee or registrant who is renewing a license or registration, including renewal of a multistate license under section 2 of this Act, and any licensee or registrant who is the subject of a disciplinary investigation or proceeding to submit to a statewide and nationwide criminal history record check. The nationwide criminal history record check must be conducted in the manner provided by section 12-60-24. All costs associated with obtaining a background check are the responsibility of the applicant, licensee, or registrant. The board may grant a nonrenewable temporary permit to an applicant for initial or renewed license or registration who submits to a criminal history record check as required by this chapter if the applicant has met all other licensure or registration requirements in accordance with subsection 2 of section 43-12.1-09. The board may not share with, or disclose to, the interstate commission of nurse licensure compact administrators any contents of a nationwide criminal history record check.

SECTION 2. A new chapter to title 43 of the North Dakota Century Code is created and enacted as follows:

ARTICLE I - FINDINGS AND DECLARATION OF PURPOSE

1. The party states find that:
 - a. The health and safety of the public are affected by the degree of compliance with and the effectiveness of enforcement activities related to state nurse licensure laws;
 - b. Violations of nurse licensure and other laws regulating the practice of nursing may result in injury or harm to the public;

¹³⁵ Section 43-12.1-09.1 was also amended by section 1 of House Bill No. 1096, chapter 288.

- c. The expanded mobility of nurses and the use of advanced communication technologies as part of our nation's health care delivery system require greater coordination and cooperation among states in the areas of nurse licensure and regulation;
 - d. New practice modalities and technology make compliance with individual state nurse licensure laws difficult and complex;
 - e. The current system of duplicative licensure for nurses practicing in multiple states is cumbersome and redundant for both nurses and states; and
 - f. Uniformity of nurse licensure requirements throughout the states promotes public safety and public health benefits.
2. The general purposes of this compact are to:
- a. Facilitate the states' responsibility to protect the public's health and safety;
 - b. Ensure and encourage the cooperation of party states in the areas of nurse licensure and regulation;
 - c. Facilitate the exchange of information between party states in the areas of nurse regulation, investigation, and adverse actions;
 - d. Promote compliance with the laws governing the practice of nursing in each jurisdiction;
 - e. Invest all party states with the authority to hold a nurse accountable for meeting all state practice laws in the state in which the patient is located at the time care is rendered through the mutual recognition of party state licenses;
 - f. Decrease redundancies in the consideration and issuance of nurse licenses; and
 - g. Provide opportunities for interstate practice by nurses who meet uniform licensure requirements.

ARTICLE II - DEFINITIONS

As used in this compact:

1. "Adverse action" means any administrative, civil, equitable, or criminal action permitted by a state's laws which is imposed by a licensing board or other authority against a nurse, including actions against an individual's license or multistate licensure privilege such as revocation, suspension, probation, monitoring of the licensee, limitation on the licensee's practice, or any other encumbrance on licensure affecting a nurse's authorization to practice, including issuance of a cease and desist action.
2. "Alternative program" means a nondisciplinary monitoring program approved by a licensing board.
3. "Coordinated licensure information system" means an integrated process for collecting, storing, and sharing information on nurse licensure and

enforcement activities related to nurse licensure laws which is administered by a nonprofit organization composed of and controlled by licensing boards.

4. "Current significant investigative information" means:
 - a. Investigative information that a licensing board, after a preliminary inquiry that includes notification and an opportunity for the nurse to respond, if required by state law, has reason to believe is not groundless and, if proved true, would indicate more than a minor infraction; or
 - b. Investigative information that indicates that the nurse represents an immediate threat to public health and safety regardless of whether the nurse has been notified and had an opportunity to respond.
5. "Encumbrance" means a revocation or suspension of, or any limitation on, the full and unrestricted practice of nursing imposed by a licensing board.
6. "Home state" means the party state that is the nurse's primary state of residence.
7. "Licensing board" means a party state's regulatory body responsible for issuing nurse licenses.
8. "Multistate license" means a license to practice as a registered or a licensed practical/vocational nurse issued by a home state licensing board which authorizes the licensed nurse to practice in all party states under a multistate licensure privilege.
9. "Multistate licensure privilege" means a legal authorization associated with a multistate license permitting the practice of nursing as either a registered nurse or licensed practical/vocational nurse in a remote state.
10. "Nurse" means registered nurse or licensed practical/vocational nurse, as those terms are defined by each party state's practice laws.
11. "Party state" means any state that has adopted this compact.
12. "Remote state" means a party state, other than the home state.
13. "Single-state license" means a nurse license issued by a party state which authorizes practice only within the issuing state and does not include a multistate licensure privilege to practice in any other party state.
14. "State" means a state, territory, or possession of the United States and the District of Columbia.
15. "State practice laws" means a party state's laws, rules, and regulations that govern the practice of nursing, define the scope of nursing practice, and create the methods and grounds for imposing discipline. "State practice laws" do not include requirements necessary to obtain and retain a license, except for qualifications or requirements of the home state.

ARTICLE III - GENERAL PROVISIONS AND JURISDICTION

1. A multistate license to practice registered or licensed practical/vocational nursing issued by a home state to a resident in that state will be recognized by each party state as authorizing a nurse to practice as a registered nurse or as a licensed practical/vocational nurse, under a multistate licensure privilege, in each party state.
2. A state shall implement procedures for considering the criminal history records of applicants for initial multistate license or licensure by endorsement. Such procedures shall include the submission of fingerprints or other biometric-based information by applicants for the purpose of obtaining an applicant's criminal history record information from the federal bureau of investigation and the agency responsible for retaining that state's criminal records.
3. Each party state shall require the following for an applicant to obtain or retain a multistate license in the home state:
 - a. Meets the home state's qualifications for licensure or renewal of licensure, as well as, all other applicable state laws;
 - b. (1) Has graduated or is eligible to graduate from a licensing board-approved registered nurse or licensed practical/vocational nurse prelicensure education program; or
(2) Has graduated from a foreign registered nurse or licensed practical/vocational nurse prelicensure education program that:
 - (a) Has been approved by the authorized accrediting body in the applicable country; and
 - (b) Has been verified by an independent credentials review agency to be comparable to a licensing board-approved prelicensure education program;
 - c. Has, if a graduate of a foreign prelicensure education program not taught in English or if English is not the individual's native language, successfully passed an English proficiency examination that includes the components of reading, speaking, writing, and listening;
 - d. Has successfully passed an NCLEX-RN® or NCLEX-PN® Examination or recognized predecessor, as applicable;
 - e. Is eligible for or holds an active, unencumbered license;
 - f. Has submitted, in connection with an application for initial licensure or licensure by endorsement, fingerprints or other biometric data for the purpose of obtaining criminal history record information from the federal bureau of investigation and the agency responsible for retaining that state's criminal records;
 - g. Has not been convicted or found guilty, or has entered an agreed disposition, of a felony offense under applicable state or federal criminal law;

- h. Has not been convicted or found guilty, or has entered an agreed disposition, of a misdemeanor offense related to the practice of nursing as determined on a case-by-case basis;
 - i. Is not currently enrolled in an alternative program;
 - j. Is subject to self-disclosure requirements regarding current participation in an alternative program; and
 - k. Has a valid United States social security number.
- 4. All party states may, in accordance with existing state due process law, to take adverse action against a nurse's multistate licensure privilege such as revocation, suspension, probation, or any other action that affects a nurse's authorization to practice under a multistate licensure privilege, including cease and desist actions. If a party state takes such action, it promptly shall notify the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system promptly shall notify the home state of any such actions by remote states.
- 5. A nurse practicing in a party state shall comply with the state practice laws of the state in which the client is located at the time service is provided. The practice of nursing is not limited to patient care, but includes all nursing practice as defined by the state practice laws of the party state in which the client is located. The practice of nursing in a party state under a multistate licensure privilege will subject a nurse to the jurisdiction of the licensing board, the courts, and the laws of the party state in which the client is located at the time service is provided.
- 6. Individuals not residing in a party state continue to be able to apply for a party state's single-state license as provided under the laws of each party state. However, the single-state license granted to these individuals will not be recognized as granting the privilege to practice nursing in any other party state. This compact does not affect the requirements established by a party state for the issuance of a single-state license.
- 7. Any nurse holding a home state multistate license, on the effective date of this compact, may retain and renew the multistate license issued by the nurse's then-current home state, provided that:
 - a. A nurse, who changes primary state of residence after this compact's effective date, shall meet all applicable requirements of subsection 3 of article III to obtain a multistate license from a new home state.
 - b. A nurse who fails to satisfy the multistate licensure requirements in subsection 3 of article III due to a disqualifying event occurring after this compact's effective date is ineligible to retain or renew a multistate license, and the nurse's multistate license must be revoked or deactivated in accordance with applicable rules adopted by the Interstate Commission of Nurse Licensure Compact Administrators ("commission").

ARTICLE IV - APPLICATIONS FOR LICENSURE IN A PARTY STATE

- 1. Upon application for a multistate license, the licensing board in the issuing party state shall ascertain, through the coordinated licensure information

system, whether the applicant has ever held, or is the holder of, a license issued by any other state, whether there are any encumbrances on any license or multistate licensure privilege held by the applicant, whether any adverse action has been taken against any license or multistate licensure privilege held by the applicant, and whether the applicant is currently participating in an alternative program.

2. A nurse may hold a multistate license, issued by the home state, in only one party state at a time.
3. If a nurse changes primary state of residence by moving between two party states, the nurse shall apply for licensure in the new home state, and the multistate license issued by the prior home state will be deactivated in accordance with applicable rules adopted by the commission.
 - a. The nurse may apply for licensure in advance of a change in primary state of residence.
 - b. A multistate license may not be issued by the new home state until the nurse provides satisfactory evidence of a change in primary state of residence to the new home state and satisfies all applicable requirements to obtain a multistate license from the new home state.
4. If a nurse changes primary state of residence by moving from a party state to a nonparty state, the multistate license issued by the prior home state will convert to a single-state license, valid only in the former home state.

ARTICLE V - ADDITIONAL AUTHORITIES INVESTED IN PARTY STATE LICENSING BOARDS

1. In addition to the other powers conferred by state law, a licensing board may:
 - a. Take adverse action against a nurse's multistate licensure privilege to practice within that party state.
 - (1) Only the home state has the power to take adverse action against a nurse's license issued by the home state.
 - (2) For purposes of taking adverse action, the home state licensing board shall give the same priority and effect to reported conduct received from a remote state as it would if such conduct had occurred within the home state. In so doing, the home state shall apply its own state laws to determine appropriate action.
 - b. Issue cease and desist orders or impose an encumbrance on a nurse's authority to practice within that party state.
 - c. Complete any pending investigations of a nurse who changes primary state of residence during the course of such investigations. The licensing board also may take any appropriate action and promptly shall report the conclusions of such investigations to the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system promptly shall notify the new home state of any such actions.

- d. Issue subpoenas for both hearings and investigations which require the attendance and testimony of witnesses, as well as, the production of evidence. Subpoenas issued by a licensing board in a party state for the attendance and testimony of witnesses or the production of evidence from another party state must be enforced in the latter state by any court of competent jurisdiction, according to the practice and procedure of that court applicable to subpoenas issued in proceedings pending before it. The issuing authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the state in which the witnesses or evidence are located.
 - e. Obtain and submit, for each nurse licensure applicant, fingerprint or other biometric-based information to the federal bureau of investigation for criminal background checks, receive the results of the federal bureau of investigation record search on criminal background checks, and use the results in making licensure decisions.
 - f. If otherwise permitted by state law, recover from the affected nurse the costs of investigations and disposition of cases resulting from any adverse action taken against that nurse.
 - g. Take adverse action based on the factual findings of the remote state, if the licensing board follows its own procedures for taking such adverse action.
2. If adverse action is taken by the home state against a nurse's multistate license, the nurse's multistate licensure privilege to practice in all other party states must be deactivated until all encumbrances have been removed from the multistate license. All home state disciplinary orders that impose adverse action against a nurse's multistate license shall include a statement that the nurse's multistate licensure privilege is deactivated in all party states during the pendency of the order.
 3. This compact does not override a party state's decision that participation in an alternative program may be used in lieu of adverse action. The home state licensing board shall deactivate the multistate licensure privilege under the multistate license of any nurse for the duration of the nurse's participation in an alternative program.

ARTICLE VI - COORDINATED LICENSURE INFORMATION SYSTEM AND EXCHANGE OF INFORMATION

1. All party states shall participate in a coordinated licensure information system of all licensed registered nurses and licensed practical/vocational nurses. This system includes information on the licensure and disciplinary history of each nurse, as submitted by party states, to assist in the coordination of nurse licensure and enforcement efforts.
2. The commission, in consultation with the administrator of the coordinated licensure information system, shall formulate necessary and proper procedures for the identification, collection, and exchange of information under this compact.

3. All licensing boards promptly shall report to the coordinated licensure information system any adverse action, any current significant investigative information, denials of applications (with the reasons for such denials), and nurse participation in alternative programs known to the licensing board regardless of whether such participation is deemed nonpublic or confidential under state law.
4. Current significant investigative information and participation in nonpublic or confidential alternative programs must be transmitted through the coordinated licensure information system only to party state licensing boards.
5. Notwithstanding any other provision of law, all party state licensing boards contributing information to the coordinated licensure information system may designate information that may not be shared with nonparty states or disclosed to other entities or individuals without the express permission of the contributing state.
6. Any personally identifiable information obtained from the coordinated licensure information system by a party state licensing board may not be shared with nonparty states or disclosed to other entities or individuals except to the extent permitted by the laws of the party state contributing the information.
7. Any information contributed to the coordinated licensure information system which is subsequently required to be expunged by the laws of the party state contributing that information also must be expunged from the coordinated licensure information system.
8. The compact administrator of each party state shall furnish a uniform data set to the compact administrator of each other party state, which must include, at a minimum:
 - a. Identifying information;
 - b. Licensure data;
 - c. Information related to alternative program participation; and
 - d. Other information that may facilitate the administration of this compact, as determined by commission rules.
9. The compact administrator of a party state shall provide all investigative documents and information requested by another party state.

ARTICLE VII - ESTABLISHMENT OF THE INTERSTATE COMMISSION OF NURSE LICENSURE COMPACT ADMINISTRATORS

1. The party states hereby create and establish a joint public entity known as the Interstate Commission of Nurse Licensure Compact Administrators.
 - a. The commission is an instrumentality of the party states.
 - b. Venue is proper, and judicial proceedings by or against the commission must be brought solely and exclusively, in a court of competent jurisdiction where the principal office of the commission is located. The commission

may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings.

c. This compact may not be construed to be a waiver of sovereign immunity.

2. Membership, voting, and meetings.

a. Each party state must have and be limited to one administrator. The head of the state licensing board or designee is the administrator of this compact for each party state. Any administrator may be removed or suspended from office as provided by the law of the state from which the administrator is appointed. Any vacancy occurring in the commission must be filled in accordance with the laws of the party state in which the vacancy exists.

b. Each administrator is entitled to one vote with regard to the promulgation of rules and creation of bylaws and otherwise has an opportunity to participate in the business and affairs of the commission. An administrator shall vote in person or by such other means as provided in the bylaws. The bylaws may provide for an administrator's participation in meetings by telephone or other means of communication.

c. The commission shall meet at least once during each calendar year. Additional meetings must be held as set forth in the bylaws or rules of the commission.

d. All meetings are open to the public, and public notice of meetings must be given in the same manner as required under the rulemaking provisions in Article VIII.

e. The commission may convene in a closed, nonpublic meeting if the commission discusses:

(1) Noncompliance of a party state with its obligations under this compact;

(2) The employment, compensation, discipline, or other personnel matters, practices, or procedures related to specific employees or other matters related to the commission's internal personnel practices and procedures;

(3) Current, threatened, or reasonably anticipated litigation;

(4) Negotiation of contracts for the purchase or sale of goods, services, or real estate;

(5) Accusing any person of a crime or formally censuring any person;

(6) Disclosure of trade secrets or commercial or financial information that is privileged or confidential;

(7) Disclosure of information of a personal nature if disclosure would constitute a clearly unwarranted invasion of personal privacy;

(8) Disclosure of investigatory records compiled for law enforcement purposes;

-
- (9) Disclosure of information related to any reports prepared by or on behalf of the Commission for the purpose of investigation of compliance with this compact; or
- (10) Matters specifically exempted from disclosure by federal or state statute.
- f. If a meeting, or portion of a meeting, is closed pursuant to this provision, the commission's legal counsel or designee shall certify that the meeting may be closed and shall reference each relevant exempting provision. The commission shall keep minutes that fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons for the actions taken, including a description of the views expressed. All documents considered in connection with an action must be identified in such minutes. All minutes and documents of a closed meeting must remain under seal, subject to release by a majority vote of the commission or order of a court of competent jurisdiction.
3. By a majority vote of the administrators, the commission shall prescribe bylaws or rules to govern its conduct as may be necessary or appropriate to carry out the purposes and exercise the powers of this compact, including:
- a. Establishing the fiscal year of the commission;
- b. Providing reasonable standards and procedures:
- (1) For the establishment and meetings of other committees; and
- (2) Governing any general or specific delegation of any authority or function of the commission;
- c. Providing reasonable procedures for calling and conducting meetings of the commission, ensuring reasonable advance notice of all meetings and providing an opportunity for attendance of such meetings by interested parties, with enumerated exceptions designed to protect the public's interest, the privacy of individuals, and proprietary information, including trade secrets. The commission may meet in closed session only after a majority of the administrators vote to close a meeting in whole or in part. As soon as practicable, the commission shall make public a copy of the vote to close the meeting revealing the vote of each administrator, with no proxy votes allowed;
- d. Establishing the titles, duties, and authority and reasonable procedures for the election of the officers of the commission;
- e. Providing reasonable standards and procedures for the establishment of the personnel policies and programs of the commission. Notwithstanding any civil service or other similar laws of any party state, the bylaws exclusively must govern the personnel policies and programs of the commission; and
- f. Providing a mechanism for winding up the operations of the commission and the equitable disposition of any surplus funds that may exist after the

termination of this compact after the payment or reserving of all of its debts and obligations:

4. The commission shall publish its bylaws and rules, and any amendments thereto, in a convenient form on the website of the commission.
5. The commission shall maintain its financial records in accordance with the bylaws.
6. The commission shall meet and take such actions as are consistent with the provisions of this compact and the bylaws.
7. The commission may:
 - a. Promulgate uniform rules to facilitate and coordinate implementation and administration of this compact. The rules have the force and effect of law and are binding in all party states;

 - c. Purchase and maintain insurance and bonds;
 - d. Borrow, accept, or contract for services of personnel, including, but not limited to, employees of a party state or nonprofit organizations;

 - f. Hire employees, elect or appoint officers, fix compensation, define duties, grant such individuals appropriate authority to carry out the purposes of this compact, and to establish the commission's personnel policies and programs relating to conflicts of interest, qualifications of personnel, and other related personnel matters;
 - g. Accept any and all appropriate donations, grants, and gifts of money, equipment, supplies, materials, and services, and to receive, utilize, and dispose of the same if at all times the commission avoids any appearance of impropriety or conflict of interest;
 - h. Lease, purchase, accept appropriate gifts or donations of, or otherwise to own, hold, improve or use, any property, whether real, personal, or mixed if at all times the commission avoids any appearance of impropriety;
 - i. Sell, convey, mortgage, pledge, lease, exchange, abandon, or otherwise dispose of any property, whether real, personal, or mixed;
 - j. Establish a budget and make expenditures;
 - k. Borrow money;

 - o. Perform such other functions as may be necessary or appropriate to achieve the purposes of this compact consistent with the state regulation of nurse licensure and practice.
8. Financing of the commission.
 - a. The commission shall pay, or provide for the payment of, the reasonable expenses of its establishment, organization, and ongoing activities.
 - b. The commission may also levy on and collect an annual assessment from each party state to cover the cost of its operations, activities, and staff in its annual budget as approved each year. The aggregate annual assessment amount, if any, must be allocated based upon a formula to be determined by the commission, which shall promulgate a rule that is binding upon all party states.
 - c. The commission may not incur obligations of any kind before securing the funds adequate to meet the same, nor may the commission pledge the credit of any of the party states, except by, and with the authority of, such party state.

The receipts and disbursements of the commission are subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the commission must be audited yearly by a certified or licensed public accountant, and the report of the audit must be included in and become part of the annual report of the commission.
9. Qualified immunity, defense, and indemnification.
 - a. The administrators, officers, executive director, employees, and representatives of the commission are immune from suit and liability, either personally or in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused by or arising out of any actual or alleged act, error, or omission that occurred, or that the person against which the claim is made had a reasonable basis for believing occurred, within the scope of commission employment, duties or responsibilities. However, this subdivision may not be construed to protect any such person from suit or liability for any damage, loss, injury, or liability caused by the intentional, willful, or wanton misconduct of that person.
 - b. The commission shall defend any administrator, officer, executive director, employee, or representative of the commission in any civil action seeking to impose liability arising out of any actual or alleged act, error, or omission

that occurred within the scope of commission employment, duties, or responsibilities, or that the person against which the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities. However, this subdivision may not be construed to prohibit that person from retaining that person's own counsel and provided further that the actual or alleged act, error, or omission did not result from that person's intentional, willful, or wanton misconduct.

- c. The commission shall indemnify and hold harmless any administrator, officer, executive director, employee, or representative of the commission for the amount of any settlement or judgment obtained against that person arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or that such person had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities provided that the actual or alleged act, error, or omission did not result from the intentional, willful, or wanton misconduct of that person.

ARTICLE VIII - RULEMAKING

1. The commission shall exercise its rulemaking powers pursuant to the criteria set forth in this article and the rules adopted under this article. Rules and amendments become binding as of the date specified in each rule or amendment and have the same force and effect as provisions of this compact.
2. Rules or amendments to the rules must be adopted at a regular or special meeting of the commission.
3. Before the promulgation and adoption of a final rule or rules by the commission, and at least sixty days in advance of the meeting at which the rule will be considered and voted upon, the commission shall file a notice of proposed rulemaking:
 - a. On the website of the commission; and
 - b. On the website of each licensing board or the publication in which each state would otherwise publish proposed rules.
4. The notice of proposed rulemaking must include:
 - a. The proposed time, date, and location of the meeting at which the rule will be considered and voted upon;
 - b. The text of the proposed rule or amendment, and the reason for the proposed rule;
 - c. A request for comments on the proposed rule from any interested person; and
 - d. The manner in which interested persons may submit notice to the commission of their intention to attend the public hearing and any written comments.

5. Before adoption of a proposed rule, the commission shall allow persons to submit written data, facts, opinions, and arguments, which must be made available to the public.
6. The commission shall grant an opportunity for a public hearing before it adopts a rule or amendment.
7. The commission shall publish the place, time, and date of the scheduled public hearing.
 - a. Hearings must be conducted in a manner providing each person that wishes to comment a fair and reasonable opportunity to comment orally or in writing. All hearings will be recorded, and a copy must be made available upon request.
 - b. This section may not be construed as requiring a separate hearing on each rule. Rules may be grouped for the convenience of the commission at hearings required by this section.
8. If no one appears at the public hearing, the commission may proceed with promulgation of the proposed rule.
9. Following the scheduled hearing date, or by the close of business on the scheduled hearing date if the hearing was not held, the commission shall consider all written and oral comments received.
10. By majority vote of all administrators, the commission shall take final action on the proposed rule and shall determine the effective date of the rule, if any, based on the rulemaking record and the full text of the rule.
11. Upon determination that an emergency exists, the commission may consider and adopt an emergency rule without prior notice, opportunity for comment, or hearing. However, the usual rulemaking procedures provided in this compact and in this section must be retroactively applied to the rule as soon as reasonably possible, in no event later than ninety days after the effective date of the rule. For the purposes of this provision, an emergency rule is one that must be adopted immediately in order to:
 - a. Meet an imminent threat to public health, safety, or welfare;
 - b. Prevent a loss of commission or party state funds; or
 - c. Meet a deadline for the promulgation of an administrative rule that is required by federal law or rule.
12. The commission may direct revisions to a previously adopted rule or amendment for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions must be posted on the website of the commission. The revision is subject to challenge by any person for a period of thirty days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge must be made in writing, and delivered to the commission before the end of the notice period. If a challenge is not made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

ARTICLE IX - OVERSIGHT, DISPUTE, RESOLUTION AND ENFORCEMENT**1. Oversight.**

- a. Each party state shall enforce this compact and take all actions necessary and appropriate to effectuate this compact's purposes and intent.**
- b. The commission is entitled to receive service of process in any proceeding that may affect the powers, responsibilities, or actions of the commission, and has standing to intervene in such a proceeding for all purposes. Failure to provide service of process in such proceeding to the commission renders a judgment or order void as to the commission, this compact, or promulgated rules.**

2. Default, technical assistance, and termination.

- a. If the commission determines a party state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall:**
 - (1) Provide written notice to the defaulting state and other party states of the nature of the default, the proposed means of curing the default, or any other action to be taken by the commission; and**
 - (2) Provide remedial training and specific technical assistance regarding the default.**
- b. If a state in default fails to cure the default, the defaulting state's membership in this compact may be terminated upon an affirmative vote of a majority of the administrators, and all rights, privileges, and benefits conferred by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.**
- c. Termination of membership in this compact may be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate must be given by the commission to the governor of the defaulting state and to the executive officer of the defaulting state's licensing board and each of the party states.**
- d. A state whose membership in this compact has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.**
- e. The commission may not bear any costs related to a state that is found to be in default or whose membership in this compact has been terminated unless agreed upon in writing between the commission and the defaulting state.**
- f. The defaulting state may appeal the action of the commission by petitioning the United States district court for the District of Columbia or the federal district in which the commission has its principal offices. The prevailing party must be awarded all costs of such litigation, including reasonable attorney's fees.**

3. Dispute resolution.

- a. Upon request by a party state, the commission shall attempt to resolve disputes related to the compact which arise among party states and between party and nonparty states.
- b. The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes, as appropriate.
- c. If the commission cannot resolve disputes among party states arising under this compact:
 - (1) The party states may submit the issues in dispute to an arbitration panel, which will be comprised of individuals appointed by the compact administrator in each of the affected party states and an individual mutually agreed upon by the compact administrators of all the party states involved in the dispute.
 - (2) The decision of a majority of the arbitrators is final and binding.

4. Enforcement.

- a. The commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.
- b. By majority vote, the commission may initiate legal action in the United States district court for the District of Columbia or the federal district in which the commission has its principal offices against a party state that is in default to enforce compliance with the provisions of this compact and its promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. If judicial enforcement is necessary, the prevailing party must be awarded all costs of such litigation, including reasonable attorney's fees.
- c. The remedies herein are not the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or state law.

ARTICLE X - EFFECTIVE DATE, WITHDRAWAL, AND AMENDMENT

1. This compact becomes effective and binding on the earlier of the date of legislative enactment of this compact into law by no less than twenty-six states or December 31, 2018. All party states to this compact, that also were parties to the prior nurse licensure compact, superseded by this compact, ("prior compact"), are deemed to have withdrawn from said prior compact within six months after the effective date of this compact.
2. Each party state to this compact shall continue to recognize a nurse's multistate licensure privilege to practice in that party state issued under the prior compact until such party state has withdrawn from the prior compact.
3. Any party state may withdraw from this compact by enacting a statute repealing the same. A party state's withdrawal does not take effect until six months after enactment of the repealing statute.

4. A party state's withdrawal or termination does not affect the continuing requirement of the withdrawing or terminated state's licensing board to report adverse actions and significant investigations occurring prior to the effective date of such withdrawal or termination.
5. This compact may not be construed to invalidate or prevent any nurse licensure agreement or other cooperative arrangement between a party state and a nonparty state that is made in accordance with the other provisions of this compact.
6. This compact may be amended by the party states. An amendment to this compact does not become effective and binding upon the party states unless and until it is enacted into the laws of all party states.
7. Representatives of nonparty states to this compact must be invited to participate in the activities of the commission, on a nonvoting basis, prior to the adoption of this compact by all states.

ARTICLE XI - CONSTRUCTION AND SEVERABILITY

This compact must be liberally construed so as to effectuate the purposes thereof. The provisions of this compact are severable, and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any party state or of the United States, or if the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance may not be affected thereby. If this compact is held to be contrary to the constitution of any party state, this compact remains in full force and effect as to the remaining party states and in full force and effect as to the party state affected as to all severable matters.

The term "head of the state licensing board" as used to define the compact administrator in subdivision a of subsection 2 of article VII means the executive director of the state board of nursing.

CHAPTER 288

HOUSE BILL NO. 1096

(Human Services Committee)
(At the request of the State Board of Nursing)

AN ACT to create and enact a new chapter to title 43 of the North Dakota Century Code, relating to the advanced practice registered nurse licensure compact; and to amend and reenact section 43-12.1-09.1 of the North Dakota Century Code, relating to criminal history record checks.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

¹³⁶ **SECTION 1. AMENDMENT.** Section 43-12.1-09.1 of the North Dakota Century Code is amended and reenacted as follows:

43-12.1-09.1. Nursing licensure or registration - Criminal history record checks.

The board shall require each applicant for initial licensure and registration, including applicants for a multistate license under section 2 of this Act, to submit to a statewide and nationwide criminal history record check. The board may require any licensee or registrant who is renewing a license or registration, including renewal of a multistate license under section 2 of this Act, and any licensee or registrant who is the subject of a disciplinary investigation or proceeding to submit to a statewide and nationwide criminal history record check. The nationwide criminal history record check must be conducted in the manner provided by section 12-60-24. All costs associated with obtaining a background check are the responsibility of the applicant, licensee, or registrant. The board may grant a nonrenewable temporary permit to an applicant for initial or renewed license or registration who submits to a criminal history record check as required by this chapter if the applicant has met all other licensure or registration requirements in accordance with subsection 2 of section 43-12.1-09. The board may not share with, or disclose to, the interstate commission of nurse licensure compact administrators any contents of a nationwide criminal history record check.

SECTION 2. A new chapter to title 43 of the North Dakota Century Code is created and enacted as follows:

ARTICLE I - FINDINGS AND DECLARATION OF PURPOSE

1. The party states find that:
 - a. The health and safety of the public are affected by the degree of compliance with advanced practice registered nurse licensure requirements and the effectiveness of enforcement activities related to state advanced practice registered nurse licensure laws;
 - b. Violations of advanced practice registered nurse licensure and other laws regulating the practice of nursing may result in injury or harm to the public;

¹³⁶ Section 43-12.1-09.1 was also amended by section 1 of House Bill No. 1097, chapter 287.

- c. The expanded mobility of advanced practice registered nurses and the use of advanced communication technologies as part of our nation's health care delivery system require greater coordination and cooperation among states in the areas of advanced practice registered nurse licensure and regulation;
 - d. New practice modalities and technology make compliance with individual state advanced practice registered nurse licensure laws difficult and complex;
 - e. The current system of duplicative advanced practice registered nurse licensure for advanced practice registered nurses practicing in multiple states is cumbersome and redundant for both advanced practice registered nurses and states; and
 - f. Uniformity of advanced practice registered nurse licensure requirements throughout the states promotes public safety and public health benefits.
2. The general purposes of this compact are to:
- a. Facilitate the states' responsibility to protect the public's health and safety;
 - b. Ensure and encourage the cooperation of party states in the areas of advanced practice registered nurse licensure and regulation, including promotion of uniform licensure requirements;
 - c. Facilitate the exchange of information between party states in the areas of advanced practice registered nurse regulation, investigation, and adverse actions;
 - d. Promote compliance with the laws governing advanced practice registered nurse practice in each jurisdiction;
 - e. Invest all party states with the authority to hold an advanced practice registered nurse accountable for meeting all state practice laws in the state in which the patient is located at the time care is rendered through the mutual recognition of party state licenses;
 - f. Decrease redundancies in the consideration and issuance of advanced practice registered nurse licenses; and
 - g. Provide opportunities for interstate practice by advanced practice registered nurses who meet uniform licensure requirements.

ARTICLE II - DEFINITIONS

As used in this compact:

1. "Advanced practice registered nurse" means a registered nurse who has gained additional specialized knowledge, skills, and experience through a program of study recognized or defined by the Interstate Commission of Advanced Practice Registered Nurse Compact Administrators ("commission"), and who is licensed to perform advanced nursing practice. An advanced practice registered nurse is licensed in an advanced practice registered nurse role that is congruent with an advanced practice registered nurse educational program, certification, and commission rules.

2. "Advanced practice registered nurse licensure" means the regulatory mechanism used by a party state to grant legal authority to practice as an advanced practice registered nurse.
3. "Advanced practice registered nurse uniform licensure requirements" means minimum uniform licensure, education, and examination requirements as adopted by the commission.
4. "Adverse action" means any administrative, civil, equitable, or criminal action permitted by a state's laws which is imposed by a licensing board or other authority against an advanced practice registered nurse, including actions against an individual's license or multistate licensure privilege such as revocation, suspension, probation, monitoring of the licensee, limitation on the licensee's practice, or any other encumbrance on licensure affecting an advanced practice registered nurse's authorization to practice, including the issuance of a cease and desist action.
5. "Alternative program" means a non-disciplinary monitoring program approved by a licensing board.
6. "Coordinated licensure information system" means an integrated process for collecting, storing, and sharing information on advanced practice registered nurse licensure and enforcement activities related to advanced practice registered nurse licensure laws which is administered by a nonprofit organization composed of and controlled by licensing boards.
7. "Current significant investigatory information" means:
 - a. Investigative information that a licensing board, after a preliminary inquiry that includes notification and an opportunity for the advanced practice registered nurse to respond, if required by state law, has reason to believe is not groundless and, if proved true, would indicate more than a minor infraction; or
 - b. Investigative information that indicates that the advanced practice registered nurse represents an immediate threat to public health and safety regardless of whether the advanced practice registered nurse has been notified and had an opportunity to respond.
8. "Encumbrance" means a revocation or suspension of, or any limitation on, the full and unrestricted practice of nursing imposed by a licensing board.
9. "Home state" means the party state that is the advanced practice registered nurse's primary state of residence.
10. "Licensing board" means a party state's regulatory body responsible for regulating the practice of advanced practice registered nursing.
11. "Multistate license" means an advanced practice registered nurse license to practice as an advanced practice registered nurse issued by a home state licensing board which authorizes the advanced practice registered nurse to practice as an advanced practice registered nurse in all party states under a multistate licensure privilege, in the same role and population focus as the advanced practice registered nurse is licensed in the home state.

12. "Multistate licensure privilege" means a legal authorization associated with an advanced practice registered nurse multistate license which permits an advanced practice registered nurse to practice as an advanced practice registered nurse in a remote state, in the same role and population focus as the advanced practice registered nurse is licensed in the home state.
13. "Noncontrolled prescription drug" means a device or drug that is not a controlled substance and is prohibited under state or federal law from being dispensed without a prescription. The term includes a device or drug that bears or is required to bear the legend "caution: federal law prohibits dispensing without prescription" or "prescription only" or other legend that complies with federal law.
14. "Party state" means any state that has adopted this compact.
15. "Population focus" means a specific patient population that is congruent with the advanced practice registered nurse educational program, certification, and commission rules.
16. "Prescriptive authority" means the legal authority to prescribe medications and devices as defined by party state laws.
17. "Remote state" means a party state that is not the home state.
18. "Single-state license" means an advanced practice registered nurse license issued by a party state which authorizes practice only within the issuing state and does not include a multistate licensure privilege to practice in any other party state.
19. "State" means a state, territory, or possession of the United States and the District of Columbia.
20. "State practice laws" means a party state's laws, rules, and regulations that govern advanced practice registered nurse practice, define the scope of advanced nursing practice, including prescriptive authority, and create the methods and grounds for imposing discipline. State practice laws do not include the requirements necessary to obtain and retain an advanced practice registered nurse license, except for qualifications or requirements of the home state.

ARTICLE III - GENERAL PROVISIONS AND JURISDICTION

1. A state must implement procedures for considering the criminal history records of applicants for initial advanced practice registered nurse licensure or advanced practice registered nurse licensure by endorsement. Such procedures must include the submission of fingerprints or other biometric-based information by advanced practice registered nurse applicants for the purpose of obtaining an applicant's criminal history record information from the federal bureau of investigation and the agency responsible for retaining that state's criminal records.
2. By rule, the commission shall adopt the advanced practice registered nurse uniform licensure requirements. The uniform licensure requirements must provide the minimum requirements for advanced practice registered nurse multistate licensure in party states, if the commission may adopt rules

whereby an advanced practice registered nurse, with an unencumbered license on the effective date of this compact, may obtain, by endorsement or otherwise, and retain a multistate license in a party state.

3. In order to obtain or retain a multistate license, an advanced practice registered nurse shall meet, in addition to the uniform licensure requirements, the home state's qualifications for licensure or renewal of licensure, as well as, all other applicable home state laws.
4. By rule, the commission shall identify the approved advanced practice registered nurse roles and population foci for licensure as an advanced practice registered nurse. An advanced practice registered nurse issued a multistate license must be licensed in an approved advanced practice registered nurse role and at least one approved population focus.
5. An advanced practice registered nurse multistate license issued by a home state to a resident in that state will be recognized by each party state as authorizing the advanced practice registered nurse to practice as an advanced practice registered nurse in each party state, under a multistate licensure privilege, in the same role and population focus as the advanced practice registered nurse is licensed in the home state. If an applicant does not qualify for a multistate license, a single-state license may be issued by a home state.
6. Issuance of an advanced practice registered nurse multistate license must include prescriptive authority for noncontrolled prescription drugs, unless the advanced practice registered nurse was licensed by the home state before the home state's adoption of this compact and has not previously held prescriptive authority.
 - a. An advanced practice registered nurse granted prescriptive authority for noncontrolled prescription drugs in the home state may exercise prescriptive authority for noncontrolled prescription drugs in any remote state while exercising a multistate licensure privilege under an advanced practice registered nurse multistate license; the advanced practice registered nurse may not be required to meet any additional eligibility requirements imposed by the remote state in exercising prescriptive authority for noncontrolled prescription drugs.
 - b. Prescriptive authority in the home state for an advanced practice registered nurse who was not granted prescriptive authority at the time of initial licensure by the home state, before the adoption of this compact, must be determined under home state law.
 - c. Prescriptive authority eligibility for an advanced practice registered nurse holding a single-state license must be determined under the law of the licensing state.
7. For each state in which an advanced practice registered nurse seeks authority to prescribe controlled substances, the advanced practice registered nurse shall satisfy all requirements imposed by such state in granting and/or renewing such authority.
8. An advanced practice registered nurse issued a multistate license may assume responsibility and accountability for patient care independent of a supervisory or collaborative relationship with a physician. This authority may

be exercised in the home state and in any remote state in which the advanced practice registered nurse exercises a multistate licensure privilege. For an advanced practice registered nurse issued a single-state license in a party state, the requirement for a supervisory or collaborative relationship with a physician must be determined under applicable party state law.

9. All party states are authorized, in accordance with state due process laws, to take adverse action against an advanced practice registered nurse's multistate licensure privilege such as revocation, suspension, probation, or any other action that affects an advanced practice registered nurse's authorization to practice under a multistate licensure privilege, including cease and desist actions. If a party state takes such action, it promptly shall notify the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system promptly shall notify the home state of any such actions by remote states.
10. An advanced practice registered nurse practicing in a party state shall comply with the state practice laws of the state in which the client is located at the time service is provided. Advanced practice registered nurse practice is not limited to patient care, but includes all advanced nursing practice as defined by the state practice laws of the party state in which the client is located. Advanced practice registered nurse practice in a party state under a multistate licensure privilege subjects the advanced practice registered nurse to the jurisdiction of the licensing board, the courts, and the laws of the party state in which the client is located at the time service is provided.
11. This compact does not affect additional requirements imposed by states for advanced practice registered nursing. However, a multistate licensure privilege to practice registered nursing granted by a party state must be recognized by other party states as satisfying any state law requirement for registered nurse licensure as a precondition for authorization to practice as an advanced practice registered nurse in that state.
12. Individuals not residing in a party state shall continue to be able to apply for a party state's single-state advanced practice registered nurse license as provided under the laws of each party state. However, the single-state license granted to these individuals will not be recognized as granting the privilege to practice as an advanced practice registered nurse in any other party state.

ARTICLE IV - APPLICATIONS FOR ADVANCED PRACTICE REGISTERED NURSE LICENSURE IN A PARTY STATE

1. Upon application for an advanced practice registered nurse multistate license, the licensing board in the issuing party state shall ascertain, through the coordinated licensure information system, whether the applicant has ever held or is the holder of a licensed practical/vocational nursing license, a registered nursing license, or an advanced practice registered nurse license issued by any other state, whether there are any encumbrances on any license or multistate licensure privilege held by the applicant, whether any adverse action has been taken against any license or multistate licensure privilege held by the applicant, and whether the applicant is currently participating in an alternative program.

2. An advanced practice registered nurse may hold a multistate advanced practice registered nurse license, issued by the home state, in only one party state at a time.
3. If an advanced practice registered nurse changes primary state of residence by moving between two party states, the advanced practice registered nurse shall apply for advanced practice registered nurse licensure in the new home state, and the multistate license issued by the prior home state must be deactivated in accordance with applicable commission rules.
 - a. The advanced practice registered nurse may apply for licensure in advance of a change in primary state of residence.
 - b. A multistate advanced practice registered nurse license may not be issued by the new home state until the advanced practice registered nurse provides satisfactory evidence of a change in primary state of residence to the new home state and satisfies all applicable requirements to obtain a multistate advanced practice registered nurse license from the new home state.
4. If an advanced practice registered nurse changes primary state of residence by moving from a party state to a nonparty state, the advanced practice registered nurse multistate license issued by the prior home state converts to a single-state license, valid only in the former home state.

ARTICLE V - ADDITIONAL AUTHORITIES INVESTED IN PARTY STATE LICENSING BOARDS

1. In addition to the other powers conferred by state law, a licensing board may:
 - a. Take adverse action against an advanced practice registered nurse's multistate licensure privilege to practice within that party state.
 - (1) Only the home state may take adverse action against an advanced practice registered nurse's license issued by the home state.
 - (2) For purposes of taking adverse action, the home state licensing board shall give the same priority and effect to reported conduct that occurred outside of the home state as it would if such conduct had occurred within the home state. In so doing, the home state shall apply its own state laws to determine appropriate action.
 - b. Issue cease and desist orders or impose an encumbrance on an advanced practice registered nurse's authority to practice within that party state.
 - c. Complete any pending investigations of an advanced practice registered nurse who changes primary state of residence during the course of such investigations. The licensing board also may take any appropriate action and promptly shall report the conclusions of such investigations to the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system promptly shall notify the new home state of any such actions.

- d. Issue subpoenas for both hearings and investigations which require the attendance and testimony of witnesses, as well as, the production of evidence. Subpoenas issued by a party state licensing board for the attendance and testimony of witnesses and/or the production of evidence from another party state must be enforced in the latter state by any court of competent jurisdiction, according to that court's practice and procedure in considering subpoenas issued in its own proceedings. The issuing licensing board shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the state in which the witnesses and/or evidence are located.
 - e. Obtain and submit, for an advanced practice registered nurse licensure applicant, fingerprints or other biometric-based information to the federal bureau of investigation for criminal background checks, receive the results of the federal bureau of investigation record search on criminal background checks and use the results in making licensure decisions.
 - f. If otherwise permitted by state law, recover from the affected advanced practice registered nurse the costs of investigations and disposition of cases resulting from any adverse action taken against that advanced practice registered nurse.
 - g. Take adverse action based on the factual findings of another party state, if the licensing board follows its own procedures for taking such adverse action.
2. If adverse action is taken by a home state against an advanced practice registered nurse's multistate licensure, the privilege to practice in all other party states under a multistate licensure privilege must be deactivated until all encumbrances have been removed from the advanced practice registered nurse's multistate license. All home state disciplinary orders that impose adverse action against an advanced practice registered nurse's multistate license must include a statement that the advanced practice registered nurse's multistate licensure privilege is deactivated in all party states during the pendency of the order.
 3. This compact does not override a party state's decision that participation in an alternative program may be used in lieu of adverse action. The home state licensing board shall deactivate the multistate licensure privilege under the multistate license of any advanced practice registered nurse for the duration of the advanced practice registered nurse's participation in an alternative program.

ARTICLE VI - COORDINATED LICENSURE INFORMATION SYSTEM AND EXCHANGE INFORMATION

1. All party states shall participate in a coordinated licensure information system of all advanced practice registered nurses, licensed registered nurses, and licensed practical/vocational nurses. This system includes information on the licensure and disciplinary history of each advanced practice registered nurse, as submitted by party states, to assist in the coordinated administration of advanced practice registered nurse licensure and enforcement efforts.

2. The commission, in consultation with the administrator of the coordinated licensure information system, shall formulate necessary and proper procedures for the identification, collection, and exchange of information under this compact.
3. All licensing boards promptly shall report to the coordinated licensure information system any adverse action, any current significant investigative information, denials of applications (with the reasons for such denials), and advanced practice registered nurse participation in alternative programs known to the licensing board regardless of whether such participation is deemed nonpublic and/or confidential under state law.
4. Current significant investigative information and participation in nonpublic or confidential alternative programs must be transmitted through the coordinated licensure information system only to party state licensing boards.
5. Notwithstanding any other provision of law, all party state licensing boards contributing information to the coordinated licensure information system may designate information that may not be shared with nonparty states or disclosed to other entities or individuals without the express permission of the contributing state.
6. Any personally identifiable information obtained from the coordinated licensure information system by a party state licensing board may not be shared with nonparty states or disclosed to other entities or individuals except to the extent permitted by the laws of the party state contributing the information.
7. Any information contributed to the coordinated licensure information system which is subsequently required to be expunged by the laws of the party state contributing the information must be removed from the coordinated licensure information system.
8. The compact administrator of each party state shall furnish a uniform data set to the compact administrator of each other party state, which must include, at a minimum:
 - a. Identifying information;
 - b. Licensure data;
 - c. Information related to alternative program participation information; and
 - d. Other information that may facilitate the administration of this compact, as determined by commission rules.
9. The compact administrator of a party state shall provide all investigative documents and information requested by another party state.

**ARTICLE VII - ESTABLISHMENT OF THE INTERSTATE COMMISSION OF
ADVANCED PRACTICE REGISTERED NURSE COMPACT ADMINISTRATORS**

1. The party states hereby create and establish a joint public agency known as the interstate commission of advanced practice registered nurse compact administrators.

- a. The commission is an instrumentality of the party states.
 - b. Venue is proper, and judicial proceedings by or against the commission must be brought solely and exclusively, in a court of competent jurisdiction where the principal office of the commission is located. The commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings.
 - c. This compact may not be construed to be a waiver of sovereign immunity.
2. Membership, voting, and meetings.
- a. Each party state must have and be limited to one administrator. The head of the state licensing board or designee is the administrator of this compact for each party state. Any administrator may be removed or suspended from office as provided by the law of the state from which the administrator is appointed. Any vacancy occurring in the commission must be filled in accordance with the laws of the party state in which the vacancy exists.
 - b. Each administrator is entitled to one vote with regard to the promulgation of rules and creation of bylaws and otherwise must have an opportunity to participate in the business and affairs of the commission. An administrator shall vote in person or by such other means as provided in the bylaws. The bylaws may provide for an administrator's participation in meetings by telephone or other means of communication.
 - c. The commission shall meet at least once during each calendar year. Additional meetings must be held as set forth in the bylaws or rules of the commission.
 - d. All meetings are open to the public, and public notice of meetings must be given in the same manner as required under the rulemaking provisions in article VIII.
 - e. The commission may convene in a closed, nonpublic meeting if the commission must discuss:
 - (1) Noncompliance of a party state with its obligations under this compact;
 - (2) The employment, compensation, discipline, or other personnel matters, practices, or procedures related to specific employees or other matters related to the commission's internal personnel practices and procedures;
 - (3) Current, threatened, or reasonably anticipated litigation;
 - (4) Negotiation of contracts for the purchase or sale of goods, services, or real estate;
 - (5) Accusing any person of a crime or formally censuring any person;
 - (6) Disclosure of trade secrets or commercial or financial information that is privileged or confidential;

- (7) Disclosure of information of a personal nature if disclosure would constitute a clearly unwarranted invasion of personal privacy;
 - (8) Disclosure of investigatory records compiled for law enforcement purposes;
 - (9) Disclosure of information related to any reports prepared by or on behalf of the commission for the purpose of investigation of compliance with this compact; or
 - (10) Matters specifically exempted from disclosure by federal or state statute.
- f. If a meeting, or portion of a meeting, is closed pursuant to this provision, the commission's legal counsel or designee shall certify that the meeting may be closed and shall reference each relevant exempting provision. The commission shall keep minutes that fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons for those actions, including a description of the views expressed. All documents considered in connection with an action must be identified in such minutes. All minutes and documents of a closed meeting must remain under seal, subject to release by a majority vote of the commission or order of a court of competent jurisdiction.
3. By a majority vote of the administrators, the commission shall prescribe bylaws or rules to govern its conduct as may be necessary or appropriate to carry out the purposes and exercise the powers of this compact, including:
- a. Establishing the fiscal year of the commission;
 - b. Providing reasonable standards and procedures:
 - (1) For the establishment and meetings of other committees; and
 - (2) Governing any general or specific delegation of any authority or function of the commission;
 - c. Providing reasonable procedures for calling and conducting meetings of the commission, ensuring reasonable advance notice of all meetings, and providing an opportunity for attendance of such meetings by interested parties, with enumerated exceptions designed to protect the public's interest, the privacy of individuals, and proprietary information, including trade secrets. The commission may meet in closed session only after a majority of the administrators vote to close a meeting in whole or in part. As soon as practicable, the commission shall make public a copy of the vote to close the meeting revealing the vote of each administrator, with no proxy votes allowed;
 - d. Establishing the titles, duties, and authority and reasonable procedures for the election of the officers of the commission;
 - e. Providing reasonable standards and procedures for the establishment of the personnel policies and programs of the commission. Notwithstanding any civil service or other similar laws of any party state, the bylaws

- exclusively govern the personnel policies and programs of the commission; and
- f. Providing a mechanism for winding up the operations of the commission and the equitable disposition of any surplus funds that may exist after the termination of this compact after the payment and/or reserving of all of its debts and obligations.
 4. The commission shall publish its bylaws and rules, and any amendments to the bylaws and rules, in a convenient form on the website of the commission.
 5. The commission shall maintain its financial records in accordance with the bylaws.
 6. The commission shall meet and take such actions as are consistent with the provisions of this compact and the bylaws.
 7. The commission may:
 - a. Promulgate uniform rules to facilitate and coordinate implementation and administration of this compact. The rules have the force and effect of law and are binding in all party states;
 - b. Bring and prosecute legal proceedings or actions in the name of the commission. However, the standing of any licensing board to sue or be sued under applicable law may not be affected;
 - c. Purchase and maintain insurance and bonds;
 - d. Borrow, accept, or contract for services of personnel, including employees of a party state or nonprofit organizations;
 - e. Cooperate with other organizations that administer state compacts related to the regulation of nursing, including sharing administrative or staff expenses, office space, or other resources;
 - f. Hire employees, elect or appoint officers, fix compensation, define duties, grant such individuals appropriate authority to carry out the purposes of this compact, and to establish the commission's personnel policies and programs relating to conflicts of interest, qualifications of personnel, and other related personnel matters;
 - g. Accept any and all appropriate donations, grants, and gifts of money, equipment, supplies, materials, and services, and to receive, utilize, and dispose of the same. However, at all times the commission shall strive to avoid any appearance of impropriety and/or conflict of interest;

 - c. The commission may not incur obligations of any kind before securing the funds adequate to meet the same, nor may the commission pledge the credit of any of the party states, except by, and with the authority of, such party state.
 - d. The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission are subject to the audit and accounting procedures established under its bylaws. However, this subdivision may not be construed to protect any such person from suit and/or liability for any damage, loss, injury, or

- liability caused by the intentional, willful, or wanton misconduct of that person.
- b. The commission shall defend any administrator, officer, executive director, employee, or representative of the commission in any civil action seeking to impose liability arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or that the person against which the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities, provided that nothing herein may be construed to prohibit that person from retaining that person's own counsel and the actual or alleged act, error, or omission may not result from that person's intentional, willful, or wanton misconduct.
 - c. The commission shall indemnify and hold harmless any administrator, officer, executive director, employee, or representative of the commission for the amount of any settlement or judgment obtained against that person arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or that such person had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities, if the actual or alleged act, error, or omission did not result from the intentional, willful, or wanton misconduct of that person.

ARTICLE VIII - RULEMAKING

1. The commission shall exercise its rulemaking powers pursuant to the criteria set forth in this article and the rules adopted thereunder. Rules and amendments become binding as of the date specified in each rule or amendment and have the same force and effect as provisions of this compact.
2. Rules or amendments to the rules must be adopted at a regular or special meeting of the commission.
3. Before promulgation and adoption of a final rule or rules by the commission, and at least sixty days in advance of the meeting at which the rule will be considered and voted upon, the commission shall file a notice of proposed rulemaking:

 - a. On the website of the commission; and
 - b. On the website of each licensing board or the publication in which each state would otherwise publish proposed rules.
4. The notice of proposed rulemaking must include:

 - a. The proposed time, date, and location of the meeting at which the rule will be considered and voted upon;
 - b. The text of the proposed rule or amendment, and the reason for the proposed rule;
 - c. A request for comments on the proposed rule from any interested person; and

- d. The manner in which interested persons may submit notice to the commission of their intention to attend the public hearing and any written comments.
5. Before adoption of a proposed rule, the commission shall allow persons to submit written data, facts, opinions, and arguments, which must be made available to the public.
6. The commission shall grant an opportunity for a public hearing before it adopts a rule or amendment.
7. The commission shall publish the place, time, and date of the scheduled public hearing.
 - a. Hearings must be conducted in a manner providing each person that wishes to comment a fair and reasonable opportunity to comment orally or in writing. All hearings must be recorded, and a copy must be made available upon request.
 - b. This section may not be construed as requiring a separate hearing on each rule. Rules may be grouped for the convenience of the commission at hearings required by this section.
8. If no one appears at the public hearing, the commission may proceed with promulgation of the proposed rule.
9. Following the scheduled hearing date, or by the close of business on the scheduled hearing date if the hearing was not held, the commission shall consider all written and oral comments received.
10. By majority vote of all administrators, the commission shall take final action on the proposed rule and shall determine the effective date of the rule, if any, based on the rulemaking record and the full text of the rule.
11. Upon determination that an emergency exists, the commission may consider and adopt an emergency rule without prior notice, opportunity for comment, or hearing. However, the usual rulemaking procedures provided in this compact and in this section must be retroactively applied to the rule as soon as reasonably possible, in no event later than ninety days after the effective date of the rule. For the purposes of this provision, an emergency rule is one that must be adopted immediately in order to:
 - a. Meet an imminent threat to public health, safety, or welfare;
 - b. Prevent a loss of commission or party state funds; or
 - c. Meet a deadline for the promulgation of an administrative rule that is established by federal law or rule.
12. The commission may direct revisions to a previously adopted rule or amendment for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions must be posted on the website of the commission. The revision may be subject to challenge by any person for a period of thirty days after posting. The revision may be challenged only on grounds that the revision results in a

material change to a rule. A challenge must be made in writing, and delivered to the commission, before the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

ARTICLE IX - OVERSIGHT, DISPUTE RESOLUTION, AND ENFORCEMENT

1. Oversight.

- a. Each party state shall enforce this compact and take all actions necessary and appropriate to effectuate this compact's purposes and intent.
- b. The commission is entitled to receive service of process in any proceeding that may affect the powers, responsibilities, or actions of the commission, and has standing to intervene in such a proceeding for all purposes. Failure to provide service of process to the commission renders a judgment or order void as to the commission, this compact, or promulgated rules.

2. Default, technical assistance, and termination.

- a. If the commission determines that a party state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall:
 - (1) Provide written notice to the defaulting state and other party states of the nature of the default, the proposed means of curing the default and/or any other action to be taken by the commission; and
 - (2) Provide remedial training and specific technical assistance regarding the default.
- b. If a state in default fails to cure the default, the defaulting state's membership in this compact may be terminated upon an affirmative vote of a majority of the administrators, and all rights, privileges, and benefits conferred by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.
- c. Termination of membership in this compact must be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate must be given by the commission to the governor of the defaulting state and to the executive officer of the defaulting state's licensing board, the defaulting state's licensing board, and each of the party states.
- d. A state whose membership in this compact has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.
- e. The commission may not bear any costs related to a state that is found to be in default or whose membership in this compact has been terminated, unless agreed upon in writing between the commission and the defaulting state.

- f. The defaulting state may appeal the action of the commission by petitioning the United States district court for the District of Columbia or the federal district in which the commission has its principal offices. The prevailing party must be awarded all costs of such litigation, including reasonable attorneys' fees.
3. Dispute resolution.
- a. Upon request by a party state, the commission shall attempt to resolve disputes related to the compact that arise among party states and between party and nonparty states.
- b. The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes, as appropriate.
- c. If the commission cannot resolve disputes among party states arising under this compact:
- (1) The party states may submit the issues in dispute to an arbitration panel, which will be comprised of individuals appointed by the compact administrator in each of the affected party states and an individual mutually agreed upon by the compact administrators of all the party states involved in the dispute.
- (2) The decision of a majority of the arbitrators is final and binding.
4. Enforcement.
- a. The commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.
- b. By majority vote, the commission may initiate legal action in the United States district court for the District of Columbia or the federal district in which the commission has its principal offices against a party state that is in default to enforce compliance with the provisions of this compact and its promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. If judicial enforcement is necessary, the prevailing party must be awarded all costs of such litigation, including reasonable attorneys' fees.
- c. The remedies herein are not the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or state law.

ARTICLE X - EFFECTIVE DATE, WITHDRAWAL, AND AMENDMENT

1. This compact comes into limited effect at such time as this compact has been enacted into law in ten party states for the sole purpose of establishing and convening the commission to adopt rules relating to its operation and the advanced practice registered nurse uniform licensure requirements.
2. On the date of the commission's adoption of the advanced practice registered nurse uniform licensure requirements, all remaining provisions of this compact, and rules adopted by the commission, come into full force and effect in all party states.

3. Any state that joins this compact after the commission's initial adoption of the advanced practice registered nurse uniform licensure requirements are subject to all rules that have been previously adopted by the commission.
4. Any party state may withdraw from this compact by enacting a statute repealing the same. A party state's withdrawal does not take effect until six months after enactment of the repealing statute.
5. A party state's withdrawal or termination does not affect the continuing requirement of the withdrawing or terminated state's licensing board to report adverse actions and significant investigations occurring before the effective date of such withdrawal or termination.
6. This compact may not be construed to invalidate or prevent any advanced practice registered nurse licensure agreement or other cooperative arrangement between a party state and a nonparty state that does not conflict with the provisions of this compact.
7. This compact may be amended by the party states. An amendment to this compact does not become effective and binding upon any party state until it is enacted into the laws of all party states.
8. Representatives of nonparty states to this compact must be invited to participate in the activities of the commission, on a nonvoting basis, before the adoption of this compact by all states.

ARTICLE XI - CONSTRUCTION AND SEVERABILITY

This compact must be liberally construed so as to effectuate the purposes of this compact. The provisions of this compact are severable, and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any party state or of the United States, or if the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance is not affected thereby. If this compact is held to be contrary to the constitution of any party state, this compact remains in full force and effect as to the remaining party states and in full force and effect as to the party state affected as to all severable matters.

Member states shall require licensees who enter any alternative programs in lieu of discipline to agree not to practice in any other member state during the term of the alternative program without prior authorization from such other member state.

procedure of that court applicable to subpoenas issued in proceedings pending before it. The issuing authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the state where the witnesses or evidence are located; and

THERAPY COMPACT COMMISSION**

1. The compact member states hereby create and establish a joint public agency known as the physical therapy compact commission:

a. The commission is an instrumentality of the compact states.

ARTICLE IX - RULEMAKING

1. The commission shall exercise its rulemaking powers pursuant to the criteria set forth in this article and the rules adopted under this article. Rules and

- amendments become binding as of the date specified in each rule or amendment.
2. If a majority of the legislatures of the member states reject a rule, by enactment of a statute or resolution in the same manner used to adopt the compact within four years of the date of adoption of the rule, then such rule has no further force and effect in any member state.
 3. Rules or amendments to the rules must be adopted at a regular or special meeting of the commission.
 4. Before promulgation and adoption of a final rule or rules by the commission, and at least thirty days in advance of the meeting at which the rule will be considered and voted upon, the commission shall file a notice of proposed rulemaking:

 - c. An association having at least twenty-five members.
 8. If a hearing is held on the proposed rule or amendment, the commission shall publish the place, time, and date of the scheduled public hearing. If the hearing is held via electronic means, the commission shall publish the mechanism for access to the electronic hearing.

- a. All persons wishing to be heard at the hearing shall notify the executive director of the commission or other designated member in writing of their desire to appear and testify at the hearing not less than five business days before the scheduled date of the hearing.
 - b. Hearings must be conducted in a manner providing each person who wishes to comment a fair and reasonable opportunity to comment orally or in writing.
 - c. All hearings must be recorded. A copy of the recording must be made available on request.
 - d. This section may not be construed as requiring a separate hearing on each rule. Rules may be grouped for the convenience of the commission at hearings required by this section.
9. Following the scheduled hearing date, or by the close of business on the scheduled hearing date if the hearing was not held, the commission shall consider all written and oral comments received.

 - c. Meet a deadline for the promulgation of an administrative rule that is established by federal law or rule; or
 - d. Protect public health and safety.
13. The commission or an authorized committee of the commission may direct revisions to a previously adopted rule or amendment for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions must be posted on the website of the commission. The revision is subject to challenge by any person for a period of thirty days after posting. The revision may be challenged only on grounds the revision results in a material change to a rule. A challenge must be made in writing, and delivered to the chair of the commission before the end of the notice period. If a challenge is not made, the revision takes

effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

ARTICLE X - OVERSIGHT, DISPUTE RESOLUTION, AND ENFORCEMENT

1. Oversight.

- a. The executive, legislative, and judicial branches of state government in each member state shall enforce this compact and take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of this compact and the rules promulgated under this compact have standing as statutory law.**
- b. All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of this compact which may affect the powers, responsibilities, or actions of the commission.**
- c. The commission is entitled to receive service of process in any such proceeding, and has standing to intervene in such a proceeding for all purposes. Failure to provide service of process to the commission renders a judgment or order void as to the commission, this compact, or promulgated rules.**

2. Default, technical assistance, and termination.

- a. If the commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall:**
 - (1) Provide written notice to the defaulting state and other member states of the nature of the default, the proposed means of curing the default, and any other action to be taken by the commission; and**
 - (2) Provide remedial training and specific technical assistance regarding the default.**
- b. If a state in default fails to cure the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the member states, and all rights, privileges, and benefits conferred by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.**
- c. Termination of membership in the compact must be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate must be given by the commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.**
- d. A state that has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.**

- e. The commission may not bear any costs related to a state that is found to be in default or that has been terminated from the compact, unless agreed upon in writing between the commission and the defaulting state.
 - f. The defaulting state may appeal the action of the commission by petitioning the United States district court for the District of Columbia or the federal district where the commission has its principal offices. The prevailing member must be awarded all costs of such litigation, including reasonable attorney's fees.
3. Dispute resolution.
 - a. Upon request by a member state, the commission shall attempt to resolve disputes related to the compact which arise among member states and between member and nonmember states.
 - b. The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.
 4. Enforcement.
 - a. The commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.
 - b. By majority vote, the commission may initiate legal action in the United States district court for the District of Columbia or the federal district where the commission has its principal offices against a member state in default to enforce compliance with the provisions of the compact and its promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. If judicial enforcement is necessary, the prevailing member must be awarded all costs of such litigation, including reasonable attorney's fees.
 - c. The remedies herein are not the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or state law.

**ARTICLE XI - DATE OF IMPLEMENTATION OF THE INTERSTATE
COMMISSION FOR PHYSICAL THERAPY PRACTICE AND
ASSOCIATED RULES, WITHDRAWAL, AND AMENDMENT**

1. The compact comes into effect on the date on which the compact statute is enacted into law in the tenth member state. The provisions, which become effective at that time, are limited to the powers granted to the commission relating to assembly and the promulgation of rules. Thereafter, the commission shall meet and exercise rulemaking powers necessary to the implementation and administration of the compact.
2. Any state that joins the compact after the commission's initial adoption of the rules is subject to the rules as they exist on the date on which the compact becomes law in that state. Any rule that has been previously adopted by the commission has the full force and effect of law on the day the compact becomes law in that state.
3. Any member state may withdraw from this compact by enacting a statute repealing the same.

- a. A member state's withdrawal does not take effect until six months after enactment of the repealing statute.
- b. Withdrawal does not affect the continuing requirement of the withdrawing state's physical therapy licensing board to comply with the investigative and adverse action reporting requirements of this compact before the effective date of withdrawal.
4. This compact may not be construed to invalidate or prevent any physical therapy licensure agreement or other cooperative arrangement between a member state and a nonmember state which does not conflict with the provisions of this compact.
5. This compact may be amended by the member states. An amendment to this compact may not become effective and binding upon any member state until it is enacted into the laws of all member states.

ARTICLE XII - CONSTRUCTION AND SEVERABILITY

This compact must be liberally construed so as to effectuate the purposes of the compact. The provisions of this compact are severable and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any party state or of the United States or the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability of the remainder of this compact to any government, agency, person, or circumstance is not affected thereby. If this compact is held contrary to the constitution of any party state, the compact remains in full force and effect as to the remaining party states and in full force and effect as to the party state affected as to all severable matters.

A public entity refusing to provide access or copies of public records under this section shall state in writing the reasons supporting the refusal and provide the reasoning to the requester. The requester may seek an attorney general's opinion under section 44-04-21.1, on whether the public entity's decision was proper.

SECTION 10. AMENDMENT. Subsections 5, 6, and 9 of section 44-04-19.1 of the North Dakota Century Code are amended and reenacted as follows:

5. "Attorney consultation" means any discussion between a governing body and its attorney in instances in which the governing body seeks or receives the attorney's advice regarding and in anticipation of reasonably predictable or pending civil or criminal litigation or adversarial administrative proceedings or ~~concerning pending civil or criminal litigation or pending adversarial administrative proceedings~~to receive its attorney's advice and guidance on the legal risks, strengths, and weaknesses of an action of a public entity which, if held in public, would have an adverse fiscal effect on the entity. All other discussions beyond the attorney's advice and guidance must be made in the open, unless otherwise provided by law. Mere presence or participation of an attorney at a meeting is not sufficient to constitute attorney consultation.
6. "Attorney work product" means any document or record that:
 - a. Was prepared by an attorney representing a public entity or prepared at such an attorney's express direction;
 - b. Reflects a mental impression, conclusion, litigation strategy, or legal theory of that attorney or the entity; and
 - c. Was prepared exclusively for civil or criminal litigation, for adversarial administrative proceedings, ~~or~~ in anticipation of reasonably predictable civil or criminal litigation or adversarial administrative proceedings, or for guidance on the legal risks, strengths, and weaknesses of an action of a public entity.
9. A governing body may hold an executive session under section 44-04-19.2 to discuss negotiating strategy or provide negotiating instructions to its attorney or other negotiator regarding a pending claim, litigation, adversarial administrative proceedings, or contracts, which are currently being negotiated or for which negotiation is reasonably likely to occur in the immediate future. An executive session may be held under this subsection only when an open meeting would have an adverse fiscal effect on the bargaining or litigating position of the public entity. A record revealing negotiation strategy or instruction under this section is exempt. Drafts of contracts or agreements subject to negotiations are exempt but only for so long as release would have an adverse fiscal effect on the public entity, unless the records are otherwise exempt or confidential.

SECTION 11. Subsection 11 to section 44-04-19.1 of the North Dakota Century Code is created and enacted as follows:

11. A settlement agreement between a public entity and another party is exempt from disclosure until it has been fully executed and accepted by all concerned parties unless the records are otherwise exempt or confidential. In the case of multiple settlement agreements involving multiple parties involved in the same incident or undertaking, a settlement agreement is exempt until settlement agreements have been fully executed by all concerned parties unless the records are otherwise exempt or confidential.

SECTION 12. AMENDMENT. Subsections 3 and 5 of section 44-04-20 of the North Dakota Century Code are amended and reenacted as follows:

- If the governing body holds regularly scheduled meetings, the schedule of these meetings, including the aforementioned notice information, if available, must be filed annually in ~~January~~ with the secretary of state for state-level bodies or for public entities defined in subdivision c of subsection 13 of section 44-04-17.1, the city auditor or designee of the city for city-level bodies, and the county auditor or designee of the county for all other bodies or the schedule must be posted on the public entity's website. This schedule must be furnished to anyone who requests the information. When reasonable and practicable, a governing body of a public entity should attempt to set a regular schedule for its meetings by statute, ordinance, or resolution. This subsection does not apply to meetings of the legislative assembly or any committee thereof. Filing a yearly schedule of upcoming meetings does not relieve a public entity from its obligation to post an agenda for each meeting as required in subsections 2 and 4.
- The governing body's presiding officer has the responsibility of assuring that ~~such~~ public notice of a meeting's date, time, and location is given at the same time as such governing body's members are notified, and that this notice is available to anyone requesting such information. As soon as an agenda is prepared for a meeting with the information required in subsection 2 and given to members of the governing body, the agenda must be posted at the locations as required by subsection 4 and given to anyone requesting the information. When a request is made for notice of meetings, the request is effective for one year unless a different time period is specified.

SECTION 13. AMENDMENT. Section 44-04-21.1 of the North Dakota Century Code is amended and reenacted as follows:

44-04-21.1. Administrative review procedure.

- Any interested person may request an attorney general's opinion to review a written denial of a request for records under section 44-04-18, a denial of access to a meeting under section 44-04-19, or other alleged violation of section 44-04-18, 44-04-19, 44-04-19.2, 44-04-20, or 44-04-21 by any public entity other than the legislative assembly or any committee thereof. A request made under this section must be made within thirty days of the alleged violation, except that a request based on allegations that a meeting occurred without the notice required by section 44-04-20, must be made within ninety days of the alleged violation. In preparing an opinion under this section, the attorney general has discretion to obtain and review a recording made under section 44-04-19.2. The attorney general may request and obtain information claimed to be exempt or confidential for the purpose of determining whether

the information is exempt or confidential. Any such information may not be released by the attorney general and may be returned to the provider of the information. The attorney general shall issue to the public entity involved an opinion on the alleged violation, which may be a summary opinion, unless the request is withdrawn by the person requesting the opinion or a civil action has been filed involving the possible violation. If the request pertains to a public entity as defined in subdivision c of subsection 13 of section 44-04-17.1, the opinion must be issued to the public entity providing the public funds. In any opinion issued under this section, the attorney general shall base the opinion on the facts given by the public entity.

2. If the attorney general issues a written opinion concluding that a violation has occurred, the public entity has seven days after the opinion is issued, regardless of whether a civil action is filed under section 44-04-21.2, to disclose the record, to issue a notice of a meeting that will be held within a reasonable time to correct the violation, or to take steps to correct any other violation. If the public entity fails to take the required action within the seven-day period and the person requesting the opinion prevails in a civil action brought under section 44-04-21.2, the person must be awarded costs, disbursements, and reasonable attorney's fees in the action and on appeal. The attorney general may require officials of the public entity at issue in the opinion to obtain mandatory training by a certain date. The consequences for failing to comply with an attorney general's opinion issued under this section will be the same as for other attorney general's opinions, including potential personal liability for the person or persons responsible for the noncompliance.
3. If a state-level public entity as defined in subdivision a of subsection 13 of section 44-04-17.1 does not comply in full with the attorney general's opinion, and a civil action is brought under section 44-04-21.2 or is reasonably predictable, the entity, at its sole cost and expense, shall retain separate counsel who has been approved and appointed by the attorney general as a special assistant attorney general to represent the entity in that action.

SECTION 14. AMENDMENT. Subsection 4 of section 57-40.6-07 of the North Dakota Century Code is amended and reenacted as follows:

4. An audio recording of a request for emergency services or of a report of an emergency is an exempt record as defined in section 44-04-17.1. However, upon request, a person may listen to the audio recording, but may not copy or record the audio. A person also may request a written transcript of the audio recording, which must be provided to the person within a reasonable time. The emergency services communication system coordinator may refer requests to the appropriate investigating agency possessing the recording and shall communicate this referral to the requester. The investigating agency shall answer requests for the records. If an investigating agency does not have possession of the record, the emergency services communication system coordinator shall respond to the request for the record.

3. A custodian need not disclose under this chapter a digital asset deleted by a user.
4. If a user directs or a fiduciary requests a custodian to disclose under this chapter some, but not all, of the user's digital assets, the custodian need not disclose the assets if segregation of the assets would impose an undue burden on the custodian. If the custodian believes the direction or request imposes an undue burden, the custodian or fiduciary may seek an order from the court to disclose:
 - a. A subset limited by date of the user's digital assets;

- b. All of the user's digital assets to the fiduciary or designated recipient;

However, any telecommunications utility that is operated as a nonprofit, cooperative, or mutual telecommunications company or has fewer than eighteen thousand local exchange subscribers is subject to sections 49-21-01.4, 49-21-02.4, 49-21-23, 49-21-24, and 49-21-25, subsections 6 through 14 of section 49-21-01.7, and to sections 49-21-01.2, 49-21-01.3, 49-21-06, 49-21-07, 49-21-09, and 49-21-10, regarding rates, terms, and conditions of access services or connection between facilities and transfer of telecommunications between two or more telecommunications companies. Nothing in this section limits the authority of the commission granted under chapters 49-03 and 49-03.1 or sections 49-04-05 and 49-04-06.
2. Upon receipt of a resolution from the governing body of a city not served on August 1, 2017, with natural gas distribution service from a public utility requesting an exemption, and stating its reasons for doing so, the commission shall grant the public utility an exemption from sections 49-02-03, 49-02-11, and 49-02-15, and chapters 49-03.1 and 49-04 if the public utility:
 - a. Has a franchise to supply customers within the city and the area of the extraterritorial zoning jurisdiction of the city with natural gas distribution service;
 - b. Consents to the exemption; and

-
- c. Serves no more than two thousand five hundred customers within the city and the area of the extraterritorial zoning jurisdiction of the city.
3. Upon approval of the exemption, the rates, contracts, or services rendered by the public utility within the exempted area are subject to regulation by the city.
4. Notwithstanding an exemption granted under this section, the public utility remains subject to any rules of the commission governing customer service disconnections, and resale of natural gas service furnished or causing the resale of natural gas service by any customer is prohibited.
5. If a city files with the commission a resolution of its governing body rescinding the request for exemption, if the public utility serves more than two thousand five hundred customers within the city and the area of the city's extraterritorial zoning jurisdiction, or if the public utility requests rescinding the exemption for good cause, the commission may rescind the exemption granted under this section. The commission may require a public utility providing nonexempt natural gas distribution service to provide any exempted natural gas distribution service as a separate business entity.
6. Equipment covered by this section must be installed and maintained in compliance with the instructions provided by the manufacturer of any previously installed equipment to which it will be added. Appliances designed to use only a specific fuel may not be converted to use a different fuel if the manufacturer has prohibited the conversions.

- (3) A pipeline that is less than one mile [1.61 kilometers] long. For purposes of this chapter, a gathering system includes the pipelines and associated facilities used to collect oil from the lease site to the first pipeline storage site where pressure is increased for further transport, or pipelines and associated facilities used to collect gas from the well to the gas processing facility at which end-use consumer-quality gas is produced, with or without the addition of odorant.
- b. A liquid transmission line and associated facilities designed for or capable of transporting water from or to an energy conversion facility.
8. "Permit" means the permit for the construction of a gas or liquid transmission facility within a designated corridor issued under this chapter.
9. "Person" includes any individual, firm, association, partnership, cooperative, corporation, limited liability company, or any department, agency, or instrumentality of a state or of the federal government, or any subdivision thereof.
10. "Route" means the location of a gas or liquid transmission facility within a designated corridor.
11. "Site" means the location of a gas or liquid energy conversion facility.
12. "Utility" means any person engaged in and controlling the generation, manufacture, refinement, or transmission of gas, liquid hydrocarbons, or liquid hydrocarbon products, including coal gasification, coal liquefaction, petroleum refinement, uranium enrichment, and the transmission of coal, gas, liquid hydrocarbons, or liquid hydrocarbon products, or the transmission of water from or to any gas or liquid energy conversion facility.

49-22.1-02. Statement of policy.

The legislative assembly finds the construction of energy conversion facilities and transmission facilities affects the environment and the welfare of the citizens of this state. It is necessary to ensure the location, construction, and operation of energy conversion facilities and transmission facilities will produce minimal adverse effects on the environment and the welfare of the citizens of this state by prohibiting energy conversion facilities and transmission facilities from being located, constructed, or operated within this state without a certificate of site compatibility or a route permit acquired under this chapter. The policy of this state is to site energy conversion facilities and to route transmission facilities in an orderly manner compatible with environmental preservation and the efficient use of resources. Sites and routes must be selected to minimize adverse human and environmental impact while ensuring continuing system reliability and integrity and fulfilling energy needs in an orderly and timely fashion.

49-22.1-03. Exclusion and avoidance areas - Criteria.

The commission shall develop criteria to be used in identifying exclusion and avoidance areas and to guide the site, corridor, and route suitability evaluation and designation process. Except for oil and gas transmission lines in existence before July 1, 1983, areas within five hundred feet [152.4 meters] of an inhabited rural

residence must be designated avoidance areas. This criterion does not apply to a water pipeline. The five hundred foot [152.4 meter] avoidance area criteria for an inhabited rural residence may be waived by the owner of the inhabited rural residence in writing. The criteria also may include an identification of impacts and policies or practices which may be considered in the evaluation and designation process.

49-22.1-04. Certificate of site compatibility or route permit required.

A utility may not begin construction of a gas or liquid energy conversion facility or gas or liquid transmission facility in the state without first having obtained a certificate of site compatibility or a route permit from the commission pursuant to this chapter. The facility must be constructed, operated, and maintained in conformity with the certificate or permit and any terms, conditions, or modifications of the certificate or permit. A certificate or permit may be transferred, subject to the approval of the commission, to any person who agrees to comply with its terms, conditions, and modifications.

49-22.1-05. Waiver of procedures and time schedules.

Any utility that proposes to construct a gas or liquid energy conversion facility or a gas or liquid transmission facility within the state may make an application to the commission for a waiver of any of the procedures or time schedules set forth in this chapter or in the rules adopted pursuant to this chapter. The commission, after hearing and upon a finding that the proposed facility is of a length, design, location, or purpose that it will produce minimal adverse effects, or, after hearing and upon a finding that a demonstrable emergency exists which requires immediate construction and that adherence to the procedures and time schedules would jeopardize the utility's system, may issue an order waiving specified procedures and time schedules required by this chapter or by the rules adopted pursuant to this chapter, including applications, notices, and hearings, and may forthwith issue a certificate of site compatibility, a certificate of corridor compatibility, or a route permit, with such conditions as the commission may require.

49-22.1-06. Application for a certificate - Notice of filing - Amendment - Designation of a site or corridor.

1. An application for a certificate must be in the form prescribed by the commission containing the following information:
 - a. A description of the size and type of facility.
 - b. A summary of any studies that have been made of the environmental impact of the facility.
 - c. A statement explaining the need for the facility.
 - d. An identification of the location of the preferred site for any gas or liquid energy conversion facility.
 - e. An identification of the location of the preferred corridor for any gas or liquid transmission facility.
 - f. A description of the merits and detriments of any location identified and a comprehensive analysis with supporting data showing the reasons why the preferred location is best suited for the facility.

- g. A description of mitigative measures that will be taken to minimize all foreseen adverse impacts resulting from the location, construction, and operation of the proposed facility.
 - h. An evaluation of the proposed site or corridor with regard to the applicable considerations set out in section 49-22.1-09 and the criteria established pursuant to section 49-22.1-03.
 - i. Any other information as the applicant considers relevant or the commission may require.
 2. After determining the application is complete, the commission shall serve a notice of filing of the application on those persons and agencies the commission deems appropriate and shall publish a notice of filing of the application in the official newspaper of each county in which any portion of the site or corridor is proposed to be located.
 3. A copy of the application must be furnished to any person or agency, upon request to the commission within thirty days of either service or publication of the notice of filing.
 4. An application for an amendment of a certificate must be in the form and contain the information as the commission prescribes.
 5. The commission may designate a site or corridor for a proposed facility following the study and hearings provided for in this chapter. Any designation must be made in accordance with the evidence presented at the hearings, an evaluation of the information provided in the application, the criteria established pursuant to section 49-22.1-03, and the considerations set out in section 49-22.1-09 in a finding with reasons for the designation, and must be made in a timely manner no later than six months after the filing of a completed application for a certificate of site compatibility or no later than three months after the filing of a completed application for a certificate of corridor compatibility. The time for designation of a site or corridor may be extended by the commission for just cause. The failure of the commission to act within the time limits provided in this section does not operate to divest the commission of jurisdiction in any certification proceeding. The commission shall indicate the reasons for any refusal of designation. Upon designation of a site or corridor, the commission shall issue a certificate of site compatibility or a certificate of corridor compatibility with the terms, conditions, or modifications deemed necessary.

49-22.1-07. Application for a permit - Notice of filing - Amendment - Designation of a route.

1. An application for a route permit for a gas or liquid transmission facility within a designated corridor must be filed no later than two years after the issuance of the certificate and must be in the form the commission prescribes, containing the following information:
 - a. A description of the type, size, and design of the proposed facility.
 - b. A description of the location of the proposed facility.

- c. An evaluation of the proposed route with regard to the applicable considerations set out in section 49-22.1-09 and the criteria established pursuant to section 49-22.1-03.
 - d. A description of mitigative measures that will be taken to minimize all foreseen adverse impacts resulting from the location, construction, and operation of the proposed facility.
 - e. A description of the right-of-way preparation and construction and reclamation procedures.
 - f. A statement setting forth the manner in which:
 - (1) The utility will inform affected landowners of easement acquisition, and necessary easement conditions and restrictions.
 - (2) The utility will compensate landowners for easements, without reference to the actual consideration to be paid.
 - g. Any other information the utility considers relevant or the commission requires.
2. After determining the application is complete, the commission shall serve a notice of filing of the application on those persons and agencies the commission deems appropriate and shall publish a notice of filing of the application in the official newspaper of each county in which any portion of the designated corridor is located.
 3. A copy of the application must be furnished to any person or agency, upon request to the commission within thirty days of either service or publication of the notice of filing.
 4. An application for an amendment of a permit must be in the form and contain the information the commission prescribes.
 5. The commission shall designate a route for the construction of a gas or liquid transmission facility following the study and hearings provided for in this chapter. This designation must be made in accordance with the evidence presented at the hearings, an evaluation of the information provided in the application, the criteria established pursuant to section 49-22.1-03, and the considerations set out in section 49-22.1-06 in a finding with reasons for the designation, and must be made in a timely manner no later than six months after the filing of a completed application. The time for designation of a route may be extended by the commission for just cause. The failure of the commission to act within the time limit provided in this section does not operate to divest the commission of jurisdiction in any permit proceeding. Upon designation of a route the commission shall issue a permit to the applicant with the terms, conditions, or modifications deemed necessary.

49-22.1-08. Combining application.

A utility may file a separate application for a certificate or a permit, or combined into one application.

49-22.1-09. Factors to be considered in evaluating applications and designation of sites, corridors, and routes.

The commission is guided by, but is not limited to, the following considerations, when applicable, to aid the evaluation and designation of sites, corridors, and routes:

1. Available research and investigations relating to the effects of the location, construction, and operation of the proposed facility on public health and welfare, natural resources, and the environment.
2. The effects of new gas or liquid energy conversion and gas or liquid transmission technologies and systems designed to minimize adverse environmental effects.
3. The potential for beneficial uses of waste energy from a proposed gas or liquid energy conversion facility.
4. Adverse direct and indirect environmental effects that cannot be avoided should the proposed site or route be designated.
5. Alternatives to the proposed site, corridor, or route that are developed during the hearing process and which minimize adverse effects.
6. Irreversible and ir retrievable commitments of natural resources should the proposed site, corridor, or route be designated.
7. The direct and indirect economic impacts of the proposed facility.
8. Existing plans of the state, local government, and private entities for other developments at or in the vicinity of the proposed site, corridor, or route.
9. The effect of the proposed site or route on existing scenic areas, historic sites and structures, and paleontological or archaeological sites.
10. The effect of the proposed site or route on areas that are unique because of biological wealth or because the site or route is a habitat for rare and endangered species.
11. Problems raised by federal agencies, other state agencies, and local entities.

49-22.1-10. Public hearings - Notice.

1. The commission shall hold a public hearing in each county in which any portion of a site, corridor, or route is proposed to be located in an application for a certificate or a permit. At the public hearing, any person may present testimony or evidence relating to the information provided in the application, the criteria developed pursuant to section 49-22.1-03, and the factors to be considered pursuant to section 49-22.1-09. When more than one county is involved, the commission may hold a consolidated hearing in one or more of the affected counties. A hearing for any county may not be consolidated if five or more affected landowners in that county file a petition with the commission within ten days of the publication of the notice of hearing.
2. The commission is not required to hold a public hearing on an application for the transfer of a certificate or a permit, or an application for a waiver of procedures and time schedules, but shall publish a notice of opportunity for a

public hearing in the official newspaper of each county in which any portion of the facility or the proposed site, corridor, or route is located. If requested by any interested person and good cause has been shown therefor, the commission shall hold a public hearing. If more than one county is involved, the commission may hold a consolidated hearing in one or more of the affected counties.

3. One or more public hearings must be held at a location or locations determined by the commission concerning the following matters:
 - a. A substantial or material change in the criteria established pursuant to section 49-22.1-03.
 - b. A substantial or material change in the rules adopted pursuant to section 49-22.1-17.
 - c. The revocation or suspension of a certificate or permit.
4. Notice of a public hearing must be given by the commission by service on those persons the commission deems appropriate and twice by publication, once at least twenty days before the hearing and a second time within twenty days before the hearing. Notice of a public hearing and notice of opportunity for a public hearing on an application for a certificate, a permit, a transfer, or a waiver must be given at the expense of the applicant. In an emergency the commission may notice a hearing upon less than twenty days.

49-22.1-11. Advisory committees - Appointment - Compensation.

The commission may appoint one or more advisory committees to assist it in carrying out its duties under this chapter. Committees appointed to evaluate sites or corridors considered for designation must be composed of as many persons as may be appointed by the commission, but must include a majority of public representatives; at least one representative from the state department of agriculture, a public or municipally owned utility, a private investor-owned utility, and a cooperatively owned utility; and one representative from each county and city in which a gas or liquid energy conversion facility or gas or liquid transmission facility is proposed to be located. Members of advisory committees are entitled to be reimbursed, within the limits of legislative appropriations, for any necessary expenses in the amounts provided by law for state officials.

49-22.1-12. Cooperation with state and federal agencies.

The commission may, and is encouraged to, cooperate with and receive and exchange technical information and assistance from and with any department, agency, or officer of any state or of the federal government to eliminate duplication of effort, to establish a common database, or for any other purpose relating to the provisions of this chapter.

49-22.1-13. Effect of issuance of certificate or permit - Local land use, zoning, or building rules, regulations, or ordinances - State agency rules.

1. The issuance of a certificate of site compatibility or a route permit is, subject to subsections 2 and 3, the sole site or route approval required to be obtained by the utility.

2. A certificate of site compatibility for an energy conversion facility does not supersede or preempt any local land use; zoning; or building rules, regulations, or ordinances, and a site may not be designated which violates local land use; zoning; or building rules, regulations, or ordinances. A permit for the construction of a gas or liquid transmission facility within a designated corridor may supersede and preempt any local land use; zoning; or building rules, regulations, or ordinances, upon a finding by the commission that the rules, regulations, or ordinances, as applied to the proposed route, are unreasonably restrictive in view of existing technology, factors of cost or economics, or needs of consumers regardless of their location. Without that finding by the commission, a route may not be designated which violates local land use; zoning; or building rules, regulations, or ordinances.
3. Utilities subject to this chapter shall obtain state permits that may be required to construct and operate gas or liquid energy conversion facilities and gas or liquid transmission facilities. A state agency in processing a utility's facility permit application is bound to the decisions of the commission with respect to the site designation for the gas or liquid energy conversion facility or the corridor or route designation for the gas or liquid transmission facility and with respect to other matters for which authority has been granted to the commission by this chapter.
4. A site or route may not be designated which violates the rules of any state agency. A state agency with jurisdiction over any aspect of a proposed facility shall present the position of the agency at the public hearing on an application for a certificate, a permit, or a waiver, which position must clearly state whether the site, corridor, or route being considered for designation will be in compliance with the agency's rules. For purposes of this chapter it is presumed a proposed facility will be in compliance with a state agency's rules if that agency fails to present its position on the proposed site, corridor, or route at the appropriate public hearing.

49-22.1-14. Unfair tactics in acquiring land or easements for a facility - Court action - Cancellation of easement - Penalty.

1. Any person employed by a public utility to acquire easements for a facility subject to this chapter may not use any harassment, threat, intimidation, misrepresentation, deception, fraud, or other unfair tactics to induce the owner of the land to be affected by the facility to grant or agree to any easements.
2. If at least five landowners aggrieved by the conduct of a person or persons, acting on behalf of the same utility, acquiring easements for a site or route of a facility allege use of harassment, threat, intimidation, misrepresentation, deception, fraud, or other unfair tactics by the person or persons acquiring or attempting to acquire the easement, an action may be brought in the appropriate district court.
3. Upon a determination by the court that a person employed by the utility used harassment, threat, intimidation, misrepresentation, deception, fraud, or other unfair tactics in acquiring or attempting to acquire an easement from at least five separate landowners, the court, by order, shall declare the easements void and may order any compensation paid therefor returned to the offending utility, or allow the landowner to retain the compensation, or award to the landowner up to three times the amount of the compensation involved as damages, punitive or compensatory. The court shall award costs and

reasonable attorney's fees to the plaintiff if the court rules in favor of the plaintiff.

4. Upon a determination by the court that the utility involved did knowingly allow, encourage, or operate in active consort or participation with a person utilizing an unfair tactic, the court shall cause a copy of its memorandum opinion or order to be filed with the commission.
5. Upon receiving a copy of a memorandum opinion or order issued by a district court pursuant to this section, the commission may revoke or suspend the permit issued with respect to the route affecting the aggrieved landowners. If a permit has not been issued with respect to a site or route affecting the aggrieved landowners, the commission may refuse to issue a permit for such portion of the route.

49-22.1-15. Route adjustment before or during construction for gas or liquid transmission line.

1. Before or during construction, a utility, without any action by the commission, may adjust the route of a gas or liquid transmission line within the designated corridor if, before conducting any construction activities associated with the adjustment, the utility files with the commission certification and supporting documentation that:
 - a. The construction activities will be within the designated corridor;
 - b. The construction activities will not affect any known exclusion or avoidance areas within the designated corridor; and
 - c. The utility will comply with the commission's order, laws, and rules designating the corridor and designating the route.
2. Before or during construction, a utility may adjust the route of a gas or liquid transmission line within the designated corridor that may affect an avoidance area if, before conducting any construction activities associated with the adjustment, the utility:
 - a. Files with the commission certification and supporting documentation that:
 - (1) The construction activities are within the designated corridor;
 - (2) The construction activities will not affect any known exclusion areas within the designated corridor;
 - (3) The construction activities are expected to impact an avoidance area with a specific description of the avoidance area expected to be impacted;
 - (4) Each owner of real property on which the adjustment is to be located and any applicable governmental entity with an interest in the same adjustment area do not oppose the adjustment, unless the utility previously received authorization from the commission for the impact to the avoidance area;
 - (5) For an impact for which the utility does not already have approval or has not filed the approval in paragraph 4, the utility has good cause

- and a specific reason to impact the avoidance area, and a reasonable alternative does not exist; and
- (6) The utility will comply with the commission's order, laws, and rules designating the corridor and designating the route.
- b. Receives the commission's written authorization that the utility may impact the avoidance area. If the commission does not authorize the impact to the avoidance area, the utility must obtain siting authority for the affected portion of the route adjustment. If the commission fails to act within ten working days of receipt of the utility's filing of the certification and supporting documentation under subdivision a of subsection 2, the route adjustment is deemed approved.
3. Before or during construction, a utility, without any action by the commission, may adjust the route of a gas or liquid transmission line outside the designated corridor if, before conducting any construction activities associated with the adjustment, the utility:
- a. Files with the commission certification and supporting documentation that:
- (1) The construction activities will not affect any known exclusion or avoidance areas;
- (2) The route outside the corridor is no longer than one and one-half miles [2.41 kilometers];
- (3) The utility will comply with the commission's order, laws, and rules designating the corridor and designating the route; and
- (4) Each owner of real property on which the adjustment is to be located and any applicable governmental entity with an interest in the same adjustment area do not oppose the adjustment.
- b. Files detailed field studies indicating exclusion and avoidance areas for an area encompassing the route outside the designated corridor equal to the length of the adjustment of the proposed corridor.
4. Before or during construction, a utility may adjust the route of a gas or liquid transmission line outside the designated corridor that may affect an avoidance area if, before conducting any construction activities associated with the adjustment, the utility:
- a. Files with the commission certification and supporting documentation that:
- (1) The construction activities will not affect any known exclusion areas;
- (2) The construction activities are expected to impact an avoidance area with a specific description of the avoidance area expected to be impacted;
- (3) The utility has good cause and a specific reason to impact the avoidance area, and a reasonable alternative does not exist;

- (4) The route outside the corridor is no longer than one and one-half miles [2.41 kilometers];
 - (5) The utility will comply with the commission's order, laws, and rules designating the corridor and designating the route; and
 - (6) Each owner of real property on which the adjustment is to be located and any applicable governmental entity with an interest in the same adjustment area do not oppose the adjustment.
- b. Files detailed field studies indicating exclusion and avoidance areas for an area encompassing the route outside the designated corridor equal to the length of the adjustment of the proposed corridor.
 - c. Receives the commission's written authorization that the utility may impact the avoidance area. If the commission does not authorize the impact to the avoidance area, the utility must obtain siting authority for the affected portion of the route adjustment. If the commission fails to act within ten working days of receipt of the utility's filing of the certification and supporting documentation under subdivisions a and b of subsection 4, the route adjustment is deemed approved.
5. The commission is not required to hold a public hearing or publish a notice of opportunity for a public hearing for any route adjustment under this section.

49-22.1-16. Improvement of sites or locations.

Utilities that have acquired a gas or liquid energy conversion facility site or gas or liquid transmission line route in accordance with this chapter may proceed to construct or improve such site or route for the intended purposes at any time, subject to subsections 2 and 3 of section 49-22.1-13; provided, that if the construction and improvement commences more than four years after a certificate or permit for the site or route has been issued, the utility must certify to the commission that the site or route continues to meet the conditions upon which the certificate of site compatibility or gas or liquid transmission facility construction permit was issued.

49-22.1-17. Rules and regulations.

The commission shall adopt rules in conformity with this chapter and prescribe methods and procedures required therewith.

49-22.1-18. Hearing - Judicial review.

Any party aggrieved by the issuance of a certificate of site compatibility or gas or liquid transmission facility construction permit from the commission, certification of continuing suitability filed by a utility with the commission, or promulgation of a final order by the commission, may request a rehearing by the commission. The hearing must be conducted pursuant to chapter 28-32. There is a right of appeal to the district court from any adverse ruling by the commission.

49-22.1-19. Revocation or suspension of certificate or permit.

A certificate of site compatibility or permit for the construction of a gas or liquid transmission facility may be revoked or suspended for:

1. Any material false statement in the application or in accompanying statements or studies required of the applicant.

2. Failure to comply with the certificate or permit or any terms, conditions, or modifications contained in the certificate or permit.
3. Violations of this chapter or rules adopted pursuant to this chapter by the commission.
4. A determination by a district court pursuant to section 49-22.1-14.

49-22.1-20. Penalties.

1. Any person required by this chapter to have a certificate or permit who willfully begins construction of a gas or liquid energy conversion facility or gas or liquid transmission facility without previously securing a certificate or permit as prescribed by this chapter, or who willfully constructs, operates, or maintains a gas or liquid energy conversion facility or gas or liquid transmission facility other than in compliance with the certificate or permit and any terms, conditions, and modifications contained in the certificate or permit is guilty of a class A misdemeanor.
2. Any person who willfully violates any regulation issued or approved pursuant to this chapter or who willfully falsifies, tampers with, or renders inaccurate any monitoring device or method required to be maintained under this chapter is guilty of a class A misdemeanor.
3. Any person who willfully engages in any of the following conduct is subject to a civil penalty of not to exceed ten thousand dollars for each violation for each day the violations persist, except the maximum penalty may not exceed two hundred thousand dollars for any related series of violations:
 - a. Begins construction of a gas or liquid energy conversion facility or a gas or liquid transmission facility without having been issued a certificate or permit pursuant to this chapter.
 - b. Constructs, operates, or maintains a gas or liquid energy conversion facility or a gas or liquid transmission facility other than in compliance with the certificate or permit and any terms, conditions, or modifications contained therein.
 - c. Violates any provision of this chapter or any rule adopted by the commission pursuant to this chapter.
 - d. Falsifies, tampers with, or renders inaccurate any monitoring device or method required to be maintained pursuant to a certificate or permit issued pursuant to this chapter.
4. The civil penalty provided for in subsection 3 may be compromised by the commission. The amount of the penalty when finally determined or agreed upon in compromise must be deposited in the general fund and, if not paid, may be recovered in a civil action in the courts of the state.
5. Notwithstanding any other provision of this chapter, the commission may, by injunctive procedures, without bond or other undertaking, proceed against any person that willfully engages in any conduct described in subsection 3. No liability may accrue to the commission or its authorized representative in proceeding against any person pursuant to this section.

49-22.1-21. Siting process expense recovery - Deposit in special fund - Continuing appropriation.

 - b. An applicant for a certificate of corridor compatibility shall pay an amount equal to five thousand dollars for each one million dollars of investment in the facility.
 - c. An applicant for a waiver shall pay the amount that would be required for an application for a certificate of site or corridor compatibility for the proposed facility. If a waiver is not granted for a proposed facility, the application fee paid must be allowed as a credit against fees payable under this section in connection with an application under this chapter for a certificate or permit for the proposed facility.
 - d. An applicant for a transfer of a certificate or permit shall pay an amount to be determined by the commission to cover anticipated expenses of processing the application.
 - e. An applicant certifying to the commission under subsection 3 of section 49-22.1-01 or obtaining siting authority under subdivision b of subsection 2 or subdivision c of subsection 4 of section 49-22.1-15, shall pay an amount to be determined by the commission to cover anticipated expenses of processing the application.
 - f. The application fee under subdivision a, b, or c may not be less than ten thousand dollars nor more than one hundred thousand dollars.
2. At the request of the commission and with the approval of the emergency commission, the applicant shall pay any additional fees as are reasonably necessary for completion of the gas or liquid energy conversion facility site, gas or liquid transmission facility corridor, or gas or liquid transmission facility route evaluation and designation process by the commission. The application fee under subsection 1 and any additional fees required of the applicant under this subsection may not exceed an amount equal to one thousand dollars for each one million dollars of investment in a proposed energy conversion facility or ten thousand dollars for each one million dollars of investment in a proposed gas or liquid transmission facility.
3. A siting process expense recovery fund is established in the state treasury. The commission shall deposit payments received under subsections 1 and 2 in the siting process expense recovery fund. All moneys deposited in the fund are appropriated on a continuing basis to the commission to pay expenses incurred in the siting process. The commission shall specify the time and method of payment of any fees and shall refund the portion of fees collected under subsections 1 and 2 which exceeds the expenses incurred for the evaluation and designation process.

49-22.1-22. Safety.

Every utility that owns or operates electric generation of any size for the primary purpose of resale shall comply with the standards of the national electrical safety code in effect at the time of construction of the generation.

SECTION 25. AMENDMENT. Subsection 1 of section 54-17.7-08 of the North Dakota Century Code is amended and reenacted as follows:

1. Until sold or disposed of by the authority, the authority and the pipeline facilities built under this chapter are exempt from the provisions of title 49 except for ~~chapter~~chapters 49-22 and 49-22.1 and sections 49-02-01.2 and 49-07-05.1. Upon sale or disposal by the authority, pipeline facilities built under this chapter are subject to the provisions of title 49.

CHAPTER 329

HOUSE BILL NO. 1378

(Representatives Johnston, Headland, Kiefert, Simons)
(Senator Clemens)

AN ACT to create and enact a new section to chapter 49-22 of the North Dakota Century Code, relating to light-mitigating technology systems on wind energy conversion facilities.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 49-22 of the North Dakota Century Code is created and enacted as follows:

Light-mitigating technology system - Rules.

1. The commission shall adopt rules by January 1, 2019, relating to the implementation of light-mitigating technology systems on wind energy conversion facilities. The rules must be consistent with the federal aviation administration regulations [14 CFR 1.1 et seq.] and must include service and maintenance requirements, safety standards, and lighting system requirements.
2. By December 31, 2019, every wind energy conversion facility for which the commission issued a certificate of site compatibility after June 5, 2016, must be equipped with a functioning light-mitigating technology system that complies with rules adopted by the commission.
3. By December 31, 2021, every wind energy conversion facility for which the commission issued a certificate of site compatibility before June 5, 2016, must be equipped with a functioning light-mitigating technology system that complies with the rules adopted by the commission. If an operator determines more time is necessary for location, the operator may request a twenty-four-hour extension of the excavation or location notice by notifying the notification center. The notification center shall notify the excavator of the extension.~~ An excavation begins the first time excavation occurs in an area that was not previously identified by the excavator in an excavation notice. The notice must contain:
 - a. The name, address, and telephone number of the person making the notification;
 - b. The name, address, and telephone number of the excavator;

- c. The date and time when excavation is scheduled to begin;

 - e. The type and extent of excavation being planned, including whether the excavation involves tunneling or horizontal boring;
 - f. Whether the use of explosives is anticipated and any other information as may be required by the notification center; and
 - g. The location of the excavation by any one or more of the following means:
 - (1) A specific street address;
 - (2) A reference to a platted lot number of record;
 - (3) An identifiable roadway or roadway intersection; or
 - (4) A specific quarter section by section number, range, township, and county. In this case, the location shall be further described by coordinates measured in feet from the nearest one-fourth corner or section corner.
 - h. ~~If the location of the excavation is too large or complex to be clearly and adequately identified by description in the location request~~
2. ~~Unless otherwise exempted, the excavator shall provide additional location ticket request must include site identification information by one or more of the following means: white marking, digital white lining, project staking, geographic information system shape file, detailed drawing, map, or other appropriate means agreed upon by the parties to the ticket. An excavator may not be required to provide additional location information if the excavator plans a meeting with the affected operators at the location of the excavation before beginning any excavation, or if the notice given under this section includes a specific street address or reference to a platted lot number of record of the location of the excavation. Site identification under this subsection is not required if:~~
- a. The precise location of excavation can be clearly and adequately identified on the location notice and is limited to a single street address or a platted lot number of record;
 - b. The precise location of excavation can be clearly and adequately identified on the location notice and the excavation is an emergency excavation; or
 - c. Prior to any excavation, the excavator requests and conducts a meeting with the affected operators at the location of the excavation.
- i-3. ~~A request for location is limited to the area to be excavated during the twenty-one day period following the location request an area not exceeding three contiguous city blocks within an urban area or an area of four contiguous quarter sections or five linear miles [8.05 kilometers] in a rural area.~~
- j-4. ~~An excavator may begin excavation in a location if the location period has passed without notification of a requested extension or prior to the expiration~~

~~of the location period if when the excavator has received notice that all facilities have been located or cleared or at the expiration of the location period or extension of the location period.~~

2.5. The notification center shall:

- a. Provide a toll-free telephone number and assign an inquiry identification number to each excavation notice and retain a record of all excavation notices received for at least six years.
- b. Immediately transmit the information contained in an excavation notice to every operator that has an underground facility in the area of the proposed excavation.
- c. Inform the persons giving notice of an intent to engage in an excavation activity the names of participating operators of underground facilities to whom the notice will be given.
- d. Establish procedures for assuring positive response from the affected operator in all emergency excavation notices.
- e. Establish procedures to receive from operators and convey to ticket holders positive response when operators have located or cleared underground facilities identified within the area of a location request.

- 3.6.
- a. ~~An operator, within forty-eight hours, or any extension of that period, after receiving an excavation notice from the center, excluding Saturdays, Sundays, and holidays, unless otherwise agreed to between the excavator and operator, shall locate and mark or otherwise provide the approximate horizontal location of the underground facilities of the operator with underground facilities within the area of a location request shall locate and mark or otherwise provide the approximate horizontal location of the underground facilities of the operator within the location period or as agreed by the parties.~~
 - b. For purposes of this section, the approximate horizontal location of the underground facilities is a strip of land two feet [60.96 centimeters] on either side of the underground facilities. An operator of a facility required to be locatable is responsible for the costs of location. If an excavator is unable to locate a facility within two feet on either side of the operator's facility location markings and requests assistance from the operator to locate the facility, but the operator fails to provide the requested assistance within a reasonable time, the operator is responsible for the excavator's reasonable costs incurred to locate the facility. This subdivision does not apply to an underground facility to convey water installed before August 1, 2013.
 - c. When an operator cannot establish the exact location of the underground facility to convey water, the operator shall mark the location as accurately as possible and the excavator may proceed with caution. When excavation operations approach the estimated location of the underground facility to convey water, the exact location of the facility must be determined by safe and acceptable means. The uncovered facility must be supported and protected to prevent damage.

- d. Markers used to designate the approximate location of underground facilities must follow the current color code standard used by the American public works association.
- e. If the operator cannot complete marking of the excavation area before the excavation commencement time stated in the excavation notice, the operator shall promptly contact the excavator.
- f. After facilities are located by an operator, an excavator shall notify the notification center if:
 - (1) The excavator postpones the excavation commencement time stated in the excavation notice by more than forty-eight hours, or any extension of that period, or cancels the excavation;
 - (2) The markings have been obliterated or obscured;
 - (3) Weather conditions have impeded visibility of the markings;
 - (4) The site shows evidence of recent excavation; or
 - (5) The excavator has other reason to believe the markings are incorrect or missing.
- g. An excavator may not use a location more than twenty-one days, or any extension of that period, after the planned excavation date unless the excavator has made previous arrangements with the operators affected.
- h. If excavation has not occurred within the initial twenty-one days of the locate, the excavator shall request that the facility be relocated before excavating unless other arrangements have been made with the underground facility owner. Upon the third locate request at the same excavation site where no excavation has occurred after the initial two locates, the excavator is responsible for reasonable costs associated with relocating facilities in that location. If the issue of whether excavation has occurred is disputed for purposes of this section, the excavator bears the burden of proof that excavation has occurred.
- i. If a relocate request is made for an area which includes areas where excavation has been completed, a request for relocate must be modified from the original locate request to reflect only the area to be excavated during each subsequent twenty-one-day period, otherwise the excavator is responsible for reasonable costs associated with relocating facilities in the location.
- j. An excavator that makes repeated location requests within the area of a previously made location request due to the excavator's failure to reasonably maintain and remove markings under subsection 3 of section 49-23-05 or failure to follow prudent and careful digging practices required by subsection 5 of section 49-23-05 is responsible for reasonable costs of location and removal if the public service commission determines the additional location request was caused by the excavator's failure described in this subdivision.

- k. If in the course of excavation the excavator is unable to locate the underground facility or discovers that the operator of the underground facility has incorrectly located the underground facility, the excavator shall promptly notify the operator or, if unknown, the one-call notification center.
- ~~k-l.~~ A facility owner, excavator, or other person may not present or presume that an underground facility is abandoned, or treat an underground facility as abandoned, unless the facility has been verified as abandoned by reference to installation records or by testing. The notification center shall establish a method of providing personnel from a facility owner qualified to safely inspect and verify whether a facility is abandoned or inactive if necessary. An inactive facility must be considered active for purposes of this section.
- l-m. An underground facility owner shall make all new facilities locatable.
- n. An operator that has completed marking of the excavation area or has determined there are no facilities in the area identified in the ticket shall provide positive response to the notification center in compliance with the notification center's procedures established under subsection 5 for assuring positive response from operators.
- 4-7. If an excavation is being made in a time of emergency, all reasonable precautions must be taken to protect the underground facilities. In an emergency, the excavator shall give notification in compliance with this chapter, as soon as practical, that an emergency exists. As soon as practical, each operator shall provide all location information that is reasonably available to the excavator.

SECTION 4. Section 49-23-04.1 of the North Dakota Century Code is created and enacted as follows:

49-23-04.1. Survey.

1. An individual making a request for location for information, design, or purposes other than excavation shall contact the notification center for a survey location. The survey notice must contain:
- a. The name, address, and telephone number of the person making the notification;
 - b. The name, address, and telephone number of the surveyor;
 - c. The date and time information will be captured;
 - d. The depth of any planned future excavation;

 - (3) An identifiable roadway or roadway intersection; or
 - (4) A specific quarter section by section number, range, township, and county. In this case, the location must be further described by coordinates measured in feet from the nearest quarter section corner or section corner.
2. Unless otherwise exempted, the ticket request must include site identification information by one or more of the following means: white marking, digital white lining, project staking, geographic information system shape file, detailed drawing, map, or other means agreed upon by the parties to the ticket. Site identification under this subsection is not required if:
 - a. The precise location of planned future excavation can be clearly and adequately identified on the location notice and is limited to a single street address or a platted lot number of record; or
 - b. Prior to any survey, the excavator requests and conducts a meeting with the affected operators at the location of the survey.
3. The notification center shall:
 - a. Immediately transmit the information contained in a survey notice to every operator that has an underground facility in the survey area; and
 - b. Inform the individual who made the survey location request of the names of participating operators of underground facilities to whom the notice will be given.
4. Within five days, excluding Saturdays, Sundays, and holidays; an operator with a facility within the survey area shall locate or mark the facilities physically, provide location information electronically, or meet with the ticket holder.
5. Meetings may be held at the discretion of the ticket holder.
6. Electronic information may be exchanged at the discretion of the operator.

2. Provide support in a manner approved by the operator for underground facilities in and near the construction area, including backfill operations to protect the facilities. Backfill must be of a material equal to or better in both quality and quantity to the existing backfill.
3. Assume ownership of materials used to mark the facility, use reasonable efforts to maintain markings during excavation, and remove all tangible marking materials used to mark the underground facility and site area upon completion of the excavation.
4. Assume the cost of excavation to expose the facility unless otherwise indicated by owner of facility.
5. Conduct the excavation in a careful and prudent manner.
6. Properly manage spoil material to prevent shifting or falling material that could damage belowground facilities.

SECTION 6. AMENDMENT. Section 49-23-06 of the North Dakota Century Code is amended and reenacted as follows:

- b. The departmental budget submitted by the county social service board in 2016 for the 2017 budget may not exceed an amount determined using the 2015 departmental budget as a starting point and applying to that amount the percentage salary and benefits increase provided by legislative appropriations for state employees for 2016.

The director shall notify each service area of the amount of its formula payment for calendar year 2018 on or before August 15, 2017, and for calendar year 2019 on or before June 1, 2018.
2. The director shall distribute fifty percent of the amount of each service area's formula payment determined under subsection 1, within the limits of legislative appropriation, on or before January tenth.
3.
 - a. By June first of each year, the director shall recalculate the total formula payment for each service area pursuant to section 50-34-04 for the current calendar year based on each service area's most recently available case-month data.
 - b. If the recalculated formula payment results in an increase of five percent or less or a decrease of five percent or less as compared to the formula payment determined under subsection 1, the director shall distribute fifty percent of the amount of each service area's formula payment determined under subsection 1, within the limits of legislative appropriation, on or before June fifteenth.

The director shall distribute the remainder of each service area's formula payment as determined under this subdivision, within the limits of legislative appropriation, on or before June fifteenth.
 - d. If the recalculated formula payment results in a decrease of more than five percent as compared to the formula payment determined under subsection 1, the director shall calculate the remainder of each service area's formula payment by subtracting ninety-five percent of the amount determined under subsection 1 from the amount determined under subdivision a and add the resulting amount to the amount distributed under subsection 2. 50-34-04. Baseline funding amounts - Calculation of formula payment.

1. The director shall calculate each service area's base year case-month totals and direct gross expenditures. For purposes of this subsection, "eligible federally allowable indirect costs" means twenty-five percent of the average of the federally allowable indirect costs allocated to each service area in calendar years 2012, 2013, and 2014.
2. The director shall calculate each service area's base rate per economic assistance case-month by dividing the service area's economic assistance net expenditures by the economic assistance case-months reported for the service area in the base year. For purposes of this subsection, "economic assistance net expenditures" means the amount calculated by subtracting the amount paid to the service area in the base year for services reimbursed by medical assistance from the service area's economic assistance base year gross expenditures.

For purposes of this subsection, "social service net expenditures" means the amount calculated by subtracting the amount paid to the service area in the base year for services reimbursed by medical assistance from the service area's social service base year gross expenditures.
4. The director shall calculate the total formula payment by summing the following:
 - a. The product of the service area's rate per economic assistance case-month and the service area's most recently available economic assistance caseload data.
 - b. The product of the service area's rate per social service case-month and the service area's most recently available social service caseload data.

50-34-05. Service area human services fund - Establishment - Fund balance limitations.

Each service area in this state shall maintain a fund to be known as the service area human services fund. All expenditures by the service area for the relief of the needy must be paid from the service area human services fund. If, due to unforeseen or other extenuating circumstances, a service area's formula distribution payment is not sufficient to meet the expenses of that service area, the board of county commissioners may approve a transfer from the county's general fund to the service area human services fund upon a majority vote of all members. The balance of

moneys in the fund on January first of each year may not exceed five hundred thousand dollars for a service area that had annual expenditures of two million dollars or greater in calendar year 2015 or one hundred thousand dollars for a service area that had annual expenditures of less than two million dollars in calendar year 2015.

50-34-06. Service area human services fund - Transfer.

If on January 1, 2018, the balance of a service area human services fund exceeds the limitations in section 50-34-05, the county treasurer shall transfer the amount exceeding the limitations in section 50-34-05 to the designated county general fund within that service area. A county receiving a transfer shall reduce its county general fund mill levy for taxable year 2018 by an equivalent amount. If on January 1, 2019, the balance of a service area human services fund exceeds the limitations in section 50-34-05, the director shall reduce the service area's formula payment as directed in subsection 4 of section 50-34-03.

50-34-07. Authority to withhold funding.

Notwithstanding subsection 2 of section 50-01.2-06, if a service area fails to perform duties directed or assigned and supervised by the department of human services, the department of human services may withhold funding from the service area. The amount withheld may not exceed double the actual cost of the duty that was not performed, the per activity amount from the formula, the cost to the department of human services, or the amount of a federal penalty imposed as a result of the duty that was not performed.

50-34-08. Social services finance fund.

The social services finance fund is a special fund in the state treasury. Moneys in the fund may be used, subject to legislative appropriation, for the provision of formula payments to service areas pursuant to this chapter.

SENATE BILL NO. 2289

(Senators Armstrong, Cook, Klein)
(Representatives Howe, Vigesaa, Delmore)

AN ACT to amend and reenact sections 51-07-01.2, 51-07-02.2, and 51-26-06 of the North Dakota Century Code, relating to prohibited practices under farm equipment dealership contracts, dealership transfers, and reimbursement for warranty repair.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 51-07-01.2 of the North Dakota Century Code is amended and reenacted as follows:

51-07-01.2. Prohibited practices under farm equipment dealership contracts.

A

1. Notwithstanding the terms of any contract, a manufacturer, wholesaler, or distributor of farm implements, machinery, or repair parts who enters into a contract with any person engaged in the business of selling and retailing farm implements and repair parts for farm implements may not:
 - 1-a. ~~Require or attempt to require~~ Require or attempt to require a farm equipment dealer to accept delivery of farm equipment, parts, or accessories that the farm equipment dealer has not voluntarily ordered or require the farm equipment dealer to maintain or stock a level of equipment, parts, or accessories except as provided in subdivision b.
 - 2-b. Condition or attempt to condition the sale of farm equipment, parts, or accessories on a requirement that the farm equipment dealer also purchase other goods or services, or purchase a minimum quantity of farm equipment as a condition of filling an order for farm equipment, except that a farm equipment manufacturer may require the dealer to purchase all parts reasonably necessary to maintain the quality of operation in the field of any farm equipment used in the trade area and telecommunication necessary to communicate with the farm equipment manufacturer.
 - 3-c. ~~Require or attempt to require~~ Require or attempt to require a farm equipment dealer into a refusal to purchase farm equipment manufactured by another farm equipment manufacturer.
 - 4-d. Require a farm equipment dealer to separate the line-makes operating within the dealer's facility by requiring the separation of personnel, inventory, service areas, display space, or otherwise dictate the method, manner, number of units, or the location of farm equipment displays at the dealer's facility. This subdivision does not prevent a farm equipment dealer

- and manufacturer from agreeing to those terms if the agreement was supported by separate and valuable consideration. The issuance, reissuance, or extension of a dealership contract alone is not separate and valuable consideration.
- e. Require a farm equipment dealer to either establish or maintain exclusive facilities, personnel, or display space or to abandon an existing relationship with another manufacturer in order to continue, renew, reinstate, or enter a dealer agreement or to participate in any program discount, credit, rebate, or sales incentive. This subdivision does not prevent a farm equipment dealer and manufacturer from agreeing to establish or maintain exclusive facilities for separate and valuable consideration. The issuance, reissuance, or extension of a dealership contract alone is not separate and valuable consideration.
- f. Discriminate in the prices charged for farm equipment of ~~likesimilar~~ grade and quality sold by the farm equipment manufacturer to similarly situated farm equipment dealers. This ~~subsection~~subdivision does not prevent the use of differentials that make only due allowance for differences in the cost of manufacture, sale, or delivery or for the differing methods or quantities in which the farm equipment is sold or delivered by the farm equipment manufacturer. This ~~section~~subdivision does not diminish the manufacturer's, wholesaler's, or distributor's ability to provide volume discounts, bonuses, or special machine ordering programs commonly used in the industry.
- 5-g. Attempt or threaten to terminate, cancel, fail to renew, or substantially change the competitive circumstances of the dealership contract for any reason other than failure of the farm equipment dealer to substantially comply with the material terms of the written contract between the parties or if the attempt or threat is based on the results of a circumstance beyond the farm equipment dealer's control, including a sustained drought or other natural disaster in the dealership market area or a labor dispute. A substantial change in the competitive circumstances includes the removal of authorization to operate at a location from where the dealer is currently operating or the unreasonable removal of a product line or segment.
- h. Require a farm equipment dealer to unreasonably remodel, renovate, or recondition the dealer's facilities, change the location of the facilities, or make unreasonable alterations to the dealership premises. A request for a dealer to remodel, renovate, or recondition the dealer's facilities, change the location of the facilities, or make alterations to the dealership premises must be considered in light of current and reasonably foreseeable projections of economic conditions, financial expectations, and the dealer's market for the sale of farm equipment. A facility modification request is unreasonable if the request is within seven years of a farm equipment dealer's most recent facility remodel, renovation, or reconditioning.
- i. Unreasonably prevent or refuse to approve the relocation of a dealership to another site within the dealer's relevant market area. The dealer shall provide the manufacturer or distributor with notice of the proposed address and a reasonable site plan of the proposed location. The manufacturer or distributor shall approve or deny the request in writing within sixty days after receipt of the request. Failure to deny the request within sixty days is deemed an approval.

- j. Conduct a warranty or incentive audit or seek a chargeback on a warranty or incentive payment more than one year after the date of the warranty or incentive payment. A manufacturer may not charge back a dealer for an incentive or warranty payment unless the manufacturer can satisfy its burden of proof that the dealer's claim was false, fraudulent, or the dealer did not substantially comply with the reasonable written procedures of the manufacturer. The audit and chargeback provisions in this subdivision apply to all incentive and reimbursement programs that are subject to audit by a manufacturer. Before imposing a chargeback, a manufacturer shall identify each claim at issue and provide the dealer with written explanation for the proposed chargeback for each claim. The cumulative value of any chargeback, fees, penalties, or adverse action for an individual claim may not exceed the total direct compensation received by the dealer for the claim at issue. Thereafter, the manufacturer shall provide the dealer a reasonable time, no less than forty-five days, to present additional information regarding a claim at issue.
- k. Use an unreasonable, arbitrary, or unfair sales, service, or other performance standard in determining a farm equipment dealer's compliance with a contract or program. Before applying any sales, service, or other performance standard to a farm equipment dealer, a manufacturer shall communicate the performance standard in writing in a clear and concise manner, including a detailed explanation of the criteria, calculations, methodology, and data used to establish the standard.
- l. Require a farm equipment dealer in this state to enter an agreement with the manufacturer or any other party which requires:
 - (1) The law of another jurisdiction to apply to a dispute between the dealer and manufacturer;
 - (2) The dealer to bring an action against the manufacturer in a venue outside of this state;
 - (3) The dealer waive the right to have all of this state's statutory and common law apply;
 - (4) Reducing, modifying, or eliminating the dealer's right to resolve a dispute in a state or federal court in this state; or
 - (5) The dealer to agree to arbitration or waive their rights to bring a cause of action against the manufacturer, unless done in connection with a settlement agreement to resolve a matter between a manufacturer and the dealer. The settlement agreement must be entered voluntarily for separate and valuable consideration. Renewal, reinstatement, or continuation of a dealer agreement alone is not separate and valuable consideration.
- 2. As used in this section "farm equipment" and "farm implements" means all vehicular implements and attachment units, designed and used primarily for planting, cultivating, or harvesting farm products or used primarily in connection with the production of agricultural produce or products, livestock, or poultry on farms, and which are operated, drawn, or propelled by motor or animal power.

51-07-02.2. Dealership transfers.

1. A retailerdealer of automobiles or trucks, farm equipment, or parts for the automobiles or trucks, or farm equipment may not transfer, assign, or sell a franchisedealer agreement to another person unless the retailerdealer first provides written notice to the franchisormanufacturer or distributor of the intended action. Within sixty days of receiving the notice, the franchisormanufacturer or distributor must approve or deny the action. If the franchisormanufacturer or distributor denies the action, the franchisormanufacturer or distributor shall provide material reasons for the denial to the franchisedealer. If the franchisormanufacturer or distributor does not respond within the sixty-day period, the action is deemed approved. ~~The refusal~~
2. A denial by the franchisormanufacturer or distributor to accept a proposed transferee who meets the written, reasonable, and uniformly applied standards of qualifications of the franchisormanufacturer or distributor relating to the financial qualifications of the transferee and business experience of the transferee is presumed to be unreasonable. If an action is rejecteddenied by the franchisormanufacturer or distributor, the franchisedealer may file an action for determination of a violation of this sectionssubsection. The retailerdealer may elect to pursue either the retailerdealer's remedy under the contract or the remedy provided in this sectionssubsection. For a national guard security officer or firefighter, early retirement date is the first day of the month next following the month in which the national guard security officer or firefighter attains the age of fifty years and has completed at least three years of eligible employment. For a firefighter employed by a political subdivision or a peace officer or correctional officer employed by the bureau of criminal investigation or by a political subdivision, early retirement date is the first day of the month next following the month in which the peace officer, firefighter, or correctional officer attains the age of fifty years and has completed at least three years of eligible employment.
- h. Disability retirement date is the first day of the month after a member becomes permanently and totally disabled, according to medical evidence called for under the rules of the board, and has completed at least one hundred eighty days of eligible employment. For supreme and district court judges, permanent and total disability is based solely on a judge's inability to perform judicial duties arising out of physical or mental impairment, as determined pursuant to rules adopted by the board or as provided by subdivision a of subsection 3 of section 27-23-03. A member is eligible to receive disability retirement benefits only if the member:
- (1) ~~Became~~ became disabled during the period of eligible employment; and
 - (2) ~~Applies~~ applies for disability retirement benefits within twelve months of the date the member terminates employment.

A member is eligible to continue to receive disability benefits as long as the permanent and total disability continues and the member submits the necessary documentation and undergoes medical testing required by the board, or for as long as the member participates in a rehabilitation program required by the board, or both. If the board determines that a member no longer meets the eligibility definition, the board may discontinue the disability retirement benefit. The board may pay the cost of any medical testing or rehabilitation services it deems necessary and these payments are appropriated from the retirement fund for those purposes.

4. The board shall calculate retirement benefits as follows:
 - a. Normal retirement benefits for all retirees, except supreme and district court judges, reaching normal retirement date equal an annual amount, payable monthly, comprised of a service benefit and a prior service benefit, as defined in this chapter, which is determined as follows:
 - (1) Service benefit equals two percent of final average salary multiplied by the number of years of service employment.
 - (2) Prior service benefit equals two percent of final average salary multiplied by the number of years of prior service employment.
 - b. Normal retirement benefits for all supreme and district court judges under the public employees retirement system reaching normal retirement date equal an annual amount, payable monthly, comprised of a benefit as defined in this chapter, determined as follows:
 - (1) Benefits must be calculated from the time of appointment or election to the bench and must equal three and one-half percent of final average salary multiplied by the first ten years of judicial service, two and eighty hundredths percent of final average salary multiplied by the second ten years of judicial service, and one and one-fourth percent of final average salary multiplied by the number of years of judicial service exceeding twenty years.
 - (2) Service benefits must include, in addition, an amount equal to the percent specified in subdivision a of final average salary multiplied by the number of years of nonjudicial employee service and employment.
 - c. Postponed retirement benefits are calculated as for single life benefits for those members who retired on or after July 1, 1977.
 - d. Early retirement benefits are calculated as for single life benefits accrued to the date of termination of employment, but must be actuarially reduced to account for benefit payments beginning ~~prior to~~before the normal retirement date, which is the earlier of age sixty-five or the age at which current service plus age equals eighty-five. Except for a national guard security officer or firefighter, a firefighter employed by a political subdivision, a peace officer or correctional officer employed by the bureau of criminal investigation or by a political subdivision, or a supreme court or district court judge, early retirement benefits for members first enrolled after December 31, 2015, are calculated for single life benefits accrued to the date of termination of employment, but must be reduced by fixed rate of eight percent per year to account for benefit payments beginning before the normal retirement date. A retiree, other than a supreme or district court judge, is eligible for early retirement benefits only after having completed three years of eligible employment. A supreme or district court judge retiree is eligible for early retirement benefits only after having completed five years of eligible employment.
 - e. Except for supreme and district court judges, disability retirement benefits are twenty-five percent of the member's final average salary. Disability retirement benefits for supreme and district court judges are seventy percent of final average salary reduced by the member's primary social

security benefits and by any workforce safety and insurance benefits paid.
The minimum monthly disability retirement benefit under this section is one hundred dollars.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 57-38-01.26 of the North Dakota Century Code is amended and reenacted as follows:

57-38-01.26. (Effective for investments made before July 1, 2017) Angel fund investment tax credit.

1. A taxpayer is entitled to a credit against state income tax liability under section 57-38-30 or 57-38-30.3 for an investment made prior to July 1, 2017, in an angel fund that is a domestic organization ~~created~~organized before July 1, 2017, under the laws of this state. The amount of the credit to which a taxpayer is entitled is forty-five percent of the amount remitted by the taxpayer to an angel fund during the taxable year. The aggregate annual credit for which a taxpayer may obtain a tax credit is not more than forty-five thousand dollars. The aggregate lifetime credits under this section that may be obtained by an individual, married couple, passthrough entity and its affiliates, or other taxpayer is five hundred thousand dollars. The investment used to calculate the credit under this section may not be used to calculate any other income tax deduction or credit allowed by law.
2. To be eligible for the credit, the investment must be at risk in the angel fund for at least three years. An investment made in a qualified business from the assets of a retirement plan is deemed to be the retirement plan participant's investment for the purpose of this section if a separate account is maintained for the plan participant and the participant directly controls where the account assets are invested. Investments placed in escrow do not qualify for the credit. The credit must be claimed in the taxable year in which the investment in the angel fund was received by the angel fund. The credit allowed may not exceed the liability for tax under this chapter. If the amount of credit determined under this section exceeds the liability for tax under this chapter, the excess may be carried forward to each of the seven succeeding taxable years. A taxpayer claiming a credit under this section may not claim any credit available to the taxpayer as a result of an investment made by the angel fund in a qualified business under chapter 57-38.5 or 57-38.6.
3. An angel fund must:
 - a. Be a partnership, limited partnership, corporation, limited liability company, limited liability partnership, limited liability limited partnership, trust, or estate organized on a for-profit basis which is headquartered in this state.

- b. Be organized for the purpose of investing in a portfolio of at least three primary sector companies that are early-stage and mid-stage private, nonpublicly traded enterprises with strong growth potential. For purposes of this section, an early-stage entity means an entity with annual revenues of up to two million dollars and a mid-stage entity means an entity with annual revenues over two million dollars not to exceed ten million dollars. Investments in real estate or real estate holding companies are not eligible investments by certified angel funds. Any angel fund certified before January 1, 2013, which has invested in real estate or a real estate holding company is not eligible for recertification.
 - c. Consist of at least six accredited investors as defined by securities and exchange commission regulation D, rule 501.
 - d. Not have more than twenty-five percent of its capitalized investment assets owned by an individual investor.
 - e. Have at least five hundred thousand dollars in commitments from accredited investors and that capital must be subject to call to be invested over an unspecified number of years to build a portfolio of investments in enterprises.
 - f. Be member-managed or a manager-managed limited liability company and the investor members or a designated board that includes investor members must make decisions as a group on which enterprises are worthy of investments.
 - g. Be certified as an angel fund that meets the requirements of this section by the department of commerce.
 - h. Be in compliance with the securities laws of this state.
 - i. Within thirty days after the date on which an investment in an angel fund is made, the angel fund shall file with the tax commissioner and provide to the investor completed forms prescribed by the tax commissioner which show as to each investment in the angel fund the following:
 - (1) The name, address, and social security number or federal employer identification number of the taxpayer or passthrough entity that made the investment;
 - (2) The dollar amount remitted by the taxpayer or passthrough entity; and
 - (3) The date the payment was received by the angel fund for the investment.
 - j. Within thirty days after the end of a calendar year, the angel fund shall file with the tax commissioner a report showing the name and principal place of business of each enterprise in which the angel fund has an investment and the amount of the investment.
4. The tax commissioner may disclose to the legislative management the reported information described under paragraphs 2 and 3 of subdivision i of subsection 3 and the reported information described under subdivision j of subsection 3.

5. Angel fund investors may be actively involved in the enterprises in which the angel fund invests but the angel fund may not invest in any enterprise if any one angel fund investor owns directly or indirectly more than forty-nine percent of the ownership interests in the enterprise. The angel fund may not invest in an enterprise if any one partner, shareholder, or member of a passthrough entity that directly or indirectly owns more than forty-nine percent of the ownership interests in the enterprise.
6. Investors in one angel fund may not receive more than five million dollars in aggregate credits under this section during the life of the angel fund but this provision may not be interpreted to limit additional investments in that angel fund.
7.
 - a. A passthrough entity entitled to the credit under this section must be considered to be the taxpayer for purposes of this section, and the amount of the credit allowed must be determined at the passthrough entity level.
 - b. ~~For the first two taxable years beginning after December 31, 2010, if a passthrough entity does not elect to sell, transfer, or assign the credit as provided under this subsection and subsection 8, the amount of the total credit determined at the entity level must be passed through to the partners, shareholders, or members in proportion to their respective interests in the passthrough entity.~~
 - c. ~~For the first two taxable years beginning after December 31, 2010, if a passthrough entity elects to sell, transfer, or assign a credit as provided under this subsection and subsection 8, the passthrough entity shall make an irrevocable election to sell, transfer, or assign the credit on the return filed by the entity for the taxable year in which the credit was earned. A passthrough entity that makes a valid election to sell, transfer, or assign a credit shall sell one hundred percent of the credit earned, may sell the credit to only one purchaser, and shall comply with the requirements of this subsection and subsection 8.~~
8. ~~For the first two taxable years beginning after December 31, 2010, a taxpayer may elect to sell, transfer, or assign all of the earned or excess tax credit earned under this section for investment in an angel fund established after July 31, 2011, subject to the following:~~
 - a. ~~A taxpayer's total credit sale, transfer, or assignment under this section may not exceed one hundred thousand dollars over any combination of taxable years. The cumulative credits transferred by all investors in an angel fund may not exceed fifty percent of the aggregate credits under this section during the life of the angel fund under subsection 6.~~
 - b. ~~If the taxpayer elects to sell, assign, or transfer a credit under this subsection, the tax credit transferor and the tax credit purchaser jointly shall file with the tax commissioner a copy of the purchase agreement and a statement containing the names, addresses, and taxpayer identification numbers of the parties to the transfer, the amount of the credit being transferred, the gross proceeds received by the transferor, and the taxable year or years for which the credit may be claimed. The taxpayer and the purchaser also shall file a document allowing the tax commissioner to disclose tax information to either party for the purpose of verifying the correctness of the transferred tax credit. The purchase agreement,~~

supporting statement, and waiver must be filed within thirty days after the date the purchase agreement is fully executed.

- e. ~~The purchaser of the tax credit shall claim the credit beginning with the taxable year in which the credit purchase agreement was fully executed by the parties. A purchaser of a tax credit under this section has only such rights to claim and use the credit under the terms that would have applied to the tax credit transferor. This subsection does not limit the ability of the tax credit purchaser to reduce the tax liability of the purchaser, regardless of the actual tax liability of the tax credit transferor.~~
- d. ~~A sale, assignment, or transfer of a tax credit under this section is irrevocable and the purchaser of the tax credit may not sell, assign, or otherwise transfer the credit.~~
- e. ~~If the amount of the credit available under this section is changed as a result of an amended return filed by the transferor, or as the result of an audit conducted by the internal revenue service or the tax commissioner, the transferor shall report to the purchaser the adjusted credit amount within thirty days of the amended return or within thirty days of the final determination made by the internal revenue service or the tax commissioner. The tax credit purchaser shall file amended returns reporting the additional tax due or claiming a refund as provided in section 57-38-38 or 57-38-40, and the tax commissioner may audit these returns and assess or issue refunds, even though other time periods prescribed in these sections may have expired for the purchaser.~~
- f. ~~Gross proceeds received by the tax credit transferor must be assigned to North Dakota. The amount assigned under this subsection cannot be reduced by the taxpayer's income apportioned to North Dakota or any North Dakota net operating loss of the taxpayer.~~
- g. ~~The tax commissioner has four years after the date of the credit assignment to audit the returns of the credit transferor and the purchaser to verify the correctness of the amount of the transferred credit and if necessary assess the credit purchaser if additional tax is found due. This subdivision does not limit or restrict any other time period prescribed in this chapter for the assessment of tax.~~
- h. ~~The tax commissioner may adopt rules to establish necessary administrative provisions for the credit under this section, including provisions to permit verification of the validity and timeliness of the transferred tax credit.~~

The taxpayer and the purchaser also shall file a document allowing the tax commissioner to disclose tax information to either party for the purpose of verifying the correctness of the transferred tax credit. The purchase agreement, supporting statement, and waiver must be filed within thirty days after the date the purchase agreement is fully executed.
- c. The purchaser of the tax credit shall claim the credit beginning with the taxable year in which the credit purchase agreement was fully executed by the parties. A purchaser of a tax credit under this section has only such rights to claim and use the credit under the terms that would have applied to the tax credit transferor. This subsection does not limit the ability of the tax credit purchaser to reduce the tax liability of the purchaser, regardless of the actual tax liability of the tax credit transferor.
- d. A sale, assignment, or transfer of a tax credit under this section is irrevocable and the purchaser of the tax credit may not sell, assign, or otherwise transfer the credit.
- e. If the amount of the credit available under this section is changed as a result of an amended return filed by the transferor, or as the result of an audit conducted by the internal revenue service or the tax commissioner, the transferor shall report to the purchaser the adjusted credit amount within thirty days of the amended return or within thirty days of the final determination made by the internal revenue service or the tax

- ~~commissioner. The tax credit purchaser shall file amended returns reporting the additional tax due or claiming a refund as provided in section 57-38-38 or 57-38-40, and the tax commissioner may audit these returns and assess or issue refunds, even though other time periods prescribed in these sections may have expired for the purchaser.~~
- ~~f. Gross proceeds received by the tax credit transferor must be assigned to North Dakota. The amount assigned under this subsection cannot be reduced by the taxpayer's income apportioned to North Dakota or any North Dakota net operating loss of the taxpayer.~~
 - ~~g. The tax commissioner has four years after the date of the credit assignment to audit the returns of the credit transferor and the purchaser to verify the correctness of the amount of the transferred credit and if necessary assess the credit purchaser if additional tax is found due. This subdivision does not limit or restrict any other time period prescribed in this chapter for the assessment of tax.~~
 - ~~h. The tax commissioner may adopt rules to establish necessary administrative provisions for the credit under this section, including provisions to permit verification of the validity and timeliness of the transferred tax credit.~~
1. For investments made after June 30, 2017, an angel investor is entitled to a credit against the income tax liability under section 57-38-30.3 for investments made by a certified angel fund into an in-state qualified business or an out-of-state qualified business. The credit is equal to thirty-five percent of the amount invested by the angel fund on behalf of the angel investor in an in-state qualified business during the taxable year and twenty-five percent of the amount invested by the angel fund on behalf of the angel investor in an out-of-state qualified business during the taxable year.
 - a. The aggregate amount of credits allowed to an angel investor in a taxable year is limited to forty-five thousand dollars.  - b. The credit must be claimed in the taxable year in which the investment is made in an in-state qualified business or an out-of-state qualified business. The credit allowed may not exceed the liability for tax under this chapter. If the amount of the credit determined under this section exceeds the liability for tax under this chapter, the excess may be carried forward to each of the five succeeding taxable years.

- f. A passthrough entity entitled to the credit under this section must be considered to be the taxpayer for purposes of calculating the credit. The amount of the allowable credit must be determined at the passthrough entity level. A taxing district that fails to provide the information required under this subsection on or before August tenth may not impose a property tax levy in a greater amount of dollars than was imposed by the taxing district in the prior year.
2. By August thirty-first of each year the county treasurer shall provide a written notice to the owner of each parcel of taxable property with a total estimated property tax of at least one hundred dollars. The text of the notice must contain:
 - a. The date, time, and location of the public budget hearing for each of the taxing districts in which the property owner's parcel is located, which anticipate levying in excess of one hundred thousand dollars in the current year, and the location at which the taxing district's budget is available for review;
 - b. The true and full value of the property based on the best information available;
 - c. A column showing the actual property tax levy in dollars against the parcel by the taxing district that levied taxes against the parcel in the immediately preceding taxable year and a column showing the estimated property tax levy in dollars against the parcel by the taxing district levying tax in the taxable year for which the notice applies based on the preliminary budget statements of all taxing jurisdictions;

4. The tax commissioner shall prescribe suitable forms for written notices under this section.

5. The direct cost of providing taxpayer notices under this section may be allocated in a manner proportionate to the number of notices mailed on behalf of each taxing district that intends to levy in excess of one hundred thousand dollars in property taxes in the current year.

Taxes for school district purposes must be based upon an itemized budget statement which must show the complete expenditure program of the district for the current fiscal year and the sources of the revenue from which it is to be financed. The school board of each public school district, in levying taxes, is limited by the amount necessary to be raised for the purpose of meeting the appropriations included in the school budget of the current fiscal year, and the sum necessary to be provided as an interim fund, together with a tax sufficient in amount to pay the interest on the bonded debt of the district and to provide a sinking fund to pay and discharge the principal thereof at maturity.

2. A fiduciary's power relating to the administration or management of assets, including the power of a fiduciary to sell, lease, or mortgage property, and the power of a fiduciary to determine principal and income.
3. A power to appoint a fiduciary.
4. A discretionary power of a trustee to distribute principal before termination of a trust to a beneficiary having an indefeasibly vested interest in the income and principal.

SECTION 2. AMENDMENT. Section 59-04.2-03 of the North Dakota Century Code is amended and reenacted as follows:

59-04.2-03. (104) Trustee's power to adjust.

1. A trustee may adjust between principal and income to the extent the trustee considers necessary if the trustee invests and manages trust assets as a prudent investor, the terms of the trust describe the amount that may or must be distributed to a beneficiary by referring to the trust's income, and the trustee determines, after applying the rules in subsection 1 of section 59-04.2-02 that the trustee is unable to comply with subsection 1 of section 59-04.2-02.
 - a. The discretionary power of a trustee to adjust under this section may not be interpreted to include an obligation to evaluate a trust for possible adjustment between principal and income.
 - b. A trustee's inaction is presumed to be a good faith determination not to exercise the power to adjust.
2. In deciding whether and to what extent to exercise the power conferred by subsection 1, a trustee may consider all factors relevant to the trust and its beneficiaries, including the following factors to the extent relevant:
 - a. The nature, purpose, size, and expected duration of the trust;
 - b. The intent of the settlor;
 - c. The identity and circumstances of the beneficiaries;
 - d. The needs for liquidity, regularity of income, and preservation and appreciation of capital;
 - e. The assets held in the trust, the extent to which they consist of financial assets, interests in closely held enterprises, tangible and intangible personal property, or real property; the extent to which an asset is used by a beneficiary; and whether an asset was purchased by the trustee or received from the settlor;

- f. The net amount allocated to income under the other sections of this chapter and the increase or decrease in the value of the principal assets, which the trustee may estimate as to assets for which market values are not readily available;
 - g. Whether and to what extent the terms of the trust give the trustee the power to invade principal or accumulate income or prohibit the trustee from invading principal or accumulating income, and the extent to which the trustee has exercised a power from time to time to invade principal or accumulate income;
 - h. The actual and anticipated effect of economic conditions on principal and income and effects of inflation and deflation; and
 - i. The anticipated tax consequences of an adjustment.
3. A trustee may not make an adjustment:
- a. That diminishes the income interest in a trust that requires all of the income to be paid at least annually to a spouse and for which an estate tax or gift tax marital deduction would be allowed, in whole or in part, if the trustee did not have the power to make the adjustment;
 - b. That reduces the actuarial value of the income interest in a trust to which a person transfers property with the intent to qualify for a gift tax exclusion;
 - c. That changes the amount payable to a beneficiary as a fixed annuity or a fixed fraction of the value of the trust assets;
 - d. From an amount that is permanently set aside for charitable purposes under a will or the terms of a trust unless both income and principal are so set aside;
 - e. If possessing or exercising the power to make an adjustment causes an individual to be treated as the owner of all or part of the trust for income tax purposes, and the individual would not be treated as the owner if the trustee did not possess the power to make an adjustment;
 - f. If possessing or exercising the power to make an adjustment causes all or part of the trust assets to be included for estate tax purposes in the estate of an individual who has the power to remove a trustee or appoint a trustee, or both, and the assets would not be included in the estate of the individual if the trustee did not possess the power to make an adjustment;
 - g. If the trustee is a beneficiary of the trust; or
 - h. If the trustee is not a beneficiary, but the adjustment would benefit the trustee directly or indirectly.
4. If subdivisions e, f, g, or h of subsection 3 apply to a trustee and there is more than one trustee, a cotrustee to whom the provision does not apply may make the adjustment unless the exercise of the power by the remaining trustee or trustees is not permitted by the terms of the trust.

5. A trustee may release the entire power conferred by subsection 1 or may release only the power to adjust from income to principal or the power to adjust from principal to income if the trustee is uncertain about whether possessing or exercising the power will cause a result described in subdivision a through f, or h of subsection 3 or if the trustee determines that possessing or exercising the power will or may deprive the trust of a tax benefit or impose a tax burden not described in subsection 3. The release may be permanent or for a specified period, including a period measured by the life of an individual.
6. Terms of a trust that limit the power of a trustee to make an adjustment between principal and income do not affect the application of this section unless it is clear from the terms of the trust that the terms are intended to deny the trustee the power of adjustment conferred by subsection 1.

SECTION 3. Section 59-04.2-03.1 of the North Dakota Century Code is created and enacted as follows:

59-04.2-03.1. Judicial control of discretionary power.

1. The court may not order a fiduciary to change a decision to exercise or not to exercise a discretionary power conferred by this chapter unless the court determines that the decision was not made in good faith or was an abuse of the fiduciary's discretion. A fiduciary's decision is not an abuse of discretion merely because the court would have exercised the power in a different manner or would not have exercised the power.
2. The decisions to which subsection 1 applies include:
 - a. A decision under subsection 1 of section 59-04.2-03 as to whether and to what extent an amount should be transferred from principal to income or from income to principal.
 - b. A decision regarding the factors that are relevant to the trust and its beneficiaries, the extent to which the factors are relevant, and the weight, if any, to be given to those factors, in deciding whether and to what extent to exercise the discretionary power conferred by subsection 1 of section 59-04.2-03.
3. If the court determines a fiduciary has abused the fiduciary's discretion, the court may place the income and remainder beneficiaries in the positions they would have occupied if the discretion had not been abused, according to the following rules:
 - a. To the extent the abuse of discretion has resulted in no distribution to a beneficiary or in a distribution that is too small, the court shall order the fiduciary to distribute from the trust to the beneficiary an amount that the court determines will restore the beneficiary, in whole or in part, to the beneficiary's appropriate position.
 - b. To the extent the abuse of discretion has resulted in a distribution to a beneficiary which is too large, the court shall place the beneficiaries, the trust, or both, in whole or in part, in their appropriate positions by ordering the fiduciary to withhold an amount from one or more future distributions to the beneficiary who received the distribution that was too large or ordering that beneficiary to return some or all of the distribution to the trust.

- c. To the extent the court is unable, after applying subdivisions a and b to place the beneficiaries, the trust, or both, in the positions they would have occupied if the discretion had not been abused, the court may order the fiduciary to pay an appropriate amount from its own funds to one or more of the beneficiaries or the trust or both.
4. Upon petition by the fiduciary, the court having jurisdiction over a trust or estate shall determine whether a proposed exercise or nonexercise by the fiduciary of a discretionary power conferred by this chapter will result in an abuse of the fiduciary's discretion. If the petition describes the proposed exercise or nonexercise of the power and contains sufficient information to inform the beneficiaries of the reasons for the proposal, the facts upon which the fiduciary relies, and an explanation of how the income and remainder beneficiaries will be affected by the proposed exercise or nonexercise of the power, then a beneficiary who challenges the proposed exercise or nonexercise has the burden of establishing that it will result in an abuse of discretion.

SECTION 4. Section 59-09-04.1 of the North Dakota Century Code is created and enacted as follows:

59-09-04.1. Settlor's capacity.

The capacity required of a settlor is the same as that required to make a will and is required to create, amend, revoke, or add property to a trust, to direct the actions of the trustee where permitted, and to exercise powers and rights, if any, reserved or granted to the settlor under the terms of the trust or applicable law.

SECTION 5. Chapter 59-10.1 of the North Dakota Century Code is created and enacted as follows:

59-10.1-01. Declaratory judgment.

A person seeking to challenge the validity of a trust instrument or amendment may institute a proceeding under this chapter for a declaratory judgment of invalidity.

59-10.1-02. Parties - Process.

A settlor who is not a plaintiff, a beneficiary named in the trust, and a settlor's present intestate successors must be included as parties to the proceeding. For the purposes of this chapter, a beneficiary named in the trust and the settlor's present intestate successors are deemed to possess inchoate property rights. Service of process upon the parties to the proceeding must be made in accordance with rule 4 of the North Dakota Rules of Civil Procedure.

59-10.1-03. Limitation of action.

A proceeding under this chapter may not be commenced later than the earliest of the following:

1. One hundred twenty days after the date the trustee notified the individual contesting the trust of the trust's existence or amendment. The notice must include the trustee's name and address and a copy of the trust instrument with amendments, if any, and must inform the recipient of the time allowed under this section for initiating a proceeding to contest the trust. A trustee may not have any liability under the governing instrument, to a third party, for failure to provide a notice under this subsection. Service of this notice is presumed to

have been received upon delivery of the notice to the last known address of the individual to whom the notice is addressed:

2. Three years after the settlor's death;
3. If the trust was revocable immediately before the settlor's death and the trust was specifically referred to in the settlor's last will, then the time in which a petition for review of a will could be filed under state law; or
4. The date an individual's right to contest was precluded by adjudication, consent, or other limitation.

59-10.1-04. Findings.

If the court finds the settlor has executed the trust instrument and had the requisite capacity, the court shall declare the trust to be valid. An adjudication that a trust is valid is binding on the parties. If the court finds a trust or amendment to be invalid, the challenged trust or amendment is ineffective as of a date and to the extent determined by the court.

59-10.1-05. Distributions by trustee - Return of distribution determined to be invalid.

1. The trustee may proceed to distribute the trust property in accordance with the terms of the trust. This distribution may be made without liability unless the trustee has actual knowledge of a pending proceeding to contest the validity of the trust, or is notified by a potential contestant of a possible contest, followed by service of process upon the trustee for that proceeding within thirty days of the notification of a possible contest.

SECTION 8. Chapter 59-16.1 of the North Dakota Century Code is created and enacted as follows:

59-16.1-01. Consistency with power of attorney provisions.

The provisions of this chapter relating to power of attorney are subject to other provisions of law.

59-16.1-02. Definitions.

For purposes of this chapter, unless the context otherwise requires:

1. "Appointed trust" means an irrevocable trust which receives principal from an invaded trust under this chapter, including a trust created by the settlor of the invaded trust, under the terms of the invaded trust or any other trust instrument, or by the trustees, acting in that capacity, of the invaded trust. For purposes of creating another trust, a requirement that a trust instrument be signed by the settlor is deemed satisfied by the signature of the trustee of the appointed trust.
2. "Authorized trustee" means, as to an invaded trust, a trustee with authority to pay trust principal to or for one or more current beneficiaries other than a trustee who is the settlor, or a beneficiary to whom income or principal must be paid currently or in the future, or who is or will become eligible to receive a distribution of income or principal in the discretion of the trustee, other than by the exercise of a power of appointment held in a nonfiduciary capacity.
3. "Current beneficiary" or "beneficiaries" means individual, or as to a class, an individual who is or will become members of that class, to whom the trustees may distribute principal at the time of the exercise of the power, provided that the interest of a beneficiary to whom income, but not principal, may be distributed at the discretion of the trustee of the invaded trust, may be continued in the appointed trust.
4. "Invade" means the power to pay directly to the beneficiary of a trust or make application for the benefit of the beneficiary.
5. "Invaded trust" means an existing irrevocable inter vivos or testamentary trust whose principal is appointed under this chapter.
6. "Person or persons interested in the invaded trust" means all qualified beneficiaries as defined in subsection 16 of section 59-09-06.
7. "Principal" includes the income of the trust at the time of the exercise of the power which is not currently required to be distributed, including accrued and accumulated income.

8. "Unlimited discretion" means the unlimited power to distribute principal. A power to distribute principal which includes words, such as best interests, welfare, comfort, or happiness may not be considered a limitation of the power to distribute principal.

59-16.1-03. Power of appointment.

An exercise of a power of appointment is not void if the exercise is:

1. More extensive than was authorized, but is valid to the extent authorized by the instrument creating its power; or
2. Less extensive than authorized by the instrument creating the power, unless the donor has manifested a contrary intention.

59-16.1-04. Authorized trustee with unlimited discretion.

1. An authorized trustee with unlimited discretion to invade trust principal may appoint part or all of the principal to a trustee of an appointed trust for, and only for the benefit of, one, more than one, or all of the current beneficiaries of the invaded trust, to the exclusion of any one or more of the current beneficiaries. The successor and remainder beneficiaries of the appointed trust may be none, one, more than one, or all of the successor and remainder beneficiaries of the invaded trust.
2. An authorized trustee exercising the power under subsection 1 of section 59-16.1-04 may grant a discretionary power of appointment in the appointed trust to one or more of the current beneficiaries of the invaded trust, provided that the beneficiary granted a power to appoint may receive principal outright under the terms of the invaded trust.
3. If the authorized trustee grants a power of appointment, the class of permissible appointees in favor of whom the beneficiary may exercise the power of appointment granted in the appointed trust may be broader or otherwise different from the current, successor, and remainder beneficiaries of the invaded trust.
4. If the beneficiary or beneficiaries of the invaded trust are described by a class, the beneficiary or beneficiaries of the appointed trust may include present or future members of the class.

59-16.1-05. Authorized trustee without unlimited discretion.

1. An authorized trustee with the power to invade trust principal but without unlimited discretion may appoint part or all of the principal of the trust to a trustee of an appointed trust, provided that the current beneficiaries of the appointed trust must be the same as the current beneficiaries of the invaded trust and the successor and remainder beneficiaries must be the same as the successor and remainder beneficiaries of the invaded trust.
2. If the authorized trustee exercises the power under this section, the appointed trust must include the same language authorizing the trustee to distribute the income or invade the principal of the appointed trust as in the invaded trust.
3. If the authorized trustee exercises the power under this section to extend the term of the appointed trust beyond the term of the invaded trust, then for any

period after the invaded trust would have otherwise terminated under the provisions of the invaded trust, then the appointed trust, in addition to the language required to be included in the appointed trust pursuant to subsection 2 of section 59-16.1-05, also may include language providing the trustee with unlimited discretion to invade the principal of the appointed trust during this extended term.

4. If the beneficiary or beneficiaries of the invaded trust are described by a class, the beneficiary or beneficiaries of the appointed trust shall include present or future members of the class.
5. If the authorized trustee exercises the power under this section and if the invaded trust grants a power of appointment to a beneficiary of the trust, the appointed trust shall grant the power of appointment in the appointed trust and the class of permissible appointees must be the same as in the invaded trust.

59-16.1-06. Special power of appointment.

An exercise of the power to invade trust principal under this chapter is considered to be the exercise of a special power of appointment.

59-16.1-07. Term of appointed trust.

The appointed trust to which an authorized trustee appoints the assets of the invaded trust may have a term that is longer than the term set forth in the invaded trust, including, a term measured by the lifetime of a current beneficiary.

59-16.1-08. Unlimited discretion governs.

If an authorized trustee has unlimited discretion to invade the principal of a trust, and the same trustee or another trustee has the power to invade principal under the trust instrument and the power is not subject to unlimited discretion, then the authorized trustee having unlimited discretion may exercise the power of appointment under section 59-16.1-04.

59-16.1-09. Current need to invade principal.

An authorized trustee may exercise the power to appoint in favor of an appointed trust under sections 59-6.1-04 and 59-16.1-05 whether or not there is a current need to invade principal under the terms of the invaded trust.

59-16.1-10. Fiduciary duty.

An authorized trustee exercising the power under this chapter has a fiduciary duty to exercise the power in the best interests of one or more proper objects of the exercise of the power and as a prudent person would exercise the power under the prevailing circumstances.

59-16.1-11. Subsequently discovered assets.

Unless the authorized trustee provides otherwise:

1. The appointment of all the assets comprising the principal of the invaded trust to an appointed trust must include subsequently discovered assets of the invaded trust and undistributed principal of the invaded trust acquired after the appointment to the appointed trust; and

2. The appointment of part but not all of the assets comprising the principal of the invaded trust to an appointed trust may not include subsequently discovered assets belonging to the invaded trust and principal paid to or acquired by the invaded trust after the appointment to the appointed trust. These assets must remain the assets of the invaded trust.

59-16.1-12. Requirements for exercise of power to appoint - Notice.

1. The exercise of the power to appoint to an appointed trust under sections 59-16.1-04 and 59-16.1-05 must be evidenced by a written instrument that is signed, dated, and acknowledged by the authorized trustee. The exercise of the power is effective sixty days after the date of delivery of notice as specified in subsection 3, unless each individual entitled to notice agrees in writing to an earlier effective date or waives in writing the right to object to the exercise of the power.
2. An authorized trustee may exercise the power authorized by under sections 59-16.1-04 and 59-16.1-05 without the consent of the settlor or the person interested in the invaded trust and without court approval, provided that the authorized trustee may seek court approval for the exercise with notice to all persons interested in the invaded trust.
3. A copy of the instrument exercising the power, a copy of the appointed trust, and a copy of the invaded trust must be delivered to:
 - a. A person having the right, pursuant to the terms of the invaded trust, to remove or replace the authorized trustee exercising the power under sections 59-16.1-04 and 59-16.1-05; and
 - b. A person interested in the invaded trust.
4. Notice of an exercise of the power must be given in the same manner as provided in section 59-09-09.
5. The instrument exercising the power shall state whether the appointment is of all the assets comprising the principal of the invaded trust or only a part of the assets comprising the principal of the invaded trust and, if a part, the approximate percentage of the value of the principal of the invaded trust that is subject to the appointment.
6. An individual entitled to notice may object to the authorized trustee's exercise of the power under this section by serving a written notice of objection upon the authorized trustee prior to the effective date of the exercise of the power. The failure to object does not constitute consent.
7. If the authorized trustee does not receive a written objection to the proposed exercise from an individual entitled to notice within the applicable period, the authorized trustee is not liable to a person who received or was deemed to have received the required notice in that person's personal, representative, or represented capacities for the exercise of the power.
8. If the authorized trustee receives a written objection within the applicable period, either the authorized trustee or an individual entitled to notice may petition the court to have the proposed exercise of a power performed as proposed, performed with modifications, or denied. In a proceeding, an

individual objecting to the proposed exercise has the burden of proof as to whether the authorized trustee's proposed exercise should not be performed.

- a. A person who has not objected is not estopped from opposing the proposed exercise in the proceeding.
 - b. If the authorized trustee decides not to implement the proposed exercise, the trustee shall notify all persons entitled to notice of the decision not to exercise the power and the reason for the decision, and the authorized trustee's decision not to implement the proposed exercise does not give rise to liability to an individual interested in the invaded trust.
 - c. A person entitled to notice may petition the court to have the exercise of a power performed and has the burden of proof as to whether it should be performed.
9. A copy of the instrument exercising the power and a copy of each of the invaded trust and the appointed trust must be filed with records of the appointed trust and the invaded trust.

59-16.1-13. Rights of trustee.

This section does not abridge the right of a trustee to appoint property in further trust that arises under the terms of the governing instrument of a trust or under any other provision of law or under common law, or as directed by a court having jurisdiction over the trust.

59-16.1-14. No duty to exercise a power to invade.

This chapter does not create a duty to exercise a power to invade principal and inference of impropriety may not be made as a result of an authorized trustee not exercising the power conferred under sections 59-16.1-04 and 59-16.1-05.

59-16.1-15. Power clarified.

A power authorized under sections 59-16.1-04 and 59-16.1-05 may be exercised subject to the provisions of section 59-16.1-10, unless expressly prohibited by the terms of the governing instrument or by the provisions of section 59-16.1-10, but a general prohibition of the amendment or revocation of the invaded trust or a provision that constituting a spendthrift clause does not preclude the exercise of a power under sections 59-16.1-04 and 59-16.1-05.

59-16.1-16. Prohibitions.

An authorized trustee may exercise a power authorized by this chapter to appoint a trust that is a supplemental needs trust that conforms to chapter 59-08. However, an authorized trustee may not exercise a power authorized by this chapter to effect the following:

 4. To make a binding and conclusive fixation of the value of an asset for purposes of distribution, allocation, or otherwise;
 5. To extend the term of the appointed trust beyond a permissible period of the rule against perpetuities of the invaded trust, and an exercise of the power that extends the term of the appointed trust beyond the permissible period of the rule against perpetuities of the invaded trust voids the entire exercise of the power; or
 6. To jeopardize:
 - a. The deduction or exclusion originally claimed with respect to a contribution to the invaded trust that qualified for the annual exclusion under section 2503(b) of the Internal Revenue Code; the marital deduction under section 2056(a) or 2523(a) of the Internal Revenue Code; or the charitable deduction under section 170(a), 642(c), 2055(a), or 2522(a) of the Internal Revenue Code.

1. An authorized trustee may not exercise a power authorized under sections 59-16.1-04 and 59-16.1-05 to change the provisions regarding the determination of the compensation of a trustee. Each directing party must keep the excluded fiduciary and any other directing party reasonably informed regarding the administration of the trust with respect to any specific duty or function being performed by the directing party to the extent the duty or function would normally be performed by the excluded fiduciary or to the extent providing the information to the excluded fiduciary or other directing party is reasonably necessary for the excluded fiduciary or other directing party to perform its duties. The directing party shall provide the information reasonably requested by the excluded fiduciary or other directing party.

These administrative actions may not be deemed to constitute an undertaking by the excluded fiduciary to monitor, participate, or otherwise take a fiduciary responsibility for actions within the scope of authority of the directing party.
 7. An excluded fiduciary may obtain and act upon an opinion of counsel on a matter relevant to this section.

"Interested distributee" means a person to whom distributions of income or principal can currently be made who has the power to remove the existing trustee and designate as successor a person who may be a related or subordinate party, as defined in section 672(c) of the Internal Revenue Code, with respect to such distributee.
4. "Interested trustee" means:
 - a. Any individual trustee to whom the net income or principal of the trust can currently be distributed or would be distributed if the trust were then to terminate and be distributed; and
 - b. An individual trustee whose legal obligation to support a beneficiary may be satisfied by distributions of income and principal of the trust.

5. "Total return unitrust" means an income trust that has been converted under and meets the provisions of this chapter.
6. "Trustee" means all persons acting as trustee of the trust, except where expressly noted otherwise, whether acting in their discretion, or on the direction of one or more persons acting in a fiduciary capacity.
7. "Settlor" means an individual who created an inter vivos or a testamentary trust.
8. "Unitrust" means a trust, the terms of which require or permit distribution of a unitrust amount, without regard to whether the trust has been converted to a unitrust in accordance with this chapter, or whether the trust is established by express terms of the governing instrument.
9. "Unitrust amount" means an amount equal to a percentage of a unitrust's assets that may, or are required, to be distributed to one or more beneficiaries annually in accordance with the terms of the unitrust. The unitrust amount may be determined by reference to the net fair market value of the unitrust's assets as of a particular date each year, or as an average determined on a multiple year basis.
10. "Current valuation year" means the accounting period of the trust for which the unitrust amount is being determined.
11. "Prior valuation year" means each of the two accounting periods of the trust immediately preceding the current valuation year.

59-16.3-02. Trustee's authority to convert income trust - Conditions.

A trustee, other than an interested trustee, or if two or more persons are acting as trustee, a majority of the trustees who are not an interested trustee, and without the approval of a court, may convert an income trust to a total return unitrust, reconvert a total return unitrust to an income trust, or change the percentage used to calculate the unitrust amount and the method used to determine the fair market value of the trust if:

1. The trustee adopts a written policy for the trust providing:
 - a. In the case of a trust being administered as an income trust, that future distributions from the trust will be unitrust amounts rather than net income;
 - b. In the case of a trust being administered as a total return unitrust, that future distributions from the trust will be net income rather than unitrust amounts; or
 - c. That the percentage used to calculate the unitrust amount or the method used to determine the fair market value of the trust will be changed as stated in the policy.
2. The trustee sends written notice of its intention to take that action, along with copies of the written policy and this chapter, to:
 - a. The settlor if living;
 - b. All living individuals who are currently receiving, or eligible to receive, distributions of income of the trust;

59-16.3-03. Interested trustee's authority over actions enumerated in chapter 59-16.3.

If there is not a trustee of the trust other than an interested trustee, the interested trustee, or if two or more persons are acting as trustee and are interested trustees, a majority of those interested trustees, without the approval of a court, may take such action as provided in so long as the trustee appoints a disinterested person who, in its sole discretion, but acting in a fiduciary capacity, determines for the trustee:

1. The percentage to be used to calculate the unitrust amount;
2. The method to be used in determining the fair market value of the trust;
3. Which assets, if any, are to be excluded in determining the unitrust amount; and
4. Complies with subsections 1 through 4 of section 59-16.3-02.

59-16.3-04. Trustee may petition court - Appointment of disinterested person.

If a trustee desires to convert an income trust to a total return unitrust, reconvert a total return unitrust to an income trust, or change the percentage used to calculate the unitrust amount and the method used to determine the fair market value of the trust, but does not have the ability to, or elects not to do it under sections 59-16.3-02 and 59-16.3-03, or if the trustee receives a written objection within the applicable period, the trustee may petition the court for such order as the trustee deems appropriate. If there is only one trustee of such trust and the trustee is an interested trustee, or if there are two or more trustees of such trust and a majority of them are interested trustees, the court, or on the petition of the trustee or trustees, or any person interested in the trust, may appoint a disinterested person who, acting in a fiduciary capacity, shall present the information to the court as is necessary to enable the court to make its determination.

59-16.3-05. Annual valuation of trust required.

The fair market value of the trust must be determined at least annually, using the valuation date, or dates, or averages of valuation dates as are deemed appropriate. Assets for which a fair market value cannot be readily ascertained must be valued using valuation methods that are deemed reasonable and appropriate. If all income received with respect to the assets is distributed to the extent distributable in accordance with the terms of the governing instrument, assets may be excluded from valuation.

59-16.3-06. Calculation of unitrust amount.

The unitrust amount is determined as follows:

1. For the first three accounting periods of the trust, the unitrust amount for a current valuation year of the trust may not be less than three percent, or more than five percent, by the election of the trustee, the disinterested person, or the court, of the net fair market value of the assets held in the trust on the valuation date of the current valuation year;
2. Beginning with the fourth accounting period of the trust, the unitrust amount for a current valuation year of the trust may not be less than three percent, or more than five percent, by the election of the trustee, the disinterested person,

or the court, of the average of the net fair market value of the assets held in the trust on the valuation date of the current valuation year and the net fair market value of the assets held in the trust on the valuation date of each prior valuation year:

3. The percentage that may be elected by the trustee, the disinterested person, or the court in determining the unitrust amount must be a reasonable current return from the trust, taking into account the intentions of the settlor as expressed in the governing instrument. However, the election by the trustee, the disinterested person, or the court in determining the unitrust amount may not be less than three percent, or more than five percent;
4. The unitrust amount for the current valuation year must be proportionately reduced for any distribution, in whole or in part, other than distributions of the unitrust amount, and for any payments of expenses, including debts, disbursements, and taxes, from the trust within a current valuation year which the trustee determines to be material and substantial, and must be proportionately increased for the receipt, other than a receipt that represents a return on investment, of any additional property into the trust within a current valuation year;
5. In the case of a short accounting period, the trustee shall prorate the unitrust amount on a daily basis;
6. If the net fair market value of an asset held in the trust has been incorrectly determined either in a current valuation year or in a prior valuation year, the unitrust amount must be increased in the case of an undervaluation, or be decreased in the case of an overvaluation, by an amount equal to the difference between the unitrust amount determined based on the correct valuation of the asset and the unitrust amount originally determined;
7. In determining the net fair market value of the assets held in trust, the determination may not include the value of residential property or tangible personal property that, as of the first business day of the current valuation year, one or more income beneficiaries of the trust have or had the right to occupy, or have or had the right to possess or control, other than in a capacity as trustee, and instead the right of occupancy or the right of possession or control must be deemed to be the unitrust amount with respect to the residential property or the tangible personal property; or any asset to be distributed outright to a beneficiary during the valuation period under the terms of the trust and the return on investment on that asset, which return on investment must be distributed to the beneficiary.

59-16.3-07. Unitrust amount as net income.

Following the conversion of an income trust to a total return unitrust, the trustee:

1. Shall treat the unitrust amount as net income of the trust for purposes of determining the amount available, from time to time, for distributions from the trust;
2. May allocate to trust income for each taxable year of the trust:
 - a. Net short-term capital gain described in section 1222(5) of the Internal Revenue Code for that year, but only to the extent the amounts so

allocated together with all other amounts allocate to trust income for that year does not exceed the unitrust amount for that year; and

- b. Net long-term capital gain described in section 1222(7) of the Internal Revenue Code for that year, but only to the extent the amount so allocated together with all other amounts, including amounts described in subdivision a, allocated to trust income for that year does not exceed the unitrust amount for that year.

59-16.3-08. Administration of total return unitrust authority - Authority of trustee.

The trustee, in administering a total return unitrust, may determine:

1. The effective date of the conversion;
2. The timing of distributions;
3. Whether distributions are to be made in cash, in kind, or partly in cash and partly in kind;
4. Which assets are to be excluded in determining the unitrust amount;
5. If the trust is reconverted to an income trust, the effective date of the reconversion; and
6. Any other administrative issues as may be necessary or appropriate to carry out the purposes of this chapter.

59-16.3-09. Distributions of principal not affected by conversion.

Conversion to a total return unitrust under this chapter does not affect any other provisions of the governing instrument, if any, regarding distributions of principal.

59-16.3-10. Spouse may compel reconversion to income trust for certain trusts - Written instrument required.

In the case of a trust for which a marital deduction has been taken for federal tax purpose under sections 2056 and 2523 of the Internal Revenue Code, the spouse otherwise entitled to receive the net income of the trust, by written instrument delivered to the trustee, may compel the reconversion during the spouse's lifetime of the trust from a total return unitrust to an income trust, notwithstanding contrary provisions in this chapter.

59-16.3-11. Applicability of chapter.

This chapter must be construed as pertaining to the administration of a trust and must be available to a trust that is administered in the state under state law unless:

1. The governing instrument reflects an intention that the current beneficiary or beneficiaries are to receive an amount other than a reasonable current return from the trust;
2. One or more persons to whom the trustee could distribute income have a power of withdrawal over the trust which is not subject to an ascertainable standard under sections 2041 and 2514 of the Internal Revenue Code, or which can be exercised to discharge a duty of support the person possesses; or

3. The governing instrument expressly prohibits use of this chapter by specific reference to the chapter. A provision in the governing instrument that "the provisions of this chapter, or any corresponding provision of future law, may not be used in the administration of this trust" are sufficient to preclude use of this chapter.

59-16.3-12. Trustee acting in good faith not liable - Remedy.

A trustee or disinterested person who in good faith takes or fails to take any action under this chapter is not liable to any person affected by that action or inaction, regardless of whether the person received written notice as provided in this chapter and regardless of whether the person was under a legal disability at the time of the delivery of the notice. The person's exclusive remedy is to obtain an order of the court directing the trustee to convert an income trust to a total return unitrust, to reconvert from a total return unitrust to an income trust, or to change the percentage used to calculate the unitrust amount.

59-16.3-13. No duty to act created.

This chapter does not create a duty to take action under this chapter, and a trustee is not liable for not considering whether to take action or for choosing not to take action.

59-16.3-14. Chapter not applicable to charitable remainder unitrust.

This chapter does not apply to a charitable remainder unitrust as defined by section 664(d) of the Internal Revenue Code.

SECTION 11. REPEAL. Sections 59-14-01, 59-14-04, and 59-16-08 of the North Dakota Century Code are repealed.

SECTION 12. RETROACTIVE APPLICATION. Section 8 of this Act is retroactive in application to all trusts governed by the laws of this state, including a trust whose governing law has been changed to the laws of this state.

1.
 - a. Installation of an artificial subsurface drainage subsurface water management system comprising eighty acres [32.37 hectares] of land area or more requires a permit. The watershed area drained by a subsurface water management system may not be used to determine whether the system requires a permit under this section.
 - b. Subsurface water management systems that use surface intakes must be permitted exclusively under this section if the system will have a drainage coefficient of three-eighths of an inch [0.95 centimeters] or less. Subsurface water management systems that use surface intakes must be permitted exclusively under section 61-32-03 if the system will have a drainage coefficient exceeding three-eighths of an inch [0.95 centimeters].
 - c. Installation of a subsurface water management system comprising less than eighty acres [32.37 hectares] of land area does not require a permit.
2.
 - a. The state engineer shall develop an application form for a permit for subsurface drainage of water required under this section. Water resource districts may attach any necessary conditions to an approved permit, but may not deny an application unless the water resource district determines the application is of statewide significance or the proposed drainage will flood or adversely affect lands of downstream landowners within one mile [1.61 kilometers] of the proposed subsurface drainage. The water resource district board may charge permit applicants a fee up to one hundred fifty dollars. Water resource districts must shall forward copies of all approved permits to the state engineer. Water resource districts shall determine if the application proposes drainage of statewide significance. If an investigation by a water resource district or a downstream landowner within one mile [1.61 kilometers] shows that the proposed drainage will flood or adversely affect lands of downstream landowners within one mile [1.61 kilometers], the water resource district may require flowage easements before issuing a permit. If an artificial subsurface drainage system drains into an assessment drain, natural watercourse, or pond, slough, or lake, a flowage easement is not required. Flowage easements must be filed for record in the office of the recorder of the county or counties in which the lands are situated. A person that installs an artificial subsurface drainage system without first securing a permit to do so, as provided in this section, is liable for all damage sustained by a person caused by the draining, and is guilty of an infraction.
 - b. Upon submission of a completed application for a permit, the water resource district board immediately shall give notice and a copy of the submission via certified mail to each owner of land within one mile [1.61 kilometers] downstream of the proposed subsurface water management

system outlet unless the distance to the nearest assessment drain, natural watercourse, slough, or lake is less than one mile [1.61 kilometers], in which case notice and a copy of the submission must be given immediately to each owner of land between the outlet and the nearest assessment drain, natural watercourse, slough, or lake. The notice requirement in this section must be waived if the applicant presents signed, notarized letters of approval from all downstream landowners entitled to notice in this subsection.

3. a. If the water resource board receives notarized letters of approval from all downstream landowners entitled to notice, the board shall approve the completed permit application as soon as practicable but no later than thirty days after receipt of the last letter. Otherwise, the water resource board shall review the completed application at its next meeting that is at least thirty days after receipt of the application. The board shall consider any written, technical evidence provided by the applicant or a landowner notified under subsection 2 addressing whether the land of a notified landowner will be flooded or unreasonably harmed by the proposed subsurface water management system. For purposes of this section "technical evidence" means written information regarding the proposed subsurface water management system, prepared after consideration of the design and physical aspects of the proposed system, and any adverse hydraulic effects, including erosion, flood duration, crop loss, and downstream water control device operation impacts, which may occur to land owned by a landowner provided under subsection 2. Technical evidence must be submitted to the permit applicant, notified landowners, and the board within thirty days of the receipt of the completed permit application by the board. A notified landowner may not object to the proposed system unless the landowner presents technical evidence under this subsection.

A water resource district may attach reasonable conditions to an approved permit for a subsurface water management system that outlets directly into a legal assessment drain or public highway right of way. For purposes of this subsection, "reasonable conditions" means conditions that address the outlet location, proper erosion control, reseeding of disturbed areas, installation of riprap or other ditch stabilization, and conditions that require all work to be done in a neat and professional manner. Any condition to locate the project a minimum distance from rural water supply lines may not extend beyond an existing easement for lines, or no greater than twenty feet [6.1 meters] from either side of the water line if the rural water line was installed under a blanket easement.
- d. A water resource district may require a subsurface water management system granted a permit under this section to incorporate a control

- structure at the outlet into the design of the system and may require the control structure be closed during critical flood periods.
- e. A water resource district board may not deny a completed permit application under this section unless the board determines, based on technical evidence submitted by a landowner notified under subsection 2, the proposed water management system will flood or unreasonably harm land of a notified landowner, and a notarized letter of approval required by the board has not been obtained by the applicant. For purposes of this section, "unreasonable harm" is limited to hydraulic impacts, including erosion or other adverse impacts that degrade the physical integrity of a roadway or real property within one mile [1.61 kilometers] downstream of the system's outlet. The board shall include a written explanation of the reasons for a denial of a completed application and notify, by certified mail, the applicant and all landowners notified under subsection 2 of the approval or denial.

SECTION 1. AMENDMENT. Subsection 2 of section 61-16.1-09 of the North Dakota Century Code is amended and reenacted as follows:

2. Exercise the power of eminent domain ~~in the manner provided by~~ as follows:
 - a. Except as permitted under subdivision b, the board shall comply with title 32 for the purpose of acquiring and securing by eminent domain any rights, titles, interests, estates, or easements necessary or proper to carry out the duties imposed by this chapter, and particularly to acquire the necessary rights in land for the construction of dams, flood control projects, and other water conservation, distribution, and supply works of any nature and to permit the flooding of lands, and to secure the right of access to such dams and other devices and the right of public access to any waters impounded thereby. Provided, however, that when
 - b. (1) If the interest sought to be acquired is an easement for a right of way for any project authorized in this chapter for which federal or state funds have been appropriated made available, the district, after making a written offer to purchase the right of way and depositing may acquire the right of way by quick take eminent domain as authorized by section 16 of article I of the Constitution of North Dakota, after the district attempts to purchase the easement for the right of way by:
 - (a) Conducting informal negotiations for not less than sixty days.
 - (b) If informal negotiations fail, the district shall engage in formal negotiations by:
 - [1] Sending the landowner an appraisal and written offer for just compensation, which includes a specific description of the exact location of the right of way, by certified mail or commercial delivery requiring a signed receipt, and receiving the signed receipt or documentation of constructive notice.
 - [2] Sending the landowner a written request for a meeting by certified mail or commercial delivery requiring a signed receipt if there is no agreement regarding compensation or no response to the written offer within fifteen days of receipt, and receiving the signed receipt or documentation of constructive notice.

- [3] Sending the landowner a written notice, by certified mail or commercial delivery requiring a signed receipt, of intent to take possession of the right of way if there is no agreement regarding compensation or no response to the written request for a meeting within thirty days of receipt, and receiving the signed receipt or documentation of constructive notice.
- (2) Any written communication to the landowner must include contact information for responding to the board and a description of the required negotiation timeline.
- (3) A district may not include or utilize any reference to quick take eminent domain during negotiations to acquire the necessary easement for a right of way. If formal negotiation efforts fail, the district shall request approval from the board of county commissioners of the county in which the right of way is located to take possession of the right of way by quick take eminent domain. After receiving the request, the county commissioners shall hold a public meeting and give the landowner thirty days' notice of the meeting to allow the landowner to attend. After receiving verification from the district that there has been no reference or threat of quick take eminent domain by the district during negotiations, the commissioners shall vote on whether to approve the taking of the easement for a right of way using quick take eminent domain. If the county commissioners approve the use of quick take eminent domain by a majority vote, the district may take immediate possession of the right of way, but not a blanket easement, if the district files an affidavit by the chairman of the water resource board which states the district has fulfilled the required negotiation steps and deposits the amount of the written offer with the clerk of the district court of the county wherein which the right of way is located, may thereupon take immediate possession of the right of way, as authorized by section 16 of article I of the Constitution of North Dakota.
- (4) Within thirty days after notice has been given in writing to the landowner by the clerk of the district court that a deposit has been made for the taking of a right of way as authorized in this subsection, the owner of the property taken may appeal to the district court by serving a notice of appeal upon the acquiring agency, and the matter must be tried at the next regular or special term of court with a jury unless a jury be waived, in the manner prescribed for trials under chapter 32-15.
- (5) If ownership of a right of way has not terminated, ownership of a right of way acquired under this subdivision terminates automatically when the district no longer needs the right of way for the purpose for which it was acquired.

(Senators Burckhard, Luick, Osland)

AN ACT to amend and reenact sections 61-16.1-22, 61-16.1-23, and 61-16.1-26 of the North Dakota Century Code, relating to notice, appeals, and refunds of special assessments.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 61-16.1-22 of the North Dakota Century Code is amended and reenacted as follows:

61-16.1-22. Assessment list to be published - Notice of hearing - Alteration of assessments - Confirmation of assessment list - Filing.

After entering an order establishing the project, the water resource board shall cause the assessment list to be published once each week for ~~two~~three successive weeks in the newspaper or newspapers of general circulation in the district and in the official county newspaper of each county in which the benefited lands are located together with a notice of the time when, and place where, the board will meet to hear objections to any assessment by any interested party, or an agent or attorney for that party. The board also shall mail a copy of the notice of the hearing in an envelope clearly marked "ASSESSMENT NOTICE" to each affected landowner at the landowner's address as shown by the tax rolls of the county or counties in which the affected property is located. The date set for the hearing may not be less than ~~twenty~~thirty days after the mailing of the notice. At the hearing, the board may make such alterations in the assessments as in its opinion may be just and necessary to correct any error in the assessment but must make the aggregate of all assessments equal to the total amount required to pay the entire cost of the work for which the assessments are made, or the part of the cost to be paid by special assessment. An assessment may not exceed the benefit as determined by the board to the parcel of land or political subdivision assessed. The board shall then confirm the assessment list and the secretary shall attach to the list a certificate that the same is correct as confirmed by the board and shall file the list in the office of the secretary.

SECTION 2. AMENDMENT. Section 61-16.1-23 of the North Dakota Century Code is amended and reenacted as follows:

61-16.1-23. Appeal to state engineer.

After the hearing provided for in section 61-16.1-22, affected landowners and any political subdivision subject to assessment, having not less than ~~twenty-five~~twenty percent of the possible votes, as determined by section 61-16.1-20, who believe that the assessment had not been fairly or equitably made, or that the project is not properly located or designed, may appeal to the state engineer by petition, within ten days after the hearing on assessments, to make a review of the assessments and to examine the location and design of the proposed project. Upon receipt of such petition the state engineer shall examine the lands assessed and the location and design of the proposed project, and if it appears that the assessments have not been

made equitably, the state engineer may proceed to correct the same, and the state engineer's correction and adjustment of said assessment is final. Should it appear that, in the judgment of the state engineer, the project has been improperly located or designed, the state engineer may order a relocation and redesign. Such relocation and redesign must be followed in the construction of the proposed project. Upon filing a bond for two hundred fifty dollars with the board for the payment of the costs of the state engineer in the matter, any landowner or political subdivision who or which claims that the landowner or political subdivision will receive no benefit at all from the construction of a new project may appeal to the state engineer within ten days after the hearing on assessments, the question of whether there is any benefit. The state engineer may not determine the specific amount of benefit upon an appeal by an individual landowner or political subdivision, but shall only determine if there is any benefit to the landowner or political subdivision, and the determination of the state engineer upon such question is final.

SECTION 3. AMENDMENT. Section 61-16.1-26 of the North Dakota Century Code is amended and reenacted as follows:

61-16.1-26. Reassessment of benefits.

The water resource board may hold at any time or, upon petition of any affected landowner or political subdivision which has been assessed after a project has been in existence for at least one year, shall hold a hearing for the purpose of determining the benefits of such project to each tract of land affected. ~~At least ten days' notice~~ Notice of the hearing must be given by publication once each week for three consecutive weeks, beginning at least thirty days before the hearing, in the newspaper or newspapers having general circulation in the district and in the official county newspaper of each county in which the benefited lands are located and by mailing notice thereof ~~by ordinary mail of the hearing in an envelope clearly marked "ASSESSMENT NOTICE"~~ to each owner of land whose assessment is proposed to be raised as determined by the records of the recorder or county treasurer in the assessed district at the landowner's address as shown by the tax rolls of the counties in which the affected property is located. The provisions of this chapter governing the original determination of benefits and assessment of costs apply to any reassessment of benefits carried out under this section. The board may not be forced to make such reassessment more than once every ten years, nor may any assessment or balance thereof supporting a project fund be reduced or impaired by reassessment or otherwise so long as bonds payable out of such fund remain unpaid and moneys are not available in such fund to pay all such bonds in full, with interest. Costs of maintenance must be prorated in accordance with any plan for reassessment of benefits that has been adopted.

The board may appoint a hearing officer or a committee of the board to conduct the hearing. benefited lands are located. The date set for the hearing may not be fewer than fourteen days after the first publication of the notice. A record of the hearing must be made by the board, including a list of affected landowners present in person or by agent, and the record must be preserved in the minutes of the meeting. Affected landowners to be assessed must be informed at the hearing of the probable total cost of the project and their individual share of the cost and the portion of their property, if any, to be condemned for the project.

2. A public hearing is not required if the board:
 - a. Provides written notice to each affected landowner setting forth the probable total cost of the project, the landowner's share of the project cost, the portion of the landowner's property, if any, to be condemned for the project, and when and where votes concerning the proposed project may be filed. If the written notice is given to each affected landowner, the assessment list for the proposed project need not be filed with the county auditor of each county in which the project is located; and
 - b. Publishes notice of the project in newspapers of general circulation in the area in which the affected landowners reside and in the official county newspaper of each county in which the benefited lands are located at least twenty-one days before the deadline for filing votes on the project.

Once the deadline for filing votes has been reached, no more votes may be filed and no person may withdraw a vote. Any withdrawal of a vote concerning the proposed project before that time must be in writing. When the votes have been filed and the deadline for filing votes has passed, the board shall immediately determine whether the project is approved. If the board finds that one hundred percent of the total votes filed are for the proposed project, then the vote constitutes an affirmation of the project and the board shall issue an order establishing the proposed project and may proceed, after complying with the requirements of sections 61-24.8-17 and 61-24.8-18, to contract or provide for the construction or maintenance of the project in substantially the manner and according to the forms and procedure provided in section 61-24.8-41. The board may enter any agreement with any federal or state agency under the terms of which the contract for the project is to be let by the federal agency, the state agency, or a combination thereof. In projects where there is an agreement that a party other than the board will let the contract, the board may dispense with all of the requirements of section 61-24.8-41. Upon making an order establishing or denying establishment of a project, the board shall publish notice of the order in a newspaper of general circulation in the area in which the affected landowners reside and in the official county newspaper of each county in which the benefited lands are located. No publication is required if the board provides written notice of the order establishing or denying establishment of a project to each affected landowner. Any right of appeal begins to run on the date of publication or mailing of the notice.

SECTION 6. AMENDMENT. Section 61-24.8-16 of the North Dakota Century Code is amended and reenacted as follows:

61-24.8-16. Assessment of cost of project.

When the board proposes to make any special assessment under this chapter, the board or its agent, before the hearing or the mailing of written notice required under section 61-24.8-13, shall inspect any and all lots and parcels of land that may be subject to assessment and shall determine from the inspection the particular lots and parcels of lands which, in the opinion of the board, will be directly benefited by the construction of the work for which the assessment is made and shall assess the proportion of the total cost of acquiring right of way and constructing and maintaining such improvement in accordance with direct benefits received but not exceeding such benefits against any lot, piece, or parcel of land that is directly benefited by the improvement. Property belonging to the United States is exempt from assessment unless the United States has provided for the payment of any assessment that may be levied against its property for benefits received. There must be attached to the list of assessments a certificate signed by the chairman and certified by the secretary that it is a true and correct assessment of the benefit described to the best of their judgment and stating the several items of expense included in the assessment.

SECTION 7. AMENDMENT. Section 61-24.8-17 of the North Dakota Century Code is amended and reenacted as follows:

61-24.8-17. Assessment list to be published - Notice of hearing - Alteration of assessments - Confirmation of assessment list - Filing.

After entering an order establishing the project, the board shall cause the assessment list to be published once each week for two successive weeks in the official county newspaper of each county in which the benefited lands are located and in local newspapers of general circulation in the area of the affected lands. The publication must include a notice of the time and place the board will meet to hear objections to any assessment by any interested party or an agent or attorney for that party. Publication of the assessment list is not required if the board mails the assessment list and the time and place of the hearing to each affected landowner. The date set for the hearing must be not less than fourteen days after the mailing or first publication of the notice. At the hearing, the board may make such alterations in the assessments as in its opinion may be just and necessary to correct any error in the assessment but must make the aggregate of all assessments equal to the total amount required to pay the entire cost of the work for which the assessments are made or the part of the cost to be paid by special assessment. An assessment may not exceed the benefit as determined by the board to the parcel of land assessed. The hearing is not required if the board receives written consent from each affected landowner to the levy of assessments. The board then shall confirm the assessment list and the secretary shall attach to the list a certificate that it is correct as confirmed by the board. The list must be filed in the office of the district secretary.

SENATE BILL NO. 2134

(Senators Armstrong, Bekkedahl, Unruh)
(Representatives Bosch, Longmuir, Porter)

AN ACT to create and enact chapter 61-33.1 of the North Dakota Century Code, relating to the ownership of mineral rights of land inundated by Pick-Sloan Missouri basin project dams; to provide appropriations; to provide a contingent line of credit; to provide for retroactive application; and to declare an emergency.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Chapter 61-33.1 of the North Dakota Century Code is created and enacted as follows:

61-33.1-01. Definitions.

For purposes of this chapter, unless the context otherwise requires:

1. "Corps survey" means the last known survey conducted by the army corps of engineers in connection with the corps' determination of the amount of land acquired by the corps for the impoundment of Lake Sakakawea and Lake Oahe, as supplemented by the supplemental plats created by the branch of cadastral survey of the United States bureau of land management.
2. "Historical Missouri riverbed channel" means the Missouri riverbed channel as it existed upon the closure of the Pick-Sloan Missouri basin project dams, and extends from the Garrison Dam to the southern border of sections 33 and 34, township 153 north, range 102 west which is the approximate location of river mile marker 1,565, and from the South Dakota border to river mile marker 1,303.
3. "Segment" means the individual segment maps contained within the corps survey final project maps for the Pick-Sloan project dams.
4. "State phase two survey" means the "Ordinary High Water Mark Survey Task Order #2 Final Technical Report" commissioned by the board of university and school lands.

61-33.1-02. Mineral ownership of land inundated by Pick-Sloan Missouri basin project dams.

The state sovereign land mineral ownership of the riverbed segments inundated by Pick-Sloan Missouri basin project dams extends only to the historical Missouri riverbed channel up to the ordinary high water mark. The state holds no claim or title to any minerals above the ordinary high water mark of the historical Missouri riverbed channel inundated by Pick-Sloan Missouri basin project dams, except for original grant lands acquired by the state under federal law and any minerals acquired by the state through purchase, foreclosure, or other written conveyance. Mineral ownership of the riverbed segments inundated by Pick-Sloan Missouri basin project dams which are located within the exterior boundaries of the Fort Berthold reservation and

Standing Rock Indian reservation is controlled by other law and is excepted from this section.

61-33.1-03. Determination of the ordinary high water mark of the historical Missouri riverbed channel.

1. The corps survey must be considered the presumptive determination of the ordinary high water mark of the historical Missouri riverbed channel, subject only to the review process under this section and judicial review as provided in this chapter.
2. Upon the effective date of this Act, the department of mineral resources shall commence procurement to select a qualified engineering and surveying firm to conduct a review of the corps survey under this section. The review must be limited to the corps survey segments from the northern boundary of the Fort Berthold Indian reservation to the southern border of sections 33 and 34, township 153 north, range 102 west. Within ninety days of the first date of publication of the invitation, the department shall select and approve a firm for the review. The department may not select or approve a firm that has a conflict of interest in the outcome of the review, including any firm that has participated in a survey of the Missouri riverbed for the state or a state agency, or participated as a party or expert witness in any litigation regarding an assertion by the state of mineral ownership of the Missouri riverbed.
3. The selected and approved firm shall review the delineation of the ordinary high water mark of the corps survey segments. The review must determine whether clear and convincing evidence establishes that a portion of the corps survey does not reasonably reflect the ordinary high water mark of the historical Missouri riverbed channel under state law. The following parameters, historical data, materials, and applicable state laws must be considered in the review:
 - a. Aerial photography of the historical Missouri riverbed channel existing before the closure date of the Pick-Sloan project dams;
 - b. The historical records of the army corps of engineers pertaining to the corps survey;
 - c. Army corps of engineers and United States geological survey elevation and Missouri River flow data;
 - d. State case law regarding the identification of the point at which the presence of action of the water is so continuous as to destroy the value of the land for agricultural purposes, including hay lands. Land where the high and continuous presence of water has destroyed its value for agricultural purposes, including hay land, generally must be considered within the ordinary high water mark. The value for agricultural purposes is destroyed at the level where significant, major, and substantial terrestrial vegetation ends or ceases to grow. Lands having agricultural value capable of growing crops or hay, but not merely intermittent grazing or location of cattle, generally must be considered above the ordinary high water mark; and
 - e. Subsection 3 of section 61-33-01 and section 47-06-05, which provide all accretions are presumed to be above the ordinary high water mark and are not sovereign lands. Accreted lands may be determined to be within

the ordinary high water mark of the historical Missouri riverbed channel based on clear and convincing evidence. Areas of low-lying and flat lands where the ordinary high water mark may be impracticable to determine due to inconclusive aerial photography or inconclusive vegetation analysis must be presumed to be above the ordinary high water mark and owned by the riparian landowner.

4. The firm shall complete the review within six months of entering a contract with the department of mineral resources. The department may extend the time required to complete the review if the department deems an extension necessary.
5. Upon completion of the review, the firm shall provide its findings to the department. The findings must address each segment of the corps survey the firm reviewed and must include a recommendation to either maintain or adjust, modify, or correct the corps survey as the delineation of the ordinary high water mark for each segment. The firm may recommend an adjustment, modification, or correction to a segment of the corps survey only if clear and convincing evidence establishes the corps survey for that segment does not reasonably reflect the ordinary high water mark of the historical Missouri riverbed channel under state law.
6. The department shall publish notice of the review findings and a public hearing to be held on the findings. The public must have sixty days after publication of the notice to submit comments to the department. At the end of the sixty days, the department shall hold the public hearing on the review.
7. After the public hearing, the department, in consultation with the firm, shall consider all public comments, develop a final recommendation on each of the review findings, and deliver the final recommendations to the industrial commission, which may adopt or modify the recommendations. The industrial commission may modify a recommendation from the department only if it finds clear and convincing evidence from the resources in subsection 3 that the recommendation is substantially inaccurate. The industrial commission's action on each finding will determine the delineation of the ordinary high water mark for the segment of the river addressed by the finding.

61-33.1-04. Implementation.

1. Within six months after the adoption of the final review findings by the industrial commission:
 - a. Any royalty proceeds held by operators attributable to oil and gas mineral tracts lying entirely above the ordinary high water mark of the historical Missouri riverbed channel on both the corps survey and the state phase two survey must be released to the owners of the tracts, absent a showing of other defects affecting mineral title; and
 - b. Any royalty proceeds held by the board of university and school lands attributable to oil and gas mineral tracts lying entirely above the ordinary high water mark of the historical Missouri riverbed channel on both the corps survey and the state phase two survey must be released to the relevant operators to distribute to the owners of the tracts, absent a showing of other defects affecting mineral title.
2. Upon adoption of the final review findings by the industrial commission:

- a. The board of university and school lands shall begin to implement any acreage adjustments, lease bonus and royalty refunds, and payment demands as may be necessary relating to state-issued oil and gas leases. The board shall complete the adjustments, refunds, and payment demands within two years after the date of adoption of the final review findings.
- b. Operators of oil and gas wells affected by the final review findings immediately shall begin to implement any acreage and revenue adjustments relating to state-owned and privately owned oil and gas interests. The operators shall complete the adjustments within two years after the date of adoption of the review findings. Any applicable penalties, liability, or interest for late payment of royalties or revenues from an affected oil or gas well may not begin to accrue until the end of the two-year deadline. The filing of an action under section 61-33.1-05 tolls the deadline for any oil and gas well directly affected by the action challenging the review finding.

61-33.1-05. Actions challenging review findings.

An interested party seeking to bring an action challenging the review findings or recommendations or the industrial commission actions under this chapter shall commence an action in district court within two years of the date of adoption of the final review findings by the industrial commission. The plaintiff bringing an action under this section may challenge only the final review finding for the section or sections of land in which the plaintiff asserts an interest. The state and all owners of record of fee or leasehold estates or interests affected by the finding, recommendation, or industrial commission action challenged in the action under this section must be joined as parties to the action. A plaintiff or defendant claiming a boundary of the ordinary high water mark of the historical Missouri riverbed channel which varies from the boundary determined under this chapter bears the burden of establishing the variance by clear and convincing evidence based on evidence of the type required to be considered by the engineering and surveying firm under subsection 3 of section 61-33.1-03. Notwithstanding any other provision of law, an action brought in district court under this section is the sole remedy for challenging the final review, recommendations, and determination of the ordinary high water mark under this chapter, and preempts any right to rehearing, reconsideration, administrative appeal, or other form of civil action provided under law.

61-33.1-06. Public domain lands.

Notwithstanding any provision of this chapter to the contrary, the ordinary high water mark of the historical Missouri riverbed channel abutting nonpatented public domain lands owned by the United States must be determined by the branch of cadastral study of the United States bureau of land management in accordance with federal law.

61-33.1-07. State engineer regulatory jurisdiction.

This chapter does not affect the authority of the state engineer to regulate the historical Missouri riverbed channel, minerals other than oil and gas, or the waters of the state, provided the regulation does not affect ownership of oil and gas minerals in and under the riverbed or lands above the ordinary high water mark of the historical Missouri riverbed channel inundated by Pick-Sloan Missouri basin project dams.

SECTION 2. APPROPRIATION - STRATEGIC INVESTMENT AND IMPROVEMENTS FUND. There is appropriated out of any moneys in the strategic investment and improvements fund in the state treasury, not otherwise appropriated, the sum of \$800,000, or so much of the sum as may be necessary, to the department of mineral resources for the purpose of contracting with a qualified engineering and surveying firm to conduct a limited review of the corps survey under this Act, for the biennium beginning July 1, 2017, and ending June 30, 2019.

SECTION 3. APPROPRIATION - STRATEGIC INVESTMENT AND IMPROVEMENTS FUND - CONTINGENT LINE OF CREDIT - MINERAL REVENUE REPAYMENTS.

1. There is appropriated out of any moneys held in reserve in the strategic investment and improvements fund for mineral title disputes, not otherwise appropriated, the sum of \$100,000,000, or so much of the sum as may be necessary, to the commissioner of university and school lands for the purpose of mineral revenue repayments, for the biennium beginning July 1, 2017, and ending June 30, 2019. The funding provided in this section is considered a one-time funding item.
2. The funding provided in this section is available for the following:
 - a. Repayment of any lease, bonus, rents, and royalty collections attributable to oil and gas mineral tracts lying entirely above the ordinary high water mark of the historical Missouri riverbed channel on both the corps survey and the state phase two survey, as required in subsection 1 of section 61-33.1-04.
 - b. Repayment of any lease, bonus, rents, and royalty collections attributable to the remaining oil and gas mineral tracts, as required in subsection 2 of section 61-33.1-04.
 - c. Other mineral revenue repayments or other reimbursements that are attributable to oil and gas mineral tracts requiring repayments under this Act.
3. Upon adoption of the final review findings by the industrial commission, the commissioner of university and school lands shall calculate the amount necessary for mineral revenue repayments based on the final review findings.
4. As soon as a repayment amount for a known recipient is calculated but after the expenditure of the \$100,000,000 in subsection 1:
 - a. The commissioner of university and school lands shall request from the sixty-sixth legislative assembly additional funding sufficient for any remaining mineral revenue or other repayments.
 - b. If the \$100,000,000 is expended before the repayment of all amounts calculated for known recipients and before additional funds are made available by the sixty-sixth legislative assembly, the Bank of North Dakota shall extend a line of credit, not to exceed \$87,000,000, to the commissioner of university and school lands. The commissioner of university and school lands shall access the line of credit, to the extent necessary, the sum of which is appropriated, for the purpose of mineral revenue and other repayments under this Act for the biennium beginning July 1, 2017, and ending June 30, 2019. The commissioner of university

and school lands shall repay the line of credit from funds available in the strategic investment and improvements fund as appropriated by the legislative assembly.

SECTION 4. RETROACTIVE APPLICATION. Section 1 of this Act is retroactive to the date of closure of the Pick-Sloan Missouri basin project dams. The ordinary high water mark determination under this Act is retroactive and applies to all oil and gas wells spud after January 1, 2006, for purposes of oil and gas mineral and royalty ownership.

SECTION 5. EMERGENCY. This Act is declared to be an emergency measure.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

²¹¹ **SECTION 1. AMENDMENT.** Section 61-24-27 of the North Dakota Century Code is amended and reenacted as follows:

61-24-27. Notes and bonds exempt from taxation.

Notwithstanding any other provision of law, the state and all public officers, boards, and agencies, and political subdivisions and agencies of the state, including the public finance authority, all national banking associations, state banks, trust companies, savings banks and institutions, savings and loan associations, credit unions, investment companies, insurance companies, and other entities carrying on an investment business, and executors, administrators, guardians, trustees, and other fiduciaries, may legally invest any sinking funds, moneys, or other funds belonging to them or within their control in any bonds issued under this chapter, and the bonds are authorized security for public deposits. Notes and bonds, including refunding bonds, issued under this chapter and their interest and income are exempt from all taxation by the state or by any political subdivision except inheritance, estate, and transfer taxes.

SECTION 2. AMENDMENT. Section 61-24.7-05 of the North Dakota Century Code is amended and reenacted as follows:

61-24.7-05. State funding plan.

1. The legislative assembly declares its intent to provide state funding for a share of the ~~nonfederal or local~~ cost of constructing the Red River valley water supply project.
2. Any funds appropriated for the construction of the Red River valley water supply project may be carried over to future bienniums.
3. State funding for the Red River valley water supply project may be appropriated at the time and in the manner determined by the legislative assembly, either concurrently or separately from any federal funding that

²¹¹ Section 61-24-27 was also amended by section 2 of Senate Bill No. 2270, chapter 424.

becomes available and the local funding for the Red River valley water supply project.

SECTION 3. AMENDMENT. Section 61-39-01 of the North Dakota Century Code is amended and reenacted as follows:

61-39-01. Findings and declaration of policy.

The legislative assembly declares that many areas and localities in eastern and central North Dakota do not enjoy adequate quantities of high-quality drinking water; that other areas and localities in eastern and central North Dakota do not have sufficient quantities of water to ensure a dependable, long-term supply; that greater economic security and the protection of health and property benefits the land and water resources of this state; and that the promotion of the prosperity and general welfare of all of the people of this state depend on the effective development and utilization of the land and water resources of this state and necessitates and requires the exercise of the sovereign powers of this state and concern a public purpose. To accomplish this public purpose, it is declared necessary that a water authority to store and distribute water to eastern and central North Dakota be established to provide for the supply and distribution of water to the people of eastern and central North Dakota for purposes, including domestic, rural water, municipal, livestock, ~~light~~ industrial, and other uses, with primary emphasis on domestic, rural water, and municipal uses; and provide for the future economic welfare and prosperity of the people of this state, and particularly the people of eastern and central North Dakota, by the bulk purchase of water from the Garrison Diversion Conservancy District delivered by the Red River valley water supply project for beneficial and public uses. The Garrison Diversion Conservancy District may acquire, construct, improve, and own the Red River valley water supply project and may enter water supply contracts with member cities and water districts for the sale of water for consumption within or outside the district or the state, including with Canada. Alternatively, the Lake Agassiz water authority may enter one or more contracts to provide for the authority to acquire bulk water from the Garrison Diversion Conservancy District and may enter water supply contracts with member cities and water districts for the resale of this water for consumption within or outside the state.

The legislative assembly acknowledges that North Dakota and Minnesota communities jointly use the Red River as a water resource. It is in the best interest of eastern North Dakota also to study and possibly provide for the water needs of those Minnesota communities through a Red River valley water supply project, particularly if that project maintains the use of the Red River for North Dakota communities.

In furtherance of this public purpose, the state water commission may provide for the issuance of bonds in accordance with chapter 61-02 to finance the costs of any project to deliver water to eastern and central North Dakota or utilize other financing as addressed in this chapter. This chapter does not abrogate or limit the rights, powers, duties, and functions of the state water commission or state engineer, but is supplementary to those rights, powers, duties, and functions.

SECTION 4. AMENDMENT. Section 61-39-02 of the North Dakota Century Code is amended and reenacted as follows:

61-39-02. Lake Agassiz water authority created.

The Lake Agassiz water authority consists of cities and water districts, and other water distribution systems located in that part of the state which is included within the boundaries of Cavalier, Pembina, Walsh, Nelson, Grand Forks, Griggs, Steele, Trail,

Barnes, Cass, Ransom, Sargent, and Richland, and Stutsman Counties and that pay dues to the authority. Minnesota cities may join the authority, provided a portion of the city is located within five miles [8.05 kilometers] of this state, or if the city uses the Red River for its primary water supply. Any other county, city, water district, or Canadian governmental entity or water supply system may join the authority upon application of its board and approval of the application by a majority of the authority's board. The authority shall require any new member to pay for a pro rata share of the project costs previously incurred by the authority members. The authority also may require an entity contracting for a water supply to pay an additional fee if the entity joins the project late. The authority is a governmental agency, body politic and corporate with the authority to exercise the power specified in this chapter, or which may be reasonably implied. Cities and water districts, and other water distribution systems may pay dues to the authority as determined by the authority.

(At the request of Workforce Safety and Insurance)

AN ACT to amend and reenact section 65-01-09, subsection 5 of section 65-01-16, and section 65-02-27 of the North Dakota Century Code, relating to subrogation liens, administrative orders, and the decision review office; and to provide for application.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 65-01-09 of the North Dakota Century Code is amended and reenacted as follows:

65-01-09. Injury through negligence of third person - Option of employee - Organization subrogated when claim filed - Lien created.

When an injury or death for which compensation is payable under provisions of this title ~~shall have~~has been sustained under circumstances creating in some person other than the organization a legal liability to pay damages in respect thereto, the injured employee, or the injured employee's dependents may claim compensation under this title and proceed at law to recover damages against such other person.

1. The organization is subrogated to the rights of the injured employee or the injured employee's dependents to the extent of fifty percent of the damages recovered up to a maximum of the total amount ~~the organization~~ has paid or would otherwise pay in the future in compensation and benefits for the injured employee. The organization also has a lien to the extent of fifty percent of the damages recovered up to a maximum of the total amount ~~the organization~~ has paid in compensation and benefits. The organization's subrogation interest or lien may not be reduced by settlement, compromise, or judgment. The action against such other person may be brought by the injured employee, or the injured employee's dependents in the event of the injured employee's death. Such action shall be brought in the injured employee's or in the injured employee's dependents' own right and name and as trustee for the organization for the subrogation interest of the organization. However, if the director chooses not to participate in an action, and the decision is in writing, the organization has no subrogation interest and no obligation to pay fees or costs under this section and no lien.
2. If the injured employee or the injured employee's dependents do not institute suit within sixty days after date of injury, the organization may bring the action in its own name and as trustee for the injured employee or the injured employee's dependents and retain as its subrogation interest the full amount it has paid or would otherwise pay in the future in compensation and benefits to the injured employee or the injured employee's dependents and retain as its lien the full amount ~~the organization~~ has paid in compensation and benefits. In the alternative, the organization may bring an action against a third party to recover its lien for benefits paid to the injured employee. Within sixty days after both the injured employee and the organization have declined to

commence an action against a third person as provided above, the employer may bring the action in the employer's own name or in the name of the injured employee, or both, and in trust for the organization and for the injured employee. The party bringing the action may determine if the trial jury should be informed of the trust relationship.

3. If the action is brought by the injured employee or the injured employee's dependents, or the employer as provided ~~above~~ in subsection 2, the organization shall pay fifty percent of the costs of the action, exclusive of attorney's fees, when such costs are incurred as the action progresses before recovery of damages. If there is no recovery of damages in the action, this shall be a cost of the organization to be paid from the organization's general fund. After recovery of damages in the action, the costs of the action, exclusive of attorney's fees, must be prorated and adjusted on the percentage of the total subrogation interest of the organization recovered to the total recovery in the action. The organization shall pay attorney's fees to the injured employee's attorney from the organization's general fund as follows:
 1. a. Twenty-five percent of the subrogation interest recovered for the organization before judgment; ~~and~~
 2. b. Thirty-three and one-third percent of the subrogation interest recovered for the organization when recovered through judgment entered as a result of a trial on the merits or recovered through binding alternative dispute resolution.
4. The above provisions as to costs of the action and attorney's fees are effective only when the injured employee advises the organization in writing the name and address of the injured employee's attorney, and ~~that the~~ injured employee has employed such attorney for the purpose of collecting damages or of bringing legal action for recovery of damages. If ~~a claimant~~ injured employee fails to pay the organization's subrogation interest and lien within thirty days of receipt of a recovery in a third-party action, the organization's subrogation interest is the full amount of the damages recovered, up to a maximum of the total amount it has paid or would otherwise pay in the future in compensation and benefits to the injured employee or the injured employee's dependents, no costs or attorney's fees will be paid from the organization's subrogation interest and the organization's lien is the full amount of the damages recovered up to a maximum of the total amount it has paid.
5. The organization's lien is created upon first payment of benefits. The lien attaches to all claims, demands, settlement proceeds, judgment awards, or insurance payable by reason of a legal liability of a third person. If the organization does not receive payment of its lien amount within thirty days of the payment of any recovery and if the organization has served, by regular mail, written notice of its lien upon the injured employee or the injured employee's dependents and upon the third person, ~~the third person~~, the insurer of the third person, the injured employee or injured employee's dependents, and the attorney of the injured employee or injured employee's dependents are liable to the organization for the lien amount. A release or satisfaction of any judgment, claim, or demand given by the injured employee or the injured employee's dependents is not valid or effective against the lien. An action to collect the organization's lien amount must be commenced within one year of the organization first possessing actual knowledge of a recovery.

6. Upon receipt of its subrogation interest, the organization shall credit the medical expense assessment paid by the employer under section 65-04-04.4 to the employer's account.
7. If the organization's lien is not recognized by another jurisdiction, the organization may issue a decision, including a decision demanding repayment from the injured employee, of all benefits and compensation the organization has made on behalf of the injured employee, including costs and administrative fees.

The organization may not assess a penalty for more than six years of past noncompliance. The organization may assess additional penalties, from the date the organization became aware of the employer's uninsured status continuing until the effective date of coverage, equal to twenty-five percent of the premium due for that period. In addition, the organization may assess an employer the actual cost and reserves of any claim attributable to the employer during the time the employer was uninsured. The penalties for employers are in addition to any other penalties by law. The organization may reduce the penalties provided for under this section. An employer may not appeal an organization decision not to reduce a penalty under this subsection.
- 4.5. An employer who fails or refuses to furnish to the organization the annual payroll report and estimate or who fails or refuses to furnish other information required by the organization under this chapter is subject to a penalty established by the organization of two thousand dollars. Upon the request of the organization, the employer shall furnish the organization any of that employer's payroll records, annual payroll reports, and other information required by the organization under this chapter and an estimate of payroll for the advance premium year. If the employer fails or refuses to provide the records within thirty days of a written request from the organization, the employer is subject to a penalty not to exceed one hundred dollars for each day until the organization receives the records, in addition to the five thousand dollar penalty set forth ~~above~~ subsection 4. The organization may not assess a penalty that exceeds one hundred fifty dollars under this subsection against an organized township. The organization may reduce penalties for employers under this subsection. However, an employer may not appeal an organization decision not to reduce a penalty. The organization shall notify an employer by regular mail of the amount of premium and penalty due the organization from the employer. If the employer fails to pay that amount within thirty days, the organization may collect the premium, penalties, and interest due by civil action. In that action, the court may not review or consider the

action of the organization regarding the acceptance or payment of a claim filed when the employer was uninsured. No exemptions except absolute exemptions under section 28-22-02 are allowed against any levy under executions pursuant to a judgment recovered in the action.

The general contractor is liable for payment of this premium and penalty until the subcontractor or independent contractor pays this premium and penalty. The liability imposed on a general contractor under this section for the payment of premium and penalties under this title which are not paid by a subcontractor or independent contractor is limited to work performed under that general contractor.

If it appears to the organization an employer is without workers compensation coverage or is in an uninsured status in violation of this title, by registered mail the director may issue to the employer an order to cease and desist and a notice of opportunity for hearing. Within thirty days of receipt of the order, a party to the order may make a written request for a hearing. If a hearing is not requested, the order is final and may not be appealed. If a hearing is requested, the hearing must be conducted in accordance with chapter 28-32 to the extent that chapter does not conflict with this section and the order remains in effect until the hearing officer renders a decision. If an employer fails to appear at a hearing requested under this section, that employer defaults and the allegations contained in the cease and desist order are deemed true.
2. In addition to the penalties in section 65-04-33, a person that employs an individual in violation of a cease and desist order issued under this section is subject to a penalty of ten thousand dollars and to a penalty of one hundred dollars per day for each day the violation continues. (At the request of Workforce Safety and Insurance)

AN ACT to amend and reenact subsection 5 of section 65-05-08.1, subsection 1 of section 65-05-09.1, section 65-05-28, subsection 2 of section 65-05-33, and section 65-05.1-06.3 of the North Dakota Century Code, relating to notice to treating doctor, social security offset, criminal offense for filing of false claim, and vocational rehabilitation pilot program reports; to provide a penalty; and to provide for application.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Subsection 5 of section 65-05-08.1 of the North Dakota Century Code is amended and reenacted as follows:

5. Prior to the expiration of a period of disability certified by a doctor, if a report certifying an additional period of disability has not been filed, or upon receipt of a report or other evidence indicating an injured employee who is receiving disability benefits has been or will be released to return to work, the organization shall send a notice to that employee of the organization's intention to discontinue benefits, including an explanation of the reason for discontinuing benefits, an explanation of the injured employee's right to respond, and the procedure for filing the required report or challenging the proposed action. ~~A copy of the notice must be mailed to the employee's doctor.~~ Thereafter, if the required certification is not filed, the organization shall discontinue disability benefits, effective twenty-one days after the date the notice of intention to discontinue benefits is mailed or the date on which the injured employee actually returned to work, whichever occurs first.

SECTION 2. AMENDMENT. Subsection 1 of section 65-05-09.1 of the North Dakota Century Code is amended and reenacted as follows:

1. If the receipt of social security benefits results in an overpayment of temporary or permanent total disability benefits by the organization, a refund of any overpayment must be made by the injured ~~worker~~employee or that overpayment must be taken from future ~~temporary total or permanent total disability benefits or~~ permanent partial impairment awards, or personal reimbursements on the current claim or any future claim filed, at a recovery rate to be determined by the organization.

SECTION 3. AMENDMENT. Section 65-05-28 of the North Dakota Century Code is amended and reenacted as follows:

65-05-28. Examination of injured employee - Paid expenses - No compensation paid if claimant~~injured~~ employee refuses to reasonably participate.

~~Every employee who sustains an injury~~An injured employee may select a doctor of that ~~employee's~~injured employee's choice to render initial treatment. Upon a

determination that the injured employee's injury is compensable, the organization may require the injured employee to begin treating with another doctor to better direct the medical aspects of the injured employee's claim. The organization shall provide a list of three doctors who specialize in the treatment of the type of injury the employee sustained. At the organization's request, the injured employee shall select a doctor from the list. An injured employee shall follow the directives of the doctor or health care provider who is treating the injured employee as chosen by the injured employee at the request of the organization and comply with all reasonable requests during the time the injured employee is under medical care. Providing further that:

1. No injured employee may change from one doctor to another while under treatment or after being released, without the prior written authorization of the organization. Failure to obtain approval of the organization renders the injured employee liable for the cost of treatment and the new doctor will not be considered the attending doctor for purposes of certifying temporary disability.
 - a. Any injured employee requesting a change of doctor shall file a written request with the organization stating all reasons for the change. Upon receipt of the request, the organization will review the injured employee's easeclaim and approve or deny the change of doctor, notifying the injured employee and the requested doctor.
 - b. Emergency care or treatment or referral by the attending doctor does not constitute a change of doctor and does not require prior approval of the organization.
2. Travel and other personal reimbursement for seeking and obtaining medical care is paid only upon request of the injured employee. All claims for reimbursement must be supported by the original vendor receipt, when appropriate, and must be submitted within one year of the date the expense was incurred or reimbursement must be denied. Reimbursement must be made at the organization reimbursement rates in effect on the date of incurred travel or expense. The calculation for reimbursement for travel by motor vehicle must be calculated using miles actually and necessarily traveled. A personal reimbursement requested under this subsection is a managed care decision under section 65-02-20, subject to the appeal process as provided for in section 65-02-20. Providing further that:
 - a. Payment for mileage or other travel expenses may not be made when the distance traveled is less than fifty miles [80.47 kilometers] one way, unless the total mileage equals or exceeds two hundred miles [321.87 kilometers] in a calendar month;
 - b. All travel reimbursements are payable at the rates at which state employees are paid per diem and mileage, except that the organization may pay no more than actual cost of lodging, if actual cost is less;
 - c. Reimbursement may not be paid for travel other than that necessary to obtain the closest available medical or hospital care needed for the injury. If the injured employee chooses to seek medical treatment outside a local area where care is available, travel reimbursement may be denied;
 - d. Reimbursement may not be paid for the travel and associated expenses incurred by the injured employee's spouse, children, or other persons unless the injured employee's injury prevents travel alone and the inability is medically substantiated; and

- e. Other expenses, including telephone calls and car rentals are not reimbursable expenses.
3. The organization may at any time require an injured employee to submit to an independent medical examination or independent medical review by one or more duly qualified doctors designated or approved by the organization. The organization shall make a reasonable effort to designate a duly qualified doctor licensed in the state in which the injured employee resides to conduct the examination before designating a duly qualified doctor licensed in another state or shall make a reasonable effort to designate a duly qualified doctor licensed in a state other than the injured employee's state of residence if the examination is conducted at a site within two hundred seventy-five miles [442.57 kilometers] from the injured employee's residence. An independent medical examination and independent medical review must be for the purpose of review of the diagnosis, prognosis, treatment, or fees. An independent medical examination contemplates an actual examination of an injured employee, either in person or remotely if appropriate. An independent medical review contemplates a file review of an injured employee's records, including treatments and testing. The injured employee may have a duly qualified doctor designated by that employee present at the examination or later review the written report of the doctor performing the independent medical examination, if procured and paid for by that injured employee. Providing further that:
 - a. In case of any disagreement between doctors making an examination on the part of the organization and the injured employee's doctor, the organization shall appoint an impartial doctor duly qualified who shall make an examination and shall report to the organization.
 - b. The injured employee, in the discretion of the organization, may be paid reasonable travel and other per diem expenses under the guidelines of subsection 2. If the injured employee is working and loses gross wages from the injured employee's employer for attending the examination, the gross wages must be reimbursed as a miscellaneous expense upon receipt of a signed statement from the employer verifying the gross wage loss.
4. If an injured employee, or the injured employee's representative, refuses to submit to, or in any way intentionally obstructs, any examination or treatment, or refuses to reasonably participate in medical or other treatments or examinations, the injured employee's right to claim compensation under this title is suspended until the refusal or obstruction ceases. No compensation is payable while the refusal or obstruction continues, and the period of the refusal or obstruction must be deducted from the period for which compensation is payable to the injured employee.
5. If an injured employee undertakes activities, whether or not in the course of employment, which exceed the treatment recommendations of the injured employee's doctor regarding the work injury, and the doctor determines that the employee's injury or condition has been aggravated or has worsened as a result of the injured employee's activities, the organization may not pay benefits relative to the aggravation or worsening, unless the activities were undertaken at the demand of an employer. An employer's account may not be charged with the expenses of an aggravation or worsening of a work-related injury or condition unless the employer knowingly required the injured

employee to perform activities that exceed the treatment recommendations of the injured employee's doctor.

SECTION 4. AMENDMENT. Subsection 2 of section 65-05-33 of the North Dakota Century Code is amended and reenacted as follows:

2. If any of the acts in subsection 1 are committed to obtain, or pursuant to a scheme to obtain, more than ~~five hundred~~ one thousand dollars in benefits or payment for services, the offense is a class C felony.

SECTION 5. AMENDMENT. Section 65-05.1-06.3 of the North Dakota Century Code is amended and reenacted as follows:

65-05.1-06.3. Rehabilitation services pilot programs - Reports.

The organization may implement a system of pilot programs to allow the organization to assess alternative methods of providing rehabilitation services. A pilot program may address one or more of the organization's comprehensive rehabilitation services, including vocational, medical, psychological, economic, and social rehabilitation services. The goal of a pilot program must be to improve the outcome of the rehabilitation services offered by the organization to assist the injured employee in making adjustments necessitated from the employee's injury and to improve the effectiveness of vocational rehabilitation services in returning an employee to substantial gainful employment. Notwithstanding laws to the contrary, a pilot program may address a broad range of approaches, including collaborative efforts between the organization and the injured employee through which there are variances from the rehabilitation services hierarchy; return-to-work trial periods during which cash benefits are suspended; intensive job search assistance; recognition of and focused services for injured employees who are at risk; and coordination of services of public and private entities. If a pilot program utilizes coordination of services of other state agencies, such as job service North Dakota, department of human services, North Dakota university system, or department of public instruction, the organization shall consult with the state agency in establishing the relevant portions of the pilot program and the state agency shall cooperate with the organization in implementing the pilot program. The organization shall include in its ~~annual~~ biennial report to the workers' compensation review committee under section 54-35-22 status reports on current pilot programs.

CHAPTER 440

HOUSE BILL NO. 1004

(Appropriations Committee)

AN ACT to provide an appropriation for defraying the expenses of the state auditor.

VETO

April 25, 2017

Honorable Larry Bellew
Speaker of the House
North Dakota House of Representatives
State Capitol
Bismarck, ND 58505

Dear Speaker Bellew:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed House Bill 1004 and return it to the House unsigned.

HB 1004 was amended in conference committee. The critical details of the amendment, as shown in the Statement of Purpose of Amendment, eliminate a position held by an identifiable, classified employee (position number 00000510-1) in the State Auditor's office.

We support HB 1004's appropriation and FTE levels and we support the State Auditor's rights and responsibilities to manage personnel and performance in his office. We ask that the Auditor's appropriations be passed at the identical levels of dollars and FTEs but without reference in the Statement of Purpose of Amendment to an employee-specific position number.

The responsibility for execution and administration of state business lies within the executive branch. Each state agency, through its elected or appointed executive officer, is charged with administering the business of that agency. This responsibility includes the administration of personnel decisions, including filling vacant positions, coaching employees, administering discipline appropriately and, as necessary, terminating employees. An agency with classified employees must handle personnel issues pursuant to NDCC Chapter 54-44.3 and NDAC Article 4-07.

The elimination of an identified employee in the Auditor's office, on the Statement of Purpose of Amendment, violates the separation of powers and the fundamental due process rights afforded to all classified employees in the State of North Dakota.

Sincerely,

Doug Burgum
Governor

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

HOUSE BILL NO. 1153

(Representatives Delzer, Carlson, Kempenich, Lefor, Pollert, Seibel)
(Senator G. Lee)

AN ACT to amend and reenact section 54-06-31 of the North Dakota Century Code, relating to state employee recruitment and retention bonus programs.

VETO

Dear Speaker Bellew:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed House Bill 1153 and returned it to the House. As the chief executive of the state, the Governor is responsible for the administration of state business. Article V, § 7 ND Const. This responsibility includes the duty to fill vacant positions and supervise the conduct of executive and ministerial officers. The Legislature can neither add to nor diminish these constitutional duties.

HB 1153 seeks to restrict the authority of the Governor, and only the Governor, to pay recruitment and retention bonuses to cabinet leaders and the Governor's staff. HB 1153 places unprecedented and intentional restrictions on the Governor's ability to fulfill the constitutional duty to recruit and retain cabinet agency directors and key support personnel. These restrictions intrude upon the operations of the executive branch and violate the separation of governmental powers established by the North Dakota Constitution.

The importance of recruitment and retention bonus programs was acknowledged by the Fifty-Seventh Legislative Assembly in enacting Section 54-06-31 of the Century Code. A 2009 amendment added subsection 5, to specifically recognize the importance of recruitment and retention tools for "hard-to-fill occupation[s]", to respond to market forces and competition, or to avoid losing a highly performing incumbent with rare or special skills. Recruiting and retaining experienced and transformational cabinet leaders is an essential step in delivering more efficient government services.

Collectively our seventeen cabinet agencies employ more than 6,000 state workers. These agencies are complex, widely diverse and provide meaningful, specialized, and essential services on behalf of our state citizens. The cabinet agency leadership positions meet the "hard-to-fill" criteria described in NDCC Section 54-06-31 (5).

Further, Cabinet leaders and the Governor's staff are unclassified positions, meaning they are employed "at will." This is different from the vast majority of state employment positions which are "classified" and therefore hold more job protections. As unclassified positions, the Governor's staff and cabinet leaders serve at the pleasure of the Governor. And unlike classified positions, every four years with the election cycle there is increased risk of turnover for these key positions.

To explicitly remove a human resources tool for these specialized, hard-to-fill, and at-will employees will impair the Governor's ability to attract and retain the leadership and staff necessary to effectively execute the duties of the office now and for future governors.

The thriving private sector creates ample competition for attracting and retaining leadership, with more flexibility and higher salary levels than comparable leadership and senior staff roles in the public sector. Any movement to erode the Governor's flexibility will further reduce state government's ability to bring much-needed private sector experience into cabinet leadership positions.

The proposed restrictions upon this administration set forth in HB 1153 serve no constructive purpose. This bill violates the constitutional exercise of executive authority to manage state agencies and to carefully budget appropriated resources. For these reasons, I have vetoed HB 1153.

As Governor, I understand the importance of strong fiscal policies and have proposed more than \$1.5 billion in reduced spending for the next biennium. We are committed to partnering with the Legislature to achieve these costs reductions, even as we continue to search for new, more cost-effective solutions to delivering services and operating our state.

There are many steps we still need to take to improve the efficiency and performance of state government, but HB 1153 is a step in the wrong direction.

Sincerely,

Doug Burgum
Governor

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 54-06-31 of the North Dakota Century Code is amended and reenacted as follows:

54-06-31. State employee recruitment and retention bonus programs - Criteria - Limitations.

State agencies may develop programs to provide bonuses to recruit or retain employees in hard-to-fill occupations.

1. State agencies may pay recruitment and retention bonuses under this section only if:
 - a. The agency has a written policy in place identifying eligible positions or occupations and provisions for providing and receiving bonuses;
 - b. The agency has filed a copy of the written policy with the North Dakota human resource management services; and
 - c. The agency reports to the North Dakota human resource management services each bonus provided to an employee under the program.

2. A bonus paid under this section to an employee in the governor's office or any state officer appointed by the governor may not exceed ten percent of the employee's annual salary or five thousand dollars, whichever is less.
3. State agencies must fund bonus programs from within the agency salaries and wages budget.
- ~~3-4.~~ The North Dakota human resource management services shall report periodically to the legislative management on the implementation, progress, and bonuses provided under agency recruitment and retention bonus programs.
- ~~4-5.~~ Bonuses paid under this section are not fiscal irregularities under section 54-14-03.1.
- ~~5-6.~~ As used in this section, a hard-to-fill occupation includes an occupation or position in which demand exceeds supply, special qualifications are required, competition with other employers is the strongest, there is a risk of losing an incumbent with rare skills, the position is filled by a highly skilled employee who is in high demand in the marketplace, loss of the employee would result in significant replacement costs, the position is filled by key personnel, or the position has other unique recruitment or retention issues identified and documented by the appointing authority.

Re: Veto of HB 1201

Dear Speaker Bellew:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed House Bill 1201 and return it to the House of Representatives unsigned.

An important principal of America's success as a nation is the principal of individual responsibility.

While carbon monoxide represents a very small, yet measurable life safety risk in residential rental property, this risk can and should be managed by local building codes, property owners and renters themselves, rather than more burdensome statewide regulations.

There are simple, low-cost non-governmental solutions to this risk, including the use of carbon monoxide monitors available at local retail stores.

For these reasons, I have vetoed House Bill 1201.

(Industry, Business and Labor Committee)
(At the request of Job Service North Dakota)

AN ACT authorizing the state of North Dakota acting through job service North Dakota to sell or lease certain property; to provide for a study; to provide a statement of legislative intent; to provide reports to the budget section; and to declare an emergency.

VETO

May 1, 2017

Honorable Brent Sanford
President of the Senate
North Dakota Senate
North Dakota State Capitol
Bismarck, ND 58505

Dear President Sanford,

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed Senate Bill 2119, a bill related to certain Job Service North Dakota properties.

Sections 2, 3, 4 and 5 of Senate Bill 2119 detail specific lease prices, building sale prices, preference for specific lessees and purchasers of state owned buildings. Before any sale or lease of state property, a transparent, arms length offering of any vacant space should be considered rather than pre-specifying occupants. Further, a thorough analysis of these buildings, fair market lease and sale valuations, and applicable state and federal statutes should be completed versus pre-determining lease or sale price.

The responsibility for execution and administration of state business lies exclusively within the executive branch of state government. N.D. Const. art. V. Each state agency, through its elected or appointed executive officer, is charged with administering the business of that agency. This responsibility includes the location of its staff and use of its location(s) to optimize value to North Dakota taxpayers.

Our office will instruct Job Service North Dakota, in cooperation with Office of Management and Budget, to proceed with a thorough, comprehensive, transparent, economic study of Job Service locations. We will seek the input of other state agencies, including the Attorney General's office, regarding space needs and potential savings as a part of this study and will consider them as potential tenants for all vacant space.

Sincerely,

Doug Burgum
Governor

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. STUDY OF PROPERTIES BY JOB SERVICE NORTH DAKOTA - BUDGET SECTION REPORT. During the 2017-18 interim, job service North Dakota shall study the feasibility and desirability of selling its properties in Rolla and Minot and the main office in Bismarck. The study must identify historical data and documentation regarding the purchase price and funding source of each property and provide for an appraisal of each property in accordance with section 54-01-05.2. The study must include a determination of the allowable sales price for each property in accordance with state and federal law. Job service North Dakota shall collaborate with the office of management and budget to develop a proposal for the attorney general's office and highway patrol to lease portions of the Minot property from job service North Dakota, while allowing job service North Dakota to continue occupying a portion of the property necessary for normal business operations. Job service North Dakota shall report its findings and recommendations to the budget section before July 1, 2018.

SECTION 2. LEASE OF PROPERTY BY JOB SERVICE NORTH DAKOTA - ROLLA PROPERTY. Beginning July 1, 2017, job service North Dakota may lease to Rolette County, as allowed by state and federal law, Parcel #29-0001-29089-000-00006700-2904000000; city of Rolla OTS Lot 17 Block 7 and Parcel #29-0001-29090-000-00006701-2904000000; city of Rolla OTS Lot 18 Block 7 in the city of Rolla, Rolette County, North Dakota. Job service North Dakota may lease the property to Rolette County for a sum of one dollar until the property is sold. The lease must provide that all operational and maintenance costs related to the property are the responsibility of Rolette County until the property is sold.

SECTION 3. SALE OF PROPERTY BY JOB SERVICE NORTH DAKOTA - ROLLA PROPERTY - BUDGET SECTION APPROVAL. If a sale of the property is determined feasible based on the study required in section 1 of this Act and subject to budget section approval, the state of North Dakota acting through job service North Dakota may sell and convey Parcel #29-0001-29089-000-00006700- 2904000000; City of Rolla OTS Lot 17 Block 7 and Parcel #29-0001-29090-000-00006701-2904000000; City of Rolla OTS Lot 18 Block 7 in the City of Rolla, Rolette County, North Dakota. Job service North Dakota may cause this property to be sold in the manner prescribed by sections 54-01-05.1 and 54-01-05.2. The provisions of section 54-01-05.5 do not apply to the sale and conveyance authorized by this Act. Job service North Dakota shall grant Rolette County a right of first refusal for the purchase of this property for the sum of one dollar within one year of the date of budget section approval. If the study in section 1 of this Act determines the one dollar purchase price to be inadequate based on state or federal law, job service North Dakota shall sell and convey the property to Rolette County at ninety percent of current fair market value within one year of the date of budget section approval. If Rolette County does not exercise its right to purchase the property at ninety percent of current fair market value, job service North Dakota may sell and convey the property to another purchaser for the current fair market value. Net proceeds from the sale must be used as authorized and directed by law. Net proceeds from the sale must be considered received proportional to the funding sources used for the original purchase of the property by Job Service North Dakota. The general fund proportional amount of net proceeds from the sale must be deposited in the job service federal advanced interest repayment fund.

SECTION 4. LEASE OF PROPERTY BY JOB SERVICE NORTH DAKOTA - BISMARCK PROPERTY - JOB SERVICE NORTH DAKOTA RELOCATION - BUDGET SECTION REPORT. The office of management and budget shall determine

The office of management and budget shall develop a plan for the most efficient and cost-effective use of the property which may require job service North Dakota to lease all or a portion of the property described in this section to certain state agencies, including the attorney general's office, as allowed by state and federal law. Based on the plan developed by the office of management and budget, and upon the lease of all or a portion of the property described in this section, job service North Dakota may relocate all or a portion of its central office operations to Parcel #0729-001-001; Lot 1; Block 1; Addition - Wisdom Office Park in the city of Bismarck, Burleigh County, North Dakota. The office of management and budget shall report to the budget section regarding its plan before the leasing of the job service North Dakota central office and subsequent relocation of job service North Dakota to the Bismarck regional office.

SECTION 5. LEGISLATIVE INTENT - MINOT AND BISMARCK JOB SERVICE NORTH DAKOTA PROPERTIES. It is the intent of the sixty-fifth legislative assembly that if, as a result of the study provided for in section 1 of this Act, the sale of job service North Dakota property in Minot and its main office in Bismarck is determined feasible, the office of management and budget request authorization and any necessary funding from the sixty-sixth legislative assembly for the conveyance of the property for use by other state agencies.

Dear Speaker Bellew,

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed Section 29 of House Bill 1015, the appropriations bill for the Office of Management and Budget.

Section 29 would eliminate the five-month extension approved for the Board of University and School Lands to begin meeting its obligations under the Administrative Agencies Practices Act. This veto restores the five-month extension.

The extensive effort required to bring the Board of University and School Lands into compliance as an administrative agency justifies extension of the effective date to January 1, 2018.

Re: Item Veto of HB 1019

Dear Speaker Bellew:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed Section 13 and the second sentence in Section 17 of House Bill 1019.

Section 13:

The rules anticipated under Section 13 would create an exception applicable to a limited number of individuals who rent boat slips in a state-owned marina. Additionally, these rules would conflict with existing and long-standing public safety rules governing boat traffic in designated swimming areas.

The parks and recreation department director is authorized to "adopt rules relating to the protection, care, and use of state parks, state campgrounds, state recreational areas, or reserves, and any other real or personal property administered by the director." NDCC 55-08-01.3 (7). In an appropriate exercise of this authority, rules governing state park swimming areas, boat ramps and marinas were first promulgated in 1987 and amended in 1992, 1996, 2006 and 2011. NDAC § 58-02-08-18. These regulations prohibit swimming in state parks except in designated areas and prohibit any boat, canoe or raft from entering a designated swimming area. NDAC § 58-2-08-18 (1) and (2)(c).

We have instructed our new director of parks and recreation to meet with the individual park customers renting marina slips and work toward developing local practices that balance the enjoyment of marina users, their families and guests with the interest of managing liability risk and providing safe recreational areas for all citizens of North Dakota.

Section 17:

The second sentence under Section 17 is vetoed. We have asked the President of Bismarck State College to work in collaboration with the parks and recreation department director, the state historical society and other stakeholders to develop a plan for the optimum use or sale of the Dakota institute property as identified in Section 17.

For the reasons explained above, I have vetoed Section 13 and the second sentence in Section 17 in House Bill 1019.

The Honorable Larry Bellew
Speaker of the House
North Dakota House of Representatives

Dear Speaker Bellew:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed the last sentence of paragraph 2, Section 5 and all of Section 27 of House Bill 1020, the appropriations bill for the State Water Commission.

The portion of Section 5 that reads: "subject to budget section approval and upon notification to the legislative management's water topics overview committee." is vetoed. This sentence requires the Commission to seek budget section approval before transferring funding between the projects identified under paragraph 1, Section 5.

In *Kelsch v. Jaeger*, the North Dakota Supreme Court concluded the legislature may not delegate legislative powers to a subset of its members. 641 N.W.2d 100 (ND 2002). If enacted, the vetoed portion of Section 5 will interfere with the duties and responsibilities of the State Water Commission as defined under North Dakota law. NDCC § 61-02-04.

Section 27 of House Bill 1020 requires the Commission budget for the 2019-2021 biennium comply with NDCC §§ 54-44.1-16 and include line items for salaries and wages, operating expenses, capital assets, project carryover, new projects "and any additional line items as determined necessary by the commission or office of management and budget." NDCC § 54-44.1-04.

While well intentioned, these requirements will impair the duties and responsibilities of the Commission. Many water projects fit into multiple line item categories. Certain projects proceed slowly, delayed by legal, environmental, cost share and other factors driven by outside parties. The simpler budgeting format previously adopted and approved by the legislature gives the Commission a flexible and efficient model from which to work and should be retained.

As Chair of the State Water Commission, I will ensure our governing board prioritizes public transparency of project expenditures through regular and detailed reporting.

Sincerely,

Doug Burgum

The Honorable Larry Bellew

Dear Speaker Bellew,

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have signed House Bill 1023, but vetoed sections 6, 7, 8, 9, 10, 12 and 13. HB 1023 is the appropriation bill for the North Dakota Public Employees Retirement System (PERS).

Sections 7, 9, 10 and 12 propose creating an entirely new legislative committee, the Public Employee Health Care Coverage Committee. This new committee is intended to study and make recommendations regarding, among other things, the terms of PERS requests for proposals for health insurance coverage. Section 13 refers only to sections being vetoed so it is no longer relevant.

Section 8 changes the scope of the Employee Benefits Programs Committee (EBPC) by eliminating its ability to consider legislative measures and proposals which impact health insurance, effectively splitting the review of employee benefits into two competing committees. Section 8 also eliminates any committee oversight during the 2017-2019 interim for retiree health insurance coverage. Retirement and health insurance benefits must be considered together in a unified, holistic way, along with salary and all other forms of compensation, to optimize value to both recipients and taxpayers as a complete package.

The North Dakota Century Code authorizes PERS to manage the retirement and insurance plans to ensure a comprehensive package of benefits that assists in the recruitment and retention of high-performing employees. Currently, 13 legislative members comprise the EBPC and two legislative members serve on the PERS Board of Trustees, providing significant legislative input to the process.

Section 6 forces early termination of the existing health insurance contract for PERS members on June 30, 2019, and proposes to restrict the next negotiated contract to a two-year period. It is an unproven hypothesis that a two-year, non-renewal contract period will produce lower rates from potential providers.

Under current law, the PERS Board of Trustees, in conjunction with the EBPC, holds the responsibility to assess market alternatives. We share the Legislature's interest in a competitive bid process for PERS health insurance coverage, whether fully or self-insured or a hybrid, that results in lower costs to the state. In addition, multiple future cost saving factors can be considered under our current provider contract.

Dear President Sanford,

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed Section 7 of Senate Bill 2001, the appropriations bill for Legislative Management.

Section 7 of the bill creates a legislative revenue advisory committee, charged with analyzing executive revenue forecasts while assessing "agency revenues, including an assessment of the delivery and cost of services, staffing, and billing processes, to identify improvements to the efficiency and effectiveness of the services that will result in reduced costs for state agencies." This encroaches upon the governor's constitutional duty, outlined in Article V, § 7 of the North Dakota Constitution, entrusting the administration of state business to the state's chief executive. It is the responsibility of the executive branch to analyze and optimize the performance of individual agencies, operating within the budgetary and policy directives of the legislature.

Furthermore, the creation of a parallel legislative revenue advisory committee would result in overlapping and duplicative efforts. The state of North Dakota currently has in place the Advisory Council on Revenue Forecasting, a collection of private and public stakeholders, including legislators, dedicated to ensuring all third-party forecasting done for the state considers on-the-ground realities. While there is certainly room to improve this process, creating another redundant committee does not address the fundamental challenge of revenue forecasting in a commodity-driven economy. If anything, competing groups could result in conflicting revenue forecasts, creating additional challenges for the state's budgeting process.

Currently, the legislature has the final authority to accept, amend, or reject the executive revenue forecast. Looking ahead, collaboration between the Legislative Assembly and Advisory Council on Revenue Forecasting, focused on achieving an

accurate forecast that provides certainty for taxpayers and policymakers, is welcomed and encouraged.

Dear President Sanford,

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have signed Senate Bill 2003, but vetoed items in Sections 18, 24, 32, 39 and all of Section 6. SB 2003 is the North Dakota University System appropriations bill.

Section 6.

Article VJII, § 6 of the North Dakota Constitution gives the State Board of Higher Education "full authority to organize or reorganize within constitutional and statutory limitations, the work of each institution under its control." and "control of the expenditure of the funds belonging to, and allocated to such institutions and also those appropriated by the legislature, for the institutions of higher education in this state." ND Const. art. VIII, § 6(b)(e). The restrictions in Section 6 intrude upon the operations of the Board and violate the separation of governmental powers established by the North Dakota Constitution.

Section 18.

That portion of paragraph 3, Section 18 that reads "any portion of" is vetoed. The ambiguity of the vetoed language will cause unintended confusion and uncertainty. The remaining language in paragraph 3 achieves the intent of the legislative assembly.

Section 24.

Paragraph 3 (c) of Section 24 is vetoed. This paragraph requiring Dickinson State University to certify that "a North Dakota architect was used to design the presidential library" is hereby vetoed. For example, this condition would preclude the hiring of one of the many North Dakota State University architecture graduates who work at firm:s across the United States.

Section 32.

The second sentence under Section 32 is vetoed. We have instructed the President of Bismarck State College to work collaboratively with the parks and recreation department director, the state historical society and other stakeholders to develop a plan for the optimum use or sale of the Dakota Institute property as identified in Section 32.

Section 39.

The portion of paragraph 39 that reads "and for credit hours completed at the school" is hereby vetoed. Reducing general fund appropriations based upon credit hours is contrary to the legislatively approved higher education funding formula.

Dear President Sanford,

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed Section 4, Section 20 and a portion of Section 12 of Senate Bill 2013, the appropriations bill for the Department of University and School Lands.

Section 4 was amended in conference committee and approved by the legislature without the scrutiny or transparency of the full legislative public hearing process. This section directs the State Treasurer to transfer \$16,100,000 - \$8.0 million from the strategic investment and improvements fund and \$8.1 million from the state disaster relief fund - to appropriate the sum of \$10,000 to each of approximately 1,610 organized and unorganized townships in non-oil producing counties. At a time when North Dakota is dealing with an unprecedented revenue shortfall, nearly every state agency and department has made substantial cuts in budgets based upon limited reserves and/ or new initiatives that streamline state government. Without demonstrated evidence of differentiated need or want, this exactly equal, across-the-board appropriation is both arbitrary and an inefficient use of our scarce financial resources. Further, given how depleted all of our reserves and ending balances have become, it would be risky to reduce the state disaster relief fund by \$8.1 million.

The portion of Section 12 that reads: "Of the \$3,600,000, \$1,800,000 may be spent only upon approval of the budget section." is vetoed. This sentence requires the Department of University and School Lands to seek budget section approval before

spending funds approved by the full legislative assembly. In *Kelsch v. Jaeger*, the North Dakota Supreme Court stated: "as otherwise provided in the constitution, the legislature may not delegate legislative powers to others, including a subset of its members." 641 N.W.2d 100 (ND 2002). If enacted, the vetoed portion of Section 12 would interfere with proper management of this state agency. The specific language addressed to the Governor and the Commissioner in Section 12 "to achieve efficiencies and budgetary savings . . . through the use of innovative ideas and through alternative solutions relating to information technology" remains. Our office, in conjunction with our state CIO, will monitor this IT project closely in terms of scope, budget spending and outcomes and work closely with the Commissioner of University and School Lands to accomplish the project goals.

Section 20 of Senate Bill 2013 directs the Commissioner of University and School Lands to apply a specific interpretation to the terms "gross production," "market value" and "gross proceeds of sale" as stated in its mineral lease form. The North Dakota Attorney General act as legal counsel to the Commissioner of University and School Lands, including providing legal advice related to its minerals leases and other contracts. The restrictions set forth in Section 20 are an encroachment upon the Attorney General's authority to provide legal advice to this state agency and a violation of the separation of governmental powers established by the North Dakota Constitution.

Sincerely,

Doug Burgum
Governor

CHAPTER 451**SENATE BILL NO. 2016**

(Appropriations Committee)

AN ACT to provide an appropriation for defraying the expenses of job service North Dakota; to provide a statement of legislative intent; to provide for a legislative management study; to provide for a study by the office of management and budget; to provide an appropriation to the office of management and budget; and to declare an emergency.

VETO

Honorable Brent Sanford
President of the Senate
North Dakota Senate
North Dakota State Capitol
Bismarck, ND 58505

Dear President Sanford,

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have signed SB 2016, the appropriations bill for Job Service North Dakota, but vetoed sections 10 and 12.

The language in section 10 appropriates \$25,000 to the Office of Management and Budget for contracting with an outside entity to conduct a study of the "most cost-effective use" for the Bismarck central office located at 1000 E. Divide Ave. The section limits the analysis of the "cost savings" to general fund dollars and specifically selects only one other state agency with which to compare costs.

It is unnecessary to expend \$25,000 to narrowly study the cost-effective uses of a single state property. Further, this narrowly defined scope of the study will produce an incomplete and misleading result, ignoring federal and other special fund financial impact when determining relocation, rental and remodeling costs.

Section 12 declares section 10 to be an emergency measure. Given the veto of section 10, section 12 is no longer applicable.

Our office will instruct Job Service North Dakota to proceed with a review of its locations immediately. We will seek the input of other state agencies' potential cost savings as part of this review and will consider them as potential tenants for all vacant space.

Sincerely,

Doug Burgum
Governor

(Appropriations Committee)

AN ACT to provide an appropriation for defraying the expenses of the department of commerce; to provide exemptions; to provide for transfers; to provide for a report; and to declare an emergency.

Honorable Brent Sanford
President of the Senate
State Capitol
Bismarck, ND 58505

Dear President Sanford,

Pursuant to Article V, Section 9, I have signed Senate Bill 2018, the appropriations bill for the commerce department, with an item veto in Section 12.

The portion of Section 12 that reads: "\$300,000 to an organization that provides workplace safety," is vetoed.

This earmark appeared in the final commerce appropriations bill from conference committee. It was added without the benefit of full transparency and scrutiny afforded appropriations that proceed through the public hearing process and full legislative review.

The remaining language in Section 12 gives clear direction to the commerce department to establish guidelines and procedures for awarding grants and vouchers.

Sincerely,

Doug Burgum
Governor

INITIATED MEASURES APPROVED

CHAPTER 453

MEDICAL MARIJUANA

This measure would add a new chapter to Title 19 of the North Dakota Century Code creating an Act which provides for the medical use of marijuana for defined medical conditions, such as cancer, AIDS, hepatitis C, ALS, glaucoma, and epilepsy. To participate in the program, the Act would provide for identification cards and certificates of registration which would be issued by the Department of Health for patients, caregivers, and qualified facilities, if all requirements are met. The Act would create provisions for monitoring, inventorying, dispensing, cultivating and growing marijuana to be regulated and enforced by the Department of Health. A qualified patient could be dispensed up to three ounces of usable marijuana, and could grow marijuana if his or her home is located more than forty miles from the nearest registered facility. For violations, the Act would authorize the Department of Health to provide for corrective action, suspension, revocation, appeal, hearings, and referral for criminal prosecution. The Act would require the Department of Health to submit an annual report to the legislature regarding program statistics

 - (2) Contacting the North Dakota Board of Medicine to verify that the physician is licensed to practice medicine in North Dakota and is in good standing; and
 - (3) Contacting the physician to obtain further documentation that the applicant's medical diagnosis and medical condition qualify the applicant for enrollment in the compassionate care program.
2. Upon verification of the information contained in an application submitted in response to this subsection, the Department shall approve or deny an application within forty-five calendar days of receipt.
3. Department registry identification card: The Department shall issue a registry identification card within thirty calendar days of approving an application. 4. Supplemental requirement:
 - a. A registered qualifying patient or registered designated caregiver who possesses a registry identification card shall notify the Department of any of the following within ten calendar days of the change. An extension shall be granted by the medical marijuana program upon the showing of good cause.
 - (1) A change in card holder's name or address;
 - (2) Knowledge of a change that would render the patient no longer qualified to participate in the program, such as a cure of the debilitating condition causing the need for medical marijuana;
 - (3) Knowledge of a change that renders the patient's physician no longer a qualified "physician" as defined in subsection 15 of section 19-24-02 of these regulations; or
 - (4) Knowledge of a change that renders the patient's caregiver no longer eligible as defined in these regulations.
 - b. Before a registered qualifying patient changes his or her designated caregiver, the qualifying patient must notify the Department in writing.
 - c. If a cardholder loses his or her registry identification card, he or she shall notify the Department in writing within ten days of becoming aware the

card has been lost. Upon notification, the Department shall issue a new registry identification card. Unless documentation in the initial application has changed, the qualified patient or designated caregiver shall not be required to submit a new application.

- d. When a cardholder notifies the Department of items listed in subsection 4 but remains eligible, the Department shall issue the cardholder a new registry identification card with a new random ten-digit alphanumeric identification number within ten days of receiving the updated information and the cardholder shall pay a twenty-five dollar fee. If the person notifying the Department is a registered qualifying patient, the Department shall also issue his or her registered designated caregiver, if any, a new registry identification card within ten days of receiving the updated information.
 - e. If a registered qualifying patient ceases to be a registered qualifying patient or changes his or her registered designated caregiver, the Department shall promptly notify the designated caregiver by certified, registered mail. The registered designated caregiver's protections under this chapter as to that qualifying patient shall expire fifteen days after notification by the Department.
 - f. A cardholder who fails to make a notification to the Department that is required by subsection 4 is subject to a civil infraction, punishable by a penalty of no more than one hundred fifty dollars and is also subject to the immediate revocation of the registry identification card and all lawful privileges provided under the Act.
 - g. If the registered qualifying patient's certifying physician notifies the Department in writing that either the registered qualifying patient has ceased to suffer from a debilitating medical condition or that the physician no longer believes the patient would receive therapeutic or palliative benefit from the medical use of marijuana, the card shall become null and void. However, the registered qualifying patient shall have fifteen days to dispose of the patient's marijuana.
5. Registry identification card application denial: The state health officer or designee shall deny an application if the applicant fails to provide the information required, if the Department determines that the information provided is false, or if the patient does not have a debilitating medical condition eligible for enrollment in the program, as determined by the state health officer. A person whose application has been denied shall not reapply for six months from the date of the denial, unless otherwise authorized by the Department, and is prohibited from all lawful privileges provided by this rule and Act.
 6. The Department shall deny an application or renewal of a qualifying patient's registry identification card if the applicant:
 - a. Did not provide the required information and materials;
 - b. Previously had a registry identification card revoked; or
 - c. Provided false or falsified information.

7. The Department shall deny an application or renewal for a designated caregiver chosen by a qualifying patient whose registry identification card was granted if:
 - a. The designated caregiver does not meet the requirements of subsection 2 of section 19-24-04;
 - b. The applicant did not provide the information required;
 - c. The designated caregiver previously had a registry identification card revoked; or
 - d. The applicant or the designated caregiver provides false or falsified information.
8. The department shall notify the qualifying patient who has designated someone to serve as his or her designated caregiver if a registry identification card will not be issued to the designated caregiver.
9. Denial of an application or renewal is considered a final department action, subject to judicial review. Jurisdiction and venue for judicial review are vested in the district court.
10. Registry identification card renewal application: Each registry identification card issued by the department is valid in accordance with subsection 2 of section 19-24-03. A qualified patient or primary caregiver shall apply for a registry identification card renewal no less than forty-five calendar days prior to the expiration date of the existing registry identification card in order to prevent interruption of possession of a valid (unexpired) registry identification card.
11. Non-transferable registration of registry identification card: A registry identification card shall not be transferred, by assignment or otherwise, to other persons or locations. Any attempt shall result in the immediate revocation of the registry identification card and all lawful privileges provided by this rule and Act.
12. Automatic expiration of registry identification card by administrative withdrawal: Upon request the qualified patient or designated caregiver shall discontinue the medical marijuana program by an administrative withdrawal. A qualified patient or designated caregiver that intends to seek an administrative withdrawal shall notify the licensing authority in writing no less than thirty calendar days prior to withdrawal.

19-24-06. Addition of debilitating medical conditions.

1. Any citizen may petition the Department to add conditions or treatments to the list of debilitating medical conditions listed in subsection 7 of section 19-24-02.
2. The Department shall not add a condition or treatment to the list of debilitating medical conditions unless it finds that (1) the medical condition or treatment is debilitating and (2) marijuana is more likely than not to have the potential to be beneficial to treat or alleviate the debilitation associated with the medical condition or treatment.

3. Contents of the petition: In connection with any petition to add conditions or treatments to the list of debilitating medical conditions listed in subsection 7 of section 19-24-02, a petitioner shall provide the following information to the Department:
 - a. The extent to which the condition is generally accepted by the medical community and other experts as a valid, existing debilitating medical condition;
 - b. If one or more treatments of the condition, rather than the condition itself, are alleged to be the cause of the patient's suffering, the extent to which the treatments causing suffering are generally accepted by the medical community and other experts as valid treatments for the condition;
 - c. The extent to which the condition or treatments cause severe suffering, such as severe or chronic pain or severe nausea or vomiting, or otherwise severely impair the patient's ability to carry on activities of daily living;
 - d. The ability of conventional medical therapies other than those that cause suffering to alleviate suffering caused by the condition or treatment;
 - e. The extent to which evidence that is generally accepted among the medical community and other experts supports a finding that the use of marijuana alleviates suffering caused by the condition or treatment; and
 - f. Letters of support from physicians or other licensed health care professionals knowledgeable about the condition or treatment.
4. Evaluation of a petition.
 - a. Upon review of materials submitted in response to subsection 3 above, the Department shall make a determination as to whether the petition has merit.
 - b. A petition will be determined to have merit if it contains all of the material required in subsection 3 above and the debilitating condition that is the subject of the petition has not been considered through this process in the prior two years, unless significant, generally accepted, scientific discoveries have been made that are substantially likely to reverse the prior decision.
 - c. A decision that a petition does not have merit will be made in writing, stating the reason(s) it has been determined not to have merit and that it is the final decision, subject to judicial review.
 - d. A final decision on a petition determined to have merit will be made within one hundred eighty days of receipt of the petition in response to the following process.
 - (1) The Department will post the complete petition on the department's website for a sixty-day public comment period.
 - (2) The Department will post notice of a public hearing no fewer than ten days prior to the public hearing.

- (3) The Department will hold a public hearing within the sixty-day public comment period.
 - (4) After the public hearing and closure of the sixty-day public comment period, the Department will review the petition and comments. During this review, the Department may conduct additional research, including consultation with additional experts.
 - (5) The Department of Health will draft a written decision on whether to grant the petition and add the debilitating medical condition for review and ultimate decision by the State Health Officer. This written decision will be detailed enough to provide the specific grounds and references to support the decision. The State Health Officer will issue the final decision on the petition.
 - (6) If the petition to add a debilitating medical condition is granted, draft regulations adding the condition to subsection 7 of section 19-24-02 will be drafted and published in response to the Administrative Agencies Practice Act process.
5. The approval or denial of any petition is a final decision of the Department subject to judicial review. Jurisdiction and venue are vested in the district court.

19-24-07. Registration and operation of compassion centers.

1. Requirements for operation of a compassion center.

A compassion center need not be recognized as a tax-exempt organization by the Internal Revenue Service and is not required to incorporate in response to title 8; however, a compassion center shall maintain appropriate documentation of its not-for-profit status, and such documentation shall be available for inspection in response to subdivision g of subsection 2 of section 19-24-07 of these regulations.

 - (b) Immediate automatic or electronic notification to local or municipal public safety personnel of a loss of electrical support backup system; and
 - (c) When appropriate, the security system shall provide protection against theft or diversion that is facilitated or hidden by tampering with computers or electronic records.
- (2) A compassion center shall conduct a maintenance inspection/test of the alarm system for each authorized location at intervals not to exceed thirty days from the previous inspection/test. A compassion center shall promptly make all necessary repairs to ensure the proper operation of the alarm system.
- (3) In the event of a failure of the security system, due to loss of electrical support or mechanical malfunction, that is expected to exceed an eight-hour period, a compassion center shall:
 - (a) Within twenty-four hours of discovery of the event, notify the Department by telephone; and
 - (b) Provide alternative security measures approved by the Department or close the authorized physical address(es) impacted by the failure/malfunction until the security alarm system has been restored to full operation.
- (4) A compassion center shall maintain documentation in an auditable form for a period of at least twenty-four months after the event for:
 - (a) All maintenance inspections/tests conducted in response to subparagraph 2 of subdivision b of subsection 2 of section 19-24-07 of these regulations, and any servicing, modification or upgrade performed on the security alarm system. The record shall include, as a minimum, the date of the action, a summary of the action(s) performed and the name, signature and title of the individual who performed the action(s);

INITIATED MEASURES DISAPPROVED

CHAPTER 454

VETERANS' TOBACCO TAX TRUST FUND

This initiated measure would provide for a new veterans' tobacco tax trust fund in North Dakota Century Code Chapter 37-14 to fund certain veterans' programs. This fund, among others, would be supported by an increase in the excise tax on cigarettes from \$0.44 to \$2.20 per package of twenty cigarettes, as well as an increase in the excise tax on cigars from 28% to 56% of the wholesale purchase price at which the product is purchased by distributors. The excise tax on all other tobacco products is increased a commensurate amount. The measure also would create an inventory tax on cigarettes and tobacco products. All revenues received by the tax commissioner under this measure would be allocated among the State's general fund, the veterans' tobacco trust fund, and the community health trust fund. The measure would create and amend provisions in Chapter 57-36, including new definitions for inhalation devices, liquid nicotine, and tobacco products; prohibiting retailers from being distributors and requiring distributors to keep additional records; setting requirements for registration of liquid nicotine retailers; and regulating the alteration of liquid nicotine. Finally, the measure would repeal two provisions of current law related to an excise tax on cigarettes and the exemption for taxes on cigarettes and tobacco products given to occupants of the State's veterans' home and the state hospital.

CHAPTER 458

CRIME VICTIM RIGHTS

This initiated constitutional measure would add a new section to Article I of the North Dakota Constitution which would provide certain rights to victims of crime in this state, including the right to be treated with respect, to be free from harassment, and to be protected from the accused. The measure would provide for the right to prevent the disclosure of confidential information about the victim; to refuse or limit questioning of the victim; to notice of, and presence at, court proceedings; and to notice of release or escape of the accused. The measure would provide for the right to be heard in court proceedings, to provide information about the impact of the offender's conduct, and to receive reports relevant to these rights. The measure would provide for the right to restitution from an offender for losses suffered as a result of criminal conduct; to be informed of the outcome of the case and of the detention or other disposition of the offender; and to be informed of, and participate in, post-judgment processes.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF NORTH DAKOTA:

SECTION 1. A new Section to Article I of the North Dakota Constitution is created and enacted as follows:

To preserve and protect the right of crime victims to justice, to ensure crime victims a meaningful role throughout the criminal and juvenile justice systems, and to ensure that crime victims' rights and interests are respected and protected by law in a manner no less vigorous than the protections afforded to criminal defendants and delinquent children, all victims shall be entitled to the following rights, beginning at the time of their victimization:

The right to be treated with fairness and respect for the victim's dignity.

The right to be free from intimidation, harassment and abuse.

The right to be reasonably protected from the accused and any person acting on behalf of the accused.

The right to have the safety and welfare of the victim and the victim's family considered when setting bail or making release decisions.

The right to prevent the disclosure of information or records that could be used to locate or harass the victim or the victim's family, or which could disclose confidential or privileged information about the victim, and to be notified of any request for such information or records.

The right to privacy, which includes the right to refuse an interview, deposition or other discovery request made by the defendant, the defendant's attorney, or any person acting on behalf of defendant, and to set reasonable conditions on the conduct of any such interaction to which the victim consents. Nothing in this section shall abrogate a defendant's Sixth Amendment rights under the United States Constitution nor diminish the State's disclosure obligations to a defendant.

The right to reasonable, accurate and timely notice of, and to be present at, all proceedings involving the criminal or delinquent conduct, including release, plea, sentencing, adjudication and disposition, and any proceeding during which a right of the victim is implicated.

The right to be promptly notified of any release or escape of the accused.

The right to be heard in any proceeding involving release, plea, sentencing, adjudication, disposition or parole, and any proceeding during which a right of the victim is implicated.

The right, upon request, to confer with the attorney for the government.

The right to provide information regarding the impact of the offender's conduct on the victim and the victim's family to the individual responsible for conducting any pre-sentence or disposition investigation or compiling any pre-sentence investigation report or recommendation regarding, and to have any such information considered in any sentencing or disposition recommendations.

The right, upon request, to receive a copy of any report or record relevant to the exercise of a victim's right, except for those portions made confidential by law or unless a court determines disclosure would substantially interfere with the investigation of a case, and to receive a copy of any pre-sentence report or plan of disposition when available to defendant or delinquent child.

The right, upon request, to the prompt return of the victim's property when no longer needed as evidence in the case.

The right to full and timely restitution in every case and from each offender for all losses suffered by the victim as a result of the criminal or delinquent conduct. All monies and property collected from any person who has been ordered to make restitution shall be first applied to the restitution owed to the victim before paying any amounts owed to the government.

The right to proceedings free from unreasonable delay, and to a prompt and final conclusion of the case and any related post-judgment proceedings.

The right, upon request, to be informed of the conviction, adjudication, sentence, disposition, place and time of incarceration, detention or other disposition of the offender, any scheduled release date of the offender, and the release of or the escape by the offender from custody or commitment.

The right, upon request, to be informed in a timely manner of all post-judgment processes and procedures, to participate in such processes and procedures, to provide information to the release authority to be considered before any release decision is made, and to be notified of any release decision regarding the offender. The parole authority shall extend the right to be heard to any person harmed by the offender.

The right, upon request, to be informed in a timely manner of any pardon, commutation, reprieve or expungement procedures, to provide information to the Governor, the court, any pardon board and other authority in these procedures, and to have that information considered before a decision is

made, and to be notified of such decision in advance of any release of the offender.

The right to be informed of these rights, and to be informed that victims can seek the advice of an attorney with respect to their rights. This information shall be made available to the general public and provided to all crime victims in what is referred to as a Marsy's Card.

The victim, the retained attorney of the victim, a lawful representative of the victim, or the attorney for the government upon request of the victim may assert and seek enforcement of the rights enumerated in this section and any other right afforded to a victim by law in any trial or appellate court, or before any other authority with jurisdiction over the case, as a matter of right. The court or other authority with jurisdiction shall act promptly on such a request, ensuring that no right is deprived without due process of law, and affording a remedy by due course of law for the violation of any right. The reasons for any decision regarding disposition of a victim's right shall be clearly stated on the record.

The granting of these rights to victims shall not be construed to deny or disparage other rights possessed by victims. All provisions of this section apply throughout criminal and juvenile justice processes and are self-enabling. This section does not create any cause of action for damages against the State, any political subdivision of the State, any officer, employee, or agent of the State or of any of its political subdivisions, or any officer or employee of the court.

As used in this section, a "victim" is a person who suffers direct or threatened physical, psychological, or financial harm as a result of the commission or attempted commission of a crime or delinquent act or against whom the crime or delinquent act is committed. If a victim is deceased, incompetent, incapacitated, or a minor, the victim's spouse, parent, grandparent, child, sibling, grandchild, or guardian, and any person with a relationship to the victim that is substantially similar to a listed relationship, may also exercise these rights. The term "victim" does not include the accused or a person whom the court finds would not act in the best interests of a deceased, incompetent, minor or incapacitated victim.

WHEREAS, the founders of the United States Constitution empowered state legislators to be guardians of liberty against excessive use of power by the federal government; and

WHEREAS, the federal government has created a crushing national debt through improper and imprudent spending; and

WHEREAS, the federal government has ceased to operate under a proper interpretation of the United States Constitution; and

WHEREAS, the federal government has invaded the legitimate roles of the states through the manipulative process of federal mandates, most of which are unfunded to a great extent; and

WHEREAS, it is the solemn duty of the states to protect the liberty of our people, particularly for the generations to come, by proposing amendments to the United States Constitution through a convention of the states under Article V for the purpose of restraining these and related abuses of power;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Sixty-fifth Legislative Assembly urges the Congress, under the provisions of Article V of the United States Constitution, to call a convention of the states limited to proposing amendments to the United States Constitution which impose fiscal restraints on the federal government, limit the power and jurisdiction of the federal government, and limit the terms of office for its officials and for members of Congress; and

BE IT FURTHER RESOLVED, that this application constitutes a continuing application in accordance with Article V of the United States Constitution until the legislatures of at least two-thirds of the several states have made applications on the same subject; and

BE IT FURTHER RESOLVED, that the Legislative Assembly adopts this application expressly subject to the following reservations, understandings, and declarations:

1. An application to the Congress of the United States to call an amendment convention of the states pursuant to Article V of the United States Constitution confers no power to Congress other than the power to call such a convention. The power of Congress to exercise this ministerial duty consists solely of the authority to name a reasonable time and place for the initial meeting of a convention;
2. Congress shall perform its ministerial duty of calling an amendment convention of the states only upon the receipt of applications for an amendment convention for the substantially same purpose as this application from two-thirds of the legislatures of the several states;
3. Congress does not have the power or authority to determine any rules for the governing of a convention for proposing amendments called pursuant to Article V of the United States Constitution. Congress does not have the power to set the number of delegates to be sent by any state to such a convention, nor does it have the power to name delegates to such a convention. The power to name delegates remains exclusively within the authority of the legislatures of the several states;
4. By definition, an amendment convention of the states means that states shall vote on the basis of one state, one vote;
5. A convention for proposing amendments convened pursuant to this application must be limited to consideration of the topics specified herein and no other. This application is made with the express understanding that an amendment that in any way seeks to amend, modify, or repeal any provision of the Bill of Rights is not authorized for consideration at any stage. This application is void ab initio if ever used at any stage to consider any change to any provision of the Bill of Rights;
6. Pursuant to Article V of the United States Constitution, Congress may determine whether proposed amendments must be ratified by the legislatures of the several states or by special state ratification conventions. The Legislative Assembly recommends Congress select ratification by the legislatures of the several states; and
7. The Legislative Assembly may provide further instructions to its delegates and may recall its delegates at any time for a breach of a duty or a violation of the instructions provided; and

BE IT FURTHER RESOLVED, that the Secretary of State forward copies of this resolution to the President and Secretary of the Senate and the Speaker and Clerk of the House of Representatives of the Congress, each member of the United States Congressional Delegation from North Dakota, and the presiding officers of each house of the legislatures of the several states, requesting their cooperation.

WHEREAS, recognition of the value and enduring role of fossil fuels as an essential source of energy around the world and in the United States for decades to come has led environmental advocates to support the accelerated development and broad deployment of carbon capture technologies for fossil fuels as part of a sustainable energy future; and

WHEREAS, North Dakota has at least an 800-year supply of economically recoverable lignite coal at current production rates and has become the second largest oil producer in the United States; and

WHEREAS, these energy resources have resulted in North Dakota having the fourth lowest energy costs in the nation; and

WHEREAS, the North Dakota lignite industry generates over seventy-five percent of the electricity in the state and provides affordable electricity to more than two million families throughout the upper midwest; and

WHEREAS, the lignite coal industry contributes more than 3.4 billion dollars in total business activity to North Dakota; and

WHEREAS, the lignite coal industry employs fifteen thousand individuals with some of the highest wages in the state; and

WHEREAS, economic analysis by the North Dakota State University agribusiness and applied economics researchers estimates a new five hundred megawatt, coal-based electric generating facility would create 54.3 million dollars in personal income, 40 million dollars in retail sales, and 173.7 million dollars in total business activity each year; and

WHEREAS, the current value of the state's existing coal-based infrastructure is 18.6 billion dollars; and

WHEREAS, state tax revenues attributed to the lignite industry have increased from 61.4 million dollars in 2000 to over 100 million dollars in 2015; and

WHEREAS, current federal regulations represent a de facto ban on the construction of new, efficient, and cost-effective coal-based power plants and threaten the continued operation of existing coal-based power plants; and

WHEREAS, federal policy gives other electric generation resources a significant competitive advantage; and

WHEREAS, uncertainty around federal regulations continues to discourage investment in coal-based facilities; and

WHEREAS, North Dakota continues to serve as a model for responsible production of its natural resources, including a longstanding standard of reclaiming mined land to as good or better than before mining; and

WHEREAS, North Dakota continues to be one of only seven states meeting all federal ambient air quality standards; and

BE IT FURTHER RESOLVED, that the federal government is urged to withdraw and revise regulations and other administrative actions that negatively impact the ability to utilize North Dakota's lignite coal reserves for affordable and reliable domestic power; and

BE IT FURTHER RESOLVED, that the federal government is urged to work with the state, the North Dakota Congressional Delegation, and the North Dakota lignite industry to design and implement regulatory programs based on sound science with inputs from local sources, recognize the status of existing technology, and develop timelines that make economic sense for the producers and consumers of electricity and byproducts derived from North Dakota lignite; and

BE IT FURTHER RESOLVED, that the federal government is urged to increase its partnership with the state of North Dakota and industry to develop technological solutions to enable the continuation of lignite-based electric generation; and
