B. A. I. Administrative Notice 1 Issued December 22, 1939
Effective on and after January 2, 1940

UNITED STATES DEPARTMENT OF AGRICULTURE
BUREAU OF ANIMAL INDUSTRY

Sec. 71.11 ^{1/} Cresylic disinfectant as permitted disinfectant; specifications. The following specifications will be employed for determining the suitability of cresylic disinfectant for use under the provisions of B. A. I. Order 309, regulation 1, section 6, paragraph 2, item 3: ^{2/}

(a) The product shall remain a uniform liquid when held at 0° C. (32° F.) for 3 hours (chill test).

(b) The product shall dissolve completely in 30 parts of distilled water at 25° C. (77° F.) within 2 minutes (solution-rate test), producing a solution entirely free from globules and not more than faintly opalescent (solubility-degree test).

(c) The product shall contain not more than 25 percent of inert ingredients (water and glycerin), not more excess alkali than the equivalent of 0.5 percent of sodium hydroxide, and not less than 21 percent of soap exclusive of water, glycerin, and excess alkali.

(d) The product shall contain not less than 50 percent and not more than 53 percent of total phenols. It shall contain less than 5 percent of benzophenol (C₆H₅OH).

The methods of determining compliance with the above specifications will be those described in United States Department of Agriculture Bulletin 1308, Chemical and Physical Methods for the Control of Saponified Cresol Solutions, so far as they are applicable.

Any suitable glyceride, fat acid, or resin acid may be used in preparing the soap, but not all are suitable nor are all grades of a single product equally suitable. Also various grades of commercial cresylic acid differ in suitability. Therefore, manufacturers are cautioned to prepare a trial laboratory batch from every set of ingredients and to prove its conformity with specifications (a) and (b) above, before proceeding with manufacture on a factory scale.

^{1/} The numbering of the sections of B. A. I. Administrative Notices conforms to the numbering of title 9, chapter I, of The Code of Federal Regulations.

This notice, which is based on B. A. I. Order 309, regulation 1, section 6, paragraph 2, item 3, as amended by amendment 4 dated November 15, 1939, shall be effective on and after January 2, 1940. It supersedes Circular Letter 1369. The specifications herein differ from those contained in Circular Letter 1369 in that the name of the product and the minimum specifications therefor now conform with Commercial Standard CS71-38 of the National Bureau of Standards.

J. R. Mohler,
Chief of Bureau.
