

FIFTY-FIFTY FEDERAL STATE SPLIT

ON SOLDIERS' BONUS SUGGESTED

Twenty-Seven Out of Forty-Eight States Willing to Give Bonus.

Not Certain President Could Be Won Over to Plan.

Executive Favors Bonus in Principle, But Objects to Debt Increase.

By DAVID LAWRENCE.
Special Leased Wire to The Duluth Herald, Copyright, 1922.
Washington, Nov. 18.—(Special.)—The executive and soldier bonus were of sufficient importance in the last election as to be considered today by political Washington as the leading domestic issue before the country. President Harding has hinted that there is a shifting of views on prohibition and there are rumors that he himself will be voting against it on the bonus.

Authorized spokesmen for the president say he will veto any bill passed by congress similar to the one put up by him earlier this year. But before that time comes something concrete in the way of a bonus proposal may be made. The executive has not yet mentioned in the past to be read in congress. The president's position in the past is not determined, but there are many among the president's advisers who are taking the view that the bonus is the matter of adjusted compensation for the soldiers and their families, and that the president should support it.

The latest suggestion which has been put forward is that the bonus be paid in 1923. It is not clear that Mr. Harding will be won over to it. It is not clear that the executive will support it. The executive is divided according to the needs of the states.

Twenty-seven states favor the bonus. Twenty-seven states are willing to give bonuses. Last week, Illinois, Indiana, Kansas, Louisiana and California voted soldier bonuses. Seventeen states acted affirmatively. Maine, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, New Hampshire, New Jersey, North Dakota, Ohio, Oregon, Rhode Island, South Dakota, Vermont, Washington and Wisconsin. In addition Colorado, Connecticut, Delaware, Florida, Georgia, Idaho, Iowa, Kansas, Kentucky, Louisiana, Maine, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, New Hampshire, New Jersey, North Dakota, Ohio, Oregon, Rhode Island, South Dakota, Vermont, Washington and Wisconsin.

President Harding is in favor of the bonus in principle. His whole attitude has been to give the bonus. He has not yet decided to add to the national debt. He has not yet decided to add to the national debt.

SENATOR CAPPER OFFERS PROGRAM

Wants Constructive Legislation; Opposes Ship Subsidy.

Washington, Nov. 18.—A program of constructive legislation was outlined today by Senator Capper, Republican of Kansas, in a statement today on his return from the opening of congress.

If the Republican party is to continue in power, said Senator Capper, it must finish a constructive program including the following: "It must carry out the policy for a better system of marketing."

"It must pass a constitutional amendment prohibiting tax-exempt securities."

Other items on Senator Capper's program were passage of the "truth in buying and selling" bill, further reductions in government expenses and taxes and steps to promote European recovery and to establish foreign markets.

SULTAN'S FLIGHT HELD AS A CAUTION OF CALIPHATE

KEENALISTS ROUSED BY ESCAPE WITH AID OF BRITISH

Guard Upon the Turkish Ministers More Vigilant.

Angora Urged to Make Sultan's Cousin New Caliph.

Constantinople, Nov. 18.—(Special.)—The Turkish Nationalists considered that Sultan Mohammed VI by his flight has surrendered the caliphate, according to Rafet Pasha, Kemalist governor of Constantinople.

"According to the Muslim law," he said in his communication "when the sultan leaves Turkish soil and enters Christian territory, he places himself under Christian protection and thereby loses the caliphate, ceasing to retain any authority over the Muslims."

Muhammad's departure on the British dreadnaught Malaya in the face of a threatened trial for treason by the government, was compared by Rafet Pasha to the flight of Damad Ferid Pasha, former grand vizier, and the other "members of the opposition, who by their acts were compromised in the eyes of the whole Turkish nation."

Keenalist deputies in the Italian Chamber Unsubdued.

Rome, Nov. 18.—(Special.)—The Italian Chamber of Deputies today took measures to guard the famous palace against the possibility of a coup d'etat by the sultan and his predecessors from world monarchs since the time of the prophet.

Messages from Angora state the determination of the grand vizier to place the sultan and his cabinet on trial was based on its declaration that they were guilty of crime against the Angora government in accepting the Allies' invitation to participate in the Lausanne peace conference.

Following the receipt of the invitation by the sultan's government, the grand vizier suggested that delegates from the Angora government meet representatives of the sultan's government for the purpose of arranging a program preliminary to the conference. The sultan's government refused to accept this proposal.

Rafet Pasha, the Nationalist governor, has sent a message to Angora urging immediate convocation of the great national assembly to select a new caliph. The most likely candidate for the caliphate is considered to be Abdul Medjid, cousin of the sultan and heir to the Ottoman throne.

Others, however, feel that by holding the present chamber in the hollow of his hand and flourishing the weapon of "dissolution" over its head, Mussolini can rule more easily than with a parliament having a solid majority.

It is pointed out that the authority to dissolve parliament granted Mussolini by the king applied to the present body alone, and that he would probably not receive similar power with a new chamber, as the king, like his predecessors, is jealous to retain a prerogative which is only granted as a last resource.

Prior to the debate Mussolini had announced that he would allow only eleven deputies—one from each group—to address the chamber. Fifty-three members had desired to be heard. Hardly had the eleventh man concluded his speech when the speaker's feet and began replying to interpellators.

JAMAICAN STATION MASTERS ON STRIKE

By R. W. THOMPSON.
Special Cable to The Duluth Herald and Chicago Daily News, Copyright, 1922.
Kingston, Nov. 18.—At midnight the station masters of the Jamaica government railway quit work, seriously inconveniencing the public.

The former ruler of the Turks was despised by friends, servants and body guards. He carried with him only two boxes and these are believed to have contained valuable worth millions of dollars. Under present circumstances he felt that his life in the palace was not secure.

The Turk Nationalists recently have tried to reassure the ex-sultan that so long as he lived quietly in the palace he need fear no harm. The sultan knew, however, that the Nationalist assurances were unreliable. He felt that the moment of his arrest was approaching.

It was announced Thursday that Friday's prayers would be held with the usual ceremony and the sultan ordered that the necessary measures be taken to insure the safety of the remaining friends he arranged an escape past the Nationalist spies surrounding the palace. The British destroyer to avoid a conflict, promised Mehmet protection as soon as he left the palace and the former Turkish ruler arrived safely on the British ship, where he was received with all the honors due a monarch. He abandoned temporarily the throne of his ancestors but declared that he would return at the earliest opportunity.

CAPT. ALEXANDER McDUGALL INVENTS UNIQUE COAST DEFENSE FREIGHT BOAT; WILL OFFER PLAN TO U. S.

A freighter that can be converted into a coast fortification in time of war is the invention of Capt. Alexander McDougall, pioneer Duluth inventor and capitalist.

Washington has granted Capt. McDougall a patent on his invention and within a short time he plans to give demonstrations with a miniature exhibit before army and navy officials at the national capital.

Capt. McDougall will offer his entire plan to the United States government, he announced yesterday.

Capt. McDougall's new ship is so constructed that it will serve as an ordinary freighter in times of peace, but can be run onto the beach alongside the nation's coast lines and burrow into the ground. Provision is made for mounting guns on the deck of the boat and the vessel becomes a coast defense fort on a miniature scale. Hundreds of these freighters buried in the sands along America's coast would preclude any possible attack by enemy ships, according to Capt. McDougall.

NOIS WELCOME TO CLEMENCEAU GIVEN BY COOPERFUL FLEET

Smiles Wreath Face of "Tiger" Standing on Bridge of Paris.

POLICE RESERVES OUT

Plans Made to Handle Huge Crowds Waiting for Landing.

(By the Associated Press.)
New York, Nov. 18.—Clemenceau, Premier of France, stood on the bridge of the Paris, steaming up New York bay this morning, his face aglow with smiles as he watched the approach of a colorful welcoming fleet, in acknowledgment of the first noteworthy mission of winning America for France.

Representatives of this country and his own went down the bay this morning to greet "the Tiger of France," who has come on a self-imposed mission of winning America for France.

The grizzled ex-premier alighted from the Paris shortly after midnight and was met at the customs boat this morning.

Clemenceau, according to reports from the Paris, was met at the home of Charles Dang Gibson, where he will reside while in New York.

Clemenceau will make his first stop to interpret France to America in an address Tuesday night at the Metropolitan opera house. He will arrive in New York next Thursday. Other cities on his itinerary are Chicago, Springfield, Ill., St. Louis, Washington, Baltimore, Annapolis and Philadelphia.

WOMEN OF KEYSTONE STATE FIND WAY OF DODGING TAX PAYING

By DAVE FEINBERG.
Special Leased Wire to The Duluth Herald, Copyright, 1922.
Harrisburg, Pa., Nov. 18.—(Special.)—The women of the Keystone state are making trouble again. This time she promises to cost the school fund a large sum of money. All because it has been discovered that, unless the women themselves consent to pay the per capita tax, which varies from \$2 to \$5 a year in the different parts of the state, they will not consent to pay the tax.

Far back in Pennsylvania annals when women voters and radio were unknown, there came a time when the state statute books a law protecting women from imprisonment for debt. Long since it was forgotten. Today it has been revived throughout the state. Nearly 80 per cent of the million and a half women of the state paid the per capita tax levy to the collectors in 1921.

This money went with the rest of the 19 per cent of the state tax which has put Pennsylvania in a first place as an educational commonwealth. The 19 per cent did not go to the schools. It went to the state treasury to collect were in delinquency to face jail if they did not come through.

MOTHER DIES IN VAIN EFFORT TO SAVE SON FROM BLAZING HOME

Hurley, Wis., Nov. 18.—(Special.)—Mrs. S. J. Seldwick, mother of a burning home early this morning to save her 5-year-old son, Mrs. Joe Seldwick, 56, of Hamilton, near here, was overcome by smoke and burned to death with the boy. Mrs. Seldwick was found with the body of her son clasped to her breast.

Charlotte, N. C., Nov. 18.—(Special.)—The fire started shortly before 6 o'clock after Mrs. Seldwick had lit a fire in the stove and left to milk a cow in the stable in the rear of her home. When she heard the commotion in the house, she rushed back and found it enveloped by flames. A kerosene lamp is believed to have exploded.

FORESEE AMERICAN PACT WITH TURKS

Washington, Nov. 18.—(Special.)—Negotiation of a treaty with the Turkish Nationalist government is foreseen by the American government, and the part to be taken by the American officials observers at the coming Near East conference at Lausanne is expected in official circles here to pave the way for a successful outcome of such negotiations.

Discussion of the part the American government is to take in the Lausanne meeting brought forth the statement on highest authority that the conference of the United States would not be limited to the receipt of the reports and the gathering of information.

The American representatives, it was asserted, would not participate in the determination of territory, but when such objects as equality of trade, the protection of American citizens and the safety of racial and religious minorities—subjects of interest to the United States—are deeply interested—came before the conference the American representatives would not be limited to the receipt of the reports and the gathering of information.

Outstanding Giant of American Business

He revolutionized his own industry and may yet revolutionize others. He has created a manufacturing and sales system which has made him probably the only billionaire in the world. He has the largest scrapheap of able executives known to modern business.

Only one man answers the description—it is Henry Ford.

Inside Story of Henry Ford

has been written. Not by Ford's own pen or by a writer who gathered his material through the Ford publicity department, but by the one man best qualified to do it—Dr. S. Marquis, Henry Ford's pastor, intimate friend and former business associate. Read his scrupulously able executive story of Henry Ford's astonishing business methods, of the inner workings of the Ford motor plant, of the public he really never known. This story answers almost any question that you have ever asked about Henry Ford. Being in

THE HERALD ON MONDAY

BIG BUTTER-PRODUCING CONCERN TO ESTABLISH PLANT IN DULUTH

COST-PLUS BASIS FOR NEW BUILDING NOW CONSIDERED

Uncertainty of Costs Forcing Some Contractors to Demand Plans.

WAGE SCALE VARYING

Speculative Builders Are Kidnaping Men From Other Jobs.

Duluth has been selected for a branch manufacturing plant and Northwest distributing point of the Blue Valley Creamery company of Chicago, one of the largest butter producing firms in the United States.

This announcement was made today by A. Miller McDougall, president of the McDougall Terminal company, following the signing of a long-term lease on a building to be erected on the Blue Valley Terminal by Capt. Alexander McDougall, Duluth capitalist, immediately adjacent to the McDougall warehouse now under construction.

The plant will have an annual capacity of 5,000,000 pounds of butter. The coming of the big creamery company to Duluth is taken as a forecast of the many industries and manufacturing concerns that will be attracted to this city in the immediate future because of the large terminal facilities that will be afforded by the McDougall company, with its immediate possession and start the manufacture of butter, the only product of this kind.

Contracts for the creamery branch have already been let and construction work was started. The work plans call for the completion of the building by Feb. 1, at which time the Blue Valley Creamery company will take immediate possession and start the manufacture of butter, the only product of this kind.

Such uncertainty exists as to building costs and probable prices for materials that the contractor's viewpoint is the cost of labor. Wilson Compton, secretary-manager of the National Lumber Manufacturers' association, declared today that labor costs in the building trades had advanced 30 per cent in the last six months. Fifteen dollars a day for masons, bricklayers and plasterers is quite common, he declared. In this city as high as \$30 a day has been paid to skilled tradesmen in the building trades.

Contractors, however, would not object to a guarantee of profit to make a thorough tour of Minnesota for the purpose of selecting a suitable region of country for the finished product. Officers of the company predict that Duluth will become one of the greatest butter producing centers in America.

Why Duluth Was Chosen

The W. T. C. endeavor stands without a peer as the best town in Minnesota in which to operate a creamery.

Chicago, Nov. 18.—Forty-one engine companies are to fight fire in the heart of the skyscraper, where the front part of a four-story building is burning from top to bottom, killing departments of Armour & Co. was notified by flames.

Armour officials said they believed about 600 men perished.

The fire broke out on the second floor and spread rapidly. The front part of the building from top to bottom was soon in flames. The rapid progress was attributed to the grease-soaked interior.

Fire department officials said they believed the fire was caused by spontaneous combustion.

WOMEN WORKING FOR PROHIBITION

Over 100,000 New Members for Societies Opposed to Liquor.

Philadelphia, Nov. 18.—Ten million women are working through various nonpartisan organizations to prevent the passage of anti-prohibition legislation. Mrs. Frances P. Parks, corresponding secretary of the National W. T. U., said in her report before the convention of the organization. Besides the W. T. U., these organizations include the Women's Trade Union League, the Mothers' congress, the Parent-Teachers' association, the General Federation of Women's Clubs, the Association of University Women and the League of Women Voters, according to Mrs. Parks.

"We have a record of more than 100,000 new women who have enrolled in local unions since March, 1920," she continued. "The organization map of the United States is wonderfully illuminated by 1,174 bright red dots indicating the location of 1,424 local unions organized since March, 1920. This number would be much greater, no doubt, but for the absorption of New Jersey and some other states in activities which have prevented the revision of state spot maps to show the new local organizations."

The handsome silver cup awarded annually to the corresponding secretary who makes the best report on the membership campaign in her state goes to Miss Epa Marshall, Illinois. Three plans out of many proved very successful in the Illinois campaign."

MAY GAIN STREET CAR EXTENSIONS

President Harper, Chamber of Commerce, Making Efforts for Settlement.

Three street car extensions are in prospect for Duluth with the settlement of all differences between the city officials and the Duluth Street Railway company.

This assurance is given by James H. Harper, president of the Chamber of Commerce, in communications mailed yesterday to Mayor Sively and the city commissioners and to Oscar Mitchell, of Washburn, Bailey & Mitchell, attorneys for the traction line, inviting them to co-operate with the newly appointed street car committee authorized at the meeting of the chamber directors yesterday.

The extensions, which the street car company is willing to complete as soon as all differences with the city are settled and no longer hanging fire, are on the Kenwood, the Sibley and Woodland lines. Petitions requesting these extensions have been filed by residents in the various localities now without adequate street car service and the city commissioners have on several occasions ordered the improvements completed.

Suits Adversely Affecting. It is understood that court litigation, now pending, in addition to several other matters disputed by both the city commissioners and traction line officials, is affecting the company's bond market in the East, preventing extensions until all these matters are settled.

Yardwork plans for the extension covered by the traction company include: Kenwood line from its present terminus at Kenwood avenue and Fifth street to St. Marie street; East Ninth street line from its terminus at Tenth street to Kenwood and Ninth street to Wallace avenue; and the Woodland avenue line, from the end of Woodland avenue along the Calvary road to the city limits.

Letters also were mailed yesterday by President Harper to the members of the special committee. These follow: Mr. Woodbridge, chairman; A. S. Smith, Charles East, D. Mahoney and Bentley F. Neff. This letter follows in part.

Get Them Together. "We do not have your work will involve going into the technical side of the question, but rather as a body which will bring the two sides together through negotiations, iron out the differences and reach a conclusion that will be fair to both sides."

Needs More Facilities. "Duluth is growing rapidly and our transportation facilities must be of fair convenience to our people. We need more street car service to meet the demands when the buses and automobiles are laid up for the winter, otherwise many pedestrians will be obliged to stand on street corners a cold morning and see snow crowded cars go by. Under no adjustment we understand, much back tax can be collected by the city, which it needs. It is the thing to do and at an early date."

Building Permits. George A. Wieland, 214 South First street, has been granted a permit to present building for utilities, 100 Anderson & 100 Fourth street. Terms addition to garage. Andrew Pedersen, 100 Fourth street, has been granted a permit to build a new frame dwelling, View avenue. Andrew Pedersen, 224 West Ninth street, has been granted a permit to build a new frame garage, 300 John Street.

Cost-Plus Basis for New Building Now Considered. "Contractors motor up to buildings, offer the men they want a higher wage and the merchants sell up to his new job about noon in a lifetime."

Masculine Appeal to Beauty Experts Arouses Women's Ire

Would Become Customers of Beauty Parlors Heretofore Sacred to Female Trade.

By LOUISE LANDIS. (By Special Licensed Wire to The Duluth Herald, Copyright, 1922, Pittsburgh, Pa., Nov. 18.—The barber who curled the chair in the barber shop to have her "crown of glory" bobbed, curled, shampooed and otherwise treated while suffering masculinity waited impatiently as the barber at home grew cold and exasperated.

They are not alone in their impatience. "Men seem to have learned for the first time that methods used in the care of women's skin and beauty shops from men who would make appointments for their hair or their faces. We, of course, cannot visit these shops exclusively to women. But other women of my profession have had similar experiences and some of them are dividing up their shops so that they can care for the trade of both sexes."

The innovation has, however, created a stir. One woman, who runs the most exclusive establishment at Sweskey, Pittsburgh's millionaire, who is holding up her hands in horror at the thought of male patrons, also admitted that a number of

FIFTY-FIFTY FEDERAL STATE SPLIT ON BONUS IS NOW SUGGESTION

(Continued from page 1.)

he has plainly feared the effects of piling the public debt higher. To impose the burden on the states or to share the debt with the states would not be the same as the original proposition and there is a chance that some plan of this kind would win executive favor.

Old Established Firm. The Blue Valley Creamery company is an old, established concern with general offices at Chicago and at its seventeen creameries is buying cream over a territory covering twenty-two states in the Middle West. This company had its origin in a small creamery on the banks of the Blue river in Kansas, thirty years ago. This is where the company gets its name and where the trade mark brand "Blue Valley Butter" was originated.

The present corporation was organized in 1900. During the last twenty-two years the business has grown by leaps and bounds. During the year 1921, 48,723,865 packages of Blue Valley butter were sold. In 1922 a further remarkable gain is reported, up to Nov. 1 the sales having made a gain of 15.2 per cent over the same period last year. A continuous campaign of local and national advertising is being carried on by the company, which has largely given credit for these rapid gains.

The establishment of this plant will serve as an outlet for an enormous volume of cream. This company follows the unique plan of buying its cream directly from each farmer, it being claimed that by so doing a better control of the cream is obtained than under the cream station plan, and as a consequence can produce a superior grade of butter. The farmer in return for his trouble is paid a high price for his cream.

Market for Producers. Negotiations for buying cream from producers in Minnesota, Wisconsin and Northern Michigan will be opened in the near future, it being possible for farmers to ship cream profitably within a radius of 800 miles from Duluth, according to officials of the company.

The Blue Valley Creamery company has seventeen branches located in the largest cities of the country, some of these being located at Chicago, New York, St. Louis, Cleveland, Detroit, Indianapolis, Milwaukee, Louisville and Kansas City.

It's Next Saturday Night—At the ARMOY. The Big Thanksgiving Ball! 2—ORCHESTRAS—2. Decide now to come for a glorious time. Dancing all the time from 9 until 1.

Nothing will be left undone to make it the most modern creamery in the Northwest. Mr. Guthrie stated before returning to Chicago, "The Blue Valley Butter" will be named within a few weeks, in addition to the personnel of the managing staff. Mr. McDougall said this morning.

There will no doubt be an attempt made to make the states shoulder the entire burden, but the American people would fight that tooth and nail as it means a long drawn out process without certainty of favor to action in the end. One cannot be too sure that the Federal government and a combined Federal government and state proposal but if President Harding got back of the plan and the Federal government passed legislation promising to do its part the Legion would probably feel that half a loaf was better than none and would assist in the campaign in the states.

Large creamery business. The transportation and shipping rates play an important part and great credit should be given to the enterprise, vision and energy of those Duluth business men who have brought Duluth into such a favorable position. Duluth is not only favored with a best line that will put Duluth in New York city at a lower rate than from any other Minnesota town, but it also has the advantage of very low cream shipping rates. With these undoubted economic advantages Duluth should become one of the greatest butter producing centers in America.

The Blue Valley Creamery company conducts a continued local and national advertising campaign. Its products being known in more than two-thirds of the states in the Union. When completed the building will be a two-story structure of brick and concrete, with 17,000 square feet of floor space and an annual capacity of 5,000,000 pounds of butter.

MEN WILL BE GIVEN GLIMPSE OF SCHOOL

Clubs Invited to Hold Luncheons at Schools Education Week.

The men of Duluth will have an opportunity to obtain a closer understanding of the work in public schools of the city during American Education week, Dec. 2 to 8. J. A. Starkweather, assistant superintendent of schools, said this morning.

The three luncheon clubs of the city, Rotary, Lions and Kiwanis, have been invited to hold their weekly meeting at one of the schools of the city. The meals to be prepared by the domestic science classes of the school, and entertainment furnished by the club and school societies.

Luncheon Places Assigned.
It has been arranged that the Kiwanis will meet at the Lincoln school, the Rotarians at Denfeld high and the Lions at the Lincoln junior high.

St. Louis county and Duluth schools, co-operating with the American Education and the state department of education will observe the week with appropriate programs.

In the rural schools teachers have been instructed to outline programs to be followed by the students. C. H. Barnes, superintendent, said. Special subjects will be discussed by the teachers.

SCOTTS WILL OBSERVE ST. ANDREW'S DAY NEXT WEDNESDAY; PROGRAM

The anniversary of St. Andrew, the patron saint of Scotland, will be celebrated by the St. Andrew's Episcopal church on Wednesday next with a concert and dance, in which the favor will be distributed. Scottish music will include a Scottish hymn, "The chieftain of the pudding race," which is being prepared by Mrs. Agnes Craddock, who recently came to Duluth from Argyll, Scotland.

The dance, which will be given by the old-time Scottish country dancers, such as the "The Piper's Pipe" and "The Scottish quadrille." The program will consist of vocal and instrumental selections given by the following: Mrs. E. F. Fuller, Miss Anne Bothwell, Miss Petra Hansen, William Mather and Sister James Tulloch. Master Innes Rieder will dance the Highland Fling in the tune of the bagpipes, played by his brother, David Rieder. Miss Margaret Mowbray will open the program.

The committee which has charge of this entertainment is A. G. McKnight, Robert Tulloch, Duncan McNeill, E. J. McLeod and Robert Ferguson.

GERMANS ORDERED TO MEET TREATY TERMS

Paris, Nov. 18.—The Allied powers, through the council of ambassadors, have informed Germany that the questions concerning the withdrawal of the military control commission in Germany have been suspended until the German government gives the fullest satisfaction for what are termed flagrant violations of the military clauses of the treaty of Versailles, committed during the last six months, and shows willingness to abide by the commission's instructions.

The note of the Allies was sent after the receipt of a German communication on the subject which was termed "insolent to a degree." In this communication Germany is said to have disregarded totally the long series of notes of complaint sent by the Allies and to have declared she was glad to leave the Allies were about to end their military control and permit Germany to revert to normal.

The note also ignored formal Allied representation to the Berlin government of Sept. 29, consequent on the large number of acts of aggression against the Allied military in their work of inspection.

The Allied note demands an apology and reparations for recent incidents at Passau and Stettin.

MASONIC SERVICE PROGRAM OUTLINED

Wash. City, Mo., Nov. 18.—A program of education, relief and Americanization was presented late yesterday to the Masonic Service association of the United States, in its annual session here by its executive committee, the governing body of the association.

In recommendations to the association, Andrew L. Handell, past grand master of the grand lodge of Texas and executive director of the association, included an endorsement of the program for education and permanent relief with reference to handling relief.

An appeal on behalf of a proposed national Masonic tuberculosis hospital was made by Francis B. Lester, past grand master of New Mexico. Thirty-five of the forty-nine grand jurisdictions of the Masonic order were represented at the meeting here.

Ray Settler Injured.
International Falls, Minn., Nov. 18.—(Special to The Herald.)—William Melius of Ray was brought to a local hospital on Monday evening suffering from injuries sustained when he was thrown from a tractor and dragged on the ground. After falling from the tractor his clothing was caught by a lever and he was dragged a considerable distance.

ASTHMA BIG FREE OFFR

I Will Even Prepay the Postage If You Will Make This Amazing Test.

I say positively that Asthma can be immediately controlled, no matter what age or what climate you live.

To prove this all I want is to send you this medicine, the wonderful success of which has spread all over the country. Simply send me your name and I will prepay charges on a regular size bottle of Lester's Asthma Prescription. Use it, ten days and then if satisfied with your improvement you may send me \$1.25. Otherwise you owe me nothing.

Doctors of medicine say this is different from anything else in the world and that well-stopped throats, cleared the head and lungs and gave.

Don't send a penny; don't pay a penny unless you find it right.

Write to: Lester's Asthma Prescription, 1885 S. W. Blvd., Roseland, Kans.

SECOND 10-CENT CONCERT AT C. H. S. IS REAL SUCCESS

About 200 people paid to hear the second of a series of 10-cent concerts given by the musical department of Central high school. The program was well received, Miss Mary Spear Bradshaw was received with enthusiasm. The Girls' Glee clubs were also well received, coming in for their share of applause.

Ernest Lachmund of the Kiwanis club was introduced. He delivered a short talk. Mr. Lachmund urged the pupils to take advantage of the opportunity offered them in the musical courses of the public schools. He also said that "the corps of music teachers is competent and thorough and of worthy of our support."

CURZON WILL AVOID CRY OF FREEDOM FOR THE DARDANELLES

(Special Cable to The Duluth Herald and Chicago Daily News. Copyright, 1922.)
London, Nov. 18.—Just before Lord Curzon departed for Paris yesterday the statement was made in an informal quarter that he intends to avoid any of David Lloyd George's old cries for freedom of the Dardanelles and the Bosphorus under the League of Nations.

The British foreign secretary will be satisfied with an agreement making the straits free for the passage of merchant vessels in peace and war, together with the demilitarization of the straits. He will insist that the Turkish capitulations remain in force until the whole problem is re-examined by a new international commission.

Lord Curzon is also expected to seek the appointment of another commission to protect the Christian minorities. Until the Lausanne conference reaches an agreement the British will not leave Constantinople.

GERMANS ASK MORE REPARATIONS RELIEF

Berlin, Nov. 18.—Germany has requested further relief from reparations. The request was made in the course of a hearing by the reparations commission on November 17. The German delegation said Germany would be unable to deliver more than 1,000,000 cubic meters of the material demanded by the Allies. The request was taken under consideration, but it is expected it will be refused.

WOMAN, DESPONDENT, ENDS LIFE IN LAKE

Despondency over ill health prompted Mrs. J. H. Suptin, 43 years old, 879 North Third street, to end her life by walking into the lake at the foot of Third street yesterday morning. The body was found in shallow water at 3 o'clock yesterday afternoon.

Mrs. Suptin disappeared some time between 3 and 4 o'clock in the morning and after a search by highly trained police.

Coroner Charles F. McComb conducted an investigation and pronounced it death by suicide.

You Cannot Hide Your Fat

Overfatness is the one misfortune you cannot hide from yourself or from those around you. If too thin, your dressmaker or tailor can supply the deficiencies, but the overfat carry the burden they cannot conceal. There is one sure way to reduce your weight rapidly and safely. The harmless Marmola Prescription, which changes the fatty tissues and fat-producing foods to solid flesh and energy, helps the general health and digestion, permits you to eat substantial food, and leaves the skin clear and smooth.

The Marmola Prescription is now condensed into tablet form. Each tablet contains an exact dose of the same harmless ingredients that made the original prescription capable of reducing the overfat body steadily and easily without the slightest ill effects. Take just one tablet after each meal and at bedtime until the normal weight is reached and the bodily health completely restored. Ask your druggist for Marmola Prescription Tablets or send one dollar to the Marmola Company, 4612 Woodward Ave., Detroit, Mich. The price the world over, and you will receive enough to start you well on the road to slimness and happiness.

SUFFERED WITH SEVERE ECZEMA

In Rash. Over Twelve Years. Cuticura Heals.

"I suffered for over twelve years from a very severe case of eczema. It broke out in a rash and the itching and burning were intense. I lost a great deal of sleep and rest and I was much distressed. From my feet to my knees I was covered with the rash.

"I was unable to find a cure until I tried Cuticura Soap and Ointment. I immediately found relief and I am now entirely healed after using four cakes of Soap and three boxes of Ointment." (Signed) A. R. Kirchhoff, 22 E. Grand Ave., Chicago, Ill.

Use Cuticura for all toilet purposes. Sample Book Free by Mail. Address: "Cuticura Laboratories, Dept. 9, Malden, Mass." Sold every where. Soap 25c, Ointment 50c and 10c. Talcum 25c. **Use Cuticura Soap shaves without wax.**

University of Minnesota

Prof. Blakey Says Students in English Universities Are at Least Two Years Ahead of Those in American Universities—Duluth Girls Selected by Sororities.

Minneapolis, Minn., Nov. 18.—(Special to The Herald.)—Students in English universities are at least two years ahead of those in American universities, and before the war the German student was from one to one and a half years ahead of the English students, is the message quoted from a prominent English educator, which Prof. Roy C. Blakey of the University of Minnesota has sent home from London, where he is spending a year's leave in study. Prof. Blakey is a member of the school of business faculty of the university.

The speaker was in close touch with American student life at four famous American universities, three of them in the Middle West, one in New England.

"If I ask an American student what he is doing," the Englishman told Prof. Blakey, he says: "Oh, I'm attending so many hours of lectures in the university. If I ask an English student the same question, he says: 'I'm reading five or six hours a day on such and such subjects.'"

A further illustration of much the same difference between English and American students is shown in the fact that winners of scholastic honors, debates and other intellectual contests are selected by athletic heroes much more in American students' opinions than in English.

Miss Gertrude Hanson, a 1922 graduate of Duluth Central high school, has been initiated into the Minerva Literary society.

Miss Elizabeth Teichertsen of Virginia was in charge of the candy booth for the annual Christmas bazaar and fair which Alpha Omicron Pi sorority gave at the Curtis hotel.

Phi Upsilon Omicron, honorary home economics sorority, announces the selection of Harmony Hutchinson, a 1913 Central graduate.

A national oratorical contest for American law schools will be undertaken by the citizenship bureau of the American Bar association. The contest will consist of public discussion of prescribed subjects in the fields of American constitutional government and good citizenship. At least four entrants must participate in a local contest to be held on Lincoln's birthday, Feb. 12. The winners in the local contest will go to a state contest to be held on the evening of Washington's birthday, Feb. 22. The winners in the state contest will then engage in one of eight district contests to be held on the evening of Flag day, April 14. District contests will be held on Patriots day, April 19, and the final national contests will occur at Washington on the evening of Memorial day, May 30.

Traveling expenses of the contestants will be prorated at the state, bi-district and national contests, and good watches of an especially designed dial representing the American Bar association will be awarded to first and second honor men at the place winners in the national contest. The first and second place winners in the national contest will be awarded cash prizes of \$1,000 and \$500, respectively.

The University of Minnesota has been selected as the first state university ever to entertain the Association of Urban Universities, which will meet here Nov. 23, 24 and 25. The fact that President L. D. Coffman of the University of Minnesota is president of the association figured in the decision to come to Minnesota, according to J. J. Pettijohn, assistant to the president, who said, however, that the success of the University of Minnesota among universities situated in large cities has had attracted attention. Winifred G. Leutner, dean of Western Reserve university, is president of the association and the College of the City of New York, is secretary and treasurer.

President Coffman will leave in a few days to attend meetings of the

MINNESOTA STATE HIGH SCHOOL FOOTBALL CHAMPIONS STACK THEIR MOLESKINS AND HELMETS; WILL HAVE FEAST

MINNESOTA STATE HIGH SCHOOL FOOTBALL CHAMPIONS STACK THEIR MOLESKINS AND HELMETS; WILL HAVE FEAST

THE CATHEDRAL HIGH SCHOOL FOOTBALL TEAM.

First row, left to right: Tommy Ryan, quarterback; June Carson, quarterback; and Richard Walsh, quarterback. Second row, left to right: William Metzger, backfield; Lawrence Montroy, backfield; John Benda, fullback; Capt. Micky Macdonnell, halfback; Eddie Suech, halfback; Warren Hudson, lineman; and Buddie D. Marco, guard. Third row, left to right: Frederick McNeill, guard; Irwin Bradley, center; James Aspos, tackle; Joseph Benda, end; Leo Sparling, end; Steve Bielli, tackle; Maurice Wright, lineman; and Coach Daniel M. Coughlin.

The Cathedral High School football team, which won the Minnesota state championship last year, is preparing for a week of rest and recuperation. The team, coached by Daniel M. Coughlin, is the only team in the state to have won the championship in two consecutive years. The team's record last year was 14-0-1, and they defeated the Duluth Central team in the state championship game.

ANNUAL BONSPIEL WILL BE STAGED WEEK OF AN. 22

Twenty-Four Duluth Rinks Will Take Part in Big Annual Games. GRAND CELEBRATION Mill City Folks Are Planning on Burning Much Red Fire.

By SANDY MACDONALD.

Duluth will see over 100 curlers to the annual Northwestern Curling Association bonspiel, which will be held in Minneapolis during the week of Nov. 22, according to an announcement made last evening by Alexander Macrae, association secretary, and one of the leading curlers in the curling sport in the Northwest.

The Duluth Curling club will send at least twenty rinks while the Western Curling club of West Duluth will send four. The curling season will be opened by Frank Wood, a high-class veteran of the rock and broom sport. His son, who is a pilot, was shot last summer by the Washington American league club by the Minneapolis team of the American Curling Association. The curling season will be opened by Frank Wood, a high-class veteran of the rock and broom sport. His son, who is a pilot, was shot last summer by the Washington American league club by the Minneapolis team of the American Curling Association.

CHAMPION PILOTS ARE HAVING BIG GAME AT BORDER

Rev. M. S. Rice and Gar Wood Have a Week in the Tall Tops.

By HERMON PETERSON.

Duluth sportsmen are awaiting the return from the tall and uncultured Rev. M. S. Rice and Gar Wood of Detroit, big game slayers, who went into the wilderness near the Canadian boundary early in the week and who are expected back late today.

Rev. M. S. Rice, former pastor of the First M. E. church of this city, is said to be a crack shot with a rifle, so he will probably come trooping home with a moose or deer carcass. Just how expert Mr. Wood is in handling a shooting rod is not generally known. His boast is that he was raised in Duluth in the days when the big game used to tramp along the main thoroughfares. It is reasonable to expect that he is at least a fair marksman.

YALE AND YAGERS EVERY MATCHED FOOTBALL CLASH

Second Game of "Big Three" Series Holds Center of Stage.

PRINCETON CONFIDENT MORE THAN 200,000 TICKETS REQUESTS RECEIVED; CAPACITY ONLY 55,000.

New York, Nov. 18.—The Tiger and the Bulldog hold the center of the Eastern football stage today in their game at Palmer stadium. Marking the second of this year's "Big Three" encounters and with the title claims of both Yale and Princeton depending on its outcome, the game promises to add a sensational chapter to the history of this gridiron classic.

WORLD'S CHAMPION CUEIST IS EASY MATCH FOR HOREMANS, BELGIAN.

World's Champion Cueist Is Easy Match for Horemans, Belgian. SCORE IS 500 TO 321

WILLIE HOPPE ONLY UNDEFEATED PLAYER; CONTI BEATS HAGENLACHER.

New York, Nov. 18.—(By the Associated Press.) World's champion cueist Willie Hoppe, defeated Jake Schaefer, Belgian, by the tally of 500 points to 321 in the ninth game of the 18.2 balkline billiard championship tournament at the Hotel Pennsylvania last night. The titleholder was careless and a bit slouchy about his billiards. He was not prepared to play the game with the concentration of the champion, who went down to defeat for the first time since he won the title a year ago at Chicago.

CENTRAL SENIORS DEFEAT JUNIORS

Upper Classmen Beat Youngsters 12 to 6 on Grid.

Senior class athletes of Duluth Central high school proved the victors in the game against the Junior class eleven at Athletic park yesterday afternoon, running up the score of 12 to 6. A few weeks ago the same teams played a 6-to-6 tie game. The seniors yesterday proved masters of the situation throughout the contest, featuring a basket ball attack during the latter part of the game.

Two Veteran Football Coaches May Quit Grid

Stagg and Yost Have Been Drilling Players Many Years.

The large crowd which gathered at Iowa City last Saturday to see the homecoming football game between Iowa and Minnesota included many Chicago and Duluth fans. They took a keen interest in the Hawkeye-Gopher battle but were more interested in the coaching staff.

FREAK PITCHERS FOREVER DOOMED IN BIG LEAGUES

Hurlers Must Develop More Proficient Use of Curve Ball.

By JOHN B. FOSTER.

(Special Correspondent of The Duluth Herald.)

New York, Nov. 18.—President Heydler of the National League today announced his belief that the playing rules of the national game will never again be modified to permit the use of the spitball or any other kind of freak pitching delivery. He declared that he did not think the use of rosin or other foreign substance tending to give the pitcher a better grip on the ball, which is the rule of the game, should be changed.

ZBYSZKO IS SIGNED TO WRESTLE HANSON

Wrestling Champion to Face Promising New Star.

New York, Nov. 18.—Wladek Zbyszko, wrestling champion, has signed a contract with the promoter of the match with Charles Hanson, through his manager, Elwood, to wrestle Hanson on a date yet to be arranged for a match in the month of December. This match will be the first of a championship series between Zbyszko and Hanson.

DEPOSITS DECREASE IN BANK OF JAPAN

Bank of Japan Reports Decrease in Deposits.

Tokyo, Nov. 17.—Reports of the banks of Japan for the first half of the current year, just made to the government department, show that deposits decreased by 74,000,000 yen compared with last year, while loans were 100,000,000 yen less.

IRONWOOD OR ROCK ISLAND MAY BE BROUGHT HERE FOR NEXT CONTEST.

The Kelley-Duluth eleven will be idle on the morrow. The St. Paul ideals, which were lined up for a game here Sunday, could not agree to terms and the negotiations were called off yesterday.

The Kelley-Duluth eleven will play the Ironwood eleven of the Kelley-Duluth team, which may be staged here next Sunday. Ironwood desires to stage the game on a neutral field, and the Kelley-Duluth team, which may be staged here next Sunday, may be brought to this city.

GOPHERS CONTINUE PRACTICE FOR BIG WOLVERINE GAME

Minneapolis, Minn., Nov. 18.—Yesterday's fast sign practice indicated that the injured members of the University of Michigan football team are recovering top form and soon will be fit for heavier work in getting ready for the Michigan game here next Saturday.

JAPANESE GARNER RECORD RICE CROP

Tokyo, Nov. 17.—Harvesting was in full swing throughout Japan the first week in October. Farmers are gathering the greatest crop of rice that they have had for many years, while other cereals are equally as prolific.

CHICAGO PLANNING ON ELABORATE SPEED CARDS NEXT SEASON

Chicago, Nov. 17.—Racing at two tracks which may extend over a period of ten or twelve weeks will be the offering in Chicago next season if present plans are carried out. Hawthorne and the proposed new Washington park oval will be the scene of the thoroughbred activity, and the first meeting, according to early date, will get under way about the middle of May.

KELLEY TEAM TO BE IDLE SUNDAY

The Kelley-Duluth eleven will be idle on the morrow. The St. Paul ideals, which were lined up for a game here Sunday, could not agree to terms and the negotiations were called off yesterday.

The Kelley-Duluth eleven will play the Ironwood eleven of the Kelley-Duluth team, which may be staged here next Sunday. Ironwood desires to stage the game on a neutral field, and the Kelley-Duluth team, which may be staged here next Sunday, may be brought to this city.

BADE RUTH RETURNS TO FARM; TELLS FANS HE WILL REFORM

New York, Nov. 18.—Babe Ruth went back to the farm today, and by now he is probably surveying his ancestral acreage at Stabury, Mass., where he intends to spend a quiet winter.

Any doubt about Ruth being a changed man was dispelled at a dinner he gave to newspaper men Monday night. The Babe was frank and peaceful, and he said he was going to reform himself in his reform platform.

AUTOMOBILES

BILLBOARDS ARE HOMEY MENAGE

Many Drivers Refusing to Buy Articles Advertised in This Manner.

Protests against the placement of billboards by unsightly road-side billboards are being received at national headquarters of the American Automobile association almost daily. According to A. A. A. officials, there seems to be a great and crying movement against the use of these billboards among the membership of the A. A. A. in every part of the country.

All sorts of remedies for the abatement of this nuisance are suggested in these letters, from the enactment of suitable legislation to a refusal on the part of motorists to purchase any articles advertised.

In addition to the marking of highways it is pointed out, the billboard constitutes an absolute menace to the motorist by attracting his attention from the road ahead and often causing a more or less serious accident.

Urges Abolition of Menace. "I believe that the road sign billboard should be abolished," said President George C. Diehl of the A. A. A. "These signs serve as a distinct menace to motorists, especially when they are placed, as many of them are, at a sharp curve of a road intersection. A motorist driving along the highway and approaching such sharp curve or road intersection wants to see what is around that curve or down the intersecting road much more than he wants to see a huge sign advertising 'Whodis' tires or somebody's patent medicine or chewing gum."

"The day of the billboard and the need of such methods of advertising is passing. The class of people who use the highways and to whom such signs presumably appeal are a class that read the newspapers and magazines, and who are governed largely in their purchases by the advertisements of reliable products advertised in a reliable newspaper or magazine. It would appear to me that the intelligent advertiser would soon become aware of this fact and would transfer the money spent on billboards which constitute an affront to the eyes of most intelligent citizens, to legitimate newspapers and magazines, where such advertising would have real effect. With the general trend of opposition to billboard advertising over the country, as is indicated by letters received at A. A. A. headquarters, it can be but a question of time until the American public will take things into its own hands and find some means for the abatement of this nuisance."

MAXWELL CLOSED CAR PRODUCTION SHOWS STEADY GAINS

Detroit, Mich., Nov. 18.—Maxwell Motor corporation's closed-car production, which has shown steady gains throughout the year, has now reached a point higher than ever before in the history of the company, and the unusually large buying demand is forcing the Maxwell factories to work day and night. There are also substantial indications that even the present high mark may be exceeded within the next few months.

For the past year Maxwell closed models have held an exceptionally strong position in a market ruled by intense competition. Several times it was found necessary to increase production materially in the company's

AGE DOES NOT WITHER NOR DOES CUSTOM STALE IF IT'S A BUICK

This Buick is pretty ancient and doesn't look quite so nifty as its recent descendants, but it keeps running right along. George and Garry Brent had driven it 30,000 miles when they recently started from Los Angeles on a 5,000-mile trip to North Dakota and return.

large body plants in Dayton, Ohio. And recently additions were made in the Dayton properties which permitted the Maxwell organization to shoot at a manufacturing schedule that would more closely conform to the steady and insistent buying demand. The present high closed-car output is the direct result of the greatly expanded resources for the closed-car manufacture, it is pointed out by Arthur E. Barker, vice president of the company, but even with this tremendous schedule it has been found necessary to make further increases, and in the past week the Maxwell factories have been in operation day and night.

MAXWELL OFFERS NEW "SPORT MODEL"; MAKES ITS APPEARANCE HERE

The latest offering of the Maxwell Motor corporation—a "Sport touring car," fully equipped and selling at less than \$1,000—bids fair to rank equally as sensational as the introduction of the new series good Maxwell a year ago.

The new "sport car," which will be on display in the showrooms of the Duluth Maxwell company, 220 East Superior street, is intended as a fitting companion for the present Maxwell with the additional rakish features and equipment.

The body and hood are painted Chester Hunt red, with running gear and disc wheels in black. Drum type head lamps and tie-rod park lamps, radiator and water meter are all finished in full nickel with black aluminum inlay. An aluminum bead runs around the hood at the cove and lends a touch that rounds out the impression of completeness.

The upholstery is genuine long-grained patent leather and the top is olive drab duck, two ply, with rubber insert.

DON'T FORGET—FOR WINTER.

Benjamin Jerome, chief engineer of the Oakland Motor Car company, gives the following "don't forget" to the motorist for winter driving:

Anti-freeze solution, preferably half water and half denatured alcohol, with a small amount of gly-

EFFICIENCY AND SAFETY KEYNOTE

Unified Traffic Code and Preservation of Life, Conference Aim.

Efficiency and safety must be the slogan of the motorist of the future. This fact was emphasized at the recent conference of the highway education board in Washington, in which motorists of the country were represented through delegates appointed from the National Motorists' association.

Resolutions approved by the conference stress the need for training in schools and colleges which will make for the social aspect and segregation of highway traffic and more safety for life and limb. A study of the transportation in the interest of the farm population also was presented in resolutions and given approval.

Working with a unified traffic code as its objective the highway education board will call attention to the need for study of traffic administration, the careful registration of vehicles, and the education of both drivers and the general public.

Students to Be Given Courses. To this end the student in engineering schools will be taught the design of highway and rolling stock, the engineering features of highways and streets, and the important part which is played by parking spaces, safety zones, cross walks, street intersections, etc. The best types of sign and traffic devices for the guidance of pedestrians and drivers and vehicle and traffic lights will be studied looking to this standardization.

The farm population, it is pointed out, should be brought in closer touch with the highway and the social and economic purposes with trade, professional service, hospitals, churches, schools and amusements.

On the subject of the marking of country highways, to which the National Motorists' association has already given constructive attention, the resolutions adopted say in part: "Since more than 30,000,000 people live on country roads, other than the main trunk line highways, it is obvious that any general program of road building and road marking should have this important element in mind. If the farm element is given the proper incentive, it will more cheerfully and more generally support a road-building program.

Non-Freezing Mixtures. Ninety per cent water—10 per cent alcohol—freezes at about 25 deg. F. Eighty per cent water—20 per cent alcohol—freezes at about 10 deg. F. Seventy per cent water—30 per cent alcohol—freezes at about 0 deg. F. Sixty per cent water—40 per cent alcohol—freezes at about—20 deg. F.

gram. This will make bond issues much easier to float. Among the many things which could possibly be done to stimulate the interest of the farming class, none would be of greater value than to provide him with a definite house number. He could get parcels delivered to him without difficulty, could receive calls more frequently and in great number from the city dweller, and in turn could travel to better advantage himself in calling on people in either nearby cities or country."

AUTO'S ADVANCE IS WONDER OF AUTOMOTIVE INDUSTRY

Not so very many years ago the appearance of a "horseless carriage" upon the public streets was the signal for everyone to line up at the curb, marveling at the wonderful progress made in the mechanical arts that produced a mechanism that would run under its own power wherever its driver willed. The automobile of a score of years ago was a queer thing to look upon from present day standpoint, but to the public of that day it was a work of art.

The marvelous advance of automotive industry is perhaps the greatest wonder of the commercial age. Electricity and the manufacture and control of the power that lights, heats and conveys us from place to place over interurban routes, traces its development back to the days of Franklin, Simon Ohm, Michio Faraday, Volta and others, and its advance was gradual over a long period of years. The motor car of today is young in years, but has advanced remarkably.

It was only about eighteen years ago that the first motor car began building motor cars. And yet today Reo stands with other more expensive cars in the quality class. The same men who built the first Reo are still at the helm, and they are doing just as they did then, putting everything into their product that experience and modern practice advise for the best results.

The new model Reos are just one step farther in advance and I believe we have come as near to achieving the perfection we have long sought in these cars as it is possible to get with the best of materials and the best engineering and manufacturing practice.

Many improvements have been made in the new Phaeton Reo, and our new closed models and the present line is equal in every respect to cars selling for much more.

Non-Freezing Mixtures. Ninety per cent water—10 per cent alcohol—freezes at about 25 deg. F. Eighty per cent water—20 per cent alcohol—freezes at about 10 deg. F. Seventy per cent water—30 per cent alcohol—freezes at about 0 deg. F. Sixty per cent water—40 per cent alcohol—freezes at about—20 deg. F.

Rosendahl's Editorial

The House of Good Motor Cars Martin Rosendahl

301-303 East Superior Street

Our Slogan: "Watch 'Em Go By"

The automobile dealer's life is one of real interest and he truly has many things to think about.

Yesterday I stood looking out of the window and down over Lake Superior and the thought entered my mind, if all the people in the world were dumped into Lake Superior it would not be the water one-eighth of an inch. This is a fact; it would not. Then I thought, would it not be great if all the automobiles in this country (especially the used cars) were dumped into Lake Superior and we could start all over again. Boys, would it not be great? for then we could go on selling only new motor cars and trucks. I am sure in this my fellow-dealers will agree with me.

Then another thought entered my mind, for one of my competitors was in a small touring car and right ahead of it I noticed a band in one of his trucks. I said to myself, "Can it be possible that I am selling so many Samson Trucks that my friendly competitors now have to use a band to attract attention to their product? I know I can make a noise, but, boys, I never knew it was so loud that a band would have to be matched against it. I know my competitors will not in the least be offended, for as I am sure that a certain amount of noise is good for a dog, for they keep him from brooding over being a dog," and probably the boys will in their mind figure me as a flea. Boys, you see this last part takes the sting out of this ad and places me in a peculiar position. Does it not? And what can my competitor say when I take that position?

Well, we will have to say something about motor cars. You know these advertisements cost real money.

We Sell Cars and Trucks of Real Value

Look at the Oakland Six

It rides like a boat; is easy to operate. It is made by a division of General Motors and you get a 15,000-mile guarantee that the oil will not pass the rings. Here is a classy six-cylinder motor car, selling at \$1,145, delivered in Duluth. You should get from 20 to 25 miles on gas and it's easy on tires. A regular motor car for real service. Come in and see them.

Yes, We Handle the Oldsmobile Motor Cars and Trucks

We handle them because we know the quality of the steel; we also know that the Olds Four will outdemonstrate any car in town for hill-climbing. This Oldsmobile is made for service and it's classy. I'll be glad to show you this great car.

Another thing; you take your wife down and let her drive it. I'll bet you will buy an Olds.

Talk about shifting gears! Nothing to it at all, for this car is made for Duluth. Why, it will travel up Sixteenth Avenue East at 40 miles an hour.

You hardly ever have to shift gears. I guess you can start in high and keep on going almost any place. This is truly a great car for \$1,095, delivered in Duluth.

Samson Trucks

Also made by a division of General Motors. Here is a great seller. The boys are making money with them. We sell flocks of Samsons. You now see them everywhere.

Reo Motor Cars and Trucks

The Reo factory is one of the largest in the world and everybody knows the value in these great motor cars and trucks. We do not believe a better car is made, and we are sure that the mighty Reo Speed Wagon can stand out against the field and smile and say, "Boys, here I am; look me over carefully. I am the truck that is so well spoken of all over the country and the truck that is known as the gold standard of value." We sell them. Come and see us, if you are in the market for a Reo touring car or truck.

The Standard of Comparison

The Outstanding Closed Car Value

1923 Five-Passenger Six-Cylinder Sedan—1985

Measured by any standards you may choose and for every kind of motoring, the Buick five-passenger six-cylinder sedan is easily the outstanding value in a closed car.

It is a handsome, richly appointed sedan; tasteful in the quality of its interior fittings and in the comfortable luxury of its wide, easy seats with their fine plush upholstery.

Every driving convenience is found in this car, so perfectly arranged that each function is recorded before the driver's eyes and every control is at his finger tips.

And, in addition, there is the dependable, enduring performance and the economical, satisfactory motoring that always has been so marked in the Buick chassis and the famous Buick valve-in-head engine.

Studebaker

Order Your Christmas Studebaker Now!

In order to have a Studebaker Light-Six Sedan at the door when the family comes downstairs Christmas morning, you should place your order now.

The Sedan is the ideal gift because it will provide happiness for all the family—all the year—and the years to come.

The sturdy body of the Light-Six Sedan, like the chassis, is built in Studebaker plants. It is constructed to give long, satisfactory service. Only the finest materials are used. Craftsmanship is unexcelled.

It is cradled on long, strong, semi-elliptic springs. The nine-inch seat cushions, upholstered in mohair velvet plush, are restful. The heater, cowl ventilator and the wide windows, among many other features,

add to its year-round comfort and utility. The reliability of the Studebaker Light-Six Sedan has been proved in the hands of thousands of enthusiastic owners.

It is strictly a quality car. Its low price of \$1550 is possible only because of complete manufacture in one of the most modern and complete automobile plants in the world. This means the elimination of middlemen's profits, and the savings are passed on to you.

And back of the beauty and dependability of the Light-Six and its completeness, its advanced design and precise workmanship, is the Studebaker name, which after 70 years enjoys public confidence and respect more than ever.

MOTOR DOM.

WHAT TO WATCH IN COLD WEATHER

Expert Gives Auto Drivers Advice on Machine Handling.

By R. K. JACK.

Olds Motor Works Chief Engineer. The automobile has been to a "fair weather" vehicle and today we have the prospect of more than 80 per cent of the 1,000,000 automobile owners in the country driving their cars the year round.

But within the next few weeks the coldest weather of the year will set in and for the next three months the operation of an automobile will be an extremely different problem than during the summer months.

The time is here when the motorist should begin to look his car over with a view toward operating it during the next few months.

Perhaps the most important feature of cold-weather driving is found in the lubrication of the car, and it is with this phase of winter driving that I will deal in my first article.

Light Oils Necessary.

The satisfaction and pleasure to be derived from winter driving may be increased and insured by the use of a few simple precautions. Lubrication at this time of year is of special importance due to the fact that most oils have a very high viscosity under temperature conditions ranging below 32 deg. F. meaning that below this temperature they have a marked tendency to thicken and harden.

For this reason, certain parts on a car which regularly use heavy grease would experience considerable lack of lubrication during the cold months if the lubricants used were not thinner and lighter. Owners should consult with their dealers on what grades of winter oils and greases should be used.

The engine is also likely to suffer during the winter months due to its tendency toward crank case dilution in cold weather. Frequent changing of engine oil is especially necessary at this time of the year in order that there be a good body of oil in the reservoir.

Crank case dilution is brought about from the fact that a cold engine does not readily vaporize the gasoline entering the cylinders and some of this gasoline is introduced in its liquid state. This gasoline passes downward along the cylinder walls and being a fluid of very low freezing point, readily passes the piston rings into the crank case.

This condition especially prevails in cold weather starting when the carburetor choke action must remain out for a considerable length of time before the engine will operate efficiently.

Watch Crank Case.

Any excess of raw gasoline passing into the crank case tends to cut or thin the body of the oil and destroy its lubricating qualities, and if the contents of the oil reservoir are not carefully watched, there is apt to be a considerable percentage of gasoline in the oil in this reservoir.

It is evident that this condition is strictly to be guarded against as gasoline in the lubricant may prove injurious to the motor, because at all times there must be a heavy film of oil between connecting rod bearings and the crank shaft and between pistons and cylinder walls to insure efficient operation.

To guard against crank case dilution during the winter months, the oil should be changed about every 250 or 300 miles.

However, on some of the higher grade cars, such as the Oldsmobile Light Eight, special provision is made in the engine design for reducing to the very minimum this tendency toward crank case dilution. In the Oldsmobile Light Eight engine the incoming mixture, before entering the cylinder, passes the exhaust passages, thus in many liquid particles that might remain in the mixture are vaporized by the heat of the exhaust gases, and by the heat of the exhaust gases.

WILLYS-OVERLAND MAINTAINS PRICE REDUCTION LEAD

With prices totalling 49 per cent since the peak figures of 1919-20, the Willys-Overland company maintains the lead in price reduction on its various models. This was the statistical information sent out from the nation's business centers during the last week in the following New York dispatch:

"Reductions made on the various low-priced cars from the peak figures of 1919-20 are: Overland, 49 per cent; Ford, 48 per cent; Chevrolet, 38 per cent; Dodge Brothers, 31 per cent; and Maxwell, 23 per cent."

On Aug. 1, 1920, Overland prices reached their highest point. On that date the Willys-Overland company due to exorbitant costs of raw materials and labor, was forced to mark up its product to \$1175. This was soon after reduced to \$885.

The biggest slash ever made at one stroke on a popular-priced car, a cut that staggered the automobile industry at the time, was the announcement in June, 1921, that Overland would in future sell at \$695, a reduction of \$200.

By this move John N. Willys, president of the Willys-Overland company, recognizing the fact that much lower prices had to come to fit the public's purse, blazed the way to rock-bottom figures.

Still another cut occurred on Aug. 1, 1921, Overland being reduced to \$485, at which price they remained until last spring, when Willys-Overland reduced to \$580 and again last August to \$525.

The history of the present Willys-Knight price of \$1,235, from its peak figure of \$2,200, is one equally startling and is further convincing proof of the foresight of the Willys-Overland company in recognizing the need of such price readjustments to meet the altered economic conditions.

It is necessary to have a rather light-bodied, free flowing oil when the splash type of lubrication system is used. If a heavy grade of oil is used, particularly in cold weather, the parts will be insufficiently lubricated until the engine is thoroughly warmed up.

The lubrication system of the Liberty Six is not affected by weather conditions. This is a positive acting, force feed system, in which the lubricant is pumped direct to the moving parts. The viscosity, or thickness of the oil, has no effect on the efficiency of the lubrication.

HITTIN' ON HIGH

M. E. Montgomery of the Duluth Maxwell Motor company receives credit for being the first of the Gas Buggy Knights to push over the festive deer at the opening of the big game season last Friday.

Fred Norberg, however, upheld the honor of the D. A. Odell Motor company and pushed over a buck early in the week. His companions in hunt shot exactly nothing, and Vol Griffin was awarded his title and placed on the shelf with Sibbad, Baron Munchausen and Capt. Cook.

The sales force of the Martin Rosendahl company bagged nothing on their trip through the densely populated woods—densely populated with hunters. Louie Moten says.

"This is the greatest little car in the world—take it from me," said the car salesman, and walked away. The car crooks then rode away.

The new sport model Maxwell and the Maxwell club coupe will arrive in Duluth Wednesday. Montgomery of the Duluth Maxwell Motor company says one each of the models has already been sold in Duluth just from the pictures displayed in the advertising columns, and prospects are that with a first-hand view the cars will move fast.

A. J. Loyce, assistant manager of the company, left yesterday to try his luck chasing the elusive deer through the North woods.

Speaking of deer reminds us that the Mutual Auto company's window display must have had a whole lot to do with the sudden move on the part of so many gasoling Guses to tramp through miles and miles of woods searching for big game.

George A. Maxson has transformed the display rooms of the Duluth Cadillac company into a veritable flower garden, and as a result the beautiful Cadillac looks even more appealing in the setting the exterior, pricing George has provided for it.

Those who really appreciate beauty handled in a tasteful conservative manner should not miss an opportunity to visit the attractive rooms of the Cadillac company.

Hell hath no fury like a woman stilled.

Which same reminds us that no woman believes her husband can drive a car and not a man in the world will admit that his wife can.

R. Christman, representative of the Mason City Rubber company, Minneapolis, was the guest of Gene Harrison at the Mutual Auto company this week.

R. I. Brucato and Tony Gline, the sales and mechanical force of the Martin Rosendahl company, are starting tomorrow on their postponed hunting trip.

MOTORS And Their Care

Practical Suggestions for Insuring Longevity of the Car.

Storage Tip.

Dampness should be excluded as far as possible from the place where an automobile is stored.

Be Careful of Doors.

When getting in or out of an automobile do not bear any weight on the doors. These are not made to carry the weight of a person.

Look Out for Holdup.

Use the accelerator in place of the brake when a suspicious-looking form is seen lurking on the road beside a car, or when one or more trucks are parked along the roadway at night.

Hand and Automatic Signals.

Motorists who use the automatic "slow" and "stop" signals on the rear of their cars should not neglect to use the hand signal as well when about to turn either to the right or the left.

A Suggestion.

To keep the windshield clear in rainy weather try rubbing a sliced onion over the glass, using an up-and-down stroke. Be sure to coat the entire surface of the glass with the juice of the onion.

Care of Terminals.

Corroded terminals should be first scraped and then cleaned with a strong solution of washing soda. After the corrosion has been removed and the terminals dried, grease the parts well with cup grease or vaseline.

The Ideal Garage Entrance.

When planning a garage, especially if the door is narrow, construct two runs on the driveway, the exact width of the wheels. These runs will always keep the car straight, regardless of the experience of the driver.

A Handy Accessory.

A screw-driver that is magnetized is a great convenience for anyone working about the car. The tool will pick up bolts, nuts, screws or other metal objects that have been dropped into inaccessible places. All that is necessary to magnetize a screw-driver is to hold it close to the dynamo for a few minutes, until it becomes charged.

Ignition Wire Connections.

To insure a firm contact and prevent wires breaking off, every ignition wire should have a terminal soldered at each end. If the terminal breaks off, be very careful in fastening wires, as a single strand of wire touching another metal part may ground the current, thus preventing

MOTOR CAPITAL BIGGER THAN BANKS

Twice Capital of All National Banks of This Nation.

Frank B. Ansted, president of the Lexington Motor company, Congressville, Ind., in a recent address before bankers, caused considerable surprise when he said: "Few people realize that the automobile industry has grown to such magnitude in a short time that today the capital invested in it is twice the capital of all the national banks in this country."

Mr. Ansted takes as the latest total of the capital of all the national banks the figures \$2,576,177,000. The amount of capital invested in the automobile industry is considerably in excess of \$2,000,000,000.

Mr. Ansted predicts that the industry will build 2,500,000 cars in 1923. With the exception of agriculture (which is not a manufacturing enterprise), the automobile business is America's largest industry.

1922 Output Value.

The value of the 1922 output will be approximately as follows:

Automobiles \$1,350,000,000
Tires 875,000,000
Replacement parts 550,000,000
Accessories 150,000,000

Total \$2,725,000,000

There are today 81,000 retail trade units responsible for the distribution of automotive products. This is exceeded only by the sale of food products, cared for by 150,000 retail grocery stores.

"The number of dealers in other staple lines ranged from 47,000 drug stores down to 30,000 shoe stores. All substantially under the total trade units engaged in merchandising automotive products."

When you have checked up the interior of the Jewett Sedan, feature for feature, you will find that it offers every comfort and convenience of the truly fine enclosed car.

Then, remember, that there is an additional satisfaction enjoyed by every Jewett owner. It is absolute confidence in a mechanical foundation that not only assures brilliant road performance, but long life and minimum repair bills.

The Jewett is not a "light" car—the touring model has 2800 pounds of finely tested metal and excess strength. Every single part has been designed to stand up under brutal punishment—and laugh at it.

Because the six-cylinder motor delivers its power in six overlapping power impulses instead of four distinct, separate jerks, far less strain is put upon the extra strong axle and chassis mechanism. There is no vibration and no undue stress or strain upon any of the working parts.

That is why there can be no axle trouble with the Jewett—no differential troubles—no "constitutional weaknesses." The Jewett is not only powerful, but STRONG.

The complete Paige-Jewett line of six-cylinder passenger cars offers a selection of thirteen models priced from \$885 to \$2350. The complete line of Paige trucks meets every hauling need. They are sold and serviced by Paige Dealers everywhere.

ENTERTAINERS AT LOCAL THEATERS

STAR ATTRACTIONS LOOM BRIGHT ON DULUTH'S HORIZON

Minneapolis Symphony Orchestra With Henri Verbrugghen and Fiske O'Hara Come Friday; Broadway Bill at Orpheum and Master Raymond and Italian Band at New Lyric.

A GOOD SHOW at every theater seems to forecast correctly the offerings for the coming week. Perhaps the reviews will be different, but it is hardly possible if one is to judge by past comment elsewhere.

Vaudeville is making a strong plea this season, both here and in other cities throughout the country. Hills are holding up week after week even at lower prices. There has not in a season in years when the week-day offered such uniformly excellent programs. In judging vaudeville, however, one must remember that in other name is variety and this are made up to meet a variety of tastes. It is only reasonable, then, that you should see an act occasionally that does not appeal to you. It may give somebody else a big thrill.

Next week's show might be aptly described as a "bill from Broadway." John B. Hymer is a playwright and actor of metropolitan standing, being co-author with Sam Shipman of "The West," one of the most popular Broadway successes of a decade. He has written many plays and is starring in "Tom Walker From Dixie," one of his own sketches. Adorable Bill comes from Ziegfeld's "Midnight Frolics," and "Doin' Broadway," a Duluth boy, comes from Ziegfeld's "Follies."

Hands and more hands is the order of things. The New Lyric is arranged to bring Master Raymond, the new prodigy, with Sacco's Italian band. Master Raymond is said to be the youngest saxophone soloist and band conductor in the world, and is known as the Little Sousa. Miss Phyllis Chiappelle, soprano, is singing with the band.

Business Women's Club week at the New Garrick will bring a crowd of special stage features every evening, with the Central high school students holding forth tonight. Many of Duluth's best artists will be on the various programs. Mary Brown, soprano, who was associated with the Chicago Symphony orchestra, will after dance specialties with six dancing girls. Space does not permit us to use the programs in full.

AFTER Irene Castle's flop and failure to keep her engagement here, it is of interest to announce the coming of the Minneapolis Symphony orchestra and its famous conductor, Henri Verbrugghen. Emil Obermaier, who has conducted the orchestra many years, is abroad this season and the orchestra is bringing the leading direction of the world as guest leaders. Henri Verbrugghen is the first and one of the most widely honored conductors to direct the Mill City orchestra. He is a composer of distinction a violinist of the highest caliber, as well as a conductor. It is possible that he will render a grand summer in Duluth when he comes next Friday.

Miss George S. Richards is sponsoring the engagement of the orchestra here.

On the same evening Fiske O'Hara, the Irish tenor and actor, with his charming wife, Pat Clary, will appear at the Lyceum in their latest play, "The Land of Romance." This is a new play, written by Anne Nichols, and Miss Clary returns to the stage this season after a year's absence. O'Hara has been making the rounds for many years, and each year he adds new admirers and patrons to his following.

THAS BEEN several years since the Orpheum circuit has announced the appearance of Eddie Leonard, the minstrel comedian, as one of this season's stellar features. Leonard has not made a complete tour of the circuit since 1917. He is now on his farewell trip, bidding adieu to his friends in the West. He is coming to the local Orpheum Nov. 20 to present his latest vaudeville minstrel oddity, entitled "The Minstrel's Delight," in which he is assisted by a small company that includes Stewart and Olive, dancers of high order.

The comedian of burnt cork and soft shoe dancing might call his act "The Minstrel's Delight," since the offering is so elaborate and the costume changes so numerous and gorgeous. Eddie is all silk and satin and his performance is said to be correspondingly smooth.

Mr. Leonard's act was written and staged by himself. His new songs are "Clemmie's Eyes," "Mammy From Dixieland" and "Songs We Cannot Forget."

ACHILD'S theater—a veritable Alice in Wonderland for boys and girls—has been opened in New York. Children portray the characters, children make up the orchestra, paint the scenery and write the plays. This sounds almost like a fairy tale, but it is a true story of a playhouse—built with hard American dollars.

JOHN B. HYMER AND COMPANY AT THE ORPHEUM BEGINNING SUNDAY

ROY STEWART IN "BACK TO YELLOW JACKET" AT STRAND BEGINNING SUNDAY

KATHERINE MACDONALD IN "WHITE SHOULDERS" AT THE NEW GARRICK BEGINNING TODAY

STRONGHEART, IRENE RICH AND LEE SHUMWAY IN "THE DRAWN OF THE NORTH" AT NEW LYRIC BEGINNING TODAY

THOMAS MEIGHAN AND LEATRICE JOY IN "THE MAN WHO SAW TOMORROW" AT THE LYCEUM BEGINNING TODAY

PAT O'MALLEY AND RICHARD (NICKY) DANIELS IN "MY WILD IRISH ROSE" AT ZELDA BEGINNING TODAY

GOSSIP OF THE TWO-A-DAY

Bessie Barriscale is to play in London after the conclusion of her present vaudeville tour. Howard Hecman's "Dixie Peach" will be Miss Barriscale's London vaudeville vehicle.

Eugene Strong, formerly with "The Broken Wing" company and in vaudeville with Vaiselsa Saratt, is trying out a new act this week with Hazel Mann, formerly of Duffy and Mann, for the Keith time.

Beatrice Doane is rehearsing a new act by Louise Maritz, entitled "The Gimmie Girl," and will open on the Keith time shortly. Carl Weiner, pianist, will assist Miss Doane.

"Town Talk," the Schubert "unit" production which played Hartford, Conn. last week, gave a special performance for the crippled inmates of the Newton Home for Crippled Children during its stay in Hartford.

Francis Bushman and Beverly Bayne, because of the wonderful applause they received when they played a week at Poir's Capitol theater, Hartford, Conn., recently gave curtain speeches after each show.

"Parlor, Bedroom and Bath," condensed for vaudeville by May Tully, and featuring Helen Goodhue in the role originally created by Florence Moore, opened on the Orpheum last week at Kansas City.

Eddie Miller and company will open on the Orpheum time at Des Moines, Iowa, Dec. 2.

Anatol Friedland and Girls have been given a route over the Orpheum

WOMEN'S CLUB WEEK; GARRICK WILL BRING NEW FEATURES DAILY

This is Duluth business Women's Club week at the Garrick theater. Special features have been arranged for each night.

Tonight is High School night, and the Girls' Glee club of Central will sing. Monday night, with the Lyceum, a quartet will render several numbers. The singers are: W. H. Hancock, Frank Pensternacher, Leo Schwartzendover and Alice Mason.

Wednesday will bring one of the big events of the week, F. A. Patrick Style night, when the Patrick styles will be presented. Thursday, Miss Dora Reynolds, a favorite Duluth soprano, will sing. Friday night, dancers of Miss Nellie Stoughton's classes will put on several numbers.

FISKE O'HARA, POPULAR ACTOR-SINGER, HERE FRIDAY

Fiske O'Hara, the well known actor-singer, will be seen for one night only at the Lyceum theater, Friday evening, Nov. 24, in his new play with songs, "Land o' Romance," by Anna Nichols, who for the last few seasons has written the various plays that the Irish singer has appeared in.

This year the story of the play deals with the adventures of a wealthy young portrait painter, whom every mother in Ireland is crying to catch, but he is helped out by his ragged street gambo whom he has befriended and taken in. Like all plays of his kind everything ends in a happy manner.

This season Mr. Pitou takes great pleasure in announcing the return to the stage of Miss Pat Clary, as Mr. O'Hara's leading woman, after a year's absence. She will be seen as the ragged little boy. Others in the cast are Dudley Clements, Mae Washburn, Florence Thompson, Tom McGrath, Emory Knell, J. E. Miller and Herbert de Guerre. The play is in three acts and Manager Pitou has spared no expense in either scenery or costumes.

Of course, one of the main attractions to all of Mr. O'Hara's plays are the various songs that he has heard and this season he will sing "Land o' Romance," "Death of a Boy," "Thank God for a Garden," "Father O'Flynn" and "Wishes Three." Another charm that is added to the appearance of the actor-singer is a quartet of skilled musicians which is carried to assist him in the rendering of his various songs.

Mrs. Fiske in "Paddy"

The first appearance of Mrs. Fiske this season, under the management of George C. Tyler, will be in "Paddy," a comedy in three acts by Lillian Barrett, which is to open at the Lyceum theater, Rochester, N. Y., Nov. 20. Mrs. Fiske plays the title role which, like the play itself, will make a departure from the genre of comedy in which she has been seen for the last few seasons.

Rehearsals are now in progress, under direction of Harrison Gray Fiske. The company includes Henry Herbert, Roy Gordon, Edward Donnelly, Joseph Macauley, France Heideman, William T. Clarke, Wallis Roberts, Francis Sattler, Erita Lasselle, Miriam Collins, Celia Benjamin, Helen Jackson and Virginia Smith.

During the season Mrs. Fiske will give a number of special matinee performances of Ibsen's "Hedda Gabler" and "Rosmersholm."

Dawling Writes New One

Eddie Dowling, writer and star of "Sally, Irene and Mary," now playing at the Casino theater, has written a new musical comedy called "Fuge Mr. Sullivan." It will probably be produced later in the season.

SHOW CALENDAR FOR COMING WEEK ON THE LOCAL STAGE

ORPHEUM—John B. Hymer and company in "Tom Walker From Dixie," and other acts.
NEW ARMORY—Minneapolis Symphony orchestra, with Henri Verbrugghen, guest conductor, Friday evening.
LYCEUM—Fiske O'Hara in "Land o' Romance," Friday evening.

ON THE LOCAL SCENE
NEW GARRICK—Business Women's Club week. Katherine MacDonald in "White Shoulders" and Mary Brown and dancers.
NEW LYRIC—Strongheart in "Brawn of the North" and Master Raymond Baird and Sacco's Italian band.
LYCEUM—Thomas Meighan and Leatrice Joy in "The Man Who Saw Tomorrow."
ZELDA—Pat O'Malley and Richard Daniels in "My Wild Irish Rose," and Chester Maher, baritone.
STRAND—Roy Stewart in "Back to Yellow Jacket."
NEW ASTOR—House Peters and Virginia Valli in "The Storm."

"HAMLET" WITH JOHN BARRYMORE RETURNS TO OLD BROADWAY

Three Barrymores Will Soon Be in New York Houses; Martha Hedman Has One Failure After Another; the Elements Strong Feature in Films.

By RALPH WILK.

NEW YORK, Nov. 13.—(Special to The Herald.) "Hamlet" has finally returned to Broadway, and this time it is John Barrymore who is playing the role. Rosalind Fuller, who was in the "Greenwich Village Follies," enacts the part of Ophelia, and Arthur Hopkins, the producer, made a bold step when he entrusted the role to a comparative unknown. Tyrone Power and Whitford Kane are among the veterans in the cast.

"Hamlet" is housed at the Sam H. Harris, which has usually been devoted to plays of a lighter nature. Ethel Barrymore continues at the Longacre in "Rosa Bernd," and now that Lionel has returned from Europe, the Barrymores three will soon be well represented on Broadway. Lionel is expected to appear in "The Fountain," by Eugene O'Neill, under the Hopkins banner.

David Belasco is also dabbling with things Shakespearean and has been rehearsing "The Merchant of Venice" for several weeks. David Warfield, of course, will play Shylock, while other principals will include Marie Servoss, Philip Merivale and others.

Martha Hedman is having little luck this season. She is being provided with poor plays, and her last vehicle, produced the latter part of October, ran only a few days. It was such a rank failure that its name has escaped the writer.

Novelty plays continue to appear on Broadway. The latest is "Six Characters in Search of an Author," with Brock Pemberton as the producer. Producer Pemberton, who is a former publicity man, advertised that his play was not one for morose. "Capt. Applejack," George White's "Scandals" and "It's a Boy" have started to fill out-of-town engagements. "Partners Again" will start on next month.

"The Gingham Girl" will continue to make thousands of "Bluebird" cookies, judging from the crowds that are attending the dainty musical comedy at the Earl Carroll. The principals, with the exception of Amelia Summerville, are all recruits from vaudeville and were little known. They include the diminutive Eddie Buzzell, the principal comedian; Russell Mack, Bertie Beaumont, Louise Allen and Helen Ford. The producers are Lawrence Schwab and Daniel Russell, whose efforts heretofore have been confined to vaudeville.

"Hospitality," by Leon Cunningham, a newcomer, was given its premiere at the Equity Forty-eighth Street theater this week. It is the second of the Equity plays and its cast is headed by Louise Closser Hale and Tom Powers.

Violet Heming, who surprised her admirers by appearing in "The Rascal," the naughtiest play presented on Broadway in several seasons, has had a change of heart. She is to appear in "The Lucky One," by A. A. Milne, whose offerings are never delicate. Incidentally, this will be Miss Heming's first appearance under the management of the Theater Guild.

NEW YORK, Nov. 13.—(Special to The Herald.)—Count that important production lost that does not utilize the forces of nature, seems to be the slogan of picture producers. The latest to pictureize the elements is William Fox, who is showing "The Town That Forgot God." It has an entire town swept away by a flood.

"The Sin Flood," shown at the Capitol this month, also has a striking climax, in which the Mississippi is shown overflowing its banks. A rain and electrical storm is an important factor in David Wark Griffith's "One Exciting Night," while Burton King has had a storm in "The Streets of New York."

Douglas Fairbanks' "Robin Hood" is playing to capacity business at the Lyric. It is making its bow before speculators happy and is doing more business than many legitimate attractions. A few doors west of the Lyric is the Apollo, where "One Exciting Night" is being shown.

Rodolph Valentino is again on Broadway. His "The Young Rajah" was shown at the Rivoli last week. Valentino is having legal difficulties with his employers, Famous Players-Lasky, and there are rumors he will enter vaudeville.

"When Knighthood Was in Flower" is now being shown three times daily at the Criterion. The new performance starts at 5:15 p. m.

"Oliver Twist" was held over for a second week at the Strand. By the way, its star, Jackie Coogan, has finished another production.

Bratton Tynan, whose stage career has varied from an appearance in "Joseph and His Brethren" to his present engagement in Ziegfeld's "Follies," is making his bow before the camera. He is spending his daylight hours at the Tec-Art studio, where he is appearing in "Success."

An end seems to have been put to the rumors regarding Fay Bainter's next play, by the announcement that she will be seen in "The Band Lady" by Mont-Moneton Hoff, an English dramatist.

Charles Dalmors, French tenor, one time member of the Chicago Opera company, is coming to this country to make a thirty-five weeks tour in "Two-a-day" under Keith management.

DRAMA, VAUDEVILLE AND PHOTOPLAYS

GREENROOM GOSSIP

Mary Ryan will probably appear in a play called "The Vigil" to be produced by Sam H. Harris. The New York Theater Guild has acquired "The Guardian" by Franz Morano.

"Johnnie Krieger" the play from the German, which the producers first planned to call "The Mysterious Tale of Hoffman," will be produced in the Broadway theater, New York, late in November with Ben-Ami in the leading role.

John Hart is preparing to start rehearsals of "The Sign of the Cross," the play for which he has been nominated to receive the Pulitzer prize. The play will be produced by the New York Theater Guild.

Charles H. Johnson has postponed production of the dramatic work for Ann Dunnington until next spring. Meanwhile "Penny" will continue in production.

Maurice Hillman has been engaged for the dramatic work of "The Little Kingdom," the musical comedy in which later Hillman will star some of the best of the Broadway production and take his bow in Stamford as Nov. 27.

"The Players from the Comedie-Francaise," headed by Miss Maudie, will be produced at the Metropolitan street theater, New York, when they arrive here. Miss Maudie is the actress who sang with a Yiddish group, who sang with a Yiddish group in an exhibition in Paris.

Anna Hoffman has written another play, "The Sign of the Cross," which she has collaborated with Sam H. Harris. The play will be produced in 12 of the best of the Broadway production and take his bow in Stamford as Nov. 27.

Little Sousa and Italian Band at Lyric for Week

Master Raymond Baird, the Little Sousa, youngest band conductor in the world (left), with Philena Chappell, soprano (right), and Thomas Sacco (center) and Sacco's Italian band will open a week's engagement at the Lyric theater beginning Sunday. The Little Sousa is both a musician and conductor.

Lyric—Strongheart in "Brawn of the North." After much negotiating and effort one of the strongest as well as one of the highest and most expensive shows ever put on at the Lyric theater has been secured for the coming week, including not only Strongheart, the "wonder dog" of "The Silent Trail," in the second feature, "Brawn of the North," which opens this afternoon, but also Master Raymond Baird, the world's youngest saxophone soloist and band director, directing Sacco's Royal Italian band, together with Philena Chappell, prima donna soprano, "Dawn Swells," a "Christie Smiley" as the film special.

Lyceum—Thomas Meighan in "The Man Who Saw Tomorrow." The soft, warm, passionate breath of the romantic and mysterious South Sea isles, the foxy, murky, crowded streets of Old London Town, the turban-topped, shuffling natives of India, and smart, flashy, brilliant New York, all of these crowded into the Paramount feature production, "The Man Who Saw Tomorrow," which begins at the Lyceum today for six days, featuring Thomas Meighan with a good supporting cast.

Strand—Roy Stewart in Peter B. Kyne's "Back to Yellow Jacket." Roy Stewart, who has appeared in a number of the greatest screen successes of recent years, will be seen once again when "Back to Yellow Jacket," an adaptation of Peter B. Kyne's stirring Western story, opens a four-day run at the Strand Sunday.

The story appeared in the Cosmopolitan magazine and its countless thousands of readers are eagerly awaiting its coming in every section of the United States. There are dozens of big moments in the picture. The action takes place from the glided pastures of Eastern society to San Francisco's dance halls in all their tarnished splendor and the white-hot desolation of the far North Yukon country and the great American desert. To divulge its single one of the big situations would be unfair to patrons. Suffice to say the story is crammed to the brim with action and moves at a rapid pace from beginning to end. Kathleen Kirkham, who plays opposite Roy Stewart, is just as stately as a queen as ever.

Franklin E. Baker is the president. Harold Lloyd in "Two Scrambled" is again seen with his popular chums in comedy, "Debs" and "Snub."

The other waves—those used in wireless—are known among scientists as Hertzsian waves, named after the man who discovered them. The length of these waves vary from only a few inches to the immense size of twenty-five miles or more. Yet, despite the waves all travel at a fixed speed of 184,000 miles a second.

The movie theaters in Java are so constructed that the screen divides these into two parts; the Europeans sitting on the side from which the picture is projected and the natives on the other.

The comedy feature is "Two Faces West," and an adequate musical program has been arranged by Roy Stewart for the Lyceum Symphony orchestra. Walter Klingman at the organ will play a popular solo.

The V. K. Ziegfeld expedition has returned to this country with a load of film dealing extensively with the natural aspects and the industrial and social life of Siberia. It is said.

There were enthusiastic greetings for Raisa, Marshall and her well known favorites and in a hour's play a young Russian singer made her bow to Chicago in the role of Amneris. Sig. Pomeroy appeared as Amonassa and Metena Pomeroy as the priestess.

The sell-out of the house brought something of a rift to the Chicago Grand Opera association. It was Chicago at its own opera—bought and paid for by Chicago.

There were enthusiastic greetings for Raisa, Marshall and her well known favorites and in a hour's play a young Russian singer made her bow to Chicago in the role of Amneris. Sig. Pomeroy appeared as Amonassa and Metena Pomeroy as the priestess.

Filograms

Theda Bara and Bill Sunday were once competing attractions in Tulsa, Okla. Theda was making personal appearances and Billy was, as usual, saving souls. The actress outdrew the evangelist to such an extent that Mr. Sunday had to beg for quarter. This Theda granted and from then on they appeared on alternate nights.

Louis Tracy, the novelist, who contributed "One Wonderful Night" for Herbert Williamson's use, has produced "Universal" with a serial. It will be called "Wives of Society." Jack Smith and Margaret Livingston have just been selected to play the principal roles.

Vitagraph will celebrate its twenty-fifth anniversary next February. The company began in 1898 with a small studio in Brooklyn, and now, in addition to an extensive enlargement of the Brooklyn plant, has studios in Hollywood and Paris. Albert E. Smith is still its president.

The class in scenario writing at New York university has been reopened for the year 1922-23, under the direction of Harry D. Westcott, and, as last year, the Stanley Company of America will give a prize for what is considered the best scenario written by a member of the class.

A series of fifty-two one-reel pictures made in Palestine will be distributed by the American Releasing corporation under the general title, "The Voice of the Land." Every place mentioned in the Bible the location of which is known today has been photographed in Prisma colors, it is said, the undertaking having been carried through by the Geographical Film company of Cincinnati.

Harriet Bosse, said to be one of the leading actresses of the Scandinavian stage, has gone into motion pictures and will be seen in several productions by the Swedish Biograph company, the first of which is "The Dawn of Love," an adaptation of a story by Selma Lagerlof.

Bill Ehill Picturized, Inc. is the name of a company formed to produce pictures dealing with Jewish racial classes, the first of which will be a film entitled, "Bill Ehill," based on Hebrew folk songs. Robert Sterling is the president of the company.

Little Frankie Lee, who first became widely known as the crippled boy in "The Miracle Man," and whose most recent appearance was with Agnes Ayres in "Hordaland," is to be starred in a series of pictures by the East Coast Productions of which Franklin E. Baker is the president. The productions will be directed by Clarence Bricker.

Murray H. Garson has two productions under way, "Success," directed by Ralph King, with Brandon Bryan, Mary Astor and Dore Davidson in the cast, and "ay Down South," directed by Roy Stewart, with Marion Swanson and Joe King in the leading roles.

"The Woman Who Pooped Herself," with May Allison and Robert Ellis in the leading roles, directed by Mr. Ellis for Edward MacManus, will be released next week by Associated Exhibitors.

"Operations" will be started on "The Madonna in Chains," begins a press notice, which might give the impression that a surgeon was going to work without anesthetizing the patient.

C. Anderson Wright's recent newspaper articles attacking the Ku Klux Klan will be the basis of a fifteen-episode serial film to be produced for Mr. Wright under the direction of Leopold Wharton, who made "The Exploits of Elaine" and "The Clutching Hand" and other serials.

Gustav Seyffertitz will be seen in his first comedy role on the screen in Thomas Dixon's production of "The Beast."

IRISH ACTOR-TENOR WILL MAKE ANNUAL VISIT HERE NEXT FRIDAY

FISKE O'HARA AND PAT CLARY.

Mr. O'Hara and Pat Clary are playing together again this season and they have a new play, "The Land of Romance," in which they will appear at the Lyceum theater for one night only—next Friday being the date and 8:15 being the hour.

MINNEAPOLIS SYMPHONY WILL BRING EUROPEAN CONDUCTOR

HENRI VERBRUGGHEN.

Striking numbers, offering a variety of appeal to the layman as well as the trained musical observer, and interpreted with the skill that has made the Minneapolis symphony orchestra one of the world's leading orchestral institutions, will add particular interest to the concert by this organization of nearly 100 picked musicians at the Armory next Friday evening on Mrs. George S. Richards' All-Star course.

Henri Verbruggen, guest conductor of the orchestra, has been proclaimed a genius of the baton in European music circles.

"Tschalkowsky's 'Pathetic Symphony' is one of the featured numbers of the program. The 'Pathetic Symphony' is 'Ruska Incarnate,' its movements run the gamut of emotions, expressing joy and despair, tragic gloom and, on the other hand, joyous life.

Another number on the program, the overture to 'Der Freischutz' (Weber), presents the story of the opera in condensed form. The story is founded on a Bohemian tradition that whoever seeks the aid of Zamel, the demon huntsman, might, by selling his soul to him, receive seven magic bullets that would hit a desired mark with unerring accuracy.

The prelude to 'Lohengrin' (Wagner), the 'Waltz Pol,' melody of the Maoris New Zealand natives (orchestrated by Mr. Verbruggen), and a violin solo from 'Picolini' (Gouraud), by Alfred Metzler, concertmaster of the orchestra, are on the program.

It is said that the young Sioux aspirant gave that final proof of endurance and courage which entitled him to the honors of a full-fedged warrior. One feature of it was the suspension in air of the candidate by a raw-hide rope passed through a slit cut in the breast, or elsewhere, until the flesh tore and he fell to the ground. If he fainted, faltered or failed, or even gave way momentarily to his anguish during the suspension, he was deemed forever unfit and was called and treated as a squaw for the rest of his miserable life.

The afterwards famous 'Rain-in-the-Face' in submitting to this test, hung suspended for two days with the raw-hide rope through deep slits in his back over the kidneys, while he taunted his torturers, and sang his war songs, and boasted of his deeds. The tough flesh muscles and tendons would not tear loose. Buffalo skulls were tied to his legs, and the added weight finally enabled the Indian stoic to break free.

SIoux WARRIORS OF OLD DAYS WERE TOUGH

Kansas City Star: The sun dance was a ceremonial performance in which the young Sioux aspirant gave that final proof of endurance and courage which entitled him to the honors of a full-fedged warrior. One feature of it was the suspension in air of the candidate by a raw-hide rope passed through a slit cut in the breast, or elsewhere, until the flesh tore and he fell to the ground. If he fainted, faltered or failed, or even gave way momentarily to his anguish during the suspension, he was deemed forever unfit and was called and treated as a squaw for the rest of his miserable life.

The afterwards famous 'Rain-in-the-Face' in submitting to this test, hung suspended for two days with the raw-hide rope through deep slits in his back over the kidneys, while he taunted his torturers, and sang his war songs, and boasted of his deeds. The tough flesh muscles and tendons would not tear loose. Buffalo skulls were tied to his legs, and the added weight finally enabled the Indian stoic to break free.

PIONEER RANGE MAN REUNITED WITH HIS KIN AFTER 32 YEARS

(Special to The Herald.)—Conductor M. J. Murphy of the Duluth, Winnipeg & Pacific railroad brought about a happy reunion last week after a separation of thirty-five years of a father from his family. Through a strange coincidence and the generous efforts of Mr. Murphy, William Bonothan was reunited with his children, Percy Bonothan, a superintendent at the Henry Ford plant in Detroit, and Mrs. Richard Knutson of St. Paul, Mr. Bonothan's daughter. Three weeks ago Mr. Murphy, while on a hunting trip near Mine Center, Ont., was invited by Mr. Bonothan, a resident of that place, to have breakfast with him. During the conversation that ensued Mr. Bonothan told Mr. Murphy that he came from Tower, Minn., thirty-two years ago. Mr. Murphy informed him that his father was a pioneer resident of Tower, Minn., upon hearing the name, burst into tears and told Mr. Murphy that his father, D. J. Murphy, and himself walked from Michigan to Tower with packmacks on their backs thirty-five years ago. Mr. Bonothan said that he went to Canada with a stake thirty-two years ago during the gold rush. He lost what money he had. He had never been able since to get the means to go back home. Mr. Murphy invited the aged man to come to Duluth with him and go back to his children. He brought him to International Falls, bought him new clothing, then took him to Duluth. Mr. Murphy then phoned the daughter at St. Paul, and she came for him. Mr. Bonothan's wife was a niece of Henry Ford, multi-millionaire automobile manufacturer, at whose plant the son, Percy, is superintendent.

CHICAGO ATTENDS ITS OWN OPERA; FAVORITE ARTISTS GIVEN OVATIONS

ROSA RAISA.

Rosa Raisa, dramatic soprano; Claudio Marshall, tenor; The Bonassaya and Cesaro Pomeroy were the sensation of the evening last Monday when the Chicago Grand Opera company opened its season at the Auditorium. It was likewise society night and house, Italian-style, for the first time since the company's arrival. Every seat in the Auditorium, 3,023, was taken. The curtain rose on the resplendent "Aida" and the production as a whole and the individual work of the artists

DAINTY DANCERS WILL INTERPRET "FAUST" SCENE

MARY BROWN.

A dancing act that will be different from any yet presented at a Duluth motion picture theater will be given by Mary Brown, opening this afternoon, a company of women artists. Special scenery, as well as costumes and brilliant lighting effects, will be used in the act, which will be a reproduction of the dance scene from "Faust." Miss Brown, who has been one of the hits of the show closing last night in the special feature, is an accomplished dancer and has been connected with some of the leading organizations of the country, studying under noted ballet masters. She staged the dances of the North Star festival.

FIRST SOCIAL FOR WEST DULUTH POST

Legion Men Arrange for Big Entertainment to Be Held Friday.

The first social of the new West Duluth post, American Legion, will be held at the Great Eastern hall, Central avenue, next Friday evening, when a program of entertainment, including boxing, musical numbers and speakers, will be presented.

A short business session will be held before the program when new members recruited during the membership drive which is now going on, will be admitted to the post, and their names inscribed on the charter making them charter members.

Initiation for New Members. All members obtained after next Friday will be initiated at the first meeting of the post, the membership committee announced. They report the program is the most successful since the number of new members signed up during the past week.

Amateur Boxing Club Planned. The entertainment committee has been busy arranging for the first social evening, and have obtained the services of several well-known boxers of the city.

Whitewash for Coal Dealers is Applied by Club. Coal dealers of the city, through representatives, last night convinced members of the West Duluth Commercial club at their weekly meeting in the clubrooms, that the dealers were charging excessive prices for coal and suggesting no protesting to what they have to pay originally and with the additional cost of freight, handling, etc.

Fond du Lac Road Will Be Discussed. An invitation has been extended to Commissioner Joseph Hicks by the new Duluth Commercial club, to attend the next business meeting of the club, Dec. 12, when discussion of improving the Fond du Lac road will be one of the features of the meeting.

Here's Relief For Neuritis. Never mind where, when or how those awful, stabbing pains of neuritis start. This new relief is available at your first-class drug store and get a supply of Tysmol. Apply it every time you feel the sharp, stabbing pain over the spot that hurts, and in a short time you should be free from pain.

Meetings Changed. Edda Lodge Votes to Gather on Different Nights. The Edda lodge, No. 18, Daughters of Norway, voted to change the meeting night from the first to the second of each month.

WEST END

TELLS OF IRELAND'S TRAGEDY; VISITED TROUBLED LAND. "Ireland's Tragedy" will be the subject of Rev. John McFarlane's lecture at Central Baptist church, Twenty-sixth avenue west and First street, at 8 o'clock Monday night.

STEEL EMPLOYEES SIGN 100 PER CENT FOR THE RED CROSS. Employees of the Minnesota Steel company have signed up the sixth annual membership roll of the Red Cross 100 per cent, according to George H. Crosby, chairman of the local chapter.

FRIDHEM LODGE IS ON RECORD TO PUT HOSPITAL IN WEST. Fridhem lodge, No. 45, Independent Order of Svithlod, has gone on record for the location of a hospital at the West end. At a meeting of the lodge held on Nov. 14, resolutions were adopted.

MASONS TURN HALL INTO CABARET FOR BIG DANCING PARTY. At the dancing party given by the Duluth Masonic lodge at the hall, 2512 West Third street, last night, 150 people frolicked in true cabaret style.

GRIP FULL OF CLOTHES FOUND; POLICE PUZZLED. West Duluth police yesterday ran across what promises to be a mysterious program of entertainment, refreshments and smokes to the members.

FATHER-SON SERVICE AT CENTRAL M. E. CHURCH. At the Central Avenue Methodist church tomorrow evening a "father and son" service will be held.

West Duluth Briefs. Fire hazard is most dangerous during fall and winter months. Insure today your home and furniture or place the additional insurance you need.

IT COSTS MONEY TO PROTECT BOOTLEGGERS. Judge Funck had no sympathy for two men who were arrested last night for possession of liquor.

EMPLOYERS ASKED TO CONSIDER DISABLED MEN. Duluth employers are asked to consider the hiring of trained disabled soldiers just turned out by the veterans' bureau.

Here's Relief For Neuritis. Never mind where, when or how those awful, stabbing pains of neuritis start. This new relief is available at your first-class drug store and get a supply of Tysmol.

MEETINGS CHANGED. Edda Lodge Votes to Gather on Different Nights. The Edda lodge, No. 18, Daughters of Norway, voted to change the meeting night from the first to the second of each month.

HEARING HELD ON RECOUNT FOR LITTLE-NAUGHTON CONTEST

The hearing of the appeal for the recount of votes on the T. Ham Little and Coleman F. Naughton election returns, for commissioner of the Second district, was held in Judge Magney's court this morning.

URGES SUPPORT OF NATIONAL DEFENSE ACT; IT'S DEFINITE

Urging support of the national defense act, Col. E. E. Watson of Minneapolis, the principal speaker at the monthly meeting of the Army Officers' Association of the North, Minnesota at the Chamber of Commerce last evening, characterized the bill as the first attempt in the history of the country to lay down a definite military policy for the nation.

THRIFT, ECONOMY AND INDEPENDENCE

BUY AND BUILD IN DULUTH

THE HOME BUILDER BECOMES THE BUSINESS BUILDER

STEEL SASH FOR BUILDINGS BEST

Easily Installed in Any Type of Wall; Good for Small Buildings.

Brick veneer presents no difficulties over solid brick work except that the face brick is often not applied until after building the foundation wall.

The detail of the head in brick veneer construction is very simple. Where windows have frames with outstanding legs...

Putty of importance. Probably the most vital factor in connection with permanent, successful steel window installation is the quality used in glazing.

Easy to screen. Provision is made on steel basement windows for screening. The windows are furnished with four pieces drilled in line near the top and bottom...

ELECTRICITY NOW HOUSE SERVANT

Modern Appliances Make It Possible to Dispense With Servants.

Goody, Bridget, Hannah and Lena! Your days are numbered, if indeed not entirely ended. Electric power has taken your place.

Electricity, that silent, safe force, has brought the power into your home to wash your clothes, cook your meals, clean your house and solve your servant's problems.

At breakfast time think of the joy of sitting at your table with an electric percolator making your coffee, a toaster stove frying your bacon and eggs or pancakes and a turner toaster making your toast.

Even sewing electricity has revolutionized. No need of milady tiring herself with the old-fashioned foot-treadle machine.

Truly, electricity is humanity's greatest friend. Think of milady's comfort. A small iron in her bedroom always ready at the moment of the switch to press a shirtwaist or shift, or an electric curling iron, small and convenient, ready and the toaster. Now just as much toast as you want and no more.

ELECTRICITY NEW FURNITURE FAD

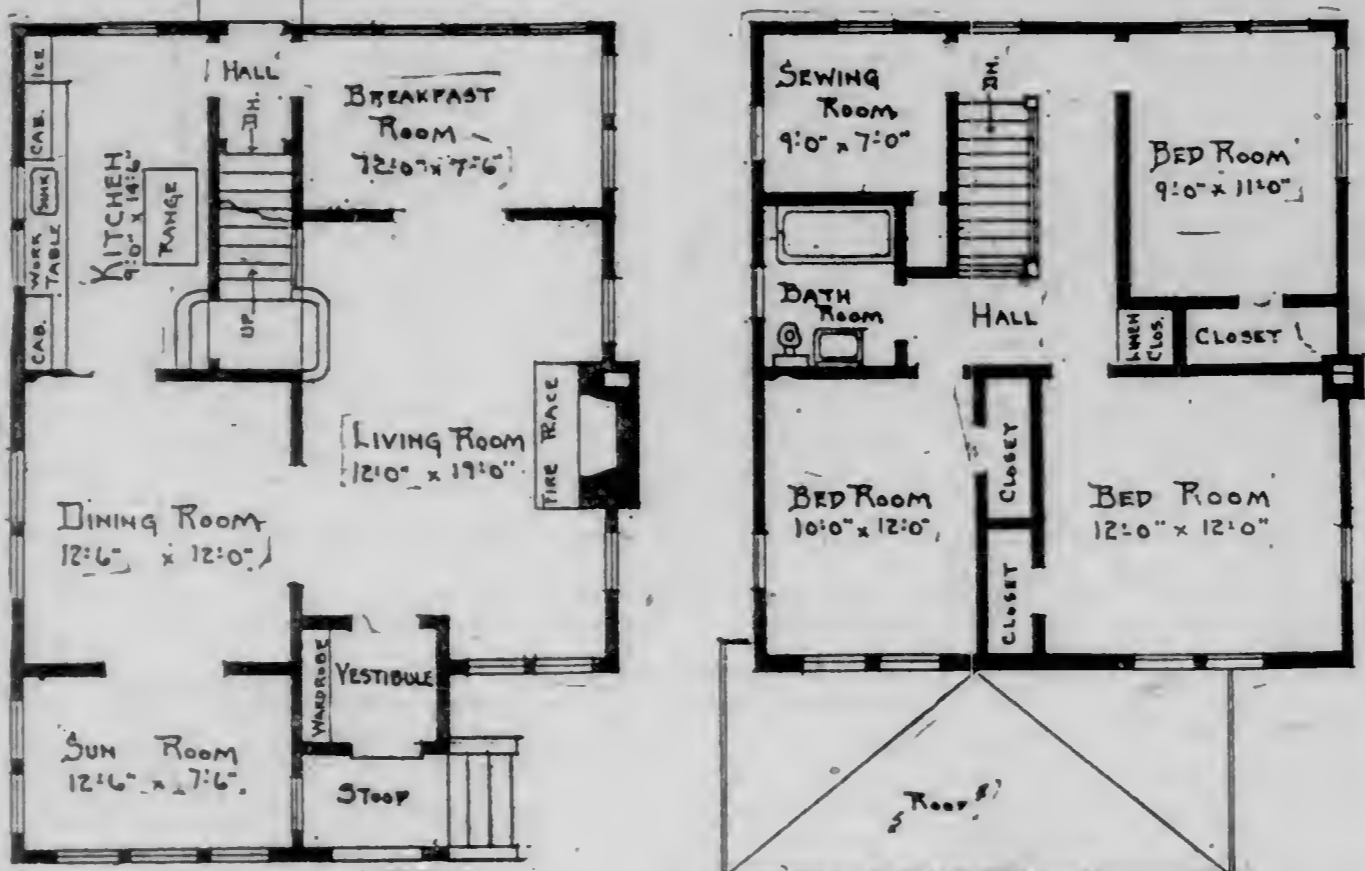

Wired Pieces Coming Into Use Throughout Country; Make Hit in East.

Preparations are beginning to be made to definitely introduce electrical furniture.

Distinctive Home, Exceptionally Well Planned

HUGO W. WOLF - ARCHITECT

FIRST FLOOR PLAN

SECOND FLOOR PLAN

There is always economy in building a square house. Simplicity gives real value for every cent invested and assures one of a style of architecture good for many years.

Even sewing electricity has revolutionized. No need of milady tiring herself with the old-fashioned foot-treadle machine.

to raise a window in each room that does not admit the winter wind and snow. If you want a big, square home, space-saving and convenient, but combining the very best style of architecture, then imagine for a moment that this house is yours.

President Braun of the New York Furniture exchange commented: "I believe that the furniture trade will welcome this innovation. Since the coming of 'mission' furniture and the later introduction of the Italian trends, this is the first new idea which the furniture dealer has had to offer."

Save your coal.

—gives you a warmer house on less coal

IF YOUR furnace pipes are not covered, or if they are covered only with a SINGLE LAYER of Asbestos PAPER you are LOSING AN AMAZING AMOUNT OF HEAT!

ASBESTAIR will stop this loss of heat in the basement, drive it to the rooms ABOVE and keep the average eight-room house warmer than ever before on TWO TONS less coal per season.

ASBESTAIR is an air-filled, fire-proof Asbestos pipe covering manufactured exclusively by The Philip Carey Company and is sold in this vicinity exclusively by us.

Phone us and we will apply it for you; or if you prefer you can apply it yourself with a tape measure, a pair of shears and a little string.

It will see you through the winter on less coal. It will pay for itself this year in coal saved. It requires no care. It outlasts the furnace. Can be applied while the fire is going. Phone today.

Two Kinds of Beauty

PHYSICAL Beauty Requires Cleanliness, Proper Exercise, Proper Diet and Proper Care of the Complexion and the Like—MENTAL Beauty Demands That Hate, Envy, Greed, Jealousy Be Replaced by Thoughts of Service, Tolerance and Love—To Be Truly Beautiful You Must Have Both.

By Ruth Snyder
Copyright, 1922.

"An ugly face is no badge of purity."
"A homely woman is very apt to believe a beauty man simply because she hasn't had the opportunity to tell him 'make a fool of himself.'"
"It is a woman's duty to make herself as beautiful as she can—with as much help as she can."

These cryptic remarks have fallen from the lips of a woman who, because of the way she has established her reputation in the world of fashion, is in a position to discuss the subject of beauty—Mrs. Morris at the time she is in the reflected glory of her husband's star of fame, but now she is doing so many things "on her own hook" that a stellar place has been made for her.

Just as dirt is no longer a badge of disgrace, an ugly face is no longer generally accepted as a badge of purity, and I think that it behooves women to stop and consider this matter of beauty its effect on her friends, her home, her children and herself.

Mrs. Morris toyed pensively with a pen on her desk in the early little office she has established for herself on the balcony of Primrose House, at No. 2 East Fifty-second street, New York. From below, faint and agreeable sounds floated up. Rose stepped into the room and said:

"What is your conception of a beautiful woman?" Mrs. Morris was asked.

"Well, that is a large order," replied Mrs. Morris, as her active brain began to work for a suitable and definite analysis.

"It is not so much one's features that go to the making of a beautiful woman," she finally concluded as she

replaced the red pen on the desk with the rest of the little family of red and black writing material. "It is the reflection of character—the face with a smile, the face that has chased all evil and nasty thoughts, the face that tells of a character beneath."

"American standards of beauty, be it for good or evil, are rapidly changing. They are no longer the New England standards of beauty any more than New England is America. The American beauty can no longer be represented as a Southern type, a Northern or a Western."

"We are no longer local and our racial tendencies are developing a new beauty—the All-American beauty."

"I think that there are two different aspects of beauty that should be understood," Mrs. Morris continued. "One is the physical aspect—which means cleanliness, proper exercise, proper diet and proper care of the complexion and the like."

"The other is the mental aspect. The mental aspect is the absence of hate, envy, greed, jealousy, and the replacement of these thoughts by the thoughts of service, tolerance and love of others."

"These two sides to beauty go hand in hand and spell real beauty, and I believe that any woman who will try to follow these lines will find a great change come over her, that she will find new courage, new happiness and new beauty."

"Did you notice what Mr. Hoppe, the English photographer, said about beautiful women in his 'Book of Fair Women'?" Mrs. Morris was asked.

"She shook her head in the negative. 'God makes beautiful women,' a man should do to do the best she can for herself," she was quoted to her.

Mrs. Morris nodded in agreement. "That reminds me of an idea of mine," she continued. "I think that ugly women are apt to idealize beauty men—to give them a lot more credit than is actually due them simply because a man is not likely to 'make a fool of himself' over an ugly woman."

"Well, then—just how should a woman go to make herself beautiful?" Mrs. Morris was asked.

"A woman should do everything in her power to make herself beautiful," was the reply. "Man condemns anything he does not understand, and any attempt on the part of woman to make herself beautiful arouses in him the suspicion that she is about to escape the old age domination which he has held over her. But it is up to her to make herself beautiful for someone—whether it be her husband, her sweetheart, or her children."

"Why I have actually seen a girl's whole outlook on life changed by the very simple remedy of changing the arrangement of her hair, so that when she looked in the glass she saw another girl—a happy girl, a girl who did not regret her old self."

"We all know that a smile is the echo of a smile and that hate is the reflection of self-hate," Mrs. Morris concluded. "We know that an unpleasant complexion is the sign of neglect and hopelessness. I have had so many girls come to me with utter misery and despair written on their faces, and the seat of that misery was the loss of their power to attract or please some one. That misery was apparent in their dress, and their general attitude toward life."

"So you see it is up to a woman to make herself just as beautiful as she possibly can."

HOME DECORATIONS

Copyright, 1922.

STENCILING FOR CURTAINS.
Just a strip of a simple stencil can do all sorts of things in the way of arranging your room. You may need just that touch of design and can't

think how to work it in where it will be useful.
Make your curtains of ratine in a band of orange color. Make a band for the edge out of unbleached muslin in its natural state. Let it be about four inches wide. Now with a stencil that makes a running pattern, paint black flowers down this border strip, and you have an edge which gives your curtains shape and form while at the same time they inject an interesting

pattern into your interior decorations.
A flat valance would be the thing to go with these curtains and that could have another harmonizing stencil used for its border, while at the bottom of that white muslin strip a row of black silk fringe could form the edge.
Then, with an arrangement of this sort, you must have net curtains against the windows. Do them in white. Make them double; that is, one for the upper sash and one for the lower sash. Edge each of the net ones with the black fringe that you have used on the bottom of your valance, and you will have a window decoration of which you can certainly be proud.

Is Your Piano Misused?

Copyright, 1922.

The trained musician has little trouble in keeping his piano in excellent tune. But the amateur pianist who just plays little snatches of this and that soon finds that some of the keys are in much better tune than others.

The fault is not always that of the piano tuner nor is it always due to the fact that the piano has been exposed to dampness or left in a strong draft of air. Usually it is because the amateur doesn't use every key when he plays. The musician who plays merely for his own benefit and who is far from being a skilled pianist discovers that he plays better in some one key and consequently selects all his music from that key. The true musician plays in all keys and has no preference.

For any length of time we play

almost entirely in one key the notes which are not used are bound to produce a different sound from those which are used constantly.

The skilled musician runs his fingers lightly over the whole keyboard before starting any piece, thus bringing all the notes into action. No piano can be expected to keep in perfect tune unless every key is used.

THE WIND.
Current Opinion: Wind is caused by difference in temperature or by the rotation of the earth. An area of heat will cause the atmosphere to rise and create a vacuum into which the cooler air will rush. At the equator the earth rotates at the rate of 1,000 miles an hour toward the east. It would seem then that the atmosphere ought

to blow toward the west at the rate of 1,000 miles an hour. But as a revolving rod in a glass of soda gradually sets the surrounding liquid rotating at a like speed, so the atmosphere almost gains the speed of the earth and the air is practically calm. However, a slight difference in speed causes the so-called trade winds that blow somewhat steadily toward the west. At a high altitude these winds blow at about seventy miles an hour.

THINGS FOR BOYS TO MAKE

How to Toy Violin.
The simplest way to make a bow for a toy violin, one that may be lightened is shown above.
If you have no horsehair to use for the bow, use fine silk thread and rub it well with resin after the bow is finished. Secure the thread to one end of a square stick as shown by diagram "D". For the head of the bow use a long, shanked eyescrew which passes through a block as shown by diagram "A". The thread is attached to the shoulder of the block and is bridged back over a flat notched piece of cigar box wood, as shown by side view "X" and bottom view "B". In the diagram shows a top view. For the head of the bow is best to use forty or fifty strands of the silk thread.

AFTER DINNER TRICKS

The Restored Handkerchief.
A hole is burnt in the center of a borrowed handkerchief. The performer quickly extinguishes the flame, and spreading the handkerchief, shows that it is entirely restored.
For this trick you need a little bit of white cloth, which you hold in your right hand. Bunch up the borrowed handkerchief in the center, and allow the extra bit of cloth to protrude from the finger tips as though it were the real center of the handkerchief. Light the bit of cloth, and when it is nearly consumed quickly extinguish it with your right hand, and draw away the little bit of burnt cloth that remains. Spread out the handkerchief, throw it on the table, and secretly drop the burnt bit of cloth in your lap.
