The Hon. Hitoshi Ashida,
Prime Minister

Misao Ueda

Sir:

Re: Application pursuant to the provisions of Articles 6 and 7 of the "Law for Termination of the Zaibatsu Family Control"

I have held the office of director of the company since May 30, 1946 when I was first elected thereto. But the assignment and the business execution had practically nothing to do with the Zaibatsu or the Zaibatsu companies. I hereby make application pursuant to the provisions of Articles 6 and 7 of the "Law for Termination of the Zaibatsu Family Control", enclosing the "Reason for Application" and the "Questionnaire". I wish to ask you for your kind examination.

Applicant:

Mitsui Direct Affiliate	Toyo High Pressure Industry Co., Ltd. (Toyo Koatsu Kogyo K. K.)
Present Position	Director
Name	Yawaki WATANABE

Yours very truly,

Yawaki Watanabe.
Yawaki WATANABE

Enclosures:

1. Reason for Application
   annexes
   (1) Certification by Mitsui Honsha, Ltd.
   (2) Certification by Mitsui Chemical Industry Co., Ltd.
   (3) Certification by ex-president, Katsutaro SHIBATA
   (4) Open Letter of the Head Office Employees' Union of the Company
   (5) Certification by the above union
2. Questionnaire

TOYO HIGH PRESSURE INDUSTRY CO., LTD.
(TOYO KOATSU KOGYO K.K.)
TOKYO, JAPAN.

REASON FOR APPLICATION

1. Personnel relationship of the Toyo High Pressure Industry Co., Ltd. with the Mitsui Honsha and the Mitsui Chemical Industry Co., Ltd. at the time of assumption of office of director.
   --- As set forth minutely in the Application made in accordance with Article 10 of the Law (so-called counter-evidence as a company by the Toyo High Pressure Industry Co., Ltd. ---

(1) Relationship with Mitsui Honsha (vide annex: Certification by Mitsui Honsha)

As the Mitsui Honsha has never been a stockholder of our company, we have never been under its control as far as stockholding is concerned. Namely, in the election of officials there existed no written arrangement between the Mitsui Honsha and our company and ever since the establishment of our company we have never installed an official dispatched from the former. In October of 1944 when the war was still in progress, a system of direct and indirect affiliates was established for the purpose of co-ordinating the various enterprises of the Mitsui and as we became an indirect affiliate, superficial relationship with the Mitsui Honsha commenced to exist. At this time, however, state control over our company became very predominant and moreover as the Mitsui Honsha was busily engrossed with policies to cope with the latter stages of the war, they were unable to give us assistance needless to say of control. Thus, during this period, in execution of important business matters and selection of officials, we never sought the approval of nor even reported such to the Mitsui Honsha.

The Mitsui Honsha actually ceased to function as a holding company after the surrender. In October of 1945 when the dissolution of the Honsha became definite, it completely discontinued to function and on November 6, 1945 the directive for its dissolution was issued. From the circumstances leading to the subsequent issuance of the dissolution statement by the president of the Mitsui Honsha, it is obvious that when I was appointed an official on May 30, 1945 the Mitsui Honsha had become extinct both in name and reality.

(2) Relationship with the Mitsui Chemical Industry Co., Ltd. (vide annex: Certification by Mitsui Chemical Industry Co., Ltd.)

The Mitsui Chemical Industry Co., Ltd., our parent company, which held 34.6% of our stocks at the end of the war, had taken over these stocks from the Mitsui Mining Co., Ltd. in April of 1941 at the time of its establishment. As our initial parent company, there used to be a tendency on the part of the Mitsui Mining Co., Ltd. to exercise control over us in matters of daily business and selection of officials. However, after the stocks were transferred to the Mitsui Chemical Industry Co., Ltd., although it was our principal stockholder, it did not have the reserve to execute concrete policies for controlling

our company, because while on one hand it was still in its incipient stage and was busily engrossed and pressed by its own business affairs, our company on the other hand had begun to assume the proportions of a major company after undergoing structural reorganization and business expansion and the state control over us had become increasingly intensified. Thus, the few officials who were dispatched to us from the Mitsui Chemical Industry Co., Ltd. were made by the latter as a reward to the dispatched officials themselves and they did not participate at all in the business affairs of our company. With the dissolution of the Mitsui Honsha after the war, the Mitsui Chemical Industry Co., Ltd. also abolished its superficial control over the connected companies. Thus when I assumed the office, there were no Zaibatsu officials in the company.

2. Reasons for Item 2, Paragraph 1, Article 6 of the Law: Unjustifiable supposition as a zaibatsu official viewed from the circumstances leading to appointment as an official and the actual conditions of the execution of duties of such office.

I first became connected with the Toyo High Pressure Industry Co., Ltd. in 1938 when the Synthetic Industry Co., Ltd. where I was employed was amalgamated by the former. Ever since I was with the Synthetic Industry Company until today, I have always been stationed at the factory as an engineer and I have never associated myself with company management as a whole.

As stated in annex (3) Certification, I was recommended as director by the former president, Mr. Katsutaro Shibata, my senior at the Tohoku Imperial University. And it was because of my seven years' experience at the laboratory of the university and because I had cooperated with him for a long time on the claude system ammonia synthesis at the Synthetic Industry Co., Ltd. (now Hikoshima Factory, Toyo High Pressure Industry Co., Ltd.) where fixation of nitrogen in air was first attempted and at Omuta Factory, Toyo High Pressure Industry Co., Ltd.

Before I became director of the Toyo High Pressure Industry Company I was manager of its Hokkaido Factory. At that time the Hokkaido Factory was almost at the point of completion and was just entering the most critical moment when the trial operation of the ammonia plant was to be initiated. Thus, I was elected director concurrently holding the position of manager and as manager much was expected of me. Soon after the Hokkaido Factory commenced operation I was transferred to the post of manager of the Omuta Factory. And so until now I have spent most of my time at the factories engaged in improvement of production.

Thus, as stated above my appointment was made from a purely technical standpoint. Moreover the company was clearly on an independent status both in name and reality attaching importance to democratic management and in my appointment there was no participation at all by the Mitsui Zaibatsu, the Mitsui Honsha, the Mitsui Chemical Industry Company, etc. Also the fact that I was able to obtain the consent of the company's labor union (vide annex (5)) which issued an "open letter to the Company's officials"(vide annex (4)) strongly advocating the exclusion of Zaibatsu officials clearly prdves that I am not a Zaibatsu official.

Moreover as stated in Item 1, the Mitsui Zaibatsu did not participate at all in the affairs of our company and I was not circumscribed at all in the execution of my duties.

3. With regard to the fact that the applicant has the qualifications prescribed in Paragraph 1, Article 7 of the Law.

(1) That the applicant is not a member of the Zaibatsu nor the spouse, parent, child, brother, or sister of a person on the same family register as the Zaibatsu, or the spouse of above.

Not applicable.

(2) That no arrangement that the previous approval be obtained from the Zaibatsu or direct Zaibatsu affiliate regarding assumption of the position of official existed between the Zaibatsu company where the applicant served and the Zaibatsu or the direct Zaibatsu affiliate. In case no arrangement existed, that no approval was received.

As has been stated before no such arrangement existed, and no approval was received.

(3) That the applicant had no right or controlling power equal to or exceeding that of a managing director in case the applicant held a position of official in an indirect Zaibatsu affiliate, or that of a supreme representative official in case the applicant held a position of official in a Zaibatsu associate company.

Not applicable because the company is a direct Zaibatsu affiliate.

(4) That the applicant did not hold more than four positions of officials in Zaibatsu companies concurrently.

As is stated in the "Questionnaire", I have never held position of official in any other Zaibatsu company.

annex (1)

(Translation)

CERTIFICATION

May 25, 1948

for Mr. Yawaki Watanabe
Director,
Toyo High Pressure
Industry Co.,Ltd.

The Toyo High Pressure Industry Co., Ltd. is a subsidiary of the Mitsui Honsha (or Mitsui Gomei, Mitsui Somotokata). There have been neither written arrangement nor custom regarding direct supervision of business or dispatchment of officials etc. Mitsui Honsha has never been a stockholder of the Toyo High Pressure Industry Co., Ltd.

In October 1944, a system of indirect affiliates was established by which the Toyo High Pressure Industry Co., Ltd. was put among the indirect affiliates. Thus the nominal system of exercising direct control over the company was established. But the period to the termination of the war being only ten months, the Mitsui Honsha was busily engrossed with policies to cope with the latter stages of the war. Therefore the system existed only in name and no actual control or assistance was effected.

On November 6, 1945 after the war, the directive for dissolution of the Mitsui Zaibatsu was issued by the Allied Powers. And the president of the Mitsui Honsha issued a statement of dissolution of the Honsha on the 8th of the same month. Since then, the relationships of the Mitsui companies with the Mitsui Honsha ceased to exist in name and reality. Therefore it is obvious from above that the Mitsui Honsha took no part whatsoever in the election of Mr. Yawaki Watanabe for director at the General Meeting of Stockholders of the Toyo High Pressure Industry Co., Ltd. held on May 30, 1946.

I certify that the statement contained herein is true and correc

(Sgd.)

JUN TAGUCHI

Jun Taguchi, Liquidator
Mitsui Honsha, Ltd.

annex (2)

CERTIFICATION

May 30, 1948

Due to decisions made on November 8, 1945 regarding the basic policy of eliminating the Zaibatsu control exercised by the Mitsui Honsha, not only was the conventional system of recommending Mitsui officials to the Toyo High Pressure Industry Co., Ltd. wholly abolished, but also all officials holding positions in the said company were dismissed from them within the following six months, because the assumption of offices in the company by any of our officers had been disapproved.

Thus being the situation, we were not concerned whatsoever in the appointment of Mr. Yawaki WATANABE to the office of director at the General Meeting of Stockholders held on May 30, 1946.

I certify that the statement contained herein is true and correct.

(Sgd.)

Yoshifumi Enomoto

Yoshibumi Enomoto
President and Director,
Mitsui Chemical Industry
Co., Ltd.

annex (3)

CERTIFICATION

May 15, 1948

As president of the Toyo High Pressure Industry Co., Ltd. during the period from November 29, 1945 to March 14, 1947, I recommended Mr. Yawaki Watanabe as director on May 30, 1946. The reasons for this recommendation was that, being graduates from the same school, we were on intimate terms for many years and that he was one of the most reliable persons from the point of technics and of friendship, and it had no connection with the Zaibatsu influence.

As the attached personal history will show I was busily engaged in the study of ammonia and methanol as an engineer of the Industrial Experimenting Station when I was invited by the Synthetic Industry Co., Ltd. which was engaged in the production of these items to give technical guidance. Later this company was amalgamated by the Toyo High Pressure Industry Co., Ltd. and I became an official of the latter. Thus, I am not a dispatched official of the Mitsui Zaibatsu. Moreover when I recommended the above person, the Mitsui Honsha had already been dissolved and the Mitsui Chemical Industry Co., Ltd. which is our principal stockholder did not take any part whatsoever in his recommendation.

Thus, because of the above reasons I was able to make recommendations of officials from my own standpoint after consulting the opinions of the employees but without the necessity of considering our relations with other Mitsui companies.

I certify that the statement contained herein is true and correct.

(Sgd.) Katsutaro Shibata

Katsutaro Shibata
Former President,
Toyo High Pressure

Open Letter to the President, Managing Directors
and other Executive Staff of the Company

May 3, 1946

Half a year since the termination of the war, and the reconstruction of Japanese economy is still slow in improving. The food crisis, disemployment and the inflation are leading the nation's living to a collapse.

We do not hope for the equalness of poverty. It is well understood that the stability of the nation's living depends, above all, on the restoration and improvement of production. But, looking at the development in reality, the unable and idle leading class has left the production as low as ever and the people hopeless.

Moreover, the situation is ever worsening, and no delay is allowed. Herefore, we, the working class, must devote ourselves to the encouragement of the production.

Thus, analysing the causes of industrial stagnation, we find that the strongest hindrance, though there are some necks in the price and raw materials, is the restriction by capital in the management of enterprises, which has been pointed out by the intelligent and which we have always realized.

The capitalist control over management, at present, yields nothing but sabotage of production or, if not, the capitalists are devoted in protecting themselves, which is altogether against the economical reconstruction and nothing can be a stronger hindrance to the productive intention of the laborers.

And when we turn back to look at the present situation of our company, who can say this is an exception? The restoration work at the Omuta Factory and the construction work at the Hokkaido Factory are very slow, causing low efficiency of business, which is being illy reputed from in and out. The reason for this is undeniably in the weakness of managing right and the lowness of laborers' productive intention rising from it.

The Zaibatsu are being dissolved. The way of overcoming the present critical situation is to establish the subjectivity of the company through its independance and to strengthen the production efficiently by utilizing fully the abilities of the employees apart from the restriction of capital. Thus, we hope to contribute to the prompt stabilization of the national living.

Now that, we, in the name of the union, endeavor to renew the enterprise system of the company, we earnestly hope that a powerful measure by the intelligent consideration of the present directors is taken to establish a democratic management, excluding all Zaibatsu or capital participation from the managment and leading us on a perfectly free basis.

Head Office Employees' Union,
Toyo High Pressure Industry Co., Ltd.

7. Position of official in company which you hold or for which you are under consideration.

a. Name of company and the lineage of Zaibatsu where the company belongs. (In case name of the company has been changed after 2 September 1945 the former name will also be given.)

Tokyo Precise Forging Co., Ltd.
(K.K. Tokyo Seitankosho)
Zaibatsu affiliation: Sumitomo

b. Classification of Zaibatsu, restricted, subsidiary or connected company (in the case of Zaibatsu company, the classification of the direct affiliate, indirect affiliate or associate company will also be given.)

Associate company

c. Position.

Director

d. Scheduled date of assumption of the position.

Assumed the post April 1, 1945, and now holding it.

8. All other positions snd professions which you hold now.

Chief of Production Department.

9. Family relationship with the persons designated as Zaibatsu.

a. Existence or not of the relationship and its details, if any. (includiug relationship with the Zaibatsu family members.)

None

b. Whether or not you were on the same family register with the designated persons on the day of their designation.

No

DECLASSIFIED E.O. 11652 SEC. 3(E) AND 5(D) OR (E) NNDG # 775012

10. Chronological record of profession and employment.

Note 1: "Organization or company" mentioned in this column include any organization or company other than Zaibatsu company. With reference to organizations, relationship with economic organizations such as union, association or conference etc. will particularly be given in detail.

Note 2: In case you did not, in fact, handle duties for which you have been authorized, duties and powers which you actually handled and name of the person who dealt with duties originally authorized for you will be given.

Note 3: With reference to the Zaibatsu company where you served as official or as a person accorded with the status of official, the following entries are additionally required.

a. Name and stock-holding percentage of stock-holders owning 10 per cent or more of the total stock of the company at the time of your assumption of office and retirement.

b. Name, position and dates of appointment and retirement of other officials of the company during the period when you served.

Dates of employment and retirement.	Name of company or organization where you served.	Status of the position (including position as ordinary personnel.)	Duties and powers (in detail).	Substance of business of organization or company where you served and its location.
	Listed on seperate sheet

Misao Ueda

No.229 Fujisawa, Fujisawa City,
Kanagawa Prefecture.
June , 1948

To: Prime Minister
Japanese Government

Subject: Application for your approval for eliminating me from the list of Zaibatsu appointees filed under the Law for Termination of Zaibatsu Family Control, Art 6.

Sir,

In accordance with the provisions of Article 6 of the Law for Termination of Zaibatsu Family Control, I have the honor to submit this application for your approval to eliminate my name from the list of Zaibatsu appointees, for reasons mentioned in the attached documents.

Yours respectfully,

Toraichi Yagi.
(Toraichi Yagi)

Enclos: Reason for application
Questionnaire
Other papers

EXEMPTION FROM THE LAW FOR ELIMINATION OF ZAIBATSU FAMILY CONTROL SEC. 3(2) AND 3(3) OR (2) AND(3) [illegible] 1-3012

Reason for Application

I have been holding the office of director in the Tokyo Precise Forging Co., Ltd. (K.K. Tokyo Sei-Tankosho), an associate of the Fuso Metal Industries, Ltd. (Fuso Kinzoku Kogyo K.K., hereafter referred to as the Fuso Company) since my appointment on April 1, 1945.

I assumed the office of director in the Kanto Special Steel Mfg. Co., Ltd. (Kanto Tokushu Seiko K.K., hereafter referred to as the Kanto Company), which was designated as a Zaibatsu indirect affiliate company, from January 21, 1943, to May 28, 1945. However, I consider the Law for Elimination of Zaibatsu Family Control is not applicable to myself as I did not represent the interest of Fuso Company nor did I participate in the management of Kanto Company as fully explained in the following lines.

1) I took the position at the Sumitomo Casting Works, the predecessor of the Steel Works of Fuso Metal Industries, in 1919 as a member of technical staff. I was assigned to the Estimators' Unit attached to Designing Section. In 1927 I was transferred to the service in Forging Shop, after then I have devoted myself exclusively to the manufacture of steel forgings. In September, 1935, I was appointed manager of the Forging Shop.

2) In 1936, the Kanto Special Steel Co. was established for the purpose of supplying Fuso Company with rolls and steel shapes, all of which were of special steels made by forging. As, however, the Kanto Company lacked in its production technique to satisfy the needs of Fuso Company, it was deemed necessary that Fuso Comapny should give some technical guidance to the Kanto Company. As I had specialized in the manufacture of Forgings as above mentioned, I received order to leave the Fuso's Shop and serve the Kanto Company on October 1, 1937 as manager of Production Department and took charge of production technique giving necessary guidance to the company.

3) On January 29, 1943, I took directorship of the company, concurrently holding he post of manager of Production Department as hitherto. This appointment was in accordance with the usual practice of the company to appoint comapny staff of higher order to nominal officer. In reality, there was entirely no change in my functions which remained to be in charge of production technique. I was given no authority to participate in the conduct of important affaires of the company or otherwise control its management. Since then, my principal post in the company was changed from manager of Production Department to manager of Inspection Department, but all the time I took merely charge of technical fields of the company's business.

As detailed in the attached "Relation of Kanto Special Steel Company with Fuso Metal Industries," the management of the Kanto Company was carried on by the Fuso Company, owner of the total shares of the Kanto Company, as its own brabch plant. The management of the company therefore, was in the hands of the officers of Fuso Company, and Mr. Akiyama, standing President of the company and Senior Officer to me, had authorities as representative of management of this company. My position as officer, taking charge of only production and techniques, was therefore merely a nominal one to act upon provisions of the commercial law of Japan.

In short, I performed my duties as a staff taking charge of technics during my time of office as director, and represented in no way the interest of the direct affiliated concern of Zaibatsu, Fuso Company, nor I had never participated in the management of the company.

4) I left the Kanto Company at the end of March, 1945, and on April 1, same year, I entered into the service of the Tokyo Precise Forging Co., Ltd. (K.K. Tokyo Sei-Tankosho) as director and manager of Production Department, office of which I have held until now.

--- I N D E X ---

Outline of The Kanto Special Steel Manufacturing Co., Ltd.
(Kanto Tokushu Seiko K.K.)

Trade Name: Kanto Special Steel Manufacturing Co., Ltd.
(Kanto Tokushu Seiko K.K.)
(Former Name: Tsujido Special Steel Mfg. Co., Ltd.)
(Tsujido Tokushu Seiko K.K.)

Date of Establishment: October, 1936

Authorized Capital: ¥20,000,000

Paid-up Capital: ¥14,000,000

Address: No.1110 Tsujido, Fujisawa, Kanagawa Pref.

(1) Capital

(Change of amount of capital up to the present from establishment)

	(Authorized)	(Paid-up)	(Shareholder)
October, 1936 (established)	¥ 300,000	¥ 300,000	Fuso Metal Industries (100%)
1937	¥ 1,500,000	¥ 1,500,000	"
1939	¥ 6,000,000	¥ 3,300,000	"
1940	"	¥ 4,650,000	"
1942	"	¥ 6,000,000	"
1943	¥12,000,000	¥12,000,000	"
1944	¥20,000,000	¥14,000,000	"
Up to the present			Voting rights entrusted ~~from~~ to the Holding Company Liquidation Commission

(2) Scale of Equipment and Number of Workers

(Description)	(Area or Number in 1938 yr.)	(Area or Number at the end of war)
Land	11,700 Tsubo	58,300 Tsubo
Buildings	1,960 "	11,000 "
Major Equipments		
Electric Furnace (6 tons)	None	1 Unit
" (3 Tons)	1 Unit	1 "
(High Frequency Induction 1 ton)	1 Unit / None	2 " / 4 Units

Heating Furnace	(Coal)	3 Units			14 Units		
"	(Electric)	1 "	)4 Units		4 "	)18 Units	
Air Compressor	(500 HP.)	None	)		2 "	)	
"	(300 HP.)	2 "	)2 "		2 "	) 5	"
"	(100 HP.)	None	)		1 "	)	
Hammer	(3 tons)	1 "	)		4 "	)	
"	(2 tons)	None	)		2 "	)	
"	(1.5 tons)	1 "	)3 "		1 "	) 9	"
"	(1 ton)	None	)		1 "	)	
"	(0.5 ton)	1 "	)		1 "	)	
Press	(1,500 tons)	None			1 "	) 1	
Machine Tools		20 Units			13 ~~97~~ "		
Workers		217			1,309		

(3) Products and Output

(Products)	(Annual Output in 1938)	(Annual Output in 1944)
Chiled rolls made from special steel by forging		402 tons
Die Steels for Casting		5,678 "
Spring Steels for Railway Rolling Stocks		}
Parts for Railway Rolling Stocks		} 465 "
Stainless Steels		}
Total output	1,573 tons	6,545 "
Total Amount	¥970,000	¥14,237,000

For the comparison of the equipment scale of the Kanto Company and the Fuso Company we can cite the following figures as to production of steels, that is, the steel output of the former in 1938 was 3,500 tons per annum and this was only about 9 percent of that of the steel making shop in the Fuso Steel Works which produced 40,000 tons. As to the productive capacity of forgings, the former turned out prodnets of ¥970,000 in 1938 and this was about 12 per cent of ¥8,243,000 of the forging shop in the Fuso Steel Works in 1937. (Note; Production of the Fuso Steel Works amounted to ¥27,925,000 and the total production of the Fuso Company ¥116,921,000) To make a comparison of output in 1944 when the production reached the peak during the war time that of the Kanto Company was 6,545 tons amounting to only 6.3 percent of 103,501 tons of the Fuso Steel Works or about 20 per cent of 33,975 tons of the forging shop of that works. Products of the Kanto Company such as rolls and die steels were supplied to the Fuso Copper Works and the Fuso Steel Works, and operation techniques applied in this

company were introduced from the Fuso Company. Such being the case, the Kanto Company was run just as a plant for the Fuso Company. All products of the Kanto Company except the above mentioned were special steel forgings, therefore it was in this point also playing a part as a supplementary plant of the special steel forging shop of the Fuso Steel Works. The management organization of factories under control of the ~~Sanitomo~~ Fuso Company was centered to the Head Office, major works (6 in 1945) were connected direct with this, plants (8 in 1945) formed next lower structure and branch plants (5 in 1945) were attached at the bottom. In consideration of scale, technical and financial relations, the Kanto Company is an unit in a position corresponding to the plant or branch plant in the above mentioned ~~Sanitomo~~ Company's management organization.

Fuso

C E R T I F I C A T E

Mr. Toraichi YAGI was formerly Chief of Forging Shop attached to the Steel Works of Fuso Kinzoku Kogyo K.K. (Fuso Metal Industries, Ltd.) from which he was transferred to the Kanto Tokushu Seiko K.K. (Kanto Special Steel Mfg. Co., Ltd.) in October, 1937, to take charge of steel forging techniques in the company as Chief of Production Department. He was appointed director in the company in January, 1943.

The Kanto Special Steel Company was treated as a branch factory of Fuso Metal Industries and its management was then conducted by me, who was president of the company, with the assistance of other Fuso's officers. Full-time resident officers of the Kanto Special Steel Company were only in charge of execution of managerial instructions given out by me and other Fuso's officers. Mr. T. YAGI has all this while been taking charge of technical sides of the problems and did not in any way concern himself with the management of the company as a corporate officer.

I hereby certify that the above statement is true and correct in every respect.

May 28, 1948.

H. Kasuga (H. Kasuga.)
