24. Report generally on extent of local publicity given to election.
How did M.G. Team contribute to publicizing election.

No radio facilities were available. One newspaper advertisement and 300 posters were allowed each candidate. Announcements were made in the newspaper three times by the Election Administration Committee of the date of the election, form of ballot to be used, names of candidates and party represented, date and period to make out extraordinary voters registration books, and names of election administration committee. Notices were delivered to each voter's house on the

eve of the election showing the date of the election, the purpose of the election, and the names of the candidates and the party they represented. On election day, the voters were reminded through the medium of public address systems located throughout the city to go to the polls and cast their ballot for the candidate of their choice. Three days prior to the election notice was published in the newspapers that Military Government would have election teams out on election day for the purpose of observing the election and that any complaints pertaining to the election could be reported to these teams. This same information was disseminated verbally by the police and election officials throughout the pre-election campaign.

25. Number of violations reported to you -------- None.

26. General Remarks:

a. The election covered by this report was a by-election of a Prefectural Assemblyman held on 22 December 1947 to fill the vacancy created by the death of an assemblyman elected in the April election.

b. The successful candidate was Mr. Sunao Izawa, age 48, Liberal, who received 5,542 votes out of 14,940 votes cast, or approximately 37% of the total votes cast.

c. Eighty one (81), or less than 1%, of the ballots cast were declared void. Fifty percent (50%) of those declared void was because of illegibility.

d. Percentage of registered voters by sexes is as follows:

Sex	Registered	Voted	Percentage
Male	9,442	7,367	78%
Female	11,230	7,573	67%
Total	20,672	14,940	72%

e. The election was carried out in a very orderly manner. No disturbances or violations were observed or reported.

f. Each of the polling places was visited by one of the surveillance teams although four of the polling places were located on an island in Saeki Bay which required a 2½ hour boat ride for the round trip. The one ballot counting place not visited was located on this island. It was not possible to visit that place and all of the counting places on the mainland while the counting was in progress because of the relatively small number of votes to be counted. Each ballot counting place required an average of approximately 2 hours to complete the count.

Report Form on Surveillance of Elections - By-Election of Saeki City for Member of Ken Assembly, cont'd.

The Election Administration Committee meeting, attended by one of the teems, was held at 1500 the same day at which time the successful candidate was officially announced.

SUBJECT: Election

1. The election of a new governor to fill the vacancy made by the purging of former Governor Tachi, is being delayed by a suit brought by Mr. Nozawa, against the Ken Election Managing Committee.

2. Mr. Nozawa contends that inasmuch as Mr. Tachi submitted a false questionnaire that Mr. Tachi was not a qualified candidate and therefore the election of him as governor be voided and that Mr. Kato be installed as governor.

3. Under the provisions of par 3, Article 9 of Imperial Ordinance No. 1, there can be no new election held as long as there is a court suit pending on the last election.

4. This case is presently being held in the Nagoya Higher Court with the court's decision to be read on the 27th of December 1947.

5. This office has been advised by both parties that in the event of a decision unfavorable to them, they will appeal to the Supreme Court.

1. Attention is invited to basic letter and 1st indorsement pertaining to the gubernatorial situation in Toyama Prefecture.

2. Paragraph 3 of basic letter is believed to be partially in error, because Imperial Ordinance No. 1 (1947) pertains to the purge and according to the English text copy available at this headquarters there are no sub-paragraphs to Article 9. If the ordinance was promulgated prior to 1947 its provisions, where contrary to Diet Law #67, the Local Autonomy Law, would be superceded by the Diet enactment. The legal references applicable to the situation in Toyama are the Purge Directives and Articles 62, 66 and 144 of the Local Autonomy Law.

3. The Governor, TACHI Tetsuji, was recently designated as a purgee; however, prior to determination as a purgee action under Article 66 of Law #67 was filed by a Mr. Nazawa against the Ken Electoral Administration Committee on the theory that the elected candidate had filed a false questionnaire and consequently was not a qualified candidate, and that his election, therefore, was void and that Mr. Kato, who received the next greatest number of votes, should be declared the successful candidate and installed in office.

4. The suit on this case is pending in the Nagoya High Court and a decision is not expected until late in January. (Note paragraphs 4 and 5 of basic letter). The Electoral Administration Committee contends it cannot act under Article 62 of the Local Autonomy Law until final adjudication of the pending suit (Article 144).

5. Until the conflict between the Purge Directives and the Local Autonomy is resolved Takekuni Takatsuji, an appointed vice-governor, is acting as governor.

1. Recent inspection of the court system in Nara Prefecture revealed the following:

a. The District and Summary Courts in this prefecture have not been able to fill all vacancies. Only four of the eight Summary Courts are operating at present.

b. The District Court in Nara has vacancies for two judges and vice judges. Delayed appointments and the treatment of judges and procurators do not attract men of ability and character.

c. The Summary Courts located at Yagyu, Sakurai, Yoshino and Totsukawa have not been in operation. The lack of facilities and no judges are the reasons for delay in opening Summary Courts in these locations. No budget allotment for construction of court houses has been received by these locations.

d. Cases from Yagyu and Sakurai are, at present, being tried in Nara and cases from Yoshino and Totsukawa are tried in Gojo Court.

e. In the procurators system, personnel have not yet been appointed to fill all vacancies; seven vacancies now exist in this office.

SUBJECT: By-election of Prefectural Assemblyman from Yamabe-gun

TO : Commanding General, Eighth Army, APO 343
ATTENTION: Military Government Section

1. The by-election in Yamabe-gun to elect a representative to the Prefecture Assembly was held on 10 December 1947.

2. There was very little interest in this election. The fact that there were only two candidates and very bad weather resulted in only about 42% of the eligible voters participating in the election.

3. Forwarded herewith is a report on the election in Yamabe-gun, Nara Prefecture.

1. The following facts pertaining to expenditures incident to the Emperor's visit to Nagano Prefecture are forwarded for your information:

a. During its regular session in September 1947, the Nagano Prefectural Assembly appropriated ¥1,380,000 to cover prefectural expenses for the Emperor's visit. As result of public announcement of this appropriation, considerable unfavorable criticism appeared in the local newspapers.

b. Upon completion of the Emperor's four day visit to the prefecture in October 1947, no official announcement was made as to the exact total expended for the visit, although it was announced that ¥1,089,000 was spent from the funds appropriated for the purpose. This, however, does not include expenditures made by the various sections of the prefectural government from their regularly allotted funds for improvements to roads, police expenses, etc. Neither does it include expenses incurred by cities, towns, villages and private institutions for landscaping, construction of platforms where the Emperor stopped to be viewed by the people, and improvements to apple orchards, factories, and other private institutions visited. A partial list of expenditures by cities, towns, villages and private institutions is inclosed herewith.

2. In addition to the unfavorable criticism in the newspapers, this Headquarters received complaints from various individuals concerning the Emperor's visit which were varied and mostly as follows:

a. "Many of the expenditures were secret." "The general public was informed of only a small part of the expenditures."

6 cont

Ltr, Hq Nagano MG Team, subj: "Expenditures for Emperor's Visit, Nagano Prefecture", dated 25 November 1947, continued.

b. "The Emperor was shown only the good parts of the locality." "Unfavorable parts were carefully concealed."

Report on the Central Government
Agencies in Osaka.

1. There are 26 Central Government agencies in Osaka (excluding those attached to the Ministry of Justice), and the total number of personnel employed thereof is 68,719.

They may be classified in accordance with their respective affliations as follows:

Cabinet	4
Finance Ministry	3
Commerce and Industry Ministry	2
Agriculture and [illegible]stry Ministry	5
Transportation [illegible]istry	6
Home Ministry	1
Foreign Ministry	1
Welfare Ministry	1
Labor Ministry	1
Communications Ministry	1
Education Ministry	1

2. Some of the 26 offices are old establishments, such as the Osaka Communications Bureau, Osaka Forestry Bureau and Osaka Railway Bureau. But many of the rest of them are new offices recently branched out from the Central Government after the war.

3. There may be many phases of business handled by these Central Government branch offices which could be transferred and carried out by the local government offices, prefectural and minucipal. The transfer or adjustment should be studied as soon as possible for the sake of local autonomy which falls in line with the spirit of the new Constitution as well as for the purpose ofreduction of tax-payers burden by the elimination of the duplicity of offices.

4. The necessity of inter-prefectural administration may be one of basis that supports the local offices of the Central Government. In that case, merger or amalgamation of several prefectures may be considered so that they may be able to administrate on larger scale and extent than the present day prefectures, the size of which are too small at any rate. (Japan is devided into 46 prefectural units now.)
