## Grow Pfeiffer's Prize Winning Flowers

The home of C. A. Pfeiffer above, at Winona, is surrounded by the flowers he loves. It is here that he likes to meet his friends and customers who come to Winona

The home of L. E. Pfeiffer, son of C. A. Pfeiffer, at the foot of the beautiful hills of the upper Mississippi on Highway No. 14

Our Nursery located in Winona in the Upper Mississippi Valley has now been an established concern for 27 years. When we first started growing Peonies and Iris it was only a hoblby after business hours. The demand for Peonies and Iris grown by Pfeiffer increased, and after a few years the hobby became The Pfeiffer Nursery. We now have more than 100 acres of rich valley land exclusively devoted to the growing and propagating of roots, bulbs and plants for the retail and wholesale trade. Nature has given us a most marvelous combination of rich loam soil and ideal growing conditions for the production of sturdy plants, together with winters of sufficient severity to test their hardiness to the utmost. Every plant sent out from our Nursery is as sturdy and healthy as a lifetime spent in propagating, growing and shipping plants with a reputation for giving satisfaction can make it.

Because of the foregoing statements, we urge you to grow Pfeiffer's Prize-Winning Flowers for greater pleasure and pride in your garden. When you plant any kind of flowers it is well to set out only select hardy stock that will fully reward your efforts.

L. E. PFEIFFER

Son of C. A. Pfeiffer, who has been in this business 27 years with his father, working and helping to increase the Pfeiffer reputation for quality.

## OUR NEW MESSAGE to all FLOWER LOVERS

C. A. PFEIFFER

Founder of the Pfeiffer Nursery. Specialist in the propagation of Peonies, Iris and Gladiolus bulbs.

Volume production has brought better quality at lower prices. It has made it possible for us to lower prices on many varieties and to offer many attractive bargains in our various flower collections. Pfeiffer Quality is further assured by the fact that roots and bulbs are shipped as soon as they are dug.

The location of the Nursery at Winona is especially favorable as the soil of the Mississippi Valley is such a combinetion of soils that plants grown here do well in practically all soils. They grow fast and are unusually hardy since the winter seasons are severe and the growing season short. These conditions are responsible in part for the excellent success flower lovers in all parts of the country have had with Pfeiffer's PrizeWinning Quality Stock.

We have a limited supply of some varieties. We urge you to send your order in early, as they will be snapped up quickly because of the low prices.

## PLEASE READ THIS

SHIPMENTS will be made after July th on Iris. Peonies, Lilies, Phlox, miscellaneous Perennials we begin shipments September lIst. Narcissus and other Dutch bulbs after September 15th. Shipments on all of the foregoing will continue until the middle of November when the ground freezes in Minnesota.

TRANSPORTATION. In the U. S. Prepaid Express or Parcel Post, whichever we deem most expedient. Be sure and state your. Express Office if different from Postal address.

## No Orders Accepted for Less than $\$ 1.00$

TERMS. Cash with order, either check, draft or money order. If personal check, please enclose necessary amount extra for exchange.

OUR GUARANTEE. We guarantee all plants and bulbs to be absolutely true to name, up to size and first class quality in every respect. We guarantee all stock to reach you in first class condition, and everything is prepaid to your door. If the package is damaged in transit, please have your Express Agent or Postmaster make a note to that effect on receipt of stock.

With normal care and weather conditions you will have excellent results from all plants and bulbs listed herein, but we cannot be responsible for loss by conditions over which we have no control, such as hail, wind, drought, pestilence, floods, or winter killing.

We will replace free of charge anything which proves to be wrongly named, but we cannot be held liable beyond this.

# PEONIES 

## How and When to Plant

The peony is a useful and versatile plant in either the large or small garden. It is a fine specimen plant (some are delicately scented and lovely for bouquets) ; it is ideal for massing, for borders, for cover in front of shrubbery; and it is one of the very best low hedging plants.

Peonies give color and variety to any scheme of landscaping. They are a boon to the beginner, especially, for with very little skill or effort they produce a profusion of bloom.

## Hardy and Long Lived

Peonies are easy to grow, perfectly hardy and when established in the garden, become a permanent fixture in the landscape. They are hardy in almost any climate and any soil, are easily established and require a minimum of care. They are almost, but not quite, immune from plant diseases and insect pests.

## Planting and Cultivation

Peonies require a reasonably fertile, well drained soil and should have full sun at least part of the day. If planted in a shady place, plants are apt to be spindling, and will not produce typical bloom. If possible, plant them in an open space away from trees and shrubbery, in the open sunlight. Plant so that the buds or eyes are about two inches below the surface of the ground. (See illustration on this page.) Deep planting is detrimental to their blooming habit, and sometimes the cause of their not blooming at all. Space the plants about three feet apart. For hedge plant 24 inches apart.

## FERTILIZING

A little bone meal or prepared fertilizer scattered around the plant, not in contact with the stems or roots,
 NOT BLOOM.
but worked into the soil is beneficial for better blooms. NEVER LET FERTILIZER OF ANY KIND COME IN CONTACT WITH THE ROOTS.

## SIZE OF ROOTS

After many years of growing Peonies, we have found by experience that a plant with 3 to 5 strong, well developed buds or eyes, and a properly balanced root system will produce the best results in the shortest time.

## TIME OF PLANTING

Peonies planted in September and October become established before winter sets in, and will usually bloom in the spring. We advocate fall planting for the amateur grower; but they can be successfully planted in the spring providing the plants are dug in the fall and kept in a dormant condition over winter. Place the plants in your garden where they can remain permanently for eight or ten years. Cover lightly with straw or coarse hay after the ground freezes, the first fall.

## ABOUT ANTS AND BEES

When the buds begin to swell in the spring, they are frequently covered with ants and bees; but do not become alarmed, as all these insects are after is the honey that exudes from the buds, and they will not cause any injury.

## BLOOMING

While many Peonies will bloom the first year, most varieties will not reach their full normal development, or produce typical blocm, until their third year. In cutting bloom, be stire to leave part of the foliage on the plant for the futcre develcpment of the roots and bids.
Make hole deep enough and wide enough to accomodate the roots. Plant so that the "eyes" are NOT more than two inches below the surface. TOO DEEP PLANTING IS OFTEN THE REASON WHY PEONIES DO

# Pfeiffer's <br> <br> PEONY RATINGS 

 <br> <br> PEONY RATINGS}

The figures at the right in the Peony descriptions are the official ratings given by the American Peony Society; 10 points being perfect. Any Peony rating 7.0 is good, over 8.0 very good, and over 9.0 exceptionally good.

CUPS AW ARDED TO PFEIFFER PEONIES

## JAPANESE PEONIES

PRAIRIE AFIRE (Brand). Prairie Afire is a new and entirely distinct break in color in Japs anese Peonies. The guards are broad and a soft creamy rose with good substance. These surround a great ball of brilliant fiery red staminodes. The flower should be cut in the bud and developed inside when the result is simply marvelous.

green carpels; dwarf habit. Excellent landscape variety...................... $\$ 1.50$ each
GOLD MINE 8.2 (Hoilis, 1907). Medium size; midseason. Dark rose-pink of irregular, cupped form; center of narrow whitish petaloids stained light pink and tipped with yellow; carpels ruddy green with pink tips and yellow base; poor fragrance. Medium growth; fairly floriferous; stiff stems.

## PFEIFFER PEONIES (continued)

THERESE 9.8 (Dessert, 1904). One of the French masterpieces. Second highest rated Peony; and considered one of the world's finest varieties. The flowers are of enormous size, and true rose type, with delicate fragrance. Color rich satiny pink with a lighter center. The plant is of vigorous growth, and very free blooming. With us always blooms the first year from planting. Medium height, strong stems. Heavy foliage
$\$ 1.00$ each
TOURANGELLE 9.4 (Dessert, 1910). Pearly white, overlaid with delicate mauve and shade of the LaFrance rose. Very full, large, flat rose type flowers. Strong grower, free bloomer Late midseason. One of the desirable varieties. . . $\$ 1.00$ each UMBELLATA ROSEA 7.4 (Dessert, 1895). Violet-rose, shading to amber-white center. Large, informal rose type. Fragrant Strong and free bloomer. Very early...50c each VENUS 8.3 (Kelway, 1883). Pale hydrangea-pink. Tall, free bloomer. Extra fine for cut flowers. Midseason. .50c each VICTOIRE DE LA MARNE 8.2 (Lessert, 1915). Amaranthred, silvery reflex. Very attractive, globular bloom of great size. . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . $\$ 1.00$ each VIRGINIA MARY (Pfeiffer, 1932). Full double, dark rose pink, rose type; early; excellent cut flower variety. . . . 50 c each WALTER FAXON 9.3 (Richardson, 1904). Vivid salmon-shellpink of a luminous intensity, unique in Peonies. This remarkable variety is at its best in the show room. The flowers are double, of medium size and attractive form; mildly fragrant. Fairly floriferous; good stems and foliage...... . $\$ 1.00$ each
W. F. CHRISTMAN 8.8 (Franklin). Flesh-pink. An attractive flower, full rose type. Fragrant. Strong, sure bloomer. Midseason.
$\$ 1.00$ each

## SINGLE PEONIES

ALBIFLORA, THE BRIDE 8.4 (Dessert, 1902). Single white. Very large, fragrant, with long, yellow stamens. Very early, free blooming and tall. $\$ 1.00$ each BALLIOL (Origin unknown). Single red. . . . . . . . . . . . . $\$ 1.00$ each
BLUSHING BRIDE (Pfeiffer, 1932). Single pink. FI, AMING YOUTH (Pfeiffer 1932) Single crimson; early: profuse bloomer, wonderfully fine variety for landscaping. robust grower, LULU WILSON (Pfeiffer, 1932). Single, very large, light pink, profuse bloomer; medium height, earliest of all MARGUERITE DESSERT 8.5 (Dessert, 1913). Very large; midseason. White, thickly powdered with pale rose-pink dots; small clusters of golden yellow stamens in center; carpels tipped red; fragrance faint but pleasing. Tall. Very floriferous; strong stems and foliage. NELLIE 8.6 (Kelway). Medium to large; midseason; two rows of undulated petals, rose-pink at first, fading almost white; small tuft of yellow stamens in center; carpels ruddy green, dark rose tips and pink kernels at base. Dwarf; floriferous; stiff stems; blooms in clusters. Foliage narrow and wavy. $\$ 1.00$ each PRIDE OF LANGPORT 8.9 (Kelway, 1909). This fine variety carries the high est rating of all the pink singles. The guard petals are large and well rounded, surrounding a center of long, yellow stamens, light green, tipped pink. It is a tall and vigorous grower with small, wiry stems that carry the flowers in clusters. The soft, pleasing pink color and delightful habit of growth make this a very desirable variety.
SETTING SUN (Pfeiffer, 1932). Single dark crimson profuse bloomer medium height; early

## SIZE OF ROOTS

All Peony roots that we send to our patrons are strong 3 to 5 -eye divisions or more, regardless of the price paid, either individual roots or in group collections. These divisions are made from young, vigorous, healthy 3 -year clumps, that have bloomed profusely for two years. You can not buy better roots at any price.

Sometimes our patrons want divisions with 8 to 10 eyes, but nothing is gained by planting these large divisions, as we have learned by many years experience that a Peony with three well developed buds or eyes and a projerly balanced root system, will prove superior to the larger divisions, and give better results in less time.

We receive hundreds of letters every year from our patrons, expressing their pleasure and satisfaction with the large size and fine quality of Pfeiffer's Fine Peonies.Eight Superior Peony Bargains

## PFEIFFER'S IRIS

## The Perennials of Unusual Blendings of Color and Beauty

Irises are undoubtedly one of the most popular of all the hardy perennials. No other perennials available to our gardens combine so many good qualities. They are inexpensive, extremely hardy, may be grown under a great variety of conditions with a minimum amount of care, and they have a wonderful range of colors from the lightest pale yellow to rich gold and deep bronze, delicate pale blues, and lavenders to dark blue and violet to deepest purple, light pink to claret and deep maroon, all the shades of lavender, mauve, violet and pure white, with an endless array of combination colors.

Irises are easy to grow and can be planted almost any time the ground is not frozen. They will do best in a sunny, well drained location in a medium loose, mellow soil. Irises must be planted shallow; many people plant too deep and the plants rot. The rhizome or fleshy part of the root should be just under the surface of the ground. If your location is a low spot where water will stand, it is advisable to make raised beds, so the water cannot stand around the roots. Good drainage is necessary. If the soil is sour, an application of hydrated lime is advisable. Never use manure.

## A WORD ABOUT PLANTS AND PRICES

Our prices are based on strong, single divisions, and we always send out the best plants available. It should be understood that while we strongly advise planting in July and August, the plants are not as large or well developed as they are in the fall, but it is to your advantage to have the plants make their growth in your garden rather than in our own. For southern states, better results might be obtained if Irises are planted in September or October.

## MASS PLANTING ADVISABLE

An Iris display in the garden is much more effective if they are planted in groups of from three to a dozen plants of each variety, and to stimulate an interest for mass planting, we are making attractively low prices by the dozen Ion many varieties.

A BEAUTIFUL IRIS BORDER

## COLLECTIONS

Largely for the benefit of the beginner in Iris growing we are offering some exceptional collections and combinations listed on another page. For the Iris fancier who wants the best and knows just what he or she wants, we have a list of varieties that will appeal to you.

## GUARANTEE

All plants are guaranteed to be true to name, vigorous and healthy when received. If found to be otherwise, we will either replace with true stock or refund your money. Mistakes are made, but not intentionally.

Prices include prepayment of postage in the United States only.

## A FEW REMARKS ABOUT IRIS ROT Please Read Carefully

The development of root rot in bearded Iris is a condition that at times all Iris growers have to contend with. Some of the causes of this condition are too deep planting of the rhizomes, especially early in the spring, water standing around the plants, hot and humid atmosphere, abnormal cold weather in winter without any snow protection.

THE REMEDY: Make raised beds or ridges, so water cannot stand around the plants, plant very shallow, the top of the rhizome should be at the surface of the ground. Next, if rot should develop, scrape the soil from around the rhizome, clean out the rotted parts, sprinkle with sowdered sulphur, let the sun shine on the rhizome and you will soon be powdered
rid of rot.

A light covering of straw or coarse hay put on after the ground freezes, will help to carry your plants safely through the winter.

Follow above instructions and you will have little, if any, trouble with rot.

## Pfeiffer's list of Prize-winning and standard varieties of Iris

In the list following, the letter " S " means "Standards" or upright petals; the letter " $F$ " means the "Falls" or drooping petals.

ABENDA, (Perry). S. light lilac-pink, tinted buff; F. cherry red in color. An excellent landscape variety. 36 inches. . 20 c each; 3 for 50 c

CITRONELLA. Lemon yellow and morocco red
25 c each; 3 for 60 c
CLARA NOYES (H. P. Sass, 1931). One of the finest blended types; general effect yellow, orange and apricot. Flowers well spaced and well carried on a tall stem. A very beautiful intriguing new color.
.75c each
CONCHOBAR (Bliss, 1921). Red purpie. A rival to Bruno. 50c each; 3 for $\$ 1.25$ CORONATION (Moore, 1927). This is the yellow Iris all of us have been looking for. Standards, falls, beard and stamens are golden yellow. The same color as Sherwin Wright, except for a little lighter on the tips of the falls. The flowers are as large as Monsignor, and of good substance. It is a long and profuse bloomer, and is strong and hardy. Height 3 to 4 feet. It attracts immediate attention even in a large field of Iris. We believe that this is the best large dark yellow Iris on the market, and that a great future is ahead of it.

CRIMSON GLOW (Millt 1924) Briliat (Millet, 1924). Briliant crimson-rose in color with the flowers large and well shaped. Orange beard with broad falls and frilled standards. Very free flowering and a wonderful variety for landscape effect.

CRUSADER. Deep violet blue............. . 20c each; 3 for 50c

FREDA MOHR

DAUNTLESS (Connell, 1929). One of the best red Irises. Blooms very large on tall, stiff stems. The plant is a vigorous grower and prolitic bloomer. One of the most beautiful introductions of recent years.

75c each
DEESSE (Cayeux, 1926). 36 inches. One of the finest Iris. The falls are a very brilliant red tone, with lavender standards..

50c each
DEPUTE NOMBLOT (Cayeux, 1929). Copperish bronze and crimson, all flushed golden bronze; a really magnificent Iris. Flowers large and well proportioned on very tal! and widely branched stems. The world's greatest Iris.
.75c each
DOLLY MADISON (Williamson, 1927). 36 inches. Large flowers. $41 / 2$ inches high and 5 inches wide. Mauve standards arching and shading yellow at the base. Broad, flaring falls of lilac, maroon veined. Beard bright orange. Very free flowering, distinct in form and an exceptionally robust variety. One of the finest introductions of recent years.. . .25c each
DON JUAN (Cayeux, 1928). Enormous flowers of splendid shape and heavy texture. S. light rosy lilac shaded to bronze; F. extremely flaring, bright red, shading lighter at the edge. Foliage is very heavy and tall growing.....................35c each

25c each; 3 for 60 c
DUKE OF BEDFORD. Velvety black purple
20c each; 3 for 50c
EL CAPITAN (Mohr-Mitchell, 1926). S. and F. blush violet. Majestic flowers with flaring falls are beautifully posed on a noble spike

50c each
ELIZABETH EGELBERG. Flowers are carried on a strong, stiff stem that starts branching near the ground and carries as many as nine open flowers at one time. Standards broad and overlapping, a beautiful blend of pink and lavender. Falls flaring almost horizontal, aconite-violet. The general effect being a beantiful mauve-pink. 48 inches.
primrose
ELSINORE (Hall, 1925). 3 feet. Flowers of primroseyellow bordered with purple. . .25c each; 3 for 60c
ESPLENDIDO (Mohr, 1924). A very large, red-purple bicolor, with beautifully branched stems.

20c each; 3 for 50c

EUPHONY

EUPHONY (H. P. Sass, 1929). Ruffled standards of the richest copper tinted heliotrope; F. old gold tinged with violet; very tall Z5c each

Medals and Cups that Pfeiffer's Iris have won at different shows staged by the Minnesota Peony and Iris Society and held in

St. Paul and Minneapolis. FRIEDA MOHR (Mohr-Mitchell, 1926). It is a pink bicolor with deep lilac-rose falls and standards of pinkish lilac. It far exceeds any other Iris of similar color, in size, shape, vigor of growth, and brilliancy of color. Selected from all the other Mohr seedlings to bear the name of the originator's wife. An outstanding variety among the new introductions and for many years to come it will be one of the very inest of Iris. 42 inches.
. 25 c each
GAVIOTA. Creamy white, edged yellow.
20 c each; 3 for 50c
GERMAINE PERTHUIS (Millet, 1924). S. violetpurple; $F$. deeper violet lighted with a prominent yellow beard. The flower is of unequalled velvety appearance and deliciously scented. A decendent of Mme. Gaudichau. . . . . . . . . 23 c each; 3 for 60c
GLAMOUR (Bliss, 1922). 36 inches. A very fine Dominion seedling. S. mauve tinted heliotrope; F. redpurple. A very handsome variety.

20c each; 3 for 50c
GLEAM (Nicholls, 1930). Very lovely pale self blue. Tall.

## PRIZE WINNING IRISES

The quality of our plants is unsurpassed. At the Minneapolis Iris Show held in Minneapolis, June 2nd and 3rd, 1932, under the auspices of the Minnesota Horticultural Society at the Northwestern National Bank Building, we made twenty-three entries and won twenty-one prizes, fourteen firsts, six seconds and one hird, besides the Sweepstakes for the most prize points scored, and the silver loving cup shown on the left for the most comprehensive display at the show. This we did after carrying the flowers 143 miles in an automobile. When you get plants from Pfeiffer's you get these prize-winning strains at no additional cost to you.

GOBELIN RED (Danenhauer, 1929). Beautiful oxblood-red with standards lighter in color than the falls. If the flowers were larger it would be classed as one of the best reds. 50c each
INDIAN CHIEF (Ayres, 1929). S. pinkish red; F. deep rich velvety red. Flowers immense, well formed, of heavy substance. One of the best introductions of recent years.

JACQUARD (Ayres, 1927). A glowing dark reddish purple. Very floriferous.

25c each
JAPANESQUE. Lavender white and deep violet.
.20c each; 3 for 50 c
JERRY. A new red-toned Iris that 1 s perfect in every way, an outstanding Topham introduction.
$\$ 3.00$ each
JULIA MARLOWE (Shull, 1924). 40 inches. Very large flowers with violet standards and rains-purple falls of Magnifica shape. The cclors produce a glowing pink and red effect in the sun. Strong, well branched stalks. 25c each; 3 for 60c
KING TUT (Sass, 1926). Large flowers of striking beauty. S. deep reddish brown; F. deep chestnut-red illuminated with orange.

30c each
KING JUBA (H. P. Sass, 1931). A clear colored large variegata, the brilliant contrast between the yellow standards and wide solid deep velvety red falls, making this a striking and much admired Iris. Large flowers on 36 to 40 inch stems. .

65c each
KLAMATH (Kleinsorge, 1929). S. bronze tinted violet; F. deep prune-purple, paling at the edge. Good form and substance.

30 c each
LABOR (Cayeux, 1926). Dark violet overlaid with a copper and bluish sheen. Very beautiful and strong orower.
.20 c each

NENE (Cayeux, 1928). Considered the largest Iris; flowers are enormous, over 9 inches in length and well placed on a strong heavy stem; $S$. soft rose-lilac; $F$. vinous red lighter at the margin. A very imposing variety. . . . . . . . . 90c each
NEOLA (J. Sass, 1932). A beautiful brown toned blend unlike any other dwarf. S. violet; F. deep brown yellow beard. Good sized bloom.
.25c each
NUMA ROUMESTAN (Cayeux 1928). Rich coppery red with an orange beard. Produces a bright red effect in mass.

OCHRACEA (Denis 1919). This flower has been sold under the name of Sunset and Ochrasea Caerulea, but is recognized by the American Iris Society as Ochracea. S. yellowish buff of real old gold, finely arched and of great substance; F. coppery yellow heavily suffused blue-violet in the center of the segments and reticulated and dotted brown at the haft with a prominent yellow beard. A flower of wonderfus color, strong growing, free flowering, sweetly scented and late. 30 inches

25c each; 3 for 60c
OLD GOLD (Sass, 1929). A flower of fine form and substance of a distinctive old gold blend; standards ruffled. Late. 25c each; 3 for 60c
OMAHA (Sass, 1926). A very distinctive iris of a coppery pink and brownish cinnamon; large blooms

25 c each
OPERA. Bright, rich pansy violet....... 20c each; 3 for $50 c$

IRIS FIELD ONE YEAR AFTER PLANTING

## PALEMON. Lilac and deep lilac purple.

20c each; 3 for 50c
PEACHES (Sass, 1931). Peach-apricot and orange
50c each
PEERLESS (Dykes, 1924). 38 inches. A magnificent mahogany-red flower of perfect form and very large. A brilliant rich gold beard liahts up the whole flower. It takes a plant of two years growth to give characteristic bloom because the stems are so tall and thick and the flowers so large and of great substance.
PINK OPAL (Sass). Fine pink much like Pink Satin. Tall and lovely ....75c each
PINK SATIN (Sass, 1930). One of the most exquisite Iris on the market. Clear pure pink with large, finely shaped flowers, well placed on the stem. The best pink Iris up to date.
$\$ 1.00$ each
PLUIE D'OR (Cayeux, 1928). Pure golden yellow self color, stems widely branched with many flowers of good size and texture. One of the best yellows..
PRINCE CHARMING. White, frilled and edged pink. 25c each PRAIRIE GOLD (Sass, 1926). Very fine flower of uniform rich yellow coloring. 25c each; 3 for 60c
PRINCESS WENONAH (Pfeiffer, 1929). S. and F. beautiful uniform shade of light lavender, similar in color to Caroline Stringer. Quite prominent yellow beard. Extra strong, heavy, well branched. 30 inches
.20c each; 3 for 50c
PURISSIMA (Mohr-Mitchell, 1927). A pure white Iris of great size, fine form and substance. Its vigor and tall, well-branched stems make it one of the finest white Irises in commerce. Needs extra winter protection in colder states of the North.
QUIVERA (Jacob Sass, 1932). Unique beauty; buff pink standards with orange vinaceous striped pink; yellow glow at the center, striped with brown hafts and bright yellow beard. Medium size blooms.
RAFFET. Violet with darker violet veinings.
20c each; 3 for 50c
RAMESES (H. P. Sass, 1929). A vigorous healthy grower and free bloomer. In color, pink and rose toned blend. S. light russet; F. flaring to drooping, tourmaline pink. 36-inch, well branched stem
RED WING. (Sass, 1928). 36 inches. A gigantic flower. General color effect in bronzy red. The flower is of perfect shape and is carried on tall, stiff stems. A great acquisition.
ROMOLA (Bliss, 1924). One of the very best of the Dominion seedlings, the blooms are very larae, gracefully formed and delicately toned. S. pale lilac tinged pale ivory-yellow at the base; $F$. velvety red-violet. A free flower, strong arower, with well branched spikes. About 42 inches
ROSE MARIE (Cayeux, 1928). A late blooming Iris with flaring falls. S. light violet; F. purplish red and gracefully frilled. . . . . . .
RUTH PFEIFFER. White and delicate lavender. Color somewhat similar to Katharine E. Lees, different il $m$ and a few days later, larger bloom, tall and fragrant. Praised by Mr. F. X. Su!" -iner in his 1929 Iris book as "One of the fragrant. Praised by Mr. F. X. Sc. . . . . . . . . . . . . . . . . . . . . . 20c each; 3 for 50c finest of its kind'
R. W. WALLACE (Perry, 1923). 42 inches. A beautiful rich deep purple Iris. Taller and darker colored than Germaine Pelthuis. Strong and vigorous. A Taller and darker colored than Germaine Pe. magnificent Pallida.
SAN FRANCISCO (Mohr, 1927). One of the finest Iris in cultivation. Tall, well branched stems. No other Plicata approaches it in si.?e and grandeur. Both standards and falls distinctly edged with lavender-blue. Needs covering in standards and

50c each
SELENE. Silvery lustered white, large flower of Moonlight type, but much improved. Early to midseason. Tall.

50c each
SENSATION (Cayeux, 1925). Flowers of immense size, perfect in form and of excertionally strona texture. A self color of clear cornflower-blue. The falls are horizontal and stand out clearly
SIR MICHAEL (Yeld, 1925). S. clear iridescent lavender-blue; F. deep rich purple, suffused red-brown. The flowers are large and massive with a remarkable rich blending of colors in the velvety falls. 48 inches.

SNOW WHITE (Sturtevant, 1926). 36 inches. A handsome new white Iris with pale green markings, of good form size and substance is larger and much taller than White Knight, which is making it a very popular white Iris. It is very floriferous and a strong, vigorous grower.............25c each
SOUVENIR DE LOETITIA MICHAUD (Millet, 1923). 48 inches. Standards and falis of lohelia-blue with golden vellow reins on a white ground at the haft. Enormous blooms of perfect shape and substance on tall, well branched stalks. It is perfectly hardy, a strong grower and a free bloomer. Worthy of its kigh rating. 25 c each; 3 for 60 c
SWAZI (Bliss, 1922). A Dominion seedling. S bluish minion
violet; $F$ sedling. velvety blackish viclet. Magnificent flower and a vigorous plant. 36 inches. Stock limited.
TAJ MAHAL. Fine tall white.
20 c each ; 3 for 50c
TAPESTRY. A subtle blend of monster size, smoky mulberry in general color effect; center of the fall intensely colored, passing out to the smoky tones of the standards.

75c each
THE SORCERER (Dr. Floore). Very much like Mme. Gaudichau but a bit larger and with a little more luster. . 50c each

TAPESTRY

THURASTUS (Sass, 1931)
Blackest purple self color. One of the darkest, and very striking, showing rich crimson tones when the sun shines on it.

VALENCIA (Mohr-Mitchell, 1926). 30 inches. A beautiful bright orangebuff color. Flowers of good form and substance. Very hardy and prolific

20c each; 3 for 50 c
VESPER GOLD (Wilson). Translucent honey colored self. Midseason, tall. 20c each; 3 for 50c

WAMBLISKA (Jacob Sass, 1931). The largest, tallest, and finest of the really hardy blue white Irises, snowy glittering white standards with a blue tint at the heart of the flower. Clear snow white falls with pale yellow beard. 38 to 40 inches........ .50c each
WEDGEWOOD. A true self blue; extra good. .
WHITE KNIG HT. Snowy white.

IRIS DRIVE THROUGH TWO YEAR FIELD

Win ( 3 for 50c WHITE OUEE N (Geylenkek). Syn., Queen Mary. A small, white flower, with throat and beard greenish white. A prolific bloomer, several days earlier than White Knight. 30 inches.. 20c each; 3 for 50c

WINNISHEIK (Egelberg, 1931). An excellent blue Iris of the darkest hue, that holds its color fine. The flowers are large, of firm texture and slightly frilled. . . . . . . . . . . . . . $\$ 1.00$ each
WM. MOHR (Mohr, 1925). 32 inches. This is a remarkable Iris. The ground color is pale lilac, standards are flushed darker, the whole flower is beautifully veined manganese violet. The flower has great substance, reported quite hardy, but we advise covering lightly for safety.

35c each
YOLANDE. Large flowered bright blue. Midseason; medium height. 20c each; 3 for 50c

ZUA. Crinkled pearly white; early 20c each; 3 for 50c

ZUNI. A glorious glowing red-brown overlaid with a coppery suffusion. Early and free flowering. The falls are a brilliant red in the sunlight. Large in size, well branched. 40 inches in height.

## Rock Garden Collection

One Plant Each of the Nine Varieties of Dwarf Iris listed on Page 17

## $\$ 1.00$ postpaid

Three Plants Each of the same Only $\$ 2.00$ postpaid

# Hardy Perennial Flowers 

## Achillea (Milfoil)

BOULE DE NEIGE (Ball of Snow). Small, white flowers, wonderful for cutting to fill in with other flowers. Blooms in June. . . . . . . . . . . . . . . . . . . . . 20c each; $\$ 2.00$ per dozen

THE PEARL. Pure white flowers borne in the greatest profusion on strong, erect stems. 2 feet high
............................ 20 c each; $\$ 2.00$ per dozen

## Aquilegia (Columbine)

ALPINA. A dwarf variety, useful in the rockery. All colors mixed. . . . . . . . . . . . 20c each; 3 for 60c; $\$ 2.00$ per dozen

LONG-SPURRED MIXED HYBRIDS. This is the most admired type of Columbines. Flowers of large size in a great variety of charming tones and colors. Mixed colors. .25 c each; $; 3$ for 65 c $; \$ 2.50$ per dozen

## Artemisia

SILVER KING. A plant of rare beauty and charm for landscaping or cutting. It thrives in ordinary soil, growing to a height of about 3 feet. The stems are well-branched and thickly covered with silver colored foliage. 25 c each; 3 for 60 c ; $\$ 2.00$ per dozen

## Astilbe

JAPONICA. This is one of the few attractive perennials that thrive either in moderate shade or in the open. Perfectly hardy. Large, plumy heads of pink; flowers in June or July. 3 to 4 feet. .

30c each; $\$ 3.00$ per dozen

## Boltonia

ASTEROIDES. Grows to 6 or 7 feet in height and produces an amazing number of small, daisy-like, white flowers in late fall. Fine for cutting. . . . . 20c each; $\$ 2.00$ per dozen

LATISQUAMA. Slightly more upright in growth than Asteroides, with larger flowers of lavender-pink
.20c each; $\$ 2.00$ per dozen

## Campanula

MEDIA. The well known Canterbury Bells, Biennial. Its numerous branches crowded with deep bells. Blooms in July. 2 to 3 feet. Very showy for the garden; fine for cutting. Mixed colors, Rose, White and Blue. . . 20c each; \$2.00 per dozen

CLEMATIS RECTA. A shrubby Clematis, growing about 3 feet in height. Blooms early in June. Covered with panicles of creamy white flowers that are fine to mix in bouquets.

COREOPSIS LANCEOLATA GRANDIFLORA. A beautiful hardy border plant, grows 18 to 24 inches high and produces its bright yellow flowers in great profusion. By cutting off old flowers, will bloom until fall.
.20c each; $\$ 2.00$ per dozen

## Dicentra (Bleeding Heart)

SPECTABILIS. An old-fashioned favorite. Its long racemes of graceful, heart-shaped, pink flowers are always attractive. Flowers in May. 18 to 30 inches. Heavy roots. . . . . 50 5 each

DICTAMNUS-GAS PLANT. The Dictamnus is one of the most satisfactory hardy plants in cultivation, both on account of splendid flowers and its rich, durable foliage. Pink or white. . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 50 c each

## Digatalis (Foxglove)

Extremely effective when planted in masses in the border. Biennial. However, renews itself from self sown seed and may be treated as a perennial. Mixed colors.

15c each; \$1.50 per dozen

## Hermerocallis <br> (THE NEW DAY LILIES)

Well known family resembling Lilies in character and bloom, usually sweet scented and bearing a great quantity of various shades of yellow flowers during long periods of summer. Very showy in the garden. 2 to 4 feet in height.

## NEWER VARIETIES

CRESSIDA. Deep orange with blooms rather star shaped. Early flowering, of medium height. . . . . . . . . . . . . .75c each
D. D. WYMAN. Very large fiower of golden yellow, with a tawny splash across each petal. Midsummer. . . . $\$ 1.00$ each

GOLDENI. One of the most distinct in the list, a very rich orange-sherbet, with salmony undertone. Very free producer of flowers, medium in height. . . . . . . . . . $\$ 1.00$ each

MANDARIN. Clear lemon yellow, with greenish cast in the heart of each blossom. Very tall, wide open, recurved type of flower . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 75c each

MIKADO. Bright orange, with the central zone of each petal blotched ruddy purple-red. A striking and wholly different sort. .
$\$ 2.00$ each
MRS. A. H. AUSTIN. Extra fine deep golden orange, one of the very largest, very heavy texture. Midsummer, lasting over a long period.
. $\$ 1.00$ each

MRS. W. H. WYMAN. A !ovely, glistening pale lemon yellow, with delicately curved petals. The latest of all. 75c each

OPHIR. Dark golden yellow, on stems that reach 42 inches. Of true lily form. A. fine and contrasting companion to the variety Mandarin . . . . . . . . . . . . . . . . . . . . . . . . . . . $\$ 1.00$ each

## Only $\$ 1.00$ postpaid

3 of each of these 4
Postpaid Only \$2.00

## Daisies

MEMORIAL DAISY (Leucanthemum). A very hardy and early flowering Daisy. Flowers not so large as Alaska or Shasta, but its extreme earliness (usually before Memorial Day), makes it a desirable variety

20 c each ; $\$ 2.00$ per dozen
PAINTED DAISY (Pyrethrum roseum hybridum). One of the choicest of the perennials. The fernlike foliage is attractive when the plants are not in bloom, and the flowers range from white, through shades of pink to deep cerise. Fine for cut flowers in May and June. . . 25 c each; $\$ 2.50$ per dozen

ALASKA DĀISY (Shasta Daisy). Large pure white flowers with yellow center. . . . . . . . . . . 20c each; $\$ 2.00$ per dozen

## Funkia

PLANTAIN LILY. Habit of growth somewhat like the Hemerocallis. Perfectly hardy. Lavender flowers in September. 2 feet.

25c each

## Gaillardia

BLANKET FLOWER. Flowers in different combinations of yellow, orange and maroon-red. Blooms all summer. Fine for cutting.

20c each; 3 for 50 c

GOLD MEDAL
Hybrid Delphinium

## Delphinium (Perennial Larkspur)

Indispensable to the herbaceous garden. Their long, showy spikes of flowers bloom from June until frost in the fall; and furnish the most satisfactory blues to any color scheme.
BELLADONNA. The most continuous blooming of the Delphiniums. Color is a clear turquoise-blue. Very beautiful and fine for cutting. 2 -year clumps. . 20 c each; $\$ 2.00$ per dozen
BELLLAMOSA. The dark blue form of the popular Belladonna. 2 -year clumps................. 20 c each; $\$ 2.00$ per dozen
CHINESE BLUE. A very pretty variety with fine, feathery foliage and intense gentian-blue flowers in open panicles. 2-year clumps.

20 c each; $\$ 2.00$ per dozen
CHINESE WHITE. A pure white form of the above. 2 -year clumps.

20 c each; $\$ 2.00$ per dozen
GOLD MEDAL HYBRIDS. These are in all shades of blue and purple. Mixed colors only . 25 c each; $\$ 2.50$ per dozen WREXHAM HYBRIDS. An extra fine strain of large flowering Delphiniums. Mixed colors only. 2 -year clumps. 50 c each; $\$ 5.00$ per dozen

## Delphinium Collection

Strong 2 year clumps
3 Belladonna
3 Gold Medal Hybrids
6 Plants, ONLY $\$ 1.00$ postpaid

## Culture of Oriental Poppies

There is nothing more brilliantly attractive more strikingly noticeable in any garden-than a clump of Oriental Poppies.

Many times I had bought plants, only to have them die, and many times I had planted seed-but with very little success-simply because I did not know how to care for them. Finally I kought plants in the dormant season and set them out. After becoming established in their new home they made wonderful growth in the fall.

Oriental Poppies are quite hardy, and stay green most of the winter under a light covering, which they should have. When spring comes the plants make rapid growth and very soon big fat buds appear. In a few days, these buds burst into a radiant brilliance, to my joy and satisfaction.

Do not buy Poppies in the spring and expect them to do their best. Buy them in their dormant season, in August or early September-carefully plant them -let them get their roots firmly established-the little feeding roots active and ready for quick work in the spring, and you will have glorious Poppies in your garden and a trilling satisfaction in your heart.

From "The Flower Grower," Albany, N. Y.

## New Oriental Poppies

These Poppies are the regal representatives of the popular Papaver family.
EDNA PERRY. Bright lovely pink. $\qquad$ . .50c each HENRI CAYEAUX. Deep old rose, shaded into wine color. An unusual and very beautiful poppy quite unlike any other.
Should be protected from hot afternoon sun . . . . . . 50c each
LULU NEELEY. Considered the best red that Dr. Neeley has introduced. Beautiful deep dark red, an outstanding Poppy.

50c each
WURTEMBURGIA. Enormous cerise-scarlet flowers often 10 inches in diameter; one of the most outstanding reds.

PROSERPINE. Chinese red, decidedly black center. Very fine.

75c each
ORIENTALE. Brilliant, showy scarlet; flowers in May and June. Very showy. Must be transplanted when dormant in August and September. . . . . . . . 20 c each; $\$ 2.00$ per dozen

## Lily-of-the-Valley

A liberal top dressing of well-decayed manure will be well repaid in the size of bloom and length of stem of these sweetly scented flowers. Clumps. . . . . . . . . . 25 c each; $\$ 2.00$ per dozen

## Liatris (Blazing Star)

A perfectly hardy perennial, doing well in any kind of soil. Rich purple flowers on stout stems, flowering during July and August.

20 c each; $\$ 2.00$ per dozen

## Lychnis

A fine old-fashioned flower bearing large heads of bright red flowers that are very striking. These combined with Achillea and blue Delphinium make an ideal patriotic bouquet on July 4th. Blooms early July. 2 to 4 feet.

20 c each; $\$ 2.00$ per dozen

## Monarda or Bergamot

Showy plants growing from 2 to 3 feet high with aromatic foliage and producing their bright flowers in July and August.

DIDYMA CAMBRIDGE SCARLET. Brilliant crimson scarlet. . . . . . . . . . . . . . . . . . . 20c each; $\$ 2.00$ per dozen
DIDYMA ROSEA. Similar to above, but with rose colored flowers. 3 feet.

20c each; $\$ 2.00$ per dozen
PHLOX (See Page 31.)
PENTSTEMON GRANDIFLORA. Wisconsin's most handsome and decorative wild flower. Easily grown in almost any soil. The flower spikes grow 2 to 3 feet tall, of dainty lavender-blue, and are unlike anything else in the garden. Blooms in May and June. Fine for cut flowers. Plant in an open sunny place. . 25 c each; 3 for $65 \mathrm{c} ; \$ 2.50$ per dozen
RANUNCULUS, YELLOW BUTTERCUP. Well known double yellow Buttercup. Effective either as a cut flower or grouped in the hardy border. Free bloomer, in May and June. .
.20c each; $\$ 2.00$ per dozen
SPIREA FILIPENDULA. Numerous corymbs of white flowers, 15 to 24 inches high, in June and July. Pretty fernlike foliage.
.25 c each; $\$ 2.50$ per dozen
TRITOMA PFITZERI. Rich orange scarlet blooms on stems 2 to 3 feet high. Blooms in August to October. Requires protection in northern states. . . . . 20c each; $\$ 2.00$ per dozen
YUCCA FILAMENTOSA. The bayonet-like leaves are dark green, growing into large clumps. The flower spikes are 4 to 6 feet tall, with drooping creamy white flowers. 25 c each

## Heuchera (Coralbells)

## Rock Garden Plants

This form of a flower garden is increasing in popularity by leaps and bounds.

It is not necessary to own a large estate to have a rockery or rock garden, as they can be built to fit the fmall home grounds as well, proper consideration being given to the location. The best site is on sloping ground where there is good drainage but with a little care they can be built on the level or any place available. A sunny situation is best as most rock plants are sun loving.

ARABIS alpina (Rock Cress). Heads of white flowers in April. One of the earliest to flower. Plant in a well-drained spot. Trim back after flowering to keep foliage neat and attractive.
.25 c each; 3 for 65 c ; $\$ 2.50$ per dozen
ARMERIA laucheana (Sea Pink or Thrift). A low growing mat of dark green foliage with rose-colored flowers on 6 -inch stems. Free bloomer. June to end of season.

30c each; 3 for $65 \mathrm{c} ; \$ 3.00$ per dozen
CAMPANULA carpatica (Harebell). A pretty species growing in compact tufts. Eight inches high. Flowers clear blue. Blooms June to October

25c each; 3 for 65c; $\$ 2.50$ per dozen
DIANTHUS caesius (Cheddar Pink). Close growing tufts of grayish leaves that are ornamental in the rockery even when not in flower. Clove-scented single pink flowers. June. 6 to 8 inches high. Free bloomer

25c each; 3 for 65 c ; $\$ 2.50$ per dozen
DIANTHUS deltoides (Maiden Pink). Small rose flowers in profusion, with pretty green foliage. June. 6 to 8 inches.

DWARF ALPINE ASTER Fine for rock garden or hardy border. 6 to 10 inches high, flowers bluish purple, in May and June.................................20c each; 3 for 50c
GYPSOPHILA repens (Creeping Gypsophila). A very attractive creeping plant for the rockery, with a profusion of white flowers in July and August. Only a few inches high but will cover a space of 18 to 20 inches.

25 c each; 3 for 65 c ; $\$ 2.50$ per dozen

LINUM alpinum (Flax). For the rock garden in full sun Prostrate branches of fine foliage and pale blue flowers all summer.

25 c each; 3 for $65 \mathrm{c} ; \$ 2.50$ per dozen
NEPETA Mussini (Catnip). Gray foliage and lavender-blue flowers. Low growing but rather long, trailing branches, especially attractive in the rockery.

25 c each; 3 for $65 \mathrm{c} ; \$ 2.50$ per dozen
PHLOX subulata (Moss Pink). Low growing Phlox, flowering in May. Valuable in the rock garden. White, rose and lavender. Any of the above Phlox

25 c each; 3 for $65 \mathrm{c} ; \$ 2.50$ per dozen
SAPONARIA ocymoides (Rock Soapwort). A showy, dwart, trailing plant for the rock garden or rock walls. Pink flowers. May and June.......25c each; 3 for 65 c ; $\$ 2.50$ per dozen

THYMUS serpyllum (Mother of Thyme). Creeping plant with fragrant leaves and pink flowers. For crevices in walls and steps and dry sunny places in the rock garden.

25 c each; 3 for 65 c ; $\$ 2.50$ per dozen
TUNICA, Saxifrage. Has small pink flowers in great profusion. 6 inches high. Fine for rock work 20c each; $\$ 2.00$ per dozen

VERONICA teucrium (Speedwell). Intense deep blue flowers on prostrate stems, flowers in June

30c each; 3 for 65 c ; $\$ 2.50$ per dozen
VIOLA, Jersey Gem. Sweet scented violet-colored flowers are borne on stems that stand up in all kinds of weather. Fine for the border or rockery

25 c each; 3 for 65 c ; $\$ 2.50$ per dozen
VIOLA lutea. Clear yellow flowers.
25 c each; 3 for 65 c ; $\$ 2.50$ per dozen
VINCA minor (Periwinkle). Trailing plant with oval dark green leaves and blue flowers

25 c each; 3 for $65 \mathrm{c} ; \$ 2.50$ per dozen

## Sedum, Stonecrop

Sedums vary widely in form of growth, flowers and foliage, are easy to grow, and the low growing varieties are especially useful in the rock garden.

SEDUM acre (Golden Moss). Low growing green fleshy leaves, covered with star-shaped yellow flowers useful for covering dry bare places

20c each; 3 for 50c
S. album. Somewhat like Acre in style and growth, but the leaves have a bluish cast and the growth is heavier. Flowers are nearly white. Rampant grower. . . . . 20c each; 3 for 50c
S. Ewersi. Blue-Gray foliage and dull rose-colored flowers in summer. 6 inches. For clefts in the rockery.

20 c each; 3 for 50 c
S. kamtschaticum. Orange-yellow flowers, with prostrate green foliage, turning golden in autumn 20c each; 3 for 50c
S. reflexum. Light green fleshy leaves touched with bronze in the fall. Yellow flowers. .

20c each; 3 for 50c
S. sarmentosum (String Sedum). Spreading light green foliage and greenish yellow flowers. Requires good drainage. Attractive growing over the face of a rock. Vigorous grower

20c each; 3 for 50c
S.[spectabile (Showy Stonecrop). Grows from 12 to 18 inches tall. Useful in the rockery and valuable in the perennial border. Pink flowers in September. Will do well in either sun or shade.

20c each; 3 for 50c
S. spectabile, Brilliant. Similar to the preceding variety but flowers are dark rose or red color . . . . . 20c each ; 3 for 50c
S. stoloniferum coccineum. Dark rose-colored flowers and foliage has a reddish tinge during summer
.20c each; 3 for 50 c

## Sempervivum

SEMPERVIVUM arachnoideum (Cobweb Houseleek). Medium sized green rosettes of leaves connected by fine silvery, weblike hairs, hence the name. Star-shaped, rose colored flowers.

20c each; 3 for 50 c
S. arenarium. Tiny rosettes of green leaves, in bunches. Spreads readily. Fine for small rock garden

20c each; 3 for 50 c
S. brownii. Brownish rosettes with maroon tips giving a little different color effect.

20 c each ; 3 for 50 c
S. doellianum. Hairy rosettes of green leaves, tinted red at the tips. Red flowers. June and July . . . 20c each; 3 for 50c
S. globiferum. Fattened rosettes 2 or 3 inches across with pale yellow flowers in June.

20c each; 3 for 50 c
S. tectorum (Hen and Chickens). Broad rosettes of green with reddish tips, flowers pale red.

20c each; 3 for 50 c

## WHAT OTHERS SAY ABOUT PFEIFFER PLANTS

## ARKVILLE, N. Y

Dear Sir:
I want to let you know the Iris I ordered last fall from you are beautiful. Dauntless, Gobelin Red and Indian Chief I believe are the first red Iris in this section. One neigh bor is telling the other, and they have stopped to see the red Iris They are a real sensation. I can recommend your Iris and Peonies to anyone, they are true to name and color. Mrs. W. F.

## SYLACAUGA, ALA.

## Gentlemen:

The Peonies arrived in perfect condition and are much the finest roots I have ever received. Thank youts for your prompt service and fine plants.

Mrs. C. H.

NEW ROCKFORD, N. D.

Dear Sirs:
Received the Peony roots in fine shape, and am thanking you for being so prompt.

Mrs. K. N.

DALLAS, TEXAS
Lisar Sir:
The bulbs I have purchased from you have given splendid returns, so I am enclosing another order.
T. E.

## UNION CITY, MENN.

Genilemen:
The plants received and wal it tel! you how pleased I am with them. They are i!:st about the nicest Iris ever received from onv nura-ry, and I've ordered from lots of piaces Mars thanks for the extras.

## LOGAN, UTAH

Gentlemen:
Our Peonies purchased from you several years ago are very lovely We are hoping to buy some new ones this fall, and should like to receive your price list. Mrs. D. F

## POTTSTOWN, PA.

Dear Sirs:
Shipment arrived safely and consisted of the finest quality rhizomes Sisted of the finest quality rhizomes
I ever laid eyes on. Please accept my thanks for the extra stock.
N. W

RICHMOND, CALIF.
Gentlemen:
Received my order of bulbs today. Very much pleased with them all. Thank you kindly until next year.

Mrs. V. M.

## TULIPS

Tulips and other Dutch bulbs can be planted any time in the fall before the ground freezes, but October and November are the two best months. Plant Tulips in beds or borders 4 to 5 inches deep and about 6 inches apart. A light covering of straw or hay is advisable in the northern states but do not put this on UNTIL AFTER THE GROUND IS FROZEN SOLID.

## Darwin Tulips

Darwin Tulips are beautifully outlined, cup-shaped and carried on tall, stiff stems. They are unexcelled either as bedding Tulips or for cut flowers. The colors vary from jet black, crimson, scarlet and purple to lilac, mauve, pink, yellow and all the intermediate blended and pastel shades.

The bulbs furnished on the following list are Super-Quality, top size bulbs that are sure to please you.

## Breeder Tulips

Because of their immense size, their rare colorings and their complete dependability, Breeder Tulips are rapidly becoming more popular every year. They are the parent Tulip that the many colors of Darwins have been developed from. They bloom in May about the same time as the Darwins. The colors include many found in no other flower, such as browns, bronzes, purples, blue-blacks, deep mauves, dull gold and dark lilac, all exquisitely blended.

## The Pfeiffer Nursery

Winona,
Box 327

## IMPORTANT

Before sealing be sure your name and address are written plainly.

Write your order on this sheet and it will be promptly shipped at proper time for planting.

## The Pfeiffer Nursery <br> WINONA, MINNESOTA

Growers of Prize Winning Peonies, Iris, Gladiolus, Dahlias, etc.

Ship to (Name)
Date.
Street or
R. F. D. No.

Ship by
Town or City
County and State.
Substitutions will not be made unless requested. If a variety ordered is sold out, may we send another of equal or greater value? Yes or No.

Postage prepaid on all orders of $\$ 1.00$ or more. Add $15 c$ extra for postage on smaller orders. SEE OTHER SIDE FOR FREE OFFERS

## HOW TO ORDER

Order your Iris, Peonies, Phlox, Perennials, Tulips, Lily Bulbs, etc. NOW, and you will receive them at the proper time for planting, or when instructed to ship, except as noted below.

We advise early ordering because we are not Jobbers. We grow our own stock, and when we have sold out on any variety we can no longer fill orders for it.

We recommend our Collections. They are real bargains, and being thoroughly familiar with all the different varieties, we are able to group them to the very best advantage for you.

All early orders are reserved immediately, thus insuring you against any possible disappointment in not receiving exactly what you want.

Orders for Iris will be shipped any time after July 4th. Peonies, Lilies, Phlox, Perennials, etc. after September lst. Narcissus and other Dutch Bulbs after September 15th.

Shipments on all of the above will continue until the ground is frozen here in Minnesota or until late in November.

Postage or Express charges on orders of $\$ 1.00$ or more are prepaid to any point in the United States when cash in full is sent with your order.

Please send remittances payable to THE PFEIFFER NURSERY, by Bank Draft, Postal or Express Money Order or enclose cash. On orders for less than $\$ 1.00$ please add 15c for Postage.

## C.O.D. Shipments

C.O.D. orders must be accompanied by $25 \%$ of the total amount of your order. Don't overlook this requirement. Because C.O.D. shipments are sent with Collection Charges collect from the purchaser, the cost to you is higher than by sending remittance in full with your order. It is cheaper for you and better for us, as it means less detail and clerical work, more prompt handling of your order and quicker arrival at destination.

# This valuable 64 page book FREE with Orders of $\$ 2.50$ or more "BETTER GARDENIMG - WHAT, WHEN AND HOW TO PLAAT" 

By HARRY R. O'BRIEN

A complete handbook for the home gardener by one of the outstanding authorities in the country.
We will mail this book to any address in the United States upon request and receipt of 10c. Or if your order from us amounts to $\$ 2.50$, we will gladly send the book FREE if you request it.

## FREE PLANTS and BULBS

If you have two or three friends or neighbors who you are sure never have received our catalogs or bargain sheets, and who you think might be interested in the bulbs or plants we grow, we will be very glad to give you free, some gift plant or bulbs (our selection), if you will enclose their names and addresses when you send in your order.

READ ABOVE INSTRUCTIONS CAREFULLY
BEFORE FILLING OUT THE ORDER BLANK.

## Pfeiffer's Fine Hardy Garden LILIES

Lilies are becoming more popular every year, and are as easy to grow as other hardy garden flowers.

Should be planted on well drained ground, all Lilies should be planted rather deep, 4 to 8 inches, depending on the size of bulb. All Lilies listed below survived the most severe winter on record.

For best results plant all Lilies in the fall.

BROWNI. Creamy-white, trumpet streaked reddish-brown on the outside of petals, 3 to 4 feet high . . . . . . . . . . . . . . . . . . . . . $\$ 1.50$ each

CANDIDUM (Madonna Lily). Clear waxy white, fragrant flowers. Bulbs should be planted in August or early September to insure the necessary fall growth which this variety needs. Large bulbs . . . . . . . . . . . . . . . . 25 c each; 5 for $\$ 1.00$

CANADENSE (The Meadow Lily of Canada). Graceful bells, minutely spotted, varying from red to yellow. June-July .25c each; 3 for 60c

CONCOLOR. Star-shaped flowers; orange red, slightly spotted. 25 c each

ELEEGANS. Flowers held erect on the stem. Orange, slightly spotted. 1 to 2 feet. June.......... 20 c each; 2 for 35 c

ELEGANS ALICE WILSON. A yellow flowered varieis of the well known Elegans family.

50c each
HANSONI. A choice Korean species bearing many handsome yellow flowers with thick petals. Hardy and easily grown, but prefers partial shade. 3 to 4 feet. June.

50c each; 3 for $\$ 1.25$
HENRYI (The Golden Speciosum). Its exotic charm, rich color, hardiness and dependability place it high among the favorite garden Lilies. Tall grower, excellent for cutting. Blooms in August. Large bulbs................... . 25 c each; 3 for 65 c Extra Size.

40c each; 3 for $\$ 1.00$
PARDALINUM GIGANTEUM (The Sunset Lily). This magnificent new Oregon Lily is winning fame both in America and abroad. Under favorable conditions the plant grows 6 to 9 feet tall. The stout stems clothed in luxuriant foliage hold their heads of gorgeous bloom aloft. Color, sunset red, spotted at base of petals. This Lily is wonderfully vigorous and of easy culture. Plant 8 to 10 inches deep, early in the fall, to insure bloom the following spring. July. Strong bulbs. .

75c each
PHILIPPINENSE FORMOSANUM. Late flowering. One of the most beautiful of the trumpet-flowered Lilies, also the latest to bloom. Long, slender tube, white inside, streaked with chocolate outside. Spicy fragrance. Plant 8 inches deep in rich leaf mold soil, in a sunny location. September.
.35c each
PHILIPPINENSE FORMOSANUM. (Price's variety). A summer bloomer, much earlier than above...... . 35c each

REGALE (Regal Lily). White, shading to yellow in the center, and tinted pink on the outside. Blooms in July. 2 to 3 feet. Large bulbs............................. . 25 c each; 5 for $\$ 1.00$
SPECIOSUM RUBRUM. Rosy pink with white edge. 3 to 4 feet. . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 5Cc each
