- To preserve Ice and Snow by Chasse, 8. 138.
- To preserve Ships from being Worm-eaten, 11. 190.
- To preserve Birds taken out of the Eggs, or other small Fetuses, for Anatomical, or other Discoveries, 12. 199.
- To allay the heat in hottest Summer, for Diet or Delight, 15. 255.
- Remedies against extream Cold suggested, 21. 379.
- Trees of Oak as black as Ebony discover'd, and taken up out of Moors and Marshes in draughtly weather, 11. 323.

Note,

That though in this last Head there is repeated the *Transfusion* of Blood, because the Operation is an Art requiring diligence, and a practis'd hand to perform it for all advantageous Discoveries, and so to be distinguish'd from the *Anatomical* Account; yet that there is not affected noise and number, may well appear by reviewing and comparing the particulars of *Artificial Instruments* in the Table,

Table, where sometimes one Engin or Instrument may minister Aid to discover a large branch of Philosophy, as the *Baroscope*, an *Optick Glass*, &c.

And very particularly *M. Rook's* directions for Seamen, which specifies Instruments, may hereunto belong.

And sometimes in one of the Discourses herein mention'd, and abbreviated, there are almost as many Artificial Inventions, as Experiments; as in *Mr. Boyle's* Hydtostatical Experiments: Besides all the Chymical Operations, recited in the *Treatise* of the *Origine of Forms*, &c.

Ὅσον ἐν τῷ μεγάλῳ τὸ εὖ, αὐτὸ ἐν τῷ εὐ τὸ μέγα.

E R R A T A.

Pag. 392. lin. 23. blot out, *as. ibid. lin. 24. read of the Sons.*
