A DISASTROUS TRIP.

Aged Inventor of Air-ship Slightly Injured With Making Experiments With New Machine.

(Associated Press.)

New York, Oct. 4.—Herr Kress, inventor of an air-ship, started on Thursday afternoon on another trial flight on the Tullinacher reservoir, says the Vienna correspondent of the Herald. The result was disastrous. After a certain distance Herr Kress started his motor at full speed ahead, which caused the forward part of the flying machine to rise about thirty-five centimetres out of the water. On rising to this height the whole machine suddenly lost its equilibrium, and swung over to the right. This caused it to fill with water. It sank like a stone. The water at this point is 15 metres deep.

Herr Kress, who was alone in the flying machine, was carried down with the ship, but thanks to the life-preserver he wore he came to the surface, and was able to grasp the poles which the officer and engineer, who were witnesses of the accident, held out to him. The aged inventor—he is more than 70 years old—was very exhausted and had sustained some slight injuries. He was taken to his home at Purkersdorf.

The flying machine went to the bottom. It will be fished out to-day (Friday), when it will be seen if it is still in working order.

BISHOP'S CONVENTION.

Report of Committee on Marginal Reading Has Been Accepted.

(Associated Press.)

San Francisco, Oct. 4.—The House of Bishops of the Episcopal triennial convention, by a vote of 47 to 21, has decided to accept the report of the committee appointed at the last convention to report on the marginal readings that may be substituted for the present readings of the Scripture. With the concurrence of the house of deputies the action of the Bishops will become a canon of the Church of America.

From the attitude of the Bishops on the subject it is supposed that a majority of the higher clergy are inclined to be liberal and less orthodox as opposed to the desires of those churchmen, both clergy and laity, who desire high church forms and observances and the changing of the name from Protestant Episcopal church to the Catholic church of America.

From the attitude of the Bishops on the subject it is supposed that a majority of the higher clergy are inclined to be liberal and less orthodox as opposed to the desires of those churchmen, both clergy and laity, who desire high church forms and observances and the changing of the name from Protestant Episcopal church to the Catholic church of America.

FINAL MATCH.

Bosquet's English Eleven To-day Meets All-Philadelphia Cricket Team.

(Associated Press.)

Philadelphia, Oct. 4.—The final cricket match between Bosquet's English eleven and the all-Philadelphia team began to-day on the Germantown cricket club's grounds at Manheim. A. P. Morris, P. N. Terry, J. Scattergood and J. N. Heney, who took part in the match at Havertford last week, were replaced on the local team by W. Graham, F. H. Bohlen, E. M. Cregar and T. C. Jordan. This should greatly strengthen the eleven. The wicket was in splendid condition.

KILLED BY INDIANS.

Outbreak Reported From New Mexico. No Particulars Yet to Hand.

(Associated Press.)

Albuquerque, N. M., Oct. 4.—Word has just been received that a naked band of Apache Indians, from the San Carlos reservation, is in the Mogollan mountains, south of this city, and that five persons were killed by them on Willow creek, near the old warpath rendezvous of Victor and Gero a few years ago. No particulars of the outbreak have been received. United States Marshal Potoker is now at Silver Creek, and probably will go to the scene before returning here.

OTTAWA NOTES.

(Special to the Times.)

Ottawa, Oct. 4.—Lord Minto, with Capt. Bell, A. D. C., and Mr. Sladen, left yesterday to join the Royal party on their way from the Pacific coast. The department of trade and commerce has been officially notified that favored nation treatment has been extended between Germany, the United Kingdom and the British colonies and foreign possessions, with the exception of Canada, until December 31st, 1905.

CLARKE WALLACE WEAKER.

(Associated Press.)
Woodbridge, Ct. 4.—Hon. Clarke Wallace had a restless night, and was in a very weak condition this morning.

SIR THOMAS FAILS TO LIFT THE CUP

**SHAMROCK DEFEATED
FOR THE THIRD TIME**

To-Day's Race Was Most Exciting of the Series, Columbia Winning On Time Allowance.

(Associated Press.)

New York, Oct. 4.—The same strong northwester which yesterday blew Columbia to victory prevailed this morning. It scoured across the lower bay and kicked up white caps in every direction; it made the flags and pennants on board the fleet anchored inside the hook as straight as boards, and out to sea sent a lot of coasters down the Jersey shore at a lively rate. As yesterday, it increased steadily after sunrise, and at 8 o'clock was blowing from 18 to 20 knots. In fact it seemed to have more power than at the same time yesterday, due perhaps to a storm reported near the Bermudas. Nearly all the pilot boats on the station off Sandy Hook were well reefed down, and only the heavily laden coasting schooners were able to carry all sail. There was an added touch of frost in the air, but overhead a brilliant sunshine from a clear, autumn sky and wind and weather were absolutely perfect for the day's contest.

Under the rules to-day's race was fifteen miles to windward of leeward and return, and it was a foregone conclusion that the course would be a dead run before the wind to the first mark, and the wind held true a long beat back to the finish. It was in just such a race as this two years ago that Columbia gave Shamrock I. a decisive beating of over six minutes. It was again Shamrock's weather, or at least what the golden yacht people have been asking for. The yachting experts looked forward with keen interest to the splendid run before the wind to-day as promising a fair test of Shamrock's ability in that direction.

Yesterday the American boat demonstrated her superiority on both the close reach and the windward work, but as yet the two racers have not met under good conditions in a run square before the wind. While Saturday's race was of this description, the wind was so light and uncertain that none of the sharps considered it as decisive.

THE RACE BY BULLETIN.

New York, Oct. 4.—8:15 a. m.—A rippling 18-knot wind is blowing from the northwest, weather clear and sea comparatively smooth, promising another ideal racing day for Columbia and Shamrock.
—9:20.—The wind still holds strong, and both yachts are going out to the starting line under tow.
—10.—Both yachts dropped their tows and are manoeuvring about the lights. The wind is still blowing from the northwest. The committee boat set the signal for a course fifteen miles south-southeast to leeward and a best home.
—10:57.—Both boats are to windward of the line on the port tack.
—11.—They are off. Columbia in the lead.
—11:15.—The official time of the start given by the Marconi wireless telegraph was: Columbia, 11:50; Shamrock, 11:56. They started on the handicap gun.
—11:17.—Columbia continues to gain slowly.
—11:27.—Shamrock seems to be overtaking Columbia.
—11:30.—Shamrock has passed Columbia and seems to be pulling rapidly away from her.
—11:47.—Shamrock is still leading by at least 100 yards.
—11:55.—Columbia crossed the starting line just fifteen seconds after the handicap gun. Shamrock apparently has pulled away a bit more, and at the present rate of sailing will turn the first mark well within her time allowance to Columbia.
—12:07.—Shamrock crossed the line just 30 seconds ahead of the handicap gun.
—12:30 p. m.—Shamrock is now fully one minute ahead.
—12:39.—A favorable slant of wind has apparently enabled Columbia to close the gap a little. The boats are now within 3 miles of the outer mark.
—12:42.—Columbia gains slightly.
—12:53.—The wind is now ten knots. Shamrock forty seconds ahead.
—12:42.—The boats are very near the outer mark. Shamrock still leading.
—At Outer Mark.
—12:53.—Shamrock turned the outer mark at 12:48:57 and Columbia at 12:49:45 (unofficial time).
—12:54.—Barr held the port tack but an instant, then went onto the starboard tack. Both yachts are holding for the Jersey shore.
—12:58.—Marconi reports that Shamrock turned the outer mark 48 seconds ahead (unofficial).
—1:14.—The official time of turning as

given by Marconi wireless telegraph: Shamrock, 12:48:49; Columbia, 12:49:35. Columbia Ahead.

1:21.—Columbia passed Shamrock at 1:02. 1:34.—Columbia is now nearly a mile to windward.

1:45.—The wind holds true at 12 knots. Both boats are still on the port tack.

2:04.—Columbia has gone about on the starboard tack and still holds her lead. Shamrock quickly followed around on the starboard tack.

2:10.—Columbia is still ahead.
2:16.—Columbia has gone on port tack, closely followed by Shamrock.

Positions Changed.
2:30.—Shamrock is now apparently ahead, as developed on last tack.

2:34.—Both yachts are now on the starboard tack. Shamrock ahead. The wind dropping.

2:48.—Both boats are now on the port tack. Shamrock apparently still slightly in the lead. It is a close race.

Neering the Lightship.
2:55.—The yachts are now three miles from the finish. Shamrock apparently still slightly in the lead.

3:18.—Shamrock has gone on starboard tack about one and a half miles from the lightship.

3:22.—Shamrock is still slightly ahead. The finish.

3:56.—Shamrock crossed finish line at 3:55:35; Columbia, 3:55:28. (unofficial).
3:50.—Columbia has won her race and the cup.

Official Time.
New York, Oct. 4.—The official time of the finish was, Shamrock, 3:55:28; Columbia, 3:55:40.

Shamrock Out-Classed.
London, Oct. 4.—The British newspapers unanimously congratulate the United States upon the triumph of Columbia, and concede that Shamrock II. is out-classed on all points of sailing.

The British experts, now in New York, all cable similar views, which are expressed by the correspondent of the Pall Mall Gazette as follows:

"The New York Yacht Club has every right to be proud of its boat. There is no question of want of wind, lack of a clear course, or the disadvantages of a bad start. Barr simply gave Shamrock a good long start and then went out and knocked the head off him. The America Cup has ceased to totter. The splendid showing of the American boat won the unqualified admiration of the English contingent and their congratulations that so superb a craft existed."

"Not without hope; better luck next time." Sir Thomas Lipton cabled to Mr. Carmichael, his manager, who replied: "Go in and win three off the reel."

KING'S CONDITION CAUSES ANXIETY

**HIS MAJESTY REPORTED
TO BE INDISPOSED**

The Announcement Made To-Day by Sir Francis Luking Has Not Allayed Uneasiness in London.

(Associated Press.)

London, Oct. 4.—The coincidence of the announcement of King Edward's indisposition, with the revived rumors regarding cancer published in Copenhagen, from which city His Majesty has just returned, and where secrets of the British court are more likely to break out than elsewhere, is causing some commotion here.

The fact that the customary court circular does not appear this morning adds to the uneasy feeling which is not allayed by the explanation of the King's indisposition given by Sir Francis Luking, His Majesty's physician.

A story is in circulation among the clubs, purporting to come from a titled member of the late Queen Victoria's household, giving color to the cancer story, and saying that court circles are discussing the possibility of no coronation taking place next year. It is impossible, however, to obtain tangible corroborative evidence of this report.

Sir James Reid Summamed.
Aberdeen, Oct. 4.—Sir Jas. Reid, the distinguished physician, who is staying in this vicinity, has been summoned to Balmoral. The Aberdeen Evening News says King Edward is suffering from lumbago.

MR. KRUGER.

The Ex-President Is Growing Weaker—Physically and Mentally.

(Associated Press.)
The Hague, Oct. 4.—A. D. Wolmarans, one of the Boer envoys, who has been visiting Mr. Kruger at Hiltop, found the mental condition of the former President of the Transvaal to be by no means satisfactory. Mr. Kruger is slowly growing weaker, physically and mentally. His slowness in reaching a decision on important questions is found to be a serious hindrance to those working in Europe in behalf of the Boer cause.

At the slightest question regarding his health, Mr. Kruger exhibits intense irritation and vehemently denies that anything is wrong. The approach of winter causes anxiety, as Mr. Kruger refuses to leave Holland. According to a remark made by a prominent Boer, the former President's condition would long since have been much worse if hatred of Great Britain did not nerve him to continue.

BROWN RESIGNS CABINET POSITION

**PLACES PORTFOLIO
IN PREMIER'S HANDS**

Hon. Mr. Prentice Is Acting Provincial Secretary—The Plight of the Dunsuir Government.

The air last night and throughout the day has been thick with political rumors—rumors which commenced to circulate almost from the time the Premier arrived from Extension yesterday. Last night it was stated definitely that the Premier had handed in his resignation and that His Honor the Lieutenant-Governor had sent for Hon. Fred Peters. The report, as well as a similar one in a modified form which was circulated this morning, was without foundation. Up to noon to-day there had been no action taken by the Premier, although there is a general impression that he will shortly vacate office.

But while the Premier still retains his position there has been a change in the cabinet. Hon. John C. Brown, of New Westminster, who followed Mr. Prentice in the office of provincial secretary, has been true to the determination which he expressed to a representative of the Times some time ago to leave the administration as soon as he could conveniently do so. Mr. Brown has left for the Mainland again, not as he did at the close of the last session of the House, plain John Brown, a member of the House with the prospect of ministerial preferment before him, but with the bitter experience of having been rejected by the city in which he has so long been a prominent figure, even with the prestige of cabinet position.

Mr. Brown has placed his portfolio at the disposal of the Premier, but that gentleman is not at present in a position to get anyone to accept a portfolio, which ordinarily would be an eager task. This morning's Gazette announced that the minister of finance, Hon. J. D. Prentice, would "be acting provincial secretary and minister in charge of the education department," but it gave no clue as to whether this was to fill a temporary or a permanent absence. No announcement of the provincial secretary's resignation was made, but the bald announcement as given above was all that was vouchsafed.

Those near to the Premier state that he now sees the great blunder which he made, and would do anything possible to recall his error, if of course, he were. An Island member, who has been regarded as one of the most faithful of the Premier's supporters, said to-day: "Mr. Dunsuir has been a flat failure as Premier, and the trouble is that he does not know it."

There are persistent reports that an alliance is being formed between Attorney-General Eberst and his ex-colleague, Richard McBride, and that they will be prominent figures in any combination which succeeds the Premier. However much the Attorney-General might desire such a thing, it is said that his action in remaining in the administration after the Premier's act of treachery made him a party to it, and would mean his certain defeat were he to offer for reelection in South Victoria.

COMMITTED SUICIDE.
Well Known Resident of Blanchard Street Swallowed Carbolic Acid This Morning.

Mrs. A. E. McEneaney died this morning about 9 o'clock from the effects of a dose of carbolic acid taken, as the circumstances go to show, with suicidal intent. Those who were in the house at the time state that she entered the kitchen with the bottle containing the poisonous fluid, and in a moment resuspended, having taken the fatal draught.

Dr. Frank Hall was immediately summoned to the residence, 109 Blanchard street, and, although everything possible was done to relieve the rash sufferer, she died some twenty minutes after taking the acid.

The police were notified of the suicide, and Serat. Hayton hurried to the scene of the tragedy. He found the woman, as stated, dead, and procured the bottle from which she had swallowed the acid. The bottle was of one or two ounces one, and was almost empty, although it is not known exactly how much she had taken.

The inquest, it is understood, will be held to-morrow. No reason can be assigned for her mad act except that of late she has appeared mentally troubled. She leaves behind her husband, A. E. McEneaney, a carpenter by trade and a former employee of Weller Bros., and two children, a brother, Wm. Duncan, and a mother. She has resided in this city for many years. The funeral will take place on Sunday afternoon. She was about 33 years of age.

NEGRO SHOT DEAD.
Victim Was in Jail, Having Been Arrested for Assault.

(Associated Press.)
Nashville, Tenn., Oct. 4.—A special to the Banner from Huntington says a gang of eight or ten broke into the jail last night and shot to death a negro named Walter McClemon who had been arrested for an assault upon C. P. Dalton, a prominent citizen. Three bullets entered the victim's head. There is much indignation over the murder, and the man who is said to have led the mob has left the country.

TO HOTELKEEPERS. FOR SALE As Going Concerns

One of the best known hotels in Victoria, fully equipped, with long established connection; also a saloon business, is the heart of the town.

Prescriptions promptly and carefully executed.

LIVES LOST IN A RAILWAY COLLISION

FOUR MEN KILLED AND SEVERAL INJURED

Farmer Shot Dead—Jury on the Sifton Murder Case Unable to Agree on Verdict.

Sherbrooke, Oct. 3.—The first serious accident on the Quebec Central railway took place at the Ford mines this morning at 10 o'clock. Two passenger trains, one leaving Sherbrooke, the other leaving Quebec, collided between stations at which they expected to cross. Four train hands were killed, Engineer Jas. Attyo, Fireman Rich. Dean, Mail Clerk Roy, of the north bound train, and Mail Clerk Lachance. The fatally wounded were: Fireman Charles Dodds, Baggage-man Dan Noll, Baggage-man Postler, Conductor Wiggett, Brakeman Caron, and Conductor Doyle, all of Sherbrooke. The less injured is Fireman John Copan, of Beaulieu.

Shot Dead. Huntingdon, Oct. 3.—A man named Luke was shot and instantly killed at St. Agnes de Dundee to-day by William Long. The two men were the only persons on the farm at the time. Long immediately came to Huntingdon and gave himself up, saying the shooting was an accident. An inquest will be held to-morrow.

London, Oct. 3.—The jury on the Sifton case came into court at 5 p.m. and reported that after considering for five hours they had been unable to agree on a verdict, and were consequently discharged. The judge's charge this morning leaned somewhat to the side of the prisoner, as he practically set aside all the medical evidence.

The Toronto Review. Toronto, Oct. 3.—The attendance at the Royal military review will be enormous. The sale of seats opened this morning, a crowd of seven hundred people blocking the street in front of the ticket office. Only six thousand reserved seats, tickets at a dollar each, were offered this morning, and they were all sold in a few hours, afterwards being offered by speculators as high as \$4 each. There are 15,000 upper gallery and special seats to be sold. It is expected the Ontario Rifle Association will realize at least \$10,000 from the sale to promote the interests of rifle shooting.

Operatic Festival. The sale of seats for the operatic festival during the Royal visit next week beats all records. In the first two hours \$3,000 was netted, and the seats were sold by auction. The festival will be given from October 10th to 15th, and promises to be one memorable in the musical history of Ontario. The trustees of Massey hall have spent \$18,000 in fitting up the beautiful building for the occasion and in engaging artists, who will be Calve Sybil, Sanderson and Marston, Sennebrich, in the operas Carmen, Romeo and Juliet, and Lohengrin.

Lawyer Dead. Montreal, Oct. 3.—Frederick Floum's death, K.C., one of the oldest lawyers in the city, died this morning, aged 73. He had not been practicing for ten or fifteen years.

To Join Royal Party. Winnipeg, Oct. 3.—The Governor-General is expected here to-morrow en route to Poplar Point to join the Royal party in a shooting expedition.

Passed a Good Night. Kingston, Oct. 3.—The consulting physicians are no longer bulleting Dr. Grant's condition. He had a good night and the symptoms are all favorable.

Clarke Wallace Improving. Woodbridge Oct. 3.—N. Clarke Wallace is improving slowly, and the prospects for complete recovery are excellent.

ANOTHER CHARMING STORY. The Author of "Mooswa" is About to Publish a Second Book of Animal Life.

The announcement of another animal book by W. A. Fraser, with illustrations by Arthur Fleming, will delight the innumerable readers of these last year's great success, "Mooswa and Others of the Beasts of the Wilderness." His new book, which is entitled "The Outcasts," Mr. Fraser will use to even better purpose that extraordinary insight into the workings of the minds of animals which was the great charm of "Mooswa." It depicts the character as well as the outward semblance of Mr. Fraser's animals. A Canadian edition of "The Outcasts" will be published by William Briggs early in October.

The gorilla is furnished with a sort of air-bag in the chest, over the lungs, connected with the wind-pipe. It is with the help of this organ the animal emits its terrific shrieks and roars.

KILLED AND WOUNDED.

Twenty-six British Officers Put out of Action in Attack on Kekewich's Camp.

London, Oct. 3.—The latest South African dispatches show that the fighting in the attack on Col. Kekewich's camp on September 29th, put 26 British officers out of action. Four were killed outright or died, and 22 were wounded. Col. Kekewich was wounded severely, but he is doing well.

UNFORTUNATE AFFAIR AT VICTORIA WEST

Jacob Hasenzratz Shot in Temple by a Fifteen-Year-Old Boy—The Circumstances Point to Accident.

An unfortunate affair happened near St. George's Inn on the Esquimaux road, last night, as a result of which a fifteen-year-old boy named Ernest Stevens may be arraigned for manslaughter. The lad was out shooting during the day with two companions, named Allan and Burgeson, and shortly before 6 o'clock last night they had worked their way to a point in rear of the pottery works. Jacob Hasenzratz and his son, Hermann, and another boy named Stuart Rattan, had also been out shooting, and about the hour named came along where the lads were. What happened afterwards is known only from the statements of Hasenzratz and the boy. The latter states that he and his companions were throwing pine cones, when the old man approached and threatened to write their necks if they did not desist. Shortly afterwards a woodpecker, so he states, flew into a nearby tree and the boy shot at it. The bullet seemed to glance and he saw some one—he thought at the time it was one of the boys with the old man—fall.

Alarmed at his act the boy hid behind the tree and the other two lads went and lifted the wounded man. It proved, to be the elder Hasenzratz, the ball having entered his right temple. He was conscious and to the doctor, who was summoned, stated that the shooting was intentional. He was subsequently removed to the Jubilee hospital, where an unsuccessful attempt was made to locate the bullet. He was reported at noon to-day to be resting easily, though of course the medical men did not care to speculate as to the final outcome.

The boy Stevens fled before his companions returned to where they had left him. He subsequently went home, and later in the evening accompanied his mother, whom he did not tell of the affair, to a Whitaker street residence, where he was finally arrested by Sgt. Redgrave and Detective Palmer, who by the chief's direction acted with the provincial police.

Supt. Hussey and Police Magistrate Hall went to the hospital and attempted to secure a statement from Hasenzratz, but he was uncooperative before they arrived.

The boy protests that the affair was purely accidental, and there seems to be no reason whatever to doubt his statement, in so far as present information can be obtained. Hasenzratz formerly ran a brewery here, and is now operating one in Nanaimo.

The growth of German competition in the wire trade is alarming Birmingham and Warrington manufacturers. Many hundred tons of bright wire and wire nails are being imported to Birmingham every week, and most manufacturers are being largely distressed in regard to prices.

A farmer is known by his furrow as the carpenter is known by his chips. It takes a firm hand and a true eye to turn a straight furrow. No wonder the farmer wears out, spite of exercise and fresh air. One day's work on the farm would tire many a trained athlete. And the farmer works hardest of all. The first up and the last to bed, feeding his team before he feeds himself, his work is practically never done. Why does not the farmer treat his own body as he treats the land he cultivates? He puts back in phosphate what he takes out in crops, or the land would grow poor. The farmer should put back into his body the vital elements exhausted by labor. If he does not, he will soon complain of "poor health." The great value of Dr. Pierce's Golden Medical Discovery is in its vitalizing power. It gives strength to the blood, it supplies Nature with the substances by which she builds up the body, just as the farmer supplies Nature with the substances that build up the crops.

I write to tell you of the great benefit I received from the use of Dr. Pierce's Golden Medical Discovery. writes Mr. C. B. Bird, of Bryanside, Putnam Co., W. Va. "I cured me of a very bad case of indigestion associated with tropical fever. Before I began the use of Golden Medical Discovery I had no appetite, could not sleep nor work but very little. The first that I ate did not agree with me, bowels constipated, and life was a misery to me. I wrote to Dr. Pierce giving the symptoms, and asked for advice. He advised me to try the Golden Medical Discovery. I began the use of it and after taking four bottles I felt so well that I went to work, but soon got worse, so I again began the use of it and was permanently cured."

Dr. Pierce's Pleasant Pellets invigorate stomach, liver and bowels. Use them when you require a pill.

HARDRESS CLARKE, 86 Douglas St.

CORNER STONE OF NEW HIGH SCHOOL

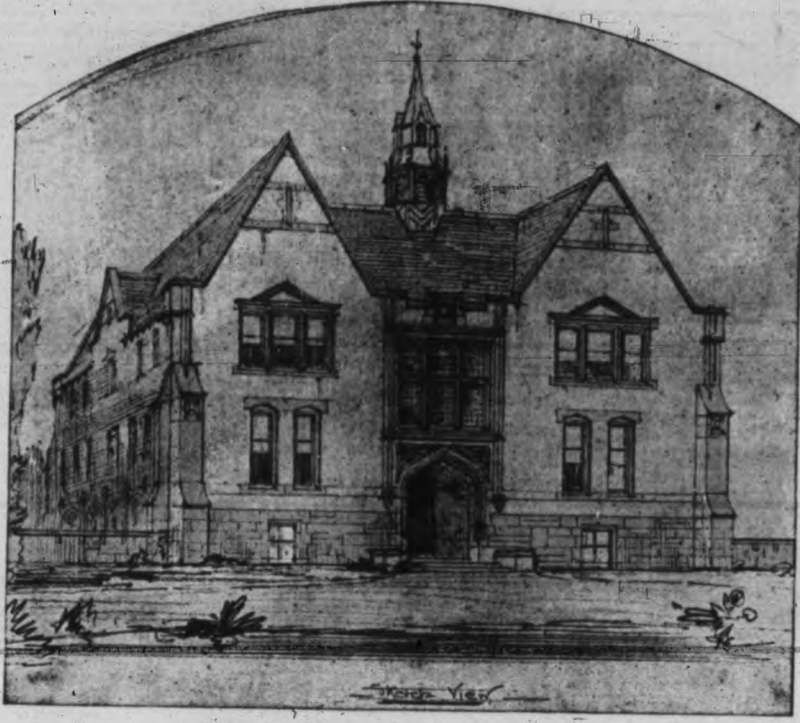

LAI D YESTERDAY WITH MASONIC CEREMONY

Interesting Event Marking the First Stage in Erection of the Educational Institution.

Citizens and members of the Masonic craft to the number of two or three hundred attended the ceremonies connected with the laying of the corner stone of the new high school at the junction of Ferrwood and Cadboro Bay roads yesterday afternoon. The event took place between 3 and 4 o'clock. Sir John Joly, the Lieut-Governor, Alex. Robinson, superintendent of education, City Supt. Eaton, and a number of the local dignitaries were present. The stone was laid with the appropriate and most applicable ceremonial of the Masonic order. Grand Master F. McE. Young presided.

After prayer by Rev. Dr. Campbell, the big chunk of granite was lowered into place under the direction of Messrs.

resources, our climatic conditions and our geographical position make possible for us, we must have facilities for the intellectual culture of our people. We have untold quantities of the raw materials of manufacture, but we must also have the ability to place them on the world's markets in their ultimate form of finished product. If we produce the fruits of unskilled labor only we can receive only the laborer's profits. Hewing wood and hauling water are necessary occupations, but the country that does not fit itself for more advanced tasks cannot take a high rank in the commercial world. The nations that lead in industry are those that enrich their natural resources with the highest quality of human intelligence and skill.

VICTORIA'S NEW HIGH SCHOOL BUILDING.

Elford & Smith, and the interesting ceremony proceeded with. The contents for the stone mentioned in last evening's paper were first deposited. With silver trowel in hand the Grand Master in turn called on Deputy Grand Master McEwen, Senior Grand Warden Rev. C. Enson Sharpe, and Junior Grand Warden Bowser to apply the respective instruments, and declared the stone square, horizontal and plumb. Three times three was then given nine times by all members of the craft (the formal prayer was delivered by Rev. Elliott S. Rowe, and the singing of Rev. Dr. Campbell, and the singing of "God Save the King" brought the services to a conclusion. Visitors were seated on the foundation of the building, and a grand stand was erected for the pupils of the High school immediately in front. This was filled with the bright looking girls of that institution, and gave a most cheery aspect to the scene. The address of Rev. Mr. Rowe was a splendid effort. He said:

"The stone just laid is at once a memorial of the past, a revealer of the present and a prophecy of the future. It recalls the primitive beginnings of the past, expresses the progressive spirit of the present, and projects not only the completion of the superstructure that shall rest upon it, but also the successive events that shall constitute the steps in the onward march of the future. It is placed in position by our hands, but other hands produced the firmness of that prompt and enable us to lay it. Nearly fifty years ago men began to do what we to-day begin to do today, just as we to-day begin to do today, our children and our children's children, in their turn, will add to and improve."

"In 1855 the first free public school in Victoria was opened. In 1876 the first High school was established. In 1901 we lay the foundation of a new and better High school, and on a day not far distant there will be established in Victoria, I hope—the University of British Columbia.

These disorders, vice finds in it its most congenial soil, the incompetent and the unskilled are almost all recruited from the ranks of the uneducated. In the social scale, those who rise up with such discouraging rapidity are found comparatively few who have availed themselves of educational facilities, and the forces that crowded all of them there would be less potent if the light of education were more widely diffused. Thus it is claimed for education the commercial prosperity, political safety, and social progress are impossible without it. These large claims are justified by experience; the industrial supremacy of England is threatened by the educated artisans of Germany and the United States. The records of our courts attest that the great majority of venal verdicts are illiterate, and as I have pointed out, illiteracy and crime, illiteracy and vice, and illiteracy and poverty are almost inseparable companions.

"It is now established, too, that education is almost all recruited from the ranks of the uneducated. In the social scale, those who rise up with such discouraging rapidity are found comparatively few who have availed themselves of educational facilities, and the forces that crowded all of them there would be less potent if the light of education were more widely diffused. Thus it is claimed for education the commercial prosperity, political safety, and social progress are impossible without it. These large claims are justified by experience; the industrial supremacy of England is threatened by the educated artisans of Germany and the United States. The records of our courts attest that the great majority of venal verdicts are illiterate, and as I have pointed out, illiteracy and crime, illiteracy and vice, and illiteracy and poverty are almost inseparable companions.

"A complete educational establishment covering all grades from the kindergarten to the college, and free to the child of every citizen is, in my judgment, a necessity to a progressive country, and I hope to see such a system in British Columbia. If we would attain that industrial and commercial pre-eminence which our

a higher form of its raw material, which by the educational discipline of life is to be converted into its finished product—men—living men.

"The fruit of education is life and the end of life is education. Its purpose is to teach men how to live by revealing to them the world in which they live. To educate men is to enable them to see, to hear, and to touch that they may learn something of the visible universe—understand something of the inward world of thought and feeling, and that they may learn by the use of their reason to draw conclusions from the facts discovered. It is also to teach them how to control and direct their emotional forces as well as their intellectual faculties. Our appetites, passions and ambitions are part of our equipment—we need them all, but they must be disciplined. Uncontrolled they become a dangerous and destructive mob. Trained, regulated and controlled, they become a victorious army, conquering the strongholds of the enemies of man's progress and planting man's banner on the uplands of human achievement.

"The thoroughly educated man, besides his trained mental powers, has a self-esteem that will save him from despair, but not destroy his appreciation of the worth of others. A love of approbation that will make him value the approval of men, but not enslave him with the fear of men; an acquisitiveness that will keep him from improvidence, but will not drive him to selfish cupidity; a faith that shall embody for him the invisible, but not blind him to the world in which he lives; a hope that will steady him in present difficulties with a vision of the life that lies beyond, without making him careless of the life that is.

"He will appreciate the power of work, the power by which man wins the dominion over nature—uncovering her secrets and exploring her treasures—the power in response to whose exercise the blindest ruffian pours their strength into man's body, rugged mountains stoop and turbulent seas throw up highways for the passage of his commerce, the forest and the mines yield to him their treasures and the mighty and mysterious forces of the universe permit themselves to be harnessed to his wheels.

"But above all, he will feel the compulsion of social obligation, and will regard his treasures of knowledge, his trained, disciplined and harnessed powers of mind and soul as possessions held in trust for the good of the people.

"But above all, he will feel the compulsion of social obligation, and will regard his treasures of knowledge, his trained, disciplined and harnessed powers of mind and soul as possessions held in trust for the good of the people.

"But above all, he will feel the compulsion of social obligation, and will regard his treasures of knowledge, his trained, disciplined and harnessed powers of mind and soul as possessions held in trust for the good of the people.

"But above all, he will feel the compulsion of social obligation, and will regard his treasures of knowledge, his trained, disciplined and harnessed powers of mind and soul as possessions held in trust for the good of the people.

"But above all, he will feel the compulsion of social obligation, and will regard his treasures of knowledge, his trained, disciplined and harnessed powers of mind and soul as possessions held in trust for the good of the people.

"But above all, he will feel the compulsion of social obligation, and will regard his treasures of knowledge, his trained, disciplined and harnessed powers of mind and soul as possessions held in trust for the good of the people.

"But above all, he will feel the compulsion of social obligation, and will regard his treasures of knowledge, his trained, disciplined and harnessed powers of mind and soul as possessions held in trust for the good of the people.

"But above all, he will feel the compulsion of social obligation, and will regard his treasures of knowledge, his trained, disciplined and harnessed powers of mind and soul as possessions held in trust for the good of the people.

Remington Typewriters

ARE SUPREME. THEY HAVE NO RIVALS. THEY ARE PEERLESS. Other Typewriters are spoken of as being "as good as the Remington," but a great author has well said that imitation is the sincerest kind of flattery. LOCAL DEALERS:

M.W. Waitt & Co.

44 Government Street. Supplies of all kinds kept on hand.

ROSLYN GOAL LEARY-GOAL

LUMP-OR-SACK \$8.00 per ton DRY-GORD WOOD \$3.50 per cord SLENDIB BARK \$4.00 per cord

J. BAKER & CO.

Phone 407. 85 Belleville St.

SCOTT & BOWNE, Toronto, Canada. We'll send you a little to try, if you like.

PROGRESS OF THE BIG EXHIBITION

SALE OF LIVE STOCK YESTERDAY AFTERNOON

Baby Contest the Piece De Resistance—More Prize Lists and To-Day's Programme.

The exhibition yesterday was not so well attended as on the previous days. There was a marked change in the weather, which, while bright enough, was very windy, the sudden gusts making the dust fly. A sprinkler should be employed on the road leading from the end of the car line to the entrance, as there is neither comfort nor pleasure in feeling the way through clouds raised by passing vehicles.

The calling off of the lacrosse match between the Victoria and Vancouver lacrosse teams, as noted yesterday, left quite a hole in the afternoon's programme. Exhibitions of juggling, Highland dancing, bar performances and hippodrome riding, however, helped to fill the vacuum. The \$20 which the committee had decided to appropriate for this match was now devoted to some other feature, or, better still, if possible remain in the exchequer for a rainy day.

The juggling performance by Taviola was marred by the high wind, but despite this great handicap he performed some very creditable feats. Davidson, the hippodrome rider, also gave an exhibition of equestrian daring, riding his horses standing as they dashed around the track at great speed. Another horseman attempted to pass him but failed, and the pair and their erect riders thundered along the home stretch in fine style. This is one of the innovations which the sports committee have provided.

If the afternoon's programme of side attractions was not as extensive as originally contemplated the people had enough other diversion to keep them busy. For instance, they could inspect the great steam pump operating in connection with the Albion Iron Works exhibition. Near by was a practical demonstration of the efficiency of the Holman drill. At the eastern end of the field Mr. Paisley, of Chilliwack, presided in the judge's chair, and the imported live stock from the East, while in the main building a most interesting and important event, the baby competition, was taking place.

The sale of live stock was largely attended and bidding was quite brisk. At noon an adjournment was taken until 2 o'clock when the auctioneer resumed his persuasive avocation. The sale is likely to last a couple of days at least. At the horse stalls on the race course grounds preparations were made for the races which are taking place this afternoon. The programme, which has already appeared in the columns of this paper, contains a number of interesting events, and the attendance is expected to equal, if not exceed, that of the previous days.

The two expert judges, Messrs. Anderson and Davidson, completed their labors yesterday with the judging of the sheep and swine. They have been most impartially and rapidly, and those concerned have nothing but praise for the able manner in which they have given their decisions. In this connection their public explanation of their reasons for making awards in instances where the competition has been close has been most favorably commented upon, while their addresses have been educational factors which are bound to produce the most beneficial results.

The judging is now about completed and the prize cards are becoming more and more evident each day. The contest is ready to appear in another column. The horticultural exhibit has been passed upon by the arbiters, while the list of prizes in the district exhibits will probably be completed to-day. The dairy produce list appears in another column, while the women's exhibit has also been completed.

THE BABY CONTEST. A Royal Competition Replete With Extraordinary Excitement and Interest.

Between two and three o'clock yesterday afternoon a commotion was observed in the vicinity of the band stand in the main building. There was a general exodus of ladies to that particular part of the interior, and it was at first thought that a meeting for the advancement of the noble cause of women's suffrage had been convened. Suddenly an infantile demonstration—such as only a baby contest could make—penetrated the building, and then the meaning of the band stand gathering was explained. A baby competition was on the tapis.

There was a royal attraction. Here, indeed, was a competition with the big prize of admission alone. Yachting may be the sport of kings, but it sinks into insignificance when infant beauty enters the lists of rivalry and the competitors crowd with delight as the judge undertakes his delicate and hazardous task. It is notorious that all contests such as these are peculiar for their close finishes and that it was difficult to get near the place where fond mothers held their cherubs ready "for the fray," each placing a boundless store of confidence in the little contestant she was backing. This item on the premium list was among the "miscellaneous." There were two prizes—a box of candy presented for the best baby boy by H. A. Lilley, and twenty-five pounds of candy for the best baby under twelve months, by T. Sarantis.

Shortly after three o'clock Secretary Boggs arrived on the scene to preside, but not to judge. He preferred to delegate the latter task to another who was willing to undergo martyrdom, if necessary, in the cause of science. There were the babies held by mothers and relatives in a row. They were all decked out in their dainty little finery and

presented a spectacle never to be forgotten. They were the finest exhibit in the show. There was a blue eyed baby and a black eyed baby, a gray eyed cherub, and a brown eyed one, a baby with fair hair, a baby with black hair, and a baby with hardly any hair at all. Some of them were rolling in fat, others had their fat to get, while others still were neither one nor the other.

Each had its adherents in the crowd, and they did not scruple to let every one know it. Woe betide the judge if he was not a prince of diplomatists, and even at the best his position was one of infinite peril, while he was open to criticism of a cutting and vigorous character. This was the scene which met the eyes of the secretary as he arrived at the platform. Thinking that he was the judge, every baby was held aloft, and about nine infantile crowds of triumph and defiance announced the as far as they were concerned the competitors were ready, eye ready.

But no, the secretary did not care to judge. In a neat little conciliatory address he explained that he hardly felt qualified for so important a position. That there were others for whom fame held great things, and the honor of officiating on so signal an occasion as the present was one of them. He then cast an eagle eye over the building but could find no one who was willing to act. The rivals were getting impatient and restless; and the mothers, fearing that they would become fretful and spoil their chances, were on tenter hooks.

"Let's ballot for them," suggested one lady as she sized up her candidate. "No, let Mr. Boggs judge," remarked another who thought she detected an indication of favor toward her little champion on the part of the secretary. "Ladies, please excuse me, I would rather not," replied the secretary, somewhat despairingly, as he glanced wildly around the apartment.

"Where is Mr. Helmecken, he makes such a nice judge?" queried another, and all looked around for the genial M.P.P. for Victoria. But no, Mr. Helmecken held great things, and the honor of officiating in the stock yard and time was flying.

Suddenly the secretary gave an exclamation of triumph and disappeared. He reappeared a minute afterwards with F. S. Macleure, the architect, who courageously consented to act as judge. The two end babies held him longest, but he was too much of a tactician to remain there but momentarily, so he passed up and down the ranks several times. "They are all such fine babies that I find it hard to decide," he said diplomatically. It was quite evident, however, that the race was between Baby Finland and Baby Adams. Both were boys, a very significant fact. The entries were Babes Charles McCarthy, P. Babidge, William O'Brien, Owen Davis, Elizabeth Jackson, William Roy Adams, Harold Wilkes, Viola Malloy, and E. Wilkes.

Baby Finland had black eyes and black hair, while Baby Adams was fair with blue eyes and hair. Suddenly after a hurried consultation with Mr. Boggs the judge disappeared as silently and as swiftly as the shades of night. The secretary then announced the winners. Baby Finland was awarded first place, and Baby Adams, a Nanaimo darling, second. The winner's parents reside on Belcher street, while the second prize baby lives in Nanaimo, his parents being Mr. and Mrs. W. J. Adams. Both are boys, a very significant fact. The entries were Babes Charles McCarthy, P. Babidge, William O'Brien, Owen Davis, Elizabeth Jackson, William Roy Adams, Harold Wilkes, Viola Malloy, and E. Wilkes.

THE LIVE STOCK SALE. It Was Commenced Yesterday and Will Be Continued To-day.

The sale of live stock, which was commenced yesterday, was one of the features of the show. The auctioneer, J. W. Paisley, of Chilliwack, presided in the judge's chair, and the imported live stock from the East, while in the main building a most interesting and important event, the baby competition, was taking place.

R. P. RITHET & CO. WHOLESALE MERCHANTS. AT THE PLAYHOUSE.

"Sporting Life" to Be Staged To-night—Shows For Next Week.

"Sporting Life" with all its scenic surprises, its variety of thrills and thrills in the hands of an exceptionally fine company, which filled McVicker's theatre, Chicago, for four months last winter, and the Academy of Music, New York, for five months, will be the attraction at the Victoria theatre to-night.

"The Belle of New York" will be seen at the Victoria theatre on Monday evening. At the end of last season this well known musical comedy had accomplished a record of 2,000 performances, and it is safe to say that it will receive an enthusiastic reception upon its return to this city. The company is again headed by Edward J. Connelly and Miss Beulah Dodge.

"In Old Kentucky" is coming to this city again on Tuesday evening, and to the followers of events in the theatrical world this statement is superfluous, for this is no reason why "In Old Kentucky" should not continue as a regular visitor for many seasons to come. Its several original features have been imitated far and wide, but even this fact does not appear to have detracted from the popularity of Mr. Litt's successful piece, presumably because in each instance save this, Kentucky ham, race-horses and kindred factors have obviously been dragged in by the heels, while everybody knows they are pieces of actual life in the famous blue grass district of Kentucky. Naturalness of effect and wholeness of atmosphere are elements which go to make up a successful play, and these are possessed by "In Old Kentucky" to a marked degree.

EXTENSION-BENEFIT. Savoy Company Will Give a Matinee To-morrow.

The Savoy company announce that to-morrow afternoon they will play a benefit at the A. O. U. W. hall for the Extension relief fund. The admission fee has been set at 50 cents and 25 cents. The programme will include Prof. Hunt's dog and monkey circus, Jno. A. Flynn's entire company of female burlesquers, also introducing "Wise Mike," a phenomenally trained donkey. Whitting and Dorr, America's greatest song illustrators, will also produce their wonderful and truly modern illustrated songs.

SORE BACK. Lambago, pains in the back or side, soreness, swelling or inflammation find no standing ground after an application of Griffiths' Liniment—penetrates in a minute, dispels the pain and stops the suffering. You will find it better than plaster.

Mr. Mack White, the well known trainer of the Toronto Lacrosse Club, and Osgoode Hall Football Club, writes: "I consider Griffiths' Menthol Liniment unequalled for athletes or those training. I have used it with the best success and can heartily recommend it for lame back, stiffness, soreness, sprains and all forms of swelling and inflammation."

"The United States government is determined to exact full revenge upon everyone concerned," says the Constantinople correspondent of the London Daily Telegraph, "and, if anything happens to Miss Stoeck, it will not hesitate to ask permission to bring a fleet through the Dardanelles to get at the Bulgarians by way of the Black sea, and to force the Bulgarian government to act against the Macedonian country committee."

CAREER AND CHARACTER OF ABRAHAM LINCOLN. An address by Joseph Choate, Ambassador to Great Britain, on the career and character of Abraham Lincoln—his early life—his early struggles with the world—his character as developed in the later years of his life and his administration, which placed his name so high on the world's roll of honor, and fame, has been published by the Chicago, Milwaukee & St. Paul Railway, and may be had by sending six (6) cents in postage to F. A. Miller, General Passenger Agent, Chicago, Ill.

PRECEDENCE, PRIORITY AND HUMBUNG.

The Duke and Duchess of Cornwall, apparently, did not come to Canada to bring peace and harmony, but strife, into "our midst."

truce should be declared or some form of modus vivendi arrived at. The affair has approached the dimensions of a scandal, and is doing no good to the cause to which the ecclesiastics have dedicated their lives and their talents.

PERSONAL POLITICS.

"The greatest obstacle to the progress of British Columbia is personal politics." That is the Colonist's opinion, repeated many times. It is quite true, but there may be a difference of opinion over the definition of personal politics.

The fact that between thirty and forty thousand passengers were carried by the Victoria Street Railway Company in one day shows how necessary this form of transportation has become to the life of the community.

ROADSIDE REST.

Arthur Ketchum in The Atlantic. Such quiet sleep has come to them! The Springs and Autumn pass. Nor do they know, if it be snow Or daisies in the grass.

A BLIND CRITIC.

The Toronto Telegram is a paper which can see no good in any public men save one or two whom it has set on a pedestal and bows down before as regularly as the heathen does to his idols of clay, wood or stone.

THE TOUCH OF NATURE.

"An Alberto unrecorded incident" is published by a New Zealand newspaper as having occurred during the visit of the Duchess of Cornwall and York to Dr. Cowie, the Bishop of Auckland.

LIVING LIKE A SAVAGE.

Civilized people will be shocked at the advice of an English physician to a wealthy patient to live like a savage to be cured.

There is always something to keep up the excitement. Mr. Brown has withdrawn from public life, at least temporarily and nobody has yet been called in to administer the department of education in his stead.

PERSONAL POLITICS.

To the Editor:—In the Colonist of this day I read an article condemnatory of personal politics and denouncing in pretty strong language certain unnamed parties for their alleged efforts to turn their political positions into preserves for the advancement of their friends and relatives.

The weather has done its share to make the fair a success. An exhibition was never held under more favorable conditions.

ROADSIDE REST.

THE SLATER SHOE. There are as many shapes of "Slater" shoes as there are forms of feet—this means that no matter what shape, size or width your foot may be, a "Slater Shoe" can be had to fit it comfortably. "Slater Shoes" are modelled from the living 20th century foot—with all its distortions and peculiarities. No other shoe is made with so much regard for feet as the "Slater Shoe."

THE ANGELUS The original Piano Player can be seen at our space at the Exhibition. This must not be confused with other similar instruments, which cost more and do less. There is only one original Piano Player, and that is the Angelus, for which we are sole agents. M.W. WAITT & CO. 44 Government St.

"Tour to the Golden North" Illustrated Lecture BY MRS. MARY E. HITCHCOCK Under the distinguished patronage of Sir Henry Joly de Loche, Rear-Admiral Blackford, C. B., and Mrs. Blackford, Mayor Hayward, the Hon. James Dunsmuir and Mrs. Dunsmuir, the Hon. W. C. Wells, the Hon. Abraham E. Smith, U. S. Consul, and Mrs. Smith, Dr. L. W. Powell and Mrs. Powell. Driard Hotel, Saturday, Oct. 5th AT 9 P. M. TICKETS, \$1.00

VICTORIA THEATRE. Monday, Oct. 7th. The Famous American and European Musical Comedy. The Belle of New York With Mr. EDWARD J. CONNELLY and 50 OTHERS—50 Seats 60c sale Friday morning. Prices, \$1.50, \$1.00, 75c, and 50c. VICTORIA THEATRE. Friday, October 4th Walter Sanford Presents the Gigantic London Success, "Sporting Life"

BUSINESS Demands a large number of our graduates in March. A course takes six to seven months, so you should begin NOW, or we will be short. We are running short now! We can place between 75 and 100 boys every year. To-day we have none. No difficulty to place all the girls you send us. Remember, we keep them till they are in a situation. THE VOCAL COMMERCIAL COLLEGE, Vancouver, B. C. destroy valuable and interesting objects. Some people dust in such a fashion that they merely distribute the particles in all directions and consequently leave things very much as they found them. It is persons such as these that require educating in the art; they have to learn that displacement is not removal. In dusting a room the doors and windows should be opened so that the dust may be sent outside, and all that is swept up from floors should be burned.—Dr. Andrew Wilson.

Our Guaranteed Rubber Goods

Viz: Hot Water Bottles, Fountain Syringes, Air Cushions, etc., are the kind that every careful buyer will naturally select.

Bowes, HE

Dispenses Prescriptions. 108 Government St., Near Yates St.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department. Victoria, Oct. 4-5 a.m.—The barometer is high along the coast; a low area of moderate intensity hovers over Cariboo and the Rocky mountains.

For 24 hours ending 5 p.m. Saturday. Victoria and vicinity—Light to moderate southerly winds, chiefly cloudy and mild.

Victoria—Barometer, 30.05; temperature, 52; minimum, 50; wind, calm; weather, cloudy.

New Westminster—Barometer, 30.08; temperature, 52; minimum, 52; wind, 4 miles E. rain, 0.1; weather, rain.

Kamloops—Barometer, 29.94; temperature, 46; minimum, 44; wind, calm; weather, clear.

San Francisco—Barometer, 30.06; temperature, 56; minimum, 54; wind, 4 miles S; weather, fair.

CITY NEWS IN BRIEF.

Blue Ribbon Tea served free at the Fair. See the illuminated Savoy Theatre to-night. Inside, Flynn's Big Gaiety Company, 25 beautiful ladies, Professor Hunt's Canine Paradox. A mammoth show for 25 cents. Do not miss the big event.

Pan-American exposition, Buffalo, N. Y., May to November. Ask Chicago, Milwaukee & St. Paul railway about reduced rates. R. M. Boyd, commercial agent, Seattle, Wash. G. J. Eddy, general agent, Portland, Ore.

The favorite route from this city to Nanaimo is now by the Victoria & Sidney railway and steamer Iroquois. Train leaves every Monday and Thursday at 7 a.m. Single fare \$1.50. Return, good for ten days, \$2.50.

HAVE YOU That Tired Feeling And loss of appetite? If so, try a bottle of our Compound Syrup of Hypophosphites, \$1.00. Nothing like it for a builder. F. W. FAWCETT & CO., Chemists, 49 Government St.

The Henrietta is the most famous comedy on the American continent to-day and Stuart Robson, the most famous comedian, the appearance of play and player at the Victoria, Tuesday, October 15th, will be the most fashionable theatrical event of the year.

J. H. Turner who, accompanied by Mrs. Turner, left for London, England, to take up his new duties as general manager last evening, was given a hearty farewell by his many friends in Victoria, a large number of whom went aboard the Charmer to express their sorrow and wish the ex-finance minister and his wife health and good fortune in their new home. Mr. Turner's connection with the public life of the province has been of such length that his removal leaves a great void. The good wishes of citizens of all shades of politics goes with him and Mrs. Turner to London.

Rev. F. G. Christmas and Mrs. Christmas entertained the parishioners of South Saanich at the rectory on Monday evening. Gratitude for many kindnesses of Mr. Christmas and his family and hope for their welfare in their new home in the Cedar district of Nanaimo was expressed by the guests. Before leaving, all the guests joined in singing the grand old hymn "O God Our Help in Ages Past." On Wednesday, 2nd, Rev. F. G. Christmas and his family left South Saanich for Sidney where, after spending the night, they embarked on board the Iroquois for Nanaimo. Before leaving South Saanich Rev. F. G. Christmas was presented with a purse and an address by his parishioners.

Mrs. Gardner, of Salt Lake, and Miss Davies, of Chicago, who came to Victoria to get a glimpse of Royalty, are visiting with Mrs. F. G. Richards.

Marriage in Spain takes place by day or at night, according to the fortune of the young people or their station in life. If well-to-do, the ceremony comes off in the early part of the morning.

\$100,000.00 To Loan On improved real estate (first mortgage). This will be lent in large and small sums, but the security must be first-class. This is not company money. SWINERTON & ODDY.

W. J. Pendray's White Swan Soap Cottage

AT THE Provincial Exhibition, Victoria

It is made out of thousands of cakes of the Celebrated White Swan Soap. Ask for a sample, and you will be convinced that it is the best Soap on the market.

About six thousand dollars' worth of Yukon gold were assayed yesterday at the government office.

The popular steamer, Rosalie sails at 9 a. m. daily, except Saturday. From Hudson's Bay Co.'s Wharf for Seattle and other Puget Sound points. E. E. Blackwood, Agent.

The names of Fleet Engineer Wishart was inadvertently omitted from the list of guests at the Royal luncheon on board the Warspite.

It has been decided that the regular examination of the students of the stenography academy of St. Ann's Convent will be held on the 22nd of this month.

Mr. Geo. Steves, of this city, and Mrs. Bertha J. Whitney, of San Francisco, were united in marriage last evening by Rev. J. F. Vichert at his residence.

A brown leather bag with the initials "J. D. S." stamped on it was lost on Wednesday. The finder is requested to leave the same at the provincial police station, and will be duly rewarded.

The issue of the Provincial Gazette last evening was a very small one, the only new matters chronicled being the appointment of Hon. J. D. Prentice as acting provincial secretary and minister of education, and the laying over of all placer claims in the Fort Steele mining division from October 1st, 1901, to June 1st, 1902.

Work commenced this morning, under the direction of Chairman George Jeeves, in dismantling the decorations placed in position for the Duke's reception. They will be employed again at the time of the coronation. Fortunately no rain fell of any consequence while they were exposed, so that they will be as fresh as ever for the coming big event.

At the lecture to be given by Mrs. Mary E. Hitchcock, at the Hotel Driand to-morrow evening, the lecturer will have the assistance of Marguerite Merrington, the author of "Capt. Letterblair," "Love Finds a Way," and "Daphne or the Pipes of Arcadia," and numerous other literary and dramatic efforts. The lecture promises to be quite a social event.

Hon. J. D. Prentice, minister of finance, was waited on the other day by a deputation consisting of J. C. Dixon, of the Vancouver Poultry Association; W. Jarvis, of the Nanaimo Poultry Association, and H. P. Johnson, of the Victoria Poultry Association, asking that an additional allowance for the poultry shows be made by the government. Hon. Mr. Prentice promised that the subject would be laid before the government.

LT-Col. A. Grant, commanding the troops at Esquimalt, is advertising for tenders, which will be received up to Wednesday, 10th of October, for the supply of tugs and saws for lighterage, etc., for military purposes at Esquimalt, for a period from date of acceptance until 30th September, 1902. Tenders must be properly completed, signed and dated, and posted or delivered, so as to ensure receipt by the time above named, or they will not be considered.

Rev. F. G. Christmas and Mrs. Christmas entertained the parishioners of South Saanich at the rectory on Monday evening. Gratitude for many kindnesses of Mr. Christmas and his family and hope for their welfare in their new home in the Cedar district of Nanaimo was expressed by the guests. Before leaving, all the guests joined in singing the grand old hymn "O God Our Help in Ages Past." On Wednesday, 2nd, Rev. F. G. Christmas and his family left South Saanich for Sidney where, after spending the night, they embarked on board the Iroquois for Nanaimo. Before leaving South Saanich Rev. F. G. Christmas was presented with a purse and an address by his parishioners.

LEGAL NEWS. In the Chambers, before Mr. Justice Martin this morning, application was made for the administration of the estate in the case of Keating vs. Tarks. Judgment was given staying the proceedings with plaintiff's costs of action up to date to come out of the estate. Pooley appeared for plaintiff and Dumbleton for defendant.

In the case of Bertlett vs. Tarks a ruling was given to proceed with the account. Six weeks were given for the return to the court, and the day for the adjudication of the claims was fixed for two months hence. An inventory of the personal estate is to be filed in thirty days.

An application was made for probate in the case of the estate of Robt. S. Mitchell, and was granted.

HALL & CO., DISPENSING CHEMISTS, Clarence Block, Cor. Yates and Douglas Sts.

Rev. Elliott S. Rowe officiated at the funeral of the late John Henry Green, which took place this morning from the parlors of W. J. Hanna.

The fire department at Victoria West were summoned yesterday afternoon to extinguish a brush fire near St. Paul's church, Victoria West. The fire was stopped without any damage being done.

A charge against Ah Kay, a Chinese cook, who was arrested on suspicion of stealing the purse of the proprietress of the Ciem restaurant, was dismissed this morning, there not being sufficient evidence to convict the Chinaman.

The vacancy on the provincial medical council caused by the death of Dr. John Duncan has been filled by the election of Dr. Walker, of New Westminster. Dr. Walker secured an overwhelming vote over the other candidate.

In the police court this morning Phillip Chalk was fined \$15 or one month's imprisonment for being drunk. Phillip took the month. An Indian in possession of liquor was fined \$25 and costs or in default one month. He paid his fine.

Information was received to-day from Mount Sicker that the Tyee people are in a thirty-foot ledge of the finest ore. It is also stated, on authority, that an engineer is already on the way from England to select a site for the company's smelter, for which a subscription of \$50,000 has been raised. It is believed that the site of the Tyee smelter will be at Ladysmith.

The matron of Chemainus General hospital, acknowledges with thanks the following donations for September: Apples, P. Porter; hen, Mrs. Erb; fowls, Mrs. Howell and Mrs. Rossall; grapes and apples, Mrs. Roberts; cucumbers, Mr. Nixon; grapes and cucumbers, Mrs. Conway; apples, Capt. Gibson and R. Roberts; jam, pickles, apples and flowers, Mrs. Halberd; boxes, Mrs. Palmer; cabbages and tomatoes, Rev. Father Doucette; old linen, Mrs. Gibson and Mrs. Whidden; two trays cloths and hydrangeas, Mrs. Hattie Evans; ten dollars (magistrate's fees), Capt. Barclay; reading matter, Miss White, Mr. Helmeke, Victoria Daily Times and Colonist, Nanaimo Daily Herald and Free Press, and Ladysmith Leader.

LEGAL NEWS. In the Chambers, before Mr. Justice Martin this morning, application was made for the administration of the estate in the case of Keating vs. Tarks. Judgment was given staying the proceedings with plaintiff's costs of action up to date to come out of the estate. Pooley appeared for plaintiff and Dumbleton for defendant.

In the case of Bertlett vs. Tarks a ruling was given to proceed with the account. Six weeks were given for the return to the court, and the day for the adjudication of the claims was fixed for two months hence. An inventory of the personal estate is to be filed in thirty days.

An application was made for probate in the case of the estate of Robt. S. Mitchell, and was granted.

Why Not Combine the Two?

At this season of the year you require a little heavier shoe than you have been wearing during the summer, yet you want it to look just as neat and stylish.

That is an Easy Proposition If you wear our new fall walking shoes for ladies. They are a combination, ease, elegance and durability. "Hanna's and Ford's," the two leading American makes, and any number of the finest Canadian lines, including J. & T. Bell's.

You are not limited in your selection when you buy your shoes from us. Our stock is large, well assorted, and is constantly being replenished.

SHOE EMPORIUM, COR. GOVERNMENT AND JOHNSON STREETS.

PREPARING TO LEAVE FOR HOME TO-NIGHT The Northwest Mounted Police Making Ready to Take Their Departure—The Officers in Charge.

Officers and men of the Northwest Mounted Police, who since the arrival of the Royal party in Victoria have been camped on the recreation grounds at Oak Bay, are preparing to leave for home to-night. They number 67 all told, and are comfortably ensconced under canvas on the beautiful green of the grounds. Upwards of a dozen tents of different sizes have been erected for their accommodation, and near by are the trained mounts, stabled in temporary constructed sheds.

The detachment is in charge of Commissioner Col. A. R. Perry, who passed through the Northwest rebellion, and also wears the Jubilee medal. Ranking next to him is Superintendent Lt.-Col. G. E. Sanders, D. S. O., who has seen service both in the Northwest rebellion and in the South African war, Inspector Major Cutbert, who also served in South Africa; Inspector Lt.-Col. A. C. Macdonell, D. S. O., who is acting adjutant of the whole contingent; Inspector Crosswhite, a second member of the corps possessing the Jubilee medal; Inspector Capt. Walker, late of South Africa.

Commissioner Perry, Supt. Sanders and Lt.-Col. Macdonell are graduates of the R. M. C. The last named was on his back for six months after seeing service in the South African war, having been shot through the lungs and liver, while Supt. Sanders was twice wounded by the Boers.

Physically the men are all a fine looking body, and when it is remembered that they are picked from different stations, and have not had the advantages of long drilling together, they make a splendid showing. They were inspected by the Duke at Calgary, and congratulated on their fine appearance, the Royal visitor pronouncing them to be the finest body of men he had met in his travels. Before the departure of the Royal party from Victoria each of the officers were presented with photographs, and a number received special souvenirs. Among these was the presentation of a handsome pair of gold

supplies to Sgt. Major Church, regimental sergeant of the Canadian Mounted Rifles. This was given in recognition of the services rendered while the distinguished party was in this city in the training of a horse which His Royal Highness rode. The officer was summoned to meet His Royal Highness at the Mount Baker hotel, where the presentation took place. As the gift was presented the Duke remarked that the animal was the best-trained he had ever ridden. It was one of the range horses which was brought from Calgary, and of course was specially trained for the occasion. Sgt. Major Church is one of the two non-commissioned officers specially mentioned by Major Hays.

The sixty-five horses which accompany the detachment comprise two troops of bays and two of chestnuts, one of the latter being the famous Northwest mount. The horses are trained, and on the word of command will lie down and do almost anything they are bidden.

The officers all speak very highly of their treatment here.

TRAMWAY FARES. In Brooklyn and New York, passengers are carried fifteen and twenty miles for 25c, or at the rate of half a farthing per mile. Taking twenty large American cities at random, there is found no less distance than ten miles for 25c, or a farthing a mile; and the average would be twelve and a half miles; less than a farthing a mile. The municipality of Glasgow charges 3d. for less than six miles; a half penny a mile; Liverpool, practically the same; Belfast, 3d. for five miles; Edinburgh, 7d. for eight miles; Manchester, 9d. for eight miles; and so on, not less than a half penny, and in some cases a penny a mile for long distances. Long-distance riders in America receive much better value than is the case in British cities. Short-distance travelling is cheaper in Great Britain.—Tramway and Transmission.

Few living women have had personal relations with so many eminent and historic people as Miss Janetta, the pianist. As a child she was fondled by Schubert, Liszt and Thalberg. She studied under Joachim and Kist, Brahms, Weber and Schumann; has been led to the platform by Liszt and Mendelssohn; been praised and petted by Tennyson and Gladstone, and has played before almost every sovereign and royal personage in Europe.

McCandless Bros. A FEW LEADERS FOR TO-MORROW MEN'S WOOLLEN SWEATERS 75c IN BLUE ONLY 75c BOYS' SWEATERS 75c Blue, to-morrow 50c. Colors, red, white and blue. LARGE ATTENDANCE. THE HORSE RACES ARE TAKING PLACE THIS AFTERNOON—ADDITIONAL PRIZE WINNERS.

The fourth day of the Victoria exhibition opened with the sky somewhat clouded. The sun, however, later in the morning broke out in all its glory. Early in the morning the only persons in the exhibition grounds were some of the officials. Later, however, people began to enter the gates in throngs and everything indicated that to-day would not be behind former ones in point of attendance. The horse races are to-day's attraction. This morning early, owners of some of the contesting animals were on the track giving their horses a few finishing touches to their training before this afternoon's events. At 10 o'clock this morning the sale of live stock continued. The judging of all the outside exhibits has been completed, and the judging of those inside the building is now nearing completion. The following are some additional prize winners:

HORTICULTURE DEPARTMENT.

Class 54—Plums. Best collection by individual growers, 10 varieties, 8 varieties only entered. Best collection by individual growers, 5 varieties—1st, J. A. Van Tassel. One's golden drop—1st, J. A. Van Tassel; 2nd, F. Sere. Yellow egg—1st, Alex. Campbell; 2nd, R. C. MacRae. Seedling—1st, F. Sere; 2nd, Alex. Campbell. Reine Claude—1st, F. Sere. Damsun—1st, Geo. J. Bagshaw; 2nd, A. Folliery. Italian prune—1st, W. Holmes; 2nd, A. Malpass. French prune—Wrongly entered. German prune—Wrongly entered. Grand Duke plum—1st, Alex. Campbell. Class 55—Peaches. Late Crawford—1st, Miss N. Russel; 2nd, Thos. G. Earl. Any other variety—1st, Thos. G. Earl; 2nd, Miss N. Russel. Seedling—2nd, A. S. Drummond. Class 56—Grapes. Concord—1st, Thos. G. Earl. Warden—1st, Thos. G. Earl. Delaware, four bunches—1st, Thos. G. Earl. Brighton, four bunches—1st, Thos. G. Earl. Niagara—1st, Thos. G. Earl. White Sweetwater—1st, Thos. G. Earl. Best collection (two bunches each)—1st, Thos. G. Earl. Class 57—Quinces. Any other variety—1st, W. C. Grant. Crab apples, transcendent—1st, J. A. Van Tassel. Crab apples, Hyslop—1st, Thos. G. Earl; 2nd, F. Sere. Wilkerson; Victoria; 2nd, Mrs. M.

LADIES' OUTFITTING WAREHOUSE. 31 FORT STREET. There's Always a Good Demand for Good Underwear. We have a complete stock for Infants, Misses and Ladies, in white, natural and colors. Also "Health Brand" Underwear. Campbell's.

THE SHEEP AND SWINE.

Some of the Features in These Exhibits—Very Creditable Showing. Speaking to a Times representative this morning on the sheep and swine exhibit, Mr. Anderson, one of the judges, spoke most favorably of both sections. These were judged yesterday, the results being published in another column. In the swine, he spoke highly of the magnificent Berkshire sow exhibited by Shannon Bros. of Cloverdale. This hog captured the sweepstake. The same exhibitors showed a number of Berkshires, all of which Mr. Anderson considered A. 1. Geo. Sangster showed a splendid Chester boar which would do credit to any breeder. Also very fine sows with nine little pigs. A. C. Wells exhibited a pair of Berkshire sows which captured first prize. The Suffoks were not considered up to the mark. On the whole the swine exhibit was very creditable. Mr. Anderson explained that the first class hog should have a good deep side, not too broad in the back, with fairly well turned ham, and light jaw. As indicating the extent of the hog raising industry in Ontario, he mentioned that last year \$13,000,000 worth of bacon was exported from that province to the British market alone. This was an increase of \$12,400,000 since 1891, when the exportation to the same market amounted to \$800,000. As to the sheep, he said there were some fine Leicesters exhibited by F. Kirkland, Westham Island. The South-downs exhibit—best shown—J. M. Shopland, of Victoria; and J. T. Wilkerson, of Chilliwack, although there were other exhibitors. Mr. Shopland took sweepstakes with his sheep, while Mr. Wilkerson captured a large number of prizes. J. Richardson, of Provost Island, was the exhibitor of Cotswolds, and his exhibit was very creditable. The Shropshires were represented by quite a number, including Messrs. Heatherbell, of Hornby Island; Shannon Bros. of Cloverdale; J. Richardson, Provost, and F. Kirkland, Westham Island. Richardson has a fine pen, capturing first prize. Shannon Bros were second. Mr. Richardson also showed a pen of very fine Hampshires, as well as a splendid exhibit of Suffolk ram and two ewes. The sheep the judges consider very good, all the classes being well represented.

VICTORIA DISTRICT WON.

Captures Palm for Exhibits, With the Islands Close Second. The judging of the district exhibits has been completed, and the question of supremacy as far as the representation at this show is concerned decided. Victoria district, including North and South Saanich, scores first with 1,151, with the Islands a close second, Agassiz third and Cowichan fourth. The results according to points are:

Table with 4 columns: District, Points, Islands, Cowichan. Victoria: 1151, 322, 152. Islands: 446, 182, 96. Agassiz: 147, 103, 121. Cowichan: 244, 325, 273. 293. Foreign Plants: 25, 5, 24. Dairy Produce: 124, 124, 70, 149. Miscellaneous: 70, 38, 24. Arrangements of general display: 400, 275, 350, 190. Total: 1,256, 1,044, 965, 957.

FROM FAR AWAY DAWSON.

The Great North Represented by Creditable Exhibit of Vegetables. Far away Dawson is extremely well represented when it is remembered that this exhibit had to travel several thousand miles. It shows conclusively that the great Klondike besides possessing wondrous mineral treasures, has agricultural possibilities not to be despised. Of course the exhibit has suffered somewhat in transit, but it gives an excellent idea of what to expect of the north in the future. This exhibit is prominent and interesting, not only because it comes from a great distance, but also because it is the first that Dawson has ever shown in any fair. For that reason it deserves a place of honor, reflecting great credit on those responsible for its appearance here. It comprises turnips, exceptionally large, lettuce, cauliflower, cucumbers, tomatoes, cabbage, potatoes, beans and celery, cranberries, oats, barley and hemp. The potatoes, turnips and cabbages are really first class. This exhibit was brought out by Dr. Milne, upon whose initiative the Yukon government decided to have its great domain represented here.

NOTES.

One of the exhibits which when speaking draws a crowd of interested spectators is the Holman Patent Rock Drill, which Lindsay, acting for R. Macdonald, of 5 1/2 B. street, the Canadian agent, has had put up on a convenient knoll of rock in the grounds, and connected with the Albin boilers. Mr. Pretty, in charge, gives frequent demonstrations of this drill's ability to do quick work, 24

INCHES IN 4 MINUTES BEING AN AVERAGE OF THE SPEED MADE IN A HARD CONGLOMERATE.

The many points of excellence this drill possesses are much appreciated by the mining men who have seen it work. After to-day it goes back to the corporation quarry at Beacon Hill, where it has been working for the past three weeks. It is to be regretted that the mining section of the exhibition is rather bare of many devices now in use to facilitate work, and which will be in increasing demand as our coast mines develop. In connection with the fall shows it would be a good idea to leave the arrangement of dates in the hands of the deputy minister of agriculture, so that they could be arranged to follow in such order as to permit the eastern judges to make them in consecutive order. An exhibit of fruit and vegetables has been sent down by the residents of Bella Coola. This is the first attempt the people of the district have made in the way of exhibiting their products, and their showing is indeed creditable. No mention was made in the fruit article the other evening of W. C. Grant's exhibit, (Goshen) from which was the finest display by one grower in the exhibition. It fills one entire side of a long table. It comprises a fine exhibit of apples, grown in the district, both packed and in the plate. These varieties are all good marketable apples. They are eye-openers to people who are under the impression that fine fruit cannot be grown in Victoria district. Mr. Grant has also a display of Italian pines, fresh and dried, of very superior quality and appearance. They are by far better than anything of the kind imported from California. Jay & Co., the seedsmen, have an excellent exhibit of vegetables and plants in the south wing of the main building on the first gallery. It consists of a fine display of vegetables, plants and seeds. In this connection it might be observed that many prizes have been taken by exhibitors in the vegetable section on vegetables grown from Jay & Co.'s seeds. In the list of poultry prize winners published in these columns yesterday R. S. Thomas was quoted as having won first prize for a hen, any other variety. It should have been H. O. Allen. Another inadvertent error occurred in the initials of J. H. Lawson, who took first prize for bull calf, under one year; three years old and upwards, and heifer, three years old. Probably there is no exhibit in the main building which conveys a more adequate idea of what an up-to-date establishment can produce in the way of commodities than the display of M. R. Smith & Co. This is a gigantic house almost in the centre of the building with rooms and interior arrangements that cannot fail to impress. But the wonder of it all is that the house is constructed of the product of their factory. There are boxes of biscuits of an infinite variety—tempting enough to make the dyspeptic forget that there is something wrong with his digestive machinery. There are boxes of confectionery of all descriptions from the selectest chocolate to the excellent gum drop. What havoc a small boy would play if he were allowed to work his own sweet will on this display! In connection with the main exhibit there is a dainty little cafe and necessary refreshment. M. R. Smith & Co. have always been well represented in the past, and their reputation as extensive exhibitors is fully sustained by their present showing. As a sample of what home industry can produce in the way of store furnishings the exhibit of Leigh & Sons amply fills the bill. It consists of plate glass mahogany finished show cases, in which are displayed an exhibit of Spencer's shoes, proving the efficacy of the case as a display of goods. They are constructed of British Columbia maple, and come ten feet in length by forty-two inches high and an excellent width. They present a very finished appearance, and in design and workmanship will equal anything imported from elsewhere. They were designed by W. J. Carruthers, who has charge of the exhibit. This is only one phase of Leigh & Sons' establishment, but as a representative it affords sufficient commentary on the excellence of their product. The band of H. M. S. Warspite will be in attendance on the grounds to-morrow afternoon. W. J. Hanna was awarded first prize for the best trotting brood mare.

OUTBREAK OF SMALLPOX.

(Associated Press.) Montreal, Oct. 4.—There are eighteen cases of smallpox at present about forty miles from the city. Fifteen are in the college and three in the village. Maurice Hewlett, whose "Forest Lovers" has given him a distinctive place among the younger romance writers, is a British officer. He is keeper of the land revenue records and enrollments.

KILMARNOCK THE DEMAND FOR THIS FAVORITE SCOTCH WHISKY. Is constantly on the increase. It is always the same in quality; never changes, as some whiskies do. All Clubs, Hotels and First-class Bars are supplied with KILMARNOCK. Ask for it; take no other. If your grocer does not keep it, come to us, we will see that you are supplied. Accept no substitute.
