DAMAGE TOLL INCREASES AS STORM SPENDS ITS FURY ON FRENCH AND ITALIAN COASTS

Overflowing Rivers Cause Landslides, Carry Trees for Miles, Tear up Roads and Crush Bridges and Houses in Italy; Fears Felt for Many Fishing Vessels Which Failed to Make Port.

La Rochelle, France, Sept. 26.—A gale is raging along the Atlantic coast of France, destroying gardens, damaging houses and keeping fishing boats in their harbors. Many vessels have failed to make port and it is feared that some have been wrecked.

Lyons, France, Sept. 26.—The flood in the Rhone River Valley in this district is becoming threatening. Part of the wharves here are already submerged and the bad weather continues. Rail-road authorities say it will require at least a week to restore communication with Marseilles.

TORRENTIAL STREAMS

Rome, Sept. 26.—Great damage is being wrought by floods, following in the wake of storms throughout Northern Italy, especially along the Lago Maggiore and the Upper Adige River.

Overflowing rivers and streams have caused landslides, have carried stones and trees for many miles, have torn up roads and have crushed numerous bridges and houses. At one town along the Adige, the waters caused the collapse of a house in which five persons were killed.

The waters of the Lago Maggiore have risen two metres, giving many of the towns of the vicinity a Venetian aspect. At some places, the torrential streams have brought into the towns huge masses of tangled debris from the forests. At Conobio, a church was destroyed and the patients had to be removed from the hospital which was threatened with destruction.

MOUNTAINOUS SEAS

Vannes, France, Sept. 26.—A storm of unparalleled violence is reported all along the Brittany coast. Rain falling in ceaseless torrents and mountainous seas are keeping the fishermen in port.

ORDER RESTORED

Leningrad, Sept. 26.—First estimates of the havoc wrought by the flood following Tuesday's storm placed the damage to industrial property alone at 10,000,000 rubles. Losses to private property have yet not been estimated. The shops, schools and theatres have been reopened, the street cars are running and martial law has been withdrawn.

PEKING TO GIVE PROTECTION TO FOREIGNERS

Military Chief Replies to Warning Following Threat of Air Raid on City

Peking, Sept. 26.—General Wu Pei Fu, military chief of the Peking Government, to-day issued a proclamation declaring that the fullest protection would be afforded the lives and property of foreigners.

The foreign legations at Peking yesterday sent memoranda to the Chinese foreign office and to General Chang Tso-Lin, war lord, declaring that if foreign lives are lost or if the property of foreigners is destroyed, the Chinese authorities responsible would be held accountable. The warning was sent in view of bombing of the border town of Shanhaiwan by a Manchurian squadron and because of reports that General Chang was planning an air raid on Peking.

PRINCE OF WALES ARRIVES AT RANCH

Pays Informal Visit to Cornerstone Lodge A.F. and A.M. at High River

High River, Alta., Sept. 26.—The Prince of Wales and his party motored to the E.P. Ranch towards noon, the royal visitor sleeping late after a long train journey. He paid an informal visit to Cornerstone Lodge, A.F. and A.M., here last night on the invitation of George Young, who is master of the lodge and mayor of the town. He signed the register and was introduced to all the members, paying particular attention to the war veterans present. The Prince is Senior Warden of the Grand Lodge of England, and told Mr. Young that this Cornerstone was his lodge now. His Highness is suffering from a cold, as are other members of the party.

Professor W. L. Carlyle and Sir Malcolm Ross met him here and accompanied him to the ranch.

SPANISH NOBILITY VISITING VICTORIA

The Duke and Duchess de Penaranda, with other Spanish aristocrats, all personal friends of the King and Queen of Spain, are in Victoria to-day. The party, which numbers fourteen persons, have been touring the Dominion for the past three weeks. This tour of Canada, they say, is a long cherished desire to see its beauties and wonders for themselves.

PLANS FOR INVESTIGATION OF GERMAN ARMAMENTS ARE BEFORE COUNCIL OF LEAGUE

man armaments by the council of the League of Nations as authorized under the Versailles Treaty, are now under consideration by the council. The League's permanent commission on military and naval affairs has reported a detailed project, one feature of which is that the investigating body may contain some representatives of the states bordering on Germany.

Several members of the council, however, seem convinced that such a proposal would prove exceedingly distasteful to Germany. This has induced them to appoint a sub-committee to examine all the plans and prepare a joint scheme which will prove acceptable to all.

The committee charged with examining the protocol of arbitration and security and proceeding with their work vigorously, being determined to submit the draft to the assembly before the first of next week.

When the league council reconvened to-day to consider again the elaboration of a system of nations investigation of German armaments, the attention of the delegates was riveted upon a statement on the subject of Marshal Foch as probably giving the key to the French attitude.

FLYERS START FOR SEATTLE TOMORROW

Trouble With Lieut. Wade's Machine Halts United States Airmen

San Francisco, Sept. 26.—This city is to be favored with a longer visit from the world flyers than was planned. Because of trouble with the equipment of Lieutenant Wade's plane a delay is being experienced and the flyers will not depart for Seattle before 9 o'clock Saturday morning.

The world flyers were accorded a memorable ovation in San Francisco. Two planes dropped to an easy landing on Crissy field at 3:20 o'clock. The third, piloted by Lieutenant Wade, after a forced landing at South San Francisco, came in less than an hour later.

A hundred thousand people looked on from every point of vantage in the Presidio. Other tens of thousands were on roofs, housetops and hillsides as they went over the city.

There will be but one stop between San Francisco and Seattle, Eugene, Ore., which the flyers expect to reach at 3 p.m. tomorrow. They will rest in Eugene over Saturday night and will take off from that town at 10 a. m. for Seattle.

The hop off from San Francisco will be at 9 a.m. tomorrow as it is expected the work of installing a new engine in Lieutenant Leigh Wade's machine will be completed long before that time. Lieut. Wade was forced down at South San Francisco by engine trouble on the flight to San Francisco yesterday.

REACH SEATTLE AT NOON

The ground-the-world flyers are scheduled to end their flight officially at Seattle at 12 noon next Sunday. It was announced from their headquarters to-day.

LOTTA CRABREE DEAD

Boston, Sept. 26.—Lotta Crabtree, retired actress, who thirty years ago was reputed to be the richest individual in stage life, died to-night at the hotel which she had made her Boston home since her retirement at the height of her career in 1891. She was seventy-seven years old.

SETTLEMENT OF COAL STRIKE IS IN VIEW TO-DAY

Calgary, Sept. 26.—There is a possibility that a settlement of the coal strike may be reached in the course of the day. The joint conference which met on Thursday afternoon appointed a sub-committee which immediately proceeded to discuss the whole situation. While it is understood a very earnest effort was made to reach some recommendation for submission to the joint conference little actual progress was made and the sub-committee adjourned later in the afternoon to meet again on Friday.

The Premier will come down from Prince Rupert on H.M.C.S. Patricia, arriving at Victoria on October 15 and will come to Vancouver on Sunday, October 19.

BLOOD AND BULLET HOLES ON BERYL G. TELL OF DESPERATE BATTLE WITH LIQUOR PIRATES

Ample evidences of a bloody gun battle and hand-to-hand fight between hi-jackers and the two-man crew of the Beryl G. were discovered by provincial police when they examined the ill-fated craft yesterday in their attempt to find the missing skipper, Capt. Gillis, of Vancouver, and his son.

The police boat which is searching for the bodies of the two missing men in the Gulf of Georgia returned here to-day to report to heads of the Police Department and started out immediately again to continue its search.

That the captain and his son were running liquor and that they were attacked by hi-jackers was the definite statement made by heads of the Police Department this morning after they had heard further details of the Beryl G.'s condition when she was discovered floating near Stewart Island and without a soul aboard.

Blood marks were spattered about the boat's cabin and deck, and the police's latest examination revealed several bullet marks. The first report received by the authorities here was that no bullet marks had been found, but second search revealed the prints of lead on the boat's deck.

It was evident, the police said to-day, that a terrific battle had been waged on the vessel, and there was little doubt that the captain and his son were murdered and thrown overboard. The police admit that the task of finding the bodies is next to hopeless. Their only hope is that the corpses may have been thrown into the sea near an island and they may have floated upon the shore.

The discovery of the bodies, it is hoped, would give the police a clue on which to work further. Unless they are found, however, it is likely that the fate of the Beryl G. will remain one of those mysteries which fill the liquor-running business in the lonely gulf water.

The police are satisfied now that the Beryl G. was carrying liquor and that the liquor pirates who through the Gulf made her their prize. The Customs Department is co-operating in every possible way with the Provincial Police in the attempt to solve the mystery of the Beryl G. The department's boat, the "Winnipeg," commanded by Capt. P. R. Bittencourt, is assisting the police now in scouring the Gulf for traces of the missing boatmen.

BOAK HEARING IS RESPONSIBLE FOR HEAVY COSTS

Sum of \$2,000 Drawn For Assize Hearing Almost Dissipated Already

Jury in Manslaughter Case to View Accident Scene by Night and Day Suggested

The trial of Rex versus Boak entered on its fourth day before Mr. Justice Murphy in the Assize Court this morning. Already the bill of costs is beginning to assume considerable proportions. Jurors receive \$4 a day, witnesses \$3.50, professional men or experts called as witnesses \$7 a day, while other costs including counsel fees, attach to the same proceedings. An initial appropriation of \$2,000 drawn for the Assize, it is understood, is earmarked already and further sums will have to be furnished.

To-day the twenty-seventh witness for the Crown took the stand. The Crown will call a total of forty-nine witnesses. It is understood, before the defence takes up their side of the case.

Sergeant Alan Rankin, two hours on the stand yesterday, resumed this morning. Witness told of finding pieces of human brain matter on the road, some as large as walnuts. Witness found exhibit twenty-nine, a piece of door handle, in the long grass near the pool of blood at the accident scene. The fragment bore traces witness took to be brains and blood. John Dempster and an assistant named George were at the scene at the time. Witness, in order not to dislodge the matter on the fragment, did not try fitting it to the door of the Boak car.

Mr. Jackson made the experiment in front of the jury, and announced that he found it a perfect fit. The jury was told it would have every opportunity of making the same tests for themselves. Witness continued, stating that he returned to the city with Chief Brogan, who placed Dr. Boak under arrest.

At the scene of the accident, witness spoke to Dr. Duck in the presence of the accused. Dr. Duck stated he swerved to the right when the Boak car bogged over towards him on the road. His car took the ditch and was stopped after a short run between bank and ditch.

Witness saw little signs of dust on (Concluded on page 2)

MEMBER OF SPANISH NOBILITY IS VISITOR; THE DUKE OF ALBA

SPANAIN AWAKES FROM SLEEP OF THREE CENTURIES WITH AID OF HYDRO-ELECTRIC POWER

Spain is beginning to take her place in the galaxy of occidental nations, in spite of the handicap imposed by nature and the political decadence which set in under the sovereigns to whom descended the honors of Ferdinand and Charles V. Few countries which lack natural fuel supplies, particularly with mountainous barriers and swift flowing streams, survived the race in the age of steam, but hydro-electric energy is changing this, and industrialism is spreading rapidly.

This statement was made by the Duke of Alba, member of the Spanish upper house, and head of a house famous in the history of Western Europe since the days of Cervantes, who was in Victoria to-day en route to California with a family party. His grace, like most of the younger nobility who follow their king to England, is thoroughly pro-British, familiar with British politics and people, and are closely identified with British sports. He believes like most of the Spanish and Portuguese public men that whenever the peninsula leaders support British policy in Europe it has been beneficial to their respective countries, and that the more they model their constitution on the limited monarchy plan the longer will a monarchy last.

The Duke says that during the last twenty-five years there has been a remarkable development in Spain industrially, and that has been due to the fortunate possession near the centres of population of mountain torrents which can be transformed into electric energy, and he mentioned particularly the growth of Barcelona, the Manchester of Spain—as the wonderful result of using water power for driving machinery.

So long as Spain was dependent on imported coal it had little chance, and this handicapped development. He pointed out to the Times that only one river was navigable for any fair proportion of its (Concluded on page 2)

REALTY SYNDICATE TO PAY MUNICIPALITY \$100,000 FOR ITS 499 REVERTED LOTS

Taxpayers Jubilant Over Idea of Being Rid of Burden of Non-paying Properties; Oak Bay to be Featured in Advertising Campaign as Pre-eminent Residential Centre and New Settlers Induced to Come.

Reeve Hewlett and members of the Oak Bay Council will meet to-night to put through the biggest real estate deal that has been consummated on the lower part of the Island for the last decade, it was announced at the Municipal Hall to-day.

It involves the purchase from the municipality of 499 lots—practically all the reverted lots in the municipality.

The price to be paid the municipality is \$100,000 for the whole block, or an average of about \$200 a lot. The initial payment will be \$25,000.

A syndicate headed by Alfred Carmichael has made the offer on the foregoing terms and will take the property, if the deal is given final approval by the Reeve and members of the Oak Bay Council to-night.

Real estate men to-day said it was one of the most interesting deals which have been made in Western Canada in recent years.

The total assessed value of the lots to be taken over by the Carmichael syndicate is \$165,000. The yearly taxes on this property run to between \$13,000 and \$4,000. The syndicate will assume the tax liability as from January 1, 1925.

"Under this plan Oak Bay will get approximately sixty per cent of the assessed value of these lands," the purchasers and have to pay the yearly taxes on these 499 lots, amounting to upwards of \$14,000. This means that all these properties which are now a liability as far as tax-paying is concerned will be converted into tax-paying property, relieving and lightening the burden on the other properties within the municipality which are paying taxes. While we have these reverted lands not paying anything, the other properties have to look up between the lines the taxes that these reverted lands should be paying.

NO SERIOUS DIFFICULTIES

"The matter will be discussed from different angles—to-night—I fancy—that the differences in the proposals that have been made and what we are willing to accept can be bridged and that the deal will be consummated."

LIEUT.-COL. WOOLARD DEAD

Vancouver, B.C., Sept. 25.—Lieut.-Col. C. Woolard, M.D., pension examiner for the soldiers' civil re-establishment bureau, who died at Shaughnessy Military Hospital Monday, was buried to-day with full military honors.

A syndicate headed by Alfred Carmichael has made the offer on the foregoing terms and will take the property, if the deal is given final approval by the Reeve and members of the Oak Bay Council to-night.

CABINET TO CARRY ON WITHOUT CHANGE UNTIL ADJOURNMENT

Dr. MacLean Expected to Take Over Provincial Secretary's Post-Again

The Oliver Government will carry on as usual without changes in the various departments until after the Fall session of the Legislature, it was indicated to-day after the Ministers had got together for their first meeting since the defeat of Hon. K. C. MacDonald, Provincial Secretary, in North Okanagan.

Dr. MacDonald's resignation, it is expected, will reach here within the next few days, and Hon. J. D. MacLean, Acting Premier, probably will take over the Provincial Secretary's Department immediately, as he is thoroughly familiar with this work. The Cabinet feels that it would be (Concluded on page 2)

OCEAN SMITH FOUND GUILTY OF NEGLIGENCE

Judge Coatesworth Will Sentence Wrecked Bank Accountant Next Week

Bail Renewed Pending Sentence; Appeal From Judgment is Probable

Toronto, Sept. 26.—Ocean G. Smith, chief accountant of the Home Bank, which collapsed August 17, 1923, was this morning found guilty by Judge Coatesworth of negligence in making out monthly and annual reports on the bank to the Department of Finance at Ottawa. Smith was the first of several officials and directors of the bank to be charged with offences under the Canadian Banking Act.

Judge Coatesworth gave his decision immediately after the court adjourned this morning to continue the trial of Sidney J. Jones, chief auditor of the bank, on charges similar to those upon which Smith was tried.

The Smith trial concluded last week, the judge reserving judgment until to-day.

He announced at the conclusion of his judgment that he would sentence Smith a week from to-day.

FALSE AND DECEPTIVE

Judge Coatesworth in his judgment stated that the monthly returns for May and June, 1923, last made before the failure of the bank, contained false and deceptive statements and failed to disclose the condition of the bank as required by the Bank Act and that the accused lent himself (Concluded on page 2)

ALL CLASSES GIVE TO WAR MEMORIAL

Every Dollar Will be Gratefully Received For Cost of Pedestal

A generous donation from the Bishop of Vancouver Island was received at the headquarters of the Victoria War Memorial Committee to-day. The same spirit marked His Lordship's gift as did that of a humble seafaring man who later contributed his modest offering to the fund for the pedestal upon which is to be erected the handsome bronze monument designed by Sydney March.

H. T. Ravenhill, vice-chairman, who is conducting the drive in the absence of Lindley Crease, K.C., in the Old Country, said the boys who toured the Island recently under his (Concluded on page 2)

TWENTY PRISONERS NEARLY BROKE JAIL

Seattle, Sept. 26.—The escape of twenty prisoners from a jail here was frustrated early to-day when George Dawson was discovered sliding down a rope made of blankets taken from cot.

Hacksaws had been smuggled to Dawson who used them to cut away mortar holding a bar on a window. Twenty other prisoners were awaiting their turn to escape.

FALL STYLE WEEK

See Our Fashion Parade in the Store and Windows on Saturday From 8 to 9

The Season's Evening Dresses

Our showing of Evening Gowns direct from London and Paris. A new note is touched in the mixture of different kinds of lace; the straight sheath gown is lavishly embroidered, beaded or covered with discs of gold and silver so artfully put on that they seem a part of the rich new fabric; brilliantly jeweled decorations are a striking feature; bead fringe is a favored method of giving width at the feet.

White has a charming way of retaining first place in the evening mode of the new season, it is shown artistically beaded in tiny rosebuds and cluster motifs, with ostrich or embroidery.

We are showing all the wanted shades for formal and evening wear; shades of rose and red predominate in fashion's rainbow; sizes and styles desirable for all figures.

ROSE DAY PROCEEDS AID CHILD WELFARE

Municipal Chapter Distributes Fund; Commend War Memorial Appeal. At the meeting of the Municipal Chapter I.O.D.E. yesterday afternoon the correspondence included an appeal from the War Memorial Committee asking for contributions from the organization as well as from the members. Donations of \$100 each were voted from the proceeds of Alexandra Rose Day to the fund for secondary education, to the Dr. O. M. Jones Chapter V.O.N., these donations will be made in accordance with the decision made last year to allot the Rose Day proceeds to child welfare and maternity work. Mrs. Miles reported that the maternity committee had presented two layettes and a family was being supplied with two quarts of milk daily. Mortimer Appleby reported on the soldiers' graves committee. Members endorsed the resolution of the Navy League of Canada in which they decided to approach the Provincial Government asking that a life-saving station be erected at Victoria, in view of the number of drownings and fatalities which have occurred recently. Among the communications was a letter of appreciation from the party of British Scientists who visited this city, thanking the chapter for its kindly greeting of flowers to the lady president, Miss White, and the members, Victoria being the first city in Canada to greet the visitors in this delightful fashion. The monthly meeting of the Excelsior Bible Class of the Fairfield Methodist Church was held at 133 Cambridge Street, on Wednesday night last. About thirty-five members were present. A few important business items were attended to, and business items were attended to, and business items were attended to.

Mix Mustard Yourself

After mixing in cold water, it takes just ten minutes to liberate from dry mustard the essential oils which give the full rich piquant flavour, and which so greatly aid digestion and assimilation of foods. PRETTY WEDDING AT ST. JOHN'S CHURCH

Miss Violet Welch Becomes Bride of Clarence D. Ferris. At St. John's Church last evening Mrs. Bruce united in marriage Violet Frances, daughter of Mr. and Mrs. Thomas Welch—of Medina Street, to Clarence R. D. Ferris, grandnephew of Mrs. T. J. Ferris of Yates Street. The bride, given in marriage by her father, wore a gown of white georgette and lace, trimmed with orange blossoms, and a tulle veil under a wreath of orange blossoms, and carried a bouquet of Ophelia roses. Attending the bride was her sister, Miss Lillian Welch, maid of honor, in a pretty gown of mauve silk georgette, trimmed with lands of lace, and Miss Vera Raven, bridesmaid, wearing a handsome gown of pale blue silk crepe de Chine trimmed with sequins. Mr. James A. McKay of Vancouver was the groomsmen. During the signing of the register, Miss Florence Hairhead sang "Until." Following the ceremony a reception was held at the home of the bride's parents, Mr. and Mrs. Ferris leaving later for the Mainland for their honeymoon. Among the many wedding gifts was a dinner service from the staff of David Spencer's Limited, where the bride was employed, and the silver tea service and tray from the Provincial Lands Department, where the bridegroom is employed.

Correct Shoes for Fall MUTRIE & SON'S 1222 DOUGLAS STREET TO-MORROW'S HOROSCOPE By Genevieve Kemble

SATURDAY, SEPTEMBER 27. A rather doubtful day is presaged from the complicated sidereal movements. There is likely to be perplexity in business problems and the financial outlook for tomorrow is under the friendly Venus aspect. Also there may be small setbacks and disappointments, and new undertakings of every nature may develop complications. It is urged that important moves, change and journeys be postponed until more propitious rule of the guiding planets. Heart and home affairs may flourish, and new ventures, they may be able to keep matters in hand. They should be especially careful in the handling of money. A child born on this day will be clever and versatile, but may be restless and unsettled unless wisely trained. It will be disposed to spend its substance on the pursuit of pleasure. Chapter Sewing Meeting.—Mrs. Geo. Mellor, 1122 Oxford Street, is kindly opening her home on Monday for the sewing meeting of the Florence Nightingale Chapter, I.O.D.E. which it is hoped all members will attend. Kuntuka Club.—The Kuntuka Club will meet on Monday for its fortnightly luncheon at David Spencer's. Limited, where Miss Alma Russell will give her deferred talk on the trip to Nootka Sound. The Ladies' Aid of St. Paul's Presbyterian Church will hold a rummage sale on the corner of Johnson and Government Streets Saturday, September 27. Contributions can be left at the above address Saturday morning.

Miss Mary Rainey Bride at Pretty Wedding Wednesday

Many friends of the young couple attended the wedding of Mary Elizabeth, youngest daughter of Mr. and Mrs. Samuel Rainey, Dunedin Street, and John Alexander Wright, only son of Mrs. A. S. Wright, Chapin Street, which took place at the First Presbyterian Church on Wednesday afternoon. The bride was given in marriage by her brother, James Rainey, and wore a gown of white duchesse satin embroidered with pearls, with a trail of Limerick lace and orange blossoms, and carried a shower bouquet of roses and swansons. Miss Vivienne McGinley attended the bride, wearing a pretty gown of pale blue satin with silver lace, and carried a bouquet of roses, orchids and maiden ferns. She wore a wreath of silver leaves in her hair. Little Miss Ursula Scouler, niece of the bride, was the flower girl, in a dainty frock of pale pink French on a broderie georgette, and carried a basket of pale pink asters, sweet peas and rose petals. Mr. Ken Perry supported the bridegroom. During the signing of the register, Miss Vera Paget sang "At Dawning." After a reception at the home of the bride's parents, which was prettily decorated with Autumn flowers, Mr. and Mrs. Wright left for a honeymoon to Seattle and Portland, the bride traveling in a dress of navy blue Canton crepe, with sealskin coat and opesum fur. She also wore a becoming cloche hat, trimmed with bird of paradise feathers. On their return Mr. and Mrs. Wright will make their home on Cecilia Road. Memory Stall a Feature.—A "memory stall," at which will be sold gifts from former members of the church now scattered all over the earth, will be one of the outstanding features of the bazaar which the Ladies' Aid of the First Presbyterian Church are planning to hold on the first Saturday in December. The ladies have for months been gathering together various stalls in anticipation of the Christmas season. Mr. Wallace Coburn, eldest son of Mr. and Mrs. John W. Coburn, New Toronto, returned yesterday for Toronto to resume his studies in medicine in Toronto University. Mrs. C. J. Duncan McChesley Street, entertained Tuesday afternoon at a farewell musicale in honor of Miss Elizabeth Dobson, who is leaving shortly for the Old Country now scattered all over the earth, a colored aster. Mrs. William Sloan and Mrs. J. W. Coburn presided at the table, they being assisted by Mrs. J. Galbraith, Mrs. A. Paul and Mrs. McQuade. Delightful solos were rendered by Mrs. Drysdale, Mrs. Greenhalgh, Mrs. Crawford and Miss Dobson. Manoforte selections, and also acted as accompanist for the artists. SIDNEY Mr. G. Nicholson, son of Mr. and Mrs. Nicholson of All Bay, left on Wednesday on the S.S. Niagara for New Zealand. Lonely Crozier had a nasty accident on the Mill, badly cutting his thumb on a saw. Dr. Manning was summoned, and after dressing the thumb took the boy home. The regular monthly meeting of the North Saanich Allies Chapter of the I.O.D.E. was held on Thursday afternoon at the home of Mrs. Nelson, "Maple Grove," Breads-Cross Road. The Regent, Mrs. Layard, was in the chair, here was a large attendance. The secretary, Mrs. Rochford, read the minutes which were adopted. The treasurer, Mrs. Bodkin, read the financial report. A

McGraw Is Almost Certain of Fourth Consecutive Flag

"Muggsy" Installs Crippled Team With Fight and Pittsburgh is Defeated

New York, Sept. 26.—The brave Pirate ship which steamed up the Harlem, sportive pennons flying, is flaring back now, demolished and riddled, a victim of the Giant rocks off Coogan's Bluff which checked another corsair threat two years ago.

Today John McGraw, iron-gray genius of the Giant dugout who annually in an emergency endows his youthful charges with invincible spirit and tightens their activities into an impenetrable whole, awaits the history-making fourth consecutive pennant which has been twice denied him, but which his patched crew of 1924 have made almost inevitable.

LITTLE ARTHUR A HERO

Arthur Nehf, upon whom the setting sun of the 1923 world series cast gloomy rays, is the Giant hero whose arm held the Pittsburgh Pirates and whose home-run sent his team to a lead which was never lost.

There were no games in the American League, and the standing of the Senators and Yankees is unchanged. Washington can take the American League pennant by winning three of its four games with Boston, even though New York sweeps its four with Philadelphia.

NATIONAL LEAGUE

New York, Sept. 26.—The New York Giants vanquished Pittsburgh for the third time in succession yesterday and the pennant probably was won in their fourth straight pennant on the wreck of Pirate hopes. A crowd of 25,000 whose post-battle demonstration of enthusiasm left no doubt they considered McGraw's fourth straight flag as good as nailed to the mast, saw the fighting Giant batter out a five to four victory and crush beyond recall the last lingering chance of Pittsburgh in the National League race.

The Pirates, however, went down with colors flying. In the last inning, with two out, they rallied and pulled up to within a run of the champions on Schmidt and Moore ahead of him.

CARDS ARE MAILED

Philadelphia, Sept. 26.—The Philadelphia club closed its home season by defeating St. Louis, five to three. The visitors knocked Oeschger out of the box in the first inning but were helpless against the hurrying Betts, who held them to four hits during the balance of the contest and twice fanned the mighty Hornsby.

COAST LEAGUE

Salt Lake, Sept. 26.—A five-run rally in the fifth enable Salt Lake to defeat Vernon yesterday, 10-5. Singleton pitched a steady game, while Bryan's only pronounced poor inning was the fifth.

OAKLAND WINS AGAIN

Sacramento, Sept. 26.—Oakland hit all the way yesterday and took the third game of the series, 3-2. Both Vance and Kuntz were rapped soundly. Helms had a great day with the

Leon is his right name, but all the fans call him "Goose" Goslin for obvious reason. He's the Babe Ruth of the Washington Nationals and his bat has been a big factor in keeping the Nats up in the pennant race.

EPINARD MAKES HIS SECOND APPEARANCE IN STATES SATURDAY

Opinions are based on the remarkable victory of August Belmont's Larkin in the Edgemere handicap last Saturday, a sensational 1.33 mile trial by Epinard on Wednesday, and the start of Zev in the Avenir handicap on the same day.

FRENCH THOROUGHBRED EXPECTED TO DO BETTER OVER MILE; INTEREST KEEN

New York, Sept. 26.—Assuming a fast track, a good start and a clear sky for the race, experts are predicting the greatest battle in the history of the United States turf when Epinard faces the barrier with E. J. King, Wise Counsellor, Zev and My Own, in the second international special race over a mile at Aqueduct on Saturday.

A meeting of the Lower Island Football Association will be held this evening at which the schedule for the First Division will be approved and the entries for the Wednesday League gone over and the schedule drafted.

BERCOT DROPS HIS MAN

Tacoma, Sept. 26.—Dode Bercot, Monroe logger-boxer, won by a technical knockout over Al Grunan, Los Angeles lightweight, in the fifth round of a scheduled six-round bout here last night in a desperate effort to overcome a margin of four knockdowns scored by Bercot earlier in the bout.

SEATTLE GOES UNDER

San Francisco, Sept. 26.—San Francisco won the third game of the series with Seattle here yesterday, 7 to 3, with three Seattle errors accounting for four of the locals' runs. The Seals clinched the victory in the eighth when they hit Sutherland for four hits, scoring three runs. Brady knocked a homer in the third inning with one man on.

If there is one player in the tennis world (and there are many) for whom I have a real admiration it is Little William. My admiration is not only for Johnson the tennis player, but also for Johnson the man.

DID NOT WORRY WHEN NOT PICKED TO PLAY SINGLES IN DAVIS CUP SERIES

Let me merely point out that Little Bill did not allow his personal disappointment to affect his play, but he was surviving "inspirational" and by individual brilliancy carried us to victory.

PLAYERS AGAINST RULE

Certain players, notably Williams, Washburn and Richards, need spikes to produce their best game. I see no reason for a rule that penalizes them, yet if we have the rule to enforce it and not work in favor of a reconsideration of the no-spike rule at the annual meeting and I am sure that an almost overwhelming sentiment among the players against the rule.

VON ELM PUTS WELL

Von Elm, who has become one of the favorites of the gallery because of his good medal scores, had Eddie Driggs six down when they went to lunch. Driggs was wild from the tee and through the green. He improved in the afternoon and by succession gave us a two and one-half game lead over the Indians.

PROS WHO PLANNED ON GETTING CARDS BACK OUT OF LUCK

Winnipeg, Sept. 27.—Athletes who break the rules of the Amateur Union of Canada will in future have a poor chance to regain their amateur status, following the adoption of an amendment to the constitution at yesterday's session of the organization's annual meeting here.

CLASS "A" OUT OF LUCK

The amendment also states: "It is understood that it is possible to relate to active competition any A-class man who has played consistently or after warning, in professional sport."

USE THEIR OWN IDEALS

President Findlay declared he believed the men who had charge of amateur affairs throughout Canada should be permitted to use their own ideals in dealing with cases that came before them.

New York, Sept. 26.—Eddie (Cannon) Ball's "stun" was a technical knockout over Harry "Bull" Leonard, Philadelphia in the eighth round of their bout when Leonard quit.

Sports Expected To Have a Great Year in Schools

RUSSIAN MAY GET NEXT OPPORTUNITY TO BATTLE FIRPO

At a meeting of the Victoria and District School Sports Association held this week, considerable discussion took place on what is expected to be one of the best seasons in the history of the schools.

PROS WHO PLANNED ON GETTING CARDS BACK OUT OF LUCK

The first five clauses of article three of the constitution, which define an amateur, broadly as one who has never participated in sports for money considerations, are left unchanged, but an amendment is made which reads that an athlete guilty of offences against the rules cannot be reinstated, "except in the unusual cases where he has been ill-advised."

USE THEIR OWN IDEALS

Dr. Johnston of Saskatchewan agreed with the president, but declared there would be need of men of strong character and courage at the head of amateur affairs.

SCORES A KNOCKOUT

Bill Melhorn, who used to be a hoodlum, is now a golf champion. But we don't suppose any of the country club sheiks care to start out that way.

MARVEL OF BASEBALL

No manager in the majors is quite like Wilbert Robinson of Brooklyn. He is more of a father to his athletes than manager. Few leaders are able to get more out of a player than "Robbie." He is a firm believer in kind words. He coaxes rather than drives. He has been unusually successful in handling players discarded by other managers as impossible.

PROS WHO PLANNED ON GETTING CARDS BACK OUT OF LUCK

The amendment, which was introduced by a special committee appointed after five hours' discussion was adopted unanimously, and means the deletion of the clause from the constitution, an "athlete guilty of offences cannot be reinstated."

Other years have champions in which the title hinged on the last game, still others were marked by the sudden ascension of an unlooked-for contender and had to be determined by a playoff, but never before have both leagues gone into the stretch with the outcome in doubt because of the unexpected splurge of entries not considered in the advance reckoning.

EXPECT TO REGAIN LOST GOLD CARGO

Ship Wrecked in 1799 is Objective of New Salvage Device

Terschelling, Holland, Sept. 26 (By American Press)—A new process for salvaging sand-buried treasure of the gold cargo of the British frigate Lu-

time, which has baffled a century's efforts, has just been put into operation here with every promise of success.

The Lutine was wrecked on a sandbank near this island during a violent gale in the night of October 9, 1799. Her crew of over 400 perished. Her cargo consisted of several million dollars worth of gold bars and specie.

Fifty feet of sand covers the wreck and repeated efforts have resulted only in the recovery of about half a million dollars and the ship's bell, now at Lloyds in London. At first divers were used to work, but later machinery was put to get at the wreck through the thick layer of sand by means of suction pumps.

Now a new apparatus, invented by a Dutch engineering firm is being tried. It does away with the suction process and substitutes hydraulic pressure. A tube is driven into the sand and steel grapples at the bottom seize any objects beneath it. The machine can work in any weather that is not too rough for the salvage vessel to be out.

During three days that the new apparatus worked recently no gold bars were raised, but indications are certain, according to the inventors, that the right spot has been struck and hopes are entertained that the rest of the Lutine's precious cargo, estimated at between \$5,000,000 and \$10,000,000, soon will be wrested from Davy Jones's locker.

The price of the best tube is little higher than that of the poorest. But the cost of the poor tube may be many times that of the best.

For a poor tube, by causing under-inflation, may easily ruin a costly casing.

Foot tubes leak air all the time, imperceptibly. Being usually made of one thickness of rubber, they have tiny flaws which it is impossible to prevent or detect in the making. They cause you to repeatedly run your tires under-inflated or to constantly use the tire gauge and air-line.

Goodyear Tubes are laminated—built up layer on layer of tissue-thin rubber, easily inspected and kept absolutely free of any flaw.

For the sake of your casings, use Goodyear Tubes. For your own comfort and convenience use Goodyear Tubes. For long, satisfactory tube service, use Goodyear Tubes.

WELL TAILORED MAN

London, Sept. 26.—The well-tailored man is an abomination from the point of view of hygienics, according to a Harley Street specialist.

"All tight-fitting, closely-woven garments, such as the majority of men wear in town, are unhealthy," he said. "Men wear the wrong sort of clothes and far too many layers of them."

"I should say men would look a good deal younger at forty than they do now if they adopted a more sensible costume. I don't suggest that men need go about the streets in jimpers, but they might wear more loosely woven tweeds. Waistcoats also should be discarded; they are a social convention of no particular use."

If you bought underwear tailored to your measure—

— you couldn't get a better fit

STANFIELD'S great range of sizes and proportions enables any man of any build to get a suit of underwear that fits just right—snugly and comfortably. It's cut and tailored to fit perfectly—won't bulge at the back of the neck or bind in the crotch.

Stanfield's will not shrink! You don't have to buy a larger size than you'd ordinarily wear and "allow for shrinking." Stanfield's fits when you first put it on and with ordinary care in washing according to our directions, it will stay that way, as long as you wear it. And it stands strenuous wear.

There are fabrics and weights in Stanfield's for every man

Stanfield's is made in all grades and weights; Pure Virgin Wool, Silko-Wool and mixtures of Wool and Silky Cotton. Whether you work indoors or out, you'll find there's a Stanfield's weight especially suited for you. And while our prices range to suit every purse, you'll find but one high standard of making all through—full, generous cut—no skimping, seams that lie flat, buttons that are sewn on to stay. This careful making is a part of every Stanfield's garment, from the lowest priced to the most expensive.

Be careful to select the size that fits you perfectly. There's a size, style and weight of Stanfield's for every member of every family, priced from \$1 to \$10.

THEODORE ROOSEVELT NAMED CANDIDATE

Rochester, N.Y., Sept. 26.—Theodore Roosevelt of Oyster Bay, assistant secretary of the navy and son of the late president, was named by the Republican state convention here today as the party's candidate for gov-

WAS ASSOCIATED WITH FIRST EVENING NEWSPAPER IN VICTORIA; NOW LOOKS OVER BIG PRESS IN OFFICES OF THE TIMES HERE

Captain Charles W. Allen, pioneer of this city, who after an apprenticeship with the late D. W. Higgins, became associated with George Wallace in The Evening Express, which existed until 1865, Captain Allen in later years was also connected with The Manitoba Free Press and The Toronto Globe. He is living in retirement at Philadelphia, but in the course of a tour of 20,000 miles has just spent a week in Victoria renewing old acquaintances. In spite of being now eighty-four years of age, his faculties, except that of hearing, are quite good. He is shown above at the time of his visit to The Times on Wednesday morning. Captain Allen left yesterday for home, by way of Winnipeg.

error. His nomination came on the first ballot, where he polled 545 of the 599 votes in the convention, sixty-nine in excess of the necessary majority.

ON NARCOTIC CHARGES

Seattle, Sept. 26.—In spite of representations as to his good character, Mikal Mikalson 'Dalen,' arrested by custom officers on the Canadian border, was sentenced to eighteen months in the McNeil Island penitentiary today by Federal Judge Jeremiah Netter on narcotics charges. Dalen pleaded guilty to importing 1,689 grains of smoking opium.

home. He was born here in 1866. Then why this anti-jazz attitude if he has been a theatrical man? "Well," explains Mayor Hart, "gray-blue eyes wandering under heavy lashes, 'I'll tell you how it is. Down in their hearts people don't want it. There's the trouble between men and girls nowadays is started at some dance where they do those sensuous, wild savage dances to the optimistic jazz. The music is savage; it has a direct brute appeal. "Here we have a mining community. The men are vigorous, muscled, primal—many a bit wild. They come out of the mines and wander to the dances. The orchestra strikes up the primitive, barbaric music—no wonder these men get away from themselves. You'd be surprised the amount of trouble it has caused. "Jazz has done more harm than drink ever did. It is designed for naked wriggling savages. "When you wander about the streets of Happy Valley and ask about Dan Hart they may smile at his ordinance, but never at him. If he is for something it must be right."

LA FOLLETTE MAKES HEADWAY IN WEST

Western Republicans Alarmed Over Extent Movement Grips Their Sectors

Washington, Sept. 26 (By Canadian Press)—Western Republicans are not a little alarmed over the extent to which the LaFollette movement is gripping their sections of the country. In spite of the extremely optimistic statements which are going out from National Chairman Butler and from Republican National Committee headquarters, Western Republican leaders when they get down to facts admit they are concerned over the LaFollette support. Influential Western Republicans charge that the Republican campaign is too much flavored with New England ideas and that Mr. Butler and those about him do not seem to grasp the Western conditions and realize Western sentiment. Some of them are carrying the matter to President Coolidge. He is being told that conditions for the Republicans in the west are not rosy and that hard

campaigning and effective organization will be necessary to head off LaFollette in the middle West and Northwest. Iowa, which some of the Republican leaders in the East say is a "cinch" for Coolidge, is looked on as doubtful by some able Republican leaders in the state. The loss of Iowa to Coolidge would be a hard blow. The feeling of Republicans there is that the fight is between Coolidge and LaFollette and that if agricultural conditions in October and November have not materially improved there is no certainty Coolidge will get the state. What is true of Iowa is true of a group of western and northwestern states and down in their boots the prospects are worrying Republicans who are best informed about the situation.

SEES VANCOUVER GREATEST CITY ON PACIFIC COAST

Great Market of World Will Eventually be on Pacific, Says Roger Babson

Ottawa, Sept. 26.—"Your children will live to see Vancouver, the greatest city on the Pacific Coast." So declared Roger W. Babson, head of the Babson Statistical Organization, New York, in addressing the Ottawa Board of Trade. "Europe has shot her bolt. The great trade is now with the Orient. The great market of the world will be on the Pacific rather than on the Atlantic," he added in explaining his prophecy. "Canada," he added, "is destined to be a great exporting country. Your country has the greatest wealth of raw materials in the world. The thing for Canada to do is to determine to control the world markets by selling these fundamental natural resources. I believe I will live to see the day when the United States will not export one bushel of wheat. Canada will control the wheat markets. I believe the Dawes Reparation Plan will help Western Canada." Surveying the business, financial and economic situation both in Canada and the United States, Mr. Babson affirmed that Canada was head-

ing for better times. The readjustment now going on was from two-thirds to three-fourths completed, he said. **MINISTER ACQUITTED** Montreal, Sept. 26.—Maurice Day Baldwin was acquitted today in Court of King's Bench on a charge of bigamy. He was charged with having married Miss Pauline Parkington in Newport, Vt., on July 31, 1923, knowing a former wife, Miss May Stephenson, whom he married in Montreal on April 28, 1905, to be alive. The latter, during the trial, which commenced yesterday morn-

JAZZ WORSE THAN DRINK ARTIST MAYOR DECLARES

WILKES-BARRE, Pa., Sept. 26.—This thriving mining city suddenly has appeared upon the map as the anti-jazz capital of the country. It has remained for a sooty-skied symbol of the machine age to become the scene of a fierce fight between the classical and syncopated forms of music.

And all because Wilkes-Barre has for mayor—an artist. Dan Hart is his name and he is in deadly earnest. He personally wrote

PAUL WHITEMAN

the ordinance that would sing the swan song of syncopation. This ordinance already has had its first reading. Soon it will be voted on. He looks upon jazz as immoral. To his ears its jerky rhythm is anathema and its effect upon humans insidious and virulent. "And by maintaining an unflinching stand he has set the musical world vibrating discordantly between staccato laughter and crescendo denunciation. Some of America's great musical artists have taken up the syncopated standard. Leopold Stokowski, conductor of the Philadelphia Philharmonic, announces: "Jazz has come to stay because it is an expression of the times. Its rhythm is a perfect expression of life as it is today."

Otto Kahn, millionaire patron of the arts and of the Metropolitan Opera in particular, announces: "Jazz is a definite medium of art expression." L. Hasselmann, conductor of the Metropolitan Opera, House: "When something so definitely bespeaks the character of a nation's people it cannot be done away with, or lightly dismissed. It is a democratic music; a leveler of all mankind." Paul Whiteman, well-known jazz orchestra leader: "Jazz is a recognized part of the musical folk-lore of the country. It is as American as the Monroe Doctrine or baseball." Stravinsky, Walter Damrosch, a host of others, rush up with tributes.

HERE'S WILKES-BARRE'S ANTI-JAZZ ORDINANCE

An ordinance to encourage the rendition of classical music and the prevention of playing of jazz music on the public streets of the city of Wilkes-Barre and other public places within the same, and imposing a fine for the playing of jazz music. Section 1. Be it ordained by the City Council of the city of Wilkes-Barre, and it is hereby ordained by the authority of the same, that no person, firm or corporation shall play jazz music anywhere on the public streets or in any public place in the city of Wilkes-Barre. Section 2. Any person, firm or corporation violating the provisions of this ordinance shall, upon conviction, pay a fine not exceeding one hundred dollars (\$100), to be collected as fines and penalties are now collected by law in cities of the third class of this commonwealth.

But Mayor Hart is not to be budged. He says he has first-hand evidence and stands pat. No reformer or "blue-law" man is Dan Hart. He is known far and wide as a "most liberal" mayor. For instance, he wants good beer for the miners and has not been afraid to say so. He has refused to allow any Sunday laws to interfere with amusements and has gone to bat on this matter more than once. "First of all," he says in stating his case, "tell the people I'm not a nut." Old-time theatregoers may remember the name. For Dan Hart wrote "The Parish Priest," the greatest money-maker of its time and one of the four or five biggest financial successes of all time. He made a fortune from his play writings. Happy Valley has always been his

GEN. PERSHING SAYS GOODBYE—Will H. Hays, former postmaster general, now czar of the movies, is seen bidding farewell to General John J. Pershing on the latter's retirement as chief of staff. Hays is wearing the insignia of a colonel in the reserve corps. In the background, from left to right, are Adjutant General Robert G. Davis, Colonel Quakemeyer, Pershing's aide, and Major General Frank T. Hines, Pershing's successor.

ALSO GETTING PROBED—Andrew Mellon, whose administration of the U. S. Treasury and of the prohibition enforcement is coming under investigation by one of the congressional committees.

FINDS NETHER REGIONS' HEAT—Dr. H. L. Adams of the Carnegie Institution, has just obtained a good working idea of the temperature of the lower regions where somewhat more than 2,000 degrees Fahrenheit, according to his reckoning. His deductions are made by working out artificially in his laboratory, heat conditions as they exist in the bowels of the earth.

BULLETS WON WHEN CARESSES FAILED—Bullets won a bride for Kenneth Goulet when soft words failed. Dorothy Hunter never realized she loved him until after he had shot her. She had told him she wouldn't marry him if she lived to be a thousand years old. And he right away assured her she never would marry anyone else. Four shots added emphasis to his assertion. He tried to kill himself then, but the two remaining bullets failed to explode. For weeks Dorothy hovered between life and death. But in her delirium, she constantly called for her cave-man lover. And in the county jail at Detroit, Kenneth almost hourly was inquiring about Dorothy's condition. Came then the word from Dorothy that she was ready for the wedding. They'd have it right in the jail. Deputy sheriffs tidied up the place and slipped into their best clothes. A justice of the peace hurried over from his nearby courtroom. And there in the jail Kenneth and Dorothy were married. Kenneth had made good his boast! Dorothy has refused to prosecute him and he's been discharged from custody. Both are eighteen.

AND SHE HAD TO COMB IT!—How would you like to have to comb hair as long as this? Mrs. Lydie McPherson admits it's a hard job. But she wouldn't have it bobbed for all the world. Mrs. McPherson, winner of the long-hair contest at the California State Fair in Sacramento, is seen here showing the length of her locks to Peggy Chamberlain, bobbed-haired musical comedy actress.

SITTING PRETTY—Rajah, a man-eating circus tiger with a record of killing two trainers and injuring others, has been condemned to be shot to death by Paris police. He is said to be one of the most ferocious man-eating tigers ever known.

NEW YORK'S OLD SWIMMIN' HOLE—Firemen are responsible for New York's imitation of the good old fashioned swimming hole. The "hole" is a wooden tank and the water is sprayed into it from a pipe above. On a warm day the youngsters crowd it to capacity, while hundreds wait for opportunity to stand under the spray or jump up and down in the water. It is always so crowded that none can swim.

MORE ABOUT WRANGEL—On the map above is shown the location of Wrangel Island, where a Russian expedition aboard the steamer "Red October" planted the Soviet flag. An American schooner is also on its way to Wrangel to rescue an American sailor there. Route to be followed by the American boat from Nome to Wrangel, is indicated.

CARRYING OUT A VOW—The statue of St. Rosalie has been carried through the streets of Gretna and Harvey, La., towns just across the Mississippi River from New Orleans, in solemn procession on her feast day for the last six years. That's in keeping with a promise residents made in 1918, when the influenza epidemic was raging in the towns. More than \$2,000 were pinned on the dress covering the statue as this year's procession moved along.

THE NEW NOSE—Jack Dempsey is not worrying about Harry Wills, who outpointed Luis A. Firpo, South American heavy-weight. He came to New York smiling at the cameraman's birdie and had his picture taken, new nose and everything.
