

**OUTLOOK IN MEXICO**

**C. C. BANCROFT TELLS OF CARRANZA'S EXORBITANT TAXATION PLANS**

Mr. C. C. Bancroft, formerly of the Gold Fish cafe, who owns some valuable property in Mexico, received this week a letter from an old friend of his, a mining engineer in that country. This friend has been 28 years in Mexico and knows its people and its history as well as any native and better than the majority of them. He has a great deal that is interesting to tell of the conditions in Mexico at present.

"My friend writes me from Mexico City," said Mr. Bancroft. "Like all Americans in Mexico he is extremely anxious to see the country quiet and peaceful and is watching with much interest the experiment in government that Provisional President Carranza is making. Like most foreigners in Mexico he has considerable antipathy toward the waiting policy of the United States. He is of the opinion that if Huerta had been permitted to have a free hand in the country he would speedily have pacified the land. Most people, he writes, think that Carranza is weak and that he is likely to prove a failure in his unaccustomed role of ruler over a big country. Carranza, writes my friend, is credited with a desire to confiscate all the property in the country to make it government land and to socialize the government.

"It is with this end in view that he issued on Jan. 5 a proclamation to the people informing them that every 'pertenencia' or holding of land will be taxed \$14 gold. This would be enough in itself; but Carranza has also decreed that whereas formerly a 'pertenencia' was reckoned at 3 1/2 acres, there shall now be an increase in the number of pertenencias to the acre. By then taxing land at \$14 a pertenencia Carranza will confiscate the whole land to the government.

"This will mean a very serious loss to the foreign communities in Mexico. Take such a property as that of Mrs. Phoebe Hearst in the State of Aabasco. It amounts to 800,000 acres. Taxed at the increased rate such a property would have to pay a prohibitive tax. What will become of the Standard Oil, Mexican Petroleum and the many other foreign oil properties, if this scheme is properly reported, and should be persisted in? There is no saying what may be done. The foreign communities are said to look upon Carranza as little better than Villa.

"One thing must strike Americans as strange. My friend says that of late conditions in Mexico City have been peaceful in the extreme. In that city the street cars have long ceased to run and all journeys from one part of the city to the other must be made on foot. There has been no police in Mexico City for some time. In July, August and September last year there were positively no police at all in the city; yet during that time there was not a single outrage in the city. Women walked about without molestation and perfect harmony reigned everywhere.

"In was time for such a rest, anyway, says my friend, Mexico City suffered terribly during the Madero, Diaz, Huerta fighting and scores of houses were razed to the ground. Carranza is credited with a design to have a new capital. Mexico City is to be deserted and its ancient glory as the capital will be no more. That, at least, is what Carranza is planning.

"Personally I am very anxious to see Mexico pacified. I hope sincerely that Carranza will prove equal to the task. I have considerable mining interests in Mexico. I have an interest in the El Alacran copper-silver property in the province of Michoacan. In times past this property has paid well. The ore was shipped to Aguas Calientes to the American Refining Company and it gave good returns. We have our blocked out there that will keep us occupied for three years to come. I hope to go down there just as soon as conditions become better and we are able to understand just what we are to expect from the government."

**KNIGHTS TEMPLAR DEGREES**

Glendale Commandery No. 53, Knights Templar, will confer the degrees of the Illustrious Order of the Red Cross and also the Valiant and Magnanimous Order of the Temple Saturday afternoon from 2 o'clock to 6. Five candidates will receive the Order of the Temple and one the Order of the Red Cross. Other candidates were admitted already this week.

**WEATHER FORECAST**—Fair tonight and Thursday; cooler; west winds.

**CONDITION OF WASH**

**CITY ENGINEER LYNCH DESCRIBES HOW PROTECTION WORK DEFIED LAST FLOOD**

"If the people of Glendale would only take to heart the object lesson of the recent flood," said City Engineer Lynch, "it would be an excellent thing for the city. The danger of destruction of property by the overflowing of the Wash, for this year, is by no means over. It may be that there will be no more serious rain; but if there should be there are breaks in the Wash where the water would pour through and sweep through the city.

"Those who are anxious to understand this matter should go out to the Wash. I would advise them to traverse its whole length. Then they will see how the floods raise the bottom of the channel and how it is inevitable under present conditions that the waters will seek another outlet and another channel. The problem of control of the Wash is not a difficult problem. It is not like that of the San Gabriel river. We have to take care of a flow of 5000 cubic feet a second, which if properly handled is not so difficult of accomplishment. The trouble here is there are no banks to hold the flood. The moment the rush of flood waters hits the banks of the Wash they scoop out the soft sand and whirl it away to the further injury of the adjacent lands and those further down. There are no trees along the banks as there should be.

"What is needed is strong piling such as was recently put in with extra strong barbed wire strung along from post to post, forming a screen that effectually breaks the waters. This barbed wire, as may be seen, catches all the debris that comes down, or a good portion of it, and forms a natural screen for the banks. With trees planted behind that again we will have a strong and effective bank that no flood will wash away.

"The work that was put in some two years ago was a mere makeshift. We could not get posts at that time. Every available post had been taken up by the railways and we had to content ourselves with mere makeshifts about 40 feet apart instead of 8 feet, as is really needed for effective protection. Those who will take the trouble to look at the work at Opechee Way will see how the work has preserved the channel. At Canada boulevard bridge the work has not yet come to its full efficiency. That will be attained when the trees on the banks have grown. Nothing but the 600 feet of new work recently put in as a protection to the banks prevented the Wash from coming down through the City. This work stands as a demonstration of what can be, and should be, done in this way. There was a break at Howard street where there was no protection. I have all along warned the citizens of the danger of the Wash and advocated adequate protection for its banks. The recent storm was an indication of what may happen at any moment and if nothing is done I at least feel that I am not responsible.

"Whatever appropriation may be made for the protection of the Wash it must be remembered that there is a distance of 6000 feet to be attended to. Instead of getting better conditions are likely to get worse. A great deal of clearing work has been done in and around Montrose and La Canada. The protective brush has been cut down and the consequence is that each year sees a greater volume of water coming down from that direction.

"I am deeply interested in the conservation work being done far up in the hills. I think that, in combination with what is being done below in the city should tend to modify flood conditions. We should do this conservation work and take care of the channels of the Wash at the same time.

"There is always the possibility of what has been called a 'cloud burst' among the hills. This year the Wash was called on to carry down at one time only about one-half of the flood waters it was burdened with two years ago. If we had had as much water in the Wash this year as in that old flood we would have had similar destructive results and the possibility of such a disaster is by no means over."

**HAD FAINTING FIT**

As Mr. David Hartley, 252 E. Broadway, was proceeding along Broadway in the vicinity of Brand boulevard he was suddenly overcome by a fainting spell and fell to the sidewalk. Patrolman Hollenbeck, who was on duty there, immediately went to his aid and, procuring the assistance of an auto, took him home where he soon recovered from the effect of the sudden attack.

**ALLIES' SHIPS SHELL GERMAN POSITIONS**

**BRITISH AND FRENCH WARSHIPS BOMBARD TEUTON TRENCHES NEAR WESTENDE**

(Special Service to Glendale Evening News)  
AMSTERDAM, Jan. 26.—Allied monitors bombarded the German positions near Westende today. Scores of Germans were killed and wounded. Allied aeroplanes showered bombs on the German trenches near Knocke and Heyst, doing considerable damage.

**BRITISH LABOR SPLITS ON CONSCRIPTION**

**SOME OFFICIALS OF NATIONAL LABOR COUNCIL ADVOCATE GENERAL STRIKE AS PROTEST**

(Special Service to Glendale Evening News)  
BRISTOL, England, Jan. 26.—Most of the prominent officials of the National Labor Council, now in session in this city, expressed themselves as strongly opposed to conscription today. Some of them went so far as to advocate a general strike as a protest against the measure which recently passed the house of commons. There was considerable difference of opinion on the matter and a bitter debate ensued.

**ALBANIANS DEFEAT BULGARIAN TROOPS**

**ESSAD PACHA'S ARMY INFLECTS CRUSHING DEFEAT ON INVADERS EAST OF OCHRIDA**

(Special Service to Glendale Evening News)  
ROME, Jan. 26.—Dispatches from Athens today state that the Albanian army under Essad Pacha today inflicted a crushing defeat on the Bulgarian forces which recently invaded Albanian territory, forcing them to retreat. The losses suffered by the Bulgarians were exceedingly heavy.

**EXPECTS LUSITANIA SETTLEMENT SOON**

**GERMAN AMBASSADOR SAYS AGREEMENT IS NOW "MERELY A MATTER OF WORDS"**

(Special Service to Glendale Evening News)  
WASHINGTON, D. C., Jan. 26.—Count von Bernstorff, the German ambassador, was politely jubilant today when questioned by the newspapermen regarding the status of the Lusitania dispute between the United States and Germany. "I expect a settlement will be reached within a very few days now," he said. "The points of difference between the United States and Germany are merely a matter of words."

**THREE KILLED IN RAILWAY COLLISION**

**TWO MILWAUKEE TRAINS SMASH INTO EACH OTHER NEAR OTHELLO, WASHINGTON**

(Special Service to Glendale Evening News)  
SPOKANE, Wash., Jan. 26.—Three men were killed today when two Chicago, Milwaukee & St. Paul trains crashed into each other head-on, near Othello, Washington. The engineer of the westbound train was one of those killed. The others were two hoboes.

**TRAGIC SCENES AT SEATTLE FIRE**

**THREE MEN JUMP TO DEATH IN STREET—THREE REMAIN IN FIRE TRAP AND PERISH**

(Special Service to Glendale Evening News)  
SEATTLE, Jan. 26.—Six men were killed in a fire which partly destroyed the Walker building here today. A large number of persons were in the building but most of them escaped. Seven are missing. Six men were trapped on the fifth floor. There was no means of getting at them. Three of them jumped from a window and were badly crushed by the fall, dying almost before the eyes of the immense crowd that watched the progress of the flames.

**BRITISH BEGIN DEBATE ON BLOCKADE**

**PARLIAMENT CONSIDERS RESOLUTION TO STOP ALL GOODS TO AND FROM GERMANY**

(Special Service to Glendale Evening News)  
LONDON, Jan. 26.—The debate on the proposed blockade of Germany by Great Britain was formally opened in the House of Commons this afternoon. Arthur Benn moved the adoption of the resolution providing for the blockading of all goods to and from Germany.

**BRITISH WORKERS TO SUPPORT GOVERNMENT**

BRISTOL, England, Jan. 26.—Support to the government was pledged today by the representatives of more than 2,000,000 workmen. The committee of the National Council had a very acrimonious debate over the Conscription bill and threats were made that it would be denounced later.

**WORK FOR STUDENTS**

**HIGH SCHOOL WILL KEEP LIST OF THOSE WHO WISH TO WORK OUT OF SCHOOL HOURS**

It has developed that there are a good many boys and girls in our High School who would like to do some outside work if they could get in touch with some of the people who have such work to offer. The matter was considered of so much importance that a committee was appointed by the High School Parent-Teacher association to consider it. The committee was composed of Mr. Cowan of the Glendale Evening News, Mr. Cornwell of Cornwell & Kelty, Mr. Belden of the Sheet Metal Works, Miss Flood of the High School, and Mr. Ferguson of the High School, chairman.

In considering the proposition, it was the unanimous opinion of the committee that this could best be handled through the High School, a list of the young people available for the work desired, to be kept there, as well as a duplicate list to be placed in the store of Cornwell & Kelty for the convenience of those who find it impossible to come to the High School to consult concerning the matter. Mr. Cowan volunteered to give the matter publicity.

This information has been presented to the pupils and at the present time there are several names on the list who desire to secure work outside of school hours. If there are any people in the community who desire to employ any of these young people, even for a short term of service, they are requested to call Mr. Ferguson of the High School or Cornwell & Kelty and the matter will be given immediate attention.

All of this information will be transferred from the outside people to the pupils without charge to anyone, the whole idea being to enable some of the pupils to remain in school who otherwise might not be able to do so and if possible to help those young people who are not in school, but desire to continue their education, in case they could help themselves financially.

It is the feeling of all of those who are interested in the new idea that it is a most respectable thing for boys and girls to help themselves along and all of the committee expressed themselves as being more than willing to do anything to assist in bringing those on the outside in touch with the boys and girls who wish to do anything of this sort. The public is requested to take advantage of this opportunity and it is hoped that it will be a convenience to them and a service to the young people who desire to keep on in their educational pursuits.

A. L. FERGUSON, Chairman.

**ON TUESDAY AFTERNOON**

Do the people of Glendale as a whole realize or appreciate the wonderful amount of talent within her small domain.

If not, it is high time they were made aware of the fact. On Tuesday afternoon Mrs. E. W. Kinney, music curator of the music section of the Tuesday Afternoon club, presented Mr. and Mrs. Christiaan Timmer and Mrs. Catherine Shank in a wonderful program of music which was most enthusiastically applauded by a large and appreciative audience.

Mr. and Madame Timmer are known throughout the entire world of music and in public life.

The layman who does not understand the technicalities of music would be presumptuous to criticize in detail the masterly rendition of yesterday afternoon's program. In fact, criticism would be out of place as there was no place to criticize.

Mr. and Madame Timmer proved conclusively their perfect knowledge and mastery of their respective instruments, the violin and violincello. There is a genius that compelled the audience to soar into the realms of unutterable bliss.

Mrs. Shank's beautiful, clear voice presented the pure melody of Mozart in a manner that made us appreciate to the fullest extent this great master. Her clearness of tones and artistic interpretation assisted by the magic sound of Mr. Timmer's violin in an obligato left a memory in the minds of her audience that will not fade. This charming woman and wonderful artist, one of our own Glendaleans, found the responsive chord in the heart of each and everyone.

At the piano was one of the wonders of the musical world of Southern California, Mrs. Blanche Hermon Robertson. Her perfect accompaniment placing her own personality always in the background, following only the color and note of the artist she accompanies, proves conclusively that the accompanist is as great an artist in her way as the

**DELIVERY SERVICE COST**

**W. E. HEWITT TELLS WHAT GLENDALE LAUNDRY SPENDS ON DELIVERY SERVICE**

It is probably the case that the average business man never stops to figure out accurately the actual cost of running the auto delivery car he uses in his business. This, nevertheless, is a matter of expenditure that should be as carefully figured out as any other item in the cost of running a business. How many business people know to a fraction what their delivery auto is costing them each month? Would it not be well for them to figure it out and discover exactly how they stand in this respect?

Mr. W. E. Hewitt, proprietor of the Glendale Laundry, has made a very careful analysis of the cost of running his business autos. Every month he tabulates what he spends in gasoline, oil, repairs, tube and tires for each of the delivery wagons in use. These tables are kept for each car and at the end of each month the mileage and the cost are compared and it is possible to tell to a fraction how much it cost for each item to run each car and the total cost per mile; also how many miles were run per gallon of gasoline.

Thus Mr. Hewitt's "White" car, which he has for his personal use in connection with his business ran 8055 miles in the course of the year 1915, an average of 871 and a fraction miles a month. Gasoline for the year cost \$75.02; oil \$14.10; repairs, \$136.32, tubes and tires, \$157.28. The total cost of these items was \$381.27, which gives an average cost per mile of .047-10. The number of miles per gallon of gasoline was 11 1/2. The average cost of gasoline per mile was nine-tenths of a cent.

The Overland car in use at the laundry ran 16,926 miles in the course of the year, an average of 1410 1/2 miles a month. Gasoline cost \$149.54, oil \$14.15, repairs, \$161.31, tubes and tires, \$101.04, total, \$426.04. The average cost per mile of all these items was .02 1/2. The number of miles run per gallon of gasoline was 11 1/2.

Ford car No. 5 ran a total of 19,714 miles in the course of the year at an average cost of .012-5 per mile and ran 15 1/4 miles per gallon of gasoline.

Ford car No. 10 ran 11,910 miles during the year at an average cost per mile of .017-10 and ran fourteen miles per gallon of gasoline.

Ford car No. 1 ran 7878 miles during the year, an average mileage per month of 656.6, at a total cost of \$155.65, or an average cost per mile of .019, running 11-1-3 miles per gallon of gasoline.

It will be seen that the average cost of gasoline per mile was in the case of the White car, 9-10 cents; for the Overland 8-10, for the Ford No. 1, .01, for the Ford No. 5, .07, for the Ford No. 10, .08.

These figures cannot fail to be of interest to all business houses and those who have not kept such tables of monthly and yearly expenditures and averages might find it profitable to follow this example.

**BIRTHDAY DINNER**

Miss Vera McPherson was the honored guest at a prettily appointed birthday dinner given Monday evening at the home of her parents, Mr. and Mrs. H. A. McPherson of 1515 Pioneer Drive. Violets predominated in the decorative arrangements, the table centerpiece being of the sweet scented blossoms, intermingled with ferns, which were also scattered over the snowy cloth and old fashioned bouquets of the same blossom marked the covers.

Each guest composed a verse containing a wish for the birthday child, these being read just before the cutting of the pretty, taper-lighted cake. Seated with the honoree and later enjoying the merry games were the Misses Margaret and Iona Eddie of Pasadena, Loie Hunt, Margaret McPherson, a sister, Lura Hibben, Jeanie Ray, Gladys Hamilton and Kathlyn Walsh.

soloist.

Following these musical numbers, Dr. D. F. Fox, at present pastor of the First Congregational church in Pasadena, in his marvelous word picture, charmed his hearers. The lack of space prevents going into detail depicting the address given by Dr. Fox. His topic was "What Constitutes a Masterpiece." He mentioned Dante, his life of exile, hardships and dreams. His writings are masterpieces. Then Michael Angelo and his masterpiece, the wonderful picture "The Angelus."

## FAILURE OF THE PEACE MISSION

Now that the Ford Peace Mission has returned home it is being found out that the stories wirelessed from the Peace ship while in midocean with regard to disputes between the members of the party were by no means exaggerated. In fact, the disputes were a great deal more serious than was represented and were the instrument of disrupting the party before Mr. Ford could get his ideas carried out.

It is easy to see from the stories now leaking out that Mme. Schwimmer was the evil genius of the whole scheme and that she deceived Mr. Ford in the most extraordinary manner, representing to him that the people of the Scandinavian countries were anxious to have peace and ready to co-operate with him to secure that end. It was found that numerous cables wirelessed to Christiania, Norway, by Mme. Schwimmer while the vessel was on the ocean were addressed to fictitious parties and fictitious societies and that they remained in the telegraph office on that account.

Dr. Aked complains that he was deceived as to his position in the mission. He says that he gave up lucrative engagements to accompany the expedition and that he was not permitted to have the slightest say in its direction. He also says that he was never allowed to see Mr. Ford except for about ten minutes at rare intervals.

Herman Bernstein, editor of a Jewish journal in New York, gave up his press delegatship when he arrived at Christiania and continued the journey merely as a reporter and at his own expense. Mrs. Inez MilhollandBoissevain also abandoned the party at Christiania and declared that Democratic control of the mission was impossible.

Governor Hanna of North Dakota, though professing to have left the expedition at Christiania and for personal reasons, told his friends confidentially that it would cost him thousands of dollars to explain to his constituents his connection with such a party of "nuts."

It is stated that the scenes of animosity and strife all the way over were without parallel and that Mr. Ford, whose idea was that the party should have properly a psychological influence on the situation and that as it went on from city to city its influence should grow and that its adherents from all countries would increase, was disgusted with the whole affair and disappointed almost from the outset. The bickerings, the jealousies, the attempts at petty grafting and the insensate greed displayed by a section of the members of the party weighed on his soul and caused the illness which sent him home again before the mission began its work.

It is no reflection on Mr. Ford that the party failed. It was bound to fail. It carried failure in its very bosom. Mr. Ford's guilelessness in the whole matter approached to simplicity; but it was that simplicity of heart that is very close to the heart of the Almighty. If, in his ignorance of the conditions prevailing abroad, he was persuaded into this scheme, or even encouraged to persevere in it by interested parties the blame and the shame is theirs, not his.

It is easy to talk about what should be done or could be done in Europe to stop this war; but it must be remembered that just such talk on the part of certain sections of Europe was keenly resented in the North when the Civil war was being prosecuted under circumstances of great difficulty. The Ford expedition failed and it failed without dignity because it was based on misconceptions and was exploited by selfish people for their own aggrandizement. Probably it is true, as Mr. Ford said, that he has learned a great deal about human nature during this hasty transatlantic voyage. If he has learned something he is then a wiser if a sadder man than when he set out.

## SCANDINAVIAN COUNTRIES AND THE WAR

Much speculation is being indulged in as to the probable part the Scandinavian countries will yet play in the great war in Europe. Up to this point Norway, Sweden and Denmark has been strictly neutral and have profited largely by their neutrality. Norway has no reason to seek to change this condition. She is prosperous at present as she has never been at any time in her history. In spite of anything that may be said to the contrary by interested parties Norway is exceedingly anxious to keep out of the war. She is making money every day and is credited with having already to the good \$200,000,000 in trade profits.

In like manner Sweden is perhaps less desirous of war. Her shipping interests, such as they are, would suffer greatly if she should enter the war on the side of Germany, as is constantly hinted at in inspired messages from the other side of the Atlantic. Sweden it is true is anxious to annex Finland and thus prevent Russia from getting the open ports on the Norwegian and Swedish coasts that she desires. Sweden is strongly anti-Russian and not at all pro-German. She might be induced to fight Russia; but if she did she would inevitably lose a great deal, even if successful, as it is inconceivable that Germany would permit her to retain any territory she would be able to seize.

Denmark is hostile to Germany as she has always been. Far back as the theft of the Danish provinces by Germany may seem, Denmark has not forgotten that episode in her history. She still looks with longing eyes on Schleswig-Holstein and wishes that she could get these provinces back. Denmark sympathizes with the Allies. She is strongly pro-British; but she will remain neutral if she can. It is just so with Norway. In spite of all that is being published in certain sections of the American press, Norway has no desire to attack Russia, whatever Sweden may have. Norway's greatest interest at present is the development of her merchant fleet. Should she go to war against the Allies she would stand a good chance of losing all her ships and of spending all that she has earned just now and a great deal more and would ultimately face bankruptcy as a result of her participation.

Of course it is Germany's interest to get as many countries involved in the war as possible. The more she can get on her side

the longer lease of life she will have. Therefore it is practically certain that the kaiser is now seeking to induce the Scandinavian countries to enter the war on his behalf. It is inconceivable that he will succeed. The Scandinavian countries have a great deal more to gain by keeping out than by plunging recklessly into the unnatural conflict.

## SCHOOLS AND CAMPUS

There have been many symptoms lately of the rejuvenation of school spirit and enthusiasm. Many people who attended the basket ball game last Saturday remarked that the school spirit of Glendale High after many years of quiet and seclusion has again come to life. With a fine band, well filled bleachers and a splendid rooting squad, no one could help feeling proud of Glendale. Although our team did lose they put up a good strong fight and gave Alhambra a scrap for every point. The lineup was as follows:

Glendale—Phillips, Shea, forwards; Hagin, Williams, centers; Kolts, Renshaw, Francy, guards.

Alhambra—Sutton, Brown, forwards; Lewis, center; J. Wilford, W. Wilford, guards.

Tom Phillips played a fine steady game, making some splendid goals. Bob Kolts, captain of the team, did some excellent guarding and showed fine headwork in passing. The fellows all displayed a fine fighting spirit and gave the Alhambra team a good run for their money. The final score was 31-20.

The last game of the league will be played off next Saturday with So. Pasadena at South Pasadena. It is almost a certainty that Glendale will win since even Harvard defeated South Pasadena.

### Extemporaneous Debate

Glendale will be represented at Lincoln High on February 4 by Miss Ethyl West. The schools entered in the debate are Manual Arts, Santa Monica, Glendale, Lincoln and Poly. The general question is "Vocational Education." The exact question and the sides to be taken by each school will be announced just thirty-two hours before the debate. Miss West is very familiar with the general field of vocational education and will undoubtedly make a splendid showing for Glendale High.

### Track Announcement

Because of the rains and the condition of the track it has been necessary to postpone the interclass track meet until Thursday and Friday, Feb. 10 and 11. Entries should be given to Ed Seay or J. F. Beach as soon as possible.

### Dual Debate

Last Friday evening Joseph Maier and Frank Bridgeford defeated Huntington Beach in a debate at the beach town by winning three judges. Howard Stickney and Sam Durand lost two judges to the Huntington Park team in the G. U. H. S. auditorium. As a result, Glendale and Huntington Park are tied for first place in the smaller section of the league. One championship debate will be of a dual nature, the affirmative team, Howard Stickney and Sam Durand debating at Huntington

Park while the Huntington Park affirmative will meet Frank Bridgeford and Joseph Maier at Glendale. The question to be debated is "Resolved, That the defense of the United States against foreign aggression would be furthered by changing to one year the term of voluntary enlistment in the regular army."

The winner in the debate will meet Pasadena, the winner in the larger section of the league, at Pasadena on February 11. In this debate Pasadena will uphold the affirmative.

### CONDITION OF ROADS

Mr. Walter Hawkins, who is acting as traveling agent of the Glendale Evening News and Tri-City Progress among the communities of the foothills, says that considering the very heavy rainfall the roads among the foothills are in pretty good shape. "The road from Glendale to Montrose," said Mr. Hawkins, "is in very fair condition. From Montrose to La Canada there is a very fair road as all pedestrians and autoists know. La Canada is paving a number of streets and when finished that center will have creditable streets. From Montrose to La Crescenta there is a good cement road on which the rains had little effect. Indeed the rain seemed to have handled La Crescenta very kindly."

"From Montrose to Walton's Well on the way to Sunland, the road is fair, but from Walton's Well to Littlelands the road is in very poor condition. The heavy rains washed out many soft spots and left bad holes and the whole of this section of the road is deep in mud. The road to Burbank from Littlelands is in good condition and in making my rounds I preferred going round that way rather than face the mud track between Littlelands and Walton's Well."

"The Earl tract, which lies among the hills north of La Canada is almost in shape to be put on the market. The lots have been graded and several miles of fine paved roads constructed. This is a highly scenic spot and well worthy of a visit. To reach it from La Canada go up School street. The canyon is wonderfully picturesque."

### BIG EVENT

Tuesday, Feb. 1, at 8 p. m., will be the big event for the little Acacia St. school. The Glendale High school auditorium will be the place and the vaudevillians (?) will hold the boards. Yes, and it is said to be some talent at that. Everybody knows that when the Acacia street school starts things something is surely going to happen. Just leave it to the Mother's club to build fences, buy talking machines and fix up playgrounds—and the dear public, well, they just open up the purse strings and the real coin of the realm comes forth. This is going to be a really truly show for old and young, two hours of joyous amusement for 25c and 15c, and the kiddies, well, they've talked nothing else for the past two weeks. There will be from 9 to 13 big acts, every one a headliner. Folks will think they are at the Orpheum. So many big surprises are in store for our customers that they will be glad they came. It would be telling secrets to divulge the big features, but just watch that Mother's club shoot the acts over. Everybody in Tropic will be singing this great refrain. It will be all the rage:

"Out in the country about four miles from town" There you'll find the prettiest Place for 100 miles around. Trees and flowers, gardens, lawns. Wherever you may go. There's really no place On this earth just like Tropic.

Tickets may be secured at Cornwell & Keltys store.—Adv.

### PRESBYTERIAN CHURCH

Dr. J. R. Pratt brought a powerful message last night to the men of the Brotherhood class and their friends who gathered in large numbers to hear it. The three men, in all the world's history who stand out as having made good are Jesus Christ, the Apostle Paul and Daniel. Daniel was the one whose life was reviewed to find the elements of his success, for he succeeded whether we look at him as a spiritual or temporal light. The three outstanding facts in his life and that of his three friends were positive—convictions, definite purpose and courage of these convictions. The temptations of that day were no less than those of today, but Daniel purposed in his heart that he would not defile himself with the king's meat. He stood by his purpose when it meant seeming defeat and death. Nothing has any terror for a man who stands true to God. There is no success without purpose. Daniel specialized in his determination to serve his God. His God delivered him in the lion's den and delivered him from his enemies and placed him on high.

Daniel dared to do what he be-

lieved was right and left the consequences with his God. When the call was made for those who dared to make good as did Daniel many responded to the call.

Dr. W. E. Edmonds and Rev. Rider of Tropic assisted in the service. Dr. Pratt will bring the message again tonight. All who would be strengthened, uplifted, encouraged, better fitted to fight life's battles, made strong against temptation and helped along life's rugged way are invited to come. Come, all things are now ready!

### Do you want a Home in Glendale?

Sell you a fine lot on Maryland or Louise, "NOTHING DOWN" and loan you 1-3 of cost of building. Long time, easy terms.

## LESSONS ON BEAUTY

TIMES OF PULASKI, VIRGINIA, SAYS BEAUTY IS DOMINANT IN SOUTHERN CALIFORNIA

Everywhere the name and fame of Southern California seem to have gone forth. The wonders of this section of the country, its open air life, its prolific soil, its vines and flowers have the greatest attraction for the inhabitants of other states. Moved by some information recently received about Southern California the editor of the Southwest Times of Pulaski City, Virginia, writes that it is remarkable to see what an emphasis is laid in California upon a phase of life that is so sadly neglected throughout the greater part of the United States—beauty—beauty of cities and homes, beauty of grass and flowers and trees.

"Of course," says the article, "in Southern California everything conspires to make the people worship nature, and to fill their hearts with pride and love of their gorgeous land, rich in blue skies and warm-tinted flowers and dazzling sunlight. It is not strange that these people are careful to foster the beautiful in their civic life, paying close attention to the lines upon which streets and houses are designed, planting a hedge here, a flower there, covering their dwellings with vines, shading their highways with lordly trees. With much of this continent nature has been less lavish. New England and the north country has a sterner, more rugged beauty. It is natural that its people give less heed to softness and harmony of line.

"The relation between people and the land in which they dwell is an intricate one, but is fairly well established that men and women reflect in their lives the surroundings among which they live. With this granted, comes the field of conscious art, to develop surroundings that lives may be brightened. It is really a duty to contribute all one can toward making one's dwelling place pleasing to the eye. For those who have seen the higher light, wealth is desirable only for the beauty it will create under living hands. Beauty—real beauty is inseparable from good."

### GLENDALE ATHLETICS WIN

Glendale Athletic club won both games against the University of Southern California Tuesday night. The boys are getting into shape rapidly as was shown by their excellent team work last night. They put up a very pretty exhibition of combined play all over the court. The game was played in the gymnasium of the University of Southern California before a large and enthusiastic audience. Both teams showed vast improvement. The 140-lb. team defeated its opponents by 28 to 22. This was a very fast game and the score showed how closely it was contested. Littell scored 10 points, McDonald 8, Pratt 4 and Coole 5.

In the unlimited game Glendale heavyweights won by 31 to 25. Mitchell and Taylor did most of the scoring. Fred Farmer and Doc Stone played a good game at guard. Bidwell also showed up in good form. Mitchell scored 17 points, Taylor 8 and Bidwell 6.

The lineup for the heavyweights was: Mitchell, lf; Bidwell, rf; Taylor, c; Farmer, lg; Stone, rg.

For the 140-lb. team the lineup was: Littell, lf; MacDonald, rf; Pratt, c; Coole, lg; Latter, rg.

On Friday the heavyweights will play the Los Angeles Normal team in Glendale at the gymnasium, corner First and Glendale avenue. This is certain to be a very fast and exciting game and should command a crowded audience. On the same evening the Glendale 140-lb. team will play an exhibition game with Hollywood High School team. This also should be an attractive event. The teams deserve the active support of everyone in the city.

### CHAYOTES FOR NEW MEMBERS

There are about 20 chayotes donated by Mrs. Chas. Toll at the Garden society's headquarters, 1111 W. Broadway. These chayotes, ready for outside planting, will be given to the first twenty people joining the society this week. Chayotes are commonly called "winter squash." They are excellent for covering unsightly walls and can be used in many different ways for the table. When planting be careful to cover the young, delicate shoots with a sack to protect them from frost. The chayote is said to grow like magic. Ten square feet is the average growth the first year, the second year 25 square feet is a fair average. Frost causes it to die down, but the roots remain intact and will spring up the next season. Chayotes can be boiled, fried, breaded, roasted, made into a salad or cooked in Spanish style. Any one calling at headquarters can learn from the president, Mrs. Nanno Woods, of seven different ways to serve chayote.

### THREE YEARS AGO

Booth started on foot. The first day's labor yielded one customer. 20c. Today he delivers daily by auto. Reason, better coffee. 20c, 25c, 30c, 35c, 40c and 45c pound. Home Phone 2312. Sunset 1298W.

Mexico forbids the importation of opium. Apparently Carranza is tired of doped revolutionists.

### WORK OF ADVENTIST CHURCH

The Southern California conference of the Seventh-day Adventists opened its annual session at the Carr Street Adventist church in Los Angeles yesterday morning. Delegates were present representing practically all churches in the conference. Elder B. E. Beddoe, president of the local field, was chairman of the session and submitted his annual report. Various committees were appointed, following the seating of the delegates.

President Beddoe reported that during 1915 \$67,114, or \$31,644 a member, was contributed for the work of the denomination by local churches, of which \$42,129 was title for the support of the ministry and \$16,960 was for mission work, being an average of 16 cents a week per member. He said 240 new members were added to churches in the counties of Los Angeles, Ventura, Santa Barbara and San Luis Obispo and Kern county south of the Tehachapi mountains last year. The Glendale Sanitarium and San Fernando academy, two institutions conducted by the Adventists, are in a prosperous condition, he reported.

Committees appointed were as follows: Nominations, C. A. Burrows, E. Andross, L. M. Hodge, J. F. Davis, H. H. Johnson; plans, G. A. Snyder, I. C. Colcord, E. G. Fulton, D. D. Comstock, M. E. Cady, B. M. Emerson, Alexander Ritchie, Claude Conard, Eugene A. Brown, Sidney Scott, B. E. Fullmer; credentials and licenses, E. E. Andross, F. I. Richardson, E. W. Farnsworth, H. G. Lucas, G. W. Reaser; constitution, H. G. Lucas, Claude Conard, B. M. Emerson; seating of delegates, F. I. Richardson, J. F. Blunt, C. E. Andross.

### NORTH GLENDALE

Mrs. J. R. Lockwood of 711 North Louise street is entertaining as her house guest her niece, Miss Kathryn Reid of Riverside, Cal.

Mrs. K. M. Dougall of 1301 Arden avenue was the guest over the week end of her grandmother, Mrs. Luesinger of Hyde Park, Cal.

H. M. O'Malley of the Hammond Lumber company was in North Glendale last Tuesday.

Mrs. L. M. Lockwood of North Louise street is visiting her daughter, Mrs. S. G. Topliff of Lark Ellen avenue, Covina.

Mr. and Mrs. M. H. Becker and children of 1124 Melrose avenue were guests of Mrs. Becker's sister, Mrs. K. Hoxmeier of West Forty-third street, at a beautifully appointed family dinner party last Sunday.

Friends of Mr. and Mrs. T. S. Freeman of 1517 Sycamore street will be very sorry to learn that their little daughter Mattie is very ill with inflammatory rheumatism. Dr. Thompson is in attendance.

Mrs. Howard Alston of Berkeley avenue, Edendale, was the luncheon guest of Mrs. J. E. Eckles of 1124 Viola avenue on Tuesday of this week.

### MRS. VANNATTA'S DINNER

Twenty covers were laid for the elaborate dinner given by Mrs. Wellington Vannatta at her home, 428 Everett street, on Tuesday evening for old friends, all coming from Riverfalls, Wisconsin. The affair was stamped as one of the prettiest of the week's entertainments.

Two oval tables were used, being beautifully done in pink Enchantress carnations and feathery ferns.

"The West," a beautiful poem by Douglas Mallock, lettered upon the place cards, was read by Mrs. Follansbee. Underneath the poem were printed many alphabetic letters, which the guests were asked to assemble and formed the two words, California-Wisconsin.

Following the dinner hour a musical program was given, holding entirely to Scotch numbers, as January 25 is Robert Burns' birthday. Those received by the gracious hostess included her house guest, Mrs. M. T. Field of Riverfalls, Wis.; Mrs. Duncan McGregor of Sierra Madre; Mr. and Mrs. George Williams and Mrs. Mable Perrin Titus of Hollywood, Mrs. Mary Pratt of Long Beach, Miss Bertha Foster of South Pasadena, Mrs. Elmira Powell, Mr. and Mrs. H. A. Wilson and daughter, Miss Gertrude Wilson, Mrs. Georgianna Bell, Mrs. F. A. Brackett, Mrs. Martha Wright, Mrs. Gertrude Follansbee, Mrs. Charlotte Bear, Mrs. Chas. Gommel and Miss Mary Stevens.

### TROPICO

Nine happy boys and girls comprise the graduating class of the Tropic grammar school and the graduating exercises for this class will be held in the Glendale Union High school auditorium Thursday evening, Jan. 27. Neat and attractive invitations have been extended the many friends of these boys and girls who comprise one of the most interesting classes ever graduated from the Tropic schools. The program for Thursday evening will include music by the High School orchestra and the Tropic School Glee club, and the class play, "Vice Versa." Members of the class include Miss Anna Frantz, Miss Gladys Goddard, Miss Marion Kennedy, Miss Irene Ward and Miss Bessie Wood; Masters Joseph Harrison, Robert Wood, Rutherford Wallace and Fred Hinters. Purple and gold have been selected as the class colors, while the class motto is Upward.

It will be a large and merry party of citizens of Tropic and Glendale and Los Angeles who will assemble at Knights of Pythias hall this evening and play cards for the benefit of the Tropic playgrounds.

The committee having this affair in charge has met with a most liberal and generous response from the merchants and business men of Tropic as well as the citizens generally, for all are interested in the municipal playgrounds.

Many are the friends of Mrs. Minnie M. Searle of 121 E. Ceritos street, Tropic, who are pleased to learn that this most estimable woman has entered the Times contest and will endeavor to assist Mrs. Searle, who is anxious to secure a piano for her daughter, Helen Searle, a student in

the Tropic grammar school. Helen is developing a marvelous musical talent and her mother is anxious to secure a piano so that her daughter may pursue more advantageously her musical education. Mrs. Searle realizes that if her friends assist her she may secure one of the many prizes that will enable her to exchange on a piano. All who are interested in this little woman and her talented daughter are urged to save all their coupons and give their subscriptions to her.

### MEMBERS INVITED

The Glendale Tuesday Afternoon club is invited to attend the Reciprocity day at Eagle Rock January 27, at 2:30 o'clock. A most interesting afternoon has been arranged for by Mr. and Mrs. Johnson, who for 19 years lived among the Hopi Indians. A large collection of rugs, pottery, baskets and other handicraft will be exhibited. Indian songs and stories will be presented in costume.

### COLUMBUS AVENUE P. T. A.

Columbus Avenue Parent-Teacher association will meet Thursday in the kindergarten room of the school at 2:45 p. m. Mrs. C. H. Ritchie of Burbank, district president of the California Congress of Mothers, will give a brief talk on the work of that organization. After that Mrs. C. W. Heilen will give a reading. Mrs. C. H. Toll will speak on "Children's Reading." This should be interesting to all mothers as Mrs. Toll has had wide experience in directing the reading of others. A social hour will follow and refreshments will be served.

### C. K. JUDY AS SPEAKER

A small though appreciative audience assembled in the High School auditorium Tuesday evening to hear Mr. C. K. Judy of Throop Polytechnic, Pasadena.

The affair was one of the many excellent attractions planned by and given under the auspices of the Tuesday Afternoon Club of Glendale.

Mr. Judy proved a pleasing and interesting talker and his hearers thoroughly enjoyed his address on the "Irish National Theater" movement and Irish writers, including Lady Gregory, Yates and Mines, reading as a final number a clever Irish playlet from the pen of Lady Gregory.

As this generous woman's club is trying to give the general public an interesting and instructive course of lectures and entertainments free of any admission cost the public might show their appreciation by turning out in larger numbers.

## 20% DISCOUNT

### VALLEY VIEW

Charlie Stetlor, who recently moved to Glendale from Santa Paula with his wife and two children and has been staying with his mother at 1611 West Colorado, has bought the property at 1504 Ivy of H. C. Bishop who in turn bought the Dodd place across the street.

Hugh James, P. E. motorman, who moved several months ago to Redondo and later to Balboa, was drowned out at the latter place, his home being washed away. He has returned to live for the present in his house at 1555 Penn St. He says it will be many weeks before the Santa Ana line of the P. E. can be put in running shape and that the Huntington Beach-Newport line may never be repaired. The Santa Ana river tore a channel 1500 feet wide and 50 to 100 feet deep through the bluff into the ocean, a short distance east of Huntington Beach during the recent storm, washing away hundreds of feet of track for the P. E. and S. P. and the new channel will be difficult to bridge.

James Stark of Augusta, Illinois, was a recent visitor to Mrs. J. R. Stark, his cousin by marriage, who lives at 457 Pacific avenue.

Mrs. M. V. Winters of Lake Forest, Ill., who, with her two daughters has been living in J. C. May's house at 1571 Penn St., was taken to a Los Angeles hospital Monday seriously ill.

Guy Pixley of 509 Columbus, who delivers goods for Kilborn & Peters, stepped on a rusty nail last Friday morning and has been suffering considerably.

J. B. Work of 1538 Hawthorne is qualifying for a P. E. conductor.

### M. E. LADIES' AID

The regular meeting of the Ladies' Aid of the First Methodist Episcopal church will be held Thursday at 2 p. m. in the church hall, Third and Dayton. An unusually large attendance is desired as this is the meeting at which we try our new plan. Come and see how it works. Mrs. Henry Johnston has charge. An excellent program of vocal and instrumental music and choice readings will be given under the direction of Miss Olive Marsh. Don't miss this. It will be a good social afternoon for all.  
Mrs. P. E. Laichinger, Sec.

### COTTAGE PRAYER MEETINGS

The prayer groups held in connection with the pre-communion services of the Glendale Presbyterian church will meet Thursday afternoon at 2:30 in the following homes: Mrs. M. E. Luce, 326 N. Maryland Ave.; Mrs. F. A. Field, 239 S. Kenwood St.; Mrs. J. N. McCurdy, 1710 Fair Oaks Ave.; Mrs. Elias Ayers, 231 Cedar St.; Mrs. J. J. Davis, 900 Damasco Court.

### THE DEATH VALLEY DODGE

Through an arrangement made by Geo. A. Montgomery it is now possible to see in Glendale the nationally celebrated "Death Valley Dodge." This unusual car has battled its way through every noted desert of the Southwest, has climbed inconceivable steep mountains and holds the unique double record of having been driven from sea level to the highest point ever reached by automobile on the Pacific Coast. It has conquered all sorts of obstructions, defying the laws of equilibrium and gravitation.

In these motion pictures you will see a car actually turning corners on two wheels with passengers in its tonneau, racing the "Owl" a mile a minute, tearing up 35 per cent grades with ease and speed, fighting its way through an inconceivably rough country where there are no roads, and climbing difficultly in doing what "Death Valley Dodge" actually does before your eyes. It flashes its way through greasewood, yucca and cactus growing to twice the height of the car, conclusively showing to what extreme limits of strength the master builders of this latest motor product have been able to install into a motor car.

These unusual pictures will be shown at the High School Auditorium of this city on Saturday, Jan. 29. You can get free tickets by calling on G. A. Montgomery, the local Dodge Brothers Dealer.

### WISHING

Ring-ting! I wish I were a Primrose,  
A bright yellow Primrose blowing in the spring!  
The stooping bough above me,  
The wandering bee to love me,  
The fern and moss to creep across,  
And the Elm tree for our king!  
Nay—nay! I wish I were an Elm tree,  
A great lofty Elm tree with green leaves gay!  
The winds would set them dancing,  
The sun and moonshine glance in,  
The birds would house among the boughs,  
And sweetly sing.  
Well! Well! Where should I fly to,  
Where go to sleep in the dark wood or dell?  
Before a day was over,  
Home goes the rover,  
For mother's kiss—sweeter this  
Than any other thing!

### CRUELTY TO FOOD ANIMALS

It would surely take away some of the pleasure that attends the various feasts that are dear to the hearts of so many modern men and women and of which so much is usually made in public print if the feasters were to know that the turkeys and chickens which they eat with so much gusto were plucked while they were yet alive. It is inconceivable that people with any pretension to refinement could be content to gratify their appetites with the flesh of animals that had been put to death with torture. Yet the story has been told over and over again that an enormous number of Thanksgiving and Christmas food fowls are annually plucked live.

Modern economic conditions make the people who kill these animals want to make plucking easy so as to save time and thus to save money. It is easier to pluck a chicken while the flesh is warm; much easier than when the flesh is cold. The average butcher handles the animals he buys alive with as little consideration as the carpenter handles his raw lumber. Those who purchase fowls like to see the heads on, so a certain spot in the mouth is cut with the knife to cut off consciousness. The knife as may be supposed as often misses its mark as hits it.

There is in this a retribution as in all things that are wrong. Animals killed in such a manner as to cause great suffering develop ptomaines in their flesh that are as likely as not to poison the people who eat them.

There seems to be necessity for a strong humane society that should be semi-officially supported and receive strong financial backing from the public. Such a society endowed with adequate authority enforced by intelligent officials would do a great deal to put an end to conditions that must be revolting to people of humane instincts. The public should give its support to all societies that are working to mitigate the sufferings of animals.

### APPLE JAM

Pare and core the quantity of apples required. Use one pound of sugar to each pound of pared fruit; put a little water to the apples to prevent their burning in the pan. Stir them, constantly during cooking. Use one lemon to two pounds of fruit. Grate the lemon peel to the apples and then squeeze in the lemon juice. "Normanton Wonder" apples are excellent for jam.

No. 31342

### NOTICE OF HEARING OF PETITION FOR PROBATE OF WILL

In the Superior Court of the State of California, in and for the County of Los Angeles.

In the Matter of the Estate of William Lee, Deceased.

Notice is hereby given that the petition of W. W. Lee and Ed. M. Lee for the Probate of Will of William Lee, Deceased, and for the issuance of Letters Testamentary thereon to W. W. Lee and Ed. M. Lee will be heard at 2 o'clock p. m., on the 9th day of February, 1916, at the Court Room of Department 2 of the Superior Court of Los Angeles County, California.

Dated January 22, 1916.

H. J. LELANDE, Clerk.

By H. H. DOYLE, Deputy Clerk.  
CHARLES L. EVANS, 1209-10-11 Haas Building, Los Angeles, California, Attorney for Petitioners.  
130t11

### A CLEVER TOY CROQUET SET

Marion Smith, 12 years old, of Cleveland, Ohio, has made a table croquet set which won a prize offered by the Cleveland Plain Dealer for its toy contest. Marion Smith herself tells how she made this entertaining toy:

"I made a toy croquet set out of some pieces of wire, a few spools and button molds, and a few nails. The croquet mallets were made of spools with nails driven into them to form handles. I made the stakes by driving nails into button molds so that they stood upright. For the wickets I used wire bent to form arches and inserted it in the sawed off heads of spools. The holes in the spools were filled with beeswax to keep the wire from slipping out. I used marbles for croquet balls. I bought five cents worth of wire and two cents worth of nails. I had the button molds and spools, so this croquet set cost me seven cents.

### VALUE OF HAND WORK

H. Weil of the Home Dye Works, 478 W. Broadway, says that Glendale people do not seem to realize the difference between hand work and cheap machine work. Now that the price of naphtha has gone up five cents a gallon the cut rate dyers and cleaners are greatly affected. Mr. Weil does all his work by hand. Mr. Weil stated that the telegraphic service in the Glendale News was much more reliable than city papers.

### RIBBONS

Ribbons are plain, dotted, striped, brocaded, potted, flowered, futurist, Dresden, tinseld, metallic, tissue; in short, everything that the loom can possibly produce, says the Philadelphia North American.

They trim hats, frocks, suits, lingerie, neckwear, line coats and make evening wraps bouffant by forming stiff ruffles at the bottom.

They make whole dresses, blouses, trains on evening gowns, brassieres, girle bodices on dance frocks, bouidior caps, hat crowns, scarfs, sports coats and anything else you wish.

Choose a ribbon first this season before consulting the silk counter, remembering the revised axiom that a ribbon is the shortest distance between style and ingenuity.

### WEALTH FOR ALL

"Wealth For All—Dollars for Boys and Girls." Such is the title of the stereopticon address to be given by Professor Schufeldt of Los Angeles on Thursday evening, February 3, at 8 o'clock, at the Glendale High School auditorium. You will be amazed at the beautiful pictures he will show; you will be amazed to learn through his talk and pictures how much money school boys and school girls of Los Angeles have earned by cultivating their back yards or the next door vacant lot. It will be an eye opener to many to know how much money can be saved in the household by a few minutes devoted daily to the garden. It will make the mouths of boys and girls water with envy to hear how much pocket money young people have made by doing a little planting, a little cultivating, and using that portion of the brain too often sadly neglected. Professor Schufeldt is giving this lecture under the auspices of the Glendale Garden Society. Admission free to all. Thursday, Feb. 3, at 8 o'clock sharp.

### A NEW GUILD

To provide for the growing social activities of St. Mark's church and to be of direct assistance to the rector, a Rector's Guild was formed on last Monday. The first meeting was held at the home of Mrs. Bosserman on Central avenue and the plan and purpose of the organization was discussed by Dr. C. Irving Mills. It is very gratifying to all interested in St. Mark's church to know that it has reached a point in its growth where such a guild will be of real service. A feeling of hospitality and friendship is so necessary in these days when so many strangers tarry within our gates and it is to them as well as to the older members of the church that the Rector's Guild wish to hold out their hands in welcome. The usual formalities of organizing were disposed of at the meeting and the following officers were elected: Mrs. C. Irving Mills, honorary president; Mrs. L. W. Bosserman, acting president; Mrs. N. J. Pierce, vice president; Mrs. W. E. Hewitt, treasurer; Mrs. J. S. Hayward, secretary. The meetings will be held at the homes of the different members on the first Monday of each month.

The owner of the Fashion Ship Is very low with gripper,  
The cashier has bronchitis,  
The buyer has a nip  
Of plain old influenza, while  
The salesgirl has the pip;  
The model's mighty busy with  
A very active nose,  
And yet the window's full of hats  
Of straw, and Springtime clothes.
