

GLENDALE'S INDUSTRIES

THE NEW DIRECTORY GIVES AMAZING FIGURES SHOWING CITY'S PROSPERITY

In Glendale today are seven architects, one artificial stone manufactory, two art shops, 37 apartment houses (all occupied), 24 dealers in auto accessories, 10 auto agencies selling 15 different cars, 22 auto supply stations, three auto service companies, three bicycle agencies, six bakeries, five banks, eight barber shops, three blacksmith shops, three book and stationery stores, three wholesale dealers in butter and eggs, one sash and door manufactory also doing all kinds of finest cabinet work, one candy manufactory, eight cigar stands, three cleaning, dyeing and pressing establishments, one commercial school, three confectioneries, 61 contractors in various lines such as building, painting, paving, brick laying, plastering, etc., two dairies, seven dentists, six dry goods stores, five drug stores, two electrical shops, three electric railway companies, three feed and fuel houses, three floral establishments, six fruit stores, three furniture stores, 11 garages, four general repair shops, three goat ranches, 32 grocery stores, one toilet parlor, four hardware stores, one ice manufactory and cold storage plant, one harness shop, two hospitals, one implement company, four jewelry stores, one steam laundry, one livery stable, four lumber yards, nine meat markets, one collection agency, three millinery stores, one movie studio, two music houses, one daily, three weekly newspapers, one optical office, two packing houses, six photographers, 25 physicians, one pigeon farm, five planing mills, two contracting plumbers, four postoffice stations, 21 poultry yards and ranches, three job printing offices, one razor grinding establishment, 37 real estate agents, six restaurants, cafes and lunch rooms, five sanitariums, two sheet metal works, four shoe stores, three completely equipped public shoe repair shops, one soft drink manufactory, one auto electric company, one merchant tailor, 15 teachers of voice, piano, violin, etc., one theatre, six transfer companies, two storage companies, three undertaking establishments, two veterinary surgeons, one wall paper house. These are but a few of the thousands of interesting facts to be gleaned from the 1919 directory. A copy should be in every business house and every home where there are school children.

HAPPILY SURPRISED

Rev. Julius Soper and wife were overjoyed Saturday last to welcome for a brief visit their distinguished son, Prof. Edmund D. Soper, of Madison, N. J., where he is an instructor in Drew Theological Seminary. Prof. Soper had just returned, with four companions, from a six-months' tour of the Orient to investigate missionary prospects in view of the great centenary movement of the Methodist churches of America, for which they are to raise \$80,000,000. The party visited Japan, China and Korea and made a searching investigation of conditions. Prof. Soper was given a six months' vacation especially for this purpose. On Sunday morning he gave an address in the Casa Verdugo Methodist Church in which he gave an illuminating explanation of the critical relations of China and Japan, from both sides of the question. He departed for his home on Monday.

KNOX BUILDING SOLD

GROSE VULCANIZING COMPANY TO VACATE AND BUILD AT MARYLAND AND BROADWAY

A little cloud of dust and the sound of falling plaster advertised the fact that things were doing in the Knox Building at 217 East Broadway Monday. Inquiry revealed that the new owner, J. L. Whaley, who has been conducting a storage battery and ignition works at Figueroa and Eleventh streets, Los Angeles, is transferring his business to this city and remodeling the Knox stores to fit his needs.

J. L. Grose stated that he had paid his last installment of rent and would soon be moving to a temporary oil station he is to occupy on a lot which he has purchased at the Northeast corner of Broadway and Maryland on which he will build a substantial store and tire shop which he expects will be ready for occupancy about the first of May. The lot bought by Mr. Grose was purchased from Mattison B. Jones.

SLY ELKS FINANCE SALVATION ARMY LASSES

Do you know that behind many a Salvation Army lass who peddled doughnuts to dough boys without stint and without price in the front line trenches in the war zone, there stood an invisible big brother in the person of an Elk? The lass herself may not have known it for this close-mouthed order of philanthropists is used to doing things on the quiet, and few heard of the funds they raised to finance these soldiers of the Cross who were not afraid of bullets and who did not hang back for big salaries. By order of the Grand Lodge the Elks are now participating in the annual drive which the Salvation Army is now conducting after having made good in war.

WAR RELICS

ED KRACHEY'S \$500 COLLECTION ON DISPLAY IN WINDOWS OF CORNWELL & KELTY

Edward Krachey, who has a fine collection of war souvenirs which he was fortunate enough to be permitted to bring back, has placed them on display in the window of Cornwell & Kelty, where they attract much attention. It is said he has been offered \$500 for the lot, and it is certainly interesting as most of the articles are from German army equipment. The collection includes a diary taken from a German prisoner, a cartridge belt for a machine gun and the metal case in which it is carried, a German gas mask, a medium-sized officer's lugger pistol and case. There is also a big German rifle and shells used as ammunition. A camouflaged German helmet is also included, a German identification tag and German mess kit, pocket-book and canteen, also a French canteen, a well-worn German shovel with club handle, and a heavy German army belt with a metal buckle bearing the inscription, "Gott Mit Uns." The window also contains gas mask and helmet used by Jesse Flowers, and a gas alarm machine brought back by Clarence Edwards.

FAMILY DINNER PARTY

MR. AND MRS. JOSEPH FORTUNATO CELEBRATE FOURTEENTH WEDDING ANNIVERSARY

Mr. and Mrs. J. Fortunato of Chestnut street celebrated their fourteenth wedding anniversary with a family dinner party, the invited guests enjoying the sumptuous repast at a beautifully appointed table. Covers were laid for Mr. and Mrs. C. F. Morton and daughter Ruth, of North Isabel street; Mrs. Mary Graetz, of Chestnut street, and the host and hostess.

ODD FELLOWS ARE MOVING

This is moving day with the Odd Fellows, and they expect to be completely established in their new home tomorrow. It is the old Elks' Hall, in the Central Building, and has been completely refurnished and redecorated. The pool tables were moved yesterday into the game room, which is up-to-date in every particular. The Odd Fellows are mighty proud of their new home. It will be dedicated tomorrow evening, when the initiation services will be held. The district deputy, with his great drill team, will look after this part of the work. There will be fine music and appetizing refreshments. The boys are mightily pleased at getting settled in their beautiful new home, which is so conveniently located.

A BADGE OF HONOR

Dr. A. M. Duncan of San Fernando Road has been given the right to wear the insignia of the Volunteer Medical Service. It is a very attractive badge of silver, heart-shaped, the notch of the heart closed with the letters V. M. S. C., outspread wings making a background for the medical staff twined with two serpents.

Soon after the entrance of the United States into the war he volunteered his services in connection with the work of the American Army Nurses' School in Washington. His application was accepted and his badge was forwarded to him, but the war ended before he was called upon for service. He nevertheless treasures it as a war souvenir and proof that he was ready to do his part in the service of his country.

WEATHER FORECAST—Fair tonight and Thursday. Light to heavy frosts Thursday morning.

PRESIDENT LEAVES FOR FRANCE

EXPECTS TO REMAIN AWAY UNTIL PEACE IS SIGNED IN MAY OR JUNE—NO DEMONSTRATION AT DEPARTURE

(Special Service to Glendale Evening News)

New York, March 5.—The finer George Washington, carrying President Wilson to France, passed outside of Sandy Hook into the open sea at 9:45 o'clock this morning.

New York seemed asleep when the presidential transport left the pier flying the presidential flag. No boisterous cheering marked the departure. Few watchers apparently recognized the George Washington as it passed down the bay. When the liner reached quarantine, however, waiting steamers broke out in salute and warships in the harbor boomed twenty-one guns in honor of the President. The presidential salute was repeated when the transport passed the harbor fort, and there was a bedlam of noise. Sailors swarmed the rigging of the warships and cheered and waved their hats, while spectators shouted their farewells.

The President breakfasted early and was on deck during the trip down the bay. Before leaving he declared he is confident that the people are behind the League of Nations.

The President expects to reach Brest not later than March 15 and will stay in France until a treaty of peace is signed, probably in May or June.

The President was noticeably tired when he left, but Admiral Grayson said his physical condition is fine and that a few days at sea will afford him complete rest.

CONCILIATION EFFORTS FAIL IN NEW YORK

ESTIMATED THAT NINETY PER CENT OF THE HARBOR WORKERS ARE NOW ON STRIKE

(Special Service to Glendale Evening News)

New York, March 5.—Efforts of the Federal Conciliation Commission failed to settle the New York harbor strike.

Union leaders estimated that 90 per cent of the harbor workers are now out.

DEMANDS OF GERMAN RADICALS

INCLUDE IMMEDIATE TRIAL OF HOHENZOLLERN FAMILY AND ALL OFFICIALS RESPONSIBLE FOR WAR

(Special Service to Glendale Evening News)

Berlin, March 5.—Revolutionary radicals last night presented the government with the following schedule of demands:

Immediate trial of the Hohenzollern family, Ludendorf, Hindenburg and Admiral Von Tirpitz before a people's tribunal.

Immediate release of all political prisoners.

Dismissal of volunteer regiments and the organization of a Red Guard.

Establishment of a political and commercial alliance with the Russian soviet.

The government has started the mobilization of a Republican guard and regular troops, although the Spartacides had claimed that government forces had joined the revolt. The radicals also declared the entire country is organized and ready to join the new revolt.

TWO LITTLE MEXICAN BOYS MURDERED

CRIME BELIEVED TO HAVE BEEN COMMITTED BY MAN IN CUSTODY, INSPIRED BY JEALOUSY

(Special Service to Glendale Evening News)

Los Angeles, March 5.—Pedro Martinez, aged nine, and Jose Garcia, aged four, were found murdered early today in the room of Atanacio Araujo in the Martinez home. The mother of the Martinez boy found the bodies.

Araujo was arrested and is said to have admitted the ownership of the revolver with which the boys had been shot to death. The police are seeking another man, whose name is not known, but whose description they have, it is said. Jealousy is believed to have been the motive.

JAPAN AND CHINA DISAGREE

THEIR REPRESENTATIVES PRAISE LEAGUE OF NATIONS IDEA, BUT DENOUNCE RIVAL ASPIRATIONS

(Special Service to Glendale Evening News)

New York, March 5.—Japanese and Chinese representatives today issued separate statements endorsing the League of Nations as a means of settling national problems, but taking issue with the aspirations of the two powers.

In the statement China reasserts her claim to Kaio Chau and denounces the Japanese demands on China, charging that Japan, in 1914 and again in 1915, prevented China from entering the war.

The Japanese statement warmly praises the League of Nations idea and expresses confidence that China will recognize Japan's "just and legitimate aspirations."

ROLPH CALLS FOR EXTRA SESSION

Washington, March 5.—Mayor Rolph of San Francisco introduced a resolution today at the unemployment conference of mayors and governors, demanding that the President call an extra session of Congress immediately. It is expected to result in a political fight when it comes up for consideration.

GLENDALE A CHECKERBOARD, MOVES BLOCKED

The scarcity of houses in Glendale has brought about a condition very like a blocked game of checkers where no change can be made until a move takes place which liberates other pieces. An illustration is furnished in the case of Mr. Peck, the jeweler, who has exchanged his house on Vine street for one on Louise near his place of business; He cannot vacate at Vine street until he can get possession of his new house. His tenant there cannot move until he can get a chance to occupy the house now held by a family which will move to Long Beach, when it can find a satisfactory residence there. With such congestion it is fortunate that everybody is patient and good-natured.

BRIDEGROOM DETAINED

JOHN McBRATNEY AND BRIDE UNABLE TO GET ACROSS THE OCEAN WHEN READY

According to information furnished by his friend, William Moore, John McBratney, founder of the Irish Linen Store, and his Irish bride, landed in New York Monday. They will spend three days there, a couple of days in Chicago and then come on to Southern California to their home in Monrovia. Mr. McBratney was detained in Ireland about two months because he was unable to secure passage. He writes that the war has materially changed conditions so far as the linen trade is concerned. Ireland was combed clean of linen stocks and he found more in New York which had apparently been hidden away in reserve, than he had been able to discover in the neighborhood of Belfast. Also, the Irish linen trade is organizing to capture the trade and is establishing agencies in New York which will make it unnecessary for buyers to go to Ireland. The remodeling of the Borthick Building to adapt its south store to use for the Irish Linen Store Mr. Moore is establishing, is progressing quite rapidly, but not so fast as Mr. Moore had hoped for he was planning to have an opening about this time.

From present indications it will be a very pretty store carrying in addition to linens, hosiery, fancy dress voiles, ribbons, and the kind of stock which attracted so much trade to the Irish Linen Store of old days while under his management. While Mr. McBratney will have no financial interest in the enterprise, the stores of the two men will be affiliated and they will do their buying together, which will be to their mutual interest. Mr. McBratney reports that it will be a year and a half or two years before there will be an adequate supply of Irish linens.

SPRING REVIVAL

REMODELING AT WEBB'S DRY GOODS STORE WHERE THE MOTTO IS "SERVICE"

Responding to the spring revival in business as well as in nature, Webb's Dry Goods Store is erecting a new awning on the Brand boulevard front and changing the background of the show windows with a coating of French ivory paint, and decorations provided by Jacob Fink, the Glendale artist, who decorated the interior of the Palace Grand Theatre and of the Elks' Club House. New fixtures are being installed there and throughout the store, new forms for the display of novelties, new window valance and green velvet hangings, all of which promise a setting very pleasing to the eye. Harry S. Webb, the proprietor, is very enthusiastic over Glendale and its future and says he is determined to give it a thoroughly metropolitan store worthy a town of such enterprise. He has reorganized his force appointing a head for each department, has established a 30-day credit system and deliveries modeled after the policies of the big city stores, under which four deliveries can be made daily, and he is making "service" his motto. He says he aims to be ahead and not abreast of the times.

ADVANTAGEOUS CHANGE

Peck, the jeweler, is very much pleased with the business change he has recently made to 205 Broadway, where he has a more commodious store and a large nice workroom. Also he is looking forward to the comfort of living near his business as he has recently traded property on Vine street for a house on Louise near Broadway, of which he hopes to soon have possession.

MAKING PROGRESS

GREATER GLENDALE DEVELOPMENT ASSN. CONSIDERS BETTERMENTS FOR COMMUNITY

Citizens from all parts of Greater Glendale are realizing the importance of maintaining a local organization that is ready at all times to work for bettering the conditions of the community, and many new members are being added to the Greater Glendale Development Association.

Tuesday evening's meeting was largely attended. President Norton C. Wells presided and in the absence of Secretary C. D. Lushy, his duties were performed by Glen Ely who is the Assistant Secretary.

The first order of business was the consideration of an industrial district. This question was opened by R. L. Kent, chairman of the committee. Mr. Kent had just returned from a meeting of the Los Angeles Chamber of Commerce and was brim full of enthusiasm for industrial projects. He advised citizens of Glendale to purchase Glendale-made products from the retail dealers. Glendale-made cookies, Glendale-made ginger ale, Glendale-made bread and Glendale-made everything should be kept in stock by all merchants in preference to similar articles manufactured elsewhere. Mr. Kent predicts that the next ten years will be a period of great prosperity for Southern California. Men with money are coming from the East to invest in manufacturing industries, and Glendale should be ready to get her share.

A report from Mr. Wells on the condition of the delivery of mails by carriers in the Tropic district indicated that the service had improved since Postmaster Brown's visit to Glendale a week ago. Other reports showed that no promise had been made to give better service in the delivery of mail at the postoffice and that only one window had been open to serve the patrons. It was ordered that the question of having more than one window open be taken with the proper post officials at Washington, D. C., as Postmaster Brown seems unable to handle it.

A motion made by Roy L. Kent prevailed, that a banquet be held under the auspices of the Greater Glendale Development Association, and that a man of talent be secured to speak on the benefits to a community of industrial plants. The chair announced that a banquet date will be named later.

Next came the very important question of a Memorial Park. Richardson D. White, chairman of the committee, gave a very exhaustive report. Mr. White said the committee had aimed to take up four functions, first, to consider the city's bonding capacity; second the kind and cost of improvements; third, the cost of the site; fourth, legal procedure. The secretary of the committee sent out letters to fifty-two organizations asking them to have two representatives each at a meeting that will be held Monday evening, March 10. He said at this meeting it will be decided whether it is best to proceed further with the park proposition. It was learned that the city's bonding capacity is sufficient to allow the issuing of bonds for establishing a park. A rough estimate of the cost of the improvements was reported at \$65,000. The cost of the site has not yet been secured sufficiently exact to be reported at this meeting. Mr. White reported that the committee favors for park purposes the entire Sanitarium block and all of the block west of the Sanitarium except that portion occupied by the Metho-

GLENDALE, CALIFORNIA, WEDNESDAY, MARCH 5, 1919

HISTORY AS SHE IS MADE

Mr. A. L. Lawshe, of this city, who was in public life for many years, could write some mighty interesting inside history of many important events happening during his incumbency. As Auditor of Public Accounts he met and became acquainted with every higher officer of the army from Brigadier General to General and as Third Assistant Postmaster General he came into personal contact with nearly every congressman or senator, especially when, as frequently happened, he was Postmaster General-in-Chief, for then he had to pass on appointments of new postmasters. He was in Cuba as investigator of the great postal frauds there and later assisted to establish a permanent postal system for the island. He had under him several Cuban officers and they one and all seemed very insistent on the United States getting out of the island and letting them run things to suit themselves. Finally he asked a young Major the reason for this insistence. "Isn't the United States doing the work well? Are we not establishing a stable government, ending strife and bringing tranquility everywhere as well as speeding up business? Then why do you want us to get out?" "I'll tell you," said the Major, "we owe a big debt of gratitude to your country and we appreciate your work in getting us on our feet, but we want to get things into our own hands so we can negotiate a loan and pay the back salary of all our officers and soldiers." And they kept on nagging and nagging until the U. S. did leave them to their devices and the first thing the new assembly did was to negotiate the loan and divide the money among the fighters.

NO NEED TO WALK

With nine exclusive automobile agencies, representing fifteen different makes of cars, Glendale certainly is in no immediate danger of an auto famine. The very fact that all these agencies prosper and that new ones are being added shows that Glendale is coming to prosperous times. An automobile is no longer a luxury, but an absolute necessity in most cases, and is an invaluable business and family asset.

THREE GREAT ASSETS

Southern California has gained three great assets as a result of the war. These are the great ship building plants at San Pedro, Wilmington and Terminal Island, the aviation field near Riverside, and the marine base at San Diego. The latter is ordered, but yet to be established. The sum of \$5,000,000 has been voted for the construction of necessary buildings and equipment. These great projects, now to be permanent, will add greatly to the popularity and prosperity of Southern California.

LEX TALIONIS

A writer in one of the national weeklies, who is in Europe observing conditions, more especially in the devastated countries, notes a practice of the Belgians which will certainly meet the approval of all the Allied Nations. He says that Belgians in cities occupied by the Germans kept copies of all the obnoxious and degrading orders issued by the governor generals during the entire four years of cruel oppression. Then, when their soldiers, after the signing of the armistice, were detailed to occupy certain German cities, they carefully reproduced, word for word, these orders, and forced compliance with them by the inhabitants. And who is there that will not applaud this bit of retributive justice?

FILIBUSTERS NOT NEW

The filibuster at the close of the late historic session of the Senate is strongly condemned by many and excused or justified by others. It prevented the passage of several bills of vital importance to the Nation and blocked the confirmation of many important appointments, one of them that of A. Mitchell Palmer to succeed Attorney General Gregory, resigned. A few (not more than half a dozen) Republican Senators were responsible for the filibuster, and they did it to force the calling, immediately, by the President, of a special session of Congress, claiming that so important a measure as the League of Nations demanded exhaustive investigation and discussion. The President is very much disappointed at the failure to endorse the League idea, and blames opponents of the measure, especially the filibusterers, very severely. They, on the other hand, claim they resent the autocratic dictation to Congress by the President and aim to enforce in him a more conciliatory spirit. But the country will judge them, as the President truly says. However, the country's judgment does not always effect a reform, as witness the ever-recurring "pork bills" with their shameful squandering of public money to enrich small communities. The people, by a large majority, condemn these measures, yet they are always passed.

This is not the only filibuster in the history of Congress, however. William Jennings Bryan engineered one of them in the early nineties, speaking fourteen hours at a stretch. This was in the House, not in the Senate. In other notable filibusters there are records of speeches by Legislators occupying nine hours, thirteen hours, twenty-three hours and even forty-six hours. It is a practice that ought to be done away with, yet Congress refuses to do so.

THEY HAVE THEIR TROUBLES

Real estate dealers are a persistent set of fellows and mighty hard to get rid of when they set their minds on selling you a piece of property, but they have their annoyances, just like the rest of us. Here is a case in point. A lady listed a three-acre tract with an agent, claiming it to be good land and with comfortable buildings. A prospective renter sent out to view it came back disgusted, saying it had been so cut to pieces by flood waters that nothing could be raised on it. When reproached by the agent for his deceit, the lady burst into tears and, acknowledging the charge, begged the agent to rent the place for her at any price, even \$5 or \$6. The next day a man using a great many horses came to the agent seeking a place to turn out the animals, a part at a time for rest. He was told of this tract, went out to see it, and offered to lease it for three years, at \$200 a year. Jubilantly the agent reported his success to the lady and was calmly informed that she had decided not to lease it for less than \$20 a month. "Can you beat it?"

STILL PRODDING H. C. L.

The California Legislature is probing into food costs, stirred by the appeals of thousands of housewives. There are some inequalities that are very suspicious. For instance, while butter has recently soared almost to the recent high mark of 70c per pound, evaporated milk has declined 75c a case and cheese several cents a pound. These are wholesale prices. Bread is retailing from 10c to 13c a 24-ounce loaf and bakers announce a raise in price very probable in the near future.

MIRACULOUS ESCAPE

General Secretary Byrne of the Knights of Columbus at the army balloon school, had what he considers a miraculous escape from death recently as he was returning to his home in Monrovia from Los Angeles. His machine was struck by a heavy parlor car of the Pacific Electric at the first crossing the other side of Oneonta Park. The automobile was practically demolished and the parlor car was considerably damaged. The windshield glass was shattered, the hood and fenders crumpled and the machine so badly used up that an entirely new body will have to be put on the chassis.

Mr. Byrne escaped without even a scratch, in spite of the flying glass. The accident happened about 4:30 p. m. One car had just passed him, said Mr. Byrne, and he did not hear or see the parlor car coming from the opposite direction until it was too late.

LARGE STEAM TRACTOR USED AS POWER PLANT

When the power plant of the Pierre, S. D., waterworks was destroyed by fire some months ago a large steam tractor was assigned the task of operating the pump, says the March Popular Mechanics Magazine. The latter forced water through a 10-inch main, against a 290-foot head, to a reservoir nearly two miles distant. The tractor had seen three reasonably busy years of service before being put to the test of supplying citizens of Pierre with water by working twenty-four hours a day, seven days of the week.

Personals
 Mrs. George Rogers, of Montreal, is visiting her sister, Mrs. Cowan, and niece, Mrs. Parker, at 220 West Chestnut street. Mrs. Rogers is delighted with Southern California and will remain here for several months.

The Colorado P.-T. A. will hold their annual "Fathers' Night," Thursday, March 6th, at 7:30. A patriotic program has been arranged and Rev. E. H. Willisford will be the speaker of the evening. It is hoped a good audience will be present. Refreshments.

Mrs. W. W. Dexter, of 1502 Rock Glen avenue, has returned after a six weeks' stay in Marysville, in the Sacramento Valley, where she reports it is "wet, wet, wet." Heavy rainfalls have flooded the rivers and occasioned a large amount of damage.

Mattison B. Jones, who has gone to Ventura in connection with litigation involving oil leases, was the speaker Tuesday evening at a gathering of Ventura Masons. Today he is to make an address before the Rotary Club of that city.

Honoring Miss Christina Ferriss, who is soon leaving with her mother, Mrs. D. E. Johnston, for a new home in Los Angeles, Mrs. Leonora Miller, of 114 West Broadway, entertained with a mid-day luncheon Tuesday. Pink sweet peas centered the table. Covers were laid for Miss Ferriss, Miss Martha Ray, Miss Marcella Miller and the hostess.

Lou G. Sherman, of 316 West Lexington, was brought home Sunday from the Good Samaritan hospital in Los Angeles, where he underwent an operation on his knee which is now in a plaster cast. When it is sufficiently healed to remove the cast he expects to find himself fully restored. He is doing nicely and hopes the period of waiting is not going to be long.

MAKING PROGRESS
 (Continued from Page 1)
 dist Church property. One of the main improvements would be the construction of a large auditorium a portion of which would serve as a Memorial to the soldiers who have been in service in the world war. Other important features of the park would be a gymnasium, a swimming pool and playgrounds. Mr. White's report was received with great enthusiasm.

The question of an auto camp for tourists came up for discussion. Mr. Wells agreed to improve a certain piece of ground making it suitable for an auto park providing other interested parties would pay the rent on the property. Chas. L. Chandler is the chairman of the Auto Camp Committee.

William Bode and his friend, Mr. Peppin, both of whom had served their country in France, were called upon. They both expressed their pleasure in being back in California after doing their part in accomplishing what Uncle Sam went to Europe to do.

SECRETARIES MEET
 Parliamentary instruction as to a secretary's duties and obligations was the lesson of the afternoon at a meeting of secretaries of the Glendale Federation of Parent-Teacher Associations held at the home of Mrs. Minette Sherman, 410 Vine street, Tuesday afternoon. The spirit of good fellowship which prevailed testified to the willingness of the women of this organization to do the things incumbent upon them and do them well. A rising vote of thanks was extended to Mrs. Sherman for her tutelage during the session. Tea was served by the hostess and her daughter Marjorie. Those present were: Mrs. A. A. Barton, president of the Federation; Mrs. John Robert White, Miss Eva Daniels, Mrs. Lydia Kulp, Mrs. F. W. Kille, Mrs. Clarence Crawford, Mrs. Mary J. Oliver, Mrs. L. P. Tronsier, Mrs. Minette Sherman.

MARY ALICE FERRY ENTERTAINS
 Miss Mary Alice Ferry was hostess Saturday afternoon at a class party at the home of her parents, Mr. and Mrs. Peter Ferry, 614 East Acacia avenue, when she entertained the members of the Seventh Grade of the Cerritos Avenue School to the number of about thirty. The young hostess had arranged games for her guests so there was not a dull moment during the afternoon. In a clever bird contest Dorothy Olmstead was awarded first prize while Paul Hall received the consolation. Lovely refreshments were served and the afternoon came to an end all too soon. The guests will remember this day as one of the bright spots in the history of their class.

UNITY CHAPTER, NO. 116, R. A. M.

COME OUT AND PRACTICE
 At the Community Sing which comes off Thursday evening Professor Kirchoffer will drill the chorus in the songs which are to be sung at the chorus contest March 20, about which Hollywood singers are much enthused. The judges will mark the choruses on phrasing, attack and shading. Glendale does not want to take a back seat and for that reason it is important that every singer who is interested in upholding the reputation of the city should come out at these practice sessions, March 6 and 13, to be prepared to do honor to the town on the 20th, when Hollywood will send her best thoroughly primed for the occasion.

THE BIRD CAME BACK
 It wasn't a case where the cat came back with the bird inside, either. The bird was a beautiful and tuneful singing canary which has been one of the great attractions of the Glendale Plant & Floral Company salesrooms. It escaped from its cage Tuesday morning but lingered in its own charming environment. Captain Jackson heard it singing its song of freedom and joy in the spring. They at once began a game of tag which ended at the Huntley Garage where it was incautious enough to enter and where the Captain, who is a skilled military tactician and knows all the methods of capture, presently had it in hand and restored it to its cage where it is now singing in contentment.

"19" STUDEBAKER A FINE CAR, SAYS EXPERIENCED BUYER
 Mr. H. M. Butts, proprietor of the Monarch Company, auto accessory dealer and vulcanizing works, of 121 South Brand boulevard, says he considers that the "19" Studebaker is the best value in the automobile market today.

Mr. Butts has been an automobile dealer himself and knows how to size up a car for value in every part. From among all the fine cars he chose the "19" Studebaker and after running it a week he is becoming more and more pleased with his choice. Mrs. Butts remarked that the rear seat of their new car was unusually comfortable. The whole family are enthusiastic about the easy riding qualities and beauty of the new 19 Studebaker Light Six. They find also that three can very comfortably ride in the front seat.

The Packer & White Auto Co. are worried about a shortage of cars. They congratulate Mr. Butts on getting his car so quickly after ordering it.

The Huns relied on mass formation and now they rely on mess formation.

IMPORTANT MEETING
 The Ministerial Association held an unusually interesting session this morning at the Lutheran Church. The subject of leading interest discussed was the coming series of lectures on Christian Fundamentals to be given in the High School auditorium on four consecutive Monday nights, beginning March 10. The lecturers and their subjects are as follows:

Dr. Silas Evans, president Occidental College, "Things That Endure;" Dr. W. F. Richardson, pastor Hollywood Christian Church, "The Christ for Today;" Dr. Charles Edward Locke, pastor First Methodist Church of Los Angeles, "The Christian Sabbath;" Dr. W. S. Dysinger, pastor of First Lutheran Church, Los Angeles, "Justification by Faith."
 Another important subject considered was the "Inter-Church World Movement." A representative meeting to forward this movement was held in Los Angeles Feb. 24 and 25, where addresses were made by such noted speakers as Dr. J. Campbell White and Fred B. Smith. Pastors Cole and Edmonds were appointed to confer with the Federated Brotherhood on co-operation in considering our community's interests in local and world enterprises.

FINE NEW QUARTERS
 "Everybody worked but father" at the new headquarters of the Glendale Phonograph & Piano Company in the Butler Building Tuesday afternoon. Vincent Salmacia was as busy with a wet rag and polishing cloth as though the major part of his service in the army had been K. P. work. Indoors Mrs. Salmacia was wielding a floor brush and dust cloth and the interior was assuming an orderly appearance. Because of the increased area it is a great improvement over their former location. Besides two excellent demonstration rooms they have a record booth which will enable them to carry every record in the catalogue, and more booths for the storage of sheet music of which they are planning to carry a full line. Just when they will have their formal opening will depend upon how fast the process of completing and installing their fixtures and decorations moves.

FIVE HUNDRED PARTY
 Mr. and Mrs. F. K. Myton were host and hostess at an informal but altogether delightful card party Saturday evening at which the following guests were entertained at their pleasant home at 510 North Maryland avenue: Mr. and Mrs. Frank Lindsay, Mr. and Mrs. Arthur Lindsay, Mr. and Mrs. Carl Gill, Mr. and Mrs. Douglas and daughter, Helen Douglas, Mr. and Mrs. Robert F. Cullen and Mr. and Mrs. Hill. Dainty refreshments were served at the close of play.

THEY TALKED OF FRANCE
 The literary section of the Tuesday Afternoon Club met with Mrs. Bartlett yesterday afternoon and discussed the "Social and Industrial Life of France." Papers were read on "Social and Industrial Life," by Mrs. Hill; on "France's Relation to the War," by Mrs. Williams; on "Cathedrals," by Mrs. Geo. Adams; on "The Origin of the Marseillaise," by Mrs. Rowe. All showed thorough preparation and were very interesting and instructive.

UNITED THEY STAND
 One of the happiest features of Glendale's church life is the warm spirit of cordiality prevailing among the pastors and congregations of the city. Not only do the pastors act as one man in every good cause, but they often join in union services, or give up services in their own churches to help a good cause in another. Certainly when such a spirit as this prevails the long-awaited for union of all Christ's people is not far off.

FALSE FIRE ALARM
 Some of the Glendale people were startled from their beds Monday evening by the rush of the fire department's engine west on Broadway and the clang of the alarm bells of the speeding fire apparatus driven by the engineer and the fire chief in Department auto. The watchers failed to discover on the horizon any evidence of fire and so did the members of the Fire Department who could find nothing to justify the call and no evidence as to who turned in the false alarm.

TO BAR OUT BEER
 Dr. Macklin, the Christian missionary who did so much for China by work in her hospitals for years, hospitals established by American churches, has been in Southern California for several weeks and may yet be heard in Glendale. He has been asked by the Prohibition organization of America to head a committee of three to go to China and line up that nation against the project of the American brewers to move their vast manufacturing plants to China, realizing that such a move would be a mighty blow against missionary success. Dr. Macklin is so loved and almost worshiped in many sections of the Celestial Empire that he was selected at the very first as the logical selection for chairman of this committee.

WANTS OF RED CROSS

SWEATERS, STOCKINGS, UNDERWEAR, SHAWLS FOR JUNE SHIPMENT TO REFUGEES

That Glendale Red Cross workers may know just what is expected of them in the way of production the following statement issued by Mrs. A. L. McLeish, director of the Bureau of Chapter Production, has been furnished to the Evening News for publication by the chairman of the Chapter:

At last our weary waiting for a definite message on production is over! We are asked by the War Council, which is our official authority, to produce just as many refugee garments and knitted articles as we can by the first of June.

We are sending to each Chapter from now on a production order to cover that period. If you choose to finish this order in four weeks' time you are at perfect liberty to close up your rooms then, as we shall ask nothing further of you, but you can take the full allotted period to complete it if you so choose. We must have all garments in by the 25th of May, so that we shall be able to turn over our records by June 1st, and write "Finis" to the work that has occupied an enormous part of the energies of the women of America for two years.

The garments will be of the simplest—chemises, nightgowns, petticoats, drawers, with a small amount of boys' blouse suits, pinafores, house gowns and skirts.

The refugee knitting is stockings of all sizes, from 5 1/2 inches to 9 1/2 inches, foot measurement; and of the heavy wool sweaters, mufflers and shawls.

There has been some misapprehension that those things are not needed.—misapprehension I think, caused by insufficient knowledge, based on a limited experience in one section of the allied countries, but I am confident that we women of production, who have shown ourselves from the beginning as truly soldiers as the men, taking orders, whether they were agreeable to us or not, giving constant sacrifice by doing work that we were not accustomed to, are not going to spoil our record at the end but are going to accept that the order for the termination of our work is to come not from the "isolated worker" nor from the "enthusiastic person who has just had a letter from a friend abroad who knows everything that is going on," but from the group of people that America chose to direct the management of the biggest relief society that the world has ever known.

NOTICE TO THE PUBLIC

At the general election of officers of Glendale Lodge No. 1289, B. P. O. E., I was elected to the office of secretary for the ensuing year. This position will necessitate my entire time and attention, therefore I shall, on or before the 15th of this present month, close my jewelry and watch repairing business that I have conducted for the past four years in what was formerly Tropico, but now Greater Glendale. All repairing now in my possession will be finished to be called for or delivered to the proper owner. No further repairing will be accepted after this date. Those who are indebted to me on account will please make arrangements to close the same at once. If desirous of further information, phone me at GLENDALE 7-J, my residence, or Glendale 1169, my business place.

Very respectfully,
W. E. HEALD.

WOMEN BUILDERS OF CIVILIZATION

The would-be wise man, who thinks he believes that woman should not vote, will kindly read the following extract from a great French historian and deep student:

"It is to woman, I think, that mankind owes all that has made us men. Burdened with the children and the baggage, she erected a permanent cover to shelter the little family. The nest for her brood was, perhaps, a ditch carpeted with moss. By the side of it she set up a pole with large leaves laid across, and when she thought of fastening three or four of these poles together by their tops, the hut was invented, the first interior. She laid the firebrand, with which she never parts, and the hut became illuminated, the hut was warmed, the hut sheltered a hearth.

"Notwithstanding the doctrine which holds sway at present, I maintain that woman was the creator of the primordial elements of civilization."

That quotation appears on page 48 of the second volume of Stuckenbergs' "Sociology: The Science of Human Society." This book is well worth your reading.

You can get it at your library, or, better still, buy it and own it—if you do not object to slightly "heavy" reading.

Whether you read Stuckenbergs or not, think for half an hour on the quotation that we publish here.

Has it ever occurred to you that woman, robbed of the right to vote, forbidden to help make the laws that govern her and her children, is really the builder of our civilization?

Woman was the first agriculturist—and she established the first home. She was the first inventor—she invented weaving. And we owe to her a knowledge of vegetable foods—the development of our grains from weeds.

Woman developed language, which in turn has developed man's mind.

She put all the children in the world and protected them after they got here—while the savage man was hunting his fellows or other animals or drowsing in the sun.

CLUB ACTIVITIES

MRS. JONES REPORTS FINE PROGRAM FOR DISTRICT FEDERATION IN APRIL

Arrangements for the printing of the programs for the spring meeting of the District Federation of Women's Clubs, which will take place at Hollywood April 7th, 8th and 9th, are keeping Mrs. Mattison B. Jones, president of the organization, very busy these days.

She reports that a very fine program has been prepared of which the keynote will be "The New Order." The word "reconstruction" does not fit the larger aspect of the theme which will have to do with the new internationalism and the spirit of tomorrow. As Mrs. Jones wisely says: "We want to look forward and not back. We have to think ahead or we never catch up in the march of progress. It is going to be a great undertaking and the sooner we begin to direct our minds in that channel, the better it will be when the time to act arrives. We are facing great problems."

It will be of interest to club women and others who have been active in patriotic work to know that the clubs of the district numbering 164 are being asked to report the work they did as organizations in the war, viz., what bonds were purchased with club funds, how large a proportion of their treasury funds went to the purchase of war savings certificates, what contributions they made as clubs to the Red Cross and Y. M. C. A., what club organizations were established for Red Cross or other war work. When these reports are assembled they will show just what the organizations of the district as clubs have done, apart from the work of individual members, and the statistics will be of value as well as interest. They will be published on the back of the program that all who attend may preserve them. A very large attendance is expected.

Mrs. Jones has also been made a member of the program committee for the State Federation Meeting which will be held at Coronado in May.

OLD DOMINGUEZ FIELD

How many know that the last battle fought in California during the Mexican war was at Dominguez, 12 miles south of Los Angeles, where the San Pedro line of the P. E. branches off from the Long Beach line and the latter is crossed by the S. P. This battle is graphically described in one of W. H. Thomes'

books, "Lewie and I." The Mexicans still held Los Angeles and some sailors from warships anchored in San Pedro harbor started out to capture the city. Many of the sailors, sad to say, were drunk, as were the officers. They were just rounding the hill at Dominguez, that hill on which the aviation field was located a few years ago when Archie Hoxie met his untimely end, when a Mexican force from Los Angeles, led by a navy young lieutenant and equipped with two light field pieces, met them. The sailors charged the guns, but a heavy discharge of grape from them, moved down the reckless men and the survivors retreated in confusion instead of rushing forward to capture the guns before they could be reloaded. Again and again was this folly repeated and at last a retreat to the ships was ordered. It was a barren victory for the Mexicans, however, for Los Angeles surrendered a few days later and the war was over, as far as California was concerned.

MUSIC SECTION

The Music Section of the Tuesday Club will meet at the home of Mrs. Chas. A. Parker, 220 West Chestnut street, on Friday of this week and will be devoted to Italian Opera.

Mrs. E. Nelson Higgins of Van Nuys, formerly of the Michigan Conservatory, of Detroit, Michigan, will play several violin numbers. Mrs. Mabel Capell will sing an Italian Aria. Piano numbers will be given by Mrs. Hagood and Mrs. Wade, of Ottawa. A paper on Italian Opera will be read by Mrs. Castle.

HARD TIMES PARTY

The Hard Times Party given at the Keller Studio Tuesday evening by the Columbus Club was a tremendous success from a social viewpoint as well as from the practical outlook of finances. It was largely attended and the costumes were ingenious and diverting. They represented all periods of old-fashioned attire and all shades of poverty, some of the garments most conspicuously displayed being fairly dilapidated. J. H. Melish, chairman of the committee of arrangements, awarded the first present for a lady's hard times costume to Mrs. H. M. Doll, the second present going to Miss Mary Alice Ferry. J. G. Monahan carried off the first gentleman's favor, Charles Rudell securing second. No report has been made in regard to the money taken in but it was a goodly sum and will find plenty of uses in the treasury of the Club which is made up of members of the K. C. Chapter.
