

# Russia's war on Ukraine | Civil Protection Response

### Civil Protection and Humanitarian Aid response

Ukraine requested support from the EU Civil Protection Mechanism (UCPM) in order to respond to the needs of the population affected by the war. As of 20 April, more than 4.8 million people have already fled Ukraine to EU while the internally displaced people are estimated to be 7.1 million.

All EU Member States and 2 Participating States have offered more than 173 million items including shelter items (beds, tents, blankets, etc.), fire fighting equipment, personal protective equipment, vehicles, medicines, and other medical supplies. Three UCPM logistics hubs are operating in Poland, Romania and Slovakia to facilitate the delivery of assistance to Ukraine.

Poland, Slovakia, Moldova and the Czech Republic have also activated the UCPM in order to manage the influx of refugees. Furthermore, North Macedonia has activated the UCPM to support repatriation of its citizens.

Under humanitarian assistance the EU provides EUR 143 million in response to the crisis with EUR 130 million for Ukraine and 13 million EUR for Moldova.

As of 20 April 12:00 CET
