This melon will not fail to please you. See Description on Page 8

NEW ORANGE NECTARINE MUSKMELON

Chinese Elm *Ulmus Pumile*

Illustration on First Cover Page

PLANT TREES THAT YOU, YOURSELF, CAN ENJOY

A million homes were built last year. Each one of them and others, want beautiful shade trees as soon as possible. You need not wait 15 to 20 yrs.

CHINESE ELM

The Greatest Shade Tree in America.

LUXURIOUS SHADE IN FIVE YEARS

It succeeds in all parts of the U S., including the semi-arid regions; makes a fine showing even under neglect and on poor ground. Is the first to put out leaves in Spring and the last to drop them in Fall. Dense dark-green foliage with delicate, graceful sprays similar to cut leaf Birch. Should interest every home owner, also real estate men, park boards and cemetery associations.

With no other tree can homes enjoy the luxury of shade in such a short time.

PRICES—2 to 3 ft., 75c; 3 to 4 ft., \$1.25; 4 to 5 ft., \$1.75; 5 to 6 ft., \$2.25; 6 to 8 ft., \$3.00; 8 to 10 ft., \$4.00. All delivered. Safe arrival guaranteed.

If you prefer, you can pay on delivery plus small postage charge. When remittance comes with order all charges will be paid.

Luxurious
Cool Shade
in 5 Years

Tree ready
for planting

Every new home
and many old
ones need them

35 ft. high,
trunk 12 in. dia.

Following are some letters from customers in Spring of 1928. Note the growth made by their trees. You probably never knew it duplicated by any other tree.

"I have two of the Chinese Elm trees growing now. I'll say they are 'growing' for they are 25 feet high from 3 feet whips in one year, 8 months. You can safely recommend them for quick growth."—Allan F. McIntyre, Pasadena, Calif.

"We planted the Chinese Elm tree on March 19th, on that day it measured 8 feet tall and 3 inches trunk circumference. On September 16th it measured 10 feet, 10 inches and 6 inches trunk circumference. We would not hesitate to plant more if we had the place."—H. J. Rickoff, Herman, Missouri.

"The Chinese Elm trees bought from you last Spring are the fastest growing trees I have on my place. They are all you claimed for them and perhaps more too."—H. Bible, Atlanta, Georgia.

"I set out eight of your Chinese Elms the fore part of June this year. They were not over 3 feet, 7 inches when set. At this time, November 15th, six of them are more than 9 feet tall. Two were cut off by ground squirrels, but are 8 feet tall. I am well pleased with them."—I. E. Caldwell, Oildale, Calif.

"Last June we purchased 100 of your Chinese Elm trees. Notwithstanding this was very late to plant them, every one has succeeded; they have grown 12 to 14 inches this summer and are developing nicely."—Wm. Klein, Supt. Washington Park Cemetery Assn., 155 E. Washington St., Indianapolis, Ind.

"The two Chinese Elms I received from you made a remarkable growth from little trees to good sized ones in one season."—W. M. Weddington, Borger, Texas.

A GOOD BUSINESS—If you order one or more of the Chinese Elms and when you get them, if you will see some of your neighbors to sell them some, just let us know and we will make you a Good Business Proposition. Nearly everyone will want one or more of these trees when they see what you get.

"I bought two, 2 to 3 feet Chinese Elm trees from you last Spring. They have made about 28 inches growth. I am well pleased with the trees."—A. L. Wessling, Bethany, Mo.

AS TO WARRANTY—We exercise care to have all of our seeds pure and reliable, but in growing, buying, shipping and cleaning seeds, and in growing the crops from them, so many things may occur over which we have no control that we, in common with all other responsible seedsmen, do not give any warranty, express or implied, as to the description, quality or productiveness or any other matter of any seeds, bulbs or plants we send out, and will not be responsible for the crops.

A Personal Note to All Who Receive This Catalogue

Dear Sir or Madam: We greet you with best wishes for good health for yourself and family: good prices and much prosperity in 1929.

We send sincerest thanks to all our old customers for past liberal patronage and earnestly ask a continuance of the same. To those who have not been our customers in the past we invite them to purchase and plant the O. K. SEEDS this year. O. K. SEEDS are ALL RIGHT SEEDS. They are fresh and vital and will grow and should produce the crops like you expect.

If you want seeds that will make a good garden—that will supply your table through the year with tender, delicious vegetables, plant the O. K. SEEDS. There is a vast difference in seeds, the same as there is in animals. What is not bred in seed cannot come out in the crop. There are many scrub seeds on the market, but O. K. SEEDS are THOROUGHbred SEEDS. Some others may be as good, but there is a chance that they are not. At all events, they cannot be any better, hence why take any chance? Many farmers and gardeners, no doubt, think they have been buying the best seeds in the past, yet they may be mistaken. Read some reports from users of O. K. SEEDS on other pages of this Catalogue.

How To Order

Use our order sheet and return envelope if you have them. If you remit with order send by Registered Letter, Post Office or Express Money Order, Bank Draft or Check. Postage Stamps, 2c and 5c, may be sent for small amounts. Canadian customers may send their currency or postage stamps. If you changed address give both former and present.

FREE DELIVERY—The prices in this catalogue include delivery, or prepayment by Parcels Post, to and including the 4th zone of seeds bulbs, plants, Nursery stock, etc., unless stated to the contrary. Beyond the 4th zone, be sure to send the excess postage. See page 4.

Send No Money

We know that it is often inconvenient for people to get a money order just at the time desired. Sometimes orders are delayed or not sent at all on this account. Therefore if you prefer to do so, send your order to us and tell us when to fill it. We will send it at that time and you can pay the value of the goods to the Postman when he brings them, plus only the postoffice fee, for the return of the money. So, if you are short of money when you get this catalogue, or have no convenient way of remitting, just send the order in and pay later.

Shipments By Freight and Express

Farm seeds, etc., seed potatoes over 5 lbs. do not include prepayment of transportation but will be sent by freight or express at cost of purchaser. Except if you prefer shipment by parcel post, calculate the postage, (see explanation on page 4) and send it extra. If you select "pay on arrival" terms.

Don't order shipments to "Stops" or a station where there is no agent, unless you send full payment and enough more to pay the transportation.

Safe Arrival Guaranteed

We guarantee safe arrival of all shipments in good condition. In case any shipment shows damage on arrival, be sure to have the mail carrier or freight or express agent give you a statement to that effect which send to us, or in the case of freight or express shipments make your claim to the delivering agent at once.

Important Notice Don't fail to understand that you may select Packet Seeds of any kind to amount of \$1.50 and remit only \$1.00. This must not include Collections of pkts.

The Mails

are very reliable and the development of the mail order business is one of the wonders of the present day. Many families have learned that they can obtain their supplies hundreds of miles away to better advantage than at their home stores. In no other line of goods is this more emphatically true than with their seeds, and in no other line does there exist such peculiarly important reasons for doing so. You may buy clothing, groceries, harness, nails, etc., away from your home store on account of price, but with seeds you have the additional reason of vitality. Every postoffice is a branch store where you can get O. K. Seeds, through a letter in the mail, and if on a rural mail route, Uncle Sam will bring them right to your door.

MARKET GARDENERS AND TRUCKERS

If your operations come under the above headings send for our Gardeners and Truckers Price List, then next fall you can write a letter like the following:

TRUCK GARDENER WILL USE NO OTHERS

I am a truck gardener and I have bought quite a lot of seeds of you, including Detroit dark red Beets, Early and Late Flat Dutch cabbage, Golden Plume celery, Improved long Green and Chicago Pickling Cucumbers, Crystal Wax Bermuda Onions, Perfection Pimento, Chartist and Rose Chinese radishes, Golden Hubbard Squash. All did excellently. People bought plants of me and say they are stronger plants than they can get any where else. All seeds that I buy will be O. K. Seeds—J. Sherman, Franklin, Ind.

READ How Farmers and "O. K. SEED" Gardeners Like

(Trade Mark)

We have such a very large number of splendid letters for O. K. SEEDS, BULBS, PLANTS ETC. that it is quite impractical to print all of them so we print a few of the representational ones here in small type.

FRIEND RECOMMENDED O. K. SEEDS

Please send me your 1929 catalog of O. K. Seed when you have it ready. A friend of mine gave me your address and told me to write for a seed catalog and get the good quality seeds that you have to sell to farmers and gardeners. So please send to Mr. John P. Roe, R. R. 1, Box 59, Lowmont, Kansas.

GOING TO TRY MORE

The Climbing China Cucumber is one of my favorites. It has good flavor and takes up little space. The Orange Watermelon is quite a novelty. We never saw anything like it. It has a wonderful sweet taste. Am going to try some more O. K. Seeds next year. Mrs. I. F. Bumpus, Rock Island, Texas, Box 86.

FINEST EVER RAISED

The Dwarf Mixed Nasturtiums from your firm were the finest ever raised—bloomed 'til frost. The finest thing about them was that they did not bear seeds, didn't have to gather them constantly, to keep them from seeding. The colors were wonderful. I gave away great quantities of blooms. The Brazilian Morning Glories made a wonderful shade—The Golden Rose of China is going to be a marvel. I'm longing for Spring so I can see it in blossom.—Mrs. Bertha Blachley, Bainbridge, Ind.

BOUGHT FOR 15 YEARS

I have bought seed from the Everitt's Seed Store for the past fifteen years and have been to the store in person and bought many different varieties. Among them were the Bells Colossal Tomato, Beets, Golden Tankard and Blood Turnip, also got several pounds of Potato Onions. Everitt's O. K. Seed Store is the only place to get the real perfect Potato Onions—Elzina Lafara, Osgood, Ind.

WONDERFUL SUCCESS

I had wonderful success from your O. K. Seeds. Last spring I received from you five pounds of early Red Valentine Beans from which I raised 23 bushels of green beans when they were selling at \$1.50 per bu. My receipts were \$34.50. That is the reason I like your seeds because they are of the finest quality and make the highest profit.—Ryan Canston, Powhatan, W. Va.

PLANTS ARE STRONGEST AND STURDIEST

Your nursery stock was received in A-1 condition. One could not tell, after replanting, that the roots had ever been disturbed, as they went right on growing. The butterfly bush is a wonder. It grew five to seven feet. It was admired by all who saw it, bloomed until frost and made beautiful bouquets. My roses were wonderful. The plants all considered, yours are the strongest and sturdiest I have ever had and I have bought quite a few. Will recommend your nursery stock to anyone—Mrs. J. P. Boyer, Collinsville, Ill.

WELL PLEASSED WITH CORN

The corn I got from you last season, every grain grew. It was good. It went 80 bushels to acre and I am well pleased with the corn—John Zecher, Monroe, Ohio.

"QUANTITY AND QUALITY" UP TO DATE

Last Spring I bought your Quality and Quantity peas and they certainly lived up to the name. I planted 2 pounds of seed and had 2 bu. of peas to give away besides what we ate and canned 40 pints. Mrs. Edw. C. Huffer, Michigantown, Ind.

MORE THAN SATISFACTORY

The seeds that I obtained from you last Spring were more than satisfactory. Especially the China Cucumbers and the Sweet Corn. By measurement the cucumbers were from 18 to 22 inches and for slicing they cannot be excelled. I ordered five varieties of corn and it is hard for me to say which was the best but Golden Bantam and Whipples Early white were sure fine and sweet. Chas. C. Hill, Fairfield, Ill.

LUCULLUS WONDERFUL PRODUCER

The Lucullus Swiss Chard is a wonderful producer. I grew some over two feet high. Some of the inner leaves were protected are good yet, even after several hard freezes—Henry K. Henrich, New Castle, Ind.

BELL'S COLLOSSAL AND KY. WONDER FINE

The Bell's Colossal Tomato I think is unexcelled for canning and slicing. We grew some fine specimens from the seed we got of you last year. However, the finest crop we ever grew from any seed was from your Ky. Wonder Pole beans. From two rows about 100 ft. long we grew enough for table use for our family of 8 and canned 16 gal., besides saving a gal and a half of seed and dividing with our neighbors—W. L. Bennett, Fairplay, Ky.

WONDERFUL SUCCESS

I want to say that I had wonderful success with the O. K. Seeds purchased from you last season. In my order was included a package of Whipple's early white corn and it exceeded my expectation. Exactly sixty days after planting I gathered a dandy mess of corn, nice large ears of wonderful flavor. I also had a package of perfection pop corn. Better popping corn I have never seen, and it matures so early. Mrs. Luther Bradley—Paxico, Kansas.

NO OTHERS LIKE O. K. SEEDS

Last year I ordered China Cucumber and Win-its-way and Best Yet tomatoes and two kinds of cabbage from you and I think every seed came up. I think there is nothing like

O. K. Seeds to come up and grow. I expect to order some more of you this Spring.—Mrs. W. A. Koontz, Stubenville, Ky.

VERY SUCCESSFUL AND ADMIRER

The O. K. Seeds bought of you last Spring were very successful. I had plenty of fine lettuce. Your Yellow Bantam corn was wonderful. We had plenty of Swiss Chard and the best radishes I ever ate. Our flowers, also, from seeds bought of you, were the finest I ever have seen, and made all of our friends admire them.—Chas. Kurtz, New York City.

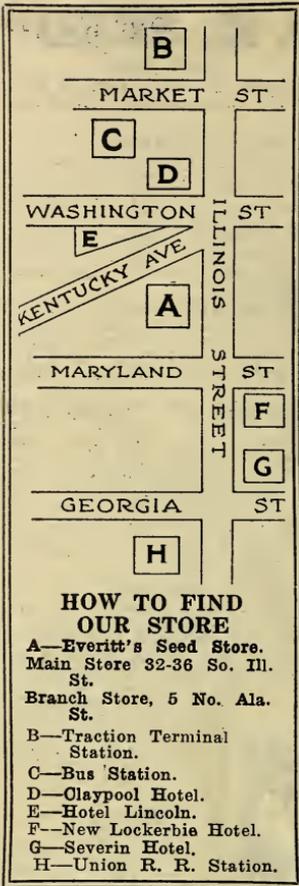

RECOMMENDS EVERITT'S BULBS

I received the Dahlia bulbs in fine condition. Every bulb grew and bloomed. American Beauty was exceedingly lovely and a continual bloomer all summer. It started among the first to bloom, came large, full and double and color was magnificent. "Brides Bouquet" and "Ora Dow" deserve honorable mention too. While the price was very reasonable, I feel safe to recommend Everitt's bulbs—Mrs. William H. Bayer, Hamburg, Pa., R. R. 2.

THEY SURELY ARE FINE

I grew your orange watermelon and your Best Yet Tomato. They surely are fine and good producers and of splendid flavor. W. M. Davis, 602 W. Green St., Anna, Ill.

HOW TO FIND OUR STORE

- A—Everitt's Seed Store. Main Store 32-36 So. Ill. St. Branch Store, 5 No. Ala. St.
- B—Traction Terminal Station.
- C—Bus Station.
- D—Claypool Hotel.
- E—Hotel Lincoln.
- F—New Lockerbie Hotel.
- G—Severin Hotel.
- H—Union R. R. Station.

ALL OF O. K. SEEDS ARE FINE

I have been using your O. K. Seed for three or four years and have had success with all I have planted. I grew some Colossal tomatoes that weighed up to two pounds. I have also grown your Sweet Corn, Beets, Radishes, Cabbage, Climbing Cucumber, Yellow Squash, Gladioli, Dahlias, Lilies and other flowers. I like all I have used. I think all of your seeds are fine. Mrs. Jeff Raye, Lanett, Ala.

NEVER HAD SEEDS AS GOOD

Never had seeds that proved as good as what I got from you last spring. Planted some of your Big Head Lettuce seed, Turnip Seed, Watermelon, Squash, Beans, Sweet Corn, etc. Different kinds of flower seeds. The pumpkin, the Little Yellow Pie Pumpkin, sure was sweet and made so much superior flavor in my pies. Everything was fine. Mrs. T. B. Randles, Mark Center, Ohio.

USED O. K. SEEDS OVER FORTY YEARS

My father bought seed from you people every year for over 40 years. I have always found your O. K. Seed good. I especially liked your tomatoes, Best Yet and Norton. Also dollar Squash and Early Wonder beets. I also sent for Asparagus. Every seed came up. Also Sage, Pie Plant and Parsley, all of them made a good average. Mrs. Landon Casey, Coal Hill, Ark.

PLANTS MOST SATISFACTORY

The plants that I have received from you have been most satisfactory. The Golden Rose of China and the Giant Mallows are just as represented—Mrs. E. H. E. Warren, Cleveland, Mich.

ALWAYS PLEASED

May 4, 1928—I received my order and everything was very nice. I was well pleased. I have always been pleased with all the orders I have received from you. Thanking you very kindly for spending my order so promptly—Ural Pearson, Boulder, Colo.

CHINA CUCUMBERS FINEST EVER SAW

July 5, 1928—I received my Climbing China Cucumber seed am well pleased with them. The first one I pulled was 15½ inches long and the next 17 inches long. Everyone who saw them say they are the finest they ever saw—A. Powers, R. R. A. Box 221, Hazelhurst, Georgia.

SENDS PHOTOGRAPHS

October 4th, 1928—I am sending you a kodak picture of a New Guinea Butterbean from the seed I got from you last Spring. It measures 18½ inches long and 15½ inches around. I had to build a support under it to hold it up. S. M. Anderson, 1016 Washington Ave., Ft. Worth, Texas.

THANKS FOR NICE PLANTS

May 13th, 1927—Plants arrived all O. K. in good condition. Pussy Willow doing fine. I must tell you your Butterfly Bush is coming nicely. I certainly thank you for all your nice large plants. Roses were all O. K.—Mrs. F. E. Coy Kennall, Tuscola, Ill.

I WANT NO OTHER SEEDS

Please do not fail in mailing a catalog soon to the above address. Last year as well as in previous years I obtained such good crops from seed purchased from your store and I want no other—Mrs. R. R. Palamountain, West Newton, Mass., 15 Hazelhurst Ave.

Parcel Post and How to Calculate Postage

Read This Carefully At the prices quoted we deliver seeds of Vegetables, Flowers and Farm, in pkts., ozs., and lbs. in lots of 5 lbs or less, to and including the 4th zone. Also at prices quoted, we deliver all Bulbs, Roots, Perennials, Roses and Shrubs to and including the 4th zone, unless stated to contrary. Poultry feed and supplies, Insecticides, Fertilizer, etc., be governed by terms made in their departments. When beyond the 4th zone calculate the postage to destination and then deduct the postage to the 4th zone. The balance, customer must pay extra beyond the catalogue prices.

How To Calculate Postage By the map above you can determine closely the zone your post office is in. (The numbered circles will tell). Then when you know the weight of goods ordered you can figure the postage by the below table:

	Zone 1	2	3	4	5	6	7	8
For the first pound or less the postage is	7c	7c	8c	8c	9c	10c	12c	13c
For each additional pound or fraction of a pound add	1c	1c	2c	4c	6c	8c	10c	12c

Packages up to 70 lbs. are available for Zones 1, 2 and 3. Beyond 3rd zone 50 lbs. is the limit.

EVERITT'S SPECIALTIES

Have A Specialty Garden This Year

WE have been supplying seeds to gardeners for many years and we know very well the spirit of friendly rivalry that exists in a community of gardening neighbors. A desire to outdo a neighbor, or the whole neighborhood, in having the **FIRST MESS of vegetables**; or to have them a **LITTLE FINER**, or a **LITTLE LARGER**, or **MORE YIELDY** is as natural as it is to plant a garden. To all such—to every person who is going to plant a garden this year—we recommend a careful reading of the following pages of Specialties. On these pages you will find the varieties that are a *little earlier*, a *little larger* or *very much better*. Regardless of what you select from the "General List" you will very naturally want to select several things from the Specialties List. A "Specialty Garden," of these varieties should be long and pleasantly remembered by the grower.

Asparagus

This asparagus has been selected by the United States Department of Agriculture, Washington, D. C., as the variety that comes nearest to being rust free. The plants form large clean shoots which are thick and heavy. They are long and straight, with closely folded tips. The color is rich dark green, tinted darker at the tips. It is a heavy yielder and a long-lived producer of exceptionally fine flavor. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 65c; lb., \$2.00, postpaid.

New Ideal Market

The New Ideal Market

This new pole bean comes so early that in northern sections where no other variety will mature a good crop these are a great success. But on account of their fine quality and great productiveness they will find favor clear to Florida. They come in bearing with the bush varieties of beans and are extremely productive while the quality of the round pulpy stringless green pods is all that any one could desire. The pods grow in clusters of 4 to 6. A basketfull can be gathered quickly. $\frac{1}{4}$ lb., 20c; $\frac{1}{2}$ lb., 35c; lb., 60c.

Boston Crosby Beet

Boston Crosby Beet

An exceptionally good selection from Crosby's Egyptian, being more "globy"; with a smaller top and tap root. Roots are remarkably uniform, very dark red, flesh deep purplish red with little tendency to zoning. It will become one of the most popular, as it is the most handsome of the early beets. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 50c; lb., \$1.75.

Climbing China Cucumbers

A new one from China for every home and market garden. It will grow on the ground or a trellis, pole or fence. When allowed to climb they will give about three times as many cucumbers, to space, as common kinds. If pulled off when green will bear continuously. Quality equal to hot house product. The cucumber for every garden and very ornamental. Read what growers say: "The finest I ever grew," "20 inches long, 2 in. through, and finest for table and market." "Grew 8 ft. high and full of pickles." "The cucumber with ornamental vine for everybody." Pkt., 10c; 3 for 25c; oz., 25c; ¼ lb., \$1.00.

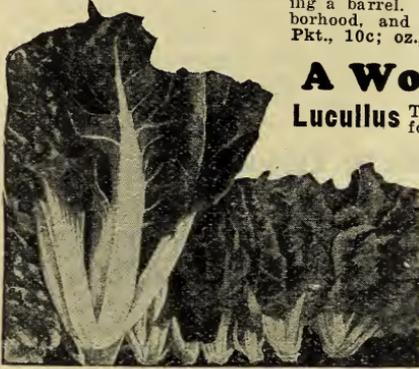

ing a barrel, borhood, and besides, one of splendid quality, plant some of CWT. Pkt., 10c; oz., 35c; ¼ lb., \$1.00.

Cabbage

CWT. Everybody knows that "CWT" means hundred of all varieties of Cabbage. Single specimens have weighed 50 pounds. It is the grandest type of mammoth Cabbage, and certainly whoever raises for exhibition purposes should not fail to include the CWT. Cabbage. A late fall and winter sort. Splendid keeper and of good quality. For kraut it is simply immense, a few heads fill-

If you want the largest Cabbage ever seen in your neighborhood, and besides, one of splendid quality, plant some of CWT. Pkt., 10c; oz., 35c; ¼ lb., \$1.00.

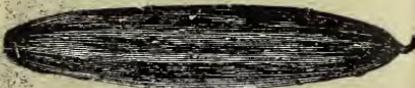

A Wonder Plant, Swiss Chard Lucullus

This is one of the best and most productive garden plants for greens. Sow seed in spring in rows about 20 in. apart and thin to 12 in. apart. It will grow about 15 in. high. One sowing will keep you supplied all summer, until killed by frost, but the leaves must be cut off so new and tender ones will come. With protection it will stand over winter and be ready to use in the spring. It is one of the valuable health giving greens. The cooked greens are finer flavored than spinach. The heavy ribs may be boiled and served in melted butter or milk dressing when they are as delicious as asparagus. This vegetable is so easily grown and so good that it will be a surprise if it is not soon found in every garden. Will make lots of green feed for poultry. Pkt., 10c; oz., 25c; ¼ lb., 75c; lb., \$2.00.

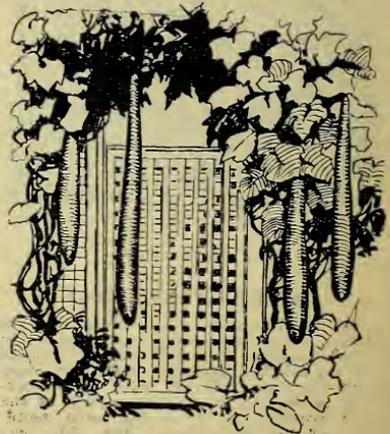

Lagenaria or New Guinea Bean

This is really not a bean, but is a tasty, edible gourd. While green and before it begins to harden, cook as butter beans, or fry as egg plant, or boil like a squash. (Directions for cooking on each packet). It also has much merit in the size and attractiveness of the vine. The leaves and blooms are larger and handsomer than Moon Vines which, in connection with the curious fruits, which easily grow 25 inches long and frequently 3 ft., makes a vine the talk of a whole neighborhood. Succeeds everywhere. The vine will grow about 50 feet in one season. Pkt., 15c; 2 for 25c; oz., 50c.

New Longfellow Cucumber

People growing Cucumbers out of doors have always wished for a long, slender, dark-green fruit like that grown in a hothouse. The Longfellow supplies this want, as it succeeds equally both ways. It is of the White Spine type but has an intense dark green color. Vines very vigorous and productive. Medium early. Cukes grow 12 to 14 in. long and about 2½ in. through. A fine acquisition for the private gardener and a boon to market gardeners. Pkt., 10c; oz., 20c; ¼ lb., 60c; lb., \$2.00.

Lagenaria, New Guinea Butter Bean

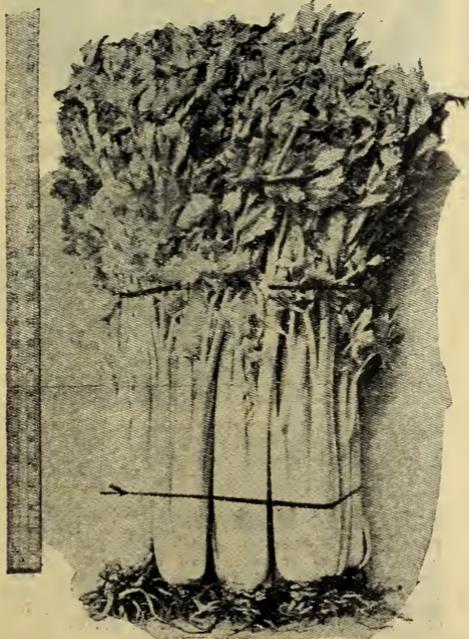

Golden Plume or Wonderful

Matures 2 to 3 weeks before any other kind and blanches in half the time required by others. Broad stalks. Does not grow hollow. Crisp, tender and all of it, including foliage is good eating. Rich Golden-yellow with full heart. A sort that will please immensely for home and shipping. Pkt., 10c; ½ oz., 20c; oz., 35c.

THE GREAT HOME CELERY. TOO BRITTLE TO SHIP

If you grow your own celery, and every person who has the ground and makes a garden should, rather than accept the tough, wilted, shipped celery, then by all means prepare to grow the EUREKA. The plant grows quite dwarf and stocky with large light yellow heart. Stalks are broad, thick and crisp. Medium early and a superior Fall and Winter variety. You may know that it is a good table celery, because it is too brittle to ship to distant markets. Every garden should have some Eureka Celery. Pkt., 10c; ½ oz., 25c; oz., 75c.

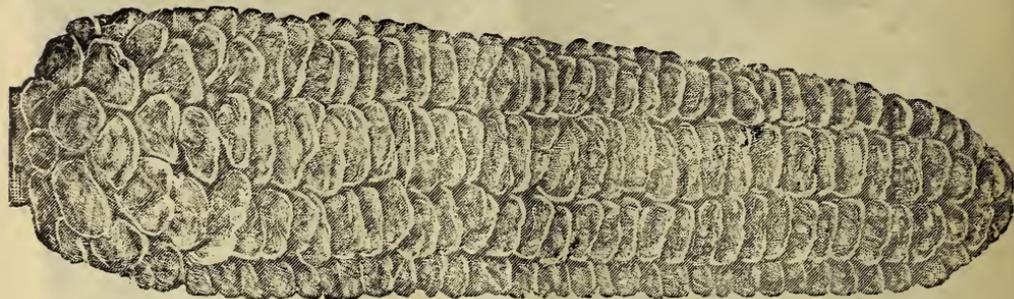

The 12 plants of celery shown in the illustration weighed 61½ lbs. This was not a selected bunch, but was taken from a carload sent to market.

Snows Perfect Pickling Cucumber

The most symmetrical, best formed, and most productive pickling sort; early, medium size, full end and deep green. A superior variety that will give great satisfaction. Pkt., 10c; oz., 20c; ¼ lb., 65c; per lb., \$2.00.

Everitt's Golden Sunshine Sweet Corn

AN EARLIER GOLDEN BANTAM

The Golden Bantam Sweet Corn has brought millions of dollars to gardeners and truckers and has been adopted as the best extra early sweet corn in millions of home gardens. Now we are indebted to an experimenter in North Dakota, where the seasons are short, for an earlier and better Golden Bantam, which we call Golden Sunshine. So early is the Golden Sunshine that it comes on the market with the extra early white corns and of course gets the extra top prices. The stalk grows about 4½ ft. tall and usually bears two or more fine ears 6-7 inches long with broad, deep grains of rich golden color and sweet, juicy luscious flavor. Every order from this catalog should really include it. ¼ lb. pkt. 20c; ½ lb., 30c; lb., 50c; 5 lbs., at 40c, delivered.

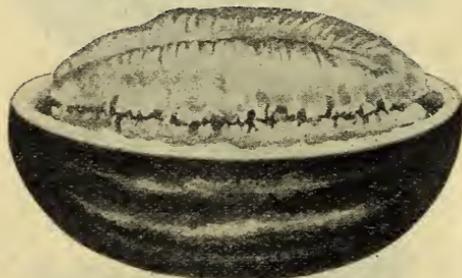

Everitt's Long Standing Lettuce

Beautiful Color, Forms large, handsome, tender heads.
The Longest Standing of All

Every gardener knows the value of a lettuce that is slow to run to seed and we want them to know that sort excels all others in that respect. It will remain in good condition almost all summer from one sowing. It comes early and makes a large, solid head which is of the finest quality. It succeeds under most trying weather when gardeners will find it most satisfactory and money in their pockets. Pkt., 10c; oz., 20c; ¼ lb., 65c; per lb., \$2.25.

Orange Watermelon

The peculiarity of this fine melon is that when well ripened the inner core separates from the rind. Frequently one can lift the entire heart of the melon out of the shell or rind by cutting the melon rind only. The flesh of this melon is of a pink shade, of fine quality. Considered by many a great delicacy and prized to serve on special occasions. It grows to a medium size. Very productive. Pkt., 10c; 3 for 25c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

Orange Nectarine Muskmelon

Given this name because of its orange flesh and flavor as sweet as nectar. This is positively the "last word" in an all-round home and market melon. Size of Rocky Ford but more solid, with less seed space and heavier fruit very uniform in size, nearly round and covered with a gray netting. Has appealing deep, orange flesh of luscious eating qualities. Strong grower and very prolific. Pkt., 15c; oz., 30c; ¼ lb., \$1.00; lb., \$3.00 and worth the price.

Hales Best Muskmelon (Salmon Flesh)

A Rocky Ford type muskmelon which bids for special favor, because of being two weeks earlier, 10 per cent larger and gets on the market and gather the fancy prices before the regular Rocky Fords arrive. Pkt., 10c; oz., 25c; ¼ lb., 65c; lb., \$2.00; 5 or more lbs. at \$1.75.

We got several packages of O. K. SEED of you last year and they were O. K. The Golden Acre cabbage was the earliest we ever had and as good. The Earliest Pepper was fine, early and a good bearer. Also the Perfection Popcorn was the best ever. All the seeds were good and all came up. We have bought bulbs of you and flowers and all were O. K.—Neri Collings, Rockville, Ind.

Mountain Grown Danvers Onion

The yellow globe Danvers onion is one of the oldest American varieties and a general favorite.

There is at the present time much variation in the shape and quality of this variety as produced by different growers. In our investigation for the very best type we found it being grown in the mountains of Colorado. This particular grower has adopted the trade mark "Mile High". We have purchased a quantity of his seed and obtained permission to sell it under his trade mark. This is the EARLIEST Yellow Globe Danvers grown, is exceedingly hard and vigorous with the ideal shape.

Price: Pkt., 5c; ½ lb., 25c; 1 lb., 50c; 2 lbs., 1.00; 3 lbs., 1.50; 4 lbs., 2.00; 5 lbs., 2.50; 6 lbs., 3.00; 7 lbs., 3.50; 8 lbs., 4.00; 9 lbs., 4.50; 10 lbs., 5.00.

Sunnybrook Pepper

The sweetest of all peppers. As sweet as an apple—shape like a tomato, bright scarlet color, smooth, glossy skin; very thick red flesh. Extremely productive, the whole plant will be loaded with the beautiful fruits, about 2½ inches diameter. Pkt., 15c; ½ oz., 35c; oz., 60c; ¼ lb., \$2.00.

Everitt's Specialties in Peas

We are thoroughly in earnest when we recommend gardeners and truckers to get away from the old types of peas and use these newer, better varieties. We list here three varieties, extra early, early and main crop, in the order of their maturity.

Little Marvel Wrinkled, 14 in. The best extra early you can plant for private or market garden. Pods nearly round, 3 inches long, square ended and contain 6-7 dark green peas of exceptional quality. Very productive. ¼ lb., 15c; ½ lb., 25c; lb., 40c; 3 lbs., \$1.00.

Laxton's Progress Wrinkled, 18 in. The best medium early and the earliest large podded dwarf pea. A vigorous grower, extremely productive. Pods 4 in. long, broad, pointed, beautiful green and bear 7-8 large, dark green peas of delicious quality. ¼ lb., 15c; ½ lb., 40c; 3 lbs., \$1.00.

World's Record Wrinkled, 2 ft. Gardeners who were partial to the Gradus and that type will find in this an earlier and dwarfier sort but a heavier cropper. The vines bear wonderfully of broad, pointed pods, filled with 7-9 very large dark green peas of finest quality. ¼ lb., 15c; ½ lb., 25c; lb., 40c; 3 lbs., \$1.00.

RADISH

Vick's Scarlet Globe Extra Strain

This superb variety is well known and the reason we offer it in our specialties is because this is an extra fine stock. It is recommended for outside planting and for forcing. Globe-shape, small top, bright scarlet crisp white flesh. Pkt., 10c; oz., 20c; ½ lb., 35c; ¼ lb., 60c; lb., \$1.00; 3 lbs., at 85c.

TOMATO

Best Yet It is rare that the selection of a superior variety of vegetable begins at the can that brought it to the table. But such was the case with this variety. The person from whom we obtained our seed furnished this explanation, "I bought some canned tomatoes which at once aroused my interest by their exceptional solidity, high red color, meatiness and fine flavor. By tracing back to the grower, through the help of the label on the can. I was able to procure seed."

In earliness it is as early as any worth while extra early tomato but it is one-third larger than the best of them and is never rough or cracked. It actually surpasses any other extra early tomato in size, smoothness and flavor and our customers can rely on this statement. Also they will find the flesh as solid as the Ponderosa and with a pleasing flavor not possessed by any other tomato, early or late. Color is actually red. Shape is round. One of our customers said: "Heretofore I did not care much for tomatoes but we had the 'Best Yet' this year and I wanted them every meal." Another customer said: "I consider it the greatest 'find' in tomatoes in years. I planted only a packet this year but I want a full pound of seed for next year. I sold 200 plants to a neighbor and he said, 'I never saw any tomato to equal them.'" Price, Pkt., 10c; 2 for 25c; ½ oz., 45c; oz., 80c; ¼ lb., \$2.50.

The Earliest and the Largest Early

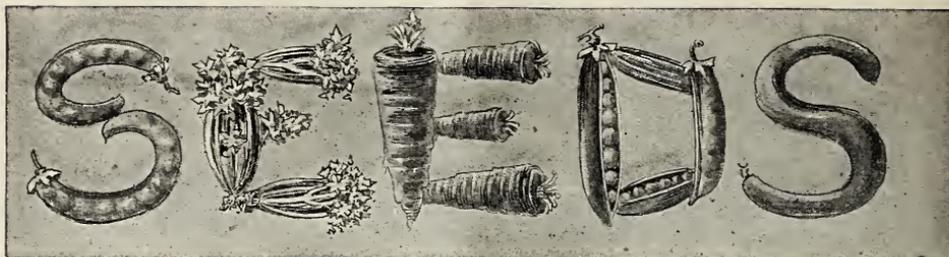

HARRIS PEPPERS

If you want to make sure to have sweet peppers and lots of them, plant these. If you have not had good success raising peppers change to these and your "luck" will change.

Harris Earliest This pepper is the surest cropper of all. The plants grow only 12 to 18 inches high and usually bear so many peppers that you wonder how the plant can hold them. The peppers are of good size too, being 3 inches long by about 2 to 2½ inches in diameter. The flavor is very mild and tasty. The color is red when ripe. Pkt., 10c; ½ oz., 25c; oz., 40c; ¼ lb., \$1.50.

Harris Early Giant This is in the large mango type, and is the earliest of the large ones and also is the most prolific. It matures two weeks later than Harris Earliest. It is also of dwarf sturdy growth and bears as many as twelve large mangoes on a single plant. The scarlet fruit measures about 5 in. long by 3½ in. diameter. Mild and sweet. Pkt., 15c; ½ oz., 35c; oz., 60c; ¼ lb., \$2.00.

GENERAL LIST OF VEGETABLE

The following list of seeds is arranged so that it will be perfectly easy for any person, even the inexperienced, to select with certainty what will give him the vegetables desired. Just read the descriptions and select what you want by SEASON OF MATURITY, KEEPING QUALITIES, COLOR, SIZE, ETC. Our list is not burdened with indifferent and non-essential varieties. Following the list of vegetables you will find FLOWERS to beautify your grounds; FRUITS for your pleasure and profit; GRAINS for the farm; FEED for stock and poultry; REMEDIES for poultry; INSECTICIDES and FUNGICIDES to kill the insects and blight; the necessary machinery, sprayers, etc.—ALL THAT IS NECESSARY FOR A SEASON'S PLEASURE AND PROFIT IN THE GARDEN.

ARTICHOKE

Culture Sow early in hotbed, or outdoors in May. Transplant to rows 3 feet apart and 2 feet apart in row. It is hardy in the north. One oz. of seed will sow 25 feet of row for plants.

Green Globe The unripe flower heads are used and when properly prepared are delicious. Pkt., 10c; oz., 40c.

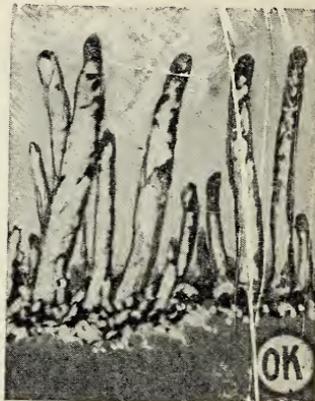

ASPARAGUS

Asparagus is the first vegetable to come in the spring and is very popular with those who know its value. Every garden should have a generous supply and when properly set and cared for will last a lifetime. Plant in rich dirt, 10 inches deep and 1½ feet apart. Place plants in the trench 6 to 8 inches apart, spreading roots out flat. Then cover with about three inches soil and fill up as the stalks grow. 100 plants for average family.

Martha Washington See Specialties. Everybody should renew old beds with this.

Palmetto A very early variety; a heavy producer of large, tender shoots of the best quality. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.25.

Roots—25, 45c; 50, 75c; 100, \$1.50, delivered.

Asparagus Tips

Let There Be Vegetables, Flowers and Fruits

My friends, neighbors and acquaintances garden for diverse reasons. For some, it's a substitute for golf—exercise; to some of them it is the pursuit of economy; to others, it's a combination of economy and pleasure. But regardless of why they garden, what they grow, or what kind of gardens they keep, I find that they all would like to produce a few vegetables, some fruit and some flowers.

One of the best layouts for the small gardener is to use strawberries, and the bush fruits such as currants, gooseberries and raspberries, as hedges. There's no setting that is more effective for flowers than a hedge, so a good share of the flowers may be backed up to the bush fruits, forming a border for a part of, or the entire garden. If cherry trees or other tree fruits are used, place them at the garden edges—never in the center.

The gardener with limited space who craves fruits, flowers and vegetables, must be discriminating in his choice of crops. A bed of asparagus, 10 by 20 feet, will provide one of the earliest, most appetizing vegetables. Radishes are reputed to be the certain sign of an amateur gardener. Drop a seed here and there in the rows of carrots, beets, lettuce and other slow growing crops. In this way, the radishes won't claim special room, they will mark the rows and are out of the way before they interfere with the

other crops. Pole beans are one of the good crops for the small gardener. They provide an abundance of good food from a minimum of space.

Other desirable crops for the small gardener are tomatoes, carrots, salsify, onions and such others as particularly appeal to him. Undoubtedly spinach and Swiss chard should be included to provide greens for the table, and an extra supply to be canned for winter.

Perennial flowers usually get the largest vote by the fellow who gardens only in limited spare hours. In the fruit-flower-vegetable combination, beds of these perennial kinds may be largely used on the garden borders, planting the taller varieties to the rear, and the low-growing ones in front. The annuals may be used to fill in and help provide the desired variety, and the continuous supply of bloom and cut flowers.

If one wishes the garden to furnish many flowers, and prefers to minimize the vegetable crops, the area available may be divided, using one portion for formal or informal flower beds, and the other for vegetable crop production. A row of dahlias, zinnias and four-o'clocks, or some such medium tall-growing kind or combination of flowers, may be used effectively to disclose the vegetable garden or vegetable portion from view of the house or street—Fred E. Ferguson.

Plant Plenty of Beans

Culture Beans will grow on almost any kind of soil, but no crop responds more readily to fertilizer than garden beans. Plant late enough in the season so the ground is warm and dry although some plant earlier and risk a frost, for the sake of earliness. Plant in rows 2 feet apart, and thin to 3 to 6 inches apart. Cover $1\frac{1}{2}$ to 2 inches deep. Lima Beans should not be planted until the latter part of May. A quart of large Lima Beans plants 100 hills, of the smaller sorts, 200 hills. Ask for prices in larger quantities than quoted.

N. B. The 1928 bean crop was very short and prices of most kinds must be higher than usual. Notice, pole beans are lower priced than the bush varieties. Pole beans are the best croppers when space is limited.

Dwarf Yellow or Wax Podded

Wonder Wax (Flat Pod) Is a wonderfully heavy yielder stringless and tender—fills every need for home and market. slim, flat, plump, handsome and meaty pods. This is the earliest wax-podded bean. In bearing for a long season. Brings highest market prices. $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lbs., 30c; 1 lb., 50c; 3 lbs., at 45c; Peck \$4.00.

Kidney Wax (Flat Pod) A very popular, early variety. Pods large, $5\frac{1}{2}$ to 6 inches long, straight and flat, fleshy, brittle, fine grained and stringless. Very attractive. $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 45c; 3 lbs., at 40c; Peck \$4.00.

Davis White Wax (Flat Pod) Early mammoth pods. $6\frac{1}{2}$ to 7 inches long, slightly stringy. A market gardener's favorite. $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 27c; 1 lb., 50c; 3 lbs., at 45c.

Black Wax (Round Pods) A standard sort. Early, pods fleshy, stringless, attractive, about 5 inches long. $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 27c; 1 lb., 45c; 3 lbs., at 40c.

Imp. Golden Wax (Flat Pod). Very early and quite productive; flesh brittle, stringless and of good quality; seed white, mottled brown. $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 45c; 3 lbs., at 40c.

Dwarf Green Pods

Burpee's Stringless Green Pod

(Round Pod) Early, hardy, vigorous and productive. Pods large, 5 inches long, round and crease backed, dark green in color; strictly stringless, tender and brittle. One of the best for all purposes. $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 27c; 1 lb., 50c; 3 lbs., at 45c; Peck \$4.50.

Bountiful (Flat Pod) An early variety of sturdy, upright growth. Free from

Pole, Climbing and Cornfield Beans

Kentucky Wonder (Round Pod) The most popular green-podded climbing, or corn-hill bean, early and wonderfully productive. Bears until frost. Pods, 8 to 9 inches long in clusters. The returns from an acre of corn can often be doubled by planting this bean in the corn hills. $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 45c; 3 lbs., at 40c; Peck, \$3.00.

Golden Cluster Wax (Flat Pods) Unsurpassed in Wax Pole Beans. Pods 6 to 7 inches long, in clusters. Flesh thick and stringless. Beans white. $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 45c; 3 lbs., at 40c; Peck, \$3.50.

Lazy Wives (Flat Pods) Borne in such large clusters that a mess can soon be gathered, hence the name. Pods long, broad, fleshy, stringless. Beans white. $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 45c; 3 lbs. at 40c; Peck \$3.25.

Horticultural or Cranberry—October Bean (Flat pods) An old well known standard sort. Stringless and of good quality; color dark green, splashed with bright red. $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 23c; 1 lb., 40c; 3 lbs., at 35c; Peck, \$3.25.

Cut Short or Corn Hill (Flat Pods) A well-known hardy late and productive sort. Green pods $3\frac{1}{2}$ to 4 inches long, straight and flat. Some strings. One of the best for planting in corn. $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 45c; 3 lbs., at 40c; peck \$3.00.

Kentucky Wonder Wax (Round Pod)—One of the earliest of the pole wax sorts. Pods 8 to 9 inches long, thick, crease backed, very fleshy, brittle.

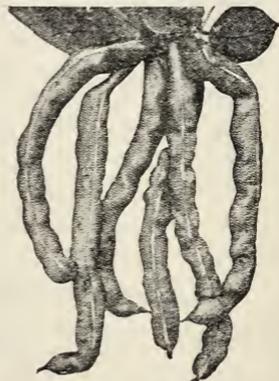

Wonder Wax

rust and mildew. It bears continually for several weeks. Pods are 7 to 8 inches long, straight, flat, brittle and stringless. $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 27c; 1 lb., 50c; 3 lbs., at 45c; Peck, \$4.50.

Full Measure (Round Pod) A fine early stringless, high quality bean. Pods straight, 6 inches long, very fleshy, round, crease backed and showing depressions around the beans. $\frac{1}{4}$ lb., 20c; $\frac{1}{2}$ lb., 35c; 1 lb., 60c; 3 lbs. at 55c; Peck, \$5.00.

Giant Stringless (Round Pod) an extremely productive, handsome and tender variety. Fully stringless. Pods slightly longer than Burpee's. $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 27c; 1 lb., 50c; 3 lbs., at 45c; Peck, \$4.50.

Imp. Early Red Valentine (Round Pod) A very hardy, early productive standard sort, slightly stringy but splendid quality. $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 45c; 3 lbs., at 40c; Peck, \$4.00.

Kentucky Wonder

but has some strings. $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 45c; 3 lbs., at 40c; Peck \$3.50.

Burgher's Stringless (Round Pods) Also called white seeded Kentucky Wonder. Very long, fleshy, stringless pods. Highly recommended. $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 45c; 3 lbs., at 40c; Peck, \$3.25.

LIMA BEANS

Henderson's Early (Bush). A vigorous, hardy small type of Bush Lima; much in favor with family gardeners and canners. Also much raised as a field crop for dry beans. A surprising crop can be grown on a small space. $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 45c; 3 lbs., at 40c.

Burpee's Imp. (Bush). Both beans and pods larger than the old type; averages one more bean to the pod; $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 30c; 1 lb., 50c; 3 lbs., at 45c.

Fordhook (Bush) Preferred by many particularly by market gardeners. Very thick white beans. $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 30c; 1 lb., 50c; 3 lbs., at 45c.

King of the Garden (Pole) An improved strain of large, white Lima. $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 30c; 1 lb., 50c; 2 lbs., at 45c.

Small Lima, or Sieva (Pole) Beans small and white on the order of Henderson's Bush Lima. Plant of large growth, very early and productive. $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 45c; 3 lbs. at 40c.

BUSH, SHELL, FIELD BEANS

Large White Marrow Large, oval-shaped, white beans, grown as a field crop for baking. $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 20c; 1 lb., 35c; 3 lbs., at 30c.

Navy or Pea Bean A small round, white bean, extensively grown as a field crop. $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 20c; 1 lb., 35c; 3 lbs., at 20c.

Red Kidney The beans are deep red in color. Much raised as a field crop. $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 20c; 1 lb., 35c; 3 lbs., at 30c.

Yard Long or French Asparagus

An attractive, curious and good Pole Bean. Pods sometimes grow to be a yard long. Our customers have reported 37 inches, 36 inches, 34½ inches, 34 inches, 33 inches, 32 inches, etc. The whole pod and beans are tender and with a delicious Asparagus flavor.

SOME REPORTS—Nina Cook, Parrish, Ala. and Beatrice Williams, Ashboro, N. C. reported pods, 37 in long; Mrs. G. Boswell, McIver, N. C., 36 inches; Mrs. John Curry, Garfield Ky., 34½ inches; Mrs. C. A. Townsend, Aspen Va., 33 inches; Leonard Hall, Boles, Ky., 32 inches. See these people praised its productiveness and good table qualities. Prices, Pkt., 10c; $\frac{1}{4}$ lb., 25c; $\frac{1}{2}$ lb., 40c;

BRUSSEL SPROUTS

Culture Related to the cabbage family and produces a great number of small heads on the main stem. Plant the seeds in moderately rich soil, in hills 2 feet apart each way. Leave only one plant to a hill. They are a great delicacy. Prepare like cabbage. One packet will give about 500 plants; one ounce about 2,500 plants.

Imp. Dwarf Market The favorite variety in most parts of the country. Grows about 20 inches high with sprouts 2 inches in diameter above the stem. Delicate flavor. A sure cropper. Pkt., 50c; oz., 20c; $\frac{1}{4}$ lb., 75c.

Paris Market Taller than above. Most excellent and a sure cropper. Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 75c.

CHICORY

Culture The roots, dried and ground, are used as a substitute for coffee, also very palatable when cooked. Sow early in the Spring in rows 18 inches apart and thin to 6 inches between plants. The plants are perennial and spread from the roots.

Large Rooted The dried roots are roasted and mixed with coffee or used as a substitute. Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 75c.

Witloof (French Endive.) Delicious new salad plant that should be in every garden. Seed when sown in May or June form long, parsnip-shaped roots, which placed in sand in a warm, dark place in winter make a growth of lettuce-like leaves which are cut and served as a salad. Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 75c.

EGG PLANT

Culture Plant seed early in house or hot-bed. Set in open ground when warm. Set 2 feet apart each way. They must have rich soil and as warm as possible, although do very well on any good rich soil. One pkt. will make about 200 plants; one oz., about 1,000 plants.

Black Beauty This is the earnest variety that attains any worthwhile size. The color is jet black and very attractive. A dwarf kind. All gardeners for home and market who want an early egg plant are coming to grow it. Pkt., 10c; $\frac{1}{2}$ oz., 25c; oz., 40c.

New York Imp. Purple A popular old variety. Grows to great size and fine quality. Bear until frost. Pkt., 10c; $\frac{1}{2}$ oz., 25c; oz., 40c.

New Carrot Hutchinson

Roots 10 to 12 in. long, nearly cylindrical and end in an abrupt stump root. Color deep orange. A quality and extremely productive. Pkt. 10c; oz., 20c; $\frac{1}{4}$ lb., 60c; 1 lb., \$2.00.

I received your seeds last Spring in good shape and found them all in good fertile condition. P. A. Stevenson, Zionsville, Ind

Sweet, Tender Table Beets

Culture For best results, select a deep, rich loam and fertilize with well decomposed manure. Sow 14 to 16 inches apart, cover 1 inch. Thin to 4 to 5 inches apart. Or sow in beds and transplant to garden. Plant as soon as ground is fit in Spring for early. For Autumn, plant May and June; for Winter, about July 1st, according to variety. One pkt. will make about 250 plants. One oz., about 800 plants, 7 lbs. per acre.

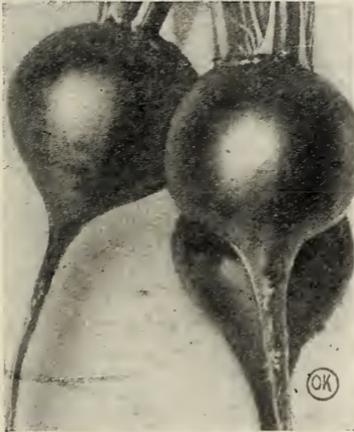

Extra Early Eclipse Round, very early, good size, very tender. Has small top, bright red flesh. The O. K. strain is unexcelled. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Long Blood Red Late. Good quality. For winter use or for stock, it can be planted as late as July or August. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Edman's Blood Turnip A fine second early. Roots nearly round. Dark red. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Nuttings Early Gem This new beet will be esteemed on account of its desirable, smooth beautiful appearance and unexcelled quality for the table. The color of the skin and flesh is bright red. Solid and crisp, if planted late, it makes a good Winter beet. Pkt., 8c; oz., 15c; ¼ lb., 30c; lb., \$1.00.

Crosby's Egyptian The first to produce edible roots. Plant for first crop. Roots globe-shaped, skin blood red, flesh red, slightly zoned, small top. A great favorite for forcing. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Detroit Dark Red

Detroit Dark Red One of the best deep red turnip beets, not only for market gardeners but also for home use and canning. Its early maturity, and the splendid shape and color of the root make it popular everywhere. Remains in good condition a long time. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Grimson Globe Especially on light soil this most handsome beet will be appreciated by all who try it. The skin and flesh are both very dark. Quality the finest. Has a small top. Season late. A good keeper. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

Early Wonder

An Improvement, by Selection, of Crosby's Egyptian. As a variety to bunch for the market, it has no equal. Color is a rich dark red, small top, single tap root and a fine keeper. It merits a place in every garden, private or for market. Pkt., 10c; oz., 20c; ¼ lb., 50c; lb., \$1.25.

My Early Wonder beets were wonderful. Every seed planted produced a beet of excellent quality. The Swiss Chard was fine also. The Harris Early Pepper was extra.—Mrs. Grace S. Hadlock, Elk City, Kansas.

Mangle and Sugar Beets

Mammoth Long Red If your soil is fairly deep this is the one to plant. Grows as much as 2 feet long, much above the ground. Makes a great yield, as much as 60 tons to the acre. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c; 5 lbs., at 50c.

Champion Yellow Globe The best yellow globe mangel. Heavy yielder and has high feeding value. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 70c; 5 lbs., at 50c.

Golden Tankard This variety grows almost entirely on top of the ground. Shape oval, color deep yellow; quality good; productive, early, easily harvested. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 70c; 5 lbs., at 50c.

Klein Wanzleben Sugar This is not profitable to grow for stock, as it is small and roots deep in the soil. Only recommended for making sugar. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Danish Sludstrup Mangel This variety from Denmark, was awarded the highest certificate for the best mangel in that country. It excels other mangels in weight of crop that can be produced per acre. Color is distinct, being reddish-yellow. Root large. It is easy to harvest because it grows more than half above the ground and has small tap root.

Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 70c; 5 lbs. at 50c.

GOOD SEED CORN

This is a great specialty of ours. Probably most of the corn growers who receive this catalog are aware of the fact that central Indiana has a world wide reputation for its fine corn and the prizes and medals that have been awarded to here. See department of exhibitors of corn grown Farm Seeds for our varieties and our reasonable prices.

American Grown Cabbage Seed

Culture Cabbage will succeed on any land that will grow good corn. The richer the soil the bigger will be the crop. Sow seed in hot bed or house for early, in beds for late or main crop. Early kinds set 18 inches apart. The late and large kinds in rows 2 to 3 feet apart and 2 to 3 feet in rows. Do not follow cabbage or turnips with cabbage. For early set the plants out as early as ground will permit. For late set plants about middle of June in latitude of Indianapolis. One Pkt., will make about 300 plants, one oz. about 2,000 plants, one-quarter lb. for one acre.

EARLY AND MIDSEASON

Early Jersey Wakefield The most widely known and popular early variety for home and market. heads pointed and very solid. Pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

Charleston Wakefield Only about one week later than early Jersey Wakefield, but the pointed heads are fully one-half larger. Pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

Early Winnigstadt True Stock. Medium early, short stemmed, pointed heads, solid, very productive. The kind mother raised in her garden and lifted. Pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

Copenhagen Market The earliest of the solid round head varieties. Stem short, heads are large, round and solid, of an upright growth with few leaves. A very profitable kind to grow. Pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

All Head Early Another of our Specialties. It is as early as any summer cabbage and makes such large, uniform, handsome, solid heads that it competes with the later fall varieties. Unsurpassed in eating qualities. For Fall and Winter should be sown late. Pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

LATE VARIETIES

Everitt's Premium Flat Dutch A justly popular and esteemed variety; extensively cultivated for market and family use. Heads large, flattened and very firm, has a medium stem and is very hardy. Excellent for slaw and famous for kraut. Practically 99 of 100 plants will head of our "Premium" Stock. Pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.25.

Surehead Selected Stocks "All Head and sure to head" Heads are large round and flattened, very hard and fine-grained; splendid keeper. A universal favorite for main crop. Pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.25.

Danish Winter Ballhead For late Winter and Spring, this one is hardly excelled. Thrives very well on thin soil and in adverse seasons. It is well and favorably known on nearly all markets and is sought after in March and April when it comes out of the pits as fresh as when put in. Pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.25.

Large Late Drumhead A favorite winter cabbage; recommended for its fine, large, deep, heavy and solid long-keeping heads on short stems. Can be kept in good condition till late in the spring. This is another of our Specialties. Pkt., 5c; oz., 20c; ¼ lb., 65c; lb., \$2.25.

Hollander A heavy yielding late storage type selected from Danish Ball-Head or Hollander variety; highly resistant to yellows; round head type; color similar to Hollander. Pkt., 5c; oz., 20c; ¼ lb., 65c; lb., \$2.25.

Savoy Cabbage

Perfection Drumhead The best Winter keeper of the Savoy; heads late, round, compact and solid. Pkt., 5c; oz., 25c; ¼ lb., 75c.

Golden Acre Cabbage

The Earliest Cabbage. Market gardeners and private gardeners who plant this cabbage cannot praise it high enough on account of its earliness and solid heads, weighing 4 to 5 lbs. usually and sometimes 10 lbs. The plants are very short stemmed and the heads rest almost on the ground. It is very vigorous in growth and sure to yield good crops even in bad seasons. It matures before early Jersey Wakefield. Pkt., 10c; 3 for 25c; ½ oz., 25c; oz., 40c; ¼ lb., \$1.25; lb., \$4.50.

Yellow Resistant Strains The disease called "yellows" causes tremendous losses every year. It is prevalent from Colorado to the Atlantic. Several years ago experts in Wisconsin undertook to breed resistant strains with marked success. We offer resistant strains of these varieties—COPENHAGEN MARKET, ALL HEAD EARLY and HOLLANDER, all at these prices: Pkt., 10c; oz., 35c; ¼ lb., \$1.25; lb., \$4.00.

Pe-Tsai or Cabbage Celery

It is a species of Cabbage with a fine delicate flavor, as tender as head lettuce, and in great demand for numerous dishes such as salads and cold slaw, or it may be cooked quickly. The culture, storing for winter, etc., are the same as for late Cabbage. It cannot be grown successfully as a spring crop. For fall crop, seed should be sown in August. Pkt. 10c; ½ oz., 15c; oz., 25c; ¼ lb., 75c.

HEALTH GIVING CARROTS

Culture This delicious and nutritious vegetable is not appreciated as it should be. Properly cooked, it is a great delicacy. A sandy soil is best, but any good rich soil will produce good crops. Sow in early spring in rows 15 to 18 inches apart and thin to 3 to 4 inches, according to size of variety. Cover the seed half an inch and give good cultivation throughout the season. They may be eaten either when a half inch or so in diameter, or when fully grown. One pkt. will sow about 40 feet; one ounce, 150 feet.

Chantenay or Model This carrot comes between the very early and later varieties. Of the same style as Danvers, not quite so large, but finer quality. Color rich, dark orange. In some markets is preferred to others for bunching. In shape and quality this leaves nothing to be desired in a medium season carrot. Pkt., 5c; oz., 15c; 1/4 lb., 35c; lb., \$1.25.

Selected Danvers Half Long The most largely grown of all for table. Color, rich, dark orange, very smooth, cylindrical, very handsome; easily harvested. It is a heavy yielder and profitable to raise for poultry and other stock. Pkt., 5c; oz., 15c; 1/4 lb., 35c; lb., \$1.25.

Half Long Nantes Grows 6 to 8 inches long. Skin, rich orange color and smooth. For table very fine and free from woody fiber. Pkt., 5c; oz., 15c; 1/4 lb., 35c; lb., \$1.25.

Imp. Long Orange This is the old standard late variety. If it is a matter of keeping for late spring, sow Long Orange. It is a very heavy producer. Profitable to grow for chickens and stock. Give deep, light soil. Pkt., 5c; oz., 10c; 1/4 lb., 30c; lb., \$1.00.

French Forcing OR EARLY SCARLET One of the earliest, small round root. For garden as well as under glass. Pkt., 5c; oz., 15c; 1/4 lb., 35c; lb., \$1.25.

Ox Heart also called **GUERANDE**. It is very early, short, thick and extra fine quality. It is also very popular as an early bunching kind for market. Deep orange color. Finely adapted to shallow, hard soils. Pkt., 5c; oz., 10c; 1/4 lb., 30c; lb., \$1.00.

Rubicon The best in shape, finest quality carrot. This fine carrot is earlier than the famous Danvers and about the same size. The flesh is deep red orange color of the finest quality. An ideal kind for bunching for market and the home garden. Pkt., 5c; oz., 10c; 1/4 lb., 30c; lb., \$1.00.

Chantenay

CARROTS FOR STOCK FEEDING

White Belgian Ten to 15 inches long, very large and productive. Can be pulled by hand. Pkt., 5c; oz., 10c; 1/4 lb., 20c; lb., 75c.

Yellow Belgian Same as White Belgian except color. Pkt., 5c; oz., 10c; 1/4 lb., 20c; lb., 75c.

Imp. Short White Shorter and thicker than the Belgian. Productive. Easily harvested. Pkt., 5c; oz., 10c; 1/4 lb., 20c; lb., 75c.

BORECOLE, OR KALE

Culture Used as Greens in the fall and winter and is most welcome when other vegetables are gone. With a little protection the plant will winter over out doors. Sow seed like cabbage and transplant. Sow July and August.

One packet will plant about 40 feet of row; one ounce about 200 feet.

Dwarf or Curled Scotch This is the variety usually sown in the fall for spring use. The young leaves are very tender and delicate in flavor. Pkt., 5c; oz., 10c; 1/4 lb., 30c; lb., \$1.00.

Siberian A vigorous grower of spreading habit. The leaves are large, rather plain in the center, but cut and frilled at the edges. Very hardy. Pkt., 5c; oz., 10c; 1/4 lb., 30c; lb., \$1.00.

BROCCOLI

Culture Sow the seed in May. Plant in garden late in June or early in July, in rich mellow soil. Set 18 inches by 2 feet.

Large White Heads compact and very certain to head. Delicious. Color white. Pkt., 15c; oz., 60c.

The "Jimmie" Weeder

IDEAL HAND WEEDER
HANDSOME TOOL ON EARTH.

50 Cts.
Delivered

You cannot imagine how this little tool will help in the garden and around flowers until you try it.

The "Jimmie" weed puller gets all the Plantain and other weeds on the lawn. Price only 35c delivered.

CAULIFLOWER

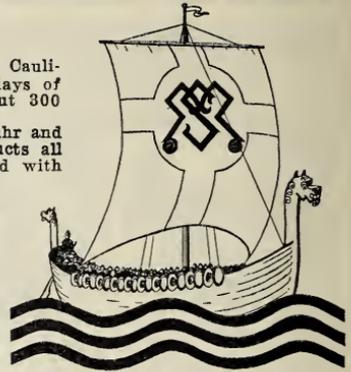

Culture Treat similar to cabbage. Ground should be rich. Cauliflowers make their best growth in the cool, moist days of Fall. One oz. will produce about 2,000 plants; one packet about 300 plants.

Our cauliflower seed is grown in Denmark, by the firm of E. Suhr and Co., who have established a wonderful reputation for their products all over the world. If you have had any reason to be dissatisfied with your cauliflower in the past, get seed of the Suhr strains and it will be the best insurance for a satisfactory crop.

Suhr's Early Snowball For forcing or growing in open ground, it is the acknowledged leader. It has short outer leaves and can be planted 2 feet apart. Is early, solid, pure white and is sure to head. Pkt., 25c; ½ oz., \$1.10; oz., \$2.00; ¼ lb., \$7.00.

Suhr's Dwarf Erfurt as early as the Snowball, heads are larger and creamy white. Has many friends and by some is even preferred to the above variety for forcing and outdoor growth. Pkt., 25c; ½ oz., \$1.10; oz., \$2.00; ¼ lb., 7.00.

Suhr's Dry Weather This variety is of vigorous and dwarf growth and produces stone-hard and snow-white heads. As indicated by the name, it is a leading type for dry weather districts, being a sure header when other sorts fail, sometimes on account of the weather. The large

Trade Marks of E. Suhr Co's Superior Cauliflower Seed.

leaf development protects the head from the hot sun. Pkt., 25c; ½ oz., 1.10; oz., \$2.00; ¼ lb., \$7.00.

POP CORN

Culture The same as for sweet corn except the same amount of seed will plant about twice the space. Three quarts will plant an acre.

White Rice A standard variety. Very prolific. Pkt., 5c; ¼ lb., 10c; lb., 35c; 5 lbs., at 30c.

Queen's Golden The largest eared, largest grained variety. While the grains are yellow it pops perfectly white. Very productive. Pkt., 5c; ¼ lb., 10c; lb., 35c; 5 lbs. at 30c.

Japanese Hulless A splendid variety recently introduced. Coming to be much in demand by poppers. Used exclusively in many sections where known. Yields and commands 50 to 100 per cent better price from poppers than the old varieties.

Perfection Pop Corn

it can hardly contain them. Early, ripens in 90 days. The popped corn is very large, as white as snow, tender and melting, without any hull, or harsh fiber. Large packet 10c; ¼ lb., 25c; lb., 75c.

Our Pop Corn Collection 1 pkt. each, worth 35c. Special price 25c.

"LITTLE WONDER" ELECTRIC POPPER

You can now pop corn anywhere there is an electric light fixture, without bending over a hot stove, and this new way we have found, pops corn that was not considered good by the old way. Popcorn is a healthy cereal. Have it daily like you do toast. A child can operate the popper and delights to do so. Delivered at the price Japanese Hulless Pop Corn. 5 lbs., \$1.00, delivered.

White Rice

A New Pop Corn

Perfection A new pop corn. The grower, from whom we obtained his entire Queen's Golden stock and the right to introduce it, has bred this pop corn from a cross of Japanese Hulless and an unknown variety procured in Texas. This cross was selected and bred for 12 years until it surpasses in yield and popping qualities any other kind. The ears are like in the picture. The grains are white, very deep and so close on the cob that

Bears 2 to 5 ears to stalk. Pkt., 5c; ¼ lb., 10c; lb., 35c; 5 lbs., at 30c.

Baby Golden A yellow dwarf variety. Bears several small chubby ears to stalk. Makes a wonderful reputation wherever offered. Easily brings double the price of White Rice. Pkt., 10c ¼ lb., 20c; lb., 50c.

"LITTLE WONDER" ELECTRIC CORN POPPER

The Popular Winter Sport

ONLY \$1.50

Tasty Celery

Culture Plant seed in house or hot bed for early plants. For main, late crop, it can be sown early in open ground. When 3 inches high transplant to 4 inches apart. When well rooted transplant again to permanent place, on surface or in trenches. Set plants 8 to 10 inches apart. One pkt. will produce about 800 plants. One ounce about 4,000.

New Eureka and Golden Plume or Wonderful. See Specialties on front pages.

Golden Self-Blanching Our strain of this variety is unexcelled. Plants compact and stocky, with yellowish-green foliage; fine nutty flavor. Attains good size; when blanched is of a handsome golden yellow color. Pkt., 8c; ½ oz., 25c; oz., 40c; ¼ lb., \$1.50.

White Plume The earliest and most easily blanched celery in cultivation, hence its popularity. Foliage light green shading to nearly white at tips. Blanching silvery white. An excellent autumn variety. Pkt., 8c; ½ oz., 20c; oz., 35c; ¼ lb., \$1.25.

Winter Queen This grand variety grows stout, thick and heavy, with more heart than most other kinds. It bunches up handsomely, presenting an attractive appearance when offered for sale, while it has that sweet, nutty quality so much desired in celery. Pkt., 8c; ½ oz., 25c; oz., 40c; ¼ lb., \$1.50.

Giant Pascal or WINTER KING. A compact, vigorous, productive variety and one of the best for winter use. Leaves upright, short and dark green. Stalks short, thick and broad; blanches a beautiful yellowish white. Pkt., 5c; ½ oz., 20c; oz., 40c; ¼ lb., \$1.25.

Columbia A very fine early-maturing variety following right after Golden Self-Blanching. The stalks are of medium height, thick, round and crisp. Blanches to a light golden yellow. Altogether very valuable. Pkt., 8c; ½ oz., 20c; oz., 35c; ¼ lb., \$1.25.

Easy Blanching Notwithstanding the splendid varieties of celery that were before the gardening public, this new variety is already enjoying an enviable popularity, purely on account of its great merit. Plants of Easy Blanching, set out at the time of Golden Self-Blanching will be ready for market two weeks later than that variety, but will produce about twice as much weight and will sell at higher prices, because of its magnificent appearance and fine qualities. Its habit is dwarf and compact with a wealth of rich, crisp, nutty flavored hearts and stems, every bite of which will be relished. It blanches with the greatest ease, quite a time before it is possible to get other green celeries ready for market or the table. It is a celery for Summer, Fall, Winter and Spring. Pkt., 10c; ½ oz., 30c; oz., 50c; ¼ lb., \$1.75.

Rose This is the best of the red or pink varieties. Early, hardy, solid, crisp and fine nutty flavor. Pkt., 5c; ½ oz., 25c; oz., 40c.

Celeriac (Turnip Rooted) Celery. Large, smooth, white. The best variety for

Grow Your Own Sweet Corn

HOME GROWN
ALWAYS IS
BETTER

Culture If you do not care for ground is very warm. The small Large kinds, 3 feet by 12 inches 200 stalks; one quart will plant

the seed that may be lost, plant some sweet corn even before the If it comes you will have earlier roasting ears. Ordinarily plant early kinds plant in rows 2½ feet apart, 10 inches apart in rows. apart. Plant frequently for succession. One pkt. will give about one-fifth acre. We do not prepay 10 lbs at price.

Extra Early Varieties

Ex. Early Adams This is not a sugar corn, but a popular white table corn. Hardier than sugar corn. May be planted earlier. Can be planted close. ¼ lb., 10c; ½ lb., 20c; lb., 35c; 3 lbs., at 30c; 10 lbs., \$1.50.

Golden Bantam It is very early, very sweet, very hardy and very productive. It becomes a favorite with all who grow it or eat it. Dwarf, can be planted closely. The prime favorite for small gardens. ¼ lb., 10c; ½ lb., 20c; lb., 35c; 3 lbs., at 30c; 10 lbs., at \$1.75.

White Cory One of the largest and best of extra early sweet corn. Sweet, tender and white. Usually produces two ears on each stalk ¼ lb., 10c; ½ lb., 20c; lb., 35c; 3 lbs., at 30c; 10 lbs., \$1.75.

Medium Early Varieties

Golden Cream (Also called Golden Country Gentleman) A very fine corn on the order of the Golden Bantam and following that popular sort in maturity. The grain is deep, zigzagged and of a rich golden color. ¼ lb., 10c; ½ lb., 20c; lb., 35c; 3 lbs., at 30c; 10 lbs., \$1.75.

Howling Mob A big-eared medium early corn with the sweet flavor of the late varieties; usually two pearly white ears to the stalk: the shuck extends well over the tip and protects it from the green worm. ¼ lb., 10c; ½ lb., 20c; lb., 35c; 3 lbs., at 30c; 10 lbs., \$1.75.

Bantam Evergreen Sweeter than Golden Bantam, almost as tender as Stowell's Evergreen. The ear is a third larger than the Golden Bantam, but only 10 days later. Color, rich, golden yellow. A true sweet corn. ¼ lb., 10c; ½ lb., 20c; lb., 35c; 3 lbs., at 30c; 10 lbs., \$1.75.

Early Evergreen This is similar to Stowell's Evergreen, except that it is almost 2 weeks earlier and the ears are slightly smaller. It is valuable as a second early variety. ¼ lb., 10c; ½ lb., 25c; lb., 35c; 3 lbs., at 30c; 10 lbs., \$1.75.

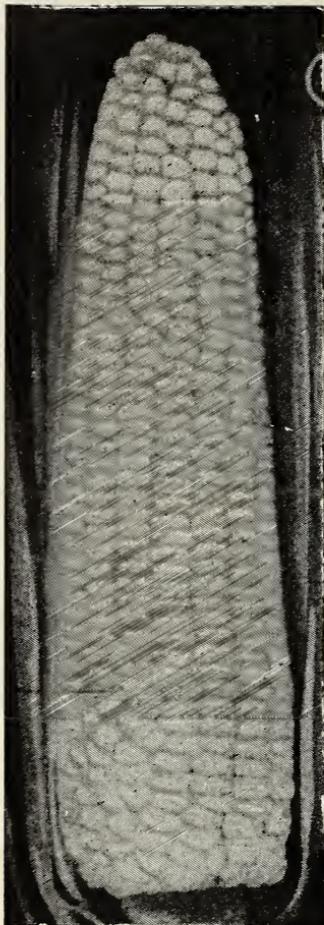

Late Varieties

Stowell's Evergreen The Leading Main Crop Sweet Corn. I know that nearly every person who raises any sweet corn, plants some of this variety. Every person just dotes on the big juicy "roasting" ears when the Stowell's Evergreen comes. Our O. K. Brand is unexcelled. ¼ lb., 10c; ½ lb., 20c; lb., 35c; 3 lbs., at 30c; 10 lbs., \$1.75.

Country Gentleman An especially fine sweet corn. Cob is small, white and densely covered with long, slender, white grains in irregular rows. ¼ lb., 10c; ½ lb., 20c; lb., 35c; 3 lbs., at 30c; 10 lbs., \$1.75.

Black Mexican Where color is not an objection, but luscious sweetness the chief consideration, this black or blue corn in roasting ear stage is unsurpassed. ¼ lb., 10c; ½ lb., 20c; lb., 35c; 3 lbs., at 30c.

Hoosier Roasting Ear Corn This is not true sweet corn, but is of the Early Adam type and fills the same place in the late class of table corns as the Adams does in the early kinds. Pearly white, with cobs, 14 to 16 rows. ¼ lb., 8c; ½ lb., 15c; lb., 28c; 3 lbs., at 25c; 10 lbs., \$1.50.

Whipples White

WHIPPLES Extra Early

White This new sweet corn, remarkable to say, matures as early as the small eared extra early varieties and has ears approaching the size of Stowell's Evergreen. You will find this is correct when you raise it. Try to imagine what this will mean to the market gardener, or even to the family that loves extra early, luscious, deep-grained, large evergreen sweet corn. The commercial grower, who is the first to have Whipples Early White is bound to find it wonderfully profitable. ¼ lb., 10c; ½ lb., 20c; lb., 35c; 3 lbs. at 30c; 10 lbs., \$1.75.

Yellow Very similar to the White, above. Nearly everybody has grown the Golden Bantam. Well, Whipples Extra Early Yellow is just as early and the ears are twice as large. For instance, they grow 7 to 9 inches long with 12 to 14 rows of large golden kernels. The stalks often produce two ears. ¼ lb., 10c; ½ lb., 20c; 1 lb., 35c; 3 lbs., at 30c; 10 lbs., \$1.75.

Special Price -- 30c 70c \$1.25

Received the following seeds from you last season: Early Wonder beets, Golden Acre cabbage, King of Picklers cucumbers, Bell's Colossal tomato, and all of the varieties were excellent.—C. B. Harill, Franklin, Ind.

The Best Cucumbers

Can anything be nicer than cool sliced Cucumbers in Hot Summer?

Culture Cucumbers must have rich soil. New ground is the best. Plant when ground is warm, in hills

3 to 4 feet apart. Thin to 3 or 4 plants to the hill. As vines grow cover occasional joints to induce new roots. Do not let them ripen on the vines, or they will stop bearing. One packet will make about a dozen hills, two pounds per acre.

Early Cluster (Plant this for first crop)—Fruit short, chunky, small. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.25.

Early Frame (For pickles) A famous pickle cucumber producing cukes of medium size and of fine quality. Medium early. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.25.

Green Prolific Or Boston Pickling (For Pickles)—One of the most prolific varieties. Also splendid kind for slicing. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.25.

Chicago Pickling (For Pickling) The right size, shape and color. A heavy yielder. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.25.

Early Fortune (For Forcing) The finest shipping type of White Spine. Early, very productive and disease-resistant. Pkt., 5c; oz., 15c; ¼ lb., 35c; lb., \$1.25.

King of Picklers Cucumbers Has yielded over 250 bu. per acre. It is as fine as can be for pickling and is also fine for slicing. All gardens will be better by having the King of Picklers Cucumbers. Pkt., 10c; oz., 20c; ¼ lb., 50c; lb., \$1.75.

Everbearing (Pickling and Slicing.) For a continuity of crop this variety is hardly equalled. It produces pickling and slicing cucumbers of medium size until frost. Pkt., 5c; oz., 15c; ¼ lb., 35c; lb., \$1.25.

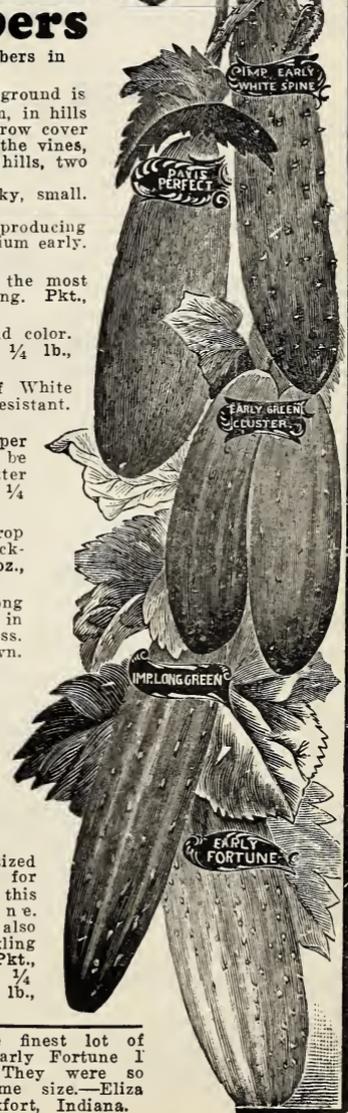

Imp. Long Green (Pickling and Slicing)—This is the old, long cucumber that has always been the choice in thousands of gardens. It will grow a foot long, almost seedless. Fine for pickles when small, and for sweet pickle when full grown. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.25.

Giant Pera (Forcing and Slicing) One of the longest of the Long Green family; fruit often 15 inches, crisp and solid. Novel, distinct, desirable. Pkt., 10c; oz., 20c.

White Wonder Fruit produced in clusters, short, blocky and rounded at both ends; color ivory-white from time of forming until maturity. Pkt., 10c; oz., 20c; ¼ lb., 60c.

Gherkin The fruit is two to three inches long, oval and closely covered with spines. Used exclusively for pickling. Pkt., 10c; oz., 20c.

Imp. E. White Spine (For Slicing.) If you want a good sized plump cucumber, such as is best for slicing get this White Spine. They are also good for pickling when small. Pkt., 5c; oz., 10c; ¼ lb., 35c; 1 lb., \$1.25.

I had the finest lot of pickles of Early Fortune I ever saw. They were so near the same size.—Eliza Moore, Frankfort, Indiana.

Gourds Ornamental and Useful

Culture Start the seed early and transplant, or in open when ground is warm. The following varieties will be found very useful about every house. All are climbers.

Nest Egg They closely resemble the eggs of hens and are very useful as nest eggs, never breaking or freezing. The plant grows very rapidly, and is useful in covering unsightly places, being quite ornamental. Pkt., 10c; oz., 20c.

Dipper Or Calabash. This variety makes a splendid tool for dipping hot liquids. The handles do not heat through. Vines attractive. Pkt., 10c; oz., 20c.

Dishcloth Makes an admirable vegetable dishcloth. The peculiar lining is the part used, which is sponge-like, porous, very tough and elastic. The vines are ornamental. Pkt., 10c; oz., 20c.

Sugar Trough Grows to great size. Cut off the top and you will have a receptacle that will hold from 1 to 10 gallons, and will be useful for many purposes. Pkt., 10c; oz., 20c.

Mixed All varieties mixed. One packet for 10c; one ounce for 20 cents.

COLLARDS

Culture Sow as for cabbage in June, to August for succession. When a month old, transplant in rows a foot apart each way and cultivate well. One oz. will make about 2000 plants.

Georgia Bears large bunches of leaves which are used as greens. It also furnishes green forage for stock or poultry. As fast as the leaves are pulled, new ones make their appearance. Pkt., 5c; oz., 10c; ¼ lb., 30c.

OUR GOURD COLLECTION

One pkt. each of the 4 varieties, at catalog prices, will cost 40c.

Our Special Offer

One pkt. of each,
30c

CRESS

Culture Plant thickly in drills 6 to 8 inches apart. Prized for its piquancy. It makes an appetizing salad and is used for garnishing. One oz. to 1000 feet of row. Grows in the cool season best. Sow often as it goes to seed.

Fine Curled (Pepper Grass) Pkt., 5c; oz., 10c; ¼ lb., 30c.

Water Cress Must be grown by water—along the banks of ponds or streams. Seed should be started in bed and transplanted to where wanted. Pkt., 15c.

CORN SALAD

Culture Sow in early Spring also August, September, October. Treat like lettuce, except it may be planted closer, as it is smaller. It may be carried through the winter in cold frames or by covering with leaves or litter. Used as salad. One oz., to 100 feet of row.

Large Round Leaved The well-known variety. Ready to use in 4 to 5 weeks. Pkt., 5c; oz., 15c; ¼ lb., 50c.

ENDIVE

Culture One of the best fall and winter salads. Sow as soon as ground can be worked in the spring for early crop. For the main crop, sow in August, in drill 15 inches apart, 6 to 8 inches in row. To blanch, tie the leaves, when dry, in matting or any soft material, or invert something over the plants, or even tie them together at top. One Pkt. to 20 feet of drill, one oz. to 100 feet.

Moss Curled Very ornamental as well as good. Pkt., 5c; oz., 15c; ¼ lb., 50c.

Green Curled A standard variety. Hardy and productive. Pkt., 5c; oz., 15c; ¼ lb., 50c.

KOHL RABI

Early White Vienna Forms turnip like bulbs on the stem above ground. Use while young and tender when they are sweet and nutritious. Pkt., 10c; oz., 25c.

LEEK

Culture Sow early in April in drills one foot apart, one inch deep. When plants are 6 inches high transplant 12x16 inches. Set deep in the ground. Leeks are generally considered superior to onions for flavoring soups, etc. One pkt., will make about 200 plants; one ounce about 800 plants.

American Flag The standard variety. The gardener's favorite. Pkt., 5c; oz., 10c; ¼ lb., 30c.

Crisp, Tender, Leaf and Head Lettuce

Culture Lettuce likes a moderately moist, fertile soil. Seed may be sown as early as the ground is fit. Sow every two weeks for succession. The heading varieties should be thinned to 8 inches apart, but if heads are not wanted leave the plants 2 inches apart to grow in a mass. For winter use sow under glass from November to February. Keep in moderate temperature, giving as much light and air as possible. From time of seeding to maturity is 40 or 50 days. One pkt. will produce about 600 plants. One oz. about 3,000 plants.

Simpson (Loose Leaf)—Black seed, crumpled leaves, recommended very highly for an early delicious lettuce. It does not form a head but a bunch of delicate green, almost white, crisp, tender and sweet leaves. It does not run to seed quickly. It is also a favorite for forcing. Largely grown for market. It is a kind that can be cut an dwill come again. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.25.

Grand Rapids (Loose Leaf)—This variety looks like Simpson, but is much better for forcing. It is in fact the chief forcing variety of loose leaf lettuce. Its upright habit permits of close planting. Does very well in the garden, too. Crisp, delicious flavor. Hand-some. A favorite market kind. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.75.

May King (Head) Makes large solid heads 6 to 7 inches in diameter with broad light green outer leaves. Grown outdoors. It is extremely early. The center blanches rich yellow. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.50.

California Cream Butter (Head) Black seed. One of the best of all the class of cabbage-heading lettuce for Fall and Winter. It forms large, nearly round, solid heads which are green, flecked with brown on outside. Most beautiful. It is slow to run to seed. Medium early. Fine for the home gardens and market. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.25.

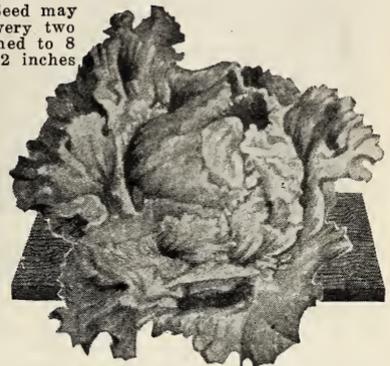

Imp. Hanson (Head) White seed. We have had the Hanson lettuce as long as the writer remembers and there is no likelihood of its popularity waning for some years. It is one of the best mid-summer head sorts. Light green outside, white within. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.25.

Brown Dutch (Head) A late heading medium sized variety; leaves broad, very thick and smooth, with plain edges. Color dark-green, overlaid bronze red. Heads firm and buttery-yellow inside. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.75.

Iceberg (Head)—An extremely hard, heading variety. Has fine appearance in leaf. There is hardly another lettuce that gives better satisfaction both for home and market. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.25.

All Seasons (Head)—Black seed. A very large medium late heading sort. The heads are a light golden tint, well folded, with inner leaves blanched to a rich, buttery yellow, which is so much desired in serving various salads with mayonnaise dressing. Quality splendid. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.25.

Triunion Self Closing—An extremely large strictly self-blanching Cos Lettuce. A loaf-shaped head. Color dark green, quality excellent. Pkt., 5c; oz., 20c; ¼ lb., 65c.

Wonderful or New York

Wonderful or New York (Head) Heads sometime measure 15 inches across. It is distinguished from others by the rich golden-yellowish color on the inside of the heart. The outside of the leaves is a dark green, crisp, tender and delicious. It is one of the best to resist heat and dry weather. We recommend it highly. Pkt., 10c; oz., 20c; ¼ lb., 60c; lb., \$2.00.

BIG BOSTON LETTUCE

Big Boston (Head) This grand lettuce, is more extensively grown than any other kind in many sections, this is both for commercial sale and the home table. It is suited to grow in the open ground and in greenhouses for Winter or cold frames for early Spring. It produces under ordinary conditions fine, large, creamy-white heads, of completely blanched leaves crisp, tender and sweet. Stands a long time. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.75.

WAYAHEAD LETTUCE

A HEAD LETTUCE WITH GOLDEN HEART

Wayahead Lettuce The earliest hard-heading variety. The name of this lettuce was suggested by the fact that it comes way ahead of any other hard heading variety. Every gardener will appreciate the combination of earliness, firm head, handsome appearance and splendid, crisp table quality. It gives a lettuce of finest quality throughout the season. Pkt., 5c; oz., 15c; ¼ lb., 45c; lb., \$1.50.

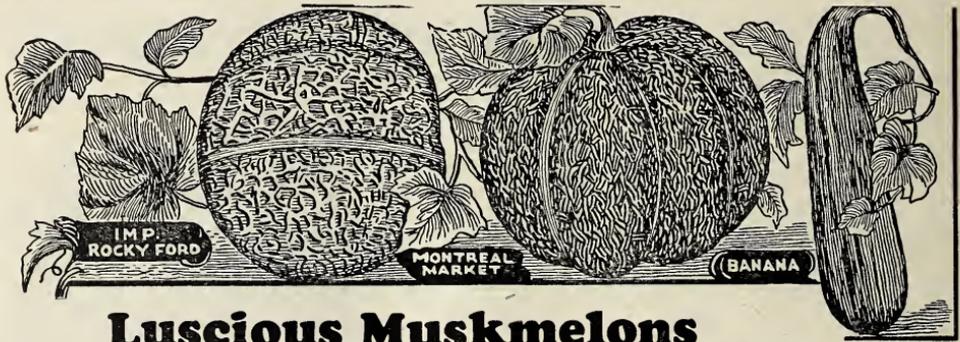

The Mangel beet seed I received of you last year was surely fine. I think every seed grew. Liked them fine and will want more of them this year.—Alta Hines, Rushville, Ind.

OUR LETTUCE COLLECTION

This collection of Lettuce will provide early, mid-season and late lettuces of both leaf and head varieties and assures the finest qualities

Luscious Muskmelons

Culture Select a light, warm soil; a poor light soil is better than a rich, cold, heavy one. Fertilize well. Lay off hills six feet apart. Plant a dozen seeds to the hill, but thin to two to three plants. Pinch the ends off of vines if they encroach on their neighbors, and this will also induce bearing. One pkt. will plant about 15 hills; an ounce 50 hills; 2 lbs., an acre.

Benders Surprise (Orange flesh) The size of the melon is large weighing about 10 lbs., but have grown to weigh 16 lbs. Ripens medium early. Color light green and coarsely netted. The flesh is deep orange, sweet and luscious. Shape slightly oblong, moderately rigid. A valuable feature is that they will keep quite a while after gathering. Delicious for home and market gardens. Pkt., 50c; oz., 15c; $\frac{1}{4}$ lb., 40c; lb., \$1.40.

Hearts of Gold (Orange flesh) The melons are almost perfectly round, thickly netted and very firm so they stand shipping well. The flesh is deep orange color, very sweet and of delicious flavor. The melons are about the size of Rocky Ford. Ripens near to the rind with very small seed cavity, very productive. An excellent melon for shipping as it "holds up" well after picking. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 40c; lb., \$1.40.

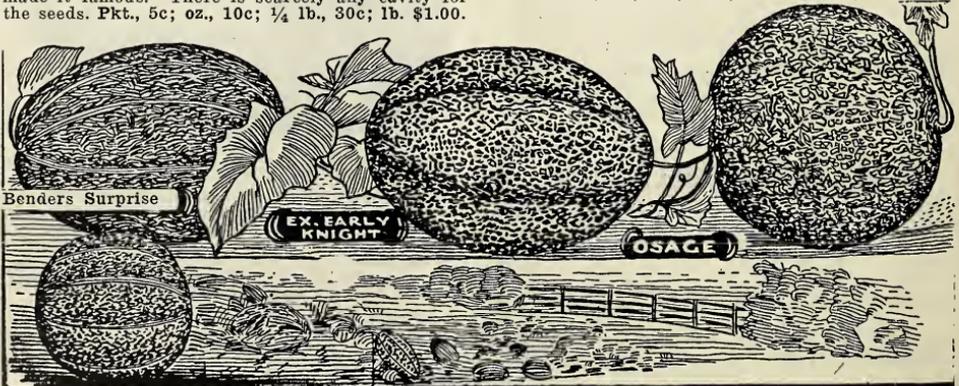

Imp. Rocky Ford (Greenflesh) It is one of the best and has been a most extensively grown and marketed variety of muskmelons. There are several strains of this fine melon, the result of different growers breeding to different types. Our O. K. strain of Rocky Ford gives all that can be desired. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., \$1.00.

Osage or MILLER'S CREAM—(Orange Salmon). Skin is dark green, slightly netted but nearly smooth, medium size, egg shaped. The thick, heavy, juicy, luscious, salmon flesh is what made it famous. There is scarcely any cavity for the seeds. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb. \$1.00.

Extra Early Knight (Greenflesh) When we tell you this melon is earlier than Rocky Ford, about twice as productive and nearly double the size you will surely be interested in it. The melons are nearly round, skin netted, of light golden hue when ripe. The flesh is light green, blending to light pink at the center. A grand home melon. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 35c; lb., \$1.25.

Giant Montreal Market (Green flesh) If you want to raise the very largest muskmelon that grows, that will win the blue ribbon at your fair, and at the same time one that is splendid to eat, pick this one. On good ground they will average around 15 pounds each, but have often reached 20 pounds and one was reported as weighing 44 lbs. They are nearly round, heavily netted, deeply ribbed, thick flesh, season late. When they come to market they bring high prices. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., \$1.00.

Tip Top Greatest Late Market Melon—O. K. Strain is Unexcelled—(Salmon Flesh). This I may say, is the melon for the millions to grow and sell and eat. It is a sure cropper and practically every melon is a good one, sweet, juicy, melting, if you plant a good strain of seed. Grows large, round, ribbed. Appearance is attractive. So popular is it on some markets that other kinds will not sell when it comes. The season is fairly late, but when it comes its size, appearance and good quality commands the market. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb. \$1.00.

Imp. Early Hackensack

Improved Early Hackensack (Green flesh) The result of selection and breeding from the famous old Hackensack. The new type is not so large as the old one, growing to the convenient size of 5 to 6 lbs., shape round, slightly flattened, deeply and broadly ribbed with bold netting. The melon is very handsome and rich looking. Flesh green, thick and sweet, delightful flavor. Just the flavor you like in green melons. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.50.

Honey Dew Melon The average size of the melon is 8 to 10 inches in diameter, solid and juicy. It has a delicious flavor all its own. One person describing it said: "It looks like a large grape fruit, tastes like sweet nectar, and has the mingling of the flavor of pineapple, banana and vanilla." A splendid shipper. Will keep many weeks after other melons are gone. Might be called a winter melon. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

Winter Muskmelon It can be stored in September and used up to Christmas, therefore its name. Medium size. Besides being a great novelty it is of excellent quality and flavor. Pkt. 8c; oz., 15c; ¼ lb., 50c.

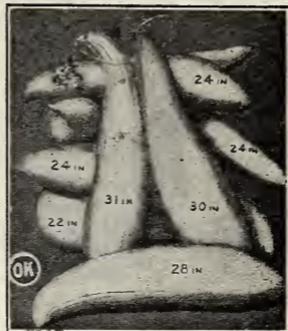

OUR MUSKMELON COLLECTION

Our friends' attention is drawn to the fact that this collection embraces the newer and more expensive varieties which we are desirous of them getting acquainted with.

Banana Muskmelon

Novel appearance. Good quality. Succeeds on ground where others will not. Shape and appearance somewhat like an overgrown banana. It attains a length of from 18 inches to 2 feet, and a diameter of about 2 inches at the stem end to 4 to 6 inches at the largest part. Flesh is salmon, firm, juicy and sweet. It is liked by many people better than the regular muskmelon. Many growers are getting higher prices on the market than the regular muskmelons bring. Price, Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.50.

Golden Champlain (Salmon flesh). The Earliest Melon.

All growers for market know that the first melons bring about double the price. This is a very early melon that has the high quality of the best late ones. They are not large, weighing 2 to 3 lbs. Nearly round and slightly ribbed. The flesh is very deep, tender, rich, golden color. The flavor is good, clear out to the thin rind. They can be picked "ripe" and shipped to market 500 miles away and arrive in good condition. The Golden

Golden Champlain Muskmelon

Champlain is also extraordinarily productive. Probably this is because the vines are sturdy. The strong vines are frequently as thick as a man's thumb. With this melon it is the rule to sell around \$200 worth of melons per acre before competitors have any to market. Price, Pkt., 10c; oz., 20c; ¼ lb., 50c; per lb., \$1.75.

I got the Wayhead lettuce, King of Picklers cucumbers, First Crop radish, and Bell's Colossal tomato and can say that I had a very fine garden.—Mrs. Ed. Elevin, Nineveh, Ind.

WATER MELONS

HALBERT HONEY

ICE CREAM

EVERITT'S & S

Culture A light sandy soil, well exposed to the sunlight is the best situation for growing watermelons. Prepare the ground with deep working, but later give shallow cultivation. Frequent hoeings are essential. Plant in hills 8 to 10 feet each way, with a very generous shovelful of well rotted manure mixed with the soil in each hill. In using commercial fertilizer, it should contain a large percentage of ammonia and potash. Put 8 to 10 seeds in a hill and finally when danger from insects is past, thin to 3 strong plants. It requires an ounce to plant 20 to 30 hills, one pkt. about 5 hills. 4 to 5 lbs. per acre.

Halbert Honey

Shape oblong, well filled to the ends, skin very dark green showing a faint longitudinal tracing, or indentation in the rind; medium early and fairly large; flesh crimson and very sweet. Pkt., 5c; oz., 10c; ¼ lb., 30c; 1 lb., \$1.00; 5 lbs., at 85c.

Peerless or Ice Cream

Very early, of uniform size, and one of the best for growing in the North. Oblong in form; rind thin, light green, mottled and finely veined with a darker shade; flesh bright scarlet and very sweet; seeds white. Pkt., 5c; oz., 15c; ¼ lb., 30c; lb., \$1.00; 5 lbs., at 85c.

Everitt's Earliest and Sweetest

The best home watermelon. Very early and deliciously sweet. It fairly melts in your mouth. This melon is the earliest and sweetest of all. It has been selected for many years for these qualities. The size averages from 10 to 12 pounds. The flesh is scarlet, of extra sweetness. It is also one of the most prolific known. Is adapted to grow on ground that will not produce other melons, and northern latitudes where larger and later kinds will not succeed. Wherever you live plant some of them. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00; 5 lbs., at 85c.

Indiana Sweetheart

There are two general classes of watermelons—round or oblong and long. Some prefer a round melon, others the long, but this preference is not so positive, except quality goes with the choice. Of round to oblong melons the Sweetheart is the choice of many. It grows large, is early, heavy, a long keeper, fine quality and good shipper. Skin mottled green. It is very productive. Sweethearts usually bring a good price when others will be neglected. This is because of their handsome appearance and fine qualities. This melon remains in good condition longer than most others, even improving in its quality for a time. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

Tom Watson

(Long) The most Popular Shipping Melon—An extra-long melon of attractive appearance, uniform in shape and quality. The average melon will weigh 30 to 40 pounds and measure about 24 inches long and about 10 inches in diameter. It is very prolific, producing in greatest abundance the large, delicious fruits. We sell a very fine selection of this popular melon. Pkt. 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 5 lbs., or more at 75c.

Red Cut Tom Watson

This special grade of seed was all saved from extra true specimens and every melon had to cut perfectly red to the center. Such selection has been kept up by our grower for years. The very particular grower will be sure to select this seed. Pkt., 10c; oz., 25c; ¼ lb., 75c; lb., \$1.50; 5 lbs., at \$1.25.

Gypsy or Rattlesnake

Large and oblong; rind very tough and in color a distinctive pale, light green, much mottled and striped very dark green; seeds white. An attractive and fine shipping melon. An old favorite. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00; 5 lbs., at 85c.

Imp. Kleckley Sweet

or Monte Cristo (Long)—I may say the good qualities of this melon up in these words—unsurpassed in productiveness for nearby market selling and for eating quality. Its popularity is increasing each season. It is early, but grows very large. Skin is rich, dark green shaded with faint lines of lighter green. It is not a shipping melon. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00; 5 lbs., 85c.

Imp. Golden Honey

(Yellow flesh) Dark green, thin rind, golden yellow flesh. The great lump of pulp is of a luscious sweetness rarely met these days in a watermelon. Weight 12 to 20 lbs. Pkt., 5c; oz., 15c; ¼ lb., 50c. 1 lb., \$1.50.

Colorado Preserving

Grown for making preserves. This is the best variety.

Pkt., 5c; oz., 15c; ¼ lb., 40c; 1 lb., \$1.25.

Orange Watermelon

(See Specialties)

TOM WATSON

SWEETHEART

Particular Mention

We do not urge upon planters the trial of untested varieties or novelties. However, there are many people now constantly working to produce new and superior kinds, by selection and breeding, that we would not do our duty to the public if we did not, through this catalogue, give them the opportunity to procure improved varieties, the result of such work, for their planting. To this end we offer a "Specialty" list, the cream of the new vegetables, on pages three to eight and numerous superior varieties through the catalogue.

We must turn to the cookery of our immigrant neighbors to appreciate **LEEK**. But we do learn new dishes from them every year. The **LEEK** is a most satisfying pungent vegetable.

COS LETTUCE is so richly flavored that it is delicious, eaten with just salt.

From our Southern neighbors we learn the merits of **OKRA** or **GUMBO**. It is as much a standard vegetable with them as peas are with us. The plant has a beautiful blossom and is worthy a place in a flower garden, until you appreciate it as a vegetable.

The **GIANT SWEET PEPPERS**, which are generally known as "mangoes" are usually stuffed with cabbage and used as pickles for the winter. There are so many dishes, however to which the sweet pepper adds a distinctive flavor that one can use them practically every day, in one way or another.

Then there are the **WINTER RADISHES**—such a happy surprise for the dinner table, when "made," relishes have begun to pall on the appetite. The easiest of all "green" vegetables to raise, the simplest to keep and to serve.

KOHL RABI is another neglected vegetable. It will thrive under conditions which would discourage almost any other plant. The flavor is more delicate than that of the turnip and it comes at the time when one is beginning to long for the "first mess of turnips."

If I never used **CRESS** or **PEPPERGRASS** for anything only for flavoring potato salad, I should never want to be without it.

We raise "greens" like **MUSTARD** and **KALE** and **SPINACH** in our garden because we learned long ago that "spring fever" never visits homes where plenty of succulent vegetables are served all winter. They are cheaper and more palatable than medicine.

EGG PLANT is so quickly and easily prepared, and is such a wholesome dish that one marvels at the lack of popularity. Is it possible that people do not use more of it, simply because they have never tasted it! Try some in your garden this year and in future years you will always order egg plant seeds along with the "old standards."

Above all things else, let no vegetables go to waste. The well-balanced diet demands green vegetables for winter use as well as summer, and your family's good health will repay you for every hour spent in storing, canning and drying the surplus.

Above all things else, let no vegetables go to waste. The well-balanced diet demands green vegetables for winter use as well as summer, and your family's good health will repay you for every hour spent in storing, canning and drying the surplus.

Also there are several splendid vegetables which are so commonly neglected, as far as the home gardens are concerned, that we are sure their merits are not known. To enlighten our readers, and to persuade them to buy them and raise them more generally, to their own satisfaction and profit, we mention the following:

There is **ASPARAGUS**, for example, coming as it does before the main garden crop has appeared above the ground. It is not only a most palatable dish, but is very valuable as a tonic and corrective of any blood disorders brought on by the winter diet and living. Once planted, lasts many years.

BROCCOLI and its cousin, the **CAULIFLOWER**, give a "different" dish to add to the family table. Purchase them in the city markets, or order them from a hotel bill of fare, and you will like to know that you can raise them at but little cost—the very vegetables which your city neighbors consider luxuries.

BRUSSELS SPROUTS is another vegetable with similar flavor, and which may also be used in "Mixed pickles" by the woman who appreciates surprises for her family. The tiny heads, which are really miniature cabbage heads, are delicious, used as you do cabbage, in any form.

So many people do not appreciate **CARROTS**. Perhaps if the women and girls realized that they are recommended as the surest producer of clear, rose-tinted complexions there would be more of them eaten.

ENDIVE should have a place in every garden, for its beauty as a garnish if for no other reason. It is comparatively unknown in many localities, but it is really more highly flavored than lettuce—and much daintier as a salad.

60c

*As Good as Any - Better than Many
and the price is in your favor*

CELEBRATED "G" ONION SEED

Culture The ground for onions must be rich and it should have been in cultivation for a year or more. Pulverize not more than 5 inches deep. The seed bed must be fine. For large onions in fall, drill about 4 lbs. per acre in rows 14 to 15 inches apart. Weeds must be kept out. Pull when tops begin to dry down. For sets sow 40 to 60 lbs. per acre in drills 12 inches apart. We offer onion plants on the next page.

THE THREE SOUTHPORTS

Southport Yellow Globe Globe shaped. All that can be asked for in table and market and keeping qualities it possesses. Extensively grown for best market demand and home gardens. Pkt., 5c; oz., 20c; ¼ lb., 65c; 1 lb., \$2.50.

Southport White Globe Identical in appearance with the Southport Yellow Globe, except it is as white as a clean snowball. Pkt., 10c; oz., 30c; ¼ lb., \$1.00; 1 lb., \$3.00.

Southport Red Globe And this also is identical in appearance to the Yellow and White, except its color, which is Red. The three colors of Southport Globe Onions make heavy yields and get the top prices. Pkt., 5c; oz., 25c; ¼ lb., 75c; 1 lb., \$2.50.

Yellow Globe Danvers See "Mile High" strains in Specialties.

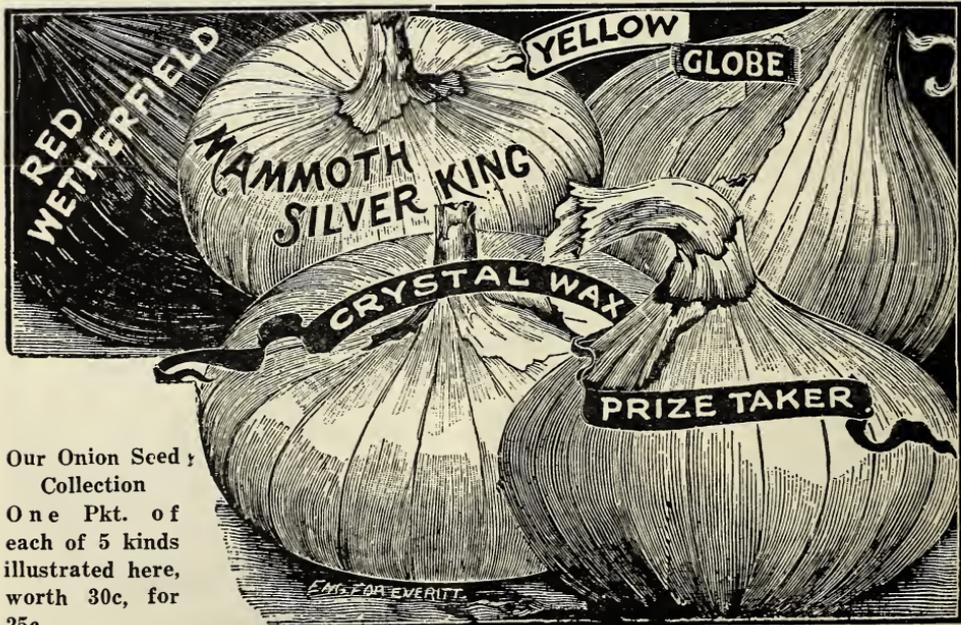

Large Red Wethersfield Noted for productiveness and keeping qualities This is the largest of the red onions. Grows to full size from seed the first year.

GROWING OUR ONIONS FOR SEED.

The bulbs are large, flat in shape, purplish, red skin. Flesh a purplish white color, not too strong flavored to meet the popular taste. One of the best keepers. It succeeds almost everywhere. Very productive. The O. K. Strain of seed is unexcelled. Pkt., 5c; oz., 15c; ¼ lb., 50c; 1 lb., \$1.75.

Yellow Strasburg or Dutch Little darker than the Danvers, more flattened and a little later. This is sown largely to raise yellow sets because of its splendid keeping qualities. Pkt., 5c; oz., 20c; ¼ lb., 65c; 1 lb., \$2.00.

I have been buying vegetable and flower seeds from you for several years and I have better success with them than any I can buy. In 1927 I raised the finest cabbage from the seeds I bought of you that I ever raised. I am going to get my seeds from you again later on this Spring.—Mrs. M. L. Herman, Conover, N. C.

Our Onion Seed Collection

One Pkt. of each of 5 kinds illustrated here, worth 30c, for 25c.

Ebenezer, or Japanese Onion An exceeding-ly fine onion introduced from Japan that is of mild and pleasant flavor and that will keep all winter. The onions are flattened of a light yellow color. They can be raised successfully from seed or sets. Ripens early and all at the same time. Has very small neck. This variety keeps late in the spring which is an advantage over all others. Pkt., 5c; oz., 20c; ¼ lb., 60c; lb., \$2.25.

Crystal Wax This is of the Bermuda Onion class and is the most attractive onion of all. It is beautiful, pure waxy white, which causes it to sell on "sight" in any market and at high prices. Tender and deliciously sweet. Eat it from hand like an apple, or just make a sandwich with it and it will tickle your palate. We have them in plants also. Pkt., 10c; oz., 30c; ¼ lb., 85c; lb., \$3.00.

Yellow Bermuda The description of the Crystal Wax will apply to this except the color, which is light straw color. Both these Bermuda onions are of quick growth and large sizes. They are also suitable for pulling green. We have them in plants also. Pkt., 10c; oz., 30c; ¼ lb., 85c; lb., \$3.00.

White Portugal or **SILVER SKIN**—Very early, grows to large size, flat, mild flavor. Largely grown for white sets, also is extensively used for bunching and pickles. Pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

Prizetaker Magnificent onion. It grows quickly attaining a large size from seed. It is beautiful and the table quality delicate and mild. Also any that can be spared for sale always bring an extra price. Pkt., 10c; oz., 25c; ¼ lb., 45c; lb., \$2.00.

White Pickling A fine white onion and the best for pickling. The bulbs quickly grow to a nice, small, uniform size, beautiful white color. Mild flavor. Pkt., 5c; oz., 20c; ¼ lb., 75c; lb., \$2.50.

Mammoth Silver King Averages 15 to 22 inches in circumference and weighs 2½ to 4 lbs. It matures early. Pkt., 5c; oz., 20c; ¼ lb., 75c; lb., \$2.50.

ONION SETS

By planting sets you can have onions to eat, or market in one-fourth the time required from seed. Set onions come off so early that a second crop can be grown on the ground. Write for prices in large quantities.

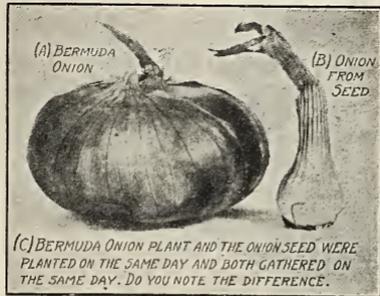

WHITE, lb., 35c; 5 lbs., at 30c.
YELLOW, lb., 35c; 5 lbs., at 30c.
RED, lb., 35c; 5 lbs., at 30c.
EBENEZER SETS, lb., 35c; 5 lbs. at 30c.

Potato Onion This excellent onion multiplies by the parent bulb dividing. You plant the Onion and it grows and divides and makes sets. You plant the sets and they make large onions to use. Large onions, lb., 30c; 5 lbs., at 25c. Sets lb., 35c; 5 lbs., at 30c.

Egyptian or Winter Plant as early as possible, even in the winter. They produce green onions for the table and top sets to plant. Also the old planting continues year after year. Lb., 25c; 5 lbs., at 20c.

Ask for prices on larger quantities.

ONION PLANTS

Onion plants are now preferred by many planters to the dry sets or seed. They are grown in Texas and when planted in the North just as large, beautiful and mild onions can be grown as formerly were shipped in. From plants you can rely upon a full crop of perfect onions in a short-time.

VARIETIES—Crystal Wax (white) and Yellow Bermuda. In small gardens set them 4 inches apart in rows 6 inches apart. Thus a plat 12x12 feet will take 1,000 plants and if allowed to mature, instead of pulling for green onions, will yield 5 to 8 bushels.

Prices, delivered to customer: 500, \$1.00; 1000, \$1.85; Crate of 6000 plants, not prepaid, \$6.00. We do not accept orders for less than 500.

PARSNIPS

Culture Give rich soil, and to the long kinds deep soil. Plant very early in rows 18 inches apart. Cover seed one-half inch. Thin to 3 to 5 inches. Will keep in the ground over winter and improves in quality. One pkt. for 50 feet of drill; oz., 200 feet; 5 lbs., per acre.

Imp. Hollow Crown or Large Sugar. This is the best table variety. Also is a great producer and profitable to grow for stock. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 80c.

Guernsey Not so long, but thick. Suited to shallow ground. Heavy yielder. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 80c.

OKRA

Its green seed pods are used in soups or stewed like asparagus. Sow seed in drills 2 ft apart. Thin to stand 9 inches apart. Draw soil to stems as they grow.

White Velvet A good kind. Pkt., 5c; oz., 15c; ¼ lb., 50c.

Perkins Mammoth (Long Green) Very early and productive. Plant grows 3 feet high. Pods green, very long and slender. A fine variety. Pkt., 10c; oz., 20c; ¼ lb., 60c.

MUSTARD

Culture Sow in drills 1 foot apart. Cover lightly. For a succession sow each two weeks. Water copiously if weather is dry. Cut when not over 3 inches high. Used for salads.

Southern Giant Curled The best kind. Leaves a b o u t twice the size of the old kind. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 65c.

PARSLEY

Culture Drill one foot apart, cover one-eighth inch. Seed germinates very slowly so have patience. To soak the seed a few hours in warm water will hasten its germination. Thin to four inches when two inches high. A small plat sown broadcast, thinly, will do very well for a family supply. Prized for garnishing and for flavoring soups. One pkt. will produce many plants.

Moss Curled An elegant decorative variety. Also has high flavoring properties. Pkt., 5c; oz., 10c; ¼ lb., 25c.

Plain or Single This has plain leaves instead of curled. Pkt., 5c; oz., 10c; ¼ lb., 25c.

Wrinkled and Smooth Peas

Culture Plant peas early in the Spring so the crop will be off before hot, mid-summer. Peas never do well in mid-summer, but may be planted late to grow in the cool Fall. Plant the dwarfs in rows 2½ feet apart; the tall ones 3 feet apart, plant three to four inches deep. A pound will plant about 100 feet; 120 to 150 pounds for an acre. The wrinkled peas are the sweetest. Write for prices of Peas by larger quantities. Our prices on 3 lbs. or less include delivery. We do not put up smaller packets than ¼ lb.

See our Specialties on front pages of this catalogue for some new types of Peas which are improvements over the old kinds and which should be given preference.

EXTRA EARLY AND EARLY SORTS

Alaska (2 ft. smooth)—A pea of fine quality. Largely grown for market, commercial canning and in the home garden. ¼ lb. pkg., 10c; ½ lb., 20c; lb., 35c; 3 lbs. at 30c; 15 lbs., \$2.75.

American Wonder (1-ft. wrinkled)—The well-known dwarf pea, Extra early and exquisite quality. ¼ lb., 10c; ½ lb., 20c; lb., 35c; 3 lbs., at 30c; 15 lbs., \$2.75.

Gradus, or Prosperity (2½ ft. wrinkled)—Extreme earliness, only three to five days later than the early smooth peas. Finest quality and great productiveness are combined in this pea. These things recommend it to the home and for market gardener. ¼ lb., 10c; ½ lb., 20c; lb., 35c; 3 lbs., at 30c; 15 lbs., \$3.00.

Nott's Excelsior (1½ foot wrinkled)—Considered by many the best extra early wrinkled pea. It is nearly as early as American Wonder, while the pods are larger, with 6 to 7 peas, and many more of them. The quality is very fine. ¼ lb., 10c; ½ lb., 20c; lb., 35c; 3 lbs., at 30c; 15 lbs., \$3.00.

First and Best (2½ ft. smooth)—This is of the Alaska type, but is a little later with larger pods and much more productive. Very largely planted for home and canning. ¼ lb., 10c; ½ lb., 20c; lb., 35c; 3 lbs., at 30c; 15 lbs., \$2.75.

Quantity and Quality This named pea was so large productive and splendid because of its large productiveness and splendid table qualities. It is medium early and grows about 24 inches high. Pods are large and of blocky shape. The peas are wrinkled, green and for eating are near perfection, being rich, buttery and marrow-like. ¼ lb., 15c; ½ lb., 25c; lb., 45c; 3 lbs., at 40c. 15 lbs., \$3.00.

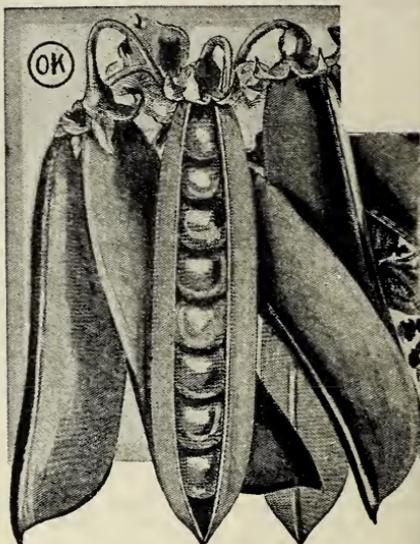

Thomas Laxton (2½ ft. wrinkled) The favorite large-podded market gardeners' variety and probably more generally grown for market purposes than any other sort. Numerous well-filled pods 3½ inches long, nearly round, square ended and of high quality. Noted for its productiveness and dependability. ¼ lb., 10c; ½ lb., 20c; lb., 35c; 3 lbs., at 30c. 15 lbs., \$2.75.

LATE VARIETIES

Champion of England (4 to 5 feet wrinkled)—Highly prized by those who are fond of a large, tender and luscious pea. Hardy and vigorous in growth; pods 3 inches long. A very profuse bearer. ¼ lb., 10c; ½ lb., 20c; lb., 35c; 3 lbs., at 30c; 15 lbs., \$3.00.

White Marrowfat (5 to 6 feet. smooth)—An old variety. A heavy and sure cropper. It is a smooth pea and while the quality is not as good as the wrinkled peas, its heavy yields, long bearing and productiveness are qualities to recommend it. ¼ lb., 10c; ½ lb., 20c; lb., 35c; 3 lbs., at 30c; 15 lbs., \$2.50.

Alderman (4 ft. wrinkled)—A fine mid-season variety, maturing just after the extra early ones and before the late kinds come in. It grows 4 to 5 feet tall, hence should have support. The pods are four to six inches long,

borne in pairs and contain 7 to 9 large green peas in each. Very productive. ¼ lb., 10c; ½ lb., 20c; lb., 35c; 3 lbs., at 30c; 15 lbs., \$3.00.

Horsfords Market Garden (3 ft. wrinkled)—It is a very heavy cropper. It is extensively grown for canners. Is stiff and does well without support. ¼ lb., 10c; ½ lb., 20c; lb., 35c; 3 lbs., at 30c; 15 lbs., \$3.00.

Telephone (4 ft. wrinkled)—A standard, high-quality, large podded pea. Vine and foliage strong and heavy. Pods 4¼ in. long, medium green, straight, broad and pointed, containing 8 large, light green peas; main crop, productive. ¼ lb., 10c; ½ lb., 20c; lb., 35c; 3 lbs., at 30c; 15 lbs., \$3.00.

Sugar Pea (Edible Pods) (3 ft. smooth)—This distinct pea is used like stringless beans. The pods are tender and are broken and cooked with the peas. Very sweet and delicious. Try them and you'll like them better than shelled peas alone. ¼ lb., 10c; ½ lb., 25c; lb., 45c; 3 lbs., at 40c.

I have bought goods of your firm for three or four years, especially seed. I bought peas from you that you cook the pods on and those were fine. Also, lettuce and radish seed which were good.—Mrs. Mary M. Smith, Princeton, Ill.

The Best Mild and Hot Peppers

World Beater

WORLD BEATER

The introducer of this pepper said, "It is the finest introduction of a pepper in ages." It is a cross of Chinese Giant and the Ruby King. Its chief improvement is in the fact that it is much more prolific than the Chinese Giant, some plants having yielded two dozen marketable peppers. The flavor is so mild that it can be sliced and eaten raw. The fruit is green until it ripens, when it takes the scarlet color. The flesh is so thick that it holds up a long time making it one of the best shippers. Order this and have something you will be proud of. Pkt., 10c; 3 pkts., 25c; ½ oz., 40c.

Large Bell or Bull Nose An old standard sort, mild flavor. Red color when ripe. Excellent for mangoes. Pkt., 10c; ½ oz., 25c; oz., 40c; ¼ lb., \$1.25.

Chinese Giant One of the very largest of the mild red varieties. Plant of short stocky growth, with light green foliage, fruits pendant, thick, blocky and square ended. 4 to 5 inches in diameter and of equal length; color, brilliant, glossy scarlet. Pkt., 10c; ½ oz., 30c; oz., 50c.

Golden Queen

If you want a yellow mango as well as the red, select this one. It is not too much to say that the red and yellow mangoes ought to be served together as they are then very ornamental. Pkt., 10c; ½ oz., 25c; oz., 40c; ¼ lb., \$1.25.

Golden Queen

Royal King This new sweet mango pepper sprang from a plant found growing with a crop of Ruby Kings. The Royal King averages nearly twice as much meat as the old Ruby King. It is also a heavier bearer. Is most beautiful in color and its shape is all that can be asked for, while it also has all good qualities for shipping to distant markets. Pkt., 10c; ½ oz., 25c; oz., 40c; ¼ lb., \$1.25.

Royal King

Ruby King A very good old variety, productive. Handsome. Bright ruby red color when ripe. Pkt., 10c; ½ oz., 25c; oz., 40c; ¼ lb., \$1.25.

Perfection Pimento This new pepper grows quite tall. Its productiveness, bearing until killed by frost, makes it very profitable to the market gardener, while its desirable size and shape, thick flesh and agreeable flavor makes it a favorite in every kitchen. Color, crimson-scarlet. Their meat is never hot but of a very agreeable sweet flavor. Pkt., 10c; ½ oz., 25c; oz., 45c; ¼ lb., \$1.50.

Cayenne This is the hot pepper, used for seasoning. Long and tapering. Very yielding. Pkt., 10c; oz., 35c.

Cayenne

Red Chili cal, about 2 inches long, Sharply conical, brilliant scarlet, very hot; used for chili and pepper sauce. Pkt., 10c; ½ oz., 25c; oz., 45c.

A PAGE OF GOOD PUMPKINS.

Culture Plant when the ground is warm in hills 6 to 10 feet apart depending on the variety. Some varieties like large Cheese, Tennessee Sweet Potato, Sugar Pie and Big Tom may be planted in the corn field. A pkt. will plant about 10 hills; one oz., about 50 hills; two to three lbs. to acre. (The numbers identify the illustrations).

King of Mammoths (1)—If you want to grow pumpkins of mammoth size, from curiosity or to exhibit, pick this one, or the Mammoth Tours. This K. of M. grows to enormous size, often 2 feet or more in diameter. The flesh is salmon color and finer grained than you would think, considering its size. To get the largest specimens, allow only one vine to the hill and only one or two pumpkins on the vine. Pkt., 5c; oz., 15c; ¼ lb., 35c; 1 lb., \$1.25.

Mammoth Tours (2)—A French variety which grows to immense size. The pumpkins may be either long or round. Are very heavy if well grown, frequently exceeding 100 lbs. Quality real good. Pkt., 5c; oz., 15c; ¼ lb., 35c; 1 lb., \$1.25.

Mammoth Etampes (3)—Another French kind that is quite an attraction. The skin is bright, glossy red and excites favorable comment on exhibition or on sale. Flesh very thick, heavy. Quality is excellent. Attains very large size. Pkt., 5c; oz., 10c; ¼ lb., 30c; 1 lb., \$1.00.

Large Cheese or Kentucky Field (4)—This is the large flat, solid, heavy, cream-colored "sweet" pumpkin, extensively grown in corn field for stock. Sells well on the market. It is the variety used by most canners. Keeps well in winter. Pkt., 5c; oz., 10c; ¼ lb., 20c; 1 lb., 50c; 3 lbs., at 45c.

Tennessee Sweet Potato (5)—A pear-shaped variety of splendid qualities. The flesh is white, fine-grained, solid and thick. When cooked has the appearance of sweet potatoes and some people say it tastes better. Excellent for pies and custards. Prolific. Keeps well until late Spring. Pkt., 5c; oz., 10c; ¼ lb., 20c; 1 lb., 60c; 3 lbs., at 50c.

Sugar Pie (6)—The chief end of pumpkins is to make pies, and I consider this is the best pie pumpkin. It is small, perhaps it was made small so enough good quality could be supplied. Very solid. Orange skin. Fine grained and exceedingly productive. Even very small garden should have a hill of Sugar Pie pumpkins. A good keeper. Pkt., 5c; oz., 10c; ¼ lb., 20c; 1 lb., 65c.

Big Tom (7)—An improved strain of the Connecticut Field or Yankee. Grows to large size and extremely productive. Their chief value is for feeding stock. Pkt., 5c; oz., 10c; ¼ lb., 20c; 1 lb., 50c; 3 lbs., at 45c.

Golden Oblong (8)—A medium size, solid, productive, long keeping variety. Excellent variety for cooking summer and winter. Pkt., 5c; oz., 10c; ¼ lb., 25c; 1 lb., 85c.

Japanese Pie (9)—The best crook-necked pumpkin. Called "Japanese" because the seeds are curiously marked with characters like Japanese writing. The flesh is salmon color, fine grained and more dry than some sweet potatoes when baked. First class for pies, etc. This is a good kind to cut in strips, or pieces and dry like apples, for future use. Pkt., 5c; oz., 10c; ¼ lb., 25c; 1 lb., 85c.

Cushaw, or Golden Crookneck (10) A popular variety with a hard shell. The pumpkin often grows two feet in length with small seed cavity in the boll, while the long neck is solid meat. Flesh golden yellow. Fine for pies and, because of great productivity, profitable to grow for stock feed. Pkt., 5c; oz., 10c; ¼ lb., 25c; 1 lb., 85c.

(Continued on next page.)

OUR PUMPKIN COLLECTION

Here are ten splendid, interesting varieties of pumpkins. One pkt. of each is priced for 56c cents, but we will send the collection and include a packet of the new Canners Supreme pumpkin (See next page) for only 40c.

11 Packets for ----- 40c

CANNERS SUPREME PUMPKIN

This variety originated by a canner who operates on a large scale. Years ago he said, "I felt the need of a better pie and canning variety so I crossed the large Connecticut Field Pumpkin and a little pie pumpkin, then I made selections until I produced this variety. For large size, thick meat and heavy weight they are not equaled by any other. More tons can be grown per acre of this variety, whether by themselves or with corn than of any other."

Price, Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., 85c; 3 lbs. or more at 75c.

PUMPKINS GALORE

To the right is a photograph of pumpkins grown from one collection of our pumpkin seed, as offered on the preceding page. Grown and photographed by W. A. Jones, Belmont, O. See our offer on preceding page.

Remember, we give \$1.50 worth of Pkt. Seeds For \$1.00.

Select to Value of \$1.50
And send only \$1.00.

Our Collection of Pkt. Seeds must not be included in this offer.

Radishes--Spring, Summer and Winter

Culture All varieties of radishes thrive best in a rich, not too heavy soil, and a sandy loam is best. For early use, sow in the hot bed in February or outdoors as soon as the ground can be worked in rows 6 to 10 inches apart, covering the seed ½ inch deep. Thin to 1 inch apart in row. The Summer varieties may be sown at the same time, coming on after the earlier sorts are gone. The winter varieties should not be sown until about August 1st. Sow every week or 10 days for succession until hot weather comes on. One oz. of seed will plant 100 feet of drill.

French Breakfast Extremely early olive-shaped, scarlet with white tip. This is a popular radish for first on the table. Crisp when young, but soon becomes pithy. Pkt. 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 3 lbs., at 75c.

First Crop Radish It is the earliest of the round radishes and the slowest to go to seed. This makes it a wonderfully profitable market variety and desirable for forcing. Round as a ball bright scarlet, with the smallest top. Crisp and finest quality for a long time. Has made bunching radishes in 20 days from sowing the seed. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 3 lbs., at 75c.

Scarlet Turnip White Tipped

Its name describes it. A beautiful extra early radish of fine quality. For forcing and garden. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 3 lbs., at 75c.

Scarlet Turnip Extra early. A famous variety for forcing. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 3 lbs., at 75c.

White Turnip Both skin and flesh are pure white. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 3 lbs. at 75c.

Sparkler Ready for table in 25 days. I consider it a little better and a little prettier than any of the other little radishes that come extra early. It is globe shaped, brilliant cardinal with more white tip than the old S. T. White Tipped. Ready to use in about 25 days. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 3 lbs. at 75c.

White Turnip Scarlet Turnip Scarlet Turnip W. T.

Crimson Giant A new intermediate radish that grows very large often 5 to 6 inches in circumference, but never gets pithy. It is good for garden but top is too large for best forcing. Nearly round, crisp and juicy. You better get this one. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 3 lbs. at 75c.

"BEST I EVER PLANTED"

I received some of your seeds last Spring. They are sure fine seeds and they sure come up nice. I never had any seeds to come up better. I expect to get some of your seeds this coming Spring for I think they are the best I ever planted.—Anna Alvey, Beulah, Mo.

LATER VARIETIES

Long Scarlet (Short Top)—This is the old popular, long, slender, dark red quick-growing radish. It comes very early. 25 to 30 days and is one of the choicest quality. The O. K. Strain seed is unsurpassed. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 3 lbs. at 75c.

Cincinnati Market (Also called Glass Radish)—Very similar to L. S. S. Top, but preferred by many growers. It is a darker color, a little larger and a little smaller top. Preferred by Southern and Western growers. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 3 lbs. at 75c.

Chartier While the early long scarlet radishes are all similar in some respects, yet our list would not be complete without this handsome one. The top is crimson, about half way down it blends off to pink and the bottom runs to waxy white, stands a long time and quality is splendid. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 3 lbs. at 75c

Selected Icicle If you want the best long white radish, select this one, which in all respects, except color, is like the scarlet ones. It is very handsome attractive and good. The flesh is about as brittle as an icicle, which suggested its name. Extremely quick growth. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 3 lbs. at 75c.

White Strasburg This is semi-oblong, thick at top and tapers regularly. Very late but can begin to use it when young and small. In this respect it is truly an all season variety. It never gets pithy. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 3 lbs., at 75c.

WINTER RADISHES

White Chinese Grows large oblong. Color white. Fine texture and flavor. One of the best Winter Radishes. Roots grow 6 to 8 inches long and 3 inches thick. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 3 lbs. at 75c.

Rose Chinese Same as the former except in color. Roots 4 to 5 inches long. Pkt. 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 3 lbs. at 75c.

Round Black Spanish A round variety. Splendid keeper and splendid quality. Roots 3 to 4 inches in diameter. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 3 lb., at 75c.

Long Black Spanish Like the former except the shape. Keeps crisp until Spring. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 3 lbs., at 75c.

California Mammoth The largest long winter variety. Roots grow 10 to 12 inches through. Color white. Quality good. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 3 lbs., at 75c.

RHUBARB

Culture Sow the seed in drills 18 inches apart and cover ½ inch. Thin to 4 or 5 inches, leaving the strongest. In fall or spring following set in permanent beds, 4 feet each way. The soil must be deep and rich. A good way is to buy the roots and set as above.

Strawberry An old, satisfactory variety. Ribs of great size. Cooks tender. There is no better under any name. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.50.

Rhubarb Roots 3 for 40c; ½ doz., 65c; doz., \$1.25, delivered. Not prepaid, \$7.00 per 100.

SALSIFY

Culture This plant is used as a substitute for oysters, and many like it fully as well as the oysters themselves. It is either used in soup or scalloped with best results. Sow early in the Spring on rather light, fertile ground, in drills 18 inches apart; thin the plants to 1 or 1 ½ inches in the row. Light freezing greatly benefits the flavor. One pkt. for about 25 feet of row; one oz. to 75 feet.

Mammoth Sandwich Island The best variety. Pkt. 5c; oz., 20c; ¼ lb., 60c; lb., \$2.00.

SPINACH

Culture For Summer sow as soon as you can in the spring, in drills 1 foot apart, 1 inch deep, and every two weeks for a succession. For Winter and early spring, sow in late August and September and protect with straw during severe weather. The ground for spinach can not be too rich. One pkt. sows about 20 feet of drill; one oz., 100 feet; eight to ten lbs per acre.

Long Standing One of the best for Summer, as it is slow to turn to seed. Also sown in the Fall, but should have protection in winter. Leaves are large, thick and crimped. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 50c; 5 lbs., at 40c.

Prickley Winter For sowing in the Fall. Thick leaved. A hardy winter variety. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 50c; 5 lbs., at 40c.

Bloomsdale, or Savoy Another hardy winter variety. Leaves, numerous, curled, blistered and succulent. Glossy, dark green color. Sow in early Spring and use before hot weather, or in Fall for Winter use. The most largely grown variety. Pkt., 5c; oz., 10c; ¼ lb., 15c; lb., 50c; 5 lbs., at 40c.

Princess Julian The Julian is the most thoroughbred type of long-standing spinach ever introduced. In form it is a dense, compact rosette with very short leaf stalks, the leaves are large, and rounded, thick in texture, very much blistered and crumpled and of intense, very dark green color; will hold up well in shipping to distant markets. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

Trade Mark

SQUASHES Summer and Winter, Bush and Vining

Culture Keep in mind that all vine crops delight in warm, rich soil. Plant squash in hills the same as melons and cucumbers. The bush kinds 4 feet apart, the others 10 to 12 feet, 8 to 12 seeds to the hill and later thin to 2 to 4 to the hill. Some kinds can be grown with corn. A pkt., will plant about 10 hills; one oz., to 50 hills; three to four lbs., per acre.

THE HUBBARD FAMILY

Imp. Hubbard The genuine Hubbard has more than held its own against all comers as a winter squash. Vines grow strong and set fruit quite numerous. Frequently specimens weigh 25 to 30 lbs. Shape oblong, color bronze green. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.25.

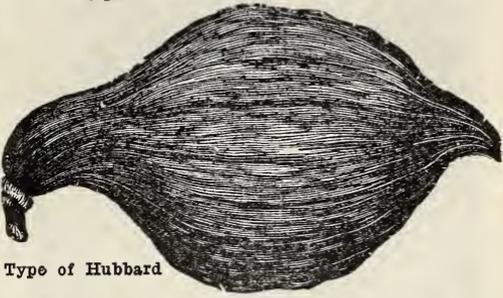

Warted Hubbard This is a new and enlarged edition of the Hubbard and is coming to be a great favorite. The warty knobs on it draw general attention. It grows larger than the older variety and produces more. The keeping and table qualities are just as good. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.25.

Blue Hubbard A new type of Hubbard squash which excels all in the superior quality of its flesh, and is the best keeper of all the Hubbards. Form and habit of growth similar to the original Hubbard, but differing in being the largest of the class and in having an extremely hard, blue-gray shell. All lovers of the good Hubbard Squashes should now get this best one. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.25.

Golden Hubbard Now, while we are dealing with Hubbard Squashes, let us present also the yellow member of the family. This Golden Hubbard is the same as the original, with the exception of color, which is rich orange red, instead of dark bronze green. The flesh is a little deeper orange and equally fine-grained and sweet. All of the Hubbards are long keepers. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.25.

Boston Marrow This is a standard Fall variety and is without a peer for canning and pies. A rich orange color. Very productive. Pkt., 5c; oz., 10c; ¼ lb., 35c; 1 lb., \$1.25.

Mammoth Chili The Jumbo of the squash family. Sure to get the prize for the largest squash at the fair. Sometimes grow to weigh 200 lbs. Pkt., 10c; oz., 20c; ¼ lb., 50c.

Fordhook Small, oblong excellent for Summer and Winter. Fruits grow 8 to 10 inches long; slightly ridged; skin smooth, thin, yellow. Flesh straw color, very thick, exceptionally dry and sweet. The skin is so thin it need not be peeled for cooking. Deserves a place in every garden. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.25.

Delicious A very early maturing variety that is also one of the best Winter sorts. The shell is very thin. Moderately hard. Unapproached for the fine grain, dryness, sweetness, and richness of flavor. 5 to 10 lb. It is in its prime from mid-fall to mid-winter. Plant some Delicious for some treats. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.25.

Golden Summer Crookneck Bush Much larger than the old Crookneck, but just as early. Has all its good qualities and far more productive. The flesh is thick and yellow. Most popular of all summer kinds. Often grows 2 feet long. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.25.

PEANUTS

Peanuts are chiefly grown in the Southern States, commercially and for stock food. Hogs will harvest them and will fatten on them. The Spanish Peanut is the best in the North.

Spanish Peanut This is the earliest kind and is particularly recommended for the Northern States. It grows upright and can be cultivated with machinery. Small but plump nut. lb., 30c; 3 lbs., at 25c.

Jumbo This is later and larger. It is one of the kinds in general commerce and is not early enough to mature in the North. lb., 30c; 3 lbs., at 25c.

TOBACCO

Culture Sow the seed in early Spring on a clean bed. A favorite way is to burn brush or trash on the bed to kill weed seeds. Wood ash is the best fertilizer. When plants are 4 to 5 inches high, set in hills 4 to 5 feet apart. Give clean, thorough cultivation. An ounce of seed will produce plants for one acre.

Havana One of the earliest. Fine texture and superfine flavor. Pkt., 10c; oz., 35c; ¼ lb., \$1.50.

White Burley A great favorite. Fine quality and commands high prices. Pkt., 10c; oz., 50c; ¼ lb., \$1.50.

Connecticut Seed Leaf A popular variety. Much esteemed for cigar wrapper. Pkt. 10c; oz., 50c; ¼ lb., \$1.50.

Tomato Seed

All our Tomato Seed Is Grown expressly for Seed. None saved at Canning Factories.

Culture For the first sowing, select the earliest types. Sow the seed in the house or hot bed in February or early March. When two inches high, transplant. If time will permit, transplant again in two weeks. This will induce root growth. Each time giving more room. When ground is warm, set in garden 3 to 4 feet apart. For main crop, start later and transplant once or twice. As they grow you can let them trail on the ground or build frames about a foot high to carry them, or trellises. One pkt. will produce about 300 plants, an oz., about 2,000 plants.

RED VARIETIES

Chalks Jewel An exceptionally fine variety, about ten days later than Earliana; fruit uniformly smooth, round and solid; color crimson; a good canning sort for the North. Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 65c; lb., \$2.50.

John Baer Beautiful Tomatoes in 30 days from setting plants that were started in Verneer boxes and set in the ground. Probably the best extra early and a strong competitor for late honors. It is wonderfully productive, often yielding 50 to 100 fruits to a plant. Every tomato ripens evenly right up to the stem with no "cripples." The flavor is mild and delicious.

Plant a package of this tomato and it will help you to have the best garden you ever raised. Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 65c; lb. \$2.50.

Bonny Best This tomato is very early, very beautiful scarlet color and perfectly good flavor. Plants very productive, as they set in clusters of 4 or more at frequent intervals. One of the best for forcing. Excellent for all purposes. Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 65c; lb., \$2.50.

The Stone This is the standard late or main crop tomato. The fruit is bright scarlet, very large, smooth, solid, heavy, of the finest quality. The plant is a strong grower and very productive. This variety is in great favor for home, market and canning. North and South. Bears shipment to distant markets. Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 65c; lb., \$2.50.

Dwarf Stone The best stiff-stalked, upright dwarf tomatoes in size of fruit and productiveness. The fruit is produced in clusters of 3 to 5 and each plant produces quite a number.

The color is deep scarlet. Quality the best. Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 65c; lb., \$2.50.

Norton Beauty Tomato This tomato has been particularly mentioned by the U. S. Department of Agriculture as being strongly resistant to blight and wilt. Besides this desirable quality it is a fine smooth red tomato that is very productive. Pkt., 10c; oz., 35c; $\frac{1}{4}$ lb., \$1.00; lb., \$3.50.

Marglobe Developed by the U. S. Dept. of Agriculture as a wilt resistant variety. If you have been troubled by this disease plant some Marglobe. Season second-early; color red; size large, globe shape, smooth; quality fine. One of the best forcing. Pkt., 10c; oz., 50c; $\frac{1}{4}$ lb., \$1.50.

Greater Baltimore The Canner's and Market Gardeners' Favorite—This has come to be the great canning tomato. Since its introduction many canners make it obligatory on their growers that this variety be raised for them. The color is brilliant red. The vines have great vigor, are healthy, grow compact and bear a cluster of tomatoes at every other joint. It is an immense yielder. They are as fine for the home and market garden, where they are sure to meet your expectations. Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 65c; lb., \$2.25; 3 lbs., at \$2.00.

Bell's Colossal When we say that Bell's Colossal Tomato is the very best tomato for the home garden, we are only emphasizing what our customers have found to be true. It combines the best qualities—great size, great productiveness, great solidity of flesh and delicious flavor, when eaten raw, or cooked, or canned. It is a tomato that wins on exhibition or in the kitchen. So if you want a tomato to exhibit in your garden or at a fair, or just for use, by all means have some plants of Bell's Colossal. Trails on the ground but better put it where it can climb. Every home garden should have it. Pkt., 10c; 3 for 25c; oz., 50c.

Wins-Its-Way This new variety is an ideal tomato for nearly every use to which tomatoes are put. For the gardener who wants a beautiful tomato at the right time to get the highest prices it is just the variety for him to grow. For the commercial canner it has exceeding high merit while the home gardener will quite surely find it an ideal. WINS-ITS-WAY arrives about 5 days after the extra early kinds but excels them in productiveness. It bears its fruit well to the center of the stalk and it continues to bear full size fruits throughout the season. Fruits are large size, almost round, brilliant red, solid, no core and very small seed cavity. An ideal long-shipper. Pkt., 10c; 3 for 25c; oz., 50c; $\frac{1}{4}$ lb.

PINK OR PURPLE AND YELLOW VARIETIES

Beauty Color, a glowing crimson, with a tinge of purple. Shaped perfectly round, large size, solid. Quality splendid. Medium early, productive. Pkt., 5c; oz., 20c; 1/4 lb., 85c; lb., \$2.50.

Golden Queen This is a large, beautiful, yellow tomato of superior qualities. Very showy and very good. It is the best yellow tomato. Pkt., 5c; oz., 20c; 1/4 lb., 65c.

Ponderosa Wonderfully Popular. Has been the most popular of the Mammoth Tomatoes. A popular way to raise the Ponderosa is to plant it by a fence or trellis, then it will grow higher than a man and bear fruit all along many weighing a pound or more. The quality is splendid especially good for slicing. Pkt., 10c; oz., 50c; 1/4 lb., \$1.50.

SMALL FRUITED SORTS

These are used for preserves.

YELLOW PLUM—Plum shaped. Pkt., 10c; oz., 35c.

RED CHERRY—Look like large cherries. Pkt., 10c; ounce 35c.

OUR TOMATO COLLECTION

We would like every customer to have these Tomatoes this year. It would mean a tremendous boost for the O. K. Seeds through each neighborhood.

Butterfly Bush

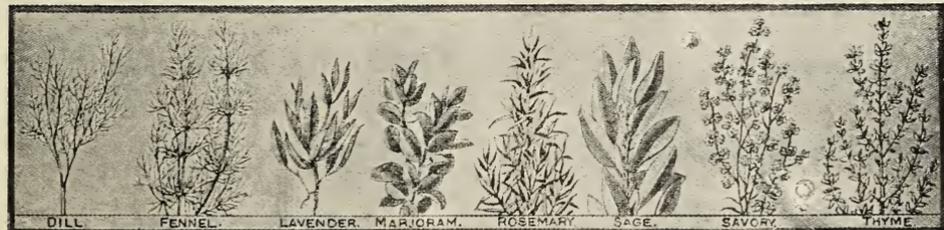

(Summer Lilac)

A hardy, beautiful perennial with deep purplish lilac flowers borne in long, graceful panicles, commencing to open in June and continuing until frost. Its long gray leaves add greatly to its beauty and in every way it is a welcome addition to our late blooming plants. It is a rapid grower and profuse bloomer and the first season it may throw out as many as 50 flower spikes. It attains a height of 5 to 6 feet. Flowers have a slight lilac fragrance, hence its designation as the "Summer Lilac." This shrub is very desirable as an individual specimen in the lawn and garden or grown promiscuously in the shrubby border. It is a deciduous shrub, the top dying down in the winter. New wood comes up in the spring which bears the flowers. It is hardy but is better with protection in severe winters.

READ—"Most beautiful plant I ever saw." —Chas. W. LaBreton, McKeesport, Pa. "Nothing lovelier in my garden."—Mrs. McCulla, Waukegan, Ill. "If I could not buy another you could not buy mine for 10 times its cost."—Mrs. Ed Bailey, Melbourne, Mo. "The Butterfly Bush got from you three years ago had 72 blooms on at one time."—Ed Hensel, Bloomington, Ill. And hundreds of others.

Price strong plants 30c; 4 for \$1.00; doz., \$2.50. Field grown bushes 50c; 4 for \$1.50; doz., \$4.00.

Herbs

Culinary, Medicinal and Aromatic. The varieties marked (*) are Perennials and when once started will continue for years with little care.

No garden is complete without a corner devoted to herbs. Remember the charm of the old-time herb corners—how fascinating they were. And what magic there was in a bit of savory or a pinch of sage, to "dress up" an ordinary dish and make it a delight. And it was almost a treat to be a sick-a-bed child, if grandmother brought her a cup of steaming catnip tea; or perhaps it was balm or horehound, or pennyroyal or thyme, according to the ailment. Every woman with a family knows what it means when the children are a bit feverish, or have "bad colds"—with no doctor just around the corner—to have an herb garden, or dried herbs in the attic to rely upon, in such a case. Determine now to have an Herb-garden.

ANISE—Used for cordials, garnishing and flavoring. Pkt., 10c; oz., 35c.

BASIL (Sweet)—Leaves used for flavoring soups, stews and highly seasoned dishes. Pkt., 10c; oz., 40c.

***CATNIP**—Leaves and young shoots are used for seasoning. Cats delight to roll in it. Is a good bee pasture. Pkt., 10c; oz., 60c.

***CARAWAY**—Grown for the seeds, which are extensively used for the flavoring of bread, pastry, candy, etc. Pkt., 10c; oz., 25c.

DILL—Leaves used for pickling cucumbers. Pkt., 10c; oz., 35c.

LAVENDER—Valuable for its perfume. The flowers are used. Pkt., 10c; oz., 40c.

SAVORY (Summer)—The leaves and flowers are used for flavoring soups and dressings and string beans. Pkt., 10c; oz., 30c.

FENNEL (Sweet)—The leaves boiled are used in fish sauces. A wonderful garnish. Pkt., 10c; oz., 25c.

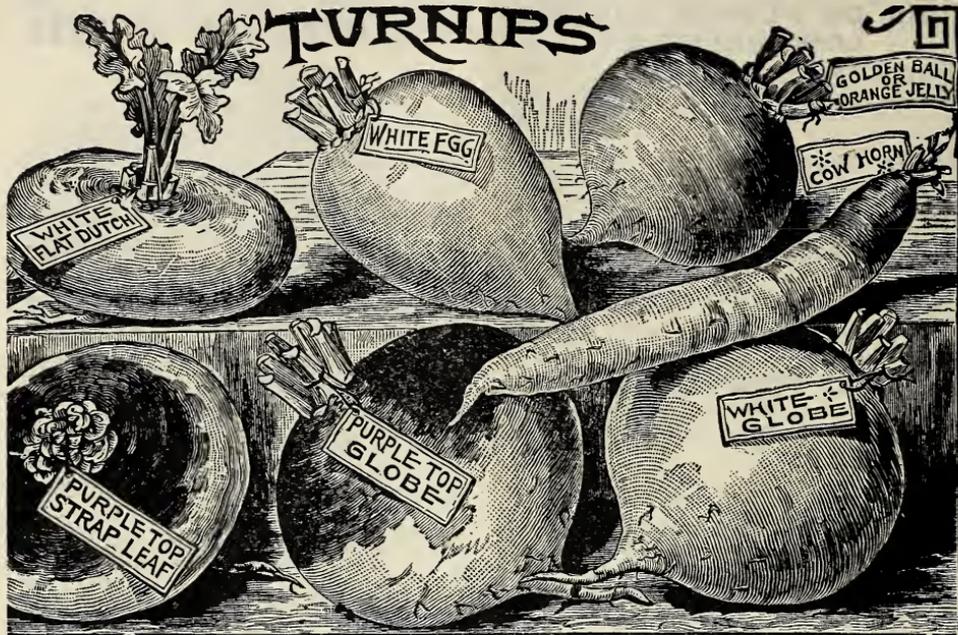

***HOREHOUND**—Used for seasoning, also in cough remedy. Horehound tea is a remedy for cold. Pkt., 10c; oz., 40c.

***MARJORAM** (Sweet)—Leaves and ends of shoots highly esteemed for seasoning. Dry for winter use. Pkt., 10c; oz., 40c.

***PENNYROYAL**—A tea made from it is valuable for colic. The fresh plant placed close to people chases mosquitoes. Pkt., 10c; oz., 50c.

SAGE—Extensively used for seasoning and dressing. Pkt., 10c; oz., 30c.

***THYME**—For seasoning; a tea from the leaves is a remedy for headache. Pkt., 10c; oz., 50c.

Culture For early sow as soon as ground will permit in drills 14 inches apart. The Ruta-Baga, 24 inches apart. Thin the plants to 6 inches and Ruta-Baga to 12 inches, or sow broadcast. For Fall and Winter sow July and August for turnips, one month earlier for Ruta-Baga. Use one to three lbs. per acre.

Extra Early Milan This is the earliest turnip and the best variety for early. Purple top and white root. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Early Snowball A pure white, very early variety. It makes sizeable turnips in 6 to 7 weeks. A fine garden variety. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

White Egg Medium early white, splendid quality. A favorite for the home garden. Pkt. 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Purple Top Strap Leaf This is the most popular flat variety. Good for early Spring, Fall and Winter. Top is purple, bottom white. Very beautiful. We cannot recommend it too highly. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 65c; 5 lbs., at 50c.

Purple Top White Globe A large purple top globe-shaped turnip of choice quality and is very productive. A long keeper. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 60c; 5 lbs., at 50c.

Large White Globe (Strap Leaved) — A perfect globe in shape; skin and flesh pure white, firm and sweet. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Early White Flat Dutch Differs from the Purple Top Strap Leaf only in color. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Cowhorn If you want a large, coarse heavy-yielding turnip for stock pasture or winter feed, about to improve your ground, sow this one. It grows about one-half above ground and 12 to 15 inches long. Also will be eaten by cattle, sheep and hogs in the field. Sown with rape, the pasture and fertilizing value of the crop is considerable. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Amber or Yellow Globe Grows to a large size. Ye llow flesh. Very productive. Good quality. Keeps until Spring. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Golden Ball or Orange Jelly If you want a yellow-fleshed early, garden turnip, select this one. Tops are small, roots round, smooth, deep yellow color. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

Seven Top Grown for the tops, which are used for greens. Very extensively grown in the South. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

RUTABAGA SEED

Imp. American A hardy, productive variety with a small neck. The roots are large, oblong or globular, with very little tap root. Color bright yellow with a purple top. Very solid and heavy. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

DOLLAR SQUASH

Plant seed of the Early White Bush Scalloped (Bush) Squash and pick them soon after the little squashes are the size of a silver dollar to two or three times the size and serve as asparagus. When handled this way the vines will bloom and bear continuously until frost and produce a surprise amount of food. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.50.

EVERITT'S CHOICE FLOWER SEEDS

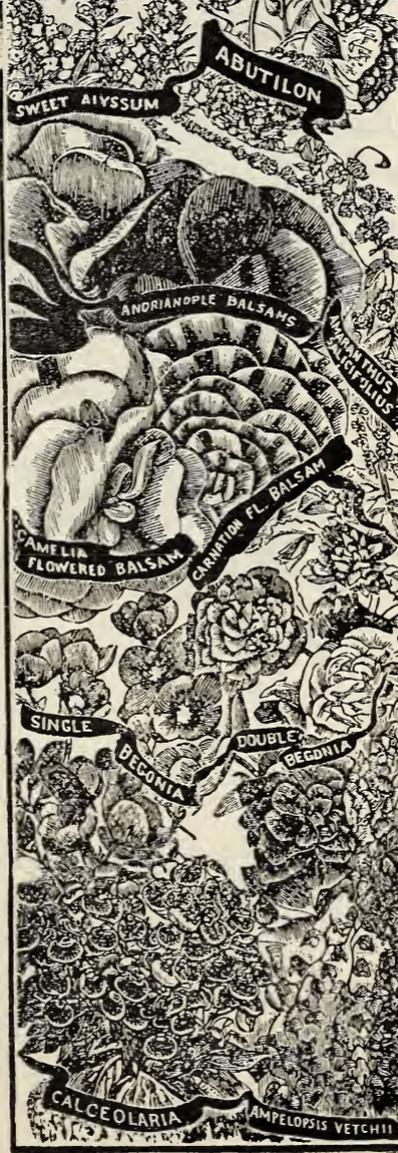

Any amateur who wishes a colorful garden, or even a bed, can have it at trifling cost and little delay. A few easily-grown annuals will keep the home supplied with bouquets all through the summer. To supplement the bedding kinds use the annual Climbers—Moonflowers, Morning Glories, Cypress Vine, Etc. And don't neglect to start your perennials if you do not have them already.

In the following list "a" stands for annual, "b" for biennial and "p" for perennial; "c" with any of these means climber.

- Annuals** These are plants that flower and mature the first year and then die.
- Biennials** These are plants that flower the second and sometimes the third year after the seed is sown and then perish.
- Perennials** These generally do not bloom until the second year from seed and then live outdoor and bloom yearly.

- Achillea** The Pearl. Small double white flowers, borne in greatest profusion. 2 ft. p. 5c.
- Acroclinum** One of the best everlasting. a. Single mixed 5c. Double Mixed 5c.
- Ageratum** Flowers all season. One of the best bedding plants. a. Tall Blue 5c; Tall Mixed 5c; Dwarf Mixed, 5c.
- Alyssum** Little Gem or Carpet of Snow—Grows only a few inches high and covers ground like a carpet of snow. a. Pkt., 5c; 1/4 oz., 25c; oz., 75c. Saxatile Compactum Basket of Gold—Flowers Brilliant Yellow, p. 10c.
- Amaranthus** Beautiful foliage plant, a. Oranathus. Princess Feather, 5c. Tricolor, Joseph's Coat 10c. Love Lies Bleeding, Red 5c
- Anemone** (Jap. Wind Flower) Much valued for garden display and bouquets. The plant grows 2 to 3 ft. tall and bears many large, saucer-shaped flowers. Our mixed seed will give many fine colors. Give sunny position in the garden. May be grown in house in winter also. p. Pkt., 10c; 3 for 25c.
- Antirrhinum** (Snap Dragon) Tall—This old favorite has been greatly improved in our giant flowered. b. Separate colors. Yellow, Pink, White, Each, 8c; Mixed 5c.
Dwarf—Same as above, except in height, these are semi-dwarf, separate colors. Yellow, Pink, White, each 8c; Mixed 5c.
- Aquilegia** (Columbine)—Very Popular hardy perennials that bloom freely in spring and early summer. Sometimes known as bush Honeysuckle, p. Double Large Flowering Mixed 10c. Single Large Flowering Mixed 8c.
- Balloon Vine** (Love in a Puff)—Graceful annual climber, quickly growing 5 to 10 ft. Its feature is balloon-shaped seed pods, a. c. 5c; oz., 30c. (Lady Slipper)—An old favorite garden flower producing masses of brilliant blooms, a. Double Camelia Flowered—The largest flowered of any and perfectly double from brightest scarlet to pure white, including spotted and striped flowers, mixed 7c; 1/4 oz., 20c.
- Andrianople**—New. Glowing red, large flowers. Will give wonderful satisfaction 8c; 1/4 oz., 25c.
- Carnation Flowered**—Dwarf, double, contains many colors—spotted, blotched, striped, etc., 10c.

California Poppy (*Eschscholtzia*) With silvery foliage studded with scores of gorgeous cups of cream and gold, crimson and scarlet, the California poppy in its most modern dress is one of the most reliable and gorgeous of the easily grown annuals for striking beds in a hot, sunny portion of garden. It blooms steadily from the first of July until killing frosts from seed sown in the open ground when warm. It likes a rather dry situation.

Asters

The Asters of today, such as we offer, approach almost the chrysanthemum in great size and gorgeous beauty. As the flower has been improved, its popularity has also increased until to-day, it may be called the universal flower. The seed may be sown outdoors in beds, or for earlier plants in the house. They delight in plenty of sun. a.

DWARF CHRYSANTHEMUM—A very useful variety for edging, beds and pot culture, grows only 8 to 10 inches high. Mixed 10c; $\frac{1}{4}$ oz., 40c.

CREGO'S GIANT—The immense, gracefully formed flowers of this new aster have made it a favorite everywhere. The petals are long, curled and twisted, having a feathery appearance. The flowers are very fluffy and many run five inches in diameter and are as beautiful as chrysanthemums. Fine for cutting, 20 to 24 inches high.

White changing to rose and blue, 10c; $\frac{1}{4}$ oz., 40c.

Rose changing to white and salmon, 10c; $\frac{1}{4}$ oz., 40c.

Purple, 10c; $\frac{1}{4}$ oz., 40c.

Pink and shades, 10c; $\frac{1}{4}$ oz., 40c.

Blue—Azure, dark and light shades 10c; $\frac{1}{4}$ oz. 40c.

Red—Ruby to scarlet 10c; $\frac{1}{4}$ oz., 40c.

Mixed—All colors and shades, makes a wonderful bed. 8c; $\frac{1}{4}$ oz., 30c.

PEONY—A compact dwarf form. Plants about 8 to 12 inches tall and bear fine double peony-like flowers. Mixed 8c; oz., 30c.

AMERICAN BEAUTY—One of the most beautiful Asters of recent introduction. Of very vigorous habit, producing large perfectly double flowers on long stems. The color is the American Beauty rose, brilliant rosy pink. Pkt., 15c; $\frac{1}{4}$ oz., 60c.

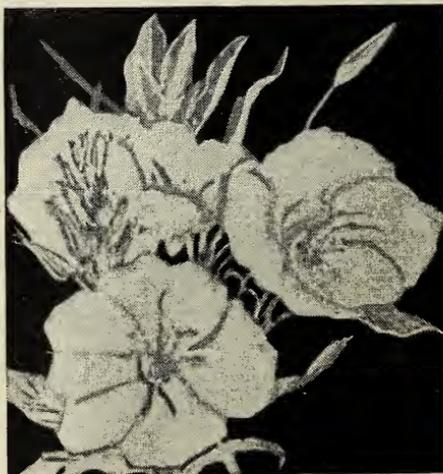

The Evening Primrose

Oenothera Who has not watched with awe the moving pictures of opening flowers and appreciated that what required weeks to obtain, nature's action was accelerated for your pleasure. Yet you can enjoy such a thrill in your own garden if you will sit for 15 minutes at twilight and watch the Evening Primrose drop its calyx and unfold its petals.

The evening Primrose is a beautiful plant for beds, mixed gardens and borders. It is of easy culture, but prefers a dry soil and sunny position. Produces freely and continuously. June to September, large, single, Poppy-like flowers of white, yellow, rose color, etc. Plants should stand 12 inches apart. Pkt., 10c; 3 for 25c.

California Poppy

Evening Primrose

EVERITT'S CHOICE FLOWER SEEDS

Beans Ornamental—A rapid grower that bears sprays of brilliant scarlet blossoms from July to September. Grows quickly to 10 ft. Dense foliage makes it splendid for porches or anywhere where quick shade is wanted. a. c. Pkt., 5c; oz., 20c.

Boston Ivy (*Ampelopsis Veitchii*) See department for the price of Vines. Hardy climber. Seed, Pkt., 8c; ¼ oz., 25c.

Galendula (Pot Marigold)—About one foot high, produces flowers, white to orange in great profusion until late fall. Border and beds. a. Double Orange King 5c; ¼ oz., 20c. Meteor, yellow, striped orange 5c; ¼ oz., 20c. Double Mixed 5c; ¼ oz., 20c.

Burridgeanum—a. Pure white petals embellished by yellow and brownish red, single 7c.

Eclipse—a. Yellow petals with dark disc. Single 7c.

Giant Flowering Cosmos

Wild Cucumber

Sometimes it is difficult or impractical to remove unsightly objects. In such cases it is a wise plan to cover them and make them attractive with a mass of green foliage and flowers. The wild cucumber is excellent for this because it is probably the fastest growing vine of all and one's object is accomplished early in the season. The bloom is beautiful, sprays of white flowers followed by large, prickly seed pods, resembling cucumbers. It will grow a length of 30 feet in one season with clean bright green foliage. Seed may be planted Fall or Spring. When planted in the Spring, soak the seed in warm water 24 hours before planting. Price: Pkt., 10c; 3 for 25c; oz., 35c.

Everitt's Double—Finest Mixed. a. Pkt., 6c.
Single Everblooming Mixed—a. Pkt., 5c.

Kochia (Burning Bush or Summer Cypress)—Early in the Fall this popular ornamental shrub turns to a bright scarlet. Quick growing. Let plants have 3 feet of space. a. Pkt., 5c; 1/4 oz., 20c.

Morning Glories

AND MOONFLOWERS

There are tens of thousands of places where rapid climbers are wanted to cover unsightly places or furnish cool shade. For such purposes few climbers are better than these. They all grow very rapidly and to a length of 15 to 25 feet, bearing thousands of flowers. Do not sow seed in open until trees start their leaves. May be started in pots in the house and set out.

Japanese Morning Glory—Bears very large fringed flowers in many soft and delicate colors and shades. Pkt., 6c; oz., 25c; ¼ lb., 75c.

Brazilian Morning Glory—This variety quickly makes a thick foliage of great lobed leaves and is brilliant with a great profusion of rose-colored flowers, with a satiny five-pointed star center. Pkt., 5c; oz., 35c.

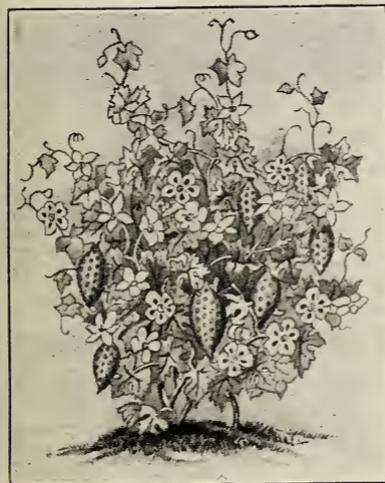

Bona Nox—Blue Morning Glory, also called Evening Glory. Pkt., 5c; oz., 20c.

Moonflower—This may be started in the house and transplanted when weather becomes warm and settled or sown in open ground. The flowers open at sundown and some have a delightful fragrance. Pkt., 10c; oz., 35c.

Lantana This is a shrubby plant with Verbena like flowers that make a fine display in garden or porch boxes the first season from seed. They flower freely the entire summer and then may be potted for winter blooming. Height 18 inches. Seeds are slow to sprout; soaking in warm water for 48 hours will hasten them.

Hybrid Mixed, Pkt., 5c; ¼ oz., 20c.

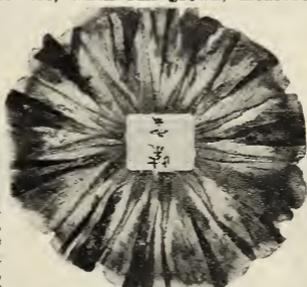

Momordica

Momordica (Balsam Apple) — A beautiful vine. Grows about ten feet and bears large creamy white, dotted with black, flowers, or pure white with red pistil. The flowers are succeeded by sulphur-yellow fruits which burst when ripe and show the large blood-red seeds. As the flowers and fruit are borne at the same time the effect is striking. The fruit has medicinal properties, as a healing liniment or salve. Pkt., 8c; ¼ oz., 30c.

Mimosa (Sensitive Plant) — This plant is most interesting from its nature to fold up and droop when touched, then after a short period it assumes its natural position again. Small flowers. a. 6c.

SATAKA'S MAMMOTH FLOWERING MORNING GLORIES

We just believe that every person who receives this catalogue ought to order some of this new type of Morning Glories from Japan. We consider it one of the very best SPECIALS that we list. When we tell you that individual flowers, when full grown, measure 6 inches across, you will probably doubt it, as we did. But the grower of our seed sent us a dry and pressed flower and sure enough it measured 6 ins. in diameter. As to the color: There is no use to try to tell you except they cover all colors, shades and tints and stripes, besides some are fringed, crumpled and crimped. Price, Pkt., 15c; 2 for 25c; ½ oz., 30c.

Sataka's Morning Glory

Lathyrus (Hardy Sweet Pea) — A very decorative climbing vine. Suitable to grow on fences or trellises as floral screens. Blooms all summer. Good for cutting. P. c.

Pink Beauty—Pink, Pkt., 7c; ¼ oz., 25c.

Rubra—Bright Crimson, Pkt., 7c; ¼ oz., 25c.

Mixed—All colors, Pkt., 6c; ¼ oz., 20c.

Linum (Crimson Flax) — The rich crimson flowers last only a day but they come continually until frost. Makes a splendid show in bed or border. **Rosy Red**, Pkt., 5c; ¼ oz., 20c.

Lobelia (Cardinal Flower) — Bears brilliant, fiery scarlet flowers. Plant in moist place. a. **Tall Varieties**, mixed Pkt., 6c; ¼ oz., 25c.

Dwarf Varieties, mixed, Pkt., 6c; ¼ oz., 25c.

Lupines Lupines are of easy cultivation and in addition to their value as border plants, are admirably adapted for cutting. They attain a height of 15 inches, producing long flower-spikes which keep a long time in water. a. and p.

Annual Kinds, mixed, Pkt., 5c; ¼ oz., 20c.

Perennial Kinds, mixed, Pkt., 6c; ¼ oz., 20c.

Marigold Blooms in late summer when many other plants are past their best and then affords a wealth of color. In rich reds, browns, Mahoganies, oranges and yellows. a.

Double African—Tall Mixed, 5c; ¼ oz., 20c.

Double African—Dwarf Mixed, 5c; ¼ oz., 20c.

Double French—Tall Mixed, 5c; ¼ oz., 20c.

Double French—Dwarf, 7c; ¼ oz., 30c.

Mignonette One of the principal uses of this fragrant flower is for cutting and combining in bouquets with other flowers. a.

Victoria—A very fine red sort. 7c; ¼ oz., 25c.

Giant Flowering Sweet scented, 5c; ¼ oz., 20c.

Plant Nasturtiums

They will give you an abundance of flowers with hardly any trouble. Plant them for yourself and neighbors to gather. Everybody knows these lovely and universally popular flowers. They are probably more universally planted than any other kind. If you have not had liberal beds of them heretofore start this season and there will be many pleasant times coming to you and your friends. Succeed everywhere, even on poor soil. a.

Tall Sorts Price of each Tall variety. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c.

Atropurpureum—Dark purple.

Heinemanni—Chocolate color. Asa Gray—Cream yellow.

Von Moltke—Rosy.

Schenermanni—Scarlet, striped.

Vesuvius—Salmon Rose.

Everitt's Choice Mixed—Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c.

Dwarf Sorts Price of each—Packet 5c; oz., 15c; $\frac{1}{4}$ lb., 50c.

Coveruleo—Rose.

Chamaleon—Cream white, spotted and veined with scarlet.

Beauty—Yellow, spotted scarlet.

Golden King—Dark leaved, golden yellow flowers, very fine.

Everitt's Single Mixed—5c; $\frac{1}{4}$ oz., 20c.

Blue Butterfly

(Delphinium Chinese) This is a perennial that is one of the most satisfactory and beautiful flowers. Seed sown out doors in the spring will make a bushy plant 2 feet high covered with graceful sprays of blue, butterfly-like flowers from bottom to top the same summer. The plant is perfectly hardy and will come up year after year larger than before. Blooms can be had earlier by starting in the house. Seeds only this year. Pkt., 15c; 2 for 25c.

Sweet Peas

Tritoma (Red Hot Poker)—A beautiful late-flowering plant, having handsome reed-like foliage. Flowers are of a rich orange-scarlet color, three feet high. Blooms September-November. p. Hybridia Mirabilis, 10c.

Vinca Beautiful rose and white flowers. Mixed, 10c.

Sweet Peas

Universally admired and desired. Everybody wants Sweet Peas. Therefore everybody who has a little space should plant a row and share with neighbors who are less fortunate. Plant liberally. The two leading classes are the Spencers, early and late, and Eckfords Grandiflora. There is always a space in the garden or back yard for a row of Sweet Peas.

Giant Late Spencers

The Giant Late Spencers listed below are recommended for spring and summer blooming and will thrive in any climate where any sweet peas will grow. This strain of Sweet Peas bears three and four very large flowers on long stiff stems.

Price of each, Pkt., 10c; oz., 25c; ¼ lb., 75c.

Apple Blossom—Rose and pink.

Elegance—Blush lilac, suffused pink.

Fiery Cross—Orange cerise.

Princeps—Peach red.

Warrior—Deep maroon.

Edna May—Pure white.

Clara Norton—Bright blue.

Florence Nightingale—Bluish lavender.

Giant Early Flowering

(Spencers') These come 2 or 3 weeks earlier than the late ones and are nearly as large. Mixed, Pkt., 10c; oz., 25c; ¼ lb., 75c.

Everitt's Superior Mixture of Spencers

Comprises all colors and forms. Nowhere can greater value be gotten for the price. Pkt., 10c; oz., 20c; ¼ lb., 60c.

Eckford's Grandiflora

—A very fine class. Many of the flowers are as large as Spencers but they are not so much crimped like the former. Mixed Pkt., 5c; oz., 15c; ¼ lb., 50c.

Verbenas This universally popular flower thrives in almost any situation on good garden soil. Blooms profusely June to October. Are also planted extensively in porch and window boxes. a. Everitt's Superior Mixture. Pkt., 10c; ¼ oz., 25c.

Aloysia Citriodora (Lemon Verbena) Every garden should have some plants of this great favorite. It is easily grown and its delightfully fragrant foliage goes well with any bouquet while the dry leaves give a delightful scent when placed among and in pots in winter. Pkt., 10c; lins. Grow in garden in summer 3 for 25c; 15 for \$1.00. Buy a dozen pkt. and sell them

After having planted and raised crops from your O. K. Seeds for a number of years I want to tell you that I have found them the best that I have ever planted. J. W. McWharther, Haytonville, Ky.

STRAWFLOWERS

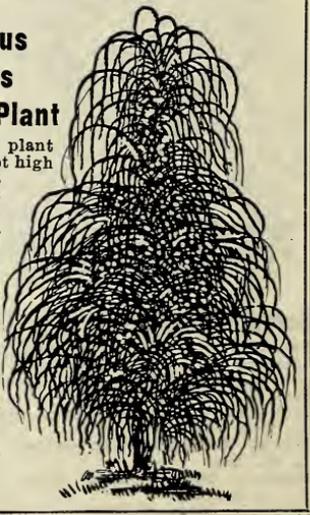

The Everlastings or "Straw Flowers" with their rich and bright colorings, are most valuable for winter decorations. Plants grow readily from seed sown in the open ground when the trees are starting out in leaf. The blooms should be cut as soon as they open, tied in small bunches, and dried slowly in a cool, shady place, hanging the flowers downward to keep the stems straight. Every one should grow some for winter bouquets, table centers, etc. Also they can be sold at profitable prices, summer and winter.

Helichrysum Of all Everlastings, this is the best known. The plants grow 2 to 3 feet high and are covered with fine large double flowers. White, pink, yellow and scarlet. Mixed. Pkt., 6c; ¼ oz., 25c.

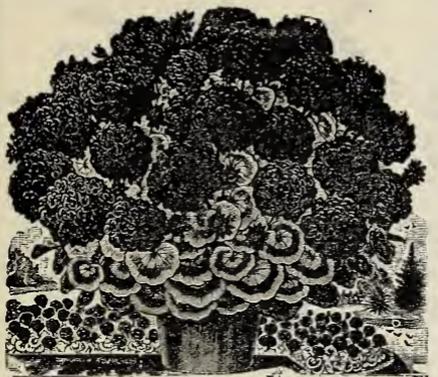

Globe Amaranth A showy Everlasting that has blooms like clover heads. It grows 2 feet high and blooms profusely. Colors, white, pink, red, salmon and rose. Mixed. All colors. Pkt., 6c; ¼ oz., 25c.

Amaranthus Salicifolius Fountain Plant

A graceful plant growing 3 feet high with leaves 5 to 8 inches long, ¼ in. wide and droop like shown in the illustration. Color, bronze-green, changing to orange-red, with shading of gold. The plant resembles a miniature breeze. Pkt. of seed, 10c; 3 for 25c.

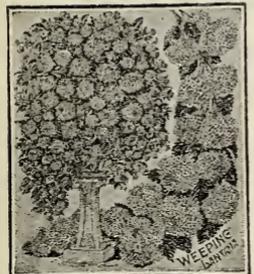

Miscellaneous Greenhouse and Bedding Plants

Double Flowering Geranium

JEAN VIAUD—Bright rosy pink distinctly blotched in center with white. Each 26c; 3 for 74c; 12 for \$2.50.

BUCHNER—A purest white, not a trace of coloring. Fine bedder. Each 24c; 3 for 68c; 12 for \$2.30.

Weeping Lantana

A very striking plant of trailing habit. Grows very rapidly and blooms continuously, producing clusters of rosy-pink flowers. Foliage a beautiful dark green. Each 26c; 3 for 74c; 12 for \$2.50.

NOTICE—Items on following 3 pages are not hardy excepting Artemesia, Salmon King, Hardy Carnation, Begonia, Evansiana, Violets, Hardy Chrysanthemum and Hardy Gloxinia.

Attractive Water Hyacinth

Asparagus Sprengerii

Asparagus Sprengerii
A valuable house plant being one of easy culture, the sprays growing four to five feet long and when the foliage is used for cut-flower it retains its freshness for an unusual length of time. Each 24c; 3 for 68c; 12 for \$2.30. Larger size 45c; extra large 68c.

Water Hyacinth
A very attractive water plant. Col- or a magnificent lilac-rose. It forms a lovely rosette of its curious shing- ing green leaves, and throws up spikes of the most exquisite flowers imaginable, resembling in form a spike of Hyacinth bloom. Equally as beautiful as Orchids. Each 30c; 3 for 85c; 12 for \$2.88.

Double Flowering Geranium

ALPHONSE RICCARD — Bright vermilion scarlet, giant forets and trusses, semi-double. Each 23c; 3 for 65c; 12 for \$2.90.

AMERICAN BEAUTY—Compact, medium tall, lustrous green in foliage. American Beauty in color. Each 25c; 3 for 72c; 12 for \$2.40.

BEAUTY OF POITEVINE—Double flowers salmon- pink. Each 24c; 3 for 68c; 12 for \$2.30.

DUCHESS DE MONTMORT—Color brilliant purple, nearest blue we carry. Trusses enormous. Each 28c 3 for 80c; 12 for \$2.69.

GLORIANA — Extra large blooms. Delicate pink bordered with pure white. Each 26c, 3 for 74c; 12 for \$2.50.

JEAN OBERLE — Semi- double. Peach-pink shading to almost pure white at outer edge. Each 25c; 3 for 72c; 12 for \$2.40.

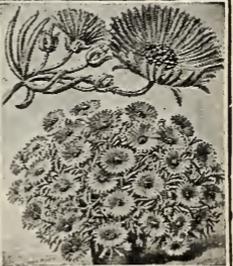

Watermelon Begonia

Watermelon Begonia

Leaves variegated white and green, thick and waxy-like frosted silver. Excellent for house, window or table. Each 32c; 3 for 90c; 12 for \$3.07.

Single Petunia

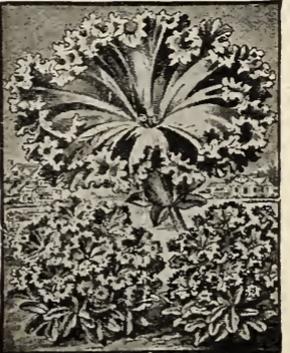

Unsurpassed for massing in beds and border plantings. Also fine for basket, vase and window boxes. Blooms early and continues until frost. Very popular on account of their richness of color, duration of blooms and ease of culture. Each 20c; 3 for 57c; 12 for \$1.92.

Pink Wax Plant

Pink Wax Plant

Produces beautiful pink flowers at all times. Of frosted wax-like appearance. Suitable for rock work, hanging baskets; also for a pot plant. Is of bushy growth and free flowering. Excellent. Price 26c; 3 for 74c; 12 for \$2.40.

Giant Single Petunia

Popular Decorative Ferns

BOSTON FERN—The most popular house plant grown. It is of easy culture and a very rapid grower, producing fronds of unusual length. Its unusual freedom of growth without special care has made it popular. Considered most valuable house plant to be had. Each 22c.

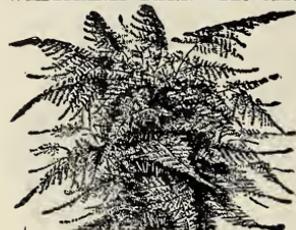

WHITMANII FERN—The luxurious, rich green foliage of this rather dense growing plant is more open and the leaf segments smaller and less elongated than the Verona Fern. A splendid variety. Each 26c 3 for 74c; larger plants 48c; 3 for \$1.37; extra large plants 75c.

MAIDEN HAIR FERN

—The fronds of this wonderful variety are developed at the ends into bunching tasseled heads and are much used in cut-flower work. Each 24c; 3 for 68c; 12 for \$2.30. Larger size, 38c; 3 for \$1.08; 12 for \$3.65.

MOSS FERN—A new upright growing moss, with numerous feathery stems branching from the base and forming a dense tuft. Each 28c; 3 for 80c; 12 for \$2.68.

OSTRICH PLUME FERN—One of the few feathery foliage ferns which everyone can successfully grow. Each 38c, 3 for \$1.08. Larger sizes 75c and \$1.00.

Asparagus Plumosus

Asparagus Plumosus

A tall, climbing, decorative plant of rare and delicate beauty. Fronds grow from six to eight inches in width and retain their color and shape for weeks when cut. Each 24c; 3 for 68c; 12 for \$2.30. Larger size 45c.

Extra large 68c.

The Popular Boston Fern

Large Flowering Pansies

Pansies

There is no flower more admired than the Pansy. The combination of colors, embraces striped, spotted, bordered and fringed in rainbow colors, with rich, velvety textures. Fine for borders. Per Dozen, 70c; 6 for 35c; 3 for 20c.

A splendid ornamental plant of bright evergreen foliage, and surmounted with spikes of bright blue flowers which remain in bloom for a long time. Should be wintered in cellar or greenhouse. Each 28c; 3 for 80c; 12 for \$2.69. Large plants 42c; Larger plants 60c. Tub plants \$1.50.

Browallia (Blue Bell Flower)

Blue Lily-of-the-Nile

Give Your Lawn a Tropical Appearance

The scheme of this bed is to plant a center of tall Castor Beans, like the Zanzibariensis. Three or four plants will be plenty. Then a circle of Cannas, and outside a circle of Caladiums. The bed may be just as large as you want it or as the space will permit. If the bed is more than 6 feet in diameter, and the larger the more showy it will be, we suggest using two heights of castor beans and two heights of cannas in two circles, also a circle of geraniums or coleus or other low growing plants may be put in front outside of the caladiums.

Price—For a 6 ft. bed. One Pkt. Ricinus' (Castor Beans) 10c; 10 canna roots, (See canna list page 39) 18 Caladium bulbs (See below, this page). If you make a bed 10 feet in diameter order 25 Canna Roots and 36 caladium bulbs and put them in two circles. It will be wise to get all of these seeds and bulbs early and start in house and set out when warm.

Caladium (Elephant's Ear) This is one of the most effective plants for the lawn or flower garden and may be used singly or in groups, rows or beds. To obtain the best results they should be planted on rich ground where they will have an abundance of water. Price—Medium sized bulbs, each 20c, 3 for 50c, dozen \$1.75. Large size, each 25c; 3 for 60c; dozen \$2.00. Extra large, each 35c; 3 for \$1.00; dozen \$3.00.

Fancy Leaved Caladium Among ornamental foliage plants there are none more beautiful in design or gorgeous in coloring than the Fancy Leaved Caladium. Also of special value for pot culture, window and piazza boxes. Planted in partially shaded borders they succeed admirably outdoors, 40c each; 3 for \$1.00; 12 for \$3.50; Larger bulbs, 60c each; 3 for \$1.50.

Iris These have appropriately been called the "Orchids of the Hardy Flower Garden." They are of the simplest culture, succeeding in almost any soil or position. The bulbs should be planted 4 to 6 inches apart in the spring when they will become well established and bloom abundantly the following spring.

German Iris These are among the earliest grown and most beautiful of our early Spring flowers. They bloom in May and June and early to late kinds cover several weeks. Price of all

German Iris—Each 15c; 3 for 40c; doz. \$1.50; 25 for \$2.50; 12 or more may be of more than one kind.

Mother of Pearl—A wonderful new Iris. It is nationally advertised and you probably have heard of it and want it. The flowers are very large and lovely lavender gray stand ards and falls. It has been called "The Perfect Iris. Price, each 50c; 3 for \$1.25; doz., \$4.50.

- Midnight—Deep Purple. Finest purples.
- Rhein Nixe—Pure White.
- Albert Victor—Blue and Lavender.
- Caprice—Rosy Red, fall of deeper red.
- Helga—Lemon Yellow with pearl shading.
- Lohengrin—Rose, shading to near white.
- Pauline—Bright Blue.
- Princess Victoria Louise—Yellow and Cream.
- Her Majesty—Rose Pink, heavily veined.
- Dr. Bernice—Olive, shaded Red.

Japanese Iris This is a distinct group. The stalks grow two to three feet high with flowers of great size. Some measure 8 to 10 inches across. Commence to bloom in June and continue five or six weeks. The plants succeed best in cool, moist soil.

- Gold Bond—Double white, with gold banded center.
- Granite—Single. Purple, spotted and flaked white Lilac center.
- Indo—Single. Broad wavy petals of great size. Color dark, rich blue. Yellow center.
- Pyramid—Double. Violet purple, veined white in center of each petal.
- Red Eiding Hood—Single. Fine amaranth veined and suffused white. A beauty.
- Rose Anna—Double. Ivory white, ruby red veins. Yellow blotch. Very interesting.

Price of all Japanese Iris, each 35c; 3 for \$1.00; dozen, \$3.60; 25 for \$5.50.

The Flower Beautiful

Gladiolus

Any person who does not plant liberally of Gladiolus misses many a summer treat from a few dimes invested. The Gladiolus is the peer of all flowers and there is absolutely no danger of failure. Plant by the hundred, or one-half thousand and plant at intervals from early Spring till June 15th for a constant succession of blooms. Keep in mind that the bulbs multiply, so from a small start of the more costly kinds, you will soon have a large plantation, or bulbs to sell or give away. In garden cultivation plant 6 in. deep by 6 in. apart. Delivered within 4th zone at prices.

Prices of all named Gladiolus, unless priced differently, each 6c; doz., 65c; 25 for \$1.25; per 100, \$4.75.

Baron J. Hulot Dark pansy violet, shading to purplish white throat, carmine stripe in center of lower petals, ending in a short, slender, yellow stripe.

America Pale pink with small rose colored blotch. Beautiful. Great cut flower variety.

Alice Tiplady Geraldine orange. A beautiful variety that is bound to be very popular.

Golden Measure Very large, dark-golden yellow. The best yellow gladioli. Each 10c; doz., \$1.00; 25, \$2.00; 100, \$7.00.

Marshall Foch Outer petals geranium pink shading to pale pink in throat. A scarlet blotch on lower petals. Very attractive.

Lily White The earliest white, should be in every collection. 8c each; doz., 80c; 25, \$1.25; 100, \$4.50.

Mrs. Francis King By some considered the best of all. Flowers often 5 inches across. Pasper red, lower petals deeper red.

Mrs. Frank Pendleton Flushed salmon pink, with maroon blotch on lower petals. Probably the most popular with florists, which should recommend it also to others.

Grand Nymph The finest pink gladioli of all. Stalk grows 4 ft. Spike 18 ins. long. Flowers open 4 to 5 inches across; a beautiful pink color. When this grows beside other kinds it compares distinctly and outstanding. Each 15c; doz., \$1.50; 25, \$2.25; 100, \$8.00.

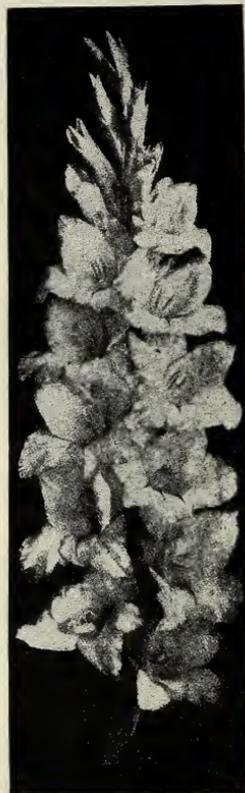

Pink Wonder La France pink (refers to well known rose), shading to paler pink in the throat with yellow at the base of lower petals. Immense flowers. A great beauty. Each, 10c; doz., \$1.00; 25, \$2.50; 100, \$7.00.

Scarlet Princesps Flaming scarlet. Six or more large flaming flowers open at one time. A real gem. Each 15c; doz., \$1.25; 25, \$2.25; 100, \$8.00.

Schwaben Clear canary yellow, shading to soft sulphur. Largest flower stalk and leaves of all. Planted 7 or 8 inches apart in rich soil; produces wonderful blooms. Each 8c; doz., 75c; 25, \$1.25; 100, \$4.50.

War Deep, blood-red shaded crimson. Leads among the large reds.

Everitt's Mixture To the person who does not care to keep track of the names, but grows gladiolus for the beauty of the flowers, we recommend our choice mixture, at reduced prices. There is a great variety of colors. Also, there are early, medium and late. So you will be treated to new surprises over a long period. Plant at intervals for a succession up to July 1st. Doz., 50c; 25, \$1.00; 100, \$3.50.

A GOOD HINT

Your very special attention is asked to the varieties: Golden Measure, Grand Nymph and Scarlet Princesps. These are new varieties of extraordinary merit. Remember, a few bulbs planted this year will multiply and you can soon have a considerable planting.

Cannas

creasingly until frost, each week adding to their beauty. The following list comprises the cream of the varieties. If you are at all acquainted with varieties you will agree with us when you look at the names.

Price of all Cannas unless priced different: One, 10c; dozen, \$1.00; 25 for \$2.00; 100, \$7.50
Delivered Within 4th Zone at Prices.

Eureka 4 ft. A white canna, and is the best white for general purposes. The large flowers are freely produced. Plant strong. Green leaves. Each, 15c; doz., \$1.40; 25 for \$2.50.

Fiery Cross 4 ft. Flowers vivid scarlet shading to crimson. Foliage is lustrous blue green. A grand Canna.

Gladiator 4½ ft. Green foliage. Flower bright yellow spotted crimson. Surpasses all others of this color. Robust grower.

Goldberg 5 ft. A new yellow variety that is bound to become famous. Large truss. As yellow as gold. Each 20c; doz., \$2.00; 25 for \$3.75.

Hungaria 3½ ft. Green foliage. Flower a La France pink with a satiny sheen. The best pink. Each, 20c; doz., \$2.00; 25 for \$3.75.

King Humbert Red 4 ft. Bronze leaves. The plants are crowned with an immense flower head, velvety orange-scarlet, rose tinted and margined at the base. The bronze leaves are large, heart-shaped. A combination of leaves and flowers that is very beautiful.

King Humbert Yellow 4 ft. Green foliage. Yellow flowers, blotched red. A grand Canna.

Indiana 6 ft. Rich golden-orange flowers sometimes 7 inches across. Green foliage. An orchid flowered variety.

Marvel 2½ ft. Green foliage. Flowers a light velvety red with an edging of orange. Large flower heads.

Mrs. Alfred Conard 4 ft. Green foliage. Magnificent head of perfectly formed salmon-pink flowers of great size. A grand Canna. Each, 20c; doz., \$2.00; 25 for \$3.75.

Madam Crozy 3½ ft. Green foliage. Brilliant vermilion flowers, with narrow edges of bright golden yellow. Green leaves.

Pennsylvania 6 ft. Green foliage. Large, orchid-flowered scarlet overlaid with orange. An imposing Canna.

Statue of Liberty 6 to 7 feet. Bronze foliage. Flowers blazing flame-red. The leaves are the largest of any Canna and a rich bronze shade. Magnificent.

A bed of Cannas is a veritable bit of tropic foliage and bloom transferred to the temperate zone. Stalks stiff. Foliage beautiful, with flaming flowers. They bloom early and in-

Wyoming 5 ft. Magnificent orange-colored flowers. A true orchid-flowered variety. Leaves purple.

Cannas in Mixtures Each season we have a surplus of considerable number of our named varieties and other Cannas that we put in this mixture and sell them at reduced prices. This is an opportunity that should be embraced by the person who does not care to keep track of names and wants to save some money. Each, 8c; doz., 75c; per 100, \$5.00.

THE FOUR OUTSTANDING CANNAS

- 4 ft. The President, scarlet
- 3½ ft., Hungaria, pink
- 4 ft., King Humbert, red
- 4 ft., King Humbert, yellow

These four Cannas, four colors, in solid beds, or in combinations will be a display never to be forgotten. Descriptions and prices above.

Double Pearl Tuberoses

Nearly everyone knows and prizes this beautiful fragrant flower, that is so easily raised from the bulb. By planting in the house and setting them out about May 1st, and then setting tubs in open ground at intervals from May 1st to June 25th, a succession of blooms can be had all summer. Price. Each, 10c; dozen, 75c; 100 for \$4.50; 50 at the 100 rate.

Some future customers for O. K. Seeds

Beautiful Lilies

No border or wild garden is complete without these charming flowers. They are stately and beautiful in form and flowers, matchless in colors, and exquisitely fragrant. Plant 6 to 8 inches deep in loose, well manured soil and, if convenient, with some sand under the bulb to insure drainage. Effective when planted between peonies. Very fine for the hardy border.

Royal Lily (Regale) Blooms profusely July and August. Flowers bright canary yellow in the throat, shading to bluish-white toward the edges. The outside is white with unusual tints. This is a new lily and one of the most beautiful that has ever been discovered or originated. 50c; 3 for \$1.25.

Regal Lily

Double Tiger Lily

Show Lily

Golden Banded Lily

(Auratum) Also called Golden-Rayed and Queen of Lilies. Blooms July and August. Flowers pure white petals, spotted with bright crimson and a yellow band along the mid-rib. 40c; 3 for \$1.00.

Longiflorum Giganteum The well-known, beautiful, snow-white, fragrant, hardy lily. Flowers trumpet shaped, 6 to 8 inches long. 1½ to 3 ft. high, each 40c; 3 for \$1.00.

Show Lily (Speciosum Rubrum) Blooms late August and September. Flowers, white suffused with rose-pink in the center and red spots at the base. Free bloomer. 40c; 3 for \$1.00.

Henryi A very beautiful Lily from China. Grows 3 to 5 feet and carries 5 to 8 large flowers. Apricot spotted brown. 50c; 3 for \$1.50.

Kramerii Grows 2 to 4 ft. high. Flowers funnel shaped, 6 in. or more long and open as wide; a beautiful clear pink color. 35c; 3 for \$1.00.

Double Tiger Lily (Tigrinum) Blooms August to September. Flowers double, borne in large clusters. Color, bright salmon-red with purple black spots. The best double lily. 35c; 5 for \$1.00.

Single Tiger Lily (Tigrinum). Same as the double Tiger except single. 30c; 5 for \$1.00.

Turks Cap (Batemanii). Blooms July to August. Flowers pale orange-red sometimes tinged with pink, borne in clusters as high as 12. 35c; 3 for \$1.00.

Meadow Lily (Canadense) Blooms June and July. Flowers, bright orange-yellow spotted with purple, born in clusters. 30c; 3 for 75c.

Swamp Lily (Superbum) Blooms from late July to September. Flowers brilliant orange scarlet, shaded yellow and spotted purple-brown at the base. Will have as many as 40 flowers in a cluster. Very showy variety. Prefers moist soil. 25c; 3 for 65c.

AMARYLLIS

Valuable for the garden, but most generally grown as a house plant. These are the most magnificent and gorgeous bulb and bulbous plants grown. The flowers are very large and remarkably colored, striped and blotched. For pot culture use any rich soil. Set the bulb two-thirds above the soil. Water moderately at first and increase. A 6 to 8 in. pot is usually large enough. Some growers put them in dark until the flower stems grow 4 to 5 inches.

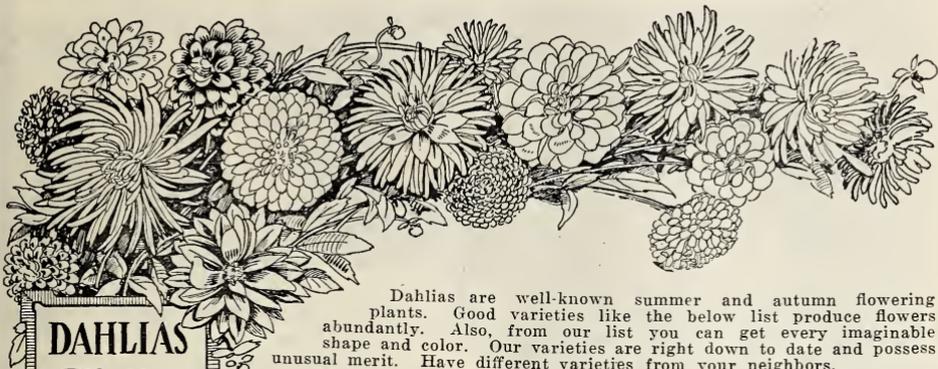

New Hybrids Amaryllis These new types run through the colors and shades of red and rose to white making a delightful range of colors. Mammoth bulbs, each, 75c; 3 for \$2.00.

Belladonna Amaryllis Fine variety for fall blooming, very free flowering and fragrant. Flowers a lovely shell-pink color. Stems 2 to 2½ ft. high. 25c; 3 for \$1.00.

Equestris Amaryllis Brilliant orange scarlet flowers with green and white throat. 35c ea. 3, \$1.00.

BEST AND CHEAPEST CANNA ROOTS

I bought flower bulbs of you last spring. Gladiolus and Cannas. They were extra good, the best and cheapest Canna roots I ever got anywhere. Garden seed were good and so were the Ebenezer onion sets. We are especially fond of them for eating raw as they are not so strong as some others are. Will send my order as usual this year. W. B. Crichfield, Linton, Ind.

DAHLIAS

The Most Wonderful Flower Creations

GET THE NEWEST AND BEST FROM US AT LITTLE COST

cases we give the prices in parenthesis that they usually sell for and following that is our price. Orders for 3 or more may be of different kinds at the rates for 3.

Bonnie Brae—The color of this wonderful Dahlia is a peach and cream combination of shadings, showing strong on the peach pink at first, but after well opened comes out much lighter. Very free flowering. (\$1.00) Each 55c; 3 for \$1.30.

Dr. Tevis—Beautiful shade of salmon-rose, suffused with old gold. (\$1.00) Each 55c.

Frank A. Walker. Alexander's Decorative Seeding.—A charming shade of deep lavender-pink. For garden decoration or for cut flowers. (40c). Each, 30c; 3 for 75c.

Mrs. Carl Salbach—(Salbach.) A sensational Decorative Dahlia of great size. In color, a mauve-pink, with occasional blending of white; the general impression being pink. For exhibition purposes this new creation is very desirable. (\$1.00). Each 50c; 3 for \$1.75.

Mrs. I. DeVer Warner—Deep mauve-pink. One of the very best Dahlias grown. Long stiff stems and excellent for cut flowers. (\$1.00) Each, 55c; 3 for \$1.30.

Ora Dow—A beautiful velvety maroon, attractively tipped with white. Each, 25c; 3 for 65c; doz., \$2.00.

The Bashful Giant—This is one of the largest Dahlias ever produced. It is also of great merit for its beautiful color, being an apricot with golden shadings. Flowers are produced on stout stems. (\$1.00). Each, 55c.

PEONY-FLOWERED DAHLIAS

Gertrude Burbank—The flowers are very large and of a brilliant scarlet-red. Each 25c; 3 for 65c.

Grace Kirschner—White, daintily overlaid cameo-pink. Each, 25c; 3 for 65c.

Latona—An unusual blending of orange, buff and yellow. Flowers are nearly full to the center, and produced freely, upon good stems. Each, 25c; 3 for 65c.

Mme. Van Bystein—A very distinct and new shade, lilac-blue throughout, holding blooms well above the foliage. An early and abundant bloomer. Each 25c; 3 for 65c.

Miss Barbara Hammond—An exquisite shade of silvery rose-lane-pink, blending to clear pale lemon-yellow at the center. Each 25c.

Virginia Marshall—The blossoms are an exceptionally dainty primrose-yellow, faintly overlaid a delicate rose-lilac shade. Each, 25c; 3 for 65c.

Dahlias are well-known summer and autumn flowering plants. Good varieties like the below list produce flowers abundantly. Also, from our list you can get every imaginable shape and color. Our varieties are right down to date and possess unusual merit. Have different varieties from your neighbors.

DECORATIVE DAHLIAS

Our list comprises nearly all different varieties from our former catalogues. It contains several new and expensive kinds. In such

CACTUS DAHLIAS

Bride's Bouquet—(Hybrid). An ideal white cactus and profuse bloomer, extra long stem; a Dahlia that stands up well when cut. Each, 50c; 3 for \$1.25; doz., \$4.00.

California Enchantress—(Hybrid) Flowers of very delicate blush; buds open a creamy-white, changing to a soft rosy tint as the flowers develop. Each, 50c; 3 for \$1.25.

Kalif—(Hybrid) In color a beautiful pure glowing scarlet. Gigantic flowers, which are produced freely. Each, 50c; 3 for \$1.25.

Mrs. C. B. Benedict—(Hybrid). Alexander's New Seeding. 8 to 10 inches across. A clear light yellow, one of the largest grown, a wonderful flower. (\$2.00). Each 65c; 3 for \$1.50.

W. B. Childs—(Hybrid Cactus) A very reliable variety. Color a beautiful dark purple-maroon. Each, 25c; 3 for 65c.

SHOW AND FANCY DAHLIAS

A. D. Livoni—Beautiful soft pink. Well formed flowers with long stems. Free-flowering. Each, 25c; 3 for 65c.

American Beauty—The flowers are of gigantic size. The color of this acquisition is a gorgeous wine-crimson. Each, 25c; 3 for 65c.

D. M. Moore—In this offering we have one of the best "nearly black" varieties to date. It is a rich, deep, velvety Victoria-lake, which is a shade deeper than deep maroon. Each 30c; 3 for 80c.

Maude Adams—(Alexander). The color is a pure snowy white, very effectively overlaid clear delicate pink. Each 25c; 3 for 65c.

Miss Helen Hollis—(Alexander). Deep scarlet. Blossoms are on long, stiff stems, well above the foliage. Each, 25c; 3 for 65c.

Princess Victoria—Pure canary yellow. Each, 25c; 3 for 65c.

Uncertainty—A brilliant combination of very light shell pink and scarlet. No two flowers are the same. Each, 20c; 3 for 50c.

Orders for 3 or more named kinds may be made up of different kinds at the rate of 3.

Rainbow Mixture Comprises all types, forms and colors, and is made up of varieties of genuine merit. If you will be too busy to keep the record of the named kinds, then this mixture will give you fine satisfaction. Each 20c; 6 for \$1.00. doz., \$1.75.

DWARF MIGNON DAHLIA

This is a new and rare flower. The plants are in bloom less than 3 months after planting. The plants grow 2 feet high and produce in great profusion. Wonderfully colored single dahlias with long stems. Is an ideal bedding and border plant and once its grace and beauty are known will be preferred to geraniums and some other old flowers. Grow a bed for cut flowers. Produce seeds and tubers. All mixed colors. Pkt., 25c; 5 for \$1.00.

ROSES

While our list of roses is not large it is made up of those kinds that are the most certain to succeed, will give the most satisfaction and will be the most enjoyed by the average grower. You can make your selection from the following list and be assured that you will get only the truly meritorious varieties. We guarantee all rose bushes to arrive in good condition. They will go right on growing, and soon give you an abundance of blooms. When planting be sure to firm the ground around the roots.

To meet all demands in quality and prices, we list the following varieties in 2 yr. Field-grown, 2 yr. Green-house grown, and 1 yr. Green-house grown. The Green-house grown have been hardened.

Prices. All varieties unless priced with description:

	One	Three	Six	Doz.
2 year Field grown	\$.50	\$1.25	\$2.50	\$4.50
2 year House grown40	1.15	2.25	4.00
1 year House grown30	.85	1.65	3.00

Orders for 3 or more need not be all of one variety but may be of different varieties and the price for 3 will apply. Delivered at prices to and including 4th zone. See pages 1 and 2.

Hardy Everblooming Tea Roses

American Legion A pleasing shade of cerise which color it retains until petals fall. Beautiful buds of great size on long stems. A rival of the American Beauty.

British Queen Purest white on opening; petals massive, with an exquisite reflex producing a globular and yet pointed form. Stiff, slender stems; free and fragrant. Valuable alike for exhibiting, massing, bedding, decorating and forcing. Gold Medal, N. R. S., 1912.

Edward Mawley A deep, rich velvet-crimson color on huge petals beautifully arranged to form faultless blooms of wonderful depth. Sweetly perfumed; growth handsome, uniform and perfect, holding each bloom upright. Perpetual flowering garden rose.

Columbia Pink Peach blow pink buds, opening to a glowing color. Very large flowers on long stems. Few thorns.

Golden Emblem It is so perpetual flowering that as a garden and bedding rose it is without a rival and with its wonderful coloring is a most wonderful rose. The coloring is a yellow.

Killarney Pink Brilliant, sparkling pink flower of exceeding beauty.

Killarney Red Color almost a crimson of rich, glowing shade. A magnificent rose.

Louise Catherine Breslau Buds coral-red shaded with chrome yellow, while the expanded flowers which are very large, are of a superb shrimp-pink shaded coppery-orange and chrome yellow; constant bloomer.

Los Angeles New color is flame pink with coral and tinted gold at base of petals. The color is new amongst roses. Plant is a vigorous grower.

Milady Crimson scarlet. Flowers very large, full and well formed, on long stems. Will not disappoint.

National Emblem Dark crimson overlaid with a velvety finish shading to vermilion toward edges. Beautiful buds. Marvelous bloomer.

Ophelia Brilliant salmon, shaded with rose on outer edge of petals with a heart of glowing peach pink and orange yellow blendings.

Premier A delightfully fragrant and beautiful dark pink rose that nearly everybody knows and loves. Robust grower and nearly thornless.

Pilgrim A beautiful shade of bright rose pink. Ideal long buds and perfect form of flower. Has a distinct tea fragrance which attracts all rose lovers. Profuse bloomer. Sure to please.

Robin Hood Glorious rosy, scarlet color of flower. Blooms large and ideal form. A heavy grower and free bearer.

Sunburst Orange copper or golden orange and golden yellow, all intense shades, giving an extremely brilliant effect. A giant rose, long stems, long pointed buds.

Virginia R. Cox Vivid, dazzling, fiery crimson; sweetly fragrant; produces a mass of gorgeous blooms on long stems.

William F. Dreer For delicacy of coloring this rose has few if any equals. When expanding, the flowers are of a soft, silvery, shell-pink, the base of the petals are a rich golden yellow.

Moss Rose

Henry Martin Light, glossy red flowers, tinged with crimson. Finely massed. A very sweet rose.

Hybrid Perpetual Roses

This class blooms in June and some of them bloom moderately all summer. They are the hardiest roses and live for many years.

White American Beauty (Frau Karl Druschki) Extremely large snow-white flowers. Blooms 6 in. across are not uncommon.

Red American Beauty Brilliant cherry red flowers of immense size. Bears also through the summer.

Black Prince Intensely dark-crimson, approaching black. Nothing else like it and is much sought after.

General Jacqueminot Brilliant red to shining crimson. Esteemed as one of the very best of this class.

George Ahrends Bright red-carmine to delicate rose; extremely large, full and deliciously scented; very floriferous. Long stiff stems.

Gloria Lyonnaise Very large, full. White flowers with base of petals also canary. Very beautiful.

J. B. Clark Intense scarlet, shaded crimson. Very dark and rich looking. Also has attractive bronzy foliage changing to dark green. Makes a large bush.

Dwarf Polyantha Roses

These bear clusters of "Sweetheart" buds and "Fairy" roses all the summer through. If several are planted in beds or rows are very effective.

Baby Doll Golden yellow roses, tipped with cerise. Deep glossy foliage. Beautiful corsage roses.

Clotilde Soupert White to deep pink at center. A wonderful rose for bedding, or pot culture.

Geo. Elger Coppery, golden yellow bud opening to a pale yellow. Has a particularly beautiful bud.

F. J. Grootendorst A unique new rose in that the edge of each petal is notched like saw teeth. Brilliant rosy pink flowers. Always in bloom.

Climbing Roses

Crimson Rambler Will attain a height of 10 to 20 feet in a season; produces a marvelous profusion of rich and glowing crimson flowers, each 40c; 3 for \$1.10.

Dr. Van Fleet Dainty soft flesh-pink. Flowers full and buds pointed and open to a great diameter. A new variety.

Gardenia A beautiful yellow climbing rose. Buds bright yellow, opening double flowers of cream color.

Paul's Scarlet The flowers a vivid scarlet, are of good size, semi-double, very freely produced in clusters of from 3 to 20 flowers each on a much branched cane, the plants being literally covered from top to bottom with bloom.

Silver Moon Clear silvery white, with a mass of bright yellow stamens. Flowers open to an immense diameter.

Hybrid Rugosa Roses

An extremely hardy type, of particular value in landscape work, hedges and hardy borders. Foliage, lustrous green and proof against insect pests. Flowers in clusters.

Amelia Gravereaux Large flower, beautiful purple red.

Conrad Ferdinand Meyer Pure, silvery pink, surpassing all others of the Rugosa family in beauty of color and fullness of form; fragrant.

F. J. Grootendorst A fine new rose, unique and bewitching, with the edge of every petal evenly notched like a saw. Bears quantities of bloom from June to October.

Hansa Rugosa Double, reddish violet flowers of large size, freely produced.

New Century A grand rose. Bears beautiful silvery pink flowers in clusters. This rose is in bloom all the time.

The Most Hardy H. T. Climbers

This class of Roses has been developed in recent years from the Dwarf Hybrid Tea varieties of same names. They are identical with them except they climb.

American Beauty The popular American Beauty Rose in climbing form. Has all the characteristics of its relative, including form and fragrance.

Gruss an Teplitz or Virginia R. Cox Hardy in all sections; grows freely to a height of four or five feet; vivid, dazzling, fiery crimson, sweetly fragrant; produces a mass of gorgeous blooms on long stems.

Lady Alice Stanley A gem that everyone admires; in color it is a beautiful shade of coral-rose, the inside of the petals shading to flesh pink with deeper flushes.

Lady Ashtown Deep rose shading to silver-pink, with touches of yellow at base of the petals.

Los Angeles See description in Hardy H. T.

Sunburst See description in Hardy H. T.

Rosa Hugonis

Golden Rose of China

The only dependable YELLOW shrub rose. Grows 5 to 6 feet high, spreading 4 to 6 feet with long, arching sprays densely set with lovely yellow roses in May, that resemble hollyhocks. Ideal for room or table decoration.

Attractive Foliage Plant

But the roses are not its only charm. The reddish maroon stems and abundant green leaves make it an attractive plant all Summer. As hardy as an oak.

Everybody Will Grow It

Dr. E. H. Wilson of Arnold Arboretum, Boston said. "This Golden Rose should be in every garden for it is one of the most lovely plants known to cultivation." Our customer E. A. U., Detroit, wrote. "I have a Golden Rose of China bush 9 ft. across and is literally covered with blossoms in May. I enclose check for 20 more of them." A. G. L., Minneapolis, wrote. "I planted a Golden Rose of China three years ago and it is a sight to see. I brought in a spray this morning 11 inches long with 18 roses on it. \$25.00 could not buy my bush." Tr yto picture this rose bush at a corner of your porch, on your lawn, or as a background. Probably the finest plant for a grave.

PRICE, 2-year field grown, each \$1.00; 3 for \$2.50; 6 for \$4.00; doz., \$7.50. You take no risk. Safe arrival guaranteed. Better order now to be sure to get them. We can send now or later. Beautiful catalog free to customers.

Everitt's Hardy Perennial Plants

"THE FLOWERS GRANDMOTHER LOVED TO GROW"

The perennials we sell you are strong field-grown. Planted in the spring they will flower the same year and will continue for years, ever increasing in number of plants and blooms. In three years the bed should be thinned, the plants divided and the surplus transplanted. With a start of a dozen plants, your home and your friends' homes may be supplied with beautiful flowers from early spring until freezing winter.

Price of all varieties in this list, unless priced with description: One 25c; 5 for \$1.00; dozen, may be of one or more kinds, \$2.00; 25, \$4.50; 100, \$12.50. An order for 1 doz or more \$2.00. All delivered Parcel Post or Express, according to terms on pages 1 and 2.

Aquilegia (Columbine)—All colors, fine for border and rock garden. Excellent cut flower. Two feet high. Blooms June-Oct. Double and Single.

Bleeding Heart (Dicentra)—An old favorite which has been difficult to obtain for years. Many will now want to plant it in their hardy flower gardens, where it will continue for years. It is one of the most attractive and most desired plants. Early in spring to June it bears long racemes of heart-shaped, rosy-red flowers. It is perfectly at home and hardy in any climate and does well in all situations, even in shade. Strong clumps 60c; 3 for \$1.65; dozen, \$6.00, delivered.

CAUTION—After the Bleeding Heart blooms the top dies and does not mark the place of the plant. Therefore put a marker where it is, as it will come back the next spring.

Campanula (Canterbury Bell) Invaluable for making a striking effect in the border during June. 2 ft. Double mixed.

HARDY RAINBOW CARNATION

Do you want carnations for buttonhole and house bouquets every day? These carnations are as refined, and the fragrance as exquisite as the hot house carnations. Can be grown with greatest ease and will bloom in 4 to 6 weeks from setting the plants. Every day you can cut buds and flowers till frost. Colors, Red, Pink, White and Yellow.

Colors Mixed—30c each; 4 for \$1.00; \$3.00 per dozen.

Separate colors—40c each; 3 for \$1.00; per dozen, \$4.50.

Delphinium (Larkspur.)—It is almost impossible to convey anything like an adequate description of the improved Delphiniums. Their greatest charm lies in the wonderful stateliness of growth, and the rich colors and tints of their striking flowers. Nothing in blue can compare with Delphiniums, and for their value in hardy borders they are unsurpassed.

Belladonna—Sky blue flowers.

Bellamosa—Deep blue.

Dianthus Barbatu (Sweet William) One of the most popular of old fashioned flowers. If an abundance of cut flowers is desired these can be relied upon. Brilliant, fragrant.
Newport Pink—In bloom on Decoration Day.
Scarlet Beauty—Scarlet, blooms early.
Alba—White, blooms Jay and June.

Digitalis (Foxglove) One of the best flowers. Throws a beautiful spike 4 to 6 ft. high. Mixed, gives all colors.

Gaillardia The most glorious of our true "Old-fashioned Flowers." Flowering constantly from June till October in many rich and brilliant colors of orange, crimson and red. Unexcelled as a cut flower.

Gypsophilla (Baby's Breath) — Masses of minute flowers produced throughout the summer, very fine for cutting and drying.

Paniculata Grandiflora—Pure white.

CHRYSANthemUM

LARGE FLOWERING

Autumn Glow—Rosy red. Eva—Pink.

Excelsior—Orange yellow.

Old Homestead—Buff pink.

Snowclad—White.

POM POM VARIETIES

Flora—Bright crimson.

Metzi—Yellow with reddish center.

Petite Louise—Light pink.

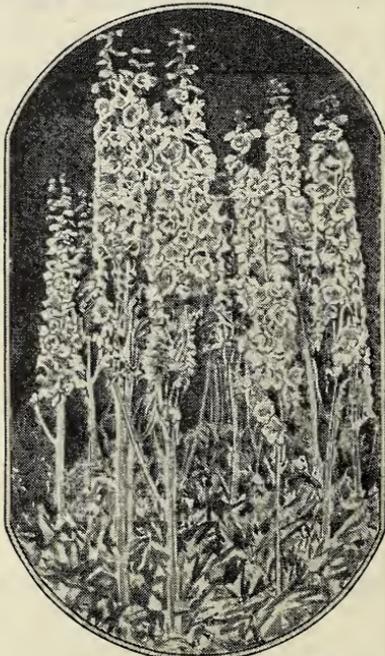

President—Rich purple crimson.

BUTTON VARIETIES

Mariabeau—Dark rose.

Little Dot—Yellowish brown.

Coreopsis (Tickseed)—The flowers are a rich golden yellow of slender, graceful form, making an excellent cut flower. Two feet high. Blooms all summer.

Delphiniums, Belladonna, blue flowers

Hardy Everlasting Sweet Peas

(Lathyrus Latifolius). Hardy perpetual blooming Sweet Peas. They are perfectly hardy, increasing in beauty each year. Valuable for cutting.

Splendens Red. Strong roots, each 25c. Set of three, one of each, not labeled, for 60c.

HARDY PERENNIALS—Continued

Hollyhocks Give rich soil, well drained. Once established, they become stronger and bloom finer each year. Planted in spring will bloom the same year.

Double, colors, maroon, red, rose, salmon, white and yellow.

Allegheny—Flowers seldom less than 5 inches across and fringed. Constant bloomers. Each 30c; 4 for \$1.00; dozen, \$2.50.

Lily of the Valley This flower is well known and appreciated by all. We sell field-grown clumps that will give immediate effect. Some of the roots can be taken up and bloomed in pots in the house.

Giant Flowering Mallow Marvel

Hardy Everywhere, Flowers, July to Sept.

This is a wonderful perennial growing 5 to 7 feet high in a clump of several feet around the base, with tops 4 to 6 feet across, loaded with giant flowers 5 to 8 inches in diameter from July to September. It is so remarkable and beautiful that we just know that every home-maker will love to have it. Absolutely hardy everywhere in the United States and Canada.

Price Separate Colors—Red, white and pink. One, 35c; 3 for \$1.00; 5 for \$1.50; dozen \$3.00.

Mixed Colors—In all the rich colors and shades of red, pink and white; one, 30c; 4 for \$1.00; dozen, \$2.25.

Platycodon (Japanese Bell Flower)—One of the finest hardy plants. Produced from July until frost, very showy, violet blue flowers almost rivaling the charming Jackmanii Clematis. 1 to 2 feet high. Each 25c; 5 for \$1.00; doz., \$2.25.

Platycodon

Phlox Beauty and usefulness bring these hardy border plants among those of greatest importance. For massing they are very effective and their great variety of color adds a brilliancy to the landscape. Their flowering season begins in July and if the past bloom spikes are removed, the blooming period may be prolonged until fall.

Separate colors—White, Pink, Lavender, Red, each.

Pyrethrum Hybridum

Hardy Daisy. A group of graceful free-flowering plants that are unequalled for cutting. Colors range from pure white to most brilliant scarlet. Blooms practically all summer.

Shasta Daisy

Rudbeckia

(Coneflower) — Extra large flowers of a reddish purple with large brown cone-shaped center. July to October.

Shasta Daisy A much improved hardy daisy, bearing a great profusion of large white flowers from early summer until late in the fall. Fine for cut flowers. Two to two and a half feet high.

Tritoma (Red Hot Poker)—A beautiful late flowering plant, having handsome reed-like foliage. Flowers are of a rich orange scarlet color three feet high. Blooms Sept., Nov. 25c; 5 for \$1.00; doz. \$2.25.

Price of any Hardy Perennials, unless with the description: Each 25c; 5 for \$1.00; dozen, \$2.00; per 100, \$12.50. An order for a dozen or more may include two or more varieties.

PERENNIALS FOR ROCKERY

Rockeries are becoming much the style and the following are the best perennials for planting in them. Same price as above.

Nepeta (Ground Ivy) Dwarf plants with masses of beautiful lavender flowers.

Arabis (Rock Cress) Low growing plants with white flowers.

Armeria (Thrift) Of dwarf tufted habit. Extra fine for cut flowers.

Sedum (Stone Crop) See illustration on 3rd cover page. Fine for rockery, bedding and cover for graves. Nothing surpasses these flowers for beautiful brilliancy. Large scarlet flowers. May and June.

Iberis (Hardy Candytuft) Dwarf plants covered with sheet of white flowers very early in Spring.

Sedum Acre Bright yellow flowers. The best cover for graves.

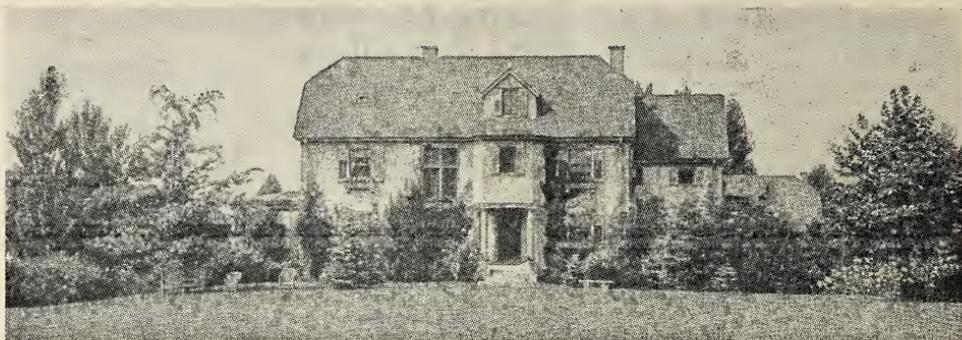

Spectabilis Immense heads of showy, rose flowers.

Spectabilis Brilliant Like above, but crimson flowers.

Sexangulaire Dwarf with yellow flowers.

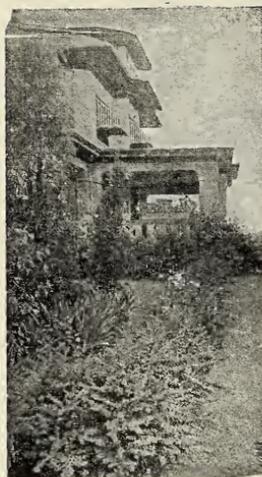

WORTH A CAREFUL READING

Naturally the person contemplating planting Perennials will like to make a selection that will give bloom from Early Spring till late Fall. This can be accomplished by planting the following. Campanula, Chrysanthemums, Coreopsis, Delphinium, Digitalis, Hardy Sweet Pea, Gaillardia, Hollyhock, Rudbeckia and Shasta Daisy. See list.

The Best Hardy Shrubs

A few dollars invested in shrubs now will soon make your home a beauty spot, a greater joy to live in and if you should later desire to sell it you will find it worth several hundred dollars more. So plant hardy flowering and ornamental shrubs without further delay. All of our shrubs are well developed, not seedlings.

Barberry Types

For instance, as soon as the foliage develops in the spring, it is a rich, bronzy red color and it retains this color all through the summer, when other Spiraeas are green. In the fall it bears brilliant scarlet berries, which hang on the plants all winter. It will thrive in sun or shade, but to get the full red color plant in sun. Price one year old, each 65c; 3 for \$1.50; per doz., \$5.00. Two year old, each 75c; 3 for \$2.00; per doz., 7.50, delivered.

Calycanthus (Sweet Shrub) Flowers purple, double, deliciously fragrant. Foliage rich, dark green. Very desirable. Each 60c; 3 for \$1.50.

Deutzia (Pride of Rochester) Large white flowers tinged with rose. Profuse bloomer and one of the earliest hardy plants to bloom. Each 50c; 3 for \$1.25.

Deutzia Crenata Magnifica—A new Deutzia. In its great fluffy bunches of white flowers it excels all others. Each 75c; 3 for \$2.00.

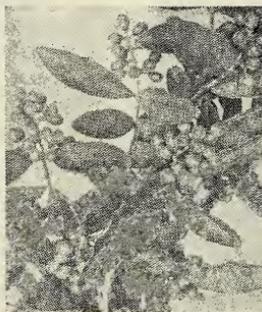

Abelia Grandiflora (Fragrant evergreen foliage. This is a combination rarely found in hardy shrubs and one which all will appreciate. Beautiful as a specimen or as a hedge or in a mass. Blooms June-Nov. Give winter protection in North. Each, 65c; 3 for \$1.75.

Althea (Rose of Sharon)—Blooms August and September. In separate colors. White, red, pink and purple. Each 50c; 3 for \$1.25.

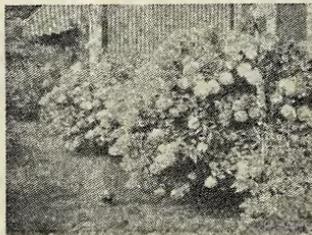

Barberry Thunbergii (Japan Barberry) This is one of the most satisfactory hedge plants. 12 to 18 inches, each 30c; 3 for 75c; dozen, \$2.75. 18 to 24 ins., each 40c; 3 for \$1.00; dozen, \$3.50.

Red Leaved Barberry (New) In habit of

growth this barberry is like the popular Japanese variety above, but in its foliage is its great difference and its greater beauty.

Amur River Privet

Hydrangea Grandiflora

Abelia Grandiflora

Dogwood (*Cornus*)—Grows 6 to 10 feet tall. Bears clusters of small white flowers in early summer, followed by whitish colored berries. Each 50c; 3 for \$1.25.

Golden Bell or **For-sythia**. This is the shrub which when it blooms very early in the spring everybody admires and many people seek for the name of it. Small bell-shaped, beautiful, bright-yellow flowers appear before the leaves. One of the most ornamental. Succeeds everywhere. Each, 50c; 3 for \$1.25.

Honeysuckle (Bush) Forms beautiful tall bushes, with handsome foliage and beautiful pink flowers. Its flowers are followed by orange or red berries which cover the plant in Summer and Autumn. Each 50c; 3 for \$1.25.

Hydrangea (*Arborescens*) Hills of Snow—Large, round, white flowers, July to Sept. Each 65c; 3 for \$1.50.

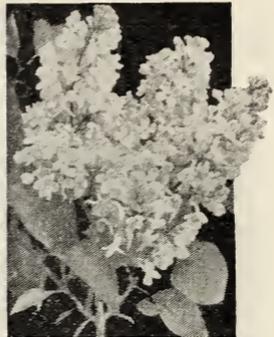

New Philadelphus Virginal

Hydrangea Grandiflora—The well known hydrangea. Grows 6 to 12 feet high bearing great globose white flowers in August, changing to pink later. Each 60c; 3 for \$1.50.

Syringa or Lilac An old favorite flower loved by all. We offer them in the following colors. Red, white and purple. Each 75c; 3 for \$2.00.

Privet Enclose your grounds, but don't use expensive, perishable fences. The privets are cheaper, need no repairs and last always. 100 Privet plants set 8 inches apart will make a fence 66 feet long.

California—1 year, dozen 75c; 50 for \$3.00; 100 for \$5.00; 2 year, doz., \$1.25; 50 for \$4.00; 100 for \$6.50.

Lilacs

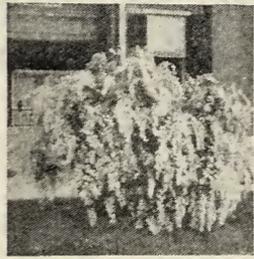

Amur River—This is the hardiest of all. Just as pretty as the California, but tops never winter kill. 1 year, doz., \$1.25; 50 for \$6.00; 100 for \$10.00; 2 year, doz., \$2.00; 50 for \$7.00; 100 for \$13.00.

Philadelphus (Mock Orange) Virginal—This is a late addition to the Mock Orange family and is the best of all, therefore we do not list the old ones. Blooms all summer. Beautiful, large, crested flowers. The richly fragrant flowers of Virginal, almost 3 inches across, surpass them all and continue blooming all summer. Each 75c; 3 for \$2.00.

Snowball This class of shrubs includes the well known Snowball seen on many lawns.

Opulus Sterile—The well known favorite Snowball bush which is loaded with large white balls in clusters in May. It is found on nearly every lawn or should be. Grows 6 to 8 feet. Each 60c; 3 for \$1.50.

Weigela Eva Rathka Blooms continuously throughout the summer and autumn. Each 75c; 3 for \$2.00.

Spirea Van Houttei

The Spireas

There are no more dependable shrubs than Spireas. Their graceful foliage and growth and the beautiful blossoms are a delight the season through.

Anthony Waterer—Blooms early spring and more or less until fall if fading blooms are cut away. Color pink. Each 50c; 3 for \$1.25.

Van Houttei (Bridal Wreath)—Heavy plants, each 30c; doz., \$3.25; 2 to 3 ft., each, 50c; dozen, \$4.50.

Probelli Spirea—Grows 2 to 3 feet high. Will flower in June and more or less during the summer. If cut back after first flowers fade will make another full bloom later. Give about one foot to a plant. Price, 2 year old field grown, one 40c; 3 for \$1.00; per doz., \$3.50.

Spirea Billardi

French Pussy Willow

An Outdoor Shrub from Which You Can Cut Bouquets During the Winter Months

You probably are acquainted with the wild PUSSY WILLOW that you delighted to gather very early in the spring. Well, this is not the wild one, but a cultivated French variety that succeeds on any good ground.

YOU CAN HAVE IT ON YOUR LAWN and enjoy the dainty silvery "Pussy" flowers every winter. It grows into a beautiful round shrub or small tree 8 to 15 ft. high and is a handsome little willow tree all summer. Wherever there is space for a Lilac or Snowball you have room for a Pussy Willow. Each 40c; 3 for \$1.00; doz., \$3.00.

Cut Bouquets in winter months

The Pussy Willow Girl

Privet Hedge instead of Fence
Particular Notice If you live in Fla., Idaho, Utah, Wyo. or W. Va., don't send us any orders for any kind of Nursery Stock as your state laws make it impractical to deliver it to you. This does not refer to Perennials and Bulbs, which we can send.

SHRUBS MADE A BIG IMPROVEMENT

The Shrubs bought of you last spring have made a big improvement in our place. I am well pleased and am thinking of sending another order this spring and I thank you for your promptness and the way the shrubs were well packed—Miss Stella Thompson, Muscatine, Iowa.

June 2, 1926. I received my shipment of Spirea and Butterfly bushes in good order and planted at once. Spirea is doing wonderfully, am surprised at the quickness with which it has started and Butterfly bushes, are coming nicely. I had some doubts about them growing so near salt water, as my place is on the shore of Narragausett Bay. But the result is a genuine surprise.—F. M. Sullivan, P. O. Box 114, Oakland Beach, R. I.

CHARMING CLIMBERS

For Every Situation—Once Planted, Lasts Always

Without climbing vines many homes would lack much of their beauty. Then it follows that many homes that are still dull and unattractive can be made beautiful from early spring, when the tendrils of hardy climbers take on new life till Winter comes again. If by mail add 10c for one; 20c for three.

Dutchman's Pipe

Ampelopsis, Veitchii (Boston Ivy)—Clings to any wall, no matter how hard or smooth. The leaves change in Fall to a vivid autumnal tinge. Each 50c; 3 for \$1.00.

Aristolochia (Dutchman's Pipe)—The brownish pipe-shaped flowers are very interesting but the heart-shaped leaves of great size are the most important feature as they quickly furnish the most complete leaf screen of any cultivated vine. They are both very ornamental and useful. Grow in sun or shade but prefers northern exposure. Entirely hardy. Each \$1.00; 3 for \$2.75; 6 for \$5.00. See illustration to left.

Bittersweet (Celastrus Scandens)—A rapid growing vine, which has yellow flowers in early summer that produce bright orange colored fruits by autumn which remain on the stems all winter unless eaten by the birds. A handsome vine in summer, as well as bringing bright colors to the home in winter. Each 65c; 3 for \$1.50.

Evergreen Bittersweet (Evonymus Vegetus) See illustration and description on fourth cover page.

Clematis, Paniculata (White Flower)—2 years. Each, 75c; 3 for \$1.25.

Clematis, Jackmanii (Blue Flower)—2 years. Each 75c; 3 for \$2.00.

Cinnamon Vine Has dark green foliage and late in the season bears a profusion of small white flowers of a delicious cinnamon fragrance and little bulblets which may be planted. Vines die down to the ground each autumn and grow up very rapidly in the spring. Each 10c; 6 for 50c; 15 for \$1.00. Large Tubers, 15c each; 4 for 50c; 10 for \$1.00. Mammoth size, 20c each.

Honeysuckle (Hall's Japan) Pure white and creamy yellow. Very fragrant. Each, 50c; 3 for \$1.00.

Kudzu Vine One of the best hardy climbers, will run 30 to 40 feet in one season. Profuse rosy-purple, flowers in small racemes in August. Makes dense shade. Each 35c; 3 for \$1.00.

Matrimony Vine Flowers from June to September. Pink to purple; very fine for trellises and fences. Each 35c; 4 for \$1.00.

Coral Honeysuckle (or Trumpet Honeysuckle) One of the finest varieties but little known. Its flowers are scarlet or Coral colored, 2 inches long, horns in clustered spike at the ends of branchlets. The flowers are followed by scarlet berries. Leaves are very much evergreen. One of the most beautiful vines to cover trellises, fences and arbors. Admirable for covering steep bankswere difficult to sod where they grow rapidly and need little attention. Plant 6 feet part. Remove old wood branches each spring. Each 60c; 3 for \$1.50; doz., \$5.00.

Silver Lace Vine (Polygonum Auberti) This is the latest addition to our list of practical hardy vines, a quick-growing type of twining habit averaging 25 feet in a season. The small, cordate foliagae is fresh and shiny, although the base of stalk becomes somewhat woody. Produces more bloom than any other hardy vine, covering a season extending from late summer into the fall with an extravagance of large, feamy sprays in silvery white. 2 year plants, 85c each; 3 for \$2.00.

Maderia Vine A rapid growing vine that makes a dense foliage. Bears sweet white flowers. Grows well everywhere, but is partial to sunny location. Tubers, each 10c; dozen, 75c. Protect tubers in winter or take them up and keep over in cellar.

Trumpet Vine (Bigonio Radicans) A very strong growing shrubby vine with rich foliage profusely set with trumpet-shaped flowers that are bright red. Blooms a long time. Entirely hardy. Each 50; 3 for \$1.25.

Wisteria One of the best vines for use on trellis, pergola or porch where a very tall, dense growing vine is desired. Bears drooping clusters of pea-shaped purple flowers. Each, 75c; 3 for \$2.00

Fruit Trees, Berry Plants and Grape Vines

Our Fruit Trees are 3 to 4 feet, about the largest size that can be mailed. They have lots of fibrous roots and a healthy top, just right to grow. Much more certain to grow than larger trees which usually lose some fibrous roots in digging. Prepaid at prices to and including 4th zone.

Apple Trees

Price of all Apple Trees, each 35c; 3 for \$1.00; doz., \$3.50; 100 for \$25.00.

EARLY SUMMER VARIETIES

Early Harvest—Pale yellow.
Yellow Transparent—White to pale yellow.

LATE SUMMER VARIETIES

Maiden Blush—Yellow with red blush.
Fall Pippin—Large yellow rich.

FALL AND WINTER VARIETIES

Baldwin—Bright red, sub-acid.
Delicious—Large, bright red, blending to golden yellow.
Grimes Golden—Golden yellow.
Jonathan—Beautiful, clear light yellow.
McIntosh—Deep crimson, highest quality, sub-acid.
Rome Beauty—Large yellow, shaded bright red, juicy.
Winesap—Dark red, sub-acid. Splendid.

Crab Apples

Hyslop—Large yellow to crimson.
Yellow Siberian—Medium yellow.

Peaches

Price—Same as Apple Trees.

Champion—White flesh, free, August.
Carman—White flesh, free, August.
Elberta—Yellow flesh, free, September.
J. H. Hale—Mammoth size, yellow flesh, free. Be sure to plant a Hale. September.
Heath's Cling—If you want a clingstone peach, this is the best. October.
Crawford Early—A magnificent, large, early, yellow peach, early September.
Crawford Late—Same as the early, but some larger. Late September.

Apricots

Price—Each 50c; 3 for \$1.25; doz., \$4.50.
Superb—Early.

Pears

Price of all Pear Trees, each 45c; 3 for \$1.25; doz., \$4.00 per 100, \$35.00.

SUMMER VARIETIES

Bartlett—Yellow with blush.
Clapp's Favorite—Yellow, about 1 week earlier than Bartlett.

FALL VARIETIES

Seckle—Small, crimson cheek.
Sheldon—Yellow with shaded cheek, juicy, first quality.
Keifer—Yellow and crimson, with russet. Will keep until January.

Cherries

Price—Each 65c; 3 for \$1.75; doz., \$6.50; per 100, \$50.00.

Black Tartarian—Late sweet. June.
Early Richmond—Sour. July.
English Morillo—Reliable bearer. Dark red, acid. August.
Napoleon—Sweet, yellowish red, juicy, productive—July.
Montmorency—Late, tart, late June.
Windsor—Large, liver color, late; very valuable for family or market. July.

Quinces

Price—Each 75c; 3 for \$2.00; doz., \$7.00.

Champion—Greenish yellow.
Meeche's Prolific—Bright yellow.

Plums

Plum trees should not stand singly as two or more are needed to fertilize the blossoms.

Price—Same as Pear Trees.

Green Gage—Greenish yellow. August.
German Prune—Large, long, oval, purple; flesh sweet. Does not cling to stone. September.
Abundance—Red. August.
Burbank—Reddish purple. August.
Lombard—Violet red. August.
"Reine Claude"—Large green, red cheek, hang long on the tree, one of the best. Late September.
Shropshire Damson—Dark purple. Very prolific, fine for preserves. October.

New Plums, Sapa and Waneta

These remarkable new plums were originated in the cold northwest. If you have no plum trees you should not let another season go by without setting some of these.

Waneta Skin red, flesh yellow. Delicious flavor and suitable for all uses to which plums are put at home and to market. Size is "mammoth". With reasonable cultivation they grow as large as a good peach or a medium-size apple with a small pit. Price, 3 to 4 ft., each 50c; 3 for \$1.25; doz., \$4.00.

Sapa Skin green, then turns black and the flesh is royal purple. Delicious as a fresh fruit and excellent for preserves and jelly. Good shipper. Price, 3 to 4 ft., each 50c; 3 for \$1.25; doz., \$4.00.

Branches from Sapa Plum Tree showing the prolific bearing of fruit.

Raspberry

PRICE—of all Raspberries—Each 10c; 3 for 25c; 12 for \$1.00; 100 for \$4.50.
 Columba—Red.
 Cuthbert—Red.
 Plum Farmer—Black, large berries, one of the best early sorts for home and market.
 Gregg—Black, well known market sort, large and very productive.
 St. Regis—Crimson.

Blackberry

PRICE of all Blackberries—Each 10c; 3 for 25c; 12 for \$1.00; 100 for \$5.50.
 Blower—Jet black, large size, best quality. Home or market.
 Eldorado—Very large, fine.
 Snyder—The hardiest.

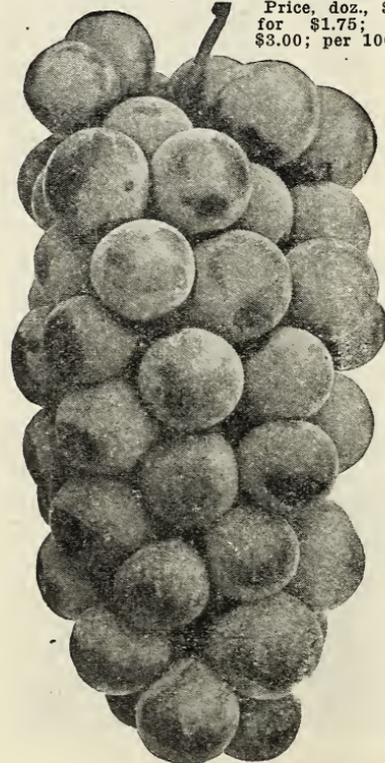

Currants

We can sell Currants only in Indiana.
 PRICE—Each 25c; 3 for \$1.00; 12 for \$3.00.
 Fay's Prolific—Red, very large.
 Wilder—Red, an unsurpassed variety for all purposes.
 White Grape—White, large, excellent quality.

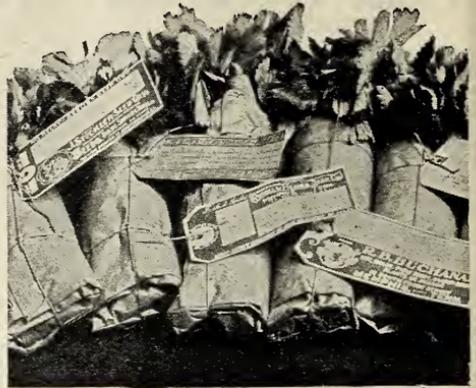

Everbearing Mastodon Strawberry

Reports from the people who have grown this Strawberry would seem to prove that it is the most wonderful Strawberry ever produced. It is of the everbearing type, a vigorous grower, bears all season and berries hold their size. The berry is extra large—18 have filled a quart. Color, dark, glossy red and its attractive red color extends all through the berry. There are other berries with better flavor, but when the large size, continuous heavy bearing, attractive color and good quality are taken into consideration, the Mastodon points ahead of all others.

Price, doz., \$1.00; 25 for \$1.75; 50 for \$3.00; per 100, \$5.00.

Strawberry Plants

By Mail, Everywhere

Send your orders for strawberry plants to us. We can supply you with the best plants that can be produced and will guarantee to get them to you in good condition, or will replace, if report is made in 3 days. In this way you will make the right start which will be a great thing toward profitable crops. All our varieties have "Perfect" blossoms. All prices up to 500 are delivered. 1000 lots not prepaid.

Variety	Season	25	100	500	1000
Aroma, Mid-season	-----	\$.45	\$1.20	\$3.30	\$5.00

No difference where you live. We send strawberry plants everywhere.

Best Variety of Grape Vines

There is scarcely a country or city yard or garden so small that space cannot be found to plant from 1 to 12 or more grapevines. When once planted they will last a lifetime with very little care and bear freely of the healthiest, most delicious, most profitable and most satisfactory fruit.

Black Grapes

- Concord** Black, large, very yielding. Most popular of all grapes.
- Moore's Early** Black, early. Like the Concord, as large and good but earlier.
- Worden** Resembles Concord, but larger. Ripens earlier.
- Ives** Black. Best for red wine.

Red Grapes

- Catawba** Red, late; a great wine grape.
- Lutie** (New) Catawba is the latest red grape, and this is the earliest. One of the best for jelly and juice. Each 40c; 3 for \$1.00; doz., \$3.50.
- Delaware** Red, exquisite little grapes. Best quality. Best for white wine.

White Grapes

- Niagara** White. The standard white grape, as large as Concord.
 - Winchell** Comparatively new. One of the earliest of all, hardy, productive. Each 40c; 3 for \$1.00; doz. \$3.50.
- Price—2 year old vines, each, 25c; 5 for \$1.00; 12 for \$2.00; unless priced otherwise.

FARM SEEDS

It is not possible to quote prices on farm seeds that will be good during the season therefore when you are ready to buy tell us what you want, and get our offers. Ask us for prices on Clover seeds of all kinds, Timothy seed, Blue grass, Red top, Orchard grass and Sudan grass, Rape, Vetch, Spring wheat, Seed oats, Millet, Buckwheat, Barley, Cane, Soybeans, Corn, Peas, etc.

QUICK GROWING LAWN SEED

This mixture of grass seed will quickly produce a green lawn followed by a permanent, tough sod. It is composed of the grasses best adapted to making a velvety lawn, and for entire permanency. We make two brands of it, one for ordinary position and the other where the lawn

is much shaded. Please, in ordering, say which is wanted. Should be sown thickly in Spring or Fall.
 lb. 4lbs. 10lbs. 100lbs.
 Quick Growing Sunny --45c \$1.50 \$3.00 \$30.00
 Quick Growing Shady --50c 1.75 4.00 37.00

8 ozs. will treat 4 bu. of seed grain. Full directions on package.
 4 ozs. will treat 2 bu. of field or Sweet corn. Directions on each package.

SEED INOCULANTS

All Legume crops can be benefited by inoculation. Even on ground that is capable of producing a good crop it will still be beneficial to apply a verile bacteria to the seed.

Please observe this key list in ordering but mention the crop as well as the class.

Class A. Garden beans, peas and sweet peas.

Class B. All clovers and alfalfa.

Class C. Soybeans, cow peas, vetch, field crop peas.

McQUEEN CULTURES

A brand with a great many friends who have used it for years and will not be satisfied with any other.

NITRAGIN

One of the old and time tried bacteria cultures that can be relied upon. The manufacturer guarantees more Legume Germs per pkg. than in any other brand.

MULFORD CULTURES

We are fortunate in having the illustration to the right to show how Mulford's Cultures draw nitrogen from the air, deposit it in the nodules as shown, which in turn enrich the soil as they decay.

The harvest of corn depends more upon the seed you plant than on all other things combined. Prepare now for the best crop that you can possibly raise by getting your seed from the Nation's breeding center. CENTRAL INDIANA as you probably know, has taken nearly all the prizes at great corn shows for many years. It is famous for its corn Kings, and may be called the Nation's Corn-breeding center. Seed corn grown here is suited to growers over a wide territory.

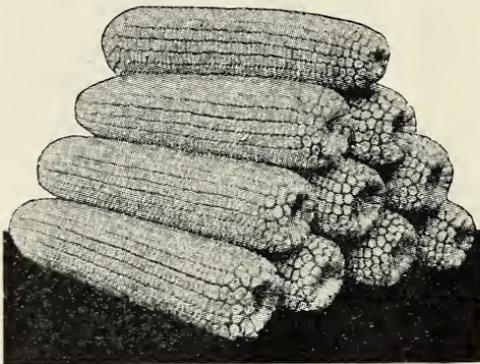

AS TO PRICES: It costs so little to plant an acre, or crop of corn, that any price you may pay for good seed need hardly be considered. Yet, if you can get just as good seed for \$3.00 to \$3.50 a bushel as some other person asks \$6.00 to \$10.00 for, what is the use of paying the higher prices? A comparison of prices will reveal that we have tried to make the burden of your seed bill as light as possible.

A great deal of so-called seed corn is being sold that is "whole-ear" shelled corn and then machine graded. You probably won't want that at any price. Our seed corn is hand-selected and then tipped and butted before shelling. By this plan we get the very best of the best ears. Of our leading kinds we usually can furnish selected ears at the same price as shelled. We advise you, when ordering ears, to tell us whether to fill your order with shelled, if no ears at the time.

DISINFECT YOUR SEED CORN

Here is an important recommendation that we advise you to act on: In recent years extensive research has proved that the diseases of corn can be controlled and prevented by using Seed and Soil Disinfectants. And besides, the treatment stimulates germination and a stronger, early growth. Examples are numerous where seed corn was treated and marked rows planted with non-treated seed and the difference in favor of the treated seed could be seen to the row all through the growth and the yields of the crop. The name of the disinfectant is Semesan Jr. Described and priced on page of this catalogue.

10 Prize Ears Farmers Interest

Farmers Interest White Dent This variety of corn has been awarded more Gold and Silver Medals and Cash prizes than any other variety of corn that ever existed.

Our house named and introduced this famous corn many years ago. Since then it was called Johnson County White Dent, and has been sold, also, under that name. It has continuously been the subject of selection and breeding. The Farmers Interest strain is a late corn, but not the latest of this type. It is suited for planting in the latitude of Indianapolis and 50 miles north and in an average season even farther north. For the South, it is par excellence, but new seed should be obtained each three years. We feel safe in guaranteeing this corn to outyield any other corn in sections where it is seasonably adapted. Matures in 120 days.

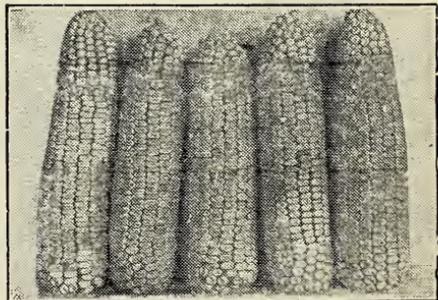

Price: Sample ear 30c; 1 lb., shelled 30c; 5 lbs., \$1.00, delivered in 4th zone. 1/4 bu. \$1.00; 1/2 bu., \$1.75; 1 bu. \$3.50; 5 bu. or more at \$3.25. Not delivered. Bags free.

Mortgage Lifter Makes Money Grow. This is the yellow corn that will make such big yields that you can pay off the mortgage if there is one. It is a strong grower and on rich soil makes yields 80 to over 100 bu. to the acre. Mortgage Lifter is taking a place among yellow corn that the Farmers Interest occupies among whites—the most productive hence the most profitable variety to grow. Matures in 110 days.

We want to sell enough of this corn to each corn grower who receives this catalogue to plant at least one field, where our claims will be proved and favorable comparisons made with the varieties he is now growing.

Price: Same as Farmers Interest.

The Farmers Interest and Mortgage Lifter Seed Corn are the best white and yellow corn raised in this country according to my experience, and I am using no other kind.—F. P. Jordan, College Grove, Tenn.

Mortgage Lifter

Old-Fashioned Leaming Yellow Dent

Old-Fashioned Leaming Yellow Dent

We call this The Old-Fashioned Leaming, because the seed was procured from Mr. Leaming in Ohio, twenty two years ago and it has been grown on the same farm all these years. The grower said: "It has never failed to produce, and matures, a good crop." Because of the frequent bad seasons to mature the corn crop, this variety has been much sought for, coming as it does in 90 to 100 days and making very heavy yields. Our sales of it have increased enormously the last few years and this year will be heavier than before. The stalk is medium height, stocky and leafy, bearing usually two good ears, grain deep on a small tapering cob. This variety does well on any soil, but has peculiar value on thin soil where it would not pay to plant other kinds. There are so-called "Improved" Leaming corns offered but we have aimed to keep to the original type which was good enough, and we claim far superior to any of the so-called "Improved."

Price: The same as Farmers' Interest.

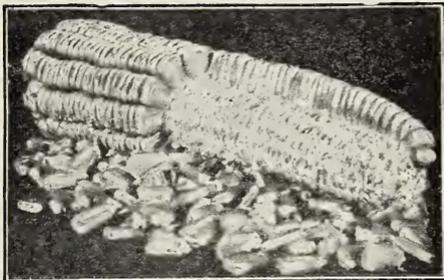

I obtained from you and raised Farmers Interest corn. I challenge the country to compete with it. My son got first prize on it in his club work. I am not ashamed to sign my name to this report.—E. C. Owens, R. R. D. 1, Hebron, W. Va.

Ten-To-One White Dent

The name means 10 lbs. of corn to 1 lb. of cobs. The one purpose of the originator of this corn was to produce an Extra Early White Dent Corn That would Yield as much grain as the later varieties.

There is a place on every farm for this valuable corn. Some farmers now plant no other kind. While it is early maturing, it is not exactly a small-eared variety. Ears frequently grow 10 inches long and weigh 12 to 14 ounces. The illustration to left, from a photograph, but reduced in size, shows very well the appearance of an ear, the shelled corn and the cob. Maturing in 90 days.

Price: Same as Farmers' Interest.

Ten-To-One White Dent

10 Prize Ears Reid's Yellow Dent

Reid's Early Yellow Dent

This fine yellow corn has been awarded for yellow corn at shows and expositions for years, and such awards quite uniformly have been to breeders and farmers of this—Central—part of Indiana. It has been the most generally grown yellow corn over most of the corn territory. A good strain of the variety possesses practically every merit that a good corn should possess. Stalk medium size. Moderately leafy. Ears good large size with deep grains on a medium cob. Matures in 110 days.

Price the same as Farmers Interest.

Pride of the North Extra Early Yellow Dent. This is frequently called "90 Day" Corn because of its rapid growth and early maturity. It is a variety that is suited right up to the Northern border of the corn belt and to very late planting in Southern latitudes. Shelled corn only.

Price—By mail postpaid: 1 lb., 30c; 5 lbs., \$1.00. By freight or express; ¼ bu. \$1.00; ½ bu. \$1.75; 1 bu. \$3.25; 5 bu. at \$3.00.

St. Charles White The Famous Red Cob Ensilage Corn. This is a double standard or double purpose corn. While it is probably planted more extensively for ensilage than any other corn, its value as a grain-cropping corn should be kept in mind.

Price—By mail postpaid: 1 lb., 30c; 5 lbs., \$1.00. By freight or express; ¼ bu. 75c; ½ bu. \$1.25; 1 bu. \$2.25; 5 bu., at \$2.15.

Eureka Ensilage Besides being one of the very best ensilage corns it ranks high as a grain corn. Yields heavily. It should be planted on strong ground when the stalks will grow 12 to 15 feet high and very leafy. Price the same as Farmers Interest.

NOTE—We aim to have our leading varieties of corn in selected ears at the same price. If you prefer ears say so on your order, but we suggest that you give us permission to send shelled, if no ears at the time.

No extra charge for bags for seed corn.

King Philip

Are you afraid of frost catching your corn crop? Well, many farmers have been and the King Philip corn has been planted extensively in numerous sections and those farmers had sound corn the next winter. While this is a very early corn—90 to 100 days—it is not a small eared corn, nor a lighter yielder. Our growers report excellent yields comparing favorably with later varieties with the great advantage that the crop is always sound, and worth 100 per cent for feeding. The color of the grain is not a true yellow, but on the market would be classed as "Mixed corn."

Price the same as Farmers Interest.

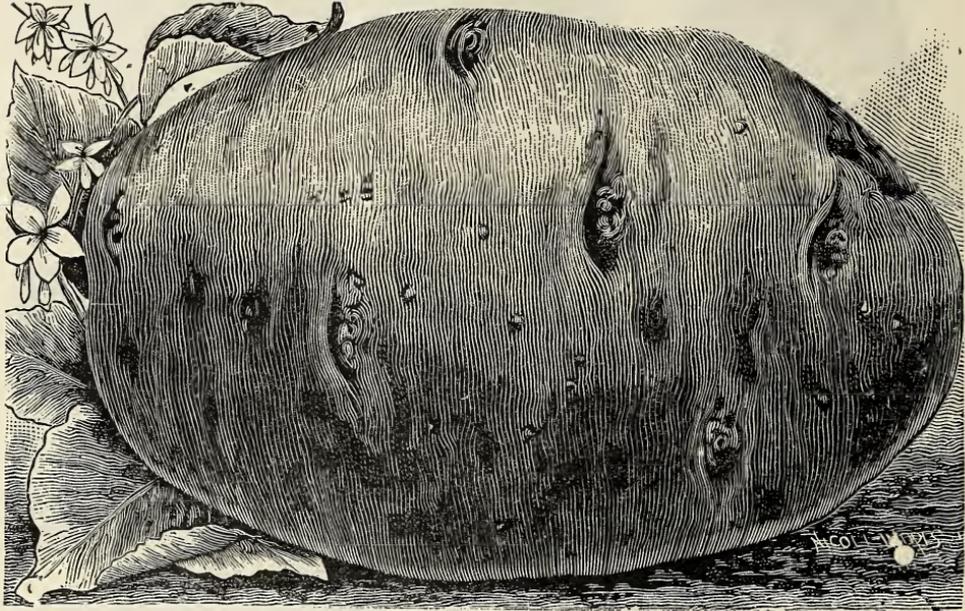

Bloody Butcher or Calico. This is a very early mixed-colored corn that is not so good to market as the straight yellow and white varieties, but for feeding it is scarcely approached by any other. The grains are variegated and blotched in colors, white and red stripes and shades. It matures early, is a vigorous grower of medium size, leafy stalks. Grains good depth on a small cob. We do not urge its planting for shipping trade but for home and neighborhood feeding where color is not a consideration, we cannot recommend it too highly.

Price: The same as Farmers' Interest.

EVERITT'S
EARLY
6-WEEKS
MARKET

POTATO

IS
FAMOUS
WHEREVER
KNOWN

We introduced this potato a good many years ago, and it still leads as a first early, productive, profitable variety for the market gardener, and is prized by all lovers of good early potatoes from the home garden. It has yielded for one grower, one year, 420 bushels per acre; next year, 380 bushels, and, two years later over 600 bushels. Because of its quick growth it largely escapes the Summer droughts, and the second crop of bugs.

Price—By Parcel Post, 1 lb., 30c; 4 lbs., \$1.00. By Freight or Express, ¼ bu., 75c; ½ bu., \$1.25; 1 bu., \$2.00; 5 bu. up at \$1.75.

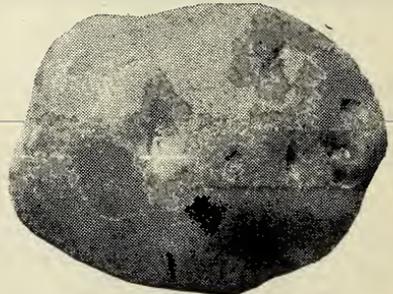

Green Mountain Notwithstanding that we introduced this great potato many years ago, we sell large quantities each year both to customers of former years, who want to get a change of seed, and new ones. It is a medium late potato. A very strong grower and is extraordinary in productiveness. The skin is inclined to cream color, making it very beautiful. Covered with a netting which usually denotes good quality.

Bliss Triumph (Extra Early) This is the standard variety in most of the Southern producing sections to ship to Northern markets and has numerous warm friends in the North. The plant grows rapidly and the tubers are medium size, light red color, with whitest flesh. Its extra earliness productiveness and handsome appearance and fine table qualities make it a favorite with growers, and buyers.

Early Ohio The best known early potato. Skin light pink, with small white blotches. It is a good yielder of shapely potatoes of splendid quality. Makes a good Fall and early Winter potato if planted late.

Irish Cobbler (Medium Early) An excellent variety. One of its good qualities is that it is not apt to set on more tubers than it brings to marketable size. Vines grow short and upright, permitting of close planting. Skin is white and flesh is white. Superior quality. In many sections is preferred to all others.

Early Rose This is the good old favorite, known by everybody.

Green Mountain

Rural New Yorker A main crop potato noted for its heavy yields, good keeping and eating qualities and the esteem in which is held on all markets. The tubers are white, large oval many of them flattened with few eyes even with the surface. Flesh white and of excellent quality. A very heavy yielder on good ground.

PRICE—of all except otherwise priced, lb. 30c; 4 lbs., \$1.00, postpaid, by freight or express ¼ bu., \$1.75. Prices of seed potatoes subject to change.

ORNAMENTAL EVERGREENS

In these times when evergreens are becoming so popular no person, having charge of a lawn, park or other ground should neglect the evergreens. They are beautiful in themselves, 365 days of the year, and they furnish the "color" which sets off the rest of the planting. The following list comprises some old familiar sort and the best of the dwarf low growing newer varieties. The sizes are just right for successful transplanting.

All will be delivered at prices listed. 3 or more may be of assorted kinds.
Juniperus Chinese Compact pyramidal tree grows about 20 ft. high. Plant 10. ft apart 8 to in. Twice transplanted 50c; 3 for \$1.25; per doz., \$3.50.

Juniper, Savin Grows about 4 ft. high. Branches many, dense, well-clothed with foliage. Plant 4 to 6 ft. apart. 10 to 12 in. Twice trans. \$1.00; 3 for \$2.50; per doz., \$7.50.

Juniperus Chinese Pfitzeriana One of our most valuable evergreens. Thrives under nearly all conditions of sun, shade and soil, north, east, south and west. 8 to 10 in., twice transplanted, 75c; 3 for \$2.00; per doz., \$6.50.

Norway Spruce Can be pruned to any desired height, but naturally grows tall. 10 to 12 in. Twice transplanted, 50c; 3 for \$1.25; per doz., \$3.50.

Colorado Blue Spruce One of the finest evergreens. It is always admired for its symmetrical shape and beautiful color. 10 to 12 in. Once trans. 50c; 3 for \$1.25; per doz., \$4.00.

White Spruce Attains height of 25 to 50 ft. Does well in all situations and ground conditions. 1 to 1 1/2 ft. \$1.00; 3 for \$2.50; per doz., \$7.50.

Black Hill Spruce Symmetrical, compact and bushy of growth. Even the small trees soon form round, compact bodies. 8 to 10 in. Once trans. 50c; 3 for \$1.25; per doz., \$4.00.

Mugho Pine The many stemmed, dwarf growing broad spreading type. Attracts much attention. 6 to 8 in. Twice trans. 50c; 3 for \$1.25; per doz., \$4.00.

Austrian Pine One of the best for planting in districts affected with smoky atmospheres and coal gas. By the seashore and of course, inland places. 10 to 12 in. Twice trans. 75c; 3 for \$2.00; per doz., \$6.50.

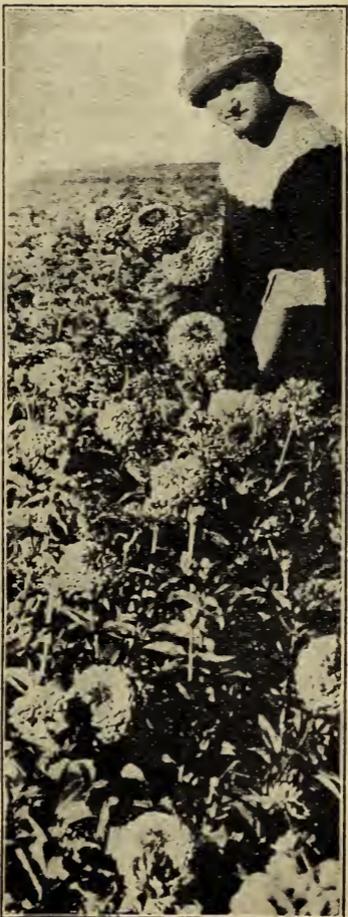

American Arborvitae Grows bushy at bottom and tapers to top. Foliage soft and deep green. 18 to 24 in. Twice trans. 40c; 3 for \$1.00; doz., \$3.50.

Pyramidal Arborvitae Grows to 15 to 20 ft. 1 to 1 1/2 ft., usually about 2 ft. in diameter at base, compact, narrow and pyramidal. 1 to 1 1/2 ft. Twice trans. \$1.00; 3 for \$2.50; per doz., \$7.50.

Golden Arborvitae (Berkman). Grows 6 to 8 ft. compact and bushy. Noted for its fine form and color. 8 to 10 in. Once trans. 75c; 3 for \$2.00; doz., \$6.50.

Globe Arborvitae An old favorite. Round, bushy, compact. 8 to 10 in., \$1.00; 3 for \$2.50; doz., \$7.50.

Japanese Spurge The evergreen plant that should be used to give the finishing touch to any landscape planting. Fine for edging. As much at home in dense shade as in sun; in dry or moist places. 4 to 6 in. 3 for 50c; doz., \$1.75; per 100, \$10.00.

Giant Dahlia Flowered Zinnia

Old Rose—Colors range from the color of yellow roses to that of the American Beauty.
 Crimson Monarch—The largest Zinnia, often 6 to 8 inches.
 Golden State—The blooms are yellow changing to orange.
 Dream—Lavender, tending toward purple. Is very attractive.
 Polar Bear—A large white Zinnia of good form. Plant this in a row next to Crimson Monarch for best effect.
 Oriole—Resembles the colors of the oriole bird; very attractive. All of the above named kinds, pkt., 15c; 1/4 oz., 60c.
 Mixed—Best. Made up with above and many more varieties. Pkt., 15c; 1/4 oz., 50c.

Giant Dahlia Flowered Zinnias

Poultry Supplies Department

Chicken Diarrhea

Avoid the usual loss of chicks by putting Avicol in the drinking water. Watch it revive the chicks that seemed almost ready to die—watch it keep the whole flock in good health, free from disease, full of pep, growing and developing. Avicol positively prevents and quickly stops diarrhea and bowel diseases. Endorsed by thousands who have used it with perfect success year after year. The best remedy you ever tried, or money refunded. Liberal package, 50c. Extra-large Economy size, \$1.00, delivered.

Stops Roup Colds

CANKER

Deadly roup starts like a cold, spreads rapidly, and often kills an entire flock. A few drops of Roup-Over usually banishes every symptom of roup or cold in one day.

And used as a preventive, it guards the whole flock against such epidemics. Easy to give. Results Guaranteed! Liberal bottle, 50c. Large Economy size, \$1.00. Delivered.

Makes Hens Lay

DON SUNG gets the eggs no matter how cold or wet the weather. Easily given in the feed. A scientific tonic regulator and conditioner. Beneficial to all the flock. Instead of feeding loafing hens all winter, give Don Sung and get the eggs

when eggs are scarce and high priced. We guarantee you more eggs with Don Sung—or your money back. Trial Guaranteed size, 50c; \$1 size (3 times the 50c size). \$5.00 size (6 times the \$1 size). Delivered.

Ejection of worms will not clear your flock, but digestion of the worms and their ejection will. This is the way the Barnes Emulsion works. Guaranteed. Many flocks have worms when not suspected. Yes, most flocks have. Pt., 60c; qt., \$1.00; gal., \$3.00; 5 gal., \$12.50. Not delivered.

SODIUM FLURIDE—Best "kill" for lice. Destroys both old and young, and the unhatched ones. Full directions. Pkt., 40c, 70c, not delivered.

EVAPOMETER—As indispensable as a thermometer in the complete success of incubating. Measures evaporation and tells when moisture is needed. Adapted to every incubator. No incubator should be run without it. Price with all instructions, \$1.00, delivered.

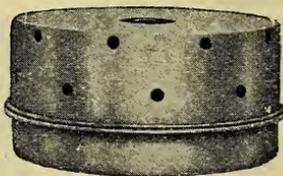

"EV-ER-IT" INCUBATORS

Automatic turning trays, double walls, California Redwood, double glass doors. Note very low prices.

150 Egg	\$17.45
450 Egg	36.75
300 Egg	24.50
600 Egg	48.75

LITTLE PUTNAM STOVE—You can keep the

water in the Poultry Yard from freezing with one of these stoves. Use under any fountain or even under a bucket of water. Use for heat in Oats Sprouter and numerous other ways. 3

pints of coal oil runs it a month without any attention. Not even trimming the wick. A big little thing at a little price, only \$1.95 each, in galvanized iron. Aluminum, \$2.95 each, 25c extra will deliver it to 4th zone.

"Please send another of your Little Putnam Stoves. I have one in use for water in my hen house and notwithstanding the temperature went to 27 below zero the last two nights, the water kept summer temperature. Its a wonder."—W. G. Seely, Sherburn, N. Y.

"Please send two more stoves. I got four a year ago and they have done so well I can't get along without them." Joe Lang, Irondale, Wash.

"The Little Putnam Stove has been O. K. No ice water for the chickens this winter, but they layed about 50 per cent more eggs." Chas A. Mason, Phillipsburg, N. J.

GET OUR PRICES ON

Brooders—Coal, Oil, Electric.
Feeders, Fountains, Oat Sprouter, Remedies, Tonics, Poultry Litter, Etc.

POULTRY FEED

We manufacture a complete line of Poultry and Chick Feed and we want to supply you our needs. We do not quote prices here because of frequent changes. Whenever in need of any of the following, ask us for our latest price list:

B. M. STARTING FEED
DEVELOPER SCRATCH
CHICK SCRATCH
PIGEON FEED
POULTRY REMEDIES AND SUPPLIES

EGG MASH
GROWING MASH
SCRATCH FEED

Don't permit your income from Poultry to be shut off or restricted. Feed **EV-ER-IT** Brand Feeds and have robust chicks and lots of eggs to sell.

Cyclone Seed Sower

Well known for its accuracy in sowing nearly all kind of seeds, fertilizers, etc., broadcast. Carried comfortably by strap over shoulder, not around neck. Built right and works right. Directions. Price \$2.50; 25c more will deliver to 4th zone.

All the seeds I ever purchased from you were just what you said they were. Also, you have been prompt in putting out your orders. Mrs W. E. Rusies, Delta, Colo.

Fertilizers

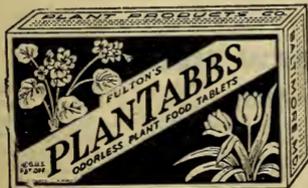

On brands of fertilizers not delivered at the prices, we will allow 10 per cent off which will pay the freight in some instances.

The prices do not include delivery unless so stated. **STIM-U-PLANT** Fertilizer tablets for House plants. Very convenient to use. Very effective. Pkgs. 25c, and 75c paid, 1000 tablets (enough for a season's supply for a medium-size garden) \$3.50. Delivered to 4th zone.

NITRATE OF SODA—If you want to see your garden and lawn at their very best, top dress with this fertilizer. It makes grass and crops hump themselves, or can be applied in liquid, 1 oz. to 1 gal. of water. 1 lb., 15c; 5 lbs. 50c; 10 lbs., 75c.

PHOSPHATE—A safe effective fertilizer. Apply liberally. It is not very expensive but is very effective 10 lbs., 30c; 25 lbs., 60c; 50 lbs., \$1.00; 100 lbs., \$1.75; 500 lbs., \$8.00.

PlanTabbs are small, white, odorless tablets more effective than the finest fertilizer. Ideal for house plants where smelly fertilizer cannot be used, but equally good for all garden planting, particularly roses. We highly recommend PlanTabbs because they are economical, there is no waste, no run-off, no weeds, they are clean, odorless, easy to apply, give uniform feeding and by dissolving quickly produce immediate fertilization. Four sizes, 25c, 50c, \$1.00 and \$3.50. The \$3.50 package has five times as many tablets as the \$1.00 size.

Worms in Poultry is one of the most prolific sources of loss, because of lack of production, and also death of the fowls. If you want profits instead of losses from your poultry, be sure to keep the flock free from worms. There is no surer way than with Gizzard Capsules. **PRICE**—Chick Size, 100, \$1.00; 500, \$4.50; per 1000, \$8.00. Hen size, 50, \$1.00; 100, \$1.75; 500, \$7.00; 1000, \$12.00 delivered.

DOG FEED

Get your favorite from us. Not prepaid at the prices.

Champion, Old Trusty, Thorough, Millers A-1, Sergeants, 4 lbs. 50c; 10 lbs., \$1.00; 25 lbs., \$2.50 100 lbs., \$10.00.

The balanced food in tin cans. **KEN-L; PUP-E RATION; KITE-E. Special 3 lbs., for 45c; 7 lbs., for \$1.00 not delivered.**

BONE MEAL Fine Ground—

Is pure animal bone finely ground. Unusually rich in nitrogen and phosphoric acid. Unexcelled for permanent results on lawns and in gardens. 10 lbs., 45c; 25 lbs., \$1.00; 50 lbs., \$2.00; 100 lbs., \$3.75; 500 lbs., \$16.50.

SUPERIOR PLANT FOOD For House plants. Pkgs. 50c; \$1.00 delivered to 4th zone.

PLANT MARVEL For house plants. Pkg. 25c. Delivered to 4th zone.

S A C C O A A complete fertilizer for Gardens, Lawns and House plants, at a very moderate price. Analysis: Nitrogen 3.29 per cent. Available Phos. acid. 10 per cent. Potash 4 per cent. Price 1 lb., 25c; 5 lbs., 50c; 10 lbs., 85c; 25 lbs., \$1.75; 50 lbs., \$3.00; 100 lbs., at \$5.00.

SHEEP MANURE The most popular garden and lawn fertilizer. 10 lbs., 50c; 25 lbs., \$1.00; 50 lbs., \$1.75; 100 lbs., \$3.00; 500 lbs., \$12.00.

Spray and Dust

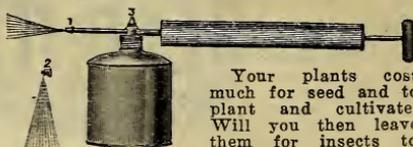

On The Crops - - In the Poultry House

Compressed Air

There are some crops which if you don't intend to spray or dust, you might as well not plant. You know this is true. So if you have not got satisfactory outfits, we will be pleased to supply them.

Dr. Robertson Compressed Air Sprayer—This sprayer is fitted with two spray tips, one will spray straight ahead like shown by "1". If wanted to spray up or down or sideways, replace nozzle "1" with "3" and get the results at "2". It will spray any low plants. It is very economical in the use of the material.

Dr. Robertson's Sprayers

Your plants cost much for seed and to plant and cultivate. Will you then leave them for insects to destroy?

Lowell Sprayer

Price all tin, \$1.00; all brass \$2.00. 25c for delivery.

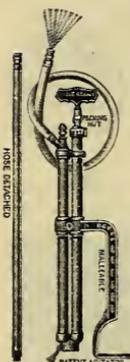

Compressed Air Sprayer—With hose and nozzle. 2½ gal. galvanized tank, \$5.50; same with brass tank, \$8.25. 4½ gal. galvanized tank, \$6.25; with brass tank, \$10.50. Not delivered.

Little Giant Brass Bucket Spray Pump—Entirely of brass. Throws spray and solid stream \$4.30; Same with 8 feet pipe extension \$5.05. **Lowell Sprayer or Atomizer**—A handy little machine, even can do quite large jobs of spraying with them. Tin, 50c; with galvanized tank, 75c; 25c for delivery.

Lowell Continuous Spray Tin \$1.00. With galvanized tank, \$1.20. 25c extra for delivery.

DUSTERS—These are for distributing powdered insecticides. They are guaranteed to give satisfaction.

Model D—See illustration. With extension pipe. For vine crops, potatoes, tobacco, beans, small trees, etc., Price \$1.50; 50c for delivery.

Little Giant

Model A—Same as D without extra powder chamber and extension pipe. \$3.50. 50c for delivery.

Model B—The right size for a moderate size garden. \$1.00; 25c for delivery.

Model C—Select this for house plants and where just a few outside plants. Also for roaches etc. 75c, 25c for delivery.

10 Per Cent Discount—Takes 10 per cent off on Little Giant, Compressed Air, spray pump toward delivery.

The "Hit" Lawn Sprinkler. This inexpensive lawn sprinkler throws a beautiful fan shaped spray over a semi-circle. Can be retracted while spraying. You'll like it. Delivered, only 50c.

Hit Lawn Sprinkler

Get a "Hit" Sprayer and profit by it all summer.

CHICKEN LETTUCE

Poultry requires green feed to keep in the best of health and produce the most eggs. This lettuce from Japan is the ideal cropper for the poultryman. It grows rapidly and as the stalks are cut or the leaves pulled off it grows again and continues to produce until killed by frost. The yield is very heavy. Also feed it to Rabbits. Pkt., 10c; oz., 20c; ¼ lb., 75c; lb., \$3.25.

November 8th, 1928—This is to gratefully acknowledge receipt yesterday of five beautiful specimen of the Golden Rose of China plants and to thank you most kindly for them. I have them planted. With all good wishes and assuring you I shall send further orders, I am, Frank F. Tuttle, No. 6 N. First St., Alhambra, Cal.

March 9, 1928—I wish to say the Butterfly bushes that I bought from you are now over 6 ft. tall. They attract more attention than any other flower in my yard. I will ask you for a new book as I want to order some seed from your company.—Mrs. Mollie Burnam, 311 E. 5th St., Lexington, Ky.

A NEW MUSTARD

Fordhook Fancy This is such a beautiful plant that some places it is called Ostrich Plume Mustard. It is a vigorous grower, mild, stands a long time before going to seed. Leaves are dark green, fancifully curled and fringed. Fine for all purposes. Pkt., 10c; oz., 20c; ¼ lb., 60c; lb., \$2.00.

INSECTICIDES

Sprayed Potatoes, 291 Bushels per Acre

Unsprayed Potatoes,
90 1/2 Bu. per Acre

We solicit the orders of large users of INSECTICIDES and FUNGICIDES. Let us know your needs and get our prices. We will send Circulars of any Article on request.

The cost of spraying material and the time to apply it represents the smallest part of the whole expense of growing a crop. Labor, seeds, fertilizer and everything that enters into the production of fruits, vegetables and potatoes are high; therefore, after the heavy investments are made, no wise person will abandon his crops to the numerous insects and fungi and blight to destroy. But he will send his order for what he needs of the following insecticides and fungicides and exterminate them off the earth. The preparation and the spraying machine we offer are unexcelled.

All powders and dust should be applied when the foliage is wet.

Poisons are not admissible to the mails, so they must be sent by freight or express.

PARIS GREEN

For Leaf Eating Insects

Paris Green is the old standard and reliable poison that has been used for years by potato, tobacco, cotton and fruit growers and others. PRICE—1/4 lb., 20c; 1/2 lb., 30c; 1 lb., 50c; 14, 28, or 56 lbs. at 45c a lb.

ARSENATE OF LEAD (Powder)

For Leaf Eating Insects

This is one of the most efficient poisons for the control of plant, vine and tree insects. It can be applied in the form of a spray or mixed with lime or plaster or other bases, or can even be applied in its original form without fear of injury. It never "burns" the foliage and has extraordinary adhesive qualities. It is preferred by many to Paris Green. PRICE—1 lb., 35c; 4 lbs., \$1.25; 12 lbs., \$3.50; 24 lbs., \$6.00; 48 lbs., \$11.00; 100 lbs., \$22.00.

CALCIUM ARSENATE

Used as a dust or spray on potatoes and other plants to kill bugs and protect from fungus. Lb., 25c; 4 lbs., 75c; 12 lbs., \$1.96; 24 lbs., \$3.50; 48 lbs., \$6.50; 100 lbs., \$12.50.

BORDO MIXTURE (Powder)

For Blight and is a Plant Stimulant

The use of this preparation will stimulate plant life and prevent blight or rust on any kind of plants during the growing season and the rot of potatoes in the field or after storing. PRICE—1 lb., 35c; 4 lbs., \$1.25; 12 lbs., \$3.00; 24 lbs., \$5.50; 48 lbs., \$10.00; 100 lbs., \$18.00.

LIME-SULPHUR (Powder)

For Scale Insects and Fungicide

One lb. to 12 to 15 gal. hot or cold water as a Winter Spray, 30 to 50 gallons as a Summer Spray. PRICE—1 lb., 35c; 5 lbs., \$1.30; 25 lbs., \$4.50; 10 lbs. or more at 12c.

BLACK LEAF 40 (Nicotine-Sulphate)

For Sucking Insects

This is the most generally used remedy for all sucking insects, such as Aphids, on apples, pears, peaches, currants, strawberries, melons cucumbers, peas, beans, peppers, potatoes, cabbage, egg plant, cauliflower, Brussell sprouts, tomatoes, flowers and shrubs. To kill these insects their body must be wetted by the spray made from Black Leaf 40. It is also widely used for dipping sheep, cattle, hogs, etc. to rid them of vermin. 1 oz., makes 6 gallons of spray. 35c; 8 ozs., makes 50 gallons of spray, \$1.25; 2 lbs., \$3.50; 10 lbs., \$13.50.

SCALECIDE

For scale insects. Kills by contact. Spray in Spring before leaves or blossoms appear, also in Fall or Winter after leaves fall and when weather is not freezing. Qt. 60c; Gal., \$1.40; 5 Gal., \$6.25.

SLUG SHOT (Powder)

This is the old standard preparation for the eradication of insects injurious to house and garden plants, trees, vines, potatoes, melons, cabbage, currants, fruits and vegetables generally. The preparation does not injure the foliage. PRICE—5 lbs., 60c; 10 lbs., \$1.25; 25 lbs., \$2.10; 100 lbs., \$7.75.

"SURE-NOXEM"

A can of this insecticide should always be kept handy for nearly every insect pest that is likely to attack your cabbage, tomato, cucumber, melon, currant, gooseberry and other plants. Also is effective on rose bushes and flower plants. A sifter top. Safe, Sure, Pkgs., 25c and 80c.

LIME

For garden, whitewashing, etc. 10 lbs., 25c; 25 lbs., 50c; 50 lbs., 75c; 100 lbs., \$1.25.

GYPNUM OR LAND PLASTER

20 parts of gypsum with 1 part of Calcium Arsenate, applied with a Duster, protect vines from striped beetles. 10 lbs., 20c; 25 lbs., 35c; 50 lbs., 75c; 100 lbs., \$1.25; Ton, \$18.00.

TOBACCO DUST For Leaf-Eating Insects

This dust destroys some kinds of leaf-eating insects. It is particularly valuable against rose slug, lice, cut worms, vine bugs, tomato worms, currant worms and cabbage worms. Tobacco dust will not burn or injure the plants. PRICE—Lb., 10c; 5 lbs., 40c; 10, 25 or 50 lbs., at 6c.

HELLEBORE

For the destruction of slugs, worms, caterpillars, etc. The accepted remedy for current and gooseberry worms. Safe for use when vegetables or fruit are about ripe. 1/2 lb., 35c; 1 lb., 65c.

TREE TANGLEFOOT

A paste preparation for painting around the trunks of trees, in the form of a band. Caterpillars and other crawling pests cannot get over it. Lb., 50c; 5 lb., can \$2.25; 10 lb., can, \$4.25.

PARACIDE

(Write it "Para" for short.) Kills peach tree borers. Don't use on trees younger than 6 years. One pound to 16 trees. Directions on packages. Lb. 55c; 5 lbs., \$2.45; 10 lbs., \$3.80.

WHALE OR FISH OIL SOAP

For mild forms of scale, and is an excellent summer spray, when something stronger cannot be used. Good for washing off ferns, and almost anything that would be infected with any kind of insects. 1/2 lb., 15c; lb., 25c; 5 lbs., \$1.10; 10 lbs., \$2.00.

KAYSO Spreads the Spray and Makes it Stay. If you have never used this in your poison solution get a package now, try it and you'll find it will make the liquid go much farther and be far more effective. Kayso causes the spray to Spread" and cover the entire surface and holds it to the surface. Pkgs., 25c; and 50c; 10 lb., \$2.10; 50 lbs., \$9.50; 100 lbs., \$18.00.

ATLAS
NON-POISONOUS
WEED KILLER
PATENTED

This is a non-poisonous dust sold in a "duster" can. Each can contains 3 1/2 lbs. of chemicals which is sufficient to kill the weeds on 300 square feet of fully growing area. From this you can make an estimate of how many weeds it will kill along a walk or drive way. The dust is shaken on the weeds only. Price, \$1.50. If by parcel post-add postage extra for 5 lbs. 50 lb. drum at 25c lb.

Has Your Lawn It's Flowering Crabs?

If Not You Should Not Let This Spring Go By Without Planting These Three.

RED, PINK AND DOUBLE PINK

There are numerous varieties of Flowering Crabs but the best ones are little known outside of the private collections of wealthy people and city parks and Arboretums. From all of the varieties we have selected the three that are the PRINCES of the large family. No other plants, shrubs or trees will give greater returns in colorful flowers, ornamental fruits and dense glossy foliage.

Red *Astrosanguinea*

The whole nation loves red flowers and we will say that whoever sees this small tree in bloom will have seen a sight he will never forget. Not only are the flowers a blanket of brilliant, carmine red but the

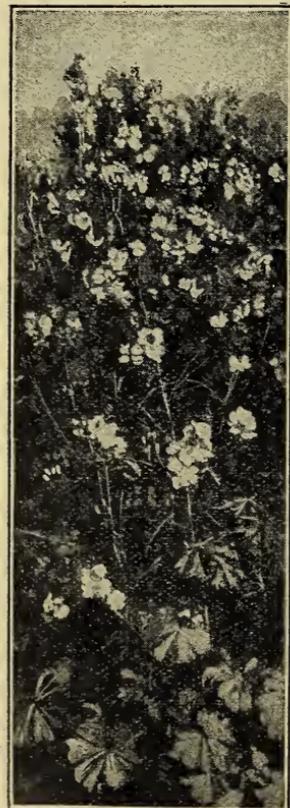

fruits that follow, as numerous as the blossoms themselves, are red and even the branches are red. The fruits persist through the summer, fall and winter and are almost as beautiful in the fall and winter, laden with their brightly colored fruits, as in the spring with their myriads of flowers. Price, \$1.00; 3 for \$2.50. Larger size, \$1.50; 3 for \$3.50.

Pink Floribunda Grows as a small tree 8 to 10 feet high and as much across, with a mass of branches and slender, arching, pendant branchlets. The flower buds are bright rose pink, opening to white. The bushes show a cascade of a myriad pink and white buds and flowers in singularly beautiful contrast and with delicate perfume in May. The flowers are followed by tiny apples which persist all summer, fall and winter unless gathered to make splendid preserves, or eaten by the birds. Price, \$1.00; 3 for \$2.50. Larger size, \$1.50; 3 for \$3.50, delivered.

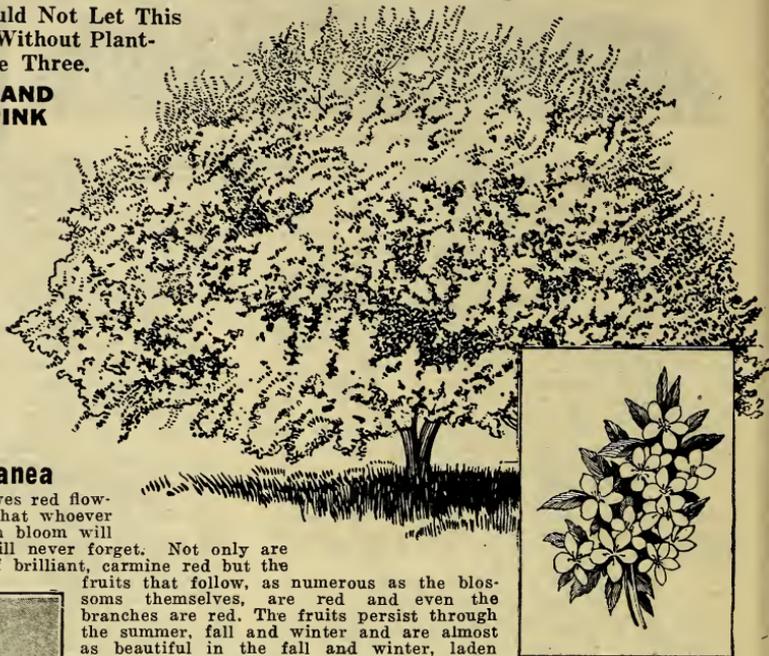

Pink Bechtels (Double). This is another beautiful variety and has the added beauty of the flowers being double. When in bloom it resembles a small tree of pink roses which are followed by the small fruit as with the others. Each \$1.00; 3 for \$2.50. Larger size, \$1.50; 3 for \$3.50, delivered.

A Special Offer One of each, the 3 trees, \$2.50.
One of each, larger sizes, \$3.50.

Sidelcea Rosy Gem—Perennial of rare beauty and value. The plant grows 5 ft. tall and bears rosy pink flowers on long stems amongst shiny dark-green leaves. Begins to bloom in June, at its best about July 4. When the first bloom is over cut to about a foot from ground when it will send up new foliage and more flower stems. Entirely hardy. Be sure to plant this. Pkt., 15c; 2 for 25c.

Sidelcea

RETURN THIS COUPON

AFTER you have looked through this catalogue and made up your order, clip this coupon and send it along and we will send you something valuable FREE.

OR, if after you have looked through the catalogue you do not see anything that you need, or that you want to buy, just clip the coupon and pin it to the order sheet and mail it to us and we will send the same valuable present FREE.

YOU will not be under any obligation. This is just our way to make every catalogue bring some return.

4 Hardy Perennial Gems 4

On this page are the descriptions of our Specialties as Illustrated on the Third Cover Page.

SEDUM (Stone Crop)

Hardy plants, which can be used in many ways that no other plant will fit. There are two many varieties to attempt a list and give full description. So tell us the conditions under which you want to plant them and we will send the right varieties. For instance, poor, sandy waste, where nothing else will grow, or a rock garden, ruins, banks and walls or for a carpet bedding, under shade trees where grass will not grow; or on a grave; or for edging or border or bed; or in hanging baskets or vases. With Sedum any position can be made a Beauty Spot. Easiest to start, multiply by planting off-sets. Tell us what you want to do with them and we will send the right kind. Prices delivered, 3 for 50c; doz., \$1.75; 25, \$3.25; per 100, \$12.00.

CHATER'S DOUBLE HOLLYHOCKS

The stately hollyhock plant is everywhere admired. No other plant can inject so much of vivid color and beauty as this new, double hollyhock. Planted as a back ground their tall pillars will set that portion of the garden ablaze throughout much of the summer. These double flowers resemble large tissue paper rosettes of colors that only nature can produce. This new variety will probably not be obtainable through any other catalogue, and as no flower collection should be without it, we will be looking for your order. Price. All colors mixed, pkt., 20c; 3 pkts., 50c; 7 pkts., for \$1.00.

WREXHAM STRAIN HARDY DELPHINIUM (Larkspur)

It may truly be said, no Perennial garden is complete without the hardy Larkspurs. If you have not got them then the part of wisdom will be to not think of any but this new Wrexham strain, and if you are growing the old Beladonna, or any of the old kinds, change them for the new and prepare for joy. This strain records the greatest advance in Delphiniums. The graceful spire-shaped spikes are of enormous size and of exquisite beauty of form. Our mixed seed will give you all the colors in Delphiniums and will include both single and double. This is another garden gem that you can probably obtain only through our catalogue. Packets only this year. Price, pkt., 20c; 3 for 50c; 7 for \$1.00.

ARTEMISIA, SILVER KING (Hardy)

A Plant of Rare Beauty. Adapted to any landscape plan and for use in bouquets and table decorations.

A real novelty in hardy perennial plants. It's bright silvery stems and foliage make a beautiful bush in any situation and they blend harmoniously with other perennials, shrubs or plants. Height, about 3 feet, and about the same across. The stems are covered with bright silver-colored leaves, which assume the appearance of small flower buds all over the bush. The stems can be cut and held without moisture, indefinitely. Plants only. Price, Each 35c; 3 for \$1.00; doz., \$3.50.

WE ARE LOOKING FOR YOUR ORDER

Farmers and Gardeners, when preparing to order their seeds, do not confine their investigations to one seed catalogue, but they examine several. We know this. So we have made a catalogue that for MODERATE PRICES, VALUABLE INFORMATION and GOOD APPEARANCE, we believe will appeal to the reader. We feel, in sending this catalogue that we stand a good chance of receiving your order. If you do send it to us we will spare no effort to execute it to your satisfaction.

Permanent Ornamental Grass Bed

AN UNUSUAL LAWN DECORATION

Made up of these hardy, Permanent Grasses

Erianthus Ravena (Plum Grass or Hardy Pampas) Frequently throws up 30 to 40 plume stems. Grows 10 to 12 feet high. One clump, 60c; 3 or more at 50c each, delivered.

Eulalia Japonica Variegata—Long narrow leaves striped green, white and sometimes pink or yellow. Very ornamental. 5 to 6 feet. One clump, 50c; 3 or more at 40c each delivered.

Eulalia Japonica Zebrina—The long leaves of this variety are marked with broad yellow bands across the leaf. A very attractive specimen. 5 to 6 feet. One clump, 50c; 3 or more at 40c each, delivered.

Special Offer

To plant a bed, we will send 2 **Erianthus**, 3 **Eulalia Variegata** and 3 **Eulalia Zebrina** all for \$3.00 delivered.

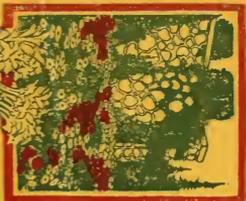

To Make The Bed

Lay off a circle 6 to 8 feet in diameter. Grade it so the center will be about 6 inches higher than the circumference. Have ground rich with good fertilizer. Bone meal will be lasting. Put 2 or 3 clumps of **Erianthus** in center. Then plant 3 or 4 of each of the other two varieties alternating near the circumference. Treat as any other hardy perennials. The plants will increase in size until all the space will be occupied and the bed will be an outstanding feature on any lawn. All these varieties produce plumes in the Fall which make attractive everlasting bouquets.

BEST ANNUALS TO GROW FROM SEED

Antirrhinum (Snapdragon), in variety; **Ageratum**, several colors; **Asters** of various forms and colors; **Calendula** (Pot Marigold), very floriferous; **Cosmos**, exquisite for fall blooming; **Delphinium** (the annual larkspur) for autumn blooming; **Escholtzia**, (California Poppy), a brilliant mass of color; **Gypsophila**, **Paniculata** (the double flowering Baby's breath); excellent for cutting;

Helichrysum in colors, a grand everlasting; **Hollyhocks** in sorts, **Nasturtiums**, the dwarf sorts give a great abundance of blooms; **Petunias**, very prolific bloomers; **Portulaca**, always makes a bright display; **Salpiglossis**, exceedingly colorful; **Scabiosa**, fine for cut flowers; **Salvia Splendens**, excellent for large beds; **Zinnias**, the improved varieties.

Euonymus Colorata

(AN EVERGREEN BITTERSWEET)

It may be said to have six-fold glories. (1) It is Evergreen, therefore is beautiful 365 days of the year. (2) It is easy to grow as a ground creeper or a climber to the height of 20 to 30 feet. (3) It is not particular as to soil, climate or exposure. (3) It is harder than Ivy, therefore can be planted farther North. (5) Loaded with beautiful red berries which remain on the vines unless picked by birds and redeem our winters from their bleak, cheerless mood. (6) It promises to become the universal vine as dear to Americans as Ivy is to Europeans.

A MILLION DOLLAR VINE

A writer in Garden Magazine said: "If I had a million dollars to spare I would like to plant an Evergreen Bittersweet against every stone, brick or concrete and other wall in America. The effect would add 100 per cent to the beauty of America. And this would only be anticipating what will surely happen for it is hardly possible that the world holds any plant with greater power to transform a house into a home."

Plant on good ground in sun or shade, and mulch with manure, water liberally the first year.

Price: Strong vines, each \$1.00; 3 for \$2.00; 6 for \$3.75; per doz., \$6.50. Give 4 to 6 feet space.
