Bulbs for Spring Planting

GLADIOLUS

Mailing weight 1 lb. per doz.
 Gladiolus are general favorites among the summer flowering bulbs. They are easy to grow, blooming successfully under unfavorable conditions and need a minimum amount of care and attention but paying big dividends if given extra favor. Their stalks of lily-like blooms found in almost all shades and colors are the most satisfactory of cut flowers lasting a week or more if cut when the first buds are opening.

Bolgiano's Superb Mixture. Doz., 40c; 100 for \$3.00.
Bolgiano's Fine Mixture. Doz., 35c; 100 for \$2.50.

CANNAS

Cannas are most satisfactory bedding plants with their wide arching leaves and stiff stalks of flaming flowers growing like torches above the foliage. Exuberant of growth a bed becomes attractive soon after planting and each day thereafter adds to its beauty, blooming constantly until cut down by frost. Tubers may be started in moist sand indoors or planted out of doors when all danger of frost is over. Send for catalog.

CALADIUMS

Known also as Elephants' Ear. This is one of the finest tropical plants which can be grown in the open air in the north. It can be made to produce 3 to 10 leaves, 3 to 4 feet long and nearly as wide on stalks 4 to 6 feet high. Medium size, 15c each; doz., \$1.60. By mail, 10c per bulb extra.

TUBEROSES

Mail weight, 1 lb. per doz.
 Probably one of the most fragrant flowers grown. Have waxy white flowers in clusters on a long stem which makes it desirable
Excelsior Dwarf Pearl, each, 4c; doz., 40c.

DAHLIAS

Dahlias are important rivals of all other bedding plants and are showy and attractive. If well cared for they will give a liberal supply of fine cut flowers. They are also very effective planted among shrubs and perennials. Best results are obtained if they are planted early, but they can be planted very late with good results. Send for catalog.

A Word About Our Quality Seeds

Our seeds are grown where conditions are ideal to bring them to perfect maturity, under the supervision of men who have made the growing of seed their life work.

No effort or expense is spared to keep our seed crops up to the highest standard of excellence. Our root crops are all grown from carefully selected transplanted roots, and all fields are carefully watched and rogued while the crops are growing.

We handle only one grade and that is the best that is humanly possible to produce, so that your order for a 10c package receives the same quality as the order for large quantities.

We have served over four generations located in every state of the Union, as well as some foreign countries and are ready to extend this service to you. Send in your order at once, it will receive prompt and careful attention.

Faithfully yours,

THE J. BOLGIANO SEED COMPANY
 BALTIMORE, MARYLAND

Our complete illustrated Catalogue sent free on request, describes and prices our full line of Garden and Flower Seeds, Grass and Field Seeds, Baby Chicks, Poultry Supplies and Feeds, Insecticides, Bee Supplies, Garden Tools, Etc.
