

**EIGHTY YEARS OLD**

**CHRISTIAN MINISTERS ASSIST DR. DUNGAN TO CELEBRATE BIRTHDAY**

May 15 was the eightieth birthday of Dr. D. R. Dungan, widely known and dearly loved minister, Bible teacher and author, and to properly celebrate the day about twenty ministers of the Christian churches of Southern California and their wives met at his home on Lomita avenue on that afternoon to do honor to this greatly esteemed gentleman.

The afternoon was spent in good fellowship, in singing hymns, and addresses were made. Many of the ministers present lauded the work of Dr. Dungan as a teacher in preparing young men for the ministry, as a minister and as an author. His book, "On the Rock," was especially mentioned as having caused thousands to confess their faith in Christ.

Letters of congratulation from friends in many parts of the United States were received and read.

At five o'clock Mrs. Dungan called the guests to the dining room, where she served a dainty repast and an hour later the guests departed wishing Dr. Dungan many happy returns of the day.

Among the guests were Mr. and Mrs. J. W. West, E. H. Keller, J. M. Mourou, Dr. John C. Hay, Leander Lane, Prof. and Mrs. B. S. Dean, Dr. Wm. F. Cowden, Dr. W. F. Richardson, Mr. and Mrs. A. M. Allen, Dr. B. C. Hagerman, Mr. and Mrs. D. F. Hartley, Rev. Clifford A. Cole, L. W. Klinker, Mrs. B. F. Coulter, Mrs. Catherine Perry, Mrs. Leander Lane, James F. Stewart, George C. Ritchey, D. W. Misener, Mrs. C. A. Barnes, J. N. Smith and others.

**BROTHERHOOD BANQUET OF THE WEST GLENDALE M. E. CHURCH**

The ladies of the West Glendale M. E. Church gave a banquet in the parlors of the church to the men of the church and their friends last night at 7:00 p. m. This is a quarterly affair. The ladies served a very sumptuous four-course dinner, which was heartily enjoyed by the fifty men present.

The guests of honor were Rev. Edmonds of the Presbyterian Church and Mr. Ray Moore of this district of the M. E. Church. They afterwards spoke to a large number in the auditorium, ladies being admitted. The men expressed themselves as having had a delightful and interesting evening.

**AUTO ACCIDENT**

What might have been a very serious accident, occurred when two autos collided at Colorado street and Central avenue at 1:15 to-day.

A Ford driven by J. S. Foster was going west on Colorado when it collided with a large touring car belonging to the Kalem people and driven by R. S. Figarola, which was going south on Central. It seems as if both cars were trying to make the crossing ahead of each other. The Ford car was turned completely upside down and pinned the occupants underneath. In this car were Mr. Foster and John Mott and Mr. Foster's 4 year old boy. Luckily they escaped with slight cuts and bruises.

The little boy was the most seriously hurt, being cut and bruised considerably about the head and face. The large Kalem car ran up on the parkway, smashing down an electric light pole and tearing out a fire hydrant, but this car was so heavy that little damage was done to it. The Ford car was almost a complete wreck and as usual both drivers lay the blame on the other.

**WAR WORK MEETING**

There will be splendid speakers at the High School Thursday evening at 8 o'clock under the auspices of the Young Men's Christian Association War Work Council of California. There will be short, snappy speeches relative to the important work the association is doing for the boys in the mobilization and training camps. Dr. Lyman Beecher Sterry of Los Angeles of international note; A. B. Cass, president of the Los Angeles Y. M. C. A. and member of the national War Work Council, and Attorney Mattison B. Jones will be among the speakers. There will be music and readings. Speeches will be brief and pointed. There will be no solicitation of funds. Everyone welcome.

**FOOTHILL CLUB**

Mrs. Mary J. Oliver will entertain the members of the Foothill club at her home, 1314 N. Central avenue, Friday afternoon, May 18. The members are requested to bring needles and thimbles, as the club is to sew for the Red Cross.

**AT THE HIGH SCHOOL**

**STUDENT GARDENERS RECEIVE TOMATO PLANTS—JUNIORS TO GIVE PICNIC**

Tuesday afternoon, through the generosity of the county farm committee of Los Angeles, over 500 tomato plants were given out to those students who are agriculturally inclined. Mr. Houdyshel, the agriculture instructor of the school, had charge of the distribution, which took place in the lath house in the school garden. When the door was opened at three o'clock a line of thirty ambitious gardeners stood in wait, and in less than fifteen minutes the entire 500 plants had been given out. Each student received an even dozen, and as a result many of them were left out. Mr. Houdyshel states that it is highly probable that another collection of tomato plants will be given to the school in the near future.

After a very spirited class meeting in the auditorium Tuesday afternoon, the junior class finally came to a decision in regard to the nature of the annual junior-senior entertainment. Instead of an elaborate banquet, as has always been the custom, the class has this year decided on having a half-day picnic at Santa Monica canyon. The affair will take place on some Friday in the near future, and the faculty has already promised them a half holiday for the occasion. All of the money which would make up the amount necessary to give a banquet, less the picnic expenses, will be donated to the Red Cross Relief Fund, a fact which shows the splendid patriotic spirit of both the classes.

The last league baseball game of the season is to be played this afternoon with Harvard Military Academy on our home grounds. The boys have been practicing quite diligently of late and a good game is predicted.

**BRITISH AMBULANCE SOCIETY BRANCH MEETING**

Last Monday afternoon the Glendale Branch of the British Ambulance Society held a very delightful affair at their headquarters in the Bank of Glendale building on Broadway.

In place of the regular work, a reception and tea was given in honor of the secretary, Mrs. Reginald Whitaker, who is leaving soon for San Francisco. The work tables were placed in the center, forming one long table on which were arranged quantities of beautiful flowers. The members and a few friends gathered around to partake of most delicious refreshments. One handsome cake was in red, white and blue, and the "Stars and Stripes" with the Union Jack were draped over it.

The president, Mrs. G. Walters, presided at the table, and at the conclusion of the afternoon made a graceful speech. She presented in the name of the Society, a book by Ian Hay, "The First Hundred Thousand," on the front page of which were written the names of members of the society. Mrs. Walters expressed the sentiments of all present when she spoke of the high regard in which Mrs. Whitaker was held and of the untiring services and faithful labor in this work, which started in Glendale December, 1915.

Her departure will be a great loss. But her friends hope to welcome her back in the not too distant future. About twenty-five ladies were present.

**GASOLINE EXPLOSION**

Tuesday noon the Tropic fire department made a quick trip to the residence of C. H. Scheu at 309 North Central avenue, Tropic. Mr. Scheu had accidentally knocked a lighted candle off a table, which fell near an open can of gasoline. The explosion which followed burned Mr. Scheu very badly about the body and arms, but luckily his face escaped with only slight burns. He was removed to the hospital, where he was reported resting fairly well. The prompt arrival of the fire ladders saved the building and no doubt saved the life of its only occupant.

**ENTERS AMBULANCE SERVICE**

Mrs. Ella Richardson of 805 S. Central avenue, Glendale, received a telegram from her son Burt, who is attending the Yale College at New Haven, Connecticut, that with her permission he would immediately join a company of 190 Yale boys and proceed to France and enlist in the Ambulance Service. These young men will sail for Europe on the 26th of this month.

**AMERICAN FLEET IN EUROPEAN WATERS**

**BRITISH ADMIRALTY ANNOUNCES U. S. TORPEDO BOAT DESTROYER FLOTILLA IS CO-OPERATING WITH ALLIES**

(Special Service to Glendale Evening News)  
LONDON, May 16.—The admiralty announced to-day that an American torpedo boat destroyer flotilla is now at the front somewhere in European waters under the command of Rear Admiral Simms of the American navy, co-operating with the Allies.

**ARMY BILL AGAIN REFERRED TO COMMITTEE**

**CONFEREES INSTRUCTED BY HOUSE TO HOLD OUT FOR HIGHER PAY FOR ENLISTED MEN**

(Special Service to Glendale Evening News)  
WASHINGTON, May 16.—The Army bill was again recommended to the conference committee to-day by the House. The conferees were instructed to hold out for higher pay for enlisted men. The war department states that the officers' training camps are well started and the department is planning other camps to take care of applicants not accepted in the present camps.

**BIG LOAN TO RUSSIA**

**UNITED STATES ADVANCES A HUNDRED MILLIONS FOR RAILROADS IN NEW EUROPEAN REPUBLIC**

(Special Service to Glendale Evening News)  
WASHINGTON, May 16.—The United States loaned Russia \$100,000,000 to-day. It is understood that a large part of this amount will be used to purchase railroad equipment and supplies.

**GERMANS IN COUNTER ATTACK**

**CONCERTED OFFENSIVE BY TEUTON TROOPS ALONG A WIDE FRONT ARE UNSUCCESSFUL**

(Special Service to Glendale Evening News)  
PARIS, May 16.—Tremendous German attacks along a front two and a half miles long extending from Moulin to Laffaux were repulsed by French infantry as were German counter attacks elsewhere. The British not only repulsed all counter attacks but recaptured the ground lost in the Bullecourt region yesterday. German attacks were concerted and launched with terrific force.

**CHAOS IN RUSSIA**

**DUMA FAILS TO ACCEPT TERMS OF SAILORS AND WORKMEN'S COUNCIL FOR COALITION GOVERNMENT**

(Special Service to Glendale Evening News)  
PETROGRAD, May 16.—The Russian situation is again wide open as a result of the Provisional government rejecting the terms which the Soldiers' and Workmen's council proffered for coalition in a new government. Foreign minister Mulikoff has resigned owing to criticism against him.

**EXPLOSION ON GOVERNMENT PIER**

**FOUR PEOPLE KILLED IN ACCIDENT AT SAULT STE. MARIE, MICHIGAN, THIS MORNING**

(Special Service to Glendale Evening News)  
SAULT STE. MARIE, Mich., May 16.—Four people were killed and three were fatally injured this morning in an explosion on the government pier at the Sault locks. An investigation revealed the fact that the explosion was an accident and not an attempt to damage the pier as was at first feared.

**ITALIAN OFFENSIVE GAINS**

**MAKE STEADY ADVANCE ALONG A WIDE FRONT AND CAPTURE THOUSANDS OF AUSTRIAN PRISONERS**

(Special Service to Glendale Evening News)  
ROME, May 16.—The Italian offensive is gaining and guns are active along a thirty mile front. Infantry is steadily advancing behind Gonzia. Several thousand Austrian prisoners have been taken.

**STATE HOLIDAY**

**GOVERNOR WILL ISSUE PROCLAMATION MAKING REGISTRATION DAY TIME FOR PATRIOTIC DEMONSTRATIONS**

(Special Service to Glendale Evening News)  
SACRAMENTO, May 16.—Governor Stephens has announced that he will issue a proclamation declaring army registration day a state holiday, giving opportunity for patriotic demonstrations. All men within the age limits will be free to go and register.

**INSURANCE AND WAR**

**W. B. KIRK TELLS WHAT EFFECT THE WAR HAS ON YOUR LIFE POLICY**

Doubtless many readers of the News are wondering what effect our going into war with Germany will have on their life insurance policies, so I will answer many inquiries on this subject through your columns.

That the large life insurance companies are the strongest financial institutions in the world, is a fact which can be easily proven, and that a man like J. P. Morgan is applying for \$2,500,000.00 more of life insurance and Frank A. Vanderlip has just secured \$600,000 more, is the best evidence of what the largest financiers think of it as protection and investments. I believe there has not been a failure of a large life insurance company even in Germany itself, since the war began, and the largest one in this country, the New York Life, which has lots of insurance in all the countries at war, reports a lower mortality for last year than in several years previously. However, there is nothing absolutely sure in this world (not even governments themselves) "but death and taxes," and when the securities of a company like the "Pittsburg Life & Trust" are manipulated and lost by men who are untrue, it is eminently proper to inquire into the solidity of any institution where you place your hard-earned savings.

Unfortunately, most of the fraternal and assessment life associations do not cover the war hazard, but practically all the policies of old-line companies are incontestable, for any reason, after they are a year old, so a man may even kill himself and the insurance would be paid immediately.

The policies of some companies contain a clause prohibiting military or naval service as well as foreign travel and hazardous undertakings, but these restrictions have been waived by some companies and in others a permit will be granted for war-enlistment at a time like this, so that nearly every man who has travel-premium insurance will be covered to the full face value of his policies, no matter where or how he may die.

Naturally the life companies have been having meetings and adopting measures of "protection against undue hazard on account of the war in the acceptance of new business, but as yet have reached no uniform basis. Of course no company will insure an enlisted man at regular rates with no war-provision whatever, although some will do so with a "rider" which reads that no extra premium will be charged or no reduction in the insurance will be made, provided the insured does not leave continental U. S., or the war become one of invasion. In case of either such contingency, the policyholder must pay an extra premium, or if he does not and should be killed or die, the company would pay his estate only the reserve, or return the premium they had received.

The extra premium to be charged will probably run from 5 to 10 per cent. of the face of the policy, that is, \$50 to \$100 per thousand of insurance, in addition to the regular premium, although the excess loss on account of the war will be prorated and if any savings therefrom they will be returned at the end of the war. The rate for soldiers in the British army is \$200 to \$250 per thousand we are told. The number of actual deaths in war, however, is apt to be very much overstated, an example of this being the fact that out of a total of 407,000 Canadians enlisted and serving in the war, only about 11,000 have been killed in action—2 to 3 per cent.

In view of the present critical situation, it behooves the companies to protect the interests of their policyholders by limiting the amount of insurance they will write on young men, who will have to bear the brunt of the fighting, and this is being done by most of them. Some companies will not write over \$2000 on men of 25 and under, and \$5000 on those between 25 and 30. Other companies, however, will accept about twice these amounts on endowments, but not for ordinary life or term.

Where a young man expresses no intention of enlistment unless he is called by draft, he can secure a policy of insurance not subject to any war-clause whatever. One would naturally think that young fellows would be falling over each other to secure such insurance, especially since no "accident" policies are in force in war, but the business remains about normal.

I will be glad to give insurance information, either on policies in force or those contemplated, regardless of whether there is anything in it for me, at any time. My watchword is "service."  
W. B. KIRK.

**PLAN FOR TRAIN**

**PREPAREDNESS TRAIN IN GLENDALE MAY 26—ADJOURNED JOINT MEETING**

At the Chamber of Commerce hall last night was the regular meeting of the Chamber of Commerce, and the adjourned meeting of the City Trustees with the Chamber of Commerce.

Dispensing with the reading of the minutes, the chairman, Vice-President Cowan, called for the report of the Joint Committee, which had been deferred to obtain further information. That committee, composed of J. H. Braly, T. W. Watson and Walt. Le Noir Church, submitted its report through the secretary, given here in substance. The awaited letter, received Monday, May 14, is as follows:

Delta, Utah,  
May 10, 1917.  
Mr. Walter Le Noir Church,  
Secy., Chamber of Commerce,  
1010 W. Broadway,  
Glendale, California.

Dear Sir:  
Mr. Douglas White, Industrial Agent of the Salt Lake Railroad, who is in charge of the Preparedness Train that is now being run, has requested me in behalf of the three institutions running this train, namely, the Universities of Nevada and California and the Utah Agricultural College, to send you information regarding the detailed program for the day that we will be in your town. As you know this will come on May 26. We have tried various programs along the line and so far the best general line-up seems to be to keep the train open from ten to twelve o'clock in the morning, open again shortly after one and remain open until about five-thirty, then during the evening to have the general meeting in some hall supplied by the local committee in charge, beginning the meeting about seven-thirty.

The Utah-Idaho Sugar Company have a couple of very instructive moving picture films showing the growing of sugar beets and the manufacture of sugar and if possible we would appreciate it if you would arrange for the evening meeting in a hall where there is a moving picture machine. If you can do this the above company will stand any incidental expenses such as paying the operator, the cost of the electricity, etc. These pictures will last approximately one hour, to be followed by a number of short talks given by representatives of the agricultural institutions conducting the train. I am unable at this time to give you the exact personnel of the speakers, but you can advertise Professor John T. Cain III, Director of the Agricultural Extension Division of the Utah Agricultural College to give a short talk entitled, "Some Practical Suggestions for Increasing Live-Stock Production." Mr. Cain is a very able and interesting speaker and you can advertise him very strongly. Mr. Douglas White, representing the Salt Lake Railroad, will also give a short talk. Some one from the Citrus Experiment Station will also deliver a short address and I am requesting Dr. H. J. Webber of that Station to give you the name of the speaker. You may expect to hear from Dr. Webber some time in the near future. Unless you are notified to the contrary, you can also advertise Professor Charles S. Knight, of the University of Nevada, to give a short talk. You can also advertise Miss Gertrude McCheyne of the Utah Agricultural College to say a few words to the women.

As you see from the above, we expect this evening meeting to be a big feature and you can advertise it as the Preparedness Meeting and give it all the publicity possible.

I am enclosing herewith an itinerary of this train and would appreciate it if you would advise me as soon as you can the local arrangements you have made for us. You should address me in care of the Salt Lake Agent a-c Preparedness Train. From the itinerary you will be able to figure out where you should mail the letter to.

Being as I am from California, and naturally having considerable state pride, I venture to make the suggestion that if convenient, you have a few automobiles at the train about eight-thirty in the morning to show the speakers around the country for about an hour and a half. These are public people and I think it would be a stunt well worth while.

Sincerely yours,  
V. C. BRYANT.

Partial Itinerary National Preparedness Train Operated by University of California, University of Nevada, Utah Agricultural College.  
May 14, Milford, Utah.  
May 15, Lund, Utah.  
May 16, Las Vegas, Nevada.  
May 17, Victorville, Cal.  
May 18, Ontario, Cal.

GLENDALE, CALIFORNIA, WEDNESDAY, MAY 16, 1917

**WHAT TO GROW**

The committee on resources and food supply of the state council of defense, with headquarters at 104 California hall, University of California, urges farmers to "produce as much meat, eggs, butter and milk as he can" and that the special emergency need now is to grow much greater quantities of forage crops for domestic animals such as milo, feterita, Egyptian corn, brown duva, sorghum and Sudan grass, as they give a maximum of results from a minimum of effort.

The committee states further that "most of the current talk about the food problem has been about growing potatoes in the back yard or eating rice instead of potatoes. As a matter of fact, the opportunity for saving here is almost nothing. Potatoes and rice together do not cost more than 6 per cent. of the annual expenditure of an average family for food, while two-thirds of all the average Pacific coast families spend for food goes for foods of animal origin—meat, eggs, milk, butter and fat. Hence the immense importance of producing the greatest possible quantity of fodder for meat and dairy animals."

Dean Hunt is of the opinion that "the ordinary family of five people ought to be able to get along comfortably on an expenditure per annum of from \$435 to \$650 for foods of the five great classes about as follows: (1) 54 per cent. on protein foods such as meats, fish, fowl, eggs, beans and nuts; (2) 12 per cent. on fats, butter and oils; (3) 12 per cent. on starchy foods such as grains and potatoes; (4) 13 per cent. on fruits and vegetables, and (5) the balance 9 per cent. for sugar, tea and coffee."

The committee further declares: "The disease known as 'fear of starvation' need never affect the United States. Indian corn and cotton make the United States impregnable."

"High prices to the producer are the most successful way of securing an abundant supply of food, and an abundant supply of food is more important than a cheap supply. Where saving to the public can be made, however, is in distribution. Of what the consumer pays for food, only one-third goes to the producer, one-third to the distributor, including the transportation companies and wholesalers, and one-third to the retailer. Never will it be necessary, Dean Hunt believes, to limit by legal or military action the amount of food to be consumed by the American people, but military necessity may make it desirable to reduce greatly the service now rendered by the retailer and to eliminate from that service for other national service a considerable number of citizens."

These statements from the committee which is composed of President Benj. Ide Wheeler of the University of California, as chairman, and the other members Charles H. Bentley and John A. O'Connor of San Francisco, Miss Ethel Moore of Oakland, and B. B. Meek of Oroville, and from Dean Thomas F. Hunt of the College of Agriculture are most illuminating and deserve the most serious consideration of all who grow food products.

However there is nothing in their findings that should deter the people of cities and towns from exerting themselves whenever it is possible to spare the time from their imperative duties to grow whatever may be grown and wherever it may be grown, whether in back yard garden, vacant lot or elsewhere.

**A POWER SUBMARINE CABLE**

A power cable transmitting power from Sweden to Denmark is the longest submarine cable of its kind, having regard to the pressure at which the transmission takes place. The power is received by the electricity and tramway company at Hellerup, near Copenhagen, and is transmitted by the South Sweden Power Company, at Malmo; the generating power station is on the Lagan River, about fifty miles northeast of Helsingborg. The cable, which is 3.35 miles long, is of the three-conductor type, insulated with impregnated paper. It was tested at the works at 87,500 volts, and carries current at 35,000 volts. The jointing of lead-covered paper-insulated cables at sea is not at all a simple matter, says The Electrician, and all sorts of precautions had to be taken both with regard to regulating the movements of the ship and its laying machinery, and also with regard to the exclusion of moisture from the joints. The greatest depth at which a joint is laid is 120 feet.

Speaking about prosperity, the food prices already seem to be pretty well "fixed."

One might judge by the way coal is advancing that people were eating it.

**URGES WOMAN'S SUFFRAGE COMMITTEE**

(Special Service to Glendale Evening News)  
 WASHINGTON, May 16.—President Wilson to-day wrote the House Committee on committees, urging the appointment of a special committee on Woman's Suffrage. This action was taken at the instigation of suffrage leaders.

The Glendale Evening News should be delivered at your home by the carrier not later than 4:30 p. m. every day except Sunday, and usually much earlier than that time. Subscribers who have not received their paper at 4:30 o'clock, should notify the office by phone: Glendale 132, Home 2401.

**SOLDIERS OF THE SOIL LETTER BOX**

(Note: This column, devoted to home gardening interests, will appear every Wednesday. Contributions invited. All communications must bear name and address of sender plainly written.)

Dear Readers:  
 It is the purpose of the editor of this column to help you in your efforts to become worthy soldiers of the soil. When you have any question to ask, ask it. When you meet with a problem, ask for the solution. When you need advice, seek it. Do not, however, remain satisfied with acquiring information for yourself. If you know something interesting along gardening lines, tell us. If you have found out some especially successful way of raising vegetables, or dealing with irrigation, or subduing injurious insects, let the public know it. Don't keep all the good tips to yourself; share them with the other fellow. Let this Wednesday column be a real live interchange of knowledge and ideas. We want to hear of your experiences; other readers will benefit therefrom.

How, when and what to plant—this is the continual query of the amateur gardener. What sort of beans? How many to a row? How deep shall I plant carrot seeds? How far apart are rows of corn to be. Don't be afraid to ask questions; the more the merrier.  
 Two favors the editor of the Soldier of the Soil Letter Box asks of you. Make use of this column and tell your neighbor about it.  
 Yours for patriotic gardening,

EDITOR.  
 (Address all communications to Editor, Soldier of the Soil Letter Box, Glendale Evening News.)

**Corn and Beans**  
 Question—I want to plant corn, and raise beans between the rows. How far apart shall I plant the corn? And do I plant the beans at the same time? (A school boy.)

Answer—Plant your corn now in rows three feet apart, hills two and one-half feet apart in the row. Do not plant beans until the corn is four feet high. For this purpose Kentucky Wonder beans are the best.

**What is Chayote?**  
 Question—What sort of vegetable is the chayote? Will it grow here? When should it be planted? (Ignoramus.)

Answer—Chayotes are a form of squash, fruiting in late autumn. They can also be used as potato substitute. Can be planted now. Be sure to leave small end exposed. The chayote is a rampant grower, twenty to thirty feet the first year. It must have suitable trellis upon which to climb. Will yield several hundreds of edible fruit. Water freely. Recipes for cooking will appear next Wednesday.

**What to Plant in May**  
 Asparagus, beans, beets, carrots, cabbage, celery, chayote, cucumbers, egg plant, kohlrabi, kale, lettuce, melons, onion seed (not sets), parsley, parsnip, peppers, peas, potatoes (in home gardens only), sweet potatoes, pumpkins, radish, spinach, squash, tomatoes.

**Sheep Manure**  
 Pulverized sheep manure makes a fine and cheap substitute for stable manure. It can be bought for \$1.50 per 100-lb. sack. Spread it along the rows before planting and work it well into the soil.

**Young Soldiers of the Soil**  
 Three of the busiest boys in Glendale are Alan McPherson, Hugh and Sloan Freeman, who have chummed together and are farming four lots on Pioneer drive. The beans and corn planted two weeks ago are showing a soft green, and the boys already anticipate a fine harvest. This week they will plant 1000 sweet potatoes, which they hope to be able to buy at \$5 per 1000. We wish them success.

**S. S. Buttons**  
 Buy a Soldier of the Soil button. Everybody's doing it. Show your loyalty to President Wilson's appeal by wearing a Soldier of the Soil button. Can be purchased at Chamber of Commerce.

**BUSINESS IS BOUND TO BE GOOD**

"The Government has just passed a war budget of \$7,000,000,000. Do you realize what this means? An additional seven billion dollars to be released for circulation in the United States.  
 Three billion dollars of this fund is to be advanced as a loan to the Allies—who will spend it in the United States.  
 The remaining four billion dollars will be used to put our own army and navy on a sound war footing.  
 The three billion dollars advanced to the Allies will be spent almost immediately. They require additional munitions for their armies; food and clothing for their civilian population.  
 Practically the only place they can get the supplies they require—and require so urgently—is in the United States.  
 The four billion dollars required for Uncle Sam's war activities will also be spent in the United States.  
 Where is this money going?  
 Part of this money will go direct to the farmers for foodstuffs.  
 Part will be spent in the big cities—the industrial centers.  
 Part of it will go to the smaller towns.  
 Every section of the country will benefit—every class of people.  
 Some of this money will go south to buy cotton. A big share will go to the western states, and to the Coast for grain, meat and other foodstuffs. Some of it will go to Pennsylvania for steel and coal. New England will get a share in exchange for shoes. The factories of the central states will be a share, etc.  
 Manufacturers will pay it out in wages.  
 Railroads will distribute it to employees all over the country.  
 Factory employees and railroad employees will pass it on to the storekeepers.  
 Storekeepers will send it back to the manufacturers, who will pay it out to employees, who will give it back to storekeepers, and farmers—and so it will circulate, and keep on circulating.  
 Remember, too, that without this war fund, there is more money in the United States banks at the present time than ever before in the country's history—sixteen billion dollars—five billion dollars more than four years ago.  
 And according to a report just issued from Washington, the biggest proportion of this money is in country banks—which shows that it is widely distributed.  
 This money is in the banks because factory workers, railroad men, office men, storekeepers, professional men and farmers put it there.  
 Business is bound to be good."

The above remarks are the substance of a letter sent to A. Meyer Co., the local Overland and Willys-Knight Automobile agents—and as the Willys-Overland Co. of Toledo is the largest automobile factory in the world, and one of the largest organizations of any kind in the world,—their views on future prosperity are worth noting. Mr. Meyer said: "The views taken by the factory on the future business of the country are very optimistic, and as they are in close touch with 'people who know' we may well look forward to good business being done in the future. We have found that a good many people and merchants have taken rather a pessimistic air since war was declared—and we believe it is wrong. With an additional \$7,000,000,000 in circulation, of which we are all going to get a share, and all of which will be in the U. S. A. in a short time, is going to do us all good. The prices for farming products promises to be good, and the farmer, the real backbone of American prosperity, is bound to make money, for he certainly is going to get good prices for all he produces.  
 When the farmer has money the city prospers. Every phase of industrial and commercial activity prospers. The manufacturers, the retailers and bankers, and those that work for them, find the farmer's fat years their own.  
 The conclusion is perfectly plain.

Aside from a possible and very temporary slowing up for re-adjustment, American business is going ahead at full swing. The war will not "hurt business" for the banker, farmer, workman, or anyone else.  
 Be optimistic—business is bound to be good."

**RUSSIA'S DANGER**  
 If the German agents and the Socialists and agrarian agitators can produce a new revolution they will bring about the wreck of Russia's hope of liberty. The first result will be anarchy, in which each party will struggle for the control of the Government, each in its turn to be overthrown, and out of chaos will come the Man on Horseback. He may be a Romanoff or a new Napoleon, or simply a Huerta; but, whatever he is, he will not come at once, not until the land has been exhausted by anarchy and civil war. It is for this that the whole force of spies, traitors and tempters whom Germany has poured into Russia are working with feverish haste. They have for their field a country most of whose population is simple-minded, and stirred by the memory of ancient oppression which they are likely to attribute not alone to autocracy but to government of any kind.  
 This is the mighty disaster which the broad-minded Liberals now in control in Russia are working with might and main to avert. The hearts of all lovers of liberty will go out to them, and this country will give them its help in whatever form it may be most needed. The destruction of Russia's new-found liberty would be a calamity to the human race.—N. Y. Tribune.

It was long contended that the story of "Lorna Doone," by Blackmore, had no foundation in fact, but now it is declared that the picturesque region of Exmoor really contained a family of Doones, the originals in romance, if not of disgrace, of the people described in the book.

**SALT LAKE ROUTE**

**REDUCED FARES FOR SUMMER TRIPS**

For vacation or business trips the Salt Lake Route offers, on May 31st and certain dates in June, July, August and September, round trip tickets at greatly reduced fares to many Eastern points. For instance, to Chicago and return, \$80.00; New York \$118.20; St. Louis, \$77.50; St. Paul, Minneapolis, \$84.45; Missouri River, \$67.50; Denver, \$62.50; Salt Lake City, \$40.00, and many others.

Return limit 3 months, but not after Oct. 31.

The ideal vacation trip is to the American Wonderlands, Yellowstone National Park and Glacier National Park, both easily reached via Salt Lake City.

Round trip fares are reasonable and the world has no more marvelous sights.

Platinum, which is many times more costly than gold, has grown in popularity among the buyers of expensive jewelry that its use in the manufacture of electrical apparatus is growing smaller each year as less costly substitutes are discovered.

**Personals**

Mrs. Alfred A. Dove, 1463 Ivy street, was entertained at luncheon by Mrs. W. V. Goodfellow, Leeward avenue, Los Angeles, to-day.

Mr. E. A. Young and family of 130 their new home on Colorado boulevard. He is building another larger house on the corner of College View and Colorado boulevard.

Dr. and Mrs. J. H. Daugherty, 505 South Central, had as their guests Tuesday, Dr. Chas. Atkinson of Banning and Mr. E. L. Atkinson of San Raphael Heights.

Doty L. Anderson returned home the latter part of last week from Pomona where he had spent a week visiting relatives, following the Epworth League convention, which he attended.

Mrs. John Lander of Newton, Kansas, and Mrs. Clyde Sudlow and children of Butte, Mont., are visiting in the home of their parents, Mr. and Mrs. John Grumbling, 923 Damasco court, for a time.

Mr. Benjamin Harris, 326 Everett street, who has been ill the past month, was able to sit up in the sunshine yesterday, his friends no doubt will be glad to hear. Mr. Harris is 91 years of age, and a very remarkable old gentleman.

Mrs. Geo. W. Blake, 404 N. Maryland, has as her house guests, her brother and family, Mr. and Mrs. James Black and daughters, Misses Catherly and Corrinne, of New Hampshire. California has claimed them for her own, as they will locate in Los Angeles.

Mrs. J. H. Daugherty, 505 South Central, was entertained Saturday in East Whittier at a party. Mrs. Sam Eagle and Mrs. Laura Cook were the hostesses. Dr. Daugherty joined his wife for the week end.

Three of the High School teachers, Messrs. Oliver, Richardson and Hildebrand, and two seniors, Messrs. Laurence Rowe and Geo. Terrill, drove by auto to San Bernardino and other points south, yesterday. They visited the Santa Fe R. R. machine shops, the High School of San Bernardino, and the Boys' School of Riverside. These men are all interested in the mechanical features of education.

Mrs. E. U. Emery, 117 S. Kenwood street, and Mrs. A. L. Bryant, 421 S. Jackson, entertained Mrs. Ella Brunk and Mrs. James Larson of Berkeley, recently. They were down to the State P. E. O. which convened at Hollywood. The hostesses took their guests auto driving Monday. Luncheon was enjoyed at the Hamburger's cafe with the added company of Mr. E. U. Emery and Dr. A. L. Bryant. It was the ladies' first trip in the Southland and they had a delightful time.

The Christian Bungalow, corner Louise and Colorado streets, will be open to-morrow from 10 a. m. to 4 p. m. for a Red Cross hospital sewing committee. Any one desiring to bring lunch may do so. Volunteers will be welcome.

MRS. W. E. EVANS,  
Ch. Hospital Garment Com. of Red Cross.

**AT ST. MARK'S**

Ascension Day to-morrow, Thursday, May 17th; there will be Holy Communion in St. Mark's Church at 10:00 a. m.

**AID MEETING**

The Ladies' Aid Society of the First M. E. Church will meet to-morrow afternoon at 2:30 in the church parlors. A large attendance is desired as much business is to be transacted in connection with the new church.

**COMMANDERY INSTALLATION TO-NIGHT**

Glendale Commandery, No. 53, K. T., will hold installation ceremonies to-night at Masonic Temple. All Sir Knights and their families are invited. There will be a good musical program and the newly elected officers will be installed.

**MAY FESTIVAL AND MARKET AT BROADWAY SCHOOL**

The May Festival, which is an annual event at the Broadway school, will be given Friday, May 18, at one o'clock.

On the same afternoon the market will be held, where we may purchase vegetables grown by the young Soldiers of the Soil.

MRS. RYAN, Principal.

**GARDENING HELPS**

"The Small Vegetable Garden" is the title of a handsomely illustrated, 48-page booklet just issued by the agricultural experts of the government, and Congressman Randall has sent copies to the Glendale News for free distribution to our readers. This book is bound to make the garden habit very popular, and enough gardens will win the war against world starvation now threatening us.

Do you want a nice KITTY? We have several to give away. Enquire at McGee Dry Goods Store, 580 W. Broadway. 2211f

**TROPICO TRUSTEES**

The trustees of the city of Tropico met in regular session Tuesday evening in the city hall at 7:30. All members of the board present at roll call except Trustee Veselich, who put in his appearance about 8 p. m. On account of the illness of City Clerk Coleman, Mr. Brown, city treasurer, occupied the clerk's chair.

The minutes of the preceding meeting were read and approved.

A communication was received from the secretary of the county organization for the production and conservation of food, wishing to know what had been done by the city of Tropico in regard to this very important subject and asking that the Tropico committee act in conjunction with the county organization and report to them, as it was necessary that they keep in touch with what was being done. The communication was turned over to Trustee Veselich, as he has charge of that matter.

A communication was received from the Marsh-Klinker Co. of San Francisco in regard to the danger signs which had been recommended to be placed at certain railroad crossings, stating that they were manufacturing these signs for the state railroad commission and would be pleased to furnish the signs for Tropico at a cost of \$2.25 each F. O. B. factory. The communication was ordered filed.

An application for a motor bus license was applied for by J. S. Jones to operate a motor bus in the city of Tropico. On motion of Trustee Henry the application was granted.

The health officer reported that the danger signs at Brand and Acacia had been placed and were very satisfactory.

W. R. Alexander of Blanch avenue asked permission to remove a damaged shade tree in the Acacia street parkway, to be replaced with a palm to conform to the ones already growing there.

On request of City Marshal Gould, the city attorney was instructed to draw up an ordinance establishing a city pound, as he was unable to handle stray stock without a place to put them, and to have a legal right to charge for his trouble would tend to make people more careful of their livestock.

Trustee Veselich reported that he had ordered six street crossing cast iron buttons to be delivered at an approximate cost of \$2.90 each. He also announced that he had secured about 1000 tomato plants for free distribution and any one calling at the city hall could secure a limited supply.

The question of the improvement of Columbus avenue was taken up and after some heated discussions by members of the board and others, was postponed indefinitely.

The city engineer was instructed to make an inspection of the streets of Tropico and make recommendations and estimated cost of making repairs on same.

The following demands were allowed and ordered paid:

Tropico Sentinel	\$10.00
Tropico Sentinel	4.25
Tropico Sentinel	3.48
Pacific Tel. & Tel. Co.	1.35
Tropico Feed & Fuel Co.	17.80
Joe McFeeters	16.25

No further business, the board adjourned.

**NURSES' DIVISION, RED CROSS AUXILIARY**

In keeping with the enthusiasm of the hour, the Red Cross Class meeting at the home of Mrs. C. E. Hutchinson, 200 Orange, formed a "First Aid Class." Dr. R. E. Chase, the teacher of the class, read the instructions from the National Red Cross Society. The class was organized with Mrs. Eva Tufts elected as president of the division and Mrs. Cora Nichols secretary. The fifteen ladies present registered to take this instruction. Next meeting will be held next Tuesday night in the Chamber of Commerce rooms on Broadway. The school will be open to all who wish to register. Those wishing instruction books may communicate with Mrs. Tufts, Glendale 485, that all may have them for the first lesson.

It was suggested that a men's division might be formed. All interested may communicate with Mrs. C. E. Hutchinson in regard to the matter.

**Y. P. E. AND W. C. T. U.**

Two very important meetings will be held this week at the Lutheran parsonage, 1109 West Fifth street, just opposite the High School.

Thursday evening the Young Peoples Branch will be entertained by Miss Elizabeth Mottern. A fine program will be given. All young people are cordially invited.

Friday afternoon from 2:30 to 4 o'clock, Mrs. Mottern will be hostess to the W. C. T. U. and their friends. Mothers and babies will be the honored guests. All mothers are invited and the babies will be especially welcome. A paper on "Better Babies" will be given by Mrs. Chandler, and Mrs. Kara Smart Root will give an interesting talk on "Mothers and Babies in Japan." Mrs. Root has spent several years in Japan as a W. C. T. U. World's Missionary. You will be well repaid to come and hear this splendid address. Many Japan pictures will be on display.

Do not forget the dates: Y. P. E., Thursday, May 17, 7:30 p. m.; W. C. T. U., Friday, May 18, 2:30 p. m.

**Chaffees**

WHERE CASH BEATS CREDIT

Useful information. Heretofore we have advised our customers wanting strawberries for canning to buy the second crop berries. But this year we are told there will be no second crop. So we advise buying at once.

**TUESDAY AFTERNOON CLUB**

The members of the Art and Travel section of the Tuesday Afternoon club were privileged to take a delightful trip Monday afternoon on the Grand Canal of Venice, Italy, Mrs. Charles Turck, the curator, acting as guide. The party boarded a small steamer and this journey on the artery of Venice will long be remembered. This waterway is two and one-half miles long and one hundred to two hundred feet wide. It is adorned with over two hundred magnificent palaces and churches.

The architectural beauty and historic interest delighted the travelers at every bend of this great waterway, and as the steamer floated along by the marble steps, which lead down from the noble residences to the water edge, tall colored posts, bearing the heraldic designs of the families living in these palaces, attracted the attention of the visitors. The guide informed us that the financial standing of the occupants of these houses is gauged by the number of posts in front of the water door. It is to these the gondolas are fastened. The lower floors of the palaces are rented to manufacturers and merchants, these industries being largely controlled by the Germans.

The Church of Santa Maria Della Salute, a beautiful edifice, claimed our attention. It was built in 1641-56 in commemoration of the cessation of the plague of 1630. A visit was next made to the palace having the honor of being the residence of three celebrated persons, namely: George Eliot, Chateaubriand and Richard Wagner. It was in this palace Wagner wrote "Isolde." The next stop was at a large Gothic building which is known as the Browning home. It was in this house W. D. Howells wrote his "Venetian Life." In another palace Lord Byron lived in 1818 and as this great English poet viewed the Grand Canal from a room here, he produce one

**UNEQUAL TO MEN'S PLEASURES**

The steamer stopped long enough at the Rialto bridge for the travelers to visit the long line of shops along the footway of this famous construction. Several purchases of glass beads and Italian jewelry were made.

A brief stop was made at the home of Titian. Miss Viola Sayre gave a concise biography of this famous Venetian painter, bringing the fact to view that at the age of 99 years, Titian was at work on a masterful picture and would have completed it had his life not been cut short by the plague.

This remarkable journey closed by a graphic word picture of the Frairi Church, by Miss Martha Porter.

The fascinations of Venice for the traveler are such that ordinary terms of appreciation are insufficient, and as the members of the Art and Travel section gazed upon the many relics and photographic views purchased by Mr. and Mrs. Charles Turck while residents in Venice, they realized that so strange and so strong is the power of fiction over truth, in Venice as everywhere else, that Portia and Emilia, Cassio, Antonio and Iago appear to have been more real than are the men and women of real life.

The guest of the afternoon was Mrs. Weirick, a prominent club woman of Butte, Mont., who expressed herself as being delighted with the work of the section. A pleasant social hour was enjoyed over the punch bowl, and the section will travel on to Milan and visit the great Cathedral on May 28.

**DRESSMAKING SCHOOL**

We are opening a school of practical dressmaking at 1106 1/2 West Broadway. Call and let us explain to you how to cut the high cost of clothing.

MRS. PAULINE HAVENS,  
MISS LEFA TREECE.  
22116\*

**UNEQUAL TO MEN'S PLEASURES**

A young American, who said he was a student in Munich caught by the war without funds, appeared at an American consulate in Berne and asked for any kind of work that would enable him to save money to get home.

He was hired and proved capable, energetic and honest. He was known as "Johnson." The consul, a genial, generous man, was in the habit of handing out to his clerks and assistants as many strong cigars as they would take each day. "Johnson," though he made a wry face, always accepted—and smoked. He admitted to a friend in the consulate that he had accepted them because he believed he would gain favor with the chief in that way, but that they made him ill. He was sent to a hospital, and there the revelation came. "Johnson" was a New York woman who, while in Munich, had donned men's clothes to cross the frontier. She returned to the consulate but once after having recovered from the chief's strong cigars and then only to resign. Somehow, without a passport, she got into Italy and obtained passage to America on a steamer sailing from Genoa.—Milwaukee Journal.

The Boy Scouts of Monrovia have a new Scoutmaster, Mr. C. H. Crall. The Boy Scouts as a national movement, are under the National Council, which elects the officers of the smaller organizations, and directs their policy. Their aim is to serve our country to the best of their ability. The first requirement of the organization is, that the boy be over 12 years, and that whatever work he is doing, be done in the most effective way. The Monrovia "Boy Scouts" have listed the vacant lots of the city and are gardening. They have one plot of ground comprised of three hundred acres, which they have under cultivation. Instead of being "Soldiers in the Army," they are "Soldiers of the Soil."

**AUTOMOBILE SHOW**

On Thursday, Friday and Saturday, this week, the 17th, 18th and 19th inst., from 2 p. m. to 11 p. m. a Spring Automobile Show will be held in our salesrooms. Cars of all sizes and prices will be displayed in a galaxy of colors and decorations. Canes and pennants will be distributed on Opening Night and every one is cordially invited.

GLENDALE, CAL.

PLAN FOR TRAIN

(Continued from Page One)

- May 19, San Bernardino, Cal.
- May 21, Riverside, Cal.
- May 22, Pomona, Cal.
- May 23, Whittier,
- May 24, Pasadena, Cal.
- May 25, Long Beach, Cal.
- May 26, Glendale, Cal.
- May 28, Los Angeles, Cal.

The secretary of the Chamber of Commerce arranged with Manager Jensen to have the Palace Grand Theatre from 4:30 to 6:30, Saturday, May 26, and the Glendale Union High School that evening or any part of that day needed to carry out the program of Glendale's guests. The secretary also reported that a package of large posters printed in red, white and blue, had been received from the Salt Lake Route, and a number of them had been posted in prominent places around Glendale, and more would be posted to-day.

It was decided to send written invitations from the City of Glendale to all surrounding cities, and to their Chambers of Commerce, Boards of Trade, etc., to visit Glendale on May 26, and share with Glendale all the benefits of that occasion. The secretary of the Chamber of Commerce was authorized to send such invitations, and also such small circulars, posters or other printed matter provided by the Committee on Publicity, consisting of A. T. Cowan, Editor of the Glendale Evening News, and Walt. Le Noir Church, Secretary of the Chamber of Commerce.

It was decided to hold a mass meeting at the High School the evening of May 26, to hear the speeches and other entertainment provided by the educational institutions in charge of that train, leaving it to them to invite local speakers if their arrangements permit, they having a regular program given in each city.

Mr. Hartmann, Mayor Thompson, Mr. C. A. Redmond, D. P. A. Salt Lake R. R., Mr. Jackson and Mr. Woodberry were appointed Committee on Distribution of the large posters. Mr. Hartmann, Chairman of that committee, will get the committee together as soon as the Glendale posters are printed and the territory to be covered will be apportioned among the different members of the committee the last of this week, so as to give as early and wide publicity as may be. As chairman, Mr. Hartmann may add others who have autos to that committee. The city will pay for the necessary advertising matter.

The secretary of the Chamber of Commerce was requested to ask the Salt Lake R. R. Co. to locate that Preparedness Train on Glendale avenue, near, and south of, Broadway, as the most convenient and accessible place to be visited by the crowds expected in Glendale that day; also to notify that company of the efforts Glendale is making to meet the wishes of our visitors and guests on that occasion.

Mayor Thompson moved that President Clendenin of the Chamber of Commerce be chairman of the Reception Committee, to appoint such assistants and make such arrangements for meeting our guests on that train, showing them around the city and neighborhood, etc., as he may see proper. So ordered.

The secretary of the Glendale Chamber of Commerce was requested to see if the Pacific Electric R. R. and the Glendale and Montrose R. R. would place on their cars banners advertising the public entertainment to be given in Glendale May 26, so that people from the surrounding country may be induced to visit Glendale that day; also to send Glendale posters to those railroads for circulation.

The City Trustees and the Chamber of Commerce are co-operating in every way, with the railroads and the public generally, to make the most for all concerned, of the opportunities for wider acquaintance, more business, wholesome and instructive entertainment, with general betterment along all lines which may be afforded in Glendale on that great gala day, Saturday, May 26, 1917, a day to be "marked with a white stone."

WALT. LE NOIR CHURCH,

Secretary and General Manager Glendale Chamber of Commerce.

Note: Mr. C. A. Redmond, District Passenger Agent, Salt Lake Route, a well-known citizen of Glendale, has taken great interest in getting the best possible for Glendale, in connection with that National Preparedness Train. He was one of the first to offer his auto and his services for distributing posters and other advertising matter. He attended this meeting on invitation by the secretary of Glendale Chamber of Commerce, and he was able to give us important information from time to time during the meeting.

Bandmaster Hicks, Leader of the Glendale Municipal Band, was also at the meeting by invitation. He assured us that the best music the band can produce will be given on that gala day, for the entertainment of Glendale's guests.

Sec. C. C.

SHOOTING PAPER SCRAPS

The Germans are loading shells with copies of Bethmann-Hollweg's conciliatory speech of March 29, and firing them into the Russian lines. But the Russians, of course, understand that the Chancellor's pledges and pleas are mere scraps of paper.—Providence Journal.

There have been several instances of sleeps lasting twenty years.

ADVENTIST CAMP-MEETING

FRESNO, May 13.—Central California Seventh-day Adventists will hold their annual camp-meeting at Recreation Park, Fresno, May 24 to June 3. Tents now are being pitched and will be in readiness when the big convention opens a week from Thursday. Former meetings of this kind have been held in the wooden pavilion at the park, with small tents pitched for the campers. But this year a mammoth assembly tent, with huge center masts, and accommodating an audience of between 1000 and 2000 persons, will be pitched on the site of the old skating rink. Here the general meetings will be held.

Large circular tents also are being pitched, in which will be held special services for the young people and children, and hundreds of tents will shelter the campers. The meetings will continue daily throughout the entire session. To the services at 11 a. m., 2:30 p. m., and 7:30 p. m. the public is cordially invited by the conference president. Good music will be provided, and everything possible done to make all visitors feel at home.

The plans now on foot give promises of the largest gathering of its kind ever held in this section of the State. Seventh-day Adventists are growing in numbers rapidly, and the fact that Elder A. G. Daniels, of Washington, D. C., president of the General or World Conference, will be one of the speakers, will draw an unusually large attendance. President Daniels probably will arrive in San Francisco May 24; on the steamer Korea Maru, having just completed a tour of Adventist mission stations in the Philippines, Malaysia, South China and the Swatow, Amoy and Foochow districts.

A large conference, representing the entire Asiatic field, including Japan, Korea, China, India, Malaysia and Australia, was held in Shanghai, China, April 5 to 26, and was attended by President Daniels. Since many of the Adventist missionaries in the Orient formerly were residents of California, Elder Daniels' narration of their many interesting experiences will be of particular interest to their friends here.

Mr. Daniels is well known in Fresno, his mother, Mrs. Mary J. Lippincott, and sister, Dr. Jessie Hare, having lived here for years. He has been in charge of the entire world field of the Seventh-day Adventists since April 2, 1901, when he succeeded Elder G. A. Irwin to that position. Previous to that he was for 14 years in Australia, and has traveled throughout the world.

Word has just come that Elder G. B. Thompson, of Washington, D. C., secretary of the North American Division Conference, will be one of the chief speakers during at least a part of the meeting. Elder E. E. Andross, of Glendale, president of the Pacific Union Conference, and having jurisdiction over the states of California, Arizona, Nevada, Utah and Western Colorado, also will be present and will speak.

Elder B. E. Beddoe, also of Glendale, formerly president of the Southern California Conference, will attend. He recently accepted the secretaryship of the Home Missionary Department and of the Young People's Society of Missionary Volunteers in the Pacific Union territory.

Other well-known ministers who will be in attendance will be: G. W. Reaser, of Glendale, field secretary, Pacific Union Conference; M. E. Cady, Oakland, Cal., educational secretary, Pacific Union Conference; F. E. Painter, Tropic, field missionary, Pacific Union Conference; Prof. C. W. Irwin, St. Helena, Cal., principal, Pacific Union College; N. P. Nelsen, Fresno, president Central California Conference; W. M. Adams, Fresno; F. E. Brown, Hanford; B. L. Howe, Bakersfield; E. A. Brown, Fresno; A. S. Kellogg, Fresno; Charles N. Miller, Bakersfield; R. R. Breitigam, Madera; R. W. Smith, George T. Vore, G. A. Wheeler, Fresno, and C. L. Davis, Selma.

The fact that for more than 50 years Seventh-day Adventists have foretold world-conditions now existing, and that they point to Bible prophecy as the foundation for their prediction of many events still future, make them a most interesting people.

Seventh-day Adventists believe the present awful war, the frequent earthquakes, tidal waves, cyclones and floods, and the unsettled state of society are precursors of the near coming of Christ, and the end of the world, and that there ought to be far more earnest devotion and much less frivolity and pleasure-seeking on the part of the masses. They maintain that godliness never can be brought about by law, and that religious laws are pernicious, but they believe there should be a voluntary movement on the part of men and women everywhere to read their Bibles more diligently than ever before, and to yield implicit obedience to the precepts and counsel of the Scriptures. They do not urge that the Bible be read in the public schools, but they do urge most strongly that it be read in the homes.

The Adventists are diligent Bible students themselves, and declare that in such a time as this, when millions of men are being slain at the front, when already seven million women and children in Poland are reported to have died of starvation and exposure, and when only more heart-rending scenes are yet to follow, it is a time for general awakening to "the perils of the last days," and for much prayer and devotion. As long ago as 1865, a leading Adventist writer said:

"The unbelieving world will soon have something to think about besides their dress and appearance; and as their minds are torn from these things by distress and perplexity, they will have nothing to turn to. They are not prisoners of hope, and therefore do not turn to the Stronghold. Their hearts will fail them for repining and fear. They have not made God their refuge, and he will not be their consolation then. In the time of distress and perplexity of nations there will be many who have not given themselves wholly to the corrupting influences of the world, and the service of Satan, who will humble themselves before God, and turn to him with their whole heart and find acceptance and pardon."

Again, about eight years ago, the same writer said: "We are living in the time of the end. The fast-fulfiling signs of the times declare that the coming of Christ is near at hand. The days in which we live are solemn and important. . . . The calamities by land and sea, the unsettled state of society, the alarms of war, are portentous. They forecast approaching events of the greatest magnitude. Great changes are soon to take place in our world, and the final movements will be rapid ones." FRANK A. COFFIN.

MARINE RECRUITING AUTO COMING

The United States Marine Recruiting automobile will pass through Glendale on its way to San Francisco on Saturday, May 19. They will stop at the Glendale postoffice in the morning and will be pleased to meet any applicants and give any information desired.

UNCLEAN WINDOWS INEFFICIENT

The factors largely responsible for poor illumination are small, narrow windows, low power artificial lights placed too far from the point of operation, and neglect of facilities at hand for obtaining light, according to the Pennsylvania Department of Labor and Industry. By this neglect is meant lack of cleanliness. This applies first of all to the windows. There is scarcely a single industrial locality which does not contain at least one building, and all too frequently several buildings of the same type. They are built with a supply of window space sufficient to illuminate amply the interior. The dust and dirt accumulated upon them, however, destroy in large proportion their usefulness. The same condition is found in artificial lighting. The electric light bulb, dusty or streaked with dirt, the result of hurried and incomplete attempts at washing, often shaded with a fixture meant to be a reflector, but which in reality is anything but that, faintly illumines the work and impairs the health and the efficiency of the worker.—Scientific American.

MAGNETS TO DETECT SUBMARINES

A sub-sea magnet invented by a Japanese scientist named Nakahara, promises to be instrumental in locating many of the sunken submarines, warships and transports which have gone down in comparatively shallow water.

Tests of the magnet over the Japanese naval target grounds recently brought to the surface thousands of projectiles fired in practice. At the present price of scrap iron, the 60,000 shells which lie scattered at the bottom of the Japanese bays will be worth some \$3,000,000.

It is suggested to use the magnet in extracting the shell scraps from the soil of the European battlefields. The value of this scrap iron alone would amount up to a very large sum. A development of the Nakahara magnet promises to be powerful enough to actually lift sunken vessels from the bottom of the sea. Magnets are now in use on land which are able to elevate a weight of 40,000 pounds.—New York Journal of Commerce.

Material for making good paper, it is said, can be produced from refuse hops that have hitherto been thrown away in breweries.

LESSONS OF THE CIVIL WAR

A mother who fears the spectre of militarism and so opposes military training for our youth, writes:

The soldiers of the Civil War did not enter the conflict as the result of an ideal created through military training. Necessity called and loyalty answered. History repeats itself. Teach the boys loyalty and athletics.

God grant that we shall never again have to send into battle raw and untrained levies such as we sent to be slaughtered in the Civil War. They were loyal and athletic, but they didn't know how to fight, and their officers didn't know how to lead them. The Civil War was doubled in length, and prodigiously increased in bloodshed and destruction, because our youth had had no military training. History does repeat itself. We are in the same state now, because we have not learned the lessons of the Civil War, and indeed of every war we ever fought.

This mother, and others like her who are blinded by sentiment, should study the history of the Civil War and study it deeply.—Minneapolis Journal.

Facts and Comment

The Encampment of the Department of California and Nevada Grand Army, is claiming the attention of all those who are members of some one of the allied societies, Grand Army of the Republic, Woman's Relief Corps, Ladies of the Grand Army, Daughters of the Veterans, Sons of Veterans, and Sons of Veterans Auxiliary. This is the Fiftieth Anniversary. The headquarters of these societies is the Hotel Virginia. The encampment will convene until Saturday, May 19. The sessions are held in the Auditorium. Wednesday night, the annual reception will be tendered the officers of all organizations. Excursions on motor boats and by auto are being given all guests.

The Hollywood High School Cadets are soon to be equipped with uniforms and rifles, when the discipline will become more strict. The Cadets are training three nights a week, and will be reviewed before a movie camera man. A strong rivalry has been induced between the companies, because of a flag which has been offered by Dr. Snyder to the company best drilled. There will be a close race as each company is confident of success.

The Chief of Police, C. C. Cole, of Long Beach has given work to the prisoners of the city jail, by releasing them and allowing them to labor in the war gardens. They are sent out armed with spade, hoe and rake each morning, and are tilling the lots most needing cultivation. This will surely result in moral good to these prisoners, as well as good to the country.

AUTHORITATIVE

"Objects of value," says a German official despatch explaining the devastation of the French provinces, "were taken in charge by the German authorities." The "authorities" being the particular German soldiers who saw the objects first and whose pockets were big enough.—N. Y. Sun.

A GOVERNOR TAKES A NEW OATH

A new oath of allegiance was subscribed to by Governor Brumbaugh and every member of the executive department. The governor called all employees into his office, where they all subscribed to the following oath:

"We do solemnly affirm that we will support and defend the Constitution of the United States and the constitution of the State of Pennsylvania against all enemies, foreign and domestic; that we will bear true faith and allegiance to the same; that we make this obligation freely, without any mental reservation or purpose of evasion."—Philadelphia Ledger.

"NO GARBAGE FOR THE CAN"?

"Watch the garbage can" is a new economic slogan. Why not make it "Forget the garbage can"!?—St. Paul Pioneer Press.

Thank heaven for a backward spring. It gives time for mobilization of agriculture, much needed in the whole country provided everybody hustles as the occasion demands.—Brooklyn Eagle.

NOTICE OF FORECLOSURE SALE

Sheriff's Sale No. B46851. Order of Sale and Decree of Foreclosure and Sale.

Title Insurance and Trust Company, a corporation, as trustee, plaintiff, vs. N. G. Frantz, John Doe, Richard Roe, Jane Roe, Rachael Doe, defendants.

Under and by virtue of an order of sale and decree of foreclosure and sale, issued out of the Superior Court of the County of Los Angeles, of the State of California, on the 27th day of April A. D., 1917, in the above entitled action, wherein Title Insurance and Trust Company, a corporation as trustee the above named plaintiff, obtained a judgment and decree of foreclosure and sale against N. G. Frantz, John Doe, et al, defendants, on the 16th day of April A. D., 1917, for the sum of Thirteen hundred thirty-eight and 60-100 (\$1338.60) Dollars gold coin of the United States, which said decree was, on the 20th day of April A. D., 1917, recorded in Judgment Book 407 of said Court, at page 270, I am commanded to sell all that certain lot, piece or parcel of land situate, lying and being in the County of Los Angeles, State of California, and bounded and described as follows:

Lot twenty-eight (28) of W. B. Judson's Annandale Tract, in the Rancho San Rafael, as per map recorded in book 9, page 66 of maps, records of said Los Angeles County. Public notice is hereby given that on Tuesday the 29th day of May, A. D., 1917, at 12 o'clock, M. of that day, in front of the Court House door of the County of Los Angeles, Broadway entrance, I will, in obedience to said order of sale and decree of foreclosure and sale, sell the above described property, or so much thereof as may be necessary to satisfy said judgment, with interests and costs, etc., to the highest and best bidder, for cash gold coin of the United States.

Dated this 3rd day of May 1917. JNO. C. CLINE, Sheriff of Los Angeles County. By W. T. OSTERHOLT, Deputy Sheriff. W. G. Van Pelt, Plaintiff's Attorney. 2124Fri.
