SCHOHARIE NURSERIES. 2-YEAR OLD TREES AND ASPARAGUS ON HIGHLAND

**THE SCHOHARIE NURSERIES**

**F. A. GUERNSEY & CO.**

**SCHOHARIE - - NEW YORK**

J. T. CLARK, OFFICE MANAGER OF SCHOHARIE NURSERIES, SHOWING A BUNCH OF 2-YEAR-OLD APPLE TREES. OFFICE AT THE LEFT

**500,000 Choice Fruit Trees, Large Quantities of Ornamental Trees, Shrubs, Roses, Asparagus Roots, Berry Plants, Rhubarb, Etc.**

We offer to planters of fruit trees particular advantages for the reason that our trees are grown here in the famous Schoharie Valley which is better adapted to growing all the various kinds of trees to perfection than any other portion of New York State

The Schoharie Valley comprises thousands of acres of fine land of a rich limestone nature and is extra well protected from the winter winds by high hills or mountains which run north and south.

On the flat alluvial section of the valley we grow the hardier kinds of trees while on the higher foot hills we grow the more tender kinds. Our main large nursery farm contains various kinds of land, from sandy soil to quite heavy clay, and of different elevations all of which is admirably adapted to producing various kinds of nursery stock to perfection.

Our long experience of over a quarter of a century has taught us how to grow and handle trees so as to give our customers satisfaction.

We are studying the best nursery practices and have been able by judging locations for trees and their natures to produce many things in the nursery line which many others have abandoned.

Our location has much to do with our success, but we have found that the nursery business is a great science which pleases us very much and we have been delighted to develop it in a successful way.

Our undivided attention is given to this business in which we have large investments in the way of land, growing trees, packing and storage houses, office, and all the necessary teams and tools required to run a large nursery.

The continued patronage of our friends has encouraged us to make these investments and we realize that it is very important for us to keep up our high standard by pleasing our customers, and to keep proper pace with a growing business.

It is a fact that each year, without a single exception, our sales have shown large increases over the previous year. Our books show regular customers who buy of us yearly. Others are coming to us for their trees and we shall do our best to hold them as our regular customers. This encouragement will stimulate us to greater efforts.

Our location away from large orchards out of the main fruit belt enables us to furnish trees free from all diseases and scale. For instance--- there is not a peach orchard in Schoharie Co. It is a pleasure to examine a block of our growing peach trees and see them all in a fine healthy condition without the least trace of the deadly peach yellows. If you buy trees from nurseries in the vicinity of peach orchards you are very likely to have this disease delivered along with your trees. But very little scale has ever been found in Schoharie Co., and our nurseries are entirely free from it and we intend to keep them so.

Our object is to produce the very best quality of nursery stock true to name and sell it for a fair living price. We believe that planters appreciate this fact and are willing to pay what good reliable stock, well dug, carefully packed, is worth, and this is all we ask. We do not intend to offer cheap bargain lots of trees which prove only too dear in the end.

We give our salesmen wholesale prices which enable them to sell to the big planters.

We invite those desiring nursery stock to get in touch with one of our regular salesmen, or write us for complete catalog and prices, or make us a visit and look over our extensive plant where we will gladly receive you and give you the best entertainment at our expense.

For reference we give you Schoharie Co. Bank, Schoharie, N. Y., any of the Mercantile agencies, or any of the leading nurserymen of the country.

We give herewith a few testimonials we have received. We could give hundreds of these did space allow.

F. A. GUERNSEY & CO., Schoharie, N. Y.

## TESTIMONIALS

Jan. 2d, 1915.

Gentlemen:

Am pleased to say that the 1160 apple trees had from you in the spring of 1913 came in excellent condition. They were thrifty, vigorous stock and have done finely.

Yours very truly, Datus C. Smith, Kinderhook, N. Y.

Schenectady, N. Y., May 7th, 1914.

Gentlemen:

I enclose draft for \$74.00 as per bill. I have my trees all planted. They are a fine lot of trees. I thank you very much for the extra ones sent as a present.

Yours truly, Abel S. Clements.

Hudson, N. Y., Apr. 17th, 1914.

Dear Sir:

The 500 pear trees arrived in fine shape. They are certainly a fine lot of trees.

Yours truly, C. M. Relyea.

*From Sunnyfield Nursery Co., Poughkeepsie, N. Y.*

We are in receipt of the stock which you sent us. We are well pleased.

Modena, Ulster Co., N. Y. January 2d, 1915

Gentlemen:

The trees received from you last spring have made a very nice growth and the orchards look to be in a good vigorous condition. We had 1000 trees last spring and have ordered as many more for next spring.

Yours, etc., J. E. Hasbrouck.

*From a regular customer who buys every year and has placed good order for next spring*

New Paltz, N. Y. May 28th, 1912

F. A. Guernsey & Co.,

Dear Sirs:

Inclosed find check to pay for the 500 English Morello Cherry trees. Trees came in good shape and I set them as soon as they arrived, about the 16th of April. There was not a poor tree in the lot and they are the finest lot of Cherry trees I have ever seen. Every one of these 500 is alive and in full leaf now.

Whenever I can get you an order for Cherry trees I will do so. I am the person who got Wm. Ambrose of Clintondale, N. Y., to order 200 Cherry trees of you. If you are in this section come and see me and take a look at these 500 trees. You should be proud of them I am sure.

R. E. Dubois, New Paltz, N. Y.

Topping, Virginia, Dec. 28th, 1914

Dear Sir:

Stock is giving satisfaction, and our business will be on the increase. Yours truly,  
J. P. Slaughter.

Wappingers Falls, Dutchess Co., N. Y. Jan. 1, 1915.

Gentlemen:

The four hundred fruit trees shipped me in the early spring have made a fine growth, and have been much admired by those who have viewed them. The condition of the trees on arrival was all that could be desired, showing much care and painstaking in packing, and which doubtless had much to do with their fine growth---not a single tree having died in the entire lot.

Very truly yours, Walter C. Phillips.

## PRICE LIST

We offer the following strictly high grade stock at the appended prices, but prices are subject to change from time to time.

It is advisable to place orders early so that the grades and kinds of stock you want can be reserved. Late in the season we shall be short of many kinds.  
ORDER NOW.

Discounts: 5 per cent discount on all orders amounting to \$5.00 and over received before March 15th, after that date 3 per cent discount on cash orders of \$5.00 and over.

Terms: Cash with order except in large orders when we require satisfactory reference before shipment. We usually require all bills to be paid in 30 days which is same as cash. For complete description of varieties, we can send our complete catalog.

### CHERRY TREES, 2 Years Old, Strictly First Class

We are special growers of Cherry Trees, growing many thousands of them for other nurserymen on contract

First Class, Largest size,	35c each	\$3.00 per 10	\$25.00 per 100
First Class, Medium size,	25c "	2.50 "	20.00 "
First Class, Smaller size,	20c "	1.75 "	15.00 "

#### SOUR KINDS

Montmorency	Early Richmond	English Morello	Dyehouse
Lutovka (very late)	Ostheim	✕ Louise Philippi	Wragg
			Late Duke May Duke

#### SWEET CHERRY TREES

5c per tree more than Sour Cherry in all grades

Black Tartarian	Downers Late Red	Schmidts Bigarreau	Reine Hortense	Windsor
Yellow Spanish	Dikeman	Napoleon Bigarreau	Gov. Wood
