

DETROIT SWEEP BY HEAVY RAINS

RAINFALL HEAVIEST RECORDED IN RECENT TIMES

1000 HOMES DESTROYED—LOSS WILL BE LARGE

Bridges Destroyed, Factories Closed, Homes Filled With Water and Debris as Heavy Rainstorm Sweeps Region.

Detroit.—Property loss estimated to run into the millions, destruction of two bridges, at least one death and the closing down of several automobile factories, remained in the wake of a heavy rainstorm that affected the Detroit region, leaving water standing ten feet deep in some low sections in Detroit.

The storm and rainfall was the heaviest recorded in Michigan in recent times.

One father was drowned in his home in an attempt to save his invalid wife and two children from asphyxiation.

More than a thousand homes in the Gonnors creek and similar districts were ruined.

Detroit's loss to taxpayers alone in ruined pavement and wrecked sewers will run into the hundreds of thousands, city officials estimated.

For hours telegraph and light facilities appeared beyond immediate repair, but a temporary service was restored after scores of extra workers had been pressed into duty.

Sixty automobiles were trapped at one section of Dunn road and their drivers forced to spend the entire night in their cars. Taxicab companies refused to answer calls during the night.

FOREST FIRES A MENACE IN WASHINGTON AND IDAHO

Seattle.—Several new forest fires have been reported in northwestern Washington. J. C. Joy, head of the Washington forest fire association, directed a fight against a large blaze near Rockport, on the Skagit river. A fire was reported in a watershed at Mount Baker, but was not believed to be serious. Other new fires were burning near Barrington and Finney creek and men were rushed to combat them.

A fire had been burning over 3,000 acres of land near Duvall, and was still raging, according to last reports. A forest fire blaze in the Pine creek district, twenty miles east of Wallace, broke beyond control lines and was burning over more than one thousand acres. Forest service officials reported that the blaze was fanned by a strong east wind and that a large amount of valuable timber is in the direct path of the flames.

COMMISSIONER HAYNES WILL LOSE AUTHORITY SEPTEMBER 1

Washington.—Dry enforcement has been ordered taken definitely out of the hands of Prohibition Commissioner Roy A. Haynes, who, after September 1, will act only in an advisory capacity to Assistant Secretary Andrews of the treasury.

Commissioner Blair of the internal revenue bureau, who has jurisdiction over the prohibition unit, signed the decree which stripped the present enforcement headquarters of its major powers. The order, which had been forecast, will carry out the treasury's plans for a new lineup when the prohibition reorganization plan goes into effect the first of next month. Nearly all of the duties of Haynes' office will devolve upon the twenty-two prohibition administrators to be admitted and who will have headquarters in various sections of the country.

GERMANY HUNTS MARKET FOR RUHR COAL OUTPUT

Berlin.—The settlement of the British strike threat was a great disappointment to the German coal industry, which had looked to the strike to clear the huge piles of coal at German mines. A dumping war between British and German coal industries, which may develop into a bitter trade war all along the line unless the European coal and iron industries get together in the present overproduction crisis, looms on the horizon.

The government subsidy of \$50,000,000 granted the British coal industry to avert a strike, is considered here as practical dumping, which the German coal industry must meet. The Germans, however, have already been selling coal abroad below the cost of production.

Snowfall in Texas
El Paso.—Although the thermometer registered above 100 degrees early in the week, snow flakes fell here for six hours. A light snow also fell at Douglas, Ariz.

COOLIDGE STUDIES TAX REDUCTION

SURPLUS IS ESTIMATED AT \$373,000,000

MADDEN SUBMITS PLAN FOR COMING YEAR

Comprehensive Program of Reductions of Government Expenditures Is Submitted to Chief Executive for Consideration.

Swampscott, Mass.—Representative Martin B. Madden, Republican, Illinois, chairman of the house committee on appropriations, submitted to President Coolidge, at a conference at White Court, a comprehensive program of tax reduction and retrenchment of government expenditures in the next fiscal year.

The tax reduction program proposed by Madden he summarized thus:

1—Repeal of all estate, gift and all so-called "nuisance" taxes.

2—Reduction of the corporation tax from the 12½ per cent of the existing law to 10 per cent flat.

3—Reduction of surtaxes to a maximum of 15 instead of the present 40 per cent.

4—Reduction of normal taxes to a maximum of 5 per cent instead of the 6 per cent of existing law, with the minimum normal reduced, if possible, to 1 per cent instead of the present 2 per cent.

5—Provision for the automatic rebate to taxpayers annually of any surplus of government revenue amounting to \$50,000,000 or more.

6—No increase of the exemption from income taxes, now \$2,500 for married and \$1,000 for unmarried persons, but provision for a proportionally greater reduction of the tax on incomes below \$5,000.

7—Application of payments by European debtors to the retirement of Liberty bonds and addition to the sinking fund of the interest on retired bonds, which measures would extinguish the national debt in thirty years.

Madden estimated the surplus for the current fiscal year at \$373,000,000, making it safe, in his opinion, to lower taxes to the extent of \$350,000,000. He informed President Coolidge that there is a promising prospect of a reduction of \$125,000,000 in aggregate appropriations for the next fiscal year, bringing the total governmental expenditures down to \$3,100,000,000, exclusive of the appropriations for the postoffice department, which are approximately reimbursable from revenue.

CHINESE TROOPS TO RESCUE AMERICAN FROM BANDITS

Pekin.—The Chinese government has sent one thousand men to the region of the Morgan Palmer ranch in Manchuria in an attempt to release Dr. Harvey Howard, American, from the bandits who kidnaped him.

Howard, associated with the Rockefeller Foundation hospital in Peking, was kidnaped and secreted by bandits who raided the Palmer ranch and killed Palmer.

The sending of the troops followed American consular and diplomatic reports on the incident to the Chinese authorities.

La Follette Seeks Senate Job

Madison, Wis.—Robert M. La Follette, Jr., will seek the seat in the United States Senate made vacant by the death of his father. He announced his candidacy and said he would issue a "complete statement" later. Unless there should be a complete change of sentiment within the next two months, Robert M. La Follette, Jr., will be nominated and elected to serve the unexpired term of his father in the United States Senate. Young La Follette will run in the regular Republican primary.

Gary Starts Crime Crusade

New York.—First steps toward forming a national vice commission and launching a citizens' crusade against conditions of crime characterized as "terrifying beyond all expression," were taken at a meeting called by Elbert H. Gary, head of the United States Steel Corporation.

It was urged that President Coolidge be acquainted with the details and purposes of the meeting and perhaps asked to help the crusade against crime by national action.

Clash in Tibet

London.—A dispatch from Calcutta reports that civil war has broken out in Tibet in consequence of the bitter feud between the military and progressive parties and conservative, or "priests' party."

Golden State News of Interest to All

A Los Angeles mine operator has secured control of the Woods mineral tract at the west city limits of Grass Valley.

Bids will be opened soon for a reinforced concrete hospital building for Siskiyou county, to be built at the city of Yreka.

Henry C. Hockins of Turlock has qualified for membership in the "Covered Wagon Revue," to be staged at the state's Diamond Jubilee celebration.

By executive order, an 80-acre tract on one of the main highways out of Los Angeles has been set aside by the government for a recreational camp for motorists.

Thirty were injured at Point Lookout when a section of an outdoor amphitheater collapsed during the semi-annual ceremonies of the Knights of Kabrossan order.

The convention of the Pacific Coast Association of Advertising Clubs at Portland awarded the prize for stunts to a skit written by LeRoy Carroll, president of the Fresno club.

J. C. Watson, tax expert of the state of Illinois, is to be employed by the Farm Bureau federation for the purpose of making a study of the tax situation in California.

Articles of incorporation have been filed for the Traktor company, who are to manufacture track-laying attachments for small tractors in a plant to be erected at Pittsburg.

Construction of the breakwater at Crescent City harbor has been brought to a standstill for lack of funds. The last appropriation was expended on work on the jetty completed July 18.

State Treasurer Charles G. Johnson has completed arrangements for loaning \$800,000 in state deposits to the banks of Santa Barbara to aid in the reconstruction of the city, partially destroyed by a recent earthquake.

No representatives will be sent to Washington by the Turlock irrigation district to argue against the Hetch Hetchy power sale by San Francisco to the Pacific Gas and Electric company.

Plans have been completed for a one-story frame and stucco club building for the Women's Club of Suisun, Solano county. The structure will be erected at Suisun and will cost about \$15,000.

October 31 has been definitely fixed as the date for the big Shrine ceremonial at Napa. The affair, which will take thousands of Shriners to that city, will be under the auspices of Aahmes temple of Oakland.

The monthly average received by producers for eggs shipped out from the Novato egg station last year was \$46.140; for hatching eggs, \$3,770, making a total close to \$55,000, besides a good average shipped out by train and truck.

Occasional complaints that business is dull are not borne out by the figures usually selected as barometers. Bank clearings in the leading Pacific coast cities, for example, were uniformly higher for June than for May, or for June of 1924.

Efforts are being made to include those teachers not on the active rolls at the time the retirement pension amendment was voted by the city of San Francisco and who were excluded from the benefits of the provisions. Another amendment may result.

Sacramento county officials and the capital city supervisors have approved the construction of a bridge across the American river near its junction with the Sacramento river, to connect with the Garden highway and provide a way of travel into Sacramento from the valley. The cost, about \$1,000,000, will be borne jointly by the city and county.

Father Philip J. Delon, the so-called "Junipero Serra of Alaska," has come out of the land of snows for the first time in a decade and is in Sacramento for the series of conferences with Catholic authorities in charge of missionary work. He is superior of the Jesuit missions among the Eskimos and Indians of America's northernmost possessions. In visiting his twenty-five Alaskan missions, Father Delon travels approximately one thousand miles a year with dog teams.

Containing it would be impossible to convict unaturalized aliens of violating the anti-fire arms law under a recent decision of the state supreme court. District Attorney J. J. Henderson of Sacramento has asked the superior court to dismiss foreigners arrested on charges of carrying concealed weapons. The supreme court recently set aside the conviction of a Mexican in the local courts, holding that the prosecution had no right to prove the defendant's nationality by admission made by him to the arresting officer.

BLAINE-JAMISON

Mr. and Mrs. John D. Blaine announce the marriage of their daughter Pauline Leslie to Mr. Carvel Alexander Jamison, Sunday, July 26, 1925.

Mrs. Jamison is in the employ of the Mercantile Trust Company at the San Jose office and will continue in her position until their new home is established at Oakland where Mr. Jamison is in the bakery business. Mrs. Jamison is one of Campbell's popular young ladies of one of the pioneer families and the Press joins with their many friends in extending most hearty best wishes for the happy couple.

ANNOUNCEMENTS OUT

Announcement cards were issued last week telling of the engagement of Miss Helen Ruf, of Santa Clara to Mr. Anders Christian Anderson of Campbell. Miss Ruf is one of the most popular young ladies of her town and several social affairs have been recently held in her honor.

Mr. Anderson has just completed a new house on his ranch on Pollard road where they will make their home.

Protested Books Adopted

Supporters of the theory of evolution made a clean sweep of their victory over the fundamentalists, who attempted to bar all books on evolution from the public schools, when the state board of education, in quarterly session at San Francisco, voted unanimously to list the third textbook of the three to which objections were made by a delegation of ministers.

The textbooks accepted were Peabody and Hunt's Biology and Human Welfare, Gruenberg's Biology and Human Life and Atwood's Problems, Projects and Experiments in Biology.

Over objections by President E. P. Clarke of the board, F. J. O'Brien and A. C. Storke, members, the board accepted for listing Riley's Economics for Secondary Schools. Storke claimed the book contains many inaccuracies and Clarke and O'Brien sided with him, but the three were in the minority.

The board granted fifty-one applications for teachers' pensions, denied one and postponed action on seven others. One application was withdrawn. One teacher died after making application for retirement on pension. She was Mrs. Emma W. Willey of San Jose. The sixty applications comprised the largest number ever to come before the board at one time.

A request from Wiley J. Phillips, editor and publisher of a Los Angeles biblical paper, that the board give its endorsement to a proposed constitutional amendment permitting the reading of the Bible in the public schools, was tabled without comment.

The University of Oregon and the University of Arizona were added to the list of schools for the granting of teachers' certificates. The Western Norman High school was given the privilege of presenting its credentials to the next convention of the state teachers' college presidents.

Determined to wage an effective war for the reduction of the toll of deaths, accidents and property loss from motor vehicle accidents in this state, the California Public Safety conference is preparing to launch an intensive, state-wide campaign of education in the interest of safety on the public highways. This conference, recently organized to co-ordinate the efforts of individual organizations, is fostered by the California Development association, California State Automobile association, Automobile Club of Southern California, California Peace Officers association and the state division of motor vehicles. Its purpose is to promote greater safety on the streets and highways of the state through the education of pedestrians, motorists and school children to the dangers of modern traffic and to bring about sane and continuous enforcement of safety regulations. The campaign slogan will be: "Carelessness is a national enemy—drive and walk safely."

Horticulturally, things look pretty good, according to the official statisticians. Peaches promise a yield of 392,000 tons against 320,000 last year. Apricots are in larger supply than last year, but the quality is not first class. There was a short crop of cherries, but prunes and plums are in good volume and prices are attractive. Grapes of all varieties will be abundant. Shipments of fresh deciduous fruits to July 12 were 4,342 cars, compared with 4,526 cars at the same date last year. The heaviest movement thus far is in plums, with pears ranking second.

FEDERATION PICNIC

The date set for the annual picnic of the Federated States Society of Santa Clara County is August 15th. The place is Memorial Park, Los Gatos, California. The program as planned will consist of various stunts, musical numbers, etc., as given by the individual state groups, of which there are about 42 in the State Society Federation. The committee in charge is planning for a bigger day than was had at the picnic last year, and those who attended it know that means a splendid time. All former residents of any of the States are cordially invited. Lunch will be spread at 1:00 P. M. Many from your old home town may be at Memorial Park on that day.

IS PROHIBITION A FAILURE?

(Marshalltown Times-Republican)

Is Prohibition a failure? Listen to this from an annual report of the U. S. Commissioner of Internal Revenue.

"Illicit distilling and bootlegging" continue without sign of abatement. During the past fiscal year practically the same number of illicit plants were seized and destroyed as during the previous fiscal year. Two thousand four hundred and sixty-five were seized and captured during the year just closed, as against 2,488 the previous year."

Wait a minute before jumping to conclusion: The quotation above is from the commissioner's report of 1912. If you have "imbibed" the "bootleg" propaganda begun with the prohibitory amendment another think is coming. Think it.

A BIG PEAR PACK

The California Cannaries Co. under the management of W. A. Bundy and his efficient corps of superintendents, made an enviable record Monday. The force packed 2100 cases of pears, or about 54 tons of green fruit which for a plant of this size is remarkable for a pear pack. So far this season about 75 percent of the pear pack has been Santa Clara county fruit, a portion coming from San Benito county.

From the older group of Camp Fire girls the following named went to the district camp at the State Redwood Park Sunday to remain for two weeks: Helen Alison, Wilhelmina Le Grand, Carolyn Lund, Annette Merrill, Elsie Merrill and Helen Stray. Mrs. Olga Weiss, our school nurse, is at the camp in charge of the physical department.

Mrs. M. A. Hanson and daughter, who have occupied the H. V. Archibald house on Johnson Avenue for some time, have moved to San Jose where Miss Hanson, will teach the coming year. For the past few years she has been the very capable principal of the Cambrian School.

Lodi's plans to buy the block on which the Salem grammar school stands, for a city park, came to a sudden end by the discovery that the late Dave Kettleman, a pioneer farmer of this section, deeded the site to Lodi for school purposes in 1885, with the proviso that if it ever ceased to be used for such purposes it was to revert to the Kettleman estate.

Ten speed boats will race a S. P. crack train from Los Angeles to San Francisco as a feature of the California Diamond Jubilee opening.

The Bates Packing company of the Pacific Fruit exchange is erecting a grading and packing plant for pears at Novato.

The primary industries of California are in a fortunate position and the benefits of large production and fair prices will be widely diffused. Gathering and marketing of crops is in full tide, with results that are quite generally satisfactory, despite some detriment through cool weather in June and very hot weather in July.

Sacramento industry has made a 20 per cent gain annually since 1920, against a gain of 2½ per cent for the state as a whole, according to a report made of the industrial survey recently conducted by the chamber of commerce.

FLOATS FOR JUBILEE CONSOLIDATED PLAN

Santa Clara County Consolidated will furnish a beautiful float for the big Diamond Jubilee celebration in San Francisco in September. This was one of the important actions taken by that body at its regular monthly meeting held at Sunnyvale Tuesday.

The float will carry beautifully costumed ladies representing each member of the consolidated chamber, each town to furnish and costume its representative. These ladies will pass out to the visitors along the line of parade Santa Clara county's "prune" wrapped in suitable wrappers, bearing the compliments of the county.

President Wendell C. Thomas appointed as float committee, W. B. Weston, of Santa Clara, C. H. Whitman, of Campbell; Pop Smith, of Mountain View; F. H. Gardner, of Saratoga; and H. W. Wheeler, of Gilroy.

At the motion of C. H. Whitman it was voted to have a historical float as well, San Jose to take the initiative in raising funds for the same and each Chamber of Commerce to assist in defraying the expense.

President Cornell, of Sunnyvale, gave a short address of welcome. Campbell Chamber of Commerce was represented by President C. H. Whitman, Secretary G. E. Farley, Ralston Allison and H. C. Smith.

The next meeting will be held at Mountain View in September.

MECHANICS TEACHER ON THE JOB

Mr. W. E. Whitney arrived last week from Lansing, Mich., to become the farm mechanics instructor in our high school. He is now securing machinery and equipment for the work shop and getting things in readiness for the opening of school in September.

Mr. Whitney was last year with the Bean Spray company in San Jose and with a firm in the east several years before getting the facts as well as theories in the school experience for this line of work.

Mrs. Whitney and children will arrive about the first of October to make their home in our community.

PATRIOTIC PRESS

The Editor is in receipt of a copy of "The New American" published by the American Loyalty League, an organization of American born Japanese. The Editor, Mr. Kay Nishida, of Payne avenue, has furnished several interesting articles on the Japanese and makes a strong appeal for his kinsman to "become truly worthy of being citizens of the United States of America."

Mr. Nisrida is also vice president of the central cabinet of the league.

CONGL CHURCH NOTES

Sunday morning at 11:00 the pastor will occupy the pulpit and speak on "Institutions: A Means and not an End."

Sunday evening at 7:30 some beautiful slides of Asilomar will be shown and short reports of the conference given by those in attendance.

This church was well represented at the conference at Asilomar this year, there being ten present: Dr. and Mrs. A. B. Townsend, Ruth Townsend, Zadie Rice, Dorothy Merriman, Mrs. L. F. Shaw, Mr. and Mrs. T. A. Cutting, and Mr. and Mrs. W. E. Eckles.

Sunday, August 9, the Campbell Christian Endeavor Society will hold an outdoor meeting. Members meet at the church at 5 o'clock sharp. Transportation provided.

\$1,000,000 to Charity

Buffalo, N. Y.—William J. Conners, Sr., wealthy industrialist and newspaper proprietor, announced the establishment of a foundation for charitable work in this city, to which he has given \$1,000,000, and expects in the near future to raise to \$5,000,000.

Iron Works Destroyed

Portland, Ore.—Fire of undetermined origin ruined the plant of the Albina Marine Iron works in the lower Albina industrial district. The loss was estimated at \$100,000.

The state highway commission has awarded for repaving a section of San Joaquin valley trunk line between Merced river and Buhach, 6.4 miles, \$139,367; construction of concrete bridge over Salt creek, Shasta county \$17,232; widening west side highway between Putah creek and Woodland and between Woodland Y and Davis, \$135,904; construction of concrete bridge over San Geronimo wash, Riverside county, \$16,883.

The Knights of Pythias, Burbank Lodge, 244, is backing a movement to erect a \$40,000 free hospital there. The building will be large enough to care for fifty patients and will have the support of Pythian lodges at Van Nuys, Glendale, Hollywood and others in various parts of the Los Angeles district.

Establishment of telephone exchanges to serve Montrose, Verdugo City and La Crescenta, all in Los Angeles county, and discontinuance of Glendale service in Humboldt county after January 1, have been ordered by the railroad commission.

A 220-page petition, the largest ever filed, has been presented by attorneys for the \$100,000 estate of the late Alex Brown, Walnut Grove farmer.

It is estimated that over six thousand persons journeyed to Salinas for the opening day of the fourteenth annual rodeo.

The \$25,000 alienation of affections suit brought at Merced by Mrs. Annette E. Caruthers of Del against Mrs. Ethel Lena Smith ended in a disagreement when the jury of twelve women reported to Judge Rector that it was hopelessly deadlocked after seven hours' deliberation.

Veteran school teachers in San Francisco, who have retired from the public school service, cannot be included in the benefits of the teachers' retirement and pension system authorized by the people at the November election in charter amendments.

CAMEL-HUMPS HIGH SPOTS

Service with most of us means serve

The thing for Kellogg to do is ship China some of that brain food.

Next to hen's teeth there's nothing so scarce as a satisfied heir.

They call it white mule because it's usually associated with the jack.

After all, does the 8-hour day better working conditions of leisure conditions.

Some wedding rings don't last much longer than the ring of the wedding bells.

Of course America ought to grow her own rubber! It's what we live on most of the time.

What better demonstration of a "fireless cooker" do we need than the modern house servant?

Go to it, Mr. Kellogg! And please see that our foreign relations don't come and spend the summer.

Many a candidate who promises to "do his duty as he sees it," develops a poor eyesight after election.

There's always consolation: if the price of rubber goes higher we can trade in our old tires for new ones.

"Mrs. Coolidge Nearly Run Down by Cops,"—headline. They just can't forget when Cal was up in Boston.

The government wouldn't have minded Judge Kennedy's Teapot Dome decision so much if he hadn't rubbed it in.

We don't blame the American dollar for shrinking. Look at some of the awful things they try to spend it for.

It cost \$148.57 a year to educate a high school pupil. But those are the school board's figures. Wait for father's.

France's proposals for paying her debt to Uncle Sam reminds us of a fellow sparring for more time on his grocery bill.

We don't exactly know where the U. S. Government got all that \$250,000,000 surplus but we can account for \$14.32 of it.

Just because a political party is not in power is no reason why it shouldn't be industrious. It can always engage in pecking flaws.

"In time of peace" is a nice phrase for the diplomats, but there doesn't seem to be any such animal. (We refer to the phrase, not the diplomats.)

CIVIC RIGHTEOUSNESS

At the outset it is admitted that the term "righteousness" is somewhat strained in its use, but in connection with "civic" undoubtedly its use will be understood.

There are people who have highly developed moral and conscientious scruples, men and women who otherwise are good—yes, of the best of—citizens who don't give a rap what becomes of the town when considered in the light of mass action for community progress.

They have not developed a sense of civic righteousness, and the fact that they are probably not conscious of their lack of cooperative reaction calls not for abuse or unjust censure but for kindly consideration of having them enter into the fold of boosters.

They "reside" in the community but they don't "belong" to the community in the sense that they feel a responsibility for its growth greater than paying taxes and obeying as many of the laws as they feel are just and can remember of having voted for at the last referendum.

Worthy enough, but they ought to and have to do these things.

It is the thing that comes from initiative cooperation that counts.

Pumpkin Center folks can be good and pay taxes, but who wants to live in a Pumpkin Center town, or at least see it remain so?

Such are common to every community.

They are the kind of whom it is often expressed and half-wished a "few funerals would take place."

We have no such wish.

Such an attitude, while sometimes with an apparent just provocation, is not the right attitude.

Consider the fellow who is devoid of civic righteousness as a potential civic-righteous fellow.

Nine times out of ten he could have been made into a community booster years ago if he had had the proper encouragement.

Something has stifled his ambitions. Indeed, the germ of self-satisfaction may have been caught from YOU five years ago.

Ask him to do something for the community now.

Put him on a committee and see that he does the thing up brown.

He will come back strong.

He will surprise you.

He has been waiting all these years for his chance and at last you have given it to him and he has made good.

What started YOU to boosting?

Just such a stimulant, but you have forgotten it now.

You don't deserve the name of booster, indeed you lack civic righteousness yourself, if you ignore the fellow that crawls in his hole.

Go in after him!

Then two citizens will boost where only one boosted before.

THE FIRST INVESTMENT AND THE HANDIEST

What is it, the safe investment that is most readily available to every man, woman and child?

Huh, the savings account? You don't call that an investment, do you?

Most certainly and surely it is, one of the very best. More fortunes have been built on little savings accounts than on an other form of investing. Of course its yield is low, only 4 per cent interest in most towns and cities. But it's safe. While it is building up, it is yielding a little income and it gives the inexperienced investor all the time necessary to select higher yielding investments that are trustworthy.

If you despise the little 4 per cent, remember that the bank would gladly swap places with you and take the 4 per cent if you would pay the expenses and take what was left. To build up an income toward financial independence, don't wildcat. Put a part of your earnings regularly into a savings account and then, while it grows, take your time to select honest, fair-yielding investment securities, bought of a dealer whom you know is absolutely honest and capable of judging securities.

The golden rule can never be improved upon, but it can be enlarged upon with profit to ourselves and mankind. How about this paraphrase of the subject: Do unto your community, as you would want your community to do unto you? Your community is the sum total of yourself and your neighbors. If you would find happiness, tranquil home and community life, prosperity and the emulation of the unselfish spirit, support local merchants, local banks, and home institutions generally. Too strong a statement you say. True, it may not bring about the community millennium, but it will place you in a strengthened attitude of consistently boosting for the home town. It will give you poise among your friends, courage in your own business adversities, hope in your job or daily task, respect for what your community is trying to accomplish, and a satisfaction that you are a share in its growth.

"I can't afford to go anywhere on my vacation"

How many friends have you heard make this remark? Perhaps you have made it yourself.

Why not, in addition to your regular Mercantile Savings Account, deposit a small extra amount each month in a special vacation fund?

The fund will grow faster than you realize, interest will be compounded, and when the next vacation comes around you will not be one of the "stay-at-homes."

Ideas from Here and There

All mystery about why it's been so hard to get orders filled for Ingram's Chili Con Carne was cleared up today. The Company calls itself "Ingram's Food Products Co." on the can, but goes as "Ingram's Chili Con Carne Co." in its mail address. So we'll not be short of this stock again.

In June a few thousand ants were making things lively in Blaine's Store and in Gilson's Market. On August first there wasn't a live ant to be seen inside the premises or out. An ANTROL ANT SET did the work.

It was a clever idea of the Fly-Tox folks to make a blower to give away with each bottle. Then a spray liquid is more attractive in a bottle than in a can. And the spray does kill insects. Convenience, looks and merit are selling much Fly-Tox.

To judge from the numerous sales, Kerr Caps for Mason jars are growing more and more in favor. The comment is that they are easily sealed, and that the fruit keeps in fine condition. The sealing is principally by vacuum.

"Phone for Food" is the slogan of a drive for business now being carried on by service grocers. If you have a phone, use it to save shopping time.

Town Tales Tersely Told

Stationery at Smith's.

Tennis balls at Smith's.

We are pleased to announce that Supervisor John Roll is somewhat improved.

Archie Steindorf, city attorney of Calexico, was seen on the streets of his native town last week.

Miss Emily Guinn, of Fresno, arrived Wednesday to be the guest of her friend, Miss Helen Baugh.

Mrs. Abbie Cutting, of Los Angeles, is visiting her relatives, Mr. and Mrs. C. D. Cutting on Harrison Ave.

Mrs. H. M. and Dr. Emily Smith are spending their vacation at Pacific Grove, having left on Friday.

Mrs. A. A. Merrill and Mrs. R. E. Dunphy are at Twin Lakes for an outing, occupying the Dr. Merrill cottage.

Mrs. Lester Ray (Florence Carlisle) of Martinez is spending the week in Campbell with her mother, Mrs. C. E. Case.

Mr. and Mrs. W. D. Sturtevant are again at home after an extended trip to Seattle, Yellowstone Park and other points of interest.

Miss Lois Gardner went to San Francisco Monday where she has been in attendance at the convention of the National Home Economics Association.

W. H. Roe has been renewing relations with his brother, G. M. Roe, of Kansas City, Kansas, who arrived last Thursday. This is their first reunion for forty years.

Mrs. Paul Rossiter has traded her property on Johnson Avenue, opposite Campbell Avenue, to Michael Tock, and has gone to San Francisco, which was formerly her home.

Mrs. Lawrence Neville and infant son, who have been with her mother, Mrs. J. N. Gardner, have moved to Oakland where Mr. Neville is in the offices of the Standard Oil Company.

Bart Guttormsen and Ira Grim were hunting Sunday at Madrone Springs and each brought home a buck. E. G. Lanz and Mr. Van Valor will go Saturday to the same region to try their luck.

Rev. and Mrs. W. E. Eckles and Mr. and Mrs. T. A. Cutting, returned Monday from Asilomar, where they had represented the local church at the conference of Congregational churches.

Leland Lancaster and family are here for a few weeks visit with Mr. and Mrs. J. W. Lancaster before school work begins. This year Lee goes to San Mateo with a substantial financial increase.

The Misses Albia Hultberg, of Union Avenue, and Miss Montana Murray, both successful teachers in the Cambrian school the past years, have been elected to the Cupertino Union school faculty.

Supt. I. R. Abbott and family left yesterday for Grants Park, where the family will camp while Mr. Abbott packs back into King's River Canyon for a few days fishing. They will be away about two weeks.

Mrs. Helen Dodge, who had been in Campbell for the month of July returned to her Twin Lakes cottage on Saturday. She was accompanied by Mr. and Mrs. W. T. Alexander who remained for several days.

The Misses Laura and Margaret Blaine went to Asilomar Monday for a week and will attend the Epworth League Conference. Miss Esther Lyndon is also in attendance at the conference, her brother having taken her over by auto.

Mrs. A. Y. Hoagg, who has spent several years in the Hawaiian islands, arrived Tuesday from Honolulu and is with her daughter, Mrs. P. B. Payne. She rather thinks that she has returned this time to stay altho she may possibly go back.

1925 PRUNE PRICES ANNOUNCED MONDAY

Opening prices on the 1925 crop of prunes were announced Monday by the California Prune and Apricot Growers Association as shown in the following table:

20-3016 1/2 Flat
30-4008 1/4 BB
40-5006 1/4 BB
50-6005 3/4 BB
60-7005 1/4 BB
70-8004 3/4 BB
80-9004 1/2 BB
90-10004 1/4 BB
100-12003 1/4 Flat
120-up03 Flat

1925 Crop Equality Grade is priced one half cent lower than Sunsweet except on the small sizes from 90's up where the difference is one quarter cent.

Mr. Joseph M. Parker, General Manager of the association, in commenting on the opening prices stated:

"In the naming of prices at which the 1925 crop of prunes are to be sold, we have endeavored to make a complete analysis of the situation and name a price which we believe can be maintained, and at which the crop of 1925 prunes can in our estimation be sold. It is our hope that by an energetic merchandising effort the crop of 1925 may be cleaned up sufficiently early so that we will no longer have the carry-over of a previous year's crop dominating and regulating values for the succeeding year, as a review of the past number of years makes evident has been the case due to carry-over supplies.

"Our prices are in general terms one half cent advance over old crop prune prices. A review of this year's prices as compared to last year's opening prices will show that thirties and forties are on a lower level, and all the remaining grades on higher level.

"It is evident that last season there was too wide a range of values between the large size prunes and the intermediate grades. However, upon analysis it is clear that this range was due to carry-over supplies from the 1922 and 1923 crops.

"The present carry-over supplies are all thirties and forties, and that portion of the old crop which has recently been sold through the various channels to the wholesale trade for shipment during August and September, and which is yet to be consumed, is also the larger size fruit—and furthermore, it is evident that this year's crop will run to the large sizes in the majority of districts.

"It is my belief that the ultimate success of the prune industry rests upon legitimate and conservative merchandising whereby we avoid peak prices at certain times of the season, followed later in the year with reaction and lower values, at which time not only our association (which has in the past experienced the carrying of the majority of the unsold merchandise) but also the wholesale trade of this country suffers losses.

"It will be my policy to attempt to maintain prices, and to utilize the various channels of distribution whereby our association growers can get their fruit converted into cash on the best sound basis possible, and at the earliest possible moment."

C. E. NOTICE

The outdoor meeting planned for last Sunday has been postponed one week. On Sunday, Aug. 9, the C. E. Society will go above Los Gatos for the weekly meeting, to the place where Anna Lund is staying. Meet at church at 5 p. m. sharp.

Mr. and Mrs. C. B. Miracle, accompanied by Mrs. R. W. Sanders, left Wednesday for Lake Tahoe to remain until August 14. Mr. and Mrs. Miracle run down from Lake Tahoe for a few days with apparently no more effort than the majority of people go back and forth from Santa Cruz.

Miss Abbie Sykes, who is spending some time here with Mrs. H. P. Bean, was the weekend guest of Mrs. R. E. Dunphy. The attendants at the Congregational church were again favored Sunday with a solo by Miss Sykes.

Mr. and Mrs. W. T. Morton accompanied by Mr. and Mrs. C. F. Drury, left Monday on an auto trip to Seattle. Mr. Drury is a retired hardware dealer from Minneapolis, who with his wife, is spending the summer here, and expresses himself as very much pleased with California.

"60 MILES TO THE GOOD. HOW'S THAT?"

You can get from 15 to 30 miles more to the tankful of "Red Crown" if you follow the practical instructions in the Red Crown Mileage Card. Here's one motorist who got more:

"I've been following my mileage with a Red Crown Mileage Card, and I'll say the Standard Oil Company knows how to make real mileage gasoline. I'm getting 280 miles on a 20-gallon tank against 220 miles just a month ago, so I'm 60 miles to the good. How's that?"

You, too, can get extra mileage from "Red Crown"—start "saving miles" today. Buy from any Red Crown pump in town.

A woman giving the name of May Thompson and declaring she had relatives somewhere in Sacramento county was adjudged insane at Santa Rosa. She was unable to further identify herself.

Jackson folks want to change the name of the Alpine state highway, now under construction, to the Caminetti state highway, in honor of the sponsor of the movement for the road, Anthony Caminetti.

The Rev. Thomas Francis Biddy, a Dominican priest known as Father Albert, died at Santa Barbara after a lingering illness. He took a leading part in the Irish uprisings of 1916-20-23.

FOR EXCHANGE OR SALE—20 acres improved, Modesto, irrigation, vineyard and Lima beans. Want small acreage. What have you? Owner, Route A, Box 347 Modesto, Cal.

Negotiations extending over a period of several months for the deed of right-of-way to the last gap in the state highway through Cuyama valley from Santa Maria to Maricopa were completed, February 16.

Estimates giving 3,218 new industries, adding 62,380 employees with an annual payroll of \$75,522,412 are shown in San Francisco's 1924 summary. The new projects produce goods valued at \$453,887,400.

An association endorsed by prominent central state citizens and headed by Harvey M. Toy will boost automobile travel to Pinnacles national monument in San Benito county, one of nature's beauty spots of which little is known.

Because the California Congress of Mothers and Parent-Teacher associations believe that the Deuel bill, now before the legislature to create a director of education, would "serve to increase politics in the public schools and therefore would be detrimental to the schools," the organization will oppose its passage.

Motorists Blamed for Deeds of Vandalism

Wherever the automobile goes the vandal operates. Usually his destruction is wanton, but often it is mercenary. Once the lotus was plentiful from here to Florida; now it is not so easy to find, and some effort has been made to protect it in the state. An estate at Great Sodus on Lake Ontario is credited with having the finest display of the lotus hereabouts. Profit from the pods has been the bane of the lotus, for the pods gilded or silvered will sell for interior decoration, the Syracuse Post-Standard says.

The friends of the flowers are concerned particularly with the children and the motorists. With the children started right, they expect results in the next generation of men and women.

There is an effort to teach the automobilists woodland etiquette. Signs put in garages and oil stations, through the Motorists' league, read: "Clean up as you go." Heeding that admonition the motor picnicer would be more considerate of his surroundings; with a little more consideration, the wild flower will live.

ONLY LACKED SHAPE

Mrs. Woodby Swell—Yes, she's terribly lacking in form.

Mrs. Aristah Kratt—But Mrs. Swelle, she's a woman of perfect breeding.

Mrs. W. S. (impatiently—reverting to type)—Oh, I mean she ain't got any shape!

Rich Find of Lumber

In wrecking the Withington house at Jackson, Mich., erected about fifty years ago, a great quantity of priceless lumber has been recovered. Wood at that time was not nearly so valuable as today and the highest grades were used in the construction and equipment of the house. There are 60,000 feet of wood, much of which could not be duplicated today. Many doors were of solid walnut and bird's-eye maple and many fireplaces constructed of the woods which are now very rare. Even the baseboards and moldings were made of hardwood. The quality of the white pine made use of in the construction of the Withington house could not be duplicated in any lumber yard in the country, according to the opinion of a lumber expert who examined the material.

Pennies Mount Up

It was announced recently at a meeting of the Weekly Subscribers' fund of the Kent County Ophthalmic hospital, Maidstone, that the working class had contributed in pennies a total of \$43,000. (\$215,000) toward the upkeep of the institution, says the London Daily Telegraph. The mayor of Maidstone said that one of the most gratifying and remarkable facts was that every policeman in the county, whether he belonged to the borough forces or the county constabulary, was now among the 50,000 penny-a-week subscribers to the hospital.

Get This, Girls?

W. L. George, the English feminist, tried, at a Chicago banquet, to convert a conservative divine to feminism.

The divine listened to Mr. George's arguments a good half hour, then shut him up rather sharply with the words:

"The importance of woman! You've dinned the importance of woman into my ears from the soup all the way to the ice cream. The importance of woman! But don't you know, young man, that Scripture teaches us woman is only a side issue?"—Los Angeles Times.

Give Up Annual Fair

Finland has abandoned its annual fairs and after the one held in July will not hold another until 1930.

For Woman's Adornment

Brocade of rayon and metal threads is being made in Germany for fair wearers of America.

Irish Town Offers Steeple for Sale

A steeple for sale advertisement recently appeared in an Irish newspaper. If you get off the train at Portarlinton and go along the main street as far as the market square, you will see two churches—one now used as a parochial hall—on either side. The one on the left is the French church. The other is the old English church of St. Michael and All Angels, and its steeple is now for sale. A review of the ecclesiastical history of the district is necessary in order to explain the reasons which have prompted the parish authorities to offer the steeple of the old church for sale. One has to go back for more than two centuries. There were then in Portarlinton a church for the use of the French refugees, and an English church, which was then called St. Michael and All Angels. The French church was served by a French pastor, and the English congregation was ministered to by an English clergyman. Both churches were built through the generosity of one of the earls of Galway, and Princess Caroline, who married George II., presented to the French church several pieces of silver, stamped with the royal arms.

Chinese Lawyers Have Advanced in Status

One of the changes noticed in Chinese social life is in the status of the lawyer. Prior to the revolution of 1911 lawyers were associated in Chinese minds with vagabonds and court parasites. There was no consideration of a legal career when a father was deciding upon a trade or profession for his son. But since Chinese lawyers have been allowed to practice in the Shanghai mixed court the profession has been acquiring the repute it enjoys in western countries. Many lawyers well versed in Chinese law and the law of other countries practice in Shanghai. Indeed, the profession is growing so attractive that Soochow university has established a law department. Chinese lawyers appear against American, British and French lawyers now and enjoy the same privileges.

Railway Centenary

Railway representatives from all over the world will attend the centenary celebration at Darlington, England, this fall. The event of September 27, 1825, which was destined to transform the world of travel can hardly be pictured today. At that far-back day the company engaged men to ride on horses in front of the engine, as a precaution against accidents. The train moved at about ten miles an hour with a weight of about eighty tons. Fields, lanes and bridges all along the route were filled with gaping sightseers unable to believe their eyes. Thus a hundred years ago was heralded the doom of the stagecoach. The Duke of York will be present in the autumn to open the centenary celebration.—International Shipping News.

Time's Changes

Clarence Dillon said at a dinner in New York:

"Our captains of industry in the past married early. Our Russell Sages, Schwabs and Rockefellers married on a few dollars a week as soon as they were able to cast a vote.

"Times change, of course. Our captains of industry today don't marry as early as they used to, but, on the other hand—"

And Mr. Dillon smiled blandly. "On the other hand," he said, "they marry oftener."

Yes, the Devil, Probably

George Lynden, age two, talks very plainly despite his years. His parents took him to church one night recently and the preacher turned exhorter before the services were concluded and his strenuous gestures included clinched fists vigorously shaken in the air. The little boy watched him earnestly and then spoke right out in "meetin'."

"Is he going to fight, mamma?" he demanded.

Used Old License

Donald Mackie, registrar at Edmonton, Alberta, tells of a man of that city, jilted seven years ago, who has just wedded on the license obtained then. When the woman changed her mind the swain laid the license away. She married another, who died recently. Then he brought out the license. She consented.

A PLEA FOR CAUTION; 'ALWAYS BE CAREFUL'

California has always held a high place in the world of sport. It has furnished champions in almost every line of athletics; it has a goodly share of the records in almost every field of outdoor activity, and in every phase of sport the motor car has played an important part.

Ease of transportation in California has done a great deal in the development of golf for without the motor car the links would not be as popular as they are; it has stimulated interest in tennis; it goes hand in hand with polo and one only has to look over the assembly of motor cars at the annual Big Game between California and Stanford to see what a part it plays in the gathering of crowds for football.

The motor car today is a mystic talisman that opens the great out-of-doors to the city dweller; it is the modern magic carpet, the seven-league boots, the enchanted horse and the elimination of the element of distance has caused a change in our civilization during the last ten years, a change far greater than that recorded in any century that has gone before.

Treat your motor car, therefore with deference. It is a monument to man's inventive genius. Remember, however, when you take the wheel that a greater responsibility rests on your shoulders than in your capacity as a pedestrian and the motor car which you operate which should contribute to your enjoyment, health and education, may be converted through your negligence into a dangerous weapon, not only to yourself and to those who ride with you but the others on the road as well.

No admonition is more important for the motorist than that sent out by the Safety Bureau of the National Automobile Club: The A. B. C. of safety is, "Always Be Careful." Follow that advice and you will contribute your share to bettering the conditions of motoring as they exist today. You yourself as well as others who motor will profit thereby.

Imperial Valley Menaced

Calxico.—Work crews here rushed trainloads of rock to stop a breach in the levees protecting Imperial valley, much of which lies below sea level, from the waters of the Colorado river. The break occurred twenty-three miles below Imperial heading, near Pescadero dam. A sudden current started undermining the track along the levee at this point, May 1, and before the scouring could be stopped 200 feet of track had caved in.

Magnus' Libel Convicted

Minneapolis.—A. N. Jacobs, publisher of a magazine in Minneapolis, was found guilty on a charge of criminal libel in connection with the printing of a story charging former Senator Magnus Johnson with drunkenness and disorderly conduct.

A proposed freight truck line from Santa Maria to Los Angeles by the Santa Barbara-Los Angeles Freight company is meeting strong opposition from the motor truck interests of the valley which have organized a valley trucking association.

California's quota of 1,800 men for the citizen's training camp this year is 600 more than last year's apportionment. Applications should be early submitted to Colonel E. V. Smith, Presidio, San Francisco.

The department of justice ruled unfavorably on the petition for a presidential pardon for Pete McDonough, convicted San Francisco political boss, sentenced to fifteen months for bootlegging.

The Sacramento Valley Secretaries association elected Louis Carrigan of the northern counties' association vice-president of the boost organization, and Fred Shaffer, Yolo, secretary.

The state has approximately \$6,000,000 in the treasury available for deposit in state banks. The money will be loaned to the banks offering to pay the highest rate of interest, as may be determined by bids.

Mrs. Magdalen Anton of Fairfield asks \$50,000 of Joseph Gihkberg, Vallejo, for alleged false imprisonment on a charge of obtaining money under false pretenses.

Illicit stills, with a combined capacity of 215 gallons were taken by government men on the Story road near Santa Clara. Three men were arrested in the raid.

United States District Judge Benjamin E. Bledsoe, has announced his candidacy for the nomination for Mayor of Los Angeles at the coming primary election.

Antonio Batti, Santa Rosa wood chopper, was rescued from a raft at the Healdsburg bridge after thirty-six hours in a driving storm on the Russian river.

Clyde I. Blanchard, former secretary-business manager of the Berkeley board of education, confessed to embezzling \$12,000 of the funds of the board.

Albert King, Canadian overseas veteran, self-confessed robber, wanted in Tulsa, El Paso and other places, surrendered to San Diego police.

A wife may take a congressman's place, but we haven't heard of any congressman falling over himself to take his wife's place.

What to do if all lights go out

IF your neighbor has lights, it probably means that one or both of your main fuses have burned out. The fuses are usually located near the Electric Meter.

Open the main switch and unscrew the fuse and remove it from the socket. As it is convenient to do this yourself, keep a supply of fuses on hand, for this will prevent your being without light while waiting for a service man or electrician.

After you have replaced a fuse, if it blows again at once, call an electrician. You can buy fuses at nearly all electrical and hardware stores. In cases of emergency where you are unable to get a fuse quickly, call the P. G. and E. service man. No charge is made for the service man's time—only the fuse is charged for.
