LIBRARY INSTALLATION GUIDE

Visit : http://divilayouts.divithemecenter.com/

Author: Divi Theme Center

Minimum requirements:

WordPress Version   : 5.2.0

PHP Version   :7.2.x+

MySQL Version   :5.7.x+

https://wordpress.org/about/requirements/

Zip upload installation method (make sure uploads up to 2MB are allowed for your hosting):

Essentials:-

You need to have Divi Subscription from Elegant Themes.

Files With Product:-

→ Upon purchasing this layout pack, you will receive a product zip file containing 1 .json file and 2 .txt file with Information and License.

→ ' **Supplementary Zip** ' will include supporting document like **[' Installation Guide Files ']**

Steps:-

1. Make sure you have the latest " **Divi Theme installed** " and activated
2. Import product ' **Library Layout (.json) File** ' under ' **Divi -> Divi Library -> Click Import & Export**

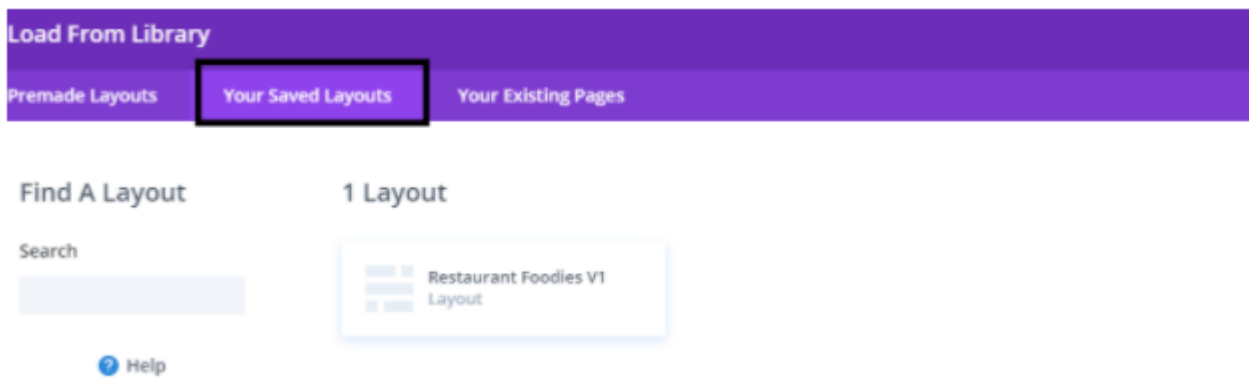

3. After importing JSON files ' **Go To – > Divi Library** ' and you will see layout you imported like below:

4. Go to Pages → Add New and give your page a title
   → Click on Use ' **The Divi Builder** '

→ Click on ' **+** ' Icon -> Go To " **Your Saved Layouts** "

Select one that you want to load on your page and import.

5. After selecting the layout ' **Publish Page** ' and see at the front end.

6. Wait until the layout is imported (it can take up to several minutes) Don't forget to publish/save your page.

7. All icons and images will be automatically imported with the .json file

CSS Code:-

The code module with CSS code is used in the layout and you will find all ' **CSS** ' code in this module only.

Products' Images:-

For the best experience, I recommend using product images with transparent background in PNG format.

Website Content Width :-

This layout was built using the 1170px website content width. We recommend the same width for the best experience.
