DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

AN/ek

SUBJECT: Reason for Unsuccessful Delivery of 1949 Fiscal Year Community Chest in Kochi-ken

1. Performance exempted from tax at movie hall in Kochi city was authorized for a week during the campaign period for the purpose of collection of 1947, 1948 fiscal year Community Chest, through the performance we could get 927,667 yen and 2,165,481 yen for 1947 and 1948 fiscal year respectively.

In 1948 fiscal year, we had an agreement between the Central Government that some measures would be authorized in 1949 fiscal year too. Based on this organization we established the target amount of 1949 fiscal year. including 2,000,000 yen of expected profit from performance exempted from tax, but owing to the reformation of local finance and Tax Law, authorization of performance exempted from tax was cancelled by the government. As the result of this change we lost 2,000,000 only in this case. Moreover, the last decision on the performance was made after campaign period. We could not take measures to change amount for each town and village to achieve collection of target amount.

2. Camapign of donation for the purpose of establishment of Kochi University has been carried out since 1948. Target amount of the donation in 1949 fiscal year is 6,000,000 yen. As this campaign has been going on continuosly from previous year the campaign and community chest campaign duplicated in campaign period and community chest campaign affected great deal by this camapign.

3. Each town and village are getting almost of construction fund of their lower secondary school and upper secondary school by donation from general public. As this campaign has been going on continously from previous year through out Kochi it influenced a great deal on the Community Chest campaign being a cause of unsuccessful collection of Community Chest .

4. In 1948 fiscal year, Imoji-byo (disease on rice plant) brokeout through Kochi ken and caused a great damage in wide areas, and those fields could not get their harvest at all or got only 20or 30% of usual harvest which was not few. We ca not deny that this was the cause of unsuccessful camapign.

SUBJECT: Original Rule of 1949 Fiscal Year Community Chest Allotment

1. Allotment of Community Chest should be done appropriately and impartially respecting donators will.

2. Receiving body should not be engaged in profit taking business and should fall under each city of undermentioned items:

a. Private social work (including child welfare work)
b. Protection work of general needy people
c. Guidance or liaison of social work
d. Improvement of treatment, welfare, cultural activity for inmates in welfare institutions.

3. Manager of receiving body should be a person having credit with it's responsible management.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

4. Receiving body should open to the public its account book and announce its work.

5. Receiving body should have capacity to get suitable result for expense.

6. Considering how receiving body influence upon general public, they should be prudent in participating in unsuitable organization of private social work.

7. Allotment as original rule, should not be given for new work not expected to be materialized as schedule by the end of the fiscal year, ~~but~~ fall under any category of undermentioned items and recognized necessary after careful investigation by the committee.

a. Work recognized it's urgent necessity and desired to be established but equipment expenses shall not be given for work, government is going to open entrusting it's management to private organizations.

b. Person who has good personal history and has credit with responsibility and management, and going to open new work socially or on requests of citizens.

8. To those prescribed in previous article and existing receiving body are going to receive allotment for changing of fundamental equipment, such as new construction, purchasing site, or changing design, careful investigation should be carried out on the reason and plan. In this case special consideration should be paid whether or not considerable amount of fund out of the budget secured by single handed, or capacity of maintenance after completion of new construction or additional construction.

SUBJECT: Standard for Allotment

The following standard is fixed based on original rule of 1949 fiscal year Community Chest Allotment.

1. Allotment for fundamental equipment

2. Allotment for clerical expense (as original rule allotment shall not be done for child welfare institutions)

3. Allotment for business expense (as original rule allotment shall not be done for child welfare institutions)

4. Allotment for priority sunsidy.

As Way of calculation of allotment amount for fundamental equipment . It shall be divided into the following classes:

a. Expand and repair of part of existing equipment and purchasing site (concerning repair of wooden wall or land readjustment, consideration shall be given separately)

b. Inevitable equipment necessary for carrying out it's work, for example playing equipment in nursery.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

B. Figure out construction expense per tsubo (about a square meter) based on record submitted by each institution and get average prive in each city and district from it.

Reduce self-owned average price from average price in each city and district and the balance shall be taken for actual price per tsubo. According to this actual price, expected allotment amount shall be figured out.

C. Based on submitted budget, calculate actual required amount and decide expected allotment amount.

a. Way of calculation of allotment amount for business fund. Decide standard number of employee according to "standard number of employee of social work institution" and figure out 1/3 of present salary and take it as "expected allotment amount".

b. Way of calculation of allotment amount for business fund.

a) Taking consideration of budget and final account of 1948 fiscal year and expenditure up to the end of June out of the budget of 1949 fiscal year, and figure out allotment amount.

b) Abstract business fund (exclude personal expense) out of 1948 fiscal year final account of various organizations, divide settled amount by estimated amount and the figure shall be taken as execution rate and multiply execution rate by "expected subsidy from community chest submitted for fiscal year 1949 and calculated figure shall be expected allotment amount. settled amount ÷ estimated amount = execution rate

D. Gist of allotment of priority subsidy execution rate × expected subsidy from community chest = expected allotment amount

a. Purpose of priority subsidy is to give temporary expenditure in order of importance for expansion and strengthening of private social work institution and new construction or expansion of socially desired work. To contribute toward their healthy development.

b. Eligibility for receiving priority subsidy shall be as follows:

a) Work recognized its urgent necessity and its construction desired and its manager is clear and perpetual. But even in this case, considerable amount of budget should be able to be borne by mamanger.

b) Manager should have credit with responsibility and management, and recognized the fact that management will suffer difficulty unless rebuilding, expansion or repaur carried out.

c) Works aim at urgent relief of number of suffered people caused by calamity or unexpected disaster.

d) New construction of children's library or children's recreational Playground or existing equipment, priority subsidy shall be given, in response to desire of various circles and expecting

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

propaganda effect of community chest. Allotment amount of priority subsidy shall be decided according to proportion of amount of community chest.

SUBJECT: Target of execution Business of Committee in this Fiscal Year

1. Collection of actual result amount of last campaign in each city, gun within Janauary.

2. Committee general meeting shall be convened by 15th of February in order to decide allotment committee and allotment amount of last time and immediately commence first allotment.

3. Second allotment shall be sent by 5th February and at the same time complete report to Central Committee.

4. Commendation business for large amount contributor and report to prefectural inhabitant shall be completed by 10 March.

5. Remittance of balance of allotment amount and others shall be completed by the end of March and brought community chest camapign of this fiscal year to an end.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 173013

Translated by Mrs. Hosogi, 6 February 1950

OUTLINE OF KOCHI PREFECTURE CENTRAL CHILD WELFARE CENTER

No date
No name of speaker

We thank Miss Randolph very much for her visiting this Child Welfare Center, sparing her precious time, on the way of surveillance of welfare activities in this prefecture.

We would like to explain briefly the outline of this Child Welfare Center.

Since the Child Welfare Law was enforced nationally, this section's work was began in a corner of the Prefectural Child Welfare Section on 1 April the year before last and then later on 22 April in a corner of this building which has no furniture nor equipment at all. What it is today is really the result of kind assistance of the Prefectural Office as well as the efforts of the director and all other officials of this center.

As to the staff, the number of the members was only 7 in the beginning which gradually increased until it was 13 in August and it has reached to 16 by this date. All of these members are hoping for perfect management of this office. One of the officials here is a Doctor of Medicine of Psychopathy and another is a woman doctor in children's diseases. Of course seeing the present state in which the number of cases handled is increasing day by day we never can say that this personnel arrangement is enough to meet the need. As to the budget, it was 224,000 yen last year and 415,000 yen this year. Of course these figures cover only the costs for social and labor institutions, but the amount is about twice as much as last years.

Concerning the buildings, the temporary protective shelter (73 tsubo) was completed on 16 May in addition to the main building, and the entrance hall and office room were rearranged and improved, which resulted in giving us much more convenience for carrying on our business.

Nextly, the state concerning the files has almost reached its perfection, they numbering more than forty at present. Among them, the list of children's record and the children's investigation record have been introduced to the child welfare centers all over Japan being recommended by the Child Welfare Bureau.

As to the number of cases handled, it was 541 all through the year, 960 cases this year as of 18th of this month, and it is expected to go over 1300 cases in the end of this fiscal year. The number per day is 1.8 person in last year and 4.7 person this year which is more than twice as much as last year.

Above statement is concerning the quantity of cases, now let me explain the quality. As the social state has generally become more needy, the content of consultation has become more and more comprecated and grave. One case

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 173013

required 54 days until its solution. Also in order to solve the problem, schools, health centers, homes, family courts, welfare sections of cities, towns, and villages, publicity organs, etc ---- such social resources (translator does not understand this Japanese word well) which must be utilized range more and more widely.

What I especially emphasize firstly is that our activities have been helped and utilized by school teachers a great deal this year, and that the problems of the children of whom they said they really did not know how to handle with were solved by us. Secondly we would like to tell you that this center has been utilized by many mothers who are very earnest in children's education.

Nextly, the fact to which attention should be paid among the accomplishment of last year is the standardization of T.B. system mental test. The number of programs were comparatively few in last year, but the programs carried out are as follows as of 18th of this month: Circuit consultation - 20; holding of lecture meetings - 25; holding and attending of conferences - 28; holding of study meetings - 5; Total 78. There are many requests for circuit consultation and lecture meetings being sent in.

The fact that this center has been able to accomplish so much might be of course due to the change in the social situation in general, but we believe it is also due to the prevalence of the knowledge of Child Welfare Law, the assistance of the Prefectural Office and extraordinary cooperation of other public agencies.

The main programs we have carried out are:

(1) Going out for circuit consultation, holding lecture meetings, giving guidance to school teachers, propaganda and enlightenment to the public concerning the Child Welfare Law and the Child Welfare Center.
(2) Guidance concerning establishment of special school classes and descrimination of children
(3) Re-examination of the T. B. System Mental Test which is most suitable to the children of this prefecture, most and reliable and used in the primary and middle schools in this prefecture.
(4) Publication of the pamphlet "Consultation and Descrimination" in which the scientific principles are explained concerning the consultation and descrimination which are the primary function of the Child Welfare Center.
(5) Perfection of the recreational equipment of the temporary protection shelter and guidance of study.
(6) Enlargement of the library.
(7) Assistance to the promotion of children's culture.

In the last, conerning the future of this center we would like to state that, though of course we have to depend upon the understanding and cooperation of the welfare commissioner, family, school and the society in general

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

at the same time incessant efforts and endevor are necessary on the part of the staff, in order to make this institution a real center of the welfare of children. In other words, we have to learn every day and must be intelligent enough to apply what we have learned to our daily work. We are contriving to make as much contribution as possible to the welfare of children under the motto, "We would rather be a doctor who has three patients and cures three patients, rather than a doctor who has one hundred patients and cures one patients." We staff members of the Child Welfare Center must be good students as well as good social workers.

The programs which have so far been scheduled are as follows:

(1) Revision and reinforcement of the T. B. System Mental Test
(2) Standardization of character examination
(3) Investigation and study of excellent children
(4) Standardization of the mental test for the kinder-garden children
(5) Completion and reinforcement of consultation for mother and child

Following these plans, which might be too ambitious, we are working here in order to make our center a real center not only for the welfare of children but also of the study of children.

The above is the brief outline of this Child Welfare Center. In closing my address, I sincerely hope that you will kindly give your guidance and assistance directly and indirectly to those who are engaged in child welfare works not only in this prefecture but in general.

- The End -

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 173013

Management of good nursery (Japanese translation of publication of nursing department of Iowa University Iowa State. USA)

"Nursery" is always their topic in the place where number of infant exists. People ask us "what is the true nursery?", How good nurserioes are managed? Undermentioned "Management of Good Nursery" will be the question to this question. answer

Condition of good management	In order to manage good nursery you should be able to answer "yes" for these questions.
Have large space in ard out of building	1. Is there enough space for quiet children to play not disturbed by another children who run about and pull around their toys?
	2. Have you enough beds for children's nap?
	3. Is there any isolated room for emergency use, such as nose bleeding?
Safety and healthy	4. Has it appropriate heating apparatus installed?
	5. Has it se ventilator installed
	6. Is the house protected from draft, heat and moisture?
	7. Is safety apparatus for fire installed? Do you unserstand how you act in case of fire?
	8. Is the lighting all right for children to see things?
	9. Is the building clean and orderly arranged?
	10. Is laboratory and wash place clean?

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

Sanitation of infant

11. Do head nurse (qualified nurse) examibe infant, to examine whether they are affected by infectious disease when they attend the nursery?
12. Is there any isolated room equipped for infant who has sympton of infectious disease?
13. Is sun bathing or outdoor playing included in the program?
14. Is physical examination carried out regularly? Do you receive detailed report from physician after physical examination?
15. Do you provide additional nourishment to children at nursery?
16. Do the nurses adjust the temperature of the rooms; put on or take off clothes and take care of them well enough so they do not over play or have unpleasant feeling?
17. Are nurses giving children good habits of eating, sleeping and excretion?

Equipment & toy beneficial for infant's physicial and mental growth

18. Has the institutions any apparatus for children to climb?
19. Has the institution any equipemts for children to develop their body and muscle such as balls, shovel, wagons, horizontal bar etc.?
20. Is the institution equipped with blocks?
21. Is the institution equipped with crayons, paints, clay etc to raise creative activity for children?
22. Has the institution books of poems, art, cartoons, or stories for them to acquire understandings, artistic and intellectual experience?
23. Do the children have any opportunity to acquire musicial experience?

Nurse capable to guide infant individually and collectivelly

24. Is there at least 2 other nurses to take care of children when a nurse is busy taking care of one of the child who has problem?
25. Is the number of children in a class about from 8 to 10?

It is quite wrong idea that children never be tired of play using paint, clay or block, and they have to bear it until entering primary school even they do not like it. You should encourage ~~infant~~ them to do creative play with tools as they will, instead of giving order.

26. Are nurses giving circumstances to children so they can express their feeling through both language and creative toy?
27. Are nurses encouraging children to select and use playing tools creatively and independently?
28. Do nurses order children to do this and that, such as "make a house" or"color this horse".
29. Do nurses give children chances and playing tool suited for their ability and try to be a good nurse to the children?
30. 2 years old children are always pleased to paint beautiful color or pile blocks high, painting dogs tail green shows us this tendency.
31.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

Make childre form good habit of their physical function

31. Do nurse teach the children the differencebetween male and female ?
32. Are the childrens taught how to go to the latrine themselves?
33. Has the nurses explained to the children the reason fault at the latrine?
34. Has the nurses taught the children how to recognize other's right position and possession and their own right and encourage them to fight bravely against their own ~~evil~~ desire?
35. Did nurses not make children passive in teaching them necessary techniques required for social life?
36.

Nursery required its effort to guide parents whose children nees nurses constart care.

36. Do the nurseries recommend parents to visit the place and talk with the nurses or give necessary knowledge to them?
37. Do nurses understand them not as parents of nursed children but member of community?
38. Have you any parents meeting in which you can discuss general problems?
39. Is there a professional person in the nursery who can and does understand the children well and ~~xxxxxxxxxxxx~~ keeps close contact with parents?
40. Is therea nurse who always keeps close contact with the parents ~~of~~ whose child has some trouble to understand the ~~troublesome~~ problem?

Nurse should have adaptability for others and know well the importance of emotion of human beihg

41. Do nurses give warm affection to children instead of sentimentalism or favoritism?
42. Can nurse give children sense of security and sense of dependability?
43. Can nurses express joy, strong victory or gentleness toward children?
44. Can nurse treat children with firm belief?

Nurseries should have nurses who can understand the growth of children

45. Is there a nurse who has special training and preparation to handle childrens?
46. Has the nurses received the following training courses? Theory, child psychology,mental hygiene, sanitary, nourishing, parent education, home and social relation?
47. Are nurses interested in children ~~upbringing them to develop their personality or as only~~ a pet or a friend to play with?
taking them not only as

Nurse should not keep child in undesirable feeling, but divert it to other way

48. In case the children acts violently can the nurse divert the child's act or feeling to other ways instead of stoppingrhim?

Nurse should take care of not only things children doing but also reason why children must have done it

49. In cse a child needs continuos care, do nurse try to study with parent why their child need care, instead of scolding him?

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

They observe children and make record of their growth in order to help good nursing and give information to both nurses and parents

50. Is there record of children's wieght and height, record of physical examination and mental test and examination card of most impressionable problem and most remarkable growing point of individual child?
Is there daily program of nursery items as record of certail child bears special necessary items?

Do they record of attendance of children daily? Are children nursed in nursery while their mother is working?

51. Do nurses know importance of daily contact between the children who are learning how to conduct group, life?

The program should include necessary matters of home life

52. Do they recognize matters related to home life which affect children directly or indirectly?
53. Are they talking with children of matters related to homelife individually or collectivelly?
54. Do employees of nursery think it important that difference of circumstances and cultural condition of each home?

Nursery should keep its discipline

55. Examination of health condition, rest, and hand washing, should be done in proper way?
56. Can you positively say "do not" and you should do this"?
57. Is their better measure to take than above mentioned word even when children broke his possession without getting any harm?
58. Corporal punishment is the last measure, can well trained nurses take any other way to treat children who make mistake?

Employee of nursery should cooperate one another in their work, as their attitude affect children directly or indirectly

59. Have employee ever thought that children's happiness is important?
60. Do each employee contribute toward nursing work, and have responsibility to perform their duty and other employee?

Nursery affect another groups of community through every effective way

61. Do they endeavor to have home member recognize that they should participate in social service when the matter ~~which~~ necessitate their help occurred?

62. Have they ever talk with every social organization agency or professional group and change opinion, in order to acquire profound knowledge for children's happiness?

Nursery is not a "motor pool" which receives children of 2. 3 . 4 years old who were brought by their parents. The nurseries relieves working mothers from their press of business and gives them necessary spare time so that they

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 113013

can have pleasure with their children. Nursery gives children a chance to play with same age groups and gives parents understandings of their child through talking with nurses who knows well of happiness of child and necessary matters concerning child.

~~Re~~ Procedure to be taken for Entering Nursery

Article 24 of the Child Welfare Law - The mayor of the city town or village shall admit the infant, preschool children or children prescribed in paragraph d of Article 39 to the day nursery for their care whose guardians are considered not to be able to give them an adequate care due to their work or the illness etc provided that in case there is unavoidable reason such as no day nursery available in the neighborhood etc, any available adequate protection available shall be given.
