DECLASSIFIED E.O. 12065 SECTION 3-402/NND 63

March 22 1951 The facilities of the H.C. are new, it is very dirty inside and there is little being done in it - Nurses are held in clinics that have no patients - Director apparently not interested in Home Visiting program - responsibility for information shifted from one person to another.
Mobile unit goes out on maternity and infant consultation every two months. Treatment other than TB and VD given to provide money for needy Health Center.

The immunizations are not done in Health Center but by private physician in Town and Villages.
Attached is H.C. pamplet - the clinics actually are not scheduled as in pamplet.

23 mar. 1951 - Conference and inspection.

The H.C. is in deplorable condition - but a new one is opening latter part of April - The Director & Chief Nurse have been there 4 years - The PH. program is at a standstill - clinics poorly attended and the arrangement does not use the nurses time properly - There is a branch office in Ozan + with one doctor, 1 Phar. 2 clerks & 2 PHN. Plans were discussed for program in new H.C. as to clinics - home program consisting of homevisits Case files - conference and having ~~challenge~~ nurses attend - keeping the H.C. clean was also stressed explaining how some thing deteriorate if not kept up 83.

★ Code - W. Ministry Grade A or C A = staff over 31 C = Under 31 Sani. and Adm enter - Good, Fair or Poor

Date	Remarks
18 July 58	Inspection visit. Old health center building to be replaced with new one this year. Administration of clinics good for health center this size, but VD follow-up appears poor. Thirty to 40% of all H.C exams are patients from Yamaga Machi, the rest come from whole district. Apparently good TB follow-up - cards sent living in many contacts. Small pox vacc. reported 90% completed - this figures out to total of 62,000. Typhoid immunization program now in progress; have completed all school children (3 doses) + about ½ of remaining total. "Using 2cc + separate needle". Prostitutes are examined in H.C, exams are listed under mass exams. Many programs appears good. all APs come with third trip referral slips. Infant "exams" mostly for ration slips. PHN visits to infants comparatively high "go to all newborns". Seventeen outside P.H. nurses carry program in their respective districts (health center nurse cover rest of district) All nurses stay in H.C in AM, 2 in PM. - need fewer in assisting clinics + more for home visits with TB as priority programs. Suggested follow up clinic days + following "guide" for clinics procedures + techniques
	Clinic Schedule - TB + Gen. - Mon - Wed - Fri - AM - (7:11 2:30) usual attendance 50-60
	Pneumo - " " " " total 68 patients

R & Brown

22 March 1951. Conference and inspection of Yatsushiro H.C.
The Health Center was fairly clean - a heavy TB program is being carried out - Director is a TB Specialist - The 18 village and town nurses attend monthly conferences at the H.C. most homevisit are done by the P.H. Nurses in the afternoon - Recommendations were offered in regard to rearranging the clinic schedule - which utilized to much of the P.H. Nurses time. The mobile unit is not activated during winter months. A Health Education program is being institude, doctor, 2 PH nurses and 2 clerk go from village to village for a period of 15 to 20 days instructing the people in Health. One such trip was been made and claimed successful - The yearly mass health examination of food handlers was completed in Feb. 1951.

★ Code - W. Ministry Grade A or C A = staff over 31, C = Under 31 Sani. and Adm criter - Good, Fair or Poor

Date	Remarks
9 Jan 51	Very small + overcrowded Kenetic Center. Manager meets 3 Clinics serves poor. - Statistics on H.C. services are low. Many cases TB cases noted - these are to school age groups primarily - Total of 547 cases TB reported - of which 496 were reported by private MDs - many of these are referred to H.C. for further exam. Percent of Streptomycin for dispensaries ("free expensive") Lowest they use penicillin for "100%" of G.C. cases - all of these are prostitutes - Clinics are poorly scheduled for efficient use of personnel Nursing clinics are held, but not on a schedule - Statistics show "other treatments" is high - urged to discourage this PHN program is poor - these nurses who assist at clinic work that assignment of 2 mos + is not to lose visits - advised accordingly on this - Tile floors in all DPA - Nurses' home visits statistics are low - last month listed only 78 - Improving records that "all TB cases" are visited by PHN - They elaborated that the 2 outside PHN do this also in their districts New H.C. building to be constructed this month - to be a Class B - Inspected architectural plans - advised re particulars - items for consideration if change - Street construction to start this month. - Inspected site - which is only 200 Tsubo in size (a 300 Tsubo lot is adjacent + it is hoped that when expansion is necessary they will be able to buy) - The site has been purchased. Visited the major re considering purchasing a larger lot. - Building is to be 180 Tsubo in size - (2 stories of 90 Tsubo each) + is a corner lot

Date	Remarks
19 July 50	Conference + inspection visit. Inspection revealed place very dirty, dusty, and overcrowded with patients, employees, records, supplies + what not. Advised improvement in sanitation + cleaning + emphasized need for all staff to help keep place clean. Expect to get new H.C bldg this year. Statistics show high clinic attendance. In STATISTICS "Mass exams" "others" exams of prostitutes is included also school child physical exam. (H.C assumes responsibility of examining school children even tho there are school doctors) In statistics under "immunizations" - only those immunizations given at H.C. are entered. "City Hall" takes care of the "traveling immunization clinics" - supplies, Doctors (private) + nurses (5 PHN + 6 C.N.) - these nurses under supervision of City Hall - but doctors are supervised by H.C. Patients come to H.C. for immunizations only when they missed it in their locality - Immunizations given last year - Small pox - 2855, BCG 3679. Nine PHN stay in H.C nearly all day to assist clinics + 3-4 do home visits all day - also statistics very low for home visits. Suggested some nurses assist at clinics in PHN. (for overflow) + discussed need for more TB home visits; TB + VD follow up program very poor - Reason given "clinic load too heavy - Right TB contacts mostly come in "their" request to H.C when case comes for exam. Discussed possibility of group teaching for home care of TB. Suggested asking help + cooperation of Kencho PHN nurses for improvement in nursing program. "PHN Guide" is available, advised following suggested procedures + techniques for clinics + home visits. Nurses do not have an office - use doctor's office or clinic rooms when possible for this. - See over for clinic schedules

DECLASSIFIED E.O. 12065

DECLASSIFIED E.O. 12065

14 July 50 (cont) Clinic Schedules — Need attendance

Chest - Daily 9-11 (last Tell 2PM) — 40

Psychos Tues-Thu 1-5PM - Total pts → 20

" (Treatment) Mon-Wed-Fri-AM — 40-50

" (Exam) Daily — 6-10

Need attend.

Maty / Daily 9-11:30 (last Tell 2PM) / Jef. — 20 / 15

Are contemplating putting in dental clinic - have budget for this.
