1. Reference is made to paragraph 1 of basic. Investigation by this team revealed that subject machines do not belong to the 31st Naval Air Arsenal, but were sold to Mitsubishi, Itami Plant prior to the end of the war for the sum of ¥ 20,440.00.

2. Since the 31st Naval Air Arsenal was defunct at the time payment was made, the money was paid direct to the War Demobilization Board in Tokyo.

3. There are no provisions in current directives to cover such cases, since the Itami Kojo of Mitsubishi is not a reparations plant and did not produce munitions.

4. Inventory sheets inclosed with basic have been verified, but prior to submission, it is requested that the records of 31st Naval Air Depot be checked to determine if the sale was bona fide and completed prior to the end of the war.
