SUBJECT: Funds Seized from German National

TO : Director of Intelligence, War Department General Staff,
Washington 25, D. C.
(ATTENTION: Chief, Security Group)

1. The files of this office show that on 25 October 1945, certain items belonging to H. Stahmer, wife of former German Ambassador to Japan, Gohra Hotel, Gohra, Japan, were impounded by agents of the 81st CIC Metropolitan Unit. The items impounded included four (4) gold bars and one (1) bar of platinum, according to our records. These items were eventually placed in the custody of the Bank of Japan.

2. On 25 September 1946 the Civil Property Custodian notified this office that H. Stahmer has in her possession a receipt for the property impounded by CIC on 25 October 1945, and that the last item on said receipt is "YEN 10,000. - in 100 Yen denominations." Civil Property Custodian further stated that the Eighth Army Custodian of the vaults of the Bank of Japan has no record of such a sum ever having been deposited in the Custody Account for SCAP. The receipt held by Stahmer is signed: "R. R. Barnes, (U. S. Army."

3. Mr. Richard R. Barnes, 724 W. 3rd Street, Pratt, Kansas, is believed to be the person who signed the receipt.

4. It is requested that Barnes be contacted for all details he can recall re:

a. The impounding of Stahmer's property

b. The receipt allegedly signed by him

c. The 10,000 Yen allegedly impounded

1. Pursuant to arrangements made between Col John Robinson, Lt Col Robt. J. Delaney, Lt Col Richard C. Zalesky and Mr. Thomas A. McCann, there has been delivered to Mr. Thomas A. McCann one thousand dollars ($1,000.00) in U. S. Treasury Certificates for a purpose of which you are cognizant.

TO: Fiscal Director, GHQ, FAR EAST COMMAND, APO 500.

1. There is nothing of record concerning the subject fund in the files of the Assistant Chief of Staff, G-2, General Headquarters, Far East Command, APO 500. Some of the desired information may possibly be obtained from numerous G-2 files which were shipped to the Records Administration Center, Adjutant General's Office, St. Louis, 20, Missouri.

2. Our search for information included a contact with Captain Stanley J. Gladys, QMC, who was Graves Registration Officer of Prison Camp No. 1 of the Philippine Islands, Cabanatuan, P.I., for a period of three months ending in September 1942, and who is presently in Tokyo, Japan, serving as a witness in the War Crimes Trials. Captain Gladys had no information in regard to the subject fund.

MEMO FOR RECORD:

Basic letter from Chief of Finance to F.D., FEC, requests information re: identity of Finance Officers account or custodian of $152.05 which was a total collected from 51 officers or E.M. who died at Cabanatuan Prison Camp in 1942.

Lt Col William D. North, M.C., C.O. of prison hospital certified that he received the fund, buried it with hospital records and that he believed G-2 of GHQ, Manila, had later recovered and disposed of the funds.

A thorough search of Philippine records in files of G-2, FEC, disclosed nothing as to subject fund. A check was also made of the files of CIS and CIC. No pertinent information was found.

SUBJECT: Intelligence Data for Fiscal Year 1949

TO: CINC Far East Command, APO 500, c/o PM, San Francisco, California
ATTENTION: Assistant Chief of Staff, G-2 (Incl. A-2, 7th Air Force)

1. The Fiscal Branch of this Division is charged with the preparation, consolidation, and defense of intelligence funds included under Project 432 of the appropriation, "Contingencies of the Army." Written and verbal defense is presented to the following:

The Budget Advisory Committee of the War Department
(Acting for the Secretary of War)
The Bureau of the Budget (Acting for the President)
The Military Appropriations Committee of Congress

2. Owing to the highly classified nature of some operations financed from Project 432, as few details as are required to obtain the necessary funds are furnished to any reviewing agency. However, certain basic factors, which are dependent upon published regulations form a basis for at least part of the total estimate. An example is the $150.00 initial civilian clothing allowance for counterintelligence enlisted investigators. Certain other investigative costs have been, and will continue to be, estimated and only defended on theoretical "yardsticks." However, in order to verify these "yardsticks," it is requested that you submit, in as great detail as is possible, the information called for on the attached sheet, direct to this Division. The information will only be used within this Division and will not be divulged to other agencies. This information may or may not be used by you in the fund requirements which will be requested of you by the Budget Officer of your Command.

3. In order to be of value in preliminary estimates for fiscal year 1949, it is requested that information reach this Division on or before 15 July 1947.

4. It is also requested that, until 1 April 1948, you keep this Division currently advised of any major changes in the figures you submit.

d. Other intelligence and counter-intelligence costs:

Incl. #2

(1) Equipment - 08

(a) Initial clothing for EM ..... $ 6,250.00

(b) Cleaning, pressing and replacement of items 7,200.00

e. Total, all items $ 77,550.00

5. With reference to the requirements itemized in the preceding paragraphs, the following information is submitted:

a. (Par. 4, a, (1): Chargeable to this item are expenses of transportation of personnel, vehicles, meals, civilian accomodations and the like with the decrease in the number of Army installations within the Philippines and the continuing need to dispatch investigators to all parts of the islands in performance of intelligence and counterintelligence missions, it is expected that expenses in this category will increase.

b. (Par. 4, a, (2)): This item covers expenses having to do with transportation involving supply and re-supply of undercover installations and other drayage charges which cannot, because of its mission, be performed by Army facilities.

c. (Par. 4, a, (3)): Like many other items listed in this data sheet, expenses estimated for this item are necessitated because of the secrecy required on intelligence and counter-intelligence missions. The amount shown here is to cover cost of all types of transmission of information by undercover means.

d. (Par. 4,a (4)): Rents and Utilities - Expenses for rations and quarters outside of a military establishment will become increasingly greater in that counter-intelligence investigators in many cases will operate undercover and away from all military installations. Past experience and current prices have indicated that under average conditions it costs approximately $225.00 per month to maintain an agent undercover in the Manila area. This figure includes cost of rent, food, transportation, supplies, and personal expenses when denied Army PX and other facilities. This item is submitted, not for permanent cover installations, but for the purpose of placing individual investigators undercover for limited periods of time in the conduct of specific missions, including agents not undercover but sent away from the Manila area to conduct investigations in areas where there are no Army installations or facilities available. It costs approximately $10.00 a day for an Agent's food and accommodations when on detached service from this headquarters as indicated above.

e. (Par. 4, a (5): Purchase of Information - The justifications for this expenditure is very complex. $22,000 of such money goes to pay confidential informants. Other money is for entertainment and gifts directly connected with the gathering of information. Official entertainment in the form of parties given for important individuals within and without the Philippine Government is maintained to continue friendly relations and foster goodwill. The value of such entertainment in the successful accomplishment of the positive intelligence and counter-intelligence missions cannot be understimated since without the cooperation and goodwill of such influential individuals, successful operations with the

limits of a foreign nation would be impossible.

f. (Par 4, a (6)): Supplies and Materials (other than civilian clothing) - The 1135th Counter-Intelligence Corps Detachment maintains its own film processing laboratory in order to facilitate the processing of pictures in connection with investigative work. In addition, for reasons of security and because of the secret and confidential nature of much of the film processed, a separate laboratory is maintained. It has become increasingly difficult to obtain the necessary photographic developing supplies in overseas theaters because of the reduction of the Armed Forces. It is, therefore, anticipated that funds will have to be expended for supplies procured through commercial sources in order to carry on this work. Special equipment requires special film and supplies not available on requisition. For example: the film laboratory has used the following non-issue processing supplies in varying amounts during the past year--film cut 4x5 triple ortho; film cut 4x5 process pan; film cut 21x4x3x4 process pan; film cut 35 mm super pan supreme; film cut 35 mm super x. It is estimated that 30 units per month of the foregoing will be utilized by the photographic laboratory.

g. (Par 6) - Employment of Civilians - It is anticipated that increased use must be made of civilian investigators for counter-intelligence activities: first, because of the obvious physical differences between Americans and Filipinos; and second, because of the limited ability and lack of experience of many of the replacements received from the Zone of Interior. Such civilian investigators, whose identity is classed as "SECRET" (i.e., no connection between them and the Army or their mode of employment can be disclosed) cannot be paid on the regular pay roll. The continuous rapid turnover of the personnel and the relatively short term of service offered by enlisted replacements limits to a great extent the quality of the investigations performed by the 1135th CIC Detachment. It is necessary to organize and utilize the services of qualified native civilian investigators who can, regardless of the turnover of enlisted personnel, provide important current information in a continuing volume.

Interpreters, translators, and guides are items of expense connected primarily with the CIC Field Office in Okinawa. However, in order to conduct a foreign press analysis, translators must be hired; and, also, reliable interpreters and translators are necessary in order to translate many foreign language documents.

Certain key clerical help, employed by the 1135th CIC Detachment, who have been in the service of the CIC since the liberation, are paid from confidential funds rather than on the civilian pay roll. This procedure is followed for two reasons. First, civilian job classifications do not have a category into which such qualified personnel, whose abilities are peculiar to the CIC only, fall. Second, the continuing possibility of a serious reduction in the civilian budget necessitates payment of such personnel from confidential funds. No estimate under the category was submitted for the fiscal year 1947 because at the time of submission of the budget estimate, it was not realized that the budget for civilian help would be cut or that certain job categories would be deleted.

DECLASSIFIED
Authority 795006
By KJ NARA Date 11/10/11

h. (Par. d) - CIC enlisted investigators are on civilian status. In accordance with letter AG 420 (26 Aug 44) OB-S-B-M, 29 Aug 1944, subject: "Civilian Clothing for Counter-Intelligence Personnel," it is necessary for them from time to time to purchase civilian type clothing, both from Quartermaster s. sales and also from civilian sources. CIC operations in a foreign country necessitates greater use of civilian apparel than in the U.S.

1. The Fiscal Branch of this Division is charged with the preparation, consolidation and defense of intelligence funds included under Project 432 of the appropriation "Contingencies of the Army." Written and verbal defense is presented to the following:

The Budget Advisory Committee of the War Department
(Acting for the Secretary of War)
The Bureau of the Budget (Acting for the President)
The Military Appropriations Committees of Congress

2. Owing to the highly classified nature of some operations financed from Project 432, as few details as are required to obtain the necessary funds are furnished to any reviewing agency. However, certain basic factors, which are dependent upon published regulations form a basis for at least part of the total estimate. An example is the $150.00 initial civilian clothing allowance for counterintelligence enlisted investigators. Certain other investigative costs have been, and will continue to be, estimated and only defended on theoretical "yardsticks." However, in order to verify these "yardsticks," it is requested that you submit, in as great detail as is possible, the information called for on the attached sheet, direct to this Division. The information will only be used within this Division and will not be divulged to other agencies. This information may or may not be used by you in the fund requirements which will be requested of you by the Budget Officer of your Command.

3. In order to be of value in preliminary estimates for fiscal year 1949, it is requested that information reach this Division on or before 15 July 1947.

4. It is also requested that, until 1 April 1948, you keep this Division currently advised of any major changes in the figures you submit.
