The State of Iowa

THE Indians who first roamed these prairies called it Iowa, which is Indian for "This is the Place" or "The Beautiful Land." Iowa completed 100 years of statehood on December 28, 1946. It was the twenty-ninth state admitted to the Union and was the first free state west of the Mississippi River. There were 100,000 residents when Iowa became a state. Now we have 2,621,073.

During the first 160 years following the voyage of Joliet and Marquette down the Mississippi River in 1673, the land that is now Iowa was a favorite hunting and trapping ground for a number of tribes of Indians. Adventurers, miners, fur buyers, and traders, followed the worn trails along the valleys and over the prairies.

Part of Louisiana Purchase

Iowa was a part of the vast Province of Louisiana purchased by the United States from France. Other states had been formed in this region, but Iowa was the first state carved out and established with soil forever dedicated to human freedom. The probationary time as a territory was for eight and a half years and it had been only 13 years since the first legal settlements. Mining of lead had been engaged in at Dubuque since 1788, by favor of the Indians, and there had been feeble efforts at colonization along the river under Spanish grants, but not until 1833, following the Black Hawk war, did the home seekers secure title to their holdings.

Spanish and French monarchs had vague claims of jurisdiction over the region, but the standard of neither country had ever been set up permanently in any part of what is now Iowa. The United States closed out the French claim by purchase in 1803, after which local authority shifted frequently; namely, Indiana territory given jurisdiction, 1804; Louisiana territory organized with St. Louis capitol, 1805; Iowa included in Missouri territory, 1812; when Missouri became a state, Iowa left without government, 1821; Territory of Michigan with capitol at Detroit given jurisdiction, 1834; became the major part of Wisconsin territory, 1836; organized and named Territory of Iowa, 1838; statehood first authorized, 1845; organized as a state, 1846.

Indians Were Here First

Iowa had been the home for many centuries of American red men, who succeeded an unknown race of pottery makers and mound builders, but few Indians were seen by the first explorers. A small band of friendly Indians entertained Joliet and Marquette at a camp on the Des Moines River near its mouth. A century later, the Sac and Fox federation of two Algonquin tribes had villages along the Mississippi River, where they cultivated land and had permanent homes. They had migrated originally from the Atlantic coast and before settling in Iowa had united for defense. When Illinois became a state, they were driven from their homes east of the river, and their lands bought or confiscated. Chief Black Hawk, the military leader of the Sac tribe, made heroic resistance, but was taken to Washington and kept a prisoner for a time.

The Sac and Fox federation had been chief occupant of the land along the Mississippi valley, and in 1833, following the Black Hawk war, a large part of their land in Iowa was taken by the United States and opened for settlement. The Black Hawk purchase, through which the Iowa River flows, was the beginning of Iowa, and by later acquisitions the entire state was opened for the use of the pioneers.

While the Sac and Fox federation claimed the eastern and central part of Iowa, there were other tribes having rights and making use of

the hunting grounds. The Iowa tribe wandered all over the state. The Winnebagoes were given land in northeast Iowa, but later were moved north. The Pottawattamies lived along the Missouri river, and were associated with the Otoes, Omahas and others. The Sioux tribe, of the Dakotah nation, claimed all northern Iowa and not until long after statehood was their title extinguished. The Mesquakie Indians, now living at Tama, are a branch of the Fox tribe, who returned after removal to the south.

Forts Were Established

The United States maintained several forts in Iowa or along the borders. Fort Madison, in Lee county, was maintained for a time after 1808. Fort Armstrong was placed on Rock Island in 1816. Fort Crawford had been maintained at Prairie due Chien many years. Fort Atkinson was located on the "neutral strip" and Fort Croghan was on the Missouri. In 1834, Fort Des Moines was built at Montrose, and the second Fort Des Moines was located at the Raccoon fork of the Des Moines in 1843. Fort Clark was maintained for a brief time at Fort Dodge. The present Fort Des Moines was established as a cavalry post at the state capital in 1900.

The site for the capital city of Iowa was first studied by Gen. Stephen W. Kearny, then a colonel in command of the first Fort Des Moines, who in 1835 brought a company of dragoons to the Raccoon forks looking for a good place to establish a military post. He was accompanied by Capt. Nathan Boone, son of Daniel Boone, and by Lieut. Albert M. Lea, who published a description of central Iowa and made a map on which he named this the "Iowa district." From this the territory formed soon afterwards took its name.

People Demanded Statehood

Although there were only 22,859 people in the twenty-two counties west of the Mississippi River when Iowa was set off as a territory, agitation for statehood commenced almost at once. One obstacle was the unwillingness of Congress, as then constituted, to admit any free soil state without also adding a slave state, so that the slave states would at all times have control of the senate. Several states had been so paired off for admission. The bill authorizing admission of Iowa in 1845 also provided for admission of Florida, one free and one slave state.

The people of Iowa and Congress disagreed as to the proper boundaries for Iowa, and Iowa twice rejected what was offered. Congress proposed that the western one-third of the state should not be included, but that all of southeastern Minnesota should be a part of Iowa. The Iowa people finally got the boundaries as they are now and a year and a half after admission was authorized, the final act of admission was passed and the state proclaimed, December 28, 1846.

When the territory was organized, Brevet Brig. Gen. Henry Atkinson was named territorial governor of Iowa, but declined the appointment and Robert Lucas was named and assumed the office. General Lucas had been governor of Ohio and had fought in the American wars. When the state was organized, Ansel Briggs of Jackson county, had been elected to be the first governor of the state. The general assembly met and enacted laws before the final act of admission was completed at the national capital.

Part of Wisconsin Territory

When the Territory of Wisconsin was established by act of Congress April 20, 1836, Belmont, located in Lafayette county, became its first capital. The first session of the territorial Legislative Assembly was held in a frame building built for the purpose. Prior to the convening of the second session of the Wisconsin Territorial Legislative Assembly on November 6, 1837, the capital was moved to Burlington, in the Iowa District. By act of Congress approved by President Van Buren June 12, 1838, the Territory of Iowa was created for that portion of Wisconsin Territory west of the Mississippi, and Burlington became its capital,

remaining so until removal to Iowa City in 1841, which became the first state capital in 1846, and so remained until 1857 when removed to Des Moines. The capitol building at Iowa City was turned over to the State University, and a temporary brick statehouse occupied at Des Moines while the present state capitol was being built.

The state constitution under which Iowa had entered the Union and which had been hastily prepared in 1844 and remodeled in 1846, was discarded and a new constitution adopted in 1857, which has since been several times amended. Slavery was forbidden from the state, but voting rights were reserved for white persons until 1868. Liberal school legislation was enacted at the outset. Elections were held every year until the biennial election system was adopted in 1904.

Some Iowa Slogans

Iowa's contribution to the building of the Washington monument at the seat of government was a stone, on which was lettered this inscription penned by Lt. Gov. Enoch W. Eastman: "Iowa, her affections like the rivers of her borders, flow to an inseparable union."

The State Seal displays a banner, and on the ribbons is the state motto: "Our liberties we prize and our rights we will maintain."

Nicknamed the "Hawkeye State," by the press and adopted by the people, the slogan by Sidney A. Foster, "In all that is good, Iowa affords the best," is more true today than when it was first spoken.

Politics, Too

Iowa was strongly Democratic in politics as a territory and for the first eight years of the state. In 1854 the Whigs elected the governor, who helped the free soil element organize the Republican party, which dominated for 35 years. In 1890 a Democrat became governor, because of dissensions over policy as to alcoholic drinks. Then followed eleven Republican administrations, when in 1933 the Democrats again seated two governors, who were followed by six Republicans to the present time. In 1907 the law required that all party nominations be made at primary elections.

By 1860 the state had 674,000 people, and for war that came soon after furnished 76,000 volunteers. In the period 1860 to 1870, the population increased to 1,194,000 after which the growth was slower.

The land area of the state is 55,586 square miles, or 35,575,040 acres, and the water surface 561 square miles. The maximum elevation of the state above sea level is about 1,600 feet.

Good Schools, Roads, Lakes

Iowa's literacy is high—99.2%. There are almost 7,200 public schools, including kindergartens, elementary schools, junior high schools, senior high schools, and a small number of adult education classes. There are 23 junior colleges—16 municipally operated and seven privately operated.

There are three state owned colleges, two special schools, one for the blind and one for the deaf. There are 22 colleges of higher learning, maintained by various denominations.

There are 339 public libraries, almost 500 newspapers, 65 radio stations and 12 TV stations which keep the public well informed. And 24 artificial lakes, 72 natural lakes and 137 public hunting grounds furnish recreation centers to thousands each year.

Included in the highways of Iowa are approximately 9,441 miles maintained by the state, known as primary highways; 13,700 miles of county trunk line highways and in excess of 80,000 miles of county roads. The two latter named road systems are maintained by the counties in which the highways are located. Each county, however, receives a share of the funds collected from state gasoline taxes.

Iowa has an average of more surfaced roads per square miles of its area than any other state. Surfaced roads of the state are about 45,000 miles. Surfacing connects every city, town and village with the general road system.

The Capitol Building

The cornerstone of this impressive-looking building was laid on September 29, 1873, in the twenty-seventh year of Iowa's statehood.

The towering central dome is covered with 22-carat gold leaf and the four smaller domes have dotted lines of gold, like seam marks, adding further attractiveness to the structure.

On the first floor of the Capitol are the offices of the Governor, Secretary of State, Auditor, Treasurer, Attorney General, Secretary of Agriculture and the Supreme Court Chambers.

On the second floor will be found the law library and the House Chamber to the north and the Senate Chamber to the south.

Iowa State Capitol

By Ora Williams

Former Curator, State Department of History and Archives

HE administrative, legislative and judicial functions of the state of Iowa are centralized in an imposing and substantial state capitol occupying a prominent place in a spacious park on a hill commanding the capital city of Des Moines.

In its architectural features, its lines of simple beauty, its convenient interior arrangement, and in its decoration and adornment, the Iowa state capitol compares favorably with those of other states. It has served well the needs of the state as a seat of government for more than half of the state's first century of statehood. The surrounding grounds, or park, provide a setting which in extent and attractiveness is unequaled. The state has an investment in this plant for the transaction of public business of over seven million dollars.

The governor and other elective state officials have offices in the capitol, on the first or main floor, conveniently grouped around two central halls in the form of a cross, the offices amply, but not luxuriantly, furnished with modern equipment. On this floor sits the highest judicial tribunal of the state, in the supreme court chambers, which harmonize with the dignity and importance of that body. The legislative chambers are on the second floor, while in the basement and on the third floor there are many business offices and work rooms. The law library, and many needed committee rooms, are on the second floor. The speaker of the house and the lieutenant governor have offices near the large halls for the senate and the house.

Design of the Building

The architectural design of the capitol, rectangular in form, with great windows and high ceilings, follows the traditional pattern of the nineteenth century planning for public buildings, a modified and refined Romanesque style which gives the impression of strength and dignity combined with utility, both severely plain and handsomely decorated.

The commanding feature of the capitol is the central towering dome. It is constructed of steel and stone and is entirely covered with pure gold, which glistening in the sunlight can be seen from far distant places. The dome is surmounted by a lookout lantern that may be reached by long and winding stairs, and it terminates in a finial that is 275 feet above the ground floor. The rotunda beneath the dome is 67 feet in diameter. Four smaller domes of simple design rise from the four corners of the capitol. The pediment over the front entrance discloses a fine piece of allegorical sculpture.

The exterior is entirely of stone, of several kinds and differing qualities, with elaborate columns and handsomely designed cornices and capitals. The substructure is of a dark and coarse-grained attractive stone quarried in Iowa. This is topped by a heavy course of vari-colored and beautifully marked granite cut from boulders scattered by glacial action over the prairies of the state. The superstructure, or main part of the building, is of a sandstone of a delicate buff color, fine-grained in texture, secured from Missouri in quarries along the Mississippi River. The approaches to the capitol are by four sets of steps mainly of granite.

Native Woods Used

The interior finish of the capitol is of native wood—cherry, walnut, catalpa, oak and butternut. There is much fine wood carving, and the supreme court bench is especially handsome as to material and workmanship. The main floors are of tile. Wainscoting and shelving are of marble, American and foreign, and some of this is very rare and unusual. There are imposing columns in the rotunda of fine sandstone, and on the second floor of granite, and in the legislative chambers of fabricated stone.

In size the capitol is 364 feet north and south by 247 wide. The cross-halls meet in the rotunda, with a wide opening from the basement floor to the base of the dome. The house chamber is 79x91.4 feet in size, with ceiling 47.9 feet high; the senate chamber is 58x91.4 feet and 41.9 to the ceiling. Each member of the General Assembly is provided with a separate desk, 108 in the house and 50 in the senate, and the house is equipped with an electric vote recording system.

Central Location Chosen

The history of the state capitol, the choosing of the location, the construction thereof, and provision for a proper setting and surroundings, covers the whole period of statehood. Almost every step taken during the state's first century encountered opposition from selfish or sectional interests, or from pretended reasons of economy, and this was true as to the proper site near the center of the state, the size and character of the building and securing the necessary ground for the plant and equipment in which to transact the business of the state.

The wisdom of a central location in the state for the seat of government was recognized by the First General Assembly, and before the state was two months old, a resolution was adopted looking to that end. A commission was authorized to choose a site and lay out a capital city, which was done, but the location did not meet with approval and the project was abandoned. Eight years later in 1855 the Fifth General Assembly, despite fierce opposition, by legislative act directed the location of the state capitol near the Raccoon forks of the Des Moines river. The precise place for the building was entrusted to a commission and a site was selected half way between the abandoned old Fort Des Moines and the scene of the last Indian agency on "Keokuk's Prairie." This place was decided upon because of the generous donation by citizens of Des Moines of a nine-acre tract and several buildings for a temporary capital which was in use for nearly thirty years.

By proclamation of Governor Grimes in 1857 the city of Des Moines became the state capital, and near the close of that year the books and papers of the state were brought from Iowa City, the old territorial and first state capital.

Fifteen Years in Building

The state capitol was in process of building fifteen years. The Thirteenth General Assembly, in 1870, created a commission which selected the design, commenced work and in November, 1871, laid the cornerstone. The plan adopted was a modified composite of several designs submitted in competition. Messrs. Bell & Hackney were employed as supervising architects. Material for the foundation was purchased from Iowa quarries, as directed by law; but the stone proved unsubstantial and nearly all had to be removed.

The first building commission was discharged and a second was authorized to take charge of construction. Work proceeded under direction of a supervisor and foreman, a working force was employed by the day,

and material and equipment were purchased on bids or by contract. The legislature made small appropriations every two years and the work proceeded as rapidly as funds and material would permit.

Cornerstone in 1873

The cornerstone was relaid by the second commission on September 29, 1873, and it contains manuscripts, books, coins, money and historical material. It is simply inscribed "Iowa, A. D. 1873."

Construction had been so nearly completed that the legislative halls were occupied and many of the state offices when dedication was made in 1884. The temporary capitol was in use, however, for the supreme court and some other offices; but in 1886 the supreme court chambers were occupied. The work of the commission was brought to a close June 30, 1886. There was never a hint of misuse of public funds in connection with the construction, and a final audit of the \$3,296,256 expended showed a net error of only \$3.77 in computation of bills and accounts.

In 1902, in order to modernize the capitol and make needed changes and repairs, a third capitol commission was created and appropriations made for the work. While this work proceeded, there occurred a disastrous fire in the north wing on January 4, 1904, which ruined the house chamber and damaged other offices. The commission restored the building, purchased paintings and mosaics, and redecorated the entire interior. The original decorations are still in the Senate.

Historical Building and Library

The Historical Memorial and Art Building is 260x110 feet in size and was begun in 1896, at first as a home for the Aldrich collection of historical matter. It is occupied by the Historical Department, the State Traveling Library, the State Medical Library and offices of the Library trustees. The State Law Library is located on the second floor, west wing, of the capitol.

Battle Flags—Lunettes—Statutes

The battle flags carried by the Iowa regiments in various wars are preserved in niches on the main floor—Civil War 36; Spanish-American War 13; First World War 26. In the west hall is a fine plaque done by Nellie V. Walker in commemoration of the work of Iowa women in the fight for civic and political equality. In the south hall is a monster photograph in colors, showing the grand review of Iowa troops on return from France.

Twelve statutes, high within the rotunda, beginning north of the library door, represent History, Science, Law, Fame, Art, Industry, Peace, Commerce, Agriculture, Victory, Truth and Justice.

Eight lunettes, or half-moon-shaped paintings surrounding the rotunda are the work of Kenyon Cox, a famous American artist, who was paid \$8,000 for them. They are entitled: Hunting, Herding, Agriculture, The Forge, Commerce, Education, Science, Art. They are allegorical and indicate the progress of civilization.

Over the main stairway is the large painting "Westward," and on the floor above the picture are six mosaics, designed by Frederick Dielman of New York and made in Venice of very small pieces of colored stone, permanent in color. The subjects represented are Defense, Charities, the Executive, the Legislative, the Judiciary and Education. These cost the state \$10,000 and are among the finest and largest in America.

SOLDIERS' AND SAILORS' MONUMENT
Located south of the Capitol Building

The Iowa State Capitol Park

HE limited area of the capitol grounds became a major political issue in 1914 in Governor George W. Clarke's administration. Looking to the future it was apparent that expansion would have to come to provide space for office buildings. The thirty-fifth General Assembly set up a tax to raise \$3,000,000 to purchase lots, buildings and residences to clear the way for expansion to 93 acres. The land was landscaped, drives were put in and a system of lighting was installed to enhance the beauty of the capitol.

A new state office building was completed and fully occupied in 1952. A tunnel connecting the state house and the building was also constructed. In the expansion program to centralize the offices of the state, the International Harvester building was purchased and its five floors were completely remodeled. The old school building on the northwest corner of the grounds was razed. The former home for governors north of the capitol was fitted for training of disabled persons. And the Amos Hiatt school building was better fitted for offices for the Commerce Commission. The impressive and well equipped historical building on Grand avenue, is fully described in their departmental section in this book.

Monuments Erected on Grounds

The most striking monument is the granite shaft rising 145 feet, erected to the memory of the soldiers and sailors of the Civil War. The heroic bronze figure "Victory" is predominant, while at the base there are four groups representing different branches of the military or naval service, and numerous historical plaques and medallion portraits of typical soldiers. The original design was by Harriet A. Ketcham and work was commenced in 1894. A small and appropriate memorial to Christopher Columbus, erected by Iowa citizens of Italian ancestry, stands near by.

General Greenville Dodge erected a monument honoring Iowa's long-time Senator William B. Allison. This is an allegorical design of heroic dimensions, depicting civic duties in the public service, and it is encompassed by a fountain.

Monument to Pioneers

West of the capitol, is an impressive bronze statuary group depicting "The Pioneer." The cannon and mortar on the grounds are of Civil war days. The grave of Wilson A. Scott, one of those who gave the state the capitol grounds, is near where he lived and is appropriately marked. A bronze cannon taken in the Spanish-American war, and the headpiece of the Battleship Iowa, are near the historical building. A granite block dedicated to the soldiers of the Spanish-American war also stands on the plaza east of the capitol.

In 1950, the fine record of Iowa citizens in war bond drives was rewarded with the presentation of a replica of the Liberty Bell, and it is properly stationed just across the road west from the new office building. Boy Scouts presented a replica in miniature of the Statue of Liberty and it is erected between Grand Avenue and the parking area east of the capitol building. A stone erected by the W.R.C. in honor of Crocker Post No. 12 Department of Iowa, was set in 1944.

The magnificent golden dome of the capitol, one of the largest in the world, is a landmark that can be seen for many miles. The capitol, the state historical building, and the capitol park are visited annually by thousands of people of Iowa and tourists from other states. On the grounds there are several very large native trees, and the grounds are further adorned by many shrubs, trees and flowers.

Governor's Office—Paintings—Quotations

The outer office of the Governor is impressive with desks and furnishings which have come down through the years. The chandelier centering the ceiling was imported in 1927 from Czechoslovakia, at a cost of \$800. It weighs 500 pounds, has 500 octagonal crystal teardrops, 18 crystal bells with clappers and is lighted by 65 fifty-watt bulbs.

The hand-frescoed ceiling has the original colors, as the artists used water colors in painting freshly plastered surfaces before the plaster dried. Thus the pigments of the water color penetrated the plaster, making a permanent and lasting surface which is preserved by careful cleaning.

The woodwork, mantel-mirror and marble paneling carry out the atmosphere of quiet elegance. A huge desk, used by Governors in the past, add to the dignity of this outer office. In an adjoining room is an unusually large grandfather's clock, noticeably of special interest to visitors.

The Governor's private office, with a handsome desk, elegant furnishings and a fireplace surmounted by a large mantel-mirror bespeaks impressively the dignity of that high office.

Description of Painting "Westward"

The great painting entitled "Westward" is an idealized representation of the coming of the people who made Iowa. Edwin H. Blashfield, the artist, wrote of it:

"The main idea of the picture is a symbolical presentation of the Pioneers led by the spirits of Civilization and Enlightenment to the conquest by cultivation of the Great West. Considered pictorially the canvas shows a prairie schooner drawn by oxen across the prairie. The family ride upon the wagon or walk at its side. Behind them and seen through the growth of stalks at the right come crowding the other pioneers and later men. In the air and before the wagon are floating four female figures; one holds the shield with the arms of the State of Iowa upon it; one holds a book symbolizing enlightenment; two others carry a basket and scatter the seeds which are symbolical of the change from wilderness to plowed fields and gardens that shall come over the prairie. Behind the wagon and also floating in the air, two female figures hold respectively a model of a stationary steam engine and of an electric dynamo to suggest the forces which come with the later men.

"In the right hand corner of the picture melons, pumpkins, etc., among which stand a farmer and a girl, suggest that here is the fringe of cultivation and the beginning of the prairie. At the left a buffalo skull rather emphasizes this suggestion."

Many competent critics have pronounced the picture one of the great American murals. The artist was paid \$10,000 for his work. The state received it in 1904.

At the top of the staircase on the south wall is a painting of a basket of corn by Floyd V. Brackney. He was paid \$1,000. This picture was the center of the Iowa exhibit at the Panama-Pacific exposition at San Francisco, 1915.

Famous Quotations

Above the grand stairway, facing the large "Westward," are quotations. On the south side is one by Patrick Henry—"No free Government or the blessings of Liberty can be preserved to any people but by a firm adherence to Justice, Moderation, Temperance, Frugality and Virtue and by a frequent recurrence to fundamental principles."

On the north side is one by G. W. Curtis—"Courageous confidence in the intelligence of the community is the sure sign of leadership and success."

Underneath it is one by Solon—"The ideal state—that in which an injury done to the least of its citizens is an injury done to all."

Around the rotunda on the frieze above the columns is the famous Abraham Lincoln quotation—"That government of the people, by the people, for the people, shall not perish from the earth."

Above the door of the law library appears William Pitts' saying, "Where Law ends Tyranny begins."

CAPITAL IMPROVEMENTS IN OFFICE BUILDINGS

In order to get various state buildings centralized, a number of major projects have been completed within the past few years, chief of which was the new office building, erected east of the capitol.

There are five departments off the capitol grounds—the Banking Department, located in Central Bank Building and the Iowa Development Commission, housed in the same building. The Employment Security Commission is at 114 West 11th Street. The Aeronautics Commission headquarters are at the airport south of the city and the Highway Commission is at Ames.

New State Office Building

The six-story and basement office building, 120 by 246 feet, was fully occupied on April 24, 1952, when the Public Instruction department moved from the capitol. The Social Welfare department was the first to move in on September 1, 1951.

The 49th General Assembly appropriated \$1,650,000.00, available July 1, 1941, to start the building fund. Contracting firms doing the work were the Kucharo Construction Company, with the general building contract at \$2,805,757.40; Johnson Electric Company, \$493,955.57; A. J. Allen, plumbing and heating and pump, \$282,362.30; Iowa Sheet Metal Company, \$475,747.01; Seibert Floor Company, \$90,756.77; Montgomery Elevator Company, \$180,928.00; Artistic Venetian Blind Company, \$7,475.00; Herring Hall Marvin Safe Company, \$31,330.00; Diebold, Inc., \$44,347.91; Hockenbergl Fixture Company, \$62,045.34; Graham Sign Company, \$337.50; Brown Engineering Co., heating plant, \$54,639.40; Johns-Manville Sales Corp., \$174,553.80; Tinsley, Higgins, Lighter, architects, \$231,656.49. Total cost was \$4,935,892.40.

The Tunnel

The tunnel, connecting the statehouse with the new office building was completed early in 1953. The cost items follow:

Lovejoy Construction Co., \$78,507.68; Johnson Electric Co., \$9,828.00; bronze tablet, \$85.00; Tinsley, Higgins, Lighter, architects, \$4,421.03. Total cost was \$92,841.71.

Office and Lab Building

The International Harvester building, on the southwest corner of the statehouse grounds, was bought in 1945. Remodeling was started in 1949. Costs are as follows: International Harvester \$155,000.00; Westinghouse Electric Corp., elevators \$47,159.00; general remodeling contract to Lovejoy Construction Co. \$125,347.00; Van Dyck Plumbing and Heating \$97,750.00; Towner Electric Co., \$67,741.00; Johns-Manville for partitions \$48,975.00. Total cost was \$541,972.00.

STATE OFFICE BUILDING

Occupied in September, 1951. Total cost of building and furnishings, \$4,935,892.45. New tunnel connects with capitol. Cost \$92,841.71.

OFFICE AND LAB BUILDING AT EAST SEVENTH AND COURT
Bought and remodeled at a cost of \$541,972.

THE GREAT SEAL OF IOWA

The Great Seal of the State of Iowa was adopted in 1847, by act of the First General Assembly. It is retained in the custody of and under the control of the governor.

THE STATE BANNER

On March 29, 1921, the Thirty-ninth General Assembly adopted a resolution designating a design for a flag to be known as the "State Banner."

The banner was designed by the "Iowa Society of the Daughters of the American Revolution," and consists of three vertical stripes of blue, white and red, with the blue stripe nearest the staff and the white stripe in the center depicting a spreading eagle bearing in its beak blue streamers on which is inscribed in white letters the state motto, "Our liberties we prize and our rights we will maintain." The word "Iowa" in red letters is just below the streamers.

THE WILD ROSE, THE STATE FLOWER OF IOWA

The Wild Rose was officially designated as the flower of the state by the Twenty-sixth General Assembly in extraordinary session. The resolution was adopted May 7, 1897.

THE EASTERN GOLDFINCH, THE STATE BIRD OF IOWA

The Forty-fifth General Assembly, by a concurrent resolution adopted March 22, 1933, designated the Eastern Goldfinch (*Spinus tristis trist-is*), as the official Iowa bird. It is generally designated as a wild canary.

THE HOME FOR IOWA GOVERNORS

By action of the 52nd General Assembly, Iowa now provides a home for her governors. It was first occupied as the official residence on January 13, 1949. It is located at 2900 Grand Avenue.

In 1878, the Seventeenth General Assembly created a board of railroad commissioners consisting of three members to be appointed by the governor and confirmed by the executive council. In 1888, the Twenty-second General Assembly passed a law making the commissioners elective. In 1937, the Forty-seventh General Assembly, by House File 133, changed the name from "board of railroad commissioners" to "Iowa State Commerce Commission."

The powers and duties of the Iowa state commerce commission are: to generally supervise all railroads in the state, both steam and electric, except street railroads; to inquire into any neglect or violation of the laws of the state by any railroad corporation doing business therein; to make examinations and inspections of the physical condition, conduct and management of such railroads and report their condition to said companies; to stop and prevent railroad companies, under certain circumstances, from running or passing their trains over unsafe bridges; to adjudge changes in station houses, rolling stock and rates of fare; to pass on necessity for spur tracks to be constructed and maintained not exceeding three miles in length to an existing industry under terms and conditions approved by the commission as set out by law; to make reasonable rules for the crossing of steam and interurban railways and to require, when necessary, interlocking switches at railroad crossings; to make report on first Monday in December in each year to the governor of its doings for the preceding year accompanied with appropriate suggestions and recommendations; to receive, tabulate and report upon the annual reports filed with it by railroad companies; to examine any of the books, papers or documents of any such corporation; to examine under oath employees of such corporation; to issue subpoenas, administer oaths and compel the attendance of witnesses; to make and fix maximum schedules of freight rates for such corporations, such schedules to be deemed reasonable until disapproved; to examine into rates

in force, upon complaint that the rate charged by a railroad company, or that the maximum rates fixed by the commission are unreasonably high or discriminating, and to fix the rate again, which must not be higher than any rate established by law, such decision of the commission being prima facie evidence that the rate so made is a reasonable maximum rate; to bring suits to enforce its orders; to inquire into the management of the business of such carriers and to obtain from them full and complete information necessary to enable the commissioners to carry out the objects of the law; to hear, investigate and determine all complaints alleging unreasonable rates, unjust discrimination, undue preference, violation of the long and short haul clause, or other infractions of the commission law, and make proper orders thereupon; to establish joint through rates, upon application, over two or more connecting lines; and to have the same authority over express companies as the act confers concerning railroads.

Before a railroad company may appropriate coal, coke or oil received for shipment, it must first secure the written consent of the commerce commission.

Before any railroad company may condemn lands for additional depot grounds, or for straightening or relocating track, the permission of the commission must be obtained. Interlocking switches may be placed at grade railroad crossings or draw bridges, thus obviating the necessity of stopping trains before passing over such grade crossings or draw bridges, but before the interlocking switch may be used consent of the commission must be obtained.

The Thirty-fifth General Assembly gave to the commission the power to grant to individuals or corporations "engaged in the manufacture, sale or distribution for sale of electric current for light, power or heating purposes, the right within the state, except in cities and towns, to erect and maintain poles, wires, towers, fixtures and other necessary construction for the purpose of conducting electricity for lighting, power and heating purposes, over, along and across any public lands, highways or streams or the land of any person or persons, and to acquire the necessary interests in real estate therefor." It also provided that transmission lines proceeding under the provisions of the law should be subject to "such reasonable regulations as the commission may from time to time prescribe."

The commission is directed by an act of the Thirty-ninth General Assembly to "undertake and carry forward such investigation and preparation as shall be necessary to properly represent the interests of the state in connection with the valuation of the property of common carriers now being conducted by the interstate commerce commission."

An act of the Forty-sixth General Assembly amended by the Forty-eighth General Assembly provides the operators of grain elevators must be licensed in order to receive grain for storage. It also makes provisions for using warehouse receipts issued by the warehouseman on his own products and on products for others as collateral for financing loans. The act also provides for storage of other agricultural products, and products principally consumed on farms, in warehouses of types different from that of grain elevators which cover such products as wool, canned goods, sugar, seed, commercial feed, etc.

The Fortieth General Assembly conferred on the commission the power to issue certificates authorizing motor carriers to operate over the public highways of the state, upon a showing that the proposed service would promote "the public convenience" and authorized the board to prescribe rules and regulations for the operation of motor vehicles used by such carriers "for the protection and safety of the public." The Forty-first General Assembly revised the laws on this subject, but left their administration with the railroad commission.

The Forty-third General Assembly provided for the supervision or

regulation by the commission of persons operating motor trucks principally used for the public transportation of freight for compensation, not operating over regular routes nor between fixed termini.

The Forty-fourth General Assembly provided that pipe lines shall be subject to regulation by the board under a permit issued by the board.

The Fifty-third General Assembly provided for the supervision or regulation by the Commission of persons operating motor trucks used for transportation of freight for compensation under contract.

COMMERCE COUNSEL

The Thirty-fourth General Assembly created the office of commerce counsel, to be appointed by the Iowa state commerce commission for a term of four years, subject to confirmation by the senate. The law provides that the counsel may appoint assistants, subject to the approval of the commissioners.

The duties of the office briefly are as follows: legal advisor of the Iowa state commerce commission; investigate and present matters with reference to intrastate rates, and prosecute same before the Iowa state commerce commission or before any court to which same may be taken; investigate on his own motion, or at request of the state commerce commission, all matters involving interstate rates in which the people of Iowa are interested or affected, and present same to the interstate commerce commission and prosecute to final determination; act as attorney and counsel for and represent the Iowa state commerce commission in all courts of this state or the United States, in which the validity of any order of the state commerce commission is in issue; to institute and prosecute in any of the courts any and all suits necessary for proper enforcement of any rule or order of the said Iowa state commerce commission or make defense therein wherever said rule or order may be questioned or involved.

Iowa Cares for Children and Veterans

The state board of control has jurisdiction over 14 state institutions, of which six are for the mentally unfit and three are for criminal offenders. The remaining five are divided as follows: two training schools, designated as correctional institutions; one for boys, at Eldora; one for girls, at Mitchellville; two orphanages, at Toledo and Davenport; and the soldiers' home at Marshalltown.

Training School for Girls, Mitchellville

The training school for girls was established in 1868, to be located on property in Lucas county, leased from a Society of Friends, or Quakers. The first admission was April, 1873. In 1880 the present training school, at Mitchellville, was located, taking over the Lucas county plant.

Girls between the ages of ten and eighteen are admitted, on commitment from district, juvenile and municipal courts or on transfer from other institutions by the board of control.

Under competent instruction and supervision, girls are taken through the twelfth grade of regular public school work, and are taught all necessary branches of home economics.

Farming and gardening are carried on, with good results.

The present superintendent is Mrs. Marie L. Carter.

Juvenile Home, Toledo

The state maintains a juvenile home, or orphanage, at Toledo. Dependent, destitute, homeless and neglected children are admitted and given care until they are 21 years of age, most of them being placed in good private homes, under the supervision of women state agents.

The buildings are substantial and kept in a home manner as far as possible. Generally the children are happy and contented and make good progress in their school work.

The present superintendent is L. H. Ladd.

Iowa Annie Wittenmyer Home, Davenport

The second state orphanage is known as the Iowa Annie Wittenmyer Home and is located at Davenport.

The first child was admitted July 4, 1864. Dependent, neglected and abandoned children are admitted upon court order or personal application of parent or guardian, approved by court or board of supervisors.

The children are given scholastic and industrial advantages, with moving pictures, all manner of games and sports, picnics and the like, to make life more pleasant.

The present superintendent is Leon Lyle.

Iowa Soldiers' Home, Marshalltown

The board of control also manages the Iowa Soldiers' home at Marshalltown, founded in 1887.

Life is lived pleasantly by the soldiers, with plenty of amusements, moving pictures, billiards and pool, cards, horseshoe pitching and all manner of games and light sports. The nearby river permits fishing and boating and families are kept together by the presence of the veterans' wives. The men and women take frequent furloughs, to visit relatives and friends. Upon their return they seem more than ever satisfied.

The present commandant is George R. White.

Training School for Boys, Eldora

The training school for boys at Eldora was opened March 31, 1868. This school is for incorrigible and delinquent boys, sent there upon court order. The school has farms upon which are learned, by practical work, the various phases of farming and gardening. In addition there are industrial shops, tailor, blacksmith, automobile, shoe, printing, sewing room, bakery, machine shop, plumbing, carpenter, mason and painting.

Competent schools are presided over by efficient teachers. Athletics, debates, home talent plays, a fine band, moving pictures, a good library and other opportunities are provided to improve mind and body.

The present superintendent is Hollis L. Miles.

Iowa Penal Institutions

Under Supervision of Board of Control.

State Penitentiary at Fort Madison

The prison at Fort Madison is more than 100 years old. It was established in 1839, the year after Iowa became a territory, and seven years before it became a state.

Under the able guidance of the board of control and recent wardens, the Fort Madison penitentiary has achieved high rank among the nation's penal institutions. Outbreaks have been few and escapes infrequent. A parole system enables the men of highest intelligence and best records to work on the prison farms, away from the enclosure, and even to go to the state's various other institutions under the board of control (state hospitals and schools) to work and live on an honor system.

The inmates as far as is possible are kept at work, according to their terms of sentence, many being fitted for industries at which they can support themselves after release. Each prisoner is interviewed, upon admittance, by the chaplain and the warden, in an effort to see what work he should be put to and what can best be done to reclaim him.

The inmates have recreation and amusement opportunities. Headphone radios are installed in the cells and good programs are furnished from a central control. A good library is well patronized; athletics and moving pictures make life more bearable. Baseball, kittenball, tennis, boxing, wrestling, horseshoe pitching, football and basketball give ample opportunity to most of the men to keep in good physical trim.

Under the law all condemned prisoners are excluded at Fort Madison. The present warden is P. A. Lainsen.

Men's Reformatory at Anamosa

The men's reformatory is located at Anamosa, where the first prisoner was admitted on May 13, 1873. Originally intended for first and youthful offenders, and the criminally insane, within recent years prisoners have been transferred from Fort Madison as conditions demand.

Grain and livestock farming are carried on here on a large scale. A large modern canning plant is operated here as an industry. Most of the vegetables for the other state institutions are canned here. Other industries include the manufacture of soap, clothing, automobile number plates, road signs and cheese.

The prisoners are kept at work, according to the sentences imposed on them, but they have ample recreation and amusement facilities, including various sports and games, radio programs and moving pictures. Part of the reformatory yard, or enclosure, is flooded during the winter, permitting ice skating.

The warden of the men's reformatory is Ray Purcell.

Women's Reformatory at Rockwell City

Women over 18 years old, convicted of offenses which carry a term of more than 30 days, are sent to the women's reformatory at Rockwell City. The first prisoner was received on May 2, 1918.

The fact that many short-term offenders are sent to Rockwell City, instead of being kept in county jails, makes the per capita cost of maintenance large. The women are given an opportunity to attend school and have various entertainments and amusements, including movies, dances, lectures and recitals, home talent plays and picnics.

The superintendent is Mrs. Elda M. Kyles.

Iowa Cares for Mental and Needy Cases

Iowa Mental Institutions are administered by the State Board of Control.

On February 27, 1861, the first patient was received at the state hospital at Mount Pleasant, generally said to be the first institution of its kind west of the Mississippi river.

For the past 49 years Iowa has had four institutions to care for its mentally afflicted, those at Independence, Clarinda and Cherokee having been added. These are now known as Mental Health Institutes.

Four Hospitals for Mental Cases

In order of their establishment Independence comes second, the first patient having been admitted there on May 1, 1873; Clarinda is third, December 13, 1888; Cherokee, fourth, August 18, 1902.

Two Homes for Feeble-Minded

The reports of these four state hospitals do not begin to tell the entire story of what Iowa is doing for its mentally deficient and unfit. The state board of control has jurisdiction over two other institutions belonging to this same general classification: The Glenwood State school at Glenwood, which received its first patient on September 1, 1867; and the hospital for epileptics and school for feeble-minded at Woodward, which received its first patient on September 3, 1917.

Each of these six institutions is open to general visitors within certain prescribed hours each day, and parents at any time. To the limit of funds available they are well kept, sanitary and attractive, the buildings at each place being surrounded by large grounds, nicely landscaped and properly tended. While the atmosphere at all is depressing, entertainment is arranged for as many as can mentally enjoy it.

The present superintendents are as follows: Mount Pleasant, Dr. W. B. Brown; Independence, D. L. Kyer; Clarinda, Dr. Karl Catlin; Cherokee, Willard C. Brinegar; Glenwood, Dr. V. J. Meyer; and Woodward, Dr. Grace M. Sawyer, superintendent.

PUBLIC ASSISTANCE

State-wide monthly aid to dependent persons in Iowa is provided under the programs of Old Age Assistance, Aid to Dependent Children and Aid to the Blind. Through these programs cash grants are provided needy persons residing outside of state or county institutions. As of July, 1951, there were 48,920 aged, 5,171 dependent children beneficiaries and 1,258 blind receiving financial help under the programs. The cost of monthly aid to such persons amounted to \$35,824,206 for the 12 months ending June 30, 1951. Of this amount, 52.1 per cent was provided from Federal funds, 43.3 per cent from state funds and 4.6 per cent from county funds.

In Iowa 19 out of each 100 persons age 65 years or over, are being provided assistance. Over 3,000 of these recipients are being cared for in private nursing homes. The Legislature, through the State Department of Social Welfare, has effectively provided for many of the special needs of the aged citizen.

IOWA EMPLOYMENT SECURITY AGENCY

Administered by

IOWA EMPLOYMENT SECURITY COMMISSIONOffices at 112-116 Eleventh Street
Des Moines

f. **CLAIRE BLODGETT**, Linn County, Chairman, Republican, Employee Representative; term expires June 30, 1957.

CLAUDE M. STANLEY, Adams County, Republican, Employer Representative; term expires June 30, 1959.

FRANK L. ENGEL, Scott County, Democrat, Public Representative, term expires June 30, 1961.

ROBERT O. WYNNE, Administrative Assistant.

GEORGE W. MOORE, Director Iowa State Employment Service.

Under Chapter 96, Code of Iowa, the Iowa Employment Security Commission administers a program designed to assist workers to gain a more profitable and satisfactory employment status and to provide employers with satisfactory workers. The program is planned to assist unemployed workers in finding suitable work and to enable employers to stabilize their employment and to secure workers skilled in the type of work offered.

The Employment Security Law levies a tax upon employer payrolls of four or more workers in commercial and industrial employment for the purpose of providing a fund from which weekly benefits are paid to workers who are unemployed and who meet eligibility requirements.

Each employer's contribution rate is based upon his individual employment record. If his employment record is favorable his contribution rate will be lower than the standard rate. The plan is intended to encourage employers to provide steady employment and to avoid lay-offs.

The Iowa payroll tax rate is known as one of the lowest in the United States. For several years past about one-half of all covered employers of the state have so stabilized their employment that they are not required to pay any contribution tax to the state, at the same time a reserve amounting to more than \$107,000,000 has accumulated.

Workers who are employed by employers liable under the law build up wage credits, and upon becoming unemployed, if found eligible and no suitable work is available, are paid weekly benefits based upon the amount of their earnings but not to exceed \$30 per week and for not more than 24 weeks in a twelve-month period.

The Iowa State Employment Service was established in 1915 by legislative action. In 1933 the Congress enacted the Wagner-Peyser Act establishing the United States Employment Service, thus providing a nation-wide employment service with local offices in every state. With the enactment of the Iowa Employment Security Law in 1936, administrative control of the Iowa State Employment Service was given to the Iowa Employment Security Commission. Thirty-four full-time local employment service offices serve every section of Iowa.

Under terms of Title IV of the Federal Readjustment Act the State Employment Service renders an effective job placement and employ-

ment counseling service to veterans, providing them maximum job opportunities in the field of gainful employment.

The Employment Security Commission, under terms of an agreement with the U. S. Secretary of Labor, is authorized to administer Title IV of the Veterans Readjustment Act of 1952, which provides unemployment compensation to veterans of service on or after June 27, 1950, at the rate of \$30 per week not in excess of a total of 26 weeks. Determinations are made in accordance with provisions of the Iowa Employment Security Law insofar as the state law is applicable.

Under terms of an amendment to Title XV of the Federal Social Security law the Iowa Employment Security Commission administers the program providing unemployment insurance to federal civilian employees, in accordance with provisions of Chapter 96, Code of Iowa.

Under Chapter 97, Code of Iowa, the Commission has the responsibility of carrying out the provisions of the Iowa Old Age and Survivors Insurance law, enacted by the Fifty-first Iowa General Assembly, to insure the rights of all public employees retired under or otherwise affected by this recently repealed statute.

The Commission, through its system of local employment offices, receives and processes all claims for unemployment insurance under the Employment Security Law, finds jobs for unemployed workers, gives effective job counseling and offers a testing service to determine proficiency and natural fitness.

The Commission administers Chapter 97B, Code of Iowa, known as the Iowa Public Employees Retirement law, receiving and processing all claims and collecting contributions from both employees and employers.

Under terms of the State Supplemental Retirement law, Chapter 97B, Code of Iowa, Fifty-fifth General Assembly, the Commission receives applications, collects contributions and transacts all business relating thereto, through the facilities of its system of local employment service offices throughout the state.

The Employment Security Commission administers Chapter 97C, Code of Iowa, which together with amendments to Title II of the Federal Social Security Act, extends to employees of the State and its political subdivisions the protection and benefits afforded under the Federal Social Security Act. This entails the withholding of a two percent tax upon the wages of all employees, collecting of a like amount from public employers, accounting for all funds and transacting other business.

Working under the executive council, this department handles local and long distance calls for the Capitol building, State Office building,

Historical building, Old Amos Hiatt building and Office and Laboratory building.

STATE BOARD OF ENGINEERING EXAMINERS

(Office located in the office of Secretary of the Executive Council)

Term four years. Appointed by the Governor.

LOWELL O. STEWART, Ames; term expires June 30, 1959.

C. P. LEWELLEN, Cedar Rapids; term expires June 30, 1959.

JOSEPH M. DEAN, Des Moines; term expires June 30, 1957.

ELMER H. BORG, Des Moines; term expires June 30, 1957.

JOHN W. WIERSMA, Grundy Center, term expires June 30, 1959.

W. GRANT CUNNINGHAM, Executive Council, Secretary.

The state board of engineering examiners was created by the Thirty-eighth General Assembly in 1919. No person can practice professional engineering or land surveying without first being registered with this board. The board meets from time to time and conducts examinations of applicants for registration.

The law provides that the membership of the board shall consist of five members who shall be appointed by the governor. Each member of the board shall be a professional engineer at least thirty-five years of age and shall have been a resident of this state for at least three years immediately preceding his appointment and shall have had at least ten years active practice preceding his appointment and during such time shall have charge of engineering work as principal or assistant for at least two years, and shall be a member in good standing of a recognized state or national engineering society. No two members of said board shall be from the same branch of the profession of engineering.

CAR DISPATCHER DEPARTMENT

A bill known as Dispatcher of State Automobiles was passed by the Forty-eighth General Assembly in 1939. Under this bill, the authority to assign all state-owned motor vehicles to state officers and employees, and state offices, departments, bureaus and commissions, was vested in the Governor and the Executive Council. This law went into effect July 1, 1939. Upon the appointment of a State Car Dispatcher, steps were taken to place all state cars under the control of this department, except the State Highway Commission and the Board of Education (University of Iowa, Iowa State College, Iowa State Teachers' College, etc.), which was not directly under the jurisdiction of this department. In 1941 the Forty-ninth General Assembly amended the original law so that the maintenance for all cars and trucks was paid by the State Car Dispatcher. The cost of maintenance, plus the administrative costs and depreciation, were charged back to each department according to the actual amount paid out for the operation of each motor vehicle. Rules

and regulations were adopted, presented to the Executive Council, and approved.

In 1954, this department had 673 cars and 278 trucks, making a total of 951 units. The total for 1953 was 827 units. The policy of eliminating the operation of high-mileage personally-owned cars increased the fleet considerably. In 1953, 507 new motor vehicles were purchased by this division of the Executive Council, and 317 used units were sold. During 1954, 220 new units were purchased and 190 used units were sold.

The Car Dispatcher Department maintains a record of miles driven, cost per mile of each unit, and the overall operation cost. All purchases of cars and trucks are made by bid, and with the approval of the Executive Council. The assignment of all motor vehicles must have also the same approval. For 1953, the operating cost for passenger cars was \$.0311 per mile, and for trucks \$.0699 per mile. For 1954, the cost per mile for cars was \$.0316 per mile, and \$.0679 for trucks.

IOWA CENTENNIAL MEMORIAL FOUNDATION

The responsibility of the Iowa Centennial Memorial Commission is to administer the \$200,000 fund realized from the sale of memorial half dollars during the Iowa centennial year, 1947. The commission is authorized to spend the income from this fund for awards and scholarships. In 1951 the "Iowa award" was created and presented to Herbert Hoover. More than a score of scholarships to Iowa colleges have been granted.

The commission was set up in 1949 by Governor Robert D. Blue.

The membership of the commission includes all former governors, four "citizen" members, and several state officials, who serve ex officio. The last include the governor, who is chairman of the commission; president of the state board of regents, who is secretary; treasurer, who is treasurer; and attorney general, who is attorney. The "citizen" members are Mrs. Mary Humeston, Albia; Mrs. Helen Mitchell, Mason City; Ralph Evans, Davenport; and John M. Henry, Des Moines.

GEOLOGICAL SURVEY

Geological Board ex officio

LEO A. HOEGH, Governor.

CHET B. AKERS, Auditor of State.

VIRGIL M. HANCHER, President, State University of Iowa.

JAMES H. HILTON, President, Iowa State College.

R. W. GETCHELL, President, Iowa Academy of Science.

H. GARLAND HERSHEY, Director and State Geologist, Iowa City, appointed by the geological board to serve during the pleasure of the board.

It is the duty of the Geological Survey to collect, interpret, and report information on basic geologic features of the state. These include surface and underground water supplies, coal, gypsum, sand and gravel, ceramic clay and shale, limestone and dolomite, raw materials for the manufacture of cement, ore deposits, and other mineral resources. Studies are continuing on the oil and gas possibilities in Iowa, particularly in the southwestern portion of the state, and the geological sections of the oil and gas law are being administered. Geological studies of dam sites are made on some of the flood control and recreational projects of Federal and state agencies, and reports on the mineral resources of such reservoir areas are frequently prepared.

The Survey is the repository for all basic geologic data obtained in the State.

Collection and dissemination of data on water wells, water levels, stream flow and sediment loads, lake levels, and other hydraulic data are accomplished in cooperation with the Water Resources Division of the U. S. Geological Survey. Topographic mapping of the state, by quadrangles approximately 220 square miles in area, is being conducted in cooperation with the Topographic Division of the Federal Geological Survey. A special investigation of the lead and zinc possibilities in Iowa, particularly in the Dubuque area, has been initiated in cooperation with the Geologic Division of the U. S. Geological Survey.

As a part of the result of its work, the Survey has published 38 volumes of annual reports and accompanying scientific papers. These publications include special reports and maps covering the geology and mineral production of all but six of the 99 counties, as well as special reports on mineral production of all sorts. There are also three technical papers on Iowa coal and two water-supply bulletins. Geological and mineral resources maps of the state have been prepared. Other summaries of specialized geological studies have been published in geological periodicals. These published reports, together with the large file of unpublished data obtained during more than half a century of continued study, serve as a reliable basis for up-to-the minute reports to Federal, state and municipal agencies and to private concerns and individuals who request and need the available information on water supply and other mineral resources of Iowa. Information, advice and direct assistance in the increasing development of large water supplies are freely given to the limit of funds and personnel.

Communicable and Preventable Diseases

Preventable diseases are by their very nature of vital concern to the community and the state. Reports of various infectious diseases are received daily from physicians and health officers throughout the state. These reports are surveyed and tabulated so as to make possible a study by weeks and months of the current prevalence of disease as compared with the preceding year and period of years. Field investigations are made upon request of local health officers or other officials, to determine the nature and extent of outbreaks and to assist with control measures. The department through articles, reports, literature, talks, correspondence and graphic presentations, aims to inform the public about disease prevention.

The staff of the Divisions includes a veterinarian and several nurses, all with special training in their respective fields of public health.

The Public Health Veterinarian is responsible for much of the work relating to diseases of animals transmissible to man. The Public Health Nurses work with the Tuberculosis Control, the Venereal Disease and the Preventable Disease programs. These staff members cooperate at all times with local physicians and health officers in the problems of communicable disease control, in the conduct of special surveys and in any measures that may be necessary to prevent the spread of infection either on a local or state basis.

Maternal and Child Health

The activities of this division are designed to make known to those concerned, the health needs of mothers and children and how they should and can be met. Personnel specifically trained in public health aspects of pediatrics, obstetrics, dentistry, nutrition and nursing direct these activities. Educational programs and techniques are developed to reach the lay people through the family physician and dentist and through public health visiting and school nursing services.

Public Health Nursing

The department maintains a division of public health nursing which provides a whole-time supervisory service for public health nurses and an advisory service for boards employing nurses and for associations or committees interested in public health nursing.

The public health nurse:

1. Helps to secure early medical diagnosis and treatment for the sick.

2. Renders or secures nursing care of the sick, teaches through demonstration and supervises care given by relatives and attendants.
3. Assists the family to carry out medical, sanitary and social procedures for the prevention of disease and the promotion of health.
4. Co-operates in facilitating rehabilitation of those who have been ill or injured.
5. Helps to secure adjustment of social conditions which affect health.
6. Provides information regarding sound public health nursing practices to the community and cooperates actively with community agencies in the improvement of health conditions.

Public Health Engineering

Preventing spread of disease by application of environmental sanitation—that is the goal of public health engineering. Engineering activities include inspection of public water supplies, swimming pools, and waste disposal systems, with review of plans for new projects. The division administers the water pollution law requiring the installation of pollution control facilities. It has general supervision over administration of the housing law and amends the state plumbing code with an advisory committee. It assists local boards of health in establishing control of milk supplies, insects and rodents, private water supplies, sewage disposal systems, and other health hazards. It advises industries on prevention of occupational disease and other measures pertaining to industrial hygiene.

Vital Statistics

The division is charged with the collection, recording and filing reports of births, deaths, marriages and divorces. Statistical studies and analysis of these records are made and the results of these studies are released for the information of the public. The division supervises the work of the local registrars of vital statistics and cooperates closely with the National Office of Vital Statistics, Public Health Service, Washington, D. C.

The division issues certified copies of any of the records it has on file, for a fee of fifty cents.

If you were born in Iowa and your birth record is not on file, you can place it on file by completing a delayed birth certificate, which you may file with the county clerk in the county where you were born, or send it direct to this office.

Division of Cancer Control

The increasing number of deaths from cancer has made it a matter of public concern. In the absence of specific preventive agents the control of cancer depends largely upon an alert and competent profession and especially an informal and responsive public.

Thus, the Division conducts frequent Cancer Institutes for physicians in various areas of the state wherein doctors are kept informed as to the latest developments in this field.

At the same time through lectures, literature, movies, etc., the public is made conscious of the importance of prompt attention to the earliest even insignificant signs of the disease.

In the nine tumor clinics strategically located any citizen is given an opportunity for expert diagnosis and the collective judgment of a group of physicians as to adequate treatment measures.

Public Health Education

Public health education supplements the tools, skills and learning of the medical, dental, engineering and nursing professions in the preven-

tion and control of disease. Their information is translated into many forms in order to reach the public with impact. Public health education uses motion pictures, film strips, news releases, radio program, speakers, posters, exhibits, pamphlets and other media to tell the health story.

Division of Local Health Services

The correlation and extension of the activities of the various divisions of the state department, making their services obtainable to the entire population of the state, through the various district and county health services.

Hospital Services

This division is charged with the duty of carrying out the provisions of the hospital survey and construction act (public law 725) passed by the 79th Congress. The 52nd General Assembly authorized the state department of health to carry out the provisions of the hospital survey and construction act (public law 725), to survey and inventory the hospitals and related facilities in the state. Also the licensing of all hospitals and nursing homes.

Start and Progress of State Highway Commission

The first law creating a state highway commission in Iowa was adopted by the General Assembly in 1904. That law simply stated that the Iowa State college should act as a state highway commission. Acting under said law, the state board of education appointed Dean Anson Marston of the engineering division, and Dean Charles F. Curtiss of the agricultural department of Iowa State college as the directors of the commission. Thomas H. MacDonald, U. S. commissioner of public roads, was appointed by the directors as secretary and engineer for the commission. The duties of the commission at that time were to make investigations and studies of highway conditions and to advise with local authorities with respect to highway improvements.

This organization continued until 1913, when the Thirty-fifth General Assembly passed an act creating a state highway commission of three members and separated said commission from Iowa State college.

In 1927 the General Assembly passed an act which now appears as chapter 307 of the Code of 1954, creating a state highway commission of five members, all to be appointed by the governor, not more than three of whom could be from the same political party.

The law of 1927 placed the primary road system under the direct control and supervision of the state highway commission. Thomas H. MacDonald, who became secretary and engineer of the highway commission in 1904, was designated as chief engineer of the highway commission in 1913 and continued in that capacity until 1919, when he resigned and F. R. White was appointed to that position. Mr. White retired from the position of chief engineer in 1952 and Mr. E. F. Koch was appointed as chief engineer in October of that year. Mr. Koch resigned on March 23, 1954, and Mr. Butter was appointed chief engineer on April 1, 1954.

The highway commission's duties are fourfold:

First: Construction and maintenance of primary roads;

Second: Construction of farm-to-market roads;

Third: General supervision of secondary roads;

Fourth: Engineering assistance to other departments.

The commission has entire charge of and responsibility for all construction and maintenance work on the primary road system. It prepares the necessary surveys, plans and specifications for primary road

improvements, lets the necessary contracts and supervises the construction work. It has charge, for the state of Iowa, of the expenditure of all federal aid road funds allotted to this state.

Outline of State Highway Commission Work

All maintenance work on the primary road system is under the supervision of the commission.

The secondary roads (all rural roads not included in the primary road system and not classified as state institutional roads under chapter 308, Code 1954) are under the supervision of the county board of supervisors in their respective counties. However, the law places on the highway commission certain duties and responsibilities in connection with such secondary road work.

The secondary roads in each county are classified into two groups or systems—the farm-to-market road system which includes about 35,000 miles of main traveled secondary roads, and the local secondary road system which includes about 58,000 miles. Changes or modifications in the farm-to-market road system are initiated by the county board and are subject to approval by the state highway commission. It is the duty of the county to initiate projects for the construction of farm-to-market roads, to make surveys and prepare plans for the improvement of farm-to-market roads, and submit these plans to the state highway commission for approval. It is the duty of the state highway commission to advertise for bids, let construction contracts and give general supervision to the construction of farm-to-market road projects.

The law also places on the highway commission certain duties and responsibilities in connection with secondary road work paid for by the county from the county secondary road construction and maintenance funds. Secondary road construction programs proposed by the county boards must receive the commission's approval. Plans prepared by the county engineers for secondary road improvements must be submitted to the state highway commission for approval. Contracts awarded by the boards of supervisors for secondary road construction work involving a cost of \$2,000.00 per mile or more, or more than \$5,000.00 in the aggregate, or more than \$2,000.00 for any one bridge or culvert, must be approved by the state highway commission before becoming effective.

In case two adjacent counties are unable to agree on any county line road or bridge construction of maintenance matter, either board may appeal to the state highway commission to determine said controversy.

The commission, on request, renders engineering assistance to various other state departments. This includes the making of surveys and preparation of plans and general supervision of construction and maintenance of public highways upon or adjacent to lands belonging to the state at the various educational, charitable and penal institutions, and at state parks, engineering assistance to the executive council on street improvements on and adjacent to the capitol grounds, assistance to the national guard on projects in connection with the national guard camp, and various other technical matters which may come before such other state departments.

State Historical Activities

The State Historical department organized in 1892 by Charles Aldrich. State Historical building erected in 1889 and 1908, reorganized as Iowa state department of history and archives in 1939, activities described as follows:

The dominant motif of the Iowa state department of history and archives is preserving the history of Iowa—its development from the

era of many thousand of years ago, the roaming upon its prairies by the aborigines, the enjoyment here by the red man in his hunting exploits, the discovery and mining of its lead and coal deposits, the coming of the Indian trader and the pioneer, the early community settlements, the establishment of schools and churches, the organization as a territory and later admission to statehood, the building of roads and the coming of the railroads, the progress of its people and its institutions—all a glorious panorama of its history from the beginning up to the present.

In achieving this high purpose a major objective has been the gathering of historical source material—the substance from which history is written. The Iowa Historical department was founded in 1892, and quickly became an important link in the chain of educational and cultural activities of the state, occupying a field then only partially developed for systematically collecting and preserving at the seat of government the priceless materials and records of Iowa development. From small beginnings the department has grown in sixty years to fill and overflow the beautiful building erected on the state capitol grounds at an original cost of about \$375,000, and in later years to acquire by purchase the Kasson Memorial building, situated at a short distance, as a temporary cataloging workshop for the immense accumulation of archival material for ultimate placement in a permanent and suitable building to be erected upon space reserved for that purpose upon the capitol grounds.

Here is a unique and unrivaled institution in which all Iowa has pride and its people visit continually, open every day, in which may be found the available Iowa materials that show how things came to be as they are, how the people lived at various stages of their progress, the quality of their thinking and their achievements here in Iowa—the classroom equipment for the practical study of life from prehistoric, primitive and pioneering times to the later days of community building.

In the museums are found a wide range of exhibits. Here are shown the tools, utensils and implements used by Iowa pioneers to conquer the wilderness and convert a hunter's paradise into a land of unparalleled productivity and industry; also the tepees and wickiups of the Indians, their canoes, weapons, pipes, domestic utensils, clothing, beadwork, industries used in their home life; a fine museum of natural history, specimens constituting a visual education in the story of Iowa's birds, animals, insects, flowers, trees, soil, geology and the prehistoric preparatory time. Specimens of mounted animals and birds, color slides for projectors, are provided upon application for display by local schools over the state, as well as other material of educational character. Of our extinct birds, a pair of passenger pigeons is exhibited. These were once so plentiful in Iowa that 5,000 birds were killed in Scott and Clinton Counties in two days. Of Iowa's rare birds, a sandhill crane, a pair of pileated woodpeckers, an eared grebe, upland plovers, prairie chickens and ruffed grouse are shown. In the mammal collection a pair of buffalo and a young calf are excellent specimens. Moose, elk and a fawn are included. Approximately one hundred thousand visitors annually avail themselves of the opportunities the department provides.

Iowa's geologic column is represented by rock samples from every formation of the state, including also an exhibit of fossil crinoids from the Mississippi era. In the fossil coal plant series are shown some of the finest specimens in the United States. These plants were growing here two hundred and fifty million years ago.

An unrivaled collection of autograph letters and papers of authors, explorers and statesmen of the nation, representing the lifetime efforts as a collector of Charles Aldrich, the founder of the institution, became the foundation upon which has been built a manuscript division, more largely devoted to filings of the writings, addresses, documents and correspondence of eminent Iowans, supplying valuable unrecorded chapters in state history, which serves in a useful way the entire state, and is visited by research writers and consulted by many others from distant places.

The State Historical library contributes to the inestimable value of the institution. On its shelves are now upwards of 45,000 books about Iowa, or by Iowa authors, Iowa state and county histories, family records and references for research in genealogy, declared by students to be one of the finest genealogical libraries in the middle west, in constant use by people from all parts of this and other states.

From varied sources were obtained files of Iowa daily and weekly newspapers, and since the establishment of the department a systematic building of a newspaper division has been accomplished. Its catalog contains listing of the permanent files of the papers from every county, beginning with the Dubuque Visitor in 1836 and other publications of territorial days down to the present, containing graphic history of Iowa people and events as recorded by the faithful and talented editors and reporters of the century just closed. These papers are consulted almost daily by those seeking information and establishing historic and factual data regarding local and state happenings. There is no comparable source of authentic information available.

The oil portraits of distinguished Iowans, including the outstanding men and women who have contributed to Hawkeye culture, progress and prosperity, are hung in the magnificent gallery. There appear the three governors of the Territory of Iowa, most of the governors of the state, justices of the supreme court, cabinet officers from Iowa, and other eminent citizens, including writers, editors and outstanding members of the clergy.

The War History division contains some of the most precious documents held in preservation for future generations. The record of Iowa in the Civil War, the Spanish-American war, and in all other military activities since, is extensive, and includes not only many manuscripts, reports and official publications, but the enlistment and service papers of the Iowa volunteers and of members of the national guard—all rich in reminders and record of Iowa's part in five great wars. The more recent work of collecting for the state the details of the history of everything done in and by Iowa in World War II has produced a vast accumulation of valuable material. Thousands of portraits and intimate home and service records of those who have made the supreme sacrifice have been assembled; and the state, local and federal agencies have cooperated with this department to make the details as complete as they are reliable.

In the cataloging and classification of historical material, leaflets and folders embracing varied subjects have been prepared and are available upon request. In the Annals of Iowa, the historical magazine issued quarterly, appear interpretative studies and articles upon the state and its people. In the more than half century it has been published the Annals has been drawing upon the experiences of men who participated in or witnessed at close range the developments of which they write, being primarily a source book of Iowa history. As such a repository it has made available to the people of the state a vast amount of accurate data that otherwise would not have been accessible.

The Iowa public archives, or state records, comprise literally millions of items, such as census records from territorial days, the record books and correspondence files of state officers with papers and documents on which official action was had, legislative filings from territorial period so far as preserved. These records are in daily demand and use for reference and more especially in legal procedure for verification of names and for other facts. Only such material as may have administrative, legal or historical value is received for archival files, but the accumulation through the years has become so voluminous that it is taxing the facilities now available. However, through the cataloging system now employed the state archivists are more closely integrating the activities of this division with the current filing systems of the state departments contributing the records, which now constitute a back file of departmental papers and records arranged for immediate inspection at any time.

Appointed Insurance Commissioner October 12, 1955.

The office of commissioner of insurance, as the executive head of the insurance department of Iowa, was created by chapter 146 of the laws of the Thirty-fifth General Assembly (1913) and the first commissioner took office July 1, 1914. Previous to that time, the supervision of insurance had been under the direction of the auditor of state.

The commissioner of insurance has general control, supervision, and direction over all insurance business transacted in the state, and is charged with the responsibility of enforcing all the laws of the state relating to insurance.

Under the law, all securities in which the reserves of Iowa life insurance companies are invested are required to be deposited with the commissioner and complete records are kept showing each item on deposit at all times. The amount of approved securities representing these and other incidental deposits in the hands of the commissioner on September 1, 1955 was in excess of \$1,559,878,000.

The commissioner supervises all transactions relating to the organization, reorganization, liquidation and dissolution of domestic insurance corporations. He supervises the sale in the state of all stock or other evidences of interest either by domestic or foreign insurance companies. He is the statutory receiver in the event of liquidation of any Iowa insurance company.

All foreign companies, as well as all local companies, must, before engaging in the insurance business in this state, obtain a certificate of authority from the commissioner of insurance. These certificates expire annually on April 1, and action is taken on their renewals after analysis of complete financial statements filed covering the condition of the company as of the previous year end. All insurance agents must likewise obtain individual licenses to solicit business. In 1955 there were 845 insurance companies authorized to do business in the state, and approximately 80,000 individual agents' licenses were issued.

A state statute requires insurance companies to file all rates with the insurance commissioner for approval, and a rating division has been set up within the insurance department to handle rate filings together with supporting statistical information.

The commissioner conducts examination of all domestic insurance organizations every three years. He may also make an examination of any foreign insurance company authorized or seeking to be authorized to do business within the state. All policy forms used by any company within the state are required to be approved by the department.

The commissioner is a member of the national association of insurance commissioners composed of the insurance supervising officials of each of the various states and meets with and cooperates with this organization in the many matters that arise involving the common interest of the separate states in insurance matters.

Securities Department

The state securities laws, designed to protect the Iowa investing public through regulation of securities dealers and qualification of securities offered for sale, are administered by the commissioner of insurance.

The commissioner also has jurisdiction over the sale of stock on the installment plan and sale of memberships or certificates of membership entitling the holder thereof to purchase merchandise, materials or services on a discount or cost-plus basis.

Purpose of the Iowa Development Commission

As the state's executive promotional agency, the Iowa Development Commission has two major undertakings:

- To gain for Iowa the economic benefits of industrial expansion;
- To publicize Iowa's accomplishments, resources and possibilities, in many fields including agriculture, industry and recreation.

Iowa seeks new and expanding industry as a source of additional job opportunities to hold our surplus labor supply; additional payrolls, to diversify sources of income and create new markets for Iowa business and services; new tax revenues which support city, county and state government.

Iowa's advantages as a location for new plants are carried to manufacturing executives through nation-wide advertising in management publications, through brochures and in personal calls by the Commission's industrial director, who travels widely. This work is coordinated with activities of local Chambers of Commerce.

Publicity and statistics which spotlight Iowa are supplied to all channels where they can be effectively used. Appropriate information and photographs are provided to publishers of books, periodicals and travel guides. Current data, in readable form, is given regularly to newspapers, radio and television stations and trade publications throughout the state and nation. Monthly summaries are compiled for libraries, schools, public speakers and others who carry information to the general public.

Iowa's agricultural prowess figures prominently in state publicity, as a noteworthy achievement in itself, and as a steady source of raw materials and of markets which are attractive to new businesses.

Encouraging tourists to spend time in Iowa, the Development Commission publishes a pocket-size brochure on Iowa, and a pamphlet on unusual events in Iowa. These are distributed by mail to 25,000 tourists and school children who write, requesting such information, each year.

A statistical file centered on Iowa is maintained. Market research studies and specific data are available on request.

Commission members give their time as a public service.

The law requires that one of the inspectors shall be a woman who shall give special attention to places employing women and children.

Since July of 1949 the Bureau has dropped its publication "Iowa Employment Survey" because of the duplication with the report of the Iowa Employment Security Commission. STATE BOARD OF PUBLIC INSTRUCTION

The Fifty-fifth General Assembly established a State Board of Public Instruction. There are nine members, one from each congressional district; one appointed by the Governor, who is to be approved by the Senate. They started functioning January 1, 1954. They named a new Superintendent of Public Instruction who assumed office January 1, 1955. The State Board of Public Instruction also constitutes the Board for Vocational Education and the Board of Educational Examiners.

The term is for six years. They shall choose their own president and vice president for a term of two years.

**Duties of State Department of Public Safety**

The Iowa State Department of Public Safety was created by the Forty-eighth General Assembly in 1939 by consolidating several bureaus and divisions under one executive designated as Commissioner of Public Safety. One of the obvious purposes was to facilitate the co-operation and coordination of the law enforcement agencies of counties, cities and towns. In addition, the department directs the law enforcement activities of the State Highway Safety Patrol and functions in the fields of safety education, fire protection, criminal investigation, police radio communications, vehicle registration, driver and dealer licensing and other related activities affecting public safety. The activities of the department's various sections are as follows:

Division of Highway Safety Patrol

DAVID G. HERRICK, Cass county, chief. Salary \$6,000.

The Iowa Highway Safety Patrol was created by the Forty-sixth General Assembly with a personnel of 53 men. This authorized strength was increased to 128 by the Forty-seventh General Assembly; to 160 by the Fifty-first General Assembly; and to 225 by the Fifty-fourth General Assembly. (1951).

The original duties of the Highway Patrol were to enforce all provisions of the motor vehicle laws relating to the regulation of motor vehicles and laws of the road, with power to arrest without warrant any person or persons committing or attempting to commit within their presence or view a breach of peace or other violation of the law. The Forty-eighth General Assembly broadened the scope of the patrol's powers by providing that they shall have and exercise all the powers of any peace officer

of the state. There are, however, certain restrictions on the exercise of their general powers. Patrol duties and restrictions are stated in full in Chapter 80, Code of Iowa, 1954.

Besides enforcing motor vehicle laws and exercising police powers, the members of the Highway Patrol conduct hearings in connection with revocation of operators' and chauffeurs' licenses, and investigate serious accidents occurring upon the highways of the state. Drivers' licenses are issued by uniformed examiners.

Activity of the Highway Patrol has increased steadily in recent years. In 1954, patrolmen traveled 9,071,398 miles and contacted 189,172 drivers on the highways. Of these drivers contacted, 19,392 were motorists who had car trouble or other distress and were assisted by the patrol.

Patrolmen during 1954 issued 23,816 memorandums of warning to drivers. These warnings do not immediately penalize the motorist, but they are marked on his driving record. A series of warnings to a particular driver within a reasonable period may be basis for suspension of his license.

Notifications of illegal or faulty equipment were issued by the patrol in 102,121 cases. Summons tickets issued during the year totaled 39,052 in number. Fines collected in cases where summonses were issued amounted to \$629,486.41. Stolen property valued at a total of \$152,125.00 was recovered, and another \$215,360.00 of privately owned property was saved from destruction by fire, as a result of patrol activity.

Arrests in O.M.V.I. (operating motor vehicle while intoxicated) cases numbered 1,268 during 1954, and 4,791 police demand orders were served. Average patrol strength during the year was 212.

Division of Criminal Investigation

R. W. NEBERGALL, Story County, Chief. Salary \$6,000.

The division of criminal investigation is a specialized bureau which cooperates with and supplements the work of local officers of the State of Iowa. It is not a local policing unit but serves the law enforcement officers of counties and municipalities as a central agency to which all may come for help on difficult criminal investigations. It is also charged with responsibility for certain matters involving the internal security of the State of Iowa. In addition, it is called upon to investigate matters involved in the functioning of state government and cooperates with the various elective and appointive officers of the state in all such matters.

There are three main subdivisions of the division of criminal investigation; namely, the investigative section, the identification section and the technical laboratory.

The investigative section is concerned with the work of the special agents of the division. Upon receiving a request for aid from a duly authorized law enforcement officer, a special agent is given a definite assignment by Chief Nebergall to assist that officer in the investigation of the specific case. Daily reports are required from all special agents and these are carefully studied and reviewed with the special agent, usually before an arrest is made. Investigations conducted by special agents of this division range from cases involving murder, rape, robbery, extortion, bank robbery, etc., on down through the entire category of major crime.

In the identification section is a huge storehouse of information. Here are kept the fingerprints of over 2,000,000 criminals, a civilian fingerprint file for personal identification, files of modus operandi of various classes of criminals including their photographs, a criminal record file which reflects in chronological order each arrest and sentence of the subject

and a card index file including the name and all aliases known to have been used by the subject.

The fingerprint files in this division constitute the clearing house of criminal records for the State of Iowa. Under Iowa law sheriffs and police departments are required to fingerprint those arrested for commission of specified types of law violations and to forward copies of such fingerprints to this division. Fingerprints have long been recognized as the only infallible method of personal identification known to man. As the fingerprint cards are received they are classified and searched against the master fingerprint file. If they are identified with a previous record, a complete transcript of that subject's criminal record, as contained in the files of the division, is immediately forwarded to the agency which submitted the fingerprints.

The technical laboratory of the division of criminal investigation is a modern crime laboratory which utilizes the aid of science in the solution of crime mysteries which frequently could not be solved in any other way. One of the important services rendered by the laboratory to local officers is the comparison of handwritings, particularly in fraudulent check cases; however, the problems are many and varied. They may involve a question of fraudulent alteration of a document, the restoration of faded or obliterated writings, comparison of typewritten material, or possibly a comparison of inks or papers.

Photography is an important tool of the modern, trained investigator and the technical laboratory is equipped to handle any photographic problem from "shooting" the crime scene to the use of ultra-violet light in photographing for permanent record invisible stains, invisible writings and alterations on documents, latent fingerprints on multi-colored surfaces, etc. The sciences of biology, chemistry and physics also play important parts in the work done in the technical laboratory. This work includes spectographic examinations, firearms identification, microscopic examinations, lie detector tests, examination of tool marks, restoration of obliterated serial numbers on metal and rubber objects and the examination of glass fractures, to mention only a few.

The services of this bureau, including testimony of the special agents and technicians in court, are services of this department of state government which are available without charge to all duly constituted law enforcement agencies and the courts of this state upon request as provided by statute.

Division of Radio Communications

BOYD F. PORTER, Polk county, director. Salary \$5,500.

The Division of Radio Communications of the State Department of Public Safety is charged with the operation of the state police radio system, consisting of police radio stations at Des Moines, Cedar Falls, Storm Lake, Atlantic, Fairfield, Maquoketa, Belmond, and automatic repeater stations at Essex, Ladora, Van Wert, Calmar, Burlington, Lake Park and Moorhead.

Automobile dealers are licensed by the dealers' license division of the motor vehicle registration division. The dealers' license division was created by act of the Forty-seventh General Assembly for the purpose of prohibiting and preventing irresponsible, unreliable or dishonest persons from engaging in the business of selling motor vehicles, and to encourage reliable persons to engage in the business. During 1954 there were 2434 motor vehicle dealers, 43 motorcycle dealers, and 254 other operators and transporters licensed in Iowa under this act.

Safety Responsibility and Drivers License Division

MILO W. CHALFANT, Dickinson county, director.

The Safety Responsibility and Drivers License Division of the State Department of Public Safety was created October 1, 1947, to administer the Motor Vehicle Financial and Safety Responsibility Act enacted by the Fifty-second General Assembly.

During the year 1954, under the provisions of this act, 131,180 drivers and owners of motor vehicles involved in 50,786 reportable accidents were required to furnish security to this department to the extent of the amount of damages and injuries sustained by other individuals in the accidents. The licenses of 2,854 drivers were revoked and the licenses of 4,219 were suspended upon traffic convictions. 1,365 more licenses were suspended than that of the preceeding year. 58 drivers and owners of motor vehicles, who failed to satisfy judgments resulting from accidents, were required to furnish proof of financial responsibility before they were again entitled to receive their drivers' licenses.

This division also maintains a cumulative permanent record of over 1,500,000 licensed drivers, showing all restrictions, violations, traffic convictions, accidents, suspensions or revocations against their driving records. Under the Driver Improvement Program, the records of bad drivers are reviewed and the driver may be issued a warning letter, re-examined, interviewed or suspended. The records of 31,874 were reviewed during the year. 12,360 drivers were issued warning letters, 1,077 re-examined, and 883 were interviewed. Drivers' licenses are suspended or denied to those persons who are physically or mentally incompetent to operate a motor vehicle safely.

Division of Safety Education

FRANK B. ULISH, Webster county, field director.

The Division of Safety Education was created by action of the Forty-eighth General Assembly for the purpose of promoting highway safety through public information and education. Besides carrying out its own program of activities, this division works in co-operation with the Governor's Safety Committees, the National Safety Council, and affiliated local organizations, and renders other valuable services in the interests of public safety on our highways.

Field men for the Division of Safety Education travel throughout the state, delivering lectures, showing safety films, radio talks; giving

demonstrations; aiding in local safety projects; assisting schools in setting up and conducting driver education courses, schoolboy patrols and bicycle safety programs; serving as field co-ordinators for the Governor's Safety Committees; consulting with city officials on traffic problems; and cooperating with the safety activities of other organizations such as the Parent-Teacher Associations, American Legion, Federated Women's Clubs and many others, such as Teen-Age Driving Clubs.

The division puts on safety exhibits and demonstrations at the Iowa State Fair and other major events; produces weekly programs and announcements on radio and television stations; maintains a safety film library and exchange.

Through all media for public information, the division undertakes to keep the people of Iowa informed on accident trends, new traffic legislation and safety precautions. Extensive mailing lists are maintained in this office for the distribution of posters, pamphlets, other safety promotion material and information to schools, organizations and informational media.

**HART, Earl A., Pottawattamie County
Director Iowa Real Estate Commission**

Born October 20, 1894, son of Francis J. and Mary Hart. Educated in Council Bluffs public schools, graduated from Abraham Lincoln high school, and attended the University of Omaha. Married Dorothy Hinkel of Council Bluffs June 4, 1928. Father of a son, Warren B. Hart, Omaha, Nebraska, and daughter, Dorothy, wife of Dr. Norman R. Eade, Tokyo, Japan. Past master of Bluff City Lodge No. 71, A. F. & A. M., Council Bluffs, member of the Consistory in Omaha and Shrine at Des Moines. Past adjutant of Rainbow Post No. 2, American Legion, and past district adjutant for the 7th district. Served as assessor in Council Bluffs for six years and supervisor of old age assistance for Pottawattamie county for nine years. Individual operator in real estate from 1914 to present. Secretary to the late Wayne M. Ropes, secretary of state and real estate commissioner from 1943 to 1946. First director of the Iowa real estate commission created in 1945 to become effective in

1946. 1951 president of the National Association of License Law Officials and now serving as life member of the Executive Committee.

The first real estate license law was enacted by the 43rd General Assembly and became effective January 1, 1930. The law was administered by the secretary of state who was designated as real estate commissioner. This law was amended and revised by the 51st General Assembly and among other things provided that as of January 1, 1946, the law would be administered by a five-member commission composed of the secretary

of state as chairman and four additional members appointed by the governor with the approval of the Senate.

During the past ten years it has been the administrative policy of the Real Estate department to correct most of the evils in the real estate brokerage business which has developed over many years of uncontrolled practice. This has resulted in elevating the real estate business to a professional status and has tended to encourage men and women in all walks of life to enter this business where income is based on intelligence, initiative and hard work.

While the present law requires a rather complete and comprehensive written examination for all applicants it has not tended to deter or discourage the many people who are endeavoring to get into this business. During the calendar year of 1954 more than 800 men and women were examined and as of the end of the first quarter in 1951 more than 6,000 licenses have been issued. The examinations are held once a month at a specific time and place set by the Commission.

The fees for a Broker's and Salesman's examination are \$10.00 and \$5.00 respectively. The same amount is charged each year for renewal of the license which expires on December 31 of the year of issuance. For the last audit period the total received from all fees amounted to \$55,262, from which amount \$17,868, was allotted for operational expense and the balance of \$37,394, was left in the general fund as revenue to the state. Since the first years of its operation the department has not only lived within its income, but has not required an appropriation.

The department prepares and distributes free to the citizens of Iowa a Real Estate Primer which is a basis for the qualifying examination and which has been accepted and used as a textbook by many high schools, colleges and universities in Iowa and many other states. This Primer and the educational institutes held over the state each year have contributed materially in reducing law violations to a minimum and have facilitated the economical and efficient operation of the department.

The department is also charged with the responsibility of regulating and investigating the business conduct of all real estate licensees in their relationship with the public and to hold hearings on formal complaints which contain evidence which would indicate a violation of the law.

Iowa School for the Deaf—Council Bluffs

Lloyd E. Berg, Superintendent

The Iowa School for the Deaf was founded in 1855, and was first located at Iowa City and then moved to Council Bluffs in 1870. In 1902, fire completely destroyed the main building, which housed the executive quarters and dormitories for pupils. A substantial fire-proof structure now stands in its place, where sufficient room is provided for 375 pupils.

The school represents a capital investment for the state of \$1,000,000 and occupies 200 acres, with twelve fine buildings and beautiful grounds. There is a separate building to accommodate seventy-five of the youngest pupils. The school affords an education for children of the state, too deaf to make progress in the hearing schools. The entrance age is five years and students are required to remain in school until nineteen years of age unless excused for good cause. The work embraces thirteen years with training largely through writing, speech, lip-reading and through the use of hearing aids where possible. The course of study provides a strong elementary education, together with a substantial vocational training. The philosophy of the school is to bring the child with impaired hearing as near the normal as possible. Pupils of the school become skilled workmen and graduates, with remarkably few exceptions, are self-supporting, useful citizens of the state. Among the vocations taught are baking, shoe repairing, book binding, printing, cabinet making and upholstering. Instruction in rhythm is also given, and a well-rounded course in almost everything which will make life more pleasant for those bereft of their hearing.

The Iowa Braille and Sight Saving School—Vinton

D. W. Overbeay, Superintendent

The Iowa Braille and Sight Saving School was opened at Iowa City on April 5, 1853. Nine years later (August, 1862) the school was moved to its present location at Vinton.

The Iowa Braille and Sight Saving School is an educational institution which offers complete educational opportunity to visually handicapped boys and girls from the kindergarten through the high school. Although the techniques, philosophy and psychology applied are different from that found in public schools for the fully sighted, courses of study are quite similar.

In addition to academic subjects, special emphasis is placed on music, industrial arts and physical education. After satisfactorily completing the four-year high school course, students may enter colleges and universities. The records of those who do so have been excellent.

Supported by appropriations made by the State Legislature, the school is governed by the State Board of Regents. No charges are made for room, board, laundry, tuition and educational supplies. School is in session for a nine months' period.

In September, 1943, a sight-saving department was established to meet the needs of pupils with partial vision. Students in this department study large-type print instead of Braille and do their school work in classrooms especially equipped with excellent lighting, special desks, green chalk boards and other materials designed for this purpose.

The purpose of the Iowa Braille and Sight Saving School is to prepare its boys and girls to take a contributory place in life. In addition to the regular academic course of study, pupils may enroll in industrial arts, music, home economics and physical education. Parties, dances, swimming, wrestling, band, chorus, track, Boy Scouts, Cub Scouts, 4-H Clubs, and skating are a few of the extra activities.

State Sanatorium—Oakdale

The state sanatorium for tuberculosis was established in 1908, at Oakdale, six miles from Iowa City and 21 miles from Cedar Rapids. The care and treatment are splendid and the beneficial results are manifest.

Patients are admitted on certification by attending physicians. The cost of patients is charged to the counties where they live. Those who can do so are asked to reimburse the counties.

The sanatorium has the facilities and services of the hospital of the State University at its easy disposal, which is of inestimable value. It is under the jurisdiction of the State Board of Regents.

Information on State Schools

The Iowa state board of education was created by chapter 170, Acts of the Thirty-third General Assembly, as the governing body for the State University, the Iowa State College of Agriculture and Mechanic Arts and the Iowa State Teachers' College. The law went into effect July 1, 1909. Two years later chapter 141, enacted by the Thirty-fourth General Assembly, placed the school for the blind under the control of the board; chapter 160, Acts of the Thirty-seventh General Assembly, 1917, transferred the control and management of the school for the deaf to the board; and chapter 110, Acts of the 52nd General Assembly, 1947, transferred the state sanatorium. The 56th General Assembly changed the name of the board to State Board of Regents.

State University of Iowa

President Virgil M. Hancher
Iowa State University

The pioneering vision of the First General Assembly of the State of Iowa created the State University of Iowa by an act adopted on February 25, 1847. During the century and eight years since, the University's work has touched and benefited every city, village, and home within the boundaries of Iowa.

The University's objectives have been three-fold: to educate in her classrooms, to advance the frontiers of knowledge through research, and to carry the wealth of knowledge from her libraries, her laboratories, and her learned faculty to the people of Iowa.

Consistently, throughout her history, the University has maintained an educational program of the highest integrity as the base

for all of her activities and the foundation upon which a superstructure of professional, semi-professional, and graduate education has been erected. The University is a member of the Association of American Universities, an association of thirty-seven of the outstanding institutions of higher learning in the United States and Canada.

The University has pioneered in liberal education, for both men and women students, and today ranks with the leaders in the general education movement.

The University's objectives of teaching and research have been carefully integrated to achieve the greatest efficiency in the teaching and learning processes. Balanced living with proper attention to pleasant housing, maintenance of good health, and recreational, religious, and cultural activities has been provided as no less important to a rounded college experience.

From the days when she stood on Iowa's physical wilderness, the State University of Iowa has been on the world's educational frontier. She has pioneered and advanced with her state, and, with justifiable pride, points to her distinguished contributions to the advancement of knowledge and the wellbeing of the State of Iowa.

The Campus

The University's buildings (approximately 80) dot a 720-acre campus stretching for nearly a mile along the banks of the gently winding Iowa River.

Dominating the scene on the east bank of the river is the Old Capitol, first capitol of the State of Iowa. Its history and architecture symbolize the pioneer spirit of Iowa and her University. Arranged about the Old Capitol in a pentacrest and in nearby blocks are the buildings housing the departments of the College of Liberal Arts and Commerce; to the east are the College of Education, the Iowa Child Welfare Research Station, and the Extension Division, all housed in East Hall; to the north are the Colleges of Law, Dentistry and Pharmacy, the women's dormitories and Iowa Memorial Union; to the south are the College of Engineering, the University library, the new Communications Center, the power and water plant and the maintenance and service buildings.

The distinctive Gothic tower of the University Hospital rises above the west campus. In its immediate vicinity stand the buildings of the

Medical Center, including the College of Medicine, the College of Nursing and the State Bacteriological Laboratory, Children's Hospital, Psychopathic Hospital, the new Hospital School for Severely Handicapped Children, and Westlawn Nurses Dormitory. To the northwest stands the new Veterans Administration General Hospital, and to the west and south are the athletic fields and golf courses, the Field House and Armory; and on the west bluffs of the Iowa stand the large dormitories for men. On the banks below at the water's edge are the Hydraulic laboratories. To the north along the river's west bank are located the Iowa Center for Continuation Study, the Fine Arts building and the Theatre.

Permanent Construction

During the present biennium the first unit of the Iowa School for Severely Handicapped Children has been completed as well as the first unit of the Communications Building which houses journalism.

Alterations to the General Hospital tower have provided the department of surgery with four new operating rooms, together with the necessary scrub up, sub sterile and anesthesia facilities. There have been alterations of the same general nature at Children's Hospital to improve surgery facilities.

The first phase of a new isolation section in Children's Hospital for handling a larger number of polio patients is complete, and an addition to General Hospital to house the Pediatrics out patient clinic now in Children's Hospital is under way. The area vacated by the Pediatric out patient clinic will then be remodeled for an admission area thus completing this project and providing an isolation section in Children's Hospital which will house over 100 patients and also provide for rehabilitation of polio and orthopedic patients.

The installation of a new boiler for the power plant, replacing one of the older boilers, is under way. Replacement and improvements to the utilities distribution system is proceeding as rapidly as possible.

Construction is also under way on Parklawn Apartment Building for married students, Unit 3 of the Memorial Union and on the Office and Classroom Building for the Athletic Department. All of these projects are being financed by other than state appropriations.

Since the end of World War II, two additions have been made to permanent dormitory construction, one at Hillcrest Men's Dormitory increasing the expanded capacity by 173 men and the other at Currier Hall increasing its expanded capacity by 168 girls. Both were additions to the self-supporting dormitory system and were not constructed with tax funds.

Construction on the campus of the University and all recommendations to the State of Iowa for improvements in the physical aspect of its University proceed on the basis of a long-term plan. The plan is designed to integrate and make completely efficient the use of all facilities and floor space. A program for capital improvements, both urgent and long-range, has been included in the University's Legislative Askings for the Biennium 1955-57.

Temporary Buildings

Still very prominent and very necessary to the campus scene are the temporary housing and classroom structures, including temporary barracks, quonset huts, and trailers, nestled in every nook among the permanent buildings and clustered in villages along the river's edge and on the rolling hills of the golf course.

The need which required the construction of these unsightly but utilitarian structures if it was to be met at all has diminished little in the years since the war. They continue to provide 698 housing units

for students who remain from the great influx of G.I.'s and other young people who sought higher education immediately following World War II. Included in these temporary accommodations are 648 barracks apartments and 50 quonset apartments for married students.

The need for married student housing remains and as school opened in September of this year 670 students and staff members are on our waiting list after all units have been assigned. The difficulty in meeting this sustained demand is increased by the fact that the trailer accommodations for married students have rapidly deteriorated and forced the abandonment of the units.

The same influx which overflowed available housing on the campus and in and about the city of Iowa City, made necessary the addition of temporary barracks buildings for classrooms, offices, laboratories, storage and miscellaneous purposes. A survey of the University reveals that 111,697 square feet of temporary space is now in use. This floor space represents an area over one and one-fourth greater than that contained in one of the University's major four-story classroom buildings.

The University has been proud of its ability to meet the demands made of it through temporary measures. The demand, however, has continued beyond expectation, and those temporary structures which were erected during a state of emergency are now in various stages of wear and deterioration which makes any estimate of their future utility a dubious prophecy. All prospects at this point indicate that most, if not all and more, of this temporary space must be provided in permanent construction prior to 1960.

Courses of Study

The academic affairs of the University are conducted under the direction of the Provost of the University who in the spring of 1950 assumed the powers, duties and functions of the executive deans of the University's Division of Research and Teaching and the Division of Health Sciences and Services. Under the Provost the advantages of the divisional system, which draws together related areas of the University, have been retained. Grouped in the research and teaching areas are the College of Commerce, Education, Engineering, Law, Liberal Arts, the Graduate College and the Summer Session. Included in the health sciences and services groups are the Colleges of Medicine, Dentistry, Pharmacy, and Nursing, the University General Hospital, the Children's Hospital, Psychopathic Hospital, the State Bacteriological Laboratory, and the Hospital School for Severely Handicapped Children.

The University organization also includes four schools. Of these, three—the Schools of Journalism, Fine Arts, and Social Work—are affiliated with and administered under the College of Liberal Arts. The fourth, the School of Religion, offers work through the College of Liberal Arts, but is related to the University through the President of the University.

A minimum of four academic years of study is required for a baccalaureate degree from the College of Liberal Arts with its affiliated schools, and the same time is required for a bachelor's degree from the Colleges of Commerce and Pharmacy. Engineering requires a minimum of four and one-half years.

Six years of study, two in pre-professional and four in professional study, are required for a degree from the College of Dentistry. Law requires three and one-half years beyond the three years of liberal arts, while seven years are necessary, three in pre-medical and four in medical study, for the degree of Doctor of Medicine. A four calendar year course in nursing leads to the Bachelor of Science in Nursing and the certificate of Graduate Nurse. A year course for Practical Nurses is offered by the College of Nursing. Graduate work in Nursing is available through the Graduate College and College of Nursing.

Advanced degrees from the Graduate College are earned under approved programs of study and research with a minimum of one year required for a master's degree and three for the doctorate.

The various courses of study and fields of specialization and the degree conferred upon graduation are as follows:

COMMERCE—Accounting, Economics, Labor and Industrial Management, Marketing, Office Management and Business Education, and General Business majors lead to the degree Bachelor of Science in Commerce.

DENTISTRY—Four-year course, in addition to two years of pre-dental study in the College of Liberal Arts, leading to the degree Doctor of Dental Surgery.

Graduate work leading to the degree of Master of Science, from the Graduate College, is available in the field of Orthodontics, Preventive Dentistry, Roentgenology and Oral Diagnosis, Oral Surgery and Periodontia. A two-year course for the training of women in Dental Hygiene is offered.

EDUCATION—Courses for the professional preparation of teachers at the undergraduate level are integrated with the curricula of the Colleges of Liberal Arts and Commerce and lead to degrees in those colleges. Graduate programs for teachers, principals, supervisors, superintendents, directors of student teaching, and research and teaching positions in higher education lead to the M.A. and Ph.D. degrees in the Graduate College.

ENGINEERING—Chemical, Civil, Electrical, Mechanical, and Industrial and Management Engineering leading to the degree of Bachelor of Science in the designated curriculum; General and Commercial leading to the degree of Bachelor of Science without designation. In each curriculum certain specialized options may be elected; for example, automotive, industrial, aeronautical, hydraulic, sanitary, structural, communication, power, or metallurgical. Considerable emphasis is placed on graduate work leading to the Master of Science and Ph.D. degrees in the branches of Engineering.

LIBERAL ARTS—Actuarial Science, American Civilization, Anthropology, Art, Astronomy, Bacteriology, Biochemistry, Botany, Chemistry, Child Welfare, Chinese Classics, Economics, Education, English, European Literature and Thought, Geography, Geology, German, Greek, History, Home Economics, Hygiene, Journalism, Latin, Library Education, Mathematics, Medical Technology, Museum Training, Music, Occupational Therapy, Oriental Studies, Philosophy, Physical Education, Physics, Political Science, Psychology, Religion, Romance Languages (French, Spanish, Italian, Portuguese), Russian, Social Science, Social Work, Sociology and Anthropology, Speech and Dramatic Art, Speech Pathology, and Zoology leading to the degree Bachelor of Arts, Bachelor of Science, Bachelor of Music and Bachelor of Fine Arts.

Specialized courses in the Departments of Chemistry and the Division of Physical Education lead to the degree Bachelor of Science in the respective fields.

Students who select courses to prepare for dentistry, law, and medicine may study pre-professional subjects in the College of Liberal Arts for the required number of years and then enter the professional college. If all specific requirements for the bachelor's degree are included in the pre-professional program and the first year of professional study is completed successfully, the student may receive a bachelor's degree from the College of Liberal Arts, since the college will give credit for one year of professional work in lieu of the fourth year necessary for a bachelor's degree.

SCHOOL OF FINE ARTS—Combines departments of art, music, and dramatic arts. Students enroll in the College of Liberal Arts and may be candidates for one of the degrees of Bachelor of Arts, Bachelor of Music, or Bachelor of Fine Arts.

SCHOOL OF JOURNALISM—Offers study sequences through the College of Liberal Arts in Editorial Journalism, Radio and Television, Journalism, Advertising, Magazine Journalism, Pictorial Journalism, and Public Relations. Awards a Certificate of Journalism on basis of scholarship and concentration in the field.

SCHOOL OF RELIGION—In cooperation with the College of Liberal Arts offers a field of concentration leading to Bachelor of Arts degree. It is inter-faith in nature and professorships of Catholic, Jewish, and Protestant faiths are maintained by the respective groups.

SCHOOL OF SOCIAL WORK—Offers a two-year graduate curriculum as preparation for social work. Some undergraduate subjects recommended as preparation for professional training are now being given.

LAW—Three and one-half academic year course, in addition to three years of pre-law study in the College of Liberal Arts, leading to the degree L.L.B. or J.D.

MEDICINE—Four-year course, in addition to three years of pre-medical study in the College of Liberal Arts, leading to the degree Doctor of Medicine.

The College of Medicine offers postgraduate work leading to advanced degrees in the Graduate College. Special training is also offered in Physical Therapy, Occupational Therapy, and Radiology.

At frequent intervals each year, the College of Medicine also offers postgraduate conferences designed to provide new and refresher information for practitioners in the State of Iowa.

COLLEGE OF NURSING—The college no longer offers the standard three-year program leading to the Certificate Graduate Nurse. The degree Bachelor of Science in Nursing and the Certificate Graduate Nurse are offered at the conclusion of the four calendar year program. Students who have received the certificate of graduate nurse may enroll for additional work leading to the degree Bachelor of Science in Nursing. A special program in Psychiatric Nursing is also being offered.

Work is offered through the Graduate College toward the Master's degree in the area of Nursing Service Administration. A one-year course for Practical Nurses is also offered.

PHARMACY—Four-year course, leading to the degree Bachelor of Science in Pharmacy, including unique training in Hospital Pharmacy.

GRADUATE—Opportunity for study at the graduate level is available in all fields listed above at this time. It is also available in the fields of Child Welfare and Hydraulic Engineering. Such study leads to the degrees Master of Arts, Master of Fine Arts, Master of Science, and Doctor of Philosophy.

CORRESPONDENCE STUDY—Courses at the college level are offered in many of the departments through the Extension Division to students who cannot be in residence but wish to prepare themselves for more effective work in their respective occupations, or who wish to continue work toward degrees while out of residence.

Enrollment

Prior to World War II, the University stood among the fifteen largest colleges and universities in the country in the total number of different students of college grade enrolled annually. Its growth had proceeded apace with the general upward trend of college enrollments. The University's enrollment of 1,542 different campus students of college grade in 1900-01 rose to 9,283 in 1940-41, forty years later.

Then came the overwhelming influx of the veteran students. During the war, in 1943-44, the campus enrollment of college grade went down

to a low of 4,891. Just four years later, 1948-49, the enrollment had risen to 13,354. This pattern is comparable to the experience of other large universities.

The enrollments in higher educational institutions fell away sharply beginning in 1950, due to the decline in the World War II veterans' enrollment of about 40 per cent from the post-war peak and because of the Korean conflict. However, the lull was anticipated and enrollments continued to decline gradually until the fall of 1954, when the number of students has again taken an upturn. This increase is expected to continue past the highest immediate post-war peaks and will continue to spiral, reaching the pinnacle in the 1960's and possibly the early 1970's. Our best estimates indicate that we shall have in the neighborhood of 13,000 students on campus of college grade during the year 1965-66 and 15,000-16,000 in 1969-70. Forecasts are based in the best past experience with enrollments as indices are weighted heavily with the influence of the increased birth rate of the war and post-war years and the recognizable trend toward the enrollment of higher percentages of the population in higher educational pursuits.

Every university has faced the complex problems of providing the education demanded during the post-war years without a sacrifice of the integrity of academic program. Now faced with anticipated record enrollments within a few years, the universities must be concerned with the integrity of the academic program lest it be slighted by attempts at false economy and rendered helpless before the next record wave when it arrives.

The record of enrollment since 1900, by ten-year intervals to 1940 and annually thereafter, is as follows:

Year	Enrollment November 1	June to June On Campus of College Grade	All types, including Correspondence and ex- cluding Conferences and Short Courses
1900-1901	1,448	1,542	1,542
1910-1911	1,756	2,090	2,090
1920-1921	4,027	5,345	5,345
1930-1931	5,400	8,235	9,901
1940-1941	6,667	9,283	10,820
1941-1942	6,114	8,290	10,373
1942-1943	5,300	7,160	9,706
1943-1944	3,183	4,891	7,957
1944-1945	3,695	5,262	8,492
1945-1946	4,744	8,422	10,374
1946-1947	9,770	11,988	16,908
1947-1948	10,239	12,571	16,109
1948-1949	10,886	13,354	17,542
1949-1950	10,383	13,044	17,506
1950-1951	9,125	11,822	16,784
1951-1952	7,362	10,146	15,510
1952-1953	7,213	9,722	15,303
1953-1954	7,686	10,180	15,254

It is significant to note that the University usually enrolls from 21 to 23 per cent of the college enrollment in the State of Iowa, and grants about 30 per cent of all the degrees granted by Iowa colleges. This is perhaps the best evidence of the relationship of the University to the total pattern of higher education in the State of Iowa. The University is a partner with the four-year colleges and junior colleges of Iowa in the field of general education—the process of training citizens for good citizenship.

Beyond that level the University provides the professional and specialized programs which provide opportunities for further study at an advanced level for the graduates of junior colleges, and four year colleges

as well as for her own students. In so doing, the University is an integral and indispensable part of the total program of higher education in the State of Iowa.

Services

Service to the state is a keynote in every University effort. This it accomplishes on a daily basis in the activities of each of its colleges and departments along with the teaching and research functions. In addition, the University has numerous units in its organization specifically designed to provide direct service to the people of Iowa and at the same time contribute to the teaching and research functions of the total University.

Some of the principal service units are: The University Hospitals, Psychopathic Hospital, the Iowa Hospital-School for Severely Handicapped Children, the State Bacteriological Laboratory, and other affiliated organizations in the medical service field; the Iowa Child Welfare Research Station, the Extension Division with its bureaus of Audio-Visual Instruction and Correspondence Study, the Bureau of Business and Economic Research, the Bureau of Labor and Management; the Information Service, the Institute of Hydraulic Research, the Institute of Public Affairs, and the Iowa Center for Continuation Study.

Through the activities of these units, and others, the University serves hundreds of thousands each year, both on and off the campus.

The University belongs to Iowa and to Iowans. It serves them whenever possible, holds the door wide for every visitor to its campus, and stands ready to be of further service.

Every Iowan should know his University.

Iowa State College

President James Harold Hilton
Iowa State College

The Iowa State College was established on March 22, 1858, by act of the Seventh General Assembly of Iowa.

In the succeeding years financial depression, the confusion of the Civil War, and other factors delayed the construction of buildings and the beginning of instruction for a decade.

The college first received students for preparatory training on October 21, 1868.

The Land-Grant College Act of 1862 gave federal aid to industrial education and the Iowa legislature was the first in the nation to accept the provisions of the act, September 11, 1862.

Thus the Iowa State College became a part of a nation-wide system of land-grant colleges and

universities—often called the unique contribution of America to higher education.

The system had its beginning when the people protested that colleges of that day were neither democratic in range of subject-matter nor in

the sense that they were generally available to capable students in all walks of life. There was a demand for a new emphasis on agricultural teaching and research, as well as the needs of industry and the problems of engineering and technology.

Through the years Iowa State College as a part of the Land-Grant system has provided for rich and poor alike, a new kind of education to meet the needs of a new nation in a time when science and technology have assumed great importance.

Objectives and Scope of Activity

Under the authority granted by the Iowa General Assembly, the Iowa State College is charged with the responsibility of conducting activities in three general areas:

- (1) Formal classroom instruction on the campus.

The most important assignment of Iowa State College is to educate young people for useful lives. They must be educated, first of all to become good citizens with a solid grasp of social, economic and political problems of the day as well as scientists, engineers, agriculturists and home economists.

Wherever you go, not only in this country, but throughout the world, you will find Iowa State College graduates in important positions of responsibility and leadership—as engineers, as scientists, as home economists, as doctors of veterinary medicine and as agriculturists.

- (2) A broad research program for the benefit of agriculture, industry and the home.

Next to the dollar Iowa spends in the education of the people of the state, the dollar we invest for research probably returns the greatest dividends of any investment we make. It has been reliably estimated that each dollar invested in research at Iowa State College has returned about \$300 to the welfare of the state.

What has been accomplished through research is truly an amazing story. Science and technology have literally revolutionized our business structure and methods of living during the past 50 years. Even more important than the financial dividends resulting from research has been the improvement in the physical and spiritual well-being of all people.

- (3) An Extension or off-campus program designed to take the benefits of the college to all people in the state.

The chief objective of the extension program has been to reach every family, urban as well as rural, with information that will enable them to maintain a more satisfactory life.

ACADEMIC PROGRAM

The following undergraduate courses of study, leading to the degree of Bachelor of Science, are now offered in the college:

AGRICULTURE—Agricultural Business, Agricultural Education, Agricultural Engineering, Agricultural Journalism, Agronomy, Animal Husbandry, Dairy Husbandry, Dairy Industry (also Dairy Industry with majors in Chemistry or Economics), Farm Operation, Forestry (also Forestry with majors in Conservation, Farm Forestry, Forest Utilization, Range Management, or Wildlife Management), Horticulture (with majors in Floriculture, Nursery Management, Pomology or Vegetable Crops), Industrial Education, Landscape Architecture, Poultry Husbandry, Rural Sociology.

ENGINEERING—Aeronautical Engineering, Agricultural Engineering, Architectural Engineering, Ceramic Engineering, Chemical Engineering, Civil Engineering, Electrical Engineering, General Engineering (with an option in Industrial Engineering), Mechanical Engineering, Mining Engineering.

HOME ECONOMICS—Applied Art, Child Development, Food and Nutrition (with majors in Dietetics, Experimental Cookery or Community Nutrition), General Home Economics, Home Economics Journalism, Home Economics and Related Science, Home Economics Education, Home Management, Household Equipment, Institutional Management, Textiles and Clothing.

SCIENCE—Agricultural Economics, Bacteriology, Botany, Chemistry, Chemical Technology, Climatology and Meteorology, Economics, Entomology, Food Technology, Foreign Trade and Service, General Science, Genetics, Geology, Government, History, Industrial Economics, Industrial Psychology, Mathematics, Naval Science, Physical Education for Men, Physics, Rural Sociology, Statistics, Technical Journalism, Zoology. (Also special programs in preparation for human medicine and preparation for veterinary medicine.)

In addition, the college offers studies leading to the degrees of Bachelor of Architecture (five-year program) and Doctor of Veterinary Medicine (six-year program), and offers graduate courses leading to the degrees of Master of Science and Doctor of Philosophy.

For the benefit of students unable to spend four years or more in college study special programs are offered which may be terminated in less time and for which a certificate of completion is offered. These programs include Dairy Plant Operation, Farm Operation, and an option in Marketing Industries under Agricultural Business.

RESEARCH

The research program of the college is organized into six units.

THE IOWA AGRICULTURAL EXPERIMENT STATION has been closely associated with most of the tremendous strides which scientific agriculture has made for years. Experiments are conducted on college farms at Ames and at nearby Ankeny, as well as at 31 farms and experimental plots located throughout the state. Important results have been achieved in almost every area of farming, including breeding, feeding and selection of livestock, farm crops, cultivation and conservation methods, farm power and machinery, farm structures, farm marketing methods, farm management and many others.

THE IOWA ENGINEERING EXPERIMENT STATION, which is 50 years old this year, shares with the University of Illinois the distinction of being the first such station to be established in the nation. Its objectives always have been to foster and develop the industries of Iowa through engineering research, to aid in the development of raw materials and natural resources of the state, to increase utilization of agricultural by-products, and to aid in the solution of engineering problems arising in the various branches of industry. The Station does considerable work for the Iowa State Highway Commission under grants from the commission.

THE INDUSTRIAL SCIENCE RESEARCH INSTITUTE aims to provide fundamental scientific facts and principles which underlie the development and successful solution of agricultural and industrial problems of Iowa. In addition, it trains students for responsible positions in research organizations, in industry, in government laboratories and in colleges.

THE INSTITUTE FOR ATOMIC RESEARCH includes the Ames Laboratory of the Atomic Energy Commission which is one of the major laboratories of the Commission. The principal objective of the Institute is to contribute fundamental knowledge basic to the release, effects and utilization of atomic energy.

THE STATISTICAL LABORATORY is a co-operative project with the Bureau of Agricultural Economics of the United States Department

of Agriculture. The laboratory has developed techniques which are of great value to more accurate and meaningful research.

THE VETERINARY MEDICAL RESEARCH INSTITUTE is closely tied to problems associated with livestock production in Iowa. It aims to develop methods of controlling or eradicating diseases in food producing animals.

EXTENSION SERVICES

THE IOWA AGRICULTURAL AND HOME ECONOMICS EXTENSION SERVICE is part of a nation-wide Extension Service operated through the United States Department of Agriculture. It is part of the largest and perhaps the most effective program of adult education in the world. In addition to several hundred paid employees, nearly 50,000 active volunteers each year assist in carrying out extension programs in every county in Iowa. In a single year, information received through the Extension Service results in changed practices on upward of 125,000 Iowa farms. Some 70,000 Iowa homes also will change practices because of Extension Service activities.

THE ENGINEERING EXTENSION SERVICE operates in the fields of public service, industry, technology and engineering. It conducts vocational-education training for persons in semi-technical or technical positions for which an engineering degree is not required. It carries on professional education for engineers, executives and supervisory personnel of Iowa industry. It gives specific advisory and information assistance to Iowa industries, municipalities, associations and citizens.

SERVICE UNITS

To help Iowans make the most of the information available from the College, special service units are maintained.

RADIO STATION WOI AND TELEVISION STATION WOI-TV are used to bring educational features from Iowa State College and from the State University of Iowa and Iowa State Teachers College into homes, classrooms and business establishments throughout the state. Emphasis is on educational programs, good music, drama and public service. In the latter category is the market information, possibly the most complete in the Midwest, which is relied upon by farmers, elevator operators, livestock buyers, produce houses and others in daily operations.

SEED TESTING LABORATORY is largely self-supporting and is considered one of the finest and best equipped laboratories of its kind in the world. It helps to guard the quality of seed which Iowa farmers and gardeners plant.

SOIL TESTING LABORATORY also is largely self-supporting and helps Iowa farmers determine the needs of their soils for fertilizers, helps agronomists know more about Iowa's all-important agricultural land.

SHORT COURSES

About 100 special short courses and meetings of the duration of one day or more are held on the Iowa State campus each year. Most of them are sponsored by groups within the college, and they are attended by approximately 20,000 persons. They help professional men, business men, boys and girls, farmers and others to keep abreast of new and important developments within broad fields of agriculture, home economics, engineering, science and veterinary medicine, or within more specialized fields where their particular interests may lie.

ENROLLMENTS

Enrollment at Iowa State College is increasing more rapidly than had been predicted earlier.

The 1953 enrollment of 7,800 was approximately 400 greater than the year previous. In the fall of 1954, more than 8,300 students were on the campus.

This increase in enrollment will impose heavy burdens on the facilities of the college. At the same time, the programs of research and extension services are undergoing considerable expansion, largely in response to the greatly increased needs and demands of the people of Iowa.

Iowa State Teachers College

President J. W. Maucker
Iowa State Teachers College

The State of Iowa maintains one institution whose sole function is the preparation of personnel for work in the public schools of the state. Iowa State Teachers College recognizes its unique role and the attendant responsibilities in the maintenance and further development of an effective system of public education throughout the state.

The need for establishing a separate professional college for the education of teachers was recognized in Iowa by the Second General Assembly. The Sixteenth General Assembly made appropriations for the establishment of the Iowa State Normal School at Cedar Falls. Instruction began on September 6, 1876. In 1909 the Normal School became Iowa State Teachers College.

Recently there has been a nation-wide trend for teachers colleges to assume broader functions as regional colleges—to such an extent in numerous cases as to submerge their original functions of teacher education. The Iowa State Teachers College continues to adhere to its primary function—teacher education.

(1) Pre-service teacher education

The pre-service program conducted on the campus provides education through the master's degree level for all instructional positions common to the public schools. All curricula are designed to meet the requirements for one or more teaching certificates. In line with a nation-wide trend in curriculum reorganization the college conducted an intensive study of its curricula and introduced a revised program, begun with the freshman class of 1951-52. This program places increased emphasis on (1) the general education of all students and (2) professional laboratory experiences. It is intended that graduates shall secure both the broad education essential for effective citizenship and the subject-matter background and professional competence required of members of the teaching profession.

Since June, 1952, the college has offered graduate work leading to the M.A. in Education degree for public school personnel.

(2) In-service teacher education

Since continued professional growth is necessary for teachers, as for members of other learned professions, the college maintains an extensive in-service program of teacher education. Members of the staff are available throughout the year to assist teachers with instructional problems in their own schoolrooms, to discuss plans with groups of teachers and administrators, and to serve as professional leaders at conferences, demonstrations or workshops organized for their teachers by county and city superintendents of schools.

(3) Professional publications

As a professional college, the Iowa State Teachers College issues from time to time professional publications, usually prepared by members of its own staff, designed to be of service directly to the classroom teacher.

Areas of Professional Education

In the preparation of teachers for the elementary grades, the pre-service curricula have been adapted to the legislation enacted by the Fifty-first General Assembly. Since September 1952 the two-year curriculum has been the one remaining transitional program pending the time when it is hoped that Iowa will join the other states in requiring a minimum of four years preparation for all teachers.

During the past decade an increasing number of elementary teachers has been completing four years of study and it is likely that at some time in the near future the four-year program will be the accepted pattern for prospective elementary teachers. Many city schools are making the degree requirement their minimum in the employment of grade teachers.

There are two elementary school majors offered at the college,

(1) kindergarten-primary, and (2) grade above the primary. There is also a special curriculum preparing teachers for the junior high school.

At the undergraduate level, the college prepares for teaching in the following junior and senior high school subjects: agriculture, art, biological science, business education, chemistry, distributive education, dramatics, earth science, economics and sociology, French, German, government, history, industrial arts, Latin, home economics, library science, mathematics, music, physical education for men, physical education for women, physics, safety education, science, Spanish, and speech. Preparation for special teachers to work throughout the entire elementary and secondary school system is provided in art, music, industrial arts, physical education, and speech correction.

Specialized instruction is provided by twelve instructional departments comparable to those in other colleges and universities—art, business education, home economics, industrial arts, languages, speech and literature, library science, mathematics, music, physical education for men, physical education for women, science, and social science.

Professional Education

Professional education is provided by three closely related professional departments and by a considerable degree of professionalization of the work in various academic fields. The basic professional courses in education are provided by the Department of Education; opportunities for observation and student teaching courses are the responsibility of the Department of Teaching; curriculum and instructional materials are available through the service of the Curriculum Laboratory. Through the coordinated effort of the three professional departments an effective training in audio-visual education is received by the prospective teachers.

For observation and student teaching purposes, the college maintains a school on the campus comprising all grades from nursery school through the twelfth grade. Schools in neighboring towns and also rural schools are affiliated with the college for the purpose of providing additional student teaching facilities.

The graduate program leads to the Master of Arts in Education degree. Curricula are offered for the education of school personnel in the following areas: elementary principles, secondary principles, elementary supervisors, and classroom teachers in art, business education, English, mathematics, music, science, social science, and speech. Graduate courses but not graduate majors, are offered in industrial arts, physical education, languages, home economics, and student teaching. The graduate program stresses the idea of tailoring the requirements to the needs of the individual student; hence, the proportion of the graduate work in a specialized area, in general education, or in professional education may vary considerably for different students on the same curricula.

The Physical Plant

The campus contains approximately 279 acres and 28 principal buildings. The Anna B. Lawther Hall, Bartlett Hall, and the new Campbell Hall provide living accommodations for a total of 1346 women students. The George T. Baker Hall, the Homer H. Seerley Hall, and Stadium Hall normally accommodate a total of 317 men; a high percentage of men students live off-campus in private quarters under general college supervision. The Commons is designed to provide social education and recreational training for members of the student body. A complete food service is housed on the ground floor of The Commons. The student health service is maintained by two resident physicians and a staff of registered nurses.

Present and Future Shortage of Teachers

The need for teachers in all phases of public school work remains acute, particularly at the elementary school level. This shortage is expected to continue for some years as increased numbers of children reach the higher grades to thus affect the whole school system.

It is encouraging, in view of the teacher shortage, to note a 20 per cent increase in enrollment at the college in the fall of 1954. The outlook is for a greatly increased enrollment in the next dozen years, making highly desirable a systematic expansion of physical facilities and increased staff.

Information on State Fair

For 100 years, the Iowa State Fair has been gaining steadily in size, prestige and public service. Today, it is nationally recognized as America's greatest agricultural and livestock fair. Situated in the heart of the world's wealthiest agricultural empire, it is the focal point each year for exhibitors of the finest livestock and farm products. In attendance, too, it stands in the front rank of the great educational and entertainment expositions on the North American continent.

The Iowa State Fair, the original "State Fair" of a best-selling novel and of two hit motion pictures, is held in Des Moines each year. It runs for 10 days, starting in late August and sometimes carrying into the first few days of September. Attendance each year now runs over 500,000.

The livestock show, largest of its kind in America, attracts over 7,000 of the finest farm animals from 20 leading agricultural states. The 4-H and F.F.A. shows, state-wide congresses of farm young people's organizations and their livestock and projects, add to the fame of the

fair. Other major educational features include the corn and small grain show, farm machinery exposition, flower and garden show, art salon, photographic salon, school exposition, women's exposition, harness and saddle horse show, culinary and needlework departments, and the fish and game exhibit.

From the huge State Fair grandstand, one of the finest amphitheatres in the nation, fairgoers witness a varied series of spectacles and events, including national championship auto races, midwest circuit horse races, thrill day stunts, musical extravaganzas, fireworks and circus acts.

The first and second Iowa State Fairs were held in Fairfield, Iowa, in 1854 and 1855. From 1856 to 1879, the State Fair moved from city to city. It was held in Muscatine in 1856 and 1857; Oskaloosa, 1858 and 1859; Iowa City, 1860 and 1861; Dubuque, 1862 and 1863; Burlington, 1864-1866; Clinton, 1867 and 1868; Keokuk, 1869, 1870, 1874 and 1875; and Cedar Rapids, 1871, 1873 and 1876-1878.

In 1879 the State Fair moved to Des Moines to stay. In 1884 the Legislature appropriated \$50,000 to purchase a state fairgrounds, on condition that the city of Des Moines raise an equal amount for buildings and facilities. The city concurred, and Iowa thus became the second state in the Northwest to acquire a permanent site for its fair.

In 1923 the General Assembly changed the former method of fair administration by providing for an Iowa department of agriculture and a state fair board, and giving this board the duty of managing the fair and the custody of the fairgrounds. Under this law, the fair board comprises one director from each congressional district. These directors together with the president and vice president of the fair, are elected at the annual midwinter session of the state agricultural convention. Immediately after that convention, the state fair board elects its secretary and its treasurer.

All operating expense, maintenance and other costs of the fair are paid out of fair receipts, except where the Legislature may deem it advisable to make a special appropriation for such purposes. The law provides that the state will not be liable for any expenses or liabilities incurred by the fair.

Since 1902 the Legislature has appropriated \$1,130,500 for the construction of permanent buildings on the fairgrounds, purchase of additional land and for necessary improvements. In recent years, however, the State Fair has used only its own revenues for these purposes. Altogether, since 1902, the fair itself has expended approximately \$2,901,715 for maintenance and improvements from actual profits of the fair. The latest major building project financed by fair funds is the new fireproof 4-H Girls' dormitory, on which construction was begun in the spring of 1949. It was formally opened and presented to the Girls 4-H Club for their use at the 1950 Iowa State Fair. Premiums, amounting to over \$180,000 a year, are also provided by the fair for winners in exhibits and contests.

How the State Fair has grown during 100 years of progress can best be shown by comparing statistics on the first fair of 1854 and the average figures for the 1953 and 1954 fairs:

	1854 Total	1953-1954 Averages
Area of land	6 acres	378 acres
Attendance	8,500	560,486
Premiums	\$ 1,171	\$183,454
Livestock shown	275	7,456
Horses and mules	148	791
Cattle	69	2,362
Swine	11	3,210
Sheep	1,062
Poultry	27	5,106
Machinery and implements	43 exhib.	50 acres

For over a century, the State Fair has played an important part in

the agricultural progress of Iowa. Features and exhibits are keyed, each year, to new trends in farming and livestock production. Through its thousands of exhibits, it gives visitors an unparalleled opportunity to study, compare and learn. By every standard of measure, the Iowa State Fair has been making new progress each year since World War II—and helping, more than ever, to make Iowa the greatest farm and livestock state in the nation.

The Indians in Iowa

The Mesquakie Indians who are residents and voters in Iowa number around 500. Iowa was for many years the cherished home of their ancestors and friends.

They own, as a tribe or family, 3,600 acres of land in the Iowa river valley in Tama county. This is their collective farm, bought by them with their own money, managed and cultivated by them, on which they live, where they study and have their religious services. The State of Iowa many years ago by law gave them authority to own tribal land and property and the title is held in trust for them. They pay taxes and those who are qualified are voters.

They have a genuine democratic government for themselves, elect a council of managers and the council has a chief or president. They have a school and all the younger people can write the English language. Some of the older ones have never learned other than their own language, which is used by all of them.

The Mesquakie tribe is of the Algonquin family. They formerly lived on the Atlantic coast, then moved westward through New York and Canada, and in Wisconsin in the early fur trading days, they formed a federation with their kinsmen, the Sacs, or Saukies. The Mesquakies were called by the traders Reynards or Foxes and their name means the "people of the red earth." A century ago they lived in several camps along the Mississippi river, then moved into the Des Moines valley, followed the agency and army to Raccoon forks, and departed from Des Moines when Iowa was admitted as a state.

Some of the Mesquakies so loved their homes in Iowa that they gave up their government payments and returned from their southwestern reservations. The state gave them permission to live in Iowa as a tribe and with money received in settlement with the government they bought their present lands.

On their Tama county farm they live in comfortable houses and dress, in the main, as their white neighbors. Formerly the head men resisted efforts at educating the young, but now they go to school and are apt scholars. They keep up their wickiups, not to live in, but for their visits and ceremonies. They also have one large tribal hall in which they

hold their religious ceremonies regularly, several services each week, conducted in their own language by their own leaders and preserving their own forms of worship.

They are quite skillful in various industries—weaving, basket making, bead work and in leather. One-third of the land is cultivated but the remainder is largely rough pasture land. The tribe has a tractor, but uses horses for farm work, and there are cows, hogs and chickens.

Grand Army of the Republic

The Grand Army of the Republic was a patriotic and fraternal organization of the Union survivors of the military and naval forces of the Civil War who served between April 12, 1861, and April 9, 1865.

Iowa was one of the first states of the Union to attempt organization of the Grand Army of the Republic, receiving as a department its first charter on July 12, 1866. Its permanent organization dates from January 23, 1879.

There were over 519 posts chartered in Iowa. Membership stood at its peak in 1890 when 52,013 veterans held membership.

Six veterans of the Civil War served as governors of Iowa: Colonel William M. Stone of Knoxville, 1864-1868; Colonel Samuel Merrill of McGregor, 1868-1872; Colonel Cyrus C. Carpenter of Fort Dodge, 1872-1875; Captain Joshua G. Newbold of Mount Pleasant, 1877-1878; Captain Buren R. Sherman of Vinton, 1882-1886; Lieutenant Colonel Francis M. Drake of Centerville, 1896-1898.

To the Grand Army of the Republic goes the credit for having instituted Memorial Day, with all the tender and reverent patriotism which that occasion always reveals, and for having kept alive, in history and story, the brave deeds performed upon the battlefields by many a gallant soldier. To them goes the credit of having preserved the Union at a critical period in its history. Their average age when they fought the war was nineteen.

Nate E. Kendall, former governor of Iowa, was principal speaker at the dedication of the Iowa monument on the battlefield of Shiloh. He eulogized the veterans of that sanguine conflict, when he said:—"No soldiery ever entered a field with such noble purpose, and none ever emerged with a record of such glorious accomplishment. When our beloved flag was insulted, when our territorial integrity was threatened, when our national life was imperiled, they promptly responded to the appeal of President Lincoln, and cheerfully embraced self immolation to secure the perpetuity of the government of the people, by the people and for the people, and to render forever positive the certainty that the government, after being baptized in the sacred blood of the Revolutionary fathers, should not disappear from the earth, but that it, under God, should have everlasting life.

"And over the graves of the fallen dead the spring has cast its tender violets, the summer its gorgeous field of flowers, the autumn its golden withered leaves, the winter its blanket of snow. All is forgiven, all is forgotten except the glorious results of the combat in which our soldiers were engaged.

"The United State of America! The immortal principles of justice and equity which underlie it! The incomparable benefits which it secures to its citizenship! The inestimable sacrifices which have been suffered to maintain it! It is our home, our country, our beloved government, bequeathed to us forever by the venerated fathers, the most invaluable inheritance ever bestowed upon the sons of men."

The Iowa Department lost its last member in the death on September 20, 1949, of James P. Martin of Sutherland. Thus the last Iowa member of that long line of the Grand Army of the Republic answered "taps" and bivouaced on the eternal camping grounds.

The 55th General Assembly dismantled the G.A.R. room in the capitol and stored the records with the History and Archives department.

Spanish-American War

The United Spanish War Veterans came into existence because of the desire to carry on the comradeship that came from their associations in the service with the only 100 per cent volunteer war the world has ever known.

In this organization, the Iowa Department is one of 52 departments, and maintains its headquarters in room 102 in the north corridor, basement floor of the state capitol. Here is kept the records of the organization and personnel. Plans are made for the annual encampment, service work given in claims for pensions for widows and the orphans of deceased veterans.

The men who served in Iowa's four regiments of infantry and the two batteries of light artillery numbered 5,696; there were two killed in action, 38 wounded and 163 died of disease.

Out of this war came men who later served their state and national government in high positions—Dan Turner, Corning, Governor 1931-1933; Joe Hanley, Muscatine, later New York Lt. Governor of that state; Lloyd Thurston, Osceola, member of the State Legislature, and the U. S. Congress, now National Commander in Chief, 1954-1955, United Spanish War Veterans; Horace M. Havner, National Commander in Chief of the United Spanish War Veterans 1947-1948.

The leaders of the American Army in World War I were all veterans of this war. Among them were such men as Matthew A. Tinley, Council Bluffs, Colonel of the famous Iowa Regiment, the 168th Infantry, and all of the field officers of that regiment.

The war was the only one fought by an army of this country where the returns were greater than the total cost of the war.

Private Colleges and Universities

In addition to its three state institutions of higher learning, Iowa has a large number of colleges and universities which are material factors in making this state stand first in literacy and intelligence. There are few places in Iowa more than 40 to 50 miles distant from some institution of higher learning well fitted by curriculum and faculty to teach those things which lead to the higher and better life and provide the education that makes for culture and higher citizenship.

Besides the colleges giving four-year courses, Iowa provides that Junior Colleges may be created and conducted by any community that accepts the provisions as set up in the law. Thus many students take two years of advanced learning, before going on for further work in a four-year institution.

Private colleges of Iowa which are fully accredited and offer four-year liberal arts courses are the following, arranged alphabetically:

Buena Vista College, Storm Lake

Buena Vista college is located in Storm Lake. The Fort Dodge Presbytery founded the school in 1884 at Fort Dodge. The college was later moved to Storm Lake on July 8, 1891, and became the joint responsibility of both the Fort Dodge Presbytery and the Sioux City Presbytery.

vania farmer, money needed to buy an 80 acre tract of land. Other endowments followed, and later, in 1879, the college was incorporated as Coe College.

A co-educational college, Coe maintains an informal relationship with the Presbyterian Church. Enrollment during the past few years has averaged over 750, and the college has gained the reputation of being one of the finest independent liberal arts colleges in the Midwest.

The Government of Iowa

Prepared for the Iowa Official Register by the State Historical Society of Iowa.

HE government of the State of Iowa is based upon a constitution adopted by the people and upon statute laws enacted from time to time by the General Assembly. Iowa has had two state constitutions, the first approved in 1846, the second one in 1857. The present constitution has been amended a number of times.

The Electorate—All men and women who have lived in Iowa for six months and in the county in which they claim residence for sixty days are entitled to vote if they are citizens of the United States and are twenty-one years of age or over. Persons convicted of infamous crimes and those declared idiotic or insane are, however, disfranchised. The right of women to vote in Iowa is based upon the nineteenth amendment to the United States constitution.

Election Days—The regular elections for national, state, district and county officers are held on the Tuesday following the first Monday of November of the even-numbered years. Candidates, with a few exceptions, are nominated at the primary election held on the first Monday in June preceding the general election. Provision is also made for nominations by petition or convention. Political parties must use the primary for nominating candidates, except for the judiciary, but in case no candidate receives the necessary thirty-five per cent at the primary, a convention may nominate.

The Legislative Department

General Assembly—The legislative authority of the State of Iowa is vested by the constitution in a General Assembly which consists of a Senate and a House of Representatives. The terms of both senators and representatives begin on the first day of January following their election. Regular sessions are held biennially, commencing on the second Monday of January of the odd-numbered years. Special sessions of the General Assembly may be called by the proclamation of the governor.

House of Representatives—The House of Representatives consists of one hundred eight members, elected for two years. Each of the ninety-nine counties is entitled to one representative and each of the nine counties having the largest population elects an additional representative. Any person who has resided in the state for one year and has the qualifications of a voter is eligible for election as a representative. Women were admitted to the General Assembly by an amendment to the state constitution adopted in 1926. The House of Representatives elects a speaker and other officers.

Senate—The Senate consists of fifty members, elected by districts for a term of four years. A senatorial district contains from one to three counties, according to population, and elects one senator. According to the constitution, approximately one-half the senators are to be elected at each alternate biennial election, but due to changes in the districts, the terms of twenty-one senators now expire at the end of each alternate legislative biennium and those of twenty-nine in the intervening years. Senators must be twenty-five years of age and have the other qualifications required of representatives.

The Executive Department

Elective Officers—The constitution of Iowa makes provisions for a governor, lieutenant governor, secretary of state, auditor of state, treasurer of state and attorney general, who are elected for terms of two

years at the regular biennial elections in the even-numbered years. In addition, the General Assembly has made provision for a secretary of agriculture, elected for two years; a board of commerce commissioners of three members elected for a term of four years. A superintendent of public instruction, is chosen by a State Board of Public Instruction, consisting of one member from each congressional district in Iowa and one appointed at large by the governor.

Governor—The supreme executive power of the state is vested in the governor. It is his duty to see that the laws are enforced, to supervise the official business of the state, to make recommendations to the General Assembly, and to appoint various officers and boards. He has the power to call special sessions of the Legislature and veto acts passed by the General Assembly, but a majority of two-thirds of each house may pass a bill over his veto. To qualify as governor, a person must have been a citizen of the United States and a resident of the state for at least two years and must be thirty years of age or over at the date of election.

Lieutenant Governor—The lieutenant governor succeeds the governor in case of his death, resignation or disability. His chief function is to act as president of the Senate.

Appointive Officers—In addition to the executive officers mentioned, all of whom are elected, there are a number of appointive officers, including the comptroller, the superintendent of banking, the insurance commissioner, the labor commissioner, the adjutant general, the commissioner of public health, the industrial commissioner and commissioner of public safety, all appointed by the governor, usually with the approval of the senate. The governor also appoints, with the approval of the senate, the members of a number of administrative boards, including the state board of regents, the board of control of state institutions, the state tax commission, the board of parole, the state board of conservation, the liquor control commission, the state highway commission and the unemployment compensation commission.

Executive Council—The executive council is an ex-officio board made up of the governor, secretary of state, auditor, treasurer and secretary of agriculture.

State Printing Board—The state printing board has three ex-officio members—the secretary of state, auditor and attorney general—and two members appointed by the governor. This board appoints the superintendent of printing.

The Judicial Department

The judicial department of the State of Iowa is vested by the constitution in a supreme court, district courts and municipal and superior courts, as the General Assembly shall provide.

Supreme Court—The supreme court consists of nine justices, elected for terms of six years, approximately one-third being elected at each regular biennial election. The senior in time of service is chief justice for six months until each judge has served in that capacity. The supreme court appoints a reporter of the supreme court who is also the code editor, and a clerk. Both appointments are for four years.

Attorney General—The constitution also provides for an attorney general who is elected at the regular biennial election for a term of two years. He represents the state in legal matters, gives advice to state officers, and has, in addition, administrative functions.

Judicial Districts—The State of Iowa is divided by law into twenty-one judicial districts, composed of from one to nine counties. Each district elects from two to six judges, there being at present seventy district judges in the state. One of the district judges presides over the district court sessions in each county. A county attorney and a clerk of the court are elected by the voters in each county.

Inferior Courts—The General Assembly has provided also for other inferior courts. Each township is authorized to elect two justices of

the peace who hear cases involving offenses and hold preliminary hearing on more serious charges. Municipal courts, superior courts, police courts and mayors' courts are authorized in cities and towns under various restrictions. Municipal courts are optional in cities having a population of five thousand or more and superior courts in cities with four thousand or over. Both municipal and superior court judges are elected for four-year terms.

Municipal Courts—If a city of the first class has neither a municipal nor a superior court, the council shall appoint a police judge in commission governed and city manager cities and may provide for the election of a police judge in such cities under the general law. In all municipalities having none of these special courts, the mayor acts as the police judge.

Jury Trials—Jury trials are the rule for trials of serious cases, but under certain conditions may be waived or denied. Petit juries consist of twelve persons who must be "electors," except in some courts of restricted jurisdiction where the number of jurors may be six persons.

Local Government in Iowa

County Officials—The State of Iowa is divided into ninety-nine counties, the boundaries of which may not be changed unless the change is approved by the voters of each county concerned. A board of supervisors consisting of three, five or seven members is the chief administrative agency in the county. They appoint a county engineer. In addition, an auditor, who is the clerk of the board of supervisors, a sheriff, county attorney, recorder, treasurer, coroner and clerk of the district court are elected biennially by the voters. A county superintendent of schools is chosen every three years by a convention composed of representatives of the school districts. The county assessor is chosen by the board of supervisors, county board of education and the mayors of the various towns in the county, for a term of four years. They likewise fix his salary.

Local Functions—The Iowa county is a quasi-political corporation which collects municipal, school, county and state taxes, enforces state laws, has charge of poor relief and certain other welfare activities, and shares with the state highway commission the management of the roads and bridges in the county. Townships, which in earlier days were effective units of local government within the counties, have lost almost all their functions, except for the election of justices of the peace in which many townships default.

City Government—The laws of Iowa also authorize the incorporation of cities and towns. These municipalities derive their authority from the General Assembly and have only the powers specifically granted to them. Four cities and towns are governed by special charters granted before the adoption of the present constitution which forbids such acts of incorporation. Seven cities have the commission form of government; three have adopted the city manager plan by popular election; and a few others have a city manager by ordinance. Members of the commission are elected by the voters. The city manager in cities adopting that plan by a popular vote is appointed by a commission.

Municipal Classes—All other municipalities are under the general law. They are classified according to population into cities of the first class, having over 15,000 population; cities of the second class, having from 2,000 to 15,000 population; and towns having less than 2,000 population. All these municipalities have the mayor-council form of government, both the mayor and the members of the council being elected by the voters for two-year terms. A treasurer, assessor and park commissioners, and in some cities a police, superior or municipal court judge, are also elected.

City Councils—The council is the law-making body in municipal government and it is also the chief administrative agency. The mayor presides over the council, although he is not a member, and has the power

to veto acts of the council subject to a two-thirds majority vote over his veto. He supervises municipal activities and in cities and towns which do not have a municipal, superior or police court, he serves as police judge. He also appoints certain officers, including the marshal or chief of police, the city health officer, and members of the police and fire board. The city solicitor and clerk, and in some cases the engineer and members of the zoning board of adjustment are chosen by the council.

Taxation

Tax Sources—Taxation is probably the most important governmental power. The present tax system of Iowa is based largely on property, sales, income and corporation taxes, although there are taxes on inheritance, poll taxes and sales or license taxes on gasoline, cigarettes, beer and chain stores.

Tax Levies—Property is assessed by the county assessors. Assessments are subject to revision by local boards and by the state tax commission. The various mill levies for state, county, school and municipal purposes are computed by the county auditor on the assessed valuation and the tax money is paid to the county treasurer who distributes it to the proper fund. Levies for county, school or municipal purposes are, in most cases, limited by state law.

Tax Assessments

Section 427.13 of the 1954 Code of Iowa, states that all property, not specifically exempted by statute, is taxable.

Personal property is listed each year for taxation purposes; real estate was listed in 1953 and is to be listed in each fourth year thereafter.

In each year in which real estate is not listed, all new buildings erected since the last previous assessment must be listed and the valuation added to the valuation of the real estate on which the buildings are situated.

The statutes of Iowa require all property to be listed at 60 per cent of its actual value.

County Boards of Review. The boards of review shall meet on the first Monday in May, in the office of the county assessor and shall sit from day to day until their duties are completed which shall not be later than the first day of June.

It shall adjust assessments by raising or lowering the assessments of any person, partnership, corporation or association as to any of the items of their assessments in such manner as to secure the listing of property at taxable value.

It shall also add to the assessment rolls any taxable property not included therein, assessing the same in the name of the owner thereof.

All meetings of the board of review are public.

Taxpayers who are not satisfied with the valuation of their property as may be listed by the assessor may appear before said board of review and state their grievances. Failure of any taxpayer to appear before the board or to file a written statement setting out their grievances, the taxpayer will lose his rights of hearing or his right to appeal to the district court.

City Boards of Review meet on May 1 and may continue in session until August 1 if necessary.

Levies. The board of supervisors fixes the county tax levies at the September meeting. School corporations make their levies and certify them to the office of the county auditor on or before the fifteenth day of August. Cities and towns also certify their tax levies within the same time. Township trustees make, and the clerks certify, the township levies within the same time.

The state tax commission fixes the rates necessary to meet the amount required for any state levy authorized by the comptroller or treasurer.

All taxes are due and payable January 1st of each year. The first installment of taxes becomes delinquent April 1st and a penalty of three-fourths of one per cent per month attaches. The second installment of taxes becomes delinquent October 1st and a penalty of three-fourths of one per cent per month attaches.

Tax sales are held on the first Monday in December of each year. Prior to tax sales, an advertising fee of 45 cents attaches and in case of sale, 50 cents is added for each tax sale certificate.

Redemption. For redemption from tax sale, four per cent penalty is added to the sum paid by the purchaser at tax sale and all subsequent taxes paid by him under sale. Also six per cent interest is added from time of payment until time of redemption, together with 25 cents for redemption certificate.

Tax sales run three years before purchaser is entitled to a tax deed. Purchasers at a scavenger tax sale are entitled to a deed after one year.

Taxes a Lien on Real Estate. Taxes due from any person upon personal property are a lien upon any or all real estate owned or afterwards

acquired by such persons. As against the purchaser, taxes are a lien against real estate on and after December 31st of the year in which they were assessed and levied.

Military Exemptions. The following should receive the attention of soldiers, sailors, marines and nurses who have participated in the several wars in which this country was engaged, subsequent to and including the war with Mexico, who are entitled to exemption from taxes. The exemptions are as follows:

\$3,000 assessed value of any soldier, sailor or marine of the Mexican or Civil Wars.

\$1,800 assessed value to any soldier, sailor or marine of the war with Spain, Indian wars, Chinese relief or Philippine insurrection.

\$750 assessed value to any serviceman or woman of World War I.

\$500 assessed value to any serviceman or woman of World War II.

\$500 assessed value to any serviceman or woman during the Korean war, from June 27, 1950 to July 27, 1953. Effective as to 1957 taxes.

The property, to the same extent, of the wife of any such soldier, sailor or marine, where they are living together and he has not otherwise received the benefits above provided; and the property to the same extent of the widowed mother, remaining unmarried, of any such soldier, sailor or marine where the said widowed mother is dependent upon any such soldier, sailor or marine for support and he has not otherwise received the benefits above provided; also the property to the same extent of the widow, remaining unmarried, or minor child or children of any of the persons entitled to exemption.

The above exemptions are to be made from any property and the exemption is to be allowed during the time such persons remain the owners of the property upon which exemption is granted, but must be claimed each year.

The law also requires that the person claiming any of the above exemptions must be a resident of and domiciled in the state of Iowa.

Soldiers in actual military service are permitted to retain their homestead rights even though they are not for the period of their service residents of or domiciled in Iowa.

Homestead Tax Credit Law. Every home owner in the State of Iowa, who resides upon his homestead six months out of the year, is entitled to a homestead tax credit upon his taxes.

The amount of credit to which he is entitled depends upon the value of his homestead and the millage rate of credit allowed by the Iowa state tax commission.

No home owner can receive a credit upon his taxes upon any value in excess of \$2,500 and the Iowa state tax commission cannot refund in excess of 25 mills upon such valuation. In other words, no home owner can receive in excess of \$62.50 refund.

Under this law, a home owner is:

- (1) One who holds fee simple title to the homestead.
- (2) A person occupying a homestead as a surviving spouse.
- (3) A person occupying property under contract of purchase where it can be shown that not less than ten per cent of the purchase price named in the contract has been paid and that such contract has been made a matter of record in the office of the county recorder.
- (4) A person occupying a homestead under devise or by operation of inheritance laws.
- (5) A person occupying property under deed which conveys a divided interest to other blood relatives or legally adopted children.

Under this homestead tax credit law, a dwelling house is defined as

any building which is occupied wholly or in part by the owner as a home.

In rural districts it cannot exceed 40 acres and in towns and cities it cannot exceed a \$2,500 valuation.

A homestead may contain one or more contiguous lots or tracts of ground with buildings upon it, which is used in good faith as a homestead.

Home owners desiring to avail themselves of the benefits of this law must file application for such tax credit with the assessor or the county auditor each year between January first and up to and including July first. This application is for taxes payable in the succeeding year.

Budgets Prepared and Submitted

Preparation—All taxing districts except townships must at least twenty days prior to August 15 of each year prepare a budget of anticipated expenditures and estimated amount to be raised by taxation by funds. Rural schools post budget estimate ten days before dates of hearing. Other taxing districts subject to the budget law publish their budgets in a newspaper.

Certification—After hearing and decision of local board, budgets are certified to the county auditor not later than August 15. (C. '54, §24.17.)

Submitted to State Comptroller—As soon as taxes are certified by each local board and have been computed by the county auditor he shall forward a copy of each budget, together with a summary of all budgets, to the state comptroller.

County Budget—On or before December 31 of each year, each county is required to appropriate in detail anticipated expenditures for every office or department for each and every purpose for which expenditures are authorized or demanded. The budget in detail must be completed and adopted by January 31 of the year to which it applies. This procedure is appropriating in detail the budget certified in August by funds.

State—On or before September first, next prior to each biennial legislative session, all departments and establishments of the government shall transmit to the state comptroller estimates of their expenditure requirements for each fiscal year of ensuing biennium.

The comptroller shall prepare and file in his office, on or before the first day of December of each even-numbered year, a state budget report.

Not later than February 1 of the year of each biennial legislative session, the governor shall transmit to the Legislature a document to be known as a budget, setting forth his financial program for each of the fiscal years of the ensuing biennium.

The Song of Iowa.

Air: "Der Tannenbaum."* (My Maryland.)

By S. H. M. BYERS.

1. You ask what land I love the best, I - o - wa, 'tis I - o - wa, The
2. See you - der fields of tasseled corn, I - o - wa, in I - o - wa, Where

fair - est State of all the west, I - o - wa, O! I - o - wa. From
Plen - ty fills her gold - en horn, I - o - wa, in I - o - wa. See

you - der Mis - sis - sip - pi's stream To where Mis - sou - ri's wa - ters gleam O!
how her won - drous prai - ries shine To you - der sun - set's purpling line, O!

fair it is as po - et's dream, I - o - wa, in I - o - wa.
hap - py land, O! land of mine, I - o - wa, O! I - o - wa.

3 And she has maids whose laughing eyes,
Iowa, O! Iowa,
To him who loves were Paradise,
Iowa, O! Iowa,
O! happiest fate that e'er was known,
Such eyes to shine for one alone,
To call such beauty all his own,
Iowa, O! Iowa.

4 Go read the story of thy past,
Iowa, O! Iowa,
What glorious deeds, what fame thou hast!
Iowa, O! Iowa,
So long as time's great cycle runs,
Or nations weep their fallen ones,
Thou'lt not forget thy patriot sons,
Iowa, O! Iowa.

*"Der Tannenbaum," the old air to which this song is sung, was a popular German Students' song as early as 1819. It had been a Volks song long before that, even. During our Civil War, the Southerners adapted it to the song "My Maryland."

Major S. H. M. Byers, in his day the "poet laureate" of Iowa, wrote the words to set to music for this official song for the Hawkeye State.

LEGISLATIVE OFFICERS FOR THE TERRITORY OF IOWA

Before Iowa was admitted as a state in 1846, the Senate of the territory was called the Legislative Council. The presiding officer was known as the President of the Council. Iowa's constitution, approved by a vote of the people in 1857, created the office of Lieutenant Governor and named him as the ex officio President of the Senate.

The 1838, 1839 and 1840 sessions were held at the territorial capital at Burlington. The 1841 through 1845 sessions were held at Iowa City. In 1855 the 5th General Assembly voted to change the location of the capital to Des Moines.

GREAT SEAL OF THE UNITED STATES

The Great Seal of the United States, adopted by Congress June 20, 1782, carries on its obverse side the Coat of Arms of the United States. The stripes on the shield represent the states; the blue above represents Congress. In its talons the eagle grasps an olive branch and a cluster of arrows—the Congressional power to make peace or war. The constellation of thirteen stars above denotes a new Nation in the world.

The reverse of the seal shows a pyramid, to signify "strength and duration," while the eye over it and the motto, "Annuit Coeptis" (He has favored our beginning), allude to "the many signal interpositions of Providence in favor of the American cause." The Roman numerals give the year of Independence; the motto, "Novus Ordo Seclorum" (a new order of the ages), signifies the beginning of the new American era.

The national motto, "E Pluribus Unum," was first suggested on August 10, 1776, by a Congressional Committee, consisting of Benjamin Franklin, John Adams and Thomas Jefferson.

If you are curious to see these seals and shield, look at a one dollar bill.

THE FLAG

LINCOLN'S GETTYSBURG ADDRESS

**THE CONSTITUTION OF THE
STATE OF IOWA**

**THE DECLARATION OF
INDEPENDENCE**

**THE CONSTITUTION OF THE
UNITED STATES**

Old Glory

On June 14, 1777, the Second Continental Congress adopted a resolution that brought into being the U. S. Flag: "Resolved, That the Flag of the United States be thirteen stripes, alternate red and white; that the union be thirteen stars, white in a blue field representing a new constellation."

The action of the Continental Congress came almost a year after the Declaration of Independence. The flag with thirteen stripes and thirteen stars continued to be used as the national emblem until Congress passed the following act, which President Washington signed:

"That from and after May 1, 1795, the flag of the United States be fifteen stripes, alternate red and white; and that the union be fifteen stars, white in a blue field."

This action was necessitated by the admission of the States of Vermont and Kentucky to the Union. The flag of 1795 had the stars arranged in three rows of five each instead of in a circle, and served for 23 years.

With the admission of more new states, however, it became apparent that the 1795 flag would have to be further modified; hence in 1818 a law was passed by Congress providing:

"That from and after the fourth day of July next, the flag of the United States be thirteen horizontal stripes, alternate red and white; that the union have twenty stars, white in a blue field.

"That on the admission of every new state into the Union, one star be added to the union of the flag; and that such addition shall take effect on the Fourth of July next succeeding such admission."

Iowa was admitted to the union as the 29th state. When Arizona was admitted in 1912, it added the 48th star to the flag.

The Flag Speaks!

Former Secretary of Interior Franklin K. Lane, apostrophized the U. S. flag in this way:

"I am what you make me—nothing more. I am your belief in yourself; the dream of what a people may become. I am all you hope to be and have courage to die for.

"I swing before your eyes, a bright gleam of color, the pictured suggestion of that big thing which makes this nation great.

"My stars and my stripes are your dreams and your labors. They are bright with cheer, brilliant with courage, firm with faith, because you have made them so out of your hearts.

"For you are the makers of the Flag, and it is well that you glory in the making."

United States Flag Etiquette

When the flag is draped down, the blue field always must be at the left. * * * The flag never must be used as a drape, nor as background for some ornament. * * * The correct shield does not have any stars—just a plain blue field at the top, and seven white and six red stripes. * * * When the National Anthem has been played, do not applaud. It would be just as correct to applaud a minister's prayer.—National Flag Code Committee.

* * *

The Pledge of Allegiance

I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

* * *

The American's Creed

I believe in the United States of America as a government of the people, by the people, for the people; whose just powers are derived from the consent of the governed; a Democracy in a Republic; a sovereign Nation of many sovereign States; a perfect Union, one and inseparable; established upon those principles of freedom, equality, justice, and humanity for which American patriots sacrificed their lives and fortunes.

I therefore believe it is my duty to my Country to love it; to support its Constitution; to obey its laws; to respect its Flag; and to defend it against all enemies

(The above creed was written by William Tyler Page, Clerk of the U. S. House of Representatives, in 1917. It was accepted by the House of Representatives on behalf of the American people, April 3, 1918.)

Lincoln's Gettysburg Address

Four score and seven years ago our fathers brought forth, upon this continent, a new nation, conceived in Liberty, and dedicated to the proposition that all men are created equal.

Now we are engaged in a great civil war, testing whether that nation, so conceived, and so dedicated, can long endure. We are met here on a great battle-field of that war. We ^{have} ~~and~~ ^{come} to dedicate a portion of it as ^{or} ~~the~~ final resting place ^{for} of those who here gave their lives that that nation might live. It is altogether fitting and proper that we should do this.

But in a larger sense we can not dedicate—we can not consecrate—we can not hallow this ground. The brave men, living and dead, who struggled here, have consecrated it far above our ^{poor} power to add or detract. The world will little note, nor long remember, what we say here, but can never forget what they did here. It is for us, the living, rather to be dedicated here to the unfinished ^{work} which they have, thus far, so nobly carried on. It is rather

for us to be here dedicated to the great task remaining before^{us}—that from their honored dead we take increased devotion to ~~the~~^{that} cause for which they here gave ~~us~~ the last full measure of devotion— that we here highly resolve that these dead shall not have died in vain; that this nation shall have a new birth of freedom; and that this government of the people, by the people, for the people, shall not perish from the earth.

These two pages are facsimiles of the manuscript of the address delivered by President Abraham Lincoln at the Gettysburg Cemetery grounds on November 19, 1863. After the President had delivered his short address, he turned to Marshall Lamon, who had presented him less than five minutes before, and said, "Lamon, that speech won't scour. It is a flat failure."

There are five known copies in President Lincoln's handwriting of the Gettysburg address. The original and second drafts were given by the President to his secretary, John Hay. On April 11, 1916, they were presented to the Government by Colonel Hay's three children.

That Lincoln wrote the address on a rough bit of paper on the way to Gettysburg is an exploded but persistent legend. Actually, the first sheet of the first draft was written in Washington, on Executive Mansion stationery. The corrections and the second page were written in lead pencil, probably at Judge Wills' house in Gettysburg, the night of the 18th.

The second draft, believed to be the reading copy at the dedication ceremony, is assumed to have been written on the 19th, between breakfast and the start to the cemetery. There are changes from the first version, slight matters of punctuation, or of a single word—a "that nation" and a "this nation" for "the nation", "consecrated" for "hallowed," "but" for "while," and the like. Lincoln's eye evidently strayed in copying, for "We have come" of the first version was changed to "We are met," then crossed out and the original form restored above it. The first important change is "those who here gave their lives" instead of "those who died here." The sentence, "This we may, in all propriety do." became "It is altogether fitting and proper that we should do this." The entire beginning of the first draft's third paragraph is rephrased. Instead of "It is rather for us, the living, we here be dedicated to the great task remaining before us" ["we here be dedicated" had been corrected in pencil above the scratched-out "to stand here"] Lincoln added a parallel sentence: "It is for us, the living, rather to be dedicated here to the unfinished work which they have, thus far, so nobly carried on. It is rather for us to be here dedicated to the great task remaining before us"—Cuts and data from Library of Congress.

THE CONSTITUTION OF THE STATE OF IOWA

INTRODUCTION

Iowa was organized as a separate Territory by an act of Congress approved on June 12, 1838, but it was not until 1844 that steps were taken to secure admission into the Union. A constitutional convention met at Iowa City in October, 1844. The Constitution drafted by this convention was twice submitted to the voters of the Territory of Iowa and twice rejected by them, largely because of dissatisfaction with the boundaries of the proposed State.

A second constitutional convention met at Iowa City in May, 1846. The Constitution drafted by this convention was ratified by a majority of 456 votes at an election held on August 3, 1846, and Iowa was admitted as a State on December 28, 1846.

The Constitution of 1846, however, contained a number of provisions which were found to be unsatisfactory in practice. One of these was the prohibition of banking institutions. As a result of this dissatisfaction, the legislature in 1855 provided for an election on the question of calling a convention to revise or amend the Constitution of 1846. The vote was 32,390 for a convention and 14,162 against a convention. Delegates were elected on November 4, 1856, and the convention met at Iowa City on January 19, 1857.

The delegates drafted a new constitution which was submitted to the people at an election held on August 3, 1857, and ratified by a vote of 40,311 to 38,681. This Constitution went into effect by proclamation of the governor on September 3, 1857.

The Constitution of 1857 has, since that time, remained the fundamental law of the State of Iowa; but it has been amended a number of times.

THE CONSTITUTION¹

WE, THE PEOPLE OF THE STATE OF IOWA, grateful to the Supreme Being for the blessings hitherto enjoyed, and feeling our dependence on Him for a continuation of those blessings, do ordain and establish a free and independent government by the name of the STATE OF IOWA, the boundaries whereof shall be as follows:

Beginning in the middle of the main channel of the Mississippi River, at a point due East of the middle of the mouth of the main channel of the Des Moines River, thence up the middle of the main channel of the said Des Moines River, to a point on said river where the Northern boundary line of the State of Missouri—as established by the Constitution of that State—adopted June 12th, 1820—crosses the said middle of the main channel of the said Des Moines River; thence Westwardly along the said Northern boundary line of the State of Missouri, as established at the time aforesaid, until an extension of said line intersects the middle of the main channel of the Missouri River; thence up the middle of the main channel of the said Missouri River to a point opposite the middle of the main channel of the Big Sioux River, according to Nicollet's Map; thence up the main channel of the said Big Sioux River, according to the said map, until it is intersected by the parallel of forty-three degrees and thirty minutes North latitude; thence East along said parallel of forty-three degrees and thirty minutes until said parallel intersects the middle of the main channel of the Mississippi River; thence down the middle of the main channel of said Mississippi River to the place of beginning.

SEC. 32. Members of the General Assembly shall, before they enter upon the duties of their respective offices, take and subscribe the following oath or affirmation: "I do solemnly swear, or affirm, (as the case may be) that I will support the Constitution of the United States, and the Constitution of the State of Iowa, and that I will faithfully discharge the duties of Senator, (or Representative, as the case may be), according to the best of my ability." THE DECLARATION OF INDEPENDENCE¹

When in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the Powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.—We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.—That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed.—That whenever any Form of Government becomes destructive to these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its power in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shown, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security.—Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid world.—He has refused his Assent to Laws, the most wholesome and necessary for the public good.—He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.—He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only.—He has called together legislative bodies at places unusual, uncomfortable, and distant from the depository of their Public Records, for the sole purpose of fatiguing them into compliance with his measures. He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasion on the rights of the people.—He has refused for a long time, after such dissolutions, to cause others to be elected; whereby the Legislative powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the meantime exposed to all the dangers of invasion from without, and convulsions from within.—He has endeavored to prevent the population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migration hither, and raising the conditions of new Appropriations of Lands.—He has obstructed the Administration of Justice, by refusing his Assent to Laws for establishing Judiciary Powers.—He has made Judges dependent on his Will alone, for the tenure of their offices, and the amount and payment of their salaries.—He has erected a multitude of New Offices, and sent hither swarms of Officers to harrass our People, and eat out their substance.—He has kept among us, in times of peace, Standing Armies, without the Consent of our legislatures.—He has affected to render the Military independent of and superior to the Civil Power.—He has combined with others to subject us to a jurisdiction foreign to our constitution, and unacknowledged by our laws; giving his Assent to their acts of pretended Legislation:—For quartering large bodies of armed troops among us:—For protecting them, by a mock Trial, from Punishment for any Murders which they should commit on the Inhabitants of these States:—For cutting off our Trade with all parts of the world:—For imposing taxes on us without our Consent:—For depriving us in many cases, of the benefits of Trial by Jury:—For transporting us beyond Seas to be tried for pretended offenses:—For abolishing the free System of English Laws in a neighboring Province, establishing therein an Arbitrary government, and enlarging its Boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these Colonies:—For taking away our Charters, abolishing our most valuable Laws, and altering fundamentally

¹The Declaration of Independence was adopted by the Continental Congress on July 4, 1776. The text as here presented was copied verbatim from *Documents Illustrative of the Formation of the Union of the American States*, published by the United States government in 1927, which in turn printed it from the engrossed copy of the original manuscript in the Library of Congress.

the Forms of our Government:—For suspending our own Legislatures, and declaring themselves invested with Power to legislate for us in all cases whatsoever.—He has abdicated Government here, by declaring us out of his Protection and waging War against us.—He has plundered our seas, ravaged our Coasts, burnt our towns, and destroyed the lives of our people.—He is at this time transporting large armies of foreign mercenaries to compleat the works of death, desolation and tyranny, already begun with circumstances of Cruelty & perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the Head of a civilized nation.—He has constrained our fellow Citizens taken captive on the high Seas to bear Arms against their Country, to become the executioners of their friends and Brethren, or to fall themselves by their Hands.—He has excited domestic insurrection amongst us, and has endeavoured to bring on the inhabitants of our frontiers, the merciless Indian Savages whose known rule of warfare, is an undistinguished destruction of all ages, sexes and conditions. In every stage of these Oppressions We have Petitioned for Redress in the most humble terms: Our repeated Petitions have been answered only by repeated injury. A prince, whose character is thus marked by every act which may define a Tyrant, is unfit to be the ruler of a free people. Nor have We been wanting in attention to our British brethren. We have warned them from time to time of attempts by their legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred to disavow these usurpations, which, would inevitably interrupt our connections and correspondence. They too have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity, which denounces our Separation, and hold them, as we hold the rest of mankind, Enemies in War, in Peace Friends.—

WE, THEREFORE, the REPRESENTATIVES of the UNITED STATES OF AMERICA, in General Congress, Assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the Name, and by Authority of the good People of these Colonies, solemnly publish and declare, That these United Colonies are, and of Right ought to be FREE AND INDEPENDENT STATES; that they are Absolved from all Allegiance to the British Crown, and that all political connection between them and the State of Great Britain, is and ought to be totally dissolved; and that as Free and Independent States, they have full Power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other Acts and Things which Independent States may of right do.—And for the support of this Declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our Lives, our Fortunes and our sacred Honor.

¹The Constitution of the United States was adopted by a convention of delegates from the thirteen States on September 17, 1787, and transmitted to the Congress of the Confederation which in turn submitted it to the States for ratification on September 28, 1787. It was ratified by the required nine States by June 21, 1788, and went into effect on March 4, 1789.

The text of the Constitution and the first nineteen amendments are taken from *Documents Illustrative of the Formation of the Union of the American States*, published by the United States government in 1927. Compiled, edited, and documented by Benj. F. Shambaugh and Ruth A. Gallaher of the State Historical Society of Iowa. Words, phrases and the sections which have been rendered inoperative by amendment appear in *italics*. The material added to the Constitution by amendment is enclosed within brackets. Besides being indicated in their proper place in the text, the amendments are also printed in full following the Constitution.

²For an additional disqualification added at the close of the Civil War see Amendment XIV, Section 3.

³The preceding provisions in *italics* were rendered inoperative by a part of Section 2 of Amendment XIV, which is inserted within the brackets. According to the Fourteenth Amendment the number of representatives from any State is to be reduced if the right to vote is denied the male citizen over twenty-one years of age, but this provision has never been enforced.
