VICTORIA, B. C., MONDAY, MAY 12, 1913

NO. 111

FIVE FOUND STARVING ON ICE FLOE IN FRASER RIVER LOSE COUNT OF DAYS AND ARE TOO WEAK TO SIGNAL RESCUE PARTY

WERE PARTED FROM FRIENDS WHEN ICE BROKE FROM SHORE

Vancouver, May 12.—Five men, in a starving condition, have been found almost frozen to death, imprisoned on a large ice floe barred from a journey seawards by being brought to a stop on a rock in mid-stream in the Fraser river. The men are now at Fort George, where they were taken after a perilous experience. They are construction men employed on railway construction near Tete Jaune Cache. Although they are famished and ill there is hope for their recovery.

The men were discovered by Captain Johnson, employed by the contractors, Foley, Welch & Stewart, while obtaining information on the state of the river from Tete Jaune Cache down. He and his companions observed the ice floe, and attracted by dark objects on it, navigated a dangerous current and discovered the men, who were in such sick condition that they had no power to signal to the launch, although able to watch it approaching.

After being revived and landed from the launch at Fort George the men said that a party of eight had left one of the

comps in the district and had taken a trail on the shore ice down the river to Fort George. The rescued men were behind the other three when the ice parted and they found themselves adrift with only a small quantity of provisions and few warm clothes. They believed they would be able to gain the shore at some point miles down the river and it was only when the ice block lodged against a rock in the centre of the swiftly-running stream, that they realized they were in danger. Efforts to loosen the floe were in vain and to attempt to swim ashore through the current was certain suicide. Each hour their island grew smaller and their plight worse. Provisions, which they had carried in their clothes, became exhausted, and they lost count of the days as they grew weaker.

What became of the other members of the party is not known, but their friends think they deserted the ice trail for the shore and are making their way down by slower and surer roads.

The ice on the Fraser has almost disappeared and it is expected that boats will be running upstream shortly. When the service starts careful lookout will be kept for the three remaining members of the party. The news of their experience reached here by a telegram which says four are foreigners and one a Scotsman.

CHILTERN RANGE HITS AN ICEBERG

Bowplates Dented by Glancing Blow as Steamer Crossed the Atlantic

CAPTAIN REPORTS ON MIRACULOUS ESCAPE

Montreal, May 12.—Collision with an iceberg in a dense fog was the experience of the Chiltern Range while on her voyage from Hull to Montreal. Her bowplates were badly dented by the glancing blow she struck the berg, and standing away to the eastward after the collision, the steamer was surrounded by icebergs that could be heard though not seen.

The escape of the vessel, comparatively undamaged, seems to have been nothing short of miraculous. Captain Rea, in an interview after the steamer's arrival here, said: "We were in latitude 46.29 N. and longitude 44.40 W. and were going dead slow because of the dense fog which prevented us seeing more than a few feet ahead. Suddenly an iceberg loomed up to starboard, which I estimated to be at least from 150 to 200 feet high. It towered above us."

"The vessel touched with her starboard bow, but fortunately the impact only badly dented a couple of her plates. The ship struck the berg a glancing blow. We just slid off the berg and had we gone astern there would probably have been a stern-on collision."

"What I was most afraid of was that an underlying spur of the iceberg might rip the ship open as was the case when the Titanic struck. When the ship slid away we went to the eastward, but very slowly. We kept to the eastward till dark and lay all night with the engines almost stopped."

"We were surrounded by icebergs, for, though we could not see them we could hear them. After every blast of the whistle, a sound like the report of a gun followed from 20 to 30 seconds later."

CYCLONE TRAVELS AT SPEED OVER PRAIRIE

Moose Jaw, Sask., May 12.—Within sight of Moose Jaw a cyclone travelled over four farms yesterday, leaving sundry damages in its wake. No permanent buildings were blown over, but outhouses, wagons and buggies figured in the losses. The cyclone died out after racing seven miles and was about half a minute in duration.

A valuable dog belonging to one of the farmers had a stick blown through its neck by the force of the wind.

GERMANS ARE PLANNING ALBERTA SETTLEMENT

Calgary, May 12.—A number of German capitalists, including Count Bernstorff, who have been visiting Southern Alberta, have purchased from the C. P. R. department of national resources twenty sections north of Banff.

They will bring out 40 settlers immediately and will build a central building to house 25 men. There will be a number of smaller houses in the area, all of German architecture.

COURTS MAY DECIDE ON JAPANESE STATUS

President Wilson Sees No Cause for Alarm in Alien Land Matter

HOPES LEGISLATION IN CALIFORNIA IS VETOED

Protest Was Formal and Friendly, Not in Aggressive Language

EXPECT REPLY FROM GOVERNOR AT ONCE

Washington, D. C., May 12.—President Wilson believes negotiations between Japan and the United States over the alien land legislation in California are not in an alarming state. He believes that the interchange of views thus far have been along frank lines calculated to remove the appearance of discrimination against Japanese subjects.

The president, discussing the subject informally to-day, took the position that the Webb bill would not violate the treaty between Japan and the United States. He intimated that Japan's protest was not founded on a claim that the treaty would be broken in any way, but upon the feeling that there was an effort to discriminate against Japanese on the ground of their alleged ineligibility to citizenship.

The president revealed that the question of naturalization had not yet entered the discussion with the Japanese ambassador, but that underlying the bill it was realized that the federal courts had not finally passed upon the question of eligibility.

It was intimated at the White House that for the present the hope was that the legislation in California either would be vetoed by Governor Johnson or be delayed by a referendum to permit something over some features of the situation. President Wilson endeavored to make it plain that the greatest frankness had prevailed between the two governments, even to the abandonment of many diplomatic formalities. The conferences thus far between Secretary Bryan or President Wilson and the Japanese ambassador were described as being those of one gentleman to another.

Intimations that the Japanese protest was couched in neither in vigorous nor aggressive language, but was formal, and friendly in character, came from the president during his talk to-day, and it was pointed out that the phrase "a very earnest protest," employed by Secretary Bryan in his message to Governor Johnson, was the description of the note which the American government had entertained rather than the emphasis of the Japanese ambassador. The president was disposed to talk freely of the subject, and appeared confident that a satisfactory adjustment would be accomplished.

The fact that Secretary Bryan has addressed an appeal to Governor Johnson, of California, to veto the alien land bill inasmuch as the governor had unofficially at least, repeatedly declared his purpose to sign the bill when it passed the legislature, is taken in official circles here as indicating either that some powerful influences have been brought to bear upon the governor in the interest of delay or, and more probable, that the Wilson administration is perfecting its record.

In this action there may be a double purpose. First, to satisfy Japan that the federal government has done all it can to prevent the legislation under its constitutional limitations, of which many diplomats contend Japan should have been aware when it entered into treaty relations, and, secondly, to place on the state authorities of California the responsibility for any serious outcomes of the alien land legislation.

As the legislature is near the end of its session, it is expected that Governor Johnson's reply will be forthcoming to-day or to-morrow. If he yields to Secretary Bryan's appeal the element of urgency will be removed, as Japanese land owners in California will not be in immediate danger of loss of their property, and the state department can, at its leisure, embark upon negotiations with the Japanese embassy for a new treaty to replace that of 1911, and provide some permanent means of adjustment of the rights of the citizens of one country resident in the other.

It has been suggested that possibly by a flat declaration that neither country shall admit the right of citizens of the other to hold land in its territories, the Japanese may be satisfied.

Should Governor Johnson decide to sign the bill notwithstanding federal opposition legal proceedings are almost certain to follow the first attempt of the California authorities to sequester the property of the Japanese land holders.

CROWN OF GALICIA BRINGS LONG CABLE

Thousand Feet of Wire Above Water on Island-Mainland Telephone Line

Vancouver, May 12.—At a cost of more than \$100,000, the British Columbia Telephone Company will lay across the Gulf of Georgia, from Point Grey to Newcastle Island, what it is said will be the longest telephone cable in the world. The cable will arrive in Vancouver on the steamer Crown of Galicia at the end of next week. It was manufactured to specifications in England, it having been found impossible to have such a cable made on this continent.

Direction has been completed of the extra high poles required by the company at Nanaimo in connection with the landing there of the new cable. To give strength, two poles are erected on Newcastle Island and two on Vancouver Island, immediately opposite, the poles being 70 and 100 feet long respectively. They will hold a span of 1,000 feet of wire, which at its lowest sag will be 100 feet above the water. The poles on Vancouver Island have been set in cement to give greater solidity.

Pending the arrival of the cable, work is being completed on the land lines, both on the mainland and Vancouver Island. A gang is working on the two new circuits between the Seymour exchange and Point Grey. Four gangs have been busy for some weeks on Vancouver Island.

FIFTY DOLLARS IS FINE FOR TIPPING

California Passes the Judson Measure to Prevent Giving of Gratuities

Sacramento, May 12.—The anti-tipping bill was not considered to-day by the Assembly, and the Judson measure was passed by a vote of 57 to 5. Notice of reconsideration has been given.

The Judson bill provides that it shall be unlawful in this state for any hotel, restaurant, cafe, barber shop, dining car, railroad company or sleeping-car company to knowingly allow any person in its employ to receive any gratuity, commonly known as a "tip," for any service rendered by him, and it shall be unlawful for any patron of any hotel, restaurant, cafe, barber shop, dining car or any passenger on any railroad train or sleeping car to give to any employe such gratuity, and it shall be unlawful for any employe of any hotel, restaurant, cafe, barber shop, dining car, railroad company or sleeping-car company to receive any gratuity or "tip."

The penalty for giving a "tip" is a fine of \$50, for allowing an employe to receive a "tip" \$100, and for actually receiving a "tip" \$50 under the provisions of the bill, and it shall be the duty of the superior judges to specially call the attention of the grand jury to the provisions of the act at each term of the court.

FOSTER NOW QUITE CONVINCED BORDEN POLICY WRONG ONE

Melbourne, May 12.—Again has Hon. G. E. Foster, Canadian minister of trade and commerce, spoken in favor of Australia's system of a locally-owned, manned and built fleet. During a speech at a luncheon given here yesterday to the Empire trade commissioners by the city of Melbourne, Mr. Foster congratulated the Australians on their splendid defence system which he said set Canada a fine example. The Canadian minister also expressed his pleasure at the result of his reciprocity negotiations with Mr. Tudor and voiced the deepest hope that the two Dominions would always work for their mutual benefit.

After contrasting the work done by the Canadian and Australian pioneers, Mr. Foster concluded by advising Australia to secure a greater population.

PEACE CELEBRATION DELEGATES WILL SEE PRESIDENT WILSON

Washington, D. C., May 12.—The British, Canadian and Australian delegates to the conference to arrange for the celebration of the 100 years peace between Great Britain and the United States, begun by the Treaty of Ghent in 1814, arrived to-day. They were met at the station by the Washington committee of 100.

They were scheduled to meet Secretary Bryan and at noon President Wilson. Luncheon at the residence of Colonel Robert M. Thompson was to follow. Then the visitors were to rest. A banquet was arranged for to-night at which advocates of peace from both great countries will speak in favor of a further reign of amity. Senator Root is to be toastmaster.

PEOPLE REFUSE TO HEAR SUFFRAGETTES

Speakers in Hyde Park Rushed by Crowd Despite Police Protection

BOMB IS FOUND IN BURNING BUILDING

Militants Acknowledge Destruction of Farrington Hall on Saturday

JOHN DILLON SPEAKS RESIDENCE IS BOMBED

London, May 12.—Another suffrage riot took place in Hyde Park yesterday afternoon. The Men's League for Women's Suffrage had been given permission to hold a meeting. Several prominent workers addressed a crowd of several thousand from a truck, but the crowd kept up a running fire of interruptions, shouting "Go home and make bombs," and remarks about the burning of churches and the attempt to blow up St. Paul's.

After a half-hour's endeavor to get a hearing, the league gave up and the speakers were about to withdraw when the crowd broke through the police ranks. The wagon was overturned and partly wrecked. The police had difficulty in protecting the speakers, and eventually had to escort them to the station for safety.

In the meantime a suffragette planted a flag on the Park Lane side of the park, where fashionable people promenade, and started speaking. Men destroyed the flag and jostled the women until the police resumed them.

Rev. Howard J. H. Truscott, vicar of St. Charles's at Pimlico, which was destroyed by fire recently, held services in the public hall and spoke at length regarding the fire. He said: "There is no use talking to me about flash or lightning or gas. Some person did this with malicious intent."

He said he had received hundreds of letters, some of them from suffragettes who repudiated such dastardly acts.

A fire in a large unoccupied house at Beckenham outside of London, last night was extinguished after three hours. The fire was attributed to the suffragettes. The firemen were alarmed at finding a bomb in the burning building. Another suffragette outrage is reported from Preston, Lancashire, where a white marble statue of the fourteenth Earl of Derby, in Miller park, has been covered with liquid tar.

One of the bands of militant suffragettes assigned to interfere with the pastimes of the men of the British Isles, celebrated Whit-Monday, which is a general holiday here, by burning down the headquarters of the Nottingham Boat Club on the banks of the River Trent. The structure contained many valuable racing and other craft. The loss was \$10,000.

MORNING SITTINGS START IN COMMONS

Dundee, Scotland, May 12.—An examination of the ruins of Farrington hall, which was destroyed by fire on Saturday, has revealed ample proofs of incendiarism. The chief constable of the city has received by mail a copy of the paper, The Suffragette, inscribed, "Farrington Hall—A Protest Against British Tyranny—Blame Asquith and Company."

The mansion, which was the property of Henry Modbury, a former lord provost of Dundee, will cost \$100,000 to rebuild.

Dublin, May 12.—John Dillon, member of parliament for East Mayo, surrounded by a band of suffragettes opposite the Mansion House on Saturday, told them he would vote against them every time. Early Sunday morning Mr. Dillon's residence was bombarded with stones. Many windows were smashed.

TUDOR SAYS RECIPROCITY WITH CANADA ADVANCED

Melbourne, May 12.—That reciprocity between Australia and Canada had been further advanced by his talk with Hon. G. E. Foster, than it would have been by two years' correspondence, was the unofficial statement yesterday by Hon. Frank Tudor, Commonwealth minister of customs. Mr. Tudor also stated that a reciprocity basis had been agreed upon which would no doubt result in considerable benefit for both countries, but further that that, nothing has been done or discussed.

TYPHOON AT MANILA

Manila, May 12.—The worst typhoon experience in eight years struck the islands yesterday, causing many deaths and wrecking several small steamers and numerous lighter craft.

The known fatalities at sea total 58, but the total death list from the storm is swelling with incoming reports. It is believed that no Americans have lost their lives.

CHANCELLOR LLOYD GEORGE WOULD STAY GROWING TIDE OF BRITISH EMIGRATION BY PLACING TOWN PEOPLE ON THE LAND

London, May 12.—"This serious stream of immigration," in how Hon. Lloyd-George, the chancellor of the exchequer, describes the present state of affairs in Britain in regard to emigration to the Dominions, and elsewhere. The chancellor views with alarm the steadily growing tendency on the part of Britons to leave their native land, and sees in it a severe blow at the backbone of Great Britain as represented by its industries.

"That all these emigrants should be kept in the country and provided with work and adequate remuneration is the stand taken by Mr. Lloyd George, and if he can manage it, he will kill emigration to a large extent. Although not wishing to take from the Dominions, the chancellor is of the opinion that Britain must consider herself first, and if the steady stream of emigration keeps up, Britain will find her population gradually being depleted to the detriment of her industries."

In the House of Commons he said that he had a plan which he would divulge later whereby the stream will be diverted and the surplus population of the towns placed on the land. The chancellor made a stirring appeal to the opposition to treat the land question as a national one, and keep it outside party politics.

The seriousness of the situation in regard to migration which took away

EIGHT TRAINS BRING IMMIGRANTS TO WEST FROM GREAT BRITAIN

Calgary, May 12.—Yesterday was the busiest day ever experienced at the railway depot in Calgary. No fewer than eight trains from eastern ports arrived here with settlers from Great Britain. It is estimated that 5,000 persons passed through here, the majority going straight through to the coast, including a large party brought out by the Salvation Army. Many went north and quite a number stopped off in Calgary.

Three trains, the Imperial Limited, the Vancouver Express, and the Soo line train came in three sections. There were huge crowds at the depot all day to welcome friends and there were many interesting scenes, and of all the thousands who arrived only seven went to the immigration hall.

the best types should, he said, sufficiently appeal to all politicians to make them unanimous on any effective scheme which would keep for Britain her sturdiest and most enterprising sons.

STARTS SUIT OVER FRIEDMANN'S CURE

Hundred Thousand Dollars Commission Claimed for Sale of Remedy in America

New York, May 12.—There were two things which disturbed Dr. Friedmann and his manager, Moritz Eisner, yesterday, even more than the unfavorable government opinion on the tuberculosis remedy. One was the fact that Dr. M. M. Sturm, formerly Dr. Friedmann's close assistant, has begun suit for \$100,000 for commission in bringing about a sale of the remedy to Mr. Eisner. The other was the information which reached Dr. Friedmann's ears that Dr. Sturm had acquired during the two months in which the two were constant companions, secrets of making and administering the tuberculosis vaccine.

Dr. Sturm claims that he is entitled to half of five per cent. of the total amount involved in the name of the Friedmann rights in this country, which he puts at nearly \$2,000,000. This amounts to \$100,000, the other half of which is due, it is claimed, to Dr. A. C. H. Friedmann. Dr. Friedmann's brother.

INDIAN COMMISSION EN ROUTE TO COAST

Sittings Will Open at Victoria to Hear Evidence on Monday

Winnipeg, Man., May 12.—On the way to Victoria to adjust finally the Indian lands question of British Columbia, J. A. McKenna, of Ottawa, and Nathaniel W. White, of Shoburne, N. S., were here to-day breaking the trans-continental journey. They are Dominion government representatives on the joint commission appointed last month by federal aid British Columbia governments in connection with the B. C. Indian lands question. J. P. Shaw, M. P. P., and D. H. MacDowall, M. P. P., are the British Columbia representatives. Ex-Chief Justice Wetmore, of Saskatchewan, is chairman of the commission. Sittings will begin in Victoria May 19.

One point the commission has to decide concerning Indian reserves is whether they are of proper area. Should a reserve be found too large the surplus area will be turned over to the province. In a reverse case the province will make up the difference from provincial lands. When a reserve is too large it may be reduced with the consent of the Indians. The commission will also deal with questions of railway rights-of-way through reserves, and with all questions in which it may be necessary to exercise right of eminent domain. Its proceedings will resemble those of court law, it being necessary to take much evidence. The commissioners will also go over the reserves.

MUSICIANS' CONVENTION MEETING AT TORONTO

Toronto, Ont., May 12.—The largest convention of musicians ever held on the continent is assembled at Toronto. Hundreds of delegates from the United States and Canada have arrived, and more are coming. Headed by a band of one hundred pieces the delegates this afternoon paraded to the Labor Temple, where they were welcomed to the city by the mayor and other city dignitaries. The convention will last all the week.

LINK EDMONTON AND TORONTO BY SUMMER

Toronto, Ont., May 12.—According to C. N. R. officials here Toronto will have a C. N. R. connection with Edmonton this summer. Several thousand men are at work on the connecting link between Sudbury and Port Arthur, and as a direct result of the financial success of Sir William Mackenzie's visit to England, a large number of additional men will now be sent north to swell the ranks. This will secure a completion of that section of the line by the fall, placing Toronto on a new transcontinental line before the close of the year.

DUCHESSE HEALTH

London, May 12.—The Duchess of Connaught is reported to-day to be in slightly improved health.

POLICE USED GUNS WITH FATAL RESULTS

One Killed, Another Wounded in Fort William Street Car Riots

ATTEMPT TO RESCUE PRISONER FROM JAIL

Fort William, Ont., May 11.—Fighting to keep out a mob of miners who were struggling to rescue an imprisoned Hungarian from the police station, the local police to-night shot and killed Mike Smorak and badly wounded John Pulk. The fracas was the outcome of a street riot, in which a derelict street car was attacked by a crowd of sympathizers. The car, run by strikebreakers, had swerved off the tracks and coming to a stop at the sidewalk, was smashed by a furious crowd which had been worked up to a frenzy by the excitement which followed an early street parade and agitated mass meeting.

In the midst of the uproar, the police were called out and Peter Landi, a Hungarian, was arrested and hustled through the mob to the coal docks police station, a frame building, situated in the heart of the foreign quarter.

The crowd assembled outside the station and the uproar continued. The voices of scores of new arrivals soon added to the tumult, until 2,000 foreigners had gathered. About an hour after the imprisonment of the Hungarian, the onslaught was commenced. A stone was hurled through the window, the crash of the glass was the signal for a general at-

tack, and a hail of missiles crashed against the front of the building, breaking down the door and breaking every pane of glass in the front wall. A piece of cordwood nearby provided further ammunition, and after the first volley, the mob made a rush for the entrance, determined to drag out their man.

Police Sergeant Taylor and five constables lined up at the doors and windows. A volley was fired, but the check was only momentary, for, with yells, the mob rushed the building. In the second volley Smorak was killed and Pulk wounded.

A hurry call to the Central station, was answered by two constables. The crowd, however, had by this time had enough, and they allowed the prisoner to be taken from the station.

Fort Arthur, Ont., May 11.—Although no untoward event took place here today in connection with the street car strike, there was evidence of the sullen humor of the strikers and sympathizers. Large crowds wandered in the south end of the city, but the activity of the police kept them scattered, so that no demonstration took place. Most of the noise-makers were Finnish Socialists.

Four cars, manned by officials of the road, ran up to 9 o'clock to-night and carried a fair number of passengers. The management of the road declares it will be able to break the strike, as it can maintain a half-hour service.

TWO SUDDEN DEATHS AND THREE INJURED

Chapter of Accidents Occurred in Vancouver During Saturday Night

WET STREETS SAID TO BE THE CAUSE

Vancouver, May 12.—As the result of a chapter of accidents in Vancouver on Saturday night, two lives from the humble walks of life were claimed by the grim specter, while three women received injuries in automobile accidents, none, however, thought to be of a serious nature. In nearly every case the cause is said to have been the wet and slippery condition of the streets following the rain.

The dead are Yung Yuey, a retired Chinese merchant, who died following his being struck on Pender street by a motor car, the driver of which was Mr. Vernon, partner of Vernon Bros., contractors, and Dominic Parrella, 553 Grove street, an aged man who apparently died from heart failure, following a fall.

The injured are Mrs. James Mason, 3330 Third avenue west, struck while crossing the street by John Blumfest, of 1013 Seymour street, driving an automobile; Mrs. Nettie Criterton, of Fifth avenue, South Vancouver, thrown heavily to the street by an automobile driven by J. Bulker, and an unknown woman who was knocked down at the corner of Oak and Ninth avenue by J. Jasper, of 345 Fifteenth avenue west.

The first fatality occurred at 8.30 o'clock, when Yung Yuey, an old man 70 years of age, was hit by the machine driven by Vernon. The driver immediately stopped his car and helped the old man to his feet, and upon his not appearing in any way injured, continued on his way. The man, however, died 30 minutes later. Chin Yick Quang, a friend who witnessed the occurrence, immediately reported it to the police, and Inspector McRae and Sergeant McLeod investigated. At almost the same time Vernon reported striking the Chinese to Constable Barker, on point duty. The fatality is considered an accident as the streets were very slippery at this point.

Dominic Parrella, the aged Italian, when leaving his home, 553 Grove street, at 9 p.m., tripped and fell, death resulting several hours later apparently from heart failure.

Of the other accidents, that which occurred to Mrs. James Mason at 5.30 o'clock was while she was crossing Nelson and Granville streets. The car driven by Blumfest skidded across the street and knocked her to the ground. She recovered sufficiently to return to her home.

Mrs. Criterton was struck by Mr. Bulker's car while alighting from a tram at Harris and Main streets about 7.30 o'clock. She was not seriously injured.

WORLD'S SCIENTISTS COMING IN AUGUST

Between Four and Five Hundred Will Make Western Tour and Visit Victoria

CHARTER STEAMER TO MAKE SKAGWAY TRIP

Vancouver, May 12.—Various details in connection with the western tour of the International Geological Congress in August are now being arranged by W. Fleet Robertson, provincial mineralogist of Victoria. Four of five hundred eminent scientists from every quarter of the globe are expected to participate in the excursion at the conclusion of a week's session in Ottawa. Sub-parties will visit nearly all the mining camps in Ontario, and the maritime provinces before the main trip to the West is undertaken. There will be side trips over the Grand Trunk Pacific to railroad beyond Yellowhead Pass, and to the Kootenays before Vancouver is reached.

Mr. Robertson visited Vancouver to charter a C.P.R. steamer to convey the geologists and others as far as Skagway. He expects they will arrive here on August 26, proceeding the same day to Victoria, where a reception will be tendered by the provincial government. The next few days will be devoted to sightseeing in Vancouver, where the scientists will embark for the northern excursion. At Prince Rupert side trips will be made simultaneously inland over the Grand Trunk Pacific to Hazelton mining district and to Granby Bay and Stewart, Portland Canal district. The united party will later proceed to Skagway and run inland as far as White Horse, after visiting the Alaska-Treadwell mine near Juneau, Alaska, and the famous Yukatad glacier at Glacier Bay. Those visitors who desire the time will also be entertained to an excursion to the Atlin district and down the Yukon to Dawson, but the chartered steamer will not wait at Skagway for their return.

Professor R. W. Brock, director of the Dominion Geological Survey, and many other prominent federal and provincial officials and other mining engineers will accompany the visitors in order to supply authentic information about the mineral resources of Canada. Valuable handbooks are also being prepared at the expense of the various governments. The visitors will include many world-famous geologists, mining engineers and metallurgists.

DECISION GIVEN IN FORT GEORGE CASE

Land Company Succeeds Before Railway Commission on Station's Selection and Name

Ottawa, May 12.—After a two days' hearing and an additional two days consumed in digesting the voluminous evidence, the railway commission on Saturday handed down its decision in the Fort George case. The application of the Grand Trunk Pacific railway to place a station on the eastern part of the Indian reserve, located at the junction of the Fraser and Nechaco rivers in central British Columbia, and to name the station Prince George, was refused.

The application of the Natural Resources Security Company, Limited, and George J. Hammond, of Vancouver, for a station on the western part of the reserve adjoining the Fort George townsite and for the station to be named Fort George was successful. The decision orders the Grand Trunk Pacific railway to place its station in the western part of the reserve, three thousand feet east of the townsite.

COWICHAN SOCIETY TO HAVE NEW HALL

Arrangements for Sale of Twenty Year Debentures Made in Victoria

Cowichan, May 10.—The chief business under discussion at the meeting of the executive committee of the Cowichan Agricultural Society was the awarding of the tenders for the construction of the new hall. After some considerable discussion the successful tenderers were declared to be Campbell & Brown—the contract to be let to this firm subject to certain financial arrangements which, it is expected, will be cleared up within the next few days.

Mr. Hadwen reported that he had interviewed certain financial men in Victoria, and he understood that there would be no difficulty in disposing of the debentures as soon as they were issued. It is proposed to issue 20 debentures of the value of \$500 each, to run for a period of 20 years, one debenture to be repayable each year. The rate of interest will in all probability be 8 per cent., which it is admitted is the best obtainable in the present congested state of the money market.

Warm Weather Cooking

There's no need to spend hot hours upon a warm day over a slow cooking stove. Our Nut Coal gives a quick heat directly you put a light to it. It burns with a bright clear flame, needs no attention, does twice the work in half the time, and goes out as soon as dinner is ready. It won't burn all through the evening, so your house will never get too warm. Place your order to-day. It costs less and is the ideal coal for your stove.

CRITICISM OF THE PAPAL SECRETARY

MERRY DEL VAL AND THE POPE'S ILLNESS

Pontiff's Chief Assistant Is a Remarkable Figure; Was Born in London

Rome, May 12.—During the most recent crisis in the Pope's illness, which it was generally conceded here in Rome, would end in death, there was much criticism and of the high-handed methods with which Cardinal Merry del Val, the Papal secretary of state, ruled the Vatican. This has been the main cause of the many fantastic stories regarding the Pope's illness which have been sent out by some irresponsible correspondents here and which the Osservatore Romano, the official Vatican newspaper, has gone to great lengths to deny.

During the last illness of Pope Leo XIII, his secretary, Cardinal Rampolla, received the newspaper men every day and gave them all that was to be obtained officially of the Pope's condition. He also saw the members of the Sacred College and kept them posted on the Pontiff's condition. The way in which Cardinal Merry del Val has acted has been entirely different. An order of the Vatican has received the delegation from the cardinals, whom have been read only the official bulletins, previously censored out of all importance by the Papal secretary himself. The newspaper men, on the other hand, have been unable to see Cardinal Merry del Val at all.

The faithful sisters of the Pope, simple Venetian women, called at the Vatican every day to see their brother, and they were carefully cautioned not to say anything about the Pope's condition to any one outside the Vatican. One night, when it was thought the Pope would not live until dawn, the Pope's sisters asked to be allowed to spend the night near his bedside, but a century old Vatican rule forbids any woman to pass the night within the Vatican grounds. Despite their entreaties Cardinal Merry del Val refused to set aside custom and the women sorrowfully left, feeling that they would never see their brother again.

Cardinal Merry del Val has never been liked by the Roman lady, principally, it is said, because he is not an Italian. There was a time shortly after Merry del Val, much to his surprise, was chosen by Pius X. as his secretary that it was thought he would be the leading candidate to succeed Pius, but what chance he ever had has now disappeared.

Merry del Val, who was known among his schoolmates in Rome as the Merry Devil, has had a meteoric career. He has been trained in diplomacy since birth, his father having been a diplomatist. Yet many people to his account the Vatican's difficulties first with France, then Portugal and more recently the religious crisis in Spain, which was bridged over only a short time ago. Immediately following the promulgation of the separation law in France, divorcing the church and state, there was much pressure brought to bear at the Vatican to have Merry del Val resign, but the Pope clung tenaciously to his secretary despite all opposition.

Merry del Val received the cardinal's red hat at the extremely youthful age of 33, and despite all that may be said against his iron handed methods, his hot temper and his supposed diplomatic blunders he stands out as one of the most remarkable figures in the Roman Catholic church to-day.

He was born in 1855 in London, his father at that time being an attaché of the Spanish embassy. He is descended from an Irish family that emigrated to Spain early in the seventeenth century, but contrary to general opinion his mother was a Spanish and not an English woman. Thus Spanish was his mother tongue and he learned English almost as easily. He speaks French like a Parisian, while his Italian is so free from accent that many believe him Italian. In addition he has good command of German and of course knows Latin, the language of the church. The fact that he was the first cardinal secretary of state to be able to deal with Anglo-Saxon Catholics in their own tongue is said to have been the chief factor in his appointment.

Merry del Val was appointed by the College of Cardinals as secretary of the congregation during the conclave that elected Pius X., this action being due to the death of Mgr. Volpini, whom Leo XIII had designated on his deathbed. Mgr. Volpini, however, died before the Pope. Merry del Val then served as secretary to the new Pope until he had made his own choice. In this way he was thrown into almost constant contact with Pius X. One day he was leaving the Pope's cabinet with a mass of correspondence when Pius called him back and said in a very matter of fact way, "This letter is also for you, monsignor." Merry del Val put it but did not open it until some hours later, when he was surprised to find that it was his appointment as permanent papal secretary, written in the Pope's own handwriting.

Merry del Val when only 22 years of

Lovely Lingerie Dresses Just Opened

We are glad to announce the reception of these charming Dresses, which are now ready in all their pure freshness and dazzling whiteness for your approval. Don't wait for the real hot weather, but see them now, while the selection is large and they are perfectly fresh.

They come in lovely white Lawns, sheer and dainty Organ-dies, crisp Irish Dimities, pretty, wide-wale Bedford Cords, Crepes and French Voiles. The styles are bewildering, the different trimmings in immense variety. Some pretty ones come in that always favorite "Broderie Anglaise"; others of fine St. Gall Embroideries, while many are trimmed with effective Filet Lace with needle-run designs, also Torchon, Cluny, Shadow Lace and fine French Vals. The prices run from the dainty Frock at \$2.75 to the real French model confections as high as \$30.00. A truly

beautiful range comes between \$5.00, \$7.50 and \$10.00. The range includes some charming Ecrú Dresses in Voile at \$17.50, also some pretty black ones in silk stripes or cool Muslins from \$4.00 to \$17.50.

Summer Dust Coats Newly Received

These much-desired garments are now to be seen in a fascinating variety of styles and colorings. The materials are plain and the Coats are not elaborately trimmed; the true beauty and main distinction is in the beautiful lines—a glance will suffice to show that. The garments are cut and designed by tailors of exceptional skill. They are handsome and graceful, and certainly one of the most useful articles of dress that a woman can possess. The materials are principally fine Panamas, Silk Glorias, Corded Shantung, fine Poplinettes and some Silks, while the colors are tans, fawns, blues and greys generally—suitable for walking, traveling or motoring. The collars are silks or satins to harmonize or contrast with the whole, and narrow pipings and colored buttons are a pleasing feature. Prices run from \$25.50, \$18.50, \$15.50, \$12.50 and \$10.50.

age was a member of the Papal Embassy to Queen Victoria's jubilee and a few months later, in 1887, he attended the funeral of Emperor William I in a similar capacity. In the following year he was the representative of the holy see at the jubilee of Emperor Francis Joseph, a post which he likewise filled at the coronation of Edward VII. Before he assumed his official position at the Vatican he was a close friend of King Alfonso, whom he prepared for his confirmation, and on three occasions he was appointed by the Queen Regent of Spain as religious instructor for her daughters.

Merry del Val was prominently mentioned at one time as papal delegate to Washington. He visited the United States when he was sent by the Pope to straighten out the Manitoba school controversy, which threatened to destroy the power of the church in Canada.

To the papal secretary of state are due all the reforms that have been instituted in the Vatican. Among the few modern improvements he has introduced there are telephones, elevators, electric lights and typewriters. He also was the first cardinal to indulge in golf, of which game he is very fond. Such is the man against whom so much criticism has been aimed. But no one has ever been able to tell in advance whom the College of Cardinals would ask to exchange his red hat for the white suchetta, and it would be foolish to conclude that Merry del Val's name will not be mentioned in that connection.

WILL TOUR CANADA.

English Lacrosse Team Will Come Over Next Year.

London, May 12.—The South of England Lacrosse Association held an informal meeting here in order to discuss the proposed visit of an English team to Canada and the particulars of its financial aspect.

F. B. Hayes read a letter which he had received from the Canadian lacrosse men advising the English union to postpone its visit until 1914, on account of the exceedingly bad season in Canadian lacrosse associations, which were not in a position to guarantee their visitors' expenses.

The meeting decided to act upon this advice, suggesting May or June of next year as a possible date of departure. A game at Victoria will in all probability be offered the tourists.

THE VANCOUVER ANNIVERSARY.

The graceful tribute paid by the Daughters of Empire on Saturday last to the memory of the great explorer who sailed the uncharted seas of the West now over a hundred years ago and gave this island the name it bears, deserves the hearty approbation of all. It is right and fitting that the memory should always be kept green of those who have sacrificed and suffered, and undergone privation and risk of death to give us that heritage we possess. Too often is it the tendency of generations to forget the explorers who have done so much to build up empire and spread the Anglo-Saxon creed of right to the uttermost bound of earth.

To these men faith was the seed of deed, and hope the lamp whereby their feet were guided. Like many another before him, death overtook George Vancouver before his labors were accomplished, and before the narrative of his voyages in the American northwest was completed. But his name will live for ever in the rich island and the great city which bear his name, and through his posthumous glory, perhaps, has not been commensurate with his achievements, few men have had their names perpetuated in the same convincing and wonderful manner. The great explorer was only forty years of age at the close of his career, even younger than the last renowned British explorer who laid his bones near the furthest limit of Antarctic exploration. Like Captain Scott, too, Vancouver was a product of the British navy, where he acquired the expert seamanship and dogged determination which that wonderful service continually turns out.

The world has moved swiftly during the hundred odd years since the remains of Vancouver were buried in the quiet little village in Surrey. What was then considered one of his greatest feats—the circumnavigation of the world—has now become a rather ordinary way of putting in a three months' holiday. The lonely west that he saw and described has become one of the focus points of the world, a great hive of throbbing human industry. Could Vancouver now stand on the shores which he first trod over a century ago, or could he have looked into the future and see the marvellous change that was to envelop the region with which his name will ever be associated, then the pride which he would have felt would have been as great as that which we of the west feel for the man, the anniversary of whose premature death was celebrated last Saturday.

AN ANGRY MACHINE.

Grimly determined, with fire in their eyes, representatives of an outraged patronage committee called upon the big 'uns across James Bay last week and presented an ultimatum. They demanded to know by what right the government had made two recent appointments to the civil service without consulting them? How dared the ministry discharge a duty for which it was elected by the people, instead of delegating it to the patronage committee of the Conservative Association responsible to nobody but themselves?

The cause of the latest uprising in the ranks of the faithful was the appointment of a clerk in the registry office and an assistant librarian. Both were needed and no doubt the government concluded that the waiting list at the organization headquarters was lacking in material sufficiently proficient for the work to be done. There are some positions that even a patronage committee cannot fill, and conspicuous among them is that of assistant librarian, which requires a man of special qualifications. Our legislative library is an important branch of the government service and should be kept

clear of the contaminating influence of machine politics. A similar revolt was threatened last December. The patronage committee heard that appointments were being made without reference to them and an emergency call was made upon the Premier. He applied the usual palliative remedies and sent them away in a great white calm which prevailed until the recent outbreak. He could have told the recalcitrants that the other parts of the province had as much right to representation on the government pay list in the various departments as Victoria had and that the local machine is not the only institution of its kind which flourisheth in British Columbia.

The incident serves to emphasize the nauseating features of this class of politics. No matter how hopelessly incompetent applicants may be, they must be accepted by the government simply because they are on the organization's highly approved waiting list. Should the government look elsewhere for its officials a mighty howl ascends to the heavens and there are threats of revolt. For this condition the government is to blame. It created the machine and established forces it cannot now control. It may show spasms of independence at times, but the iron hand of the organization soon reduces it to impotence. British Columbia is not governed from the parliament buildings. It is ruled from "headquarters" and every enlightened Conservative knows it.

THE NEXT GOVERNOR-GENERAL.

The continued and much regretted illness of the Duchess of Connaught strengthens the double report that the Duke will not return to Canada, and that before long a change may be expected at Rideau Hall. In choosing a successor to His Royal Highness the King and his advisers will have a difficult task to perform. The rumor that Rt. Hon. Lewis Harcourt, present secretary of state for the colonies, has been chosen as the next appointee, will, however, remove any anxiety that might be felt on this score, for Mr. Harcourt in his present capacity has been so intimately in touch with Canadian affairs, and so keen have been his sympathies with Canadian aims and ideals, that he will, if chosen, assuredly make a very dignified and fitting representative of the crown in this country.

A perfect host, and a man of distinct social grace, Hon. Mr. Harcourt may also be depended to keep up the best traditions in the social life of Rideau Hall. Together with the charming American lady who became his wife just fourteen years ago, he has made his elegant home in London the resort of the most distinguished in politics, science, art and literature, to all of whom his great versatility and broad sympathies have made him the most delightful of friends. He is one of the most widely known and most deservedly popular men in England to-day, and would assuredly soon become as great a favorite with the people of the Dominion.

As to his fitness for the important post to which Dame Rumor so emphatically states he is soon to be called, his training has been such as to impress him with the needs and aims of the great dominions with which for three eventful years he has been so closely connected. The enormous amount of correspondence which passes between the Secretary of State for the Colonies and the Governor-General of which the general public knows nothing at all, must have given him a close insight not only into Canada's political status, but into the whole tenor of her domestic policy. He has thus had exceptional opportunities of preparing for a post which demands above all knowledge, sympathy and understanding.

Rt. Hon. Lewis Harcourt is the eldest surviving son of the late Sir William Harcourt. He is exactly fifty years of age and has sat in parliament for a Lancashire constituency since 1904. His first public office of any importance he took over in 1906, when he was appointed First Commissioner of Works, a position which he held up to his elevation to the cabinet in 1910. He was educated at Eton and Oxford. He has a great fondness for art, a subject on which he is most widely informed, and is in this connection, a trustee of the famous Wallace collection.

WHAT WILL THE SENATE DO?

What will the Senate do with the navy bill? The members of the Upper House are being regaled just now with a swelling admonitory chorus from the government press, the burden of which is that they should sink partisanship and without delay pass the measure that was clubbed through the Commons? They are urged to set the seal of their approval on Mr. Borden's repudiation of the principle he helped to establish in March, 1909; to endorse his pledge with Quebec Nationalism out of which his present proposal arose, to endure the assault upon Canadian ability, loyalty and integrity with which the bill has been bolstered and, worst of all, to pronounce their benediction upon the degradation of parliament by the closure. They are being advised to agree with Mr. Borden that no effective organization could be built up in Canada in perhaps half a century; that a fleet unit on the Pacific would be ineffective; that a Canadian navy would be too costly and hazardous for this country when we could much more cheaply and easily get clear of the question by contributions to the admiralty. They are expected to hail with satisfaction a contribution of three ships to be stationed at Gibraltar, twenty-three days' sail from the Pacific and manned and maintained by the taxpayers of the United Kingdom and to join the clourites in the Commons in giving their imprimatur to the repeal of the Canadian Navy law.

Six months ago Mr. Borden emphatically declared that if parliament did not pass his naval proposal in reasonable time he would dissolve it and appeal to the people. Why did he not take that course instead of introducing the obnoxious closure which Hon. George E. Foster prayed heaven we may never have? He had no mandate to make the wide constitutional departure involved in his contribution policy. He was not elected on the navy question, but on the reciprocity issue. If the people favor his proposal will not let them say so and settle the question once and for all? Does he regard the application of the gag as an enlightened course to pursue in a country where the principle of responsible government has been so highly developed? We believe an uncensored Senate will give him an opportunity to fulfil his pledge to appeal to the country. The majority in the Upper House will not care to shoulder the responsibility of endorsing so far-reaching a measure and all the arguments upon which it was based, as well as the closure, without a clear expression of the popular will.

THE BANK ACT.

The new bank act is ready for report to the Commons. It has passed through the fires of committee practically unscathed. When it was first introduced into the House doughty tribunes on both side assailed it fearlessly, stigmatizing it as a bankers' measure and not in the interests of the people. They threatened that when they got their hands on it in committee they would pound it out of all recognition. But the committee was found to be composed of stand-patters and progressives, and behind the stand-patters was a squad of eminent legal men headed by Wallace Nesbitt, representing the Canadian Bankers' Association, ever alert to protect their legislative child from harm. Whenever an amendment of any importance was to be voted upon, the whips of the Bankers' Association were out drumming up stray members to the vote. Empty seats behind would fill, and when the vote was taken it was in nearly all cases found that the stand-patters had defeated the progressives by a narrow, but sufficient, majority. Many of those thus whipped to vote had taken little part in the deliberations, and listened to little of the evidence. And so amendment after amendment was voted down, or its mover was induced by the storm of protest to withdraw it. In many cases the pressure to withdraw was exerted by the Minister of Finance, or the chairman, who were recognized as being among the ranks of the stand-patters.

The main features of the bill may be summed up as follows:

1. Provision for an external shareholders audit. Some slight change may be made in this provision as it appeared originally in the bill.
2. The establishment of a central gold reserve by banks to increase circulation.
3. The extension of the secret lien to farmers and ranchers, on security of their threshed grain and their cattle. This clause was amended by committee to make necessary the registration of the loan.
4. The granting to the minister of greater power to enquire into the bona fides of petitioners for bank charters, so that greater care may be taken before certificates are granted.

But notwithstanding some very excellent provisions in the measure it must be patent to a child that the new legislation is essentially a "banker's measure."

"The noise of arms," said Montaigne, "deafens the voice of laws." Could he have had any better example than the state of affairs which exists in "the cockpit of Europe" to-day?

The new tug that has been built to assist in docking the Imperator appears to have been constructed on the plans of last year's style in ocean liners. They will now have to build a tug to dock the tug.

A New Jersey man, who has just come into a large fortune, recently wore a collar for the first time. The next joy that he will know is the hunting of the elusive stud.

have to be reckoned with in future years.

One does not usually associate royalty with investments, but it has just come to light that King Alfonso of Spain has a very large portion of his immense private fortune invested in British securities, and he has lately been increasing his investments in London. With the exception of the Czar of Russia the King of Spain is the wealthiest monarch in Europe, King George being comparatively poor beside him.

The competition of which the Imperator and the Aquitania are the fruits, has had, we may well believe, one valuable and far reaching effect. It has brought the British and German shipowners into conference, and resulted in an understanding between them which regards the peace of Europe as the chief condition of their continued prosperity. Viewed in this light, every ton and foot of the newly launched Aquitania is a guarantee of peace.

It is understood that Premier Asquith will soon take advantage of the opportunity provided by a large public meeting in London to state in the most unequivocal manner the attitude of the Liberal leaders towards the whole conscriptionist movement. The speech will probably go very much further than a bold and frank expression of disapproval of the principle of national compulsory service; it will be a revelation of the origin and political purpose of the movement. It is said that the Premier is as uncompromising in reference to conscription as in his attitude towards Protection and Tariff Reform.

We do not believe it possible to condemn Mr. Borden's alliance with the Nationalists too strongly. We question if history can present a more shameful exhibition of duplicity on the part of a public man. The alliance was shown by the inclusion in his cabinet of three men who attacked the Laurier naval policy on the ground that it meant conscription and fighting England's battles. It is further proven by the appointment as Deputy Speaker of the man who said French Canadians had to shoot holes in the Union Jack to breathe the air of liberty.

Apropos of the recent tour of the King and Queen through the industrial centres of Britain, the Liverpool Post says that as the spirit of democracy advances the popularity of the British monarchy keeps pace with it. King George and Queen Mary never come into touch with any section of their people without reaching their hearts and leaving an abiding impression. This is not a matter of mere tact. The son of Edward the Seventh could scarcely be other than tactful. But King George from the beginning of his reign has used no art to gain the affections of his subjects. That affection has been gained and riveted by a spontaneous sincerity, a simple kindness of heart, an unfeigned enthusiasm for and pride in the national well-being, and a ready recognition of all the forces, personal or national which have contributed to that well-being.

First Shipment of Cream Serge Summer Suits Just Unloaded

We have just opened up our first shipment of Ladies' Cream Serge Suits, and they include some very fine materials—are smartly cut, thoroughly well made, perfect fitting and remarkably low priced. They come in the plain tailored and fancy styles. Some of the coats are the extreme cutaway, with fancy silk long reverses and cuffs fastening with large glass buttons. As we go to press a large shipment of White Linen and Pique Skirts are being unloaded. Prices range from \$1.75 to \$7.50. Full particulars later.

MANTLE DEPT.—FIRST FLOOR

Gossamer Bridal Sets

WHEN the substantial undergarments of seventy or even forty years ago are compared with the gossamer ones of this day, then only can one gauge the difference that has been wrought in the lingerie modes. But what they lack in width and length, and bulk generally, they gain in dainty prettiness. The women of forty years ago sewed fine seams, it is true, but were not obsessed by the beauty of trimmings. These Bridal Sets we are showing in the department are exquisitely fine and very delicately embroidered and range in price from per set, \$5.50 to\$16.75

A Three-Piece Set, consisting of Princess slip, drawers and gown, handsomely embroidered and trimmed with Maltese lace and ribbons. Moderately priced at, per set\$5.75

And many other dainty styles too numerous to mention. See them in the department. First floor, Near elevator.

Here Are Some of the Daintiest Styles in Children's and Misses' White Dresses That We Have Seen

AND you will say so, too, when you see them, and really it's surprising how the manufacturers can make such sweet dresses for so little money. Of course we buy very largely, and are able to secure specially low prices, and by paying cash get the largest discount, otherwise we could not sell them so cheaply. Then this lot we are showing in the department on the first floor also includes a complete set of Traveller's Samples. These are marked at exceptionally low prices, and you will do well in taking an early look at them for they are sure to sell quickly, especially now the warmer weather has arrived. All sizes are included in this showing from a dainty Baby Dress at 50c to a Misses' Dress at \$4.50, and you have your choice from white muslin or marquisette daintily trimmed with embroidery, lace insertions, pin tucks, and some are threaded with colored ribbon at the waist. Come and see these Dresses to-day in the Children's Department.

R. A. Brown & Co., 1202 Douglas Street.

Phoenix Beer, 2 quarts for 25c.

Sands & Fulton, Ltd., funeral directors, 1515 Quadra street. Phone 3304.

Benevolent Protective Order Beavers.—T. J. fraternal order is second to none in Canada. Join now and be a Beaver. Joe Ball, Esquimalt.

Fairfield Road Expropriation.—The city solicitor is endeavoring to hasten the arbitration for land expropriated at Fairfield road from G. J. Bagshaw, nurseryman. F. B. Pemberton is appointed by the owner, and John Dean by the city, but in the absence from the city of Mr. Dean, it is probable another arbitrator will be selected.

Contractor Losses Suit.—Deciding that Amos Atherton, contractor, did not carry out the specifications of the contract as required Judge-Lammman has dismissed his mechanic's lien action against A. W. Fayu le Souer, Bryant Newbold, the Uplands, Limited, and the Franco-Canadian Mortgage Company and W. H. Gardner. Atherton alleged there was collusion among the defendants to remove him from the job.

Automobile Association Run.—Next Saturday, May 17, the first club run of the Victoria Automobile Association this season will be made to Sooke Harbor hotel, where lunch will be provided at 2 o'clock for all who participate in the run. Admission will be by ticket only, which may be had from the secretary. Cars may leave Victoria when they please, and as the distance is only about 23 miles, ample time will be provided for the journey if motors do not leave the city before noon.

Carnival Parade.—With a view to assisting the parade committee of the forthcoming carnival in the organization of the historical portion of the pageant R. E. Gonnell has presented the committee with a short history of the Island from the times of the Indian inhabitants up to the present. Mr. Gonnell is thoroughly acquainted with the history of the Island, and the information he has collected in this little brochure cannot fail to be of value to the committee in arranging the details of the parade.

To Visit Victoria.—Railway officials here expect a visit shortly from William Downie, general superintendent of the Canadian Pacific Railway at St. John, N. B., who has been granted a year's holiday. Mr. Downie was formerly superintendent of the coast division and had his headquarters in Vancouver. Mr. and Mrs. Downie will visit the coast first and on their return to the East will call for the Old Country, spending the summer in the United Kingdom and the winter months in France and Italy.

Express Rates.—At the request of the B. C. Fruitgrowers' Association, the Boards of Trade on the coast are communicating with the chairman of the railway commission with a view to having the new express rates put in force on June 10 instead of July 15. It is represented by the fruit men that the later date would militate against the marketing of the small fruits of this province, which can be shipped to the prairies and the East before then. The growers desire to get the advantage of the new rates for this season's crops, as was intended by the commission when fixing the date for the coming into effect of the rates.

Inspecting the Line.—J. W. Stewart, of Foley, Welch & Stewart, railway contractors, has left Vancouver for New Hazelton, where he will meet Colingwood Schreiber, chief engineer of railways for the federal government, and B. B. Kellher, chief engineer of the Grand Trunk Pacific railway, who are on a tour of inspection of the line from the Yellowhead Pass end. Mr. Schreiber will come down the coast from Prince Rupert, while Messrs. Stewart and Kellher will go over the line as far east as Fort George, where connection will eventually be made by the Grand Trunk Pacific with the Pacific Great Eastern, which is being built by Mr. Stewart's firm.

LIBERAL CONVENTION TO BE HELD TO-NIGHT

To Choose Candidates to Make Fight for Federal and Provincial Seats in Victoria

This evening a convention of Liberals of the City of Victoria will be held for the purpose of selecting the men who will uphold the banner of Liberalism at the next federal and provincial elections for this constituency.

The convention will be held in the Liberal rooms on Cormorant street, commencing at 8 o'clock, and to it every Liberal voter is welcome. A candidate will be first selected for the House of Commons, to contest the seat against the present member or whoever else the Conservatives may nominate. Four candidates will then be chosen for the legislature, a general election to which may come at any time short of the three years which the life of the present House has yet to run.

Great enthusiasm prevails among the city Liberals, who are well organized, and there is certain to be a very large and representative gathering at the convention to-night. Behind the five gentlemen who will be chosen to stand for the principles of clean government and progress, as against the maladministration of the Borden and McBride governments, there will be solid backing of Liberals and of all other supporters of these principles.

English Mails Delayed.—The English mails, via Quebec, due last Wednesday, have not yet reached Victoria. They are expected this evening or to-morrow morning.

Campaign for Carnival.—Preliminary work is in progress for the campaign for funds for the coming carnival which is to be made next month. The date for the opening of the campaign has not been fixed but it is not unlikely to begin on the first Monday in June, which will be June 2.

Motors Round City.—Professor Patterson, who is visiting his old school-fellow, Rev. J. G. Inkster, and who will occupy the pulpit of the First Presbyterian church during the latter's absence from the city next month, went for a motor run round Gordon Head and Saanich this morning with Mr. F. C. McGregory.

"Had a Scrap All Right."—Johnnie Davis, an Indian, admitted that "he had a scrap all right with the Chinaman," Hoy, who accused him of assault and the evidence given in court this morning showed that he was drunk, so a fine of \$10 was deducted from Johnnie's ball money before he was allowed to go.

Entering Competition.—The boys of the Y. M. C. A. are going to enter several contestants in the two events at the Victoria Day regatta in which they will be eligible, the sixty yards swimming race and the greasy pole. There are a dozen boys who have already signified their intention of going in for these events.

Long-Distance Yacht Race.—Considering the fact that the weather conditions in the Sound are not always favorable to yachting the yacht committee in connection with the carnival has decided that the long-distance yacht race shall be between San Francisco and Victoria. At the same time it is expected that this change will result in many more boats entering for the event.

Adding to Industries.—A meeting of the manufactures committee of the Board of Trade has been called for Thursday forenoon at 11 o'clock. At this meeting the members will discuss what can be done to advance the establishment of industries in Victoria, and to give greater prominence to those already here. Ways and means will be considered and a thorough discussion of the subject will take place.

METHODISTS WILL HOLD CONFERENCE

Annual Sessions for British Columbia at Vancouver Open Wednesday

The annual British Columbia Methodist conference will open on Wednesday morning, at 9 o'clock, in Wesley church, Vancouver, with the ministerial session. The general session will open at 9 o'clock on Thursday morning, and it is anticipated that a great number of interesting addresses will be given during the conference. Among the speakers who are expected to take part in the proceedings are Dr. Chown, general superintendent of the Methodist church in Western Canada, who will act as chairman; Robert James Allen, of Toronto, missionary secretary for Canada; Dr. Bishop, of Toronto, general superintendent of diocesan work, and others. The devotional exercises every day will be conducted by Professor Bland, of Winnipeg.

The stationing committee is in session to-day considering the placing of the ministers in the various churches throughout the province, and a draft of its results will be placed on the table at Thursday's meeting, so that delegates may see the intended changes. Nearly all the Methodist ministers of Victoria have expressed their intention of attending the conference, which will conclude its sessions on Thursday evening.

VICTORIA DAY PLANS

Parade Committee Meets To-morrow to Appoint Officials and Add to Programme

To-morrow evening a meeting of the parade committee in connection with the Victoria Day celebration will be held to appoint officials and judges, and to make some changes in the programme of events.

It is intended to offer first and second prizes in the saddle horse classes for ladies and gentlemen, instead of but one prize each. Another class is to be added, for four-horse teams of heavy draught animals, and it is likely that prizes of \$25 for first and \$15 for second will be offered.

In order to avoid confusion, it is desired that the entries for the canoe and swimming events at the Gorge regatta be made before Thursday next. They should be sent to J. B. McCallum, 1266 Pandora avenue. The regatta committee is called for Thursday evening to put the finishing touches to the programme for their part of the day's celebration, and to name the officials.

THE PREMIER COMPANY.

Four outstanding facts give The Mutual Life of Canada a unique place among the old, well established financial institutions of Canada.

- (1) It earned the largest percentage of profits to premium income in 1912 of any Company in Canada.
 - (2) It holds the largest unappropriated surplus of any company in Canada.
 - (3) It is paying the largest dividends to policyholders of any Company in Canada.
 - (4) It is the only Company in Canada that pays all profits earned to policyholders.
- If you wish to be insured in a company that is not only earning the largest profits but is paying every dollar of them to its policyholders, apply to The Mutual Life of Canada. R. L. Drury, Manager; Fred M. McGregor, Special Agent; Offices, 918 Government St.

TO GIVE RECITAL.

Organist of St. John's Will Conduct Recital To-morrow Evening at St. Barnabas Church.

The following programme will be given to-morrow evening at the organ recital to be given at St. Barnabas church, under the direction of G. Jennings Burnett, organist and choir-master of St. John's church. One of the features of the recital will be the "Meditation" in D Major, composed especially for this recital for Mr. Burnett: Organ, Mendelssohn's Allegro Con Brio, from the Fourth Sonata; organ, Schubert's "Impromptu"; vocal, Mrs. G. J. Burnett; organ, Wely's Pastoral, and Wolstenholme's Allegretto; vocal, Mendelssohn's "O God Have Mercy" (from St. Paul), Mr. Robert Morrison; Handel's "Largo"; vocal, Mendelssohn's "Ye People, Rend Your Hearts" (from Elijah), and "If With All Your Hearts," Mr. R. B. McKenzie; hymn; organ, Burnett's Melody in D Major; vocal, "With Thee is Forgiveness," Mrs. G. J. Burnett; vocal, "God's Garden," Mr. McKenzie; Wolstenholme's Minuet for the organ; vocal, "Beyond the Dawn," Mr. Morrison; organ, Festival March in G Major.

Call of Fire.—The fire department was called yesterday afternoon to the premises at the southeast corner of Government and Yates street, to a small roof fire. It was extinguished without much damage being done.

A Key to More Happiness

Gerhard Heintzman Player-Piano

CANADA'S BEST

Nothing But Trucks

THINGS DIFFERENT ABOUT "Gramm" Motor Trucks

No pleasure car parts used. No duty on car or repair part. Four speeds forward, one reverse. Day and night service of Gramm mechanics for Gramm owners. Extra load space without back overhang.

These three words go far to explain "Gramm" superiority. The Gramm factory, is the oldest and largest truck factory on this continent. The Gramm Company started out to make commercial trucks, and have never been tempted to experiment with pleasure cars. This means that every part in a Gramm truck was designed for a commercial vehicle and is not merely a pleasure car part adapted for truck building.

PLIMLEY'S PRICES, F.O.B. VICTORIA

1-ton Gramm Truck	\$2560
2-ton Gramm truck	\$3660
3½ ton Gramm truck	\$4760

One-ton Trucks, immediate delivery. Other models in thirty days.

Shipping News from Day to Day

FIRST ROYAL MAIL SHIP IN NEXT WEEK

Flintshire Expected to Arrive From Liverpool May 20, Inaugurating Service

STARTING OF NEW LINES CAUSING MUCH INTEREST

First Ship Represents Small Part of Great Fleet; Left Yokohama May 3

Inaugurating the new service of the Royal Mail Steam Packet Company between Liverpool and North Pacific ports via the Suez canal, the steamship Flintshire, Capt. L. C. Cundy, is expected to dock here at the beginning of next week. The freight vessel is reported to have cleared from Yokohama on May 3 and she should easily make the voyage across the Pacific in seventeen days, which will bring her in here one week from to-morrow. While the Flintshire will not be the first of this great fleet to visit Victoria, she will be the first of a regular line of steamships which will call at Victoria.

The announcement by officials of the Hamburg-American line and the Royal Mail Steam Packet Co., that they would dispatch vessels over practically the same route as that taken by the Blue Funnel liners, has caused a great deal of interest not only on this side of the globe, but also in the United Kingdom and the Orient. The Holt Company will be operating the larger and faster ships over the route, but the other lines will create a stern competition. The Blue Funnel people have already showed signs of taking up the "war" by placing extra steamships on the run.

Coast Will Be Well Served. By the inauguration of these two new services the Pacific coast will be well linked up with the Old Country and a splendid freight service provided. With the three lines coming via the Suez and the Harrison company sending its boats around the Horn, Pacific coast importers will have no reason whatever to complain of the steamship connections with Europe. These four lines will provide just about a weekly service to this coast, which, considering the fact that the Old Land is some 15,000 miles away by water, is a service never before equalled in any part of the world.

GEORGE TAKES OUT MINING AND WIRELESS HEAD MEN

Completing an exceptionally fine run from Stewart and Prince Rupert, the G. T. P. steamer Prince George, Capt. Donald, came into port yesterday morning. Beautiful weather was encountered throughout the entire trip. A large list of passengers came ashore, there being 60 saloon and about 75 steerage travellers.

This morning the George left again for the north, and among the passengers she took out was W. J. Elmendorf, of the Portland Canal Mining Company. He is going in to look over the company's interests at Stewart. He is accompanied by his wife and Mrs. C. J. Johnson. E. J. Haughton, superintendent of the Dominion Radio-Telegraph service, also went north to inspect the wireless stations. G. Milburn and J. W. Newman also embarked here.

The Prince Rupert, Capt. McKenzie, left Prince Rupert this morning for Victoria, and will arrive here on Wednesday morning.

Wireless Operators Use New Tactics in Strike. Seattle, May 12.—A new scheme of the striking wireless operators to win their strike for higher wages was revealed on Saturday when a wireless message was received from the steamship Alameda, which sailed for Alaska Friday night, that one of the wireless men was missing and that the vessel was at sea with only one operator aboard. The Alameda left her slip with two operators who had gone on a strike but returned to work.

Investigation developed that one of the operators had scrambled over the side as the Alameda was casting off and had slid down a rope into a waiting rowboat.

According to customs officers, the wireless operator is subject to loss of his license for desertion.

The Harrison liner Historian, Capt. Liewellyn, passed out yesterday bound for Portland, where she will load 200,000 bushels of wheat.

Railways will use two million tons of steel a year, about half the world's product.

CARGO DELAYS MARU TWO DAYS LEAVING

Seattle Will Not Arrive From Orient Till Saturday; Protestants Here To-morrow

Owing to delays in loading freight in the Orient the Osaka Shosen Kaisha liner Seattle Maru, Capt. Saito, will be two days late reaching Victoria. She is scheduled to berth here on Thursday, but shipping men do not expect to see her in port until Saturday afternoon. It is likely that she will come along with the C. P. R. liner Empress of Japan, Capt. Hopcroft, which is also due in port at the end of the week. The Seattle is bringing to Victoria about 125 passengers and 600 tons of freight.

Norman Hardie, local agent of the Blue Funnel Line, has been advised by wire from Tacoma that the steamship Proteus, Capt. Milhench, will return to the outer docks at daylight to-morrow morning to discharge 3,000 tons of cargo. Several gangs of longshoremen will be set to work putting off the whisky, ale, glass, nails, paint and other European and Oriental merchandise, and it is expected that the Proteus will get away for Vancouver, her next calling port late Wednesday night.

Much Flour Going Out. To-morrow morning at 11 o'clock the Osaka liner Panama Maru, Capt. Kanao, will depart for the Orient laden to her capacity with general cargo, and the following day at noon the Titan, Capt. Evans, of the Blue Funnel fleet, clears for Liverpool via the Far East. Between them, these two boats will take out 60,000 barrels of flour, one of the largest consignments to be shipped from the Sound for some time. These ships also have big shipments of lumber, fish, cotton, machinery, automobiles, motorcycles and general merchandise. The Panama Maru will carry the mails which missed the last outgoing Empress, and will also have as dead-heads the five Japanese stowaways who were caught soon after the vessel left Yokohama.

Yokohama is Coming. W. R. Dale, representing the Nippon Yusen Kaisha here, has received advice from Yokohama, which states that the vessel got away from Yokohama on time May 21 with 187 passengers, of whom 131 are Chinese, and 600 tons of freight for Victoria. She will arrive here on Wednesday, May 22.

COAL CHUTES BURNED. Belleville, Ont., May 12.—Fire which destroyed the Grand Trunk railway coal chutes this morning destroyed more than 300,000 tons of coal, causing a loss amounting to about \$20,000.

Bound for East Coast ports, the C. P. R. steamer Charming, Capt. Gilchrist, will leave here late to-night. She will take out a number of passengers.

FIVE-DAY SERVICE STARTS ON JUNE 1

Princess May and Princess Sophia Operate to Skagway to Handle Tourist Travel

C. P. R. EXPECTS GREAT VOLUME OF BUSINESS

Repairs to Injured Skagway Vessel Now Being Rushed; Both Ships Very Popular

At the first of next month the five-day service of the C. P. R. between Victoria and Skagway will be inaugurated and the two steamers, the Princess May, Capt. McLeod, and the Princess Sophia, Capt. Campbell, will operate on that run until late in the fall. The steamship company has made great preparations for a bumper tourist season and expects to handle the largest crowd of sight-seers that has ever gone north to see the mysteries of the Northland.

The Princess May has been given her overhaul and the Princess Sophia is now at the yards of the B. C. Marine railway having repairs made to the injuries she received through grounding on Sentinel Island, Lynn Canal. The building in of a new forefoot, it is expected, will take about ten days longer and the Princess Sophia will then be ready for her summer travel. The keel plate has to be renewed for about 45 feet aft of the stem and many new plates and frames are required before the Sophia will be sound and tight once again.

Mail Contract Calls For Two. Despite the fact that the mail contract calls for a five-day service to Skagway after June 1, the C. P. R. requires two steamers in the summer to take care of its vast amount of trade. Last year the Skagway vessels carried including large parties of tourists who made the round trip to see the great glaciers at Taku and also the marvelous scenery up the coast and Lynn Canal. This year, however, the C. P. R. officials look for a big increase in the number of passengers cared for, and judging from the volume of business being done at this stage of the season, it is not at all unlikely but that all existing records will be broken.

Both the May and the Sophia are well-known steamers. The former has been associated with the Skagway run for many years and the latter was built especially for that trade two years ago. The ships are very popular with the travelling public. Capt. McLeod, of the May, and Capt. M. Campbell, of the Sophia, are as well-known as are their commands. The ships have been participants in a peculiar incident. They struck on Sentinel Island, one of the danger spots of Lynn Canal. Although the accidents were separated by a period of two years, they hit within one hundred yards of each other and within five minutes in time. The May was the first to stick her nose on the rocks.

CAPT. TROUP READY TO RETURN TO VICTORIA

Capt. J. W. Troup, manager of the B. C. coast service, who has been in the Old Country on business in regard to the awarding of the contracts for the two new C. P. R. flyers for the coast trade, is expected to return to Victoria in about two weeks. The Times has received advice that the steamship officials will leave Liverpool on the liner Empress of Ireland next Friday.

Capt. Troup has been absent from this city for several months, and has completed some of the most important business ever put through in connection with coast shipping. The new Princesses will probably be here in eighteen months' time. The builders offer to complete the ships in fifteen months.

STANCH WOODEN STEAMER CORWIN LEAVES FOR NOME

Seattle, May 12.—The wooden steamship Corwin, formerly the United States revenue cutter of that name, left Saturday night for Nome with 75 passengers and fresh food and newspapers for 2,500 people of the Behring Sea mining camp who have been cut off from the world for seven months. Three revenue cutters have already sailed north, but only the Bear, which went yesterday, will touch Nome.

Behring Sea is now full of Arctic ice, which is a solid sheet for 40 miles from shore and less compact farther out. All summer the ice will drift north through Behring strait into the Arctic. The Corwin for many years, up to last season, was the first ship to reach Nome, her wooden sides being able to resist the squeeze of the ice, which would have destroyed a steel boat. Sometimes the early boats are held in the ice for many days within sight of Nome. If the ice is safe the passengers land on the ice and walk to shore. The Corwin will ply during the summer between Nome and Kotzebue sound, in the Arctic ocean, and will be the last boat to leave Nome for Seattle in the fall.

AROUND THE SHIP CHANDLER'S STOVE

HEN WENT ROUND THE WORLD SIX TIMES.

"You know, when I first got command of a ship, my dear old mother gave me one of the prize chickens in her farmyard, and she told me to take the very best care of the pet and bring it back safely. Well, I had the greatest time with that old hen. I took her round this old world no less than six times, and many's the time I wished the bird was in the realm of peace. She was always getting into some trouble or 'nother, and she finally ended up in committing suicide. I came to that conclusion because I found her one morning with her head in one of the seepers which was full of water." One of those seadogs who invade the ship chandler's store every day told a yarn on the pet hen he once had at sea.

"Look here, my hearties, that old hen of mine, when she used to wake up in the mornings, would make a round of the ship. She'd first make for the fo'c'sle to look for cockroaches, then into the galley to get something nice from the cook, and later visit the cabin to pick up the crumbs off the floor. That hen was the best layer that I ever did see, and I tell you I know a thing or two about chickens because I lived on a farm for many years. She used to lay an egg every day except Sunday, and then on Monday, in order to make up for the off day, she used to lay either two eggs or a double-yolked one.

"One fine day I was mixing some paint for painting the ship. It was red stuff, and I left it for a few minutes to go and get a little turp. While I was gone the old hen flew up on the paint tin, and before she knew where she was, she was in the paint. I heard the fluttering and hastened forward to release the bird. When I hauled her out she certainly did have a fine coat of paint. Instead of putting the turps in the paint I just dosed it all over the bird and tried to get the paint off. Would you believe me, the next day when the bird came round on her morning visit she was no longer a feathered creature. The turpentine had removed all the feathers and fluff, and for a long time the hen went around naked.

"I guess you fellows know how much the darkeys like the chicken. Well, one time we were lying at Galveston, way down in Texas, and the hen had just laid her daily egg. Some darkeys on the wharf heard the cackling of the chicken, and I could see that they were up to some dodge or another. Late that night I was awakened by the terrible squawks of the hen. I ran out on deck and just saw a negro jumping over the bulwarks and making his way ashore. I rushed and secured my revolver and shouted to the thief: 'Hey, there, Mr. Coon, bring back that chicken. You're caught now. Hurry up or I'll put a few pieces of lead in that skull of yours.' 'At right dose, Massa. It's a hurryin'.' My little hen all but lost her life that time.

"The hands for'ard played a great joke on me one trip about that hen. Well, it was this way. I'd decided to get a setting of eggs and cut out eating an egg for breakfast in the morning. My hen showed signs of reaching the broody stage, so I got a nest rigged up in the fo'c'sle and set her on fourteen eggs. The hands for'ard saw me doing this. Well that night they pinched all the eggs and put in their place a number of artificial eggs, made out of wood and whitewashed. The hen didn't know the difference. About five days after, when I went to see if there was any sign of new chickens I found the joke. I never set that hen after that. When ever she got broody I just tied a piece of red cloth to her tail. You should have seen her fly around the deck.

"That hen had a thousand and one experiences. On her sixth voyage around the globe she sort o' got tired of life, and one morning when I was strolling round the deck I found her drowned. She'd had a awful life all right. I'd operated on her three times to remove fish-hooks from her crop. She was a awful hen to eat. Well, she died and we had a burial service at sea, and that was the last I saw of my mother's prize hen, which never again saw the old farmyard."

ADDING ANOTHER DEPARTMENT TO OUR BIG STORE

SPLENDID GAS RANGES NOW OCCUPY PART OF THE MAIN FLOOR

THE constant inquiries for Gas Ranges have caused us to look around for ranges that we could back with our usual guarantee. After investigating many makes, we are pleased to announce that we have been fortunate in securing the exclusive local agency for ranges that we have every reason to believe are second to none on the market.

"Weiler's" castiron, white enamelled, sanitary Gas Ranges have many interesting features that we shall be pleased to demonstrate to you. One feature of special interest is the fact that tests have shown that better results are to be had with a saving of from 10 per cent. to 40 per cent. in gas.

ABSOLUTE SAFETY is another feature of special importance.

THINGS THAT WOMEN NEED EVERY DAY

You Would Think They Were Specials If You Compared Prices With the Quality

University Cadets held their last practice at the 200 and 500 ranges, before the Canadian Rifle League matches on Saturday morning. There are two teams entered for the C. R. L. matches this year, one in the class shooting with rear aperture sights, and one with open sights. Some of the best scores in the first class were: McCrea 58, University 59, Woodward 58, Winc 58, Watt 57, Drewry 55, Taylor 54, Wallace 53. Waldon made the best score in the other class with 53. Some of the others were: Riley 46, Williams 44, McDonald 44, Brouse 41, Hohns 40, Spalding 40.

New York, May 12.—Devereaux Milburn, member of the winning American polo team of two years ago, and a candidate for this year's international team, was seriously injured in a practice game on the field of the Rockaway Hunt Club.

The most successful collar idea we have ever brought out is the new **TOOKE Lock Buttonhole**. It is easy to button, and gives the very close front effect so much desired.

PRO. SOCCER.

Opening of New League Drew Large Crowds.

Montreal, May 12.—Professional soccer, the real thing, received its official baptism in Canada, when the opening of the Interprovincial Football League season took place in Toronto, Ottawa and Montreal Saturday.

In Toronto, the Hamilton Club had an easy time winning from the Queen City, of Toronto, eleven by a score of 3 to 1. In Ottawa the Montreal Rangers played the local team and inflicted a 4 to 0 defeat on them before a large and enthusiastic crowd. Mayor Ellis, in the absence of Premier Borden, kicked off.

In Montreal the game was between the Montreal City team and Toronto. The Montreal City team went down to defeat to-day by a 3 to 0 score, and the hopes of this city for the first professional soccer championship would seem to be settled on the Rangers.

GANUCK BUYS YACHT.

Seattle, May 12.—Seattle has lost another trim little yacht to the keen sportsman of British Columbia, who have purchased so many of the finest craft in local waters. Henry C. Field's cruising sloop Onoma has been sold to Angus McDonnell, of Vancouver, B. C. The handsome craft, considered the best finished boat in the Seattle Yacht Club fleet, will be taken to the northern port at once.

SPORTING NEWS (CONTINUED)

ROBINSON LOOKED TO WIN OVER ED. SHANNON THURSDAY NIGHT

Everything Ready for V. A. C. Smoker; Al. Davies Will Go to Seattle for P. A. A. Tourney

Both of the principals for the Victoria Athletic Club smoker on Thursday evening have arrived in the city and are now in training for the big boxing carnival which is to be held at the Broad street club rooms of the V. A. C. Red Robinson arrived from Vancouver Sunday morning, while Ed. Shannon will work out with Joe Bayley every afternoon at the club rooms and looks able to take care of himself against the best of them. Shannon was shaded by a slight margin in his bout with Frenchie Valse at Seattle on Friday night and is willing to stake all that he can beat Robinson.

Robinson Favorite.
From the dope at present Robinson should beat Shannon. The Pittsburgh boy secured a draw with Valse at Seattle, a couple of weeks ago and while he has not fought since, his record is sufficient. Any boy that can stick ten rounds with Packer McFarland is good enough for any of 'em. Shannon will work out with Bayley, while Robinson and Ed. Clarke will be together at the St. Francis hotel. Joe Swain will drop in to-night from Portland and the card will then be completed.

Al. Davies will be the only local entry for the P. N. A. championships which are to be held at Seattle on May 15 and 17. Billy Davies, the J. B. A. A. instructor, will accompany the bantam to Seattle for the tourney. He looks for a win.

Pro. F. E. Dorchester, a well-known Vancouver physical culture instructor, has opened a branch at 654 Yates street, where he will continue the work which he has started in Vancouver. Prof. J. R. Hannan has charge of the Dorchester System of Physical Culture in this city. Announcements of special classes will be made later.

SACRAMENTO STAR MAY JOIN BEES

Bert Swain Slated as Local Prospect; Programme Winners

It is possible that Outfielder Swain, of the Sacramento Club, will join the Bees at Portland this week. Wolverton has been asked by the local management to turn over a hard hitting outfielder, and as he has Swain as an extra outer gardener, he may turn him over to Victoria. Swain is a sure .300 hitter, and is a high salaried artist, he would fit in pretty nicely just now.

Lynch will surely work his south paws against the Portland Club, who are not any too strong against the sport siders. The club has placed the theft cases in the hands of the police, and the blue coats expect to land their quarry before the end of the week.

After this Saturday games will start at 3:30 instead of 2 o'clock, while on June 1, the club will start their evening games, two of these a week being on the cards after that date.

Following are the winners of the programme contest at the ball park last week: 1. William Scott; 2. John Johnston; 3. Mr. F. Grub.

LOCAL ENTRIES FOR GOLF MEET

Victoria Will Be Represented at P. N. G. A. Tourney This Month; List of Events

Many Victoria golfers will take part in the thirteenth annual championship meeting of the Pacific Northwest Golf Association, which will be held on the links of the Butte Country Club, May 20, 21, 22, 23 and 24. In the arrangement for the meeting President Chester Thorne, of Tacoma; Vice-President R. L. Macleay, of Portland, and Secretary-Treasurer O. H. Van Milligen, of Tacoma, have had the assistance of the following executive committee: E. A. Hughes, Spokane; J. A. Rithet, Victoria; C. J. Smith, Seattle; J. A. Yeloyless, Vancouver, and Dr. F. W. McCrimmon, Butte, the latter also president of the Butte Country Club. Secretary A. L. Matter of the local club has, probably, been the busiest individual of all.

The rotation in the championship meeting will place Seattle in line for the championships next year.

The Men's Pacific Northwest championship will be played as follows: Qualifying round, Tuesday, May 20, thirty-six holes medal play. Best thirty-two will qualify and continue to play at match play, eighteen holes. Semi-finals and finals will be at thirty-six holes. The beaten sixteen in the championship round will constitute the first flight, and the third sixteen in the qualifying round will constitute the third flight. An additional flight will be held if there are enough entries.

The Ladies' Pacific Northwest championship will consist of eighteen holes for a qualifying round, medal play score, and will be played the afternoon of May 20. The best sixteen will qualify for the championship matches and play eighteen holes throughout. The beaten eight will form the first flight and the third-eight in the original round will form the second flight.

All handicapping in the handicap events will be based on the respective club returns of secretaries, supplemented with authentic information that may necessitate a change in the number of spotted strokes.

Friday will see the big open championship sent off along with the semi-finals and the men's championship, finals in the four men's flights, finals in the ladies' championship, mixed foursomes and approaching contests for both sexes. All the finished business, notably the amateur championship finals, will be played Saturday, the closing day.

JONES CONFIDENT THAT CARTER WILL JOIN VANCOUVER

Though Nick Carter is still practicing with the Westminster squad at the Royal City, Con. Jones is confident that Carter will wear a Terminal jersey when the teams line up for the Victoria Day opener. Micky Jones is the only real hold out that Jones has to deal with.

It is possible that President Percy Quinn will come through to the coast after the Winnipeg lacrosse conference and take in a couple of games between the Vancouver and New Westminster teams. It is altogether likely that Messrs. Quinn and Cowan will get together this week at Winnipeg and draft a constitution to govern the commission.

Victoria will have five pro. matches this season. Three scheduled games between Vancouver and New Westminster will be played here, while a couple of exhibition games will also be staged during the carnival in August.

LONGSHOREMEN IN TROUBLE.

Los Angeles, May 12.—The Pacific division of the International Longshoremen's Association in convention at San Pedro, received a message Saturday stating that the Pacific Coast Steamship Company, one of the parties to the Puget Sound wage agreement, had refused to accept the agreement as ratified Friday by the convention stipulating that the agreement shall have a life of eighteen months instead of a year. A general strike may result.

The Pacific Coast Steamship Company, with other shippers, entered into an agreement with T. Y. O'Connor, international president of the longshoremen, to increase scales of pay from ten to twelve and a half per cent, the agreement to remain in force as a contract between men and employers for a period of eighteen months.

GERMANY PREPARING. Olympic Games of 1916 Will Be an Eye-Opener.

London, May 12.—The Olympic congress at Lausanne brought out pointedly, chiefly in private conversation among its members, the astounding thoroughness of the German organization for the next Olympic games in Berlin in 1916, according to advices circulated here. It is said that departments of the German government are concerned with the organization of athletic clubs and private subscribers are contributing on a large scale. American training methods are being closely studied and widely adopted.

At the preliminary opening of the stadium next month, Emperor William will blow this highly-organized enthusiasm into flame and all young Germany will be in training, and by 1916 be ready to compete in every branch of the game.

WANT TITLE MATCH.

Chicago, May 12.—The Globe Athletic Club is willing to give 75 per cent. of the gross receipts of a good, fat cash purse for a finish contest between Frank Gotch and Stanislaus Zbyszko for the championship of the world, on July 4 or Labor Day.

CONGREGATION MOVES

INTO NEW BUILDING

First Presbyterian Church Vacates Edifice Occupied for Past Fifty Years

Yesterday was an eventful day for the congregation of the First Presbyterian church, which removed from the old edifice on Pandora street to the new building at the corner of Quadra and Flanagan. The transition was carried out in its literal sense, the congregation gathering at the dismantled building which it had occupied for the last fifty years, and headed by the pastor, Rev. J. G. Inkster, and Prof. Patterson, of San Anselmo, Cal., moved in procession to the new church. There was an unusually large congregation, which, despite the greater seating capacity of the new building, it was found somewhat difficult to seat, the numbers being augmented by the presence of a large number of children owing to the experiment which is to be made of holding the Bible classes and Sunday school directly after the morning service at the church.

Rev. Mr. Inkster read the lessons for the day, and read also the dedicatory prayer of the Presbyterian church, the sermon being preached by Prof. Patterson, who, as the pastor explained in introducing him to the congregation, had been a fellow student at Toronto. The preacher, speaking from the text, "As Thou hast sent Me into the world, even so have I also sent them into the world" (John 17, v. 18), said that this verse conveyed Christ's great idea of His mission in the world. From the age of twelve until the time of His death, at the age of thirty-three, the idea of apostleship had been ever present in the mind of Our Lord. As Jesus was sent by God, so did He in turn send forth His disciples to save the world. Every Christian, said the speaker, was a missionary. God had manifested His love for that which He had sent forth to redeem the world, and that Son had followed the example of His Father by sending others out to save their fellow men.

One of the biggest tragedies of all history had come about through the corruption of the teachings of Christ. Thomas Aquinas, in his book on the religious life, had said that to be God-like we must withdraw from the world to get nearer our Maker. That monastic idea was wrong. Jesus Himself had taught that the nearer we were to God the nearer we were to humanity. He taught that religion was not a separate kind of life, but a transformation of that life which we already lived. Preachers and priests were necessary; but religion could not exist if every man were a priest. There must be disciples and teachers everywhere, and each one should be an apostle of Christ in the little world of opportunity in which he lived. The world had been saved by Jesus in so far as His disciples had been faithful in obeying Him.

Beaface, Augustus. Booth—these were but a few names in the great roll of Christians who had carried the Word to some particular section of humanity. Each person, however, could be an apostle in the same way by reaching out in his little world of opportunity and influence. President Wilson, speaking recently on the question of Christian Truth, had said that the vehicle of Christianity was the individual. It might be hard to be a Christian. In California it was very hard to be a Christian. It was far more unusual there for people to go to church than for people in Victoria not to go to church; when he saw western Canadians in their Sabbath observance, said Professor Patterson, he was proud of being a Canadian, and he was proud, too, when he saw the effect of Christianity on their everyday actions.

At the close of the service Mr. Inkster called attention to the change which would take place in the holding of the Sunday school at 12.30 every Sunday immediately following the morning services, and reminded the parents and children that part of each morning's services would be specially arranged to interest the children who accompany their elders to the church. He also expressed a wish that all baptisms, marriages and funerals of members of the congregation should take place from the church, four infants being brought up for baptism just before the congregation disbanded.

A STARTLING EXPERIENCE.

British shipbuilders have recently had an experience almost as startling to them as the victory of a foreign crew at Henley would be to British oarsmen. A firm of British ship owners has recently awarded a contract for three steamers to French builders as the lowest bidders. The vessels will be built at Dunkirk at a gross expense of \$5,500,000. They will carry cargo and will operate under a flag. As the French excel as naval architects there is no reason why these Dunkirk-built craft should not be as good as any of their kind launched from British yards. The French contractors owe their ability to make in part to the stimulus the subsidy system of their government gives to their industry. The London Times, while emphasizing the French bounty system as a factor in the award, intimates that there are other causes "whereby work has been lost to hundreds of British workmen which deserve to be thoroughly threshed out." Unless British conditions become more favorable, further large British orders, it predicts, will go to the builders of Continental Europe.—Boston Transcript.

The question as to which of the two, Greece or Bulgaria, is to have Salonica threatens to cause trouble between them, and, rather than this should happen, Turkey, it is said, has expressed her willingness to retain the town.—Punch.

LATE BISHOP'S LIFE

IS GREAT INCENTIVE

Rev. T. W. Gladstone Speaks of Dead Leader at Church of Our Lord

"Like Moses he was preeminently a servant of the Lord, whatever else he may have been. In his humility he might have called himself what none of us would have done—an unworthy servant—but never did he have relinquish his claim to hold that high office."

In these words Rev. T. W. Gladstone at yesterday morning's service in the Church of Our Lord summed up the life of the late Bishop Cridge. A large congregation was present to take part in the services, which were of a memorial character. Hymns appropriate to the occasion were sung.

Basing his remarks on the words in Deuteronomy 34, 5: "Moses, the servant of the Lord, died there," the preacher said that the press had told more of the life of the late leader than he could bring into the pulpit. His own personal acquaintance with Bishop Cridge had extended over nine years, and had been of the closest and most intimate nature. From many of the bishop's earliest friends he had learned that the sweetness of his character, was not the development of old age, but had been the same from the beginning. He had loved the service of the House of God, the liturgy and the sweet hymns, the holy exercise of prayer and the Word of God, which his mind was so richly stored. It had been the late bishop's joy to welcome to the city many fellow-servants in the ministry. It was a wonderful privilege to have known such a man, but his hearers must remember that with the privilege had come responsibility. They should be the holier and more active for all they had seen and learned in the good bishop.

At the evening service Rev. Mr. Gladstone spoke from the passage, "Precious in the sight of the Lord is the death of His saints." Psalm 116, Touching again on some of the outstanding characteristics of the dead bishop, the speaker read William Cullen Bryant's "The Old Man's Funeral." He felt that the following words admirably pictured the character of the bishop:

"His youth was innocent; his ripeness marked with some act of goodness every day;
And watched by eyes that loved him, calm and sage,
Faded his late declining years away.
Cheerful he gave his being up and went
To share the holy rest that waits a life well spent."

It has not yet been decided what form the memorial to the late bishop will take, but it is expected that among the things which will mark his life will be a stained glass window in the Church of Our Lord.

TWO TROPHIES GIVEN FOR RIFLE SHOOTING

James Thomson and Charles F. Todd Give Prizes for Competition in Fifth Regiment

A silver cup for marksmanship competitions among the members of the fifth Regiment, C. G. A., has been donated by James Thomson, of Winnipeg, and commissioner of the Hudson's Bay Company. The trophy is to be competed for in a series of matches this season.

In the letter which Mr. Thomson sent to Lieut.-Col. Currie, informing him of the gift, was also enclosed an order for \$25, which is to be divided into four prizes for the successful marksmen of the regiment. Stating that he wished to make the gift to the men, Mr. Thomson intimated that he would lay down no conditions whatever to govern the contests, but would leave the matter entirely with the regiment. The prizes will be competed for during the summer matches, the conditions for which will be announced later.

Another trophy which is expected will stir the spirit of rivalry among the men, has been given by Charles F. Todd. It will also be competed for this season. The officers of the regiment express great appreciation of the public spirit shown by the two donors. They feel that civilians can do much by this means in making Canadians into good shots.

AFTER WORK USE SNAP
It will clean your hands thoroughly and quickly no matter how soiled they are and leave them smooth and soft. Ink, paint, oil or grease stains off them come with Snap. Get a Can To-Day. Have the Coupon. Snap Company Limited, Montreal.

TO CONSIDER FUTURE OF ACCOMMODATION

School Board Will Have Report Before It on Overcrowded Schools

The future of accommodation in the public schools will engage the attention of the school board on Wednesday at the monthly meeting. Temporary arrangements have been adopted at several of the schools, and other expedients tried to carry the board over the delay through the construction of some of the schools now building. A valuable report presented to the board at a recent meeting setting out the situation fully, and it has since been considered by the buildings and grounds committee.

The board must shortly determine the building programme, as new structures cannot be added quickly, and there is inevitable delay in carrying through the best regulated plans. City Superintendent Paul, in the statistics which he presented to the board last month, which have only undergone trifling changes since, stated that 4100 children are attending the schools, which really ought at an allowance of thirty-five pupils to the teacher, carry only 3485. The balance must be provided for in the new schools building and those projected. Mr. Paul takes the view that frame buildings on some of the sites would be most desirable, on account of the length of time occupied in building brick and concrete structures. They are found adequate in all cases of primary schools, and his report suggests frame buildings at North Quadra street, Oswego street and Hollywood park. A temporary school has been established at North Quadra street, and a site is available at Oswego street, but the land has not yet been acquired. The last named place, as proposed, would be a site in the schools in Fernwood, another site in Spring Ridge is wanted, and superintendent recommends wood merely to secure speedy construction.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, May 12—4 a.m.—The barometer is comparatively high over the Pacific coast, with the exception of local showers, the weather is generally fair. Showers have also been general in the prairie provinces.

H. E. Maddock Will Build at Cost of \$18,000; Other Permits

A building permit will be issued by the inspector to-day to H. E. Maddock for an apartment house on the corner of Linden avenue and Hilda street, which will cost \$18,000. The design has been prepared by Wilbert L. Lanning, and a contract for the building will be awarded this week.

OBSERVE SABBATH EVEN WITHOUT LAW

Deputy Police Chief Says Magistrate's Decision in No Way Affected Observance

How needless is Sunday legislation in Victoria was never better illustrated than yesterday, the first Sunday after the remarkable discovery that there was no Sunday observance legislation applying to Vancouver. The day was marked by not a single unusual feature.

ASSAULT CHARGE FAILS

Magistrate Convinced Roumanians Concocted Some Facts in Valid Case.

A shrewd question put by Magistrate Jay this morning disclosed what may be another angle of the Roumanian romance which was unfolded partially in police court Saturday and continued this morning. The wife of Nick Sempt said that Nick's daughter, who is at the bottom of the whole trouble, was not her daughter, as she was Nick's second wife. Alex. Yalcid, who was accused of assaulting Sempt, was discharged finally, as the evidence was very conflicting and the magistrate was convinced that there was more to the story than was revealed in court, although City Prosecutor Harrison and D. S. Tait, the opposing

WILL CALL FOR TENDERS

Doubtful Whether Plant at Cooper's Cove Will Be Used by Flow-Line Contractors.

It is the intention to call for tenders for the concrete flow line for Sooke waterworks, Water Commissioner Rust stated this morning.

Experiments have been made in Germany in the use of pigeons for scouting purposes. The pigeons are provided with miniature cameras furnished with shutters that are released automatically. The birds are set free from selected points so that they fly over the enemy's fortifications. When they return home the photographs they have taken are developed, and sometimes important disclosures appear on the film.

A wedding present purchased here carries with it that r... tige you desire.

THE EVENING CHIT-CHAT

By RUTH CAMERON

I wonder if anything in the world spoils more happiness and mars more efficiency than the miserable condition of half health in which so many people drag through their existence, and never know what living really is.
The man who is out-and-out sick usually realizes his condition and tries to improve it.
But the man of woman who is neither sick nor well, who is continually in that miserable half-way condition which I call half health, seldom tries to improve.

He can get along somehow, he can earn his living and eat his meals and take his pleasures somehow or other, and since he has never known or has forgotten the keenness, the vitality, the power, the zest, which real health can put into life, he is sluggishly content to live in half health to the end of his days, to miss half the joy of labor and half the relish of pleasure, to so impair his own efficiency that he can do but half his right share of the world's work, and, worst of all, to pass on the miserable heritage of half health to his children.

Have you got good health—vigor, vitality, happy, good health?
Or have you half health—miserable, nervous, inefficient, sick-every-now-and-then, tired-most-of-the-time half health?
Are you getting the most out of your life or only a small fraction of its possibilities?
We shall pass this way but once and we must get all we are going to get out of life, here and now. Why not make a resolution to-day that you will be done with half health forever, that you will start right now to win real health for yourself and get the most possible out of life?

A certain well-known woman, who conducts classes in salesmanship all over the country, always talks to her pupils first of all about their diet, the need for daily exercise and the amount of sleep needed, etc. She considers this an important part of a course in salesmanship because, as she tells her pupils, good health is a duty an employe owes his employer.
How much more do we owe than good health to ourselves, to those who have to live with us and to those who are to come after us and inherit our health or lack of it?

The duty of health is something which is seldom spoken of. Nevertheless it is one of the most urgent and vital duties in the world.
Ruth Cameron
WOMAN'S HAIR REACHES TO KNEES
A Year Ago Was Threatened With Baldness. Tells How She Made Her Hair Grow.

Mrs. Esther Emery, now visiting friends in the city, is the fortunate possessor of marvellously beautiful hair, which, when loosed from its coils, falls to her knees. Moreover it is of soft, silky and glossy texture and in color a glorious glossy gold. Yet just one year ago she was threatened with baldness. Urged to tell how she had obtained this wonderful growth in so short a time, she said: "Had anyone told me such marvellous results could be accomplished so quickly, I positively would not have believed it. Twelve months ago my hair, which then reached barely to my shoulders, was falling out at an alarming rate and growing very thin, actually exposing the bald scalp in several spots. It was dull and lifeless in color, turning grey in patches, and very dry and brittle. My head was covered with dandruff and itched like mad all the time. I tried fully a dozen different hair tonics but they were all the same and never did me a bit of good. One day I chanced to read in my home paper of a simple home prescription to make the hair grow that was recommended by a well known physician. It said that by taking ordinary Lavona de Composee and mixing with Bay Rum and Menthol Crystals and applying to the scalp each night with the finger tips that new hair would grow very rapidly. I decided to try it and I had my drug-gist mix 2 oz. of the Lavona de Composee with 5 oz. of Bay Rum and 1/4 dr. of Menthol Crystals, and started to use it. My hair quickly my hair did grow. First the hair stopped falling, the itching ceased and the dandruff disappeared. Then tiny little hairs appeared all over my scalp. These grew and grew as though nothing would ever stop them. They are growing yet and while, of course, I have used the treatment steadily and expect to continue it, at least until my hair reaches the floor, I might have stopped and been perfectly satisfied at the end of three months. I think that any woman can get long, thick, beautiful hair by using this prescription as I have recommended it to several friends and all are delighted with the result. The prescription is very inexpensive and any druggist can fill it. Those who use it on the face or where the hair is not desired.

MEDICAL FACULTY ISSUES PROSPECTUS

McGill University Announces Post-Graduate Courses to Be Given May 26 to June 30

The medical faculty of McGill University has announced the courses for graduate students which will be given between May 26 and June 30, at the Montreal General and Royal Victoria hospitals, and in the laboratories of the medical school.

According to the prospectus, just issued, all the courses are optional and dependent, and are arranged on the basis of intensive teaching. They are designed with the idea of bringing the post-graduate up to date in any subject he may desire, and where more than one course is wished, it has been arranged that the students may have it without overlapping analogous courses. The classes are open to graduates of medical schools in good standing, but all post-graduate students are required to register with the registrar of the medical faculty to whom application should be made. Any special course not included in the prospectus may be arranged for through the registrar of the medical faculty.

The prospectus provides for courses in clinical surgery, operative surgery, clinical medicine, orthopedic surgery, gynecology and obstetrics, pathology, anatomy and physiology, pediatrics, and immunology. The fees connected with each course are named on the prospectus, as well as the names of the lecturers in the respective subjects.

STUDENTS TO SPEAK

Annual Speech-Making Contest Takes Place at High School To-morrow Evening.

The annual speaking contest for the students of the High School for the

Back with medal will be held to-morrow evening. The "Beta Delta" society which was formed two years ago is for the sole purpose of developing the young speakers, and has met with nothing but success. Last Saturday by defeating the Vancouver High school, Gordon Campbell and Ewart Gee, of this society, are now the inter-scholastic champions in debating of the province. This contest was open to all high schools in the province.

The speaking contest is causing much interest among the students and there is no doubt that when the chair is taken at 8 o'clock the auditorium will be filled. The speakers are: H. Clark, G. Campbell, J. O'Mera, S. Stubbs, E. Gee, P. Hamilton.

THE ARCHITECTS' STATUS

Action Determines His Place in Constructional Work, Says Architect.

According to C. Bryant Newbold, whose name was struck from the action, the decision in the action of Atherton vs. Le Seueur on Saturday in the county court, is an important one to architects. The action against the owner was dismissed by His Honor Judge Lammiman.

Mr. Newbold said this morning that apart from the merits or otherwise of the case in which he, for endeavoring to enforce the terms of the contract, had been involved, the case established a principle which was badly needed in his profession here. It proved that an architect had full power to insist on the strict letter of the contract, and to exercise full inspection, a course which was granted at the present time as grudgingly as possible.

The proposal that smoking should be permitted in the regular theatre was received by many with a cry of horror. But times have changed, and the methods of theatrical managers must change with them.—Str A. Pinero.

As a supreme instance of absent-mindedness a correspondent quotes the case of a man who, while hurrying to catch a train, thought he had forgotten his watch, and took it out to see if he had time to go home and get it!

CAP MANUFACTURER MAY ESTABLISH HERE

Advantages in Freight Rates Offset Any Increase in Wages Over the East

There are caps enough bought in this province to keep a factory employing one hundred people going steadily all the year round.

This statement is made by a Winnipeg man who writes to the Vancouver Island Development League for some information on which to base possible plans for opening such a factory in Victoria. The writer is a man who is connected with the business and is interested in establishing a plant on the coast. He has some remarks to make in regard to wages and freights that would apply to any industry starting here. In this connection he says:

"The coast laborers under the belief that wages are so high that it will be impossible to compete with the eastern houses. A similar belief existed in Winnipeg until an eastern man opened here and has made a wonderful success. Not only do the freight rates balance this, but he is in immediate touch with the demand and can give rapid delivery."

"I am satisfied that the market in British Columbia will support a manufacturer and the freight rates from England on the cloth goods will be much less than to this city. Besides this there is the advantage of being in direct touch with the demand for rapid delivery."

"The secretary of the league will at once furnish the inquirer with the information he asks for."

OLD ENGLISH FAIR TO OPEN NEXT WEEK

Daughters of the Empire Enterprise Will Inaugurate Great National Holiday

Victoria should be preparing itself for the great event of next week—the event which is to inaugurate the great national holiday, and which, very appropriately, will be given under the auspices of the Imperial Order of the Daughters of the Empire.

The "Kermess" and "Old English Fair" promises to be one of the most spectacular and beautiful performances ever promoted in the city, and has been arranged to take place in the Skating Arena, which for the occasion has been entirely floored over, and will take place on May 22 and 23. The immense floor space will provide ample scope for the numerous and novel attractions projected by the various bands of talented and enterprising women who have the event in hand. The Daughters of the Empire have already shown the character of the inspiration under which they work, and their name has become in this city a pledge for "good service." The public are also contributing much to the enterprise by giving their time and talents in preparation for the entertainment which promises to be one of the big attractions of the year.

More than 250 performers will take part in the proceedings. The rink, which will be decorated to represent an English rose garden, will be studied about with stalls where different articles are to be vended. An orchestra will be in constant attendance, and dances and tableaux, for which this small army of performers have been training for the past few weeks, will be given from time to time during the day.

The proceeds of the fair will be given

to the general funds of the order to carry out the various patriotic purposes which are being undertaken by the organization, and among which is the presentation of colors to the new Canadian Regiment (88th Fusiliers) and the proposed memorial to the late Mrs. Agnes Deans Cameron.

THE KINOPLASTIKON.

At the Scala theatre, London, recently that extraordinary development of "motion photography," the Kinoplastikon, was shown in England for the first time. This invention dispenses with both the screen and the darkened stage, the moving figures being projected stereoscopically into space. Consequently, except for some rather eerie transparency when the figures appear on the stage, or go, they might be considered living beings. They enter from the wings in full light, and after the performance, when the audience applauds, reappear and bow. This means that actors, singers, musicians,

dancers, and other famous artistes, can be, to all appearance, reproduced, in body, action, and voice, by a process which gives practically an illusion of life. Only the occasional vaporous appearance of the performers, an unnecessary effect, betrays the fact that it is but their apparitions which are there. This invention is really a greater advance on the moving picture than the last is on the magic lantern.

Ben Butler was once chairman of a meeting at which Rufus Choate was booked for an address. Mr. Choate was about to begin his address when a man crawled up to Butler, and whispered to him that the joists in the floor and the supporting beams were giving way and they were likely to collapse any moment. Butler turned to the man and whispered to him: "Keep quiet." Then turning to the audience, he said: "A man has brought me information that outside of this hall there are not less than twenty thousand people clamoring for admission. I propose to adjourn this meeting to the common, where all can hear Mr. Choate, carry in the chairs, and I can't make them hear," and so on. After most of the audience had left, Butler turned around to Choate and said: "Say, Choate, would you rather deliver this speech here in this hall or in hell?"

**FINE PERFORMANCE
OF OLD BOOK PLAY**

Nat Goodwin's Company All That Could Be Desired in Interpretation of Oliver Twist

When Nat Goodwin's excellent company played "Oliver Twist" at the Victoria theatre Saturday night it was the last performance of the company for the season, the assembly of twenty odd players scattering to the four winds Sunday morning in search of summer engagements or vacations, according to disposition or wealth.

There was, however, no visible evidence of letting up on the amount of work put into the performance of the well-known old drama drawn from Charles Dickens' famous novel. Nat Goodwin's famous characterization of Fagin was done with a minute attention to detail in the most magnificent gestures and inflections and is one of the best pieces of acting of this generation, beyond doubt. The slight bobble which Mr. Goodwin has acquired from his recent accident added more to the part than almost any amount of art could have done.

Oliver Twist is a play for which most

of the members of the cast have to be selected with great care on account of the large number of character parts. The quaint parts of The Artful Dodger, Charlie Bates and Tom Chitting were wisely assigned to English people and the scenes in old Fagin's den were lived considerably by their odd comedy. Percy Standing as Bill Sykes gave an excellent interpretation of a heavy role, while Miss Marjorie Moreland stamped herself as an actress of real ability in the part of the unfortunate Nancy.

One of the most delicately restrained little scenes in the play was that in which Rose Maylie told her lover that she must withdraw her promise to marry him. Miss Enid Makey's portrayal of the gentle Dickensian heroine was as dainty as the author's conception of her. A fine contrast in dramatic art and physical beauty was the brief scene between Nancy and Rose.

The tragedy in the fourth act was mercifully (for the audience) effected just off the stage. Only Nancy's scream and dying moans could be heard.

Other members of the cast worthy of special mention were Miss Norma Mitchell, who did a very nice bit in the part of the boy Oliver, and William Chapman, who presented a fine piece of character work as old Grimwig, the blusterer.

A sum of £28,903,543 was spent in the United Kingdom in 1912 on tobacco, pipes, etc. This works out at over 12s. 1d. a head, or 23 1/2s. 9d. a family.

WATER QUESTION WILL ENGAGE ATTENTION

Saanich Council To-morrow Will Consider Problem; Assessment Roll Ready

The Saanich council, when it meets on Tuesday, will have an important matter to deal with in connection with the water supply. As an outcome of the recent report on the Garden City water question the service was cut off from Garden City park, which was served from the same mains as the other subdivision. In consequence the city water commissioner was served with a notice of injunction proceedings, but in view of the fact that the subject is one entirely within the purview of the municipal council, the matter has been turned over to the councillors for a decision.

Also since the last meeting the water commissioner has made suggestions to the city council with regard to the services, of which there are some 60 in the municipality. He believes it would be more economical for the city to arrange to deliver water in bulk to the district, as is done with the Oak Bay municipality, and to leave to the council all questions of distribution and collections.

The assessment roll has been completed and will be reported to the council. It is expected that the total will show a considerable advance on that of 1912, and that the number of subdivisions has increased the total of persons holding property in the municipality. It is stated that 60 per cent of the names on the rate book are those of persons who reside in Victoria. There were 17,000 separate holdings last year.

FOUR NEW CHURCHES PROGRESS RAPIDLY

Three Already Occupied by Congregations; Concrete of Basement Finished on Other

The concrete work on the First Baptist church has been completed to the level of the ground at the corner of Vancouver street (yet to be opened) and Fisguard street. This church will have the largest auditorium in the city.

The First Congregational church is rapidly approaching completion, so far as the external work is concerned, and workmen are cleaning the face of the concrete and brickwork.

The schoolroom of the First Presbyterian church is practically finished, and was occupied yesterday for the first time by the congregation, who marched in procession from the old home on Pandora avenue. A commencement on the church proper will be the next effort which will engage the attention of the premier Presbyterian congregation of this city.

The covering of the spire of the new Anglican church is proceeding, and in each of the last three cases the building is advancing to completion while the congregation is already in occupation.

This quartette of churches, almost within a stone's throw of each other, will change the architectural character of the neighborhood very materially.

Relief for Bowel Trouble

Here is a laxative—not a purgative—but a pleasant, easy-to-take tablet that tastes just like candy, that children like, that is ideal for invalids and aged persons. We guarantee it not to cost you a penny if it does not satisfy you. Don't doubt or hesitate—make us prove it.

Consult Your Doctor

We believe your doctor will tell you that about 95 per cent of all human life are indirectly caused by unclean and constipated bowels. You know the first question the doctor asks when you consult him is, "Are your bowels regular?"

When your bowels are not naturally exercised such as they would be if you took a good brisk walk of six or seven miles a day out in the open, they require artificial exercise and a corrective tonic that will soothe and strengthen while regulating the bowels to natural action.

Free If It Fails

We have so much faith in Rexall Orderlies as the safest, most dependable, easiest-to-take, quietest acting and most thoroughly good remedy for bowel trouble, that we offer them with our positive guarantee that if they do not satisfy for any reason whatever, we will hand back the money you paid for them.

Don't doubt or hesitate. Make us prove our claims. Come and get a box of Rexall Orderlies today.

CAUTION: Please bear in mind that Rexall Orderlies are not sold by all druggists. You can buy Rexall Orderlies only at the Rexall Stores.

Rexall Orderlies

Remember, we are doing business right here where you live. You are acquainted with us or you are possibly a friend or a neighbor. We would not dare to make such a statement were we not positive that Rexall Orderlies justify every claim we make for them.

If your tongue is coated, if your breath is bad, if your food does not digest easily, if you feel dizzy at times, if you are bilious, if you are irritable, if you suffer headache, just try Rexall Orderlies because the chances are that you are simply suffering constipation.

Rexall Orderlies come in convenient vest-pocket tin boxes. 12 tablets, 10c; 36 tablets, 25c; 50 tablets, 50c.

D. E. CAMPBELL
The Rexall Store
British Columbia

There is a Rexall Store in nearly every town and city in the United States, Canada and Great Britain. There is a different Rexall Remedy for nearly every ordinary human ill—each especially designed for the particular ill for which it is recommended.

The Rexall Stores are America's Greatest Drug Stores.

WILL NOT BE GUEST

Hon. James Allen, New Zealand Minister of Defence, Here but Short Time.

Colonel the Hon. James Allen, minister of defence for New Zealand, will not be entertained by the Canadian Club of Victoria. This will be because of the brief time he will be in the city on Wednesday before the sailing of the Makura for the Antipodes.

As Viljar Stefansson is expected here in about two weeks, the Karluk now being on the ways under repair prior to her Polar expedition, he will probably be the next guest of the club.

VISITS VICTORIA

Deputy Attorney-General of Alberta in City With Mrs. Clarey.

Mr. and Mrs. L. F. Clarey, of Edmonton, registered at the Empress hotel yesterday. Mr. Clarey is the deputy attorney-general of Alberta, and stated to the Times yesterday that he was making a combined business and pleasure trip to the coast.

He came over from the mainland on the afternoon boat yesterday, and expects to make a few days' stay in the city before leaving for the Albertan capital.

LETTER BOX

Letters for publication in Daily Times must be received at the Times office not later than the day before the day of publication. When received later they will be held over until the following day.

While unobjectionable anonymous communications will be published, the name and address of every writer of such letters must be given to the editor.

AUTO SIGNALS.

To the Editor: I understand that the council intends to pass a by-law tonight rendering illegal the use of Klaxon horns in Victoria. Advocates of this measure state that the Klaxon is banned in most of the coast cities. This assertion may be based on the fact that for some time there was a "Klaxon ban" in Seattle. The advocates of the above by-law may be surprised to learn that the ban has been lifted now in response to urgent public demand. It would always have been allowed but for the fact that its exclusive use was desired for fire apparatus.

And so it stands. Some few local legislators, for reasons which I doubt are clearly understood by themselves, are endeavoring to do away with the only type of warning signal of any real value to either the motorists or the pedestrian.

The automobile's signal should be a warning signal, a danger signal, not a playful signal, and here as in other cities its use should be allowed only as such.

I would respectfully suggest that the proposed by-law be revised to compel the use of the Klaxon, Tuto, or some other approved electric signal, and only at a time of danger. Make it illegal to endanger human lives with the weak and inefficient horns so commonly used, and often so unnecessarily.

I have been interested in several recent decisions of eastern courts inquiring into motor-car accidents. In cases where the obsolete bulb horn was used, and its inadequacy partly responsible for such accidents, the owners have been severely censured and a more powerful horn suggested.

The fellow who is constantly blowing his horn (remember, danger signal) is a nuisance. The one who relies on a bulb or other puny "slow to act" signal is a public danger, and the law should point out to him the error of his ways.

Yours for sane laws and their observance.

T. EUGENE CRANDALL.

MR. MORRISON TO THE MEDICAL SOCIETY.

To the Editor:—I crave the favor of a small space in your valuable paper to explain my position in regard to my recent prosecution by the B. C. Medical Society for an alleged contravention of the Medical Act, charging me with practicing medicine without a license. It is quite true that I have not a provincial license to practice medicine. I have never at any where, engaged in the practice of medicine, in the sense in which that term is generally understood. But those who are responsible for the creation of the B. C. Medical Act have attached (for selfish ends) a meaning to the word "medicine" it was never intended to possess. In my humble opinion the B. C. Medical Act is the most infamous piece of class legislation that has ever disgraced the pages of a statute book. It bears the imprint of the despot. But when we examine the source of its origin, we are no longer surprised to find it to be what it really is. It would be sheer madness on the part of anybody to expect to find pure water coming from a polluted spring. From historical records we learn that mankind from the very dawn of civilization had had to contend with despotic laws made by tyrants who never breathed the spirit of freedom, and who would do their utmost to deprive others of that liberty they themselves have never had the courage to enjoy. At one time I regarded the medical profession with the utmost respect. But unfortunately in the commercial age, in which we are now living, the medical profession like other professions has become too much commercialized with all its attendant corruption. Personally, though always interested in the

CHINA'S CALL TO ALL CHRISTENDOM

Medical Professor of Peking Says Land of Cathay Needs Immediate Aid

ECONOMIC PRESSURE IS DRIVING PEOPLE NORTH

Christianity is Spreading and Increasing All Over China; Great Resources

The following article from the London News is by Thomas Cochrane, M. B. of the Union Medical College, Peking:

China to-day is of absorbing interest from every point of view. If we consider her from the historical standpoint we are impressed with her hoary antiquity. From the obscurity of the "Golden Age" nearly 3000 B. C., when all men were good and doors required no bars, we trace her story through the stirring times when valor in war pushed her conquests to Japan, and westwards subdued the warlike Ghoorkas; when her public works included the great barrier, in which there is enough material to build a wall 7 feet high around the globe, and the Grand Canal, linking the north of China with the south; when her literary activity produced innumerable works, including an encyclopaedia of over a million pages, down to the days of the last great ruler, who placed a baby emperor on the world's oldest throne.

ous with our Burman frontier for hundreds of miles, is one of the richest in the whole country in coal, gold, copper, salt and precious stones. Already railways are yielding dividends of over 30 per cent.

The task which confronts China should elicit our sincerest sympathy. She has frequently to fight famine, flood and pestilence; her economic and financial systems must be recast, and she is entering upon a new political experience; she wants to develop her resources; she is engaged in a war on the borders of Tibet; she is burdened with, for her, a tremendous debt; she is afraid of political money-lenders; and she is frankly and pathetically seeking to rid herself of the curse of opium, and to provide a system of education for her immense population. In this educational task she has been greatly assisted by missionary institutions, especially those of America, and America is beginning to derive benefits from her disinterested and altruistic efforts. From the point of view of self-interest, not to speak of higher motives, we should be repaid if we, as a nation, were to take the lead in a sympathetic and generous treatment of China, which, given at this crisis of her history, would ever be remembered by her to our credit.

The Appeal to the Churches.

China is appealing to her Christian churches to pray for Divine help in a situation of bewildering difficulty. This should open the eyes of the public of Christendom to the influence which Christianity has exerted. Scotts and sneers will plentiful when the first missionaries to China embarked on his great enterprise; and Christian missionaries have long labored and suffered largely unnoticed, but in recent years the results of their toil have been abundantly manifest, not only in the large numbers of converts from to Christianity, but in the changed atmosphere throughout the whole country. The Christian missions have healed the people in his hospitals, relieved them in times of famine, and established numerous schools and colleges for their education. In the province of Shantung alone there are no less than 7,000 boys and girls in Christian schools. He has disseminated Christian literature, and won for himself a place in the love and esteem of the Chinese which has gained a hearing for his message. There are over ten thousand Protestant Christian churches, meeting-places, hospitals and schools throughout the land, which are centres of light and education, and whose influence is out of all proportion to their numbers.

Geographically and politically China is intensely interesting. Her enormous size is not generally realized. Of the eighteen provinces proper, only five are smaller than England and Wales, and some of them are very much larger. The western province of Szechuan, for example, is nearly four times the size of the province of Sinking or the New Dominion nearly ten times as big. Including the New Dominion, known also as Chinese Turkestan, and the three in Manchuria, China contains twenty-two provinces in all; but trouble was in store for the Chinese government when, on the establishment of the republic, Mongolia and Tibet were, on paper, subdivided into provinces and added to this number. The influence of Japan in the south of Manchuria, and that of Russia in the north, is gradually extending. Russia is negotiating with the Mongols and regards Mongolia, which wishes to set up house for herself, and the territory beyond China's northwest borders as her sphere of influence.

Commercial Possibilities.

Tibet has also declared her independence; and thus China, in helpless and pathetic despair, sees territory larger far than that of the whole eighteen provinces, gradually slipping from her grasp, as all Korea and Formosa did but a few years ago; and if it be true that Chinese emigration to Mongolia is to be stopped, the plight of China is a tremendously serious one. For the great economic pressure is driving her surplus population in large numbers towards the empty north; and now, if barred in that direction as well as excluded from America and shut out from Australia, what is she to do?

STUART G. CAMPBELL
212 Pemberton Block

To the commercial man the interest of China is perhaps greater than to others, for her potential wealth is enormous, and rapidly extending communication has opened up the country. Peking is itself only twelve days distant from London, and great trunk lines are in operation, or are being built, from north to south and from east to west. With these lines numerous branches are communicating, and now the great province of Shansi, nearly 82,000 square miles in area, is having her immense coal fields tapped by railways. This province, besides huge beds of bituminous coal, has, it is estimated, no less than 14,000 square miles of anthracite twenty-two feet thick; and when the writer was traveling there a few months ago he saw the coal out-cropping on the roadside. The coal beds in Szechuan are also enormous, and the railway line which is being built from Canton to Hankow, in the heart of China, a distance of about 800 miles, passes over some of the richest coal and iron fields in the whole world. Already immense quantities of pig iron are being shipped to America, and the iron works at Hankow are exporting steel to Mexico and Japan.

NOT CANIS!

It was their honeymoon, and they were at a hotel on the Riviera. "Where do these pineapples come from?" he asked. "Cannes, monsieur," was the reply. "Take them away," she cried nervously, "surely, Clarence, you can afford to give me fresh fruit."—Liverpool Post.

NOTICE
Re Carriage of Dogs on City Cars

Rule 58, covering the operation of cars on city lines, provides as follows: "Small dogs which are held in the lap and which do not annoy passengers, may be carried on cars."

The Conductors of the city lines have been instructed to see that the above rule is strictly enforced, and that no dogs are carried on their cars except such as are kept in the lap or arms of the owner, these being so controlled as not to annoy passengers in any manner.

The strict enforcement of the rule is intended to promote the comfort and convenience of passengers, and the co-operation of the general public is requested in connection with the carrying out of the regulations.

This beautiful eight roomed place is heated throughout with hot water. Cement floor basement, stationary tubs, toilet, etc. in basement. Two fire places, paneled walls, beam ceilings, built-in buffet. Hardwood floors. Balcony or sleeping porch from rear bedrooms. The lot is 50x130 to a lane. No rock. The street will be finished this year. The site is within five minutes' walk of a splendid beach and two minutes from cars.

Price \$10,000
Terms to suit.

This new seven roomed bungalow will be completed next week. It is modern and complete like the other, but in addition it reveals new features in the interior work. This is particularly true of the bedrooms where dressers are built-in. It would require very little furniture for this house. Beautiful lot, three blocks from cars in Oak Bay.

Price \$6,300
\$1000 cash, balance to suit.

BIRTHDAY CALENDAR

IF THIS IS YOUR BIRTHDAY
You will travel and make changes, and the things you accomplish will seem to require a great effort. Your efforts will benefit you unless you carry them to a point where your health is injured.

Those born to-day will be over sensitive. To overcome this, they should be taught when young that all living things have feelings similar to their own. Success will come to them as a result of their own energy and perseverance.

TO-DAY IN CANADIAN HISTORY

During the revolutionary war immense sums were spent by the representatives of the British government in keeping the Indians in good humor. John Allen, the agent of Massachusetts, sent to rouse against England the tribes of the St. John River country—then part of Nova Scotia—complained that "the great advantage the Britains has" in dealing with the Indians, through "their large and good supplies puts me in the greatest difficulty how to act," and in the same letter added "as to the goods, they merely scoff at it, the British goods is so superior." The same story of British generosity to the Redman comes from Fort Niagara. For instance, Colonel Bolton, who was in command there in 1778, wrote under date of May 12, in that year, "I have drawn a bill for £14,769 9s. 5d., in favor of Mr. Pollard—a merchant at Niagara—for sundries furnished the savages, which Major Butler thought absolutely necessary, notwithstanding all the presents sent to this post last year." In the following year, another Indian account at Niagara amounted to nearly six thousand pounds, but apparently the goods for the Indians were purchased for government "at a most exorbitant rate from traders."

BIRTHDAY CONGRATULATIONS

THINGS TO DO

By GEORGE MATHEW ADAMS

The people who get the most done—and still seem to have the most time on their hands for other things—are the ones who go at their work from a carefully mapped out plan. For in the end, it's the one who conserves and uses to its full the 24 hours of Time at his command, that Leads and Rules.
The Successful are they that See and Do—the Unsuccessful are they that See—and do not Do.
Having "Things To Do"—and doing them according to Plan has produced sufficient Romance in the Business of the World, which if written out, would remain undying in its inspiration to succeeding generations. A single illustration here. Hugh Chalmers, but a few years ago Office Boy, then Salesman, then Sales Manager, then Vice-President and General Manager of the National Cash Register Company—now President of a Concern incorporated for millions! Each night Mr. Chalmers' Secretary writes out on a little slip the ten most important Things To Do for the next Day.
Time used in Thinking out things and putting them into logical order for Action, is Time invested in advance.
Victor Hugo says: "He who every morning plans the transactions of the day and follows out the plan, carries a thread that will guide him through the labyrinth of the most busy life. The ray of light which darts itself through all his operations."
"Why are you trying for a job in the cabinet? You know very well that you have no possible chance."
"It doesn't hurt to aim high, and leave plenty of room for discounts. All I expect is a twelve-hundred-dollar clerkship."

GET WISE

Why pay rent when you can make from 40 to 50 per cent. on your money?
You are likely paying from 35 to 40 per cent. month rent and getting no returns.
Now, if you invest \$500 and pay the balance off at 30 per month you can own your own home, don't have to move every few months and will also make from 40 to 50 per cent. on your money as follows:
\$50 per month on your own home—Average interest 12, no returns.
Principal \$18, saved.
\$18 per month is \$216 per year, or 43 per cent. made on your \$500 investment.

ARE YOU WISE?

Two 6-room new houses, on Cook street, modern in every respect; well built, splendid view, and close to car; price \$5,900 and \$4,400, with \$500 cash, balance \$30 per month, including interest. Keys at Queen City Realty, 1413 Douglas St. Phone 2774.

ANNIVERSARY OF THE BATTLE OF BATOCHÉ

Old Members of the 90th Regiment in Victoria Invited to Parade in Winnipeg

To-day is being observed in a quiet way by veterans of the Northwest rebellion who live here, and they are numerous, as the twenty-eighth anniversary of the battle of Batoché, which practically put an end to the uprising.

In Winnipeg the occasion is being marked by a parade of 1,000 veterans and 3,000 troops. The former members of the Nineteenth, Winnipeg Rifles, living in Victoria, received an invitation to take part, and those who fought in "C" company were sent a special request by the present officers and men of the company to go east and be their guests at a reunion of all the old members.

The fight took place on May 12, 1885, and the troops participating in it were the 90th, the 19th Grenadiers, of Toronto, and under Lt.-Col. Greenest, now chief of police in that city; "A" battery, half the Winnipeg battery, a detachment of the Midland battalion, under Lt.-Col. Williams, M. P., who died soon after of illness contracted during the campaign; Boulton's mounted infantry, and French's scouts, 724 in all.

There had been fighting for three days previous, culminating in the attack on the village of Batoché, where the half-breeds and Indians were entrenched in the houses and in earthworks which General Middleton gave great praise to when he saw them afterwards. The struggle was not a very prolonged one, however, and the village was soon in the hands of the troops. There were 5 men killed and 45 wounded in the engagement.

Riel and his lieutenant, Gabriel Dumont, who did not very long ago, escaped from the field, but the leader was captured two days later.

MEETINGS

Debate on Socialism.—This evening, in Emmanuel Church hall, a debate on Socialism will take place under the auspices of the Young People's Society.

Public Meeting at Church.—This evening there will be a public meeting at the new First Presbyterian Church, Flanagan and Quadra streets, where the chair will be taken by Rev. J. G. Inkater, and among the speakers of the evening will be the Hon. Dr. Young, M. P., Mayor Morley, Dean Doull, Dr. Clay, Rev. Herman Carson, Rev. Wm. Stevenson and Rev. Dr. Scott.

Automobile Association.—The Victoria Automobile Association is to hold its monthly meeting to-morrow at 8 p. m. at the secretary's office, Central Building.

Meet To-Morrow.—The Lady Douglas Chapter, I. O. D. E., will meet to-morrow afternoon at 2.30 in the Alexandra Club.

Dance at Work Point.—A return dance has been arranged to be held in the Fives Court, Work Point Garrison, next Wednesday. All those who hold invitations for the next season are expected to be present.

Moose to Dance.—The Order of Moose are to hold a dance to-morrow evening.

Daughters of Scotland.—The Daughters of Scotland will hold their fourth anniversary social and dance in the Foresters' hall, on Friday, May 18. Miss Angus' orchestra will be in attendance, and a good time is assured for all who attend. The dance has been thrown open to all who wish to attend.

If you are ever in doubt what to do, it is a good rule to ask ourselves what we should wish on the morrow we had done.—John Lubbock.

A Profit to You of 50 Per Cent. On Your Cash Investment the First Year

For sale on easy terms, a fine new frame two-story Apartment House on corner lot (51x110) on the mile circle, in best residential district containing nine three-room suites rented for \$335 per month. Revenue per annum \$4000. A big business in itself. Income the first year—50% on your investment. Income the second year—33.1% on your investment. Income the third year—25% on your investment. Income the fourth year—25% on your investment. Income every year afterwards—25% on your investment. In five years the income alone has paid for the property in full. Now, where can you get a better opportunity. Total price \$18,000. The owner will sacrifice on very easy terms. See A. D. MALET & CO. Fourth Floor, Central Building.

MRS. CAMPBELL TELLS STORY IN HOSPITAL

No Intimation in Evidence of What Caused John C. Pendleton to Shoot Her

No intimation of the cause of the shooting affray in the rear of the Blue Post saloon last Tuesday afternoon was given by Mrs. Ella Campbell in her evidence taken by the magistrate in her ward at St. Joseph's hospital this morning, in the presence of counsel and the accused, John C. Pendleton. Mrs. Campbell lay in her bed and answered in a weak voice the questions put to her by City Prosecutor Harrison and defence counsel J. A. Alkman. She is still very weak but is recovering satisfactorily. The wound in her knee is the most serious injury and may result in her being crippled.

According to her story this morning she was sitting in the kitchen behind the Blue Post, of which her husband is proprietor, on Tuesday about 1 o'clock, when Pendleton, a former bartender, who is charged with attempted murder, had entered the room. He had talked to her and her little boy for a few minutes and then Mrs. Campbell had got up and taken some dishes into the pantry.

When she turned around to come out she had seen Pendleton standing at the door of the pantry with a revolver leveled at her head. She had screamed and seized the shining barrel and the weapon had been discharged, the bullet striking her in the fleshy part of the upper arm near the shoulder. She had screamed to the boy to fetch his father and then another bullet had gone off, hitting her in the knee. She had seen her husband, Harry Campbell, enter the kitchen door, but could not remember what had happened afterwards. She had not fallen from the wounds but had moved over and sat on the sofa.

She could not say from the brief time that Pendleton was in the kitchen whether or not he was intoxicated or acting strangely in any way. She had known him for two years and he had always been friendly. The other evidence will be taken Wednesday.

SONS TO ENTERTAIN FATHERS AT DINNER

Boys' Department of the Y. M. C. A. Preparing a Unique Event for Next Friday

A "father and son" banquet will be held by the boys' department of the Y. M. C. A. on Friday evening, and the unique event promises to be noteworthy.

The boys are inviting their fathers to sit down to what should prove to be a very enjoyable banquet at a quarter past six sharp that evening, and this will be followed by demonstrations of the value of the physical work they have been doing.

In the gymnasium they will display their ability in various forms of athletic exercises and in basketball, and then downstairs in the swimming pool they will give an exhibition of life-saving. After this they will return to their hall, where there will be some short speeches and songs.

The boys are doing the whole thing themselves, under the general oversight of the secretary of their department, A. O. Hughes. They have committees looking after the catering, the athletic events, the life-saving demonstration, and the programme at the close.

There is great satisfaction felt by the boys over the winning of the championship in the City Football League, the Y. M. C. A. Scouts, Fourth troop, having gained the coveted place.

Yesterday was Mothers' Day in the churches, and was also observed in the Y. M. C. A. In the evening about seventy-five young men gathered around the big fireplace and listened to an address suitable to the day from Rev. Dr. Scott. There was music specially selected and several solos, including "My Mother's Prayer." All afternoon young fellows were engaged in writing to their home folks, and in preparation for this the association had laid in a supply of notepaper and envelopes ready stamped, which were available for those who desired them.

OBITUARY RECORD

The funeral of Joe Look Shee, the daughter of Look Den, a Chinese resident in this city for the past twenty-five years, will take place to-morrow from the B. C. funeral parlors, to the Chinese cemetery. The deceased was 26 years of age.

The funeral of little Roy Nelson, the three-months' old son of Mr. and Mrs. Nelson, 785 Hill street, who died last week, took place on Saturday afternoon from the Hanson-Thompson parlors, Rev. Thomas Green officiating.

The funeral of Taketa Osawa, eldest son of Mr. and Mrs. G. Osawa, of 1817 Store street, took place on Saturday afternoon from the B. C. Funeral parlors, Rev. A. Kato officiating.

The funeral of Leo Jung, who died in the Chinese hospital on Thursday, took place Saturday afternoon from the B. C. Funeral parlors. The deceased, who was 29 years of age, lived at the corner of Government street and Herald street, and came here four years ago from Canton.

EARLY RESIDENT OF VICTORIA PASSES

Mrs. Louise Calwell, Who Lived Here Thirty Years Succumbs at Hospital

Victoria has lost yet another of its old and highly-esteemed residents in the death last evening, at St. Joseph's hospital, of Mrs. Louise Calwell, who passed away after a little more than a week's serious illness. For the past ten years Mrs. Calwell had been more or less an invalid, and when she was removed to the hospital about nine days ago it was felt that her condition was quite serious.

Born in Toronto 63 years ago, the late Mrs. Calwell came to Victoria 30 years ago, and for more than 20 years lived in the same house on Yates street, where her husband carried on the occupation of a blacksmith. From the very earliest days of her coming to the city she made hosts of friends, and until the time when her health failed some years ago, was an active worker in the Ladies' Aid Society of the Metropolitan Methodist church. For the past nine years she lived with her family at 1847 Vine street.

She is survived by five sons, A. A. Calwell, of Cameron & Calwell; J. N. Calwell, retired; H. E. Calwell, of the Calwell Transfer Co.; William Calwell, of Spencer's; and Walter Calwell, patrol driver of the police force; also one sister, Mrs. Dora Brown, one niece and one nephew, of Montreal, and five grandchildren. A nephew, J. A. Calwell, lives in Seattle.

The funeral will take place on Wednesday afternoon from the residence of A. A. Calwell, 1435 Cameron street, at 2.30. Rev. Dr. C. T. Scott will officiate.

BRINGS REPORT OF PEACE RIVER GOLD

Captain Scott Suggests Route of Edmonton and Dunvegan Railway Line

SILVER AND GALENA PROSPECTS WORKED

New Westminster, B. C., May 12.—Capt. James Scott has returned to the city from a trip through the Peace River country in the depth of winter. He travelled over 600 miles by dog team and three times as far by rail and steamer.

Capt. Scott tells of much gold in the Peace River country. In the Babine country he and his party found good silver and galena prospects being worked, and many leases on old creeks have been taken up in that vicinity where prospectors are getting some gold. A tragedy of the north country was revealed in the story told by Capt. Scott of two men who were snowbound 50 miles from the nearest camp. They started out for food, and one of them was found in a starved condition at Old Hogan and was fed by a Bear Lake Indian. His companion was found frozen to death about six miles away.

The captain said, however, that the climate was good in the Peace River country. They experienced some 40 below zero weather, but camped on bare ground on April 15. The fine bright weather in spring caused his four companions to become snowblind, and he had to lead them. He left them at Hazelton slowly recovering their eyesight.

From his intimate knowledge of the country Capt. Scott suggested the probable route of the Edmonton, Dunvegan and British Columbia railway, now being built from Edmonton 40-nord the Peace River. He suggested that the line will be built to Hudson's Bay, from there to Fort McLeod, and branch running through the Yukon to Dawson and the other going south to Fort George.

More Books Arrive.—The following are among the books just added to the Booklovers' library: "A Young Lady, Horace Newte; "A Woman in the Limestone; "The Whirlwind; "A Will, Mary Rinehart; Sally Castleton, Crittenden Marriott; Stella Maris, W. J. Locke; "The Silver Dress, Mrs. G. Norman; Naughtly Sophia, Winifred Letts; "A Man's Man, Ian Hay; Mary All Alone, John Oxenham; "A Kingdom Divided, David Lisle; Jezabel, Richard Pryce; Jane Cable, G. B. McCutcheon; "It Happened in Smyrna, T. Edgelow; "A Holiday Round, A. A. Milne.

WILL BE READY SOON. Rapid Progress Being Made in Preparation at Gorge Park.

It is expected that the scenic railway at the Gorge park will be in operation for the public by the end of the present week.

The roadway has been built, the cars are under order, and the long cog chain for operating the cars is being assembled. It is a logging malleable iron chain.

The railway is one mile long, and in one place is 64 feet above the ground level. There are several humps arranged, and the scenery at the higher points is very attractive. A powerhouse will be established, and also a pyrotechnic works for the production of fireworks. The other attractions at the park are being fitted up for the approaching season.

The electrical process of tanning leather has been in experimental use in England for some time and it has now reached a stage of development that warrants its adoption on a commercial basis. A large electrical company is now engaged in installing such a plant in one of the leading English tanneries. Specially constructed vats are filled with the hides, along with metal conductors to effect the electrolytic action, and after this preparation has been completed the remainder of the process is almost automatic, for mechanical provisions are made to prevent any damage owing to excess of current. The current passing through the hides hastens the tanning process to the extent that six weeks suffice to do the work which formerly required several months. The automatic feature of the tanning process makes it an economical one, and two men are thus enabled to take care of all the vats of a large tannery, whereas under the old system the services of five or six men were required.

TO-DAY'S BASEBALL

NATIONAL LEAGUE. At New York—R. H. E. Chicago..... 1 3 0 New York..... 5 10 3 Batteries—Richie, Liefeld and Archer; Mathewson and Meyers.

At Brooklyn—R. H. E. Cincinnati..... 2 7 1 Brooklyn..... 4 8 1 Batteries—Johnson, Brown and Clarke, Kling; Rucker and Miller.

At Boston—R. H. E. St. Louis..... 4 14 2 Boston..... 5 8 1 Batteries—Salts, Harmon, Geyer and McLean; Gervais, Rudolph and Whaling.

AMERICAN LEAGUE. At Chicago—R. H. E. Philadelphia..... 2 3 0 Chicago..... 9 8 2 Batteries—Bender and Thomas; Russell, Smith and Schalk.

At St. Louis—R. H. E. Washington..... 2 8 0 St. Louis..... 9 4 2 Batteries—Groome and Henry; Mitchell and McAllister.

At Cleveland—R. H. E. New York..... 4 9 0 Cleveland..... 3 7 2 Batteries—McConnell and Sweeney; Gregg and O'Neill.

BLACK GEORGE AND THE CONVICT SHIP

HIS GHOST TELLS A WEIRD STORY

An Incident in the Terrible History of the Brigantine; Helped Destroy Own Son

Van Brom, the only old fashioned sailor man in the outlandish crew that brought the British convict ship Success across the Atlantic, sat shivering in a corner of a South street saloon yesterday, partaking of gin and water, but mostly gin, says the New York Sun. He had seen ghosts all the way over the Western ocean, as his kind style the north Atlantic, and airless dungeons, condemned cells, branding irons and the coffin bath that visitors are flocking to Seventy-ninth street and the North river to look upon, kept themselves uppermost in his mind as he told what he had seen on the voyage. It took ninety-six days to work the ancient Success to Boston from Classon docks.

"Thirty days out," said Van Brom, "and the middle watch of the night I goes up aloft to loose the topgallant sail. Darker than the bottom of the forepeak it were, but when I got out on the yard most to the weather carrying I sees a light in the foretop below me. Then I hear the mate sing out: 'What fool's took a light to the foretop?' He went on, heavy-like, sarcastic, wondering if I needed a lantern for to untie the knots by. I finished my job and out him short with the words: 'Sheet home!'

"While they were a-setting sail they sang a chantey. Always had to have chantey to get the ship's work done. Men was scared out of their skins by these convict cells below, and we was all seeing ghosts. I lightened the bunt-lines and overhauled the gear. Just about to go down the rigging when I heared a voice from the foretop where this light shone. I looks down and sees a grinning face o' hell lit by that queer light, which weren't anything to with the ship. 'Twas of a man with a black beard and dancing eyes full of madness, and he looks up at me and begins talking gently, gently, while I shivers all over—like this—and tries to move and can't; can't even speak back to him, a fellow what I'd never see before—and hope as I may never see again. He was a-telling a story, the worst ever I heard, all the time grinning as if it was a big joke. I couldn't do nothing but listen and watch his eyes, which shone and grew dull, shone and glinted and grew dull. Once in a while I could hear the men on deck yo-yoing very faint. They might ha' been on another ship hid by the dark, but not half a mile away. The black, grinning faced man talked right on to me, very orderly, and says: 'I s'pose you're surprised at seeing me, matey, but you needn't be, because I belong right on this ship a sight more than you do. I'm a-telling you why, because you're the only man aboard that can make an invisible splice. In my day every hand could make an invisible splice, but sailoring is a lost art now. I'm called Black George, if you feel called upon to address me, and I commanded this ship back in the '40s. She was a proper ship then, square rigged on all her masts, not a makeshift brigantine as you find her now.

"We had a load o' prisoners for Australia, and among 'em was a young couple with a boy likely six months old. He had a black mark through a window and run off with 'arf a loaf of bread. His wife was an accessory before or after the crime, I forget which, and the youngster was an accomplice—that's good, isn't it?—anyway being a baby it had to go along o' its mother.

"The doilrums caught us on the line, with Africa the nearest land a ways off. No wind at all day after day, and the sun hitting the decks per-pendic-ular till the mate says to me: 'Twill be quite roomy below afore we get out of this, and all the cargo what's left will be baked codd.' It was jettisoning dead folks at the rate of about two a watch. Very laborious it were, and in a week we'd chucked overboard about a hundred dead.

"I was case hardened those days. It was nigh about twenty years afore that my woman had left me, a-talking our son with her, and left me to a doilrums going from one ship to another, with spells ashore for drink and fighting. Hadn't been my fault. I'd always been good to her, and one day I comes home to find her gone—like that—with another man. I never went ashore again if I could help it, and when I had to I took care to drink hardy.

"The cargo was all known to us by number. My mate were a curious, soft hearted creetur and he used to come to me with beggings to do something for Nos. 371, 372 and 373. That was the young fellow that stole the 'arf a loaf and his wife and baby boy. Do you reckon I paid any heed to the mate's talk o' them? It weren't in Black George to lift a finger for man, woman or child, or all three together, those days.

"The odd thing was that the young fellow died first. I guess having the child kept the woman alive. I took a look at him afore he went overboard and something about him melted me a little. I even went down to look at the woman. She was too far gone though. Then in a couple o' days there wasn't none left but the very small boy, and he died, too.

"The next day a fine breeze came and sent us into the trade. Everybody was happy, even the half baked convicts left. I says to the mate that we'll just cross Nos. 371, 372 and 373 off our cargo list. I gels out the list, and

A Nominating Convention TO-NIGHT Will be held at the Liberal Rooms, Cormorant St. At 8 o'clock, for the purpose of nominating candidates in the Liberal interest for the Federal House and for the Provincial Legislature. This Convention is open to all Liberal voters in the Victoria Electoral District. JOSHUA KINGHAM, President Victoria Liberal Association

Fit-Reform Our Men's Clothes Are Truly in a Class By Themselves Ask the man who owns one what he thinks. To prove it to your own satisfaction wear a suit or overcoat. Then you'll know. We Guarantee Satisfaction \$15 \$18 \$20 \$25 \$35 ALLEN & CO. Fit-Reform Corner Yates and Broad

As I cross out the numbers I look at the names opposite." The old sailor stopped and shook all over. "The names," went on Black George, talking easy and gentle, "showed that No. 371 was my own son. The others were his wife and my grandson."

CALCUTTA'S SECOND CITY OF THE EMPIRE

The detailed census returns of Calcutta, the "second city of the Empire," as its inhabitants call it, have just been published. They reveal a total population in city and suburbs (42 square miles) of 1,043,307, which is 62,852 more than Bombay. It has grown enormously in the last 30 years, despite the fact that the death rate still stands at 84.9 per thousand, twice the death-rate of London. Although the Western community is steadily increasing, it numbers in all only 12,008, and of these 7,630 were born in Europe, and of these again 1,054 were born in Scotland. The Eurasians (or Anglo-Indians, as they are now officially called) total 14,469. But this figure is approximate only; many persons of mixed parentage regularly return themselves as Europeans.

Calcutta is a remarkably polyglot city. No fewer than 51 separate languages are in use among its inhabitants, 28 of them being Indian. Bengali is the mother tongue of almost exactly half the population, English of 24.436. The largest industry is jute, which finds employment for more than 20,000 persons. India is one of the countries where a census of religions presents little difficulty. The Hindus of Calcutta number 804,863, the Mohammedans 241,567, and the Christians 39,551 or 4 per cent. The remarkably large number of 34,680 persons (practically all, of course, males) are employed in the public service. There is an extraordinary disparity in the sexes, the proportion of females in the city being only 475 to every 1,000 males.—From the Manchester Guardian.

CHASE MOTOR TRUCKS THE COMPLETE LINE 6 Models—All Styles of Bodies 1500 to 4000 lbs. Capacity Repeat Orders the Rule A GOOD endorsement of any motor truck is its constant use by a well known business house. The best endorsement of all is a repeat order. DULL STOCK MARKET

RESULTS IN SAGGING

Currency Legislation Pathway Regarded as Filled With Many Difficulties

(By F. W. Stevenson & Co.)
New York, May 12.—The stock market continued dull with little effort in evidence to force a higher range of prices, and later in the session there was a sagging movement. There was heavy pressure in American Sugar which had a depressing influence on the rest of the list, also the falls were weaker.

Despite gold export, Saturday's bank statement was favorable, but foreign advices denote that monetary conditions in France are quite strained, and that further exportation of yellow metal to Paris this week are not unlikely. It begins to look as though the path of the tariff bill in the senate will not be as smooth as in the House, and therefore many are disposed to believe that some of the proposed reductions in schedules will be moderated. Prospect of currency legislation is regarded as being fraught with many difficulties, owing to the many conflicting views entertained, not only by legislators, but also by bankers.

NEW YORK MONEY.

New York, May 12.—Money on call steady, 2 1/2 per cent. ruling rate, 2 1/2 per cent. closing bid, 2 1/2 per cent. offered at 2 1/2 per cent. Time loans easier; 90 days, 4 1/2 per cent.; 60 days, 4 1/4 per cent.; 30 days, 4 1/4 per cent. Prime mercantile paper, 6 1/2 per cent. Sterling exchange, 25 per cent. actual business in bankers' bills at 4 1/2 to 5 for 60 days, and at 4 1/2 to 5 for demand. Commercial bills, 4 1/2 to 5. Bar silver, 86c. Mexican dollars, 48c. Bonds—Governments steady; railroads easy.

NEW YORK SUGAR.

New York, May 12.—Raw sugar quiet. Muscovado, 22 1/2 to 23; centrifugal, 23 1/2 to 24; molasses sugar, 22 1/2 to 23; refined sugar steady; crushed, 23 1/2; fine granulated, 24 1/2; powdered, 24 1/2.

NUGGET GOLD AND SNOWSTORM STRONG

Great West and Albion Trust Stocks Firm With Coronation Bids Lower

(By F. W. Stevenson & Co.)
Victoria, May 12.—Nugget Gold and Snowstorm were amongst the firmest on the list this morning on the local stock exchange. Coronation Gold showed further depreciation in the bid price with a marketable value void of importable demand.

International Coal denoted little change from Saturday, and whilst this issue shows no sagging tendency advancing movements are slow. Great West Permanent and Albion Trust are steady at prevailing figures and have a good undertone.

WHEAT TAKES RISE WITH BEAR MARKET

Cash Demand Small and Export Inquiry Off; Two Days' Receipts Heavy

Winnipeg, May 12.—Wheat was steady and generally a little higher, although it is hard to assign reasons for an advance under the existing bearish crop conditions. Traders express the opinion that it is hardly possible for present perfect crop conditions to be maintained, and that changes must be in the way of deterioration and longer. There is hardly any cash demand and export inquiry is all off. European markets were closed. Receipts for the past two days have been heavy. Saturday's and Sunday's inspections were 1,300 and 655 in sight.

GRAIN FLASHES.

Minneapolis—Cash demand firm; flour rates continue limited. Active competition for choice milling wheat and limited offerings. Liverpool—A holiday to-day. New York—Prospects of more rain east belt encouraging sellers of cotton. Clearances—Wheat and flour, 74,000; corn, 81,000; oats, 14,000. Peoria—Cash corn 1 higher; oats 2 to 11 higher. St. Louis—Cash wheat unchanged; corn 1 to 1 higher; oats 2 to 1 up. Kansas City—Cash wheat and corn 1

EARLY STRENGTH FOR WHEAT AT CHICAGO

Phenomenal Demand for Oats, Corn Holds Well and Drops Later in Session

(By F. W. Stevenson & Co.)
Chicago, May 12.—There was early strength in wheat induced by buying support and possibly the phenomenal strength in oats. At the best point there was sufficient sharp selling to force a decline, so that except for May option quotations were 1/4 to 1/2 lower than Saturday at the close. Prices are at a level where shorts are not eager to press the selling side and the favorable crop reports from all sections way-laid bullish tendencies.

Corn had similar action to wheat. Latest planting reports are most flattering. Considerable covering in oats was responsible for May selling one time during the morning as high as 35. Last crop months were relatively firm. Last prices were off with other grains.

STOCK FLASHES.

Boston—Miami Copper Co.'s production for April totalled 2,212,000 pounds, as compared with 3,162,200 pounds in March. New York—Nevada Copper Co.'s earnings for March was \$1,422,275, compared with \$1,655,338 for same month year ago. Boston—The passing of dividends of Greene-Cannana Copper Co. has been occasioned by Mexican troubles, and future prospects are dependent on developments pertaining thereto.

MONTREAL STOCKS.

Montreal, May 12.—Dullness was the only feature of the local market to-day. There was scarcely any trading all the morning, and the price changes were small. C. P. R. sold at 24 1/2; Crown Reserve at 28; Detroit 74 1/2; Textile 33 1/2; Iron 60 1/2; Hillcrest 41; Power 23; Ritchie 114; General Electric 114; Toronto 114 1/2; Tuckett's 53 1/2; Brazilian 94 to 94 1/2.

NEITHER WOULD TAKE LOVING CUP OFFERED

Rome, May 12.—The American commission for the study of the European systems of agriculture cooperation and farmers' credits, began its work to-day when the members heard the reports of German, Hungarian, Austrian, French and Belgian delegates. During the latter his thanks, but declined to accept the gift, saying that all the merit for the success for the institute was due to its president, Marquis Raffaele Cappelli, and therefore the cup should go to him. Marquis Cappelli declared he would take the cup, not for himself, but for the institute.

An End to the Curse of Wearing Worthless Trusses

No More Rupture Troubles
60 Days' Trial To Prove It

You Don't Have to Risk a Penny

Here is something absolutely guaranteed to keep your rupture from coming out. And you can try it sixty days—make a thorough prove-it-to-you test—without having to risk a penny. If it doesn't hold—if it doesn't keep your rupture from bothering you in any way—then it won't cost you a single cent.

The Only Thing Good Enough To Stand Such a Test

You know as well as we that you can't tell anything about a truss or anything else for rupture merely by trying it on. That's the worst of going to a druggist or local truss fitter's. "Appliances" may seem alright when you first put it on, and afterwards prove utterly worthless. The only way in the world you can make sure of exactly what you're getting is by a day-after-day test.

And our guaranteed rupture holder—the famous Cluthe Automatic Massaging Truss—is the only thing of any kind whatever for rupture that you can get on sixty days' trial, the only thing good enough to stand such a long and thorough test.

Something Nothing Else Does

The Cluthe Automatic Massaging Truss is so utterly different from anything else for rupture that it has received sixteen separate patents.

It provides the only way ever discovered for overcoming the weakness which is the real cause of rupture.

Just how it does that—entirely automatically—is all explained in the free book.

Will Save You From Operation

The Cluthe Truss has so thoroughly proved its merits that physicians in all parts of the world and surgeons in the U. S. Army and Navy now recommend it instead of advising operation. It has brought complete recovery in hundreds of cases after operation has proved a failure.

THIS BRINGS IT

METCHOSIN HOLDS SPRING FLOWER SHOW

Women's Institute Directs Successful Exhibition; Opening Ceremony

The Metchosin Women's Institute held a spring flower show on Tuesday, May 6, in Metchosin hall, which was prettily decorated for the occasion. The exhibition was opened by Mrs. R. H. Pooley, who later in the afternoon contributed to the pleasurable features of the day by singing. During the afternoon Mrs. Hutchinson, president of the Royal Oak Women's Institute, gave a very interesting lecture on "School Gardens," and Mrs. M. R. Watt, secretary of the Women's Institutes, also gave a very good lecture touching on the same subject, while other speakers were the Rev. H. B. Hadlow and Mrs. R. H. Pooley.

Mrs. Henry Croft and Mrs. W. E. Scott presented themselves very capable judges of the flower show, the following being the prize winners:
Decorated table—1st prize, Mrs. Helgeson; 2nd prize, Mrs. Howard. Hanging basket—Miss D. Croford. Best collection of plants—1st prize, Mrs. J. H. Smart; 2nd prize, Mrs. W. Witty. Specimen foliage plant, Mrs. J. H. Smart. Specimen geranium, Mrs. W. O. Sweatman. Specimen fern—Mrs. Higgs. Specimen begonia—Mrs. Sweatman. Specimen hydrangea, Mrs. Sweatman. Prettiest plant—Mrs. Field. Tulips—1st prize, Mrs. H. Hooper; 2nd, Mrs. J. H. Smart. Daffodils—Mrs. J. H. Smart. Narcissus—1st, Mrs. Higgs; 2nd, J. H. Smart. Pansies—1st, Mrs. H. Nield; 2nd, W. Griffiths. Bouquet of cut flowers—1st prize, Mrs. W. Pears. Bouquet of wild cut flowers gathered by children—1st prize, Mrs. H. Hooper; 2nd, Mrs. Elizabeth Arden. Basket of wild flowers—1st prize, Gladys Ridley; 2nd, John Higgins.

COL. ROY INSPECTS

Sixth Regiment is on Parade at Cambie Street Grounds, Vancouver.

Lieut.-Colonel Roy inspected the Sixth regiment at the Cambie street grounds, Vancouver, on Saturday afternoon, after a parade through the streets of the city. He complimented this regiment on its work particularly the effective assistance lent by the non-commissioned officers. The district officer commanding stated that he looked forward to have the regiment under canvas at Sidney next June 26 next, and anticipated successful manoeuvres at that time.

Each company was, in turn, called out for drill by its officers, the skirmishing being a most interesting feature. At the conclusion the companies again formed in line, a general salute was given to the accompaniment of the band, and the troops were marched out of the square, around to Georgia street, and another march through the city took place, the men, led by the officers, returning to the drill hall, where, after they had been addressed by the D. O. C., they were dismissed.

JUNIOR BRANCHES HOLD ANNUAL SESSION

Reports of Younger Branch of Woman's Auxiliary Show Satisfactory Progress

At the annual meeting of the junior branches of the Woman's Auxiliary Saturday afternoon at Christ Church cathedral, Mrs. Luxton, diocesan president, occupied the chair, and the business of reading reports, etc., was carried through with commendable dispatch. The proceedings were opened by Rev. W. H. Dawe, who offered prayers, after which the roll was called, and the reports of the various branches submitted. These on the whole were very satisfactory, that of Christ Church cathedral, read by Miss Wollaston, showing a membership of 123. This included a branch of 41 members in St. George's school, Miss Madge Randall reported for St. John's church branch, this showing 21 members. St. Luke's branch reported through Miss Jessie Frampton, who stated that their branch now had 28 members. St. Mary's, Oak Bay, reported through Miss Eleanor Nicholson, 18; St. Andrew's, Sidney, through Miss Jean McNaught, 16; and St. Andrew's, Cowichan, through Miss G. Townsend, 15.

The diocesan secretary-treasurer, Mrs. Harvey, who had previously submitted her report at the diocesan meeting on Thursday, submitted this also to the junior branch, after which Mrs. Luxton gave a short, but encouraging address, in which she wished the girls all success with their work.

During the afternoon the Rev. G. H. Andrews, of St. Mary's, Oak Bay, addressed the children in characteristically happy vein, pointing out some of the instances in Bible history of part which children had played in some of the memorable passages of Scripture. Mr. Andrews concluded by telling the junior branch about the organization in England known as the King's Messengers, which performed a work something akin to the Junior Auxiliary.

WILL SPEAK HERE.

John Z. White, Chicago, Single Tax Advocate, Will Be Tendered Luncheon.

Next Friday and Saturday evening John Z. White, a well-known single tax advocate of Chicago, will speak in this city under the auspices of the Henry George Association. On his arrival here on Friday a luncheon will be given in his honor at the Empress hotel, when a number of Victoria's most influential citizens will be present. In the evening, under the chairmanship of Rev. Mr. Inkster, he will speak in the Congregational lecture hall on "Henry George and His Philosophy." On Saturday evening, in the Victoria theatre, he will speak on the commission form of government, when the Hon. Dr. Young, minister of education, will act as chairman. Several of the public bodies of Victoria will be represented on the platform.

Country Home of Highest Class in Beautiful District

Fishing
Shooting
Bathing and
Other Sports
COWICHAN LAKE, the sportsman's paradise, is within half a day's train ride of Victoria. It is closer by automobile over scenic roads. On the waterfront we have for sale 47 acres, 5 of which are cleared. On it there is a splendid new house, luxuriously furnished. A spring of water is on the property, and from it the house is served by pipe and tap as in the city. The sewerage is equally up-to-date. A beautiful flower-garden—outdoors and under glass—adjoins the home. There also is a young orchard. A number of boats and a canoe are included in the equipment, which is complete in every detail.

Hospital Work for Construction Gangs on G. T. P. Railway

DR. EWING LEAVES TO ORGANIZE SUMMER WORK

Says Steel Will Be Laid in Fort George by Next November

It is expected that steel will be laid into Fort George by November, according to Dr. Ewing, who has charge of the medical organization along the line of the Grand Trunk Pacific railway across British Columbia.

Dr. Ewing was in the city on Saturday, and left yesterday for the mainland, intending to proceed to Ashcroft, and thence to Fort George, where he will establish another hospital. To a Times man he stated that the medical corps would have seven hospitals along the line of construction, which east and west of Fort George comprises about 300 miles. There are about 6,000 men on the work, and it is expected that headquarters will be moved next month to Fort George from Tete Jaune Cache, as it will then be most central for the direction of construction operations.

Speaking of the hospital work the doctor said in part: "We have accommodation for about 24 persons in each hospital, and the construction camps are all connected by telephone with the nearest emergency hospital. The hospitals keep gasoline boats and canoes ready, and can rush a case down as efficiently and as promptly as you can deal with a casualty case in the city. We can claim that we have the best medical service which has ever been devised in connection with railway construction work in this province.

"The percentage of men treated runs probably from 2 to 4 per cent., and while, of course, the men contribute to the fund from which the hospitals and staffs are maintained, we have never had any trouble from those who have been treated from accident or sickness, the only kick being from those who have been paying sickness dues, and have not required attention and care in the hospitals. There will be four hospitals east of Fort George and two west, according to the needs of construction. We provide sufficient accommodation at each to deal with a considerable area on either side.

GRAND SHOW

Juvenile Bostonians, "The Princess Chic" in Kirko La Shelle's and Julia Edwards' opera comique of that name in which Thom Helton and the Juvenile Opera Company are to appear at Victoria theatre on May 15 and 16, is supposed to be the reigning sovereign of France. She is a sort of D'Artagnan, which wins ever ready laughter, from a dashing, daring woman, the most beautiful and bewitching creature in the province. The plot is liberally interspersed with fun. There are four comedians.

"Prince of To-night." Something novel is in store for the theatre goer when the Adams, Hough and Howard musical fantasy, "The Prince of To-night," with Tom Arnold in the title role will be presented at the Victoria theatre this evening. Mr. Arnold's role is that of a college youth, poor but resourceful, who is spurred by a beautiful heiress whom he dares love, and who eventually wins her after being transformed by the mystic influence of a blooming century plant, into a prince of the mythical land of Lunitania. It is a pretty story, well told, and gives the authors an opportunity to introduce a number of pretty songs, snappy and witty lines, pretty girls, an excellent

WHY BECAUSE

- You should deal at THE STANDARD FURNITURE CO.
1. We are located on Pandora avenue to save you money.
 2. We are just above Douglas street and out of the high rental district. Consequently our low prices. It shows a marked difference especially on high grade furniture.
 3. Our credit system is the fairest in the world. By it your cash deposit gets cash prices. We simply charge you 10% for the balance. By this system a person knows exactly what they are paying for the privilege of credit—a thing not known in any other credit store.
 4. All our employees are thoroughly experienced in the business and can save you many dollars by helpful suggestions.
 5. We have experts waiting for your phone message to meet you at your new home to figure with you the best way to furnish at the least expense.
 6. We have motor delivery to ensure promptness.
 7. We are trying to make this the best furniture store in town.

THE TENT PEOPLE

male chorus, and a wealth of beautiful scenery and electrical effects.
Rose Stahl.
At the Victoria theatre Miss Rose Stahl will appear to-morrow evening in "Maggie Pepper." Charles Klein's play of department store life. "Maggie Pepper" is a play of to-day, and being such it has many bright lines with the current slang of the hour interwoven in it. And not only is slang expressive, but it has a pointed wit which wins ever ready laughter, from the audience. The Henry B. Harris estate has surrounded Miss Stahl with an excellent company of players, and among them none allows a characterization to fall below the high standard set by the star. In this fact probably lies the secret of why it is such a genuine pleasure to see "Maggie Pepper." Majestic Theatre.

"The Web," a vitagraph special multiple reel. An adventuress traps a man and his younger brother, but both succeed in disentangling themselves. In so doing, however, there are complications that involve a number of people. "The Portrait" is an entertaining picture of an artist in dream land, "The Left-handed Man" is a detective story. The thief was clever and he forged around the girl's sweetheart a chain of circumstantial evidence that seemingly had no flaw. The girl's faith was great and in unravelling the mys-
