Quiet Period To-day in Belfast Thought to Be Merely Lull

Only a Few Cases of Isolated Fighting To-day; More Troops Sent; Cork Dispatch Says Body of Police Last Night Wrecked Town South of Limerick.

Belfast, July 24.—Beyond a few cases of isolated fighting this city was quiet this forenoon, although this was regarded generally as merely a lull in the storm.

The police allege that the Sinn Feiners Thursday night employed explosive bullets which terribly wounded their victims.

London, July 24.—Kilmallock, nineteen miles south of Limerick, was wrecked by a body of police last night, according to a Cork dispatch to The Evening News.

London, July 24.—Sir Edward Carson, Unionist leader in the House of Commons, is credited with an intention of attacking the Government with the idea of turning it out of office if a suggestion by James Henry Thomas, Labor, is adopted.

London, July 24.—Another change in the Government's policy toward Ireland is expected to be announced within a few days, but the Cabinet has not yet been able to determine fully what it will be.

London, July 24.—Premier Lloyd George's friends say he is willing to give Ireland almost anything except a republican form of government, but the Tory elements are reported to be in favor of strengthening the military, and, if necessary, declaring martial law in Ireland.

Notwithstanding the fact that some members of the Government profess a desire to end the strife through open discussion, the opinion of the Cabinet as a whole is said to be that the Sinn Fein would ignore an invitation to a conference. It is declared that the Government hold that their Government is functioning successfully, and the country is peopled by Irish volunteers and that they have, therefore, nothing to negotiate.

Less Attention.—The proposition to attempt negotiations directly with the Sinn Fein is reported to have received much less attention than was the case three or four days ago.

It is expected that whatever changes the Government decides upon will be announced in a statement to the press or by Mr. Lloyd George in the House of Commons. Thus, it is expected, "if the Government is willing to do so, the Cabinet will then await the next move from the Orangemen and Sinn Feiners.

Archbishop Mannix.—New York, July 24.—Plans of Archbishop Mannix of Australia to visit Ireland were unchanged by reports of opposition in the House of Commons to his landing because of his expressions on the Irish question. It was announced here to-day that the Archbishop will continue his journey to Rome.

British Plan to Extend Food Control Till 1922.—London, July 24.—(Canadian Associated Press)—A bill to extend the duration of the Ministry of Food till September, 1922, was second reading in the House of Commons last night.

British Plan to Extend Food Control Till 1922.—The Canadian authorities here express grave opposition to the measure. Mr. Griffith, the High Commissioner's secretary, says the bill gives the Ministry power to determine the quantity and price of all Canadian foods imported here. In fact it would place the whole Canadian trade in food commodities under the power of the Ministry.

### SINN FEINER'S HOUSE BURNED BY CROWD

London, July 24.—A dispatch from Bromore, County Down, Ireland, said that during rioting and pillaging by Unionists there crowds attacked the house of a prominent Sinn Feiner. The occupants of the house fled upon the attackers as they approached, but slipped out through a rear entrance before the building was captured. The house was promptly burned. Shops belonging to Nationalists were attacked and badly damaged. Military reinforcements were sent to aid the police, who were hard pressed. During the looting one man entered a shop and carried off the cash register, while another brought a hand-truck and removed the shop fittings. In another case an attempt to carry off a piano failed, whereupon the instrument was burned.

### ULSTER VOLUNTEERS ARE REORGANIZING

London, July 24.—A dispatch from Belfast last evening said that the following announcement, which was regarded as significant, was issued from Ulster headquarters in the old town hall in Belfast yesterday: "Lieut.-Col. Spencer, D.S.O., who formerly was connected with the Ulster Volunteer force as chief of staff, has assumed command of that body. All loyalists should report to their respective battalions." It was estimated yesterday that fourteen persons had been killed in the rioting in Belfast. Sixteen Sinn Feiners arrested in Belfast Sunday have been brought to England. Thirty or forty prisoners, in another case an attempt to carry off a piano failed, whereupon the instrument was burned. This number will be largely increased.

**On Holiday Tour.**  
Courtenay: Hon. J. W. de B. Farris, Attorney-General for the Province, is spending a two weeks' holiday in the district. He will probably visit Salmon River district while he is in the northern portion of the Island. It was reported that he would visit Merrville on this trip, but it is not likely, as he is on a two weeks' holiday. Mrs. Farris and family are with the Attorney-General.

**Courtenay Waterworks.**  
Courtenay: J. Fox, of the Foundation Company, arrived on Monday in order to make final arrangements for the waterworks contract. He states that there is much trouble in getting delivery of pipe and does not think that they will be able to start work for the next three weeks on that account. There is great difficulty in getting wire to bind the wood pipe and also in obtaining delivery of the iron pipe at the pit. Once a start is made, however, the completion of the job will not take long. Mr. Fox estimates that the company will employ about forty men—Comox Argus.

**Dance at Boom Camp.**  
Courtenay: The Comox Logging & Railway Company will give a dance in the new building at the Boom Camp to-day, in order to commemorate the opening of that place. This building serves as a bunk house, but as it now stands, is more like a seaside hotel in appearance than a bunk house. Guests at the dance will have an opportunity of looking over it.

**Why Cox and Harding Will Make League Chief Issue.**  
Both candidates on the Democratic ticket declare that they will make their chief fight on the League of Nations issue. Replying, Senator Harding says that since "the President demands a campaign on this issue," since "the Democratic platform makes the issue paramount," and since "the Democratic candidates unqualifiedly acquiesce," then "the Republican party and candidates gladly accept the challenge." Although the candidates have thus joined issue over the League of Nations there are independent publicists who agree that many citizens will vote their party ticket quite irrespective of what Governor Cox and Senator Harding may say about the League, and instead of the coming election being a great national referendum on the League of Nations it will be, in the opinion of The Lowell Courier-Citizen, "simply on which party is to be trusted—the Democrats after their prolonged exhibition of their quality or the Republicans after their prolonged absence, which may have made the heart grow fonder."

### Mrs. Walker Buys 2 Cases

Mrs. Walker is a recent convert to Pacific Milk. She lives away up the Coast. For several years she has used canned milk but had never tried Pacific, thinking all were about the same. A neighbor, about ten miles away, explained that Pacific had a most natural flavor and gave her a can. Mrs. Walker bought two cases after trying it and says she likes it better than any she has used.

### Tam, Red or Freckled Skin Is Easily Shed

To free your summer-soiled skin of its muddiness, freckles, blotches or tan, the best thing to do is to free yourself of the skin itself. This is easily accomplished by the use of ordinary mercolized wax, which of course can be had at any drug store. Use it at night as you use cold cream, washing it off in the morning. Immediately the offending surface skin begins to come off in fine powder-like particles. Gradually the entire outer scarf skin is absorbed, without the least harm or inconvenience. The second layer of skin now in evidence presents a spotless whiteness and sparkling beauty obtainable in no other way. One ounce of mercolized wax usually is sufficient to completely renovate a bad complexion.

# Why Cox and Harding Will Make League Chief Issue

Both candidates on the Democratic ticket declare that they will make their chief fight on the League of Nations issue. The leading article in THE LITERARY DIGEST this week, July 24th, throws many sidelights upon the reasons why the candidates are pushing the League of Nations to the front as a dominant issue, and it will be highly interesting and instructive reading to the American voter just now.

A FREE PORT AREA.

Victoria is ideally adapted for the establishment of a free port area. It is the first and last port of call for most, if not all, of the ocean shipping operating between British Columbia and Puget Sound and the rest of the world.

SETTLERS FROM BRITAIN.

An Ottawa dispatch gives an account of the work carried on in the British Isles by Messrs. W. E. Scott—formerly British Columbia's Deputy Minister of Agriculture—and Russell Wilson in their joint capacities of a select committee of the Federal Soldier Settlement Board and counsellors to the intending emigrant.

ise to the intending settler, was responsible for a tide of immigration from Europe which, to a considerable extent, added little to the development of the country, while personal disappointment and financial loss in cases of newcomers wholly unsuited to the new conditions often have injured the Dominion through the unfavorable advertisement they became.

SOVIET SENDS REPLY.

What promised to be another great European conflagration appears to have been averted by the acquiescence of the Soviet Government in the request of Poland for an immediate armistice.

The importance of this turn of events cannot be overestimated. It weakens the suggestion that the ambiguous and patronizing reply of the Moscow Government to the British note entitled Soviet Russia to a fresh dose of distrust from the Allied nations.

A PRACTICAL MINISTER.

The part taken by the Hon. E. D. Barrow, British Columbia's Minister of Agriculture, in assisting the people of Matsqui to prevent irretrievable disaster to thousands of acres of the choicest lands in the Fraser Valley always will stand as a monument to his sturdy quality.

HISTORY WILL NOT REPEAT.

In an address at Cumberland on Tuesday Mr. Bowser informed an audience that there was little prospect of a provincial general election this year.

TAXATION POLICY.

Professor Seligman, head of the faculty of Political Science of Columbia University and a world-famous authority on economics, who is visiting the city, emphasizes a shortcoming of Canada's taxation system which has been urged upon the authorities of this country very vigorously and persistently during the last few years.

This is true particularly of Dominion taxation. At least eighty per cent. of Canada's national taxation falls upon consumption, this being the effect of tariff and commodity taxation in operation here.

WHEAT ON THE PRAIRIES.

The area sown to wheat in the Prairie Provinces this year is 2,000,000 acres less than the area under crop last year, the figures being 15,771,000 acres for 1920 against 17,750,000 for 1919.

POLICE FAIL TO FIND FUGITIVE

Clues were followed up, every member of the Detective Department, joining in the search. Two automobiles were sent in operation all night, and the search was not discontinued for a moment. The police were unsuccessful in finding any trace of the criminal himself.

It was thought for a time that the man might have had some other motive than robbery for entering the store, that he might have borne some personal grudge against the proprietor. While he cannot be sure of the criminal's motive, of course, Mr. Stoddard states that he had never seen the man before he came to his store on Thursday posing as a sanitary inspector.

ROBBINS INQUEST IN TERMINAL CITY

He informed the officer that he had been an inmate of the asylum, but had run away from there on June 9. He stayed around in the city, and finally met his wife on Monday at the Yale Hotel. They sent the two children to his brother-in-law's place, and he and Mrs. Robbins went for a walk in Stanley Park.

NOTE AND COMMENT

Hon. Arthur Meighen, the new Premier, pleads for more tolerance in the relations of the Canadian people with one another, with special reference, we presume to political relations.

OTHER PAPERS' VIEWS

NATIONAL POLICIES.

It is fairly obvious that the new party will stress the point that it is endeavoring to legislate for all Canada, doubtless with the corollary that other parties are sectional. Changing conditions have, however, rather destroyed the force of this argument.

BRIEF LOCALS
Voluntary Service Corps.—The necessity for the organization now having ceased, the Voluntary Service Corps is about to disband. The Corps will meet for the last time at a tea to be held at the Sailors' Club, Esquimalt, on Monday afternoon at three o'clock, to which Mrs. Travis has invited all the members.

Influx From Prairies.—C. E. McPherson, assistant general passenger agent, C. P. R., who reached the city yesterday accompanied by H. Brodie, general passenger agent at Vancouver, predicts a rush of travel to the coast following the harvesting of a bumper crop on the Prairies.

Rob's Veterans' Safe.—That \$297 had been taken from the safe in the rooms of the G. W. V., was reported yesterday to the city police by Secretary Thorpe of that organization. The occurrence happened on Thursday night. No trace of the thief has yet been secured.

Here Gathering Daily.—R. W. Calloway, passenger traffic manager of the Soo Line, is in Victoria obtaining data and photographs from the Victoria and Island Development Association for use in the publicity work of that railway. Mr. Calloway has a wide reputation as a railway publicity expert on the continent.

Electrical Men Picnic.—Special trains on the Saanich Interurban line of the B. C. Electric this morning and this afternoon took members of the Electrical Union and their families to the big picnic at Deep Bay. There is a big programme of sports. Special trains are bringing the picnicers home at 6 and 9 o'clock to-night.

Saanich To See New Tractor.—Distribution rights for the powerful Allis-Chalmers general purpose tractor have been awarded to the Revolver Motor Co. The engine is four-cylinder, developing 1,000 pounds pull at the drawbar. Tractor is secured by large wheels. First demonstrations are to be given in Saanich next week.

Army and Navy Veterans.—This evening, the Army and Navy Veterans' Association will give another popular concert. These concerts have always been a great success, and in view of the fact that the association has been put to a great deal of expense in furnishing their new quarters the House Committee hopes that there will be a good attendance.

Consider Housing Applications.—The consideration of applications under the Soldiers' Housing scheme formed the main item of business at the Oak Bay Council in committee of the whole last night. The by-laws that are in process of being drafted were not discussed, being in relations to soldiers' tax relief and poll tax. It is understood that the last named by-law is ready for submission to the Council for passing.

Held Short Session.—Following a week of extended hearings, the session at the Police Court this morning lasted one and a half minutes, when John McArthur paid \$5 for drunkenness and the firm of A. Morris & Co. was remanded a further week, on the charge of handling tombo tickets, pending the return of the head of that concern from England.

Seaplane Given Test.—Having moved the Curtiss machine from the Wilroy Beach to Cadboro Bay, the Victoria Council in committee of the whole last night, took advantage of the additional shelter provided from the weather by that bay, W. H. Brown and N. Goddard are conducting tests with the machine having the new pontoons attached. The difficulty of obtaining the correct adjustment of the angle at which the floats must be set, it is understood, necessitates considerable trying out before the floats have been permanently fixed.

Form Moose Lodge.—The first lodge of the Moose Lodge of Moose here will be formally opened at an organization meeting to be held to-night in the North Hall of Odd Fellows. W. H. Thompson, Moose organizer, has charge of the arrangements, while a delegation of over 200 members of the Order arrived from the United States to witness the initiation of some 100 new members, who will form the initial membership of the Victoria Lodge. District Supervisor L. W. Long, of Seattle, will be in charge of the ceremony.

Petition on Smoke Nuisance.—A petition urging the civic authorities not to enforce the Smoke Nuisance Bylaw in such a way that Victoria lumber mills will be forced to close, is being circulated among residents of the district which, it is claimed, is suffering from the escape of refuse from the mill burners. A large number of people have signed the petition.

APPLES TO BE HIGH
Crops Short, Fruit Commissioner Says: Price Control Means English May Get Only Second Quality.
Apples are likely to be high this year, according to J. Forsythe Smith, of Liverpool, Canadian Fruit Commissioner in England, who left last night for the Interior of British Columbia.
Prospects now are that the crop in British Columbia, Oregon and Washington will be short. High adverse exchange will tend to make American apples costly, and this on a short market will keep Canadian prices up.
Only second grade apples will likely be sent to England as the British Government believes in price control. Last year there was a maximum of twenty shillings, tenpence a box, which is not attractive for the best Canadian fruit. Mr. Smith says the only thing to do is to ship mainly No. 2's to the English. The English crop this year may not be more than fifty per cent.
Mr. Smith explained that Englishmen do not prefer the best large apples, which bring the highest prices on the Prairies. The Englishman will pay most for the small apple, sizes 150 to 175. Sizes 112 to 133 bring the most on the Prairies. Favorite varieties in England are the Yellow Newtown, York's Orange and Jonathan. McIntosh Reds are not well known yet.

NEW YORK SEES MUCH DAMAGE DONE BY A GREAT STORM
New York, July 24.—Thousands of dollars' worth of property was damaged in New York and its vicinity early to-day when one of the worst rain, wind and electrical storms in years swept across the district.
Shops were flooded, trolley rails in suburban districts were washed away, cellars of many residences and public buildings inundated and scores of gardens were ruined by the rushing waters.

BEATTY SPEAKS OF NAVAL STRENGTH OF BRITAIN NOW
London, July 24.—(Canadian Associated Press)—Admiral Beatty, receiving the freedom of Sheffield, said that with the disappearance of the German fleet they were released from the intolerable burden of competitive building, but they must bear in mind that the day would come when veteran ships must be replaced and, under the present financial conditions, very little would cost a great deal. The navy, he said, was reduced to the lowest limits consistent with prudence.

BABE RUTH MAKES 34TH HOME RUN
New York, July 24.—"Babe" Ruth, of the New York American League baseball club, to-day brought his home-run record for the season up to thirty-four, in the fourth inning of the game with Cleveland. He hit the homer off Pitcher Bagby, driving the ball into right field, but the flag-pole prevented it from going over the grandstand.

BRITISH MINISTERS GUESTS OF CLUB
Greenwood and Three Others Entertained by National Liberal Club
London, July 24.—(Canadian Associated Press)—Four members of the Government—Sir Hamer Greenwood, Dr. Macnamara, Food Controller McCurdy and Sir William Sutherland—were entertained at the National Liberal Club last night to celebrate the retention of their seats at by-elections. The gathering attracted unusual attention by reason of the hostility of the Liberals who dominate the Club's committee toward the gathering.

A PLEA AGAINST RAILROAD STRIKE
The Executives of Railway Brotherhoods in States Arrange Referendum
Chicago, July 24.—The order for a country-wide referendum by railway employees on the wage award of the Federal Railway Labor Board was completed to-day with a strong plea against a strike, at a meeting of the executives of the railroad brotherhoods before they departed.
The Labor Board's order states, "is the highest court of appeal in this controversy. No higher tribunal is created by the present act and its decision must either be accepted or rejected without further negotiation. Although the award was much less than the employees should have been awarded, much less than they were entitled to, and although they are, and have a right to be, disappointed with the amount of the award, they are urged to accept it."

STATE CONTROL OF RAILWAYS IN BRITAIN OPPOSED
London, July 24.—(Canadian Associated Press)—Sir Frederick Banbury, addressing a meeting of the Great Northern Railway Company's shareholders, expressed an opinion favorable to a combination between the railways to prevent wasteful competition. He said the Government's grouping proposition contained the germ of a possible agreement. He strongly opposed state control, and the meeting passed a resolution expressing alarm at the proposals of the Ministry of Transport.

MURDERED WOMAN'S FATHER AT INQUEST
Vancouver, July 24.—Clutching a pocket Bible in his hand and with tears streaming down his wrinkled cheeks, Francis M. York, the white-haired father of Alice Mary Robbins, murdered by her husband in Stanley Park last Monday, lodged a plea of insanity in explanation of the dreadful deed at the inquest held by Coroner Thomas Jeffs this morning.
The jury returned a verdict to the effect that Mrs. Robbins was shot to death by her husband in Stanley Park July 19.

10 Years of Eczema—A Sample Cured Her
Are you reading the weekly Canadian letters, telling stories of suffering from skin diseases and how cured was effected?
Here is part of a letter from Mrs. Henry Mac... who writes: "I have had eczema for ten years of excruciating pain. Treated unsatisfactorily by doctors. A sample skin of D. D. D. cured me, etc. The proof of the pudding is in the eating. When a prescription for skin disease has letters of cure and endorsement from nearly every city and town in the Dominion, surely it is enough to convince the most skeptical. Relief from itching torment is immediate. Just one bottle of D. D. D. today on our positive guarantee. \$1.00 a bottle. Try D. D. D. Soap, too."

Cast-Off Makes Capitals Look Like Real Bushers

Robcke Pitched Beautiful Game and Seattle Took Second Straight; James Hurlled His Regular Seven Innings and Then Blew Up Like a Toy Balloon. It happened again. The Giants bounced the supposedly invincible Capitals around the Stadium last evening like so many rubber balls and the cruel part of the whole affair was that a Victoria cast-off did the most of the bouncing.

VETS SPORTS MEET ATTRACTS INTEREST

Many Entries Being Received From Local and Outside Athletes. The sports which are to be held at the Royal Athletic Park on Saturday, August 7, under the auspices of the Army and Navy Veterans Amateur Athletic Association, are attracting widespread interest.

MAYER GIVES CUP

His Worship Mayor Porter has demonstrated his practical interest in sport by donating a handsome silver cup for competition at the sports.

UP HE WENT

In the eighth Robcke again solved James' delivery, which he sent right field. Hesse was called out for bunting his third strike foul. Then came the comedy of hits and errors and a wonderful exhibition of catching by Cunningham. James cracked Grant in the ribs and Hoffman doubled to left centre, scoring Robcke and Grant.

SAVED A SHOUTOUT

Dempsy's home run in the ninth saved the Capitals from a shoutout. With two out Carman hit a fly ball and then Dempsy picked out his own in his liking and put it in his favorite spot over the canvas sign.

Whites Beat Red Sox. Boston, July 24.—Chicago used its hits to better advantage and defeated Boston 8 to 7. Six hits in succession, headed by Liebold's triple, caused Penock's retirement in the sixth. Pinchhitter Murphy drove in the tying and winning runs in the eighth.

Slater Gets Homer. Washington, July 24.—Slater's home run in the ninth was the only run made by St. Louis of Erickson, and Washington won 3 to 1.

Reds Win Close One. Cincinnati, July 23.—Neale's triple followed by Allen's sacrifice fly in the eighth enabled Cincinnati to defeat New York 1 to 0. Reuther was invincible. Benton also was effective.

Cubs Beaten. Chicago, July 23.—Philadelphia's attack in the ninth was so savage that Vaughn, who held a three-run lead over the visitors, walked out of the box. Carter was unable to subdue the attack and before-Dalley stopped the rally seven runs had been scored, giving Philadelphia a 10 to 7 victory over Chicago.

RAIN PREVENTS GOOD CRICKET IN ENGLAND

Matches Had to Be Abandoned; Surrey and Lancashire in Piquant Fixture. London, July 24.—(Canadian Associated Press)—Rain seriously interfered with the course of the six county championship cricket games fixed for July 21. At Huddersfield, Yorkshire versus Gloucestershire match was abandoned. There was only two hours batting in all.

Nottingham defeated Sussex by six wickets at Eastbourne. J. Gunn was not out, scoring 108 out of 267 for Nottingham, who dismissing Sussex for 109 and 186 were left to get only 29 to win, but lost four wickets before reaching the required total.

Big Game Spoiled. It is deplorable that rain interfered with a fixture so piquant in character as the meeting between Surrey and Lancashire at the Oval. These teams being first and second in the table, respectively. Makepeace scored 32 out of 208 for Lancashire. The home team, who declared 178 for nine wickets, dismissed Lancashire for 160 and beat the clock by a few minutes to win by nine wickets.

Canada's Trackmen OFF FOR OLYMPIAD. Sailed This Morning From Montreal; Polo Teams Getting Ready. Montreal, July 24.—The Canadian Olympic track and field team sailed this morning on the C. P. O. S. liner Melita for Liverpool.

Ostend, Belgium, July 24.—The American polo team, which has arrived in Ostend, will play its first game here Sunday with the Spanish team. A contest between the British and Belgium teams will follow and the winners will play Tuesday for the Olympic polo championship.

Barrieau Lands K. O. Calgary, July 24.—Frank Barrieau, welterweight champion of Canada, knocked out Bill Kramer of St. Paul, in the third round of a scheduled ten-round bout at Drumheller last evening. The champion had a shade on the challenger in every round.

Yarrows to Practice. A practice of the Yarrows baseball team will be held to-morrow morning at 9.45 o'clock at the Royal Athletic Park.

ROYAL VICTORIA

Young men who have been gratified by thinking that their one and only little tricks of love making that are their own should see Miss Norma Talmadge, fascinating her heart's choice in "The Woman Gives," which will be the attraction at the Royal Victoria Theatre for the last time to-night. Young women may also learn some things about the game of making love by watching the way Robert Milton responds to the various little stratagems employed by Inga Soderstrom, played by Miss Talmadge.

"The Heart of a Child" has proved one of the best of Nazimova productions. The great Russian actress has again added to her laurels by the wonderful characterization she presents to her audience, in that of Sally, the little tenement girl of the London slums. Many of the country's most famous actors and actresses, who are now touring the country in stock companies and complaining of the great number of parts they are compelled to "wing," would probably abandon the profession entirely if confronted with the task given Nazimova when she first appeared in Russia.

Scenes of unusual moment and keen interest are depicted in Mary Miles Minter's newest Reelart production "Judy of Rogues' Harbor," which will be shown at Variety Theatre to-day. The power to compel a would-be murderer to prepare a grave for his supposed victim is portrayed in a manner that makes the audience gasp and then laugh at the ingenuousness of the heroine's plan to save her little Denny from the cruel and inhuman treatment meted out to young boys in the "Rogues' Harbor," which is a photodrama that is interest-compelling from start to finish.

William S. Hart, the famous motion picture actor, believes that there is no human love or loyalty that exceeds that of an animal for a man. Probably Mr. Hart's most cherished possession is his beautiful Pin, upon the screen he plays a hazardous feat before the camera. Since the filming of "The Toll Gate," the new Hart picture at the Columbia Theatre to-day, Bill loves the pinto more than ever with reason. In his role of Black Deering, leader of a bandit gang, Bill is not only pursued by a sheriff's posse. He escapes them at one point by making a leap of over sixty feet from a cliff into the raging river below. But again they pick up the trail. This time Bill, as Deering, seeks to elude them by riding his pinto pony into the river bed and following the stream as it leads into a subterranean passage under the cliffs. The location for this scene was Sonora, in Northern California. Bill rode his pony into the Stygian blackness of the underground water trail. But suddenly the water grew deeper. The pinto started to swim. Its hoofs struck an underwater ledge, and he slipped backward, throwing Bill into the cold stream. The bear tried in vain to climb the steep sides of the cave. He tumbled backwards. Then followed a grim fight with death on the part of both man and beast, until at last the pinto secured a sliver of light and swam to it with mad speed, dragging Bill Hart after him. "I'm sure saved my life," said Bill later, "and he can have all I have got."

Frank Keenan is to be the featured star in the new picture for the Pantages screen, on Monday and Tuesday. Frank Keenan is a much enjoyed artist before the camera, and the advance information in regard to his latest play, "Smoldering Embers," indicates that he is to be seen the first two days of next week, in an entirely new role, a tender, human story that makes a deep impression on the heart. It is an original by Kate Corbaley, who was the author of "Gates of Brass" and the "False Code," screen plays of very great appeal. She has provided Frank Keenan with another splendid story in "Smoldering Embers." It will make laughs and weeps; thrills and sighs.

The cast presents Jay Belasco and Kate Van Buren in the leading juvenile roles, the untold, the romantic end of the tale, while Hardie Kirkland and Lucille Ward give a touch of villainy. Others are Thomas Guise, Russ Powell, Graham Pettie, Burwick Hamrick, Kate Van Buren, Lucille Ward and Frances Raymond.

Miss Page is at her best in a trying part which might easily be overdone, bringing with her an ease and dignity which are particularly well suited to the character.

TO-DAY'S AMUSEMENTS

Pantages—Vaudeville. Princess Theatre—"A Play Without a Name." Royal Victoria—"The Woman Gives." Dominion—"The Heart of a Child." Variety—"Judy of Rogues' Harbor." Columbia—"The Toll Gate."

It comes in time to make us realize that the stuff of which plays were made in "the good old days" hasn't run out, it can still be done; the situations, the language, the theme, are all splendid; the big moment is truly big and the comedy is excellent. All these things, combined with the happy ending, which is so unexpected, tend to make the new play a complete success.

In choosing the screen actor to play the role of "Wolf" Larsen in the picturization of Jack London's "The Sea Wolf," coming to the Dominion Theatre next week. Produced George Melford carefully considered the merits of a dozen players of high repute. The man finally selected was Noah Beery, who, besides being a man of great natural talents, is known as "the master of make-up" and possesses a physique of unusual power.

"Playing 'Wolf' was indeed the opportunity of a lifetime," said Beery recently. "There is no screen actor living who would not jump at the chance. It is one of the strongest, most striking roles ever conceived. I hope I have done it full justice."

Reflections in the Looking-Glass

Hints on the Care of the Complexion After Motoring and Outdoor Sports; To Prevent Sunburn. Summer is often a time of real trial to the outdoor girl who has a sensitive skin, which burns easily, or reddens, or becomes the color of a boiled lobster after a few hours' exposure to sun and wind.

TWO TREATMENTS FOR STROKE

Here is the Summer, and we should guard ourselves against sunstroke. Dr. Chaataing, chief surgeon of the French Navy, who has had to deal with many cases of sunstroke among sailors in the tropics, writes in the Caducée (Paris) the following advice as to treatment of such strokes:

IRONING DAY

Nine out of ten housewives will say, if they were asked, that they considered ironing the hardest task in the week's routine. Yet, one of the cleanest duties that fall to her lot, she really ought not to dread it so much.

The Summer Girl Follows Her Own Fancy When She Sallies Forth to Select Her Blouse

Outstanding Plaits About the Bottom of This Taffeta Blouse Give it a Finish That is at Once Unusual and Effective.

A Midsummer Party

It is Not the Pretentious Affair, but the Impromptu and Inexpensive Frolic That Often Yields the Most Enjoyment.

It is not always the elaborate functions that yield most in the way of genuine fun. All of us can remember simple, almost impromptu, affairs at which the enjoyment was complete.

The center of the table on the festive occasion was designed to represent a grass plot on which clothes were being hung to dry.

USEFUL OLD GLOVES.

Old gloves are always useful, no matter how shabby. Wear them as a protection when you are dusting or doing any heavy work.

RENOVATING CLOTHES.

To keep clothing looking "as good as new," as well as actually preserving and lengthening its life, it is necessary to keep it clean.

Sympathy—A Talisman For Winning Friends

Are you one of the people who always have a similar experience to "Match up" with another person's experience, who cannot listen to the recital of another's sorrow, hardship or venture without promptly capping off the recital with a parallel case of your own?

Epologism is the root of the habit, and with many a woman this fearful blight of egotism is so ingrained in the character, so part and parcel of it, that one quite desponds of any return in the matter.

The other day a friend came to you to confide something that was very important to her. She was very nervous, and you gave her a sympathetic ear.

"That Reminds Me." Some one tells you a good story. Do enjoy it without being reminded at once of one you think as good if not better.

COMFORTABLE CLOTHING FOR BABY IN SUMMER. There are really few directions in which the advances in knowledge bearing for good or ill on babyhood and early childhood have been more marked than in this matter of clothing.

COLD FROM DRAUGHTS. Many doctors have told us that chilling the surface of the body, as by a draught or a cold douche, cannot cause a cold or cough.

SAVE-A-PENNY SUGGESTIONS. A certain clever girl, who makes many pretty useful things to wear and for her home out of odds and ends of left-overs has just made such a pretty jewel case.

WORTH KNOWING. Stale rusks are good toasted. Excess dressing spoils a salad. Serve sweet wafers with fruit salad.

HOMEY HINTS. Always turn a steak by passing a knife under it. Never put a fork in to a potato.

When poison has been accidentally swallowed, no emetic is better than mustard. Mix three teaspoonfuls with a cupful of warm water and swallow.

To keep a grained and varnished front door in good condition, rub on very lightly a little brown boot-polish. This is also a good remedy for scratched furniture.

A soap lather and a sunny day are the two things necessary for the cleaning of a soiled lampshade. Immerse the garment and gently rub the grimy parts.

THE DECORATIVE VALUE OF WELL-CHOSEN PRINTS

How very rarely it is that one encounters a really good collection of pictures in an average home! By good pictures is not meant valuable original work by well-known artists, but a selection of beautiful and interesting prints that are decorative and, at the same time, satisfying to the ordinary demands of cultured taste.

Choose Colored Prints. Speaking generally, prints known as photographs should be ruled out altogether when choosing pictures. It is true that brown and sepia prints in a dark oak frame can be used quite effectively upon certain plain colored walls; but it is better always to choose colored prints and to buy the best that can be procured, and these fortunately are not expensive.

Wonderful Reproductions. There are wonderful reproductions of the old masters wherein the sufficient thought and speculation do not require any labor to interest one for a lifetime.

These are so inexpensive and many of them so astonishing in their truth to color and detail that it would be well always to think carefully before buying the first attractive picture that catches the eye when

### LONGS FOR FINISH OF COAST ROAD

Victorians Will Soon Have Permanent Highway Into Los Angeles

When road-makers down the coast get in a little more work, people of British Columbia and Washington will be able to jump in their cars and go down to San Francisco and Los Angeles over the week-end, provided there are not too many traffic police along the route, according to K. M. Coydendall of San Jose.

Mr. Coydendall, who is interested in fruit growing, has been in Victoria for the last few days with H. J. Scott, of Craigdarroch. He motored all the way up except for the ferry crossing to Victoria from Seattle and did the whole thing, bad roads and all, in five days. He travelled on the night-hour-day principle so that no one could say that he was trying to rush things.

From San Francisco to Victoria the speedometer showed 1,959 miles. Mr. Coydendall brought Mrs. Coydendall along with him to testify as to his feats during the trip.

"The roads through Oregon are rough," said Mr. Coydendall. "They are nearly all under construction. You have to make continuous and long detours."

"In Washington the roads are about half finished. The other half are being worked on."

"But from Red Bluff in Northern California to San Francisco the road is all permanently paved. This is a distance of 250 miles."

"They are not delaying work at all on the roads through Washington and Oregon. As soon as they are finished in these two states there will be one grand sweep of motor highway from British Columbia right down to Southern California. This time you will take to make the trip will be limited only by the degree of respect you have for the speed laws."

Mr. Coydendall and his wife are now motoring back to San Jose.

## DUNCAN READY

The tourist camping site in the agricultural ground at Duncan has been equipped with a brick fireplace and signs will shortly be erected directing incoming visitors.

The site was used for the first time on Wednesday of last week, when a Vancouver party expressed themselves as highly delighted with the conveniences supplied by the Duncan Board of Trade in co-operation with the City Council. Alderman Provost deserves credit for carrying this plan into effect.

## FIND SUBSTITUTE FOR GASOLINE?

Benzol, By-Product of Coke Ovens, Has Promising Indications

With the increasing number of motor vehicles in the United States and the low production of crude oil, gasoline will consequently continue to go up in price. A few years from now we shall have to use something else as fuel for our automobiles. The question is, what?

Those who are making a study of the situation think we shall get the requisite substitute from coal. In every city there will be "by-product coke ovens," which will extract from the coal a light oil available for the purpose. The coke can then be used in our furnaces and for other ordinary fuel purposes.

One ton of soft coal in the process of coking yields about three gallons of oil first-rate for motor fuel. As every city there will be the heat in the oil has twenty times the commercial value of the same amount of heat in the form of coal.

Germany during part of the war was practically shut off from every supply of mineral oil. She depended for her motor fuel entirely on coal, putting the latter through by-product coking plants. Before long we shall be obliged to do the same thing.

Part of the light oil in coal is toluol, which in time of war is needed for the manufacture of TNT. Modern warfare requires enormous quantities of this substance for making high-explosive shells. During the first part of the war the Allies came near defeat for lack of it.

Another by-product from the coking of one ton of soft coal is 5,000 cubic feet of gas, available for cooking and other household uses. The coke itself makes an admirable smokeless fuel for furnaces, if people could only be persuaded to use it.

During the war a Canadian distilled near-gasoline from waste straw piles. The Danes and Norwegians found that an internal combustion engine could be made to operate on fish oil. Australians have learned that alcohol made from sugar and molasses would do in case of necessity.

The air-cooled engine holds great possibilities. It is not unlikely that it will ultimately replace the water-cooled engine for automobile and truck purposes. Through the abolition of the water-cooling system the average passenger automobile can be constructed so much lighter that a considerable saving in operating costs will result from this factor alone. In addition, the increased thermal efficiency of the air-cooled engine substantially reduced fuel consumption.

One of the oil companies has compiled some data which shows that the average water-cooled passenger automobile runs about twelve miles on a gallon of gasoline, compared with eighteen miles a gallon for the average air-cooled car.

## LEAKY CARBURETOR

If there is a constant dripping of gasoline from the carburetor the float valve mechanism is not operating as it should. When the level of fuel in the float bowl reaches the proper height, the needle valve controlling the flow of gasoline into the reservoir of the carburetor should shut off. If it does not work properly, the adjustment should be checked up, and the valve and its seat examined for dirt or grit. Perhaps the needle valve is worn, in which case it should be carefully ground into a good seat.

## READ MOTOR NEWS IN FRENCH NOW

First Non-English Automobile Magazine in Canada Born

Persons who think they would like to read their automobile news in French are now able to do so. The first French automobile publication on this continent has been started. It is called "L'Automobile au Canada," and is being published monthly in Quebec City. It is a large sized magazine, and by illustrations and articles deals with all phases of automotive life. In the leading editorial in its first number "L'Automobile au Canada" says under the heading "Au Public Canadien-Francais":

"L'Automobilisme est entel progres dans notre pays que nous croyons aller au-devant du desir des 35,000 proprietaires d'automobiles de cette province francaise du Dominion en leur presentant un magazine écrit dans la langue de la majorite et exclusivement consacre a tout ce qui touche les moyens de locomotion rapide en vogue dans ce siecle de perfectionnement."

"Est-il besoin de faire valoir les avantages d'une publication de ce genre? Tous les jours il survient du nouveau; tout s'ameliore. Heureux celui qui est premier informe des plus recentes decouvertes du genie automobiliste! Un homme averti en vaut deux. Il trouvera dans nos pages des renseignements et des conseils qui lui mettront de l'argent dans sa poche."

"En versant la modique somme de \$1.50 pour un abonnement d'une annee a L'Automobile au Canada, l'abonne n'ajoute qu'une bagatelle a ses charges; c'est le moins cher de ses placements, mais en meme temps c'est un debourse productif, qui se paiera vingt fois et plus dans le cours de l'annee."

## OVERHEATING DUE TO IMPROPER DRIVING

Don't always blame the cooling system when the engine overheats. The mixture supplied by the carburetor may be causing the trouble, perhaps being too rich. Possibly the spark is not advanced far enough; maybe the timing system is clogged, or for some other reason is not properly lubricating the mechanism of the power plant. It might even be possible that the fan belt is slipping, thus preventing the fan from doing its full duty. Then there are the brakes. They may be dragging because the bands are too tight, a condition which can only be discovered by jacking up the rear wheels and noting whether or not they turn freely.

Overheating is often chargeable to improper driving—using the low gear too long when the car should be running in high.

There are no less than 375,000 motor trucks in the United States equipped with pneumatic tires, and 275,000 running on solid tires.

## BENT RIMS CAUSE TIRE TROUBLES

Overstrained Carcass Often Gives Way Because of Previous Abuse

Bent rims are a direct cause of rim cuts, of tires blowing from the rim and of the breaking of the wire cables at the base of the tire. Often times motorists cannot understand why their tires should "blow" when they are driving them slowly. The facts of the case are that the overstrained carcass has reached the limit of its endurance from previous abuse and has given away.

Many motorists were they to examine the wheels on their cars, would be surprised to notice that their rims are bent along the edges. These bent-rim flanges are ordinarily little thought of, yet they cause a goodly percentage of tire troubles.

When the wheel hits a frog of a switch of a street car track or a hole in the road there is a tendency to flatten the rim, especially if the tire is under-inflated. The rim's support, however, is essential to the life of a tire. If it is bent so that it does not fit the tire and allows the side walls to bulge, the motorist may know that trouble is to be expected unless he takes immediate precautions.

By truing-up their rims motorists may prevent much tire trouble, and half the pleasure of motoring in free-dom from tire trouble. A good rule to follow is to have both tires and rims inspected fortnightly. When rim trouble is found it may usually be corrected by careful tapping with a ball hammer.

To guard against such a condition, keep out of car tracks and holes where the depression allows the weight of the car to rest on the rims. It is also advisable to avoid quick, slanting jolts of the wheels against curbs. Especially is it important to carefully cross intersections of car tracks.

## 27 TANKS IN RACE

A motor tank race was recently contested in France, when twenty-seven tanks went over a three kilometre (1 3/4 mile) course which included two obstacles, a steep hill and a wide stone quarry. Twenty-five tanks finished the race.

## CARBURETION TIP

If you will experiment with your carburetor a little you will probably find you will not get as good mileage from your gasoline by having your carburetor set so weak that it does not pull well. Adjust your carburetor so it runs as good as it is possible to make it after the engine has become thoroughly warmed up, and you will find that you will get more mileage to the gallon than when it is so weak that you have to use the choke every time you want it to pull hard.

Belgium has 12,000 motor vehicles.

## WANT OPEN PARK AT CAMPBELL RIVER

People of Courtenay and Comox Ask Preservation of Area at Falls

The Provincial Government is being petitioned by the Courtenay-Comox Board of Trade to set aside an area around Campbell River Falls for a park and not permit the scenic beauty of the Falls themselves to be ruined by the diversion of their waters for commerce.

A resolution worded as follows has been passed: "Whereas the Island Highway is yearly becoming more known and appreciated by the public and is a valuable asset to Vancouver Island; and whereas owing to logging operations, forest fires and other causes, much of the natural beauty of the Island Highway has been lost, and it is desirable to preserve as much as possible the scenic beauty now left:

"And whereas of all the beautiful scenery reached through the Island Highway the most wonderful is the Campbell River Falls. Unique from the fact that here the Campbell River makes a sheer drop of nearly 300 feet and flows away through a beautiful wooded canyon at right angles;

"And whereas one of the great charms of the falls is the situation, surrounded as they are by giant trees, typical of Vancouver Island's primeval forest;

"And whereas any logging operations or other commercial enterprise must necessarily irredeemably rob this valuable asset of its natural features;

"Be it resolved, that the Provincial Government be requested to set aside as a park a suitable tract of land surrounding the falls and reserve the falls themselves from any form of interference and so secure their preservation for the use of the public for all time."

The average motorist consumes 300 gallons of gasoline a year.

For every railroad car in the United States there are three motor vehicles.

You learn how Mr. Edison perfected the marvelous phonograph which bears his name. You read how he made the startling breakthrough by means of which he proved its supreme realism. The book also takes you into the realm of fine literature. You are delighted with the story of the great Victorian furniture—and how Mr. Edison's designers adapted their masterpieces for his phonograph cabinets. It is an immensely interesting book. Fully of useful information and real inspiration.

**MUSIC, A MODERN ART, AND ITS ORIGIN**

Paestrina's Story Is Told, With His Trials and Publications

Part II (By G. J. Dyke)

Paestrina (1524) was born about the time when the unfortunate Pope Clement VII began his reign at the Vatican. Many mythical stories have been told of his early life, and it is said when a young man he sang in the streets of Palestrina, in Rome about the year 1540, where he got his first position as that of chapel master in the Capella Giulia in the Vatican. Soon after he published a set of masses, his first musical works (1551). About this time he became one of the singers in the private chapel of Pope Julius, but after the death of the pope he was expelled. He then lived at Santa Maria Maggiore, occupying the latter position for over ten years. During this time he formed his style of music and wrote some of his greatest masterpieces. In 1565 he wrote three masses which were received with immense delight and enthusiasm—the result of which was that he was held to be a superior of artistic church music. The most famous and successful mass of the three is the one known as the "Missa Pappae Marcelli," named after the good pope of that name, and in recognition of his genius the Pope made him composer of the pontifical choir, which in those days was considered the highest musical position in the world.

These various posts as chapel master, however, only brought him a small income, his compositions added very little more, and he had but a few pupils, so that throughout his life he remained a poor man. In 1585 Paestrina wrote two masses for Pope Sixtus, the first of which he wrote so hurriedly that he atoned for this by writing forthwith the beautiful "Assumpta est Maria in Coelum," a masterpiece. He later wrote some motets, Cardinal Joppoletti's Ester. It was at this time (1540) he found one of his best friends, his life-long advisor, in Filippo Neri, who, like Luther for his people, found ways and means of strengthening and extending religious services by introducing music in connection with biblical and sacred subjects, such as the Praediger. But although Paestrina did not compose music for such plays or oratorios (the first mention of "oratorio" was in this period), his honest teacher, no teacher is too poor to be honest. He should, after a pupil has been given a fair chance or trial, honestly tell that pupil just what chance he or she has for success especially if the study be undertaken for professional purposes, but always in a kindly spirit. It is bad business for a teacher to over-encourage an untalented pupil. The disappointment is greater in the end, for the student, and such methods put the studio in disrepute.

BE HONEST ALWAYS.  
Art is an idealism of nature, and singing, of all the arts must be most developed by spontaneous naturalness, just as one learns to walk or dance. People often forget that singing to be successful, must be purely natural. One must, however, train to practice correctly, and in this must have the help of an interested, and honest teacher. No teacher is too poor to be honest. He should, after a pupil has been given a fair chance or trial, honestly tell that pupil just what chance he or she has for success especially if the study be undertaken for professional purposes, but always in a kindly spirit. It is bad business for a teacher to over-encourage an untalented pupil. The disappointment is greater in the end, for the student, and such methods put the studio in disrepute.

Tergolesi wrote 200 years ago a quaint little opera comique—a classic (to my friend H again) called "La Serva Padrona." The Maid as Mistress?"). His music is lovely.

**THE SAME WITH MUSIC.**  
Grieg was one of the few modern composers who did not follow in the footsteps of German music, although his education in Germany. He strove to emancipate himself from its influence and sought inspiration from the folk songs of his own land. In this endeavor, of course, he runs a danger. Even if refined, "national" composers are liable to become too popular, or even vulgar. Their work sometimes seems to appeal only to the narrow circle of their fellow countrymen, since only they are able to understand the meaning and to enjoy the spirit of their national language. It is like with national culinary specialties which enthrall only the gourmards of their own land. Italians have "sauerkraut" which, however, it must be owned, has acquired a somewhat international reputation; Spaniards have "Olla Podrida"; Germans "sauerkraut"; Russians "kavir," and so on, but one finds often that the same dish which makes the joy of the local gullet leaves people of other lands perfectly indifferent. The same with music. Many national heroes are considered nobodies out of their own land.

What are impressions? Answer: Rome, Venice, London, Paris. Think of it! What wonderful impressions the mere mention of the four names.

GENA, BRANSCOMBE the well-known Canadian composer.

**FUTURE OF MUSIC LIES WITH CHILDREN.**

The future of music as an instrument of culture lies with the children of the people. Nowhere but in the elementary schools can they be reached. Colleges and universities are necessary to train the professional, but the education committees of the great towns have the largely neglected opportunity of making the rising generation a music loving public. The innate faculty of appreciation is there, and is commonly diffused among scholars of the most essentially industrial areas. It only needs direction and cultivation, for one of the greatest pleasures to be added to the amenities of town life, pleasures at present so lamentably few. The main idea is to teach the children how to appreciate and enjoy good music, how to become intelligent listeners, rather than to become performers themselves.

**THOUGH WEIRD IT IS BEAUTIFUL**

Saxophones, when used as a quartette or choir in the military band, possess great power and volume and the hands of first rate performers are smooth and effective. As a connecting link between the wood winds and the brass of the military band, they are very valuable, serving to increase the volume of the reed and flute element and adding to a great extent the harshness of the brass. They make beautiful and smooth lists, which before was harsh and rough and blend perfectly with brass and reeds alike. Charles Vincent, Mus. Doc. Ontario, in his work on the "Brass Band," has the following to say about them: "Though these characteristic instruments are made of brass and are suited to brass bands, they are really reed instruments, being brass oboes with clarinet mouthpieces. Their addition to large bands is strongly urged on account of their beautiful yet weird quality of tone. The combination of a quartette or of the entire family of saxophones is simply marvellous. They bring to a band a tone quality which when once introduced can never be dispensed with."

**YOUNG PEOPLE'S RALLY**

ST. ANDREW'S CHURCH

At the Young People's Rally, which is to be held to-morrow at 7.30 p. m. at St. Andrew's Presbyterian Church, the following programme will be given: Anthem—Magnificat ..... Marks  
Solo—Invocation ..... Berwald  
Anthem—Ye Shall Dwell in the Land ..... Soloists  
Solo—The Voice in the Wilderness, Scott  
Address—Mrs. Jesse Longhead.  
C. R. McElhinney, M.  
Anthem—His Works of Love ..... Clare  
Solo and Quartette by Miss McElhinney, Mrs. Hall, Mr. Petch and Mr. Melville  
Solo—Rock of Ages ..... Kenick  
Hallelujah Chorus  
Anthem—The Pilgrims of the Night ..... Nichol  
Solo—The Pilgrims of the Night  
The service will be preceded at 7.10 by an organ recital.  
Those singers in search of a language song for a hot Summer night—quite new and appropriate—will find "You in a Gondola," by Robert Condyngs Clark, full of sweet music and glow and glory to sing. The song is a setting of an old poem by the famous Lady Lindsay.

**MUSICAL NOTES**

(By George J. Dyke)

The now great English conductor, Albert Coates, is to visit New York next December, there to conduct by invitation, three concerts by the New York Symphony Orchestra. The concerts will be given in the Carnegie Hall, which, by the way, was built for the New York Symphony and its conductor, Mr. Damrosch. Mr. Coates, who is the conductor of the London Symphony Orchestra, is bringing with him his "Vaughan Williams' London Symphony," a work that has gained distinction and ranks as one of the best compositions of the present day.  
The Handel Festival, held at the Crystal Palace in June, again attracted huge audiences and immense enthusiasm prevailed. The soloists and orchestra numbered 4,000. Of course "The Messiah" was included. The works given were beautifully rendered.  
A Gilbert and Sullivan pantact took place in the early days of the present month in Cassiobury Park, Walford, England, when 450 performers took part. The affair sounds decidedly attractive.  
The operas "The Mikado," "Pinafore" and "Chimes of Normandy" were recently given in San Jose, California. We read that the performance were very excellent. The operatic "Music and Musicians" does not mention his name, and I have made inquiries from several local musicians and have hunted through both the city and Provincial (Parliament Buildings) libraries, but can find no mention of this, I presume, English composer. Can any reader give me any information on the subject?  
Filippo Neri, a great friend and patron of Paestrina, in the fifteenth century founded a religious body called the "Congregation of the Oratorians" with the object of extending and strengthening religious ceremonies by means of giving a more popular character to some kinds of church music—after the manner of Luther for his people—and by performing music in connection with biblical or sacred subjects. These performances actually began in 1540 and took place in the oratory of a convent. They were not actual ora-

of the Maori women's chin, a fair reader calls my attention to the fact that this custom is a thing of the past, but skin tattooing on the Maori women denotes she is married—the same significance as the wedding ring of the European. The great tradition of this race is that the first Maoris in New Zealand came from Hawaii in the Pacific Ocean, being blown by a hurricane as far as the South Island. These Maoris were in two canoes, called the "Arava" and "Tainui." The educated Maori, "Pak-chu Maori," can understand native Hawaiian quite well, a good proof of their relationship. I thank my reader for this very interesting information.

"Music and Musicians" does not mention his name, and I have made inquiries from several local musicians and have hunted through both the city and Provincial (Parliament Buildings) libraries, but can find no mention of this, I presume, English composer. Can any reader give me any information on the subject?

**"All is Not Gold That Glitters."**

Many will remember the name of Lucy Gates, who sang in this city a few seasons past. She recently said "I'm tired out, and I intend to take a complete rest until October. Next year, too, I'm not going to sing an offer. You've no idea how weary one gets of travelling. There are times when I feel like running when I see a Pullman. It's all very well to say, 'Think of the nice fat cheques at the end of the trip. You get so, after a while, that you'd be glad to settle down in a hut somewhere and observe hear of a theatre or a concert hall."

**A little over a century ago, to be**

exact—in 1825—the now famous Lombard Street, London, was a tortuous lane with dark vistas of lofty houses, whose whole wall-surface was of smoke-blackened brick, with the basement stories bespattered—freely from the gutters as each wagon or lamp-cart tolled or rattled along—Lombard Street was so stained, that time-illumined by oil, tried to enliven the foggy street with their ineffable light, and through dingy, greenish squares of glass one might observe the tall, thin candle-dims lighting the mysteries of bank, counting-house and office. In those days the mother post-office for the United Kingdom—and the Colonies, was then in Lombard Street! And what huge crowds used to besiege it, and what a confusion of news boys! Not infrequently a post-chaise, with the horses in a positive lather, tore down the street, just in time to forward some important dispatch. Then, the horn, the horn! 'Tis the mail coach, gallop, gallop! Impatient and eager for their journey of ten miles (at least) an hour, and the soloists are the mail-guards, and very pleasant music they discharge—not a few of them being first rate performers on the old historic instrument. Such then was Lombard Street in those days.

Building to Cost 132,000 Yen

The dining hall in the same building will be completed to accommodate 500 persons at a time.

The building will occupy the vacant block just behind the statue of Viscount Inouye between the Kajko building and Tokyo Station.

The building will be a large frame structure built after the fashion of the temporary buildings put up for the world's fair.

The stage will be large enough to accommodate half of the chorus of one thousand persons, room for the other half being reserved immediately in front of the platform.

The main door of the auditorium will begin to slope directly from the space left for the chorus. There will be one gallery.

persons, more than had ever before read that paper.

The Rev. G. Vale Owen says that in the Spring of 1913 his wife "was constrained by an influence independent of her wishes to take a pencil in her hand. This she did, and it soon became apparent that a stream of people were trying to communicate with her."

"After awhile 'messages' began to come and Mr. Owen was urged to sit in in like manner. He says he had such an aversion to this sort of thing that he resented for months, but at last a "steady mental pressure" overcame his scruples and he began to sit in his vestry every day after evening.

The statement is issued jointly by the Dominion Candidate Secretary for women, Miss L. Metcalf, Grimby, Ont., and the Educational Secretary, Rev. Dr. W. E. Taylor, 131 Confederation Life Building, Toronto.

It is all the world no problem is now arising more discussion than that of life after death and the possibility of those who have left the earth communicating with those of us who remain. So absorbing and widespread has the debate over spiritism become in England that it has become necessary a change in the programme of the Lambeth Conference, at which the Anglican bishops and clergy meet.

An Anglican clergyman, the Rev. G. Vale Owen, Vicar of Oxford, a suburb of Liverpool, has just written an extraordinary book containing what purports to be conversations between him and a group of spirits. These conversations are far different from any previous alleged messages from the other world, for they contain detailed descriptions of life beyond the grave, of the houses and gardens in which the spirits live, the clothes they wear, the trees and that are about them, the colleges to which they go and the studies they have to make, the work they perform.

Some of the things described are quite astonishing. For example, the book tells us that there are "writing nymphs in the streams; that the houses have bathrooms; that evil spirits sometimes help despairing souls out of the abyss of darkness and woe to the realm of light and eternal bliss; that there are buns and horses and little furry animals over there. And it relates how the Divine Presence is manifested.

When this remarkable book was published in a London newspaper it was read by a quarter of a million

THAT WAS BEFORE MY TIME, OLD DEAR: I WAS BORN IN 1893.

WELL, YOU MISSED IT THEN! EVERYTHING WAS LOWER IN THOSE DAYS: A GOOD SUIT OF CLOTHES SET YOU BACK ONLY TEN BUCKS!

BUT EVERYTHING'S HIGHER THESE DAYS. THEY ASK THIRTY FIVE CENTS FOR ONE BAKED BEAN WITH A SPECK OF HAM HIDING UNDER IT.

GEE! THE THERMOMETER OUT HERE REGISTERS ONE HUNDRED AND TWO DEGREES!

ONE HUNDRED AND TWO DEGREES. THERE, THAT'S ANOTHER EXAMPLE!

### BEAR WAS VISITOR

Monster Occupied Cookhouse Doorway and Chef Departed.

A big brown bear Tuesday evening came right down into town and was

quietly sniffing the remnants of a dinner when the cook turned round and saw him. This was at the George residence which is occupied this Summer by the family of J. Van-ophen, managing director of the Algonquin Development Company. The household chef was just tidying up after dinner and may have been thinking of his devastated Belgium. At any rate, he was totally unprepared to turn and gaze into the face of the bear that filled the doorway. He did not stop to consider that the pleased and friendly expression of the shaggy epicure was a tribute to his art, but made it to the hospital nearby in nothing flat. There he borrowed Dr. Davis's Luger and advanced to the front line again. Evidently the bear anticipated the manoeuvre for he was not there when the cook and reinforcements got back.—Portland Canal News.

### DESIRE TO FINISH VOCATIONAL WORK IN VICTORIA SHOPS

Re-establishment Students Object to New Order; Operation Delayed

Over seventy ex-service men who were taking vocational training in shoemaking, carpentering, and as dental mechanics have met and agreed not to comply with an intimation they have received from the District Vocational Officer that their work must be transferred to Vancouver for conclusion of their training under the Soldier Civil Re-Establishment plan.

The G. W. V. A. branch here has prepared a protest to Ottawa on the matter. It was stated to-day that the order may be held in abeyance pending consultation with the men as to the effect on their future as craftsmen.

There are in all about 73 men of this class affected, of whom half are shoemakers. They object not only on the ground of having to be separated from their families, nearly all being married men, but that concentration in Vancouver would prevent them building up business connections among their friends, and in their own localities prior to engaging in their crafts. It was stated today that every shoemaker trained here with one exception has followed the craft, and is now in that occupation on this island. It does not appear to be an issue of concentration because of decreasing attendance of students, as some of the men are stated to be as well attended as ever.

**Official Opinion.**

Leut. W. C. Winkel, District Vocational Officer stated to The Times to-day that the order issued for the closing of the instructional shops here had not yet been countermanded, but that in his opinion that some modifications would be made, after representations had been made by the men affected to the authorities.

The reason quoted for the proposed change was that the cost of maintaining the two separate institutions along the lines has become too great, and that a general policy of retrenchment called for curtailment of the local, and smaller, schools. There was no desire on the part of the authorities to work a hardship on the men, Mr. Winkel stated, and admitted that the men would be put to some slight additional expense, which they would have to meet out of their already slender allowances for subsistence and clothing.

The local department is to confer with the students on Monday to talk the matter over, and it is understood that the department stands ready to meet the wants of the men half way. On the other hand, Mr. Winkel pointed out, that the men were beneficiaries of the Government, and that it was up to them to adjust themselves to the conditions that the Government found necessary to make.

at the hands of the civil service, largely based on misunderstanding and failure to read the explanatory circular which accompanied the re-grading lists. There is no doubt, however, that this committee did valuable, important and successful work for the service, as the following condensed report will show:

**Total number of civil servants considered, 879; number whose grade and salary were raised in final as compared with first list, 53; number raised in salary only, 18; number raised in grade only, 12; total number raised in salary, 249; total number raised in grade, 181.**

**The "Civil Servant"**

Turning to the suspension of The Civil Servant after one issue, the report briefly refers to what has taken place and says:

"In view of the expressed desire of the branches for the continuance of the paper, it was decided to proceed with the publication, but the necessary funds have not been forthcoming from several of the branches."

**Superannuation**

"A committee consisting of Messrs. McLean, Vancouver; Campbell, New Westminster; and McNeill, Victoria, was appointed to make recommendations, but, owing to the prolongation of the re-grading work, it was left to Mr. Campbell to prepare a memorandum on the subject," says the report. "This was duly submitted to the executive committee and the branches, but, owing to the short time at our disposal and the impossibility of getting the main features of the proposed bill adopted by the Government, it was decided to request the Government to resuscitate the 1919 bill with provision for the

### Why Do People Take Monkey Glands?

Rejuvenation, both physically and mental, can be acquired, much easier and more pleasantly than by taking or eating the glands from Monkeys. The French have invented a Medicine, in tablet form, that does away with all other means of rejuvenation. These Tablets are now universally sold throughout Canada, and are known as VITAL Tablets. They supply the necessary Vigor and Youth. There is no need to import Chimpanzees from Africa, to take their glands to inject into people. Why go to all this trouble, and expense, when VITAL Tablets can now be procured right in your own town, from your drug store? VITAL Tablets taken for a short period, disease of every description, old age with all its aches and pains, will be a thing of the past. Young men and women with their pale faces, thin blood, impure blood, blotches on the skin, run-down, worn-out, tired people can be placed in a state of good health, with pure blood, strong nerves, a strong stomach, a healthy body, full of youth and vigor. Every Tablet of this new medicine contains the elements to make you feel as nature intended you to feel, no matter what your trouble is, go to your drugstore and procure a box of VITAL Tablets, if they do not do you good, go back and get your money. Get on your feet, away with that pale, worn out look on the face. VITAL will bring back the rose of youth. Price fifty cents per box, all drug stores.

### TAKE ONE HOUR OFF HIS LIFE SENTENCE

John Lynn, undergoing life sentence in the Wilkerson Road Mental Hospital for committing a murder, escaped yesterday to the woods and obtained one hour of freedom in his career. Arrested here in 1912 Lynn escaped from jail, going to Kamloops. After murdering a rancher there some two years afterwards, Lynn was given a life term. While awaiting judgment he escaped twice from the jail in which he was held. Taken to the Wilkerson Road Hospital, Lynn yesterday made another attempt, and was at large for the period of one hour before being rounded up and hustled back to his quarters.
