BRADLEY MEMORIAL LIBRARY
COLUMBUS, GEORGIA

PREFACE.

"In presenting our 1904 volume of the Columbus City Directory, we desire to call the attention of our patrons to the fact that we have kept our promise of an early canvass following the moving season, and in addition to this we have included both Girard and Phenix City in our work this year.

"The many improvements in Columbus since the publication of the last Directory has been remarkable, in fact so much so, as to cause general comment away from Columbus, for the writer in speaking of the general improvements throughout South (in a city nearly 1,000 miles away from Columbus ventured the remark that Columbus had improved more in the past two years than any city in our circuit, and was surprised at being answered on two separate occasions, that the parties understood that such was a fact; one of these being the City Engineer of a Southern city, and he spoke in commendation of the street improvement in Columbus, (which in the writer's opinion has done wonders for the appearance of the city). KEEP THE GOOD WORK UP, and when we come again let us see Broad street paved with vitrified brick or some other substantial material.

"Whilst reviewing the many improvements in Columbus, we think it would not be unwise to call the attention of the business and professional interests to the necessity of supporting and encouraging the publication of the Directory.

"Our service covers fourteen cities, from Lynchburg, Va., on the North, to Columbus, Ga., on the South, and our works are sent to the principal libraries,

and in addition, we have quite a large sale to regular customers, who take all of our publications, and we firmly believe that we do our share in the course of each year toward advertising Columbus away from home.

"We now approach a subject more interesting to us than it is to the reader, and that is the support given the Directory in Columbus.

"As a matter of fact it is as necessary to give support to your Directory publisher as it is to support any other reputable enterprise.

"To a certain extent the DIRECTORY of any city is used away from home in judging the enterprise of a community and in this particular, we assert that any resident of Columbus need not feel ashamed of the Directory representing his home, for it is the equal of any work of a like character, no matter where published, and better than 99 per cent. of works for cities of similar size.

"We are continually improving our service as new ideas suggest themselves, and whilst we do not care for support from those who can ill afford it, we would appreciate the support of the business and professional interests, where the service is needed and useful.

"We desire to extend our thanks to the citizens in general for the many courtesies shown the representatives of this work in the gathering of the necessary information, and our appreciation to those who by their representative spirit have added to its success."

We are respectfully,

THE W. H. WALSH DIRECTORY CO.,

W. H. Walsh, Mngr.

Columbus, Ga., Feb. 15th, 1904.

KALOLA

Crystalized Mineral Water
Natural Crystals From
Mineral Water
Scientifically Prepared

The following is from a letter from Mr. R. P. SPENCER,
GENERAL AGENT, GEORGIA HOME INSURANCE
CO., COLUMBUS, GA..

"I am glad to say that I have derived a great benefit
from using Kalola. Before using up all of one bottle, I was
entirely relieved of a very stubborn attack of Indigestion, and
am thoroughly convinced of the great merit of the remedy."
We have thousands of other letters.

PINE FOREST INN

SUMMERVILLE, S. C.

Season 1904-1905—Open November to May

THE PINE FOREST INN COMPANY take pleasure in announcing to former patrons and those who contemplate a sojourn in the South during the winter 1904-5, that the Inn will be open for the coming season with many improvements to the hotel and property that cannot fail to add to the comfort of its guests. Since the close of the house last spring, a new addition has been constructed, containing several suites of rooms with bath, steam heat, and open fireplaces, and furnished in the luxurious style of other portions of the Inn. An extension enlarges the dining room to double its former size, and provides several smaller dining rooms and a commodious room for balls and entertainments. The kitchen facilities are also improved.

THE FORMER EXCELLENT GOLF LINKS have been extended to an eighteen-hole course. Artificial bunkers have been added, and the hazards difficult enough to be interesting. The turf is the finest in the South. There is a good club house situated at the first tree, commanding a view of the entire course. The links will be in charge of a professional instructor, and tournaments will be a feature during the season. The climate of Summerville will admit of playing any day in winter. A fine boulevard leads from the Inn through the park and past the tea and floral gardens of Dr. Charles U. Shepard to the club house, less than a mile distant.

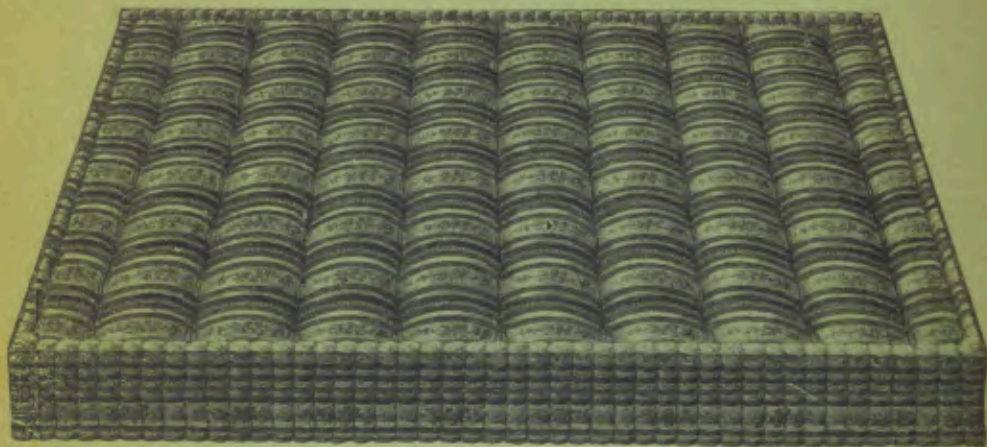

THE PINE FOREST INN HUNTING GROUNDS, containing two thousand acres, with its Colonial Club House, and the variety of game with which the preserves are stocked, should be a great attraction for all fond of hunting, etc.

THE OWNERS OF THE INN have spared no expense in the equipment of the hotel and providing for the comfort and amusement of guests, and the large patronage enjoyed by the house in past seasons is the best evidence of its popularity. Situated in the middle South, in the dry, fragrant air of the pines, and easy of access from all points, the Pine Forest Inn offers an ideal climate and many advantages not found at other Southern resorts.

PINE FOREST INN CO., SUMMERVILLE, S. C.
