## Reference letter

To Whom It May Concern:

On behalf of Soros Foundation – Kyrgyzstan we would like to thank Chorobek Saadanbekov for the cooperation and assistance in the implementation of the project on development of the Kyrgyz Wikipedia within the Information Program.

We would also like to note the success of the current project, "The movement of Kyrgyz Wikipedians", supported under the grant competition "Information Technologies in Education", which is coordinated by him. As well as the previous year project – "Digital library" – the results of it one can find at the web-site: [www.bizdin.kg](http://www.bizdin.kg)

In this connection, we recommend Chorobek as a reliable partner represented by "Bizdin Muras" Public Foundation and responsible performer in the projects which he participates in.

The rapid development of the Kyrgyz Wikipedia would not be possible without the help and support of activists like Chorobek. We appreciate his enthusiasm, responsibility and professionalism.

We wish Chorobek Saadanbekov and his organization success in his work and look forward to further cooperation.

Sincerely,

Lira Samykbaeva  
Information program Coordinator  
Soros Foundation - Kyrgyzstan
