

**WIKIMEDIA TANZANIA**  
**The non governmental Organisation**

Wikimedia  
Tanzania

March 12, 2013

Dear Members of Jury.

Since established of Wikimedia International Conference of wikimania in 2005 with hosting opportunity in Frankfurt, German. The Successfully of the followed events has proved to be among of development's tools and this has proved beyond doubt especially in developed countries .

Tanzania through Arusha City is bidding for the Wikimania 2014 Bids/Arusha for seeking to have an opportunity of enabling Tanzanian and their neighbors this includes all the counties surrounded Sub Saharan Africa. There is no doubt that the bid of this Wikimania 2014 bids/Arusha has'nt an experience enough to compete with people like Jimmy Wales who is the London Bid.

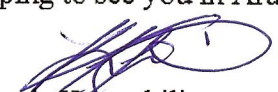

**BUT WHY ARE WE BIDDING**

You will agree with us that Africa has a very small number of IP users Tanzania is among of them and this is the reason why we need WIKI'S Community to bring this opportunity to Sub Saharan Africa for making more learn friends with expanding a number of users, people are now hooping to know more about Wikimedia's and it's projects sister

Tanzania now is one of pre partners of the Wiki median community and it's our hope that will be come a member of Wikimedia Foundation soon and we are planning to establish the Wikime- dia organizations in all regional's of the United republic of Tanzania ,within 2013/2014, the budget of this program we'll be discused on the next meeting of WT.

Please Jury, we humbly submit our supporting demand for our engagement on this matter for very low level and to promise you that we'll never ever let you down if chose us to host the Wikimania 2014 Bids/Arusha, Tanzania.

Hoping to see you in Arusha, Tanzania.

  
Francis Kaswahili  
The interim President  
Wikimedia Tanzania
