Integration of Wikipedia Previews into Web Pages

Martin Rotard, Mark Giereth, Thomas Ertl

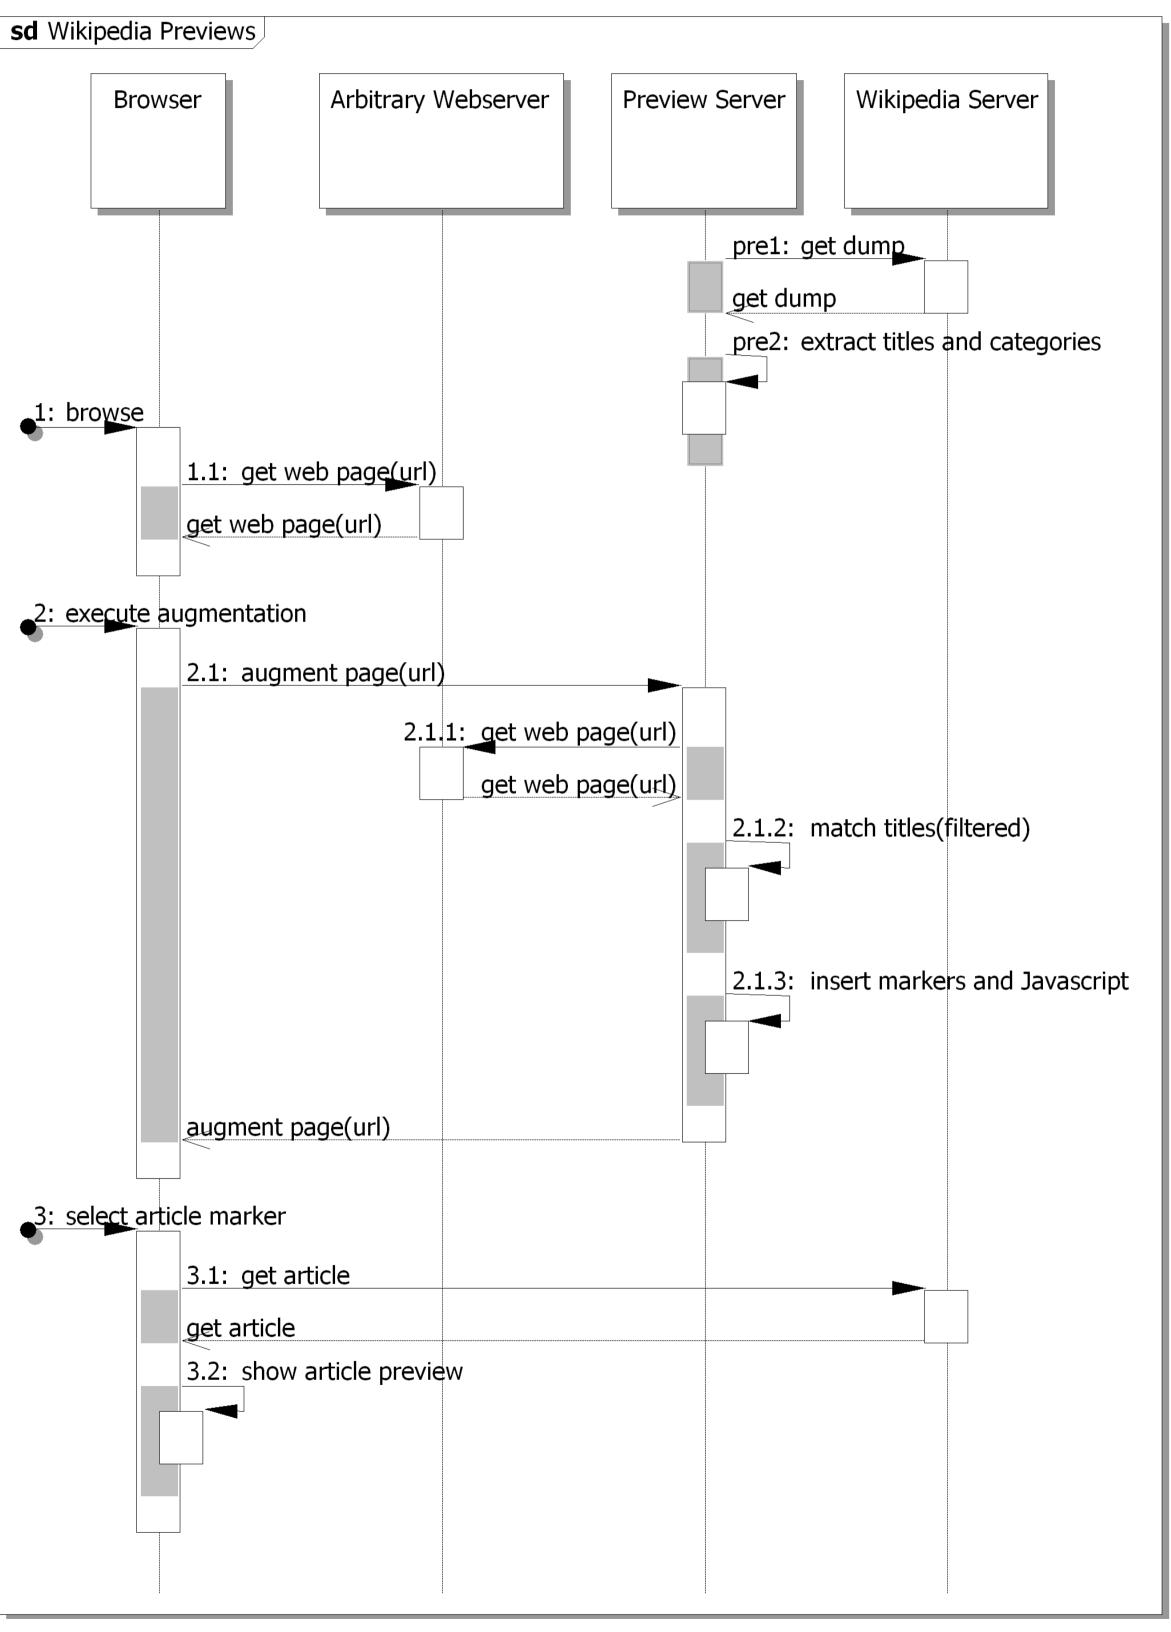

- Integration of Wikipedia into the user's context
- Augmentation of current web page with links to Wikipedia articles
- Terms are automatically highlighted and linked to related Wikipedia articles
- Presentation of linked articles directly within the current web page

- Preprocessing of titles and categories based on dumps
- Preview server for augmentation of web pages (can be run locally)

 Selection of articles based on Wikipedia top level categories
