How to make a multimedia recording and publish it online
(For Motivation & Emotion students)

James Neill
Centre for Applied Psychology
University of Canberra
2019

Here's how ...

You've probably watched 1000s of online multimedia presentations – but have you ever created one?

Step 1. Choose a presentation format

- Screencast (narrated slides)
- Slidecast
- Video
- Animation

The rest of these steps are for Screencasts (simple approach)
Step 2.
Choose a recording and publishing method

- Screencastify
- Prezi
- Powtoon

The rest of these steps use Screencastify (a free Google Chrome extension)

Step 3.
Prepare the material

- Slides
  - Images (with copyright permission)
  - Text
- Script
- Props
- Microphone

Step 4.
Practice

Practice several times – initially without recording and then with recording
Step 5. Record
Plug in a microphone
(A plugged in microphone will record higher quality audio than an on-board microphone)
Click the Screencastify icon to record.
Record a few takes and choose the best one.

Step 6. Publish
Publish the recording (e.g., to youtube) so that it has a publically accessible website address (URL)

Step 7. Add the URL to the Wikiversity Book Chapter
Edit source and use this template:
{{MECR3|1=Video URL}}
e.g.,
{{MECR3|1=https://www.youtube.com/watch?v=Ep2hYsofo6Q}}}
Step 8. Submit Multimedia Recording

Submit the URL of the recording to the Multimedia submission assignment drop-box via UCLearn Canvas.

Recording: Step 1
1. Using Google Chrome, search for the Screencastify browser extension
https://chrome.google.com/webstore/detail/screencastify-screen-video/ingjaaebbcogjlljhdipoopddnmfcdnp

Screencastify - Screen Video Recorder
Offered by: https://www.screencastify.com
🌟 9.893 | Productivity 7,946,932 users
Works with Google Drive  |  Runs offline

Recording: Step 2
2. Click on ADD TO CHROME to install the browser extension

[ADD TO CHROME]
3. Click on the Screencastify icon to launch and select recording options.

4. Click the blue record button.

5. Select Your Entire Screen, Show more options (Countdown 10 seconds), then click Share.
Recording: Step 6
6. Put slides into full screen mode. Hide recording bar. Use custom keyboard shortcuts to pause, unpause, and stop the recording along the way.

Recording: Step 7
7. Preview, then publish or delete. To publish:
   - Rename
   - Share

Recording: Step 8
8. Edit the presentation meta-data (title and description – include link to chapter) and settings (copyright license).
### Recording: Step 9

9. Add this template to the Wikiversity chapter page: `{{MECR3|1=Video URL}}`

    e.g.,
    `{{MECR3|1=https://www.youtube.com/watch?v=OJNEcozkpFM}}`

Exercise motivation in people living with dementia:
How can motivation to exercise be developed in people living with dementia?

---

### Optional:
How to embed a Screencastify recording on Wikiversity

1. Download the video from youtube as an .mp4
2. Convert the video to .ogg format (e.g., [http://video.online-convert.com/convert-to-ogg](http://video.online-convert.com/convert-to-ogg))
3. Upload the .ogg version to Wikimedia Commons
4. Embed the .ogg version on a Wikiversity page – `[File:Filename.ogg]`

---

### Summary

1. Choose format
2. Choose recording method
3. Prepare materials
4. Practice
5. Record several takes
6. Publish
7. Add URL to book chapter
8. Submit URL to drop-box
