

Last Meeting report

Attendance

Name	Function
Regis H.	
Varsha M.	
Remmy N.	Meeting Director
Nele R.	

Not Present
Praveen S.

Agenda

- Improvements on our design
- Go over the task assigned for SSV part II
- Come up with solutions for the wheels

Agenda discussion

This meeting took place right after we have tested our SSV and we had practical results. From our test it was obvious that we needed to make a change to our design. We talked about possible substitution for the front bumper, ideas were passed around. Finally we agreed to replace the trapezoidal bumper with a wheel fitted bumper.

The next topic we had was to change the wheel. We also had to make some change here. We discussed on making them shorter or replacing them in total. Finally we arrived at the decision we will change the front wheel.

The last topic was to review what we have to do for the last report (SSV II). Each member of team was assigned a specific task and we had to go through it making things clear to each other. We took it point by point to discuss what we had to do for our final paper.
