Difficulty, Criticality, Frequency (DCF) Model for Training Content Selection

**First Level = Difficulty Level**

- LOW
- HIGH
- AVERAGE

**Second Level = Criticality Level**

- NO
- YES

**Third Level = Frequency of Performance**

- Low
- Ave
- High

- Low
- Ave
- High

- Low
- Ave
- High

**T = Train**

**NT = No Train**

**OT = Over Train**

*The need to Over Train may also be a good indication that supplemental training aids, jobs aids, electronic performance support systems (EPSS), etc. may also be warranted.*
